PROCEEDINGS AND DEBATES OF THE 107<sup>th</sup> CONGRESS, SECOND SESSION

Vol. 148

WASHINGTON, WEDNESDAY, NOVEMBER 13, 2002

No. 146

## House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. SIMPSON).

### DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
November 13, 2002.

I hereby appoint the Honorable MICHAEL K. SIMPSON to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,  
*Speaker of the House of Representatives.*

### PRAYER

Dr. Jay Dennis, Senior Pastor, First Baptist Church at the Mall, Lakeland, Florida, offered the following prayer:

Our Heavenly Father, with issues facing this body that are historically significant, we pause to acknowledge You and to thank You. Thank You that our communication with You is a lifeline of hope. I ask Your hedge of protection, Your divine wisdom, and Your daily guidance upon each of these honorable men and women of the U.S. House of Representatives along with their families.

For our great country, we ask that You would hear our prayer for peace, protection, power over the enemies of freedom, and provision for our every need.

May Your plan become our purpose, may Your book become our guide, and

may Your presence be our ever-encouraging assurance.

May You bless these Members indeed. May You increase their influence and opportunities to change the world and make it better, and may You keep them and the United States in the hollow of Your hand.

In Jesus' name, Amen.

### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from New Jersey (Mr. PALLONE) come forward and lead the House in the Pledge of Allegiance.

Mr. PALLONE led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

WELCOMING DR. JAY DENNIS, SENIOR PASTOR, FIRST BAPTIST CHURCH AT THE MALL, LAKE-  
LAND, FLORIDA

(Mr. PUTNAM asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PUTNAM. Mr. Speaker, today's Guest Chaplain, Dr. Jay Dennis, is a constituent of mine serving the First Baptist Church at the Mall in Lakeland, Florida. I would like to take a moment to speak of his ministry, not only in central Florida, but around this Nation as well.

Throughout his tenure as pastor, Dr. Dennis' congregation has experienced extraordinary spiritual and physical growth, and has been identified by the Southern Baptist Theological Seminary as being among the top 4 percent of growing churches in America today. He is a gifted lecturer and author and broadcasts a daily radio and a weekly television show. Dr. Dennis is immediate past President of the Florida Baptist Convention.

But Dr. Dennis is in Washington on another matter today. In furtherance of their mission and ministry, Dr. Dennis and members of his congregation will be distributing a leather-bound study Bible to every Member of Congress, the Supreme Court and the administration.

We often speak in this Chamber about the dedication of individuals to their community and to their country. Dr. Dennis is making a difference in the lives of the people of central Florida and in so doing serves as an example for all of us to follow. I would like to take this moment to commend and thank Dr. Dennis on behalf of Congress for his ministry and commitment to the United States of America.

**ANNOUNCEMENT BY THE SPEAKER  
PRO TEMPORE**

The SPEAKER pro tempore. The Chair will receive 10 one-minute speeches on each side.

**CONGRESS SHOULD FINISH ITS  
WORK**

(Mr. PALLONE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PALLONE. Mr. Speaker, the Republicans are about to take up a CR that keeps the government going until January 11. What they are not saying is that they are abdicating their responsibility to govern.

The Republican leadership in Congress has achieved one of the worst legislative breakdowns in the Nation's history. Of the 13 fiscal year 2003 appropriations bills, Congress will complete before the end of this session only Defense and Military Construction. Everything else is being carried over until the next year.

A review of the past half century of legislative calendars shows nothing close to such nonfeasance. Even in 2000 when Congress approved 21 continuing resolutions before completing its work December 15, the House at least had passed each of the 13 appropriations bills.

What is happening now is we are simply abdicating our responsibility. The Republicans do not want to do anything. They simply want to wait until

the new session of Congress. But the fact of the matter is that we have a responsibility to pass the budget, to pass the appropriations bills, to deal with them now, and to work between now in November as well as in December, not simply wait until the next session of Congress to address all of these issues.

**REMEMBER THE MISSING AND  
EXPLOITED CHILDREN**

(Mr. LAMPSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMPSON. Mr. Speaker, I rise today to welcome our colleagues back and to remind everyone that while the media fervor of missing children has died down it does not mean that the cases have gone away.

It is my hope that we will continue in this body to focus and work on the issue of missing and exploited children. There is much that is going to be done. It is going to be years before we will address all of the problems that face children, so it will not be accomplished during this session or even the next Congress as well.

I would like to invite the new freshmen Members joining us to join the Congressional Caucus on Missing and Exploited Children. Children from every walk of life and every circumstance imaginable, stranger abduction, parental abduction, international abduction, runaways, and children being exploited, all deserve the attention we can give them.

Today as many of us return from the campaign trail where we have talked about our future and our children, I challenge my colleagues in Congress to

move toward more proactive and helpful positions on missing kids, all missing kids.

**HONORING THE ANAHEIM ANGELS  
FOR THEIR VICTORY IN THE 2002  
WORLD SERIES**

(Ms. SANCHEZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SANCHEZ. Mr. Speaker, I rise today to congratulate the Anaheim Angels for winning the 2002 Major League Baseball World Series. I, for one, have been waiting for them to win this since 1966, the day I attended the first game when we built the Anaheim Stadium.

Under American League Manager of the Year Mike Scioscia, the Angels won a franchise record 99 games during the regular season on their way to the world championship. The Angels demonstrated their courage in a "never say die" attitude during their championship run, which included an incredible game number six of the World Series where they came five runs from behind to win and be in that World Series for the seventh game.

Although there were many outstanding individual contributions, it was the team's collective efforts that made the difference in the post season.

And I would like to recognize in particular the Rally Monkey for keeping the crowds excited and helping the Angels to come back and win time after time in the season.

With most of the players from this year's team returning next year, I bet we will win again.

MARK DAYTON, *Chairman*.

PROVIDING FOR CONSIDERATION OF H.J. RES. 124, FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2003, AND FOR CONSIDERATION OF H.R. 5708, REDUCING PREEXISTING PAYGO BALANCES

Mr. HASTINGS of Washington. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 602 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 602

*Resolved*, That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the joint resolution (H.J. Res. 124) making further continuing appropriations for the fiscal year 2003, and for other purposes. The joint resolution shall be considered as read for amendment. The previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except: (1) one hour of debate on the joint resolution equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations; and (2) one motion to recommit.

SEC. 2. Upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the bill (H.R. 5708) to reduce preexisting PAYGO balances, and for other purposes. The bill shall be considered as read for amendment. The previous question shall be considered as ordered on the bill to final passage without intervening motion except: (1) one hour of debate on the bill equally divided and controlled by the chairman and ranking minority member of the Committee on the Budget; and (2) one motion to recommit.

The SPEAKER pro tempore. The gentleman from Washington (Mr. HASTINGS) is recognized for 1 hour.

(Mr. HASTINGS of Washington asked and was given permission to revise and extend his remarks.)

Mr. HASTINGS of Washington. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Florida (Mr. HASTINGS), pending which I yield myself such time as I may consume. Mr. Speaker, during consideration of this resolution, all time yielded is for the purposes of debate only.

Mr. Speaker, House Resolution 602 is a closed rule making in order the consideration of two measures. The rule provides that H.J. Res. 124 shall be debatable for 1 hour in the House with the time equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations.

The rule waives all points of order against consideration of H.J. Res. 124 and provides for one motion to recommit.

The rule further provides that H.R. 5708 shall be debateable for 1 hour in the House with the time equally divided and controlled by the chairman and ranking member of the Committee on the Budget. The rule waives all points of order against consideration of H.R. 5708 and provides for one motion to recommit.

Mr. Speaker, H.J. Res. 124 is a resolution providing continuing appropriations to fund ongoing activities of the Federal Government through January 11, 2003. It does not allow initiation of new activities and, with certain exceptions, the resolution continues activities under applicable fiscal year 2002 terms and conditions.

The resolution limits obligations on programs with high initial sped out rates so that the funding levels included in final appropriation actions will not be jeopardized. It continues authorizations for otherwise expiring programs and funding anomalies included in previous continuing resolutions and extends funding for the Temporary Assistance for Needy Families, or TANF, and related welfare programs.

Finally, H.J. Res. 124 provides authority to transfer up to \$500 million to establish the new Department of Homeland Security and for unforeseen homeland security requirements. Such authority would expire on September 30, 2004.

Mr. Speaker, section 2 of this rule provides for consideration of a bill that removes balances on the Pay-As-You-Go, or PAYGO, scorecard for the current fiscal year. This legislation is necessary in order to avoid automatic across the board cuts in a number of mandatory programs after Congress adjourns for this year.

In past years, Congress has routinely voted on a bipartisan basis to pass similar legislation, and this rule simply will permit that to occur again. Failing to enact H.R. 5798 would force reductions in a number of programs including Medicare, Veterans Administration medical care, Indian Health Services, Migrant Health Centers, Community Health Centers, State Children's Health Insurance, Child Tax Credits, and the Commodity Credit Corporation, among others.

Mr. Speaker, the measures made in order under these rules are necessary to permit the vital functions of the Federal Government to continue without interruption until a new Congress convenes again in January. Accordingly, I encourage all of my colleagues to support both the rule and the two underlying measures.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I thank the gentleman from Washington (Mr. HASTINGS) for yielding me time.

Mr. Speaker, I rise today in opposition to this rule and the underlying resolution. Tax cuts to well-off people in our country, environmental rollbacks by the dozen, awarding corporate irresponsibility and neglecting the needs of America's senior citizens and veterans are only a few of the highlights that the 107th Congress has to speak of. As one colleague put it yesterday, "It's been an awfully long day to do nothing."

Mr. Speaker, simply put, America has needs and today's continuing resolution does not meet them. The spirit in which the resolution is coming to the floor and the message that it sends is cut and run politics of the highest kind. There is a reason that this is called a Lame Duck Congress, because legislation like this is just lame.

As my colleagues know, today's CR funds the Federal budget until January 11, or thereabouts, 2003, without increasing spending in areas that we know we need increases.

□ 1015

With a possible war with Iraq on the horizon, should not this body, which is led by the President's party, spend time figuring out a way to pay for a war that the President has been asking for and that many Members voted for?

In a few hours, many expect that the House and Senate will each pass a bill establishing a new Department of Homeland Security. Listen up America, one caveat though: we are not going to fund the new Department until, according to the CR, January 11, 2003, at the earliest.

Additionally, the CR does nothing to protect the thousands of Member projects that cities and counties and constituents are depending on, including projects in the appropriations bills that Congress has already passed, the two of them.

Finally, the CR provides no PAYGO provisions, thus solidifying what the minority has been saying for more than 1 year: good bye, surplus; hello, deficit spending.

To date, Congress has neglected its constitutionally mandated responsibility of funding the Federal Government and has passed, as I earlier stated, a meager two of the 13 appropriation bills; and now we want to go home.

Mr. Speaker, what about homeland security and our national defense? What about prescription drugs? What about Social Security? What about extending unemployment benefits? What about an energy bill? What about the veterans measures that are not passed? How many of those measures have gone by the board? What other health considerations are we not considering?

Long-term unemployment is at an 8-year high in this Nation, and nearly 2 million Americans have lost their jobs. Consumer confidence is at its lowest levels since mid-2001, and prescription drug prices are still sky high. Mr. Speaker, I do not have to look around for anybody about that. I have been dealing with my mom's failing stages of her health; and on two different occasions since we were in recess, I paid \$983 for prescriptions, and all she has is Social Security and Medicare.

So, firsthand, I think we should do for the American citizens what is needed in the area of prescription drug

prices. We leave seniors unable to afford their vital prescription medicine.

Think about it, the House took most of January off this year, all of August, most of October; and now we are poised to give ourselves a month-and-a-half Christmas vacation. The American people are not paying us to work 2- or 3-day work weeks, and they are certainly not paying us to work 8 out of 12 months.

Could my colleagues imagine if we tried to run a business this way? No wonder the American people have such dismal opinions of the Federal Government. When the going gets tough, the tough get out of town.

Mr. Speaker, we were elected by the American people to Congress to do a job. Evidence today and every other CR that the House has been forced to pass in the last month are not the way that we should be going.

I am convinced that the Republican leadership is really in the final analysis not interested in doing the job having to do with the things I spoke of earlier, or at the least doing them right. The leadership of this body for the most part is not going to change very much in the 108th Congress. Republicans are still going to be in the majority, and I congratulate my friends in that regard. And Democrats are going to still be in the minority. With or without recriminations, those that were elected and reelected are to be congratulated as well.

So why is the majority trying to go home when the work of the 107th Congress is not done? Perhaps the American people need to be asking the same question. Now is not the time to go home and leave today's problems for tomorrow's Congress.

The American people cannot run a budget like this in their house, and we should not be trying to run one like it in America's House.

Mr. Speaker, I urge my colleagues to oppose this rule and to reject the underlying resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I continue to reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 6 minutes to the gentleman from Wisconsin (Mr. OBEY), the distinguished ranking member of the Committee on Appropriations and my good friend.

Mr. OBEY. Mr. Speaker, this is a pitiful exercise. Its arrogance is matched only by its futility and its hypocrisy. I think we ought to recount what is happening here and how we got here.

Early last year, the majority party, at the insistence of the Committee on the Budget and the House Republican leadership, passed a budget which even their own Republican leadership on the Committee on Appropriations indicated fell at least \$10 billion short of the amount that we would need to meet our own obligations on the do-

mestic front for education, for transportation, for veterans' health care, for National Institutes of Health, homeland security, and a number of other items.

The Committee on Appropriations, after that budget resolution was passed, tried to operate under it and tried to bring a number of appropriation bills to the floor. They produced the Department of Defense bill, the military construction bill; and the committee met its obligations in those two areas.

But then, Mr. Speaker, it was prevented from bringing any other appropriation bills to conclusion by an internal fight within the Republican Caucus in this House. What happened is that the hard-line conservatives in the Republican Caucus told their leadership they would not vote for any domestic appropriation bill until the education appropriation bill was passed at a freeze level recommended by the President, which would have brought to a halt the previous increases that we had in the area of education, the increases that we had over the last 5 years that averaged over 13 percent.

The House Republican leadership forbade the Committee on Appropriations to bring appropriation bills to the floor. And they said, "Oh, no, we will deal with them after the August recess."

Well, the August recess came and went. We came back on Labor Day and then we were told, "No, we cannot pass any appropriations bills during this period either. We are going to have to lay it over until a lame-duck session after the election."

Mr. Speaker, now we are here in a lame-duck session, and now we are being told by this resolution that we are going to kick this down the trail and we are not going to come back until next year, which means that every single appropriation bill is going to have to be introduced anew and have to start from scratch. All that work gets wiped out. Why? Because the majority party has not decided how they want to handle these issues and because they have a lot of Members who want to go on congressional trips.

So now we are being told to forget our duty. But then there is an added wrinkle that is being brought to the floor here today. The appropriations Republican leadership has been begging the House leadership since June to give the Committee on Appropriations at least \$8 billion to \$10 billion more so we could meet our transportation and our education and our homeland security obligations. They have been denied that. The House Budget Committee has been saying, "Oh, oh, oh, the Committee on Appropriations, they want to be big spenders. We cannot give them the \$10 billion."

But now what is happening under this rule? We are being asked to wipe out the PAYGO realities. That is an "inside baseball" term, but what it means essentially is that this Congress

is going to add \$30 billion more to the deficit because of that useless farm bill that passed earlier in the year and because of the tax cuts. So the very same people on the Budget Committee who are attacking the gentleman from Florida (Mr. YOUNG) as a big spender because he wants \$8 billion to \$10 billion more to finish the appropriations bills, the very same people are saying, "Oh, by the way, we cannot have that money; but by the way, we are going to blow \$30 billion, and then we are going to wipe out the scorekeeping and pretend it did not happen."

Mr. Speaker, that is what we are being asked to vote for on this rule today and on the two bills that will follow.

Mr. Speaker, this is a pitiful performance. What a laugh. What a pity. What a joke. What a poor performance.

Mr. Speaker, I am going to vote against this rule, and I am going to vote against the bill that follow because they epitomize the absolute uselessness and fecklessness of this entire congressional session. They demonstrate that the one thing this House has learned to do better than anything else is to duck its responsibilities, and that is a shame.

Mr. HASTINGS of Florida. Mr. Speaker, I am very pleased to yield 3 minutes to the gentleman from New Jersey (Mr. PALLONE), my good friend.

Mr. PALLONE. Mr. Speaker, this is the ultimate Republican do-nothing Congress. I woke up this morning, and I called the cloakroom; and I could not believe that they are going to simply pass a CR to carry the government over until January with the new Congress and not address all the pressing problems that we need to look at here.

First of all, think about the fact that we have a budget crisis. We have a budget deficit now, it was announced a few weeks ago, of \$150 billion. The effect on the economy, the downward trend on the economy that this will contribute to is unbelievable. Now, as the gentleman from Wisconsin (Mr. OBEY) says, we may be adding another \$30 billion to that because of the fact that we are wiping out these PAYGO provisions. So more deficits. We are in an economic downturn.

Mr. Speaker, what is the Republican Party going to do here? What is the Republican leadership going to do about the economic slow down? Are they going to deal with the fact that we have a higher unemployment rate, that a lot of people's benefits for unemployment will end sometime in December? Are they going to address that? Are they going to address the fact that seniors are crying out for a prescription drug benefit?

I read in the paper the other day that the President said he wants to address the need for a prescription drug benefit. Then why are we going home? Why are we not dealing with it? Why are we not figuring out how to pay for it?

The energy crisis. We face a major energy crisis. I understand a conference report on the energy bill has been filed. Is it going to be taken up today or tomorrow before we leave town?

Mr. Speaker, so many of these issues are not being tended to. The Republicans have only passed two appropriations bills, the Defense and Military Construction; and I do not mean to suggest that they are not important. Of course, they are very important because the President is saying that we may have to go to war against Iraq. But what about the budget consequences of that? Where is the money going to come from? Why are we not dealing with the budget in general and having some kind of budget conference where we sit down on a bipartisan basis between now and the end of the year and figure out how to pay for defense? How we are going to pay for these other important domestic issues?

Now, the Republican Party does not want to address it. They say, oh, we won the election so we will just wait until January. We will have a majority in both Houses, we will have the Presidency, and we will deal with it then. Mr. Speaker, it is a complete abdication of their responsibility, and it is not what they said during the course of the election when they said they were going to address these things.

We have another 6 or 7 weeks here when we could address these problems, both domestic and international; and it is terribly irresponsible for the Republicans to say, no, we are not going to do that; we are simply going to go home.

No one should be confused about what is going on here today. They are simply passing a continuing resolution so the government does not shut down, and coming back in January with the new Congress. That is completely unacceptable and irresponsible. This Congress under the Republican leadership, this House, has the worst legislative record in the whole history of the United States Congress, and this act today of trying to pass this rule just confirms it.

□ 1030

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are in this extraordinary circumstance for a variety of reasons that we have talked about on the floor many times when we were debating prior continuing resolutions. Part of it, without trying to point fingers because that does not do us any good when we are trying to seek resolutions to point fingers, but nevertheless the fact is the other body has not completed a lot of work that is the basis for us trying to complete our work.

It has been mentioned over and over, but I think it is worth mentioning one more time that the House by law, in fact both the House and the Senate by

law, is required to pass a budget in the spring. The House did that and did pass their budget. The Senate did not pass their budget at that time and they have not yet. Maybe there has been talk going back and forth trying to settle on a figure, a spending figure; but the way that it has always been done in the past is that one body passes a budget, the other body passes a budget; and if there is a difference, you work out the differences. That is part of the give and take in the legislative process. That simply did not happen this year. As a result, the appropriation process that follows really did not have a blueprint. That caused us problems all the way throughout.

In addition to that, there are a number of other important pieces of legislation that passed this body that, for a variety of reasons, for whatever, is hung up in the other body as we speak right now. So as a result, we are in this situation of then passing this CR to get us into the first week of the next Congress. By that time, and in fact there are probably ongoing discussions right now with the new majority in the Senate and the majority here in the House to come up with probably an omnibus appropriation bill that will pass and we will have that behind us as we go into the 108th Congress.

I might make an observation, that what we are doing here is not unprecedented. It is not probably the ideal way things should be done; but in 1980 there was a CR that was passed over until the next Congress, so it has been done in the past. The reason why we are in that situation, as I mentioned, is simply that we are facing unprecedented inaction in the Congress in the other body. For that reason, we have to pass these CRs.

Let us get on with our work.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I am sorry, but earlier in my discussions I understated the amount by which the deficit will be expanded with the approval of the Congress with the subsequent motion that will follow from this rule. It is not just \$30 billion. I am told it is over \$60 billion that will be added to the deficit from the base on mandatories.

#### MOTION TO ADJOURN

Mr. OBEY. Mr. Speaker, I move that the House do now adjourn.

The SPEAKER pro tempore (Mr. SIMPSON). The question is on the motion to adjourn offered by the gentleman from Wisconsin (Mr. OBEY).

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 24, nays 338, not voting 69, as follows:

Messrs. COMBEST, KENNEDY of Minnesota, CANNON, THOMPSON of California, FLAKE, BRADY of Texas, OTTER, CROWLEY, and BISHOP changed their vote from "yea" to "nay."

So the motion to adjourn was rejected.

The result of the vote was announced as above recorded.

Stated against:

Mr. MANZULLO. Mr. Speaker, on rollcall No. 471 the bells in my office failed to work. Had I been present, I would have voted "nay."

#### PROVIDING FOR CONSIDERATION OF H.J. RES. 124, FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2003, AND FOR CONSIDERATION OF H.R. 5708, REDUCING PREEXISTING PAYGO BALANCES

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from Texas (Mr. ARMEY), the distinguished majority

leader, for the purpose of making an announcement.

(Mr. ARMEY asked and was given permission to speak out of order.)

## LEGISLATIVE PROGRAM

Mr. ARMEY. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, on the subject of today's schedule, we are about 30 minutes away from completing our consideration of the CR and PAYGO rule. We would obviously have a vote if it is requested. We would then try to move on to the CR and complete that work. From that it would be our desire to take up the Homeland Security rule and move on to the Homeland Security bill. We would then do the PAYGO bill later today or possibly tomorrow.

But, Mr. Speaker, this is the key point I would like to call Members' attention to: I would like to advise Members that the House will recess from approximately 2 o'clock to 6 o'clock for the Republican organizational conference. As a consequence of the need to do so, I should mention that if we are unable to complete the Homeland Security bill before 2 o'clock p.m., we would be asking Members to resume business tonight at the completion of the Republican conference at approximately 6 o'clock this evening.

It is obviously, I think, probably a desire for most of us if we can expedite completion of Homeland Security by 2. It is my duty to advise Members as early as possible to consider their plans for tonight with respect to the possibility that we may be reconvening for business for the completion of Homeland Security's consideration tonight beginning at 6 o'clock.

Ms. PELOSI. Mr. Speaker, will the gentleman yield?

Mr. ARMEY. I yield to the gentleman from California.

Ms. PELOSI. Mr. Speaker, I thank the distinguished majority leader for presenting the schedule for today.

Mr. Speaker, is it the gentleman's view that we will have the PAYGO vote today as well, or will that vote be rolled until tomorrow?

Mr. ARMEY. Mr. Speaker, I appreciate the gentleman's request. It is essentially a matter of priority. Our first priority, obviously, is to complete the continuing resolution. We would put Homeland Security as a priority ahead of PAYGO. If we did not get PAYGO done today, we would do it tomorrow.

Ms. PELOSI. Mr. Speaker, if the gentleman will continue to yield, if we debated it today, is there a possibility that we would vote on it tomorrow, or has that decision been made?

Mr. ARMEY. Reclaiming my time, no, we have not made that decision. Frankly, we understand that Members do have points they would like to make. We would like to make sure that debate time is available to everybody with respect to these issues. We will be working our way around these two very important organizational conferences. The gentlewoman understands the importance of them.

Ms. PELOSI. Mr. Speaker, if the gentleman will continue to yield, I would ask the gentleman, Mr. Leader, could you inform us of the schedule for tomorrow, and would that be the last day of the session?

Mr. ARMEY. Mr. Speaker, we would be addressing any available conference reports tomorrow. We would try to complete our work by tomorrow night sometime. We do have some very good legislative opportunities in the presence of some of those conference reports. But I believe we will be in recess, and no votes would be requested during the Democrat organizational conference.

Ms. PELOSI. I understand that about today. But does the gentleman anticipate that we will be working through the weekend, or will the schedule end tomorrow?

Mr. ARMEY. Mr. Speaker, again, let me thank the gentlewoman for her inquiry. It is my anticipation that we would complete our work sometime tomorrow afternoon or evening. I do not anticipate working on the floor on Friday or the weekend.

However, again, let me just say, if we are all mindful of our own best interests and those of our colleagues and we try to be cooperative and move things along, obviously it will go better. We have some opportunities that are very important for the American people in the person of these conference reports, and we would not want to leave any behind. But I do not see that it is necessary for us to expect to work beyond Thursday night.

Ms. PELOSI. Mr. Speaker, if the distinguished gentleman could continue to yield, I would just like to say, Mr. Leader, that I have expressed to you over and over again my dismay that we have only passed two appropriations bills and that we have a tremendous amount of unfinished business before the Congress.

However, I will use my remaining time to say that from what you have said, this may be your last or among your last colloquies on the floor of this House; and I would like, as the minority whip, to commend you for your service to the Congress, to wish you well in your future endeavors, and to thank you for your many courtesies.

Mr. BARTON of Texas. Mr. Speaker, will the gentleman yield?

Mr. ARMEY. I yield to the gentleman from Texas.

Mr. BARTON of Texas. Mr. Speaker, as the distinguished gentleman knows, I have made an art form of giving you grief on the schedule, so I am going to continue to do that. Is it the gentleman's intention that once we adjourn for this week or weekend, that we do not come back until the next Congress? Is that the intention of the leadership?

Mr. ARMEY. That is our expectation.

Mr. BARTON of Texas. Once we get our work done this week, we are home for the holidays?

Mr. ARMEY. It is our expectation that with the Homeland Security, the continuing resolution, the other conference reports that we can foresee, there would be nothing of such urgency before the Nation to require us to come back before January 7.

Mr. BARTON of Texas. Mr. Speaker, I want to thank the gentleman for his excellent leadership and friendship and join all the others in wishing him well in whatever his future endeavors are.

Mr. ARMEY. Mr. Speaker, I thank the gentleman.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 4 minutes to the distinguished gentleman from Alaska (Mr. YOUNG), the chairman of the Committee on Transportation and Infrastructure.

Mr. YOUNG of Alaska. Mr. Speaker, I do not do this lightly. In my period of time being in the majority, I have never rose opposing a rule, so this is a very serious moment for me. I want my side to understand why I am doing this and this side to understand also why I am doing it, and suggest a "no" vote on this rule.

House Joint Resolution 124 will continue to keep in place a spending limit of \$27.7 billion on Federal aid to highway programs. Last month I agreed to this limitation; but I was clear that if the continuing resolution ran beyond December 31, I would move to strike the language.

This continuing resolution runs until January 11, 2003. That does not sound like a long time. However, we cannot be certain that the Congress will move quickly to enact appropriation bills in January.

Mr. OBERSTAR. Mr. Speaker, the House is not in order.

The SPEAKER pro tempore (Mr. SIMPSON). The gentleman is correct.

Mr. YOUNG of Alaska. I am watching that side, and whoever is talking, you can forget any highway funds.

The SPEAKER pro tempore. The gentleman will suspend.

Would the Members on the minority side in the rear of the Chamber please remove your conversations from the floor so the gentleman can be heard.

Mr. YOUNG of Alaska. However, we cannot be certain that Congress will move quickly to enact appropriation bills in January. In fact, with reorganization activities and a new majority in the Senate, there is a high level of uncertainty about timing for the entire appropriation process.

Because of this uncertainty, it is imperative we absolutely be clear that the highway program will continue at the full enacted funding level of \$31.8 billion, as it is cleared today. That is the level we are spending monies today, not \$27.7 billion.

It is important to note that except for the highway program, this program, the one that affects every one of your districts, that this continuing resolution continues all activities under the fiscal year of 2002 funding levels, all activities. But they picked out the

highway program. It is unfair to cut the highway programs in your district.

Now, Members should keep that in mind very closely when they cast their vote. Every dollar of the \$31.8 billion funding level we support comes from the highway trust fund. It does not come from the general budget. It does not come from the general fund. It is the trust fund. It is the money of the users of the highways. It is funded by fuel taxes, it is paid by the highway users; and those highway funds should be used to sustain jobs and reduce congestion and improve our economy.

Mr. Speaker, I cannot for the life of me, I have talked to my appropriations brother, I have talked to the Speaker, I have talked to the majority leader, I have talked to the minority leader. I do not know where this is coming from. If this is coming from the White House, shame on them.

This is not their money, it is our money; and to this have this one program singled out is inappropriate. I have talked to the Committee on Rules chairman, and I talked to the Speaker, and I have talked to the leadership of this House; and I said this is not fair, we ought not to do this. Leave it at \$31 billion, as it should be, come back and do the job right and not continue to nip at us. This is the fourth time we have done this.

I want to know who is responsible. Can anybody give me an idea where this is coming from? They cannot do that. I as the chairman of the committee and all of my 75 Members better understand one thing. If we leave it at \$27 billion, you can keep one thing in mind: this is an attempt by this administration to use this trust fund money to try to use it for other uses in the budget instead of as highway funds. So for the first time, I am going to ask my people to vote "no" on this rule.

Mr. Speaker, I am somewhat embarrassed, because last month the gentleman from Wisconsin (Mr. OBEY) and I had this discussion on the floor, and I had thought I had an agreement to protect this; and I said specifically then to accept the \$27.1 billion, the level that was decided, but with the understanding that we would spend it at \$31.8 billion if it did not go beyond the first of the year.

What has happened here, again, I have not had anybody tell me where this is coming from. It is not your money. It is not the White House's money. This belongs to the users of the highway. We can come back, pass another rule, and make sure that we do the job right. And, believe me, I will find out where this is coming from.

□ 1115

You are not going to take this money away from the users of the highway. They paid for it. They want the highways. They want the infrastructure. We talk about stimulating the economy. Forget all of these other programs they are talking about. Let us create jobs by building our bridges and

our highways. Let us do it. If we want to stimulate something, let us stimulate it with real jobs and not make believe.

So I would just keep in mind, let us put this rule down and come back with the right rule.

Mr. HASTINGS of Florida. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding me this time. I greatly appreciate the remarks delivered with sincerity and passion by the chairman of our committee, the gentleman from Alaska (Mr. YOUNG).

We did have this conversation just prior to the election. We did have a discussion of what would be the level of funding for the Federal Aid Highway Program in the continuing resolution. We were assured by the Committee on Appropriations leadership, by the leadership of the House, the gentleman from Alaska had specific assurances from the Office of Management and Budget that funding would be at the level of \$31.8 billion through the beginning of the year and would continue at that level until probably August, if there were no further changes made in the appropriation bill, underlying appropriation bill itself, and at that point then the funding level would drop down to \$27.1 billion. The resolution before us breaks all of those agreements, discards all of those understandings, throws it all aside.

The reality is today this is a raid on the Highway Trust Fund. We have a \$15 billion surplus in the Highway Trust Fund today. That surplus was anticipated in 1998 when the Committee on Transportation and Infrastructure wrote what we know today as TEA-21, moved it through conference and back to the House, with a commitment of increased levels of funding. We knew the trust fund was going to grow because of increased revenues into the trust fund. We anticipated and we provided for in that authorization legislation a \$15 billion surplus to be drawn down and invested in highways, not to offset a deficit, and that is what is happening here. Money is being held back.

In 1998, at the beginning of the year when we crafted TEA-21, there was a \$29 billion surplus in the Highway Trust Fund, which our committee agreed to yield for debt reduction. And when the bill was signed into law, I am sure everybody felt a great lift off of their shoulders of that debt, because that \$29 billion went to reduce public debt. But the commitment was that in exchange for giving up the surplus and giving up interest on revenues paid into the Highway Trust Fund year-to-year, that we would have a guaranteed account, a dedicated revenue stream with which to invest in highways and bridges and transit systems in America. And we did it, and it worked wonderfully for 5 years. In those 5 years we invested \$120 billion of Federal funds in

the Federal Aid Highway Program. By comparison, in the 42 years of the Interstate Highway Program, we invested \$114 billion of Federal funds in the interstate system. It took 42 years because we had a dedicated account, a guaranteed revenue stream.

This breaks that commitment. This resolution draws it all down. We will lose millions, billions of dollars in investments and thousands and thousands of jobs. If you want to come to the desk, I have a list of what each State will lose if this resolution passes.

Mr. HASTINGS of Washington. Mr. Speaker, I would advise my friend I have no further speakers.

Mr. HASTINGS of Florida. Mr. Speaker, I have one final speaker, and I yield 1 minute to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Speaker, I would simply point out to both of the gentlemen who have just spoken from the Committee on Transportation and Infrastructure that I warned the Committee on Transportation and Infrastructure before the election when we debated this that they were going to be short-sheeted on this continuing resolution, and that has now, unfortunately, come to pass. So I would say that I agree with the observations of the gentleman from Alaska (Mr. YOUNG), all but one of them.

I would also say that it is not true that only highways are being hurt by this continuing resolution. The National Institutes of Health will encounter a severe problem in issuing their grants for the year. Veterans will not be able to have the backlogs dealt with in terms of veterans health care. The Securities and Exchange Commission is not going to be funded at the level that was promised in the authorization bill before the election. We are not going to see the Medicare give-backs that our providers around the country were looking for. There are going to be all kinds of other problems as well as the highway problem. So I think there are a good many reasons, including the highway problem, to vote against this rule and against this resolution.

Mr. HASTINGS of Florida. Mr. Speaker, I yield back the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore (Mr. SIMPSON). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Mr. HASTINGS of Washington. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 215, nays 189, not voting 27, as follows:

Mrs. KELLY and Messrs. HEFLEY, REGULA, QUINN, DOOLITTLE, MICA, LOBIONDO, LATOURETTE, HERGER, YOUNG of Alaska, BAKER, BEREUTER, and PETRI changed their vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. MANZULLO. Mr. Speaker, on rollcall No. 472 the bells in my office failed to work. Had I been present, I would have voted "yea."

## GENERAL LEAVE

Mr. YOUNG of Florida. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.J. Res. 124 and that I may include tabular and extraneous material.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from Florida?

There was no objection.

## FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2003

Mr. YOUNG of Florida. Mr. Speaker, pursuant to the rule just adopted, I call up the joint resolution (H.J. Res. 124) making further continuing appropriations for the fiscal year 2003, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the joint resolution.

The text of H.J. Res. 124 is as follows:  
H.J. RES. 124

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Public Law 107-229 is further amended by striking the date specified in section 107(c) and inserting in lieu thereof "January 11, 2003"*

SEC. 2. Section 114 of Public Law 107-229 is amended—

(1) by striking "December 31, 2002" and inserting "the date specified in section 107(c) of this joint resolution"; and

(2) by striking the first proviso and inserting the following: "": *Provided*, That grants and payments may be made pursuant to this authority at the beginning of any included quarter or other period of fiscal year 2003, for such quarter or other period, at the level provided for such activities for the corresponding quarter or other period of fiscal year 2002".

SEC. 3. Upon determination by the Secretary of Homeland security that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$500,000,000 of funds made available to the Department of Homeland Security and be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided*, That such authority to transfer may not be used unless for higher priority items, based on unforeseen homeland security requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: *Provided further*, That during fiscal year 2003, the Office of Management and Budget may transfer not to exceed \$140,000,000 for unobligated balances of appropriations enacted prior to October 1, 2002 for organizations and entities that will be transferred to the new Department for the salaries and expenses associated with the initiation of the Department: *Provided further*, That of amounts authorized for transfer by this section, except as otherwise specifically authorized by law, not to exceed two percent of any appropriation available to the secretary may be transferred between such appropriations: *Provided further*, That not less than 15 days' notice shall be given to the Committee on Appropriations of the Senate and House of Representatives before any such transfer is made: *Provided further*, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen homeland security requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by Congress: *Provided further*, That the authority provided in this section shall expire on September 30, 2004.

The SPEAKER pro tempore. Pursuant to House Resolution 602, the gentleman from Florida (Mr. YOUNG) and the gentleman from Wisconsin (Mr. OBEY) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. YOUNG).

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, first let me welcome all the Members back from their election-day activities and suggest that we do have a lot of work to do, especially a lot of appropriations bills that need to be concluded.

Mr. Speaker, this is a continuing resolution to keep the government functioning until such time as all appropriations bills are concluded. It would extend the date of the initial continuing resolution until the 11th of January and includes one additional anomaly that would extend the authorization for the Temporary Assistance for Needy Families, the TANF program, through this same period.

Mr. Speaker, the other anomalies that we had included in the original CRs are all the same, no changes. This is a clean CR. I do not think that there is any real controversy over the content of the CR.

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield myself 8 minutes.

Mr. Speaker, I think Members will recall when we were sitting around here last February and March waiting for the President to send up the supplemental and talking about starting the appropriations bills after we got back from the spring recess. The dogwoods bloomed and the cherry trees bloomed and, finally, the azaleas; and yet we had no appropriations bills.

So then we had talked about how busy the summer was going to be after we had gotten back from the Memorial Day recess. We had droughts across most of the country. We had forest fires in the West. Tiger Woods won the U.S. Open, and the All Star Game ended in a tie, and nearly three-quarters of the appropriations bills during that time never even got to the House floor.

After all of that transpired, we left for the August recess talking about how impossible the fall would be. We were going to have long nights and late nights, and that was going to be the only way that the House could get its work done before the election. Well, we returned in September and we did not work those long weeks or those long nights. The Republican leadership of the House would not let the chairman of the committee take up the bills that the committee had reported.

