SEC. . SENSE OF CONGRESS ON THE NEED FOR A BUDGET THAT PRESERVES AMERICA'S ECONOMIC STRENGTH.

(a) FINDINGS.—Congress finds that—
 (1) the historic economic growth that the Nation experienced over the past decade has largely been driven by the increased productivity of American workers and by technological advances;
 (2) the Federal budget is an essential tool for responsible economic stewardship, both in providing effective short-term economic stimulus, and in promoting the long-term development of human resources and scientific research that are essential to preserve the Nation's economic health; and
 (3) timely Federal tax and spending decisions have the capacity to produce further

gains in productivity by building a better educated workforce, and to produce further scientific and technological breakthroughs by supporting ongoing research and development.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the levels in this resolution assume that—

(1) calendar year 2001 taxes are reduced by \$70,000,000,000 in a manner that provides every taxpayer with a relatively equal amount of tax savings as expeditiously as practicable to provide the economy with an immediate stimulus;

(2) a plan increasing the level of exemption for property subject to the estate tax to \$2,000,000 immediately and \$4,000,000 over the decade, estimated to cost \$66,000,000,000 between fiscal year 2002 and fiscal year 2011, is substituted for the Administration's proposal to repeal the estate tax at a cost of \$267,000,000,000 over 10 years;

(3) the \$200,000,000,000 that is saved as a result of substituting estate tax reform for repeal is used to strengthen the Nation's economy and keep it strong over the next decade by increasing budget authority by the following amounts over the amounts that were proposed at the outset of the Senate debate on the fiscal year 2002 budget resolution:

(A) Function 250, General Science, Space and Technology, is increased by \$30,000,000,000 over the next 10 years, including \$1,500,000,000 next year, to continue advancing science and technology through civilian research conducted under the auspices of the National Science Foundation, the National Aeronautic and Space Administration, and the Department of Energy;

(B) Function 370, Commerce and Housing Credit, is increased by \$3,000,000,000 over the next 10 years, including \$188,000,000 next year, to continue Department of Commerce initiatives that help small businesses create and use technology, including the Advanced Technology Program and the Manufacturing Extension Partnership;

(C) Function 450, Community and Regional Development, is increased by \$3,000,000,000 over the next 10 years, including \$300,000,000 next year, to clean and develop abandoned industrial sites in communities throughout the Nation under the Brownfields revitalization program administered by the Environmental Protection Agency;

(D) Function 500, Education, Training, Employment, and Social Services, is increased by \$150,000,000,000 over the next 10 years, including \$12,000,000,000 next year, to ensure that the kind of education and training needed to make economic opportunities available to all over the next decade, including—

(i) \$65,000,000,000 for aid to disadvantaged students under title I of the Elementary and Secondary Education Act;

(ii) \$12,000,000,000 to improve teacher quality;

(iii) \$10,000,000,000 to continue reducing class sizes;

(iv) \$7,000,000,000 to ensure access to quality bilingual education;

(v) \$4,000,000,000 to continue repairing and modernizing schools;

(vi) \$2,000,000,000 to improve teacher training under title II of the Higher Education Act;

(vii) \$27,000,000,000 to increase the maximum Pell Grant to at least \$4,700;

(viii) \$2,000,000,000 for mentoring of low-income youth who have worked to prepare themselves for college;

(ix) \$20,000,000,000 to expand employment training opportunities under the Workforce Investment Act and other programs specifically designed to assist workers to develop technology skills; and

(x) \$1,000,000,000 to assist institutions of higher education in conducting business incubator initiatives;

(E) Function 600, Income Security, is increased by \$14,000,000,000 over the next 10 years, including \$2,180,000,000 next year, to ensure that the Nation's Unemployment Insurance System responds to the needs of the modern workforce in times of economic uncertainty;

(4) equally important to the Nation's continued economic health, the tax cuts authorized under this resolution should be structured to include provisions that would—

(A) make the Research and Development Tax Credit permanent;

(B) enable taxpayers to deduct college tuition for income tax purposes;

(C) promote energy conservation and development of renewable and alternative energy sources;

(D) encourage low-income working families to save and build assets, including a first home, small business, and a post-secondary education, through Individual Development Accounts;

(E) bridge the digital divide in small businesses;

(F) encourage employers to make remedial education available to employees; and

(G) adjust tax depreciation periods to accurately reflect the useful life of high-technology capital equipment;

(5) tax cuts provided to individual taxpayers under this resolution should be fairly distributed among all Federal taxpayers, considering the percentage of total Federal taxes paid by individuals, including income, payroll, and excise taxes; and

(6) tax cuts authorized under this resolution should not be backloaded so as to either deprive the economy of the greater short-term stimulus benefits of evenly distributing tax cuts over the decade, or to distort the true size of the tax cuts in later years.

SA 233. Mr. SARBANES (for himself and Mr. DODD) submitted an amendment intended to be proposed to amendment SA 170 proposed by Mr. DOMENICI to the concurrent resolution (H.Con.Res. 83) establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the end of the amendment, add the following:

SEC. . FEDERAL FIRE PREVENTION ASSISTANCE.

(a) FINDINGS.—The Senate finds the following:

(1) Increased demands on firefighting and emergency medical personnel have made it difficult for local governments to fund necessary fire safety precautions adequately.

(2) The Federal Government has an obligation to protect the health and safety of the firefighting and emergency medical personnel of the United States and to ensure that they have the financial resources to protect the public.

(3) The high rates in the United States of death, injury, and property damage caused by fires demonstrates a critical need for Federal investment in support of firefighting and emergency medical personnel.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the Federal Government should support the core operations of the Federal Emergency Management Agency by providing needed grant programs for assisting the Nation's firefighters and rescue and emergency medical personnel to respond to more than 17,000,000 emergency calls annually;

(2) to accomplish that task, the Senate supports full funding for the Firefighter Assistance program of grants and other assistance that is authorized by section 33 of the Federal Fire Prevention and Control Act of 1974; and

(3) funding the Firefighters Assistance program at the level of \$300,000,000 authorized for the program for fiscal year 2002 will significantly assist local firefighters in adequately protecting themselves, as well as the lives and property of countless Americans from the dangers of fire.

SEC. . SENSE OF THE SENATE REGARDING UNITED STATES COAST GUARD FISCAL YEAR 2002 FUNDING.

It is the sense of the Senate that any level of budget authority and outlays in fiscal year 2002 below the level assumed in this resolution for the Coast Guard would require the Coast Guard to—

(1) close numerous units and reduce overall mission capability, including the counter narcotics interdiction mission which was authorized under the Western Hemisphere Drug Elimination Act;

(2) reduce the number of personnel of an already streamlined workforce; and

(3) reduce operations in a manner that would have a detrimental impact on the sustainability of valuable fish stocks in the North Atlantic and Pacific Northwest and its capacity to stem the flow of illicit drugs and illegal immigration into the United States.

SEC. . FUNDING FOR DEPARTMENT OF JUSTICE COMMUNITY ORIENTED POLICING SERVICES PROGRAMS.

(a) FINDINGS.—The Senate finds that—

(1) State and local law enforcement officers provide essential services that preserve and protect our freedom and safety and, with the support of the Community Oriented Policing Services program (referred to in this section as the “COPS program”), State and local law enforcement officers have succeeded in dramatically reducing violent crime.

(2) Due in part to the assistance provided under the COPS program, our Nation’s crime rate has reached its lowest level in more than a generation.

(3) As a result of the COPS program, State and local law enforcement agencies have received funds for more than 110,000 officers and 73,600 of those officers are on the beat, fighting crime, and improving the quality of life in our neighborhoods and schools.

(4) the COPS in Schools Program fosters important relationships between school systems and local police departments. As the recent acts of school violence have shown us, having a police officer in schools saves lives.

(5) The COPS program has assisted in advancing community policing nationwide. Today, 86 percent of the Nation is served by a law enforcement agency that has full-time officers engaged in community policing activities.

(6) Law enforcement organizations such as the International Association of Chiefs of Police, the International Brotherhood of Police Officers, the Fraternal Order of Police, the National Sheriffs’ Association, the National Troopers Coalition, the Federal Law Enforcement Officers Association, the National Association of Police Organizations, the National Organization of Black Law Enforcement Executives, the Police Executive Research Forum, and the Major Cities Chiefs support the continuation and full funding of the COPS program through fiscal year 2007.

(7) The implementation of community policing as a law enforcement strategy is an important factor in the recent reduction of crime in our communities. The national crime rate has fallen for an unprecedented 8½ years. The violent crime rate in 1999 fell to its lowest levels since 1978. The COPS program has demonstrated the Nation’s commitment to help reduce the crime rate to levels unseen for the past 26 years.

(8) Despite recent gains, crime is still too high in the United States. A violent crime is committed every 22 seconds, a woman raped every 6 minutes, and person murdered every 34 minutes in the United States.

(9) On February 28, 2001, President George W. Bush submitted to Congress the Administration’s budget highlights, “A Blueprint for New Beginnings,” which stated, “[t]o a great degree, States and localities have proved themselves able to pursue vigorous law en-

forcement agendas without relying on Federal grant funding.”

(10) “A Blueprint for New Beginnings” makes no mention of the COPS program.

(11) On April 1, 2001, the Washington Post reported that “[t]he Community Policing Services Program (COPS) . . . will be cut by 13 percent, from \$1 billion to about \$850 million.”

