STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HOLLINGS for himself, Mr. BIDEN, Mr. BREAUX, Mr. CLELAND, Mr. SCHUMER, Mr. KERRY, Mr. ROCKEFELLER, Mr. CARPER, Mr. JEFFORDS, and Mr. DURBIN):

S. 1530. A bill to provide improved safety and security measures for rail transportation, provide for improved passenger rail service, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. HOLLINGS. Mr. President, one month ago today, the United States was attacked by terrorists who hijacked airplanes and used them as weapons against the World Trade Center, Pentagon and another unknown target which was crashed into a field in Pennsylvania. After the Federal Aviation Administration grounded the airlines following the terrorist attacks, travelers flocked to Amtrak. Whether people had to travel for business, to help with rescue efforts, or just to get home, Amtrak kept our American citizens moving during a time of national emergency.

The situation not only proved that Amtrak works, but that Amtrak is a critical part of our transportation infrastructure during a national emergency. Now that airlines have reduced their flights on the East Coast and throughout the country, more of the passenger burden has fallen on Amtrak, which carries 35,000 passengers along the Northeast Corridor everyday. Even the U.S. Postal Office carried 237 extra carloads of mail in the days following the terrorist attacks.

Today I am introducing the Railroad Advancement and Infrastructure Law of the 21st Century, or RAIL-21. In the short run, this bill will provide emergency security assistance to Amtrak, a key part of our national transportation infrastructure. In the long run, this bill will spark the building of important high-speed rail infrastructure in high-volume corridors across the United States, reducing our dependence on air and highway travel.

In light of the events of September 11, it is important to look at the entire transportation system. Transportation security requires a balanced and competitive system of transportation alternatives. Three weeks ago we found out that our dependence on the aviation system almost crippled us. We cannot be overly reliant on any single mode of transportation; we need to ensure that we have a balanced system.

Today we are trying to pass the airline security bill to make airline passengers feel safe so they will fly again. We need to make passengers feel just as safe when they travel by train. And we need to make sure we have transportation alternatives.

To address Amtrak's immediate concerns, the bill would authorize \$3.2 billion in emergency spending for Amtrak's security and capacity needs. The money will pay for more police, surveillance, fencing and lighting at the train stations and train yards; life-safety improvements and more fire-fighting capacity for tunnels in New York, Baltimore and Washington, D.C.;
