

appropriate federal trial court within three years of the date of the violation. Suits against any person, organization, or employer responsible for a violation may seek lost wages and benefits; reinstatement; attorneys' fees and costs; compensatory and punitive damages; and equitable, injunctive, and other appropriate relief.

Remedy for Inconsistent Coverage. One of the purposes of the bill, according to Tom Devine, executive director of the Government Accountability Project, a nonprofit groups based in Washington, D.C., is to put teeth into the congressional right-to-know law, the Lloyd LaFollette Act of 1912. While that bill made whistleblower retaliation illegal, he said, it did not provide for a legal remedy. Various whistleblower statutes provide administrative remedies for federal and nonfederal workers, but the coverage of those laws is inconsistent, Devine said in talking points prepared for a Feb. 27 press event to announce the introduction of the new legislation.

Legislation introduced by Sen. Daniel K. Akaka (D-Hawaii) June 7, 2001, in the Senate and by Rep. Constance A. Morella (R-Md.) July 23, 2001, in the House as S. 995 and H.R. 2588, respectively, would strengthen the Whistleblower Protection Act, which is designed to protect federal whistleblowers (39 GERR 865, 8/7/01). Among other things, the Akaka and Morella bills would clarify what types of information disclosures are protected from prohibited personnel practices such as retaliation.

IN TRIBUTE TO AL AGOVINO

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 16, 2002

Mr. ENGEL. Mr. Speaker, Al Agovino is a man who knows how to give of himself. He started, officially, in the Pacific Theater with Motor Torpedo Squadron 36 and was awarded five Battle Stars.

Back home in the Bronx he has also been generous with his time and ability. At St. Benedict's Church he has been President of the Holy Name Society and Co-ordinator of the Church Ushers and of the Blood Bank. He has been Grand Knight of St. Luke's Council of the Knights of Columbus. He has served on the New York State Autism Advisory Council. He also serves on the Bronx Consumer Council.

He has also served on the Bronx Developmental Disabilities Service Office Parent Association, on the Human Resources Administration Advisory Council, and on the New York State Commission on Quality Care for the Mentally Disabled Advisory Council.

If that wasn't enough he has been a vital advocate for parents and for all people with developmental disabilities and their families. He has served on the Board of the Association for the Help of Retarded Children and in that capacity rarely missed a meeting in over twenty years. His presence has made AHRC a force in its field.

More immediately, I rise today to speak of Mr. Agovino with some sadness, for he is retiring from the Board of Visitors Association after 25 years of constant and devoted service. The Board oversees conditions and the quality of life offered to patients in the State Psychiatric and Developmental Centers. While on the Board, to which he was named by the Gov-

ernor and confirmed by the State Senate, he also served on many committees including Government Relations and Geriatric, and was also President of the New York State Association of Boards of Visitors. His leaving will leave a hole in our hearts and our abilities.

Al and his wife Vera have been married for 55 years. They had six children who in turn gave them six grandchildren. I offer him my sincerest congratulations for all he has done, and it is a lot. I join with the countless others he knows and has helped in wishing the very best in all that he does. He has made the world a better place.

MONINA SUNGA RECIPIENT OF 2001
PRESIDENTIAL AWARD FOR EXCELLENCE IN MATHEMATICS
AND SCIENCE TEACHING
(PAEMST)

HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 16, 2002

Mr. UNDERWOOD. Mr. Speaker, the Presidential Awards for Excellence in Mathematics and Science Teaching Program (PAEMST) is designed to recognize our nation's outstanding teachers. Administered by the National Science Foundation (NSF), recipients of the program's awards serve as role models for peers. They focus interest upon the teaching profession, encourage high quality teachers to remain in the field of education, and generate the enthusiasm required to foster the next generation of teachers.

One of the outstanding individuals to be honored this year is Ms. Monina Sunga, a science teacher from the Vicente S.A. Benavente Middle School in Dededo, Guam. Monina joined fellow-awardees from all over the United States in a visit to our Nation's capital where they were honored for their achievements. During her visit to Washington, DC, she had the opportunity to meet and confer with government and education officials along with other awardees. Having received this honor, she became part of a growing network of exceptional teachers.

Monina has been described as "a teacher who takes a hand, opens a mind and touches a heart." To her students, she is a counselor, supporter and friend. Having been a teacher on Guam for more than twenty-five years, Monina claims to have found the "fountain of youth" within her mind and within her classroom. Convinced that her youthful disposition is derived from her students, she has made it known that she intends to say as a classroom instructor for as long as she is able to do so. To her fellow teachers she imparts the knowledge that the true joy of teaching is achieved when teachers ultimately inspire students to learn.

As a science teacher, Monina found that going beyond the assigned readings is a very efficient method of teaching the subject. She firmly believes that healthy interaction in conjunction with hands-on training for the children are keys to successful learning. She encourages her students to use their natural environment as their laboratories. Her students are acquainted with learning tools derived from the simplest of things and they respond with great enthusiasm to her teaching method.

In addition to the prestige Monina brings to her school and the pride she instills in her students, the rewards of being a PAEMST awardee also includes a grant of \$7,500 which will be employed for the benefit of her school. This goes a long way towards furthering her goals and examples.

It gives me great pleasure to recognize and highlight the contributions of Ms. Monina Sunga and her fellow teachers. Having been a former classroom teacher herself, I am aware of the sacrifices and high standards expected from those in the teaching profession. I would like to take this opportunity to express my appreciation and admiration for the teachers whose constant contributions instill exemplary values and shape the lives of our children, our communities and our future.

COMMEMORATING THE TAIWAN RELATIONS ACT

HON. MARK STEVEN KIRK

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 16, 2002

Mr. KIRK. Mr. Speaker, as we mark the 23rd anniversary of the Taiwan Relations Act today, I wish to comment on the special relationship between the United States and Taiwan.

In 1978, President Jimmy Carter switched diplomatic recognition from the Republic of China to the People's Republic of China. To ensure Taiwan would continue to prosper and grow, Congress passed the Taiwan Relations Act in 1979. For the last twenty-three years, the Taiwan Relations Act has worked exceedingly well, providing Taiwan with the necessary security, while reminding the Chinese mainland not to use force against this flourishing democracy. On this 23rd anniversary, it is important to remind everyone that the United States stands behind the spirit of the Taiwan Relations Act.

The United States continues to enjoy a longstanding and healthy relationship with Taiwan. The people of Taiwan have always stood shoulder to shoulder with us, and we should stand by them as well. I rise today in recognition of these continued positive relations between Taiwan and the United States.

JEREMY J. WARREN'S HONOR FOR SERVICE ON SEPTEMBER 11, 2001

HON. LARRY COMBEST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 16, 2002

Mr. COMBEST. Mr. Speaker, I rise today to commend Jeremy J. Warren for his selfless service to citizens of the United States during the September 11 tragedy in New York.

Jeremy and 11 of his classmates at the United States Merchant Marine Academy were called to aid in rescue efforts merely hours after the World Trade Centers collapsed. Jeremy used his extensive rescue training to help search the debris during the critical post-collapse hours in hopes of finding survivors. Jeremy worked at ground zero through the night and was relieved from the operation in the early morning hours of September 12.