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume the commitment of the Federal Government to continue funding the COPS program, and that funding for the COPS program will continue at levels necessary to hire up to 50,000 new officers, hire community prosecutors, and assist local police departments in procuring the latest high-technology crime fighting equipment.

SA 243. Mr. BIDEN submitted an amendment intended to be proposed to amendment SA 170 proposed by Mr. DOMENICI to the concurrent resolution (H. Con. Res. 83) establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the appropriate place, insert:

SEC. . SENSE OF THE SENATE REGARDING SUPPORT FOR FEDERAL, STATE, AND LOCAL LAW ENFORCEMENT AND FOR THE VIOLENT CRIME REDUCTION TRUST FUND.

(a) FINDINGS.—The Senate finds the following:

(1) Our Federal, State, and local law enforcement officers provide essential services that preserve and protect our freedom and safety, and with Federal assistance in the form of the Local Law Enforcement Block Grant program, the Juvenile Accountability Incentive Block Grant program, the COPS program, and the Byrne Grant program, State and local law enforcement officers have succeeded in reducing violent crime. The violent crime rate has dropped in each of the years since the Violent Crime Reduction Trust Fund was established.

(2) Assistance, such as the Violent Offender Incarceration/Truth in Sentencing Incentive Grants, provided to State corrections systems to encourage truth in sentencing laws for violent offenders, has resulted in longer time served by violent criminals and safer streets for law abiding people across the Nation.

(3) Through a comprehensive effort by State and local law enforcement to attack violence against women, in concert with the efforts of dedicated volunteers and professionals who provide victim services, shelter, counseling, and advocacy to battered women and their children, important strides have been made against the national scourge of violence against women.

(4) Despite recent gains, crime is still too high in the United States. A violent crime is committed every 22 seconds, a woman raped every 6 minutes, and a person murdered every 34 minutes in the United States.

(5) Federal efforts to investigate and prosecute international terrorism and complex interstate and international crime are vital aspects of a national anti-crime strategy, and should be maintained.

(6) The recent gains by Federal, State, and local law enforcement in the fight against violent crime and violence against women are fragile, and continued financial commitment from the Federal Government for fund-

ing and other assistance is required to sustain and build upon these gains.

(7) The Violent Crime Reduction Trust Fund, enacted as part of the Violent Crime Control and Law Enforcement Act of 1994, funds the Violent Crime Control and Law Enforcement Act of 1994, the Violence Against Women Act of 1994, and the Antiterrorism and Effective Death Penalty Act of 1996.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that the Federal Government’s commitment to fund Federal law enforcement programs and programs to assist State and local efforts to combat violent crime, such as the Local Law Enforcement Block Grant program, the Juvenile Accountability Incentive Block Grant program, the Violent Offender/Truth in Sentencing Incentive Grants program, the Violence Against Women Act, the COPS program, and the Byrne Grant program, shall be maintained, and that funding for the Violent Crime Reduction Trust Fund shall continue to at least fiscal year 2005.

SEC. . SENSE OF THE SENATE REGARDING THE ESTABLISHMENT OF A PROPERTY RIGHT GUARANTEE FOR SOCIAL SECURITY BENEFICIARIES.

(a) FINDINGS.—The Senate finds that—

(1) the social security program is the foundation of retirement income for most Americans, and that solving the financial problems of the social security program is a vital national priority and essential for the retirement security of today's working Americans and their families;

(2) the 2001 Board of Trustee's report states that due to an upward shift in the average age of the population, the current social security system faces significant financing shortages, with cash-flow deficits projected to rise to levels in excess of 6 percent of taxable payroll (more than \$1,000,000,000,000 in nominal dollars) by the end of the 75-year period;

(3) saving and strengthening social security must protect current and future beneficiaries, including the disadvantaged and disabled adults or children, who disproportionately depend on social security;

(4) after paying social security taxes over their working lifetimes and planning for retirement with the expectation that they will receive adequate social security benefits, many Americans are unaware that the Supreme Court has established that seniors' social security benefits are not protected or guaranteed under law, that Congress can reduce or end social security benefits at any time; and

(5) Congress and the President have an obligation to enact fiscally sustainable and actuarially sound long-term social security reform in a timely fashion and in a manner that treats successive birth cohorts equitably, and to assure that current and near beneficiaries will not be adversely affected by such reforms.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that establishing a legally binding property right to social security retirement benefits for each American who reaches retirement age and applies for benefits should be a legislative priority of Congress.

SA 248. Mr. CORZINE (for himself and Mr. BAYH) submitted an amendment intended to be proposed to amendment SA 170 proposed by Mr. DOMENICI to the concurrent resolution (H. Con. Res. 83) establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . SENSE OF CONGRESS.

(a) FINDINGS.—Congress finds the following:

(1) While various public housing developments suffer from serious crime problems, many have made significant progress in reducing crime through initiatives funded by the Public Housing Drug Elimination Program (PHDEP).

(2) PHDEP was first established in 1988 under former President George Bush and the

former Secretary of the Department of Housing and Urban Development, Jack Kemp, and has enjoyed strong bipartisan support since its inception.

(3) PHDEP funds a wide variety of anticrime initiatives, that include—

(A) the employment of security personnel and investigators;

(B) the reimbursement of local law enforcement agencies for additional security;

(C) drug education and prevention, intervention, and treatment programs;

(D) voluntary resident patrols; and

(E) physical improvements designed to enhance security, including fences and cameras.

(4) PHDEP has successfully enabled housing authorities to work cooperatively with residents, local officials, police departments, community groups, Boys and Girls Clubs, drug counseling centers, and other community-based organizations to develop locally-supported anticrime initiatives.

(5) The Internet web site of the Department of Housing and Urban Development has stated that the program's "success is rooted in the fact that the people respond better and become more involved in something they have helped to build".

(6) In addition to providing direct funding for anticrime initiatives, PHDEP has developed housing authorities leverage funding from other sources that might otherwise be unavailable, such as funding for local banks, Rotary and Kiwanis Clubs, and private foundations.

(7) A portion of funding allocated to the PHDEP is also used to reduce crime in privately-owned, publicly assisted housing, and assisted housing on Indian reservations, which also can suffer from serious crime problems.

(8) The Internet web site of the Department of Housing and Urban Development has pointed out that "in several of the Nation's largest public housing authorities—largest in terms of unit size—the rate of crime has fallen since the mid-1990's, even though the crime rate in the respective surrounding communities increased. And know that crime levels in many housing authorities are dropping, in both absolute and percentage terms. These are merely the successes that we can measure. There are many more that are simply immeasurable."

(9) Congress has recognized the success of the PHDEP by increasing program funding from \$8,200,000 in fiscal year 1989 to \$310,000,000 in fiscal year 2001.

(10) Evicting residents who engage in unlawful activity can help reduce crime, but much of the crime in public housing is perpetrated by nonresidents, and evictions must be supplemented by the more comprehensive anticrime approach supported by the PHDEP.

(11) Public housing authorities could use operating subsidies to fund some anticrime initiatives under applicable law, but those subsidies are based on a formula that does not account for PHDEP eligible activities and are inadequate to fund most of the anticrime initiatives supported by the program, and PHDEP has the added advantage of requiring public housing authorities to develop and implement anticrime plans with the support and participation of residents and local communities, which has proved critical in ensuring the effectiveness of such plans.

(12) While, as with any program of its size, there have been reports of isolated problems, PHDEP generally has been well run and free of the widespread abuses that have plagued other housing programs in the past, in part because of the broad participation of residents and local communities, and because the program has required housing authorities to provide comprehensive plans before

receiving funds, and complete reports on their progress.

(13) During the process leading to his confirmation, the Secretary of the Department of Housing and Urban Development, Mel Martinez, stated in a written response to a question posed by Senator Jon S. Corzine that, "HUD's Public Housing Drug Elimination Program, PHDEP, supports a wide variety of efforts by public and Indian housing authorities to reduce or eliminate drug-related crime in public housing developments. Based on this core purpose, I certainly support the program."

(14) PHDEP is critical not only to millions of public and assisted housing residents, most of whom are hard working, law abiding citizens, but also to surrounding communities, residents of which also suffer if neighboring housing developments are plagued with high rates of crime.

(15) Continued funding of PHDEP would demonstrate that the Nation is serious about maintaining its commitment to reducing the problem of crime in public housing.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) reducing crime in public housing should be a priority; and

(2) the successful Public Housing Drug Elimination Program should be fully funded.

At the appropriate place, insert the following:

SEC. . SENSE OF THE SENATE REGARDING THE CHILD TAX CREDIT.

(a) FINDINGS.—The Senate finds that—

(1) over 12,000,000 children live in poverty;

(2) nearly 5,000,000 children live in extreme poverty, in families with incomes less than half the Federal poverty level;

(3) 16,000,000 children—more than two-thirds of whom live in working families - do not benefit from the existing non-refundable child tax credit because their parents earn too little to have Federal tax liability;

(4) 2,000,000 children would be lifted out of poverty—the single greatest anti-poverty proposal in decades—if the child tax credit were made refundable and were increased from \$500 to \$1,000 per child;

(5) 1,700,000 children would be lifted out of extreme poverty if the child tax credit were made refundable and were increased from \$500 to \$1,000 per child; and

(6) during the week of March 26, 2001, the House of Representatives passed legislation increasing the child tax credit from \$500 to \$1,000 per child and making the child tax credit available to more low-income families.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that any family tax relief legislation passed during this session of Congress should include provisions to increase the child tax credit from \$500 to \$1,000 per child and to make the child tax credit refundable.

