No funds appropriated by this Act may be used by the Department of Transportation to cover the administrative costs (including salaries and expenses of officers and employees of the Department) to authorize project approvals or advance construction authority for the Central Artery/Third Harbor Tunnel project in Boston, Massachusetts, until the Secretary of Transportation and the State of Massachusetts have entered into a written agreement that limits the total Federal contribution to the project to not more than \$8,549,000,000.

SEC. 347. PARKING SPACE FOR TRUCKS. (a) FINDINGS.—Congress finds that—

(1) in 1998, there were 5,374 truck-related highway fatalities and 4,935 trucks involved in fatal crashes;

(2) a Special Investigation Report published by the National Transportation Safety Board in May 2000 found that research conducted by the National Highway Traffic Safety Administration suggests that truck driver fatigue is a contributing factor in as many as 30 to 40 percent of all heavy truck accidents;

(3) a 1995 Transportation Safety Board Study found that the availability of parking for truck drivers can have a direct impact on the incidence of fatigue-related accidents;

(4) a 1996 study by the Federal Highway Administration found that there is a nationwide shortfall of 28,400 truck parking spaces in public rest areas, a number expected to reach 39,000 by 2005;

(5) a 1999 survey conducted by the Owner-Operator Independent Drivers Association found that over 90 percent of its members have difficulty finding parking spaces in rest areas at least once a week; and

(6) because of overcrowding at rest areas, truckers are increasingly forced to park on the entrance and exit ramps of highways, in shopping center parking lots, at shipper locations, and on the shoulders of roadways, thereby increasing the risk of serious accidents.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that Congress and the President should take immediate steps to address the lack of safe available commercial vehicle parking along Interstate highways for truck drivers.

SEC. 348. STUDY OF ADVERSE EFFECTS OF IDLING TRAIN ENGINES. (a) STUDY REQUIRED.—The Secretary of Transportation shall provide under section 150303 of title 36, United States Code, for the National Academy of Sciences to conduct a study on noise impacts of railroad operations, including idling train engines on the quality of life of nearby communities, the quality of the environment (including consideration of air pollution), and safety, and to submit a report on the study to the Secretary. The report shall include recommendations for mitigation to combat rail noise, standards for determining when noise mitigation is required, needed changes in Federal law to give Federal, State, and local governments flexibility in combating railroad noise, and possible funding mechanisms for financing mitigation projects.

(b) REPORT.—Not later than one year after the date of the enactment of this Act, the Sec-

retary of Transportation shall transmit to Congress the report of the National Academy of Sciences on the results of the study under subsection (a).

SEC. 349. Within the funds made available in this Act, \$10,000,000 shall be for the costs associated with construction of a third track on the Northeast Corridor between Davisville and Central Falls, Rhode Island, with sufficient clearance to accommodate double stack freight cars, to be matched by the State of Rhode Island or its designee on a dollar-for-dollar basis and to remain available until expended; \$2,000,000 shall be for a joint United States-Canada commission to study the feasibility of connecting the rail system in Alaska to the North American continental rail system; \$400,000 shall be allocated for passenger rail corridor planning activities to fund the preparation of a strategic plan for development of the Gulf Coast High Speed Rail Corridor; and \$250,000 shall be available to the city of Traverse City, Michigan comprehensive transportation plan.

SEC. 350. (a) FINDINGS.—The Senate makes the following findings:

(1) The United States Coast Guard in 1999 saved approximately 3,800 lives in providing the essential service of maritime safety.

(2) The United States Coast Guard in 1999 prevented 111,689 pounds of cocaine and 28,872 pounds of marijuana from entering the United States in providing the essential service of maritime security.

(3) The United States Coast Guard in 1999 boarded more than 14,000 fishing vessels to check for compliance with safety and environmental laws in providing the essential service of the protection of natural resources.

(4) The United States Coast Guard in 1999 ensured the safe passage of nearly 1,000,000 commercial vessel transits through congested harbors with vessel traffic services in providing the essential service of maritime mobility.

(5) The United States Coast Guard in 1999 sent international training teams to help more than 50 countries develop their maritime services in providing the essential service national defense.

(6) Each year, the United States Coast Guard ensures the safe passage of more than 200,000,000 tons of cargo cross the Great Lakes including iron ore, coal, and limestone. Shipping on the Great Lakes faces a unique challenge because the shipping season begins and ends in ice anywhere from 3 to 15 feet thick. The ice-breaking vessel MACKINAW has allowed commerce to continue under these conditions. However, the productive life of the MACKINAW will end in 2006.

