

(7) the percentage of freshmen attending public and private 4-year institutions from families whose income is below the national median has fallen since 1981.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that within the discretionary allocation provided to the Committee on Appropriations, the funding for the maximum Pell Grant award should be at or above the level requested by the President.

**SEC. 326. SENSE OF THE SENATE REGARDING COMPREHENSIVE PUBLIC EDUCATION REFORM.**

(a) FINDINGS.—The Senate finds the following:

(1) Recent scientific evidence demonstrates that enhancing children's physical, social, emotional, and intellectual development before the age of 6 results in tremendous benefits throughout life.

(2) Successful schools are led by well-trained, highly qualified principals, but many principals do not get the training in management skills that the principals need to ensure their school provides an excellent education for every child.

(3) Good teachers are a crucial catalyst to quality education, but 1 in 4 new teachers do not meet State certification requirements; each year more than 50,000 underprepared teachers enter the classroom; and 12 percent of new teachers have had no teacher training at all.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that the Federal Government should support State and local educational agencies engaged in comprehensive reform of their public education system and that any public education reform should include at least the following principles:

(1) Every child should begin school ready to learn.

(2) Training and development for principals and teachers should be a priority.

**SEC. 327. SENSE OF THE SENATE ON PROVIDING ADEQUATE FUNDING FOR UNITED STATES INTERNATIONAL LEADERSHIP.**

(a) FINDINGS.—The Senate finds that—

(1) United States international leadership is essential to maintaining security and peace for all Americans;

(2) such leadership depends on effective diplomacy as well as a strong military;

(3) effective diplomacy requires adequate resources both for operations and security of United States embassies and for international programs;

(4) in addition to building peace, prosperity, and democracy around the world, programs in the International Affairs (150) budget serve United States interests by ensuring better jobs and a higher standard of living, promoting the health of our citizens and preserving our natural environment, and protecting the rights and safety of those who travel or do business overseas;

(5) real spending for International Affairs has declined more than 40 percent since the mid-1980's, at the same time that major new challenges and opportunities have arisen from the disintegration of the Soviet Union and the worldwide trends toward democracy and free markets;

(6) current ceilings on discretionary spending will impose severe additional cuts in funding for International Affairs;

(7) improved security for United States diplomatic missions and personnel will place further strain on the International Affairs budget absent significant additional resources;

(8) the United States cannot reduce efforts to safeguard nuclear materials in the former Soviet States or shortchange initiatives aimed at maintaining stability on the Ko-

rean peninsula, where 37,000 United States forces are deployed. We cannot reduce support for peace in the Middle East or in Northern Ireland or in the Balkans. We cannot stop fighting terror or simply surrender to the spread of HIV/AIDS. We must continue to support all of these things, which are difficult to achieve without adequate and realistic funding levels; and

(9) the President's request for funds for fiscal year 2001 would adequately finance our International Affairs programs without detracting from our defense and domestic needs. It would help keep America prosperous and secure. It would enable us to leverage the contributions of allies and friends on behalf of democracy and peace. It would allow us to protect the interests of Americans who travel, study, or do business overseas. It would do all these things and more for about 1 penny of every dollar the Federal Government spends.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that additional budgetary resources should be identified for function 150 to enable successful United States international leadership.

**SEC. 328. SENSE OF THE SENATE CONCERNING THE HIV/AIDS CRISIS.**

(a) FINDINGS.—The Senate finds the following:

(1) More than 16,000,000 people have been killed by Acquired Immune Deficiency Syndrome (AIDS) since the epidemic began.

(2) 14,000,000 Africans have died as a result of the AIDS epidemic. Eighty-four percent of the worldwide deaths from AIDS have occurred in sub-Saharan Africa.

(3) Each day, AIDS kills 5,500 Africans, and infects 11,000 more.

(4) By the end of 2000, 10,400,000 children in sub-Saharan Africa will have lost one or both parents, to AIDS.

(5) Over 85 percent of the world's HIV-positive children live in Africa.

(6) Fewer than 5 percent of those living with AIDS in Africa have access to even the most basic care.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the functional totals underlying this resolution on the budget assume that Congress has recognized the catastrophic effects of the HIV/AIDS epidemic, particularly in Sub-Saharan Africa, and seeks to maximize the effectiveness of the United States' efforts to combat the disease through any necessary authorization or appropriations;

(2) Congress should strengthen ongoing programs which address education and prevention, testing, the care of AIDS orphans, and improving home and community-based care options for those living with AIDS; and

(3) Congress should seek additional or new tools to combat the epidemic, including initiatives to encourage vaccine development and programs aimed at preventing mother-to-child transmission of the disease.

**SEC. 329. SENSE OF THE SENATE REGARDING TRIBAL COLLEGES.**

(a) FINDINGS.—The Senate finds the following:

(1) More than 26,500 students from 250 tribes nationwide attend tribal colleges. The colleges serve students of all ages, many of whom are moving from welfare to work. The vast majority of tribal college students are first-generation college students.

(2) While annual appropriations for tribal colleges have increased modestly in recent years, core operation funding levels are still about half of the \$6,000 per Indian student level authorized by the Tribally Controlled College or University Act.

(3) Although tribal colleges received a \$3,000,000 increase in funding in fiscal year

2000, because of rising student populations and other factors, these institutions may face an actual per-student decrease in funding over fiscal year 1999.

(4) Per-student funding for tribal colleges is roughly half the amount given to mainstream community colleges.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that—

(1) the Senate recognizes the funding difficulties faced by tribal colleges and assumes that priority consideration will be provided to them through funding for the Tribally Controlled College and University Act, the 1994 Land Grant Institutions, and title III of the Higher Education Act; and

(2) such priority consideration reflects Congress' intent to continue work toward current statutory Federal funding goals for the tribal colleges.