- (4) For fiscal year 2004, \$40,674,000,000.
- (5) For fiscal year 2005, \$39,935,000,000.
- (6) For fiscal year 2006, \$43,752,000,000.

- (9) For fiscal year 2009, \$39,327,000,000.
- (10) For fiscal year 2010, \$37,158,000,000.
- (11) For fiscal year 2011, \$34,406,000,000.

(b) POINT OF ORDER PROTECTING MEDICARE SURPLUSES.—It shall not be in order in the Senate to consider any concurrent resolution on the budget (or amendment, motion, or conference report thereon), or any bill, joint resolution, amendment, motion, or conference report, that would cause the on-budget surplus to decrease below the level of the Medicare Hospital Insurance Trust Fund Surplus in any fiscal year covered by this resolution.

(c) SOCIAL SECURITY OFF-BUDGET POINT OF ORDER.—It shall not be in order in the Senate to consider a concurrent resolution on the budget (or any amendment, motion, or conference report thereon) or any bill, joint resolution, amendment, motion, or conference report that would violate section 13301 of the Omnibus Budget Reconciliation Act of 1990.

(d) REINFORCEMENT OF SOCIAL SECURITY POINTS OF ORDER.—It shall not be in order in the Senate to consider a concurrent resolution on the budget (or any amendment there-to or conference report thereon) or any bill, joint resolution, amendment, motion, or conference report that would cause a decrease in Social Security surpluses in any fiscal year covered by this resolution.

(e) SUPERMAJORITY WAIVER AND APPEAL.—The points of order established in this section may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required in the Senate to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

SEC. 202. MECHANISM FOR IMPLEMENTING INCREASE OF FISCAL YEAR 2002 DISCRETIONARY SPENDING LIMITS.

(a) FINDINGS.—The Senate finds the following:

- (1) Unless and until the discretionary spending limit for fiscal year 2002 (as set out

in section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985) is increased, aggregate appropriations which exceed the current law limits would still be out of order in the Senate and subject to a supermajority vote.

(2) The functional totals (excluding those for function 920) contained in this concurrent resolution envision a level of discretionary spending—

(A) for fiscal year 2001—

- (i) for the discretionary category: \$642,504,000,000 in new budget authority and \$646,049,000,000 in outlays;

(ii) for the highway category: \$27,028,000,000 in outlays;

(iii) for the mass transit category: \$5,100,000,000 in outlays; and

(B) for fiscal year 2002 as follows:

(i) for the discretionary category: \$685,108,000,000 in new budget authority and \$694,330,000,000 in outlays;

(ii) for the highway category: \$29,349,000,000 in outlays;

(iii) for the mass transit category: \$5,624,000,000 in outlays; and

(iv) for the conservation category: \$1,760,000,000 in new budget authority and \$1,378,000,000 in outlays.

(3) To facilitate the Senate completing its legislative responsibilities for the 1st Session of the 107th Congress in a timely fashion, it is imperative that the Senate consider legislation which establishes appropriate discretionary spending limits for fiscal year 2002 through 2006 as soon as possible.

(b) ADJUSTMENT TO ALLOCATIONS AND OTHER BUDGETARY AGGREGATES AND LEVELS.—Whenever a bill or joint resolution becomes law that increases the discretionary spending limit for fiscal year 2001 or 2002 set out in section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985, the chairman of the Committee on the Budget of the Senate shall increase the allocation called for in section 302(a) of the Congressional Budget Act of 1974 to the appropriate Committee on Appropriations and shall also appropriately adjust all other budgetary aggregates and levels contained in this resolution.

(c) LIMITATION ON ADJUSTMENT.—An adjustment made pursuant to subsection (b) shall not result in an allocation under section 302(a) of the Congressional Budget Act of 1974 that exceeds the total budget authority and outlays set forth in subsection (a)(2).

Subtitle B—Reserve Funds

SEC. 211. STRATEGIC RESERVE FUND FOR LONG-TERM DEBT AND SOCIAL SECURITY.

If legislation is reported by the Senate Committee on Finance, or an amendment thereto is offered or a conference report thereon is submitted, that would strengthen Social Security, extend the solvency of the Social Security Trust Funds, maintain progressivity in the Social Security benefit system, and continue to lift more seniors out of poverty, the Chairman of the Senate Committee on the Budget may revise the aggregates, functional totals, allocations, and other appropriate levels and limits in this resolution by up to \$750,000,000,000 for the total of fiscal years 2002 through 2011, provided that such legislation will not, when taken together with all other previously enacted legislation, reduce the on-budget surplus below the level of the Medicare Hospital Insurance Trust Fund surplus in any fiscal year provided in this resolution.

SEC. 212. RESERVE FUND PROVIDING FISCAL YEAR 2001 EMERGENCY RELIEF FOR AGRICULTURE.

If legislation is reported by the Senate Committee on Agriculture, Nutrition, and Forestry, or an amendment thereto is offered or a conference report thereon is submitted,

that provides emergency assistance to family farmers who produce agricultural commodities in calendar year 2001, the Chairman of the Senate Committee on the Budget may revise the allocations and other appropriate levels and limits in this resolution by up to \$9,000,000,000 in budget authority and outlays for fiscal year 2001, provided that such legislation will not, when taken together with all other previously enacted legislation, reduce the on-budget surplus below the level of the Medicare Hospital Insurance Trust Fund surplus in any fiscal year provided in this resolution.

SEC. 213. RESERVE FUND FOR FARM BILL AND AGRICULTURAL CONSERVATION PROGRAMS.

If legislation is reported by the Senate Committee on Agriculture, Nutrition and Forestry, or an amendment thereto is offered or a conference report thereon is submitted, that provides for an improved, multiyear safety net for family farmers, a strengthened national commitment to agricultural conservation programs, and revised authorizations for agricultural trade, nutrition, credit, rural development, research, and related programs, the Chairman of the Senate Committee on the Budget may revise the allocations and other appropriate levels and limits in this resolution by up to \$4,400,000,000 in budget authority and outlays for fiscal year 2002 (including for agricultural conservation programs), and \$88,000,000,000 in budget authority and outlays for the total of fiscal years 2002 through 2011 (including for agricultural conservation programs), provided that such legislation will not, when taken together with all other previously enacted legislation, reduce the on-budget surplus below the level of the Medicare Hospital Insurance Trust Fund surplus in any fiscal year provided in this resolution.

TITLE III—SENSE OF SENATE PROVISIONS

SEC. 301. SENSE OF THE SENATE REGARDING PRESCRIPTION DRUG COVERAGE.

It is the sense of the Senate that the Medicare function totals in this resolution assume \$311,000,000,000 over the next 10 years for a prescription drug benefit under title XVIII of the Social Security Act that is voluntary, accessible to all beneficiaries, designed to assist seniors with the high cost of prescription drugs, protect them from excessive out-of-pocket costs, and give them bargaining power in the marketplace; affordable to all beneficiaries and the programs; administered using private sector entities and competitive purchasing techniques; and consistent with broader Medicare reform.

SEC. 302. SENSE OF THE SENATE REGARDING EXPANDING ACCESS TO HEALTH CARE FOR THE UNINSURED.

It is the sense of the Senate that the Health function totals in this resolution assume \$80,000,000,000 over the next 10 years, and that the revenue levels in this resolution include an amount not yet allocated, for proposals that would expand health insurance coverage to the uninsured that target funding for those who need it most, combine public and private coverage options to efficiently target the uninsured, protect employer-based coverage systems, provide a meaningful health insurance benefit to the uninsured, assure that the new insurance benefit is affordable, avoid creating new bureaucracies and promote State flexibility, and emphasize enrollment and not just eligibility.

SEC. 303. SENSE OF THE SENATE ON MEDICARE SURPLUS PROTECTION POINT OF ORDER.

It is the sense of the Senate that this resolution assumes that it should not be in order in the Senate to consider any concurrent resolution on the budget (or amendment, mo-

tion, or conference report thereon), or any bill, joint resolution, amendment, motion, or conference report, that would cause the on-budget surplus to decrease below the level of the Medicare Hospital Insurance Trust Fund Surplus in any fiscal year covered by this resolution.

SEC. 304. SENSE OF THE SENATE REGARDING A COMPREHENSIVE ENERGY POLICY.

(a) FINDINGS.—The Senate finds that—

(1) it is in the best interest of this country to enact a truly balanced and comprehensive energy policy;

(2) a comprehensive policy is one that not only increases domestic energy supplies, but also helps to better manage that supply; maintains a commitment to energy efficiency in our homes, offices, and vehicles; and works to ensure a stable and prosperous future through diversifying our portfolio of energy sources; and

(3) a comprehensive policy helps not just urban areas, but also rural and tribal populations.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that funds will be available to support enactment of a comprehensive energy policy as follows:

(1) An increase of \$10,300,000,000 in discretionary funding above baseline levels, including funding to help Indian tribes plan, develop, and fund energy projects.

