DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2003
(Continued)
AMENDMENT NO. 4444
Mr. McCAIN. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN] proposes an amendment numbered 4444.

Mr. McCAIN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit the use of funds for leasing of transport/VIP aircraft under any contract not entered into pursuant to full and open competition)

On page 223, between lines 20 and 21, insert the following:

S 8124. None of the funds appropriated pursuant to such authorization of appropriation Acts shall be used for the lease of any aircraft not entered into pursuant to full and open competition.

Mr. McCAIN. Mr. President, this calls for full and open competition in the case of a lease of a transport/VIP aircraft. It would address the complaints of industry with respect to the Boeing 767 tanker lease and Boeing 737 transport/VIP lease and the first five multisensor command and control aircraft, and would replace the JSTARS E–3 AWACS and the RC–135 Rivet Joint aircraft.

Basically, it calls for full and open competition for these aircraft, in the case of four 737 transport aircraft, and, as I understand, prospective Boeing 767 tanker aircraft.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. STEVENS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. Is there further debate on the amendment?

The Senator from Hawaii.

Mr. INOUYE. With that amendment, the managers are prepared to accept it.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 4444.

The amendment (No. 4444) was agreed to.

AMENDMENT NO. 4445
Mr. McCAIN. For the benefit of my colleagues, I have one more amendment that is not agreed to and would require a rollick call vote, which I understand from the majority leader would be scheduled for tomorrow. I have a statement I would like to read concerning the pending bill and then discuss the amendment, or if the managers so choose, I would discuss the amendment first and then describe my views on the overall legislation.

Mr. President, I send amendment No. 4445 to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Arizona [Mr. McCAIN], for himself, and Mr. FEINGOLD, proposes an amendment numbered 4445.

Mr. McCAIN. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection?

Mr. STEVENS. Mr. President, I object. I do not think we have a copy of that amendment yet.

The PRESIDING OFFICER. Objection is heard. The clerk will continue with the reading of the amendment.

The legislative clerk read as follows:

On page 223, between lines 20 and 21, insert the following:

S 8124. The Secretary of the Air Force shall not enter into any lease for transport/VIP aircraft for any period that includes any part of fiscal year 2003 until there is enacted a law, other than an appropriation Act, that authorizes the appropriation of funds in the amount or amounts necessary to enter into the lease and a law appropriating such funds pursuant to such authorization of appropriations.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. Mr. President, I ask the managers of the bill if there are any further amendments that will be included in the managers' package.

Mr. INOUYE. Mr. President, if I may respond.

The PRESIDING OFFICER. The Senator from Hawaii.
Mr. INOUYE. There are no amendments left in the managers’ package. However, there may be amendments brought up at this moment by others, and we do not have any.

Mr. McCAIN. I understand there may be further amendments brought up for a vote. I was talking directly concerning the managers’ package of amendments which, as we know, sometimes are not voted on individually and included in the package. I am very interested in seeing the managers’ package of amendments. I think the managers far so that they have been very helpful in sharing these amendments with me. I would like to see the final package of managers’ amendments before it is agreed to.

This amendment is a pretty straightforward amendment. It requires authorization of appropriations for the leasing of any transport/VIP aircraft. It would ensure that the Senate Armed Services Committee maintained its related interest in years past. I think the managers far so that they have been very helpful in sharing these amendments with me. I would like to see the final package of managers’ amendments before it is agreed to.

The amendment basically would instruct the Secretary of the Air Force that he could not enter into a lease for transport/VIP aircraft for any period that includes any part of fiscal year 2003 until he submits a report and there is a law enacted that authorizes the funds necessary to enter into the lease.

This is a very expensive acquisition on the part of the United States Air Force. I believe it should be authorized before this transaction is entered into. It is basically a matter of whether the Senate Armed Services Committee will maintain its relevance over the acquisition of very expensive pieces of equipment. It would be appropriate for the Armed Services Committee to approve of it. That is the way we have traditionally done business around here, particularly on issues of major consequence—although it has fallen into neglect in years past. I do not think I need to elaborate further on the amendment except I believe it should be authorized before appropriation.

I see the distinguished manager of the bill on the floor. If he would like to respond before I give my statement on the overall Defense appropriations bill, I am happy to yield.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. STEVENS. Mr. President, the Congress has passed legislation, and the President has signed it, that authorized the procedure for which we are making available funds in this bill.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, it is fine with me, whenever he wants to make the motion to table. I do have additional comments on the issue.

The PRESIDING OFFICER. Is there further debate?

Mr. MCCAIN. Yes, there is further debate.

The PRESIDING OFFICER. The Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, I rise again to address the issue of wasteful spending in appropriations measures. In the FY2003 Defense authorization bill to fund the Department of Defense for fiscal year 2003. This legislation would provide $355.5 billion to the Department of Defense. Each year, in provisions too numerous to mention in great detail, this bill funds pork barrel projects with questionable relationship to national defense at a time of scarce resources, budget deficits, and underfunded, urgent defense priorities. This year’s measure continues this alarming tradition, but otherwise programs not requested by the President, at a further cost of $5.2 billion.

America remains at war, a war that continues to unite Americans in pursuit of a common goal to defeat international terrorism. All Americans have made sacrifices for this war, and many have been deeply affected by it at times harried by difficult, related economic circumstances. Our servicemen and women in particular are truly on the front lines in this war, and are separating their families, risking their lives, and working extraordinarily long hours under the most difficult conditions to accomplish the ambitious but necessary task their country has set for them. The weapons we have given them, for all their impressive effects, are, in many cases, neither in quantity nor quality, the best that our government can provide.

This administration, and none of the precision-guided munitions that we relied on so heavily to bring air power to bear very effectively on difficult, often moving targets in Afghanistan, with the least collateral damage possible, are dangerously depleted. In just one example, the importance to our success in this war that underscores just how carefully we should be allocating scarce resources to our national defense.

Despite the realities of war, and the serious responsibilities the situation impose on Congress and the President, the Senate Appropriations Committee has not seen fit to change in any degree its flat tax of defense dollars for projects that may or may not serve only purposely impair our national defense by depriving legitimate defense needs of adequate funding.

Mr. President, even in the middle of a war against terrorism, a war of monumental proportions expected to last for some time, the Senate Appropriations Committee remains intent on ensuring that part of the Department of Defense’s mission is to dispense corporate welfare. It is a shame that at a time when the United States Senate persists in spending money requested and authorized only for our Armed Forces to satisfy the needs or the desires of interests that are unrelated to defense and even, in truth, unconcerned about the true needs of our military. An Investor’s Business Daily article published late last year entitled At the Trough: Welfare Checks to Big Business Make No Sense, stated, “[a]mong the least justified outlays [in the federal budget] is corporate welfare. Budget analyst Stephen Slivinski estimates that business subsidies will run $37 billion in 2001, up a third since 1997. Although President Bush proposed $12 billion in cuts to corporate welfare in 2001, Congress has proved resistant. Indeed many post-September 11 bailouts have gone to big business. Boeing is one of the biggest beneficiaries. . . . While corporate America gets the profits, taxpayers get the losses. . . .”

The Constitution authorizes a Congress to promote the general welfare, not enrich Boeing and other corporate behemoths. There is no warrant to take from Peter so Paul can pay higher dividends. In the aftermath of September 11, the American people can ill afford budget profligacy in Washington. If Congress is not willing to cut corporate welfare at a time of national crisis, what is it will to cut? Yet, Congress didn’t get the message this year. In the FY03 defense appropriations bill we are considering today, the Senate Appropriations Committee added nearly $1.3 billion to Boeing’s
programs, constituting more than 20 percent of the total plus-ups in the bill. As Defense Week noted unequivocally on July 22, “in this bill, Boeing made out like a bandit.”

Mr. President, you will recall that last year, during conference negotiations on the Department of Defense Appropriations Act for fiscal year 2002, the Senate Appropriations Committee inserted into the bill unprecedented language to allow the U.S. Air Force to lease the 100 Boeing 767 commercial aircraft and convert them to tankers, and to lease four Boeing 737 commercial aircraft for passenger airlift to be used by congressional and Executive Branch officials. Congress did not authorize these leasing provisions in the fiscal year 2002 National Defense Authorization Act, and in fact, the Senate Armed Services Committee was not advised of this effort by the U.S. Air Force during consideration of that authorization measure.

Again this year—without benefit of authorization committee debate or input—the Senate Appropriations Committee has added funding in the FY03 Department of Defense Appropriations bill for $30.6 million for initial leasing of four Boeing 737 VIP transport aircraft noted above. Furthermore, additional language in the bill modifies a provision that had been carefully negotiated by OMB with appropriators last year, and may now permit the Air Force to circumvent standard leasing arrangements and, with respect to the 100 Boeing 767s, may allow the Air Force to extend the termination liability costs over the full term of the lease.

Mr. President, I am concerned that the impact of these provisions has not been adequately scrutinized, and the full cost to taxpayers has not been sufficiently considered. In fact, after review of the Air Force’s proposed lease for the 767s and its comparison of leasing and purchase options for these aircraft, it appears that certain leasing costs are being hidden to make the leasing option appear more cost-effective.

For example, although the Department of Defense self-insures its equipment and would not take out an insurance policy if it purchased these 737s, the Air Force’s comparison of the leasing and purchase options assesses at least $60 million in insurance costs with the purchase option, thereby inflating the estimated purchase price significantly. In addition, the proposed leasing arrangement includes provisions requiring the Air Force to pay to insure the four 737 VIP aircraft and, in the event of loss or destruction of an aircraft, requiring the Air Force to pay a lease cancellation charge equal to one-year’s worth of lease payments, or $10 million. These provisions add not only the cost of insurance, but also another $10 million in costs that would not be incurred under a traditional purchase arrangement and have not been disclosed up-front in discussions with OMB or Congress. These examples of hidden costs illustrate the lack of transparency of this transaction and strongly suggest that the Air Force’s analysis of the $3.9 million advantage to leasing over purchase is illusory.

But you do not have to take my word for it. Rather, in a July 23 letter to Representative Curt Weldon on this matter, Congressional Budget Office Director Dan Crippen advised that the leased 767’s $261 million purchase price is $17 million too high and that:

Small adjustments in the assumed purchase price, residual value, or insurance costs would reduce the projected savings from leasing the aircraft as the purchase alternative the less expensive option.

In its analysis, CBO notes that the cost of the purchase option is estimated and not based on any negotiation between the Air Force and Boeing. Significantly, CBO states:

Just as Boeing and the Air Force negotiated a lower lease-price from Boeing’s initial offer, CBO believes it might also be possible for the Air Force to negotiate a lower purchase price for the aircraft, if the Air Force were a willing buyer. CBO estimates that the Air Force would only need to negotiate a purchase price of about $1 million less for four 767s than Boeing’s initial estimate in order for the cost of the purchase option to be equal to the cost of the lease option, in net present value terms. Using Air Force data and a model for calculating commercial lease payments, we estimate that a purchase price of $259 million (rather than $261 million as currently used by the Air Force’s analysis) would be consistent with the lease terms. . . . We estimate that, if a purchase price for the four aircraft could be negotiated for $249 million or $5 million less per aircraft, then the purchase alternative would save about $15 million compared to the lease. GAO and CBO report that it would cost the government and ultimately the taxpayers $13.5 to $20 million less to purchase the Boeing 737 VIP aircraft than to lease them—but they report it could be more.

In addition, it is not clear that the Air Force has negotiated a fair lease price for these VIP aircraft. Financing experts advise that to evaluate whether leasing is the preferable option, as compared to purchase of aircraft, one month’s lease payment should be equal to approximately 1 percent of the total cost of the aircraft. In GAO’s current analysis of the proposed Air Force lease, on which I have been briefed, GAO contends that the Air Force’s proposed lease price for the four 737 VIP aircraft is $32 million more than the norm that I have just stated. I am concerned that the Air Force appears to be going against the advice of financial experts not only by choosing to lease instead of purchase these aircraft, but also by not negotiating a good deal on the lease price. American taxpayers should be concerned by this behavior.

I would like to note that OMB Director Mitch Daniels has often indicated his preference for maintaining scrutiny of Government leasing practices out of regard for U.S. taxpayers. Just last year, in a letter from the OMB Director to Senator Kent Conrad, OMB cautioned against eliminating rules intended to reduce leasing abuses. OMB’s letter emphasized that the Budget Enforcement Act—BEA—scoring rules:

. . . . were specifically designed to encourage the use of financing mechanisms that make taxpayers aware of the unfair advantage provided to lease-purchases by the previous scoring rules. Prior to the BEA, agencies only needed budget authority for the first year’s lease payment, even though the agreement was a legally enforceable commitment to fully pay for the asset over time.

OMB’s letter continued by explaining that this loophole was closed in the General Services Administration to agree to 11 lease-purchase agreements with a total, full-term cost of $1.7 billion, but to budget only the first year of lease payments. OMB’s letter stated:

[The] scoring hid the fact that these agreements had a higher economic cost than traditional direct purchases and in some cases allowed projects to go forward despite significant cost overruns. . . .

In my view, this leasing proposal for Boeing 737 VIP aircraft also puts the Air Force at risk of being unable to procure higher priority items needed to fight the war on terrorism. On March 1, 2002, the Air Force presented Congress with a list of its top priorities encompassing 38 items totaling $3.8 billion. Within its top 10 programs, the Air Force asked for several essential items that would directly support our current war effort: wartime munitions, aircraft engine replacement parts, night vision goggles, anti-terrorism/force protection efforts, bomber and fighter upgrades and self protection equipment, and combat search and rescue helicopters for downed pilots; yet, the list also includes these four VIP aircraft. In reviewing these Air Force priorities, I don’t know what to make of the critical investment in supporting the Air Force Secretary’s efforts on these VIP aircraft—that he’s pushing in this time of war for this deal with Boeing for VIP aircraft or that his 13th priority of the top 38 in this time of war is for VIP aircraft. Executive Branch and Congressional officials. Is it lost on the Air Force Secretary that we are at war?

I have asked OMB Director Daniels to continue his strong oversight of Government leasing practices, and I ask the Senate today to closely scrutinize this proposal and leasing practice for Boeing 737 VIP transport aircraft. But, this Boeing deal is just another example of Congress’s political meddling and how outside special interest groups have obstructed the military’s ability to channel resources where they are most needed. I will repeat what I’ve said many, many times before—the military needs less money spent on pork and more spent to readdress the serious problems caused by a decades-long defense budget.
taxpayers’ money. The insatiable appetite in Congress for wasteful spending grows more and more as the total amount of pork added to appropriations bills considered in the Senate so far this year—an amount totaling nearly $7 billion.

Mr. President, I look forward to the day when my appearances on the Senate floor for this purpose are no longer necessary. I reiterate—over $5.2 billion in unrequested defense programs in the defense appropriations bills have been added by the Committee. Consider how that $5.2 billion, when added to the savings gained through additional base closings and more cost-effective business practices, could be used so much more effectively. The problems of our armed forces, whether in terms of force structure or modernization, could be more assuredly addressed and our warfighting ability greatly enhanced.

The American taxpayers expect more of us, as do our brave service men and women, for this to be without question, fighting this war on global terrorism on our behalf. But for now, unfortunately, they must witness us, seemingly blind to our responsibilities at this time of war, going about our business as usual.

Mr. President, I may be wrong. I may be wrong in all the information I just provided to the Senate. There is legitimate room for legitimate debate. I believe OMB and GAO have clearly stated that we could save money by not leasing this aircraft. Certainly we could save money through competition and certainly we could save money to the taxpayers by negotiating a better deal with the Boeing Aircraft Company—which, by the way, although President Bush proposed $12 billion in cuts to corporate welfare, Boeing is one of the biggest beneficiaries. In other words, Boeing as the Defense Weekly noted unequivocally on July 22, in reference to the Defense Appropriations Committee bills we are considering today, Defense Weekly noted unequivocally on July 22, “In this bill, Boeing made out like a bandit.” I think they did. I think they did.

The managers of the bill and I could debate what is right and what is wrong as far as these numbers are concerned. I think I have compelling numbers on my side that would indicate we could either lease or purchase at a much less cost than the appropriators put in the bill. The point here is that we should be authorized. It should not be done by the Appropriations Committee without authorization. This is what we come back to time after time after time on the floor of this Senate.

What we need is the Senate Armed Services Committee to authorize the purchase of aircraft worth many tens of millions of dollars? They have been bypassed. I have the majority of my colleagues would recognize that an issue of this magnitude deserves the hearings and scrutiny that can be conducted by the Senate Armed Services Committee.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCAIN. I yield the floor.

Mr. REID. Has the Senator completed his statement?

Mr. McCAIN. I yield the floor.

Mr. REID. I ask unanimous consent that in addition to the 5 minutes for Senator McCain, we have 5 minutes for the Senator from Arizona to speak in favor of the motion to table. I ask unanimous consent that be the case.

The PRESIDING OFFICER. That was part of the request of the Senator from Arizona.

Mr. REID. Excellent. Perfect.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Mr. President, the position of the Senator from Arizona is understandable from the point of view of not being really cognizant of the aging aspect of our aircraft. We found, for instance, on the tankers, the tankers that were flying nightly in and out of Afghanistan averaged more than 42 years of age. If you had told this Senator in 1946 to fly a plane that was made 42 years earlier, 1902, it would have been laughable. Today, to have 12,000 of our people flying airplanes that were made in Harry Truman’s day, is laughable.

Mr. McCAIN. Just this past trip that we took to Europe, we flew on a plane that was 28 years old. It was one of these planes for this type of purpose, of carrying personnel, not cargo.

We looked into this problem and we found that should we start an acquisition program for these new aircraft, which was requested by the people from the Department of Defense who pointed out in many of these statistics to us that the capital cost would be so great that it would force out of the budget items that are absolutely essential to our war against terrorism and to the modernization of our military forces in other places. We still have an absolutely difficult time replacing our ships—replacing them at a rate that is far less than is necessary to maintain the number of ships in the line that we have. But we are stuck in that kind of economics where we can’t lease the kind of military vessels we need for the Navy. But in this instance we are dealing with the world of aviation, and we can lease. We can lease planes, and we can also lease engines very competitively. There is a competitive market out there for both. There is a competitive market in the private sector for the planes we are talking about. We are not entering into a market where there is monopolistic practice at all.

But for us to try to do what the OMB and the Congressional Budget Office might have wanted originally would have required a massive new procurement program in order to get the planes, and we would be getting them one or two a year for 20 years. We are going to lease a fleet of these to meet the needs of the Department of Defense and the Navy, which are so old that the cost to merely maintain them far exceeds their value now. Beyond that, their reliability is so low that I have been told in many places the concept of redlining—telling the pilots they cannot fly the plane because the plane won’t pass even minimum standards—prevalent now that the Air Force that it is, in part, a matter of morale.