And in September we had a continuing of the work style of the previous 3 or 4 months. We would have our first votes occurring on Tuesday evenings for the week, and we would have wheels up at National Airport going back to our districts by noon on Thursday or close to it. And so when we left in October, we had passed only two of 13 appropriations bills. We had funded only one of the 15 departments of the U.S. Government, and not a single domestic agency had a budget for the fiscal year that had already begun.

We left town then for the election, and we said that the lame duck session would be a tough one, that the work load would be enormous, that Congress would be forced to stay in session until Christmas Eve. But guess what? Wrong again. We simply are seeing the magic switch being used one more time. Put the government on automatic pilot and go home.

So what have we accomplished? Well, the Director of the Customs Service will no longer report to an Under Secretary in the Treasury Department. He will report to an Under Secretary in another building in a new bureaucracy. That is our achievement on the Homeland Security front.

I frankly do not think Osama bin Laden will care. He may even realize that all of the moving of desks and phones and computers over the next couple of years in the new Department of Homeland Security is likely to create gaps in our security and give him openings to do his dirty work.

But what will happen to the plan of the Director of the Customs Service to inspect the millions of 40-foot long steel containers that get shipped into the United States each year when they leave Europe or Asia or Latin America? I think Osama will be glad that the Congress did not find time to fund that initiative. What about the money that the FBI Director needs to upgrade his computers, to hire more analysts, to get translators to speak Arabic, Farsi or Pashto. I am sure that Osama will be glad that the Congress did not get around to fixing that problem either.

And how about the money we were supposed to give to local fire and police departments so they could have common communications systems so that the first responders would have protection in dealing with biological and chemical attacks? Well, I guess apparently the judgment of Congress is that that can wait. After all, who knows, maybe the next major attack in this country may not come until next summer or, if we are lucky, even later.

□ 1200

So again, Congress chooses to not deal with the problem.

What about the money for the Public Health Service to buy the anthrax vaccine for first responders and others that would have to cope with an attack? The same answer, no action.

But I guess we need another break. After all, we have had a tough election season. Apparently the Congress has to rest up from all of its recesses and those weeks we had to slave from Tuesday evening through Thursday noon before we went back to our districts. And certainly Congress needs to rest up from all of the promises that it has made during the election, promises about how much we care about the economy and people being squeezed by the economic downturn.

But apparently we are not going to stay here now to deal with the extension of unemployment benefits; we are not going to fix the problems at the National Institutes of Health; we are not going to fix the highway problems; we are not going to fix the problem of the underfunding of the Securities and Exchange Commission. But after all, apparently Members of the House are really worn out from all of the TV ads we all had to run telling our constituents how much we cared for the elderly

and how hard we were going to work to ensure that they got the medical care and the prescription drugs that they needed.

If running those ads had been less arduous, maybe we could have persuaded the majority party to stay around for a few more days to do its work. I know that the chairman of the committee would like to do that, but apparently he has been overruled by his caucus or by his leadership or by the House and Senate leadership combined, if we can call that leadership by walking away from their responsibilities.

Mr. Speaker, I would simply say that this is a pitiful performance by a pitiful Congress walking away from its major responsibility. This Congress has not even found the will to pass the appropriation bills, which is the main job Congress has each year.

I do not know why Members run for reelection for another 2 years if they do not want to do the work that they were elected to do in the previous 2 years. I guess there are a lot of mysteries in this place I do not understand.

This resolution is going to pass. We will come in here on January 7, and we will kick the can down the road again. We will come in long enough to sign up for our new 2-year lease on our paychecks, and then Congress will apparently adjourn again without doing anything to deal with the major problems that Congress is facing on the appropriations side. I guess it is a harbinger of things to come, but it is a disgrace. I for one am not going to vote for this continuing resolution because what it really is is a spectacular abdication of responsibility, which is not worthy of this body.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I misspoke when I said there was only one anomaly or change in this CR because there is one other I should call to the attention of the House, and that has to do with the Department of Homeland Security. In the CR we included a provision which provides transfer authority for the establishment of the Department of Homeland Security and for unforeseen homeland security requirements.

This is basically language that we had agreed to when the Homeland Security bill passed the House earlier this year; because that conference report is expected to hit the floor today we included this appropriations provision in the CR. Here is what it does.

Under this provision, the Secretary of Homeland Security may transfer a total of \$500 million in appropriations for unforeseen homeland security requirements.

In addition, unobligated balances of not more than \$140 million from funds appropriated prior to October 1, 2002, may be transferred for the initiation of the new department.

Now such transfers, Mr. Speaker, may not exceed 2 percent of any appro-

priation between such appropriations. The provision requires that these transfers, and this is important, are subject to current reprogramming requirements. These transfer authorities would be provided until September 30, 2004.

Mr. Speaker, this language was necessary to provide the President of the United States with the ability to move quickly in dealing with homeland security issues. We had some debate on this during the consideration of the homeland security bill. This is an acceptable provision to the appropriators as we protect the responsibilities under the Constitution of the House and the Senate.

So this is not a controversial item in this continuing resolution, but I thought I had better call it to the attention of the membership.

Mr. Speaker, I reserve the balance of my time.

Mr. OBEY. Mr. Speaker, I yield 4 minutes to the gentlewoman from the District of Columbia (Ms. NORTON).

Ms. NORTON. Mr. Speaker, I thank the gentleman for yielding me this time and for his hard work this year in trying to get these appropriations out.

Many of my colleagues have been local elected officials, and surely they recognize what fix they would be in if their city or county had to run on a day-to-day CR. We cannot pick up garbage on a day-to-day CR. The Federal Government might be able to run HHS or the Department of Labor that way, but I am talking about the Nation's capital, a living, breathing city of 600,000 people which also serves 200,000 Federal workers.

What we are doing with these interminable CRs that puts D.C. right in there, even though there is mostly local money here, what we are doing is crippling good management in the city, which is exactly what the Congress has admonished the District to try to improve.

Major Williams and our City Council deserve a lot better. They have done a spectacular job in renewing city operations. These folks had a balanced budget, and then they had to do a 10 percent cut of the budget raised by local taxes, and they did it in 10 days. Now they are told for an entire quarter they are going to have to live on last year's budget.

Let me give Members two reasons why that is difficult for a city. First, they cannot implement new programs which are necessary. Second, despite the cuts, the District of Columbia has increased its school budget, but since under the CR the city must run at last year's levels, it cannot increase its school budget, and yet that is the budget that Congress has been most concerned about.

Much of that local money would go to special education problems, which are particularly crippling us because we do not have any State to contribute to special education. Indeed, Congress is so concerned about special education

that we got \$14 million in extra Federal money for special education in this budget, but I am not even asking for that, I am just asking for D.C. to be able to spend her own money on her own special education children.

Yesterday I spoke with the President about it, the Mayor spoke with him about it, and subsequently I called his top staff at the White House. Guess what, neither the President nor his top staff seemed to have any objections. The top staff said they would put it before the OMB. The reason that I think the President and his staff did not have particular objection is that apparently what the President and those who are holding the appropriations want is no Federal spending above a certain level. Voila. The money I am talking about is all money raised in the District of Columbia, \$3 billion of it. No Federal spending above a certain level, fits the rule, this money should not even be here in the first place.

If it is here, I would think that there would be some sensitivity to the fact that the city should not be treated as if it were the Department of Labor or some other agency. I had a one-sentence amendment that would have allowed D.C. to spend local taxpayer funds only, leaving all of the Federal money over here.

There are special circumstances in this CR. It is not a clean CR. There are TANF grants and payments, and I thank the leadership. There is an allowance for transfer of \$500 million from other agencies to homeland security.

Mr. Speaker, surely keeping the Nation's capital afloat and well-run is just such a special circumstance. I ask that we take all the action we can after this CR expires to see that this never happens to the city again, and pray for the city during this period.

Mr. OBEY. Mr. Speaker, I yield 5 minutes to the gentleman from South Carolina (Mr. SPRATT).

Mr. SPRATT. Mr. Speaker, I first encountered this thing we call a continuing resolution when I was a young officer in the Army working for the Assistant Secretary of Defense Comptroller. I remember how it was explained to me then by the DOD's General Counsel. He said, in effect, the Congress is saying to us we have not got our job done, we are a little embarrassed, so just keep spending money at the level it is being spent until we can catch up and get things done right.

This year, more than any year I have ever seen or known about, we are deficient in doing our job. Eleven out of 13 appropriation bills have not been passed. Let me just pick out four and point out to Members the consequences of having a continuing resolution in lieu of a properly worked appropriation bill.

Veterans medical care. If Members are not aware that veterans are calling their district offices and saying they cannot get an appointment at veterans hospitals in less than 6 months, Members have not been talking to their

staff. The Veterans Administration is overstretched, overcommitted, and we are not in this resolution providing them a dime more than they got last year to deal with a problem that is getting worse all the time.

So Members are turning a deaf ear to the veterans who are calling and saying what good is health care when it needs to be delayed for 6 months. That is the situation that I am finding in my office, and I dare say it is true all across the country, and this resolution turns a deaf ear to the veterans of this country and their pleas for the health care promised them.

Education. Last year the President made a big deal, and rightly so, out of his signature education bill. Democrats in the House and Senate, the gentleman from California (Mr. GEORGE MILLER) and Senator KENNEDY, joined him in inaugurating the bill called Leave No Child Behind. It was a reauthorization of the Elementary and Secondary Education Act.

When we passed that authorization bill in the House, the price tag on it was \$26.4 billion. We said that we recognize that school districts are going to have additional substantial obligations, and we wanted to send money with the mandates we were imposing upon them. We said we need to increase what we are spending on elementary and secondary education so that the school districts will be able to meet their obligations and will be funded at the Federal level for the obligations that the Federal Government is imposing upon them.

Mr. Speaker, 6 weeks later after the authorization had passed, the President sent his budget up and guess what, his budget funded the bill at \$4 billion less, \$19 million less than we were then spending for elementary and secondary education, and that is the way we will leave it if we pass the CR instead of going back to the Labor-Education appropriation bill and properly funding education as we should.

Education will be shorted. We will leave a lot of children behind. \$4 billion would put a lot of our school districts that are already hurting because of statewide budget cuts in dire straits. It is true in my State; I dare say it is true in every State.

Highways. No Member should vote without looking at this list right here. I just looked at it to see what happens to the highway bill, what we will fund compared to what TEA-21 might have provided. South Carolina will get \$49.162 million less than we would otherwise get if we did a proper appropriations bill.

□ 1215

We are a small State. If you are larger than South Carolina, and most of you are, you better check this list because you are going to be surprised at how much you will be shorted in highway funding if you vote for a CR over a proper transportation appropriation bill.

Finally, the SEC. The SEC, the Securities and Exchange Commission, makes money for the Federal Government. The SEC charges fees that amount to about \$1.2 billion every year. It then spends about \$450 million a year, and the \$750 million difference goes into the Treasury. They make money for the Federal Government. If there is one agency of the Federal Government that is challenged right now, if there is one thing we need to do for this economy, to restore confidence in the stock markets and corporate accountability, the SEC has to be the watchdog. They have to do it. They need more money. The man who wrote the bill, Sarbanes-Oxley, said they need \$776 million. You would still have a \$500 million contribution out of their fees to make to the Federal Treasury. Pass this continuing resolution instead of a proper appropriation bill and the SEC will get \$450 million, slightly less than that, in fact. It is not right.

I am ready to stay here and do it right. That is what I submit every Member should do. We can do it. We can do it between now and Thanksgiving. We can do it right. We can take care of highways, we can take care of veterans, we can take care of the SEC. We can do it right. We should do it right and not pass this CR.

Mr. OBEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Texas (Ms. JACKSON-LEE).

(Ms. JACKSON-LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, to both of the distinguished gentlemen, the chairman of the Committee on Appropriations and the ranking member, we stand today not wearing any partisan hat on a very crucial element of our responsibilities as the House of Representatives. I have always been taught constitutionally that we have the Committee on Ways and Means, which the Founding Fathers established as the ways and the means to fund our government; and we have the appropriators who are the distributors of important taxpayers' dollars to move the engine of America. And so I am particularly frustrated by what we are facing today.

I want to associate myself with the remarks of my colleague from the District of Columbia, particularly because I think we should look to the issue of national security. And certainly a city, having come from local government as a member of the Houston City Council, it is very difficult to run a government with the ups and downs of no one knows what may occur without having the kind of funding that the Congresswoman is asking for. This resolution does not answer that question.

Then as I have made known to my colleagues, there are some of us who have entities in our district that are literally closing their doors. They are doing good work. They are fiscally conservative and responsible, like the Martin Luther King Jr. Center in my

community that houses homeless women and their children, those children, also separately housed, who come from HIV-infected parents, who have to have separate housing or have to be cared for. Those doors are about to close. Or the increasing rise in America of HIV infection. There are two entities in my congressional district, the Montrose Counseling Center and the Donald Watkins Center, that cater to the needs of individuals in the minority community who are HIV infected.

Then, of course, we with great pride in a bipartisan manner indicated our support for Leave No Child Behind. My school district, one of my school districts, the Houston Independent School District, has been labeled as an exemplary school district; but at the same time there is increasing need for special needs children. Those funds that we so appropriately authorized in Leave No Child Behind are not being funded at the levels that it should. Institutions of higher learning, like Texas Southern University that is branching out to educate as a historically black college those individuals who would not have access to higher learning, are losing programs that are so vital to producing more experts in math and science and the sciences.

And so this CR does more than just respond to maybe someone's viewpoint that we are to harbor our tax dollars and put them off to the side; it hurts people. Particularly, it hurts our community hospitals. We must fund them now. I would only encourage my colleagues by way of thanking them, both the gentleman from Florida (Mr. YOUNG) and the gentleman from Wisconsin (Mr. OBEY), to come together and see how we can resolve these matters; and if the leadership would simply listen to them, we could resolve these matters.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from Texas (Mr. LAMPSON).

Mr. LAMPSON. I thank the gentleman for yielding me this time.

Mr. Speaker, I have a question regarding a visit I had just a few minutes ago from some physicians from the State of Texas asking me about the replacement of the Medicare funding into the CR. We know that on January 1, their Medicare payments, or payments to the doctors for treating Medicare payments, will go away. They will be notified at the beginning of December, we understand on December 1. What the doctors are saying is that they received information from us that we would as a Congress attempt to address this last year. We did not. That we would address it this year. We did not. They are afraid that when those letters in December go out asking those doctors to reup, to agree to continue to see Medicare patients, that the answer is going to be "no way."

We need to address this because it is going to affect an awful lot of people. Can the gentleman from Wisconsin tell

me, or others, whether or not this language will indeed be put into this CR before we vote on it?

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. LAMPSON. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, I thank the gentleman for raising the point. Unfortunately, that is one of the many items that will not be corrected when this CR passes. You will have those cutbacks go into effect in January. In addition, we lose other items which we cannot reach in our motion to recommit, such as the need to extend unemployment compensation. That is not going to be taken care of, either. This is just another example of the Congress walking away from its responsibilities.

Mr. LAMPSON. Reclaiming the few seconds that I can take on this, it is a travesty to our citizens of this country who are going to need and want treatment within our health care system. If they cannot get access to the care that they need, they will be spending a huge amount of money on themselves, which we will more than likely be picking up as a country later on. My brother is just one of many physicians who will fall into that category. I think that it is terrible that we are having to consider this right now, and I hope and pray that somehow it could be fixed.

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, I would like to ask the distinguished gentleman from Florida a question. As he knows, this committee has been trying to convince the House leadership for months that with a few billion of additional allocation, we could produce appropriation bills that would produce very large bipartisan majority support in both Houses. As he knows, we have been asking for roughly around \$10 billion. I know the gentleman has. We have been told, "Oh, you cannot do that because the Committee on Appropriations is a big spender." But as I understand the rule that just passed, the bill that will follow ours that was approved by the rule will in fact wipe out the requirement to sequester because on the entitlement side of the budget, we see an explosion on the deficit of well over \$100 billion; and when you take into account all of the exemptions that you have from this sequestration requirement, the Congress is in essence saying, "Well, do not worry, it is on the mandatory side. So we will let that \$30 billion expansion of the deficit that would be avoided by sequestration, we will let that go ahead."

These same folks who are attacking this committee for being big spenders are in fact wiping out a requirement to compensate for spending that is more than three times as large as the amount that this committee is asking for to fix the appropriations bills.

Is that not roughly the situation?

Mr. YOUNG of Florida. Mr. Speaker, I yield myself such time as I may consume.

That is roughly the situation. The gentleman has described a situation that was beyond our control, unfortunately. The budget that was deemed by the House of Representatives included a top-line number that was different from the number used by the Committee on Appropriations in the Senate. And so we did have a difference of numbers. The problem has been all along that we have not had the same numbers as the other body.

But to get to the gentleman's specific point, the PAYGO issue. By the way, the PAYGO is not in this CR. There was an attempt to include it in the CR, but the committee objected to that, because PAYGO deals with mandatory spending. It relates to mandatory spending, of which we have no jurisdiction and no control. But as I have said on this floor many times and as my colleague from Wisconsin has said many times, a dollar is a dollar, it is all the same color whether it is in a mandatory account or whether it is in a discretionary account. The truth of the matter is that our mandatory spending has far exceeded what the Balanced Budget Act would allow for. And the PAYGO scorecard needs to be cleared so that the government does not become in violation of the Balanced Budget Act. Our committee does not deal with mandatory spending, so I did not think we had any obligation or responsibility or jurisdiction to deal with it in this CR.

But again, and the gentleman makes a very good point, spending is spending. And while appropriators are often referred to as the big spenders, we stay within our allocation, the budget numbers. The mandatory spending accounts are the ones that get really out of balance. That is exactly what has happened here. That is why this PAYGO issue will be before the House later today. It is interesting to note that some of those who are most adamant on keeping down discretionary spending, regardless of what it might be for, seem to have no objection to mandatory spending despite the fact that it goes far above the budget, much more so than the appropriations bills. Our committee has been very careful to keep our spending bills within the budget numbers that were set. The same cannot be said for mandatory programs.

So I appreciate the gentleman raising that issue. It is not something that is political. It is not partisan. It is not one party versus the other. It is just a matter of fact. Mandatory spending is spending exactly the same as discretionary spending. The problem is a lot of people do not understand that and they really need to, because mandatory spending is what is causing the biggest part of our budget problems today. That is why we are going to have to deal with a PAYGO bill later on today or tomorrow. I thank the gentleman for raising the issue.

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, what the gentleman's comments come down to is that the same House leadership that has told the Committee on Appropriations that we cannot make these bills healthy enough to pass by adding roughly \$10 billion to them for appropriation bills, the same leadership is asking us to allow the Congress to get out of town with a license to provide spending for more than \$30 billion on the entitlement side. I think that exposes the double standard to which we have been subjected for this entire year.

That is why in my motion to recommit I will have a motion that does the following: it will add \$2.4 billion to veterans medical care to help reduce the backlog that veterans face now when they go into a VA hospital and want to see a specialist. It will add \$2.8 billion to the funding level for the National Institutes of Health so that NIH will be able to proceed to provide its new grants and contracts. Otherwise, they will be in trouble come January. It will provide \$2.6 billion in additional funding to FEMA for State and local first responders grants to help police and firemen get up to speed in dealing with our antiterrorism efforts. And it will add \$300 million to the Securities and Exchange Commission to bring that funding level up to \$776 million, which is the amount that the Congress promised in the authorization that it would provide back when the heat was on when the public was upset about fraud that was going on in many American corporations.

□ 1230

Unfortunately, now this CR will not meet that commitment either. So when the time comes, I will offer that recommit motion and I wanted to, in the interest of saving some time, notify the House of that right now.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I yield myself the balance of my time.

Just a brief closing statement to say, Mr. Speaker, that a continuing resolution is not the best way to fund the government. There is no question about that, and I think most of our colleagues would agree with that. But circumstances today require us to deal with this continuing resolution.

And just a couple of comments on the motion to recommit. These types of decisions should be made in the Committee and on the floor of the House once the Committee has reported the bill. And as the ranking member knows, the Committee on Appropriations in the House has marked up all of its bills but one. So these decisions really have been made in the committee, and once we move the bills many of the concerns that the gentleman from Wisconsin (Mr. OBEY) is concerned about will be taken care of because they are legitimate needs of the government. We do not want to recommit this bill today. We want to pass this bill, get this business behind

us, and get on to the balance of our responsibilities for today and tomorrow, and then we will begin to prepare for the beginning of the next session, and hopefully we will have the appropriations bills for 2003 ready to be completed when the House reconvenes.

So, again, a continuing resolution is not the best way to deal with appropriations issues, but because of today's circumstances this is what is available to us, and, Mr. Speaker, I hope that we would reject the motion to recommit and that we would pass this CR and get on with the rest of our business.

Mr. UDALL of Colorado. Mr. Speaker, passage of this resolution is understandable, but unfortunate. And, louder than any words, it demonstrates the cynicism of the Republican leadership here in the House.

For months, the leadership has refused to allow the House to meet its basic responsibility of considering bills to fund any part of the government besides the Department of Defense. And by passing this continuing resolution, that pattern of dereliction will be continued through the rest of this year.

I do not think this is how we should do our business. I agree with the Rocky Mountain News that we should instead make completion of the appropriations process our top priority.

For the information of our colleagues, I am attaching the News's editorial on this subject.

[From the Rocky Mountain News, Nov. 13, 2002]

#### BUDGET THE TOP PRIORITY FOR CONGRESS

President Bush says the "single most important item" facing the lame-duck Congress is creation of his Department of Homeland Security.

Actually, it's not.

The most important duty of the lame-duck Congress is to pass the Federal budget for fiscal year 2003, which began Oct. 1. Embarrassingly, one two of the 13 money bills needed to complete that budget have been passed. And that alone is why the outgoing Congress had to return to the capital, not homeland security or terrorism insurance or the energy bill.

And the returning lawmakers should pass those bills cleanly and not resort to the desperate solution of other lame-duck Congresses—stuffing all the unfinished budget business into the messy monster called an omnibus reconciliation bill.

Lame-duck Congresses are not the best possible legislative forum. They operate in a tight time frame, knowing they'll be out of business at the end of December. And they include in their ranks retiring and defeated lawmakers who no longer answer to anyone. And this lame-duck session has a novel problem. The Democrats now control the Senate, but only by one vote and only until a new Republican senator arrives in a week or so.

The lame-duck Congress' most important item of business is to pass the budget.

The second most important priority is: Go home.

Ms. TAUSCHER. Mr. Speaker, I rise in opposition to this Continuing Resolution.

People at home send us to Washington to do a job and make tough decisions—not simply kick the can down the street when it's convenient for us to do so.

It is irresponsible to run our government like this—without a budget or any sense of what we can afford to spend money on—especially during times of war.

We have real demands on our shrinking federal budget, and we have tough choice to make.

By passing this Continuing Resolution, we are not only avoiding making those decisions, we are putting our country in jeopardy.

This is the fifth Continuing Resolution we've passed this year that funds all aspects of the federal government at fiscal year 2002 levels, except highway construction—which it cuts by almost \$4 billion. By setting spending at \$27.7 billion instead of the current year level of \$31.8 billion, California will lose over \$261 million, which translates into about 12,400 good paying jobs that will be lost as a result.

This is wrong for California's economy and it's wrong for the highway users who have paid taxes into the highway trust fund.

Investments in highway infrastructure are not only an immediate stimulus to California's economy, but they will help alleviate congestion and reduce air pollution.

Operating under a Continuing Resolution also has a damaging impact on ongoing construction projects at the national laboratories in my district. Without an annual budget, the labs are unable to consent to the large contracts. Contracts like these at Lawrence Livermore National Laboratory are vital to ongoing construction work on the National Ignition Facility and the Terrascale Simulation Facility, both critical elements of the Stockpile Stewardship Program. This not only undermines this important national security program, it also hurts workers because contractors are let go when the labs are no longer able to guarantee payment.

National security work this critical cannot simply be continued piecemeal, and I am concerned that the Continuing Resolution, by driving the costs of construction up, will make it harder to fund these programs that ensure that we have a credible and reliable nuclear deterrent to protect the American people.

And, this Continuing Resolution hurts health care.

Medicare's foundation is crumbling. Medicare payments to physicians and other health professionals will be cut by 12 percent over the next three years, beginning with a 4.4 percent cut on January 1, 2003. More than \$11 billion nationwide is at stake, with each state losing millions in federal health care funds. All of this is in addition to the 5.4 percent cut that was implemented on January 1 of this year.

For Medicare seniors, I strongly urge my colleagues to immediately fix the Medicare physician payment update problem.

Physicians and other health professionals are the very foundation of the medical care system. Without them, patients will not be able to get hospital, nursing home and home health care services, or prescription drugs. It is critical that both the House and Senate stay in session to fix this mistake and avert the impending cuts before patient access is further jeopardized.

In addition to failing our nation's seniors, we are also failing America's children.

The Impact Aid program, which compensates local school districts that enroll "federally connected" children, is also hurt if Congress passes a Continuing Resolution. Most of these children are the sons and daughters of parents who are in the military or live on military bases.

Since Congress has failed to act appropriately, I urge the Office of Management and Budget (OMB) to approve a reasonable apportionment of Impact Aid funds for fiscal year 2003 based on historical obligations. This ac-

tion by OMB will ensure that our schools can continue to meet the needs of our children.

And these problems are just the tip of the iceberg. By keeping funding at 2002 levels, Congress is not providing any money for the Securities and Exchange Commission to beef up its enforcement of corporate crime, and the National Institutes of Health has to cut back on important work.

Congress should not leave town until all the appropriations bills are completed. It is our responsibility to make decisions on how to fund the activities in the federal budget, with a new urgent priority of fighting terrorism abroad and protecting our homeland.

American taxpayers are the victim of Congress' inability to get its work done.

I urge my colleagues to vote against this Continuing Resolution and get back to doing the work we were sent to Washington to do.

Mr. YOUNG of Florida. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. LATOURETTE). All time for debate has expired.

The joint resolution is considered read for amendment, and pursuant to House Resolution 602, the previous question is ordered.

The question is on engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the resolution?

Mr. OBEY. I certainly am, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. OBEY moves to recommit the bill, House Joint Resolution 124, to the Committee on Appropriations with instructions to report the bill back to the House forthwith with the following amendments:

Page 1, line 5, after "2003", insert the following:

"Provided, That in addition to the amounts made available by section 101, \$2,416,000,000 is available for the Department of Veterans Affairs, Veterans Health Administration, Medical Care, for health care for enrolled veterans: *Provided further*, That in addition to the amounts made available by section 101, \$2,800,000,000 is available for the Department of Health and Human Services, National Institutes of Health: *Provided further*, That in addition to the amounts made available by section 101, \$2,600,000,000 is available for the Federal Emergency Management Agency, Emergency Management and Planning Assistance, for State and local first responders: *Provided further*, That notwithstanding any other provision of this joint resolution, \$776,000,000 is available for the Securities and Exchange Commission, Salaries and expenses, and amounts otherwise made available by this resolution for salaries and expenses activities at the Department of Commerce shall be reduced by \$100,000,000 and amounts otherwise made available by this resolution for salaries and expenses activities at the Department of Justice (excluding the Federal Bureau of Investigation and the Immigration and Naturalization Service) shall be reduced by \$200,000,000: *Provided further*, Notwithstanding any other provision of

this joint resolution, in addition to amounts made available in section 101, and subject to sections 107(c) and 108, such funds shall be available to the Securities and Exchange Commission to advance to the Public Company Accounting Oversight Board for necessary start-up costs of the Board: *Provided further*, That upon the collection of fees authorized in section 109(d) of Public Law 107-204, the Securities and exchange Commission shall be reimbursed for any Securities and Exchange Commission shall be reimbursed for any Securities and exchange Commission appropriations advanced to the Public Company Accounting Oversight Board for start-up expenses, as authorized by section 109(j) of Public Law 107-204, resulting in no net impact on appropriations available to the Securities and Exchange Commission in fiscal year 2003."

Mr. OBEY (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Wisconsin (Mr. OBEY) is recognized for 5 minutes in support of his motion.

Mr. OBEY. Mr. Speaker, this motion will, as I said, provide increases to the following accounts: For veterans medical care it will provide a \$2.4 billion increase; for the National Institutes of Health for bioterrorism and general research it will increase funding by \$2.8 billion; for FEMA for State and local first responders it will increase funding by \$2.6 billion; for the Securities and Exchange Commission for corporate oversight it will increase funding by \$300 million to finally put some teeth back in that agency; and it ensures that the Public Company Accounting Oversight Board has sufficient funding to provide effective oversight of the SEC and corporate accounting standards.

There are other items that I would like to have in the recommit motion, Mr. Speaker, but because of the parliamentary situation, for instance, we are precluded from including items that would include an extension of the unemployment compensation program to long-term unemployed workers. We are precluded from adding funding that was just raised by the gentleman from Texas (Mr. LAMPSON) on the Medicare givebacks for providers, and we have not been able to include funding at this point for additional support for education. That does not mean those items should not also be addressed. They should. But right now we have just been told that the bill that will come up later today will in fact give Congressional blessing to the idea that the deficit will be increased by at least \$30 billion on the mandatory side and yet somehow we are committing a mortal sin if we try to provide more funding for veterans medical care, for medical research, to our local police and firemen to strengthen our response against terrorism, and to the SEC in order to ensure that corporate balance sheets

are actually on the square and legitimate.

I find that kind of logic quaint. I think that each of these items is perfectly defensible. And with that, Mr. Speaker, I would urge a yes vote on the motion to recommit.

Mr. Speaker, I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Florida is recognized for 5 minutes.

Mr. YOUNG of Florida. Mr. Speaker, I would simply say that the gentleman's motion to recommit addresses a number of important issues, but they are important to the point that they should not be discussed or determined with a 5-minute debate on one side and a 5-minute debate on the other side. These issues are so important they should have considerable debate, and consideration by the committee, and consideration by the House, and because of that, Mr. Speaker, I object to the motion to recommit and ask the Members to oppose it and then vote for the continuing resolution.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. OBEY. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—yeas 196, nays 216, not voting 19, as follows:

#### TITLE I—MARITIME TRANSPORTATION SECURITY

##### SEC. 101. FINDINGS.

The Congress makes the following findings:

(1) There are 361 public ports in the United States that are an integral part of our Nation's commerce.

(2) United States ports handle over 95 percent of United States overseas trade. The total volume of goods imported and exported through ports is expected to more than double over the next 20 years.

(3) The variety of trade and commerce carried out at ports includes bulk cargo, containerized cargo, passenger transport and tourism, and intermodal transportation systems that are complex to secure.

(4) The United States is increasingly dependent on imported energy for a substantial share of its energy supply, and a disruption of that share of supply would seriously harm consumers and our economy.

(5) The top 50 ports in the United States account for about 90 percent of all the cargo tonnage. Twenty-five United States ports account for 98 percent of all container shipments. Cruise ships visiting foreign destinations embark from at least 16 ports. Ferries in the United States transport 113,000,000 passengers and 32,000,000 vehicles per year.

(6) Ports often are a major locus of Federal crime, including drug trafficking, cargo theft, and smuggling of contraband and aliens.

(7) Ports are often very open and exposed and are susceptible to large scale acts of terrorism that could cause a large loss of life or economic disruption.

(8) Current inspection levels of containerized cargo are insufficient to counter potential security risks. Technology is currently not adequately deployed to allow for the nonintrusive inspection of containerized cargo.

(9) The cruise ship industry poses a special risk from a security perspective.

(10) Securing entry points and other areas of port facilities and examining or inspecting containers would increase security at United States ports.

(11) Biometric identification procedures for individuals having access to secure areas in port facilities are important tools to deter and prevent port cargo crimes, smuggling, and terrorist actions.

(12) United States ports are international boundaries that—

(A) are particularly vulnerable to breaches in security;

(B) may present weaknesses in the ability of the United States to realize its national security objectives; and

(C) may serve as a vector or target for terrorist attacks aimed at the United States.

(13) It is in the best interests of the United States—

(A) to have a free flow of interstate and foreign commerce and to ensure the efficient movement of cargo;

(B) to increase United States port security by establishing improving communication among law enforcement officials responsible for port security;

(C) to formulate requirements for physical port security, recognizing the different character and nature of United States port facilities, and to require the establishment of security programs at port facilities;

(D) to provide financial assistance to help the States and the private sector to increase physical security of United States ports;

(E) to invest in long-term technology to facilitate the private sector development of technology that will assist in the nonintrusive timely detection of crime or potential crime at United States ports;

(F) to increase intelligence collection on cargo and intermodal movements to address areas of potential threat to safety and security; and

(G) to promote private sector procedures that provide for in-transit visibility and support law enforcement efforts directed at managing the security risks of cargo shipments.

(14) On April 27, 1999, the President established the Interagency Commission on Crime

and Security in United States Ports to undertake a comprehensive study of the nature and extent of the problem of crime in our ports, as well as the ways in which governments at all levels are responding. The Commission concluded that frequent crimes in ports include drug smuggling, illegal car exports, fraud, and cargo theft. Internal conspiracies are an issue at many ports and contribute to Federal crime. Criminal organizations are exploiting weak security at ports to commit a wide range of cargo crimes. Intelligence and information sharing among law enforcement agencies needs to be improved and coordinated at many ports. A lack of minimum physical and personnel security standards at ports and related facilities leaves many ports and port users very vulnerable. Access to ports and operations within ports is often uncontrolled. Security-related and detection-related equipment, such as small boats, cameras, large-scale x-ray machines, and vessel tracking devices, are lacking at many ports.

(15) The International Maritime Organization and other similar international organizations are currently developing a new maritime security system that contains the essential elements for enhancing global maritime security. Therefore, it is in the best interests of the United States to implement new international instruments that establish such a system.

**SEC. 345. GREAT LAKES LIGHTHOUSES.**

(a) FINDINGS.—The Congress finds the following:

(1) The Great Lakes are home to more than 400 lighthouses. 120 of these maritime landmarks are in the State of Michigan.

(2) Lighthouses are an important part of Great Lakes culture and stand as a testament to the importance of shipping in the region’s political, economic, and social history.

(3) Advances in navigation technology have made many Great Lakes lighthouses obsolete. In Michigan alone, approximately 70 lighthouses will be designated as excess property of the Federal Government and will be transferred to the General Services Administration for disposal.

(4) Unfortunately, the Federal property disposal process is confusing, complicated, and not well-suited to disposal of historic lighthouses or to facilitate transfers to nonprofit organizations. This is especially troubling because, in many cases, local nonprofit historical organizations have dedicated tremendous resources to preserving and maintaining Great Lakes lighthouses.

(5) If Great Lakes lighthouses disappear, the public will be unaware of an important chapter in Great Lakes history.

(6) The National Trust for Historic Preservation has placed Michigan lighthouses on their list of Most Endangered Historic Places.

(b) ASSISTANCE FOR GREAT LAKES LIGHTHOUSE PRESERVATION EFFORTS.—The Secretary of the department in which the Coast Guard is operating, may—

(1) continue to offer advice and technical assistance to organizations in the Great Lakes region that are dedicated to lighthouse stewardship; and

(2) promptly release information regarding the timing of designations of Coast Guard lighthouses on the Great Lakes as excess to the needs of the Coast Guard, to enable those organizations to mobilize and be prepared to take appropriate action with respect to the disposal of those properties.

**SEC. 346. MODERNIZATION OF NATIONAL DISTRESS AND RESPONSE SYSTEM.**

(a) REPORT.—The Secretary of the department in which the Coast Guard is operating shall prepare a status report on the modernization of the

National Distress and Response System and transmit the report, not later than 60 days after the date of enactment of this Act and annually thereafter until completion of the project, to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

(b) CONTENTS.—The report required by subsection (a) shall—

(1) set forth the scope of the modernization, the schedule for completion of the System, and information on progress in meeting the schedule and on any anticipated delays;

(2) specify the funding expended to-date on the System, the funding required to complete the System, and the purposes for which the funds were or will be expended;

(3) describe and map the existing public and private communications coverage throughout the waters of the coastal and internal regions of the continental United States, Alaska, Hawaii, Guam, and the Caribbean, and identify locations that possess direction-finding, asset-tracking communications, and digital selective calling service;

(4) identify areas of high risk to boaters and Coast Guard personnel due to communications gaps;

(5) specify steps taken by the Secretary to fill existing gaps in coverage, including obtaining direction-finding equipment, digital recording systems, asset-tracking communications, use of commercial VHF services, and digital selective calling services that meet or exceed Global Maritime Distress and Safety System requirements adopted under the International Convention for the Safety of Life at Sea;

(6) identify the number of VHF-FM radios equipped with digital selective calling sold to United States boaters;

(7) list all reported marine accidents, casualties, and fatalities occurring in areas with existing communications gaps or failures, including incidents associated with gaps in VHF-FM coverage or digital selective calling capabilities and failures associated with inadequate communications equipment aboard the involved vessels during calendar years 1997 and thereafter;

(8) identify existing systems available to close all identified marine safety gaps before January 1, 2003, including expeditious receipt and response by appropriate Coast Guard operations centers to VHF-FM digital selective calling distress signal; and

(9) identify actions taken to-date to implement the recommendations of the National Transportation Safety Board in its Report No. MAR-99-01.

