PROVIDING FOR CONSIDERATION OF H.J. RES. 123, FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2003

(Continued)

However, along comes the Office of Management and Budget and based on some vague language they derived out of section 110 of the CR, misinterpreted that law to cut highway funding and establish a pro-rata share of only $27.7 billion, which is $4.1 billion less than the fiscal year 2002 funding level.

This is consistent with the Administration’s attempt to cut highway infrastructure investment as expressed in its message to Congress, but it is not consistent with Congressional intent. It had to be corrected. So the chairman of our committee, the gentleman from Alaska (Mr. YOUNG), and I worked together to include language in the third continuing resolution to reverse the OMB interpretation and ensure that the Federal-aid highways program obligation limitation be continued at the fiscal year 2002 rate, that is, $31.8 billion, until Congress passes the Transportation Appropriations Conference Report.

Congress, not OMB, makes that determination. Our language did reverse the OMB interpretation. So far so good.

But then along came the House Republican leadership. They insisted on some additional language to reintroduce the $27.7 billion number of the Transportation Appropriation committee-reported bill.

Well, a week ago the director of OMB, Mitch Daniels, said “I think $27 [billion] is the right number”; but that is not what the CR said. So we insisted, I think we got OMB’s attention, and OMB and the Federal Highway Administration have now issued guidance to States to provide the pro-rata share at the $31.8 billion level. Unfortunately, that language that the House Republican leadership insisted on has clouded the picture.

Suffice it to say, I think we have a short-term fix that keeps the transportation program on the level provided for in TEA–21 up through, perhaps, August of next year. Then the whole program will crash back down to the $27.7 billion level, and States will lose a lot of money and a lot of construction jobs.

Now the wish is and the hope is, and the gentleman from Wisconsin (Mr. PETRI), the chairman of the Subcommittee on Highways and Transit, and I both hope that Congress will come to its senses and fix that problem between now and then. But the reality is that States have to be able to plan long term. They cannot plan much longer than August of 2003, at which time the program crashes back to $27.7 billion and we lose 195,000 good-paying jobs in our economy.

What is worse is that States now are looking ahead and saying I do not think we can plan that far ahead.

Mr. Speaker, we will on our side move to defeat the previous question and offer an amendment that will fix this problem, and we ought to defeat the previous question. We ought to come back with fixed language that restores the total intent of TEA–21 and keep our transportation programs on schedule. These are Highway Trust Fund dollars. These are monies that could be set aside in the guaranteed account. They will help lift this economy up; and if Members believe in transportation and are sick of sitting in traffic congestion and believe in moving America forward, then they need to defeat the previous question and restore those dollars now, rather than waiting for some future point next year when we may or may not be able to restore the $31.8 billion. This provides short-term benefit, and long-term uncertainty which is bad for highway programs, bad for transportation programs, bad for American jobs.

Mr. HASTINGS of Washington. Mr. Speaker, I yield 4 minutes to the gentleman from Alaska (Mr. YOUNG), the chairman of the Committee on Transportation and Infrastructure.

(Mr. YOUNG of Alaska asked and was given permission to revise and extend his remarks, and include extraneous material.)

Mr. YOUNG of Alaska. Mr. Speaker, I listened with great interest to the ranking member, the gentleman from Minnesota (Mr. Oberstar), and his presentation. The gentleman and I participated and both signed off on the language in this resolution. That was last week. Nothing has changed. I am happy to say that this week my back does not hurt quite as much as it did last week, but I will say it again, this is for political purposes. It is really not the way to do business.

If Members remember, in fact, when the President came down with his budget, there was about $23 billion in the highway program. We on a bipartisan basis raised it to $37.1 billion, and this House voted on that level. But under a continuing resolution, I want to spend the money actually at $31.8 billion; and that is what we will do under this resolution as long as we are working under a continuing resolution. But there is a lot of what-ifs being brought up here. No Member believes that we will be working under a continuing resolution until August. That is very unlikely. I know the gentleman from Florida (Mr. YOUNG) will not allow that, nor will myself.

The Senate has not acted, nor have we in the final conclusion of this highway program. I see the gentleman from Minnesota (Mr. Oberstar) and his staff, and they signed off on this. The gentleman signed off on this. Everybody signed off on it. That really bothers me when I see Members trying to distort this on the floor of the House again for political purposes. I think that is improper. We have been a very bipartisan committee, and I will continue to do that; but do not use this floor to try to convey something that is not all true. Not all true.

We will be able to spend this money and the States will be able to program this money until August under this resolution. I expect truthfully when the Senate and the House get together, we will arrive at the $31 billion. I expect that to happen. So what we are doing is saying what it. We are in this position now. This is where we are going to be. I heard we are cutting jobs. We are not cutting anything in this resolution. I
think it is improper to try to convey the idea that we are trying to do something that we did not agree to beforehand.

Mr. OBERSTAR. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Minnesota.

Mr. OBERSTAR. Did the gentleman hear my distinction of the funding at the $31.8 billion level until August of next year at which point it crashes; and is that incorrect?

Mr. YOUNG of Alaska. Absolutely. I heard and I agree if we were working under a continuing resolution that would happen, and by August we would not be able to spend the money at $31 billion; but that is not going to happen. Mr. OBERSTAR. If the gentleman would continue to yield, that is what I said. I did not politicize it. That is simply a statement of fact.

Mr. YOUNG of Alaska. What is fact? The fact is we are going to spend money at $31 billion which we did not have prior to this until August if we work under a continuing resolution. We are not going to work under a continuing resolution, and the gentleman knows that. There will be a solving of this problem with the Senate if the Senate ever gets busy, and we will probably arrive at a figure of around $31 billion.

Mr. OBERSTAR. If the gentleman would continue to yield, I would hope that we would solve the problem. But I want to point out in all fairness, what we agreed to with the gentleman was $31.8 billion. The $27.7 billion language was added later. I do not know where it came from.

Mr. YOUNG of Alaska. Wait a minute. The gentleman saw the language.

Mr. OBERSTAR. That was an OMB insistence which I hope has been fixed.

Mr. YOUNG of Alaska. Reclaiming my time, I am not fixed with this letter, which I include for the RECORD.

Hon. DON YOUNG, Chairman, Committee on Transportation and Infrastructure, Rayburn House Office Building, Washington, DC.

Dear Mr. Chairman: OMB has reviewed section 137 of Public Law 107–240, Making Further Continuing Appropriations for Fiscal Year 2002, which was enacted on October 11, 2002. The enactment of section 137 will have no impact on the level of highway jobs or the level of highway spending for states.

The effect of section 137 is to retain the FY 2002 rate of operations for the Federal aid highway program at $31.8 billion for the duration of the continuing resolution, requiring OMB to apportion funds at an annualized rate of $31.8 billion, to reach the $27.7 billion cap on total obligations prior to the expiration date of the continuing resolution.

President Bush signed H.R. 2645 into law on October 11, 2002, to avert a government shutdown. The President directed OMB to take immediate action to prevent Federal agencies from expending any funds in the context of House-Senate continuing resolutions to exceed $27.7 billion. This provision, as many of the terms of the current resolution, is subject to section 107(c) of P.L. 107–229, which establishes the date of expiration of the continuing resolution. H.J. Res. 122 sets that date of expiration at October 18, 2002. Consequently, it is mathematically impossible for the highway program, spending at an annualized rate of $31.8 billion, to reach the $27.7 billion cap on total obligations prior to the expiration date of this or any other continuing resolution that is expected in the future.

Therefore, the effect of section 137 is to provide that the highway program continue at the FY 2002 enacted level of $31.8 billion until the final FY 2003 funding level is determined. Following House and Senate negotiations of the FY 2003 Transportation Appropriations bill, the Administration is committed to ensuring that the highway program is funded at an annualized rate of $31.8 billion during that period. As of today, OMB has apportioned funds in accordance with section 137.

Permit me to point out in all fairness, what we agreed to in all fairness, what we agreed to in all fairness, what we agreed to in all fairness. The gentleman from Minnesota.

Mr. Speaker, I yield 3 minutes to the gentleman from Florida. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana (Ms. CARSON), who has been a leader in trying to help the neediest children in this land.

(Ms. CARSON of Indiana asked and was given permission to revise and extend her remarks.)

Ms. CARSON of Indiana. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise to oppose this rule. Because of our inaction on August 1, nearly $1.2 billion in funds intended for low-income children reverted to the Federal Treasury. That puts us in a chance in this continuing resolution to make a change for the better, for the children.

More than 80 percent of the funds that have reverted were awarded just 6 months ago, as opposed to Indiana, which had programs enrolling a large number of children. These States include Alaska, Indiana, Kentucky, Maryland, Massachusetts, New Jersey, New York, North Carolina, Rhode Island, South Carolina, and West Virginia.

Because of the national recession, many of these same States have experienced a slowdown in their SCHIP enrollment and record levels of participation in Medicaid due to many low-income parents being forced to work reduced hours which forces parents into Medicaid programs along with their children. Not extending these funds will put the most successful programs at great risk when the economy improves and the SCHIP rolls again swell rapidly.

Indiana has already lost $105 million of funding. Knowing that Indiana would lose the reversion effect of section 137, funding from other States, State officials last year asked HHS to use it for new initiatives, including one to fund the replacement on windows painted with lead-based paint. Indiana wanted to take an aggressive approach and help remove the danger that leads to by poisoning, a significant problem in Indianapolis and throughout the State. Federal officials denied the request because Indiana would not limit the program to homes in which children already showed evidence of lead poisoning.

Allowing States to keep reallocated and redistributed fiscal year 1998 and 1999 allotments, along the lines of what the President proposed, is the simplest and fairest way to stabilize the program and help States to maintain critical services for low-income children. These are the funds that just expired and may be lost forever if Congress takes no action before this year.

My Governor, who chairs the Human Resources Committee of the National Governors Association, recently told the New York Times that “Governors fear that, if this money is lost, the Federal Government’s growing budget deficit will make it difficult to recover this money at a later date.”

Without this funding being kept in States during uncertain financial times, Congress is risking leaving thousands of low-income children behind.

Mr. Speaker, as Members know, $2.4 billion remaining from the regular SCHIP allotment is scheduled to be redistributed this year because of the action Congress made 2 years ago.

Congress must act, otherwise we are shortchanging more than 4.6 million children throughout America and in Indiana who need health care most. I plead that, indeed, we leave no child behind.

Mr. HASTINGS of Washington. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. PETRI).

Mr. PETRI. Mr. Speaker, I rise in support of the rule and the joint resolution that passed this morning, which remains in effect under this resolution.

This provision was necessary to reverse the administration’s decision to reduce the highway program to a $27.7 billion annualized rate of funding while under the first two continuing resolutions.

As a result of the highway funding provision in last week’s continuing resolution, the Office of Management and Budget issued a new apportionment for the highway program, increasing the rate of funding from $27.7 billion to $31.8 billion, on an annualized basis.

This proves beyond any doubt that the highway funding provision enacted last week had the desired effect of requiring the highway program to be increased beyond the $27.7 billion annualized rate of funding level of $31.8 billion, while the continuing resolution remains in effect.

I am pleased to insert into the RECORD a copy of the OMB apportionment as well as a letter from OMB regarding this issue. From this letter, it is clear that the $27.7 billion limit on total obligations has no practical effect under a short-term continuing resolution.

If at some point in the future the House considers a longer-term CR, one that remains in effect well into next year, the Committee on Transportation and Infrastructure, as has been indicated by the gentleman from Alaska

Transportation Appropriations bill. Administration negotiations on the FY 2003 mined in the context of House, Senate and provide that the highway program continue that is expected in the future.

First, let me personally thank the gentleman from Florida (Mr. Young), the gentleman from Wisconsin (Mr. Obey), the gentleman from Michigan (Mr. Knollenberg) and the gentleman from Pennsylvania (Mr. Fattah) for doing their job. It was the smoothest D.C. appropriation in many years, they got it done, but there is not a sufficient realization of the Congress that the District of Columbia is not a Federal agency. It is an anomaly that it is here, anyway. This money is the money of the taxpayers of the District of Columbia, but we cannot spend any of it until we bring it over here. We have brought it over here. There have been no changes to our budget, but D.C. cannot now go about allocating its money and spending the money of its own taxpayers.

The urgency of the matter is revealed in a letter that I would like to insert in the Congressional Record from the Mayor and the City Council chair. They have done an extraordinary job in making needed cuts because the national economy has caused that to be necessary for local jurisdictions and States throughout the United States. But now they cannot make the cuts, they cannot move the money around the way Maryland and Virginia and every other State is doing, because we are on some kind of continuing resolution that works well for HHS. Well, it does not work well, but at least does not bring HHS down, does not bring the Department of Labor down, but leaves your Nation's capital really on the ground.

