

reasonable that we consider and talk about the possibility that those inspections in agriculture that are just looking for what is allowed into this country or maybe some insects need to team up and have a greater ability to add to the energy of HEW in terms of the food health inspection.

To assure credibility and integrity, I would ask that the two statements opposing and supporting my amendment yesterday also be entered into the RECORD at this point.

HOUSE OF REPRESENTATIVES,
Washington, DC, October 3, 2001.

“There’s a lot of medium-sized farmers that need help, and one of the things that we’re going to make sure of as we restructure the farm program next year is that the money goes to the people it’s meant to help.”—President George W. Bush, August, 2001

DEAR COLLEAGUE: Few people are aware that many of our farm commodity programs, for all of their good intentions, are set up to disburse payments with little regard to farm size or financial need. Often in our rush to provide support for struggling farmers we overlook just where that support is going:

This amendment only limits price supports, not AMTA, conservation, or any other type of farm payment.

The largest 18 percent of farms receive 74 percent of federal farm program payments.

In 1999, 47 percent of farm payments went to large commercial farms, which had an average household income of \$135,000.

The bulk of benefits over \$150 thousand paid out on the 2000 harvest went to cotton and rice farmers—in fact, two large rice cooperatives in Arkansas collected nearly \$150 million between them.

Unlimited government price supports for program commodities disproportionately skews federal farm aid to the largest of producers while encouraging overproduction and allowing the largest producers to become even larger. Let’s do more to be fair to small and moderate size family farm operations by establishing meaningful, effective payment limitations.

CBO Has Scored This Amendment as Saving
\$1.31 Billion!

Support the Smith-ArmeY-Blumenauer-McInnis-Shays amendment on federal price support limitations

Sincerely,

NICK SMITH,
Member of Congress.

Representative Smith states that his amendment will only affect the very largest of recipients.

Mr. Smith is wrong.

He claims that it would take 1,950 acres of cotton or 17,000 acres of rice to reach the payment limit he references. In reality, it would take 432 acres of cotton or 700 acres of rice.

What the Smith amendment will do: Compromises the integrity of the agricultural marketing system; punishes medium-size farmers, the very ones he claims to be helping; adversely affects producers who use marketing certificates; and drastically reduces the effectiveness of the marketing loan

Oppose the Nick Smith Amendment

I would like to add that less than 1 percent of imported food is inspected and that there were over 76 thousand reported food poisoning last year.

It is generally agreed that the 21st century brings with it a new era in the biological

sciences with advances in molecular biology and biotechnology that promise longer, healthier lives and the effective control, perhaps elimination of a host of acute and chronic diseases. The prospects are bright but there is a dark side—the possibility that infectious agents might be developed and produced as offensive weapons; that new or emergent infections, like HIV/AIDS or old diseases or other pathogens need to be guarded against at our borders.