(F) The right for Coast Guard personnel to park up to 60 vehicles, at no expense to the Government, in the Corporation's parking spaces on the Naval Reserve Pier property or in parking spaces that the Corporation may secure within 1,000 feet of the Naval Reserve Pier property or within 1,000 feet of the Coast Guard Marine Safety Office Portland. (1) **UTILITIES.**—The Naval Reserve Pier property shall not be conveyed until the Corporation enters into an agreement with the United States to allow the United States to operate and maintain existing utility lines and related equipment, at the United States sole cost and expense. At such time as the Corporation constructs its proposed public aquarium, the Corporation shall replace existing utility lines and related equipment and provide additional utility lines and equipment capable of supporting a third 110-foot Coast Guard cutter, with comparable, new, code compliant utility lines and equipment at the Corporation's sole cost and expense, maintain such utility lines and related equipment from an agreed upon demarcation point, and make such utility lines and equipment available for use by the United States, if the United States pays for its use of utilities at its sole cost and expense. The agreement concerning the operation and maintenance of utility lines and equipment shall be executed within 12 months after the date of enactment of this Act.

Section 102 of the Conference substitute creates a new subtitle VI of title 46, United States Code, to establish a comprehensive national system of transportation security enhancements. Chapter 701 of this subtitle contains provisions related to port security.

#### *Definitions*

New section 70101 provides definitions for six terms to be used in new chapter 701. The term "Secretary" is defined as the Secretary of the department of which the Coast Guard is operating. The term "transportation security incident" is defined as a security incident resulting in a significant loss of life, environmental damage, transportation system disruption, or economic disruption.

#### *United States facility and vessel vulnerability assessments*

Section 70102 requires the Secretary to conduct initial assessments of vessel types and facilities, located on or adjacent to the waters subject to the jurisdiction of the U.S., and to identify which of these vessels or facilities pose a high risk of being involved in a transportation security incident. Based on the information gathered in the initial assessments, the Secretary is required to conduct a detailed vulnerability assessment for facilities and vessels that may be involved in a transportation security incident. The Secretary may also accept an alternative assessment prepared by or on behalf of a vessel or facility owner or operator if that assessment satisfies certain criteria.

#### *Maritime transportation security plans*

Section 70103 of new chapter 701 requires the Secretary to establish the National Maritime Transportation Security Plan for deterring and responding to a transportation security incident. The National Maritime Transportation Security Plan must include a risk-based system for evaluating the potential threat to security zones designated

by the Secretary on the waters subject to the jurisdiction of the U.S. Each Federal Maritime Security Coordinator, after soliciting advice from the Area Security Advisory Committee, is required to submit to the Secretary an Area Maritime Transportation Security Plan for each individual area established under the National Maritime Transportation Security Plan. Finally, section 70103 requires owners and operators of vessels and facilities, which the Secretary believes may be involved in a transportation security incident, to develop vessel and facility security plans. Section 70103(c)(3)(D) regarding antiterrorism measures is not intended to require vessel operators to contract in advance or otherwise arrange for antiterrorism response resources. The Conferees consider antiterrorism response the responsibility of local, state and Federal law enforcement agencies.

The Conferees urge the Secretary to review and approve the vessel and facility security plans in a timely manner. Vessel and facility owners should not be required to cease their operations due to the failure of the Secretary to approve their vessel or facility transportation security plans in a reasonable time period.

Nothing in new section 70103(d) should prevent the Secretary from making the facility security plans, vessels security plans, and port vulnerability assessments available to the owners or operators of the vessel or facilities that are the subject of the plans or assessments.

#### *Transportation security incident response*

Section 70104 requires the Secretary to establish a system of security incident response plans developed for vessels and facilities that may be involved in a transportation security incident. Tank vessels are currently required under the Oil Pollution Act of 1990 to have oil spills response plans. The Secretary may allow these plans to be used to address oil spilled from vessels involved in a transportation security incident. Similarly, some states, such as Alaska, Washington, Oregon, and California, require non-tank vessels to have oil spill response plans. The Secretary may also allow these state approved plans to be used to address oil spilled from these non-tank vessels involved in a transportation security incident.

#### *Transportation security cards*

Section 70105 establishes a national standard for issuance of transportation security cards whose purpose is to control access to ensure terminal areas to only authorized personnel.

The Conferees expect the Secretary to take appropriate action to ensure that transportation security cards are processed in an expeditious manner in order to prevent undue disruptions at our nation's ports. In particular, the Conferees are aware of the concerns raised by the operators of towing vessels, particularly those operating on the inland waterways of the United States, about the potential for delay in the issuance of transportation security cards. Any undue delay by the Secretary in processing applications and issuing the required cards upon approval could severely impact the ability of vessel owners to crew vessels and could severely disrupt operating schedules.

In an effort to prevent disruptions to port and maritime operations, the Conference agreement includes statutory language to provide flexibility to the Secretary in administering the transportation security card program to take into account the unique circumstances and risks presented by particular segments of the transportation industry. The Conferees encourage the Secretary to work with all affected parties, including the inland and coastal tug, towboat, and

barge industry, to ensure timely processing of applications and to address those cases where the Secretary is unable to issue a transportation security card within seventy-two hours of receipt of the application.

#### *Maritime safety and security teams*

Section 70106 establishes Coast Guard maritime safety and security teams to protect vessels, ports, facilities, and cargo on United States' waters. The Conferees believe that Coast Guard vessels used by the maritime safety and security teams should be sized and comprised of hull materials tailored to enhance the performance for the varying roles of maritime security. The hull material and shape should fit the specific mission requirements. No hull composition should be excluded without an independent analysis. Maritime safety and security team vessels must be able to intercept suspect boats before they threaten America's ports and waterways.

#### *Grants*

Section 70107 provides financial assistance for enhanced security to implement facility or area maritime security plans approved by the Coast Guard or an interim security measure required by the Coast Guard.

The Conferees believe that water-based security barriers or caissons should be eligible for Federal financial assistance for vessel and facility security upgrades authorized under section 70107.

This section authorizes matching grants for various types of security upgrades at U.S. ports and U.S. maritime areas including reimbursements for security enhancements that have corrected security vulnerabilities since September 11, 2001, that are consistent with their Area Maritime Transportation Security Plans and facility security plans.

The economies and quality of life in Alaska and Hawaii are directly related to the functionality and operability of their ports. These states are reliant on maritime transportation and are lacking readily available or economically comparable alternative modes for transporting general commodities. The Conferees encourage the Secretary to give consideration to these features.

This section also provides \$15 million for each of fiscal years 2003 through 2008 for research and development grants for port security.

The Center for Commercial Deployment of Transportation Technologies program is sponsored by the U.S. Maritime Administration and the U.S. Department of Defense under a cooperative agreement with the California State University Long Beach. The program involves the development of dual use transportation and transformational technologies and can help secure the international intermodal transportation system. The Conferees encourage the Secretary of Transportation and the Secretary of Defense to obligate any current and prior year appropriations under the continuing cooperative agreement with minimal administrative surcharge.

This section also provides reporting requirements that would mandate proposed levels of funding to ensure compliance with security plans. The reports would be required annually to assess overall levels of security.

#### *Foreign port assessment*

New section 70108 of title 46 requires the Secretary to assess the effectiveness of the antiterrorism measures maintained at a foreign port from which vessels depart on a voyage to the United States or which poses a high risk of introducing terrorism to international maritime commerce.

#### *Notifying foreign authorities*

Section 70109 requires the Secretary, after conducting a foreign port assessment, to

contact the foreign government if he finds that a port in that foreign country does not maintain effective antiterrorism measures. Section 70109(b) requires the Secretary to make available a port security training program for ports in foreign countries that are found under section 70108 to lack adequate security measures. Inter-American Port Security Training Program (IAPSTP) is administered by the U.S. Maritime Administration under the authority of the U.S. Department of State. Currently, the program works with the Organization of American States to transfer technical information and security expertise related to port security and to develop cooperative regional efforts among the public and private sector that protect the flow of international maritime trade. The program also works with member nations to develop recommendations pertaining to strategic regional approaches to seaport crime, international port and cargo security standards, and other multilateral cooperative endeavors. The Conferees believe that expanding IAPSTP to include nations that lack adequate port security measures will help increase worldwide understanding of maritime and port security. Expansion of the program to other nations can lead to increased multilateral approaches to improving port and cargo security.

*Actions when foreign ports not maintaining effective antiterrorism measures*

If the Secretary finds that a foreign port does not maintain effective antiterrorism measures, section 70110 allows him to prescribe conditions of entry into the United States for any vessel arriving from that port. The Secretary may also deny entry into the United States to any vessel that does not meet these conditions.

*Enhanced crew member identification*

Section 70111 requires crew members on vessels calling at U.S. ports to carry and present on demand any identification that the Secretary decides is necessary.

*Maritime security advisory committees*

Section 70112 requires the Secretary to establish a National Maritime Security Advisory Committee and Area Maritime Security Advisory Committees for any port area of the United States. The Committees may advise, consult, and make recommendations to the Secretary on ways to enhance security and safety at U.S. seaports.

*Maritime intelligence*

Section 70113 requires the Secretary to implement a system to collect, integrate, and analyze information concerning vessels operating in waters subject to the jurisdiction of the U.S. The Secretary may collect information from public and private entities to the extent that the information is not provided by other Federal departments and agencies.

The Conferees want to emphasize the importance of establishing a risk-based system for evaluating the potential threat of vessels entering the U.S. A majority of the domestic and international vessels entering U.S. ports are not subject to any screening procedures. This lack of physical screening increases the risk of terrorist activities in U.S. ports and the need to develop a system which can identify and assess the vessels that pose the greatest threat to U.S. national security. The Conferees are aware that a terrorism risk profiling system has been developed that assigns incoming vessels a risk rating. This rating is based on an integrated data analysis that links vessel characteristics and ownership details to political and strategic information related to international terrorism. A vessel screening system which provides shipping intelligence and analysis can be utilized to identify those vessels requiring close inspection by the Coast Guard and

other agencies. We urge the Coast Guard and port authorities to include vessel risk profiling in their enhanced security procedures.

The Conferees are concerned about the lack of coordination between Federal agencies that collect and analyze intelligence data and urge the various Federal agencies involved in port security to work together to assure that American ports are protected from a terrorist threat.

The Conferees also note that section 108 of this Act requires the sharing of cargo information and urge that cargo information be integrated into any screening system implemented.

*Automatic identification systems*

Section 70114 requires that certain vessels be equipped with and operate an automatic identification system (AIS) under regulations prescribed by the Secretary. The AIS includes a position indicating transponder and an electronic charting or situation display for accessing the information made available by the transponder system. This will allow a vessel operator to more easily identify the position and hearing of their vessel and other vessels navigating in the area. It will also allow shore-based Coast Guard facilities to more easily monitor the location and heading of vessels in their area.

*Long-range vessel tracking system*

Section 70115 authorizes the Secretary to develop and implement a long-range automated secure vessel tracking system for all vessels on voyages in U.S. waters that are equipped with the Global Maritime Distress and Safety System or equivalent satellite technology. The Secretary may use existing maritime organizations to collect and monitor tracking information under the system.

*Secure systems of transportation*

Section 70116 requires the Secretary, in consultation with the Transportation Security Oversight Board, to establish a program to evaluate and certify secure systems of international intermodal transportation.

In establishing secure systems of transportation standards, the Conferees encourage the Secretary to consider the possible role of third party experts who meet regulatory requirements to be established by the Secretary of Transportation to perform pre-loading security audits at the load site of the exporter.

*Civil penalty*

Section 70117 establishes a civil penalty of not more than \$25,000 for each violation of this new chapter.

SECTION 103. INTERNATIONAL SEAFARER IDENTIFICATION

The Senate bill does not contain a comparable provision.

The House amendment does not contain a comparable provision.

Section 103 of the Conference substitute encourages the Secretary of the Department in which the Coast Guard is operating to undertake negotiations on an international agreement that provides for an international system for identifying seafarers. If the Secretary is unable to negotiate this agreement within 24 months, he is required to submit to Congress a draft of legislation which would establish a system for identifying seafarers.

SECTION 104. EXTENSION OF SEAWARD JURISDICTION

Section 119 of the Senate bill extends the territorial jurisdiction of the United States from 3 miles off the shore, to 12 miles. This extension of jurisdiction is consistent with Presidential Proclamation 5928 of December 27, 1988, and is also consistent with the Law of the Sea. The section also creates civil penalties for violating this Act not to exceed \$25,000 for each violation.

Section 103 of the House amendment is very similar to the Senate provision.

The Conference substitute adopts the House amendment.

To better protect our ports and waterways and effectively counter the threat posed by maritime terrorism, the United States must be able to exercise broad powers in the maritime environment. International law, both conventional and customary, provides coastal States with broad security powers in the maritime environment. Both the Convention on the Territorial Sea and Contiguous Zone, 1958 (TSC), to which the United States is a party, and the 1982 United Nations Convention on the Law of the Sea (LOS), clearly recognize coastal States' sovereignty in their territorial sea. Article 14(4) of the TSC states that innocent passage "shall take place in conformity with these articles and with other rules of international law." The "other rules of international law" include customary international law. The United States, although not a party to the 1982 United Nations Convention on the Law of the Sea (LOS), has consistently maintained that specific provisions, including Article 21, represent customary international law. Therefore, the Conferees note that Section 33 USC 1223(d) of the Ports and Waterways Safety Act (33 U.S.C. 1221, et seq.) (PWSA), which limits application of the PWSA with respect to foreign vessels in innocent passage to actions authorized by "international treaty, convention or agreement, to which the United States is a party", also allows for such actions to be taken under PWSA which are consistent with customary international law.

SECTION 105. SUSPENSION OF LIMITATION ON STRENGTH OF COAST GUARD

Section 120 of the Senate bill suspends the effectiveness of any end-strength and grade distribution for the Coast Guard for any fiscal year that there is in effect a declaration of war or national emergency, for a period not to exceed six months after the end of the war or national emergency.

Section 104 of the House amendment is identical to the Senate bill.

The Conference substitute adopts the Senate provision.

SECTION 106. EXTENSION OF THE DEEPWATER PORT ACT TO NATURAL GAS

Section 201 of the Senate bill allows natural gas to be included in the Deepwater Port Act which establishes a system for permitting and licensing deepwater terminals. Currently, only oil facilities are included in this Federal law.

Section 105 of the House amendment includes the identical provision of the Senate bill with several additional subsections. These technical provisions ensure the proper application and administration of the Deepwater Port Act to offshore natural gas facilities and enable the timely development of offshore natural gas facilities.

The Conference substitute adopts the House provisions along with an amendment which includes an expanded definition of a deepwater port for natural gas and clarifies the scope of application of the Deepwater Port Act.

The Deepwater Port Act, as enacted in 1974, established a system for permitting and licensing deepwater terminals for the handling and transfer of oil in water beyond the territorial limits of the U.S. The Deepwater Port Modernization Act, enacted in 1996, streamlined the regulation of these facilities, repealed the previous limitation on uses of a deepwater port, and authorized uses not inconsistent with the purposes of the Act. Under the current law and applicable regulations, an existing deepwater port may be authorized to transport commodities other

than oil, including natural gas, upon the approval of any necessary amendments to its operations manual. Section 106 of the Conference substitute allows a deepwater port to be licensed for purposes of natural gas importation, storage and handling, regardless of whether the port is also used for the transportation of crude oil.

The Conferees do not intend these amendments to the Deepwater Port Act of 1974 to apply to the production or gathering of oil or natural gas from the Continental Shelf or facilities used exclusively in the production or gathering of oil or natural gas from the Continental Shelf.

#### SECTION 107. ASSIGNMENT OF COAST GUARD PERSONNEL AS SEA MARSHALS AND ENHANCED USE OF OTHER SECURITY PERSONNEL

Section 202 of the Senate bill amends the Ports and Waterways Safety Act to allow the dispatch of properly trained and qualified armed Coast Guard personnel on facilities and vessels to deter or respond to acts of terrorism. This provision also requires the owner and operator of a commercial structure or a vessel to provide the appropriate level of security, as necessary, including armed security. The bill further requires that the Secretary of Transportation issue a report on the use of non-Coast Guard personnel as sea marshals.

Section 106 of the House amendment is similar to the Senate provision except that the House provision does not include the requirement for private facility and vessel security.

The Conference substitute amends the Ports and Waterways Safety Act to allow for the dispatch of properly trained and qualified armed Coast Guard personnel on facilities and vessels to deter or respond to acts of terrorism or transportation security incidents. The substitute also requires that the Secretary of the department in which the Coast Guard is operating to report to Congress on the use of non-Coast Guard personnel as sea marshals.

#### SECTION 108. TECHNICAL AMENDMENTS CONCERNING THE TRANSMITTAL OF CERTAIN INFORMATION TO THE CUSTOMS SERVICE

Section 115 of the Senate bill amends the Tariff Act of 1930 to require a carrier, including a non-vessel owning common carrier, to provide by electronic transmission cargo manifest information in advance of port entry or clearance. The section outlines the cargo and route information that must be transmitted. The section also prohibits the export of cargo unless properly documented and prevents a marine terminal operator from loading any cargo that is not documented.

Section 108 of the House amendment amends the Tariff Act of 1930 to require that each land, air, or vessel carrier, which enters the U.S., provide by electronic transmission cargo information in advance of entry in such manner, time, and form as prescribed under regulations by the Secretary of the Treasury. The Secretary of the Treasury is also required to provide this advance cargo information to any appropriate Federal agency.

The Conference substitute contains amendments to section 431A of the Tariff Act of 1930, as added by section 343(b) of the Trade Act of 2002, Public Law 107-210, including a requirement that the Secretary of the Treasury provide the appropriate Federal departments and agencies with cargo information obtained pursuant to this section. The Conference substitute also amends section 343(a) of Public Law 107-210.

#### SECTION 109. MARITIME SECURITY PROFESSIONAL TRAINING

Section 110 of the Senate bill requires the Secretary of Transportation to develop

standards and a curriculum to allow for the training and certification of maritime security professionals. The section further authorizes the Secretary to make training opportunities available to any law enforcement or maritime security personnel in the United States.

Section 101 of the House bill authorizes \$4 million for each of fiscal years 2003, 2004, and 2005 to be used for maritime security training grants. These grants must be used by these educational institutions for the development and implementation of a comprehensive port and maritime security education program.

The Conference substitute adopts the Senate provision with an amendment to authorize \$5.5 million for each of fiscal years 2003 through 2008 for maritime training.

The Conferees believe that proper training is an essential element of any effective strategy to combat terrorism and enhance the security of our Nation's ports and waterways. Effective training requires both undergraduate and professional level training curriculums. An essential element of undergraduate studies is to ensure that licensed maritime professionals have a full understanding of security procedures, principles, and methods along with a thorough grasp of intermodal transportation and logistics requirements. These trained individuals will be the first line of defense against a waterborne security threat. This training should also produce maritime professionals who will be able to implement methods of tracking an identification of containerized cargo that could potentially threaten the security of our country.

Effective professional level training curriculum involves two elements. The first is advanced and refresher training of licensed maritime and other transportation professionals in port and transportation security. The second element is to provide security and law enforcement professionals, charged with port security responsibilities, with the necessary background in methods and operation of a safe and efficient intermodal transportation system.

#### SECTION 110. ADDITIONAL REPORTS

Section 121 of the Senate bill requires the Secretary of Transportation to report to Congress on the need for additional security measures to protect the flow of commerce, on the status of port security, and on the steps taken to improve port security. This section would also require the Secretary of Transportation to report on the development of maritime security training programs established under the Senate passed bill. Finally, the section would require the Commissioner of the U.S. Customs Service to report to Congress on the expenditure of funds to improve cargo screening.

The House amendment contains no comparable provision.

The Conference substitute adopts the Senate provision with an amendment.

#### SECTION 111. PERFORMANCE STANDARDS

Section 207 of Senate bill requires the Secretary of Transportation and the Secretary of the Treasury to establish a joint task force to work with ocean shippers in the development of a system to track data for shipments, containers, and contents.

By not later than June 30, 2003, section 101 of the House amendment requires the Under Secretary of Transportation for Security, in consultation with the Transportation Security Oversight Board, to develop and maintain an antiterrorism cargo identification, tracking, and screening system for containerized cargo shipped to and from the United States. This section also requires the Under Secretary to develop performance standards to enhance the physical security of shipping

containers, including standards for seals and locks as well as systems to detect any tampering or breaking of the seal or container integrity.

The Conference substitute adopts the House provision with an amendment which substitutes the Under Secretary of Transportation with the Secretary of the Department in which the U.S. Coast Guard is operating and extends the compliance date to January 1, 2004.

In seeking to provide the greatest protection for ports and the communities that surround them against terrorist attacks, the Conferees believe it is essential that the Federal government and local port authorities be encouraged to use state of the art technology as part of a comprehensive approach to security. The Conferees also want to encourage the private sector to continually advance state of the art technology as a means of enhancing detection capabilities and thus enhancing deterrence over time.

The Conferees are interested in those projects that incorporate technologies capable of automatically detecting weapons of mass destruction, shielded nuclear material, explosives, and chemical weapons in fully loaded cargo containers without the need for humans to open and manually inspect the containers. The Conferees understand that pulsed fast neutron technology is capable of meeting this threshold. The Conferees also hope that other technologies will be identified and developed as part of the ongoing process of advancing technology and ultimately enhancing port security.

The Conferees also want to emphasize the importance of using readily available and less costly off the shelf technologies to protect transportation systems. These previously developed and thoroughly tested technologies often prove to be just as effective as unproven and expensive new technologies without the years of waiting. Private companies already provide the various levels of government with automatic vehicle identification sensors, electronic seal sensors, a chain of custody tracking system, entrance and exit security control systems, and trusted traveler identification and screening.

In order to better respond to the security threat posed by the high volume of international shipping containers entering the U.S., the Conferees believe that the Secretary must, at a minimum, obtain certain types of information on all cargos and containers entering the country. While securing information about the nature and ownership of the specific cargo is vital, the Secretary is encouraged to collect specific information on the individual containers aboard the vessel. This information should include the owner and any lease, lien, or security interest holder of the container whenever this information is sufficient to affect the control of the container.

#### SECTION 112. REPORT ON FOREIGN-FLAG VESSELS

Section 108(d) of the Senate bill requires the Secretary of Transportation to report to Congress a list of all nations whose flag vessels have entered the United States ports in the previous year. The report must also contain a breakdown of countries whose vessel registration or classification procedures have been found by the Secretary to be non-compliant with international classifications and whose laws or regulations are not sufficient to allow tracking of ownership registration histories of registered flag vessels.

The House amendment contains no comparable provision.

The Conference substitute adopts the Senate provision with a technical amendment replacing the "Secretary of Transportation"

with the Secretary of the department in which the Coast Guard is operating.

#### SECTION 113. REVISION OF PORT SECURITY PLANNING GUIDE

Section 113 of the Senate bill directs the Secretary of Transportation to publish a revised version of the document "Port Security: A National Planning Guide," within three years after the enactment of the Senate passed bill and to make the document available on the Internet.

The House amendment contains no comparable provision.

The Conference substitute adopts the Senate provision.

#### TITLE II—MARITIME POLICY IMPROVEMENT

##### SECTION 201. SHORT TITLE

The Senate bill contains no comparable provision.

Section 201 of the House amendment states that this title may be cited as the "Maritime Policy Improvement Act of 2002."

The Conference substitute adopts the House provision.

##### SECTION 202. VESSEL COASTAL VENTURE

The Senate bill contains no comparable provision.

Section 202 of the House amendment amends section 1120(g) of the Coast Guard Authorization Act of 1996 (Public Law 104-324) to deem the vessel COASTAL VENTURE to have been constructed in the United States.

The Conference substitute adopts the House provision.

##### SECTION 203. EXPANSION OF AMERICAN MERCHANT MARINE MEMORIAL WALL OF HONOR

The Senate bill contains no comparable provision.

Section 203 of the House amendment authorizes the Secretary of Transportation to make a grant to the American Merchant Marine Veterans Memorial Committee to construct an addition to the American Merchant Marine Memorial Wall of Honor in San Pedro, California.

The Conference substitute adopts the House provision.

##### SECTION 204. DISCHARGE OF AGRICULTURAL CARGO RESIDUE

The Senate bill contains no comparable provision.

Section 204 of the House amendment requires the discharge from a vessel of any agricultural cargo residue material in the form of hold washings to be governed exclusively under the provisions of MARPOL Annex V (MARPOL V).

The Conference substitute adopts the House provision.

The substitute requires the discharge from a vessel of any agricultural cargo residue material in the form of hold washings to be governed exclusively under the provisions of MARPOL Annex V (MARPOL V) as implemented by the Act to Prevent Pollution from Ships (APPS) (section 1901 et seq., title 33, United States Code). Agricultural cargo residue material refers to residue from agricultural cargo carried in bulk, such as corn, wheat, rice, soybeans, and grains, routinely carried on ships.

In 2000, the Coast Guard announced a plan to change its enforcement policy to apply other laws to U.S. flag vessels to regulate the discharge of agricultural cargo residue material that has traditionally been governed by MARPOL V. This proposed change would place an unwarranted burden on U.S. flag bulk grain vessels which are required by agriculture inspection rules to wash their cargo holds. This is routinely done on the high seas, and based on industry practices, it is not anticipated that the discharge of agricultural cargo residue material will take

place in marine sanctuaries designated by the Secretary of Commerce pursuant to section 1431 et seq., title 16, United States Code. The discharge of agricultural cargo residue is consistent with MARPOL V, and is not expected to have an adverse impact on the marine environment. Section 204 is not intended in any way to undermine other provisions of MARPOL V, as implemented by APPS, which provides that when agricultural cargo residue is mixed with other MARPOL regulated discharges having other requirements, then the more stringent discharge requirements apply.

##### SECTION 205. RECORDING AND DISCHARGING MARITIME LIENS

The Senate bill contains no comparable provision.

Section 205 of the House amendment would extend the provisions of current law for preferred mortgages to a valid lien against a vessel not covered by a preferred mortgage.

The Conference substitute adopts the House provision with an amendment.

##### SECTION 206. TONNAGE OF R/V DAVIDSON

The Senate bill contains no comparable provision.

Section 206 of the House amendment deems the research vessel DAVIDSON to be less than 100 gross tons, for purposes of applying the optional regulatory measurement under section 14305 of title 46, United States Code.

The Conference substitute adopts the House provision with a technical amendment.

##### SECTION 207. MISCELLANEOUS CERTIFICATES OF DOCUMENTATION

The Senate bill contains no comparable provision.

Section 207 of the house amendment waives certain coastwise trade laws for individually listed vessels.

The Conference substitute adopts the House provision with an amendment.

##### SECTION 208. EXEMPTION FOR VICTORY SHIPS

The Senate bill contains no comparable provision.

Section 208 of the House amendment adds the vessels SS *RED OAK VICTORY* and SS *AMERICAN VICTORY* to a list of three vessels subject to section 3302(1) of title 46, United States Code.

The Conference substitute adopts the House provision with an amendment. The amendment adds the vessel LST-325 to this list of vessels.

##### SECTION 209. CERTIFICATES OF DOCUMENTATION FOR 3 BARGES

The Senate bill contains no comparable provision.

Section 209 of the House amendment waives the coastwise trade laws of the United States for three barges as long as these barges are only used in firework displays.

The Conference substitute adopts the House provision with a technical amendment

##### SECTION 210. CERTIFICATE OF DOCUMENTATION FOR THE EAGLE

The Senate bill contains no comparable provision.

Section 210 of the House amendment waives certain U.S. coastwise trade laws for the vessel *EAGLE* under certain specific circumstances.

The Conference substitute adopts the House provision with a technical amendment.

##### SECTION 211. WAIVER FOR VESSELS IN NEW WORLD CHALLENGE RACE

The Senate bill contains no comparable provision.

Section 211 of the House amendment allows ten sailboats participating in the New World

Challenge Race to transport non-paying guests, before and during stops of that race. The Conference substitute adopts the House provision.

##### SECTION 212. VESSEL ASPHALT COMMANDER

The Senate bill contains no comparable provision.

Section 212 of the House amendment allows the owner of the ASPHALT COMMANDER to place this U.S.-flag vessel under a foreign registry.

The Conference substitute adopts the House provision.

##### SECTION 213. COASTWISE TRADE AUTHORIZATION

The Senate bill does not contain a comparable provision.

The House amendment does not contain a comparable provision.

The Conference substitute allows certain foreign-built launch barges to transport topside modules in the coastwise trade of the United States.

Under the current launch barge exemption provision in the thirteenth proviso of section 27 of the Merchant Marine Act, 1920 (46 App. U.S.C. 883), certain large capacity foreign-built launch barges documented under U.S. law and built as of June 7, 1988, may be used to transport platform jackets between coastwise points in the United States if there are no U.S.-built launch barges with adequate capacity available for use in domestic trade. The Conference substitute (1) grants a limited one-time waiver of the requirements of this launch barge exemption provision, (2) clarifies that U.S.-built, U.S. documented, U.S. citizen-owned vessels have priority over foreign-built vessels to provide these services, and (3) expands the term "platform jacket" to include certain drilling rig components that, considered separately and not as part of a bundle of two or more such components, also require (subject to the priority for U.S.-qualified vessels) large capacity launch barges for coastwise transportation. In conjunction with the Conference substitute, the Maritime Administration is encouraged to take appropriate measures to assure that the requirements for coastwise transportation of platform jackets and components are ascertained and made known to qualified U.S. flag operators sufficiently in advance to establish building programs and otherwise determine the availability of qualified U.S. flag vessels.

This is similar to a provision enacted in Section 601(b) of the Coast Guard Authorization Act of 1993 (P.L. 103-206), to permit the use of designated foreign-built, non-self-propelled, unmanned launch barges to transport platform jackets from the Gulf Coast of the United States to complete projects at specified hydrocarbon sites on the U.S. outer continental shelf. All of the launch barges designated under the Conference substitute were built as of June 7, 1988, as required under current law by the launch barge exemption provision, and there are currently no coastwise-qualified vessels with adequate capacity to conduct the specified operations. In the event that one or more launch barges built in the United States are available to provide the service in accordance with accepted engineer and reasonable scheduling requirements, the Conference substitute makes clear that a U.S.-built, coastwise-qualified launch barge must be used if it has the capacity to transport and launch a particular platform jacket involved in that project.

##### SECTION 214. JONES ACT WAIVER FOR DELAYED VESSEL DELIVERY

The Senate bill does not contain a comparable provision.

The House amendment does not contain a comparable provision.

The Conference substitute temporarily authorizes the Secretary to waive the coastwise laws of the United States for not more than three foreign built self-propelled tank vessels under certain circumstances related to the late delivery from a United States shipyard of a coastwise eligible self-propelled tank vessel. The Secretary must determine that the parties to the contract are making a bona fide effort to construct a self-propelled tank vessel in a timely manner, the contract must be executed within 24 months of the date of enactment of the Maritime Transportation Security Act of 2002, the vessel for which the waiver is granted must meet otherwise applicable requirements of law regarding ownership and operation of vessels in the coastwise trade, the shipyard must own a facility capable of constructing the self-propelled tank vessel, the delay in construction of delivery of the self-propelled tank vessel from the shipyard must be due to unusual circumstances, and the Secretary must determine that no other suitable coastwise trade qualified tank vessels (including tank barges) are reasonably available.

In making the determination with respect to reasonable availability, the Secretary shall include as such suitable tank vessels, tank vessels available on a time charter or voyage charter basis and tank vessels available on a less than full capacity basis pursuant to a contract of affreightment. The purpose of subsection (b)(6) is to ensure that the Secretary canvasses the market for available vessels not requiring a waiver prior to granting a waiver under this section. This paragraph is also intended to ensure that the Secretary shall include in reasonably available suitable tank vessel capacity, vessels which may only be available in part or which may not be available for sale or on a bareboat charter basis. The Conferees do not intend the Secretary to grant a waiver pursuant to this section to any person seeking to circumvent the U.S.-build requirement or to avoid contracting for available suitable tank vessel capacity merely because, among other reasons, it will not be under the requester's control or may be only available to such requester at a higher rate than a re-flagged vessel.

A waiver may not be granted to a self-propelled tank vessel with substantially greater capacity than the vessel being constructed. The waiver shall terminate on the earlier of: (1) 48 months after the contract delivery date; (2) 60 days after delivery of the vessel being constructed in the United States shipyard; or (3) the date which the Secretary determines that the delay in construction or delivery of the vessel being constructed is no longer due to unusual circumstances. Additionally, the Secretary may suspend the waiver for any period during which a suitable coastwise trade qualified tank vessels (including tank barges) becomes reasonably available. The provision defines unusual circumstances.

#### SECTION 436. ALEUTIAN TRADE

The Senate bill does not contain a comparable provision.

The House amendment does not contain a comparable provision.

The Conference substitute amends chapter 51 of title 46, United States Code, regarding vessel load lines. The Aleutian Trade Act of 1990 (Public Law 101-595) provides for continued cargo service to remote communities in Alaska by uninspected fish tender vessels operating in the Aleutian trade while requiring such vessels to meet enhanced safety and manning requirements over a specified period of time. The Act defines Aleutian trade to mean the transportation of all manner of cargo, including fishery related products, for hire on board fish tender vessels to western Aleutian communities receiving weekly common carrier service. The Act extended certain loadline exemptions to those fish tender vessels operating in the Aleutian trade until January 1, 2003. An ambiguity in the statute could be read to continue that exemption beyond this compliance date. Subsection (a) corrects the ambiguity. Subsection (b) clarifies the original intent that after 2003 the loading exemption is only available for fish tender vessels that are not engaged in that transportation of general cargoes in the Aleutian trade. Thus, after 2003, all uninspected fish tender vessels that had previously engaged in the for hire carriage of general cargoes to places receiving weekly common carrier service in the western Aleutian chain will be required to have loadlines. To accommodate the transition, subsection (c) provides additional time for one fish tender vessel operating in the Aleutian trade to be brought into compliance.

The Conferees are concerned that marine casualty reports are currently not available in an electronic format that allows the general public easy access to information in the reports that could lead to improved boating safety. The Conferees acknowledge that one of the purposes of marine casualty reports was for enforcement and that the reports often contain personal information which cannot be released to the general public. The Conferees also understand the Coast Guard's concerns that electronically publishing these reports will strain current resources and require changes to technical procedures and additional human review to ensure that no personal information is inadvertently released. This phase-in period for all marine casualty reports is provided to allow the Coast Guard time to implement the technical and policy procedures needed to electronically publish these reports without inadvertently releasing important personal information.

The Conference substitute authorizes approximately \$6 billion for Coast Guard programs and operations during fiscal year 2003. Section 502(1) authorizes approximately \$4.3 billion for Coast Guard operating expenses for fiscal year 2003.

Section 102(2) authorizes \$725 million in fiscal year 2003 for the Coast Guard's acquisition, construction, and improvement (AC&I) account.

Within the AC&I account, the Conferees strongly support the Coast Guard's integrated approach to the Deepwater Modernization Project and believe this effort to recapitalize the service's offshore surface fleet, aviation assets, and command and control system is essential to prepare the Coast Guard to meet future challenges. With an aging fleet of cutters and aircraft, maintenance and personnel costs will rise dramatically unless the fleets are replaced. Further, the multi-mission nature of the Coast Guard requires a modern and flexible fleet that will continue serving national security and other core missions. The Integrated Deepwater System request for proposal and the recently awarded contract with the systems integrator were predicated on a consistent funding level of \$500 million per year in 1998 dollars over the 20-year implementation timeline. The Conferees are concerned that this program already appears likely to be underfunded in its first year creating delays and pushing back the implementation schedule just as the program is beginning.

The Conferees also strongly support the need to modernize the National Distress &

Response System. This system is crucial for the Coast Guard to improve its capabilities to respond to and aid mariners in distress. The Conferees strongly support the Coast Guard receiving \$90 million in fiscal year 2003 to begin this procurement which is scheduled to be completed by the end of the fiscal year 2006.

Another necessary area of funding is for the Coast Guard's share of the cost of altering or removing bridges that cause hazards to navigation, pursuant to the Truman-Hobbs Act of June 21, 1940, as amended (33 U.S.C. 511 et seq.). The Conferees expect that \$2,000,000 of the funding provided will be utilized for the construction of a new Chelsea Street Bridge over the Chelsea River in Boston, Massachusetts.

#### SECTION 503. AUTHORIZED LEVELS OF MILITARY STRENGTH

The Senate bill does not contain a comparable provision.

Section 503 of the House amendment authorizes 44,000 Coast Guard active duty military personnel as of September 30, 2002.

The Conference substitute authorizes 45,500 Coast Guard active duty military personnel as of September 30, 2003.

The Conference substitute authorizes 45,500 Coast Guard active duty military personnel as of September 30, 2003, which is larger than the Administration's request. The Conferees note that even before September 11, 2001, Coast Guard missions and demands were expanding and taxing the service's personnel whose current strength is comparable to the Coast Guard of 1966. As the Coast Guard assumes its expanding homeland security role while at the same time continues to carry out its traditional missions, it will require additional personnel. Therefore, the Conference substitute increases the end-of-year strength numbers beyond those recommended by the Administration to ensure the Coast Guard has the flexibility to increase its personnel levels to meet these new challenges and demands.

#### PROVIDING FOR CONSIDERATION OF H.R. 5710, HOMELAND SECURITY ACT OF 2002

Mr. DIAZ-BALART. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 600 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 600

*Resolved*, That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the bill (H.R. 5710) to establish the Department of Homeland Security, and for other purposes. The bill shall be considered as read for amendment. The previous question shall be considered as ordered on the bill to final passage without intervening motion except: (1) one hour of debate on the bill equally divided and controlled by the chairman and ranking minority member of the Select Committee on Homeland Security; and (2) one motion to recommit.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. LAHOOD). The Chair must remind Members not to display communicative badges while under recognition for debate.

The gentleman from Florida (Mr. DIAZ-BALART) is recognized for 1 hour.

Mr. DIAZ-BALART. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentlewoman from New York (Ms. SLAUGHTER), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

(Mr. DIAZ-BALART asked and was given permission to revise and extend his remarks.)