I believe we should do everything we can to shift the acquisition of aircraft that we cannot lease into procurement accounts and try to get those planes to meet our military needs. Those that we can lease in a competitive world, we should do so. When we do so, we lease them at an asset that can be returned to the commercial market at the end of the lease.

That is one of the things we have not been able to get real credit for yet in terms of the people who are reviewing this matter for the Senator from Arizona. We will pursue that further.

But in this instance Congress and the White House agreed with us in the last year—and previously—about the concept of leasing, that there are going to be other items that have to be leased.

Where we were of the view that consequences of the terrible events of 9/11, we found that the NATO AWAX planes were bought to the United States and flown over our major cities for a substantial period of time. There were 19,000 to 20,000 hours put on those planes during a period where otherwise they probably would not be getting anywhere more than 100 hours a month. The engines on those planes have been effectively worn out.

We are going to have to go into that process. I would invite the Armed Services Committee to do some studying of its own. If it has a better way to get us the equipment we need now without breaching the purse, I urge the Senator from Hawaii and I was pleased to join.

The money for the leasing of these planes comes from the O&M account of the Department of Defense. It competes with all other things that O&M moneys are paid for. The Department is not going to be reaching out and leasing planes that are not needed. On the other hand, it is going to have to retire the planes that are so old now that their utility is so limited they should not be in the inventory of the U.S. Air Force.

I hope the Senate will support the position. I am prepared to make a motion to table.

I understand that it will be handled under a previous agreement. I shall make the motion to table before the evening is over. But it is my understanding that the amendment is pending, and we will just leave it that way, and I will ask unanimous consent that it be put aside for the consideration of other matters that will come before the Senate this evening.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.
The PRESIDING OFFICER. The Senator from Minnesota.

AMENDMENT NO. 447

Mr. WELLS TONE. Mr. President, I send an amendment to the desk. The PRESIDING OFFICER. The clerk will report. The assistant legislative clerk read as follows:

The Senator from Minnesota [Mr. WELLS TONE] proposes an amendment numbered 4447.

Mr. WELLS TONE. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To set aside Defense-wide operation and maintenance funds for review and mitigation of domestic violence involving Department of Defense personnel)

On page 223, between lines 20 and 21, insert the following:

SEC. 8124. (a) Funds appropriated by title II under the heading “OPERATION AND MAINTENANCE, DEFENSE-WIDE” may be used by the Military Community and Family Policy Office of the Secretary for the operation of multidisciplinary, impartial domestic violence fatality review teams of the Department of Defense that operate on a confidential basis:

(b) Of the total amount appropriated by title II under the heading “OPERATION AND MAINTENANCE, DEFENSE-WIDE”, $10,000,000 may be used for an advocate of victims of domestic violence at each military installation to provide confidential assistance to victims of domestic violence at the installation.

(c) In each of the years 2003 through 2007, the Secretary of Defense shall submit to Congress an annual report on the implementation of the recommendations included in the reports submitted to the Secretary by the Defense Task Force on Domestic Violence under section 591(e) of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106–65; 113 Stat. 639; 10 U.S.C. 1562 note).

Mr. WELLS TONE. Mr. President, I think all of us were deeply concerned about the four domestic violence homicides that occurred over the past 6 weeks at Fort Bragg in North Carolina. The tragic murder of these young women by their husbands within such a short period of time is devastating. It is devastating to the families of the victims. It is devastating to their friends. It is devastating to the military where soldiers and their families should be safe on base. And they should be safe in their homes.

The Defense Task Force on Domestic Violence, which is made up of 12 military and 12 civilian members, was charged by Congress to investigate domestic violence in the military and to make recommendations for the Secretary on how to reduce the violence. In the introduction in its first report, the task force stated:

Domestic violence is an offense against the institutional values of the Military Services of the United States of America. It is an affront to human dignity, degrades the overall readiness of our Armed Forces, and will not be tolerated in the Department of Defense.

I don’t think anyone who has followed the recent events in North Carolina would disagree. In fact, the North Carolina incidents, while unusual in that they are clustered within such a short period of time, are not unique. The Naval Criminal Investigative Service reported 54 domestic homicides in the Navy from 1995. The Army reported 131 homicides since 1995 and the Air Force reported 32. This is a problem that is by no means limited to the military, but its dimensions in the military are complex and need to be addressed. I know Secretary Rumsfeld and Deputy Secretary Wolfowitz share that view. I applaud the Secretary and the Deputy Secretary for the attention they have given to this issue and for the willingness they have shown to address it.

The amendment which I offer today would help the military reduce domestic violence in the ranks. In particular, it would ensure that funds are used to establish an impartial, multidisciplinary, confidential Domestic Violence Fatality Review Team at the Military Community and Family Policy Office. The team would be charged with investigating every domestic fatality in the military.

The purpose of the investigation would be to determine what intervention and services were provided to the victim and to the offender prior to the fatality; second, what interventions and services could have been provided to the victim and offender that could have prevented the fatality. The team would also aggregate data from domestic violence fatalities to help determine patterns so as to develop systemic responses to domestic violence and prevent some tragedy from ever happening again.

The need for such a review is clear. The Defense Department Task Force found that “fatality reviews have yet to become an important element of DOD’s overall response to domestic violence.”

It would recommend the use of the Fatality Review Team in order to “provide a mechanism for ongoing review of domestic violence policies and case practices that may inadvertently contribute to the death of a victim or offender with the primary objective of contributing to systemic improvements in a military community’s response to domestic violence.”

The task force is conducting the review in the Fort Bragg case—and this is an important first step—I believe and the task force believes that such reviews must become routine—not just at Fort Bragg but all across the country.

The second part of this amendment would help the Department ensure that there are victims advocates at every military installation who provide confidential support and guidance exclusively to victims of domestic violence.

The Defense Task Force expressed concern about the “stark contrast between the availability of victim advocacy services in the military and civilian communities.” It later asserts that “Victims should have access to a well defined program for victim advocacy.” And this should be in every military installation.

The Defense Department does provide excellent family advocacy programs to victims, but the Defense Task Force and other researchers have found that the Family Advocacy Program, while serving an important function, can in many cases erect barriers to women finding safety for themselves and their children.

Women have to be able to go to somebody where there is complete confidentiality. That is extremely important.

The problem, in many cases, with the current system is that when a victim reports abuse, that abuse must be reported to Command regardless of the victim’s wishes. This lack of confidentiality has a profound effect on victims’ willingness to come forward and find safety.

According to the task force, victims expressed “fears related to personal safety, loss of career and the belief that commanding officers generally appreciate more supportive of the service member than the spouse who is the victim.”

That is important data, I say to Senators:

Caliber Associates conducted two studies that also concluded that the No. 1 barrier to reporting domestic violence for victims is the fear of the negative impact on the offender’s career.

This is not where we want to be. So the concerns with the current system are that “the commanding officer’s lacking knowledge of the complex dynamics of domestic violence led him/her to make decisions that placed the victim in unsafe circumstances with respect to the offender” and that the family advocates often work with both the victim and the offender, leading victims to believe that their safety concerns actually get lost or actually their safety concerns become more severe.

In sum, the task force reports, “When the Military Services do not have advocates exclusively for domestic violence victims, the current system often disempowers victims.” It is for these victims that a victim advocate is necessary.

This amendment does not replace the Family Advocacy Program, nor is it meant to be critical of its very good work. Rather, the purpose is that victims whose lives are in danger have an alternative place to turn to that is confidential and where their needs can be met without qualification. The victim advocates would aid women through counseling, safety planning, assistance to civilian and military shelter, legal counseling, and medical and other relevant services so they can provide for their own safety and the safety of their families without fear.

Finally, this amendment would require the Defense Department to report to the Congress on progress in implementing the regulations of the task force. Domestic violence is something that we
Congress must constantly work to prevent, reduce, and eventually end. Having such reporting will help us work with the military to address domestic violence in one part of our society.

Colleagues, what happened at Fort Bragg should never happen again. This amendment represents a small step toward preventing future tragedies. We urge my colleagues to support it.

I ask unanimous consent to add Senator Mikulski as a cosponsor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WELLSSTONE. I say to the distinguished chair of the committee that I have had an opportunity to do a lot of work dealing with domestic violence, mainly because of my wife Sheila’s work, and she has been my teacher. This is by no means an issue or problem just in the military. Some people say about every 15 seconds a woman is battered somewhere in our country, quite often in their home.

A home should be a safe place for women and children, but quite often it isn’t. We passed the Violence Against Women Act, and we reauthorized it, and things are starting to change. It is not too late any longer, in communities, everybody is saying: Well, that’s private business. It’s not our business.

We do not turn our gaze away from this any longer. But, unfortunately, it is a huge problem, and also for these children who witness this violence. I believe the Secretary Rumsfeld and Secretary Wolfowitz have shown great concern, and I appreciate that. This amendment is just an emphasis to put more focus on this and to have the Congress—the House and the Senate—working with our Defense Department. I believe it is a constructive amendment and a positive amendment.

I understand, although I wait to hear from the distinguished chair, that my colleagues are willing to accept the amendment. If that is the case, that is wonderful.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. INOUYE. The managers wish to commend the Senator from Minnesota for this amendment. And we are prepared to accept it.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. I join on this. I have to say that I can’t use this word too often, but I was appalled at that story about the violence. We all have tremendous respect for these young people representing our Nation abroad who get in harm’s way and are really put under severe stress.

We hope it is not only associated with the concept of the victims of abuse, but we ought to find some way to have greater counseling available to our people when they come home. Those of us who have come home in the past know what a traumatic experience for anybody, but for those who have been deeply involved in combat, it is really difficult.

We should be very moved by that story. I think this will be the first step in meeting that syndrome that has developed and trying to find some way to prevent it in the future.

So I commend the Senator for his amendment and I will support it.

Mr. WELLSSTONE. I thank both my colleagues. I cannot add to the words of the Senator from Alaska. He said it better than I could.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from West Virginia.

AMENDMENT NO. 4448

Mr. BYRD. Mr. President, I have an amendment. I want to add it to the desk.

Is there an amendment pending?

The PRESIDING OFFICER. That amendment has been set aside.

The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from West Virginia (Mr. BYRD), for himself and Mr. GRASSLEY, proposes an amendment numbered 4448.

Mr. BYRD. Mr. President, I ask unanimous consent that further reading of the amendment be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide certain requirements and limitations regarding the use of government purchase charge cards and government travel charge cards by Department of Defense personnel)

On page 223, between lines 20 and 21, insert the following:

SEC. 8124. (a) LIMITATION ON NUMBER OF GOVERNMENT CHARGE CARD ACCOUNTS DURING FISCAL YEAR 2003.—(1) The total number of accounts for government purchase charge cards and government travel charge cards for Department of Defense personnel during fiscal year 2003 may not exceed 1,500,000 accounts.

(b) REQUIREMENT FOR CREDITWORTHINESS FOR ISSUANCE OF GOVERNMENT CHARGE CARD.-(1) The Secretary of Defense shall evaluate the creditworthiness of an individual before issuing the individual a government purchase charge card or government travel charge card.

(2) An individual may not be issued a government purchase charge card or government travel charge card if the individual is found not credit worthy as a result of the evaluation under paragraph (1).

(c) DISCIPLINARY ACTION FOR MISUSE OF GOVERNMENT CHARGE CARD.-(1) The Secretary shall establish guidelines and procedures for disciplinary actions to be taken against Department personnel for improper, fraudulent, or abusive use of a government purchase charge card and government travel charge cards.

The guidelines and procedures under this subsection shall include appropriate disciplinary actions for use of charge cards for purposes, and at establishments, that are inconsistent with the official business of the Department or with applicable standards of conduct.

(3) The disciplinary actions under this subsection may include—

(A) the review of the security clearance of the individual involved; and

(B) the modification or revocation of such security clearance in light of the review.

The guidelines and procedures under this subsection shall apply uniformly among the Armed Forces and among the elements of the Department.

(d) REPORT.—Not later than June 30, 2003, the Secretary shall submit to the Congress a report on the implementation of the requirements and limitations in this section, including the guidelines and procedures established under subsection (c).

This issue is not about irresponsible use of personal credit cards so much. This is about using a Government charge card for personal use and leaving the American taxpayers on the hook. In some instances of abuse, the U.S. Government is left with only the interest on personal purchases to pay. In the worst cases of abuse, the Pentagon actually uses the funds that are appropriated for national defense to pay off the questionable charges on these credit cards.

To understand the scale of the problem, it is important to understand how many charge cards are being used. According to the Department of Defense, it maintains 1.7 million charge cards that were responsible in fiscal year 2001 for—now hold on to your hat—$9.7 billion in spending.

Neither the GAO nor I take issue with the well-regulated use of Government-issued charge cards. In the right hands, a charge card cuts through bureaucratic redtape, reduces paperwork, and limits the administrative costs of processing purchase orders. But put a government charge card into the hands of irresponsible individuals, and they can do some real damage.

Take for example the case of a junior enlisted soldier at Fort Drum in New York. He ran up a bill of $10,029 on three travel cards, due mostly to charges made at a casino. Despite this serious abuse of the charge card, in October 2000, the soldier was allowed to be honorably discharged without punishment.

But that horror story is just the tip of the iceberg. One soldier ran up charges of $1,058 in personal charges, including some from the Dream Girls Escort Service. Not to be outdone, another junior enlisted soldier ran up $2,278 in debt, including $110 from the Dream Girls. According to the GAO, neither of those soldiers received any disciplinary action. These appear not to be isolated
incidents, either. The GAO says that it found about 200 individuals who charged $38,000 in Fiscal Year 2001 alone at questionable establishments offering “adult entertainment.”

Those soldiers ought to be ashamed of themselves. They have betrayed the trust of the public by using government money to fund their dalliances. It is a disgrace not only to the uniform that they wear, but also to their superiors who were apparently asleep at their posts.

In addition, using the cards for personal purposes, some cardholders play games with paying back the money that they owe. One soldier in south Carolina ran up $35,883 in debt, then bounced 86 checks, totaling $269,301, in a phone attempt to pay off the card. It is small consolation that this soldier is undergoing a court martial for his criminal behavior.

It appears that the astonishing lack of financial oversight in the Department of Defense created a situation where it is easy to escape any kind of punishment. The GAO found 105 cardholders who held secret or top secret security clearances who had bad debt written off of their travel charge cards. Out of the 105 cardholders, 38 still had bad debt security clearances even after they had experienced serious financial difficulties.

I remind my colleagues of the serious security risks posed by individuals with financial problems. Hanssen, the former FBI agent, and Aldrich Ames, the mole at the CIA, betrayed their country for money. In 1998, a retired Army officer, David Sheldon Boone, was caught and accused of selling secrets to Russia. His excuse? He claimed that financial problems led him to spying.

The amendment that I offer today with Senator Grassley proposes to curb some of the most gross excesses of the charge card programs. First, the amendment limits the number of charge cards that can be made available to service members or civilian employees of the Department of defense to 1.5 million, a 10 percent reduction in the number of cards that are now out there. This cap will eliminate unnecessary cards and reduce the chance that the charge card numbers will be stolen.

The amendment establishes a requirement that the Secretary of Defense certifies the creditworthiness of an individual before issuing a charge card. It is astounding that this commonsense step has not been taken before. But it has not, and as a result, the GAO found that charge cards are getting in to the hands of individuals with a history of writing bad checks, making late payments on their personal credit cards, and even defaulting on loans. This must stop.

The amendment requires the Secretary of Defense to develop uniform discipline guidelines, so that members of each of the military services are held to the same standard of conduct for their use of charge cards. The amendment includes specific language on security clearances, so that security officials will be informed of the financial wrongdoing of individuals who have access to classified information.

Finally, the amendment keeps the pressure on. Department of Defense officials must achieve its financial reforms by reporting to the congressional defense committees not later than June 30, 2003, on the implementation of reforms to the charge card programs.

I have proposed with the Senator from Iowa Mr. Grassley, takes commonsense steps to crack down on the abuse of government charge cards in the Department of Defense. My colleagues may be aware of the ongoing oversight investigation that I have been involved with for over 2 years now looking into abuses of government purchase cards and travel cards issued by the Finance Department. Working with the GAO, Chairman Horn’s subcommittee in the House, and others, we have been able to uncover a disturbing number of instances where DoD issued credit cards have been abused. We’re not just talking about little abuses either. These cards have been used to purchase everything from cars to Caribbean cruises. They have been used for mortgage payments and for cash in adult entertainment establishments. The list goes on and on.

It is unfortunate that we are just now finding out about many of these instances of fraud and abuse, but I am pleased that Secretary Rumsfeld appears to be taking this problem seriously. The Office of Management and Budget has announced a crackdown on credit card abusers and salary offsets and other tools are being used to recover funds from unauthorized charges. However, the question remains, How did they not happen to occur in the first place?” The answer is ineffective internal controls. Receipts are not always matched with statements and inventory is not checked to make sure that DoD got what it paid for. We also know that the Army doesn’t always ask for the credit cards back when individuals leave the service. If you leave the cookie jar unguarded with the lid off, people are going to reach in and help themselves when no one is looking.

Perhaps most alarming is the lack of credit checks. It seems obvious that credit checks should be done on individuals before issuing them a government credit card, but this is not currently the case. Not only is no one double checking to make sure these credit cards are used appropriately, but no one is checking to see if the individuals are issued to are up to the responsibility. A little diligence up front could prevent millions of dollars in fraudulent purchases that leave the bank or the taxpayer holding the bill.

It is also true that once credit card abuses have been discovered, nothing is done to follow up. I am glad that DoD is finally recovering money that has been misspent, but this shouldn’t be the end of the story. Those who abuse the trust that has been placed with them should not get off scot-free. There have been individuals who have been placed in fraud transactions, while others with similar misdeeds have been promoted. In fact, many individuals with a record of questionable purchases continue to hold a security clearance. Understanding the significance of a person’s level of financial responsibility is a key factor in determining whether that person holds a security clearance.

The amendment that I offer today with Senator Grassley proposes to curb the abuse of government charge cards, including reviewing and possibly removing credit cards, and travel cards issued by the Finance Department. The amendment establishes a requirement that the Department of Defense certifies the creditworthiness of an individual before issuing a government charge card, but this is not currently the case. Not only is no one double checking to make sure these credit cards are used appropriately, but no one is checking to see if the individuals are issued to are up to the responsibility. A little diligence up front could prevent millions of dollars in fraudulent purchases that leave the bank or the taxpayer holding the bill.