(2) A decrease of up to \$14,300,000,000 in revenues for energy tax credits to ensure investment in energy supply infrastructure, to accelerate market penetration of ultrahigh efficiency technologies, and to promote domestic oil and natural gas development using countercyclical measures.

SEC. 305. SENSE OF THE SENATE REGARDING PAY PARITY FOR FEDERAL EMPLOYEES.

(a) FINDINGS.—The Senate finds that—

(1) members of the uniformed services of the United States and civilian employees of the United States make significant contributions to the general welfare of the United States;

(2) increases in the levels of pay of members of the uniformed services and of civilian employees of the United States have not kept pace with increases in the overall levels of pay of workers in the private sector;

(3) there is a 32 percent gap between the compensation levels of Federal civilian employees and the compensation levels of private sector workers, and an estimated 10 percent gap between the compensation levels of members of the uniformed services and the compensation levels of private sector workers; and

(4) in almost every year of the past 2 decades, members of the uniformed services and civilian employees of the United States have received equal adjustments in compensation.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the levels in this resolution assume that there should continue to be parity between the adjustments in the compensation of members of the uniformed services and the adjustments in the compensation of civilian employees of the United States.

SEC. 306. SENSE OF THE SENATE REGARDING DEFENSE.

It is the sense of the Senate that the levels in this resolution for National Defense assume—

(1) enactment of a \$7,070,000,000 fiscal year 2001 emergency defense supplemental appropriations Act providing immediate assistance to rectify shortfalls in accounts related to people and readiness, with emphasis on pay, housing, the Defense Health Program, operations, maintenance, training, spare parts, force protection, and information technology;

(2) continued long-term improvements to pay, housing, health care, and other key benefits for current and former service members and their families;

(3) investment of the funding necessary to maintain the readiness of our armed forces to respond to near-term threats;

(4) preparation for the new threats and new capabilities of the new century through transformation of our military and retooling of our national security bureaucracy, with special emphasis on: increased investment in technologies providing long-range precision strike, speed, stealth, and dominant battlespace knowledge, and in particular command, control, computers, communications, intelligence, surveillance, and reconnaissance (C4ISR) assets; reform of the defense budget and requirements process to emphasize national strategy, jointness, and transition to a joint network-centric force; acquisition reform; increased integration of support organizations and greater efficiency through consolidation, strategic sourcing, or restructuring; and intensified efforts to address performance and accountability challenges documented by the General Accounting Office;

(5) increased funding for nonproliferation programs at the Departments of Defense and Energy; and

(6) increased funding for the other critical atomic energy defense programs of the Department of Energy, including national nuclear laboratory security, Stockpile Stewardship, and nuclear weapons-related environmental clean-up—a particular priority in light of the Department's legal obligations to State and local governments regarding Hanford and other sites.

SA 262. Mr. MURKOWSKI submitted an amendment intended to be proposed by him to the concurrent resolution H. Con. Res 83, establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the appropriate place insert the following:

“It is the Sense of the Senate that—

“(1) Although much of the responsibility for the current electricity problem in California can be assigned to the failure by the State to maintain adequate supplies of energy and generating capacity and by the legislative and administrative actions taken by the State that interfered with the market and impeded effective competition and, given the most recent stream flow figures for the Western United States, this situation will likely only worsen this summer and could seriously affect virtually every Western State;

“(2) While the long term solution will require new generation and transmission as well as conservation, action will need to be taken by federal, State, and local units of government to address the immediate situation;

“(3) That action requires that we fully understand what opportunities are presently available from existing generating sources as well as those that could be brought on line without delay in order for the Administration and Congress to work together on appropriate administrative and legislative actions which, in concert with actions taken by the several Western States, will effectively allocate existing capacity;

“(4) The Secretary of Energy, in consultation with appropriate federal, state, and

local agencies as well as with public and private entities producing or capable of producing power, should provide the Congress with an inventory of all actual and potential energy sources to provide electricity to California and also to the other Western States and what actions will be necessary to bring those sources on line or increase their current generation in a form that is as comprehensive as possible and includes generation that is not presently available but that could be made available within a reasonable time, and that such inventory should—

“(A) identify the extent of any back up generation maintained by retail customers and what actions would be necessary to make such generation available during shortages, including identification of fuel source and adequacy of supply;

“(B) examine any regulatory or other constraints that presently limit full operation of existing generating sources, including hydroelectric facilities, and identify what steps would need to be taken on a temporary or permanent basis to make additional generation from those sources available;

“(C) investigate and detail opportunities for additional generation both in and outside the region, the nature of such generation, anticipated costs, likelihood of availability on a firm or interruptible basis, and the particular area that could be served by such generation and the extent to which such service could release other generation capacity for areas under shortage;

“(D) evaluate any transmission constraints and describe what actions would be necessary to alleviate those constraints; and

“(5) The federal government should take such legislative and administrative actions as may be necessary, in conjunction with necessary actions by States and local units of government, to alleviate the effects of the current and impending shortages until adequate supplies of electricity and energy are available on a long-term basis to meet legitimate demands for the entire region.”

SA 263. Mr. ALLEN (for himself, Mr. BROWNBACK, Mr. CRAIG, and Mrs. HUTCHISON) submitted an amendment intended to be proposed by him to the concurrent resolution H. Con. Res. 83, establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . TAX CUT ACCELERATOR.

a) REPORTING, ADDITIONAL SURPLUSES.—If any report provided pursuant to section 202(e)(1) of the Congressional Budget Act of 1974, estimates an on-budget surplus that exceeds the on-budget surplus set forth in such a report for the preceding year, the chairmen of the Committee on the Budget of the House of Representatives and of the Senate shall make adjustments in the resolution for the next fiscal year as provided in subsection (b).

(b) ADJUSTMENTS.—The chairmen of the Committee on the Budget of the House of Representatives and of the Senate shall make the following adjustments in an amount not to exceed the difference between the on-budget surpluses in the reports referred to in subsection (a):

(1) Reduce the on-budget revenue aggregate by that amount for the fiscal years included in such reports.

(2) Adjust the instruction to the Committee on Ways and Means and the Com-

mittee on Finance to increase the reduction in revenues by the sum of the amounts for the period of such fiscal years in such manner as to not produce an on-budget deficit in the next fiscal year, over the next 5 fiscal years, or over the next 10 fiscal years and to require a report of reconciliation legislation by the Committee on Ways and Means and the Committee on Finance not later than March 15.

(3) Adjust such other levels in such resolution, as appropriate, and the House of Representatives and the Senate pay-as-you-go scorecards.

SA 264. Mr. THOMPSON submitted an amendment intended to be proposed by him to the concurrent resolution H. Con. Res. 83, establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

SEC. . SALES TAX DEDUCTION.

(a) FINDINGS.—The Senate finds that—

(1) in 1986, the ability to deduct state and local sales taxes was eliminated from the Federal tax code;

(2) the States of Tennessee, Texas, Wyoming, Washington, Florida, Nevada, and South Dakota have no state income tax;

(3) the citizens of those seven states continue to be treated unfairly because they are required to pay significantly more in taxes to the federal government than similarly situated taxpayers living in states that raise revenue primarily through an income tax;

(4) the federal tax code provides preferential treatment to citizens of states with state and local income taxes over those without state and local income taxes;

(5) the current federal tax code infringes upon states' rights to tax their citizens as they see fit, because the federal tax code treats state and local sales taxes differently than state and local income taxes; and

(6) the current and projected non-Social Security budget surpluses provide the opportunity to restore equity to the federal tax code by allowing taxpayers to deduct either their state and local sales taxes or their state and local income taxes on their federal tax returns, but not both.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Committee on Finance should consider legislation to make state and local sales taxes deductible against federal income taxes, as are state and local income taxes now.

At the appropriate place, insert the following:

SEC. . RESERVE FUND FOR THE TEACHER TAX CREDIT ACT.

If the Committee on Finance of the Senate reports a bill or joint resolution, or an amendment is offered, or a conference report is submitted, which provides teachers with a

tax credit to reimburse them for certain out of pocket educational expenses, professional development expenses, and interest paid on student loans, the Chairman of the Senate Committee on the Budget may revise the aggregates, functional totals, allocations, and other appropriate levels and limits in this resolution by up to \$2.9 billion in budget authority and \$2.9 billion in outlays for fiscal year 2002, and \$39.5 billion in budget authority and \$39.5 billion in outlays for the total of fiscal years 2002 through 2011.

SEC. . SENSE OF CONGRESS ON THE NEED FOR A BUDGET THAT PRESERVES AMERICA'S ECONOMIC STRENGTH.

