

Grace Omega Garces for having been selected for the U.S. Environmental Protection Agency's 2002 Environmental Achievement Award. This award recognizes individuals who have done exceptional work and have shown commitment to the environment. Grace is the public information and education officer for the Guam Environmental Protection Agency.

Under this capacity, Grace has directed and implemented the Guam EPA's public information, community outreach and environmental education programs through the use of strategic planning to create an educated and informed citizenry. She has also been in charge of enhancing the agency's public profile and credibility through media releases and updates. She has made determinations on the forms, messages, audiences and desired impacts of high-quality communications products regarding the Guam EPA and Guam's natural resources. Part of her responsibilities included serving as adjunct risk communications officer for contingencies such as the Supertyphoon Paka Disaster, the Ordot Landfill Fire, the Orote Landfill Seafood Warning, the Installation Restoration Project, the Agana Swamp PCB Warnings, the Agana Power Plant and the Base Realignment and Closure Project. She has also produced and conceptually developed the Guam EPA website.

The youngest of Joe and Nieves Garces' five children, Grace was born and raised on the island of Guam, graduating from Oceanview High School in Agat, Guam. While in high school, she was inducted into the national honor society and was elected student body president. She received the Soroptimist International of the Mariana Youth Citizenship Award and was selected as youth ambassador to Japan for the Blue Sea and Green Land Foundation Guam/Japan Youth Exchange in the summer of 1996. She was also a co-captain of the cheerleading squad.

Dedicated to the pursuit of higher education, Grace earned a Bachelor of Arts from the University of California, San Diego. She majored in both Political Science and History with minors in Economics and Advanced Calculus. In June of this year, a Master of Public Administration degree was conferred upon her by the University of Guam. While at the University of Guam, she was the recipient of the Dr. Pedro C. Sanchez Professional Scholarship.

Grace's work experience include a wide variety of posts in both the private and public sector. Prior to her employment with the Guam EPA, she worked, on several occasions, as an aide and a consultant to local senators. She has both been a freelance writer and a copy editor for the local daily newspaper. She has also been a volunteer broadcaster and radio program host for Guam Public Radio. While in college, she was the executive director of the university's Associated Students Internship Office and later became a Research Assistant and Fellow.

In addition to this recent award, Grace has also been the recipient of a number of local, regional and national honors and awards. The Government of Guam Bureau of Women's Affairs named her the Outstanding Woman of the Year for Local/Federal Government in 2002. She has received a number of awards and nominations for the Governor of Guam's Employee Recognition Program. For several years running, she has also been given the honor of making presentations in regional and national EPA conferences.

The hard work and dedication of Grace Garces brings much welcomed recognition, focus and attention to the island of Guam. I applaud her efforts and urge her to keep up the good work.

HONORING DEAN KAMEN, NEW HAMPSHIRE'S MODERN DAY THOMAS EDISON, FOR HIS WORK ON BEHALF OF ALL PEOPLE AND RECOGNITION BY THE JUVENILE DIABETES RESEARCH FOUNDATION

### HON. CHARLES F. BASS

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

Friday, June 21, 2002

Mr. BASS. Mr. Speaker, I am honored to bring to the attention of the United States House of Representatives Assembled, the contributions that my friend Dean Kamen has made toward improving the health, productivity, freedom, and aspirations of people around the world. I therefore request the following proclamation be made part of the permanent CONGRESSIONAL RECORD of the United States of America:

Whereas, Dean Kamen and his inventions have improved the lives of millions of people around the world; and

Whereas, Dean Kamen has captured the hope and imagination of all citizens who remain convinced that he will one day unlock even more secrets of physics, engineering, and biology to revolutionize the way we live; and

Whereas, Dean Kamen has sought to inspire younger generations and many others the drive to study and surpass the known boundaries of humanity and science, by organizing and ceaselessly promoting For Inspiration and Recognition of Science and Technology (FIRST); and

Whereas, Dean Kamen has made residents of the Great State of New Hampshire proud of his successes and appreciate his loyalty to the Granite State's way of life; and

Whereas, Dean Kamen on this day has been named "Person of the Year" by the Juvenile Diabetes Research Foundation New England Chapter—New Hampshire Branch;

Now, therefore, be it Resolved by the House of Representatives that Congress congratulates Dean Kamen on his award and thanks him for his many contributions to our society.

On this date, at the House of Representatives, in Washington, D.C.

A TRIBUTE TO LANDON DONOVAN AND THE U.S. WORLD CUP TEAM

### HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 21, 2002

Mr. LEWIS of California. Mr. Speaker, Americans have found a new set of sports heroes in the past through weeks as we have watched the breathtaking performance of the U.S. men's team in the World Cup soccer championship. While the entire team has won the hearts and cheers of the nation for going further than any U.S. team in 72 years, my

constituents and I are particularly proud of a native son, Landon Donovan of Redlands.