The District has done a magnificent job of balancing its budget in difficult times. It had the same problem that your jurisdictions have had, where the problem with the national economy has not just trickled down, it has dumped on the States and localities. In 10 days' time the Mayor and the Council did not whine about it. When they discovered this problem, they cut their budget by $332 million. They are ready to go now. But the Congress is not ready to respond, but the Mayor has no choice but to go back for completely unrelated reasons.

There is vital new Federal money in there, the kind of Federal money that helps the Congress more than it helps us. We had to go to the Treasury in order to ask the President, and I am pleased that the President did in fact forward some money to us when we could not get the 2002 supplemental out, so that we could protect this city when the IMF demonstrations were just held here. But we cannot get public money for city safety reimbursement money for, in fact, demonstrations that are likely to be held here, for example, against the war before you get back. This city is torn up, however, because we have to spend on a day-to-day basis. Everybody will wonder: Why did the city not get protected?

You have no dispute with the District of Columbia. This is a dispute between the Congress and the President for that matter and the small factions within the Congress of the United States. Nobody in this Congress means to hurt this city. Wherever you stand on the District, I think everybody wants this city to thrive. But to leave it even in the situation it is in is to leave us not only in pain. It is to leave the good people of the District of Columbia with pain and suffering. I am asking you to help us free D.C. from this CR.

DISTRICT OF COLUMBIA, October 15, 2002.

Hon. J. Dennis Hastert,
Speaker of the House.
House of Representatives, Washington, DC.

Mr. Speaker: We thank you for your past assistance to the city and for the special sensitivity you have shown toward matters affecting the District of Columbia since becoming Speaker. We write to ask that you allow the District's budget to be disconnected from the current congressional appropriation stalemate after the nearly 600,000 taxpayers of the nation's capital who fund city services contained in that budget. The District, of course, is a major city, not a federal agency, and residents experience unique hardships when the D.C. appropriation is delayed with agency appropriations. We appreciate the explanation of the District's continuing delay of passage of the District's budget, however, poses a special threat this year when the city has had to make last minute calls and must reallocate funds accordingly.

As you are aware, nearly all of the District appropriation is derived from local, not federal funds, and Congress has traditionally approved the District's local budget without revision. This year, both the House and Senate appropriations committees passed the D.C. appropriation bill with unanimous bipartisan votes. The city is both grateful and proud of this achievement because just weeks before the start of the fiscal year, the city's Chief Financial Officer released revenue estimates projecting a $323 million operating deficit in Fiscal Year 2003 due to the twin shocks of 9/11 attacks and the faltering national economy. Of course, the District's decline in revenue mirrors similar declines in cities and states across the country, but they are United States.

Mr. Speaker: We appreciate that after inspecting the city's figures to assure the budget was balanced, the House appropriations committee was able simply to insert the District's new funding into the bill. The District has shown that it can act quickly to avert potential fiscal crisis. We hope that the Congress will respond.

In December 2000, you generously worked with us to free the District's appropriation from a similar national budget impasse. We are asking for your intervention again because the delay of the city's budget threatens our administration of many city services that must be adjusted...
Mr. CUNNINGHAM. Speaker, I am pleased to yield 5 minutes with any budget number and say, would speak against the House of Commons with any budget number and say, would speak against the House of Commons.

Mr. CUNNINGHAM. Mr. Speaker, if I spoke if this was above ours. Not ours, of course, in England.

Mr. CUNNINGHAM. Mr. Speaker, we would never know it was an election year on the House floor, would we? I am joking, of course. It is sickening, the partisan attacks that go back and forth on this floor. Unfortunately, we are just a few weeks out from an election.

My colleagues on the other side will say, well, it is the mean Republican leadership; they are the ones that will not allow us to pass appropriations bills. All those other guys are okay; it is just the leadership. Casting aspersions and a dark cloud on the leadership damages the party for an election.

The House has passed appropriations bills, and my colleagues will say, "They don’t need the Senate to act for us to pass our appropriations bills." On the floor, the rules state that I cannot talk about what the Senate has done and the reasons for it, so I will not do that. I will not violate those rules. So what I will do, let us just say the House of Commons in England, let us say the House of Lords in England, and let us say the House of Commons passes a budget and they look at fiscal responsibility across the board so that we do not go out into debt and that we can get back to a balanced budget and the things that we hold dear. But let us say the House of Lords does not pass a budget and they know that the House does not want to pass their appropriations bills, the House of Commons, because they can attach any number above ours. Not ours, of course, in England because that would be against the rule, Mr. Speaker, if I spoke if this was the House. But let us just say that they would speak against the House of Commons with any budget number and say, "Look at that mean House of Commons. They’re cutting education. They’re cutting veterans bills. They’re cutting prescription drugs."

Let us just say, for instance, the House of Commons put $340 billion to a President’s desk and the House of Lords put $1.3 trillion. The House of Lords would go out and tell all the senators, “Look at those mean Republicans.” Well, excuse me, I do not know if they are called Republicans. Let us say “the House of Commons.” Look how mean they are. They are going to hurt you, seniors. And let us say that if they had a bill on education and labor, that they put $278 billion more in the House of Lords than the House of Commons and they say, “Look, those mean rascals are cutting.” But why will they not do their budget? Because the House of Commons will not play the game prior to an election and the Senate bills that the House of Lords knows will never get done, but for political reasons they want to do it.

But I would never, of course, attach the House of Lords to the Senate of the United States. Mr. Speaker, because that would be against the rules.

There was a bill, or a headline, Washington Post and Washington Times last week assigned and said, Congress Votes a Continuing Resolution Not to Shut Down the Government. You can spin it any way you want. You can try and blame the Republicans for shutting down the government or not doing their job, but we are not going to go home and do our job just like the House of Commons would not in England. If you want to vote “no” on this rule and continuing resolution, you can spin it any way you want, but you are voting to shut down the government. We are not going to play that game either, Mr. Speaker.

If my colleagues on the other side, whether you be the House, or the House of Lords, you ought to get after the Senate. We passed in this House, with 118 Democrat votes, a bill giving confidence in the stock market to help the economy. We passed that in the House. The Senate has not acted. I, Mr. Speaker, would question anyone that would hold up a homeland security bill because they wanted their union brothers to fill those jobs. To me, that is unpatriotic.

Mr. HASTINGS of Florida. Mr. Speaker, as I heard the gentleman from Wisconsin (Mr. OBEY), the ranking member of the Committee on Appropriations.

Mr. OBEY. Mr. Speaker, we hear from the other side of the aisle that it is the Senate’s fault that we have not done our work. It has been 84 days since the House last considered an appropriation bill. We have been here for 84 days. Our number one job has been to pass the appropriation bills. And because of an internal war in the Republican Caucus, they have been wasted. They have been blown. It is time to quell being the Alibi Ike of the Cosmos. It is time to face up to our duty. It is time to use at least 1 day in these 84 days to get the country’s work done.

We have done the military bills. We have done Iraq. This House has not finished work on a single domestic appropriation bill. It ought to be ashamed of itself.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Indiana (Mr. PENCE).

Mr. PENCE. Mr. Speaker, I rise in strong support of the rule. More than that, I rise in strong support of the leadership of the 107th Congress. In what will likely be the last time that I have the chance to stand on this blue carpet prior to Election Day 2002, it is truly astounding for me to hear anyone, any Member of any party rise in this institution and talk about the 107th Congress not having done its work, when I will in my years, whether I am a private citizen or an servant, when I look back on these years, doing the people’s work will be precisely what I know we have been about for the last 23 months: the people’s work in passing, not once but twice, historic tax relief measures for working families, small businesses and family farms; passing a $350 billion Medicare modernization and prescription drug benefit. We brought about types of reforms in virtually every area of government which, standing completely alone, Mr. Speaker, would qualify for this Congress having done its work for not 84 days but for the entirety of the 107th Congress. That would not be even require us to mention the way this Congress and this leadership responded to national tragedy. Our leadership in this institution stood with broad shoulders against the avalanche of tragedy on 9/11. We sped relief to the people immediately affected. More than that, we sped needed military resources to respond in the war on terrorism and a historic increase in military spending to prepare us for what may come. As biological and chemical weapons made their way into our Nation’s Capital, it was this leadership that was able to stand against the wind of the national media’s ridicule and take every member of the staff and every Member of this institution out of harm’s way, demonstrating in a bipartisan way, Mr. Speaker, courage and vision and foresight. As we have gone forward doing our work in these humbling days that have just recently passed, as the President today signed a resolution authorizing the use of force, this Congress has done its work.

It is time to pass this rule and pass the continuing resolution so that every one of us of goodwill in this institution can go home and tell the people that we proudly serve of that work that we have done. I am proud of the Republican leadership of the 107th Congress. I am proud, and will ever be proud, of my part in this important and critical work during this time in the life of our Nation.
I would like to respond to the gentleman from Indiana (Mr. PENCE) by reminding him that a considerable number of people are out of work; the stock market is certainly not in a bullish mode. It is bearish, to say the least; and I don’t know whether that is the best barometer, but when it comes to whether or not this House has really been about the business of helping people with their health care and with the workers in the airline industry, even when the gentleman mentions 9-11, and, yes, I agree that we did a tremendous job in a bipartisan fashion in speeding along some relief for some, but those airline workers, many of them still have not received any of the benefits that were offered by Congress at that time.

Thus I say not only have we not done everything we are supposed to do first fiscally by law, we also may have done some things that made this economy worse; and I for one stood in opposition to many of those tax cuts offered by the other side, and I would feel that if we look at it carefully, we will know that it had a devastating impact on this economy.

Mr. Speaker, Democrats want to give Americans a clear choice. Democrats stand for increasing the minimum wage, extending unemployment benefits for laid-off workers, and making sure our highways are adequately funded. Republicans stand for more tax cuts. They have been studying about here for a couple of weeks about trying to bring out something here called an economic stimulus package that was nothing but some more tax cuts for some who are wealthy in our society and letting tax evaders move to Bermuda while our Nation is at war.

There is a clear choice. The numbers do not lie, Mr. Speaker: 8.1 million Americans are looking for work but cannot find it; 2.9 million have been unemployed for more than 15 weeks. Poverty has risen while our economic growth has declined. Democrats think we should do something about this. The Republicans evidently do not. There is a clear choice.

If the previous question is defeated, we will offer an amendment to the rule that will allow us to vote on three amendments. Number one, to increase the minimum wage to $6.65 an hour over 2 years, and I say to anybody that has people in their district that are over 2 years, and I say to anybody that cannot find it: 2.9 million have been unemployed for more than 15 weeks. Poverty has risen while our economic growth has declined. Democrats think we should do something about this. The Republicans evidently do not. There is a clear choice.

If the previous question is defeated, we will offer an amendment to the rule that will allow us to vote on three amendments. Number one, to increase the minimum wage to $6.65 an hour over 2 years, and I say to anybody that has people in their district that are working on the minimum wage, you multiply $6.65 times 40 hours and see if you can live with your family on such a meager amount of assistance. Two, we are going to seek to give an additional 13 weeks of unemployment benefits to our workers; and, three, to retain the fix for highway spending that was inserted in the CR last week while striking the language that would have limited overall spending for fiscal year 2003 by $27 billion. These are priorities to Democrats and evidently afterthoughts to my Republican colleagues. There is a clear choice, Mr. Speaker; and I urge a “no” vote on the previous question.

Mr. Speaker, I ask unanimous consent that the text of the amendment be printed in the RECORD immediately before the vote on the previous question.

Mr. Speaker, I ask unanimous consent that the SPEAKER pro tempore (Mr. SIMPSON, Idaho) place the gentleman from Florida, Mr. HASTINGS, on notice that he is in order to make an oral amendment.

Mr. Speaker, I yield back the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

I want to remind Members that this is a rule that provides for consideration of a continuing resolution that will get us through November 22. We will be back in the House for reorganization the week after the election, and I know between now and that time there will be work on the appropriation process. But one thing that has been well documented here on the floor is that the other body on a major piece of legislation is behind this body; and I think it appropriate that we leave and allow them to catch up, and one of the main pieces of legislation this side of what we are doing, that I believe they have to get done and I think the American people expects them to get done, is the creation of the Office of Homeland Security.

So as we leave here with this CR in place until November 22, we will have the ability to come back and act on whatever legislation the other body were to pass that would require our work on this side. So that option is open, and our Members are prepared to come back at any time. Of course the most important piece of legislation is the creation of the Office of Homeland Security.