It is also true that once credit card abuses have been discovered, nothing is done to follow up. I am glad that DoD is finally recovering money that has been misspent, but this shouldn’t be the end of the story. Those who abuse the trust that has been placed with them should not get off scot-free. There have been individuals who have been placed in fraud transactions, while others with similar misdeeds have been promoted. In fact, many individuals with a record of questionable purchases continue to hold a security clearance. Understanding the significance of a person’s level of financial responsibility is a key factor in determining whether that person holds a security clearance. Beyond simply requiring repayment, DoD needs to review the positions these people hold and consider disciplinary action. Failure to do so could even put our national security at risk.

The Byrd-Grassley Amendment requires the Department of Defense to take the initial steps necessary to address many of these problems that have been uncovered in our ongoing investigation. I commend Senator Byrd for his initiative and leadership in this area and I am pleased to associate myself with this amendment

First, the Byrd-Grassley Amendment stems the tide of DoD credit cards, which are apparently being handed out willy-nilly to just about everyone, by limiting the number of government charge cards that may be issued per fiscal year to 1.5 million. The amendment also requires that DoD must evaluate the creditworthiness of an individual before issuing a government charge card and prohibits DoD from issuing a card to anyone found not credit worthy. Finally, the Byrd-Grassley amendment requires DoD to establish guidelines and procedures for disciplinary actions against DoD personnel for improper, fraudulent, or abusive use of government charge cards, including reviewing and possibly removing credit cards, and travel cards issued by the Finance Department. The amendment establishes a requirement that the Secretary of Defense certifies the creditworthiness of an individual before issuing a government charge card, but this is not currently the case. Not only is no one double checking to make sure these credit cards are used appropriately, but no one is checking to see if the individuals are issued to are up to the responsibility. A little diligence up front could prevent millions of dollars in fraudulent purchases that leave the bank or the taxpayer holding the bill.

It is also true that once credit card abuses have been discovered, nothing is done to follow up. I am glad that DoD is finally recovering money that has been misspent, but this shouldn’t be the end of the story. Those who abuse the trust that has been placed with them should not get off scot-free. Understanding the significance of a person’s level of financial responsibility is a key factor in determining whether that person holds a security clearance. Beyond simply requiring repayment, DoD needs to review the positions these people hold and consider disciplinary action. Failure to do so could even put our national security at risk.

The Byrd-Grassley Amendment requires the Department of Defense to take the initial steps necessary to address many of these problems that have been uncovered in our ongoing investigation. I commend Senator Byrd for his initiative and leadership in this area and I am pleased to associate myself with this amendment.
implementation of these requirements by June 30, 2003. The requirements in the Byrd-Grassley Amendment are all well founded based on what I and others have been able to uncover regarding DoD credit card abuses. They are all measures that should be put in place by DoD without delay as a starting point toward getting this credit card debacle under control and preventing future abuses. This amendment shouldn’t be needed if we think all of the provisions would be implemented by DoD out of simple common sense. However, I assure you that it is needed, and I urge my colleagues to join Senator Byrd and me in this important initiative.

The PRESIDING OFFICER (Ms. CANTWELL). The Senator from Hawaii.

Mr. INOUYE. Mr. President, I wish to commend the chairman of the committee on this most appropriate and timely amendment. As a manager of this measure, I am prepared to accept it.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Madam President, I join the Senator from Hawaii and welcome the opportunity to vote to accept this amendment. I think it is a very modest step. The Senator from West Virginia has been restrained in terms of the abuses that we have heard about. This will start the process of putting us on a straight track.

I support the amendment and urge its adoption.

Mr. BYRD. Madam President, I thank both managers.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to amendment No. 4448.

The amendment (No. 4448) was agreed to.

Mr. BYRD. Madam President, I move to reconsider the vote and to lay that motion on the table.

The amendment (No. 4448) was agreed to.

Mr. STEVENS. Madam President, I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Madam President, I appreciate the two managers withholding. The majority leader has asked me to announce that there will be no more rollcall votes tonight.

AMENDMENTS NOS. 4455 THROUGH 4462, EN BLOC

Mr. INOUYE. Madam President, I have a series of amendments. None of these amendments calls for any appropriations, and all of these amendments are either earmarking or technical in nature. I will submit them en bloc to be considered and passed en bloc.

I will explain the amendments. One is an amendment of Senator MILLER earmarking $1 million for an information data warehouse; an amendment for Senator SNOWE earmarking $1.5 million for the Navy pilot human resources center; an amendment for Senator GRAHAM earmarking $2.17 million for the Nanophotonic Systems Fabrication Facility; an amendment for Senators SNOWE and SESSIONS earmarking $5 million for kill vehicles; an amendment for Senators WARNER and INOUYE earmarking $5 million for the common affordable radar processing program; an amendment for Senator BOXER encouraging the Department of Defense to allocate the budgeted amount for the family advocacy program; an amendment for Senators TORRICE and CORZINE to earmark $2.5 million for the disposal of material from Reach A at Earle Naval Weapons Station.

I send the amendments to the desk.

Mr. STEVENS. Madam President, I send to the desk an amendment of the Senator from Hawaii to add to that list. The amendment deals with obtaining a plan for refurbishing of the AWACS aircraft loaned to the United States after 9/11.

The PRESIDING OFFICER. Is there further debate on the amendments?

The amendments (Nos. 4455 through 4462) were agreed to en bloc, as follows:

AMENDMENT NO. 4455

(Purpose: To make available from amounts available for the Navy for research, development, test, and evaluation, $3,000,000 for Trouble Reports Information Data Warehouse) On page 223, between lines 20 and 21, insert the following: 

SEC. 8124. Of the amount appropriated by title IV under the heading “RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, NAVY,” up to $1,000,000 may be available for Trouble Reports Information Data Warehouse.

AMENDMENT NO. 4456

(Purpose: To set aside Navy operation and maintenance funds for the Navy Pilot Human Resources Call Center, Cutler, Maine) On page 223, between lines 20 and 21, insert the following: 

SEC. 8124. Of the total amount appropriated by title IV under the heading “OPERATION AND MAINTENANCE, NAVY,” for civilian manpower and personnel management, up to $1,500,000 may be available for Navy Pilot Human Resources Call Center, Cutler, Maine.

AMENDMENT NO. 4457

(Purpose: To make available from amounts available for Defense-Wide research, development, test, and evaluation, $2,170,000 for the Nanophotonic Systems Fabrication Facility) On page 223, between lines 20 and 21, insert the following: 

SEC. 8124. Of the amount appropriated by title IV under the heading “RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE-WIDE,” up to $2,170,000 may be available for the Nanophotonic Systems Fabrication Facility.

AMENDMENT NO. 4458

(Purpose: To make available from amounts available for Defense-Wide research, development, test, and evaluation $5,000,000 for small kilve vehicle technology development (PE0603175C) for midcourse phase ballistic missile defense) On page 223, between lines 20 and 21, insert the following: 

SEC. 8124. Of the amount appropriated by title IV under the heading “RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, DEFENSE-WIDE,” up to $5,000,000 may be available for small kilve vehicle technology development (PE0603175C) for midcourse phase ballistic missile defense.

AMENDMENT NO. 4459

(Purpose: To make available $10,000,000 for the Common Affordable Radar Processing program under Title IV, Research, Development, Test and Evaluation) On page 144, line 25, after the word “Forces,” add the following: “: Provided further, That of the funds provided under this section, up to $5,000,000 may be made available for the Common Affordable Radar Processing program,”

AMENDMENT NO. 4460

(Purpose: To provide additional resources to the Family Advocacy Program at the Department of Defense) At the appropriate place, insert the following: 

SEC. . Of the funds provided in this Act under the heading “Operation and Maintenance, Defense-Wide,” the Department of Defense should spend the amount requested for the Family Advocacy Program, with priority
in any increase of funding provided to bases that are experiencing increases in domestic violence.

**AMENDMENT NO. 4461**

(Purpose: To make available from amounts available for the Navy for operation and maintenance $2,500,000 for the disposal of materials from Reach A at Earle Naval Weapons Station, New Jersey)

On page 223, between lines 20 and 21, insert the following:

Sec. 8124. Notwithstanding any provision of the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note) or any other provision of law, the Secretary of the Navy may transfer administrative jurisdiction of the portion of the former Charleston Naval Base, South Carolina, comprising a law enforcement training facility of the Department of Justice, together with any improvements thereon, to the head of the department of the Federal Government having jurisdiction of the Border Patrol as of the date of the transfer under this section.

Mr. INOUYE. Madam President, I ask for its adoption.

The PRESIDING OFFICER. Is there further debate?

Mr. STEVENS. We accept the amendment.

Mr. INOUYE. We accept it.

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

The amendment (No. 4461) was agreed to.

Mr. INOUYE. I move to reconsider the vote.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. INOUYE. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUYE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The PRESIDING OFFICER. I send to the desk for immediate consideration an amendment by Senator Tom HUTCHINSON.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Hawaii [Mr. INOUYE], for Mr. HOLLINGS, proposes an amendment numbered 4463.

The amendment is as follows:

**AMENDMENT NO. 4463**

(Purpose: To require the transfer of administrative jurisdiction over the portion of former Charleston Naval Base, South Carolina, comprising a law enforcement training facility of the Department of Justice)

On page 223, between lines 20 and 21, insert the following:

Sec. 8124. Notwithstanding any provision of the Defense Base Closure and Realignment Act of 1990 (part A of title XXIX of Public Law 101-510; 10 U.S.C. 2687 note) or any other provision of law, the Secretary of the Navy may transfer administrative jurisdiction of the portion of the former Charleston Naval Base, South Carolina, comprising a law enforcement training facility of the Department of Justice, together with any improvements thereon, to the head of the department of the Federal Government having jurisdiction of the Border Patrol as of the date of the transfer under this section.

Mr. INOUYE. Madam President, I ask for its adoption.

The PRESIDING OFFICER. Is there further debate?

Mr. STEVENS. We accept the amendment.

Mr. INOUYE. We accept it.

The PRESIDING OFFICER. Without objection, the amendment is agreed to.

The amendment (No. 4463) was agreed to.

Mr. INOUYE. I move to reconsider the vote.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. INOUYE. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUYE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk read as follows:

The Senator from Hawaii [Mr. INOUYE], for Mr. HARKIN, proposes an amendment numbered 4464.

The amendment is as follows:

**AMENDMENT NO. 4464**

(Purpose: To set aside 9,000,000 for the acquisition of commercial imagery, imagery products, and service from United States commercial sources of satellite-based remote sensing entities)

On page 223, between lines 20 and 21, insert the following:

SEC. 8124. Of the amount appropriated by title IV under the heading “OPERATION AND MAINTENANCE, NAVY”, up to $2,000,000 may be available for the Navy for operation and maintenance of this Act, the Commander in Chief of the North Atlantic Treaty: Provided further, that the plan shall describe any necessary modifications of the NATO AWACS fleet in response to the significant contribution made by the United States European Command shall reflect the significant contribution made by the United States European Command shall provide for the refurbishment and re-engining of these aircraft.

Mr. INOUYE. Madam President, I move to reconsider the vote.

Mr. STEVENS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. INOUYE. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUYE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Hawaii [Mr. INOUYE], for Mr. HARKIN, proposes an amendment numbered 4464.

The amendment is as follows:

**AMENDMENT NO. 4464**

(Purpose: To make available from amounts available for the Defense Health Program for the Uniformed Services University of the Health Sciences Center (USUHS) $2,000,000 for Complementary and Alternative Medicine Research for Military Operations and Healthcare (MIL-CAM))

On page 223, between lines 20 and 21, insert the following:

Sec. 8124. Of the amount appropriated by title VI under the heading “DEFENSE HEALTH PROGRAM,” up to $2,000,000 may be available to the Uniformed Services University of the Health Sciences Center (USUHS) for Complementary and Alternative Medicine Research for Military Operations and Healthcare (MIL-CAM).

Mr. INOUYE. The managers have looked over the measure and we have no objection.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Iowa.

The amendment (No. 4464) was agreed to.

Mr. INOUYE. I move to reconsider the vote.

Mr. REID. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. INOUYE. I move to reconsider the vote.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alaska [Mr. STEVENS], for Mr. ALLARD, proposes an amendment numbered 4465.

The amendment is as follows:

**AMENDMENT NO. 4465**

(Purpose: To set aside up to $30,000,000 for the acquisition of commercial imagery, imagery products, and service from United States commercial sources of satellite-based remote sensing entities)

On page 223, between lines 20 and 21, insert the following:

SEC. 8124. Of the total amount appropriated by title II under the heading “OPERATION AND MAINTENANCE, DEFENSE-WIDE”, up to $30,000,000 may be appropriated for the competitive acquisition of commercial imagery, imagery products, and services from United States commercial sources of satellite-based remote sensing entities.

Mr. STEVENS. I believe this amendment has been accepted on both sides. I ask it be agreed to.

Mr. INOUYE. I have no objection.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Colorado.

Mr. STEVENS. I move to reconsider the vote.

Mr. INOUYE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. STEVENS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. INOUYE. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Hawaii [Mr. INOUYE] for Mr. HUTCHINSON, proposes an amendment numbered 4466.

The amendment is as follows:

**AMENDMENT NO. 4466**

(Purpose: To set aside up to 9,000,000 for RDT&E for the Joint Program Executive Office for 82mm Rocket, Artillery (R) and Mortar System (JPEO 82mm RAS))

On page 223, between lines 20 and 21, insert the following:

Sec. 8124. (a) Of the total amount appropriated by title IV under the heading “RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE”, up to 9,000,000 may be
available for the development of an organic vaccine production capability to protect members of the Armed Forces against the effect of use of biological warfare agents.

Mr. INOUYE. This measure has been studied by the managers. We approve it.

The PRESIDING OFFICER. If there is no further debate, the amendment is agreed to.

The amendment (No. 4466) was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote.

Mr. INOUYE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

**EPILEPSY RESEARCH**

Mr. REID. Mr. President, I understand that the committee report includes a $50 million Peer Reviewed Medical Research Program. The program funds medical research projects with potential military benefit. While I filed and supported the Senate bill, I am willing to forgo this amendment if the chairman can assure me he supports this funding and will seek to ensure its inclusion in the bill's conference report.

Mr. INOUYE. I agree with my colleague that muscular dystrophy research is an important area of research and that the House of Representatives has acted wisely in this regard. I appreciate his willingness to save us time here today, and I assure him I will do all I can to see that the House amount remains in the final conference bill.

**MILITARY PERSONNEL MEDICAL RESEARCH**

*MRS. MURRAY. Mr. President, I thank the Chairman of Defense Appropriations Subcommittee for his foresight and leadership with the FY2003 Department of Defense Appropriations bill. I commend the Chairman for including in this bill $50 million in the Military Personnel Defense Health Program for the purpose of potential life-threatening events. Our military personnel face numerous unknown risks each and every day. Providing funding to treat, mitigate or eliminate these risks is the least we can do for those who have dedicated their lives to defending our nation and freedom.

Mr. INOUYE. I thank the senior Senator from the State of Washington for her kind remarks.

*MRS. MURRAY. The bill specifically directs the Secretary of Defense, in conjunction with the Service Surgeons General, to select medical research projects of clear scientific merit and direct relevance to military health. Information intended in this bill could be funded through this project is an infectious disease tracking system.

In my home state of Washington, our military community has an urgent need for such a system, facilitating the tracking of potential bioterrorism events. Public health has long been focused on the ability to quickly identify epidemic diseases and inter-vene to protect public safety rapidly and as efficiently as possible. Preparing for a bioterrorism crisis requires a clear understanding of such dimensions as geography, time frames, population demographics, resources, severity, and outcomes. The problem, at this point, is that the public health arena lacks the type of information infrastructure in place that is needed to guide an immediate response to a bioterrorism event. Do you agree, that an information system to track infectious diseases is a vital and worthy area of research?

Mr. INOUYE. I agree this is one area worthy of investigation.

*MRS. MURRAY. I point out that great strides have been made in the area of outbreaks of epidemic diseases as part of an overall effort to avert bioterrorism crises. Again, I thank the Chairman for this foresight and leadership.

Mr. INOUYE. I thank the Senator.

**WAR-RELATED ILLNESSES**

Mr. LEVIN. Mr. President, we have before the Senate the Fiscal Year 2003 Department of Defense Appropriations Bill (H.R. 5010). This legislation makes a significant contribution to America’s efforts to enhance the quality of life for our soldiers, sailors, airmen and Marines as well as their families, while continuing to transform our military forces to ensure that they are capable of meeting the threats to America’s security now and in the years to come.

Mr. DASCHLE. Mr. President, I agree with my good friend from Michigan about the merits of this legislation. Once again, Chairman INOUYE has produced an excellent bill that will ensure that our Nation’s military remains the most capable fighting force in the world. Unfortunately, this Nation has unresolved issues with regard to previous conflicts, such as Operation Desert Storm, and I believe we must continue to pursue a better scientific understanding of war-related ailments.

Mr. INOUYE. Mr. President, the Committee bill seeks to improve pay and benefits for our military personnel and makes considerable improvements in medical care and health and women in uniform and their families receive. In addition, funding has been included to fund a “Peer Reviewed Medical Research Program” that addresses a wide-array of important medical programs.

Mr. HARKIN. Mr. President, I agree with the Senator from Hawaii about the significant efforts made by the Committee bill to address the well-being of our soldiers, sailors, airmen and Marines. Of particular interest to me is peer reviewed medical research that examines Gulf War Illnesses and their relationship to Chronic Multi-Symptom Illnesses. I believe that this research, which is conducted by the Center for Chronic Pain and Fatigue Research, is providing valuable insights into undiagnosed post-deployment illnesses.

Mr. JOHNSON. Mr. President, my friend from Iowa is correct. For the past several years, the Center for Chronic Pain and Fatigue Research has conducted research that is unique in its focus on the internal mechanisms and most effective treatment of Gulf War Illnesses and other undiagnosed post-deployment illnesses. Research has been funded by Congress each year and overseen by the U.S. Army Medical Research and Material Command and peer review process. Continued funding for this program will enable the continuation of research into a variety of illnesses reported by personnel upon returning from the Gulf War.

Mr. LEVIN. Mr. President, as the Senator from South Dakota has noted, many soldiers returned from the Gulf War with a variety of symptoms that have no discernible cause. Although specific environmental exposures in the Gulf War cannot be ruled out as a
cause, many believe that stresses triggering underlying conditions may have contributed to these illnesses. I hope that efforts will be made to ensure that this bill provides adequate funding to ensure the continuation of this important work.