Mr. DIAZ-BALART. Mr. Speaker, House Resolution 600 is a closed rule allowing for the immediate consideration of the Homeland Security Act of 2002. The rule provides for 1 hour of debate, equally divided and controlled by the chairman and ranking minority member of the Select Committee on Homeland Security. The rule further provides the minority the opportunity to offer a motion to recommit.

Mr. Speaker, this Chamber first acted in July to make the President's goal of a Department of Homeland Security a reality. However, we were not able to send a bill to the President's desk because the other body failed to act.

After months of inaction and gridlock, President Bush has been instrumental in forging a compromise between Democrats and Republicans in order to pass legislation for the creation of the Department of Homeland Security as soon as possible.

I am pleased and honored by the opportunity to take to the House floor today this historic legislation to create the Department of Homeland Security. The security of the American people is the primary function of the Government of the United States. The creation of this new Department to coordinate all security activities on behalf of the American people is of the utmost importance. It has been a high

priority for President Bush, and I am pleased to bring it to the floor of the House of Representatives.

Since September 11, 2001, we have been working to rebuild our Nation, not only our bridges and our buildings, rather, but our sense of security. The American people have waited too long for this critical piece of legislation, legislation that is designed to protect all Americans.

This rule provides a second opportunity for consideration of this important measure. The underlying legislation will create a new Federal Department, bringing together for the first time entities that were designed to protect the homeland of the United States. This new Department will ensure coordination among all of the agencies under its charge, as well as any Department that retains functions that could affect the homeland security.

The legislation will help to protect our borders by moving the Coast Guard, Customs Service, and Immigration and Naturalization Service into the Department of Homeland Security. While the Department of State will retain responsibility for issuing visas, the legislation tasks the Department of Homeland Security to develop rules for entry into the United States in order to ensure the best security practices possible.

This historic legislation intensifies our effort to ensure that our Nation's first responders have the resources that they need to address all threats. This includes coordination with the Federal Emergency Management Agency, the Secret Service, and many other agencies, as well as the private sector. Additionally, this legislation promotes and expands upon our efforts in research, development, and technology in homeland security.

I think, Mr. Speaker, it is also important to let the American people know that while we are working to protect our homeland, we are also working to protect the freedom that every American enjoys. Specific legal protections in this legislation are meant to ensure that our freedom is not undermined. It includes the creation of a privacy officer and a civil rights and civil liberties officer. These very important officials will work as close advisers to the Secretary to ensure that our privacy, civil rights, and liberties are protected.

As a strong advocate of workers' rights, I am very pleased to see that a compromise has been reached on collective bargaining issues. The language creates a process by which employees and employees union representatives will consult with the Department in creating the new personnel system. The bill maintains essential employee protections while providing the President the flexibility he needs to ensure the safety of the American people.

I think, Mr. Speaker, that it is an unfortunate reality that we may very well face future attacks within our borders or abroad; but with the creation of

this new Department, the American people can rest assured that the Federal Government is doing everything possible to thwart future terrorist attacks.

I would like to thank the Select Committee on Homeland Security for their commitment and their dedication, as well as all the chairmen of the committees of jurisdiction for coming together to craft this vital legislation.

This is a fair rule that will allow consideration of critical legislation, legislation that is long overdue. I ask my colleagues to support both the rule and the underlying legislation.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I yield myself such time as I may consume.

(Ms. SLAUGHTER asked and was given permission to revise and extend her remarks.)

Ms. SLAUGHTER. Mr. Speaker, I oppose this rule. The measure appeared at 7 a.m. this morning at the Committee on Rules with no opportunity for Members to review it beforehand, and no amendments are allowed. For those two reasons I will oppose this rule.

I would note that creating a Department of Homeland Security was the Democrat Party's idea and has been a Democratic priority since September 11 made clear America's terrifying vulnerabilities to terrorism. For 8 long months after the terrorist attacks this last year, Democrats were almost alone in insisting that the government be re-organized to make homeland security a cabinet-level priority. Sure, we had the support of a few brave Republicans, but the leadership of the Republican Party strongly opposed the idea. House Republican leaders blocked the Department of Homeland Security, and the White House argued strenuously that America did not need it.

Then, Mr. Speaker, something happened to change Republican minds in Washington. Simply put, the public learned the full magnitude of the FBI's incompetence before September 11. As the entire Nation watched, FBI whistleblower Colleen Rowley explained how the FBI leadership had hindered our investigation of Zacarias Moussaoui; and the White House realized it had a major political problem, so they flip-flopped to save their political skin.

However, unfortunately, they did not stop using homeland security as a political prop since then. In the House, they refused bipartisanship on all substantive matters, and stuffed their own partisan pet projects into the bill. In the other body, the Republicans used procedural tactics to repeatedly block homeland security until after the election so they would have a partisan club to use against Democrats like MAX CLELAND, a decorated war hero.

Make no mistake, Americans do not have the Department of Homeland Security today because Republicans ob-

structed and politicized it for so long. But nevertheless, Mr. Speaker, the Democrats remain committed to increasing the safety of the American people.

Unfortunately, the so-called compromise on personnel issues does more for the ideology than for the workers we are about to entrust with our homeland security. It sets up a notification and mediation process; but at the end of the day, the administration can still ignore civil service protections if it wants. Mr. Speaker, I believe that this is a mistake that could harm the effectiveness of the new Department.

I am also concerned with what will happen with freedom of information, whether the answer can just be given: "You may not have that information because it is hidden away in the Department of Homeland Security."

But it is the civil service system that protects Americans against the spoils system that allows politicians to award their friends and supporters with important government jobs. We should not be stepping away from that. It is crucial that the Department of Homeland Security be staffed by professionals, not the political cronies of whichever party happens to hold the White House.

Because of the procedural way in which this is being brought to the floor, I urge a "no" vote on this rule.

Mr. Speaker, I reserve the balance of my time.

□ 1330

Mr. DIAZ-BALART. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. Goss), the distinguished chairman of the Permanent Select Committee on Intelligence, an extraordinary Member, and an expert in the field of national security.

(Mr. GOSS asked and was given permission to revise and extend his remarks.)

Mr. GOSS. Mr. Speaker, I thank my colleague and friend on the Committee on Rules, the gentleman from Florida (Mr. DIAZ-BALART) who I enjoy working with very much, particularly on this very critical piece of legislation, and I congratulate him for his floor management.

This is obviously a rule that we should all be able to support. It is an appropriate rule and this institution has been through this subject recently rather completely, and it seems to me that we should be able to deal with this apace.

This is the historic homeland security legislation that we have been waiting for and the American people have been asking for. Certainly in the wake of the tragic events of September 11, 2001, our great Nation has showed its very steadfast resolve to confront and defeat terror. Every day we pick up the papers and we see examples of Americans dealing with these problems on a global basis. We have an awful lot of men and women out there in uniform and in other agencies doing the hard

work of winning the war on terrorism. The creation of the Department of Homeland Security will further bolster this effort. Coordination, cooperation, communication will be improved and, as we have discovered, are areas where we need improvement. Daily operations will grow stronger. Alertness will be better. The agents responsible for the security of our citizens will be more effective. All of these things will directly flow from this legislation and more.

The Department of Homeland Security will finally allow us to direct some long overdue attention to the problems faced by our immigration system. We live in a hospitable, open and democratic society and we are all extraordinarily proud of it and defend it. It is our liberty. We welcome the orderly flow of immigration and we always have. But regrettably, there are many who take advantage of our generosity by engaging in illegal immigration. Our borders must be protected. Our citizens have asked us to do that, and I believe that this Homeland Security Department will be organized in a way that will help us better deal with the immigration subject in a way that meets the requirements of all Americans and protects our borders from mischief makers.

While this legislation makes great strides towards organizing the protection of our homeland, I believe a considerable amount of work is still going to remain, primarily in the intelligence area. Specifically, I believe there is insufficient provision in this legislation as we have set it up for intelligence consolidation, fusion and analysis. I believe an intelligence analysis center would facilitate the interface of intelligence between agencies that are not very good at it now, thereby increasing reaction speed in a way that could prove critical, and we saw what critical means on September 11, 2001.

Obviously, let me be clear, I very much support the legislation. It is long overdue. It will vastly improve our Nation's defenses, and it obviously is a critically important component on the war on terror, particularly for our homeland where we live. I am pleased to see that the necessary and overdue legislation is about to become a reality. If for no other reason for a lame duck session, I think we have found something that the American people are going to cheer about.

I thank the distinguished gentleman from Florida (Mr. DIAZ-BALART) for yielding me time.

Ms. SLAUGHTER. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Mr. Speaker, I rise today in opposition to the rule.

I have to say the idea of having a new Department of Homeland Security is a good one, but it should not be at the detriment or to the detriment of hard-working government employees.

Mr. Speaker, this so-called compromise, and I do not think it is a com-

promise at all, it does not go far enough to ensure the rights of workers in this new department to collectively bargain. Once again, this is just another attempt by the Republican Party to use back channels to destroy the Americans workers' right to organize.

The bill adopts the President's proposals to waive all of the provisions of the civil service laws for employees of the new department, and it would permit the President to strip employees of their union representation for any national security reasons. Basically, it is eliminating effectively the right to collectively bargain.

Why is this necessary? Why in the minds of the administration is this necessary? Historically, civil service has been a way of preventing abuse on the part of the President and the executive branch, and I do not see any relationship between national security and the war against terrorism and workers' rights. There is absolutely no reason to suggest that for national security reasons or because of the war against terrorism that we have to eliminate or cut back on workers' rights. I think what is really happening here is there is an ideological opposition on the part of the President and the Republican Party to collective bargaining, to union representation, to civil service.

It is very troublesome to think that is the case and that somehow national security or the war against terrorism is being used by this administration, the Republican leadership, as an excuse to work their ideological will against government employees. They should not do that. They should not use this, so to speak, as the excuse to basically cut back or eliminate workers' rights.

I know that there is a rush to pass this. Everyone says we have to have this new department. It is certainly true that we do. But I do not think that those of us who care about workers' rights, who care about collective bargaining should simply say that is okay, that in the name and in the rush to create this new department that somehow we should eliminate workers' rights.

Mr. Speaker, I urge opposition to the rule and opposition to the underlying bill.

Mr. DIAZ-BALART. Mr. Speaker, this underlying legislation does not cut back on workers' rights.

Mr. Speaker, I yield 3 minutes to the gentleman from Ohio (Mr. PORTMAN), a distinguished Member of this House who has been a pillar in the construction of this historic legislation.

Mr. PORTMAN. Mr. Speaker, I thank my colleague from Florida (Mr. DIAZ-BALART) for yielding me time, and I appreciate the input he has had in this legislation. I know he feels deeply about the need to protect our homeland and our families. I appreciate his willingness to take the management responsibility today on the floor.

Mr. Speaker, I would just say that we have before us a true consensus bill. It is one that has been worked out by the

Senate, worked out with various interested parties. This bill passed the House of Representatives, as my colleagues will recall, with more than a two to one margin. I hope we would get additional support today so it will be a strong bipartisan show of support for, indeed, moving forward with the necessary new Department of Homeland Security to better protect us.

I do think it is necessary to respond briefly to the comments of my colleague from New Jersey (Mr. PALLONE). I was listening and he said it destroys the rights to collectively bargain. That is not in here. That may be another piece of legislation or maybe one that someone else has told him about. I would urge him to read this legislation. In fact, it guarantees the right to collectively bargain.

Under existing law, existing authority, the President of the United States has the ability under his national security role to be able to pull from individual collective bargaining, individual collective bargaining units or agencies on the basis of national security. This is something that President Kennedy put into effect through executive order. President Carter signed a law to that effect. It has been in the law ever since. Every President since Jimmy Carter has used it and used it judiciously.

All that we do in this legislation is actually narrow that right. We say under the Homeland Security Department the President cannot merely find a national security interest is at stake. It has to be a significant and adverse impact on homeland security. And we further say the President has to notify this Congress 10 days prior to using any such authority.

So I do not know where the gentleman gets this that we are taking current law and making it in any sense worse for civil service or for public employees. In fact, with regard to the President's national security waiver, which is what I assume he is referring to, we narrow it. The right to collectively bargain is explicitly listed in the legislation before us as a guarantee under this department. In fact, the union representation, which will be roughly one out of every three employees or one out of every four employees in this new department would be represented by a union, those union representatives will have a seat at the table.

Although representing just one in four of these employees in this new department, they are guaranteed to have a negotiating role, and this is one of the changes we have made in the legislation over the last few days, is that in fact if there are any disagreements with regard to the necessary new personnel flexibilities that in fact it goes to the Federal Mediation and Conciliation Service for negotiation. If at the end of that process they cannot agree, then, yes, the new personnel practices will be put into place. But in the meantime Congress is notified and you go through this process of negotiation.

I would just underline again that this was something that was carefully thought out over time. The House passed it three and a half months ago. It was bipartisan from the start. The gentlewoman from New York (Ms. SLAUGHTER) has talked about it being a Democrat idea. It has also been a Republican idea. It has been a bipartisan idea. And I would applaud Senator LIEBERMAN and others who pushed it so hard after the tragedy of 9/11.

I would say the creation of this Department of Homeland Security may be the most important thing we do in this Congress. Even though it looks like it will finally happen in terms of enacting it during a lame duck session, nothing is more important to us than protecting the homeland.

I would strongly urge my colleagues on both sides of the aisle to support the good bill before us.

Ms. SLAUGHTER. Mr. Speaker, I yield 4 minutes to the gentleman from Maryland (Mr. WYNN).

Mr. WYNN. Mr. Speaker, I thank the gentlewoman from New York (Ms. SLAUGHTER) very much for yielding me time.

I think it goes without saying that we all want a homeland security bill. We want a good bill. Now, the bill before us today has been characterized as a fair compromise. That is unfortunately not true. It is a very flawed bill.

This bill allows the Department of Homeland Security to eliminate collective bargaining rights for the agency's workforce and allows managers a virtual carte blanche in rewriting civil service rules.

Why are collective bargaining rights important? Collective bargaining is the negotiation between the employer and the labor union on wages, hours, and working conditions. If employees do not feel secure that they receive fair consideration for their employment concerns, one cannot expect to produce a work environment that produces a feeling of personal security for those employees. Let me state, without that feeling of personal security we will have a loss of morale. We will not get an excellent homeland security product from a workforce that does not have a feeling of employment security.

How can granting employees the right to seek redress for resolving labor disputes be interpreted as a threat to national security? The bill allows significant discretionary tampering with respect to four key areas of the civil service process: Pay, job classification, adverse actions and performance appraisals, as well as collective bargaining and employee appeals.

This discretionary tampering is left unchecked because it does not allow unions to collectively bargain through binding negotiations over any of the changes and agreements in these vital areas.

I have read this bill. This bill provides that the Federal Mediation and Conciliation Service could attempt to mediate impasses. That may sound

good until you realize that this Mediation and Conciliation Service has no binding authority. So basically they kind of give you a pass-through but the Homeland Security Department retains the authority to alter civil service rules unchecked after a 30-day waiting period. In other words, this bill gives the Department of Homeland Security managers unilateral authority to write their own rules on such important civil service matters as pay, job classifications, firing, and demotions without any involvement for oversight at all from Congress for 5 years.

What is the harm? This allows an immense bureaucratic fiefdom to be created in which managers can bestow favor on their cronies, punish whistleblowers, remember the FBI agent who tried to warn us about September 11, punish people who refuse to tow the political lines without any check on this type of abuse. This bill would allow Department of Homeland Security managers to eliminate collective bargaining rights whenever employees are involved in national security work. This is clearly too broad. Given the name of the new department, Department of Homeland Security, such authority could easily be applied to exempt more than 170,000 employees from belonging to unions.

Let me state, tens of thousands of employees can be transferred from the Border Patrol, from the Customs Service, from the Federal Emergency Management Agency and from many other agencies that have chosen to belong to Federal employee unions for decades, but they will be performing the same work in the new agency that they performed in their old agency. The only difference is the name of their agency.

Why then do these people suddenly become security risks because they want to keep their civil service protections? Why would we remove the collective bargaining rights from these people? This is supposed to be a bill about fighting terrorism. Unfortunately, this bill puts the administration at war with Federal employees, and that is not right. I urge rejection of the underlying bill.

□ 1345

Mr. DIAZ-BALART. Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I yield 4 minutes to the gentlewoman from California (Ms. HARMAN).

Ms. HARMAN. Mr. Speaker, this legislation means more than moving boxes on an organization chart. For the first time, it provides real authority to those we count on to protect our country and our constituents. The Department of Homeland Security, with the Homeland Security Council in the White House, will create and implement a comprehensive homeland security strategy, a unified approach will replace the ad hoc efforts now going on across agency and State lines.

The Nation and this Congress are strong in their support for a Depart-

ment of Homeland Security and a coordinated strategy, and I only regret that this legislation was not completed months ago.

The legislation is not perfect, as we have heard, but neither was the National Security Act, which created the Department of Defense in 1947. Our national security organization has evolved and improved over time, and so will our homeland security organization. The compromises in this bill are not perfect either, as we have heard, but they are reasonable, and they do make tremendous strides in protecting the security of every neighborhood in America.

The legislation does more than reorganize. It includes the information-sharing procedures I cosponsored with the gentleman from Georgia (Mr. CHAMBLISS), which passed this House as H.R. 4598 by a vote of 422-2.

It also recognizes that the cutting edge of security technologies resides in the private sector, and includes a point of entry for companies to interact with the Federal Government for procurement.

The legislation does not include an independent commission to investigate 9/11, but I hope this Congress will soon pass the intelligence authorization conference report for fiscal year 2003, which includes such a commission.

I urge Members to support this homeland security legislation. Members may disagree with certain provisions or with the process which has brought it to the floor. But this bill, in the net, is the right thing for the American people and can prove to be this Congress' lasting legacy.

Ms. SLAUGHTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DIAZ-BALART. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, to conclude before offering an amendment to the resolution, I would simply state that this is a fair rule, as I stated before, and it is a very important bill. The underlying legislation is critically important.

I beg to disagree with the gentleman from Maryland who I believe did not state the facts correctly with regard to the legislation before us. The President currently has waiverability that he is getting in this legislation for this very important new department in other departments, and that power has been used very judiciously and wisely in the past and has not been abused. I think that it is fair that the President in something as important as the security of the homeland and this new department have the power he has already with regard to other departments, and that is what we are giving the President in this legislation. I would simply urge my colleagues to support the legislation.

AMENDMENT IN THE NATURE OF A SUBSTITUTE  
OFFERED BY MR. DIAZ-BALART

Mr. Speaker, I offer an amendment to the resolution.

The SPEAKER pro tempore (Mr. LAHOOD). The Clerk will report the amendment.

The Clerk read as follows:

Amendment in the nature of a substitute offered by Mr. DIAZ-BALART:

Strike all after the resolved clause and insert:

That upon the adoption of this resolution it shall be in order without intervention of any point of order to consider in the House the bill (H.R. 5710) to establish the Department of Homeland Security, and for other purposes. The bill shall be considered as read for amendment. The amendment specified in section 2 of this resolution shall be considered as adopted. The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except: (1) one hour of debate on the bill, as amended, equally divided and controlled by the chairman and ranking minority member of the Select Committee on Homeland Security; and (2) one motion to recommit with or without instructions.

Sec. 2. The amendment referred to in the first section of this resolution is as follows: Amend section 2(10)(B) so as to read:

“(B) an Indian Tribe or authorized tribal organization, or in Alaska a Native Village or Alaska Regional Native Corporation; and”

Mr. DIAZ-BALART. Mr. Speaker, the amendment corrects language currently in the bill which is inconsistent with the 1971 Alaska Native Claims Settlement Act. The amendment maintains the status quo and ensures the future recognition of current Indian Tribes, tribal organizations, Alaskan Native Villages and Alaska Native Regional Corporations. Mr. Speaker, we are very cognizant of the historic nature of the legislation before us today.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the amendment and on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. The question is on the amendment in the nature of a substitute offered by the gentleman from Florida (Mr. DIAZ-BALART).

The amendment in the nature of a substitute was agreed to.

The SPEAKER pro tempore. The question is on the resolution, as amended.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. SLAUGHTER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 237, nays 177, not voting 17, as follows:

##### SEC. 862. ADMINISTRATION.

(a) IN GENERAL.—The Secretary shall be responsible for the administration of this subtitle.

(b) DESIGNATION OF QUALIFIED ANTI-TERRORISM TECHNOLOGIES.—The Secretary may designate anti-terrorism technologies that qualify for protection under the system of risk management set forth in this subtitle in accordance with criteria that shall include, but not be limited to, the following:

(1) Prior United States government use or demonstrated substantial utility and effectiveness.

(2) Availability of the technology for immediate deployment in public and private settings.

(3) Existence of extraordinarily large or extraordinarily unquantifiable potential third party liability risk exposure to the Seller or other provider of such anti-terrorism technology.

(4) Substantial likelihood that such anti-terrorism technology will not be deployed unless protections under the system of risk management provided under this subtitle are extended.

(5) Magnitude of risk exposure to the public if such anti-terrorism technology is not deployed.

(6) Evaluation of all scientific studies that can be feasibly conducted in order to assess the capability of the technology to substantially reduce risks of harm.

(7) Anti-terrorism technology that would be effective in facilitating the defense against acts of terrorism, including technologies that prevent, defeat or respond to such acts.

(c) REGULATIONS.—The Secretary may issue such regulations, after notice and comment in accordance with section 553 of title 5, United States Code, as may be necessary to carry out this subtitle.

#### SEC. 863. LITIGATION MANAGEMENT.

(a) FEDERAL CAUSE OF ACTION.—

(1) IN GENERAL.—There shall exist a Federal cause of action for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. The substantive law for decision in any such action shall be derived from the law, including choice of law principles, of the State in which such acts of terrorism occurred, unless such law is inconsistent with or preempted by Federal law. Such Federal cause of action shall be brought only for claims for injuries that are proximately caused by sellers that provide qualified anti-terrorism technology to Federal and non-Federal government customers.

(2) JURISDICTION.—Such appropriate district court of the United States shall have original and exclusive jurisdiction over all actions for any claim for loss of property, personal injury, or death arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller.

(b) SPECIAL RULES.—In an action brought under this section for damages the following provisions apply:

(1) PUNITIVE DAMAGES.—No punitive damages intended to punish or deter, exemplary damages, or other damages not intended to compensate a plaintiff for actual losses may be awarded, nor shall any party be liable for interest prior to the judgment.

(2) NONECONOMIC DAMAGES.—

(A) IN GENERAL.—Noneconomic damages may be awarded against a defendant only in an amount directly proportional to the percentage of responsibility of such defendant for the harm to the plaintiff, and no plaintiff may recover noneconomic damages unless the plaintiff suffered physical harm.

(B) DEFINITION.—For purposes of subparagraph (A), the term “noneconomic damages” means damages for losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium, hedonic damages, injury to reputation, and any other nonpecuniary losses.

(c) COLLATERAL SOURCES.—Any recovery by a plaintiff in an action under this section shall be reduced by the amount of collateral source compensation, if any, that the plaintiff has received or is entitled to receive as a result of such acts of terrorism that result or may result in loss to the Seller.

(d) GOVERNMENT CONTRACTOR DEFENSE.—

(1) IN GENERAL.—Should a product liability or other lawsuit be filed for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in paragraphs (2) and (3) of this subsection, have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, there shall be a rebuttable presumption that the government contractor defense applies in such lawsuit. This presumption shall only be overcome by evidence showing that the Seller acted fraudulently or with willful misconduct in submitting information to the Secretary during the course of the Secretary's consideration of such

technology under this subsection. This presumption of the government contractor defense shall apply regardless of whether the claim against the Seller arises from a sale of the product to Federal Government or non-Federal Government customers.

(2) **EXCLUSIVE RESPONSIBILITY.**—The Secretary will be exclusively responsible for the review and approval of anti-terrorism technology for purposes of establishing a government contractor defense in any product liability lawsuit for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in this paragraph and paragraph (3), have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. Upon the Seller's submission to the Secretary for approval of anti-terrorism technology, the Secretary will conduct a comprehensive review of the design of such technology and determine whether it will perform as intended, conforms to the Seller's specifications, and is safe for use as intended. The Seller will conduct safety and hazard analyses on such technology and will supply the Secretary with all such information.

(3) **CERTIFICATE.**—For anti-terrorism technology reviewed and approved by the Secretary, the Secretary will issue a certificate of conformance to the Seller and place the anti-terrorism technology on an Approved Product List for Homeland Security.

(e) **EXCLUSION.**—Nothing in this section shall in any way limit the ability of any person to seek any form of recovery from any person, government, or other entity that—

(1) attempts to commit, knowingly participates in, aids and abets, or commits any act of terrorism, or any criminal act related to or resulting from such act of terrorism; or

(2) participates in a conspiracy to commit any such act of terrorism or any such criminal act.

#### **SEC. 864. RISK MANAGEMENT.**

(a) **IN GENERAL.**—

(1) **LIABILITY INSURANCE REQUIRED.**—Any person or entity that sells or otherwise provides a qualified anti-terrorism technology to Federal and non-Federal government customers ("Seller") shall obtain liability insurance of such types and in such amounts as shall be required in accordance with this section and certified by the Secretary to satisfy otherwise compensable third-party claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(2) **MAXIMUM AMOUNT.**—For the total claims related to 1 such act of terrorism, the Seller is not required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not unreasonably distort the sales price of Seller's anti-terrorism technologies.

(3) **SCOPE OF COVERAGE.**—Liability insurance obtained pursuant to this subsection shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against or response or recovery from an act of terrorism:

(A) contractors, subcontractors, suppliers, vendors and customers of the Seller.

(B) contractors, subcontractors, suppliers, and vendors of the customer.

(4) **THIRD PARTY CLAIMS.**—Such liability insurance under this section shall provide cov-

erage against third party claims arising out of, relating to, or resulting from the sale or use of anti-terrorism technologies.

(b) **RECIPROCAL WAIVER OF CLAIMS.**—The Seller shall enter into a reciprocal waiver of claims with its contractors, subcontractors, suppliers, vendors and customers, and contractors and subcontractors of the customers, involved in the manufacture, sale, use or operation of qualified anti-terrorism technologies, under which each party to the waiver agrees to be responsible for losses, including business interruption losses, that it sustains, or for losses sustained by its own employees resulting from an activity resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(c) **EXTENT OF LIABILITY.**—Notwithstanding any other provision of law, liability for all claims against a Seller arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, whether for compensatory or punitive damages or for contribution or indemnity, shall not be in an amount greater than the limits of liability insurance coverage required to be maintained by the Seller under this section.

Any such transferred authority may not be exercised by an official from whom it is transferred upon transfer of such agency, program, or function to the Secretary or another Federal official pursuant to this Act. This Act may not be construed as altering or diminishing the regulatory authority of any other executive agency, except to the extent that this Act transfers such authority from the agency.

(b) **PREEMPTION OF STATE OR LOCAL LAW.**—Except as otherwise provided in this Act, this Act preempts no State or local law, except that any authority to preempt State or local law vested in any Federal agency or official transferred to the Department pursuant to this Act shall be transferred to the Department effective on the date of the transfer to the Department of that Federal agency or official.

(b) CONTINUITY OF OPERATIONS.—All activities of the Federal Law Enforcement Training Center transferred to the Department of Homeland Security under this Act shall continue to be carried out at the locations such activities were carried out before such transfer.

**SEC. 886. SENSE OF CONGRESS REAFFIRMING THE CONTINUED IMPORTANCE AND APPLICABILITY OF THE POSSE COMITATUS ACT.**

(a) FINDINGS.—Congress finds the following:

(1) Section 1385 of title 18, United States Code (commonly known as the “Posse Comitatus Act”), prohibits the use of the Armed Forces as a posse comitatus to execute the laws except in cases and under circumstances expressly authorized by the Constitution or Act of Congress.

(2) Enacted in 1878, the Posse Comitatus Act was expressly intended to prevent United States Marshals, on their own initiative, from calling on the Army for assistance in enforcing Federal law.

(3) The Posse Comitatus Act has served the Nation well in limiting the use of the Armed Forces to enforce the law.

(4) Nevertheless, by its express terms, the Posse Comitatus Act is not a complete barrier to the use of the Armed Forces for a range of domestic purposes, including law enforcement functions, when the use of the Armed Forces is authorized by Act of Congress or the President determines that the use of the Armed Forces is required to fulfill the President's obligations under the Constitution to respond promptly in time of war, insurrection, or other serious emergency.

(5) Existing laws, including chapter 15 of title 10, United States Code (commonly known as the “Insurrection Act”), and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), grant the President broad powers that may be invoked in the event of domestic emergencies, including an attack against the Nation using weapons of mass destruction, and these laws specifically authorize the President to use the Armed Forces to help restore public order.

(b) SENSE OF CONGRESS.—Congress reaffirms the continued importance of section 1385 of title 18, United States Code, and it is the sense of Congress that nothing in this Act should be construed to alter the applicability of such section to any use of the Armed Forces as a posse comitatus to execute the laws.

**SEC. 887. COORDINATION WITH THE DEPARTMENT OF HEALTH AND HUMAN SERVICES UNDER THE PUBLIC HEALTH SERVICE ACT.**

(3) POTENTIAL PUBLIC HEALTH EMERGENCY.—In cases involving, or potentially involving, a public health emergency, but in which no determination of an emergency by the Secretary of Health and Human Services under section 319(a) of the Public Health Service Act (42 U.S.C. 247d(a)), has been made, all relevant agencies, including the Department of Homeland Security, the Department of Justice, and the Federal Bureau of Investigation, shall keep the Secretary of Health and Human Services and the Director of the Centers for Disease Control and Prevention fully and currently informed.

**Subtitle I—Information Sharing**

**SEC. 891. SHORT TITLE; FINDINGS; AND SENSE OF CONGRESS.**

(a) SHORT TITLE.—This subtitle may be cited as the ‘Homeland Security Information Sharing Act’.

(b) FINDINGS.—Congress finds the following:

(1) The Federal Government is required by the Constitution to provide for the common defense, which includes terrorist attack.

(2) The Federal Government relies on State and local personnel to protect against terrorist attack.

(3) The Federal Government collects, creates, manages, and protects classified and sensitive but unclassified information to enhance homeland security.

(4) Some homeland security information is needed by the State and local personnel to prevent and prepare for terrorist attack.

(5) The needs of State and local personnel to have access to relevant homeland security information to combat terrorism must be reconciled with the need to preserve the protected status of such information and to protect the sources and methods used to acquire such information.

(6) Granting security clearances to certain State and local personnel is one way to facilitate the sharing of information regarding specific terrorist threats among Federal, State, and local levels of government.

(7) Methods exist to declassify, redact, or otherwise adapt classified information so it may be shared with State and local personnel without the need for granting additional security clearances.

(8) State and local personnel have capabilities and opportunities to gather information on suspicious activities and terrorist threats not possessed by Federal agencies.

(9) The Federal Government and State and local governments and agencies in other jurisdictions may benefit from such information.

(10) Federal, State, and local governments and intelligence, law enforcement, and other emergency preparation and response agencies must act in partnership to maximize the benefits of information gathering and analysis to prevent and respond to terrorist attacks.

(11) Information systems, including the National Law Enforcement Telecommunications System and the Terrorist Threat Warning System, have been established for rapid sharing of classified and sensitive but unclassified information among Federal, State, and local entities.

(12) Increased efforts to share homeland security information should avoid duplicating existing information systems.

(c) SENSE OF CONGRESS.—It is the sense of Congress that Federal, State, and local entities should share homeland security information to the maximum extent practicable, with special emphasis on hard-to-reach urban and rural communities.

**SEC. 892. FACILITATING HOMELAND SECURITY INFORMATION SHARING PROCEDURES.**

(a) PROCEDURES FOR DETERMINING EXTENT OF SHARING OF HOMELAND SECURITY INFORMATION.—

(B) identify and safeguard homeland security information that is sensitive but unclassified; and

(C) to the extent such information is in classified form, determine whether, how, and to what extent to remove classified information, as appropriate, and with which such personnel it may be shared after such information is removed.

(2) The President shall ensure that such procedures apply to all agencies of the Federal Government.

(3) Such procedures shall not change the substantive requirements for the classification and safeguarding of classified information.

(4) Such procedures shall not change the requirements and authorities to protect sources and methods.

**(b) PROCEDURES FOR SHARING OF HOMELAND SECURITY INFORMATION.—**

(1) Under procedures prescribed by the President, all appropriate agencies, including the intelligence community, shall, through information sharing systems, share homeland security information with Federal agencies and appropriate State and local personnel to the extent such information may be shared, as determined in accordance with subsection (a), together with assessments of the credibility of such information.

(2) Each information sharing system through which information is shared under paragraph (1) shall—

(A) have the capability to transmit unclassified or classified information, though the procedures and recipients for each capability may differ;

(B) have the capability to restrict delivery of information to specified subgroups by geographic location, type of organization, position of a recipient within an organization, or a recipient's need to know such information;

(C) be configured to allow the efficient and effective sharing of information; and

(D) be accessible to appropriate State and local personnel.

(3) The procedures prescribed under paragraph (1) shall establish conditions on the use of information shared under paragraph (1)—

(A) to limit the dissemination of such information to ensure that such information is not used for an unauthorized purpose;

(B) to ensure the security and confidentiality of such information;

(C) to protect the constitutional and statutory rights of any individuals who are subjects of such information; and

(D) to provide data integrity through the timely removal and destruction of obsolete or erroneous names and information.

(5) Each appropriate Federal agency, as determined by the President, shall have access to each information sharing system through which information is shared under paragraph (1), and shall therefore have access to all information, as appropriate, shared under such paragraph.

(6) The procedures prescribed under paragraph (1) shall ensure that appropriate State and local personnel are authorized to use such information sharing systems—

(A) to access information shared with such personnel; and

(B) to share, with others who have access to such information sharing systems, the homeland security information of their own jurisdictions, which shall be marked appropriately as pertaining to potential terrorist activity.

(7) Under procedures prescribed jointly by the Director of Central Intelligence and the Attorney General, each appropriate Federal agency, as determined by the President, shall review and assess the information shared under paragraph (6) and integrate such information with existing intelligence.

(C) **SHARING OF CLASSIFIED INFORMATION AND SENSITIVE BUT UNCLASSIFIED INFORMATION WITH STATE AND LOCAL PERSONNEL.**—

(1) The President shall prescribe procedures under which Federal agencies may, to the extent the President considers necessary, share with appropriate State and local personnel homeland security information that remains classified or otherwise protected after the determinations prescribed under the procedures set forth in subsection (a).

(2) It is the sense of Congress that such procedures may include 1 or more of the following means:

(1) **IN GENERAL.**—There shall exist a Federal cause of action for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. The substantive law for decision in any such action shall be derived from the law, including choice of law principles, of the State in which such acts of terrorism occurred, unless such law is inconsistent with or preempted by Federal law. Such Federal cause of action shall be brought only for claims for injuries that are proximately caused by sellers that provide qualified anti-terrorism technology to Federal and non-Federal government customers.

(2) **JURISDICTION.**—Such appropriate district court of the United States shall have original and exclusive jurisdiction over all actions for any claim for loss of property,

personal injury, or death arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller.

(b) **SPECIAL RULES.**—In an action brought under this section for damages the following provisions apply:

(1) **PUNITIVE DAMAGES.**—No punitive damages intended to punish or deter, exemplary damages, or other damages not intended to compensate a plaintiff for actual losses may be awarded, nor shall any party be liable for interest prior to the judgment.

(2) **NONECONOMIC DAMAGES.**—

(1) **IN GENERAL.**—Should a product liability or other lawsuit be filed for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in paragraphs (2) and (3) of this subsection, have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, there shall be a rebuttable presumption that the government contractor defense applies in such lawsuit. This presumption shall only be overcome by evidence showing that the Seller acted fraudulently or with willful misconduct in submitting information to the Secretary during the course of the Secretary's consideration of such technology under this subsection. This presumption of the government contractor defense shall apply regardless of whether the claim against the Seller arises from a sale of the product to Federal Government or non-Federal Government customers.

(2) **EXCLUSIVE RESPONSIBILITY.**—The Secretary will be exclusively responsible for the review and approval of anti-terrorism technology for purposes of establishing a government contractor defense in any product liability lawsuit for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in this paragraph and paragraph (3), have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller. Upon the Seller's submission to the Secretary for approval of anti-terrorism technology, the Secretary will conduct a comprehensive review of the design of such technology and determine whether it will perform as intended, conforms to the Seller's specifications, and is safe for use as intended. The Seller will conduct safety and hazard analyses on such technology and will supply the Secretary with all such information.

(3) **CERTIFICATE.**—For anti-terrorism technology reviewed and approved by the Secretary, the Secretary will issue a certificate of conformance to the Seller and place the anti-terrorism technology on an Approved Product List for Homeland Security.

(e) **EXCLUSION.**—Nothing in this section shall in any way limit the ability of any person to seek any form of recovery from any person, government, or other entity that—

(2) **MAXIMUM AMOUNT.**—For the total claims related to 1 such act of terrorism, the Seller is not required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not unreasonably distort the sales price of Seller's anti-terrorism technologies.

(3) **SCOPE OF COVERAGE.**—Liability insurance obtained pursuant to this subsection shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against or response or recovery from an act of terrorism:

(B) contractors, subcontractors, suppliers, and vendors of the customer.

(c) **EXTENT OF LIABILITY.**—Notwithstanding any other provision of law, liability for all claims against a Seller arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, whether for compensatory or punitive damages or for contribution or indemnity, shall not be in an amount greater than the

limits of liability insurance coverage required to be maintained by the Seller under this section.

Any such transferred authority may not be exercised by an official from whom it is transferred upon transfer of such agency, program, or function to the Secretary or another Federal official pursuant to this Act. This Act may not be construed as altering or diminishing the regulatory authority of any other executive agency, except to the extent that this Act transfers such authority from the agency.

