

Mr. Speaker, tens of millions of children have been slaughtered and their mothers have been robbed by the state of their children. The UNFPA for over 20 years has aggressively defended the indefensible, this barbaric policy that makes brothers and sisters illegal and makes women the victims of population control cadres.

This whitewashing of crimes against humanity must end. My hope is that other parliaments around the world, will take a good long second look at the one child per couple policy in China and cease their enabling of this violence against women.

Thank you President Bush.

The Sergeant at Arms will notify absent Members.
