TRIBUTE TO DR. JAY C. DAVIS

● Mr. DOMENICI. Mr. President, I wish to take this opportunity to recognize the accomplishments of Dr. Jay C. Davis, the first Director of the Defense Threat Reduction Agency, more commonly known as "DTRA." Jay completes his tenure as the Director on June 21, 2001 and will be returning to Lawrence Livermore National Laboratory.

In October 1998, the Defense Threat Reduction Agency was established by the Department of Defense to respond to the growing threat posed by the proliferation of nuclear, chemical, and biological weapons, so called "weapons of mass destruction" or WMD. DTRA was charged to integrate and focus the capabilities of the Department on the present and future WMD threat.

The new Agency needed a Director and the Department picked Jay to establish the Agency, provide its vision, and assure its rapid success. Jay's accomplishments make him an excellent choice for this job. While Jay, a nuclear physicist, had spent the majority of his career at Lawrence Livermore National Laboratory, he's been active in treaty verification and nonproliferation technologies, as well as the design of research and development collaborations.

He served as scientific advisor to the United Nations Secretariat, several US agencies, and to the scientific agencies of the governments of Australia and New Zealand. He participated in two UN inspections in Iraq. Jay is a Fellow of the American Physical Society and was one of its Centennial Lecturers in its 100th Anniversary Year. The author of more than seventy published works in his discipline, he also holds three patents on analytical techniques and applications.

During his three years at DTRA, Jay created an agency that is widely respected. Today, DTRA performs many important missions. It is partnered with the Commanders-in-Chief of the combatant commands, the Services, and the Department of Energy on the maintenance of the physical and doctrinal components of our nuclear deterrent. It provides warfighters with tools to prevail against WMD. DTRA also executes all arms control treaty inspections, cooperative agreements, and technology control activities in the Department of Defense. In addition, Jay has been instrumental in leading and defining the Department's role in supporting local and state agencies in WMD terrorism response operations. Under his leadership, DTRA has contributed significantly to the evolving concept of homeland defense.

Jay has twice been awarded the Distinguished Public Service Medal by the Secretary of Defense, DoD's highest ci-

vilian award, for his contributions to national security.

He and his wife May soon will return to the Livermore valley, where he will become the first National Security Fellow at the Lab's Center for Global Security Research. In this new position, Jay will do what he does best, bringing together scientists and technologists with policy analysts to study ways in which technology can enhance national security. I congratulate Jay on all his accomplishments at DTRA and wish him the best in his future endeavors at Lawrence Livermore National Laboratory.●

MESSAGES FROM THE PRESIDENT

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-54. A joint resolution adopted by the Legislature of the State of Alaska relative to the Arctic National Wildlife Refuge; to the Committee on Energy and Natural Resources.

LEGISLATIVE RESOLVE NO. 5

Whereas, in sec. 1002 of the Alaska National Interest Lands Conservation Act (ANILCA), the United States Congress reserved the right to permit further oil and gas exploration, development, and production within the coastal plain of the Arctic National Wildlife Refuge, Alaska; and

Whereas, the oil industry, the state, and the United States Department of the Interior consider the coastal plain to have the highest potential for discovery of very large oil and gas accumulations on the continent of North America, estimated to be as much as 10,000,000 barrels of recoverable oil; and

Whereas, the "1002 study area" is part of the coastal plain located within the North Slope Borough, and residents of the North Slope Borough, who are predominantly Inupiat Eskimo, are supportive of development in the "1002 study area"; and

Whereas, oil and gas exploration and development of the coastal plain of the refuge and adjacent land could result in major discoveries that would reduce our nation's future need for imported oil, help balance the nation's trade deficit, and significantly increase the nation's security; and

Whereas domestic demand for oil continues to rise while domestic crude production continues to fall with the result that the United States imports additional oil from foreign sources; and

Whereas development of oil at Prudhoe Bay, Kuparuk, Endicott, Lisburne, and Milne Point has resulted in thousands of jobs throughout the United States, and projected job creation as a result of coastal plain oil development will have a positive effect in all 50 states; and

Whereas Prudhoe Bay production is declining by approximately 10 percent a year; and

Whereas, while new oil field developments on the North Slope of Alaska, such as Alpine, Badami, and West Sak, may slow or temporarily stop the decline in production, only giant coastal plain fields have the theoretical capability of increasing the production volume of Alaska oil to a significant degree; and

Whereas opening the coastal plain of the Arctic National Wildlife Refuge now allows sufficient time for planning environmental safeguards, development, and national security review; and

Whereas the 1,500,000-acre coastal plain of the refuge makes up only eight percent of

the 19,000,000-acre refuge, and the development of the oil and gas reserves in the refuge's coastal plain would affect an area of only 2,000 to 7,000 acres, which is less than one-half of one percent of the area of the coastal plain; and

Whereas 8,000,000 of the 19,000,000 acres of the refuge have already been set aside as wilderness; and

Whereas the oil industry has shown at Prudhoe Bay, as well as at other locations along the Arctic coastal plain, that it can safely conduct oil and gas activity without adversely affecting the environment or wildlife populations; and

Whereas the state will ensure the continued health and productivity of the Porcupine Caribou herd and the protection of land, water, and wildlife resources during the exploration and development of the coastal plain of the Arctic National Wildlife Refuge, Alaska; and

Whereas the oil industry is using innovative technology and environmental practices in the new field developments at Alpine and Northstar, and those techniques are directly applicable to operating on the coastal plain and would enhance environmental protection beyond traditionally high standards; be it

Resolved by the Alaska State Legislature, That the Congress of the United States is urged to pass legislation to open the coastal plain of the Arctic National Wildlife Refuge, Alaska, to oil and gas exploration, development, and production, and that the Alaska State Legislature is adamantly opposed to further wilderness or other restrictive designation in the area of the coastal plain of the Arctic National Wildlife Refuge, Alaska; and be it further

Resolved, That that activity be conducted in a manner that protect the environment and naturally occurring population levels of the Porcupine Caribou herd and uses the state's work force to the maximum extent possible; and be it further

Resolved, That the Alaska State Legislature opposes any unilateral reduction in royalty revenue from exploration and development of the coastal plain of the Arctic National Wildlife Refuge, Alaska, and any attempt to coerce the State of Alaska into accepting less than the 90 percent of the oil, gas, and mineral royalties from the federal land in Alaska that was promised to the state at statehood.

Copies of this resolution shall be sent to the Honorable George W. Bush, President of the United States; the Honorable Richard B. Cheney, Vice-President of the United States and President of the U.S. Senate; the Honorable Gale Norton, Secretary of the Interior, the Honorable J. Dennis Hastert, Speaker of the U.S. House of Representatives; the Honorable Trent Lott, Majority Leader of the U.S. Senate; to the Honorable Ted Stevens and the Honorable Frank Murkowski, U.S. Senators, and the Honorable Don Young, U.S. Representative, members of the Alaska delegation in Congress; and to all other members of the U.S. Senate and the U.S. House of Representatives serving in the 107th United States Congress.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. SPECTER, from the Committee on Veterans' Affairs:

Special Report entitled "Legislative and Oversight Activities During the 106th Congress by the Senate Committee on Veterans' Affairs" (Rept. No. 107-17).
