STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CAMPBELL (for himself, Mr. INOUE, Mr. DASCHLE, Mr. JOHNSON, and Mr. BURNS):

S. 1210. A bill to reauthorize the Native American Housing Assistance and Self-Determination Act of 1996; to the Committee on Indian Affairs.

Mr. CAMPBELL. Mr. President, I am pleased to be joined by Senators INOUE, DASCHLE, JOHNSON, and BURNS in introducing a bill that reauthorizes the Native American Housing Assistance and Self-Determination Act, NAHASDA, of 1996, P.L. 104-330. As many of my colleagues know, NAHASDA promotes tribal self-determination and self-sufficiency as it builds upon the government-to-government relationship that exists between Indian tribes and the Federal Government.

NAHASDA became effective on October 1, 1997 and provides a single, flexible block grant for tribes or tribally-designated housing entities, TDHE, to administer Federal housing assistance. Under this block grant system, NAHASDA empowers tribes to determine local needs and authorizes tribal decision making when it comes to Indian housing policy.

Before NAHASDA, the Federal Government dictated the planning, financing and building of Indian housing. Since NAHASDA's enactment, tribes are in the "driver's seat," and have the right to make certain decisions with regard to resource allocation; and also have the responsibility to determine the needs of their members and to make every effort to satisfy those needs.

In the past five years, NAHASDA has assisted tribes in making great strides in the quality and quantity of housing provided to Indian and Alaska Native communities. In fact, HUD estimates that over 25,000 new units of housing have been placed in Indian and Alaska

Native communities under NAHASDA. This number is 10 times the maximum annual number of units provided for Indian communities under the previous Indian housing program.

Even with all the success of NAHASDA, Indian communities continue to live in the worst housing conditions in the United States. In fact, Indian housing is often and justifiably compared to the conditions present in Third World countries. Some of the startling statistics that characterize housing in Indian communities show that: 1 out of every 5 Indian homes lacks complete plumbing; 40 percent of homes on Indian lands are overcrowded and have serious physical deficiencies; and 69 percent of homes on Indian lands are severely overcrowded with up to 4 or 5 families living in the same two bedroom house.

These statistics illustrate that there is still much work to be done. NAHASDA has been a good first step in improving living conditions in Indian and Alaska Native communities, however there is still a tremendous need for adequate housing in these communities.

In the first few years of NAHASDA implementation, some bumps in the road were experienced. To provide a better transition from the old HUD dominated regime to the new policies of NAHASDA, I introduced a bill to provide technical amendments to strengthen and clarify NAHASDA. These technical amendments were necessary to ensure the proper implementation and enforcement of NAHASDA. With the recent enactment of the Native American Housing Assistance and Self-Determination Act Amendments of 1999, P.L. 106-568, NAHASDA is better suited to meet its goals and responsibilities.

The bill I am introducing today will extend NAHASDA for an additional five years. With the groundwork now laid, both Indian tribes and HUD should be able to provide improved housing assistance to Indian and Alaska Native communities.

Moreover, the extension of NAHASDA will encourage greater utilization of NAHASDA programs including its Title VI Loan Guarantee program, designed to aid tribes in leveraging federal funds in partnership with the private sector.

As Chairman of the Committee on Indian Affairs, I am committed to ensuring that NAHASDA is implemented in a fair, efficient and productive manner. It is my hope that the enactment of certain technical amendments in P.L. 106-568, and the reauthorization of NAHASDA will ensure improved housing assistance to all Indian and Alaska Native communities for years to come.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1210

By Mr. HOLLINGS (for himself and Mr. GRAHAM):

S. 1214. A bill to amend the Merchant Marine Act, 1936, to establish a program to ensure greater security for United States seaports, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. HOLLINGS. Mr. President, I rise today to introduce the Port and Maritime Security Act of 2001. This legislation is long overdue. It is needed to facilitate future technological and advances and increases in international trade, and ensure that we have the sort of security control necessary to ensure that our borders are protected from drug smuggling, illegal aliens, trade fraud, threats of terrorism as well as potential threats to our ability to mobilize U.S. military force. I introduced similar legislation in the last Congress, but time did not allow us to proceed any further with the legislative process. However, this is just too important an issue to let it go by, and I intend to work with Senator GRAHAM, and others to try and craft a policy to help protect our maritime borders.

The Department of Transportation recently conducted an evaluation of our marine transportation needs for the 21st Century. In September 1999, then Transportation Secretary Slater issued a preliminary report of the Marine Transportation System, (MTS) Task Force—An Assessment of the U.S. Marine Transportation System. The report reflected a highly collaborative effort among public sector agencies, private sector organizations and other stakeholders in the MTS.

The report indicates that the United States has more than 1,000 channels and 25,000 miles of inland, intracoastal, and coastal waterways in the United States which serve over 300 ports, with more than 3,700 terminals that handle passenger and cargo movements. These waterways and ports link to 152,000 miles of railways, 460,000 miles of underground pipelines and 45,000 miles of