(b) **PREEMPTION OF STATE OR LOCAL LAW.**—Except as otherwise provided in this Act, this Act preempts no State or local law, except that any authority to preempt State or local law vested in any Federal agency or official transferred to the Department pursuant to this Act shall be transferred to the Department effective on the date of the transfer to the Department of that Federal agency or official.

Nothing in this Act shall be construed as exempting the Department from requirements applicable with respect to executive agencies—

(1) to provide equal employment protection for employees of the Department (including pursuant to the provisions in section 2302(b)(1) of title 5, United States Code, and the Notification and Federal Employee Antidiscrimination and Retaliation Act of 2002 (Pub. L. 107-174)); or

**SEC. 886. SENSE OF CONGRESS REAFFIRMING THE CONTINUED IMPORTANCE AND APPLICABILITY OF THE POSSE COMITATUS ACT.**

(a) **FINDINGS.**—Congress finds the following:

(1) Section 1385 of title 18, United States Code (commonly known as the “Posse Comitatus Act”), prohibits the use of the Armed Forces as a posse comitatus to execute the laws except in cases and under circumstances expressly authorized by the Constitution or Act of Congress.

(2) Enacted in 1878, the Posse Comitatus Act was expressly intended to prevent United States Marshals, on their own initiative, from calling on the Army for assistance in enforcing Federal law.

(3) The Posse Comitatus Act has served the Nation well in limiting the use of the Armed Forces to enforce the law.

(4) Nevertheless, by its express terms, the Posse Comitatus Act is not a complete barrier to the use of the Armed Forces for a range of domestic purposes, including law enforcement functions, when the use of the Armed Forces is authorized by Act of Congress or the President determines that the use of the Armed Forces is required to fulfill the President's obligations under the Constitution to respond promptly in time of war, insurrection, or other serious emergency.

(5) Existing laws, including chapter 15 of title 10, United States Code (commonly known as the “Insurrection Act”), and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), grant the President broad powers that may be invoked in the event of domestic emergencies, including an attack against the Nation using weapons of mass destruction, and these laws specifically authorize the President to use the Armed Forces to help restore public order.

(b) **SENSE OF CONGRESS.**—Congress reaffirms the continued importance of section 1385 of title 18, United States Code, and it is the sense of Congress that nothing in this Act should be construed to alter the applicability of such section to any use of the Armed Forces as a posse comitatus to execute the laws.

**SEC. 887. COORDINATION WITH THE DEPARTMENT OF HEALTH AND HUMAN SERVICES UNDER THE PUBLIC HEALTH SERVICE ACT.**

(a) **IN GENERAL.**—The annual Federal response plan developed by the Department shall be consistent with section 319 of the Public Health Service Act (42 U.S.C. 247d).

(b) **DISCLOSURES AMONG RELEVANT AGENCIES.**—

(1) **IN GENERAL.**—Full disclosure among relevant agencies shall be made in accordance with this subsection.

(3) **POTENTIAL PUBLIC HEALTH EMERGENCY.**—In cases involving, or potentially involving, a public health emergency, but in which no determination of an emergency by the Secretary of Health and Human Services under section 319(a) of the Public Health Service Act (42 U.S.C. 247d(a)), has been made, all relevant agencies, including the Department of Homeland Security, the Department of Justice, and the Federal Bureau of Investigation, shall keep the Secretary of Health and Human Services and the Director of the Centers for Disease Control and Prevention fully and currently informed.

#### Subtitle I—Information Sharing

#### SEC. 891. SHORT TITLE; FINDINGS; AND SENSE OF CONGRESS.

(a) SHORT TITLE.—This subtitle may be cited as the ‘Homeland Security Information Sharing Act’.

(b) FINDINGS.—Congress finds the following:

(1) The Federal Government is required by the Constitution to provide for the common defense, which includes terrorist attack.

(2) The Federal Government relies on State and local personnel to protect against terrorist attack.

(3) The Federal Government collects, creates, manages, and protects classified and sensitive but unclassified information to enhance homeland security.

(4) Some homeland security information is needed by the State and local personnel to prevent and prepare for terrorist attack.

(5) The needs of State and local personnel to have access to relevant homeland security

information to combat terrorism must be reconciled with the need to preserve the protected status of such information and to protect the sources and methods used to acquire such information.

(6) Granting security clearances to certain State and local personnel is one way to facilitate the sharing of information regarding specific terrorist threats among Federal, State, and local levels of government.

(7) Methods exist to declassify, redact, or otherwise adapt classified information so it may be shared with State and local personnel without the need for granting additional security clearances.

(8) State and local personnel have capabilities and opportunities to gather information on suspicious activities and terrorist threats not possessed by Federal agencies.

(9) The Federal Government and State and local governments and agencies in other jurisdictions may benefit from such information.

(10) Federal, State, and local governments and intelligence, law enforcement, and other emergency preparation and response agencies must act in partnership to maximize the benefits of information gathering and analysis to prevent and respond to terrorist attacks.

(11) Information systems, including the National Law Enforcement Telecommunications System and the Terrorist Threat Warning System, have been established for rapid sharing of classified and sensitive but unclassified information among Federal, State, and local entities.

(12) Increased efforts to share homeland security information should avoid duplicating existing information systems.

(c) SENSE OF CONGRESS.—It is the sense of Congress that Federal, State, and local entities should share homeland security information to the maximum extent practicable, with special emphasis on hard-to-reach urban and rural communities.

#### SEC. 892. FACILITATING HOMELAND SECURITY INFORMATION SHARING PROCEDURES.

(a) PROCEDURES FOR DETERMINING EXTENT OF SHARING OF HOMELAND SECURITY INFORMATION.—

(1) The President shall prescribe and implement procedures under which relevant Federal agencies—

(A) share relevant and appropriate homeland security information with other Federal agencies, including the Department, and appropriate State and local personnel;

(B) identify and safeguard homeland security information that is sensitive but unclassified; and

(C) to the extent such information is in classified form, determine whether, how, and to what extent to remove classified information, as appropriate, and with which such personnel it may be shared after such information is removed.

(5) Each appropriate Federal agency, as determined by the President, shall have access to each information sharing system through which information is shared under paragraph (1), and shall therefore have access to all information, as appropriate, shared under such paragraph.

(6) The procedures prescribed under paragraph (1) shall ensure that appropriate State and local personnel are authorized to use such information sharing systems—

(A) to access information shared with such personnel; and

(B) to share, with others who have access to such information sharing systems, the homeland security information of their own jurisdictions, which shall be marked appropriately as pertaining to potential terrorist activity.

(7) Under procedures prescribed jointly by the Director of Central Intelligence and the Attorney General, each appropriate Federal agency, as determined by the President, shall review and assess the information shared under paragraph (6) and integrate such information with existing intelligence.

(c) **SHARING OF CLASSIFIED INFORMATION AND SENSITIVE BUT UNCLASSIFIED INFORMATION WITH STATE AND LOCAL PERSONNEL.**—

The SPEAKER pro tempore. Pursuant to House Resolution 600, the gentleman from Texas (Mr. ARMEY) and, without objection, the gentleman from

California (Mr. WAXMAN) each will control 30 minutes.

There was no objection.

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. ARMEY).

**GENERAL LEAVE**

Mr. ARMEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 5710 and to insert extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. ARMEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, what we are doing now is revisiting the issue of homeland defense. You will recall, Mr. Speaker, that in June the President challenged Congress to pass such a bill, and we went to work on it with a select committee appointed by the Speaker and the minority leader. On July 23 of this year the House passed H.R. 5005 by a vote of 295 to 132, more than two-thirds of the House.

Mr. Speaker, since that time we have waited upon the other body in terms of our hopes to have this work completed, and just last Friday the President again challenged Congress to work on this bill. During this period of time, from last Friday until today, we have had extensive consultation between Members of this body on the select committee, the committee of jurisdiction, the President, Members of the other body, and all of the committees that have jurisdiction on this bill.

In light of some of the concerns that we knew were fairly well known to us on the other side of the building, we were able to very quickly move through those issues that still remain, fully vet them with all interested parties, including the committees of jurisdiction in both bodies, and work out what we believe will be in the form of the bill before us right now a bill that can comfortably pass both bodies and be sent to the President for signature.

I should mention, Mr. Speaker, that this bill is essentially the same bill that was passed by the House of Representatives last July. There have been a few modifications that have been made to the bill but nothing that has not been fully vetted with the committees of jurisdiction and little that Members of this body will find objectionable.

Mr. Speaker, I reserve the balance of my time.

Mr. WAXMAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I agree we need homeland security legislation. It is clear that the Federal Departments are not working together as they should to protect our Nation. Unfortunately, the bill that we are considering today has serious flaws. In fact, I think it may cause more problems than it solves.

I want to show two charts to this body. Here is how our homeland security agencies are organized today. This

one right here. You can see all the different Departments. And the next chart over here is how they will be organized after the new Department is created. We are getting more bureaucracy. We are doing so at a tremendous cost to the taxpayer.

According to the Congressional Budget Office, just creating and managing the new Department will cost \$4.5 billion, and this does not include any additional spending to make our Nation more secure against terrorist attacks. This bill gives the new Department a vast array of responsibilities that have nothing to do with homeland security, such as administering the national flood insurance program and cleaning up oil spills.

This bloats the size of the bureaucracy and dilutes the Department's counterterrorism mission. At the same time, the bill has no effective mechanism to coordinate the activities of the new Department with those of the FBI and the CIA and the other agencies that continue to have major homeland security functions.

I opposed this bill when it was before the House in July. I had hoped that it would be improved by a deliberative process before it was brought back for final passage, but instead we were given a massive new bill this morning that is being rushed through the House with no opportunity for deliberation and amendment. We do not even know the full implications of what we are doing in this bill.

Now, I want to talk about one of the hidden provisions we found buried in this massive bill today. Section 304 severely restricts the abilities of persons killed or injured by the small pox vaccine to receive any form of compensation. In fact, if you do not take the vaccine, but are disfigured or blinded because of your contact with someone who did, your ability to receive compensation is severely curtailed. Now think about this for a minute. This was not in the House-passed bill. This was not in the bill considered on the Senate floor. Suddenly this bill appears with this provision in it.

Now, I authored the vaccine compensation system that compensates children who may be injured when they get a vaccine where there is a bad result. But what we are saying in this hidden provision in the fine print is if you are hurt, you are out of luck. The vaccine manufacturer is going to be protected. The vaccine manufacturer for all practical purposes is going to be immune from liability.

Now this may be a legitimate decision on which we can have a disagreement, but I would feel differently had it been brought up honestly, up front, debated. I cannot believe that more than 10 people in the Congress even know that this provision is in the bill to create a Department of Homeland Security. I feel that this is a special interest provision and should not have been brought up in this particular way.

Another new provision reverses the policy adopted overwhelmingly by the

House that prohibited the new Department from contracting with expatriate companies that have fled the United States to avoid paying their taxes. There was an overwhelming vote in the House, a bipartisan vote, to say to those companies that fled this Nation to act as if they are a foreign nation so they would not have to pay taxes would not be permitted to contract with the Department of Homeland Security. Well, now we got this bill and that provision is missing.

Moreover, the most egregious special interest provisions from the House bill remain in this legislation. The bill gives immunity to companies that make faulty bomb detectors, gas masks, or other homeland security products even if they engage in intentional wrong doing. Can you imagine that? The bill also allows large campaign contributors to lobby the new Department for special favors in absolute secret. We used to have a Freedom of Information Act that could get this information out before the public, and now we have a new exception created to the Freedom of Information Act that would allow these secret negotiations.

While the fine print of the bill contains loopholes and special amenities for corporate America, Federal workers take it on the chin. Their right to engage in collective bargaining is eliminated. They are no longer guaranteed the right to appeal grievances to the Merit System Protection Board.

I do not know what we are thinking. This new Department, this new bureaucracy will not work without dedicated Federal workers. Yet this bill treats them like second-class citizens, and this bill also rebuffs the families of the victims of September 11. All they asked for was an independent commission to examine what happened on September 11. But although this commission won overwhelming bipartisan support in the Senate, it was suddenly dropped from the bill.

There is an old adage that those who do not remember the past are condemned to repeat it, but that is what we are doing today. The Department of Energy was created 25 years ago, and it is still dysfunctional. The Department of Transportation was created 35 years ago, but it still has major structural problems; and it took nearly 40 years for the reorganization of the Department of Defense to work.

When we consider a bill like this, there is a temptation to ignore the defects and just vote for it; and perhaps, most likely, that is what will happen tonight. But voting against this bill could be politically damaging sometime in the future. But some things are more important than politics. Genuinely enhancing our national security is more important than politics, and getting this bill right is more important than politics.

Mr. Speaker, we should come back next year and make sure we create this new Department in the best way possible.

Mr. Speaker, I reserve the balance of my time.

Mr. ARMEY. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. THORNBERRY), an early leader in the effort to create such a Department as this.

Mr. THORNBERRY. Mr. Speaker, I thank the majority leader for yielding me time, and I thank him for his work on this measure. It may well be his most important contribution to the safety and security of his grandchildren. I also want to appreciate the staff who have worked so long and hard to make this possible.

Mr. Speaker, having worked on this issue for close to 2 years, I have had many doubts that it would ever come to this point; but now I believe it will happen.

□ 1845

This is not a perfect bill, and it is relatively easy for me and others to find fault, ways that we wish it would be different. But all of those individual differences we may have with provisions are no competition in my mind to the fact that time is slipping by. If we do not do it this week, we are at least 3 months further along, 3 months during which our enemies are plotting and planning against us, more time during which we are not as prepared as we could and should be, more months where we are not making preparations to protect ourselves.

Time is a critical factor. Just yesterday we had another threat, and whether it is bin Laden's voice or not, it is clear it is someone who intends to kill more Americans. He is very explicit in the threat. We cannot sit by and have differences over this provision or that provision keep us from acting.

Mr. Speaker, organizational reform is no panacea. It does not solve all of the problems with the FBI or the CIA. It does not do everything, but what it can do is take 22 agencies, existing agencies that are scattered around the government, bring them together under one chain of command so we can actually work together as a team and make things happen.

That does not mean it solves all of our problems, but it is an important step. It does not create more bureaucracy, it tries to get a handle on the bureaucracy we have and make it work more effectively. It is an important step for us to take tonight. Hopefully the other body will follow suit and the President can sign it into law so we can begin to make this country safer.

Mr. WAXMAN. Mr. Speaker, I yield 3½ minutes to the gentleman from Ohio (Mr. KUCINICH), a very important member of our committee.

Mr. KUCINICH. Mr. Speaker, I want to thank the gentleman from California (Mr. WAXMAN) for the time he has spent in pointing out that this reorganization really has not made the case that America is going to be safer once this bill passes. As a matter of fact, as the gentleman points out,

there is good reason to believe that a reorganization that will take at least 10 years and possibly more would cause a delay in real measures that could be taken to make this country somewhat safer. The American people want to feel safer; and 12,000 people in the last year were killed by handguns. This bill will not help them. Nor will it help the thousands of other Americans who die of violent crimes each year in this country.

What we have here is a paradoxical condition where the party which has gained the trust and support of the American people because of their challenge to big government suddenly becomes the party of big government advocating big government without really big services, big costs without big benefits, big security promises without big protections.

Americans ought to be concerned that we have the largest government department being created here in years without any indication as to how long the people of this country are going to have to wait to be safer.

So what is the alternative? One immediate alternative would be to provide more funds for local law enforcement. Every one of us knows that inevitably law enforcement in this country falls to the responsibility of the people at the local level. They know the communities. That is where we ought to be putting the billions of dollars that are going into creating a new bureaucracy.

There are a few other issues. Public safety depends on truth telling, exposing bureaucratic failings and busting cover-ups. The truth tellers are civil servants who blow the whistle, and in the largest Federal agency of all time being created today surely there are whistles to be blown, but this bill has dropped the protections. Our committee sat hours on end trying to ensure protections for whistleblowers. We passed the protections out of committee. They were stripped out of the bill.

Today if someone blows the whistle, is legally fired, they will not be able to get their job back or receive damages for unlawful firing. Whistleblower protection is critical for homeland security; without such protections, this bill fails.

In addition to that, we are talking about creating 22 different agencies into one large entity. That does not constitute efficient and effective government. I urge Members to vote no.

Before I conclude, the gentleman from California (Mr. WAXMAN) pointed out something about section 304(c) of the bill. I received a note from the American Association of Physicians and Surgeons, and they raise serious questions about the Secretary having unlimited power to define a real or potential threat to take any measures he decides, or to do it for as long as he wants. These are questions which have been raised about the administration of countermeasures against smallpox,

will there be quarantines for smallpox immunizations, the definition of a bioterrorist incident. The American people need to know if this legislation is going to result in millions of Americans being forced to take smallpox immunizations and not having any legal protections if they are injured by those vaccinations.

Mr. ARMEY. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania (Mr. WELDON), an extremely well-informed member of our Committee on Armed Services.

(Mr. WELDON of Pennsylvania asked and was given permission to revise and extend his remarks.)

Mr. WELDON of Pennsylvania. Mr. Speaker, the only tragedy in this debate is it has taken us 12 months after 9/11 to move on organizing our homeland security and 5 months after the President challenged us with a plan to bring together 22 agencies with 170,000 employees and a \$38 billion budget.

The only tragedy is we passed this in June and here we are today finally getting around to doing the job of the American people. This may not be a perfect plan, but I can guarantee this is better than what we had before 9/11, and even what we have today. It addresses the issue of coordinating our intelligence.

In fact, one of the four key components of this new agency is something we in Congress called for in 1999 and 2000 and which the administration back then looked at us and laughed. It is required in this plan to have a coordination of intelligence and data fusion. This plan provides for support for our first responders. In fact, for the first time, the President has called for \$3.5 billion of new money to support local emergency responders, police, fire, and EMS. It provides for transportation security and the transfer of technology and the research necessary to understand emerging threats like chemical and biological weapons.

This new piece of legislation finally implements a program that we paid for back in 1997 to use our satellites above to detect wildland fires so we can go into those areas of the West and deal with them immediately. That should have been done 5 years ago. This plan provides for that through a provision that was added in the final conference.

Mr. Speaker, I think of the firefighters across America who to this day cannot communicate with each other because they are on different frequencies, and we say we want more time. They do not have more time. The time to pass this bill is tonight. Hopefully it will pass with overwhelming bipartisan support, and then we will take the next step, and the next step is to deal with the oversight jurisdiction, and that is the role of the Congress.

Mr. WAXMAN. Mr. Speaker, I yield 4 minutes to the gentleman from Illinois (Mr. DAVIS), the ranking member of the Subcommittee on Civil Service, Census, and Agency Organization.

Mr. DAVIS of Illinois. Mr. Speaker, I am pleased to see homeland security

under serious consideration, but as a member of the Subcommittee on Civil Service, Census and Agency Organization, as one who has looked closely at this legislation, I am very concerned about provisions in this proposal that would grant the Secretary of the Department of Homeland Security and the Director of Personnel Management blanket authority to set pay and other conditions of employment without regard to existing civil service rules and protections.

As a matter of fact, passage of this bill could in fact diminish or take away hard-won worker rights and protections that it has taken years and years of blood, sweat and tears to achieve. This bill which purports to be a compromise would permit administration officials to completely disregard civil service laws in hiring, firing, promoting and setting pay for more than 170,000 employees from 22 agencies that will make up the new agency.

Today these employees are not subject to the whims of agency officials when it comes to their pay promotions and collective bargaining rights, but tomorrow they could be. While this compromise legislation may be a victory for the President, it is a defeat for the men and women who go to work every day to serve and protect their country. Many of us have fought to develop and promote safeguards for small businesses and small business development. I am also disappointed that a provision that would have ensured that small businesses were considered and included in contracts awarded by the new department was omitted from the bill.

A provision that would have established an Office of Small Business and Disadvantaged Business Utilization in the Department of Homeland Security was included in the original bill passed by the House but has been excluded from this bill.

Federal workers, small and disadvantaged businesses, and real compromise have all fallen victim to the imbalance of power that looms ahead in the legislative and executive branches of government. Passage of this bill will cause insecurity among workers and small business owners as they see themselves set back in the name of homeland security. I urge my colleagues to oppose this legislation and vote no.

Mr. ARMEY. Mr. Speaker, I yield 3 minutes to the gentleman from Wisconsin (Mr. SENSENBRENNER), chairman of the Committee on the Judiciary, a committee of jurisdiction.

Mr. SENSENBRENNER. Mr. Speaker, the most important part of this bill is its dismantling of the dysfunctional Immigration and Naturalization Service. The bill abolishes the agency and separates immigration enforcement from immigration services, the key to reform.

The immigration enforcement half of the INS becomes the Bureau of Border Security in the Directorate of Border and Transportation Security. The head

of the enforcement bureau, the Assistant Secretary, will report to the Under Secretary of Border and Transportation Security and must have 5 years of law enforcement experience and 5 years of management experience. This work experience requirement will ensure that immigration enforcement is headed by someone with the expertise to enforce our immigration laws. The separation of this function from immigration services will allow the Assistant Secretary to focus on a single mission.

As current events have shown with the July 4 Los Angeles Airport shooter, Lee Malvo, and other recent alien criminals who have been released by the INS, an unencumbered immigration enforcement unit is long overdue.

The equally important immigration services half of the INS becomes the Bureau of Citizenship and Immigration Services apart from other DHS components. The Director of the services bureau reports directly to the Deputy Secretary of Homeland Security. This will ensure that immigration services receives the attention and resources that it needs, and that it will not be forgotten and neglected in a department otherwise devoted to fighting terrorism. Our government must remain welcoming to immigrants who follow our laws.

In addition, the bill requires separate budgets and accounts for the immigration services and enforcement bureaus so that each bureau receives all of its designated money and no poaching occurs, as has been known to happen between the two components in the current INS.

While the bill permits the President to consolidate components within the two bureaus to make them more efficient, it prohibits the President from merging the two bureaus back into one agency. This should ensure that the INS as we know it is history and our years-long effort to restructure this failed agency will be accomplished.

Mr. Speaker in addition to the monumental immigration and border security reforms contained in this bill, this legislation will profoundly affect Federal law enforcement. This legislation moves the Secret Service, Customs Service, Coast Guard, Border Patrol, Office of Domestic Preparedness, Federal Law Enforcement Training Center, and other law enforcement functions into the DHS.

□ 1900

At its core, homeland security is a law enforcement function, and law enforcement should be the predominant role. The Committee on the Judiciary will closely follow the integration of these important law enforcement entities to make sure they have the support and authority that they need to protect the country from terrorism and other criminal enterprises.

Finally, this legislation moves the law enforcement function of the Bureau of Alcohol, Tobacco, and Firearms

to the Department of Justice as a distinct entity and makes important changes to the way we enforce explosives law and regulations.

I urge the membership to support this bill.

Mr. WAXMAN. Mr. Speaker, I am pleased to yield 4½ minutes to the gentleman from Virginia (Mr. MORAN).

Mr. MORAN of Virginia. I thank the very distinguished ranking member of the Committee on Government Reform for yielding me this time.

Mr. Speaker, I rise in opposition to this legislation on several grounds. Up until now, this proposal has been heavy on message but troubling in its substance. Unlike the rhetoric, approval of this legislation will have some real consequences for the Federal agencies we are about to reshuffle, the 170,000 Federal employees who work for these affected agencies, and the American people.

Its origins are telling. You may recall that the Office of Homeland Security was created by an executive order on October 8, 2001. Unfortunately its director, Governor Ridge, was barred by the President from testifying before Congress, overruled in White House councils, and preempted by more powerful Cabinet members. Then as public opinion began to sour against an administration that refused to even let Governor Ridge testify in public before the Congress, the administration reversed itself and after some reshuffling of Federal agencies on chalkboards in the basement of the White House, the administration proposed the creation of the Department of Homeland Defense.

It is a clever proposal, but it is not the solution. We are in a war against a new and deadly threat, and we need the resources abroad both for our diplomats to build alliances and for our armed services to prosecute this war. And at home we need the resources to protect our citizens. If we were serious about this threat, we would see a budget. But we just passed another continuing resolution that keeps everything funded at spending levels that were proposed and approved more than 18 months ago, a budget developed before September 11, 2001.

Where is the money for first responders? \$2.6 billion is what is needed and what the President's party just voted against this afternoon. Where is the money for the Transportation Security Administration, which assumed responsibility for airport security in just 6 days, on November 19? Where is the money to improve border security or hire more FBI agents? It is not there because we have not passed the fiscal 2003 appropriation bills, as the gentleman from California (Mr. WAXMAN) has made clear.

Instead, we are now considering a proposal to incorporate 22 existing Federal agencies and transfer more than 170,000 Federal employees. I am not sure that consolidating Federal agencies is sufficient to address the chal-

lenges that confront us. The difficulty in stitching together vast and disparate organizational cultures has overwhelmed some of the best CEOs in the private sector. It is a process that most CEOs will tell you takes years to complete and more resources than previously assumed. CBO estimates it will take 5 to 10 years to get this new agency up and running. This effort is going to divert us from the important task of protecting this Nation from possible future attacks. It may strengthen the lines of communication and accountability, but it does not provide the resources to get the job done.

The bipartisan Commission on National Security found that the Customs Service, the Border Patrol, and the Coast Guard were all on the verge of being overwhelmed by a mismatch between their growing duties and their mostly static resources. There are less than 7,000 customs inspectors and 619 canine officers to screen thousands of cargo containers and hundreds of thousands of vehicles entering the United States every day. Historically, most of these agencies have been starved of the resources they need to effectively carry out their mission. With 170,000 civil servants, they are going to have difficulty establishing a coherent and effective mission.

To be successful, we need to offer superior resources, equipment, and training. The workforce has to be given the incentive and expectation to improve performance. At a minimum, the new Department ought to be able to offer its employees pay parity and benefits. These adjustments are certain to add additional costs.

So why is the White House not asking for passage of the 2003 budget? That is what the White House ought to be asking us to do. The only response we have heard is that this reshuffling of agencies is going to be budget neutral.

It raises more questions than it answers. How are the agencies going to respond to programs that have nothing to do with homeland security? The Coast Guard's role in maritime safety and FEMA's role in national disasters are just a couple of examples. The CIA, the FBI and other intelligence agencies, they are the ones that are going to be gathering data. There is no access to raw data that these intelligence agencies monitor on the part of the Department of Homeland Security.

I do not think this is a good proposal. It ought to be opposed. We ought to come up with something better, and we ought to give what is better the resources necessary to carry out their function.

Mr. ARMEY. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Mrs. TAUSCHER), an original sponsor of this bill and one of the early innovators in the notion of homeland security.

Mrs. TAUSCHER. Mr. Speaker, I rise in support of this bill. This legislation is not perfect, but we must streamline the current bureaucracy if we are going

to protect the American people. I have been working for more than a year to create a Cabinet-level Department of Homeland Security. I would like to applaud the gentleman from Texas (Mr. THORNBERRY) for his prescient knowledge about this issue and for taking the Hart-Rudman report 6 months before September 11 and crafting good legislation that we could follow.

This legislation today accomplishes that by bringing together the homeland security components of our government, including the national laboratories, Coast Guard, Border Patrol, and first responders. I am glad that this bill gives the TSA flexibility to allow larger airports like Oakland, San Francisco, San Jose and Sacramento more time to configure their explosive detection systems. This will save commuters from long lines and ensure that limited resources are being spent on the best equipment available. I also support the extension of war risk insurance for the aviation industry that is included in this bill.

To those that claim that this bill will only create a bigger government, I say this is not about making more bureaucracy, this is about making the bureaucracy work better. To those that think it is far from perfect, I say, I agree. I am concerned that this bill does not create a center to analyze intelligence inside the new agency. And I am deeply concerned that this bill could allow the President to weaken the labor protections of civil service employees. But this bill is just a starting point, and I am committed to work to fix these issues.

We must take this important step toward coordinating the dozens of government agencies responsible for fighting terrorism. Just as we must transform our military to be lighter, faster and more lethal at the time of asymmetrical threats, we must transform this Federal bureaucracy to be more responsive to threats to the homeland.

I urge my colleagues to support this bill, and I urge this Congress to continue to work to cure this bill.

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentlewoman from Ohio (Mrs. JONES).

Mrs. JONES of Ohio. Mr. Speaker, I thank the gentleman for yielding me this time. Who could be against homeland security? I guess anybody out there in the public would want to know why should there even be a debate about what we do about homeland security. But the reality is that all of us are for homeland security. The question is how do we get there. That is what this debate is all about.

About 2 weeks ago I participated in a debate on homeland security at Case Western Reserve University in my congressional district. On the panel with me was a gentleman from GAO and a professor who has looked over departments and consolidation over the years. One of the things that the professor raised was the fact that even with this new Department of Homeland

Security, there are going to be so many more responsibilities placed on local governments, at the State level, at the county level, at the Federal level. And in this bill, though it is presumed that it is, there are not dollars there to support these local agencies to do that job.

When I think about it, and we thought about it in the session, if something happens in Cleveland, Ohio, I am not going to call the FBI; I am going to call 911, and 911 is going to call the Cleveland Police Department. But in this legislation, I do not believe there is adequate increase of dollars going to cities. It would have been nice when we had the opportunity to continue the COPS program that we had given or designated more dollars to local police departments. Another question I have is coordination. Another question I have is this whole issue of public employees who have given their time and effort to the Federal Government losing their labor rights as a result of a consolidation.

I think that all of us are concerned about homeland security, that all of us want to tell this world and the people that live in the United States that we are going to protect them. But before we rush down the line to make a decision on this new 170,000-person Department of Homeland Security, we must make a commitment to the people of the United States that we are really going to secure their homeland.

Mr. ARMEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Missouri (Mr. BLUNT) and, with heartfelt congratulations, the whip-elect, for the purpose of having a colloquy with the distinguished gentleman from Alaska, the chairman of the Committee on Transportation and Infrastructure.

Mr. BLUNT. Mr. Speaker, I thank the majority leader for his kind comments and for yielding me the time.

I would like to engage in a short discussion with Chairman YOUNG on two issues which are very important to me and I feel need some clarification. This relates to the training of pilots to carry firearms in the cockpit of our commercial airlines and to the training of cabin crew members in self-defense methods. As the House knows, these provisions were included in this bill; and I feel they are important provisions. However, I want to make clear in my own mind and in the record that these programs are not intended to be a new cost factor for the Federal Government or for our economically challenged airline industry. I understand they are voluntary. Just as our Constitution protects the rights of all citizens to own firearms for self-protection, we have provided the ability for airline pilots to voluntarily request that they be allowed to carry firearms for the protection of their passengers and crew while performing their duties in flight and other cabin crew to be trained in self-defense methods if they choose to do so. Nevertheless, I want to make sure the following is completely clear:

One, the Federal Government and air carriers are not obligated to compensate a pilot or cabin crew member for participating in any training program, qualification or requalification to carry a firearm or to train in self-defense. Again, the word there is "obligated." It does not mean that they cannot do it at the airline level, but they are not obligated to do it. And, number two, these training programs cannot be an excuse or reason to disrupt or otherwise interfere with any carrier's scheduled service. Therefore, an air carrier will certainly not be required to disrupt its scheduled service to accommodate a flight crew member's training after that crew member has already been scheduled for duty. These sections are not intended to cause further operational burdens on the airline industry. I just want to be sure in my own mind in this discussion with Chairman YOUNG that I understand what this does in a proper way.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. BLUNT. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, this gentleman, of course, is the chairman of the Committee on Transportation and Infrastructure. I agree with the gentleman's points. As the sponsor of the original bill for allowing the pilots to be armed in the cockpit, this is neither a mandate to disrupt schedules nor a requirement that either the Federal Government or air carrier compensate any crew member for these voluntary programs. I want to stress voluntary programs. It just gives a chance for the pilots themselves to arm and to properly train.

Mr. BLUNT. I thank the gentleman for that clarification.

Mr. WAXMAN. Mr. Speaker, I yield 3 minutes to the gentlewoman from Florida (Ms. BROWN).

(Ms. BROWN of Florida asked and was given permission to revise and extend her remarks.)

Ms. BROWN of Florida. Mr. Speaker, I do have a question for Chairman YOUNG at the appropriate time. I want to make my statement and put it in the RECORD, but on that same subject as far as the gun provision as put in the RECORD and the colloquy, can you clarify for me whether or not these pilots are going to be trained to carry these guns and how will it affect the public if the pilot accidentally kills someone?

Mr. YOUNG of Alaska. If my good friend will yield, I can suggest to her respectfully, under the bill they have to have the training; and I would rather have my pilot be armed and defend that cockpit as against an F-16 to be shot down. That is the whole intent. So in the bill they are trained, yes. All this says is that it is a voluntary process they go through, but the training is necessary.

Ms. BROWN of Florida. But they will be trained?

Mr. YOUNG of Alaska. Oh, absolutely.

Ms. BROWN of Florida. Yes, sir.

Let me just say as far as the bill is concerned that it is still the same flawed bill that this House passed in August. The problems with creating an agency of this size are still there. I do not see any new solutions. This bill is still taking agencies with important non-homeland security duties and placing them in agencies with no mission statement.

□ 1915

The first agency to respond to the terrorist acts of September 11 was the United States Coast Guard. Within minutes, they were guarding our ports, bridges, and waterways from home. It was so reassuring to know that they were out there protecting us while other agencies were still in shock, all under the supervision, by the way, of the Department of Transportation.

I am strongly opposed to transferring the Coast Guard to the Department of Homeland Security. Moving the Coast Guard to the new department is not in the best interest of the Coast Guard, the Department of Homeland Security, or the American people.

Each year the Coast Guard conducts over 40,000 search and rescue cases. They inspect U.S. and foreign flag ships and protect millions of U.S. citizens who travel on cruise ships and ferries each year. Over 80 percent of the Coast Guard's operation budget is spent on missions that have nothing to do with border protection or Homeland Security.

Another reason why I oppose this bill is because of the horrible labor provisions. This bill does away with American workers' basic right to join together and stand up for their rights. This is just another example of the Bush administration's union-busting policy. Under the pretext of national security, the compromise legislation does away with all provisions of our Nation's civil service laws for employees of this new department and allows the President to strip employees of their rights to collective bargaining. In this bill employee unions could appeal even anti-worker personnel rules; yet they have no real power to overturn this.

We have heard many problems with the new Transportation Security Agency. The problems TSA is facing are a perfect example of why we need to be more deliberate in creating a homeland security agency. The Republican Party is supposed to be the party of small government, but today they are creating a huge monster.

Mr. ARMEY. Mr. Speaker, I yield 1½ minutes to the distinguished gentleman from Connecticut (Mr. SHAYS), chairman of the subcommittee of jurisdiction, who has held over 30 hearings on this subject.

Mr. SHAYS. Mr. Speaker, we have been given a great opportunity to protect our countrymen and the world.

The Bremer Commission, the Gilmore Commission, the Hart-Rudman

Commission, all warned us to wake up to the terrorist threat. Unfortunately that call came on September 11.

We need to know, as these commissions urged, what is the threat, what is our strategy? And how are we going to reorganize to deal with implement this strategy?

The threat is real. We are at war with terrorists to shut them down before they use weapons of mass destruction against us. This threat requires a new strategy. It requires detection and prevention. It requires us to be proactive and in some cases preemptive.

This new strategy requires us to reorganize, to take various government departments and bring them together in a focused, unified approach under the four pillars outlined by the President. The first has a border and transportation focus. The second is emergency preparedness and response; one place for first responders to come to in our government and one place for resources to go out to them.

The third pillar provide chemical, biological, and nuclear countermeasures. And the final pillar is information analysis, the plug into the intelligence community.

We need to reorganize our government to be able to implement our new strategy and confront the new terrorist threat facing this Nation and the world. We need to wake up and do it now.

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. OBERSTAR).

(Mr. OBERSTAR asked and was given permission to revise and extend his remarks.)

Mr. OBERSTAR. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, the homeland security bill has a number of problems with it that invite my opposition. First, it has aviation provisions that will diminish security and safety. It will give inequitable benefits to airlines and private security companies. It extends the current deadline for screening all checked baggage for explosives, with the most modern explosive detection systems. Rather than encouraging delay, we ought to be pushing the Transportation Security Administration to meet existing deadlines. We should force TSA to use equipment that is now sitting in warehouses and give them the funding they need to acquire that equipment and meet the deadline rather than extend the deadline.

The bill requires TSA to allow unlimited numbers of pilots to carry guns. The Bush administration, their Secretary of Transportation, the Transportation Security Administration agree with me that there are many unanswered questions about widespread arming of pilots, whether that would create more safety hazards than security benefits. There should be no more than a trial program until these issues are resolved with a very small number of pilots.

The bill gives much needed relief to the airline from insurance costs. Yes, I am for that. But it provides no help, no assistance to airline workers who lost their jobs, lost their health insurance, deserve better from this Congress, were promised better by this Congress from this very well. The bill limits the liability of private security companies, including foreign-owned companies, for the tragedy of September 11. That is an abomination. That should not be permitted in this legislation.

The bill continues to have the Commandant of the Coast Guard report directly to the Secretary of Homeland Security. It allows all of the Coast Guard's homeland security missions, however, to be transferred from the Coast Guard, an agency that has defended our shores for over 200 years.

Mr. Speaker, I rise in opposition to H.R. 5710, the Homeland Security Act of 2002.

The aviation provisions in the bill will diminish security and safety, and give inequitable benefits to airlines and private security companies. In particular, H.R. 5710 would extend the deadlines for installing explosive detection systems (EDS) to screen checked baggage at airports; provides the airlines with \$1 billion in relief from insurance costs, while providing no assistance to those airline workers who have lost their jobs and their health insurance; limits the liability of private security companies, including foreign owned companies, for their roles in the tragedy of September 11th; and requires the Transportation Security Administration (TSA) to allow unlimited numbers of pilots to carry guns.

