

submission to Congress, the President described Project Impact as “ineffective.” I strongly disagree, and there are community leaders around the Nation that would take exemption to this description. For example, one of the first Project Impact communities was Seattle, WA. Experts agree that without the area’s mitigation efforts spurred by Project Impact, the damage from last week’s earthquake could have been much worse.

We cannot stop a hurricane, an earthquake, or a tornado. But we can save precious lives and limited Federal resources by encouraging States and local governments to take preventative measures to mitigate the damage. By discontinuing funding for Project Impact, this administration will severely undercut ongoing mitigation programs in all 50 States. Most importantly, by discontinuing this program rather than working to refine it, the administration sends a dangerous signal to States and local governments that the Federal Government no longer supports their efforts.

I call on President Bush to reassess the benefits of this program and include it in his final budget he sends to Congress. For the nearly 300 Project Impact communities that are working to make their communities safer, fully funding Project Impact is the least we can do.

ADDITIONAL STATEMENTS

ONE OF DELAWARE AND THE NATION’S FINEST

• Mr. BIDEN. Mr. President, Delaware, officially called “the First State” is sometimes called, “the Diamond State” and “the Small Wonder” because of the amazing quality Delawareans bring and have brought to this Nation. One of the gems in the Diamond State is a company hidden near the center in the small town of Frederica, DE. That company is “ILC Dover.” ILC is best known as the sole designer, developer, and manufacturer of the Apollo and Shuttle Space Suits.

The man who has outfitted America’s astronauts for 40 years and helped make manned space flight possible—serving the past 17 years as president and general manager of ILC—is retiring. Homer Reihm, better known to his friends and co-workers as “Sonny,” is a local legend. It was Sonny Reihm who was ILC’s program manager for the Apollo program on July 20, 1969, when Neil Armstrong wore ILC’s space suit on the Moon.

ILC has continued to be true to its space heritage by making the suits worn by astronauts in the Shuttle and Space Station missions. As America has gone further into space, so has ILC, most recently by producing the Pathfinder Airbags that landed on Mars on July 4, 1997. In 1998, in recognition of ILC’s history of excellence in the service of America’s space missions, Sonny

Reihm accepted NASA’s top quality award—known as the George Low award—honoring ILC’s 100 percent mission success in planetary and space environments.

While Mr. Reihm’s career has paralleled the NASA space program, under his leadership ILC has gone much farther to produce important advances for the military including the M-40 series protective masks used by our soldiers since the end of Desert Storm, the Demilitarized Protective Ensemble, Aircrew protective mask systems, collective protection Chem-Bio shelters, and lighter-than-air Aerostats used for monitoring and detection. ILC has leveraged these initiatives into commercial applications of protective suits, flexible containment devices for the Pharmaceutical industry, and advertising airships like the blimps seen so often at ball games.

Sonny Reihm is a Delawarean through and through. He was born and raised on a farm in the Middletown/Odessa/Townsend area of Delaware. He graduated from the University of Delaware in 1960. Upon graduation, he joined ILC as a project engineer when ILC was bidding on the Apollo program. After leading the effort to successfully field the Apollo Space Suit, Mr. Reihm became the general manager of ILC in 1975. His mandate was to diversify the company to survive the post-Apollo mission, while still holding true to ILC’s tradition of serving America with its unique technical knowledge. Almost ten years later, in 1984, after meeting the diversification challenge, Sonny became President and general manager of ILC. From 1975 to today, he helped build ILC from a 25-employee corporation, to a major business player in our State and Nation. With 450 employees today, ILC continues to provide needed innovations for NASA, for the military, and for other American businesses.

As outstanding as it has been, Sonny Reihm’s business success is only one portion of his larger commitment to public service. He has served local and national communities throughout his life through his involvement in the University of Delaware Board of Trustees, the Delaware Manufacturing Association, the National Defense Industrial Association, the Soldier Biological Chemical Command Acquisition Reform Initiatives, the USO in Delaware, and the United Way.