The material previously referred to by Mr. HASTINGS of Florida is as follows:

Strike all after the resolved clause and insert:

That at any time after the adoption of this resolution the Speaker, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the joint resolution (H.J. Res. 123) making appropriations for the fiscal year 2004, and for other purposes. The first reading of the joint resolution shall be dispensed with. All points of order against the joint resolution are waived. General debate shall be confined to the joint resolution and the amendments made in order by this resolution and shall not exceed one hour equitably divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the joint resolution shall be considered for amendment under the five-minute rule. The joint resolution shall be considered as read. No amendment to the joint resolution shall be in order except those specified in section 2. Each amendment may be offered only in the order specified, may be offered only by the Member designated or a designee of such Member, shall be considered as read, shall be debarred for one hour equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SXC. 2. The amendments referred to in the first section of this resolution are as follows:

The question was taken; and the Speaker pro tem announced that the ayes had appeared to have it.

Mr. Speaker, the continuing resolution is identical to the one we passed last week with the exception of the date change. As a matter of fact, the date in this CR is the one we started with last week but it was amended, as we recall, during the consideration of the rule. It would be the CR until November 22, which would give the House an opportunity to finish some other unfinished business, would give the House an opportunity to wait upon the other body to send some of our legislation back to the Senate. It is a bill that makes appropriations for the Department of Defense for the fiscal year ending September 30, 2003, and for other purposes.

And I would say that I would like the Members to listen to this: Despite the fact we suggest November 22, it does not mean that the House will not be in session, because it is my understanding that the House will be in session for some unfinished business dealing with the other body.

So, Mr. Speaker, I do not think we need a lot of debate on this. It is not a tax bill. It is not any kind of a bill other than a bill to extend the date of the CR to November 22. That will follow the elections, that will follow the reorganizational time that we have here in the Congress right after the election. It will give us time to proceed with and hopefully conclude our appropriations business.

For some of the people who spoke earlier on the rule who were concerned about a long-term CR into the next Congress, I have resisted that. I am resisting it today and I will continue to resist it. That is not a good plan for us. But this resolution today to take us into November, following the election is a good plan; and, Mr. Speaker, I hope that we can expedite the consideration.

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from California (Mr. WAXMAN).

Mr. WAXMAN. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from California (Mr. WAXMAN).

Mr. WAXMAN. Mr. Speaker, as we earlier this year with the gentleman from California (Mr. WAXMAN), Mr. RANGEL, and the gentleman from California (Mr. MATTEN) which would require that the Federal Government repay Social Security. The bill is H.R. 5232, the Social Security Trust Fund Reform Act. Not a single Republican Member has co-sponsored that bill. What is happening is a scandal, but my Republican colleagues do not want you to know about it.

Mr. OBEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Maryland (Mr. HOYER).

Mr. Speaker, the Federal Government is going to run a deficit of over $2 trillion over the next 10 years. And to pay for this deficit, the government is going to borrow over $2 trillion from the reserves in the Social Security trust fund. They are going to raid your retirement nest egg to pay for subsidies for the energy companies, tax breaks for wealthy corporate executives.

What does this mean to you? If you have a pay stub handy, all you have to do is take a look at the FICA deduction. This FICA deduction is what you pay into Social Security. Over the next 10 years, one-third of what you contribute to Social Security through your FICA deductions is going to be borrowed by the government to pay for its operating expenses. That is your money. It is supposed to go into the Social Security trust fund to build up a reserve for when the baby boomers retire, but instead it is going to be squandered to pay for last year’s tax cuts and other goings on.

But it gets worse. The Federal Government is supposed to repay everything it borrows from the Social Security trust fund. In fact, the law says that we have a moral obligation to the United States is backing it. But listen to what Republican leaders are saying about their intent to repay the trust funds. Here is what the Republican majority leader, the gentleman from Texas (Mr. ARMELY) said in a memo to House Republicans last year: “The hard truth is the Social Security trust fund is empty. It is a mere accounting device.”

And here is what Republican Senator PHIL GRAMM said: “There is no Social Security trust fund. It is a total fraud.” The Social Security trust fund consists of “worthless IOUs.”

The fact is they have no plan to repay the Social Security trust fund. In fact, we cannot even get our act together to pass a budget for next year. There is a question among my Republican colleagues: As you struggle to deal with the mess you have made of the Federal budget, are you going to repay that Social Security fund? As you force millions of Americans to lend their FICA money to the government, how are you going to keep faith with them? How are you going to pay them back? What is your long-term plan?

Mr. Speaker, I introduced legislation this year with a green lantern from New York (Mr. RANGEL) and the gentleman from California (Mr. MATTEN) which would require that the Federal Government repay Social Security. The bill is H.R. 5232, the Social Security Trust Fund Reform Act. Not a single Republican Member has co-sponsored that bill. What is happening is a scandal, but my Republican colleagues do not want you to know about it.

Mr. YOUNG of Florida. Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Maryland (Mr. HOYER).
Mr. HOYER. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, what is now becoming our weekly song and dance, passage of yet another continuing resolution, sounds more like Republican failure to me.

The gentleman from Iowa (Mr. Nussle) and our friends on the other side of the aisle will no doubt march to this floor again today and fulminate about the other Chamber, and they are sure to boast: “We have passed a budget.”

Well, Democrats in the House have been waiting for the last 7 weeks for the Republican leadership to summon the courage of its convictions and to actually bring spending bills to this House floor that adhere to the GOP’s budget resolution. We are still waiting to see your spending bill for Labor, Health and Education programs, because we want to know this: Do you still plan to cut the “No Child Left Behind” bill? Do you? Do you still plan to wipe out programs that coordinate health care for the uninsured?

Mr. Speaker, we want to know, with winter just around the corner, do you still plan to cut LIHEAP for $2.8 billion in grants by nearly 18 percent? LIHEAP, of course, is low income energy assistance to poor people and seniors.

Some of the very same Republicans who lectured us about the importance of voting on the Iraq resolution before the November elections have now cynically recollected from letting voters know where they stand on Federal spending for health care, education and others priorities before the election. While the GOP continues to dither and delay, the American people suffer the consequences.

The unemployment rate is up. The poverty rate is up. Federal and State budget deficits are exploding. Real wages for a number of Americans with health insurance is down, and the stock market has dropped like a rock over the last 18 months. Yet, the self-styled revolutionaries seem to have no idea what to do.

For starters, we might extend unemployment insurance benefits to save those who are falling off, increase the minimum wage which has not been increased since 1996, and pass real pension reform. Failing to do that, Mr. Speaker, failing to do that much is nothing new.

Mr. YOUNG of Florida. Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, this resolution would extend the budget until November 22, past the election. What it means is that this House is giving up on its responsibilities to do the public’s business. It means this House is willing to go home and say, no agriculture bill, no education budget, no housing budget, no science budget, no environmental budget, no drought relief, no extension of unemployment compensa-

tion, no way to fix the problems under Medicare for providers. They want to neglect all of that and then go home and say to their constituents, “Oh, what a good boy am I. Reelect me again.”

As far as I am concerned, Mr. Speaker, this is a spectacular conversation of impotence and incompetence. And I think that the public will take note of the fact that since Labor Day we have focused only on issues such as Iraq. But for the last 84 days, the House has refused to do its basic business of passing the budget so that our localities would know what they are going to get by way of urban development grants; so that the NIH would know whether they are going to get the 15 percent increase that both parties had promised them; and so that our school districts would know how to plan. All of that is going to go out the window because it is convenient for the majority party caucus to get out of town so that they can hide from the public the choices they would make on education, on agriculture, on environment.

CONGRESSIONAL RECORD—HOUSE

H7963

Mr. GRAVES. Mr. Speaker, on rollcall No. 470, I was unavoidably detained. Had I been present, I would have voted “aye.”

Stated against:

Mr. FILNER. Mr. Speaker on rollcall No. 470, I was conducting official business in my San Diego, California district. Had I been present, I would have voted “no.”

PERSONAL EXPLANATION

Ms. HINOJOSA. Mr. Speaker, I regret that I was unavoidably detained in my Congressional District. Had I been present, I would have voted “yes” on rollcalls 464, 466, and 467. I would have voted “no” on rollcalls 465, 467, and 468.

PERSONAL EXPLANATION

Ms. SLAUGHTER. Mr. Speaker, I was unable to be present for rollcall votes 464, 466, 467, 468, and 470. Had I been present, I would have voted “aye” on rollcall votes 464, 466, 467, and 469, and no on rollcall votes 468, and 470. Mr. Speaker, I ask unanimous consent that my statement appear in the permanent Record immediately following this vote.

LEGISLATIVE PROGRAM

(Ms. PELOSI asked and was given permission to address the House for 1 minute.)

Ms. PELOSI. Mr. Speaker, I rise to inquire of the distinguished majority leader regarding the schedule.

Mr. ARMEY. Mr. Speaker, will the gentleman yield?

Ms. PELOSI. I yield to the gentleman from Texas.

Mr. ARMEY. Mr. Speaker, we have completed our legislative work for this week. There will be no more recorded votes this week. The House will, however, be in session pro forma tomorrow and the next day, and then back pro forma on Tuesday and Thursday of next week.

I should also like to advise Members that the House still awaits many very important pieces of legislation. In conference, for example, we have the terrorism risk insurance bill, the energy security bill, the defense authorization bill, intelligence authorization, and port security.

We also wait upon the Senate to move bills: the Department of Homeland Security, pension reform, prescription drugs, and welfare reform.

I should like to advise the Members of this body that should any of these conference reports become available or these conference reports be any of the other bills under consideration, and therefore afford us the opportunity to go to conference on those bills, that we will be constrained to call the Members back for a session next week or even the week thereafter.

However, Members should be advised that they will receive a 48-hour notice prior to any request to come back and complete any outstanding work, if it turns out that each of these conference reports and bills is problematic, but the other body will stay in session working, the conferences will continue to meet, and we should all be apprised of the real possibility of being asked to come back after a 48-hour notice.

Ms. PELOSI. I thank the gentleman for that information, Mr. Speaker.

I would ask the leader, what day will we be back after the election?

Mr. ARMEY. If the gentlewoman will continue to yield, the CR, Mr. Speaker, is through November 22. However, we would expect to be back on the week of November 11. Since November 11 is itself a holiday, I should think Members should plan on being here through November 12, but we will get official notice to Members’ offices as soon as possible. But I would think the prudent Member would plan to come back November 12 and expect to be here throughout the week.

Ms. PELOSI. Mr. Speaker, would the gentlewoman know what time votes would occur that day?

Mr. ARMEY. Again, I want to thank the gentlewoman for her inquiry. If she plans on coming to the Capitol, it is a travel day. Especially in consideration of our West Coast Members, we would try to arrange a date that votes would not actually be taken before the customary 6:30 in the evening.

Ms. PELOSI. Mr. Speaker, continuing to yield to the leader, will we be in through Friday of that week?

Mr. ARMEY. Again, I want to thank the gentlewoman for her inquiry. That would depend on what work is available to us. Obviously, we would want to deal with another continuing resolution, and we should have reason to expect that some of these conference reports might be available.

As something I think, again, for us to be prudent in terms of taking the opportunities that could be here, the Members should expect to be here through that week and even work on Friday. As we see the workload for the week develop and can begin to put the daily calendar together, we ought to be able to give Members more complete and accurate information so they can make, hopefully, their travel plans for the beginning and the end of the week before they depart for their home districts.

Ms. PELOSI. Could the gentlewoman please shed some light on what legislative business might come up that week? Would there be any appropriate bills?

Mr. ARMEY. Again, I appreciate the gentlewoman’s inquiry.

Mr. Speaker, obviously, there are additional opportunities for appropriate bills. Depending upon the
progress that can be made with the other body, we would not want to discount the possibility of dealing with such bills as those, as well.

Ms. PELOSI. Will we have votes the week of November 18, the week before Thanksgiving?

Mr. ARMEY. Again, let me thank the gentlewoman for her inquiry. If she would continue to yield, Mr. Speaker, it is anticipated that we would complete work from November 12 through that week, and we could not anticipate being in the week before Thanksgiving.

Ms. PELOSI. So we would only be in the week of November 12 and not the following week, the week before Thanksgiving, just to confirm?

Mr. ARMEY. Again, I appreciate that. The gentlewoman may herself be one who is planning to go to such meetings, the NATO summit and such, and schedules that will carry many Members abroad on important business. We will do everything possible to avoid doing that week in deference to those travel plans. I would say at this time only the most dire emergency would cause us to interrupt these trips. They have been planned for a long time, and they are important to do with our relationship with our allied nations.

If the gentlewoman would permit me, I would attach the lowest probabilities to any meeting of this body during the week of November 22.

Ms. PELOSI. I appreciate the gentleman’s information about that week. I have no intention to be on any of those trips. I intend to be here planning for a Democratic majority for the 108th Congress.

