

1980s we did provide dual-use material to Iraq that could have been used to wage conventional war, but there is no evidence that we knowingly provided material to Iraq that could be used to conduct biological or chemical warfare.

Mr. DREIER. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I rise in strong support of this rule and obviously the resolution, as well. It is very clear we were talking about the issue of biological weapons. The United States of America does not traffic in biological weapons, and the attack that has been launched by many on the other side against President Bush No. 41 is an unfair one.

We see much dual-use technology which, unfortunately, has been used in a wrong way. But the question that we need to address is the intent of Saddam Hussein. Saddam Hussein poses a threat to our stability, to the entire world. None of us is enthused about the prospect of going to war; but we face one of the most difficult issues we possibly can as Members of the people's House, that is, are we going to provide this President of the United States the support that he wants and deserves to proceed in defending the United States of America and our interests?

Mr. Speaker, it is a difficult time, and I think back to a debate that took place in the middle of the Civil War. John Stuart Mill wrote: "War is an ugly thing, but it is not the ugliest of things. The decayed and degraded state of moral and patriotic feeling which 'thinks nothing worth a war' is worse."

Mr. Speaker, it is very important for us to realize how tough this is; but the United States of America is a very unique Nation, and we stand for freedom throughout the world. It is important for us to stand up now. Vote "yes" for this rule, and vote in favor of the resolution.

Mr. DREIER. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.