Screening of checked baggage is a major building block in the comprehensive security program we need—a program with redundancies similar to the redundant safety systems, which have resulted in our airlines' outstanding safety record.

Extension of the December 31 deadline will do great harm. It will take all the pressure off TSA and the airports, and we will fail to install many explosive detection machines that could have been in place by December 31. This will increase the risk that we will fail to detect an explosive device in baggage checked by a suicide bomber.

Rather than encouraging additional delay, we should be pushing TSA to make every effort to meet the existing deadlines. We should force TSA to use equipment now sitting in warehouses, and give them the funding they need to meet the deadline. Existing law allows TSA to deal with cases where a brief delay is needed. The Aviation Security Act requires that all baggage that cannot be inspected by EDS must be either matched with a passenger on the aircraft, or inspected by another means, such as a manual search, or canine detection in combination with other means.

Before we extend any deadline for EDS deployment, we should ensure that such extension requires the TSA to improve the interim program by mandating positive bag match for connecting passengers, and by requiring that more bags be subject to direct inspection.

The American traveling public wants to feel secure when they fly, and part of that security is knowing that their bags have been thoroughly screened for explosives when they board an aircraft.

As to extending the war risk provisions for another year, I support legislation to give the

industry relief from the extraordinary problems created by September 11th and those that will arise from a war with Iraq. The Aviation Subcommittee has reported out legislation to deal with many of these problems; increased costs for insurance against terrorism, the loss of freight and postal business because of security restrictions, inadequate compensation to the airlines for some extraordinary security costs, and the implementation of passenger screening programs that unnecessarily inconvenience passengers who do not threaten security.

But there is a dark cloud hanging over our efforts to help the industry. While H.R. 5710 gives the airline industry financial relief from problems created by terrorism and war, the bill does not extend the same fair treatment to industry employees, who have also suffered disproportionately from terrorism and war. I and my colleagues on this side of the aisle insist that there must be balance in any relief package for the airline industry. H.R. 5710 does not remedy this problem, and therefore I am unable to support it.

This is not a new issue. When we passed a \$15 billion assistance bill soon after September 11, I, and many of my colleagues, insisted that if the airline companies were to be afforded relief, so should employees who had lost their jobs. The Republican leadership told us that there was no time to develop a consensus proposal on employee relief, but on the House Floor, Speaker HASTERT promised prompt consideration of employee relief, including financial assistance, ability to retain health insurance, and training for new careers. Regrettably, the leadership has not followed through, and the House has never considered assistance for displaced airline employees.

Aviation industry workers, including employees of airlines, Boeing and aerospace suppliers, and airports, have suffered unprecedented job loss and economic uncertainty. Some 100,000 airline employees are out of work or facing imminent layoff. Another 30,000 Boeing workers are laid-off along with 51,000 additional aerospace employees. And with bankruptcies looming large, it is easy to conclude that the staggering job losses will only grow.

If the airline industry is entitled to special relief because it has suffered disproportionately from terrorism and war, its displaced employees are also deserving of relief.

Moreover, H.R. 5710 includes a special interest provision to immunize airport screening companies whose negligence may have contributed to the September 11 terrorist hijackings.

In the Aviation Security Act, we expressly decided that private screening companies should not be relieved of liability for any of their security deficiencies that played a part in the September 11th tragedies. However, H.R. 5710 would extend this protection to firms such as Globe Aviation Services and Huntleigh USA Corp., the security companies responsible for providing staff at Logan Airport on September 11th and that continue to contract with TSA today.

This provision is nothing more than a special interest provision that protects negligent airport screening companies at the expense of the victims of the September 11th tragedy.

Further, the bill requires TSA to allow unlimited numbers of pilots to carry guns. The Bush Administration agrees with me that there are

many unanswered questions as to whether widespread arming of pilots would create more safety hazards than security benefits. Until these issues are resolved, there should be no more than a trial program with a small number of pilots.

I am also opposed to the bill because of provisions which threaten the ability of the Coast Guard and FEMA to carry out all of their important responsibilities, some of which involve security, and some of which do not. For example, in addition to security, the Coast Guard has responsibilities for maritime safety, environmental protection, and drug interdictions and FEMA has responsibilities for aiding recovery from natural disasters, such as floods and hurricanes.

The bill now before us divides these agencies and threatens their ability to continue to fulfill all of their responsibilities.

Although the bill continues to have the Commandant of the Coast Guard report directly to the Secretary of Homeland Security, it allows any or all of the Coast Guard's Homeland Security missions to be transferred from the Coast Guard—an agency that has defended our Nation's shorelines for more than 200 years. Under the bill, only non-homeland security missions of the Coast Guard may not be transferred from the Coast Guard.

We have been told that the intent was to keep the Coast Guard intact. How can you do that if you allow their homeland security missions to be transferred out of the agency?

Similarly, the bill splits the Federal Emergency Management Agency (FEMA) in two by transferring and consolidating FEMA's Office of National Preparedness into a new Office of Domestic Preparedness, which is under the Directorate of Border and Transportation Security, and transferring the remaining portion of FEMA to the Directorate of Emergency Preparedness and Response. By splitting FEMA in two, we threaten the effectiveness of one of our Nation's most effective and most respected agencies.

Moreover, this is essentially the same scheme that this Body rejected in July when, during consideration of the Homeland Security bill, the House unanimously adopted an amendment to ensure that FEMA would be kept intact within the new Department of Homeland Security.

In view of these and other deficiencies in the bill now before us, I am convinced that the bill will do more harm than good. I urge defeat of the bill.

#### AVIATION

H.R. 5710, the Homeland Security bill, includes aviation provisions that will diminish security and safety, and give inequitable benefits to airlines and private security companies.

The bill extends the current deadline for screening all checked baggage with explosive detection equipment. Rather than encouraging additional delay, we should be pushing the Transportation Security Administration (TSA) to make every effort to meet the existing deadlines. We should force TSA to use equipment now sitting in warehouses, and give them the funding they need to meet the deadline. Existing law allows TSA to deal with cases where a brief delay is needed.

The bill requires TSA to allow unlimited numbers of pilots to carry guns. The Bush Administration agrees with me that there are many unanswered questions as to whether widespread arming of pilots would create more

safety hazards than security benefits. Until these issues are resolved, there should be no more than a trial program with a small number of pilots.

The bill gives the airlines \$1 billion relief from insurance costs, while providing no assistance to those airline workers who have lost their jobs and their health insurance.

The bill limits the liability of private security companies, including foreign owned companies, for the tragedy of 9/11.

#### COAST GUARD

Although the bill continues to have the Commandant of the Coast Guard report directly to the Secretary of Homeland Security, it allows any or all of the Coast Guard's Homeland Security missions to be transferred from the Coast Guard—an agency that has defended our Nation's shorelines for more than 200 years. Under the bill, only non-homeland security missions of the Coast Guard may not be transferred from the Coast Guard.

We have been told that the intent was to keep the Coast Guard intact. How can you do that if you allow their homeland security missions to be transferred out of the agency?

#### FEMA

Similarly, the bill splits the Federal Emergency Management Agency (FEMA) in two by transferring and consolidating FEMA's Office of National Preparedness into a new Office of Domestic Preparedness, which is under the Directorate of Border and Transportation Security, and transferring the remaining portion of FEMA to the Directorate of Emergency Preparedness and Response. By splitting FEMA in two, we threaten the effectiveness of one of our Nation's most effective and most respected agencies.

Moreover, this is essentially the same scheme that this Body rejected in July when, during consideration of the Homeland Security bill, the House unanimously adopted an amendment to ensure that FEMA would be kept intact within the new Department of Homeland Security.

In addressing the issue of our Nation's homeland security, we must get it right and this bill does not begin to achieve that objective.

I urge my colleagues to defeat this bill.

Mr. ARMEY. Mr. Speaker, I yield 1 minute to the gentleman from Florida (Mr. WELDON), my wife's favorite Congressman.

Mr. WELDON of Florida. Mr. Speaker, I thank the majority leader, and I am truly honored to be described in that fashion. Let me commend the gentleman on the outstanding work he has done in shepherding what I think was one of the most problematic pieces of legislation to come through this body.

Mr. Speaker, I am the chairman of the Committee on Civil Service, Census and Agency Organization, and I want to just specifically comment on the civil service issue which I think was the item that was really holding this up more than anything else. And with 1 minute I cannot get into this in detail, but I feel very, very strongly that this is a good compromise product. And indeed as the gentleman from Ohio (Mr. PORTMAN), my friend, said earlier today, and I am in 100 percent agreement with him, this will be probably the best civil service system within the

Federal Government and can actually serve as a model for how we can reform the entire system so that it does what the American people want, which is really promote and reward excellence within our civil service work force, and that is what the people want who work for our Federal Government and that is what is necessary to protect the American people.

This is called the Department of Homeland Security. Let us remember their mission: Protecting the public.

Mr. ARMEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Ohio (Mr. PORTMAN), a member of the Select Committee on Homeland Security.

Mr. PORTMAN. Mr. Speaker, I thank the chairman for yielding me this time. His passion and his persistence are the reason that we are here tonight to do this important work, and I appreciate the role he played in moving this legislation through the system as chair of the Select Committee on Homeland Security.

Mr. Speaker, there is an old saying that goes "Times change and we change with them too." Times have changed and it is imperative to the security of our country, security of our families that our government change as well.

On September 11, 2001, the terrorists who struck our homeland killed more civilians than all our foreign enemies combined. We all woke up to the fact that the threats we face now are very different from the ones we faced in the past. During the Cold War, we adapted our government structure to better utilize the resources we had to fight then a superpower. Today we face a more unpredictable and a more agile enemy and a very deadly enemy, and today we must reorganize our government again so we can stop that enemy before it strikes again, and we are not ready. There are over 100 departments and agencies with some involvement in homeland security, and when every one is in charge, no one is in charge. There is no accountability in the current system.

Last summer President Bush presented to the Congress a very ambitious and visionary plan to merge and consolidate responsibilities in a new Department of Homeland Security, similar to what Senator LIEBERMAN had proposed and what various commissions had proposed. He laid out three strategic objectives: First, prevention of attacks; second, minimizing our vulnerabilities; and, third, minimizing the damage and maximizing recovery should an attack occur. These three pillars provided us with a clear framework to align our resources, people and capital, and to align responsibility and accountability. This single unified structure will make us more efficient, will make us more effective in the fight against terrorism. It will not make us immune, but it will make us safer.

I strongly believe in what we are doing tonight, not because we are cre-

ating a new department but because we are doing it the right way. We are giving this President and future Presidents the flexibility they will need to make it work. That is budget flexibility; it is organizational flexibility; and, yes, it is personnel flexibility to be sure the right people are in the right place at the right time to protect us. The 21st century threats that we now meet head on cannot be handled by early 20th century civil service rules and bureaucracy. So, yes, the President and the new Secretary of Homeland Security will have the flexibility to design a new human resources management system, but it is one that will preserve fundamental civil service and worker protections while at the same time building a team atmosphere that is absolutely crucial by rewarding and promoting excellence and ensuring that we can do all we can to recruit the best people to this task.

We have before us, Mr. Speaker, a bill that will both protect the homeland and protect workers' rights. It is the right balance.

Mr. Speaker, I urge my colleagues on both sides of the aisle to strongly support this legislation before us tonight. It represents an agreement between the House and the Senate and the White House, and by joining together we will send a strong message to the American people and to the other body that we are committed to doing all we can to protect our families and our country.

Mr. ARMEY. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Oklahoma (Mr. WATTS), the chairman of our conference and a member of the Select Committee on Homeland Security.

Mr. WATTS of Oklahoma. Mr. Speaker, I thank the gentleman from Texas (Mr. ARMEY) for yielding me this time. I appreciate very much his leadership that he has shown on this issue and his persistence.

Mr. Speaker, I rise to support this historic initiative to bolster the safety of Americans with an effective and focused Homeland Security Department. We are making the bureaucracy work for the American people rather than having the American people work for the bureaucracy.

The House has come back to work in a post-election session so we can pass an initiative that has languished for far too long. One year, 2 months and 2 days have passed since attacks on our Nation provoked the war on terror. Our military has responded with might abroad, but our vulnerability remains unnecessarily high here at home. From seaports to the air, roads to the rail, terrorists have too many opportunities to exploit openings in a hole-ridden fence that is supposed to be our homeland defense.

I have been working on this issue for many years, and I was privileged to be a member of the Select Committee on Homeland Security. I commend my colleagues on that panel for their commitment, and I salute the President for

his steadfast perseverance even as many thought we could not get the job done this year.

The domestic terrorism waged on my home State in 1995 opened the eyes of Americans to the evil that can be perpetrated by as few as two people. The bombing of the Oklahoma Federal building forever changed the lives of citizens who thought they were safe. The hijacking of four airplanes on September 11, 2001, multiplied that catastrophe to unspeakable proportions. Today, we are about to take a bold step to respond to such evil by learning from the actions of the past to prepare for unforeseen acts of terror in the future.

The Department of Homeland Security will organize a government that is fractured, divided, and underprepared to handle the all-important task of defending our great Nation from terrorist attack.

My colleagues on the other side of the aisle have tried to muddy the waters by invoking special interests over national security. But that is not what this bill is about. The President needs the freedom and flexibility to protect the homeland. He, just like every Commander in Chief since Jimmy Carter, must continue to have the ability to use presidential prerogative when it comes to the safety of the country.

An amendment I offered months ago in committee remains in today's legislation and will help foster a better relationship between the private sector and the new department by establishing a private sector liaison in the Secretary's office.

□ 1930

This liaison will also work with government researchers and academia to procure the best tools mankind has to offer.

Again, we are talking about the security of our Nation. A promise made is a promise kept. By creating a Department of Homeland Defense, we will be better prepared for acts of terror.

This is an important victory for the safety of Americans from coast to coast, border to border. I urge my colleagues to pass this bill and help secure the future of this great land of ours we call home and the rest of the world calls America.

Mr. WAXMAN. Mr. Speaker, I yield 2 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

(Ms. JACKSON-LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, let me thank the gentleman from California (Mr. WAXMAN), of course, for his leadership, and as well the bipartisan committee that was crafted in the House reflecting the work of many of our committees.

Might I say for a moment that I do want to acknowledge the work of the majority leader, a colleague of mine from Texas. Not knowing what legislative agenda we will have tomorrow, I

would say to the gentleman from Texas (Mr. ARMEY), this might be a great swan song; and we thank the gentleman very much for the work that he has done.

I do want to raise some issues, and I appreciate the work of the Committee on Science and acknowledge that this may be the most important legislation created since maybe the creation of the now Defense Department, then the War Department, because it does deal with defense, security, domestic security, and ensuring that America is safe.

But we also have to have an agency that works, a Department that works. The Committee on Science appreciates the creation of the Under Secretary for Science and Technology and a Homeland Security Institute, because part of our security is in fact based upon the knowledge that we have.

I am somewhat disappointed that the idea I had involving involvement and consultation with NASA because of its extensive satellite system was not included, but I would look forward to this legislation being amended forthwith so we can work with this and improve it. I am also concerned about the function of the Inspector General and the issue of purging waste, fraud and abuse; and I am concerned as to the structure of that particular position.

Moving quickly to the immigration issues on the Judiciary Committee, I am gratified that the Department of Children's Affairs does still exist as we had designed it under the immigration legislation and in the Committee on the Judiciary, which separates out a procedure for children who are unaccompanied who are coming in as illegal immigrants. I believe that children need to be handled differently, and the gentlewoman from California (Ms. LOFGREN) and myself were very keen on this issue, and we thank those for their support.

Let me also say I am very much appreciative of the fact that we do have a bureau that deals with immigration services. I think that is good; and I think we should make sure this is a country of immigration, and immigration does not equate to terrorism.

I hope this bill has some ability to bring people together, but I also hope we will look at it in the future and make it a better bill.

Mr. ARMEY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Florida (Mr. MICA), the chairman of the Subcommittee on Aviation.

Mr. MICA. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, not only is this an excellent bill that gives the President the flexibility he needs to provide homeland and domestic security, but this bill has some excellent provisions relating to aviation security and the future security of the aviation industry and our Nation. Let me address a couple of points that have been made here today.

First of all, the extension on the checked baggage screening require-

ment. The week of November 12, 2001, when we passed the bill before it was signed into law November 19, we knew that we could not manufacture the equipment necessary, that it would be ludicrous to spend billions of dollars to try to meet arbitrary deadlines with equipment that does not work. But what we provided for here is equipment that will work, that can be installed on a realistic basis; and we have assisted our airlines in not compromising security by putting in place in fact the very best measures.

We also put a provision in here to arm our pilots. They asked for that protection. That is a good provision and it is long overdue, because we know they are the last line of defense; and they have requested this, seeing the gaps in the security system in transition. So I am pleased with that provision.

Finally, the survival of the aviation industry. The war risk provisions and liability provisions are excellent. We held hearings on this issue, and one of the greatest areas of loss for our aviation industry is not being able to either obtain or obtain at reasonable cost liability and war risk insurance.

This does not compromise security, it does not compromise jobs, and it does not compromise the future economy and progress of this Nation.

So, Mr. Speaker, this is not a perfect bill. But it is a good bill, and it has some excellent provisions. I urge my colleagues to support this measure.

The SPEAKER pro tempore (Mr. LAHOOD). The gentleman from California (Mr. WAXMAN) has 3 minutes remaining, the gentleman from Texas (Mr. ARMEY) has 5 minutes remaining, and the gentleman from Texas has the right to close.

Mr. WAXMAN. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I listened to the arguments on the other side from people for whom I have an enormous amount of respect. The gentleman from Texas (Mr. THORNBERRY) has been working on this issue for some time, and the gentlewoman from my own State of California (Mrs. TAUSCHER) has also been very involved in creating such a Department. I, too, have supported the idea of a Department for Homeland Security. But I think this bill creates so much bureaucracy and inefficiency that I fear that it will not accomplish its purpose.

Primarily, what we should do is coordinate the activities of the FBI and the CIA. We know the history of the FBI and its problems. Problems such as Hansen, a double agent, and how the FBI pursued Wen Ho Lee. We know about the ongoing problems of coordinating between the FBI and the CIA. This bill does not do anything to enhance the cooperation between these two agencies.

Instead of giving the White House the authority to review the budgets and to coordinate the activities of the agencies of government involved in defend-

ing our homeland, this bill takes all those agencies of government and puts them into a new Department. Now there has to be a new bureaucracy set up in this new Department with all these new employees who used to do other things in other agencies to try to make this whole thing work.

The President was not originally for this Department. The idea came from Senator LIEBERMAN, particularly, and others. Many of us argued there should be a Homeland Security Department with the power to streamline, not bureaucratize. One that would be limited. One that controlled the operations of our border agencies, immigration, customs. We ought to have something along those lines. One with the White House authority written into law.

The President created an Office of Homeland Security and appointed Governor Ridge, but that office does not have the authority to make its decisions stick with other parts of the Federal Government bureaucracy. I, with all due respect, think this is a real problem with this bill.

In addition, we have not heard anybody on the other side get up and defend the smallpox special interest provision, the protection for the manufacturers of the vaccine. No one has even raised that issue on the other side. It was not in any bill that passed the House nor was before the Senate. Suddenly it appears here, condemning people who are injured with the inability to sue if there was negligence on the part of a manufacturer of a vaccine. This is the ordinary way in which they can pursue those claims at the present time.

Why is this special interest provision suddenly in this bill? Why is that here, without any opportunity to have it reviewed or analyzed? Why do we have provisions in this bill that protect the manufacturers who engage in negligent behavior when creating devices to be used for homeland security?

I am troubled by the way this whole bill has been considered, and I would urge my colleagues to vote against the legislation.

Mr. ARMEY. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, I have listened carefully to the arguments in opposition to this bill. One reason being, Mr. Speaker, when we began this debate I was fascinating myself with the question of how could anybody oppose this bill. These are the four complaints I have heard:

One, there seems to be a concern that the bill is being rushed to the floor. The gentleman from California just pointed out, the President of the United States for a long time did not adopt this idea. It had been proposed by many people, and many Democrats. Only after seeing the thorough need and the thorough possibilities for success did the President in June propose Homeland Defense.

This House of Representatives worked on it, and with the Select Committee working in consultation with

all the committees of jurisdiction in this House, with testimony taken from the chairman and ranking member of each of these committees, produced the bill that was brought to this floor and passed on July 23 with 295 votes. We have waited on the other body; and only after an exhaustive wait did the President propose, insist, last week that we move forward, and now it appears that both bodies will.

Pursuant to the President's insistence of last week, we have worked literally night and day in consultation with all the committees of jurisdiction in both bodies and with the White House to craft this legislation which today we bring to the floor.

In that regard, Mr. Speaker, let me say that we owe an expression of appreciation to so many staff on both sides of the aisle, on both sides of the building and in the White House and the agencies of the government for all of their hard work, night and day, literally, for the last 4 or 5 days.

But may I take just a moment for a special thank you. Those men and women who labor on behalf of all of us in the Office of Legislative Counsel are too seldom recognized; and with the indulgence of this body, let me single them out for special appreciation for the efforts they have made.

No, this was not rushed to the floor. We worked hard on it; we worked together on it. Virtually every Member of this body and the other body was consulted in some way on some part of this bill.

We are told that America does not care about homeland security. Were you not listening? I think they made the point last week. They do care. It is important.

We were told that Members did not get to participate. I know of no piece of legislation brought before this body in my 18 years I have been here where there has been more comprehensive, committee-by-committee, subcommittee-by-subcommittee, Member-by-Member participation in the process of preparing the bill.

We were told that the bill was being offered for political purposes in anticipation of the next election. Mr. Speaker, let me say as my final point, I know of no time in my 18 years in this body where the principal author of a bill brought to this floor had less interest in the next election than this time here.

Mr. BLUMENAUER. Mr. Speaker, from the beginning of the homeland security debate, after studying evidence and listening to Oregonians, my priorities have been clear. Strengthening the capacity of our government agencies to defend our nation from terrorist attacks is necessary and vital to our society. Our nation will benefit from better communication among federal agencies and from improved safety of air travel, our borders, our ports, and our water supplies. However, we must develop a focused strategy to protect our nation rather than taking cosmetic actions.

We need to address the intelligence failures that led up to the event of September 11. We

need to work with local governments to coordinate responses to future attacks. The proposed Department does not address either. A massive restructuring of the federal government will not necessarily improve the security of our nation.

As has been documented time and again in jarring detail by the news media, the FBI and CIA were not properly coordinated before September 11. This enormous reorganization, rather than dealing with fundamental problems between these two agencies, adds a third governmental department to the uncoordinated mix.

My own experience is that government reorganizations are difficult and complex. There are many demands on employees and stripping away workers' protecting will only create friction and uncertainty. It would be more simple and fair to make adjustments for those employees that work primarily with intelligence or terrorism investigations than to strip away the collective bargaining rights of all employees included in this new government.

Finally, the timing is problematic. The leadership rushed the first bill through the House in an attempt to pass it into law before the anniversary of September 11. Now, just days after the election, the House and Senate Republicans produce a new bill, exempting labor protections for workers, in back room negotiations. A significant reorganization would be better served by an open, inclusive process. The Homeland Security Department, as proposed in this bill, will detract from our ability to truly protect our nation.

Mr. CONYERS. Mr. Speaker, the tone of bipartisanship the Republicans used to win control of Congress has ended. We saw a draft of this bill, which is the largest reorganization of the Federal government in decades, only late yesterday afternoon. We were not given any opportunity to make improvements, and we now find ourselves on the House floor under a rule that prohibits amendments. I have more concerns with this legislation that I can count, but I will focus on three: the anti-labor, anti-immigration, and pro-corporate irresponsibility provisions.

First, this legislation guts the civil services and collective bargaining protections that currently exist for Federal employees. It makes it difficult for employees of the Homeland Security Department to collectively bargain for fair compensation. The argument from the other side seems to be that employees who have rights might not be able to do their jobs effectively. But does anyone remember who the heroes of September 11 were? It was the firefighters and police officers of New York and Virginia, all of whom were members in good standing of organized labor. Can anyone suggest that their civil service and union protections did anything to weaken their resolve? Of course not.

Second, this legislation moves the entire Immigration and Naturalization Service, its services and enforcement functions, into the new Department. To the contrary, in the INS reorganization bill that I supported and we passed earlier this Congress, we kept the services portion of the INS in the Justice Department and moved only the enforcement functions to the Homeland Security Department. By moving both functions of the INS to the Homeland Security Department, this legislation by implication treats all immigrants as terrorists.

Finally, this bill provides civil liability protections for government contractors that provided

"anti-terrorism products." The new Secretary could immunize from any tort lawsuit the conduct of any company that sold defective anti-terrorism products to the government or the public. This means that a family that purchases a product to protect itself from terrorism, and finds the product to be useless, might have no cause of action against the contractor. The immunity provision also could shift the burden of identifying the wrongdoers and apportioning blame from the defendant to the victim.

Ms. SCHAKOWSKY. Mr. Speaker, I rise in opposition to H.R. 5710, the Homeland Security Act of 2002. This is the second homeland security bill the House has considered this session and it is still a far cry from a measure that will live up to the promise of its name. I am not convinced this bill will in fact make Americans safer than they are today. Moreover, the bill contains misguided and dangerous provisions that may cause more harm than good.

We all agree we must do more to protect our country from threats posed by those who wish us harm and those who wish to alter the way we live our lives. I am disappointed that the measure before us does not represent a more positive step in that direction. I am also disappointed that provisions I opposed when the House first considered this legislation are still in the bill.

There are a number of serious problems with this legislation that force me to vote against it for a second time.

This bill gives broad new authority to the President to reorganize the massive federal workforce created by this legislation. The bill gives the President an excuse to disregard and to take away hard-won civil service protections and collective bargaining rights for employees of the new Department. At a time when agencies throughout the federal government—in Washington, D.C. and in cities across the country—are having difficulty attracting and retaining qualified employees, this bill could turn employees of the new department into second class workers. What kind of a signal will we send to those federal workers if we ask them to move and tell them that they will lose many of the guaranteed rights that they now enjoy? How many of those workers will decide to leave federal service and move to the private sector? For those workers who do stay, how can we expect them to demonstrate high morale and commitment when they know that they lack the same rights as their federal colleagues in other agencies?

There is no national security rationale for stripping workers of their basic rights. I am particularly concerned about the fate of administrative workers in agencies that are to be transferred to the new department. Many of them are not directly involved with homeland security issues but will nevertheless be denied their rights. Congress enacted civil service protections and collective bargaining rights so that we could attract the very best to government service. We should not give this or any other Administration the right to take them away. As we stand together to fight terrorism, we should also stand together for the rights and well being of federal workers.

The House also missed an opportunity today to provide real protections for whistleblowers. I offered an amendment that would guarantee American patriots who come forward to expose improprieties and threats to

our security a guarantee that, if they are retaliated against for their actions, they will have a right to legal recourse.

This bill creates an exclusion from the Freedom of Information Act to all information dealing with infrastructure vulnerabilities that is voluntarily submitted to the new department. This is an unnecessary provision because, under current law, the government already has the authority to exempt from FOIA information that meets one of several standards, including that which is related to national security and trade secrets. This bill also exempts committees created by the Secretary of Homeland Security from the Federal Advisory Committee Act. This would allow the Secretary to create secret forums where lobbyists for all sorts of special interests could push their agendas with the Administration without concern that the public would find out and regardless of whether their discussions are about security or business goals.

The legislation before us today negates the Congressionally-mandated requirement that all airports have the ability to screen checked baggage for explosives. One of our most frightful and realistic vulnerabilities is the status of our air travel system in this country. It is a sad message to send to our constituents and the flying public that we are not willing to do what it takes to ensure the skies are truly safe. Many on the Republican side have argued that the task of providing equipment to secure our planes and prevent terrorist devices from making their way on board is too costly. We cannot afford to do otherwise.

I am very disappointed to see that the bill before us today takes a step away from providing true security for people by protecting them from discrimination and mistreatment. Unlike H.R. 5005, which establishes an Office for Civil Rights and Civil Liberties with a Director, this new bill simply appoints an officer to review and assess information alleging abuses of civil rights, civil liberties, and racial and ethnic profiling. I offered an amendment to establish an Office for Civil Rights and Civil Liberties, and I feel that anything less will fail to adequately meet the goal of ensuring that no one is mistreated by this new department.

I would also like to draw my colleagues' attention to the issue of how our immigration system is organized within this bill. I come from an immigrant-rich district and I have made it a top priority to ensure that newcomers to this country are received in a fair and considerate manner. I am pleased that H.R. 5710 retains the provisions establishing an Ombudsman's office to assist individuals and employers in resolving problems with citizenship and immigration services. The bill also takes steps to hold the Bureau of Citizenship and Immigration Services accountable by requiring it to report how it is handling its immigration caseload and how it is working to eliminate its infamous backlogs. These are very important steps, and I urge my colleagues to continue to work to improve upon these new provisions, as well as the organization of immigration functions, so that the quality and efficiency of the services offered to immigrants are not compromised, and are in fact improved.

Unfortunately, this bill fails to address even the most obvious and immediate homeland security concerns. It does not address the serious problem of information sharing and communication among the intelligence community.

The CIA and FBI are left out of this new department and there is no provision in this bill clearly stating the mechanism for past communications failures to be fixed. Instead, what the President and the Republicans in the House put forth is a massive reorganization of the federal government, nothing more than a reshuffling of the deck, with a few added tools for the Administration. Simply shifting people and agencies will not make America safer and that is all we will accomplish if we pass this bill. I urge all members to reject this flawed legislation and to focus on efforts that will actually enhance our security and maintain our American way of life.

Mr. HASTINGS of Florida. Mr. Speaker, I rise in strong opposition to the 11th-hour version of the Homeland Security Act.

When the House originally debated this legislation last August, more than one hundred amendments were submitted to the Rules Committee. Barely 1/4 of those amendments were considered in order, despite recommendations from eleven congressional committees. Now we've been presented with a new, 484 page version of the bill, and are not being given any time to assess its merits and flaws.

During our first debate, I introduced an amendment that protected the Equal Employment Opportunity and whistleblower rights of civil servants. My amendment was unanimously approved, a clear indication that federal workers' rights are an important concern for this Congress. In fact, this issue was so important that it caused the first bill to get bogged down in the Senate for more than three months.

Although I note that the protections in my Amendment have been included, the new version gives the Secretary the authority to establish a "contemporary" human resources management system, but does not define the word "contemporary" in this context. This authority will affect the 170,000 federal workers who will transfer to the new department and deserves careful scrutiny and debate.

Another disturbing item in this bill is the unprecedented authority of the new Secretary, who will be able to transfer funding between departments in the new agency without any congressional authority or oversight. In other words, Congress can approve appropriations for one program, and the Secretary can arbitrarily decide to spend those tax dollars on something else, without congressional approval. This initiative sets a rather alarming precedent for the entire executive branch of government; one that deserves our full and careful attention.

Either we're going to create a new department, or we're going to change the civil service laws and revamp the Executive branch of government. I don't believe we should attempt to do both in one piece of legislation.

The American people are counting on us to create a new department that will reduce our vulnerability and prevent future terrorist attacks. They are also counting on us to do this in a fiscally responsible manner. The earliest the new department would be funded would be January 11, 2003. If we have a year, then let's take a year and do this right. Let's make sure that the new department will deliver what it promises, and let's make sure we know what it will cost.

The Homeland Security Act, as written, is not ready for prime time. We have been given

no time to review the bill, and no opportunity to debate the bill and no option to amend the bill, but we are being asked to approve the bill.

Although there are differences between the first and second versions, different, in this case, does not mean better. As I said in my floor statement three months ago, if we don't take the time to do this right, we're going to have to make the time to do it over, and here we go again . . .

Let's give this legislation the time and attention it deserves and create a Department of Homeland Security that will do what we need it to do. We must have Homeland Security legislation that actually improves our homeland security, not just creates a new federal agency with new civil service rules and unmonitored spending authority for its Secretary.

I urge my colleagues to vote "no" on this bill.

Mr. HOYER. Mr. Speaker, much of the controversy swirling around this Homeland Security Act relates to our treatment of Federal employees, many of whom stand on the front lines in our war against terrorism.

I share the deep concern of those who believe that the reorganization proposed under this bill will undermine the rights given by law to thousands of our Federal employees.

And let me note: Earlier this year, I specifically asked OPM to cite even one example in our nation's history where union membership had threatened our national security. OPM could offer none.

However, the controversy surrounding the rights of Federal employees is not the basis of my opposition to this Homeland Security Act. And I am deeply concerned that the attention devoted to it obscures the larger point.

As the Baltimore Sun observed on September 23rd:

"Months of debate have made clear that this bureaucratic boondoggle offers no promise of making the homeland more secure. Worse, it takes the focus off the need for tighter oversight of the nation's security systems."

I am greatly concerned, Mr. Speaker, that this legislation could actually harm our ability and readiness to protect our homeland.

Under this legislation, 22 existing agencies and programs and 170,000 people would be integrated into this new department.

Yet, many of the agencies that are critical to our homeland security would not even be part of this reorganization.

Furthermore, this act fails to recognize that the FBI, DEA and INS are currently grouped within the Department of Justice, but do not effectively communicate with one another.

As special agent Colleen Rowley's testimony indicated earlier this year, the FBI even has trouble communicating within its own agency.

We must not delude ourselves into believing that rearranging deck chairs will protect our ship of state.

What's needed is greater sharing of information within and among the agencies that protect our homeland, so that we may coordinate and synthesize the enormous amounts of information that our government collects.

And we need a lean homeland security office that has the mission and authority to develop and implement a comprehensive strategy for homeland security.

In analyzing this issue, the General Accounting Office warned in July:

It is clear that fixing the wrong problems, or even worse, fixing the right problems poorly, could cause more harm than good in our efforts to defend our country against terrorism."

This act fails to fix our most obvious problem—effective information sharing among agencies.

I urge my colleagues to vote against it.

Mr. LANGEVIN. Mr. Speaker, I rise today in support of the creation of a Department of Homeland Security and am pleased that we are able to consider this important issue before the end of the 107th Congress.

I am pleased that this legislation largely reflects the recommendations of the U.S. Commission on National Security for the 21st Century, chaired by Senators Gary Hart and Warren Rudman, which assessed the nation's security vulnerabilities and recommended the creation of a Cabinet-level Department of Homeland Security. By consolidating the security functions of 22 separate federal agencies into one department, we can ensure that our nation puts forth a united front against terrorism on our soil. The new department represents a major step forward in our efforts to protect the American people. Furthermore, it will serve as an important resource to police, fire, and emergency medical service workers, who represent the first line of defense against terrorism.

In July, the House passed a similar measure, H.R. 5005, which I supported. However, at that time, I urged my colleagues to improve certain provisions in the bill so that we might safeguard civil service protections for department employees and preserve existing good government laws. I am disappointed that today's bill did not go further in those respects. The proposed Department of Homeland Security could employ as many as 170,000 people, and we should promote a work environment that enhances their ability to protect the American people.

I will support this legislation today because it is the responsibility of Congress to keep America safe from future acts of terror. Furthermore, I will closely monitor its implementation to ensure that we protect the security of our nation as effectively as possible.

Mr. PASTOR. Mr. Speaker, although I am a strong supporter of fully utilizing all possible resources to combat this new and tragic war on terrorism, I have serious reservations over the proposal being presented to us today.

Realistically, this bill would do nothing more than rearrange the deck chairs on the *Titanic*. What we really need is to address basic agency policies and promote efficient exchange of information without diminishing critical agency missions.

Keeping major intelligence gathering sources separated from this agency and moving desks across the hall, begs the question as to what we will be accomplishing by this move? Will it result in a smoother information flow, not just from one Washington office to another, but to the actual communities which must have as much lead time as possible to prepare for attack? Are we actually expanding agency areas of responsibility or will it be business as usual? What are we really doing to ensure dam, water supply, energy sources, and transportation safety? What are we really doing to provide an enhanced capability to address hazardous material, chemical, or biological threats? What are we really doing to improve our risk, threat, and vulnerability assess-

ments? What are we really doing to improve the delivery of emergency food, shelter, and medical care in the event of another tragedy?

Troublesome are inconsistencies found in the bill. For example, is the Administration's repeated statements that this bill would consolidate training programs, yet, under Section 403 we see the Department of Justice's Office of Domestic Programs which does COPS training being placed under "Border and Transportation Security," while other training programs are being placed under "Emergency Preparedness and Response" under Section 503.

Another example is found under Section 201(d)7, where the Under Secretary for Information Analysis and Infrastructure Protection is charged with exercising primary responsibility for public advisories related to threats to homeland security, while in Section 214(g) it states that the federal government may provide advisories, alerts, warnings to relevant companies, targeted sectors, other government entities, or the general public regarding potential threats. Where is the coordination and are we creating two separate sets of warnings?

Questions have been raised on the coordination mechanism between Homeland Security officials and other Departments. For example, if Homeland Security officials are designated to establish research efforts and attempt to direct Department of Defense agencies on those efforts, who actually has final authority?

In particular, I am troubled that this legislation offers so little to assist first responders, the men and women on the street who willingly put themselves in harm's way for the greater good. We must ensure that these dedicated citizens are provided with all possible resources to both protect them and support their mission.

I am hopeful that this legislation is defeated and the Congress continues to consult with experts in a more circumspect manner and that crafts a measured more approach that maximizes our ability to anticipate, prevent, and react to acts to terrorism.