Mr. Speaker, will the gentleman tell us, will we be here in December planning for that Democratic majority?

Mr. ARMEY. Again, if the gentlewoman will continue to yield, I think for now and for whatever our purposes as we discuss with the other body, it would be imprudent for me to make any projections of time beyond that week of November 12.

Ms. PELOSI. I know Members will be eager to know, not because of trips but because of the work that is unfinished. I thank the gentleman and I wish him well and thank him for the information.

It is my firm hope and desire that the next time we meet to discuss the schedule we have a Democratic majority in the House, and we will be preparing for that. Unless the gentleman had any other information on the schedule?

Mr. ARMEY. If the gentlewoman will yield, I would just say again, the gentlewoman has brought wit and charm to the minority whip’s position, and this gentleman is committed to the gentlewoman retaining that position for as long as she desires.

Ms. PELOSI. I wish the gentleman well in all of the endeavors that he pursues outside of this body and outside the political arena. I know we will probably have another colloquy; but just until we meet again, I want to thank the gentleman for his service to the Congress, but I am sure we will have some more opportunities to do that.

Mr. Speaker, I reclaim my time only to say that at this level of sadness, not only because of the gentleman’s departure from the Congress, but because of the unfinished business of this Congress, the American people expect and deserve for us to have a stimulus package. That remains unfinished business for this Congress, work relating to our children’s education with the education bill, the prescription benefit for all seniors, the Patients’ Bill of Rights, the threat of privatization of Social Security, and the list goes on and on. Unemployment insurance is expiring for America’s unemployed workers, and we have not attended to that business.

So I have said on a number of occasions at the end of these colloquies that our work seems irrelevant to the American people because of the challenges that they face economically, healthwise, and otherwise. But now we are less than irrelevant; we are missing in action. I am very sorry. I think that when the Democrats are in the majority that we will be able to account for our responsibilities in a better way.

DISPOSING OF VARIOUS LEGISLATIVE MEASURES

Mr. ARMEY. Mr. Speaker, I send a unanimous consent request to the desk.

The SPEAKER pro tempore (Mr. SIMPSON). The Clerk will report the unanimous consent request.

The Clerk read as follows:

Mr. CASTLE. Mr. Speaker, nearly three years ago, I introduced legislation to transform the Department of Education’s Office of Educational Reform and Improvement (OERI) into a streamlined, more independent and more scientific Office of Educational Reform and Improvement (OERI). Today, nearly six months after the House of Representatives passed the bill unanimously, we are poised enact long-overdue reforms to ensure that education research is based on science, not fads or fiction.

This year, President Bush signed landmark education reforms into law, demanding new and more challenging standards of accountability from our states and improved student achievement from our schools. Recognizing that any successful education reform effort requires the best information on how children learn, the words “scientifically based research” appear more than 100 times in the new law.

The reason for the focus on “scientific” research is simple: educators need to know what works if they are to improve student achievement. For that reason, among other things, H.R. 3801:

Replaces OERI with a new, streamlined National Institute of Education Science;

Insulates federal research, evaluations and statistics from inappropriate partisan or political influence;

Ensures high quality standards;

Creates a “culture of science” by allowing the Director to attract the best researchers, evaluators and statisticians to the Institute; and

Ensures that technical assistance is responsive to the needs of states and schools.

If we are to lift those who are struggling to achieve proficiency in reading, math and science, we need this cultural change. And we must ensure that what works in education informs classroom practice. My legislation helps accomplish these important goals.

As there will be no conference report to accompany H.R. 3801, I would like to take this opportunity to clarify our intent in a few areas. The comprehensive centers under this Act will provide essential technical assistance and professional development to help our states and schools advance the goals of the No Child Left Behind Act. It is our intent that the reference to “local entities” or “consortia of such entities” in section 203 include regional educational agencies as among those eligible to receive grants. As my colleague, Mr. MCKEON, has informed me, the state of California has a consortium of eight regional offices of education that provide hands-on technical assistance to schools in Southern California. It is our intent that the regional offices of education will continue to be eligible to participate in our improved structure.

Also I would like to clarify the intent of Section 117(d) regarding the supervision and removal authority of the Director. This section does not mean that the NCES Commissioner operates independently of the Director of the Institute. In fact, the Statistics Commissioner is an officer of the government and has the authority to fulfill the duties stipulated in section 154 and section 155 of the bill, such as the authority to enter into contracts and the authority to supervise the technical work of the Statistics Center. However, since NCES is a part of the Institute if, along with the other National Education Centers, is ultimately subject to the oversight of the Director of the Institute.

Finally, this legislation would not have been possible without the hard work of members on both sides of the aisle and both chambers of Congress. In particular, I want to thank the full Committee Chairman JOHN B. BOEHNER, Ranking Member GEORGE MILLER and by Subcommittee Ranking Member DALE KILDEE as well as Chairman KENNEDY and Ranking Member GREGG for their assistance and their strong support throughout this process. I also want to thank Secretary Paige, Assistant Secretary Russ Whitehurst and the staff at the Department, whose counsel and technical expertise were invaluable.

Last, but certainly not least, I want to thank the staff who put in countless hours to get this legislation right. I want to thank KELLY SCHMIDT, Betsy Sweet, Sally Lovejoy, Alex Nock, Denise Forte, Jane Oates, Tracy Locklin, and Denzel McGuire. They all deserve our thanks and appreciation for improving our system of education for the better.

Mr. COEHNBER. Mr. Speaker, the time for final passage of the reauthorization of the Office of Education Research and Improvement (OERI) has come. The Senate and the House have agreed on the language of the bill, and both houses, on a bipartisan, bicameral basis have agreed to vote on it before we adjourn. The colleagues—Mr. CASTLE, Mr. KILDEE, and Mr. MILLER in the House, and Senators KENNY and GREGG deserve a great deal of credit for moving the Education Sciences Re-
form Act of 2002 and finally bringing the bill to a final vote. Without the leadership and determination of these gentlemen, it wouldn’t have happened this year.

Providing high quality, scientifically based education research is vital if we are to improve our nation’s schools in our quest for quality education. The Education Sciences Reform Act of 2002 ensures such research will occur. In addition, it provides for technical assistance to states, school districts, and schools that is accountable, customer-driven, and focused on the implementation of the No Child Left Behind Act. Let me emphasize that the reforms in this bill will greatly assist in helping the No Child Left Behind Act successfully transform and reform our schools.

Some of the reforms that have been included in this bill are significant and will offer the opportunity for a new “culture of science” to develop in federal research, evaluation and statistics. Let me describe just a few. The bill:

Requires Scientifically Based Research—Research that can’t or won’t meet these standards will be ineligible for federal funds. This means scientific experiments will help ensure that schools do not waste scarce resources on ineffectual programs and methods of instruction.

Focuses the Research, Evaluation and Statistics Activities of the Department—The bill requires that the new Institute of Education Sciences is responsible for research, evaluation and statistics activities only. It will no longer administer grant programs, which dilute the focus of the Institute.

Eliminates Bureaucracy—The bill eliminates the five National Research Institutes, which were supposed to organize and support education research in specific areas but never did.

Guards Against Partisan or Political Activi-

Competitions—The bill expands competition to allow other research entities, such as public or private, profit or nonprofit research organizations, to compete for federal funds. The Director has the flexibility to award contracts and grants to those entities that meet the priorities and the standards of the Insti-

Helps States and Schools—The bill specifi-
cally asks those responsible for technical assistance to focus on helping states and schools implement education reforms, espe-
cially as they relate to the No Child Left Be-

I also want to highlight a provision included in this legislation to support states in developing longitudinal data systems. As schools, districts, and states work to collect, disaggregate, and analyze the data that No Child Left Behind requires, especially as they use that data to determine which schools and districts are making adequate yearly progress, it is critical that states have an adequate mechanism in place to monitor the academic achievement of students from year to year, and this bill can help ensure that states have the tools they need to ensure accountability for results.

This legislation allows the Secretary to make grants to states for the development of
statewide, longitudinal data systems. The intent of this program is to help states with their ongoing efforts to develop such a system, as needed. In some cases that may mean a state is starting from scratch. In others, a state that already has a data system in place at the district or school level may be assisted. I would encourage those states currently working, either on their own or with high-quality organizations, to improve their data systems to apply for assistance under this provision.

Different school districts often use different systems of data collection. This language would allow those states currently working on building a statewide, longitudinal data system that is comprised of diverse systems at the district and local level, so long as the data was collected at the state level in a consistent format.

Mr. Speaker, we have worked closely with the President and the Administration as we have developed this bill, and have their support for its final passage.

And once again, I thank my colleagues, Mr. CASTLE, Mr. MILLER, Mr. KILDEE, and Senators GREGG and KENNEDY for making this a bipartisan process work. We have continued the good relationship we had during the yearlong work on the No Child Left Behind Act. I am hopeful that we have set a new tone and a new example in Congress. Even in an election year, the approval by both the House and the Senate of the Education Sciences Reform Act of 2002 demonstrates once again that we can do great things when we work together.

The staff of both the House and Senate Committees is to be commended for their hard work too. Thank you, on both sides of the aisle and both sides of the Hill, for your outstanding work on this important legislation. I urge my Colleagues to vote aye and pass this bill.

Mr. EVANS. Mr. Speaker, I rise in strong support of H.R. 4015, the Jobs for Veterans Act. This legislation will improve and modernize veterans’ outreach and training services currently administered by the Department of Labor (DOL) and delivered through various State employment agencies.

I thank Chris Smith, our Chairman, and Mike Michaud, our Ranking Member, for their leadership on this measure. I also thank all staff for their hard work on H.R. 4015 and particularly Geoffrey Collier and Darryl Kehrter for their determined and excellent work on this legislation. H.R. 4015, as amended, will introduce many new features into the veterans’ employment services system, including greater flexibility, creativity, incentives, and increased accountability. I was a strong supporter of H.R. 4015 when the bill originally passed the House in May of 2002, and I am glad the Senate passed the bill with relatively few changes. This legislation is timely and needed, especially given the slowing economy and traditionally difficult time many of our nation’s disabled veterans have in obtaining quality employment. The men and women who have worn a uniform in defense of this country deserve first rate employment and training services.

The bill, as amended, encourages the Federal, State and local governments to work together in providing high level, focused, employment and training services to veterans and certain spouses of veterans. The legislation requires a State to submit a “plan” describing the manner in which it will furnish outreach and employment services, as well as, sets forth conditions for receipt of DOL funds. In addition, the legislation encourages improved employment services through a program of employee incentive awards for excellent or substantially improved performance. Mr. Speaker, I look forward to monitoring the implementation and effectiveness of the bill’s new incentive and accountability provisions. They are important components of the overall delivery scheme.

This measure also provides for “priority of service” to veterans wishing to participate in other DOL job training programs, and removes many outdated and rigid hiring constraints on the States and local governments. As a senior member of the House Armed Services Committee, I am especially pleased that the legislation broadens eligibility for non-competitive appointments of certain veterans within the Federal civil service. This measure will allow some veterans who have lost their jobs due to the poor economy, or their companies moving overseas for cheaper labor costs, to explore alternative career options with the Federal government.

The Jobs for Veterans Act also includes many other important provisions that will affect many veterans and their families as they seek quality employment services:

Federal contractors and subcontractors engaged in operations of $100,000 or more must take affirmative action to employ and advance qualified veterans;

Revises the funding formula, which DOL provides to States to better reflect the proportion of veterans seeking employment in that State;

Authorizes the Secretary of Labor to engage in on-going technical assistance, including corrective action plans, with respect to State and local governments receiving veterans’ employment funds;

Emphasizes that certain disabled veterans may need intensive employment services in order to obtain quality employment;

Mandates that DOL develop and enhance the delivery of employment services by providing such services via the Internet and other electronic means; and

Requires a GAO study and report on the implementation and effectiveness of the legislation to be delivered after the first two program years.

Mr. Speaker, I urge my colleagues to support this important legislation.

Mr. SIMPSON. Mr. Speaker, we all agree that our fellow Americans who have served in our military represent a unique national resource. We must ensure we fully fulfill our obligation to them.

H.R. 4015, as amended, the “Jobs for Veterans Act,” provides us the opportunity to approve legislation that will help our former servicemembers obtain long-term, sustained employment. The Jobs for Veterans Act essentially creates a new Department of Labor delivery system for veterans’ employment and training services in light of the Government Performance and Results Act, the new One-Stop career centers under the Workforce Investment Act of 1998, and the availability of self-service job assistance by way of the Internet.

H.R. 4015, as amended, can be described in four words: incentives, results, flexibility, accountability. In the delivery of employment and training services for veterans through individual states and counties.

The Subcommittee on Benefits has worked on this legislation for the past two and one-half years, and I applaud the hard work of Jack Quinn, Bob Filner, and J.D. Hayworth on earlier versions of the bill.

I also want to recognize the Ranking Member of the Benefits Subcommittee, Silvestre Reyes, for his leadership on this issue, as well as the Chairman and Ranking Member of the full Committee, Chris Smith and Lane Evans, for their support.

I very much appreciate the support of the Senate Committee on Veterans’ Affairs in approving the compromise agreement on this legislation. Indeed, Committee Chairman Rockefeller and Ranking Member Specter have played a leadership role in both strengthening the bill, and in Senate passage of it.

Mr. Speaker, about 215,000 servicemembers are estimated to separate from the Armed Forces this fiscal year; I believe this bill is a win-win situation for both our veterans and our economy.

I urge my colleagues to support H.R. 4015. Mr. SMITH of New Jersey. Mr. Speaker, nationally, only about three in ten veterans seek-...
better within the framework of the recent Workforce Investment Act.

One of the bill's most important provisions would require the Secretary of Labor to carry out a program of financial and non-financial performance incentive awards to states to encourage them to improve and modernize their employment and training programs for veterans. The bill would also require any poorly performing states to develop and implement corrective action plans.

Mr. Speaker, I don't want to imply that states are not doing a good job. In fact, many are. I am concerned with the evidence that this legislation, the states with poor records will be given the flexibility and incentives they need to improve. The result will be that many more veterans will find good jobs and taxpayers will get a much better return on their investment in this program for veterans.

I want to commend the Chairman of the Benefits Subcommittee, MIKE SIMPSON, for the extraordinary effort that led to a bill commanding the broad support needed to make this bill happen. I also want to commend the previous Chairman, JACK QUAYN, the Ranking Member, SYLVESTRE REYES, and the former Ranking Member, BOB FILER, for their bipartisan support of this important bill.

I also want to thank the leadership of the Senate Veterans' Affairs Committee, Chairman JOHN BREAUX and Ranking Republican ARLEN SPECTER, for their consideration of the House bill and the many improvements they suggested.

The legislative process has produced a strong bill that we can be proud to send to the President. This is a significant step toward improving the employment services a grateful Nation offers those Americans who have served in military uniform.

Mr. Speaker, I ask unanimous consent to revise and extend my remarks and that all Members may have 5 legislative days in which to revise and extend their remarks, and include extraneous material on H.R. 4015, as amended.

For the benefit of my colleagues, I include at this point in the RECORD a joint explanatory statement describing the compromise agreement reached among the three parties.

JOINT EXPLANATORY STATEMENT ON SENATE AMENDMENTS TO HOUSE AMENDMENTS TO H.R. 4015

H.R. 4015, as amended, the Jobs for Veterans Act, reflects a Compromise Agreement the House and Senate Committees on Veterans' Affairs have reached on H.R. 4015, as amended, ("House Bill"). H.R. 4015, as amended, is in substance, the House of Representatives on May 31, 2002. There is no comparable Senate bill.

The House and Senate Committees on Veterans' Affairs have prepared the following explanation of H.R. 4015, as amended, ("Compromise Agreement"). Clerical corrections, conforming changes, and minor drafting, technical, and clarifying changes are not noted in this document.

PRIORITY OF SERVICE FOR VETERANS IN DEPARTMENT OF LABOR JOB TRAINING PROGRAMS

CURRENT LAW

Section 4212 of title 38, United States Code, requires that for certain Federal contracts of $25,000 or more, contractors and subcontractors take affirmative action to employ and advance in employment "special disabled veterans" (veterans with serious employment handicaps or disability ratings of 30 percent or higher), Vietnam-era veterans, recently-separated veterans, and other veterans who are "preference eligible." Preference eligible veterans generally are veterans who are unemployed or underemployed in a campaign for which a campaign badge has been authorized.

Under section 4212 of title 38, United States Code, the Department of Labor administers the Veterans Readjustment Appointment ("VRA") authority program to promote employment and job advancement opportunities within the Federal government for disabled veterans, certain veterans of the Vietnam era, and veterans of the post-Vietnam era who are qualified for such employment and appointment. (1) Such appointments may be made up to and including the GS-11 level or its equivalent; (2) a veteran shall be eligible for such an appointment without regard to the veteran's number of years of education; (3) a veteran who receives VA disability compensation shall be given preference for a VRA appointment over other veterans; (4) upon receipt of a VRA appointment, a veteran may receive training or education if the veteran has less than 15 years of education; and (5) upon successful completion of the Federal government period, a veteran may acquire competitive status. Except for a veteran who has a service-connected disability rated at 30 percent or more, a veteran entitled to receive a VRA appointment only during the period ending 10 years after the date of the veteran's last separation from active duty or December 31, 1990, whichever is later.

HOUSE BILL

Section 2 of H.R. 4015 would create a new section 4212 within chapter 42 of title 38, United States Code, to provide priority of service (over non-veterans) to veterans and military dependents in the concept of employment, training, and placement services in any qualified job training program directly funded, in whole or in part, by the Department of Labor, notwithstanding any other provision of law. The Secretary of Labor would be authorized to establish priorities among such covered persons to take into account the needs of disabled veterans and such other factors as the Secretary determines appropriate.

With respect to Federal contracts and subcontracts (hereinafter referred to as "contracts") in an amount of $25,000 or more, section 2 would provide that a contractor and any subcontractor take affirmative action to employ and advance in employment qualified veterans. This would include immediate listing of employment openings for such contracts through the appropriate employment delivery system.

Section 2 would also change the Veterans Readjustment Appointment ("VRA") to the "Veterans Recruitment Appointment" authority and change eligibility for these appointments from Vietnam era and post-Vietnam era veterans to disabled covered veterans (see below) within the 10-year period that begins on the date of the veteran's last discharge; the 10-year period would not apply to a veteran with service-connected disability of 30 percent or more.

Finally, section 2 would make eligible as "covered veterans" for Federal contracts and subcontractors those veterans who are "special disabled veterans" authority: disabled veterans; veterans who served on active duty during a war or in a campaign or expedition for which a campaign badge has been authorized; or veterans discharged or released from military service within the past three years.

H8003

EXECUTIVE ORDER 

Section 2 of the Compromise Agreement follows the House language with amendments. This section would delete the 10-year eligibility period for a VRA appointment, in light of the broader Veterans Recruitment (not "Readjustment") Appointment authority included in the agreement.

The Committees note that the definition of the term "covered person" for priority of service in Department of Labor veterans job training programs includes disabled veterans and certain spouses and surviving spouses of deceased veterans. Specifically, the provision would include a surviving spouse of a veteran who died due to a service-connected disability, including the surviving spouse of a veteran who died in the active military, naval or air service, and the surviving spouse of a veteran who was totally disabled at the time of death. The provision would also apply to spouses of active duty servicemembers who have for a period of at least 90 days been missing in action, captured by a hostile force or forcibly detained or interned in line of duty by a foreign government and the spouses of veterans who are totally disabled due to a service-connected disability.

FINANCIAL AND NON-FINANCIAL PERFORMANCE INCENTIVE AWARDS FOR QUALITY VETERANS EMPLOYMENT, TRAINING, AND PLACEMENT SERVICES

CURRENT LAW

No provision.

HOUSE BILL

Section 3 of H.R. 4015 would create a new section 412 within chapter 41 of title 38, United States Code, to require the Secretary to carry out a program of performance incentive awards to States to encourage improvement and modernization of employment, training, and placement services for veterans. The Secretary would provide greater amounts to States that furnish the highest quality of services, but also would provide awards to States that have made significant improvements in services. States could use such awards to hire additional State veterans' employment and training staff or for such other purposes relating to these services that the Secretary may approve. Awards would be obligated by the State during the fiscal year in which they are received and the subsequent program year.

Section 3 also would authorize additional funds to be appropriated for the Secretary to carry out the program of performance incentive awards in the following amounts: $10 million for the program year beginning in fiscal year 2004; $25 million for the program year beginning in fiscal year 2005; $50 million for the program year beginning in fiscal year 2006; $75 million for the program year beginning in fiscal year 2007; and $100 million for the program year beginning in fiscal year 2008.

COMPROMISE AGREEMENT

Section 3 of the Compromise Agreement would establish a system of financial and non-financial performance incentive awards to be administered by the States, based on criteria established by the Secretary in consultation with the States. Disabled Veterans Outreach Program Specialists ("DVOP Specialists"), Veterans Employment Representatives ("VETER"), Workforce Investment Act ("WIA"), and Wagner-Peyser staffs would be eligible to receive each performance incentive award program years during or after fiscal year 2004, the Secretary would be required to identify and assign one percent of the annual grant to each eligible program. This section would also provide performance incentive financial award (section 4). Under this section, each State would be
required to describe how it would administer this award in its annual grant application to the Secretary (see section 4). States would also administer the non-financial performance criteria for the program based on criteria established by the Secretary.

The Committees intend that the Secretary's criteria be broad in order to give States flexibility in the selection of contractors chosen to recognize employees for excellence in service delivery to veterans or improvements thereto. The Committees also intend that the Secretary establish minimum funding levels and hold-harmless criteria in administering funding to the States;

3. The Secretary to develop a corrective action plan that includes a program year by which determinations of deficiency might be made. The Secretary would be required to take into account the applicable annual employment data for the State and consider other factors, such as prevailing economic conditions, that affect performance of individuals providing employment, training, and placement services in the State.

4. The Secretary to establish a uniform national threshold entered-employment rate for a program year for which determinations of deficiency might be made. The Secretary would be required to develop a corrective action plan that includes a program year by which determinations of deficiency might be made.

5. The Secretary to establish minimum funding levels and hold-harmless criteria in administering funding to the States.

6. The Secretary to develop a corrective action plan that includes a program year by which determinations of deficiency might be made. The Secretary would be required to take into account the applicable annual employment data for the State and consider other factors, such as prevailing economic conditions, that affect performance of individuals providing employment, training, and placement services in the State.
provide reports, not less frequently than quarterly, to the manager of such office and to the DVET for the State regarding compliance with Federal law and regulations with respect to services and priorities for eligible veterans and eligible persons.

National Veterans' Employment and Training Services Institute. Additionally, section 4 of the current section of title 38, United States Code, to clarify the authority of the NVETSI to enter into contracts or agreements with departments or agencies of the Federal Government, State or of a State, or with other organizations, to carry out training in providing veterans' employment, training, and placement services. Further, it would add an annual legislative oversight hearing and submission include a separate listing of the amount of funding proposed for NVETSI.

Finally, section 4 would require that the Secretary, within 18 months of enactment, enhance the delivery of services by providing "one-stop" services and assistance to covered persons by way of the Internet and by other electronic means.

COMPROMISE AGREEMENT
Section 4 of the Compromise Agreement follows the House language with amendments.

Under this section, the individual appointed as DASVET would be required to have at least five years of service in a management position as a Federal civil service employee or a comparable service in a manner consistent with Federal standards of management position in the Armed Forces preceding appointment as DASVET.

The annual grant application plan submitted by the States would have an additional requirement to describe the manner in which the respective States would administer the performance incentives established in section 4112 of title 38, United States Code. The Committees note that other aspects of the State plan and grant application requirements contained in the House-passed bill, such as describing DVOP and LVER duties, are retained.

The Compromise Agreement clarifies that State corrective action plans would be submitted to the Secretary for approval, and if approved, would be expeditiously implemented. If the Secretary disapproved a corrective action plan, the Secretary would be required to take such steps as would be necessary for the State to implement corrective actions.

The Secretary would also be required to identify the percent of the funding grant to each State to establish financial performance incentive awards. Further, the Secretary would have on-going authority to furnish technical assistance to any State that the Secretary determines has, or may have, a deficient entered-employment rate, including assistance in developing a corrective action plan.

The Committees intend that the Secretary should offer technical assistance in an anticipatory way, so as to avoid deficient performance.

The Compromise Agreement would require that the DVET be a bona fide resident of the State for two years to qualify for such a position.

Lastly, the Compromise Agreement does not require that the ASVET, DASVET, RVET, DVT, or ADVET be veterans. The Committees encourage the appointment of veterans to these positions, but do not believe a statutory requirement is necessary.

The amendments made by subsection (a) revising department level senior officials and functions, and subsection (b) revising statutorily-defined duties of DVOP and LVERs, would take effect on the date of enactment of this title. The amendments for the fiscal years under chapter 41 of title 38, United States Code, beginning on or after such date.

