STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BOND:

S. 678. A bill to amend the Federal Water Pollution Control Act to establish a program for fisheries habitat protection, restoration, and enhancement, and for other purposes; to the Committee on Environment and Public Works.

Mr. BOND. Mr. President, I rise today to introduce the Fishable Waters Act with my colleague from Arkansas, Senator LINCOLN. I ask unanimous consent that Senator LINCOLN be listed as a cosponsor. This is consensus legislation from a uniquely diverse spectrum of interests to establish a comprehensive, voluntary, incentive-based, locally-led program to improve and restore our fisheries.

Put simply, this legislation enables local stakeholders to get together to design water quality projects in their own areas that will be eligible for some \$350 million in federal assistance to implement for the benefit of our fisheries and water quality. It does not change any existing provisions, regulatory or otherwise, of the Clean Water Act.

The Fishable Waters Act complements existing clean water programs that are designed to encourage, rather than coerce the participation of landowners. This legislation will work because it will empower people at the local level who have a stake in its success and who will have hands-on involvement in its implementation.

It is supported by members of the Fishable Waters Coalition which in-

cludes the American Sportfishing Association, Trout Unlimited, the Izaak Walton League of America, the National Corn Growers Association, the National Council of Farmer Cooperatives, the Bass Anglers Sportsman Society, the American Fisheries Society, the International Association of Fish and Wildlife Agencies, and the Pacific Rivers Council. These groups have labored quietly but with great determination for several years to produce this consensus proposal to build on the success of the Clean Water Act.

As my colleagues understand, it is at great peril that anyone in this town undertakes to address clean water-related issues but the need is too great and this approach too practical to not embrace it, introduce it, and work to achieve the wide-spread support it merits.

A companion bill, H.R. 325, has been introduced by Congressman JOHN TANNER in the House. That bipartisan measure is cosponsored by Representatives ABERCROMBIE, BLUNT, BOEHLERT, ALLEN, CLEMENT, NATHAN, DINGELL, ENGLISH, CHRISTOPHER, JOHNSON, LEACH, PALLONE, SAXTON, STENHOLM, and WHITFIELD.

Joining us last year for the kickoff were representatives of the Fishable Waters Coalition and a special guest, a fishing enthusiast who some may know otherwise as a top-ranked U.S. golfer, David Duval. "Why am I here? I like to fish. I've done it as long as I can remember," Duval said. "I want my kids to be able to have healthy habitats for fish. I want my grandkids and my great-grandkids to be able to do what I enjoy so much, and I think this could make a big difference."

This bipartisan and consensus legislation is intended to capture opportunities to build on the success of the Clean Water Act. It enables local stakeholders to get together with farmers who own 70 percent of our nation's land to design local water quality projects that will be eligible for some \$350 million in federal assistance for the benefit of our fisheries and water quality.

Instead of Washington saying, "you do this and you pay for it" and instead of Washington saying, "you do this but we'll help you pay for it", this legislation lets local citizens design projects that can be eligible for federal assistance. For farmers, the idea of protecting land for future generations is not an abstract notion because the farmers in my State know that good stewardship is good for them and their families. Their challenge is that while they feed this nation and provide some \$50 billion in exports, they do not have the ability to pass additional costs onto consumers like corporations do. For the 2 million people who farm to provide environmental benefits for themselves and the rest of the nation's 270 million people, they need partners because they cannot afford to do it by themselves. This legislation recognizes that reality.