Mr. BENTSEN. Mr. Speaker, today I rise in support of H.R. 5710, which establishes a Department of Homeland Security as an executive department of the United States, headed by a Secretary of Homeland Security. The primary mission of the Department of Homeland Security will be to anticipate and prevent future terrorist attacks, reduce America's vulnerability to terrorism, and improve upon our existing ability to respond and recover from any possible terrorist attacks. The tragedy of the September 11th terrorist attacks underscored a changing environment for the United States and exposed glaring weaknesses and vulnerabilities in our domestic security infrastructure. As a Congress, we must address our most fundamental priority and responsibility, ensuring the security and liberty of our nation. Today's legislation would do just that, consolidating 22 different agencies with varying responsibilities for border security, bioterrorism defenses, and disaster mismanagement into one streamlined organization, the Department of Homeland Security. Within the Department of Homeland Security will be four primary divisions: the Border and Transportation Security Directorate, the Emergency Preparedness and Response Division, the Science and Technology Directorate, and the Information

Analysis and Infrastructure Protection Directorate.

More importantly, H.R. 5710 restructures key agencies by shifting control of their directives to the new Department of Homeland Security. A key example of this is the abolishment of the Immigration and Naturalization Service (INS). Instead, the bill creates two new agency components, one responsible for immigration enforcement and visa matters, and the other handling citizenship matters. This provision is similar to legislation I cosponsored in the previous 106th Congress, which would have split the INS into separate agencies to make it more efficient, accountable, and fair with regard to general immigration and citizenship matters. I am pleased that H.R. 5710 includes these crucial reforms, as the INS is an agency in dire need of overhaul.

Mr. Speaker, I am pleased that H.R. 5710 includes provisions similar to H.R. 4598, the Homeland Security Information Sharing Act, which will require the administration to develop procedures for the sharing of both classified and declassified information between federal agencies and the appropriate state and local authorities. Furthermore, existing barriers against the sharing of foreign intelligence are relaxed as well. As was so clearly demonstrated by the events of September 11th, the failure to share and disseminate crucial intelligence and timely threat information through the appropriate channels can have devastating consequences. While I understand the necessity of protecting intelligence-gathering methods, I believe that in order for there to be truly effective and comprehensive homeland security, state and local officials must be adequately informed of pending threats facing their communities. I believe H.R. 5710 strikes that careful balance between the protection of intelligence methods and the dissemination of necessary intelligence to state and local authorities, information crucial to them in protecting their communities.

Mr. Speaker, while I am in strong support of the core concepts behind the Department of Homeland Security, I continue to have some concerns about specific aspects of the legislation. I am concerned about provisions which would allow the new Department to establish a new personnel management system and pay systems for its employees, outside of the existing civil service system, which could possibly undermine important civil service protections. However, I am pleased that the current version of homeland security legislation, H.R. 5710, is an improvement over the House-passed H.R. 5005 in regards to civil service protection, because it allows for a period of notification, provides venues of mediation, and includes provisions for appeal procedures.

In addition, H.R. 5710 also limits legal liability for certain anti-terrorism products certified by the new Department. While the desire to promote the widespread commercial use of innovative new technology against terrorism is laudable, I believe it should not come at the expense of important legal accountability and safety standards.

However, I also find that there is much in H.R. 5710 that is very necessary for passage and enactment including authorization for Department of Health and Human Services to administer the smallpox vaccine to segments of the public, and the creation of tax-deductible charitable funds to be used to compensate

military, law enforcement, and intelligence personnel killed in the line of duty as a result of a terrorist action.

For all these reasons, Mr. Speaker, I will support H.R. 5710, and support the effort to create this timely and vital cabinet-level Department. I urge my colleagues to join me as we take the steps necessary towards protecting our country from future potential attacks and to send a message to the American people before we adjourn the 107th Congress that this Congress, their Congress is determined and resolute in protecting them and their families at all costs.

Mr. BOEHLERT. Mr. Speaker, I rise in strong support of H.R. 5710, a bill too long delayed, which will establish a Department of Homeland Security. I want to acknowledge the perseverance of the President and the Leadership, which has enabled this bill to come before us today. I also want to acknowledge the long weekends and nights of hard work that went into this bill, especially by Margaret Peterlin and the rest of the Majority Leader's staff. We appreciate the close working relationship our staff on the Science Committee has had with the Leadership staff.

Mr. Speaker, I'll be quite brief today because I outlined the Science Committee's perspective on this bill when H.R. 5005 passed in July.

Let me just say now that I am delighted that the Department of Homeland Security will have an Under Secretary for Science and Technology. As I keep saying, the war against terrorism, like Cold War, will be won as much in the laboratory as on the battlefield. With that in mind, we felt it essential that the Department have a directorate and an Under Secretary with clear responsibility for R&D across the Department. I'm pleased that just about everyone has come around to this point of view.

I believe that cybersecurity and R&D will be among the areas in which the Department will make its greatest contribution. These are areas in which the Department will not just improve coordination among existing agencies, but will have to build new capacity from the relatively limited building blocks that are being transferred into the Department. I urge passage of this bill.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise in reluctant opposition to the Homeland Security Act today. There is not one Member of Congress who does not want to stand in a united front in our war against terrorism. And like all Members of this body, I recognize the importance of strengthening homeland security. The people of the 30th Congressional District of Texas have entrusted me to do both. However, in keeping with that trust, I could not vote for legislation that creates a sprawling bureaucracy while leaving so many important security questions unanswered.

Let me be clear that I remain committed to providing all of the resources necessary to combat terrorism through a strong, efficient Department of Homeland Security. I am also extremely supportive of the provision in this legislation that extends the December 31, 2002 deadline an additional year for airports to install explosives detection equipment. In my district in Texas, DFW Airport desperately needs more time to install the equipment necessary for the baggage screening deadline. I worked with leadership to ensure DFW would

be granted this extension, and I commend negotiators of this legislation for including this desperately needed provision.

Unfortunately, the underlying legislation remains unacceptable for a number of reasons, and I must oppose the bill. I strongly oppose the provision in this legislation that will arm commercial airline pilots and strip away civil service protections for our nation's federal workers. As I have repeatedly said during this debate, arming pilots is simply not the answer to improving our airline security. If we truly want to increase safety aboard our nation's aircraft, we should concentrate our resources on putting Air Marshals on 100 percent of all flights. I must continue to stress to my colleagues that there are many unanswered questions as to whether widespread arming of pilots would create more safety hazards than security benefits.

I also remain concerned that Republicans, under the guise of homeland security, have made this legislation an assault on the civil service protections of our nation's federal workers. Among its provisions, legislation would allow DHS to arbitrarily reduce salaries of employees without giving them a legitimate appeals process comparable to employees of other federal departments. I cannot support this attempt to rob workers of their key employment protections.

I am also concerned about the disregard the formation of DHS has shown for the committee process. When the Science Committee marked up the Homeland Security legislation in July, I offered an amendment that would have aligned federally funded research at the new department with existing policies at the Departments of Defense and Energy. My amendment was based upon a sound, proven policy for dealing with classified research as articulated in 1985 by former President Ronald Reagan in National Security Decision Directive 189. My amendment was adopted by a bipartisan majority of almost 2 to 1. Yet when the Homeland Security legislation proceeded to the Select Committee, my amendment was stripped from the Science Committee's mark.

When I asked my friend and colleague from North Texas, Mr. ARMEY, why an amendment that passed in committee with overwhelming support was not included, he told me that the Science Committee did not support the amendment. I was unable to offer my amendment on the floor of the House, presumably for the same reason. As a result, once the Department of Homeland Security is signed into law, we will have federal agencies that conduct classified research in two very different ways, regardless of the fact that one of these ways has been proven to be sound policy in its almost two decades of use. This is very unfortunate, because it is contrary to the expert advice provided at the Science Committee's October 10, 2002, hearing entitled, "Conducting Research During the War on Terrorism: Balancing Openness and Security". Witnesses from academia and the Bush Administration attested to the wisdom of NSDD-189 and how it has been a guiding principle in conducting federally funded classified research.

It is my sincere hope that Congress will heed the advice of expert witnesses and two decades of proven science policy and reconsider the guidelines for federally funded classified research at the new DHS.

I realize that this legislation will pass today, and as I have mentioned, I sincerely wish I

could lend my support to it in extending the current deadline for screening all checked baggage with explosive detection equipment. But since this bill includes provisions that will diminish aviation security and protections, I regret that I must vote against this bill.

Mr. SMITH of Texas. Mr. Speaker, the President has stated about the creation of a Homeland Security Department: "[we] face an urgent need, and we must move quickly, this year, before the end of the congressional session." We fulfill that request today by passing H.R. 5710, the Homeland Security Act.

This bipartisan legislation accomplishes many goals. The Gilmore Commission stated in 2000 that the national strategy against terrorism must address intelligence, deterrence, prevention, preemption, crisis management, and consequence management. This bill does just that.

H.R. 5710 includes the provisions of H.R. 3482, the Cyber Security Enhancement Act, legislation I introduced that passed the House overwhelmingly in July. These provisions strengthen the penalties against those who commit cyber crimes. They also establish the Office of Science and Technology within the National Institute of Justice, which guarantees the ability of NIJ to continue managing the important work of that office.

H.R. 5710 also includes legislation I cosponsored to require information sharing among Federal, state, and local law enforcement agencies.

The Department of Homeland Security will have a strong law enforcement role, but this role is distinct from that of the Department of Justice, which remains the principal law enforcement agency of the United States.

The role of the Department of Justice is further enhanced by the transfer to it the Bureau of Alcohol, Tobacco and Firearms and the law enforcement training functions of the Federal Law Enforcement Training Center.

The Homeland Security bill will improve our nation's immigration system by restructuring the INS. The INS has proven time after time that in its current form it is unable to handle the implementation of our nation's immigration laws. Among other improvements, the INS will be split into two agencies—one to handle services and one to handle enforcement. This will greatly improve the effectiveness and efficiency of our immigration system.

Defending against terrorists who can strike almost any time anywhere requires a change in how we approach the problem. The Department of Homeland Security will have a clear focus and clear mission to protect Americans from terrorists whether inside or outside our borders.

I urge my colleagues to support final passage.

Mr. THOMAS. Mr. Speaker, I rise in support of H.R. 5710 creating the Homeland Security Act of 2002.

The protection that we seek today with the creation of the new Department is for our people, our property, and our economy. The U.S. Customs Service has been on the frontline supporting and defending our nation for more than 200 years, since its creation by the fifth Act of Congress as the first Federal agency of the new Republic. The many functions of Customs are as important today as they were at the start of our nation.

Passage of the Homeland Security Act of 2002 is the right decision for the country. This

country is only as safe and secure as the economy that supports it. Last year over \$1 trillion in merchandise was imported into the country. That is indispensable fuel for our economy. Customs collected over \$20 billion of revenue. I am pleased the final bill keeps important elements recommended by the Ways and Means Committee in order to protect the trade functions of the Customs Service that are so vital to the strength of this land. In particular, the bill keeps Customs core revenue functions whole, which ensures that the many trade and enforcement functions will be carried out.

Our bipartisan agreement in this bill:

Transfers the Customs Service in its entirety to the Department of Homeland Security Division for Border and Transportation Security.

Identifies revenue-related offices and functions within Customs (about 25 percent of the agency) and prohibits reorganization or decrease in their resources or staff.

Requires that adequate staffing of customs revenue services be maintained, and requires timely notice to Congress of actions that would reduce such service.

Maintains the Commissioner of Customs as Senate-confirmed.

Transfers all authority exercised by Customs to Homeland Security with the exception of revenue collecting authority, which would remain at the Treasury Department. Treasury may delegate this authority to Homeland Security.

On this last point I would like to clarify that our purpose has been for the Treasury Department to remain integrated in the revenue, trade, and macroeconomic aspects of Customs' work. As such, we do not expect a wholesale abandonment of involvement by Treasury. We will scrutinize any delegation to assure that it fits within the purpose envisioned by Congress.

For these reasons I urge a "yes" vote on House Resolution 5710.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I rise in strong support of this bill and to commend my good friend, Majority Leader ARMEY for his efforts in putting together this bipartisan package. This legislation will allow us to have a coordinated response to any future terrorist threat. H.R. 5710 includes many critical provisions I authored that will allow us to work closely with the private sector to deploy the latest technology solutions, address ongoing information security weaknesses within the federal government, and facilitate necessary information sharing among our critical infrastructures.

The events of September 11th and the ensuing war on terrorism have raised an unprecedented awareness of the vulnerabilities we face. This has naturally focused more attention on security issues, particularly with respect to information security. From my work in the Government Reform Committee, it is clear that the state of federal information security suffers from a lack of coordinated, uniform management. Federal information systems continue to be woefully unprotected from both malevolent attacks and benign interruptions.

Poor information security management has persisted in both the public and private sectors long before IT became the ubiquitous engine driving governmental, business, and even home activities. As our reliance on technology and our desire for interconnectivity have grown, our vulnerability to attacks on Federal

information systems has grown exponentially. The high degree of interdependence between information systems, both internally and externally, exposes the Federal government's computer networks to potentially serious disruptions.

Title X of H.R. 5710, the Federal Information Security Management Act (FISMA), will require that agencies utilize information security best practices that will ensure the integrity, confidentiality, and availability of Federal information systems. It builds on the foundation laid by the Government Information Security Reform Act (GISRA), which requires every Federal agency to develop and implement security policies that include risk assessment, risk-based policies, security awareness training, and periodic reviews.

FISMA will achieve several objectives vital to Federal information security. Specifically, it will:

1. Remove GISRA's sunset clause and permanently require a Federal agency-wide risk-based approach to information security management with annual independent evaluations of agency information security practices;

2. Require all agencies to implement a risk-based management approach to developing and implementing information security measures for all information and information systems;

3. Streamline and make technical corrections to GISRA to clarify and simplify its requirements;

4. Strengthen the role of NIST in the standards-setting process; and

5. Require OMB to implement minimum and mandatory standards for Federal information and information systems, and to consult with the Department of Homeland Security regarding the promulgation of these standards.

At a time when uncertainty threatens confidence in our nation's preparedness, the Federal government must make information security a priority. We demand that in our networked era, where technology is the driver, every Federal information system must be managed in a way that minimizes both the risk that breach or disruption will occur and the harm that would result should such a disruption take place. Chairman ARMEY understands this and has shown tremendous leadership by this including this critical language in this legislation.

Additionally, the bill includes the Critical Infrastructure Protective Act, which I developed after reviewing Presidential Decision Directive (PDD) 63 that identified the ongoing statutory barriers to information sharing. This important bill includes a FOIA exemption for critical infrastructure information along with recognition for private sector information sharing organizations (ISOs). It also includes a use protection for information shared with the government and a process based on the Defense Production Act of 1959 to address potential antitrust concerns.

In Presidential Decision Directive 63 issued by the previous Administration, concerns about the Freedom of Information Act, antitrust, and liability were identified as primary barriers to facilitating information sharing with the private sector.

The critical infrastructure of the United States is largely owned and operated by the private sector. Critical infrastructures are those systems that are essential to the minimum operations of the economy and government. Tra-

ditionally, these sectors operated largely independently of one another and coordinated with government to protect themselves against threats posed by traditional warfare. Today, these sectors must learn how to protect themselves against unconventional threats such as terrorist attacks, and cyber intrusions.

We must, as a nation, prepare both our public and private sectors to protect ourselves against such efforts. As we discovered when we went to the caves in Afghanistan, the Al Qaeda groups had copies of GAO reports and other government information obtained through FOIA. While we work to protect our nation's assets in this war against terrorism, we also need to ensure that we are not arming terrorists.

Today, the private sector has established many information sharing organizations (ISOs) for the different sectors of our nation's critical infrastructure. Information regarding potential physical or cyber vulnerabilities is now shared within some industries, but it is not shared with the government, and it is not shared across industries. The private sector stands ready to expand this model but has also expressed concerns about voluntarily sharing information with the government and the unintended consequences it could face for acting in good faith.

Specifically, there has been concern that industry could potentially face antitrust violations for sharing information with other industry partners, have their shared information be subject to the Freedom of Information Act, or face potential liability concerns for information shared in good faith. Additionally, this FOIA exemption extends the protection for FOIA to information shared at the state and local government level. Also, this bill gives the Secretary of Homeland Security the authority to share information protected under this FOIA exemption to share it with other impacted federal agencies while continuing to enjoy the protection. My language included in H.R. 5005 will address all three of these concerns. Additionally, consumers and operators will have the confidence they need to know that information will be handled accurately, confidentially, and reliably.

The Critical Infrastructure Information Act procedures are closely modeled after the successful Year 2000 Information and Readiness Disclosure Act by providing a limited FOIA exemption, civil litigation protection for shared information, and a new process for resolving potential antitrust concerns for information, shared among private sector companies for the purpose of correcting, avoiding, communicating or disclosing information about a critical infrastructure threat or vulnerability.

This legislation will enable the private sector, including ISOs, to move forward without fear from government, so that government and industry may enjoy a mutually cooperative partnership. This will also allow us to get a timely and accurate assessment of the vulnerabilities of each sector to physical and cyber attacks and allow for the formulation of proposals to eliminate these vulnerabilities without increasing government regulation, or expanding unfunded federal mandates on the private sector.

Also, H.R. 5710 includes language that I developed to allow for reaching out to new technology companies that may not be doing business with the government. We all know that the Federal, State and local governments

will spend billions and billions of dollars to fight the war against terror. Contentious floor debates aside, we all support these efforts. But to me, the question isn't simply how much we spend, but how well we spend it.

Since the tragic events of 9/11 the Government, in general, and the Office of Homeland Security, in particular has been overwhelmed by a flood of industry proposals offering various solutions to our homeland security challenges. Because of a lack of staffing expertise, many of these proposals have been sitting unevaluated, perhaps denying the government breakthrough technology.

In February, I held a hearing in my Subcommittee on Technology and Procurement Policy on homeland security challenges facing the government. One theme that was expressed unanimously by industry was the need for an organized, cohesive, comprehensive process within the Government to evaluate private-sector solutions to homeland security problems. Now we have part of the solution, with the creation of the new Department of Homeland Security in the bill on the floor today. Section 313 of this bill will close the loop and provide a vehicle to get these solutions into government and to the front lines in the war against terror.

Section 313 of the Homeland Security Act establishes within the Department a program to meet the current challenge faced by the Federal government, as well as by state and local entities, in leveraging private sector innovation in the fight against terror. The section would establish a focused effort by:

Creating a centralized Federal clearinghouse in the new Department for information relating to terror-fighting technologies for dissemination to Federal, State, local and private sector entities and to issue announcements to industry seeking unique and innovative anti-terror solutions.

Establishing a technical assistance team to assist in screening proposals for terror-fighting technology to assess their feasibility, scientific and technical merit and cost.

Providing for the new Department to offer guidance, recommendations and technical assistance to Federal, State, local and private efforts to evaluate and use anti-terror technologies and provide information relating to Federal funding, regulation, or acquisition regarding these technologies.

Since September 11, we have all been struggling to understand what changes will occur in our daily lives, in our economy, and within the Government. We now will establish a new Department of Homeland Security to focus and coordinate the war against terror. The new section 313 in this landmark legislation will give the new Department the framework it needs to examine and act on the best innovations the private sector has to offer.

I am pleased to also have authored section 834 at the request of the Select Committee to allow federal agencies government-wide to accept unsolicited proposals. The language directs the FAR Council to amend FAR Part 15 to ensure that a proposal has not been submitted in relation to a previously published proposal. This ensures that contracting officials are not improperly avoiding a full and open competition. Existing ambiguity in the FAR language made government contracting officials hesitant to review and accept unsolicited proposals. The change recognizes the longstanding procurement reform goal of al-

lowing contracting officials to include "best value" factors when reviewing such a proposal, and adds "technical merit" as a new criteria, which allows officials to review a proposal for potential future benefit. This language is critical as federal agencies attempt to update their information technology systems to better integrate information and serve the taxpayer. This is another step forward in moving the Federal government to a more commercial acquisition environment. This change in the FAR will allow federal agencies to rapidly acquire new products and services to assist them in winning the war on terrorism.

In ordinary times, primarily because of recent acquisition reforms, the current acquisition system will enable the new Department of Homeland Security to buy what it needs with reasonable efficiency. While we all hope that it will never be needed, we also know that in an emergency the new Department may have to quickly and efficiently acquire the high tech and sophisticated products and services needed for its critical mission. The provisions in H.R. 5710 would permit the Department to quickly acquire the emergency goods and services it needs while maintaining safeguards against wasteful spending. This authority is easily accessed by Department of Homeland Security officials through a written determination.

The acquisition provisions build on contracting authorities currently place; in fact, the procedures appear in Part 13 of the Federal Acquisition Regulation and provide for an extension of these authorities only upon a determination of the Secretary of Homeland Security or one of his Senatorially confirmed officials that the terror fighting mission of the new Department would be seriously impaired without their use. The new authorities would sunset at the end of fiscal year 2007. The GAO would be required to report to the Committee on Government Reform assessing the extent to which the authorities contributed to the mission of the Department, the extent to which the prices paid reflect best value, and the effectiveness of the safeguards put in place to monitor the use of the new authorities. The current government-wide procurement laws will govern the Department's "normal" purchases.

Specifically, the provisions would raise the current micro-purchase threshold from \$2,500 to \$7,500. It would raise the current \$100,000 threshold for simplified acquisition procedures to \$200,000 for use within the United States and \$300,000 for overseas missions, and permit the application of the current streamlined commercial acquisition procedures and statutory waivers to noncommercial goods and services and increase the current \$5,000,000 ceiling on the use of streamlined commercial procedures to \$7,500,000 for these goods and services.

How could these new authorities be used?

Well, for example, the increase in the micro-purchase threshold could be used in the event of a terror attack, to permit a Department of Homeland Security official at the scene to rent several floors of a nearby hotel to house rescue workers by simply presenting his Government credit card.

The increase in the simplified acquisition threshold would permit a Department official to quickly enter into a \$200,000 contract for specialized medical services for rescue workers responding to a terror attack.

The application of streamlined commercial acquisition procedures would permit the Department to conduct a limited competition among high technology firms for a specialized advisory and assistance services contract valued at \$7,500,000 to fight a cyber-attack.

Moreover, I am pleased that the House accepted the Senate Federal Emergency Procurement Flexibility Act. This basically extends the same emergency procedures given to the new Department to all Federal agencies to use to prepare for, or in response to a nuclear, biological, chemical, or radiological attack or an act of terrorism for the next fiscal year. This is based on legislation that I had introduced with my colleague and Chairman, DAN BURTON and with Senators JOHN WARNER and FRED THOMPSON at the request of Governor Tom Ridge. While this authority is not as accessible as it is for the Department of Homeland Security, it will certainly go a long way to giving all federal agencies additional help in winning the war on terrorism.

H.R. 5710 gives the Administration the necessary management flexibilities it will need to set up the new Department while maintaining longstanding statutory protections for the American taxpayer and for federal employees. In the civil service area, we struck the proper balance between needed flexibility and important employee protections. Dedicated federal employees, by virtue of the bill's new 30-day mediation period, have received the assurances they asked for, while the American people will have the benefit of a flexible, modern-day workforce that can respond to ever-evolving threats.

I worked hard to make sure aspects of Senator VOINOVICH'S human capital management legislation were included in the legislation; for example, having Human Capital Officers within each agency ensures that the Department's employees will be given the tools they need to prosper and develop professionally. And the demonstration project authority, which includes a pay-for-performance component, is a critical step that will help give the new department the ability to attract and retain the very best employees.

Finally, Mr. Speaker, I would again like to thank Majority Leader ARMEY for his outstanding leadership on this vital piece of legislation. Today, we are giving President Bush legislation that he has deemed critical to winning the war on terrorism. Majority Leader ARMEY and his talented staff worked tirelessly to ensure that we would get this legislation done this year. I am proud to have worked with my House colleagues and the Select Committee on H.R. 5710.

Mr. STENHOLM. Mr. Speaker, the protection of our national security from terrorist threats is a serious and sober matter. Since the events of September 11, 2001, we have all labored under a heightened awareness of the weight of that responsibility. This legislation represents an attempt to balance a wide array of far-flung government duties against one most-significant federal duty, the protection of the life and the liberty of each U.S. citizen. It is my hope that this legislation will help our government to more effectively execute that supreme trust, while not compromising lesser responsibilities that are, non-the-less, critical to our nation's welfare.

With that hope in mind, the House Committee on Agriculture acted earlier this year to mark up provisions of the Homeland Security

legislation that impacted the duties of the U.S. Department of Agriculture. Two areas of concern were the transfer of the Plum Island Animal Disease Laboratory to the new Department of Homeland Security, and the transfer of certain USDA border inspection functions to that same new agency. Our intent as included in House Report 107-609 accompanying H.R. 5005 is as follows:

Sec. 310. Transfer of Plum Island Animal Disease Center, Department of Agriculture. Transfers the Plum Island Animal Disease Center from the Department of Agriculture to the Department of Homeland Security and requires the Secretary of Agriculture and the Secretary of Homeland Security, upon completion of the transfer, to enter into an agreement providing for continued access by USDA for research, diagnostic and other programs.

The Committee recognizes the critical importance of the Plum Island Animal Disease Center to the safety and security of animal agriculture in the United States. The Committee expects that the transfer of this foreign animal disease facility to the Department of Homeland Security shall be completed in a manner that minimizes any disruption of agricultural research, diagnostic or other Department of Agriculture activities. Likewise, the Committee expects that funds that have and continue to be appropriated for the maintenance, upgrade, or replacement of agricultural research, diagnostic and training facilities at the Plum Island Animal Disease Center shall continue to be expended for those purposes.

The Committee shares the goal of expanding the capabilities of the Plum Island Animal Disease Center. Likewise, the Committee supports the accompanying goal of building agroterrorism prevention capabilities within the Department of Homeland Security. With this in mind, the Committee fully expects that in the absence of alternative facilities for current Department of Agriculture activities, the Secretary of Homeland Security shall make every possible effort to expand and enhance agricultural activities related to foreign animal diseases at the Plum Island Animal Disease Center.

Sec. 421. Transfer of Certain Agricultural Inspection Functions of the Department of Agriculture.

(a) Transfers to the Secretary of Homeland Security the functions of the Secretary of Agriculture relating to agricultural import and entry inspection activities.

The committee is aware that the Agricultural Quarantine and Inspection Program of the Department of Agriculture's Animal and Plant Health Inspection Service conducts numerous activities with respect to both domestic and international commerce in order to protect the health of agriculturally important animals and plants within the United States. Within the Department of Homeland Security will be created a mission area of Border and Transportation Security. In order that the new streamlined border security program operates efficiently, the Committee has transferred to the Department of Homeland Security the responsibility for certain agricultural import and entry inspection activities of the Department of Agriculture conducted at points of entry. This transfer will include the inspection of arriving passenger's luggage, cargo and means of conveyance into the United States to the Under Secretary for Border and Transportation Security. In addition to inspections at points of entry into the United States, responsibility for inspections of pas-

sengers, luggage and their means of conveyance, at points of departure outside the United States, where agreements exist for such purposes, shall be the responsibility of the Secretary of Homeland Security. The provision allows the Secretary of Homeland Security to exercise authorities related to import and entry inspection functions transferred including conducting warrantless inspections at the border, collecting samples, holding and seizing articles that are imported into the United States in violation of applicable laws and regulations, and assessing and collecting civil penalties at the border. The Committee intends that the Department of Agriculture will retain the responsibility for all other activities of the Agricultural Quarantine and Inspection Program regarding imports including pre-clearance of commodities, trade protocol verification activities, fumigation activities, quarantine, diagnosis, eradication and indemnification, as well as other sanitary and phytosanitary measures. All functions regarding exports, interstate and intrastate activities will remain at the Department of Agriculture.

(b) Delineates the laws governing agricultural import and entry inspection activities that are covered by the transfer of authorities.

The Committee is aware that the authority to inspect passengers, cargo, and their means of conveyance coming into the United States is derived from numerous statutes that date back, in some cases, more than 100 years. The Committee does not intend that the reference to these statutes should be construed to provide any authority to the Secretary of Homeland Security beyond the responsibility to carry out inspections (including pre-clearance inspections of passengers, luggage and their means of conveyance in such countries where agreements exist for such purposes) and enforce the regulations of the Department of Agriculture at points of entry into the United States.

(c) Excludes quarantine activities from the term "functions" as defined by this Act for the purposes of this section.

While agricultural inspection functions, as well as those related administrative and enforcement functions, shall be transferred and become the responsibility of the Secretary of Homeland Security, the legislation retains all functions to quarantine activities and quarantine facilities within the Department of Agriculture. Although the Committee has excluded quarantine activities from those functions transferred to the Department of Homeland Security, the Committee does not intend to preclude the Secretary of Homeland Security from taking actions related to inspection functions such as seizure or holding of plant or animal materials entering the United States. These authorities fall within the purview of inspection related enforcement functions that shall be transferred to the Secretary of Homeland Security.

(d) Requires that the authority transferred to the Secretary of Homeland Security shall be exercised in accordance with the regulations, policies and procedures issued by the Secretary of Agriculture; requires the Secretary of Agriculture to coordinate with the Secretary of Homeland Security whenever the Secretary of Agriculture prescribes regulations, policies, or procedures for administering the covered laws related to the functions transferred under subsection (a); provides that the Secretary of Homeland Security, in consultation with the

Secretary of Agriculture, may issue guidelines and directives to ensure the effective use of personnel of the Department of Homeland Security to carry out the transferred functions.

One intention of this legislation is to create a streamlined Border and Transportation Security program at points of entry into the United States. With regard to the protection of animal and plant health, the Committee does not intend or expect the Department of Homeland Security to make the determination of what animals, plants, animal or plant products, soils, or other biological materials present an unacceptable risk to the agriculture of the United States. Policies and procedures regarding actions necessary to detect and prevent such unacceptable risks shall remain the responsibility of the Secretary of Agriculture. Likewise, policies and regulations defining restrictions on movement into the United States of substances that would pose a threat to agriculture shall continue to be the responsibility of the Secretary of Agriculture.

The Committee has provided authority for the Secretary of Homeland Security to issue directives and guidelines in consultation with the Secretary of Agriculture in order to efficiently manage inspection resources. When exercising this authority, the Committee expects that the agricultural inspection function at points of entry into the United States shall not be diminished, and as a result, the Committee expects that Secretary of Homeland Security shall ensure that necessary resources are dedicated to carrying out agricultural inspection functions transferred from the Department of Agriculture.

(e) Requires the Secretary of Agriculture and the Secretary of Homeland Security to enter into an agreement to effectuate the transfer of functions. The agreement must address the training of employees and the transfer of funds. In addition the agreement may include authority for the Secretary of Homeland Security to perform functions delegated to APHIS for the protection of domestic livestock and plants, as well as authority for the Secretary of Agriculture to use employees of the Department of Homeland Security to carry out APHIS functions.

The Committee is aware of the unique nature and the specialized training necessary for effective and efficient border inspection activities carried out by the Agricultural Quarantine and Inspection Program. The Committee expects that the training of personnel and detector dogs for this highly specialized function will continue to be supervised by the Department of Agriculture.

While a large proportion of the personnel employed by the Agricultural Quarantine and Inspection Program are permanently stationed at one of 186 points of entry into the United States, the Committee is aware that the Secretary of Agriculture commonly redeploys up to 20% of the border inspection force in order to manage agricultural pests and diseases throughout the United States. In completing the transfer of Agricultural Quarantine and Inspection Program border inspectors to the Department of Homeland Security, the Committee expects that the Secretary of Agriculture and the Secretary of Homeland Security will enter into an agreement whereby inspection resources, where possible, would continue to be made available to the Secretary of Agriculture in response to domestic agricultural needs.

(f) Provides that the Secretary of Agriculture shall transfer funds collected by fee authorities to the Secretary of Homeland Security so long as the funds do not exceed the proportion of the costs incurred by the Secretary of Homeland Security in carrying out activities funded by such fees.

Beginning in fiscal year 2003, the unobligated balance of the Agricultural Quarantine and Inspection Fund will be transferred to other accounts within the Department of Agriculture and will be used to carry out import and domestic inspection activities, as well as animal and plant health quarantine activities, without additional appropriations. Fees for inspection services shall continue to be collected and deposited into these accounts in the manner prescribed by regulations issued by the Secretary of Agriculture. In effectuating the transfer of agricultural import inspection activities at points of entry into the United States, the Committee intends that funds from these accounts shall be transferred to the Department of Homeland Security in order to reimburse the Department of Homeland Security for the actual inspections carried out by the Department. The Committee expects that the Secretary of Agriculture shall continue to manage these accounts in a manner that ensures the availability of funds necessary to carry out domestic inspection and quarantine programs.

(g) Provides that during the transition period, the Secretary of Agriculture shall transfer to the Secretary of Homeland Security up to 3,200 full-time equivalent positions of the Department of Agriculture.

(h) Makes conforming amendments to Title V of the Agricultural Risk Protection Act of 2000 related to the protection of inspection animals.

Mr. COMBEST. Mr. Speaker, I rise in support of H.R. 5710, the Homeland Security Act of 2002. I appreciate the cooperation of the Select Committee on Homeland Security as the Agriculture Committee developed its recommendations relating to agricultural import and entry inspection activities and the Plum Island Animal Disease Center.

The inspection programs administered by the Animal and Plant Health Inspection Service are designed to prevent both the intentional and inadvertent introduction of harmful plant and animal pests and diseases into the U.S. ecosystem—pests and diseases that could threaten the abundance and variety of the U.S. food supply and cost American taxpayers hundreds of millions of dollars to eradicate.

On average, more than 250,000 people travel to the United States each day. In addition, there are millions and millions of pieces of international mail and countless commercial import and export shipments. As part of the USDA program, Plant Protection and Quarantine officers, with help from detector dogs in the USDA's Beagle Brigade which sniff luggage for hidden fruits and vegetables, inspect passenger baggage, mail, and cargo at all U.S. ports of entry.

USDA officers make about 2 million interceptions of illegal agricultural products every year. Included in that total are more than 295,000 lots of unauthorized meat and animal byproducts that have the potential to carry diseases to American livestock and poultry. Inspectors also find nearly more than a 100,000 plant pests and diseases that could have been dangerous to our agricultural industry.

The Administration's original proposal to move APHIS in its entirety was made in good faith. However, many of our constituents raised concerns about the scope of the proposal. While most organizations testified that the border inspection function of the USDA could theoretically be transferred, they did so with many concerns regarding the delivery of inspection services critical to the mission of safeguarding against the introduction of plant and animal pests and diseases.

After a hearing in the Agriculture Committee on June 26th, and numerous meetings with the Officer of Homeland Security, the Administration agreed to accept modifications of their original proposal. Instead of taking the entire Animal Plant & Health Inspection Service to the Department of Homeland Security, the Administration has accepted our proposal transferring just those agency personnel actually conducting import and entry inspections. The Plum Island Animal Disease Center would be transferred to the new Department, but access would be provided for USDA to continue research, diagnostic and other necessary activities.

Under our recommendation, the rest of APHIS would remain at the Department of Agriculture and would continue to operate largely as it does today. Additionally, USDA will set the policy for the border inspections to be conducted by the Department of Homeland Security and will supervise the training of those inspectors. All of the remaining functions, such as protecting animal and plant health, facilitating imports and exports, administering the Animal Welfare Act, operating Wildlife Services and providing technical support for trade negotiations, will remain at USDA.

Mr. Speaker, further clarification of the intent of the House Committee on Agriculture was included in House Report 107-609 which accompanied the original legislation—H.R. 5005. The description of the Committee's action and a statement of Congressional intent with regards to the provisions affecting agricultural programs is as follows:

Sec. 310. Transfer of Plum Island Animal Disease Center, Department of Agriculture. Transfers the Plum Island Animal Disease Center from the Department of Agriculture to the Department of Homeland Security and requires the Secretary of Agriculture and the Secretary of Homeland Security, upon completion of the transfer, to enter into an agreement providing for continued access by USDA for research, diagnostic and other programs.

The Committee recognizes the critical importance of the Plum Island Animal Disease Center to the safety and security of animal agriculture in the United States. The Committee expects that the transfer of this foreign animal disease facility to the Department of Homeland Security shall be completed in a manner that minimizes any disruption of agricultural research, diagnostic or other Department of Agriculture activities. Likewise, the Committee expects that funds that have and continue to be appropriated for the maintenance, upgrade, or replacement of agricultural research, diagnostic and training facilities at the Plum Island Animal Disease Center shall continue to be expended for those purposes.

The Committee shares the goal of expanding the capabilities of the Plum Island Animal Disease Center. Likewise, the Committee supports the accompanying goal of building agroterrorism prevention capabilities within the De-

partment of Homeland Security. With this in mind, the Committee fully expects that in the absence of alternative facilities for current Department of Agriculture activities, the Secretary of Homeland Security shall make every possible effort to expand and enhance agricultural activities related to foreign animal diseases at the Plum Island Animal Disease Center.

Sec. 421. Transfer of Certain Agricultural Inspection Functions of the Department of Agriculture.

(a) Transfers to the Secretary of Homeland Security the functions of the Secretary of Agriculture relating to agricultural import and entry inspection activities.