Mr. INOUYE. Mr. President, I understand the concerns that my colleagues have regarding poorly understood illnesses that have affected military personnel in nearly every conflict since the Civil War and most recently in the Gulf War. As Chairman of the Defense Appropriations Subcommittee, I will work to ensure that adequate funding is provided for the Center for Chronic Pain and Fatigue Research in conference.

Mr. DASCHLE. Mr. President, we appreciate the Chairman's concern and support for this work. We believe it has important implications for future generations of military personnel and we look forward to working with him and the committee as this bill moves forward to do all we can to address this important issue.

The USS Scranton Depot Modernization

Mr. GREGG. I thank the Chair for recognition. I would like to express my appreciation to Mr. INOUYE, the Chair of the Senate Appropriations Subcommittee on Defense, and to Mr. STEVENS, the Ranking Member of the Subcommittee, for the fine work they have accomplished in crafting this important legislation. I also thank the Appropriations Subcommittee on Defense, to work with them on this bill, as well as on the defense portions of the recently passed FY2002 Emergency Supplemental Bill, H.R. 4775. They certainly do a masterful job of setting priorities and balancing competing needs.

I also am pleased that the Appropriations Committee chose to specifically provide funding in the FY2002 Emergency Supplemental bill to accelerate the depot modernization period of the USS Scranton at the Norfolk Naval Shipyard from FY2002 to FY2003, as it will result in dramatically improved fleet readiness. In addition, it will free up $90 million in FY2003, which had been programmed for the USS Scranton to be used for other U.S. Navy critical submarine requirements. This could include returning back to FY2003 the important forward-deployed submarine modernization period at the Portsmouth Naval Shipyard, which the Navy was recently forced to slip from FY2003 to FY2004, because of a Navy funding shortfall.

I would like to direct a question to my friends, the chair and the ranking member of the Defense Appropriations Subcommittee. Is it the Subcommittee's understanding that the appropriation of the additional $90 million to accomplish the USS Scranton depot modernization period in FY2002, now gives the U.S. Navy flexibility to allocate the FY2003 USS Scranton funds to meet other critical submarine requirements?

Mr. INOUYE. The distinguished Senator from New Hampshire is correct. It is the understanding of the Defense Subcommittee that the FY2003 $90 million that the Navy had requested for the USS Scranton, may now be available to the Navy to meet other critical submarine depot modernization requirements.

Mr. STEVENS. I would tell the Senator from New Hampshire that it is also my understanding that the Navy now has the flexibility to reprogram these FY2003 funds.

Mr. JOHNSON. Mr. President, I would like to engage in a colloquy with the Majority Leader, Senator DASCHLE, and the Chairman of the Defense Appropriations Subcommittee, Senator INOUYE, regarding the B-1 bomber.

The B-1 remains the backbone of our nation's bomber fleet by providing our military with a reliable, long-range bomber capable of delivering a large amount of weapons thousands of miles away. Nowhere was the continued importance of the B-1 more clear than over the skies of Afghanistan during the major battles of Operation Enduring Freedom. Since October, B-1s have dropped more than 98 percent of all bombs in Operation Enduring Freedom while maintaining over a 78 percent mission capable rate.

I am particularly proud of the accomplishments of the B-1 because a portion of the fleet is stationed at Ellsworth Air Force Base in my home state. On many occasions, I have had the opportunity to meet with the men and women who fly and maintain these planes, and each time I am struck by their dedication and professionalism.

In order to maintain the integral role the B-1 plays in our national security, the Department of Defense has committed to reinvest the savings from the consolidation of the fleet into the modernization of the remaining aircraft.

Currently, the B-1 aircraft is in the midst of a multi-year plan to upgrade the B-1 to improve its reliability, survivability, and lethality.

One aspect of this ongoing effort is the Defense System Upgrade—DSUP—program which will replace the existing defensive system on the B-1 with components of the ALQ-214 Integrated Defensive Electronic Countermeasures—IDECM—system, the ALR-56M Radar Warning Receiver, and the ALQ-187 Defensive Electronic Decoy for the B-1. The ALQ-214 system on the B-1 will replace the FOTD. Completion of this upgrade will greatly enhance the survivability of the B-1 and improve its long-range penetrating bomber capabilities.

During the course of the DSUP program, problems arose with the deployment of the towed decoy system. It should be noted that these problems were not unique to the B-1, but did slow progress on the upgrade program. However, I was pleased to learn recently that DSUP testing of the towed decoy system has begun. On June 25, a test was conducted at Edwards Air Force Base in which two decoys were successfully deployed and towed from a B-1. This was followed by a July 25 test in which a decoy was deployed and towed while the B-1 flew with varying wing sweep positions. It is my hope that these tests demonstrate the DSUP program is back on track.

At the time the House and Senate Appropriations Committees were writing the Fiscal Year 2003 Defense appropriations bills, these DSUP problems had not been addressed. As a result, the bills currently contain reductions in the new DSUP program. The House version of the Defense appropriations bill rescinds $67 million in Fiscal Year 2002 funding, and cuts the President's Fiscal Year 2003 request for the B-1 by $82 million. These cuts would terminate the DSUP program completely and would cripple the B-1 modernization program. The Senate version of the Defense appropriations bill would rescind $32 million in Fiscal Year 2002 funds and cut $10 million from the B-1 request for Fiscal Year 2003. I would like to recognize the Chairman for including report language that would allow the Air Force to request reprogramming of funds for the B-1 if the DSUP problems are resolved.

Mr. DASCHLE. Mr. President, I share my colleague from South Dakota's support for the B-1 and believe maintaining the B-1's capabilities is in our national security interests. I am concerned that the cuts proposed, particularly in the House version of the bill, are imprudent and could do lasting damage to our nation's military capabilities. Although I have not yet been able to confer with the Air Force about the most recent test flight for the towed decoy, the results would seem to obviate the need to delay or restructure this program. More tests are expected in the weeks to come, and I am hopeful that in conference we will find a way to restore DSUP funding. If that seems imprudent when this matter is taken up in conference, I urge the committee to transfer the proposed DSUP funding into other B-1 modernization programs. For example, the B-1 is next scheduled to have its radar replaced with a version of the system now used on the F-16. It is important to me that we retain the funds within the B-1 upgrade program and reinforce the Administration's pledge that all savings from fleet reduction will be reinvested in B-1 modernization.

Mr. INOUYE. Mr. President, I share Senator JOHNSON's and Senator DASCHLE's continued interest in maintaining the B-1 as a long-range, penetrating bomber. This plane's recent performance in Afghanistan testifies to its ability to help the nation deal with the types of threats we face in the 21st century. I appreciate their bringing to
By Mr. SARBANES.

Mr. SARBANES. Mr. President, the distinguished chairman yield for the purpose of a colloquy concerning a program of great importance to ensuring the continued health and safety of our military Forces?

Mr. INOUYE. I would be happy to yield to my friend, the Senator from Maryland.

Mr. SARBANES. Mr. President, at present, the military lacks a process in which emerging medical technologies can be adapted and tested in real time emergency situations that replicate high velocity and surgical care settings. With the assistance of the Senator from Hawaii, Congress last year appropriated $2.5 million to begin development of a national test bed to implement the U.S. Army Medical Research and Materiel Command’s “Operating Room of the Future” study to remedy this situation. This test bed, to be based at the University of Maryland Medical Center, aims to improve the performance of these emerging technologies and expedite their transfer to medical care in the battlefield. This will be done via testing new approaches to video-assisted coordination, synchronized communications, mobile computing options, telesurgery techniques and distance learning. While spearheaded by UMMC, this program is linked via a number of collaborations with both industry and the military.

In its fiscal year 2003 Defense appropriations bill, the House has included $3 million of the $9 million necessary to complete the Operating Room of the Future initiative. The Senate bill directs the Secretary of Defense to consider the Operating Room of the Future for funding under the Defense Health Program’s $50 million Peer Reviewed Medical Research Program. I am pleased that both bills contain language supportive of the Operating Room of the Future, and I respectfully request that the Chair work with his colleagues on the conference committee to ensure that the continued funding needs of this critical program are being met.

Mr. INOUYE. I certainly recognize the importance of this program and have worked closely with the Senator from Maryland on it in the past. Indeed, the Senator will recall that we recently visited the University of Maryland Medical Center to receive a briefing from both Army and hospital officials on progress and importance of this project. You may be certain that I will continue to work on behalf of the Operating Room of the Future as we proceed to conference.

Mr. SARBANES. I thank the chairman for his continued efforts on behalf of our men and women in uniform, and I look forward to continuing to work closely with him on this vital project.

Mr. CLELAND. Mr. President, I commend the committee’s work to support very necessary research in the area of chemical and biological detection, response and defense. I also applaud the committee’s recognition that there are many existing gaps, particularly as ongoing initiatives worthy of consideration by the Department as it develops effective technologies for our Nation’s chem-bio defense. As you may know, the committee efforts is a program that was initiated by the U.S. Marine Corps’ Chemical Biological Incident Response Force, CBIRF, and authorized by the Senate in S. 2514. This program focuses on the development of emergency response technologies by first responders, the demonstration of a chemical agent warning network and the coordination of response among military and civilian assets. Will the Committee commit to include in the list of programs to be considered under the Marine Corps’ CBIRF fund, of this initiative to demonstrate a chemical agent warning network and other emergency response technologies for use by first response units?

Mr. CLELAND. I thank the chairman for his hard work and consideration of this initiative.

Ms. MIKULSKI. Mr. President, I would like to commend the initiative to include this among the program initiatives to be considered within the Chem-bio Defense Initiatives Fund, the Marine Corps’ CBIRF program to develop a chemical agent warning network and develop and demonstrate new technologies for first responder units.

Mr. CLELAND. I thank the chairman for his hard work and consideration of this initiative.

Ms. MIKULSKI. Mr. President, I appreciate the Committee’s increase in procurement for ASDS batteries. As you are aware the House provided $12 million for procurement of a Lithium-Ion Polymer battery and shifted $22.5 million from advanced procurement to research and development. I hope we will be able to fulfill the Navy’s request to move $23.2 million from advanced procurement to research and development in conference. Nonetheless, I’m concerned that restricting the battery procurement to a Lithium-Ion Polymer battery will result in less competition.

Mr. INOUYE. I thank the Senator from Maryland for her steadfast support of this program and appreciate her concern. I will explore the possibility of funding research and development funding for ASDS and language that facilitates competition for the Lithium-Ion battery in conference, so that we can get this new technology deployed sooner.

Mr. BYRD. I rise to engage the members of the FY 2003 Defense Appropriations bill, Senators INOUYE and STEVENS, in a colloquy on Navy Basic Research funding.

Mr. INOUYE. It would be good to discuss this matter with the Chairman of the Appropriations Committee.

Mr. STEVENS. I, too, would be glad to join with my colleagues to review this matter.

Mr. BYRD. Earlier this year, I received information from our Appropriations Committee staff which caused me some concern about the Defense Department’s budget request for Navy basic research in fiscal year 2003. The information indicated that over the past five years, funding levels for basic research have stayed at roughly the same level or have grown slightly, in real/constant dollar terms—that is,
excluding increases for inflation. Growth in funding for applied research, however, has been significant, averaging about 10% per year. Indeed, the perception and reality of a greater emphasis on applied research is common in both the private and public labs as we’ve found to be the case in the private sector, the federally funded labs have been forced to be better ‘marketers’ of their products. This has led to a greater emphasis on applied research because, by its very nature, the work being done in applied research is more product-oriented. For fiscal year 2003, the Defense Department proposes to cut funding for the Navy’s basic research program—a cut of 1% in real terms.

This shift in emphasis to applied research is understandable. But, if this shift comes at the expense of funding basic research programs, our science and technology edge will suffer in the long run. Basic research is the fuel for the engine of invention. Without a growing understanding of the fundamentals of our physical environment—energy sources, molecular structures, and biological systems, to name just a few—our scientific prowess will weaken and our technological edge will become dull.

Given these concerns, I believe it is prudent to sustain funding for this important program at traditional levels. That is why I am pleased to report that this bill includes, at my behest, a $6 million increase for the Navy Research lab. I want to thank the managers of the bill—the Chairman of the Defense Subcommittee, Senator INOUYE, and the Ranking Member, Senator STEVENS—for agreeing with my recommendation and for their continuing efforts to enhance our military’s technological edge.

Mr. STEVENS. I thank the Senator from West Virginia for bringing this matter to the Senate’s attention and for his continuing support of America’s armed forces.

Mr. INOUYE. I also thank the Senator for his efforts regarding Navy basic research and the Navy Research Lab. This is an important initiative, and one that I am pleased that Senator Stevens and I could include in the bill that we have brought before the Senate.

AEROSPACE WORKER TRAINING

Ms. CANTWELL. Mr. President, I rise today to thank the chairman for the mammoth job that he and the members of his subcommittee have done to craft this bill. I support their efforts to ensure that our Nation continues to have the best-trained and equipped military force in the world.

As third knows, we have a long history of achievement in the field of aviation and harbors an enormous pool of talented individuals capable of turning innovative technological discoveries into manufactured reality rapidly and efficiently. We also have one of the most highly skilled pools of aerospace workers in the world.

I believe that the security of our Nation and the future of the aviation industry will rely heavily on the development and implementation of highly advanced composite materials. But for the large-scale deployment of existing and future technologies to develop, it is critical that we have the skilled workforce capable of understanding these next generation materials.

That is why I appreciate the subcommittee’s support of a new initiative to train the workforce required for design and manufacturing of composite materials.

Edmonds Community College and Central Washington University in Washington State are developing a program aimed at improving the scientific and technical competencies of high school and college graduates in the area of materials used in manufacturing technologies. This program will develop a comprehensive curriculum to train the workforce trained in materials science and will identify best practices for the industry.

We believe that this will become a model teaching and training program for the development of this technology field, and will involve future integration with advanced, cutting-edge basic research in composites materials and engineering conducted at the University of Washington. Taken together, this collaboration in Puget Sound educational resources in the material sciences will maintain and strengthen our country’s foremost position in aerospace research, development and manufacturing.

This will provide a wealth of opportunities for incumbent aerospace workers to update their skills in newly developed processes, and may serve to pique the interest of students in material sciences and energize future generations to engage in material science, manufacturing and engineering careers.

So I want to thank the chairman and the subcommittee for their recommendation that the Senate provide $500,000 in this bill to implement the first phase of this program and confirm that it is the committee’s intention that the funds provided in the Air Force Materials Science account be used for this program at Edmonds Community College. I want to assure the Senator that I will work with my colleagues to support these funds.

Preparing for the use of innovative materials in future aircraft designs is critical to enhancing air superiority. I will work with the Senator to address these needs in this year’s legislation and will carefully consider ways to enhance those efforts in years to come.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Madam President, before the managers leave, I don’t know how enough could be said about the way this bill was managed. This is the largest Defense bill in the history of the world and the United States. Yet we started this just a few hours ago, and it is finished and no one can complain about it. This was what was scrubbed. Staff from all the offices have had the opportunity to come and do what they believe is appropriate.
But the good work on the bill was not only done here on the floor but in subcommittee and the full committee— which has just been topped off by the remarkable good work of these two sensational Senators.

I speak for both sides of the aisle that if a chapter had to be written on how to manage a bill, it should go to Senators INOUYE and STEVENS because that is how a bill should be managed. I have never seen anything like it.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. INOUYE. Madam President, I thank my leader. But I believe that much credit should go to the staff. We have one of the finest staff members in the whole Senate. I refer to Charlie Houy on the majority side.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Madam President. I repeat that. We are blessed with probably the hardest working staff in the Congress. I want to thank my friend and chief assistant, Steve Cortese, for his work.

But I would say this to the Senator from Nevada. For those of us who served in uniform, I think the greatest privilege is being able to manage this bill because it affects the people who have followed us, being willing to take up arms to defend our country. I know of no better group to work with than the men and women of our military as they have responded to the global war on terrorism.

I am very proud of the men and women of the armed forces who are flying and I would have the honor of paying you for the job. It is an amazing, amazing feeling to know we can accomplish some of the things we did tonight.

The PRESIDING OFFICER. The Senator from Washington.

Mr. MURkowski. Madam President, we are all very proud of the men and women of the military as they have responded to the attacks of September 11 and as they continue to protect us here at home and around the world.

As we work on the Defense authorization bill, we have an obligation to the men and women who are defending us to make sure they have the resources and the equipment they need.

Tonight, I rise in strong opposition to what I consider anAuthorization amendment on which this body will be voting tomorrow morning. The Senator from Arizona persists in his efforts to redefine an issue that this entire Congress has already endorsed and that the President has signed into law.

The Senator from Arizona, Mr. OLDEN, had been going on in a way that I thought was a bit the wrong place to authorize. Yet here we are considering an authorizing amendment offered by the Senator from Arizona on an appropriations bill.

I read this amendment, and I want my colleagues to understand what is really at stake.

The Senator from Arizona wants us to open the doors to the Air Force and the Department of Defense to Airbus. It is quite simple to me. One U.S. company manufactures commercial aircraft of this type. One, and only one, U.S. company can meet the Air Force’s needs.

The issue before the Senate is whether U.S. workers or European workers will manufacture U.S. military aircraft. That is the bottom line. That is what the vote will be about tomorrow.

Let me also say that the Senator from Arizona has a broader agenda than the language in this amendment. Listen to his rhetoric. He interchanges the 737 and the 767 lease programs approved by the Congress. The language in his amendment is about the 737 lease, but he references, time and again, the larger issue of the 767 tanker lease.

So let’s talk about the 767 tanker lease. Since September 11, one piece of equipment has become more critical than ever, air refueling tankers. These flying gas stations allow us to project our military around the globe. In fact, tankers are the backbone of our air capability.

Just look at the war in Afghanistan. Our B-2 stealth bombers had to get to Afganistan and back. They needed to be refueled in the air nine times. Our bombers, which left the airbase on Diego Garcia, had to be refueled three times to reach their targets 3,000 miles away. So we needed the tankers to get our aircraft over there.

We also relied on our tankers to keep our planes going during the fighting. During the heaviest bombing of the Afghanistan battles, 30 to 35 tankers were in the air nearly around the clock to refuel the B-2s.

Carry-on based warplanes needed the aid of air tankers to strike their targets in Afghanistan.

Here at home, many of our cities were protected by combat air patrols. Those patrols relied on air refueling tankers. As Air Force Lt. Gen. Plummer put it:

‘In the opening campaign of this war, every bomb, bullet and bayonet brought into the theater got there thanks to our aging refueling tanker fleet.’

Our reliance on tankers has grown 45 percent from fiscal year 2001. So whether it is protecting our force around the world or supporting our aircraft in the middle of a fight or keeping our homeland safe, the men and women of our military rely on our KC-135 tankers.

But there are serious problems with these tankers. They are old. In fact, they are among the oldest aircraft in the entire service. Because they are so old, they are not reliable, they are often down for repairs, and they cost a fortune to maintain.

Let me share with the Senate something Secretary Rumsfeld said earlier this year:

‘We needed to begin moving out some of the older pieces of equipment that are—aircraft and various things that require so much upkeep and maintenance and so much on spare parts, that it is unwise to continue to try to maintain them.’

Secretary Rumsfeld also said:

‘So you end up trying to take a 1934 Oldsmobile and prop it up for another five, six years, and there’s a point beyond which that doesn’t make good sense.’

We have reached that point.

I show you a picture of an old Oldsmobile. I think it is actually a 1939 Olds, but it proves the same point.

We could keep repairing them, but it does not make sense to keep pumping money into a 41-year-old airframe. It is expensive. If you want to keep one of these old planes going, you probably are going to have to remove the plane’s metal skin because these planes, as I said before, have a lot of corrosion.

I share with my colleagues a photograph showing some of the problems with the metal on these aging tankers.
To “re-skin” this airplane costs $26 million. Does it make sense to do that to 100 planes? Mr. President, $26 million is an awful lot of money to fix one problem with one 41-year-old plane.

After you have replaced the skin of the aircraft, it is probably going to need new engines. That is not cheap. To put a new engine in 100, 125 tankers is going to cost $3 billion. That is a lot of money for a 41-year-old airplane.

There are other parts that need to be replaced. It would be one thing if you could fix them all today, but it takes a long time to overhaul these tankers. Right now, we are overhauling four a year. At a certain point, it is just not worth dumping money into these old planes.

K-135s were first delivered to the Air Force in 1957. On average, they are 41-year-olds, and we are paying for it. They have been around longer than most of the people who are flying them. There is no question they must be replaced with new tankers; the only question is when.

I would love to see us to be able to buy these new tankers today, but there is not enough money in the Air Force’s procurement budget. So many of us in Congress have worked very hard to work out a more flexible approach, an approach that is used with commercial aircraft all the time.

In December, Congress approved, and the President signed, legislation to authorize the Air Force to negotiate with Boeing on a 19-year lease of 100 new 767 aircraft tanker tankers. Congress has authorized the lease program for both the 767 and the 737 aircraft. My colleagues will recall that the bill to authorize these lease programs for the Air Force was approved by this Senate 96 to 4.

I also want to remind my colleagues what the Secretary of the Air Force, James Roche, wrote to me in a letter. I will quote:

The KC-135 fleet is the backbone of our Nation’s Global Reach. But with an average age of over 40 years, coupled with the increasing expense required to maintain them, it is readily apparent that we must start replacing these critical assets. I strongly endorse an amendment in support of the Navy’s SeaLion craft. This vessel, designed for coastal area operations here in the United States and abroad, has already begun to prove itself capable of meeting the challenges faced by our Navy today, and well into the future.

I have told the President that our military operations in coastal areas involve significantly different challenges from deep water operations, such as reduced operational space and environmental clutter. Accordingly, surveillance, weapon systems and naval tactics designed for deep water operations are inadequate for the complex environmental and dimensional aspects of the coastal battle space. In such areas, small boats can effectively protect coastal installations, combat blue water navies, and hinder freedom of navigation for these navies and their supply ships.

The rapidly evolving nature of maritime warfare, the threat of terrorist activities against our naval forces abroad, and the need to protect our own ports here at home: each of these challenges require that the United States make a concerted effort to maintain a solid lead in the development of advanced technologies for coastal operations.

The SeaLion craft is perfectly positioned to support this role. It is a high speed, low-radar-sigature vessel whose unique versatility lends itself to a broad spectrum of mission applications, from surveillance to interdiction to engagement. The SeaLion has already received strong endorsement from the Naval Sea Systems Command for its utility in special operations, and is poised for further evaluation as part of the Navy’s Littoral Combat Ship platform.

The amendment would allow $8 million of funds appropriated by the bill to be used for the continued development, demonstration and evaluation of the SeaLion vessel. I ask for my colleagues’ support.

Mr. President, I encourage the Senate, tomorrow, to table the McCain amendment.

I thank my colleagues, and I yield the floor.

Mr. SMITH of Oregon. Mr. President, the events of the past 11 months have forced every American to become more vigilant against the threats to our nation’s security. I want to commend the chairman, Senator INOUYE, and the ranking member, Senator STEVENS, for bringing to the floor a bill that responds to such threats by better protecting our Nation’s citizens as well as our servicemen and women.

Even before the attacks of September 11th of last year, however, our Nation’s military began to see that traditional notions of warfare and defense would have to evolve to meet new and even more dangerous threats. The bombing of the USS Cole in Yemen, for example, made clear to us that our naval forces must be equipped with the most advanced surveillance and response vessels available.

It is for this reason that I have an amendment in support of the Navy’s development and demonstration of the SeaLion craft. This vessel, designed for coastal area operations here in the United States and abroad, has already begun to prove itself capable of meeting the challenges faced by our Navy today, and well into the future.

Military operations in coastal areas involve significantly different challenges from deep water operations, such as reduced operational space and environmental clutter. Mr. President, in response to the terrorist acts of September 11th, the Bush administration—like so many other administrations before it—has chosen to demonstrate its tough stand against something. In the case of the Bush administration, it is a tough stand against terrorism and its concern for the safety and well-being of the American people by boldly maneuvering the Federal chess pieces to create a new Department called Homeland Security.

It is an impressive move, Mr. President—this reorganization of the Government. Many say that it is the greatest reorganization during the past half century. I think it could very well be said that it is the greatest reorganization since the Founding Fathers reorganized the Government in 1787.

At that particular time, the 13 colonies—by then 13 States—had been under the operation of the Articles of Confederation. And many of those who served in the Senate in 1789 had been Members of the Congress under the Articles of Confederation and had been Members of the Continental Congress, which first met on September 5, 1774. The Framers of the U.S. Constitution reorganized our Government so that when their work product had been ratified by the States—the required number of nine for ratification—we then became the United States of America. We were no longer under the Articles of Confederation. That constituted a reorganization of our Government.

But I am talking about a reorganization that is being done today. I say that it is the most massive reorganization that has occurred since the Framers reorganized the Government.
through the ratifying conventions and the ratifications by the requisite necessary number of States—reorganized the Government so that it was no longer a government under the Articles of Confederation. Rather, it was the United Government under the United States Constitution.

As to the current proposal, it is no wimpy reorganization. To check terrorism within our borders, the administration has proposed to establish a massive Department of Homeland Security. It will be a Department so large that it will affect an estimated 170,000 Federal employees and will constitute the largest Department—the third largest—after the Departments of Defense and Veterans Affairs.

From what I have read, the thousands of workers of this proposed Department will be doing essentially the same job they are already doing, but they will be doing it under a different newly consolidated roof with different lines of authority. Why the administration seems to think that these workers will perform their duties better just because they are transferred to a new agency has, both bothered and baffled me until late last week.

Last week, President Bush let it be known that if any version of the Department of Homeland Security passes the Congress which ensures Civil Service protections, collective bargaining rights, and other provisions to safeguard Federal workers' rights and protections, he will veto it.

At first, I thought this was simply another example of bureaucratic overkill at Federal workers. There is the unfortunate implication in the President's veto threat that the current Federal workforce is so full of slackers—there are some, no doubt—but it is so full of slackers and ineptitude that he may need to get rid of them all and hire a new Federal force.

But then as I thought about the President's claims that the Secretary of the Department of Homeland Security will need the ability—get this—to act "without all kinds of bureaucratic rules and obstacles," I began to have other concerns about the Bush administration's intentions.

It may be that this White House crowd, comprised of CEOs, corporate managers, and other wealthy business elites, may be seeking to use the Department of Homeland Security to further their efforts to run the Federal Government like a corporation, seeking freedom to hire and fire dedicated public servants, many of them experts in their fields, at will.

By the way, the actions of CEOs are not exactly models—and I am not talking about the CEOs of corporations that we have been reading about recently are not exactly models on which to run much of anything these days, and I hope that I am not detecting the same cavalier attitude about Federal workers as we have seen in press accounts detailing the horrific pension ripoffs by some of our large corporations.

No one wants to deny the administration the ability to take reasonable steps to foster flexibility within the proposed new agency, but I question the real motivation behind the administration's objections to worker protections. Let's face it, the players in this administration have made much of a reputation as champions of basic protections for workers.

President Bush is currently pushing the Congress to subject 225,000 Federal jobs to contractor competition by the end of his term. This administration has made it a goal to take Federal jobs and dole them out like candy to private firms, apparently.

In drafting its proposed reorganization, the administration started with a panel of four—four white collar political players; four white collar political players in the bowels of the White House, in the subterranean caverns of the White House. Who were these geniuses behind this idea? Mr. Andrew Card, a fine gentleman—I like him, a very able man; former Gov. Tom Ridge, a fine gentleman, a very able official, who has had great experience in running the Governor's office in one of our larger States and is not one of the States that was among the first 13, by the way. Then there is the White House counsel, I believe his name is Gonzales. I am not sure I know him very well. And then the fourth in this quartet of master planners is none other than Mr. Mitch Daniels, the Director of the Office of Management and Budget.

So there is the quartet. Not quite the caliber, I would say—although one may wish to debate it—it may be worthy of argumentation—not quite the caliber of the committee of five that wrote the Declaration of Independence: Thomas Jefferson, Benjamin Franklin, John Adams, William Livingston, and Roger Sherman. Roger Sherman is the only one of the founding documents of this great Nation. Now there was a committee of five.

So while there may be some argument as to how one would stack up against the other, I would put my bets on the committee of five that wrote the Declaration of Independence. I will stay with them. No disrespect intended, of course, to the White House committee of four, but they operated in the shadow of the White House. I understand that when the President unveiled this massive monster, some of the Department heads in the Government had not been in on the deal until the day that it was sprung.

It sprang like Aphrodite from the ocean foam. She sprang from the ocean foam and was carried on a leaf to the Island of Crete. She later appeared before the gods on Mount Olympus and, of course, she was delighted by her beauty. This Homeland Security plan came into being about like that, or one might compare its sudden emergence to the goddess Minerva who sprang from the forehead of Jove, the forehead of Jupiter. Minerva sprang fully armed and clothed from the forehead of Jove.

That is about the way this thing came into being. That was the genesis of it, down there in the White House. It was conceived in secret and was born in secret, and then the administration announced it.

So the administration has given these white-collar political players—there were four of them in the beginning—free rein to move Federal workers around from one agency to the other in the name of homeland security.

That same administration now appears poised to sabotage the pay, the health benefits, and the retirement benefits of the very Federal workers it wants to involve with safeguarding our homeland security.

There is nothing like threatening jobs and health benefits to give a boost, of course, to the morale of the employees of a new and very important Department. This is just what we need to energize our new Homeland Security Department, is it not? They will like that—jeopardize their benefits and their pay and their jobs. Imagine the concentration level of nail-biting employees concerned about whether their retirement check is not being cut. Think about that. And what will happen to their families if the Bush administration prevails in freeing itself from the normal restrictions which safeguard Federal workers' rights?

I ask those who hold my concerns, I ask them to examine the Bush administration's attitude toward Federal workers. It has been clearly expressed by recent comments. Administration spokesman Ari Fleischer, for example, has said that Federal workers need to be stripped of their rights and protections because managers in the Department of Homeland Security will need the ability to fire a worker who was drunk on the job and as a result allowed terrorists to enter the country.

Great stuff! Great motivation, for a Federal workforce on whom we will rely for our safety, and those of our families and friends and associates, and people all over the country.

I do not see anyone defending drunken workers. Not me. I would not defend a drunken worker. We do not have to strip all Federal workers of their basic rights and threaten their pay and retirement benefits in order to deal with the new worker who has been drinking on the job. I certainly do not defend that kind of behavior.

This comment was a needless and irresponsible cheap shot at hundreds of thousands of dedicated, hard-working Federal employees who are laboring day and night in many instances for far less money than they could be earning in the private sector. I think Mr. Fleischer owes them all an apology.

Federal workers are not the problem. They are the unsung heroes who are protecting our country.

Pause for a moment and think about that. They are the Border Patrol agents. Federal workers are the Border
Federal employees are the rank-and-file workers who do the bulk of the work in securing the homeland, and they will continue to do the bulk of the work. The country is at war with someone, and the Federal workforce is the armed forces of the country. They are not the same as the military, but they are in war. They are the ones who respond daily to the realities of terrorism and war.

This legislation would emasculate certain portions of this Constitution which I hold in my hand—emasculate it! Trample it into the dirt!

Mr. President, I have been here 50 years. I am not in the Senate today because I need a Senate salary. I could have retired 2 years ago when my 7th term was completed, could have been collecting my check today, a retirement check. I have been in the Senate and the House 50 years. I don’t have to work here to put bread and butter on the table for my wife, to whom I have been wed 65 years. I have been here 2 months before yesterday. I don’t have to have it. Why am I here? I should be at home with her. I should be living with my grandchildren, my great-grandchildren, enjoying a little leisure at the end of a long, long worklife that began in the mining camps of southern West Virginia a long time ago.

No, I am here to protect this Constitution and this Institution of which you, Senator, from Minnesota, and you, Senator, from Hawaii, and 97 others, are a part. That is what this Administration is trying to accomplish. The President has asked these Federal employees to be the frontline soldiers in the war on terrorism. They are out there every hour of the day and the night, somewhere, guarding the ports of entry. They are the workers who have had to deal with the anthrax threat. What about the Center for Disease Control workers who must confront the hard reality of a possible bioterrorist attack today?

Some give their lives on the battlefield in wars. There are others of us who give our lives in public service. I am one of them.

Let’s slow down. We don’t know what unintended consequences will be of the passage of this legislation. Study the House bill. Study the House-passed bill. The House passed a bill after 2 days of debate. I believe there were 132 Members of the House who voted against that bill. Were they against homeland security? No! Those Members of the House who voted against that bill were as much for homeland security as I am, as much as the President of the United States is. They were for homeland security. I am for homeland security. I defy anyone to say that the Senator in the chair, that the Senator who sits just behind me, or any other Senator, is against homeland security.

Many times I have stood before that desk up there and put my hand on the Holy Bible, and I have sworn to support and defend the Constitution of the United States against all enemies, foreign and domestic. That is why I am here. We are in too big a hurry to pass this bill. For what reason? Because there is an election coming on.

And then there were some well intentioned souls, but so gullible, as to suggest that we ought to do this big thing before September 11 or by September 11 that it is. Those Members who voted against that bill were against that bill.

We have a duty to discuss this bill at length. I say to all Senators, Republicans and Democrats, hear me, the people out there across this country are not clamoring for this legislation. The politicians are clamoring for it. The same people who will work under this new Homeland Security Department are already working today for agencies that will be transferred to this department. They are already on the job. The Appropriations Committees of
both Houses have already acted to re-lease funds for homeland security time and time again, last year and this year. Then, the people of this country are being urged to pressure their representatives to act on this Department. This Department and its impotence implicate the White House staff.

Take time to study what we are about to do! Read title 8 of the House-passed bill. It scares me! Read title 8. I think the agenda of this White House is becoming very clear. It is not homeland security that this White House is lust ing after, Bin Laden is not the only target at which this administration is pointing its six-gun. Clearly in the bull’s eye is also the job security of thousands of Federal employees and the core values of rights for the workers. And there it is. I will have more to say on this subject.

I am talking about the Constitution and about this suggestion, Mr. President. Think of It! Think of the blood that has been shed by men and women over these past 216 years to uphold this Constitution, to protect the security of this country.

There is a man in the chair (Mr. CLELAND) who has given everything but his life for his country. I would be ashamed to run against him. I would be ashamed to be a candidate, put myself up against that man—or this man here behind me (Mr. INOUYE).

We had better go slow. We can easily tear down in a few weeks what it has taken centuries to build. I saw them tearing a building down. A group of men in a busy town; With a “Ho, ho, ho,” and a lusty yell, They swung a beam and the sidewall fell. I said to the foreman, “Are these men skilled? The type you’d hire if you had to build?” He laughed, and then he said, “No, indeed, Just common labor. All I need, I can easily wreck in a day or two, That takes builders years to do.” I said to myself as I walked away, “Which of these roles am I trying to play? Am I a builder who works with care, Building my life by the rule and square? Am I a builder who works with care, Patently building the best I can? Or am I a wrecker who walks the town, Content with the labor of tearing down?”

CRISIS IN HAITI

Mr. DODD. First, I commend my colleague from Hawaii for his fine leadership on the pending matter before the Senate dealing with the Defense appropriations bill.

The matter that I wish to address regards Haiti, a tragedy that is unfolding a short distance from our own shores, literally only 90 or 100 miles away from the coast of the United States. As yesterday’s New York Times article entitled “Eight Years After Invasion, Haiti’s Squallor Worsens” by David Gonzalez, makes abundantly clear, the people of Haiti in that article, as we know, are on the verge of despair.

I ask unanimous consent that the article written by David Gonzalez in the New York Times be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

EIGHT YEARS AFTER INVASION, HAITI’S SQUALOR WORSENS

Sonia Jean-Pierre’s life is one of apocalyptic misery. With hardly any food or work, her only comfort is the sea-refugee sun that bloated sun is blotted out by cardboard pasted over the windows. On the wall by her bed, she has scrawled, “Jesus Christ is coming soon,” like a promise of salvation to greet her every morning.

Ms. Jean-Pierre and hundreds of neighbors live as squatters inside the old Port Manche Prison once the brutally efficient killing chamber of the Duvalier dictatorships. A prison no longer, it has been renamed, hopefully, Village Democratie. The poor crams themselves into the dingy cells and even inside the old sentry towers that look out over the surrounding shanties, where 2,000 more souls live without water, schools or electricity. Some are so poor they eat pandaleke disks of bouillon-flavored clay. Poverty is the only jailer. “We are free prisoners,” Ms. Jean-Pierre, who rested one recent afternoon on the cool concrete floor. “We are still living like prisoners.”

Nearly eight years after the United States led an invasion of Haiti to oust a military junta and restore President Jean-Bertrand Aristide to power, Village Democratie is just one measure of this country’s despairing slide.

Increasingly exasperated with Mr. Aristide’s government, which has yet to replace the 22,000 soldiers it left behind, the United States and European countries have blocked some $500 million in aid, hoping to encourage greater democracy. Critics say the decision has merely eroded the hopes and deepened the poverty of this country’s seven million or so people.

For a nation as poor as Haiti, withholding the money has become both carrot and stick. Haiti still lingers near the bottom of the United Nations’ annual survey of living conditions. Life expectancy is less than 53 years. Preventable diseases kill the average family in less than one year. The yearly income of the average family is less than is needed to sustain a single person.

Doctors say they have made no progress on the disease that is the most common cause of death in Haiti—malaria. They have blocked the country from getting aid, he said, “We are human beings and who do not like to live like this. Only animals should live here.”

In La Saline sum, down a busy road near the prison that is often choked with carts and traffic, pigs wander through streets of human waste and poke their snouts into mountains of garbage in a drainage canal. Young women dropped plastic buckets into a sewer and hauled out a gray water they would use to wash their floors. Potable water is too expensive.

“We have no way to be healthy here,” said Elisena Nicolas, who spends a third of her income on water. “But you have to keep the children clean.”

As hard as it is to conceive, people come to La Saline to escape rural misery. In the Central Plateau town of Cange, doctors with the World Bank concluded that 15 years of aid, which was supposed to bring health, education, and well-paid lobbyists, say it is immoral to withhold the aid and punish the Haitian people, as government agencies go without funding, plans or projects to provide water, health care and schools. Some $150 million from the United States, might not only improve roads, water and health but also create jobs.

Still, diplomats and aid officials say, Mr. Aristide’s government does not use all the aid it receives. The country is too expensive. The same America that sent him back to power in 1991, Mr. Arinio said, now make life impossible. “They have blocked the country from getting aid,” he said. “We are human beings and who do not like to live like this. Only animals should live here.”

In the streets of Village Democratie, doctors said they worked with desperate patients suffering from the same diseases that are too expensive.

Although the clinic receives no international aid, doctors said they worked with many Haitian government clinics in nearby villages where the frozen aid has left them unable to cope. In recent years, their volunteer clinic’s patient load has tripled to 120,000, with patients sometimes walking five hours for free care.

Dr. Paul Farmer, an American who helped found the clinic in the 1980’s, said he could not prove that the blocked aid resulted in more suffering, but the deteriorating conditions were evident. International aid, provided on an emergency basis to charitable groups, was as elusive as a decent job. Faded posters of Mr. Aristide, wearing the presidential sash and with his arms outstretched, are his only presence.

“The situation is getting worse for the majority of the people,” said the Rev. Jan Hansens, a Roman Catholic priest who sits on the Justice and Peace Commission of the Bishops’ Conference. “There is certainly no hope unless there is a drastic reassessment of the condition of Haitian society. Things simply go on as now, there is no chance.”

Along the streets of Village Democratie, few people who left because of the blockade return. They have blocked the country from getting aid. They have blocked the country from getting aid. But Haiti’s record of official corruption and mismanagement, regardless of who was in power, has given Haiti’s international aid officials. A recent study by the World Bank concluded that 15 years of aid
through 2001 had had no discernible impact in reducing poverty, since projects were carried out haphazardly and government officials aid not sustain improvements.

Today, for instance, a maze of rat-infested pipes is all that is left of a potable water project after funds ran out before the pipes could be connected to the water main.

At the political opponents and diplomats said, the government has money to provide cars for legislators or pay off neighboring groups that are its foot soldiers and that the opposition charges, have been used to intimidate government opponents.

As a result, diplomats and aid officials said Mr. Aristide must not only resolve this political crisis, he must also show that he will allow economic and administrative reforms to guarantees that any forthcoming aid will be honestly spent.

"We are saying we want to help you," said a European diplomat, who noted that the European Union was ready to provide $350 million. "But you must help us help you. You comply, I'll comply."

Absent any aid or a political pact, people scrape by as they have for years, sharing what little they have or sacrificing them-selves for their children. In the neighborhood of Fort Dimanche, a prison where now 2,000 people live without any water, schooling, or electricity. These are fellow human beings who are in great despair, living under the worst possible of circumstances.

In rural areas as well, local clinics have shut down and one clinic, according to David Gonzalez's article, in the Central Plateau town of Cange, doctors with the Lasante Clinic dealt with 120,000 patients who came to them in recent years. The clinic's patients tripped to 120,000, patients sometimes walking 5 hours for care.

As I mentioned, tuberculosis, malaria, and even polio, once thought to be eradicated, is emerging. I am hopeful that the IDB, the Inter-American Development Bank, would listen to those who have been supportive of Mr. Aristide's regime, as the Secretary-General of the OAS has endeavored over the last 2 years to resolve the political stalemate in Haiti and has seen it through 2000 parliamentary elections. He has put on the negotiating table a balanced and credible proposal for resolving the election dispute and is working to ensure the security and other matters of concern to the Haitian society that are being seriously considered by the Haitian Government. I believe they are.

That said, Haiti has flawed elections. Absolutely. We are talking about a country without a long historical tradition of representative government, and public faith in government is reduced to zero, what remains of the fragile democracy is eroded further. Even in the United States, with our proud history, peaceful transition of power, orderly elections, and representative governments, we have seen significant troubles with our own elections. Merely look at what happened in the year 2000 in this country with our elections. No one is perfect.

I am thinking of the most desperately poor nations in the world, it should not be a great surprise that institutions and electoral processes are not what we would like them to be. By not providing basic help, by the United States blocking the assistance reaching the desperately poor people, we are not strengthening the institutions but making it worse and harder for the Nation to get back on its feet.

I have always strongly opposed link-ages between economic aid and the Haitian access to resources of the Inter-American Development Bank. These moneys have been held hostage for too long. The damage to the Haitian economy is devastating. The good-faith efforts of the Government in responding to the OAS initiative should be more than enough justification for beginning the process of loan disbursements from the Inter-American Development Bank. Although the most desperately poor nations in the world, United States Advisory Board, and the International Development Bank, the institution that is supposed to be the premier regional development agency. Proponents of withholding crucial IDB funding point to Haiti's weak institutions, to the need for drastic and timely economic and administrative reforms, as a prerequisite for restarting assistance.

It is true, Haiti is an impoverished nation with weak institutions. It is true there is corruption at high levels. I do not deny that. And, yes, there is a serious need for reform in these areas. It is also very true that poor countries breed weak institutions and seek to strengthen themselves and help their people with the assistance of international humanitarian aid, but that is not the real reason that assistance is being withheld. The real reason funds are being withheld is political—namely, as leverage in an ongoing Organization of American States' efforts to resolve issues related to the May 2000 elections of that country.

It is also very true that poor countries breed weak institutions and seek to strengthen themselves and help their people with the assistance of international humanitarian aid, but that is not the real reason that assistance is being withheld. The real reason funds are being withheld is political—namely, as leverage in an ongoing Organization of American States' efforts to resolve issues related to the May 2000 elections of that country.

The Secretary-General of the OAS has endeavored over the last 2 years to resolve the political stalemate in Haiti and has seen it through 2000 parliamentary elections. He has put on the negotiating table a balanced and credible proposal for resolving the election dispute and is working to ensure the security and other matters of concern to the Haitian society that are being seriously considered by the Haitian Government. I believe they are.
a stop to playing politics with Haitian lives, and it is time to respond to the unfolding crisis in Haiti. I urge the administration to withhold, to lift the embargo, on the dollars. 

For those who have supported the IDB out in and year out, it has been terribly disappointing to me that they have continued to acquiesce in the demands of the Bush administration to deny the disbursements of these dollars. I hope they will take the action of saying they have waited long enough and they will provide the assistance needed to the Haitian people.

We are about to leave for a month and the situation is growing worse. I ask my colleague to take a look at the David Gonzalez article in the New York Times yesterday. This is a snapshot of what is going on in the country and what desperately poor people are suffering as a result of the lack of support. They would suffer anyway. I am not suggesting this will solve all their problems. It is hard to believe we are holding up the funds—seeing how these people live, how these children are being raised, only a few miles off our shore, when we could make a little bit of a difference. We could also strengthen the conditions we are complaining so strongly about if we provided that kind of help.

VETERANS HEALTH CARE NETWORK

Mr. KERRY. Madam President, I regret to come to the floor today with a concern that I find absolutely extraordinary—even shocking.

This is a memorandum which represents an extraordinary broken promise to the veterans of our country. I want to share it with my colleagues who I think would share with me a sense of outrage over what is contained in this memorandum.

That is a memorandum from Laura Miller, Under Secretary of Veterans Affairs for Health for Operations and Management, which she circulated on July 18. It orders the directors of the Veterans Health Care Network in the country to end their veterans outreach efforts.

Let me read from the memorandum. It says specifically:

In this environment, marketing the VA services with such activities as health fairs, and veteran open houses to invite new veterans to the facilities, or enrollment displays at VSO meetings are inappropriate. Therefore, I am directing each network director to end their outreach efforts in order to guarantee that people aren’t denied those services which they might have forthcoming. Those services are not now going to be provided. They are not going to be reaching out to veterans to make them aware of them. I find that absolutely extraordinary.

There are approximately 70 million people who are potentially eligible for VA benefits and that there are veteran family members or survivors of veterans. They stand to lose those benefits because the VA is simply going to hide or retreat from reaching out in the way that all of us here in Congress specifically codified and put into law that they do.

I know the Secretary of Veterans Affairs is a Vietnam veteran and is a distinguished, decorated veteran. I absolutely can’t believe that he knows this went out. I can’t believe that it went out under his order, particularly when you compare it to his own statement on the VA Web site. There is a statement by the Secretary that says:

Our goal is to provide excellence in patient care, veterans’ benefits and customer satisfaction. We have reformed our department internally and are striving for high-quality, prompt and seamless service to veterans.

With respect to “prompt,” in this memo the Deputy Under Secretary says:

The most recent enrollment shows a 13.5 percent increase in users this year compared to the same time last year, and a 15 percent increase in enrollment while expenditures rose 7.8 percent. Again, against the backdrop of this situation is a waiting list for patients to be seen in many clinics across the country and general waiting times that exceed VHA’s standard of 30 days. Moreover, actuarial projections indicate a widening gap in the demand versus resource availability.

“Demand versus resource availability”—those of us from New England sat with the Secretary several months ago and made it clear to the Secretary that there is an increasing crisis in our VA system because of the lack of resources.

The “greatest generation” veterans—those of World War II—are now demanding services of the VA in greater numbers than before. Our military efforts these days are increasing the awareness and the need of many people who served for those services. Yet here we are being told we have demand that is exceeding the resources.

The outcome of this is that is going to exceed. That is a matter of budgeting priority of this administration. There are many areas where it is obvious that the administration has decided it is more important to put money, rather than for the veterans, and in order to keep the promise to the veterans of the country.

In today’s Greenfield Recorder in Massachusetts, a VA spokesperson said the reason the VA has cut these services is “because right now we can’t give them the kind of care that they deserve.”

That is an extraordinary statement in the face of the current situation with troops in Afghanistan and other parts of the world, with the increasing demand of our military and with potential operations in Iraq that are the subject of hearings before the Senate Foreign Relations Committee today.

We are going to require that budget to be reversed immediately. I hope the administration is going to keep America’s promise to our veterans. And I hope they will plunk up that budget sufficiently to meet the demand and to keep faith with the promise made already to the past several generations of veterans and the promise that is today being made to the next generation of veterans.

I yield the floor.

MAJ. GEN. WILLIE B. NANCE, JR., U.S. ARMY

Mr. COCHRAN. Mr. President, very soon one of our Nation’s finest soldiers will retire from active duty after more than three decades of dedicated service to our country. Major General Willie B. Nance, Jr., will retire from the United States Army on November 1, 2002, after serving for 34 years. During his distinguished career, General Nance served in a remarkable range of roles, from the foot soldier to the manager of one of the most sophisticated weapon systems our nation has ever built. General Nance, I am proud to say, is a native of Mississippi, and I believe it appropriate that the Senate take note of his distinguished career as his retirement approaches.

General Nance entered the Army in 1968 as a member of the Mississippi All-Volunteer Company, a group of 200 Mississippi volunteers who enlisted at the time under the Army volunteer enlistment campaign. Having proven himself early as a soldier, he was recruited directly from Basic Training
into Officer Candidate School, from which he graduated as the honor graduate in 1969.

Commissioned into the Infantry as a second lieutenant, General Nance’s early assignments included duties as a rifle platoon leader, weapons officer, battalion executive officer, battalion adjutant, and company commander in the 3rd Armored Division in Germany. Between these assignments, he completed Airborne training and was an honor graduate from the demanding Ranger course.

After 12 years of infantry service, General Nance was assigned to the Army Acquisition Corps. In repeated assignments to acquisition leadership positions, he developed expertise in every area of acquisition management. After serving as Assistant Product Manager for three years, he became the Executive Officer to the Commanding General of the Department of the Army Research and Development Command, Europe. As a lieutenant colonel, he managed the Patriot Airfield Munition Vehicle TOW missile subsystem. As a colonel, he managed both the Army Tactical Missile System and the Brilliant Anti- Tank munition programs. Between command assignments, General Nance taught acquisition strategy as a professor at the Defense System Management College.

In his first assignment as a general, General Nance served for two years as the Deputy Commander of the U.S. Army Space and Strategic Defense Command. In this position, he oversaw with efficiency, innovation, and compassion a significant reorganization and reduction of the technical element of the command.

From 1994 to 1998, General Nance served as the Army’s Program Executive Officer for Tactical Missiles. In this position, he was responsible not only for managing many complex missile programs costing several billion dollars annually, but also for creating a strategic vision that would guide all army tactical missile programs through the Army’s transformation process.

In 1998, General Nance undertook perhaps his most challenging professional task when he became Program Director and Program Executive Officer for National Missile Defense, and he took that post at a particularly difficult time. He inherited a program that had for years received inadequate funding, and although the missile threat to our nation continued to grow, there were still sharp disagreements among political leaders about how to respond to this threat. Every aspect of the program was under intense scrutiny by congress, and the media. General Nance directed a team of government and contractor workers that stretched from Alabama to Alaska, from Massachusetts to the Marshall Islands, and from Colorado to California to Hawaii. Under these difficult conditions, General Nance not only put the National Missile Defense program on sound footing, but also led the program to successes. In October 1999, his team—on its first attempt—achieved the first successful intercept of a reentry vehicle in space by a missile defense kill vehicle. That feat has since been repeated three times in the past seven years. But there is nothing routine about such complex technical accomplishments, nor the extraordinary leadership that made them possible.

In 2001, the Bush administration undertook a strategic review that opened the door to more capable missile defenses, and General Nance helped lead an intensive effort to develop and evaluate new approaches to defending the United States against missile attack. This effort resulted in a fundamental change in the nation’s missile defense program. General Nance was selected to turn this new vision into reality when he became the first Program Executive Officer for the Ballistic Missile Defense System. In this role, he implemented Defense’s guidance to create a single, integrated Ballistic Missile Defense System out of ten disparate missile defense programs already under way. That effort required a careful balancing of new concepts for missile defense with already ongoing technical work. Under General Nance’s leadership in this, his final assignment, the missile defense program continued to make extraordinary progress toward protecting our nation and its armed forces, with the Ground-based Midcourse, Patriot PAC-3, and AEGIS missile defense systems all scoring successes in flight testing.

General Nance’s vision of a single integrated missile defense system is becoming a reality today and it will be a lasting legacy of his service to our country. Worrying far beyond his own even that important contribution. It extends to the soldiers he has touched throughout his career, to the example he has set, to the sacrifices he has made in long, distinguished, and selfless service to our nation. I am very proud that General Nance is from Mississippi, and that his wife, Jonnie is also a Mississippian. We are very proud of both of them and we wish them much continued success and happiness together in the years ahead.

**IRV KUPCINET: 90 YEARS OF A CHICAGO INSTITUTION**

Mr. DURBIN. Mr. President, I rise today to honor a Chicago institution and a good friend, Irving Kupcinet, on the occasion of his 90th birthday on July 31, and to pay tribute to his outstanding contributions to the veterans of the Chicago area. Best known for his work in journalism, Kup has also dedicated a major part of his life to serving his community’s veterans.

Born in 1912, Irving grew up in Chicago. Early on, he had a job cleaning Pullman car railroad cars so that he could earn money to attend college. He went on to receive his journalism degree from the University of North Dakota in 1934. While in college, he was involved as both the director of athletic publicity and as the quarterback of the football team. So, during the week, he wrote about sports and on Saturday, he played them. Initially he was headed toward a future in college football. He was even selected for the 1935 College All-Star football team, which led him to begin a short career in professional football with the Philadelphia Eagles.

However, a shoulder injury led him to a new path in life, as he shifted from sports player to sports writer. Kup began as a writer for the Chicago Times in 1935. Chicago readers have been enjoying the writings of “Kup” ever since. He was a Mississippian. We are proud of both of them and we wish them a happy 90th birthday.

Kup also dedicated a major part of his life to serving his community’s veterans. He found a way to do so in conjunction with the Purple Heart veterans organization, the Military Order of the Purple Heart of the U.S.A. is a Congres sionally chartered service organization for veterans that offers educational programs, outreach programs, computer training courses, and a long list of other programs aimed at serving our country’s veterans. Illinois, alone, has 860 Purple Heart veterans. With the Purple Heart and the Chicago Sun-Times, Kup has hosted an annual cruise. He said in his autobiography that his cruise “celebrates the veterans of all our wars, men and women who served, the fallen and the alive so that the rest of us could live in peace and freedom.” In a sense, this cruise is a reprise of the USO servicemen club, a one
day floating revival held each year sometime between Pearl Harbor and V-J Day. The veterans who attend the cruise leave with no less than 50 gifts when they step off the boat. That is a small gift compared to the sacrifices each veteran made for his or her country.

Through Kup’s initiative with the Purple Heart Cruise, Chicago is the only city that shows this brand of gratitude to our veterans. Iry has been recognized with the General John Logan Chicago Medal for his service for the Purple Heart cruises.

Kup, on his 90th birthday and every day, serves as a role model to all who read his column, listened to his television and radio broadcasts, and admired his sports career, and benefit today from his many good works.

A few weeks ago it was my good fortune to be invited to join Kup and his butler and wife Eseee last year, and his Michigan Avenue hotel. It was a great gathering of old friends, swapping stories, telling jokes and celebrating good times in life.

I extend my sincere congratulations to Kup on his 90th birthday, thank him for the difference he has made in his hometown of Chicago and ask that a great column by Bob Greene, written in his honor, be printed in the Congressional Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

THE DEADLINE DASH: KUP IS TURNING 90

I suppose stranger things have happened than Kup’s birthday party on the Sunday before celebrating and praising a columnist for the Sun-Times—but special moments call for special gestures. Kup is about to turn 90.

Irv Kupcinet’s 90th birthday is on the last day of this month. Kup’s Column is now in its 60th year—he began writing it in 1943. He lost his health but the health of his Chicago summers has not been so great, but he is as much a part of Chicago as...

Kup made a decision early to try to be fair in his work. When he at last caught sight of the name of Chicago on the first line of every piece he wrote, he would say, “Kup, I bet you don’t remember who I am.”

Irv Kupcinet was one of a kind—a man who once here is now employed all over the country. As he sat at the microphone, leaning forward, and boomed out: “Of course I know you! You’re a grand old veteran!”

Kup’s interviewing style on “Kup’s Show” was one of a kind—I remember him leaning close to Henry Kissinger once and thudding out, in that amazing Kup voice: “Henry, what the hell, pardon my French, was the French going on in Cambodia?”—and like everything else he did, it was pure Chicago.

I talked with Kup the other day. Like so many people who reach 90, he finds that going on in Cambodia?

Irv Kupcinet was one of a kind—Kup was one of the funniest men I have ever known. He had a way of speaking that was so unique and different from anyone else I could think of. Feeling weak or not, he seems to have made a determination, based on the toughness and strength of the old Kup: A great and legendary era in Chicago newspapering is coming to an end, and he is going to be the last man standing.

In newsmen not just in Chicago, but all over the country—newsmen who once here are now employed—the mention of Kup brings a smile and thoughts of home. It is going to be a long time before anyone I knew in Chicago will see Kup again. From the time he was born, through his career, through hisuí awards, the most outstanding of them all, the Chicago Patriot Award for his service for the Purple Heart cruises.

The House and Senate conferees agree that the bona fide dispute standard applies to both liability and the amount thereof.

As soon as the conferences become aware of this mistake, we worked to fashion a correction contained in a concurrent resolution to be adopted simultaneously with the conference report—so any confusion regarding Congressional understanding and intent in this matter, I am placing the relevant portion of the agreed upon Concurrent Resolution in the Record. It directs the Clerk of the House to correct the enrollment of H.R. 333 by amending it as follows:

“Section 1234(b) of the bill by striking ‘shall not apply with respect to cases commencing under Title II of the United States Code before such date’ and inserting ‘shall not apply with respect to cases commenced under Title II of the United States Code before, on, and after such date’.”

ADDITIONAL STATEMENTS

HONORING AL SANTORO, SECRETARY-COMMISSIONER OF THE OCEAN COUNTY BOARD OF ELECTIONS

Mr. TORRICElli. Mr. President, I rise today to recognize Al Santoro, who...
has been a great public servant for the people of New Jersey and has served over twenty three years at the Ocean County Board of Elections. Mr. Santoro is retiring after many years of outstanding service from his position as Secretary-Commissioner with the Ocean County Board of Elections at the end of July.

Born and raised in Newark, Al Santoro became involved in civic duty at a young age under the wings of his father, Raymond Santoro, who served as a Councilman in Newark. After completing his education, Mr. Santoro served in the United States Army from 1958 to 1960 in Germany.

During his tenure at the Ocean County Board of Elections, Al Santoro has been an important part in making our democracy work. His efforts helped ensure that the electoral mechanisms in place succeeded and that our elections are fair and just to all. The lifeblood of our democracy is the assurance that our political process works and that its integrity is not in question. Al Santoro has helped to make that a reality for the citizens of Ocean County. Surely, there can be no higher calling in our Republic.

I join the people of Ocean County and the entire State of New Jersey in recognizing Al Santoro for his outstanding service to the community.

A TRIBUTE TO JESSE W. ALLEN

Mr. REID. Mr. President, I would like to take a minute to recognize a man whose lifelong dedication to civic, military, and religious service has enriched not just my State of Nevada but the Nation as a whole.

Jesse W. Allen grew up in the poverty-stricken era of the Great Depression in Chattanooga, Tennessee. After losing his father at the age of fourteen, Mr. Allen dropped out of grade school in order to help support his family. His labor taught him responsibility, integrity, and the value of hard work. Mr. Allen embraced these values and imparted them on others throughout his life.

At age 17, Jesse Allen enlisted in the U.S. Navy. In his forty-one months of service, Jesse proudly served his country; first by dodging German submarines across the Atlantic Ocean aboard the U.S.S. Texas, and then by fighting off Japanese fire and suicide bombers as a gun captain in the South Pacific. By the time Mr. Allen was honorably discharged in 1945, he had received 13 Battle Stars, a Silver Star, and a Presidential Unit Citation.

After leaving the service, Jesse returned to Tennessee where he made up for his lack of a formal education by acquiring his GED and enrolling in Tennessee Temple Bible College. For three years, he worked full time at night in a woolen mill so that he could support his family while attending college on the GI Bill. This hard work paid off in 1948 when Mr. Allen was ordained as a minister.

Jesse began spreading Christian principles throughout the United States on street corners, in jails, nursing homes, home meetings, and even in the tuberculosis sanitarium. Eventually, he established many churches and drew such a following that his preaching was carried on radio stations throughout the Southeast.

Jesse lived by the same Christian values that he preached. He went into the bootleggers’ back woods, where few dared to go, to bring out the sick and elderly who needed to see a doctor. He worked with families suffering from marriage problems and with troubled teens throughout the Nation. My home State, Nevada benefited from his passion as Mr. Allen worked with abused, neglected, and abandoned children at the Southern Nevada Children’s Home in Boulder City, and later, as he opened his own home to afflicted youths from Clark County. His group home achieved record success rates for Clark County Juvenile Services for five consecutive years, earning him a commission as an Honorary Deputy Constable.

Today, Mr. Allen is the father of four and the grandfather of fourteen. He has lived an exemplary life of patriotism, citizenship, and dedicated service. He has overcome the obstacles of his impoverished upbringing to help others, using values that inspire those he touches to do the same. For this reason, I am proud to recognize Mr. Jesse W. Allen. Men like him are rare, but are one of our country’s greatest assets.

IN RECOGNITION OF THOMAS A. PANKOK, FORMER NEW JERSEY ASSEMBLYMAN

Mr. TORRICELLI. Mr. President, I rise today to recognize Thomas A. Pankok. Mr. Pankok has been a great public servant and an outstanding member of the community over the years.

Mr. Pankok currently resides in Pennsville, New Jersey. He married Alma Land in 1958 with whom he has three children, Thomas Pankok Jr., Kathy and Timothy and seven grandchildren.

Thomas Pankok is a graduate of Salem High School and a veteran of the United States Navy. He served four years during the Korean Conflict. In 1956, after his tour of duty, Thomas Pankok began a long career with Bell Telephone Company, serving 30 years with the company.

In 1981, Thomas Pankok was elected to the State Assembly. As a member of the Assembly, Mr. Pankok served two terms and authored many important pieces of legislation. After his first term in the Assembly, he was awarded with the “Freshman Legislator of the Year” award, presented by the State Association of Counties.

In addition, to his work in the State Assembly, Mr. Pankok also served over 15 years as a Salem County Freeholder. The role of state and local government is vital to our democracy. For our federal system of government to succeed, we must have effective and committed leaders at the state and local level. The United States Congress needs and relies on partners like Thomas A. Pankok in local government and I salute him and thank him for his efforts.

So, I join with Salem County and the entire State of New Jersey in recognizing Thomas A. Pankok, an outstanding public servant, citizen, veteran and father. His efforts upon the behalf of the people of Salem County have been vital to the community and are much appreciated.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred September 7, 2000 in Los Angeles, CA. A woman ran over a 65-year-old Hispanic man, Jesus Plascencia, twice in a parking lot. Authorities say that the perpetrator made comments about her hatred of Hispanics after the death and referred to them as “dead road kill.” The assailant was charged with murder and hate crimes in connection with the incident.

I believe that government’s first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

IN RECOGNITION OF DELAWARE FIGHTFIGHTERS SELFLESSLY FIGHTING NATIONAL BLAZES

Mr. CARPER. Mr. President, I rise today to discuss the status of the National Fire Plan, the 2002 Wildfire season and the Delawareans who risked their lives to save others. Since January 1, over 47,000 wildfires have burned more than 3,200,000 acres around the country. The vast majority of these fires have been small, just a few acres at most; however, several have been massive fires consuming hundreds or thousands of acres. To those living nearest these fires, they have suffered a tremendous loss. But thanks to the outstanding effort and tireless dedication of firefighters from around the country, many of these large wildfires have been suppressed, and the smaller fires have been prevented from growing larger.

While wildfires tend to be a greater problem in the West, concern for the residents, for their health, for their...
safety, and for their homes extends nation-wide. In Delaware, we have not experienced the devastating effects of fires seen in other states, yet men and women from my state have been willing to stand shoulder to shoulder with their brothers and sisters in helping fight these devastating fires.

The Delaware Wildfire Fire Crew, a 20-member advanced firefighting group made up of eight Department of Agriculture Forest Services employees and twelve volunteers has been on the road for two weeks, battling fires in Wyoming, South Dakota, and Virginia. Most recently, the crew helped put out a lightning sparked fire that burned approximately 850 acres of the George Washington National Forest in Virginia.

Their heroism and their selflessness were apparent. I want you to know that my heart was filled with pride when I learned this convoy of Delaware firefighting personnel was en route to offer assistance. These men and women were willing to stop what they were doing at a moment’s notice. They were willing to put their own lives on hold, leave their own families, and help those whose livelihood is at risk.

At some point, all of us need to look back and take stock of where we have been and where we are going. Have we lived our lives in the service to others, or merely for ourselves? Have we made the most of the opportunities given us? Have we made our families, our friends and the welfare of our country. Long before these tragic events, however, the man I remember here today practiced these ideals. He leaves behind a proud family; a thankful community and a Nation better off, because he was an American citizen for 53 years.

His friends and I will he “completed 80 years of work in 53 years of life.” It is a record of accomplishment that we can all learn from. Yet, even though he battled cancer for the last 12 years of his life, it did not diminish his devotion to his children, his compassion for his friends and his dedication to the work of the Ascension Parish School Board. His planning and execution were always based in reality, but he himself represented an idealist’s view of a man serving God, family and friends. He made us all laugh and kept a positive attitude that always seemed to affect our daily outlook on life.

His son Spencer, a graduate of West Point, said eloquently at his father’s funeral that although Roger has the potential for national service, he instead invested every moment of his energy on the community he dearly cared about, and the family he loved so much.

Roger and his wife Katherine were the proud parents of four children, Spencer, Stephanie, Styles and Stuart, each a blessing in their own right.

Though many awards and accolades found him in life, his service and dedication to his community were largely responsible for the public support of a $30 million bond issue that is creating new schools and expanding educational facilities throughout the parish.

Again, his son Spencer put it best when he said:

“We were all very lucky to have him at the local level, for his capabilities surely could have affected state and national events. He was a leader—a Chief Executive Officer, a General—someone that we all wanted to follow, a role model we all emulated in some way or another."

His deflection of self at the height of his energy on the community he dearly cared about, and the family he loved so much.

As Governor, I had the honor of signing into law legislation that named the Sussex Campus in Jack’s honor. Today, it is called “The Jack Owens Campus.” The honor and recognition found in the students and faculty at DelTech are, in large part, due to Jack’s vision.

After his retirement, Jack remained committed to public service. He served on numerous boards and commissions including The Arthritis Foundation, the Veterans of Foreign Wars and Ducks Unlimited, and served as a board member of the Beebe Medical Center and as Chairman of the Delaware Chicken Festival. He received honorary doctorate degrees from Wilmington College and the University of Georgia. Mexico helped establish a community college system.

Jack leaves behind his wife Donna, 6 children and 6 grandchildren. He also leaves behind many friends, colleagues and several generations of students who are living more productive, satisfying lives today because Jack made the decision thirty-five years ago to come north to Delaware.

Jack’s lifelong dream was that students in Sussex County would have the opportunity to receive undergraduate and advanced degrees in their home county. He lived to see that dream fulfilled.

Jack’s legacy will live on in the lives of those he helped shape, in the halls of education facilities he helped build, and in the hearts of those who were lucky enough to call him their friend. I encourage today to come north to Delaware and carry on Jack’s life, to celebrate his life, and to offer his family support. Jack embodied the best of Delaware. He will be sorely missed.
IN RECOGNITION OF PASTABILITIES RESTAURANT AND THEIR OUTSTANDING COMMITMENT TO COMMUNITY REVITALIZATION

• Mr. CARPER. Mr. President, I rise today to recognize Wilmington’s Pastabilities for its outstanding commitment to community service. The National Restaurant Association has recognized the restaurant as a finalist in their Restaurant Neighbor Award. The national distinction rewards restaurants for outstanding philanthropic work.

In his State of the Union address earlier this year, President Bush unveiled the USA Freedom Corps, challenging every American to commit at least 2 years of their life to serving their community and their country. Pastabilities, in Wilmington, Delaware has exceeded the President’s call to action. Owner Luigi Vitrone recognizes the importance of neighborhood revitalization and preservation. He and his staff have spent years dedicating energy and resources to improving their community. The results have been outstanding.

Established in 1997, LINA has raised $4.8 million from public, state and private sources to help rejuvenate the neighborhood. Having lived and worked in the neighborhood for over a decade, the personal investment ran deep.

Pastabilities has successfully restored Delaware’s “Little Italy” to the beautiful, unique, authentic community it once was. Volunteer service is vital to the improvement of our community, and the Pastabilities family has lent their time and energy at every turn. Local businesses such as this one serve as role models for citizen action and make Delaware shine. I am proud to put a spotlight on one of the State’s premier businesses.

I commend Pastabilities for their fantastic culinary work and thank Luigi Vitrone for his leadership and commitment to strengthening the community. This most recent honor bestowed upon the restaurant mirrors the pride felt by the neighborhood.

IN RECOGNITION OF SALLY HAWKINS

• Mr. CARPER. Mr. President, I rise today to pay tribute to Sally Hawkins, owner and president of WILM NewsRadio in Delaware. On her 80th birthday she remains a vibrant and purposeful woman, a dedicated entrepreneur and a celebrated public servant.

Sally started and maintains what is now the only remaining privately-owned and operated all-news radio station in the country. In an era when single-station AM radio operations have all but disappeared, she built a respected news station from the ground up—earning my respect, and the respect of her peers along the way.

As chair of the National Governor’s Association and now as the DLC’s chair for Best Practices, I’ve spent some time touring the country and highlighting the nation’s very best programs, businesses and innovators.

WILM certainly ranks among the best. The inroads made by Sally and the family, her family, at WILM are unparalleled.

As the station’s programming transcends racial, religious, political and cultural boundaries. Its commitment to community outreach and support of the arts and non-profits has helped keep organizations vital during the crucial development stages.

In a business environment in which the pressure to cut costs for the sake of profit is common, Sally has never wavered in her commitment to balanced coverage and public service. WILM is heavily committed to providing a neutral forum in which all political aspirants may enjoy equal time to debate issues in front of the public. Sally seeks to enlighten listeners, making them better citizens and more informed voters.

How many of us can say that we are proud of the life that we’ve lived and the service that we’ve provided to the community?

In a career that spans decades, Sally has led the National Association of Broadcasters Board, as well as the boards of the Better Business Bureau, the Delaware State Chamber of Commerce and the U.S. Small Business Administration. She has served on the executive committee of the Grand Opera House, the external affairs committee of Christiana Care, and on the boards of Blue Cross/Blue Shield, Goldey-Beacom College, the Delaware Council of Economic Education, the Girl Scout Advisory Council and the Delaware Community Foundation.

Sally seeks to enlighten listeners, making them better citizens and more informed voters.

Tribute to VICE ADMIRAL THOMAS J. KILCLINE, SR.

• Mr. WARNER. Mr. President, I pay tribute to an exceptional leader—Vice Admiral Tom Kilcline, Sr., in recognition of his remarkable career of service.
As every farmer in Kentucky knows first hand, the high level of humidity combined with irregular rainfall and nighttime dew can create a very taxing and unfriendly farming environment. Oftentimes, these factors result in an unproductive and unprofitable season, but this was not the case for Mr. Nowak. Mr. Nowak, through hard work and inventive thinking, has been able to successfully overcome these unpredictable and intrusive obstacles. He has truly become a pioneer for commercial hay production in Kentucky and the entire United States.

John Nowak’s practices have also been noticed by such noted agriculturalists as Dr. Garry Lacefield, a University of Kentucky extension forage specialist at Princeton’s Agriculture Research and Education Center. He is one of Nowak’s most adamant supporters. Dr. Lacefield plans on working closely with Mr. Nowak in the future to further improve the sellability and commercial marketability of hay.

In a capitalist society such as the one we have in the United States of America, innovation and ingenuity play such vital and important roles in our economic success. I applaud Mr. Nowak’s spirit and urge him to continue to find better and improved ways of production.

CONGRATULATIONS TO MS. MARSHA VAN HOOK

Mr. BUNNING. Mr. President, I rise today among my colleagues to congratulate Ms. Marsha Van Hook of Somerset, KY. On July 16th, Marsha Van Hook was the proud recipient of the Ted Jaskulski National Public Policy Award. This award is presented annually to an individual who has contributed to public policy efforts on behalf of people with developmental disabilities. Ms. Van Hook was nominated by the Kentucky Developmental Disabilities Council, KDDC, for her advocacy efforts related to disabilities.

In keeping with the goals and values of the KDCC, Marsha Van Hook has tirelessly and selflessly worked to ensure that children and young adults throughout the Commonwealth suffering from developmental disabilities have the right to an education, the opportunity to work and support themselves, and access to affordable health care and transportation in their respective communities. Specifically, Ms. Van Hook’s strong advocacy and involvement at the local and state level has brought a heightened sense of awareness to local communities across Kentucky concerning people with developmental disabilities and the dilemmas they face on a daily basis. She has been the eloquent voice of reason for advocacy and has also been an instrumental force in getting legislation passed regarding transportation needs for the disabled.

This most recent accolade is not the first time Ms. Van Hook has been duly recognized for positive influence on society. Both the Kentucky State Senate and House as well as many disability groups throughout the Commonwealth have presented her with awards.

Currently, Marsha Van Hook is employed by the Appalachian Regional Commission, ARC, where she is actively involved with their “Partners in Advocacy” training program. This program offers training and support to individuals and their families in developing and expanding much needed advocacy skills. She also participates in several commissions and committees at both the state and local level.

I ask that my fellow members of the Senate join me in congratulating Ms. Marsha Van Hook for this prestigious and noteworthy award and thank her for all that she has done and is doing to advance the cause of children and adults suffering from developmental disabilities.