(a) FINDINGS.—Congress finds that—

(1) the historic economic growth that the Nation experienced over the past decade has largely been driven by the increased productivity of American workers and by technological advances;

(2) the Federal budget is an essential tool for responsible economic stewardship, both in providing effective short-term economic stimulus, and in promoting the long-term development of human resources and scientific research that are essential to preserve the Nation's economic health; and

(3) timely Federal tax and spending decisions have the capacity to produce further gains in productivity by building a better educated workforce, and to produce further scientific and technological breakthroughs by supporting ongoing research and development.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the levels in this resolution assume that—

(1) calendar year 2001 taxes are reduced by \$70,000,000,000 in a manner that provides every taxpayer with a relatively equal amount of tax savings as expeditiously as practicable to provide the economy with an immediate stimulus;

(2) a plan increasing the level of exemption for property subject to the estate tax to \$2,000,000 immediately and \$4,000,000 over the decade, estimated to cost \$66,000,000,000 between fiscal year 2002 and fiscal year 2011, is substituted for the Administration's proposal to repeal the estate tax at a cost of \$267,000,000,000 over 10 years;

(3) the \$200,000,000,000 that is saved as a result of substituting estate tax reform for repeal is used to strengthen the Nation's economy and keep it strong over the next decade by increasing budget authority by the following amounts over the amounts that were proposed at the outset of the Senate debate on the fiscal year 2002 budget resolution:

(A) Function 250, General Science, Space and Technology, is increased by \$30,000,000,000 over the next 10 years, including \$1,500,000,000 next year, to continue advancing science and technology through civilian research conducted under the auspices of the National Science Foundation, the National Aeronautic and Space Administration, and the Department of Energy;

(B) Function 370, Commerce and Housing Credit, is increased by \$3,000,000,000 over the next 10 years, including \$188,000,000 next year, to continue Department of Commerce initiatives that help small businesses create and use technology, including the Advanced Technology Program and the Manufacturing Extension Partnership;

(C) Function 450, Community and Regional Development, is increased by \$3,000,000,000 over the next 10 years, including \$300,000,000 next year, to clean and develop abandoned industrial sites in communities throughout the Nation under the Brownfields revitalization program administered by the Environmental Protection Agency;

(D) Function 500, Education, Training, Employment, and Social Services, is increased by \$20,000,000,000 over the next 10 years, including \$2,000,000,000 next year, to support the worker training needed to make economic opportunities available to all over the next decade, and this amendment also secures the resources that will be necessary for funding the levels contained in Amendment 185;

(E) Function 600, Income Security, is increased by \$14,000,000,000 over the next 10 years, including \$2,180,000,000 next year, to ensure that the Nation's Unemployment Insurance System responds to the needs of the modern workforce in times of economic uncertainty;

(4) equally important to the Nation's continued economic health, the tax cuts authorized under this resolution should be structured to include provisions that would—

(A) make the Research and Development Tax Credit permanent;

(B) enable taxpayers to deduct college tuition for income tax purposes;

(C) promote energy conservation and development of renewable and alternative energy sources;

(D) encourage low-income working families to save and build assets, including a first home, small business, and a post-secondary education, through Individual Development Accounts;

(E) bridge the digital divide in small businesses;

(F) encourage employers to make remedial education available to employees; and

(G) adjust tax depreciation periods to accurately reflect the useful life of high-technology capital equipment;

(5) tax cuts provided to individual taxpayers under this resolution should be fairly distributed among all Federal taxpayers, considering the percentage of total Federal taxes paid by individuals, including income, payroll, and excise taxes; and

(6) tax cuts authorized under this resolution should not be backloaded so as to either deprive the economy of the greater short-term stimulus benefits of evenly distributing tax cuts over the decade, or to distort the true size of tax cuts in later years.

SA 271. Mr. KENNEDY (for himself and Mr. LIBERMAN) submitted an amendment intended to be proposed by him to the concurrent resolution H. Con. SA 278. Mr. SCHUMER (for himself, Mr. BIDEN, Ms. SNOWE, Mr. LEVIN, Ms. LANDRIEU, Mr. KOHL, Mrs. CLINTON, Mr. KENNEDY, Mr. BAYH, and Mr. DURBIN) submitted an amendment intended to be proposed by him to the concurrent resolution H. At the end, add the following:

SEC. ____ . SENSE OF THE SENATE REGARDING MAKING HIGHER EDUCATION AFFORDABLE.

(a) FINDINGS.—The Senate finds that—
 (1) in our increasingly competitive global economy, the attainment of higher education is critical to the economic success of an individual, as evidenced by the fact that, in 1975, college graduates earned an average of 57 percent more than individuals who were only high school graduates, as compared to the fact that, in 1999, college graduates earned an average of 74 percent more than high school graduates;

(2) over the past 20 years, the cost of college tuition has quadrupled and is increasing—

(A) at a faster rate than any consumer item, including health care; and

(B) at a rate that is nearly twice as fast as the rate of inflation;

(3) despite increases in grant amounts contained in legislation recently enacted by Congress, the value of the maximum Pell Grant has declined 17 percent since 1975 in inflation-adjusted terms, forcing more students to rely on student loans to finance the cost of a higher education;

(4) from 1992 to 1998, the demand for student loans soared by 82 percent and the average student loan amount increased by 367 percent; and

(5) according to the Department of Education, there is approximately \$150,000,000,000 in outstanding student loan debt and students borrowed more during the decade beginning in 1990 than during all of the decades beginning in 1960, 1970, and 1980.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that tax relief legislation enacted pursuant to the instructions contained in this concurrent resolution on the budget should include provisions to make higher education affordable, including—

(1) an above-the-line deduction of up to \$12,000 for a taxable year for higher education expenses of a taxpayer and members of the taxpayer's family for such taxable year (in lieu of the credit for such expenses), including expenses for tuition and fees charged by an institution of higher education and required for the enrollment or attendance of such persons at the institution; and

(2) a credit against tax of up to \$1,500 for each taxable year (indexed for inflation) for interest paid during such taxable year on loans incurred for higher education expenses—

(A) during the first 60 months such payments are required; and

(B) paid by individuals who are not dependents.

SEC. SENSE OF THE SENATE THAT THE 107TH CONGRESS, 1ST SESSION SHOULD REAUTHORIZE FUNDS FOR THE FARMLAND PROTECTION PROGRAM.

(a) **FINDINGS.**—The Senate makes the following findings—

(1) The Farmland Protection Program has provided cost-sharing for nineteen states and dozens of localities to protect over 127,000 acres on 460 farms since 1996;

(2) Congress provided an additional \$17.5 million in Farmland Protection Program funds last year to which 770 applicants responded that would have leveraged \$187 million in matching funds;

(3) For every federal dollar that is used to protect farmland, an additional three dollars is leveraged by states, localities, and non-governmental organizations;

(4) The Farmland Protection Program is a completely voluntary program in which the federal government does not acquire the land or the easement;

(5) Funds from the original authorization for the Farmland Protection Program were expended at the end of Fiscal year 1998, and no funds were appropriated in Fiscal Year 1999 and Fiscal year 2000;

(6) Demand for Farmland Protection Program funding has outstripped available dollars by 600 percent;

(7) Through the Farmland Protection Program, new interest has been generated in

communities across the country to help save valuable farmland;

(8) In 1999 alone, the issue of how to protect farmland was considered on twenty-five ballot initiatives;

(9) The United States is losing 3.2 million acres of our best farmland each year which is double the rate of the previous five years;

(1) The President on February 7, 2001, presented the following principles by which he will gauge any Patient's Bill of Rights legislation:

(A) A Federal Patients' Bill of Rights should ensure that every person enrolled in a health plan enjoys strong patient protections. Because many States have passed patient protection laws that are appropriate for their States, deference should be given to these State laws and to the traditional authority of States to regulate health insurance.

(B) A Federal Patients' Bill of Rights should provide patient protections such as—

- (i) access to emergency room and specialty care;
- (ii) direct access to obstetricians, gynecologists and pediatricians;
- (iii) access to needed prescription drugs and approved clinical trials;
- (iv) access to health plan information;
- (v) a prohibition of gag clauses;
- (vi) consumer choice; and
- (vii) continuity of care protections.

(C) Patients should have the right to appeal a health plan's decision to deny care through both internal review and independent, binding external review.

(D) Slow and costly litigation should be a last resort. Patients should exhaust their appeals process first and thereby allow independent medical experts to make medical decisions and ensure that patients receive necessary medical care without the expense or delay of going to court.

(E) After an independent review decision is rendered, patients should be allowed to hold their health plans liable in Federal court if they have been wrongly denied needed medical care.

(F) Employers, many of whom are struggling to offer health insurance coverage to

their employees, should be shielded from unnecessary and frivolous lawsuits and should not be subject to multiple lawsuits in State court. Increased litigation will only result in higher health care costs, potentially forcing employers to drop employee health coverage altogether. Only employers who retain responsibility for, and make, final medical decisions should be subject to litigation.

(G) Americans want meaningful remedies, not a windfall for trial lawyers resulting in expensive health care premiums and unaffordable health coverage. To protect patients' rights without encouraging excessive litigation, damages should be subject to reasonable caps.

(2) Rapid changes in the health care marketplace have impacted the confidence of Americans in the health system of the United States.

(3) American consumers want more convenience, fewer hassles, more choices, and better service from their health insurance plans.

(4) All Americans deserve quality-driven health care that is supported by sound science and evidence-based medicine.

(5) Patients should receive the health care benefits that they have been promised.

(6) As Congress considers health care legislation, it must first commit to "do no harm" to health care quality, patient access to health coverage, and the evolving health care marketplace.

(7) American businesses who voluntarily provide health care benefits to their employees stated that "A Patients' Bill of Rights that allows lawsuits against employers would force many to re-evaluate their roles in voluntarily offering health care coverage to their employees. For some businesses, their only option to avoid costly litigation would be to stop offering coverage altogether."

