STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. GRASSLEY:

S. 756. A bill to amend the Internal Revenue Code of 1986 to extend and modify the credit for electricity produced from biomass, and for other purposes; to the Committee on Finance.

Mr. GRASSLEY. Mr. President, I rise today to introduce important tax legislation to help address the current energy shortage in our country. The legislation, entitled the "Growing Renewable Energy for Emerging Needs [GREEN] Act," will extend and expand the tax credit for homegrown, clean-burning, renewable biomass.

As many of my colleagues know, I authorized the section 45 credit in the

Senate and it was included in the Energy Policy Act of 1992. However, the tax credit for the production of energy from biomass is set to expire on January 1, 2002. For this reason, I am introducing legislation to extend and expand the credit to help sustain the many benefits derived from biomass.

Last month, I introduced S. 530 to extend the wind energy portion of section 45, which has been extremely successful. The purpose of today's bill is to extend and expand the biomass portion of section 45 to include technologies such as biomass combustion and cofiring biomass with coal-fired facilities. Formerly, section 45 only allowed the use of closed-loop biomass.

The clean, controlled combustion of biomass, which consists of sawdust, tree trimmings, agricultural byproducts, and untreated construction debris, is another proven, effective technology that currently generates numerous pollution avoidance and waste management public benefits across the nation.

In addition, biomass energy displaces more polluting forms of energy generation while decreasing our dependence on foreign oil. Our national security is currently threatened by a heavy reliance on foreign oil.

Biomass can also produce enormous economic benefits for rural America. Rural economies will grow because of the development of a local industry to convert biomass to electricity. Moreover, studies show that biomass crops could produce between \$2 to \$5 billion in additional farm income.

In order to retain the environmental, waste management, and the rural employment benefits that we could receive from the existing "open-loop" biomass facilities, my bill rewrites section 45 to allow tax credits for clean combustion of wood waste and similar residues in these unique facilities.

Importantly, we have also ensured that the definition of qualifying biomass materials is limited to organic, nonhazardous materials that are clearly proven to burn cleanly without any pollution risk. Also, to allay any concern that biomass plants might burn paper and thus possibly jeopardize the amount of paper that is available to be recycled, I have specifically excluded paper that is commonly recycled from the list of materials that would qualify for the credit.

I believe this bill provides a common sense combination of current and new technologies to help maintain the economic, environmental and waste management benefits derived from biomass power. The current electricity shortage in California and the soaring prices of home heating fuel and natural gas this winter are reasons enough to support and accelerate this renewable energy.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. SPECTER:

S. 757. A bill to designate the Federal building and United States courthouse located at 504 West Hamilton Street in Allentown, Pennsylvania, as the "Edward N. Cahn Federal Building and United States Courthouse"; to the Committee on Environment and Public Works.

Mr. SPECTER. Mr. President, I rise today to introduce legislation to name the Federal building and courthouse in Allentown, Pennsylvania for retired Judge Edward N. Cahn. Judge Cahn, a native Pennsylvanian and resident of the Lehigh Valley, served with distinction on the Federal bench for 23 years, including 5 years as chief judge.

Judge Cahn attended school at Lehigh University and graduated magna cum laude in 1955. He went on to receive a law degree from Yale University in 1958 and began practicing law in Allentown in 1959. His accomplishments on the basketball court as a 1,000 point scorer for Lehigh University translated into his later success in another court, when President Ford nominated him to be a federal judge in 1974.

Judge Cahn was instrumental in helping build Allentown's new courthouse, which opened in 1995. This beautiful structure is a symbol for the resurgence of the Lehigh Valley, and it is only fitting that the courthouse should bear the name of an individual who did so much to help his community. His dedication to his work and fairness were well recognized throughout Pennsylvania and it is my hope that future jurists who serve in this courthouse will uphold those same ideals.

On February 28, 2001, the House unanimously passed an identical measure, H.R. 558, introduced by my colleagues, Congressmen PATRICK TOOMEY and TIM HOLDEN. I am hopeful that the Senate will also see fit to pass my bill, and I urge my colleagues to join me in honoring Judge Edward N. Cahn.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:
