

IN HONOR OF KENNETH DEACON  
JONES

**HON. BOB ETHERIDGE**

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Mr. ETHERIDGE. Mr. Speaker, today I celebrate and honor the life of Mr. Kenneth "Deacon" Jones of Smithfield, NC. Mr. Jones is a talented business leader, a respected community figure, and a dedicated family man. As a member of the Johnston County Board of Education, Mr. Jones is known for placing a strong emphasis on the value of education and for his extensive service and leadership in the community. Through his commitment to goodness and generosity, Mr. Jones is truly a driving force for excellence in education in the Johnston County School System.

Bobby Kenneth Jones was born to the late Reverend Clyde W. Jones and Mrs. Mary Brooks Jones. He graduated from Princeton High School in 1958, after having played on the baseball and basketball teams, including the basketball team that achieved a 32-1 record and was runner up in the Eastern North Carolina Championship in 1958. It was during his high school years that "Deacon" became his nickname. The other kids, in fun, called him "Deacon" because his father was a minister. The name has remained with him to this day.

Mr. Jones married Faye Woodall in 1961, and today they are the proud parents of three children and three grandchildren. In 1970, Mr. Jones ventured out into the business world and became co-owner of D&D Motor Company, selling used cars. Only 3 years later, he established Princeton Auto Sales, and today he owns several dealerships, employing more than 150 people. A fair and compassionate employer, his favorite slogan for business, as well as for life is, "Treat people the way you want to be treated."

Mr. Jones' generosity and fairness may also be seen through his unfaltering dedication to service and leadership throughout the community. He has served as a member on countless boards, including the Board of Directors at Lee and Mount Olive Colleges, the North Carolina Economic Development Board, and the Johnston County Board of Education. He is a member and past president of the Princeton Lions Club, the Princeton PTO, and the Princeton Boosters Club. He has financially sponsored many school projects, including the Academic Super Bowl, the Battle of the Books, the Special Olympics, and more. His Alma Mater, Princeton High, has greatly benefited from his support of the Future Farmers of America, the Band and Chorus, athletic groups, and other school organizations.

Mr. Kenneth "Deacon" Jones has served as a role model and an inspiration for all those around him. He has exemplified the principles of service and generosity through his numerous contributions and strong commitment to the community. Deacon Jones embodies the North Carolina values my constituents hold dear, and I want to take this opportunity to share with my colleagues in the U.S. House of Representatives the outstanding contributions of this fine American.

DEDICATION OF NEW SANCTUARY  
FOR THE POTTER'S HOUSE

**HON. EDDIE BERNICE JOHNSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise to congratulate Bishop and Mrs. Thomas D. Jakes, Sr., and the 26,000 registered members of the Potter's House in Dallas. Already one of the largest churches in the United States, the parishioners are preparing to officially dedicate their new sanctuary on October 22, 2000. More than 8,000 church leaders and pastors from all over the world are expected to attend this momentous event.

The Potter's House is now officially Texas' largest church and has over 48 separate programs focused on service to the community and the congregation. With outreach efforts all over the globe, the church is an incubator for ideas and activities that have changed countless lives for the better. I am proud of the significant impact the church and its multi-cultural membership continue to make in Dallas-Fort Worth and around the world.

Bishop T.D. Jakes and his wife Serita Ann lead the Potter's House. Bishop Jakes was named as "one of the five most often mentioned successors to Rev. Billy Graham's position as national evangelist" by The New York Times and was declared by The Economist to have the "potential impact of a Martin Luther King." With a studied message, an acute business acumen, and tireless devotion, he has helped focus his followers on personal responsibility and community cooperation.

Mr. Speaker, on the occasion of this milestone for the Potter's House, I am proud to recognize this congregation as a national testament to the power of empowerment.

**TECHNOLOGY TRANSFER  
COMMERCIALIZATION ACT**

SPEECH OF

**HON. MARK UDALL**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, October 17, 2000*

Mr. UDALL of Colorado. Mr. Speaker, I rise in support of H.R. 209, the Technology Transfer Commercialization Act conference report. This report is the product of over 2 years of hard work on the part of the Committee on Science, the Senate Commerce Committee, the Senate Judiciary Committee, and the Administration.

Developing a version of the legislation that is acceptable to all these parties has been no small feat in the realm of patent policy, and I want to thank Chairman SENSENBRENNER, Ranking Democratic Member GEORGE BROWN, Subcommittee Chairwoman MORELLA, and Subcommittee Ranking Democrat BARCIA for their hard work.

H.R. 209 is the result of the first comprehensive review of federal patent policy in 15 years. The 1980 Bayh-Dole Act, which it amends, has made a major difference in the commercialization of federal inventions. Before Bayh-Dole passed, it was relatively rare for inventions resulting from federal research to

reach their market potential. As many as 20,000 federal inventions were patented but not licensed. Only two or three inventions at that point had achieved royalties as high as \$1,000,000, and the total royalty stream for the entire Federal Government at that time was less than the royalties received by a midsized research university today.

Bayh-Dole has opened major opportunities to research universities like the University of Colorado. It has been a major contributor to the outreach activities of contractor-operated laboratories like the National Renewable Energy Laboratory. It has led to benefits for federally employed inventors and their laboratories at the Department of Commerce and throughout the government.

Over the nearly 20 years since enactment of the Bayh-Dole Act, we've learned of the need for some improvements. The bill before us takes advantage of the lessons learned and is intended to make the law more user-friendly. It also updates the act to reflect the new ways that industry now gets and shares information.

I am also pleased that the bill includes an amendment promoted by some of my Democratic colleagues on the Science Committee that requires each DOE laboratory to have an ombudsman and to report quarterly on its operations to DOE. This provision addresses problems that citizens around the country have experienced in getting their issues with DOE weapons laboratories addressed in a timely fashion. Small businesses now will have a place to turn within the laboratories to have their concerns addressed, and there will be quarterly reporting of the progress being made by the ombudsmen to all of the pertinent officials within the Department of Energy.

I urge passage of the bill.

**RANGEMASTER JOSEPH BOYD**

**HON. LORETTA SANCHEZ**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 18, 2000*

Ms. SANCHEZ. Ms. Speaker, today I have the opportunity to remember and pay tribute to a great man from my community. Joseph Samuel Boyd, the Santa Ana Police Department's Rangemaster, played an integral role in helping to make the streets of Santa Ana safer for all its citizens.

Rangemaster Boyd was dedicated to a life of public service. After serving 24 years in the Marine Corps, including time in Vietnam, and rising in rank from boot recruit to the Officer rank of "Major", Rangemaster Boyd entered a life of law enforcement. After his retirement from the Marine Corps, Rangemaster Boyd became the firearms instructor for the Orange County Sheriff's Department until he was hired by the Santa Ana Police Department in 1993.

During his tenure with the Santa Ana Police Department, Rangemaster Boyd developed a comprehensive training curriculum in firearm proficiency and safety for the Department's 400 officers. The system he developed, "Advanced Firearms Simulator Training" is a state-of-the-art system which simulates real life situations police officers encounter daily. It puts them in real-life situations and requires them to rapidly evaluate and assess a "shoot/don't shoot" scenario. This is now a widely-used training method at law enforcement agencies throughout the country.