A former student at Redlands East Valley High School, Landon Donovan can rightfully be called a soccer prodigy. Quickly moving on from the Youth soccer leagues in my San Bernardino County district, Landon was the most valuable player for the Under17 World Championship as a 16-year-old in 1999 and played for the U.S. team in the 2000 Olympics.

His promise was recognized by one of Europe's top soccer teams when he was recruited by the German club Bayer Leverkusen. But his real potential was revealed in 2001 when he joined the San Jose Earthquakes of the professional Major Soccer League and led the team to the national championship.

Landon Donovan's impact on the World Cup has mirrored that of the U.S. team. He has taken on some of the world's best players and shown that he can be competitive with anyone. He scored a goal in the first U.S. match against Portugal and very nearly scored another. He scored the only goal in a loss to Poland. And he was named the "Man of the Match" in the U.S. team's win over Mexico after scoring the team's second goal and nearly scoring another.

Thanks to the speed and determination of Landon Donovan and his teammates, this year's U.S. team went further in the World Cup than any time in the past 72 years. In their final match against Germany, one of the elite teams, they pressured the German goal again and again. Donovan broke away for four shots on his own, and forced the German keeper to make desperate saves each time. The German victory at 1-0 ended the U.S. run, but will in no way lessen our pride in the players' spirited performance.

Mr. Speaker, the youth of San Bernardino County have now been treated to thrilling hometown performers twice in the course of a year. Derek Parra of San Bernardino shocked and inspired the world at the Winter Olympics with his recordbreaking gold medal performance in speedskating, a sport long-dominated by cold climate European nations.

And now Landon Donovan, a product of Redlands youth soccer, has helped his team win against some of the elite teams of the World Cup. Please join me in thanking this team for showing Americans how entertaining soccer can be, and for reminding us all that with hard work and determination, anything is possible.

### MILITARY PAY GAP

### HON. SUSAN DAVIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, June 21, 2002

Mrs. DAVIS of California. Mr. Speaker, it is with great pleasure and respect for our men and women in uniform that I introduce legislation to ensure elimination of the pay gap that exists for our military personnel.

Since 1982, when military pay was last considered to have achieved "reasonable comparability" with the private sector, military raises have lagged behind those enjoyed by the average American. Legislation passed for FY2000 included a large pay raise and mandated pay raises of "inflation plus one half of one percent" through 2006.

Despite a series of generous raises, the pay gap will not be eliminated by 2006. My legislation would do two things. Extend the mandate from 2006 to 2013, when the gap would be eliminated, and then ensure that raises keep pace with inflation.

As our military personnel consider the very personal decision to stay in the military or move to the private sector they do factor in future pay raises. From my own personal experience visiting with our service men and women I know that they don't choose to serve for financial gain. They serve because they believe in America and the freedoms that we all enjoy and are committed to service. Like all of us here in this House, they understand that a lifestyle of service entails a certain amount of sacrifice. In exchange for all their sacrifices, they have a simple request: that their nation make a commitment to them that parallels their commitment to the nation.

Today I ask my colleagues to join in that commitment and support my legislation to permanently eliminate the military pay cap.

---

HONORING MELISSA MILLER

---

**HON. BOB BARR**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 21, 2002*

Mr. BARR of Georgia. Mr. Speaker, there are a group of individuals who constantly sacrifice, give their time and love, and truly make the world a better place. These individuals are the mothers of the world, and they represent a constant source of kindness, advice, and reliability. These women play numerous roles, from nurse to teacher to counselor to chauffeur, and Melissa Miller of Georgia's 7th district is certainly a great example.

Mrs. Miller was recently named the 2002 Mother of the Year by Sixes Living Magazine. Mrs. Miller is a very busy mom, constantly on the road transporting her children from ballet lessons to baseball games. The time which she finds to devote to her kids is sure to contribute to their development into the type of Americans we all hope our children will become—kind, caring, smart, hard-working, and honest.

More women like Mrs. Miller are needed in our great country so that we can continue to instill morals and values in the next generation of Americans.

---

PERSONAL EXPLANATION

---

**HON. JOHNNY ISAKSON**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 21, 2002*

Mr. ISAKSON. Mr. Speaker, I was absent for roll call votes 239 and 240. Had I been present I would have voted yes for both votes.