ADDITIONAL IMPROVEMENTS IN VETERANS' EMPLOYMENT AND TRAINING SERVICES

Section 4102, 4106(a), 4107(a), 4107(c)(1), and section 4109(a) of title 38, United States Code, to specify, relate to veterans and job training counseling service program. "'propri-

eter counseling,' employment counseling services, "'the number counseled,' and counseling services available to veterans and eligible persons under this chapter.

Section 4109(7) of title 38, United States Code, defining the term "local employment service office" as a service delivery point which has an intrinsic management structure at which employment services are offered in accordance with the Wagner- Peyster Act.

Section 4107(c)(1) of title 38, United States Code, defining a service delivery system at which the Secretary must address with respect to various employment and training services in the annual report to the Committees on Veterans' Affairs. Section 4107(c)(92) requires submission in the report on the "job placement rate" for veterans and eligible persons.

COMPROMISE AGREEMENT
Section 5 of the Compromise Agreement follows the House language with an amendment. The Secretaries would submit to the Committees on Veterans' Affairs of the House and Senate would be required to include information on the operation during the preceding year of the program for performance incentive awards for quality employment services administered through the States. The report would not require an analysis of the amount of incentives distributed to each State and the rationale for such distribution because each State's DVOP/LVER grant would identify and assign one percent of the grant for use by the State for the financial incentive awards.

The Committee would furnish information to employers with respect to the training and skills of veterans and disabled veterans, and with respect to the advantages afforded employers by hiring veterans. The Secretary of Labor would provide staff and administrative support to the Committee to assist it in carrying out its duties. The Committee would have the authority to contract with government and private agencies to furnish information to employers. The Committee would terminate on December 31, 2005.

Section 7 of the compromise Agreement would direct the Comptroller General of the United States to conduct a study on the implementation by the Secretary of Labor of the provisions of this title during the program years that begin during fiscal years 2003 and 2004. The study would include an assessment of the effect of this title on employment of mental health professionals. The Comptroller General shall submit a report on the conducted study. Under this section, the report would include recommendations for legislation or administrative action.

This is a bipartisan bill, and I urge Members to support it.

“Mr. SMITH of New Jersey. Mr. Speaker, I rise to urge my colleagues to support H.R. 3253, as amended, the “Department of Veterans Affairs Emergency Preparedness Act of 2002.” H.R. 3253 will provide the federal government with another tool to prevent, or if necessary, respond to acts of terrorism against the United States. This legislation will mobilize the strength of the VA health care infrastructure in defending our nation against future acts of terrorism.

“Almost exactly one year ago today, on October 15, 2001, I chaired a hearing of the Vet- erans Affairs Committee to examine the role of the Department of Veterans Affairs in homeland security. At that hearing, I proposed to use VA’s expertise in biomedical research to help in finding treatments and vaccines against deadly chemical and biological threats posed by terrorists. Just two days later, Con- gress was itself facing anthrax attacks from letters that had been sent through the mail to congressional offices, military bases, and other public health facilities around the country.

“Mr. Speaker, I know from my own experiences during these anthrax attacks that our nation needs to quickly develop new tests and treatments for anthrax and other dangerous biological and chemical agents that could be used by terrorists. When anthrax was discovered in the Hamilton Post Office, I was surrounded by dozens of scientists using protocols to test, quarantine, or treat victims. The confusion that followed discovery of anthrax made a bad situation even worse. We must learn from that experience.

“H.R. 3253 will marshal some of our nation’s best and brightest scientists in a focused effort to develop new protocols for testing, vacci- nating and treating our citizens who may be victims of biological, chemical and radiological terrorism.

“Although it may come as a surprise to many, the Department of Veterans Affairs operates one of the largest integrated health care network, with over 200,000 health care practitioners, 163 medical centers, more than 800 outpatient clinics, 115 medical research programs, affiliations with over 100 schools of medicine and a $25 billion annual budget, including over $1 billion for its research programs.

“The VA health care system must be an integral component of any homeland security strategy. In fact, VA already does have the strategies under paragraph (1) in consultation with the Secretary of Health and Human Services, the American Red Cross, and the working group under subsection (a).

“Among VA’s current specialized duties are: conducting and evaluating disaster and ter-
Preparedness Act of 2002, strengthens the role of the Department of Veterans Affairs to protect the people of the United States from terrorists, particularly bio-terrorism threats such as last year’s anthrax attacks in Washington, New York, New Jersey and Florida. We must be proactive in preparing the United States for a future terrorist attack. Vice President Cheney cautioned this year, “The prospects of a future attack against the United States are almost certain. Not a matter of if, but when. It could happen tomorrow, it could happen next week, it could happen next year, but they will keep trying.” We must respond in an effective and comprehensive manner to protect the American people when an attack occurs. This bill would help do just that. Under this bill, four geographically separated National Medical Emergency Preparedness Centers would be established. Each center would study and develop treatments for human exposure to chemical, biological, explosive and nuclear substances that may be used as weapons of mass destruction.

The Department of Veterans Affairs is a good steward of the defense and homeland security of our nation. In addition to its medical care mission to care for millions of veterans, the veterans health care system is the nation’s largest provider of graduate medical education and is a major contributor to biomedical and other scientific discoveries. It is the only institution with a comprehensive, integrated health care system. VA is an essential asset in responding to national, regional and local emergencies. The VA is an integral part of the Federal Response Plan, and an important local resource in natural disasters. This bill strengthens VA’s role as a helping agency in such events, and particularly those that may be caused in the future by those bent on destruction of freedom and the American way of life.

Not only would the four emergency preparedness centers conduct research and develop detection, diagnosis, prevention, and treatment methods; but they would also be charged as clearinghouses to disseminate the information to other public and private health care providers, to improve the quality of care for patients who may be exposed to deadly chemicals or radiation.

In addition, our bill would also require the Secretary of Veterans Affairs to carry out a program to develop and disseminate model education and training programs for medical response to terrorist activities. VA’s infrastructure, which includes affiliations with over 107 medical schools, and other schools of health professions, would prepare current and future medical professionals in this country to be knowledgeable and medically competent in the treatment of patients that may emerge from terrorist attacks. In my home state, the University of Kansas School of Medicine currently partners with 4 Veterans Medical Centers and educates over 700 medical students and more than 390 resident physicians in training.

This bill also provides the VA a formal role in the national disaster medical system, and authorizes the VA to treat first responders, active-duty military forces deployed in domestic deployments, fire fighters, police officers and members of the general public who may fall victim to terrorism or mass casualty disasters. Another component of this bill is the establishment of a centralized office at VA headquarters to manage all emergency preparedness, security and law enforcement activities, and to organize the VA’s resources for maximum efficiency and effectiveness in protecting the security of VA’s patients, staff, and infrastructure from the risk and threat of terrorism.

Mr. Speaker, this is a good bill for the American people. The professionals who need to be trained in saving lives will be properly armed with education and expertise to provide health care. Mechanisms will be put in place to study the likely avenues and methods of chemical, biological, and radiological poisoning. The VA will also be a part of a national presence for rapid response by local and federal officials in the event of emergencies that only a year ago we could scarcely imagine.

H.R. 3253 is a bipartisan and bicameral compromise, Mr. Speaker. As Chairman of the Subcommittee on Health of the Committee on Veterans Affairs, I am very pleased that the long journey of this legislation concludes today and that we shall send the bill to the President. I want to commend my Chairman, the gentleman from New Jersey, Mr. SMITH, for his leadership and advocacy on this measure, as well as our Ranking Member of the full Committee, the gentleman from Illinois, Mr. EVANS, and the Ranking Member of my Subcommittee, the gentleman from California, Mr. FISCHER, for their work. As my Chairman has said previously on the floor of this Chamber, and as a personal obligation, from events in his own district in the anthrax incidents, that Congress act to improve our safety and prevent such future travesties. I commend him for his dedication and agree that this measure aids in that respect.

I also thank my colleagues in the Senate for their cooperation, contributions and comity. This bill may be seen as only a small effort today, Mr. Speaker, but it could pay large dividends down the road in America’s war on terrorism. I urge its adoption by the House.

Mr. EVANS, Mr. Speaker, I rise in strong support of H.R. 3253, the Department of Veterans Affairs Emergency Preparedness Act of 2002, as amended.

After the tragic events of September 11th last year, our Chairman, CHRIS SMITH, again called on Congress to act. He authored and introduced legislation authorizing an important role for the Department of Veterans Affairs in our national fight against terrorism. This is the primary purpose of the measure before us. VA provides medical care to millions of veterans each year. It conducts ground-breaking health care research. It also provides educational opportunities to many of our nation’s health care providers. VA is truly an unparalleled national resource.

This legislation provides the structure and authority for VA to leverage its expertise in combat terrorism. For VA to achieve this goal it must have adequate resources.

Today, VA does not have enough resources. This is not my judgment. This is the judgment of the Task Force to Improve Health Care Delivery to Veterans established by President Bush. I call on the President to fully fund the VA, to provide all funding needed by VA to deliver timely and quality care to our veterans. Mr. President, provide VA the resources it requires to combat terrorism.

I am pleased H.R. 3253, as amended, has been approved by the other body. I urge all Members to support this important legislation so that it can be sent to the White House for action by the President.

Mr. Speaker, I urge my colleagues to support passage of this legislation.

RELATING TO EARLY ORGANIZATION OF THE HOUSE OF REPRESENTATIVES FOR THE 108TH CONGRESS

Mr. ARMY. Mr. Speaker, I offer a resolution (H. Res. 590), and I ask unanimous consent for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 590

Resolved, That any organizational caucus or conference in the House of Representatives for the One Hundred Eighth Congress may begin on or after November 1, 2002.

Snc. 2. (a) With the approval of the majority leader (in the case of a Member or Member-elect of the majority party) or the minority leader (in the case of a Member or Member-elect of the minority party), the provisions of law described in subsection (b) shall apply with respect to the attendance of a Member or Member-elect at a program conducted by the Committee on House Administration for the orientation of new members of the One Hundred Eighth Congress in the same manner as such provisions apply to the attendance of the Member or Member-elect at the organizational caucus or conference.

(b) The provisions of law described in this subsection are as follows:

(1) Subsections (b) and (c) of section 202 of House Resolution 988, Ninety-third Congress, agreed to on October 8, 1974, and enacted into permanent law by chapter II of title I of the Supplemental Appropriations Act, 1975 (2 U.S.C. 29a).
ELIMINATING NOTIFICATION AND RETURN REQUIREMENTS FOR STATE AND LOCAL PARTY COMMITTEES AND CANDIDATE COMMITTEES

Mr. BRADY of Texas. Mr. Speaker, I ask unanimous consent that the Committee on Ways and Means be discharged from further consideration of the bill (H.R. 5596) to amend section 527 of the Internal Revenue Code of 1986 to eliminate notification and return requirements for State and local party committees and candidate committees and avoid duplicate reporting by certain State and local political committees of information required to be reported and made publicly available under State law, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Mr. DOGGETT. Mr. Speaker, reserving the right to object, I do find most objectionable a procedure that brings up important legislation after many Members have departed.

It is particularly ironic that this bill which has not been before any committee of the House or voted upon by any Member of the House up until tonight and which deals with open government should be brought up in this manner. A genuine commitment to openness and public participation requires applying these concepts to more than just the bills that one may not like or be opposed to. The need for a more complete discussion of this particular bill is all the more apparent because of the extended history surrounding it.

This bill seeks to correct a problem that was produced by a process not unlike that we are having tonight. In other words, the error that this bill seeks to address is the result of a hurried-up process that did not involve full participation by all in this House. This measure represents the first substantive reform of our campaign laws that occurred during the period from 1979 all the way up until the year 2000. And in the spring of 2000 it became apparent that the use of stealth PACS, that is, a form of political action committee in which the donors and the expenditures would not be known, so-called 527 committees, might become a significant factor in the political activity of that year.

Accordingly, I have introduced legislation in the spring of 2000 to put a stop to this, and sought unsuccessfully on at least two occasions in the Committee on Ways and Means and here on the floor of the House to correct this problem but was blocked on the floor at least by fairly narrow efforts in getting those reforms adopted.

Finally, after months of delay, the House Republican leadership reversed course and brought up a 527 bill for consideration in this House, but it did so late at night, even later than tonight here in Washington, with the bill text presented essentially as the floor consideration got under way. No amendments were permitted and the debate was truncated.

Because this process occurred in this way and because the bill was presented rapidly, it was also presented sloppily. And as a result of the sloppy way in which this whole problem was created, during the full Committee on Ways and Means consideration of this issue, the gentleman from Pennsylvania (Mr. COYNE) and I had offered a comprehensive alternative. That was a language that recognized that State and local elected officials were already filing some of these reports and that they ought not to have to pay the price for the need to reform at the Federal level by having to make duplicative filings. None of that language that the gentleman from Pennsylvania (Mr. COYNE) and I proposed was included in the bill that was rushed through the House late one evening in an effort to prevent broader reforms and more of them recognized they were doing. So many of the questions are inapplicable.