(7) Without adequate funding, the United States Coast Guard would have to radically reduce the level of service it provides to the American public.

(8) The allocation to the Committee on Appropriations of the Senate of funds available for the Department of Transportation and related agencies for fiscal year 2001 was \$1,600,000,000 less than the allocation to the Committee on Appropriations of the House of Representatives of funds available for that purpose for that fiscal year. The lower allocation compelled the Subcommittee on Transportation of the Committee on Appropriations of the Senate to recommend reductions from the funding requested in the President's budget on funds available for the Coast Guard, particularly amounts available for acquisitions, that may not have been imposed had a larger allocation been made, or had the President's budget not included \$212,000,000 in new user fees on the maritime community. The difference between the amount of funds requested by the Coast Guard for the Acquisition, Construction, and Improvements account and the amount made available by the Committee on Appropriations of the Senate for those acquisitions conflicts with the high priority afforded by the Senate to Acquisition, Construction, and Improvements procurements, which are of critical

national importance to commerce, navigation, and safety.

(9) Due to shortfalls in funds available for fiscal year 2000 and unexpected increases in personnel benefits and fuel costs on the 2000 operating expenses account, the Commandant of the Coast Guard has announced reductions in critical operations of the Coast Guard by as much as 30 percent in some areas of the United States. If left unaddressed, these shortfalls may compromise the service provided by the Coast Guard to the public in all areas, including drug interdiction and migrant interdiction, aid to navigation, and fisheries management.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the committee of conference on the bill H.R. 4425 of the 106th Congress, making appropriations for military construction, family housing, and base realignment and closure for the Department of Defense for the fiscal year ending September 30, 2001, or any other appropriate committee of conference of the second session of the 106th Congress, should approve supplemental funding for the Coast Guard for fiscal year 2000 as soon as is practicable; and

(2) upon adoption of this bill by the Senate, the conferees of the Senate to the committee of conference on the bill H.R. 4475 of the 106th Congress, making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 2001, provided there is sufficient budget authority, should—

(A) recede from their disagreement to the proposal of the conferees of the House of Representatives to the committee of conference on the bill H.R. 4475 with respect to funding for Acquisition, Construction, and Improvements;

(B) provide adequate funds for operations of the Coast Guard in fiscal year 2001, including activities relating to drug and migrant interdiction and fisheries enforcement; and

(C) provide sufficient funds for the Coast Guard in fiscal year 2001 to correct the 30 percent reduction in funds for operations of the Coast Guard in fiscal year 2000.

SEC. 351. For the purpose of constructing an underpass to improve access and enhance highway/rail safety and economic development along Star Landing Road in DeSoto County, Mississippi, the State of Mississippi may use funds previously allocated to it under the transportation enhancements program, if available.

SEC. 352. Section 1214 of Public Law 105-178, as amended, is further amended by adding a new subsection to read as follows:

“(s) Notwithstanding sections 117 (c) and (d) of title 23, United States Code, for project number 1646 in section 1602 of Public Law 105-178—

“(1) the non-Federal share of the project may be funded by Federal funds from an agency or agencies not part of the United States Department of Transportation; and

“(2) the Secretary shall not delegate responsibility for carrying out the project to a State.”.

SEC. 353. ADDITIONAL SANCTION FOR REVENUE DIVERSION. Except as necessary to ensure public safety, no amount appropriated under this or any other Act may be used to fund any airport-related grant for the Los Angeles International Airport made to the City of Los Angeles, or any inter-governmental body of which it is a member, by the Department of Transportation or the

Federal Aviation Administration, until the Administration—

(1) concludes the investigation initiated in Docket 13-95-05; and

(2) either—

(A) takes action, if necessary and appropriate, on the basis of the investigation to ensure compliance with applicable laws, policies, and grant assurances regarding revenue use and retention by an airport; or

(B) determines that no action is warranted.

SEC. 354. Hereafter, the New Jersey Transit commuter rail station to be located at the intersection of the Main/Bergen line and the Northeast Corridor line in the State of New Jersey shall be known and designated as the “Frank R. Lautenberg Transfer Station”: Provided, That the Secretary of Transportation shall ensure that any and all applicable reference in law, map, regulation, documentation, and all appropriate signage shall make reference to the “Frank R. Lautenberg Transfer Station”.
