STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BURNS:

S. 2027. A bill to authorize the Secretary of the Army to design and construct a warm water fish hatchery at Fort Peck Lake, Montana; to the Committee on Environment and Public Works.

THE FORT PECK FISH HATCHERY AUTHORIZATION ACT OF 2000

● Mr. BURNS. Mr. President, I rise today to introduce the Fort Peck Fish Hatchery Authorization Act of 2000. As you may know, the Fort Peck project was built in the 1930s to dam the Upper Missouri River. The original authorization legislation for the Fort Peck project, and subsequent revisions and additions, left a great many promises unmet. A valley was flooded, but originally Montana was promised increased irrigation, low-cost power, and economic development. Since the original legislation, numerous laws have been enacted promising increased recreational activities on the lake, and also that the federal government would do more to support the fish and wildlife resources in the area.

In this day and age, economic development in rural areas is becoming more and more dependent upon recreation and strong fish and wildlife numbers. The Fort Peck area is faced with a number of realities. First, the area is in dire need of a fish hatchery. The only hatchery in the region to support warm water species is found in Miles City, Montana. It is struggling to meet the needs of the fisheries in the area, yet it continues to fall short. Additionally, an outbreak of disease or failure in the infrastructure at the Miles City hatchery would leave the entire region reeling with no secondary source to support the area's fisheries.