The bill was quickly signed into law and by September of the year 2000 it became apparent that there was a problem for State and local officials. More and more of them recognized they were not changing this provision is not a great change in the current law there. And in return for that change made, there are some changes that I oppose.

These are modest changes, but they are changes that will make more accessible the access to information on Web sites. So that the information as I proposed back in the year 1999 for electronic filing would occur but there would be a searchable Web site.

And it is because these provisions seem to have merit and because I have
been advised by my colleague from Texas (Mr. BRADY) who I know has worked diligently to try to bring people together behind this proposal, that I am advised by him that the Senate is ready if we act on this measure tonight in this unusual way to approve it immediately without any language changes before the recess, and that this process will assure that the measure gets signed into law immediately and will accelerate the pace at which this modest improvement in public access to the data occurs to that extent that I agree, and only because of that, to this very extraordinary process.

Mr. Speaker, I yield to my colleague from Texas (Mr. BRADY) who I am sure has some words he wants to say about this process.

Mr. BRADY of Texas. Mr. Speaker, I thank my colleague from Texas for yielding.

Mr. Speaker, the legislation before us is a necessary and timely piece of legislation. It introduces the leadership from my colleague from Texas (Mr. DOGGETT), my other colleagues, the gentleman from Louisiana (Mr. VITTER), the gentleman from North Dakota (Mr. POMEROY), the gentleman from New York (Mr. SHAYS), and the gentleman from Massachusetts (Mr. MEEHAN) to correct some of the duplicative reporting burdens that many State and local candidate committees and State and local political action committees now face. And for those organizations that monitor campaign activity, the bill requires them to update their website to improve the searchability of the public data provided to the IRS.

Under current law, within 24 hours of establishment, virtually all 527s must file a short form (Form 8871) notifying the IRS of their existence and providing information about who they are, the top people who work for them, where the organization is located and how it can be contacted. This bill removes state/local candidates and state/local political action committees from filing this form. Federal candidates and committees already reported to FEC never had file Form 8871. So now, the only filers of Form 8871 will be state/local PACs and non-FEC filing groups active in federal elections. The bill will now also require these groups to update form if they move or if some material change occurs, etc.

Additionally, 527 organizations must file reports (Form 8872) identifying contributors who give them more than $200 and expenditures of over $1,000. The bill exempts “qualified” state/local groups that engage in only state or local activity and that are subject to a state reporting regime. It also places restrictions on federal candidates or office holders from materially participating in a 527 group that receives an exemption.

Regarding Form 8872, the bill requires a 527 group to add the date and purpose of expenditures and the date of contributions as required information on the Form 8872. And, 527 groups whose gross receipts of $50,000 will be required to file electronically. The 2000 law added Section 527 organizations to the list of tax-exempt organizations that have to file annual, public information returns to the IRS—so-called 990 forms. 990s contain aggregate information about the filing organization’s income, expenditures, among other things. The law also directed most 527s to file Form 1120, the tax return.

The bill removes state/local candidates and party committees from filing Form 990. The bill exempts qualified state/local PACs, except those with over $100,000 in annual receipts from filing Form 990. The bill requires the IRS to modify Form 990 to make it more useful.

Other New Provisions

The bill requires the Internal Revenue Service to upgrade their website to improve the searchability of data.

Mr. DOGGETT. Mr. Speaker, hoping that the gentleman from Texas is correct about all aspects of the bill and appreciative of his comments, I remove my reservation.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from Texas?

There was no objection.

The Clerk read the bill, as follows:

Mr. BRADY of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill just passed.

CONtinuation of national emergency with respect to significant narcotics traffickers centered in colombia—message from the president of the united states.

The SPEAKER pro tempore laid before the House the following message from the President of the United States:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act, 50 U.S.C. App. 2402(d), vests the President with the authority to determine for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the Federal Register and transmits to the Congress a statement that it is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice, stating that the emergency declared with respect to significant narcotics traffickers centered in Colombia is to continue in effect beyond October 21, 2002, to the Federal Register for publication. The most recent notice continuing this emergency was published in the Federal Register on October 19, 2001 (66 Fed. Reg. 3073).

The circumstances that led to the declaration on October 21, 1995, of a national emergency have not been resolved. The actions of significant narcotics traffickers centered in Colombia continue to pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States and to cause unparalleled violence, corruption, and harm in the United States and abroad. For these reasons, I have determined that it is necessary to maintain economic pressure on significant narcotics traffickers centered in Colombia by blocking their property or interests in property that are in the United States or within the possession or control of United States persons or that have been purchased with funds from, or transferred to, United States persons, thereby depriving them of access to the United States market and financial system.

GEORGE W. BUSH.

from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on International Relations and ordered to be printed:

To the Congress of the United States:

As required by section 401(c) of the National Emergencies Act, 50 U.S.C. 1641(c), and 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c), I transmit herewith a 6-month periodic report that my Administration has prepared on the national emergency with respect to significant narcotics traffickers centered in Colombia that was declared in Executive Order 12978 of October 21, 1995.

Ms. ROS-LEHTINEN. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary have permission to file a supplemental report on the bill (H.R. 3215) to amend title 18, United States Code, to expand and modernize the prohibition against interstate gambling, and for other purposes.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Ms. KAPTUR) is recognized for 5 minutes.

Ms. KAPTUR. Mr. Speaker, I rise today to talk about Social Security, a program that will affect or is affecting the philosophical and historical foundations of our great Constitution and our Bill of Rights.

I cannot conclude my statement without also congratulating Matthew Krawcheck, a constituent from my congressional district and a grand prize winner of the Expressing Freedom Arts competition. Matthew’s awesome paintings “Three Self-Portraits” was displayed at the awards ceremony in the Rayburn foyer recently.

Expressing Freedom is a contest for young artists with disabilities between the ages of 16 and 25 that is supported by VSA Arts and Volkswagen of America. I would like to send special thanks to Soula Antoniou from VSA Arts and Joseph Kennebeck from Volkswagen of America for their commitment to America’s disabled people.

I wish to give my sincerest congratulations to Matthew and all of the young people who participated in this competition.

Mr. Speaker, it is such a pleasure tonight for me to commend these individuals for their shining examples of what this country is all about, and they are an inspiration to us all.

The SPEAKER pro tempore (Mr. SCHROCK). Under a previous order of the House, the gentleman from Oregon (Mr. DeFAZIO) is recognized for 5 minutes.

(Mr. DeFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

(Mr. JONES of North Carolina addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. BENTSEN) is recognized for 5 minutes.

(Mr. BENTSEN addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. WELDON) is recognized for 5 minutes.

(Mr. WELDON of Pennsylvania addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

HONORING AMERICAN CANCER SOCIETY HISPANIC ADVISORY BOARD, MIAMI BRIDGE YOUTH AND FAMILY SERVICES, RABBI KATSOF WITH WORDS CAN HEAL, MIAMI-DADE COUNTY PUBLIC SCHOOLS, AND MATTHEW KRAWCHECK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. ETHERIDGE) is recognized for 5 minutes.

(Mr. ETHERIDGE addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, I rise today to honor several organizations and individuals in my congressional district who have done an extraordinary job of serving their communities.

It is my pleasure to recognize the American Cancer Society Hispanic Advisory Board, the Miami Bridge Youth and Family Services, Rabbi Katsof with Words Can Heal, and Miami-Dade County Public Schools, and last but not least, Matthew Krawcheck, all wonderful examples of the organizations and people who display true selflessness and dedication to our community.

Evidence of such altruistic acts is demonstrated by Armando Rodriguez, Harold Robaina, Remedios Diaz-Olvera, and Lilian Sanchez-Moreno who have worked hard for the American Cancer Society Hispanic Advisory Board to successfully launch the Mi Vida Cancer Awareness Campaign for the Hispanic community for my area in Miami-Dade. The Mi Vida campaign promotes early detection by identifying the Hispanic community of the various Spanish-speaking educational materials and a 24-hour Spanish toll-free phone numbers. The American Cancer Society’s continued commitment to the cure for cancer in the Hispanic area serves as an inspiration to us all.

I am also happy to recognize these efforts, just as I am pleased to also honor the compassionate efforts of the Miami Bridge Youth and Family Services and Matthew Krawcheck. My Administration has provided emergency shelter for the south Florida youth for the past 27 years. By keeping its doors open 24 hours per day, Miami Bridge provides safe haven for over 1,000 at-risk youth each year. Its tireless efforts provide a continuum of nonresidential and residential services that are designed to empower teenagers and turn their lives around.

Another exceptional group that demonstrates true commitment to the improvement of our lives is the Words Can Heal organization. Rabbi Katsof and Words Can Heal have dedicated their efforts in reducing verbal violence and gossip. At a time when dialogue is needed in our communities, Words Can Heal and Rabbi Katsof have been the motivational and organizational force behind educating the public.

In its short history, Words Can Heal has effectively mobilized its efforts to reach an influential and growing audience such as the clergy, actors, musicians and elected officials who have all become actively involved in the organization’s efforts.

As a former educator, it is also my pleasure to honor another very important contributor to the cause of education, the Miami-Dade County Public Schools. Through the efforts of John Doyle, Lilian Citarella-Pollit, Charles Murray, Sharon Shelley and Maria Elema-Kron and the Miami-Dade Public Schools plans to hold a fantastic competition this upcoming December 6.

The We, the People, The Citizen and the Constitution competition is a national contest that encourages civic competence and responsibility among our Nation’s students. This extraordinary competition, now in its 15th year, teaches our community’s youth

CLOCKING THE RAID ON SOCIAL SECURITY

CONGRESSIONAL RECORD—HOUSE

H8015

every single American, the premier program initiated in the last century by the Democratic Party which has helped to raise a generation of our seniors out of poverty and keeps the current generation out of poverty.

Most seniors in America receive upward of $850 per month. For them Social Security is a lifeline. Without Social Security and Medicare, they simply could not survive.

Because the Bush administration and its allies inside this Chamber cannot afford to pay for the extravagant tax giveaways, especially to the superrich in this country like Kenneth Lay from Enron, who will get $245 million in a rebate this year, and because our country is moving into deficit, the Republicans in this Chamber are raiding Social Security every day, the Social Security trust fund, to try to make up that shortfall.

Back in June when I startedclocking the Republican raid on Social Security, at that point they had raided over $207 billion out of the Social Security trust fund after we have taken seven votes here that said we would protect the lockbox and not permit that kind of borrowing against the Social Security and Medicare trust fund; but to date, they have now, as of this week, October 16, they have now raided $318,369,863,013 from the Social Security trust fund. That averages out per American over $1,100 out of their pocket. To be exact, $1,104.36 out of the funds that are deserved by every single American who has paid into this fund.

As long as Republicans continue to raid the Social Security trust fund in violation of the promises we have made and passed here in this Congress, it is my intention to be here on this floor, clocking their raid with this debt clock. I also will be reviewing the history of those who created Social Security for our country and who historically opposed it, the Republican Party. Back in 1935 in the deliberations in the Committee on Ways and Means right outside this room here, the Republican Members of the House Committee on Ways and Means voted to kill the original bill that created the Social Security program that our parents, our grandparents, and great-grandparents had benefited from since the mid-1930s.

When that bill moved to the floor, it was the Democratic Party that passed that bill, and I think it is very important to remember that history be recorded for the present generation because if we look at what has been happening with the accumulation of additional debt in our country, and I would like to just put up an additional chart here, as we look back during more modern times to the early chart here focuses on the Johnson administration and the Nixon and Ford administration and the Carter administration. And we begin to look at what has been happening with the Social Security trust fund. It was during the Reagan-Bush administration and now during the George W. Bush administration, billions and billions and billions of dollars. It was only during the administration of Bill Clinton and Al Gore that we began to move the Social Security trust fund back into surplus again.

We have over $6 trillion of debt that we are financing in this country, much of it due to the giveaways that this administration has promoted. As an example, with the inheritance tax, Gary Winnick of Global Crossing, with assets of over three quarters of a billion dollars, will get $366 million in a tax windfall. And where do my colleagues think that money is going to come from? It comes right out of here, the Social Security trust fund. Or Dennis Kozlowski from Tyco Corporation, the one that is in all that trouble, he is going to get $149 million. And where do my colleagues think that money is going to come from?

This administration and House Republicans should put seniors first. They have earned it. They have earned it, and reverse this raid. We should continue to commit the savings in the Social Security trust fund as we have promised. It is important for us to tell the truth to the American people using these red numbers and this debt clock to demonstrate and remind ourselves what is really going on.