(8) Health care costs have begun to rise significantly in the past year. According to a Deloitte and Touch study of private employer health care coverage, health care costs increased by 12.4 percent in 2000, well above the 9 percent increase that was anticipated. Further, the survey predicts a 12.7 percent increase for 2001.

(9) When health insurance premiums rise, Americans lose health insurance coverage. Studies indicate that a 1 percent increase in private health insurance premiums will be associated with an increase in the number of persons without health insurance of about 250,000 to 300,000 persons.

(10) There are 7,300,000 Americans who have access to employer subsidized health insurance coverage today but decline such coverage because they cannot afford the cost-sharing requirements. As costs increase, employers tend to shift costs to employees which has a direct, negative impact on employee enrollment rates.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Senate should consider and pass legislation that meets the President's principles for a Patients' Bill of Rights that—

- (1) does not make health care unaffordable;
- (2) encourages, not discourages, employers to offer health care; and
- (3) empowers doctors, not lawyers or health maintenance organization bureaucrats, to make medical decisions.

SEC. . SENSE OF CONGRESS ON THE NEED FOR A BUDGET THAT PRESERVES AMERICA'S ECONOMIC STRENGTH.

(a) FINDINGS.—Congress finds that—
 (1) the historic economic growth that the Nation experienced over the past decade has largely been driven by the increased productivity of American workers and by technological advances;

(2) the Federal budget is an essential tool for responsible economic stewardship, both in providing effective short-term economic stimulus, and in promoting the long-term development of human resources and scientific research that are essential to preserve the Nation's economic health; and

(3) timely Federal tax and spending decisions have the capacity to produce further gains in productivity by building a better educated workforce, and to produce further scientific and technological breakthroughs by supporting ongoing research and development.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the levels in this resolution assume that—

(1) calendar year 2001 taxes are reduced by \$70,000,000,000 in a manner that provides every taxpayer with a relatively equal amount of tax savings as expeditiously as practicable to provide the economy with an immediate stimulus;

(2) a plan increasing the level of exemption for property subject to the estate tax to \$2,000,000 immediately and \$4,000,000 over the decade, estimated to cost \$66,000,000,000 between fiscal year 2002 and fiscal year 2011, is substituted for the Administration's proposal to repeal the estate tax at a cost of \$267,000,000,000 over 10 years;

(3) the \$200,000,000,000 that is saved as a result of substituting estate tax reform for repeal is used to strengthen the Nation's economy and keep it strong over the next decade by increasing budget authority by the following amounts over the amounts that were proposed at the outset of the Senate debate on the fiscal year 2002 budget resolution.

(A) Function 250, General Science, Space and Technology, is increased by \$30,000,000,000 over the next 10 years, including \$1,500,000,000 next year, to continue advancing science and technology through civilian research conducted under the auspices

of the National Science Foundation, the National Aeronautic and Space Administration, and the Department of Energy;

(B) Function 370, Commerce and Housing Credit, is increased by \$3,000,000,000 over the next 10 years, including \$188,000,000 next year, to continue Department of Commerce initiatives that help small businesses create and use technology, including the Advanced Technology Program and the Manufacturing Extension Partnership;

(C) Function 450, Community and Regional Development, is increased by \$3,000,000,000 over the next 10 years, including \$300,000,000 next year, to clean and develop abandoned industrial sites in communities throughout the Nation under the Brownfields revitalization program administered by the Environmental Protection Agency;

(D) Function 500, Education, Training, Employment, and Social Services, is increased by \$150,000,000,000 over the next 10 years, including \$12,000,000,000 next year, to ensure that the kind of education and training needed to make economic opportunities available to all over the next decade, including—

(i) \$65,000,000,000 for aid to disadvantaged students under title I of the Elementary and Secondary Education Act;

(ii) \$12,000,000,000 to improve teacher quality;

(iii) \$10,000,000,000 to continue reducing class sizes;

(iv) \$7,000,000,000 to ensure access to quality bilingual education;

(v) \$4,000,000,000 to continue repairing and modernizing schools;

(vi) \$2,000,000,000 to improve teacher training under title II of the Higher Education Act;

(vii) \$27,000,000,000 to increase the maximum Pell Grants to at least \$4,700;

(viii) \$2,000,000,000 for mentoring of low-income youth who have worked to prepare themselves for college;

(ix) \$20,000,000,000 to expand employment training opportunities under the Workforce Investment Act and other programs specifically designed to assist workers to develop technology skills; and

(x) \$1,000,000,000 to assist institutions of higher education in conducting business incubator initiatives;

(E) Function 600, Income Security, is increased by \$14,000,000,000 over the next 10 years, including \$2,180,000,000 next year, to ensure that the Nation's Unemployment Insurance System responds to the needs of the modern workforce in times of economic uncertainty;

(4) equally important to the Nation's continued economic health, the tax cuts authorized under this resolution should be structured to include provisions that would—

(A) make the Research and Development Tax Credit permanent;

(B) enable taxpayers to deduct college tuition for income tax purposes;

(C) promote energy conservation and development of renewable and alternative energy sources;

(D) encourage low-income working families to save and build assets, including a first home, small business, and a post-secondary education, through Individual Development Accounts;

(E) bridge the digital divide in small businesses;

(F) encourage employers to make remedial education available to employees; and

(G) adjust tax depreciation periods to accurately reflect the useful life of high-technology capital equipment;

(5) tax cuts provided to individual taxpayers under this resolution should be fairly distributed among all Federal taxpayers, considering the percentage of total Federal taxes paid by individuals, including income, payroll, and excise taxes; and

(6) tax cuts authorized under this resolution should not be backloaded to as to either deprive the economy of the greater short-term stimulus benefits of evenly distributing tax cuts over the decade, or to distort the true size of the tax cuts in later years.

SA 293. Mr. HARKIN submitted an amendment intended to be proposed to amendment SA 170 proposed by Mr. DOMENICI to the concurrent resolution (H. Con. Res. 83) establishing the congressional budget for the United States Government for fiscal year 2002, revising the congressional budget for the United States Government for fiscal year 2001, and setting forth appropriate budgetary levels for each of fiscal years 2003 through 2011; which was ordered to lie on the table; as follows:

At the end of title II, insert the following:

SEC. ____ . MINIMUM LEVEL OF TAX FAIRNESS.

(a) POINT OF ORDER.—In Senate, it shall not be in order to consider a bill, amendment, or conference report that provides tax reductions unless the total percentage of tax reductions in that measure received by those within the top 1 percent of income does not exceed 3 times the percentage received by those in the lower 60 percent of income in the first year, first 5 years, and first 10 years of this resolution.

(b) SCORING.—A point of order made under this section shall be scored using traditional definitions of income and Federal taxes as set forth in the distribution tables of the Joint Committee on Taxation for this calculation.

(c) SUPERMAJORITY WAIVER AND APPEAL.—A point of order under this section may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required in the Senate to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

“SEC. . SENSE OF THE SENATE ON ENERGY TAX CREDITS.

“(a) FINDINGS.—The Senate finds that: “(1) An energy policy balancing increased supplies with increased energy efficiency and conservation is in the national interest;

“(2) An energy policy that accelerates commercialization and investment in a diverse mix of fuels and technologies will provide benefits for the long run;

“(3) Policies that ensure domestic oil and gas development continues during very low price periods will provide greater supply and price stability for natural gas;

“(4) Investments in distributed generation facilities and more efficient buildings and equipment will reduce the need for construction of additional infrastructure;

“(5) Replacement of older, less efficient equipment with new high efficiency models will reduce pressure on the power grid, improve environmental quality and stimulate the economy.

“(b) SENSE OF THE SENATE.—It is the sense of the Senate that this budget resolution assume that \$14.5 billion of reduced revenues shall:

“(1) provide tax credits of 10 to 30 percent of the cost of investments in renewable energy technologies and energy-efficient property used in business and tax credits of 15 to 30% of the installed cost of certain renewable and fuel cell property for residential use;

“(2) provide tax deductions for increasing energy efficiency in non-residential buildings (commercial buildings, schools, and rental housing) compared to a national model standard and tax incentives for new energy efficient residential construction, including manufactured housing, and certain incentives for modifications to existing housing;

“(3) provide tax credits for the manufacture of high efficiency clothes washers and refrigerators;

“(4) provide a 7-year depreciation schedule for distributed power generation facilities, electric power transmission, and natural gas transmission, distribution and gathering lines;

“(5) provide—

“(A) tax credits for electricity produced from renewable and waste sources, including open-loop biomass, co-firing with biomass, geothermal, landfill methane, incremental hydropower, municipal waste and steel co-generation, and advanced technology or alternative-fueled vehicles;

“(B) an offset against debate or obligations in lieu of tax credits for cooperative and municipal electric utilities;

“(C) tax exempt financing for Hawaiian facilities using bagasse to produce ethanol; and

“(D) a partial exemption of \$0.03 per gallon from the fuel excise tax for diesel fuel that contains at least two percent biodiesel;

“(6) provide an investment tax credit of 10 percent for certain advanced, low emission clean coal technology costs, a production tax credit based on efficiency for each kilowatt generated, and a pool of funds to offset the costs of facility modifications to achieve design performance levels, an offset against debt or obligations in lieu of tax credits for cooperative and municipal electric utilities;

“(7) provide for expensing of the cost of propane and heating oil storage facilities and modification to the arbitrage rules affecting municipal utilities payments for commodities;

“(8) provide tax credits for re-refining lubricating oil and for coal mine methane captured from mining operations;

“(9) provide counter-cyclical tax credits during periods of extremely low prices for domestic oil and gas development drilling and enhanced recovery work and for marginal oil and gas wells, and expensing of delay rental payments and geological and geophysical costs;

“(10) provide use of existing tax credits for cooperatives who are small ethanol producers;

“(11) a small production tax credit to encourage development of a pipeline to transport Alaska natural gas to the lower 48 before January 1, 2009.”.