On a more personal note, I am proud to call Sonny and his wife Nancy dear friends. After his long, prodigious—indeed astronomic—career, Sonny has earned many years of enjoyment in his retirement with his wife, two daughters and grandchildren. He exemplifies the commitment to excellence and the national good that make Delaware the Small Wonder and keep this Nation strong. It is my honor today to salute him and his many years of business and community service.●

THE ELEVENTH ANNUAL NATIONAL SPORTSMANSHIP DAY

• Mr. CHAFFEE. Mr. President, today is the 11th annual National Sportsmanship Day, a day designated to promote ethics, integrity, and character in athletics. I am pleased to say that National Sportsmanship Day was a creation of Mr. Daniel E. Doyle, Jr., Executive Director of the Institute for International Sport at the University of Rhode Island. Participation this year will include more than 12,000 schools in all 50 States and more than 101 countries.

This year, organizers of the National Sportsmanship Day aim to promote appreciation for the critical role of ethics and fair play in athletics, and indeed, in society in general, through student-athlete outreach programs. I believe this mission is of critical importance, and I commend the athletes, coaches, journalists, students, and educators who are engaged in today’s activities.

As part of the day’s celebration, the Institute selects Sports Ethics Fellows who have demonstrated “highly ethical behavior in athletics and society.” This year, the Institute will honor such renowned athletes as Mia Hamm, member of the U.S. national soccer team and Washington Freedom of the Women’s United Soccer Association; Sergei Fedorov, three-time All-Star with the Detroit Red Wings; and Lenny Krayzelburg, three-time gold medal U.S. Olympic swimmer. Grant Hill, a past Sports Ethics Fellow and five-time All-Star with the Orlando Magic, will talk about the importance of fair play both on and off the court to approximately 700 students at Rolling Hills elementary School in Orlando, FL.

Another key component of National Sportsmanship Day is the Student-Athlete Outreach Program. This program encourages high schools and colleges to send talented student-athletes to local elementary and middle schools to promote good sportsmanship and serve as positive role models. These students help young people build self-esteem, respect for physical fitness, and an appreciation for the value of teamwork.

If all those activities were not enough, the Institute has begun another avenue to promote understanding and good character for youngsters. A program called “The No Swear Zone” was instituted in 1998 to encourage teams and coaches to sign a pledge to stop the use of profanity in sports and everyday life.

I remain very proud that National Sportsmanship Day was initiated in Rhode Island, and I applaud the students and teachers who are participating in the events of this inspiring day. Likewise, I congratulate all of those at the University of Rhode Island’s Institute for International Sport, whose hard work and dedication over the last eleven years have made this program so successful.●

NATIONAL SPORTSMANSHIP DAY—
MARCH 6, 2001

• Mr. REED. Mr. President, today is the 11th Annual National Sportsmanship Day, which is a unique program that champions sportsmanship and enhances student leadership and academic skills. The object of the 2001 National Sportsmanship Day is to promote appreciation for the critical role of ethics and honesty in athletics and society through student-athlete outreach programs, writing and art contests, coaches' forums and other activities aimed at furthering the principles of sportsmanship.

National Sportsmanship Day was founded at the University of Rhode Island in 1991. Today, more than 12,000 elementary, middle, and high schools, as well as colleges and universities in all 50 States and over 100 countries will participate in the events planned to help instill in young people the importance of playing fair and the value of hard work and discipline. The Institute of Sport is also proud that National Sportsmanship Day will be webcast over the Internet. Through online interaction with featured guests, exclusive interviews, and sportsmanship polls, this event will harness the power and expanse of the World Wide Web to reach students and supporters here and around the world.

The organizers of National Sportsmanship Day have gathered some of the best of our nation's sportsmen and women to serve as 2001 Sports Ethics Fellows. By sharing their remarkable accomplishments athletes Grant Hill of the Orlando Magic, soccer great Mia Hamm, Sergei Fedorov of the Detroit Red Wings, and 2000 Olympic Gold Medalist Lenny Krayzelburg, among others, will help encourage young athletes to strive and succeed by the rules of fair play. And in so doing, these gifted athletic heroes will inspire today's athletes to impart on future athletes the lessons of good sportsmanship.

