

our Buffalo Soldiers. I would like to urge all Americans to honor the Buffalo Soldiers for the strength, valor, dedication, and courage they exhibited during their service. The sacrifices they made allow us to live as we do today—in a proud and free United States of America.

RECOGNITION OF JOHN SAUER—
OLDER AMERICANS MONTH

Mr. GRASSLEY. Mr. President, since 1963, the month of May has helped the nation focus on the contributions and achievements of America's older citizens. Fewer people over the age of 65 require nursing home care and more are living on their own, with little or no outside help. Older Americans increasingly redefine modern maturity, re-shape cultural boundaries and dispel age-related stereotypes associated with getting older. They are leaders in our families, in our workplaces and in our communities.

One of these leaders is a 76-year-old man from Mechanicsville, IA. John Sauer understands the value of helping others. Through his initiative, compassion and commitment, he has touched the lives of many in his community.

Mr. Sauer began volunteering with the local seniors group in 1992. At that time, he responded to a request from a friend to help out with the group for a short time. Today, not only does he continue to volunteer in Cedar County, but he also serves seniors in six other counties as chairman of the advisory council of the Heritage Area Agency on Aging.

Although Mr. Sauer has always been active in the community service, he took on many of his current activities after he retired from farming in 1994. At that time, Mr. Sauer became increasingly involved with county senior citizens groups. He joined the transportation board of the Cedar County Senior Citizens task force and began providing transportation for older people in his area who were unable to drive. Two or three times a week, Mr. Sauer drives seniors to and from doctor and hospital visits in Cedar Rapids and Iowa City, both 25 miles away from Mechanicsville. The service Mr. Sauer provides is invaluable to those people who otherwise would have no way to make those important visits.

Mr. Sauer is also committed to serving the visually impaired. For 37 years, Mr. Sauer has been an active member of Lions Club International, a service organization recognized for their help to the blind and visually impaired. In 1994, Mr. Sauer became an Iowa district director for the organization. In that position, he traveled around the United States and Canada representing the state at various meetings and events for the service club.

In addition, Mr. Sauer has volunteered in the Ophthalmology Department at the University of Iowa Hospitals for the past 4 years. He greets people from across the Midwest who come to the

hospital for care and guides them to their appointments. Mr. Sauer says he enjoys volunteering at the hospital because he likes meeting new people from various locations.

Mr. Sauer also enjoys learning new things. Three years ago, he became a member of the Eastern Iowa Mutual Insurance Board. Although his background was not in insurance, Mr. Sauer accepted the challenge of serving on the board and has enjoyed learning about the industry. He's also been active in the local schools, serving as a member of the school board and most recently on the school foundation. In addition, Mr. Sauer is an active member in his church and in the American Legion.

A devoted family man, Mr. Sauer has been married to his wife Kathleen for 51 years. The couple has three children and five grandchildren.

I want to thank Mr. Sauer for his contributions to the people of Cedar County. His initiative and compassionate concern for others is an example to us all that we should always be willing to contribute, no matter what our age.

ADDITIONAL STATEMENTS

IN HONOR OF DON LAUER

• Mr. JOHNSON. Mr. President, I rise today with pride to remark on the extraordinary public service career of Dr. Donald Lauer. For over twenty-five years, Dr. Lauer has played a key leadership role at the Earth Research Observation Systems, EROS, Data Center near Sioux Falls, South Dakota, and for over a decade has served as Chief at EROS.

Under the jurisdiction of the United States Geological Survey, the EROS Data Center holds one of the world's largest collections of images of the earth's land surface. These incredibly valuable images are managed and distributed by EROS personnel to scientists, policy makers and educators worldwide. The data is used to study a wide range of natural hazards, global environmental change and economic and conservation issues.

EROS is also now home to the United Nations Environmental Programme's, UNEP, Division of Environmental Information, Assessment and Early Warning office in North America. South Dakotans are proud to host this important United Nations office within our state.

The great success of EROS is due in significant portion to the outstanding leadership provided over the years by Dr. Lauer. His scientific, and management skills have proven invaluable as the role of EROS has expanded and become ever more complex. He has played a key role in facilitating a recent multimillion dollar transfer of NASA earth images to the UNEP, and their placement at EROS.

Beyond all this, Dr. Lauer has also provided important leadership for the

Sioux Falls community. He currently serves on the Board of Directors for Sioux Valley Hospital, and has had a career long interest in the health and education of his fellow citizens.

I am pleased that Dr. Lauer will remain with the United States Geological Survey as an Emeritus Scientist, and that he plans to continue his residence in Sioux Falls. His vision and commitment to science will continue to well serve the people of the United States and of the world.

Dr. Lauer's life and career serve as models for public servants throughout our nation. I take this opportunity to thank him for all he has accomplished at EROS, and wish him well on all his future challenges and opportunities.●

MESSAGES FROM THE HOUSE

At 10:17 a.m., a message from the House of Representatives, delivered by Mr. Rota, one of its clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 1836) entitled "An Act to provide for reconciliation pursuant to section 104 of the concurrent resolution on the budget for fiscal year 2002."

At 10:36 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 146. Concurrent resolution providing for a conditional adjournment of the House of Representatives and a conditional recess or adjournment of the Senate.

The message also announced that pursuant to section 1092(b) of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398), the Minority leader appoints the following individual to the Commission on the Future of the United States Aerospace Industry: R. Thomas Buffenbarger of Brookeville, Maryland.