SEC. ____ . ADOPTION INCENTIVE GRANT PROGRAM.

(a) FINDINGS.—Congress finds that—

(1) under the Adoption and Safe Families Act of 1997, incentive-eligible States that in-

crease the number of adoptions from foster care during fiscal years 1998 through 2002 will receive incentive payments;

(2) during the last 2 years, States have increased the number of finalized adoptions from foster care at an impressive rate—up 7,857 children in fiscal year 1998 and 9,388 children in fiscal year 1999;

(3) preliminary estimates for fiscal year 2000 indicate that at least 28 States have placed more children in adoptive homes than the number of children placed in adoptive homes in the baseline years for such States;

(4) in fiscal year 1999, increases in the number of adoptions warranted \$51,500,000 in bonuses to States, yet the 42 eligible States received only \$19,300,000 in such payments; and

(5) the \$10,800,000 left in the fiscal year 2000 adoption incentive budget is not adequate to cover the expected obligations resulting from the estimated increases in adoptions in fiscal year 2000.

(b) INCREASE IN FUNDING.—In order to provide sufficient funds under the Adoption and Safe Families Act of 1997 to cover expected obligations resulting from estimated increases in adoptions for fiscal year 2001, the budget authority and outlays set forth for Function 500 in paragraph (10) of section 102 of this resolution assume \$30,000,000 in new budget authority and \$_____ in new outlays for fiscal year 2001.

SEC. ____ . STRENGTHENING OUR NATIONAL FOOD SAFETY INFRASTRUCTURE.

(a) FINDING.—The Senate finds that the United States food supply is one of the safest in the world, but in order to maintain the integrity of our food supply in the face of emerging threats, we must make the necessary investments now, in a time of surplus.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that at least \$100,000,000 more (based on constant funding at fiscal year 2002 level) should be invested at the Food and Drug Administration and the Center for Disease Control food activities next year in order to strengthen our national food safety infrastructure by—

(1) increasing the number of inspectors within the Food and Drug Administration to enable the Food and Drug Administration to inspect high-risk sites at least annually;

(2) supporting research that enables us to meet emerging threats;

(3) improving surveillance to identify and trace the sources and incidence of food-borne illness;

(4) otherwise maintaining at least current funding levels for food safety initiatives in the Food and Drug Administration and the United States Department of Agriculture; and

(5) providing additional funds should such needs arise due to emerging food safety threats.

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Animal Disease Risk Assessment, Prevention, and Control Act of 2001".

SEC. 2. FINDINGS AND PURPOSE.

- (a) FINDINGS.—Congress finds that—
 - (1) it is in the interest of the United States to maintain healthy livestock herds;
 - (2) managing the risks of foot and mouth disease, bovine spongiform encephalopathy, and related diseases in the United States may require billions of dollars for remedial activities by consumers, producers, and distributors of livestock and animal and blood products;
 - (3) the potential introduction of those diseases into the United States would cause devastating financial losses to—
 - (A) the agriculture industry and other economic sectors; and
 - (B) United States trade in the affected animals and animal products;
 - (4) foot and mouth disease is a severe and highly contagious viral infection affecting cattle, deer, goats, sheep, swine, and other animals;
 - (5) the most effective means of eradicating foot and mouth disease is by the slaughter of affected animals;

(6) while foot and mouth disease was eradicated in the United States in 1929, the virus could be reintroduced by—

- (A) a single infected animal, an animal product, or a person carrying the virus;
 - (B) an act of terrorism; or
 - (C) other means;
- (7) once introduced, foot and mouth disease can spread quickly through—
- (A) exposure to aerosols from infected animals;
 - (B) direct contact with infected animals; and
 - (C) contact with contaminated feed, equipment, or humans harboring the virus or carrying the virus on their clothing;

(8) foot and mouth disease is endemic to more than 3/5 of the world and is considered to be widespread in parts of Africa, Asia, Europe, and South America;

(9) foot and mouth disease occurs in over 7 different serotypes and 60 subtypes;

(10) as foot and mouth disease outbreaks have occurred, the United States has banned the importation of live ruminants and swine and many animal products from countries affected by foot and mouth disease;

(11) recently, the United States has implemented bans in response to outbreaks in Argentina, the European Union, and Taiwan;

(12) although United States exclusion programs have been successful at keeping foot and mouth disease out of the United States since 1929, recent outbreaks in Argentina, the European Union, and Taiwan are placing an unprecedented strain on our animal health system;

(13) bovine spongiform encephalopathy is a transmissible, neuro-degenerative disease found in cattle;

(14) in cattle with bovine spongiform encephalopathy, the active agent is found primarily in the brain and spinal cord and has not been found in commonly consumed beef products;

(15) bovine spongiform encephalopathy is thought to have an incubation period of several years but is ultimately fatal to cattle within weeks of onset of the active disease;

(16) bovine spongiform encephalopathy was first widely found in 1986 in cattle in the United Kingdom;

(17) bovine spongiform encephalopathy-carrying cattle have been found in cattle in Belgium, Denmark, France, Germany, Ireland, Italy, Liechtenstein, Luxembourg, the Netherlands, Portugal, Spain, and Switzerland;

(18) cattle infected with bovine spongiform encephalopathy originating from the United Kingdom have been found and intercepted in Canada;

(19) since 1989, the Secretary of Agriculture has prohibited the importation of live grazing animals from countries where bovine spongiform encephalopathy has been found in cattle;

(20) other products derived from grazing animals, such as blood meal, bonemeal, fat, fetal bovine serum, glands, meat-and-bone meal, and offal, are prohibited from entry, except under special conditions or under permits issued by the Secretary of Agriculture for scientific or research purposes;

(21) on December 12, 1997, the Secretary of Agriculture extended those restrictions to include all countries in Europe because of concerns about widespread risk factors and inadequate surveillance for bovine spongiform encephalopathy;

(22) on December 7, 2000, the Secretary of Agriculture prohibited all imports of rendered animal protein products from Europe;

(23) Creutzfeldt-Jacob disease is a human spongiform encephalopathy;

(24) on March 20, 1996, the Spongiform Encephalopathy Advisory Committee of the United Kingdom announced the identification of 10 cases of a new variant of Creutzfeldt-Jacob disease;

(25) all 10 patients developed onsets of the disease in 1994 or 1995;

(26) scientific experts (including scientists at the Department of Agriculture, the Department of Health and Human Services, and the World Health Organization) are studying the possible link (including potential routes of transmission) between bovine spongiform encephalopathy and variant Creutzfeldt-Jacob disease;

(27) from October 1996 to December 2000, 87 cases of variant Creutzfeldt-Jacob disease have been reported in the United Kingdom, 3 cases in France, and 1 case in Ireland; and

(28) to reduce the risk of human spongiform encephalopathies in the United States, the Commissioner of Food and Drugs has—

(A) banned individuals who lived in Great Britain for at least 180 days since 1980 from donating blood in the United States; and

(B) established regulations that prohibit the feeding of most animal-derived proteins to grazing animals.

(b) PURPOSE.—The purpose of this Act is to provide the people of the United States and Congress with information concerning—

(1) actions by Federal agencies to prevent foot and mouth disease, bovine spongiform encephalopathy, and related diseases;

(2) the sufficiency of legislative authority to prevent or control foot and mouth disease, bovine spongiform encephalopathy, and related diseases in the United States;

(3) the economic impacts associated with the potential introduction of foot and mouth disease, bovine spongiform encephalopathy, and related diseases into the United States; and

(4) the risks to public health from possible links between bovine spongiform encephalopathy and other spongiform encephalopathies to human illnesses.

SEC. 3. REPORT TO CONGRESS.

MEASURE READ THE FIRST TIME—H.R. 8

Mr. DOMENICI. Mr. President, I understand that H.R. 8, which was just received from the House, is at the desk, and I now ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 8) to amend the Internal Revenue Code of 1986 to phaseout the estate and gift taxes over a 10-year period, and for other purposes.

Mr. DOMENICI. Mr. President, I ask for its second reading and object to my own request on behalf of my colleagues.

The PRESIDING OFFICER. The bill will remain at the desk.

COMMENDING THE BLUE DEVILS OF DUKE UNIVERSITY

Mr. DOMENICI. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 67, submitted earlier by Senators HELMS and EDWARDS.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 67) commending the Blue Devils of Duke University for winning the 2001 National Collegiate Athletic Association Mens Basketball Championship.

There being no objection, the Senate proceeded to consider the resolution.

Mr. HELMS. Mr. President, Monday night, April 2, I was one of the countless North Carolinians—along with students, alumni, and admirers from across the country—watching the Blue Devils of Duke University win the 2001 NCAA Men's College Basketball National Championship.

The talented young men who make up Duke's remarkable team have assembled a fine record in winning its third championship in the last eleven years.