Also part of this event and in its third year is a program called "The No Swear Zone," which is a pledge that can be signed by athletes and coaches to stop the use of profanity in sports and everyday life. Further, in conjunction with National Sportsmanship Day, the Institute for International Sport will launch the Center for Sports Parenting. This online center will provide an interactive service where parents, coaches, educators, and team officials involved in youth sports can seek guidance on youth sports. Indeed, it is equally important for adults involved in youth athletics to teach and lead in the spirit of sportsmanship.

Sportsmanship needs to be taught to each successive generation, and I commend the Institute of Sport and all this year's participants for making sure that this valuable life lesson continues to lead the way on and off the field. •

IN HONOR OF THE PRUDENTIAL
SPIRIT OF COMMUNITY AWARDS
2001 STATE HONOREES FOR
PENNSYLVANIA

• Mr. SANTORUM. Mr. President, I stand before you today to recognize two outstanding students from the great Commonwealth of Pennsylvania. Ms. Lindsay Stewart of Windber and Mr. Alexander Gates of Palmyra have just been named State Honorees in The 2001 Prudential Spirit of Community Awards program. This program honors one high school student and one middle-level student in each state for outstanding acts of volunteerism. They were selected from nearly 23,000 who were considered for this year's program.

Ms. Stewart was nominated by Forest Hills High School where she is a senior, for her creation of the "Humanitarian Club." This club is dedicated to providing information about chemical brain disorders, and promoting tolerance of understanding of individuals who suffer from them. Inspired by an aunt afflicted with schizophrenia, Lindsay wanted to educate others about mental illnesses. During the past three years of her program, more than 300 people have experienced and learned from Lindsay's Humanitarian Club programs.

Mr. Gates is an eighth grader at Palmyra Area Middle School, where he led an effort to erect a monument commemorating Palmyra-area veterans who were killed in wartime military service. Alexander's design included a six-foot obelisk inspired by his grandfather, who is a World War II veteran. He raised \$3,250 to build the monument by selling granite bricks that would be inscribed with contributors' names and placed around the base of the memorial. Alexander included an inscription on the obelisk that reads, "This monument honors the spirit of self-sacrifice which is necessary for the survival of a community. It honors those members of the community who paid the ultimate price so we can live in a free and just country."

I enthusiastically applaud Ms. Stewart and Mr. Gates for their initiative in seeking to make our communities better places to live, and for the positive impact they have had on the lives of others. It is at times like these, when I am given the opportunity to see the young people of our great nation make such a substantial difference, that I am so proud to be an American. Lindsay and Alexander have displayed great maturity, leadership, and most importantly, patriotism. With young people like them growing as leaders in our communities, we can be assured that the future of the United States is very bright. •

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the Committee on Armed Services.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON TELECOMMUNICATIONS PAYMENTS MADE TO CUBA—MESSAGE FROM THE PRESIDENT—PM 10

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred jointly to the Committees on Appropriations and Foreign Relations.

To the Congress of the United States:

As required by section 1705(e)(6) of the Cuban Democracy Act of 1992, as amended by section 102(g) of the Cuban Liberty and Democratic Solidarity (LIBERTAD) Act of 1996, Public Law 104-114, 110 Stat. 785, 22 U.S.C. 6004(e)(6), I transmit herewith a semi-annual report detailing payments made to Cuba by United States persons as a result of the provision of telecommunications services pursuant to Department of the Treasury specific licenses.

GEORGE W. BUSH.

THE WHITE HOUSE, March 6, 2001.

REPORT ON THE 2001 TRADE POLICY AGENDA AND THE 2000 ANNUAL REPORT ON THE TRADE AGREEMENTS PROGRAM—MESSAGE FROM THE PRESIDENT—PM 11

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with an accompanying report; which was referred jointly to the Committees on Appropriations and Finance.

To the Congress of the United States:

As required by section 163 of the Trade Act of 1974, as amended (19 U.S.C. 2213), I transmit herewith the 2001 Trade Policy Agenda and 2000 Annual Report on the Trade Agreements Program.

GEORGE W. BUSH.

THE WHITE HOUSE, March 6, 2001.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-908. A communication from the Director of the Corporate Policy and Research Department, Pension Benefit Guaranty Corporation, transmitting, pursuant to law, the report of a rule entitled "Benefits Payable in Terminated Single-Employer Plan; Allocation of Assets in Single-Employer Plan; Interest Assumptions for Valuing and Paying
