PERSONAL EXPLANATION

HON. HERBERT H. BATEMAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 8, 2000

Mr. BATEMAN. Mr. Speaker, I was regrettably absent for two recorded votes on May 3, 2000. Both were conducted under suspension of the rules. Had I been present, I would have voted as follows:

H.R. 4055, Vote No. 140, "yea"; H.R. 1901, Vote No. 141, "yea".

RECOGNIZING THE LIFETIME ACHIEVEMENTS OF DR. ROBERT C. CORLEY

HON. WILLIAM M. THOMAS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, May 8, 2000

Mr. THOMAS. Mr. Speaker, I hope the House will join me in recognizing and applauding the achievements of Dr. Robert C. Corley of the Air Force Research Laboratory as he prepares to retire June 2nd as Senior Scientist for rocket propulsion in the Propulsion Directorate, Air Force Research Laboratory at Edwards Air Force Base. As we assess the role the Air Force has played in this nation's security during the last 40 years, it is clear that

Bob Corley's contributions to defense technologies have been significant.

Dr. Corley is recognized as one of the world's foremost experts on missile propulsion technologies. His research skills helped produce the extremely dependable solid fuel propellants that are used in almost all American tactical and ballistic weapons systems. His work also promoted our space program through booster systems development. The dependability of those systems is in large measure the result of his efforts.

In addition to research, Bob Corley has managed propulsion research projects. He coordinated international research projects involving university and government researchers across the globe. More recently, he has been the founder of the current Integrated High Payoff Rocket Propulsion Technology (IHRPT) program. The latter program is a joint project coordinating efforts by the Department of Defense, NASA and private industry to develop new, dependable propulsion technologies for the 21st Century. They have already begun producing better launch systems for military and civilian programs, and the coordination of government and private efforts under the structure Dr. Corley established will continue to be of benefit well into this century.

From the time he arrived at Edwards Air Force Base in 1958 as a Second Lieutenant in the Air Force right through his retirement as one of the most senior research managers in federal service, Bob Corley has worked on tough projects vital to this nation's security and scientific advancement. The executive branch recognizes his contribution. He has been named as a recipient of the Outstanding Civilian Career Service Award. I join his colleagues in recognizing the value of his work and wish him a well deserved retirement.

IN RECOGNITION OF CHESTER A. SADOWSKI: SBA'S 2000 FINANCIAL ADVOCATE

HON. NYDIA M. VELAZQUEZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, May 8, 2000

Ms. VELAZQUEZ. Mr. Speaker, I rise today to recognize Chet Sadowski for his appointment as the Small Business Administration's 2000 Financial Advocate.

President John F. Kennedy once said "Leadership and learning are indispensable to each other." Mr. Sadowski has exemplified great leadership and has had a life-long career assisting the small business community and aiding in its growth of 7A and 504 loans.

Mr. Sadowski's distinguished career began in 1972 as an SBA Loan Officer. By the time he left in early 1980, he held the position of Chief of Finance and was responsible for the overall processing and approval of all SBA lending for the New York District Office. In March of 1980, Mr. Sadowski joined Citibank, NA as Manager where he developed an SBA lending program based in Queens County. Within several years, he became Vice President and Team Leader.

In 1987, Mr. Sadowski joined the New York Business Development Corporation to establish and manage a New York City regional office. This office was part of NYBDC's program to increase lending activity throughout the

State of New York. Within a few years, the New York regional office and the company grew dramatically.

This past fiscal year, the New York office was ranked high among lenders in both the 7A and 504 SBA lending programs.

Mr. Sadowski and I worked together traveling throughout the 12th Congressional District discussing economic development. His commitment to small businesses has provided financing for hundreds of jobs in our community.

I would like to honor Chet Sadowski today, congratulate him on his appointment as SBA's Financial Advocate and personally thank him for his hard work and dedication to the small business community.

THE ADLER PLANETARIUM CELEBRATES ITS 70TH BIRTHDAY

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Monday, May 8, 2000

Mr. PORTER. Mr. Speaker, I am very pleased to recognize one of Chicago's premier cultural institutions, the Adler Planetarium and Astronomy Museum, as it celebrates its 70th birthday on May 12, 2000. I would also like to take this opportunity to recognize the outstanding contributions of J. Douglas Donenfeld, a member of the Adler Board of Trustees for nearly 21 years and Chairman of the Board for nine years, as he steps down as Chairman.

Located on Chicago's stunning lakefront, the Adler was founded in 1930 by Sears executive Max Adler to showcase leading planetarium technology and to serve as a center for the study of the evolving human conception of the Universe.

When the Adler opened its doors to the public on May 12, 1930, it was the first planetarium in the Western Hemisphere. Seventy years later, more than 20 million people have visited the Adler to see sky shows, enjoy exhibits, find answers and craft new questions. The Adler has fulfilled Max Adler's mission by becoming one of the world's premier planetaria and astronomy museums.

Today, the Adler continues to grow and remain on the cutting edge of technology. Last year, the Adler celebrated the completion of its new Sky Pavilion and the complete renovation of the original building, a project which doubled the Adler's exhibit space. The architecturally striking Sky Pavilion is a two-story, 60,000-square-foot addition on the east side of the Adler's existing 1930 landmark structure. This facility comprises four major exhibition galleries, including the world's first StarRider Theater, a 3-D interactive virtual reality experience that transports audiences to other planets, stars and distant galaxies.

Doug Donenfeld has been a leading force in the growth of numerous Chicago-area charitable, cultural and other not-for-profit organizations for more than 20 years. The Adler has been extremely fortunate to have him on their board. His contributions to the success of the Adler and its recent rejuvenation has been unparalleled. Mr. Donenfeld's dedication and efforts on behalf of the Adler have enhanced Max Adler's original vision of the Adler Planetarium & Astronomy Museum.