The Democratic Party historically has been the party that believed in and supported Social Security as an insurance and disability fund for every single American. It is a condition of living in this country. It is not a privilege. It is a right. Mr. Speaker, we do not need to be borrowing from the trust fund in order to give benefits to the superrich. I hope as the elections approach, the public will remember and vote for the Democratic Party which has always supported Social Security.

Mr. NUSSLE. Mr. Speaker, I am transmitting a status report on the current levels of on-budget spending and revenues for fiscal year 2003 and for the five-year period of fiscal years 2003 through 2007. This report is necessary to facilitate the application of sections 302 and 311 of the Congressional Budget Act and section 301 of House Concurrent Resolution 353, which is currently in effect as a concurrent resolution on the budget in the House. This report is current through October 11, 2002.

The term “current level” refers to the amounts of spending and revenues estimated for each fiscal year based on laws enacted or awaiting the President’s signature.

The first table in the report compares the current levels of total budget authority, outlays, and revenues with the aggregate levels set forth by H. Con. Res. 353. This comparison is needed to enforce section 311(a) of the Budget Act, which creates a point of order against measures that would breach the budget resolution’s aggregate levels. The table does not show budget authority and outlays for years after fiscal year 2003 because appropriations for those years have not yet been considered.

The second table compares the current levels of budget authority and outlays for discretionary action by each authorizing committee with the “section 302(a)” allocations made under H. Con. Res. 353 for fiscal years 2003 and fiscal years 2003 through 2007. “Discretionary action” refers to legislation enacted after the adoption of the budget resolution. A separate allocation for the Medicare program, as established under section 231(d) of the budget resolution, is shown for fiscal year 2003 and fiscal years 2003 through 2012. This comparison is needed to enforce section 302(f) of the Budget Act, which creates a point of order against measures that would breach the section 302(a) discretionary action allocation of new budget authority for the committees that reported the measure. It is also needed to implement section 311(b), which exempts committees that comply with their allocations from the point of order under section 311(a).

The third table compares the current levels of discretionary appropriations for fiscal year 2003 with the “section 302(b)” suballocations of discretionary budget authority and outlays among Appropriations subcommittees. The comparison is also needed to enforce section 302(f) of the Budget Act because the point of order under that section equally applies to measures that would breach the applicable section 302(b) suballocation.

The fourth table gives the current level for 2004 of accounts identified for advance appropriations under section 301 H. Con. Res. 353 printed in the Congressional Record on May 22, 2002. This list is needed to enforce section 301 of the budget resolution, which creates a point of order against legislation bills that contain advance appropriations that are (i) not identified in the statement of managers or (ii) would cause the aggregate amount of such appropriations to exceed the level specified in the resolution.

### Budget authority

Enactment of measures providing new budget authority for FY 2003 in excess of $36,280,000,000 (if not already included in the current level estimate) would cause FY 2003 outlays to exceed the appropriate level set by H. Con. Res. 353.

### Outlays

Enactment of measures providing new outlays for FY 2003 in excess of $25,237,000,000 (if not already included in the current level estimate) would cause FY 2003 outlays to exceed the appropriate level set by H. Con. Res. 353.

### Revenues

Enactment of measures providing new revenue reduction for FY 2003 in excess of $3,721,000,000 (if not already included in the current level estimate) would cause revenues to fall below the appropriate level set by H. Con. Res. 353.

TRIBUTE TO CHINATOWN COMMUNITY OF CHICAGO

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, on Monday, October 6, I participated in a ribbon-cutting ceremony for the Dr. Sun Yat-Sen Museum in what in Chicago is fondly called Chinatown. Dr. Sun Yat-Sen is known to many as the Father of the Chinese Revolution and the Father of the Republic of China because it was he who masterminded the plan to restore China to the common people which led to what is called the Republic of China today.

Dr. Sun Yat-Sen was born on November 12, 1866, in Huizhang County near the city of Canton in southern China where he had local schooling in traditional Chinese texts until he was 13 years old, when he then went to join his brother in Hawaii. In Hawaii, he studied at the missionary school and graduated from Oahu College. He then returned to China and began his medical studies at the College of Medicine for Chinese in Hong Kong and received his medical degree in 1892.

Dr. Sun Yat-Sen practiced medicine briefly in Hong Kong in 1893, after which he became strongly involved in the political scene of China. It was in the midst of the war between the Boxer Rebellion and Europeans that Dr. Sun Yat-Sen was born on November 3, 2002 in China.

In 1894, when he went to Beijing and discovered that the government had done little for the good of the people, he returned to Hawaii where he organized the Review China Society for his revolutionary purpose. A branch was established in Hong Kong as an agricultural study society; when plans were made to seize control of the government.

Unfortunately, the plans failed, which led to Dr. Sun’s flight to Japan and later to London in 1898, where he cultivated and introduced himself by spending 12 days at the British Museum Library where he invented the “Three People’s Principles,” his most important work, which later became the fundamental basis for the government in China.

He also advocated a “five power constitution,” which included the examination of unsorial branches in addition to the executive, legislative, and judicial branches for purposes of control. When he returned to Japan from Europe in 1905, he formed another revolutionary society called the Tong Meng Hui, the “Chinese Revolutionary League,” which consisted of his former revolutionaries in Japan and young Chinese intellectuals studying in China at that time.

Dr. Sun’s league’s uprising of rebels and encouraging of people to speak out in Hunan Province led to political unrest in the Ching Dynasty under the control of the Emperor Pu Yi. Also, in the fall of 1911, his Tong Meng Hui League was involved in the important uprising in the Wuchang, where rebels seized control of the government, which led to that day being called the “Double Ten Day,” and led to the name change of China to the Republic of China.

In January of 1912, Dr. Sun returned to China where he was elected provisional President of the New Republic. It was during his reign that he transformed his revolutionary organization into a political party called the Nationalist Party, or Kuomintang. In early 1913, his party won more seats than any rivals since China’s first-ever national elections. Later that year he was forced into exile and married his second wife Soong Ching-Ling in 1914 in Japan.

Nevertheless, Dr. Sun never gave up hope for China because he assembled a government made up of his old party and those who had been in Canton. He later allied with the Communist Party of Moscow due to the need for military supplies and advisers to strengthen his political organization, so that he would be able to break the hold of individual militarists leaders in south China and create a new unified government with forces in north China.

It was on his way to meet with the northern militarists that he fell ill and died in Beijing in March of 1925 due to an inoperable liver cancer. Dr. Sun Yat-Sen’s corpse became a complex political symbol, with his body being preserved and kept at a temple on the outskirts of Beijing, where people from all walks of life, including generals and political figures, came to pay homage to him.

His Kuomintang Party, after their victory about 20 years later, honored him by building a gigantic mausoleum near the capital of Nanjig, where they buried him, which made his burial an event of political enshrinement.

Mr. Speaker, I commend the community of Chinese-Americans in Chicago for establishing the Dr. Sun Yat-Sen Museum at 2245 South Wentworth Avenue.

The SPEAKER pro tempore (Mr. SCHROCK). Under a previous order of the House, the gentleman from Ohio (Mr. STRICKLAND) is recognized for 5 minutes.

Mr. STRICKLAND. Mr. Speaker, I addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

UPDATE ON EFFORTS TO BRING ABOUT DEMOCRATIC REFORM IN CUBA; AND HALTING OF NORTH-ERN IRELAND ASSEMBLY

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 3, 2001, the gentleman from New Jersey (Mr. PALLONE) is recognized for 60 minutes as the designee of the minority leader.

Mr. PALLONE. Mr. Speaker, I only plan to take about 10 minutes of the hour this evening, and I rise to discuss matters in two foreign countries. The matters are unrelated but are of a great deal of concern to me. First, I would like to turn to Cuba and then, later, to Northern Ireland.

Mr. Speaker, I wanted to draw attention once again to the continued denial of peaceable efforts to bring Democratic reforms on the island of Cuba. Early this year, over 11,000 citizens of Cuba took a courageous stand and petitioned the Cuban National Assembly to hold a nationwide referendum vote on guarantees of human and civil liberties. Named for the 19th century priest and Cuban independence hero, Padre Felix Varela, the Varela Project was the first ever peaceful challenge to Castro’s four-decade-long control of the island.

During his visit to the island, former President and Nobel Peace prize winner Jimmy Carter spoke about the Project on Cuban television. Because Varela received no attention from the Castro government press, this marked the first time many on the island heard of the Project.

Shortly after Carter’s speech, Castro organized mass island-wide demonstrations as a sign of “so-called” support for the Cuban socialist system of government. Castro then started his own petition, forcing almost all of Cuba’s voting population to sign in support of an amendment to the Cuban constitution mandating the current government structure as “untouchable.”
And yet Cuban officials, in the very few times they have responded to questions about Varela, called Oswaldo Paya and other organizers insignificant and have ignored their constitutional duty to respond to the petition.

In a recent article in the New York Times, Paya responded by saying, “This may not be of statistical importance, and it may not be understood well outside Cuba, but as a sign it had great value and the government understood that well. The key to the Varela Project is the personal and spiritual liberation of people. No more masks. The regime did not respond, it fled.”

Mr. Speaker, despite receiving extensive international attention for his efforts, life in Cuba has not been easy for Paya. Paya has received numerous obscene phone calls and has been subject to government surveillance. He was denied permission to travel to the United States to receive an award from the National Democratic Institute in Washington. And during the week he would have traveled, someone defaced his front door with red paint.

Other human rights leaders in Cuba connected to the Project have fared even worse. The president of the Human Rights Foundation, Juan Carlos Gonzalez Leyva, is in jail and faces a possible 6-year sentence for official disrespect and resisting arrest, among other charges, after protesting the arrest of an independent journalist in March. His group had been active in collecting signatures for the Varela Project petition.

Guillermo Farinas Hernandez, a psychologist in Santa Clara, said this week he expected he might face criminal charges for his endorsing the Varela Project at a local meeting last month where officials discussed scheduled National Assembly elections.

Paya has said the government’s referendum, as well as the harassment of the leaders, were a concerted effort to further reﬂect the need for change in Cuba. To that end, Paya and other opposition ﬁgures continue to collect signatures and have formed a civic committee to direct the drive, stating that they wanted it to be a nonpartisan project to demand fundamental rights like freedom of expression, the right to own private businesses, electoral reform, and amnesty for political prisoners.

Mr. Speaker, I would like to conclude talking about Cuba tonight and the Varela Project with one ﬁnal note from the New York Times article I mentioned earlier. In response to foreign visitors that have suggested that things in Cuba were not as bad as in other Latin American countries that are plagued by poverty, corruption, and violence, Paya said only this, and I quote: “They ask if we are ready for change. What people are never ready for is oppression.”

Once again I commend all those involved in the Varela Project, and I will continue to speak out in favor of the Project until the Cuban government responds in some way.

Now, Mr. Speaker, I would also like to turn briefly to Northern Ireland this evening because of my great concern about events over the last 2 weeks. I would like to initially urge British Prime Minister Tony Blair to take serious steps in preserving the peace in Northern Ireland. Prime Minister Blair must take immediate actions to ensure that the Good Friday Agreement does not fall apart.

Mr. Speaker, as you may know, on Monday, October 14, Prime Minister Blair provided a power-sharing government of Northern Ireland. It is important that the agreement and the devolved institutions are reinstalled as soon as possible. The Good Friday Accords, and more speciﬁcally the participation of all parties in the Belfast assembly power-sharing government, are the only real solution to lasting peace in Northern Ireland.

The only way for the agreements and power-sharing institutions to succeed, however, is for the Unionists to immediately accept equality amongst all citizens and parties in the north. The Protestant ruling parties must cease their stall tactics and work within the confines of the agreement to create a government that will be representative of all residents of Northern Ireland.

Northern Ireland must also immediately implement all the Patten Commission’s recommendations. The north must provide its citizens with a full, fair, and just reform of their police service. The PSNI, Police Service of Northern Ireland, must be representative of all ethnic, religious, and political groups in Northern Ireland. Prime Minister Blair should immediately demand the full implementation of the Patten police recommendations and ensure that Northern Ireland has a police service that is representative of all parties involved.

Mr. Speaker, I am quite worried that the Good Friday Agreement is hanging by a thread. These historic accords, which have shown the world that two parties which have battled for centuries can come up with an agreed-upon solution, are the only real way to preserve peace in Northern Ireland. And I once again urge Prime Minister Blair to reinstitute the Belfast Assembly and take immediate action on the Patten Commission’s recommendations on policing.

It is my hope these historic accords can be salvaged and a real and lasting peace will be preserved.
