SCOUTING FOR ALL ACT

HON. GREG WALDEN

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 19, 2000

Mr. WALDEN of Oregon. Mr. Speaker, I rise to express my most profound opposition to H.R. 4892, the so-called Scouting for All Act, which would repeal the federal charter of the Boy Scouts of America. As an Eagle Scout, a member of the Scout Council, and a lifelong advocate of Scouting, I am both saddened and dismayed by this misguided attempt to bully one of the finest youth organizations in America. Since its inception in 1910, the Boy Scouts have instilled in tens of millions of young men the ideals of good citizenship, patriotism, and service to others. Perhaps no organization in our nation's history has done more to prepare America's youth for the challenges and responsibilities they will face as adults.

I hope the irony of this legislation is not lost on my colleagues. In the name of tolerance, the author of this bill is attempting to harness the power of the federal government to change an organization simply because it does not share her views. This bill represents an incredibly arrogant attempt to impose the beliefs of a small minority on a private institution. And it seeks to demonize one of the most fundamentally decent groups in America.

Mr. Speaker, the Scout Oath includes the pledge that a Scout will keep himself "morally straight." Whether one believes homosexuality is inconsistent with that oath or not, the Boy Scouts of America are entitled to interpret their oath, as well as set their own criteria for membership, as they see fit. I would submit to my colleagues that denying them that right would demonstrate a supreme disrespect for the right of people to associate freely, which the Constitution guarantees.

The problem with this legislation should be obvious to anyone who respects the right of Americans to organize themselves as they choose. The legislative power of this Congress should not be used as a tool to shape the policies of private organizations in ways that are pleasing to the political class.

In an age when America's young people are fed a steady diet of violence and obscenity, it is absurd that Congress is targeting an institution as wholesome as the Boy Scouts. In an age when school shootings capture headlines and we busy ourselves combating teen drug use, it is shameful that some of my colleagues would assail an organization dedicated to such principled goals as the Boy Scouts. I urge my colleagues to reject this offensive legislation and send a clear message to the nation's Scouts that they have both the support and admiration of the United States Congress.

TRIBUTE TO PERRY HALL ON ITS 225TH ANNIVERSARY

HON. BENJAMIN L. CARDIN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 19, 2000

Mr. CARDIN. Mr. Speaker, today I pay tribute to a very special community located in Maryland's 3rd Congressional District. The Perry Hall community is celebrating its 225th anniversary this year.

Perry Hall is a thriving, suburban community of 40,000 residents located 10 miles northeast of Baltimore City. It was founded in 1775 by Harry Dorsey Gough, who purchased a 1,000-acre estate called The Adventure. He renamed it Perry Hall after his family's home near Birmingham, England. On that site he built a mansion that became known for magnificent gardens and distinctive architecture.

In the years during and after the Civil War, German and Irish families began to settle in the community surrounding the mansion. These families worked hard and developed a thriving dairy and nursery industry. In 1875, Eli Slifer and William Meredith bought the "Perry Hall" property, divided it and sold lots to immigrant families, who then began raising "stoop crops" such as celery and carrots.

Perry Hall began its transformation from rural hamlet to suburban community in the years following World War II. Brick bungalows were built for returning GI's and their brides. New schools were built to serve their growing families and the first shopping center arrived in 1961.

In 1981, the transformation was completed with construction of White Marsh Mall. While the farms and forests of Perry Hall have been replaced by housing developments, shopping centers and new businesses, the most important part of Perry Hall still remains: its friendliness and warmth.

This year, Perry Hall has celebrated its 225th year with a series of events, picnics and concerts. The Perry Hall Improvement Association will cap off this anniversary year with the Millennium Ball on Nov. 3, 2000.

I ask my colleagues to join me in expressing congratulations to all who live in Perry Hall, Maryland, and in wishing them the best on this historic anniversary.

INTRODUCTION OF THE BENIGN
BRAIN TUMOR CANCER REG-
ISTRIES AMENDMENT ACT

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 19, 2000

Ms. LEE. Mr. Speaker, since 1973, there has been a federal cancer data collection process in existence. Unfortunately this process failed to include "benign" brain tumors. I have introduced legislation to include benign brain tumors in the data collection of cancer registries.

This data will directly help the entire medical system including public health agencies, scientific research labs, health system public policy groups and of course the brain tumor groups. The medical system organizations use cancer data in funding decisions, investigations, research, and care facilities.

I am pleased to announce the introduction of the Benign Brain Tumor Cancer Registries Amendment Act.

Brain tumors are the second leading cause of cancer death for children and the third leading cause of cancer death in young adults ages 15–34.

The greatest increase in brain tumors has been among people 75 years of age or older.

Only 37 percent of males and 52 percent of females survive five years following the diagnosis of a primary benign or malignant brain tumor.

Each year, approximately 100,000 people in the United States are diagnosed with a primary or metastatic brain tumor. Nationwide, the incidence of brain tumors has increased by 25 percent since 1975 and the reasons for this increase are unknown.

For many types of tumors, the distinction between benign and malignant is significant. For tumors of the brain, this distinction is not as clear.

A tumor, whether malignant or benign, is a collection of cells that grow as rapidly as malignant tumors, however based on location and size, even benign brain tumors can be life threatening.

Benign brain tumors account for almost 40 percent of all brain tumors. Not including these tumors in the cancer registry, underestimates the incidence of brain tumors in the general population.

Roughly half of all brain tumors are benign. All brain tumors, both cancerous and benign, are potentially life-threatening.

I urge my colleagues to cosponsor this bill and support the thousands of Americans plagued with this disease.

TRIBUTE TO DR. GEORGE W.
TEUSCHER

HON. JAMES C. GREENWOOD

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 19, 2000

Mr. GREENWOOD. Mr. Speaker, in its annual meeting in San Antonio, on October 28, 2000, the American Society of Dentistry for Children will honor the life's work of George W. Teuscher. Born in 1908, Dr. Teuscher received his dental degree from Northwestern University in 1929. Subsequently, he received an MSD degree in pediatric dentistry, an MA in educational psychology and a PhD in education, with major areas of study in administration, and English and American Literature. Since the 1930s, Dr. Teuscher has been a dental clinician, researcher, educator, dental school dean, writer, editor, and lecturer to dentists all over the world. In 1968 he became Editor-in-Chief of the Journal of Dentistry for Children. In the thirty two years since, Dr. Teuscher's editorials regarding child advocacy have expounded on preventive dentistry and medicine, child behavior, parental concerns, the importance of education, special needs patients, ethics, social responsibility, and other topics—all relating to children and their well being. His writings in the Journal have served as a veritable archival conscience for the dentist: a thought provoking stream of awareness regarding children in modern societies. Dr. Teuscher's writings, along with articles he has selected for publication, have made the Journal of Dentistry for Children the most widely read and important international publication in the field. Likewise, his leadership in the American Society of Dentistry for Children has made it a renowned and respected child advocacy health organization. To this day, with undiminished vigor and enthusiasm, 92-year-old Dr. Teuscher reviews and edits scholarly submissions to the Journal, from dozens of countries. His skills and talent for this endeavor seem to increase with each published issue of the Journal, as the years have gone by. As one of dentistry's great leaders of the 20th

century contemplates retiring from his work with the American Society of Dentistry for Children, it is with great respect, gratitude, admiration and affection that the people of the United States and members of the United States Congress pay tribute to Dr. George W. Teuscher.