OAK MIDDLE SCHOOL BLUE RIBBON SCHOOL AWARD CONGRATULATIONS

---

**HON. EDWARD R. ROYCE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 21, 2002*

Mr. ROYCE. Mr. Speaker, I rise today to extend my congratulations to the principal, faculty and students of Oak Middle School in Los Alamitos, California, on that school's receipt of the U.S. Department of Education's prestigious "Blue Ribbon School of Excellence" Award.

The Blue Ribbon Award is a highly competitive honor awarded to schools that are judged to be particularly effective in meeting local, state and national education goals. To qualify for the award, schools must undergo a rigorous selection process culminating in a decision made by a panel of educators from across the country selecting schools for recommendations to Secretary Paige.

I can think of no school more worthy of this award than Oak Middle School, which under the excellent leadership of Principal James Elsasser consistently produces well-educated and active students. Because of the vision and determination demonstrated by Mr. Elsasser and his committed faculty, Oak Middle School has been recognized by the Federal Government for its excellence—a recognition that I think is long overdue.

I congratulate Oak Middle School on its achievement, I encourage the students and faculty to continue their tradition of excellence.

---

TRIBUTE TO MR. LEONARD HOFFMAN

---

**HON. JERRY WELLER**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 21, 2002*

Mr. WELLER. Mr. Speaker, I rise today to honor Mr. Leonard Hoffman for his years of service in the educational system. Mr. Hoffman, who retires this year, has served the educational system since August 25, 1969. Leonard began his career at Channahon Elementary School and has taught every subject except Science. He has also served as Union President, Union Vice-President and building representative.

Always striving for excellence, Leonard initiated special school activities to keep the students active and interested in learning. One special activity is called the President's Test. The President's Test required students to be able to name the Presidents in order. Fifth grade students need to pass the President's Test to be "eligible to go into sixth grade." This involved many practice sessions for the students and time for encouragement and positive reinforcement from the teachers. The President's Test has become an important "rite of passage" for the students.

Other activities initiated by Mr. Hoffman include the Campbell's soup label saving program which provides funds to purchase new library books and audiovisual equipment. The students celebrated President Washington's birthday by making tri-cornered hats and making a button toy similar to those of that era. A

history lesson on the Boston Tea Party included drinking tea and eating biscuits. Arbor Day was celebrated by Mr. Hoffman giving each student seedling trees to take home and plant. There are adults in the community that still talk about "their trees".

Leonard Hoffman was born on February 25, 1947 in Morris, Illinois to Judge and Mrs. Leonard (Erb) Hoffman. He graduated from Illinois Wesleyan University in 1969 with a Bachelor of Science in Education. In 1973, Leonard received his Master's Degree in Education from Northern Illinois University. Leonard married Carol Collins Hoffman on March 9, 1974. They are the proud parents of Martha Hoffman.

Leonard has also given his time and energy to the whole community. He is a member of the board of directors of the First National Bank of Dwight and a charter member of the First Bank of Channahon. Currently serving as Vice President, Leonard is one of the original trustees of Three River's Library system. He is also a Life Loyal Member of Sigma Chi Fraternity and a member of the Channahon Methodist Church.

Leonard is best remembered for an oft-cited quotation he learned from his first grade teacher, Miss Canaday, "Directions are your friends, they tell you what to do". In fact, you would not be able to find a former student of Leonard's that would not be able to remember this statement. His daughter, Martha, is now using this statement with her students.

Mr. Speaker, I urge this body to identify and recognize others in their own districts whose actions have so greatly benefitted and strengthened America's communities.

---

TRIBUTE TO THE UPPER PENINSULA VILLAGE OF BERGLAND ON THE OCCASION OF ITS CENTENNIAL

---

**HON. BART STUPAK**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Friday, June 21, 2002*

Mr. STUPAK. Mr. Speaker, I rise tonight to call your attention and that of our House colleagues to a ceremony that will take place in the Upper Peninsula of Michigan on July 3–6. On those days, with all the fanfare and activities that local residents have been planning for a year, the community of Bergland will celebrate its centennial.

As Bergland residents frequently note for distant acquaintances, this is a small community that's easy to find on a map of Michigan. Just find Lake Gogebic, a lake in the western end of the U.P. that looks like an upside-down boot, and Bergland is at the toe. On the map, it's just another black dot—you need to see Bergland as I have seen it so many times, passing through on my way west on M–28 to Ironwood or turning north on M–64 to go to Ontonagon. Then you would see a tidy village of wood-framed structures, tucked in the forest on the shore of a lake. It's the kind of friendly community that says, "Why are you rushing by? Stop here a while, and your life will be enriched and at peace."

Like so many northern Michigan communities, Bergland is a village created by the lumber industry. In 1902 Gunlek Bergland, then age 55, and his wife Hanna signed the