Mr. President, Duke University's Men's Basketball program has indeed achieved a special place in sports history.

North Carolinians have become accustomed to outstanding basketball teams representing our state during the past quarter century. In addition to Duke's three National Championships, the North Carolina Tar Heels brought home the trophy in 1982 and 1993, while the North Carolina State Wolfpack won in 1974 and again in the memorable 1983 tournament when coached by the brave and inspirational Jim Valvano, whom is missed greatly.

But on the April 2 night, after a hard-fought battle with the fine Wildcats of Arizona University, the Duke Blue Devils emerged victorious, 82-72. Led by All-Americans Shane Battier and Jason Williams and boosted by a stellar performance by sophomore sharpshooter Mike Dunleavy, this Duke team is an example of what can be achieved through hard work and dedication.

Mr. President, the 2001 Duke team breezed through the season with customary excellence, finishing tied for first place in the Atlantic Coast Conference regular season, winning or sharing this honor for an unprecedented fifth time in five years. Duke then proceeded to win the ACC championship for the third year in a row.

Coach Mike Krzyzewski has built a much admired program during his 21 seasons at Duke. He recruits talented and committed student-athletes and molds them into a tightly-knit basketball "family". His dedication to the team members has been rewarded with long-lasting relationships between coach and player.

"Coach K's" guidance is often cited by his former players as crucial to each of them realizing his potential both on and off the court.

This program has earned Coach Krzyzewski and his teams not only three national championships, but seven appearances in National Championship games during the past 16 years.

The Duke program is a meaningful example for Americans, especially younger Americans, of determination, perseverance, and success in North Carolina. Day in and day out, whether in the classroom or on the court, the members of this team have shown the country what it takes to be national champions.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 67) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 67

Whereas the 2000-2001 Duke University Blue Devils' men's basketball team (referred to in this resolution as the "Duke Blue Devils") had a spectacular season;

Whereas the Duke Blue Devils finished the regular season with a 26-4 record, claiming a record 5 straight finishes in first place during the Atlantic Coast Conference regular season;

Whereas the Duke Blue Devils won the 2001 Atlantic Coast Conference Tournament Championship, winning the championship of that tournament for the third year in a row;

Whereas the Duke Blue Devils are the first men's basketball team to be a number 1 seed in the National Collegiate Athletic Association's Men's Basketball Tournament during 4 consecutive seasons since that association began seeding teams in 1979;

Whereas the Duke Blue Devils amassed the most wins, 133, in a 4-year period of any National Collegiate Athletic Association men's basketball team in history;

Whereas Shane Battier received the 2001 Naismith Award as men's college basketball Player of the Year;

Whereas Coach Mike Krzyzewski has taken the Duke Blue Devils to 7 national championship games in 16 years;

Whereas Coach Krzyzewski led the Duke Blue Devils to the team's third national championship;

Whereas the Duke Blue Devils are a fine example of academic and athletic dedication and success;

Whereas the team's success during the 2000-2001 season was truly a team accomplishment; and

Whereas the Duke Blue Devils won the 2001 National Collegiate Athletic Association Men's Basketball Championship: Now, therefore, be it

Resolved, That the Senate commends the Blue Devils of Duke University for winning the 2001 National Collegiate Athletic Association Men's Basketball Championship.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 350) was agreed to.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 700), as amended, was read the third time and passed, as follows:

S. 700

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Animal Disease Risk Assessment, Prevention, and Control Act of 2001".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) it is in the interest of the United States to maintain healthy livestock herds;

(2) managing the risks of foot and mouth disease, bovine spongiform encephalopathy, and related diseases in the United States may require billions of dollars for remedial activities by consumers, producers, and distributors of livestock, and animal, and blood products;

(3) the potential introduction of those diseases into the United States would cause devastating financial losses to—

(A) the agriculture industry and other economic sectors; and

(B) United States trade in the affected animals and animal products;

(4) foot and mouth disease is a severe and highly contagious viral infection affecting cattle, deer, goats, sheep, swine, and other animals;

(5) the most effective means of eradicating foot and mouth disease is by the slaughter of affected animals;

(6) while foot and mouth disease was eradicated in the United States in 1929, the virus could be reintroduced by—

(A) a single infected animal, an animal product, or a person carrying the virus;

(B) an act of terrorism; or

(C) other means;

(7) once introduced, foot and mouth disease can spread quickly through—

(A) exposure to aerosols from infected animals;

(B) direct contact with infected animals; and

(C) contact with contaminated feed, equipment, or humans harboring the virus or carrying the virus on their clothing;

(8) foot and mouth disease is endemic to more than 3/4 of the world and is considered to be widespread in parts of Africa, Asia, Europe, and South America;

(9) foot and mouth disease occurs in over 7 different serotypes and 60 subtypes;

(10) as foot and mouth disease outbreaks have occurred, the United States has banned the importation of live ruminants and swine and many animal products from countries affected by foot and mouth disease;

(11) recently, the United States has implemented bans in response to outbreaks in Argentina, the European Union, and Taiwan;

(12) although United States exclusion programs have been successful at keeping foot and mouth disease out of the United States since 1929, recent outbreaks in Argentina, the European Union, and Taiwan are placing an unprecedented strain on our animal health system;

(13) bovine spongiform encephalopathy is a transmissible, neuro-degenerative disease found in cattle;

(14) in cattle with bovine spongiform encephalopathy, the active agent is found primarily in the brain and spinal cord and has not been found in commonly consumed beef products;

(15) bovine spongiform encephalopathy is thought to have an incubation period of several years but is ultimately fatal to cattle within weeks of onset of the active disease;

(16) bovine spongiform encephalopathy was first widely found in 1986 in cattle in the United Kingdom;

(17) bovine spongiform encephalopathy-carrying cattle have been found in cattle in Belgium, Denmark, France, Germany, Ireland, Italy, Liechtenstein, Luxembourg, the Netherlands, Portugal, Spain, and Switzerland;

(18) cattle infected with bovine spongiform encephalopathy originating from the United Kingdom have been found and intercepted in Canada;

(19) since 1989, the Secretary of Agriculture has prohibited the importation of live grazing animals from countries where bovine spongiform encephalopathy has been found in cattle;

(20) other products derived from grazing animals, such as blood meal, bonemeal, fat, fetal bovine serum, glands, meat-and-bone meal, and offal, are prohibited from entry, except under special conditions or under permits issued by the Secretary of Agriculture for scientific or research purposes;

(21) on December 12, 1997, the Secretary of Agriculture extended those restrictions to include all countries in Europe because of concerns about widespread risk factors and inadequate surveillance for bovine spongiform encephalopathy;

(22) on December 7, 2000, the Secretary of Agriculture prohibited all imports of rendered animal protein products from Europe;

(23) Creutzfeldt-Jacob disease is a human spongiform encephalopathy;

(24) on March 20, 1996, the Spongiform Encephalopathy Advisory Committee of the United Kingdom announced the identification of 10 cases of a new variant of Creutzfeldt-Jacob disease;

(25) all 10 patients developed onsets of the disease in 1994 or 1995;

(26) scientific experts (including scientists at the Department of Agriculture, the Department of Health and Human Services, and the World Health Organization) are studying the possible link (including potential routes of transmission) between bovine spongiform encephalopathy and variant Creutzfeldt-Jacob disease;

(27) from October 1996 to December 2000, 87 cases of variant Creutzfeldt-Jacob disease have been reported in the United Kingdom, 3 cases in France, and 1 case in Ireland; and

(28) to reduce the risk of human spongiform encephalopathies in the United States, the Commissioner of Food and Drugs has—

(A) banned individuals who lived in Great Britain for at least 180 days since 1980 from donating blood in the United States; and

(B) established regulations that prohibit the feeding of most animal-derived proteins to grazing animals.

(b) PURPOSE.—The purpose of this Act is to provide the people of the United States and Congress with information concerning—

(1) actions by Federal agencies to prevent foot and mouth disease, bovine spongiform encephalopathy, and related diseases;

(2) the sufficiency of legislative authority to prevent or control foot and mouth disease, bovine spongiform encephalopathy, and related diseases in the United States;

(3) the economic impacts associated with the potential introduction of foot and mouth disease, bovine spongiform encephalopathy, and related diseases into the United States; and

(4) the risks to public health from possible links between bovine spongiform encephalopathy and other spongiform encephalopathies to human illnesses.

SEC. 3. REPORT TO CONGRESS.

(a) PRELIMINARY REPORT.—

(1) IN GENERAL.—Not later than 30 days after the date of enactment of this Act, the Secretary of Agriculture shall submit to the Committees and Subcommittees described in paragraph (2) a preliminary report concerning—

(A) coordinated interagency activities to assess, prevent, and control the spread of foot and mouth disease and bovine spongiform encephalopathy in the United States;

(B) sources of information from the Federal Government available to the public on foot and mouth disease and bovine spongiform encephalopathy; and

(C) any immediate needs for additional legislative authority, appropriations, or product bans to prevent the introduction of foot and mouth disease or bovine spongiform encephalopathy into the United States.

(2) SUBMISSION OF REPORT TO CONGRESS.—The Secretary shall submit the preliminary report to—

(A) the Committee on Agriculture of the House of Representatives;

(B) the Committee on Agriculture, Nutrition, and Forestry of the Senate;