RECOGNITION OF DR. MIMI SILBERT

Mrs. BOXER. Mr. President, I would like to take this moment to reflect on the work of a very special woman and friend, Dr. Mimi Silbert, whose extraordinary commitment and compassion have greatly enhanced the quality of life for so many people in California and across the Nation. The Jewish National Fund will present Mimi with its Woman of Valor Award on September 24 in Los Angeles.

Mimi serves as President, Chairman of the Board and CEO of the Delancey Street Foundation, which, since 1971, has helped thousands of substance abusers and get back on their feet. The foundation is known to be the largest of its kind in America.

The Delancey Street Foundation has centers in New York, New Mexico, North Carolina and Los Angeles, but its headquarters in San Francisco are the most well-known. Located on the San Francisco waterfront, the 400,000-square-foot complex is the largest self-help facility in the country. The complex houses 500 residents and contains Delancey’s national moving company, catering company, a screening room, the Delancey Street Restaurant and Crossroads Café.

Although best-known for her work with the Delancey Street Foundation, Mimi also serves as a powerful voice for reform. She recently wrote, designed and implemented juvenile justice system for the city of San Francisco, which has served more than 2,000 young people. City agencies and community-based organizations worked together to create a one-stop Community Assessment Center for arrested young people, two after-school facilities, and other programs. Mimi also used her extensive expertise to work as a prison psychologist and police trainer, as well as teach at the University of California at Berkeley, San Francisco State University, and the Wright Institute.

Mimi truly personifies the Jewish National Fund’s Woman of Valor to our country. Tom served his country for over 50 years as a distinguished Naval Officer and as President of The Retired Officers Association, TROA. Having battled cancer for over three years, Tom passed away on July 11, surrounded by his family at the Naval Medical Center, Bethesda, MD.

In 1943, at the height of World War II, he enlisted in the Navy from Kokomo, IN and was appointed to the U.S. Naval Academy in 1945. Tom enjoyed a distinguished career as a Naval Aviator; he flew in Korea, became an accomplished Test Pilot, commanded a tactical carrier based squadron during Vietnam, and flew actively, including tactical jets, until his retirement as Commander Naval Air Forces, US Atlantic Fleet in 1983.

Admiral Killcline was an incredible leader and tireless advocate for our Navy. During my tenure as the Secretary of the Navy, Tom headed the Office of Legislative Affairs and, while there, we worked closely together to push for legislative initiatives to improve readiness and to provide for much of the modern naval force you see today.

Following his retirement, he served as National President of The Retired Officers Association where he continued to work with Congress on behalf of thousands of our retired service personnel for nearly 10 years.

Tom’s greatest ally and strength was his devoted family. Mary, daughter of a naval aviator, was by her side through all his battles, from championing the cause of our country and our military families, to his fight with cancer.

They have had four children: Rear Admiral Tom, Jr., on duty with the Naval Aviation Warfare Staff at the Pentagon; Lt. Patrick, lost in an F-14 accident; Lt. Kathleen, a Navy doctor killed in an accident; Mary, devoted daughter and navy wife of Captain Bob Novak; and seven loving grandchildren.

Admiral Tom Killcline will be greatly missed by his family, friends and this Nation, but his legacy of devotion to family and service to his country remain with us forever.

TRIBUTE TO JOHN NOWAK

Mr. BUNNING. Mr. President, I rise today to recognize Mr. John Nowak of Fairview, KY. Mr. Nowak, who operates a farm outside of Hopkinsville, KY, has recently garnered national praise for his innovative and effective farming techniques.

Hay samples produced by Mr. Nowak earned the Best Pure Alfalfa, Best Alalfa with Grass and Best of Show awards during the American Forage and Grassland Council held in Minneapolis earlier this month. These hay samples underwent a rigorous laboratory analysis for relative feed value, protein fiber and mineral content as a part of the criterion.

Ms. Van Hook’s advocacy and involvement at the local and state level has brought a heightened sense of awareness to local communities across Kentucky concerning people with developmental disabilities and the dilemmas they face on a daily basis. She has been the eloquent voice of reason for advocacy and has also been an instrumental force in getting legislation passed regarding transportation needs for the disabled.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. NICKLES (for himself and Mr. INHOFE):

S. 2828. A bill to redesignate the facility of the United States Postal Service located at 6910 South Yorktown Avenue in Tulsa, Oklahoma, as the ‘‘Robert Wayne Jenkins Station’’; to the Committee on Governmental Affairs.

Mr. NICKLES. Mr. President, I rise today to honor the memory of Robert Wayne Jenkins, a U.S. Postal Service letter carrier who was tragically killed while serving the Tulsa community and to introduce legislation that would redesignate the Southside Station Postal Service facility in Tulsa, Oklahoma, as the ‘‘Robert Wayne Jenkins Station’’.

On December 21, 2001, Robert Wayne Jenkins said goodbye to his wife Amber and daughter Caitlyn and left home for work. Arriving with his usual friendly and positive attitude, Robert prepared for his mail route. Before leaving the office to deliver the mail on his route, Robert gave his customary message to a fellow letter carrier: ‘‘be safe’’. That afternoon, Robert was senselessly gunned down while on his route, dying instantly.

Robert Wayne Jenkins was in his ninth year of dedicated service in a job he truly loved. His co-workers respected his dedication and professionalism, and Robert was also greatly admired for his love and devotion to his wife and daughter. The spirit and vitality with which Robert served the U.S. Postal Service and his community will live on in the hearts of those who were privileged to know him.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION OF ROBERT WAYNE JENKINS STATION.

(a) DESIGNATION.—The facility of the United States Postal Service located at 6910 South Yorktown Avenue in Tulsa, Oklahoma, and known as the ‘‘Southside Station’’, shall be known and designated as the ‘‘Robert Wayne Jenkins Station’’.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other
record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Robert Wayne Jenkins Station.

By Mr. AKAKA:

S. 2829. A bill to authorize appropriations for the Merit Systems Protection Board, Office of Special Counsel, and the Merit Systems Protection Board, MSPB, to provide for the protection of certain disclosures of information by Federal employees, and for other purposes; to the Committee on Governmental Affairs.

Mr. AKAKA. Mr. President. Today I rise to introduce legislation reauthorizing the Office of Special Counsel, OSC, and the Merit Systems Protection Board, MSPB. These two agencies safeguard the merit system principles and protect Federal employees who step forward to disclose government waste, fraud, and abuse.

The Office of Special Counsel protects Federal employees and applicants from reprisal for whistleblowing and other prohibited personnel practices. OSC serves as a safe and secure channel for Federal workers who wish to disclose violations of law, gross mismanagement or waste of funds, abuse of authority, and a specific danger to the public health and safety. In addition, OSC enforces and provides advisory opinions regarding the Hatch Act, which restricts the political activities of Federal employees. It also protects the rights of Federal employee, military veterans and reservists under the Uniformed Services Employment and Reemployment Rights Act of 1994.

The Merit Systems Protection Board monitors the Federal Government's merit-based system of employment by hearing and deciding appeals, which has sole jurisdiction over matters of an employee's job duties. The Merit Systems Protection Board also hears and decides appeals, which has sole jurisdiction over matters of an employee's job duties.

The bill also addresses another burden created by the Federal Circuit not found in the Whistleblower Protection Act. In interpreting the meaning of ‘reasonable belief,’ the Federal Circuit held that the reasonableness of the whistleblower’s belief that the government violated the law or engaged in gross mismanagement must first begin by determining whether or not the officers performed their duties correctly, fairly, in good faith, and in accordance with the law. However, this presumption can only be overcome by “irrefragable proof” to the contrary. The irrefragable proof is incapable of being overcome and has a chilling effect on those who would disclose government wrongdoing. As such, this new provision states that any presumption that a public officer has performed their duties in good faith must be overcome by substantial evidence.

My bill also codifies an “anti-gag” provision that Congress has passed annually since 1988 as part of its appropriations process. The yearly appropriations language bars agencies from implementing or enforcing any non-disclosure policy, form, or agreement that does not contain specified language preserving open government statutes such as the WPA, the Military Whistleblower Protection Act, and the Lloyd Lafollette Act, which prohibits discrimination against government employees who communicate with Congress. Moreover, Congress unanimously has supported the concept that Federal employees should not be subject to restraint nor suffer retaliation for disclosing wrongdoing.

Now more than ever, Federal employees must feel comfortable coming forward with information concerning violations of law that could cause substantial harm to public safety. We must support the brave men and women who come forward to report wrongdoing. We must ensure that such acts of bravery are not rewarded with retaliation.

Protection of Federal whistleblowers is a bipartisan effort. Enactment of the original bill in 1989 and the 1994 amendments enjoyed unanimous bicameral and bipartisan support. More recently, Senators LEVIN and GLASSLEY joined me in introducing S. 965, which replaces many of the same amendments to the WPA as this bill. I urge my colleagues to join with me in clarifying the WPA and supporting the reauthorization of two very important agencies.

At this time I ask unanimous consent that the text of the legislation be printed in the RECORD. There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 2829

3. any employee of the executive branch or Congress who has the appropriate security clearance for access to the information disclosed.

(b) COVERED DISCLOSURES.—Section 2302(b) of title 5, United States Code, is amended by adding at the end the following:

“This subsection;” and
(2) by adding at the end the following:

“This subsection, the term ‘disclosure’ means a formal or informal communication or transmission.”

(c) NONPREMATURE PRESUMPTION.—Section 2303(b) of title 5, United States Code, is amended by adding after the matter following paragraph (12) (as amended by subsection (f) of this section) the following:

“For purposes of paragraph (8), any presupposition relating to the performance of a duty by an employee may be rebutted by substantial evidence.”

(d) NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS.—

(1) PERSONNEL ACTION.—Section 2302(a)(2)(A) of title 5, United States Code, is amended—

(A) in clause (x), by striking

“; and”

and inserting after clause (x) the following:

“(xii) and inserting after clause (x) the following:

“(xi) the implementation or enforcement of any nondisclosure policy, form, or agreement shall contain the following statement:

“These restrictions are consistent with the extent that it conflicts with language in this agreement and are controlling.”

Any nondisclosure policy, form, or agreement that contains the above statement may not be implemented or enforced to the extent that it conflicts with language in the above statement.

(b) PERSONS OTHER THAN FEDERAL EMPLOYEES.—Notwithstanding subsection (a), a nondisclosure policy or agreement that is to be executed by a person connected with the conduct of an intelligence-related activity, other than an employee or officer of the United States Government, may contain provisions appropriate to the particular activity for which such document is to be used. Such form or agreement shall, at a minimum, require that the person will not disclose any classified information received in the course of such activity unless specifically authorized to do so by the United States Government. Such nondisclosure forms shall also make it clear that such non-disclosure requirements are to form the basis of a Memorandum of Understanding between the Department of Justice and the person to which such nondisclosure policy is to be applied.

(e) AUTHORITY OF SPECIAL COUNSEL RELATING TO CIVIL ACTIONS.—

(1) REPRESENTATION OF SPECIAL COUNSEL.—Section 1212 of title 5, United States Code, is amended by adding at the end the following:

“(h) Except as provided in section 518 of title 28, relating to litigation before the Supreme Court, attorneys designated by the Attorney General may appear for the Special Counsel and represent the Special Counsel in any civil action brought in connection with section 2302(b)(8) or subchapter III of chapter 73, or as otherwise authorized by law.”

(2) JUDICIAL REVIEW OR MERIT SYSTEMS PROTECTION BOARD DECISIONS.—Section 703 of title 5, United States Code, is amended by adding at the end the following:

“(e) The Special Counsel may obtain review of any final order or decision of the Board by filing a petition for judicial review in the United States Court of Appeals for the Federal Circuit if the Special Counsel determines, in the discretion of the Special Counsel, that the Board did not act in deciding a case arising under section 2302(b)(8) or subchapter III of chapter 73 and that the Board’s decision will have a substantial impact on the enforcement of section 2302(b)(8) or subchapter III of chapter 73. If the Special Counsel was not a party or did not intervene in a matter before the Board, the Special Counsel may not petition for review of a Board decision under this section unless the Special Counsel first petitions the Board for reconsideration of its decision, and such petition is denied. Exception to the named respondent, the Board and all other parties to the proceedings before the Board shall have the right to appear in the proceedings before the Court, and the granting of the petition for judicial review shall be at the discretion of the Court of Appeals.”

SEC. 4. NONDISCLOSURE POLICIES, FORMS, AND AGREEMENTS.

(a) IN GENERAL.—Each agreement in Standard Form 141, Discharge of Government and any other nondisclosure policy, form, or agreement shall contain the following statement:

“These restrictions are consistent with and do not supersede, conflict with, or otherwise alter the employee obligations, rights, or liabilities created by Executive Order No. 12858, section 3(c), United States Code (governing disclosures to Congress); section 1034 of title 10, United States Code, (governing disclosure to Congress by members of the military); section 2302(b)(4) of title 5, United States Code, (governing disclosures of illegalities, waste, fraud, abuse or public health or safety threats); the Intelligence Identities Protection Act of 1962 (50 U.S.C. 421 et seq.); (governing disclosures that could expose confidential Government agents); and the statutes which protect against disclosure that may compromise the national security, including sections 611, 793, 794, 796, and 952 of title 18, United States Code, and section 4(b) of the Subversive Activities Control Act of 1950 (50 U.S.C. 783(b)). The definitions, requirements, obligations, rights, sanctions, and liabilities created by such Executive order and such statutory provisions are incorporated into this agreement and are controlling.”

SENATE RESOLUTION 314—EXPRESSING THE SENSE OF THE SENATE THAT A COMMENORATIVE POSTAGE STAMP SHOULD BE ISSUED COMMEMORATING REGISTERED NURSES

Mr. CLELAND submitted the following resolution; which was referred to the Committee on Governmental Affairs:

S. Res. 314

Whereas registered nurses comprise the largest health care work force in the United States, numbering more than 2,700,000. These registered nurses provide direct patient care and manage teams of medical professionals in hospitals, clinics, community health centers, offices, nursing homes, and the homes of patients;

Whereas the lack of young people in nursing has resulted in a steady and dramatic increase in the average age of a registered nurse in the United States;

Whereas the average age of a working registered nurse is 43 years, meaning that the nursing workforce is aging at twice the rate of other occupations in the United States;

Whereas the Bureau of Labor Statistics estimated that 231,000 registered nurses, or 15 percent of the current workforce, will retire between 1998 and 2008;

Whereas the health care needs of the Nation are expected to increase greatly as the baby boom generation reaches retirement age;

Whereas a recent survey of hospitals across the Nation has demonstrated the viability of nursing as a profession; registered nurse staff apparently relates to decreases in the incidence of urinary tract infections, pneumonia, shock, and upper gastrointestinal bleeding, and decreases in the length of hospital stays;

Whereas the Institute of Medicine and the Centers for Medicare and Medicaid Services recently have released reports detailing the need for increasing the supply of registered nurse care in nursing facilities;

Whereas the American Nurses Association has identified a need to improve the recognition of nursing as a profession and the image of the nursing profession;

Whereas registered nurses did not hesitate to respond to the extraordinarily dangerous situations resulting from the terrorist attacks of September 11, 2001, putting their own lives at risk and acting heroically to help save as many lives as possible in the impact zones; and

Whereas registered nurses have historically cared for patients regardless of the risks of war, terrorism, or contracting debilitating illnesses: Now, therefore, be it

Resolved,

SECTION 1. SENSE OF THE SENATE.

It is the sense of the Senate that—

(1) the United States Postal Service should issue a postage stamp commemorating registered nurses; and

(2) the Citizens' Stamp Advisory Committee should recommend to the Postmaster General that such a stamp be issued not later than 1 year after the adoption of this resolution.

SEC. 2. TRANSMITTAL TO CITIZENS' STAMP ADVISORY COMMITTEE.

(2) the Citizens' Stamp Advisory Committee should recommend to the Postmaster General that such a stamp be issued not later than 1 year after the adoption of this resolution.

SEC. 2. TRANSMITTAL TO CITIZENS' STAMP ADVISORY COMMITTEE.

The Secretary of the Senate shall transmit a copy of this resolution to the chairperson of the Citizens' Stamp Advisory Committee.

Mr. CLELAND, Mr. President, I am very pleased to submit a resolution expressing the Sense of the Senate that a postage stamp commemorating registered nurses should be issued. Registered nurses did not hesitate to respond to the extraordinarily dangerous situations resulting from the terrorist attacks of September 11, 2001, putting their own lives at risk and acting heroically to help save as many lives as possible in the impact zones; and whereas registered nurses have historically cared for patients regardless of the risks of war, terrorism, or contracting debilitating illnesses: Now, therefore, be it

To the Senate of the United States:

I transmit herewith, for Senate advice and consent to ratification, the Protocol to Amend Convention for the Unification of Certain Rules Relating to International Carriage by Air Signed at Warsaw on October 12, 1929 (The Hague Protocol). The report of the Department of State, including an article-by-article analysis, is enclosed for the information of the Senate in connection with its consideration of The Hague Protocol.

The Warsaw Convention is the first in a series of treaties relating to international carriage by air. The Hague Protocol amended certain of the Warsaw Convention Articles, including several affecting the rights of carriers of international air cargo. A recent court decision held that since the United States had ratified the Warsaw Convention but had not ratified The Hague Protocol, the Republic of Korea had ratified The Hague Protocol but not the Warsaw Convention, there were no relevant treaty relations between the United States and Korea. This decision created uncertainty within the air transportation industry regarding the scope of treaty relations between the United States and the 78 countries that are parties only to The Hague Protocol. Thus, U.S. carriers may not be able to rely on the provisions in the Protocol with respect to claims arising from the transportation of air cargo between the United States and those 78 countries. In addition to quickly affording U.S. carriers the protections of those provisions, ratification of the Protocol would establish treaty relations with Korea and the five additional countries (El Salvador, Grenada, Lithuania, Monaco, and Swaziland) that are parties only to The Hague Protocol and to no other treaty on this subject.

A new Convention for the Unification of Certain Rules for International Carriage by Air, done at Montreal May 28, 1999 (the “Montreal Convention”) is pending on the Senate's Executive calendar (Treaty Doc. 106–14). I urge the Senate to give its advice and consent to that Convention, which will ultimately establish modern, uniform liability rules applicable to international air transport of passengers, cargo, and mail among its parties. But the incremental pace of achieving widespread adoption of the Montreal Convention should not be allowed to delay the benefits that ratification of The Hague Protocol would afford U.S. carriers of cargo to and from the 74 countries with which it would promptly enter into force.

I recommend that the Senate give early and favorable consideration to The Hague Protocol and that the Senate give its advice and consent to ratification.