The Committee is aware that the Agricultural Quarantine and Inspection Program of the Department of Agriculture's Animal and Plant Health Inspection Service conducts numerous activities with respect to both domestic and international commerce in order to protect the health of agriculturally important animals and plants within the United States. Within the Department of Homeland Security will be created a mission area of Border and Transportation Security. In order that the new streamlined border security program operates efficiently, the Committee has transferred to the Department of Homeland Security the responsibility for certain agricultural import and entry inspection activities of the Department of Agriculture conducted at points of entry. This transfer will include the inspection of arriving passengers, luggage, cargo and means of conveyance into the United States to the Under Secretary for Border and Transportation Security. In addition to inspection at points of entry into the United States, responsibility for inspections of passengers, luggage and their means of conveyance, at points of departure outside the United States, where agreements exist for such purposes, shall be the responsibility of the Secretary of Homeland Security. The provision allows the Secretary of Homeland Security to exercise authorities related to import and entry inspection functions transferred including conducting warrantless inspections at the border, collecting samples, holding and seizing articles that are imported into the United States in violation of applicable laws and regulations, and assessing and collecting civil penalties at the border. The Committee intends that the Department of Agriculture will retain the responsibility for all other activities of the Agricultural Quarantine and Inspection Program regarding imports including pre-clearance of commodities, trade protocol verification activities, fumigation activities, quarantine, diagnosis, eradication and indemnification, as well as other sanitary and phytosanitary measures. All functions regarding exports, interstate and intrastate activities will remain at the Department of Agriculture.

(b) Delineates the laws governing agricultural import and entry inspection activities that are covered by the transfer of authorities.

The Committee is aware that the authority to inspect passengers, cargo, and their means of conveyance coming into the United States is derived from numerous statutes that date back, in some cases, more than 100 years. The Committee does not intend that the reference to these statutes should be construed to provide any authority to the Secretary of Homeland Security beyond the responsibility to carry out inspections (including pre-clearance inspections of passengers, luggage and

their means of conveyance in such countries where agreements exist for such purposes) and enforce the regulations of the Department of Agriculture at points of entry into the United States.

(c) Excludes quarantine activities from the term "functions" as defined by this Act for the purposes of this section.

While agricultural inspection functions, as well as those related administrative and enforcement functions, shall be transferred and become the responsibility of the Secretary of Homeland Security, the legislation retains all functions related to quarantine activities and quarantine facilities within the Department of Agriculture. Although the Committee has excluded quarantine activities from those functions transferred to the Department of Homeland Security, the Committee does not intend to preclude the Secretary of Homeland Security from taking actions related to inspection functions such as seizure or holding of plant or animal materials entering the United States. These authorities fall within the purview of inspection related enforcement functions that shall be transferred to the Secretary of Homeland Security.

(d) Requires that the authority transferred to the Secretary of Homeland Security shall be exercised in accordance with the regulations, policies and procedures issued by Secretary of Agriculture; requires the Secretary of Agriculture to coordinate with the Secretary of Homeland Security whenever the Secretary of Agriculture prescribes regulations, policies, or procedures for administering the covered laws related to the functions transferred under subsection (a); provides that the Secretary of Homeland Security, in consultation with the Secretary of Agriculture, may issue guidelines and directives to ensure the effective use of personnel of the Department of Homeland Security to carry out the transferred functions.

One intention of this legislation is to create a streamlined Border and Transportation Security program at points of entry into the United States. With regard to the protection of animal and plant health, the Committee does not intend or expect the Department of Homeland Security to make the determination of what animals, plants, animal or plant products, soils, or other biological materials present an unacceptable risk to the agriculture of the United States. Policies and procedures regarding actions necessary to detect and prevent such unacceptable risks shall remain the responsibility of the Secretary of Agriculture. Likewise, policies and regulations defining restrictions on movement into the United States of substances that would pose a threat to agriculture shall continue to be the responsibility of the Secretary of Agriculture.

The Committee has provided authority for the Secretary of Homeland Security to issue directives and guidelines in consultation with the Secretary of Agriculture in order to efficiently manage inspection resources. When exercising this authority, the Committee expects that the agricultural inspection function at points of entry into the United States shall not be diminished, and as a result, the Committee expects that Secretary of Homeland Security shall ensure that necessary resources are dedicated to carrying out the agricultural inspection functions transferred from the Department of Agriculture.

(e) Requires the Secretary of Agriculture and the Secretary of Homeland Security to

enter into an agreement to effectuate the transfer of functions. The agreement must address the training of employees and the transfer of funds. In addition the agreement may include authority for the Secretary of Homeland Security to perform functions delegated to APHIS for the protection of domestic livestock and plants, as well as authority for the Secretary of Agriculture to use employees of the Department of Homeland Security to carry out APHIS functions.

The Committee is aware of the unique nature and the specialized training necessary for effective and efficient border inspection activities carried out by the Agricultural Quarantine and Inspection Program. The Committee expects that the training of personnel and detector dogs for this highly specialized function will continue to be supervised by the Department of Agriculture.

While a large proportion of the personnel employed by the Agricultural Quarantine and Inspection Program are permanently stationed at one of 186 points of entry into the United States, the Committee is aware that the Secretary of Agriculture commonly redeploys up to 20% of the border inspection force in order to manage agricultural pests and diseases throughout the United States. In completing the transfer of Agricultural Quarantine and Inspection Program border inspectors to the Department of Homeland Security, the Committee expects that the Secretary of Agriculture and the Secretary of Homeland Security will enter into an agreement whereby inspection resources, where possible, would continue to be made available to the Secretary of Agriculture in response to domestic agricultural needs.

(f) Provides that the Secretary of Agriculture shall transfer funds collected by fee authorities to the Department of Homeland Security so long as the funds do not exceed the proportion of the costs incurred by the Secretary of Homeland Security in carrying out activities funded by such fees.

Beginning in fiscal year 2003, the unobligated balance of the Agricultural Quarantine and Inspection Fund will be transferred to other accounts within the Department of Agriculture and will be used to carry out import and domestic inspection activities, as well as animal and plant health quarantine activities, without additional appropriations. Fees for inspection services shall continue to be collected and deposited into these accounts in the manner prescribed by regulations issued by the Secretary of Agriculture. In effectuating the transfer of agricultural import inspection activities at points of entry into the United States, the Committee intends that funds from these accounts shall be transferred to the Department of Homeland Security in order to reimburse the Department of Homeland Security for the actual inspections carried out by the Department. The Committee expects that the Secretary of Agriculture shall continue to manage these accounts in a manner that ensures the availability of funds necessary to carry out domestic inspection and quarantine programs.

(g) Provides that during the transition period, the Secretary of Agriculture shall transfer to the Secretary of Homeland Security up to 3,200 full-time equivalent positions of the Department of Agriculture.

(h) Makes conforming amendments to Title V of the Agriculture Risk Protection Act of 2000 related to the protection of inspection animals.

Mr. NEAL of Massachusetts. Mr. Speaker, I rise today in support of our mission to protect and secure the homeland, but also to oppose the efforts of those who excuse corporate expatriation.

Since September 11th, this nation has pulled together to fight the war on terrorism. And now, with more military action looming, we must face the fact that fighting a war and combating terrorism costs money. To fully fund the needs of our military and homeland security, every American taxpayer, individual and corporation alike, must be prepared to pay their fair share.

If corporate expatriates are not paying their tax bills (and evidence shows they avoid paying \$4 billion worth), the American people know that someone will have to pick up the slack. We should use everything in our arsenal to stop corporate expatriation. No more government contracts for financial traitors. No more tax benefits for runaway corporations.

I regret that the Republican leaders struck the very reasonable federal contract ban from this bill—a ban supported by 318 Members of this House—and inserted instead an ineffective provision that affects no one.

Corporate expatriates cheat the federal government out of needed tax revenues and then have the audacity to return for a federal hand-out. However, the sensible contract ban passed by the House and then championed in the Senate by the late Paul Wellstone, was watered down to the ineffective provision we are debating today. Regrettably, this provision only affects companies who leave after the date of enactment. It makes as much sense as closing the barn door after all the cows are out.

Let's take Tyco, formerly of New Hampshire, now of Bermuda, for example. Tyco, which will be unaffected by the ban in this bill, avoids paying \$400 million a year in U.S. taxes by setting up a shell headquarters offshore, but was awarded \$182 million in lucrative defense and homeland security related contracts in 2001 alone. If Tyco had just paid its tax bill, Congress could have easily paid for 400 explosive detection systems (EDS), which are badly needed to protect U.S. travelers at airports around the nation.

Or let's examine corporate expatriate Ingersoll-Rand, formerly of New Jersey, and now also in Bermuda. Ingersoll-Rand, also unaffected by this bill, earned as much last year in U.S. defense and homeland security federal contracts as it avoids in U.S. taxes annually merely by renting a mailbox in Bermuda and calling it 'home.' If Ingersoll-Rand paid its U.S. tax bill, Congress could easily fund the proposed Cyberspace Warning Intelligence Network estimated to cost \$30 million, or could also buy 400,000 gas masks for American citizens.

Mr. Speaker, the leadership of this House has thwarted all efforts to have a legitimate debate and vote on HR 3884, The Corporate Patriot Enforcement Act, a bipartisan bill to deny the benefits to corporations who flee to tax havens. We must show the American people that this Congress will not coddle corporate abusers. These financial traitors are escaping income taxes, and then, profiting from the very government they have left behind.

I urge my colleagues to fight for tax fairness, any way we can get it.

Ms. PRYCE of Ohio. Mr. Speaker, it has been nearly five months since the President

called upon Congress to create a new Department of Homeland Security, and nearly four months since the House first took up that task. This legislation has been through a long journey, full of procedural and partisan roadblocks, weighed down by special interests, and slowed by a storm of misdirection.

I could not be more pleased that we are here today with this compromise legislation that will finally allow us to move the bill to the President's desk. This is a historic achievement.

In recent days, members of the House and Senate have been through a thoughtful, thorough, and cooperative process. Every effort was made to address each concern while maintaining a basic framework that creates an effective department.

This legislation will give the new Department of Homeland Security the tools it needs to succeed in its mission. And this, in my mind, is the key, because the new department's most basic and core mission will be to secure America from terrorist attack.

On September 11, 2001, the streets of New York and Northern Virginia were turned to ash, while a grassy field in Pennsylvania played quiet witness to the final act of a heroic group of Americans. Creation of the Department of Homeland Security is the bold and necessary next step we must take to ensure that this dark day is never repeated.

We are not creating new government, we are creating better government. We are not legislating new bureaucracy, we are streamlining to face a new threat. We are making government smarter, more flexible, and ultimately, better able to secure America.

The perpetrators of terrorism are shadowy and agile, and they target us like predators without distinction between military target and ordinary citizen. They are a 21st Century enemy with an agelessly corrupt goal-destruction of life, elimination of liberty, and restriction of human freedom.

Our enemy has recognized that our greatest strength—the open society in which we live—also makes us vulnerable to their attacks. We fight this enemy not just on battlefields abroad, but in our very cities and towns. We must be able to respond at home in a strong, coordinated and agile way.

The new cabinet-level department is only one part of our national response, but it is an essential part. The new Department will consolidate the vital preparedness, intelligence analysis, law enforcement, and emergency response functions that are currently dangerously dispersed among numerous federal departments and agencies.

And in the process, the legislation balances the need to protect America with the need to preserve the American way of life that we are protecting.

Thus far, the government has shown immense resolve and dedication, going to extraordinary lengths to respond to the terrorist threat. We are safer than we were on September 10th one year ago. But as the government's efforts reach the limits of their bureaucracies, we must rethink our government structure so that our nation can be even stronger, smarter, and better prepared.

One of our revolutionary forefathers, George Mason, once said, "Government is, or ought to be, instituted for the common benefit, protection and security of the people, nation or community."

Make no mistake—our work today undertakes this very core function of government to secure the American people. I urge all of my colleagues to take measure of the task before us, and to support this fair rule and the underlying bill.

It has been a long journey, but this legislation, and the American people, are all the better for it.

Mrs. ROUKEMA. Mr. Speaker, I rise today in strong support of H.R. 5710, the Homeland Security Act of 2002.

At last, Members of both parties and the Administration have put their differences aside and agreed on a strong bill that will make America safer by creating a Cabinet-level Department of Homeland Security to unite essential agencies in our fight against terrorism here at home and abroad.

On the morning of September 11, 2001, a new enemy brought war to our shores. An enemy that considers any innocent man, woman, or child that cherishes freedom a target. An enemy that does not necessarily call any nation home. And an enemy that can hide for years in plain sight and in our own neighborhoods.

This new kind of war, that makes where we live and work a potential battleground, calls for a new response. The United States is a nation at risk of terrorist attacks and it will remain so for the foreseeable future. We need to strengthen our efforts to protect America, and the current governmental structure limits our ability to do so.

When President Bush established the Office of Homeland Security in October 2001, its fundamental mission would be to prevent terrorist attacks within the United States, reduce America's vulnerability to terrorism, and minimize the damage and recovery from attacks that do occur. Mr. Speaker, I believe this new bill will achieve this mission.

The new department will combine 170,000 workers from 22 agencies, including the ATF, Border Patrol, Coast Guard and Customs Service, into a Department of Homeland Security with a \$37 billion budget. It balances concerns of federal workers with the need of the President to make personnel decisions in the interest of national security. It brings all immigration responsibilities under the Secretary of Homeland Security. Immigration services will be kept separate from enforcement functions within the Department. This will provide the INS the leadership, direction, and focus that I have been advocating for years.

Now all the necessary functions of government to keep our nation safe at home will fall under one department—where they should be. And that department will be part of the President's cabinet—and that is where it should be.

Let me add Mr. Speaker that leading a massive new federal department that is charged with protecting the homeland during such dangerous times is a Herculean task. There is no one in the nation more capable and prepared to provide that leadership than our former colleague Tom Ridge. Governor Ridge was called on by the President shortly after the tragic attacks on our nation and stepped into the breach to provide leadership on homeland security. This is not the first time he has answered his nation's call in time of war.

His leadership over the past year has prepared our nation and our government for the task ahead. Governor Ridge will succeed and I wish him well.

Finally Mr. Speaker, passage of this bill is the last of the profound accomplishments that this Congress has achieved since September 11, 2001. I am proud of the wise and prudent decisions we have made. Even though many on both sides have disagreed over details and those details have taken longer to work out than I would have liked, we have never disagreed on the goal of our actions. That goal is to protect and defend our nation in this new and awful era of war.

We may suffer another dastardly attack on our shores—given the diabolic treachery in which our enemy deals, it is probably certain they will attempt to attack us again. But we will endure, care for our own, and stand taller than before. As always, we did not ask for this war, especially one that attacks us at home. But we will fight it. And with the help of this legislation—we will win it.

Mr. Speaker, I urge all Members to support this legislation. God bless America.

Mr. DINGELL. Mr. Speaker, I rise today in strong support of strengthening our Nation's security, but in intense opposition to this bill before us. It will create an unwieldy and possibly unworkable department of 170,000 federal workers, and spend 4.5 billion dollars doing so.

Without a doubt, every Member of this body supports increasing America's security. However, I am troubled by the unseemly and unhelpful rush by the President and this body to hastily legislate on this matter in the closing days of this Congress. I would note that the bill we are debating is the result of a deal reached late yesterday. In fact, this bill was introduced early this morning. Why not let the public know what we are doing before we do it?

I served in Congress when we created both the Department of Transportation in 1966 and the Department of Energy in 1977. Congress held extensive hearings. There was testimony from experts in the fields. There were lengthy discussions before we created these Departments. However, even with extensive deliberation in Congress, folding diverse government agencies into one organization resulted in bureaucratic chaos that lasted for many years.

Likewise, the rush to create the Transportation Security Administration after September 11, 2001, has resulted in great confusion. TSA was created to take over security screening at our Nation's airports—a straightforward task that has not yet been accomplished. I think it would be in our Nation's best interest that the President ensures that the relatively small TSA is properly functioning before tackling a massive restructuring of the government.

I am also very concerned that this new Department will develop and operate in a culture of secrecy without adequate and proper public accountability or Congressional oversight. The changes made to the Freedom of Information Act are overly broad and restrictive. By including Section 214 as part of the backroom agreement, this body is ignoring the bipartisan compromise that was reached in the Senate and included in both the Senate Government Affairs Committee bill and the substitute offered by Senators GRAHAM and MILLER in favor of the flawed House provision.

Finally, I note that today we are talking about bureaucratic reorganization while the White House has opposed Democratic funding initiatives to enhance port security, equip local fire fighters and first responders with tools to

effectively respond to another terrorist attack, and to improve security at nuclear weapons facilities. In addition, in key critical infrastructure areas where millions of Americans may be at risk, the Bush Administration has dropped the ball. For example, at present, there are no federal standards in place to require chemical plants to assess their vulnerabilities and take steps to reduce them. The Attorney General of the United States has failed to conduct or even initiate an evaluation of the state of chemical facility security (including the security of transportation regulated substances) as required by federal law (P.L. 106-40). Bureaucratic reorganization, even on a grand scale like this bill, is no substitute for real action with respect to chemical plant security and adequate funding for critical security needs.

In sum, I have serious concerns about the management and effectiveness of this new Department. The lessons learned from past governmental reorganizations is that simply rearranging the bureaucratic boxes usually does not get the intended result—oftentimes it gets you more confusion, more expense, more people and less work. This reorganization may actually make the country more vulnerable during the lengthy transition period—not less—particularly if it becomes the substitute for needed action and funding.

Mr. ARMEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

The amendment contained in section 2 of H. Res. 600 is considered as adopted.

Pursuant to H. Res. 600, the bill is considered read for amendment and the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. ROEMER

Mr. ROEMER. Mr. Speaker, I offer a motion to recommit.

Mr. ROEMER (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Indiana is recognized for 5 minutes in support of his motion to recommit.

□ 1945

Mr. ROEMER. Mr. Speaker, before I explain what my motion is, I see on the other side of the aisle, on the Republican side, somebody that served on the Committee on Education and the Workforce with me, and someone who has decided to step down after serving the country so well through his years, and has managed one of his final bills here.

I would just like to recognize the contributions of the majority leader, the gentleman from Texas (Mr. ARMEY), and salute him for his service to the body.

Mr. Speaker, oftentimes motions to recommit are both partisan and procedural. This motion is neither one. It is not partisan in that it is a reflection actually of the substance of a bipartisan agreement arrived at by members of the intelligence committees in both Chambers, on both sides of the aisle. It is not only bipartisan, it is substantive in what it tries to achieve: to create an independent commission to respond to the national and the international tragedy of 2,900 and 4,800 people dead with the terrorist attack on September 11.

Why on this bill would we offer an independent committee, an independent blue ribbon commission to

look at answers as to why this tragic attack was perpetrated upon this country, and how to prevent future attacks? Why on homeland security?

Well, we passed the defense appropriations bill. In that bill we increased funding, and we have a plan for fighting terrorism in Afghanistan and around the world. When we are going to have a Homeland Security Department, as this bill lays out, we need to make sure that we understand how and why the September 11 tragedy took place, and to put all our resources together with the very best people that we can get to serve on this commission, Democrats and Republicans, to protect this country from future attacks and to make sure 2,900 people, 290 people, or 29 people do not die in another attack on this great Nation.

So this is not procedural, this is not partisan; this is an independent commission put forward by people such as Senator SHELBY, Senator MCCAIN, and Senator LIEBERMAN. It is reflective of a vote that took place in this body on the intelligence authorization bill, that passed this body, and one that passed the Senate with a 90 to 8 vote.

I think it is critically important that as we have reacted to attacks like Pearl Harbor on this great Nation, and it took us not 11 months to react to it but 11 days for President Roosevelt to say that we need to get to the facts and we need to find the answers, we do not need political witch-hunts or fingerpointing, we need to protect this country from any other kind of attack. That is what this independent blue ribbon commission would set forward. So it is bipartisan and it is substantive. It is on the right vehicle, the homeland security vehicle.

I may hear from somebody who opposes this that it would delay the creation of this Homeland Security Department, that the President wants and needs this bill to create this. It is a high priority of his.

I highly respect the President and his priorities, and respect the White House for their hard work on this bill. But I also say that this needs to be done and it needs to be done now. It needs to be done because we are at the end of the session, in the last few hours of this, the body's deliberative policymaking, and it needs to be done in a bipartisan way.

Mr. Speaker, when we read the headlines today in the papers and we read in the New York Times and the Post and the South Bend Tribune from my hometown that Osama bin Laden is going to attack, and he is applauding the attacks in Bali and Tunisia and Yemen and the killing of American soldiers, and he is prodding them to attack again, we need to act now. We need to pass with bipartisan votes this recommittal motion.

It is a forthwith recommittal. It would not send the motion back to the committee, it would come right back to the floor and stay on the floor. It will not delay one second this homeland security bill.

Mr. ARMEY. Mr. Speaker, I rise in opposition to the motion.

The SPEAKER pro tempore (Mr. LAHOOD). The gentleman from Texas (Mr. ARMEY) is recognized for 5 minutes.

Mr. ARMEY. Mr. Speaker, let me thank the gentleman from Indiana (Mr. ROEMER) for raising this subject. The gentleman is correct, this motion to recommit is not procedure, it is not partisan; it is substantive, and it is important. I want to appreciate the gentleman for his interest and his commitment to this subject.

Why, then, Mr. Speaker, would I ask that we oppose the gentleman's motion? In all due respect to the gentleman's work, his commitment, and his fervor for the subject, all of which I applaud, I think we need to recognize that we had such language in the bill and we took it out. Why would we do that? Because we felt that it was not comprehensive enough to do exactly the job the gentleman from Indiana says is important, and we believed it could be properly structured. That work will be done.

The gentleman says it must be done now. More importantly, I would say that it must be done correctly. The negotiations between very important and well-informed members of the Permanent Select Committee on Intelligence, whose work is to be applauded here, and the White House and others will go on; so it will be done. Let me encourage the gentleman to know that.

We have done our job here. We will do this kind of a review. It will all be done right and it will be done thoroughly and it will be done soon. But doing it soon is better than doing it now.

I want to thank again the gentleman from Indiana (Mr. ROEMER). He is so correct in encouraging us to get this job done, get it done as quickly as possible, and get it done right. We must understand and we must care and we must, for the sake of all of our Nation, prevent any atrocities like that in the future.

So if I may, Mr. Speaker, close, again with my most sincere appreciation for the gentleman from Indiana, with respect for what he proposes and assurance that the gentleman's objectives will be fulfilled, and fulfilled soon, and ask that the body at this time, for this moment, reject this motion to recommit and move this other larger work forward.

Mr. HOLT. Mr. Speaker, we need to pass an Intelligence Authorization bill before the year is over. If we don't, our nation's intelligence community will not be able to take advantage of the much-needed increases in funding that we in Congress have appropriated for them. At this time in our Nation's history, when we face so many threats, we simply can't allow that.

But we need to pass an intelligence authorization bill that addresses all of the challenges we face. That means including the provision so many of us support for an independent commission to investigate the 911 terrorist attacks.

Many of my constituents lost their loved ones in the World Trade Center attacks. I am here on the floor today because widows like Lori Van Auker, Mindy Kleinberg, and Patty Casazza from central New Jersey do not want other Americans to share the fate of their husbands. They want our government to ensure that it is doing absolutely everything it can to prevent future terrorist attacks from claiming American lives.

The Administration keeps telling the public that another terrorist attack is inevitable. They say it is not whether another attack will happen, but when it will happen. Another attack is only inevitable if we do not fully examine what went wrong prior to 911. It is only inevitable if we do not learn from our mistakes.

All of us want to improve coordination and communication between the government agencies that are responsible for our security. We want to streamline and integrate their functions. We want to reform how they provide for our security and we want to do it in a systematic and scientific fashion. But we cannot begin fixing things until we know exactly what is broken.

When a reasonable person gets sick, he goes to the doctor to get a diagnosis. He does not try to treat himself. When a patient tries to heal himself sometimes all he does is makes things even worse. That's why Congressional oversight committees are not enough to fix our security apparatus.

Both Republicans and Democrats support an independent commission because we do not believe that agencies like the FBI and CIA are capable of healing themselves. We believe that they need an independent commission of experts who will dispassionately and honestly diagnose their problems and prescribe the proper treatment.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) *SHORT TITLE.*—This Act may be cited as the "Terrorism Risk Insurance Act of 2002".

(b) *TABLE OF CONTENTS.*—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

#### TITLE I—TERRORISM INSURANCE PROGRAM

Sec. 101. Congressional findings and purpose.

Sec. 102. Definitions.

Sec. 103. Terrorism Insurance Program.

Sec. 104. General authority and administration of claims.

Sec. 105. Preemption and nullification of pre-existing terrorism exclusions.

Sec. 106. Preservation provisions.

Sec. 107. Litigation management.

Sec. 108. Termination of Program.

#### TITLE II—TREATMENT OF TERRORIST ASSETS

Sec. 201. Satisfaction of judgments from blocked assets of terrorists, terrorist organizations, and State sponsors of terrorism.

#### TITLE III—FEDERAL RESERVE BOARD PROVISIONS

Sec. 301. Certain authority of the Board of Governors of the Federal Reserve System.

#### TITLE I—TERRORISM INSURANCE PROGRAM

#### SEC. 101. CONGRESSIONAL FINDINGS AND PURPOSE.

(a) *FINDINGS.*—The Congress finds that—  
(1) the ability of businesses and individuals to obtain property and casualty insurance at reasonable and predictable prices, in order to spread the risk of both routine and catastrophic loss, is critical to economic growth, urban devel-

opment, and the construction and maintenance of public and private housing, as well as to the promotion of United States exports and foreign trade in an increasingly interconnected world;

(2) property and casualty insurance firms are important financial institutions, the products of which allow mutualization of risk and the efficient use of financial resources and enhance the ability of the economy to maintain stability, while responding to a variety of economic, political, environmental, and other risks with a minimum of disruption;

(3) the ability of the insurance industry to cover the unprecedented financial risks presented by potential acts of terrorism in the United States can be a major factor in the recovery from terrorist attacks, while maintaining the stability of the economy;

(4) widespread financial market uncertainties have arisen following the terrorist attacks of September 11, 2001, including the absence of information from which financial institutions can make statistically valid estimates of the probability and cost of future terrorist events, and therefore the size, funding, and allocation of the risk of loss caused by such acts of terrorism;

(5) a decision by property and casualty insurers to deal with such uncertainties, either by terminating property and casualty coverage for losses arising from terrorist events, or by radically escalating premium coverage to compensate for risks of loss that are not readily predictable, could seriously hamper ongoing and planned construction, property acquisition, and other business projects, generate a dramatic increase in rents, and otherwise suppress economic activity; and

(6) the United States Government should provide temporary financial compensation to insured parties, contributing to the stabilization of the United States economy in a time of national crisis, while the financial services industry develops the systems, mechanisms, products, and programs necessary to create a viable financial services market for private terrorism risk insurance.

(b) *PURPOSE.*—The purpose of this title is to establish a temporary Federal program that provides for a transparent system of shared public and private compensation for insured losses resulting from acts of terrorism, in order to—

(1) protect consumers by addressing market disruptions and ensure the continued widespread availability and affordability of property and casualty insurance for terrorism risk; and

(2) allow for a transitional period for the private markets to stabilize, resume pricing of such insurance, and build capacity to absorb any future losses, while preserving State insurance regulation and consumer protections.

(B) *NO MANDATORY RECOUPMENT IF UNCOMPENSATED LOSSES EXCEED INSURANCE MARKETPLACE RETENTION.*—Notwithstanding subparagraph (A), if the aggregate amount of uncompensated insured losses referred to in clause (ii) of such subparagraph for any period referred to in subparagraph (A), (B), or (C) of paragraph (6) is greater than the insurance marketplace aggregate retention amount under paragraph (6) for such period, the mandatory recoupment amount shall be \$0.

(E) *TIMING OF PREMIUMS.*—The Secretary may adjust the timing of terrorism loss risk-spreading premiums to provide for equivalent application of the provisions of this title to policies that are not based on a calendar year, or to apply such provisions on a daily, monthly, or quarterly basis, as appropriate.

(f) *CAPTIVE INSURERS AND OTHER SELF-INSURANCE ARRANGEMENTS.*—The Secretary may, in consultation with the NAIC or the appropriate State regulatory authority, apply the provisions of this title, as appropriate, to other classes or types of captive insurers and other self-insurance arrangements by municipalities and other entities (such as workers' compensation self-insurance programs and State workers' compensation reinsurance pools), but only if such application is determined before the occurrence of an act of terrorism in which such an entity incurs an insured loss and all of the provisions of this title are applied comparably to such entities.

(g) *REINSURANCE TO COVER EXPOSURE.*—

(1) *OBTAINING COVERAGE.*—This title may not be construed to limit or prevent insurers from obtaining reinsurance coverage for insurer deductibles or insured losses retained by insurers pursuant to this section, nor shall the obtaining of such coverage affect the calculation of such deductibles or retentions.

(2) *LIMITATION ON FINANCIAL ASSISTANCE.*—The amount of financial assistance provided pursuant to this section shall not be reduced by reinsurance paid or payable to an insurer from other sources, except that recoveries from such other sources, taken together with financial assistance for the Transition Period or a Program Year provided pursuant to this section, may not exceed the aggregate amount of the insurer's insured losses for such period. If such recoveries and financial assistance for the Transition Period or a Program Year exceed such aggregate amount of insured losses for that period and there is no agreement between the insurer and any reinsurer to the contrary, an amount in excess of such aggregate insured losses shall be returned to the Secretary.

(h) *GROUP LIFE INSURANCE STUDY.*—

(1) **STUDY.**—The Secretary shall study, on an expedited basis, whether adequate and affordable catastrophe reinsurance for acts of terrorism is available to life insurers in the United States that issue group life insurance, and the extent to which the threat of terrorism is reducing the availability of group life insurance coverage for consumers in the United States.

(2) **CONDITIONAL COVERAGE.**—To the extent that the Secretary determines that such coverage is not or will not be reasonably available to both such insurers and consumers, the Secretary shall, in consultation with the NAIC—

(A) apply the provisions of this title, as appropriate, to providers of group life insurance; and

(2) except that—

(A) the definition of the term “act of terrorism” in section 102 shall be the exclusive definition of that term for purposes of compensation for insured losses under this title, and shall preempt any provision of State law that is inconsistent with that definition, to the extent that such provision of law would otherwise apply to any type of insurance covered by this title;

(B) during the period beginning on the date of enactment of this Act and ending on December 31, 2003, rates and forms for terrorism risk insurance covered by this title and filed with any State shall not be subject to prior approval or a waiting period under any law of a State that would otherwise be applicable, except that nothing in this title affects the ability of any State to invalidate a rate as excessive, inadequate, or unfairly discriminatory, and, with respect to forms, where a State has prior approval authority, it shall apply to allow subsequent review of such forms; and

(C) during the period beginning on the date of enactment of this Act and for so long as the Program is in effect, as provided in section 108, including authority in subsection 108(b), books and records of any insurer that are relevant to the Program shall be provided, or caused to be provided, to the Secretary, upon request by the Secretary, notwithstanding any provision of the laws of any State prohibiting or limiting such access.

(b) **EXISTING REINSURANCE AGREEMENTS.**—Nothing in this title shall be construed to alter, amend, or expand the terms of coverage under any reinsurance agreement in effect on the date of enactment of this Act. The terms and conditions of such an agreement shall be determined by the language of that agreement.

**SEC. 107. LITIGATION MANAGEMENT.**

(a) **PROCEDURES AND DAMAGES.**—

(c) **REPEAL; SAVINGS CLAUSE.**—This title is repealed on the final termination date of the Program under subsection (a), except that such repeal shall not be construed—

(1) to prevent the Secretary from taking, or causing to be taken, such actions under subsection (b) of this section, paragraph (4), (5), (6), (7), or (8) of section 103(e), or subsection (a)(1), (c), (d), or (e) of section 104, as in effect on the day before the date of such repeal, or applicable regulations promulgated thereunder, during any period in which the authority of the Secretary under subsection (b) of this section is in effect; or

#### **JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE**

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3210) to ensure the continued financial capacity of insurers to provide coverage for risks from terrorism, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The Senate amendment struck all of the House bill after the enacting clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment that is a substitute for the House bill and the Senate amendment.

The Conference Report includes the following provisions:

##### **Section 1. Short title; table of contents**

The short title of this legislation is “Terrorism Risk Insurance Act of 2002.”

##### **TITLE I—TERRORISM INSURANCE PROGRAM**

##### **Section 101. Congressional findings and purpose**

Following the widespread financial market uncertainties due to the terrorist attacks of September 11, 2001, Congress determined that there was a need for a temporary Federal program to establish a system of shared public/private compensation for insured losses resulting from acts of terrorism to protect consumers and create a transitional period for the private insurance markets to stabilize.

##### **Section 102. Definitions**

Section 102 defines terms necessary for implementation of this legislation. The Federal backstop is triggered when the Secretary of the Treasury, in concurrence with the Secretary of State and the Attorney General, certifies that an event meets the definition

of an act of terrorism. The legislation only applies to U.S. risks, including domestic air carriers and flag vessels, U.S. territorial seas and continental shelf, and U.S. missions. The legislation applies only to acts that are committed by an individual or individuals acting on behalf of a foreign person or foreign interest.

The terms “affiliate” and “control” are meant to ensure that affiliated insurers are treated as a consolidated entity for calculating direct earned premiums. The term “insured loss” includes losses resulting from an act of terrorism (and from an act of war in the case of workers compensation). Each insurer will be responsible for paying out a prescribed amount of insured losses, the “insurer deductible,” before Federal assistance becomes available. This deductible is based on a percentage of direct earned premiums from the previous calendar year. Insurers’ deductibles are 1% during a transition period for the remainder of 2002, 7% in 2003, 10% in 2004, and 15% in 2005. Except as otherwise specifically provided, the Conferees intend the legislation to apply only to primary and excess commercial property and casualty insurance (including cyber-terrorism and business interruption coverage).

##### **Section 103. Terrorism Insurance Program**

The Terrorism Insurance Program is established in the Department of the Treasury under which the Federal government will share the risk of loss from future terrorist attacks with the commercial property and casualty insurance marketplace, for a temporary period of time. The Secretary of the Treasury (hereafter “Secretary”) shall administer the Program and pay the Federal share of compensation for insured losses. The Federal government pays 90% of insured losses in excess of an insurer’s deductible while the insurer pays 10%. Insurers may reinsure their insurer deductibles and 10% co-shares. Losses covered by the Program will be capped at \$100 billion per year; above this amount, Congress is to determine the procedures for and the source of any payments.

Before receiving Federal assistance under this Act, an insurer must certify its claim for payment of insured losses, that a policyholder (or person acting on the policyholder’s behalf) has filed a claim for such loss, and the insurer’s compliance with the Act. The Secretary may not reimburse an insurer for such losses unless the insurer has provided clear and conspicuous disclosure to the policyholder of the premium charged for terrorism coverage and the Federal share of compensation. This disclosure to the policyholder must occur at the time of offer, purchase, and renewal of the policy for policies issued after the date of enactment, and must be made on a separate line item in the policy with respect to policies issued more than 90 days after enactment. For policies issued before the date of enactment, the disclosure must be made within 90 days of such date. The Conferees intend this disclosure to enhance the competitiveness of the marketplace by better enabling consumers to comparison shop for terrorism insurance coverage, and to make policyholders better aware that the Federal government will be sharing the costs of such coverage with the insurers, thereby reducing the insurers’s exposure. Insurers must submit premium and claims information to the Secretary who may investigate and audit all claims under the Program.

Each entity meeting the definition of insurer under this legislation is required to participate in the Program. During the first two years of the Program each such insurer must make available in all of its property and casualty insurance policies coverage for insured losses, and shall make such coverage

available on terms that do not differ materially from the terms, amounts, and other coverage limitations applicable to losses arising from events other than acts of terrorism. The Secretary has discretion to extend this requirement to the third year of the Program, to preserve this important option for policyholders.

Section 103 provides for insurance marketplace retentions of \$10 billion in Program year 1 (including any remainder of 2002), \$12.5 billion in Program year 2, and \$15 billion in Program year 3. Federal assistance within the retention above in insurer deductibles and 10% co-shares must be recouped while additional amounts of Federal assistance may be recouped based on economic factors in the judgment of the Secretary. Mandatory recoupment within the insurance marketplace retention is through terrorism loss risk-spreading premiums (surcharges) paid by all commercial property and casualty policyholders based on premium rates with any year's surcharge (mandatory and discretionary combined) capped at 3% of the premium charged for property and casualty insurance coverage under the policy in each such year. The Secretary has discretion over the timing of recoupment, and to adjust amounts for urban, smaller commercial, and rural areas, as well as for different lines of insurance, so long as the mandatory amounts are ultimately recouped. The Secretary may assess civil penalties on insurers for submission of false or misleading information or failure to repay the Secretary for any amount required to be repaid, or for other failure to comply with the provisions of this title.

This section directs the Secretary to apply the provisions of the legislation to State residual market insurance entities and State workers compensation funds. The Secretary is directed to either treat State residual market insurance entities as separate insurers, or to calculate the premiums, losses, and Federal backstop based on each insurer's share of the entity, imputing such amounts as part of their total business. This calculation would apply to all insurers that participate in such entities, regardless of whether they otherwise provide commercial property and casualty insurance as set forth in the legislation. This section further gives the Secretary discretion to apply the legislation to various classes of captives and self-insurance programs (such as workers' compensation self-insurance programs and State workers' compensation reinsurance pools).

The Secretary is also directed to conduct an expedited study to determine whether adequate and affordable catastrophe reinsurance for acts of terrorism is available to group life insurers and whether the threat of terrorism is reducing the availability of group life insurance for consumers. Should the Secretary determine that terrorism coverage is not or will not be reasonably available to insurers and consumers, the Secretary would be required to include group life insurance in the Terrorism Insurance Program. In so doing, the Secretary would have discretion to determine the most appropriate way to include group life insurance in the Program.

The Secretary, after consultation with the NAIC, is to conduct a study of the potential effects of acts of terrorism on the availability of life insurance generally and other lines of insurance coverage, including personal lines, to be submitted to Congress not later than 9 months from the date of enactment.

#### *Section 104. General authority and administration of claims*

The Secretary shall have the powers and authorities necessary to carry out the Pro-

gram. The Secretary shall annually compile information on the terrorism risk insurance premium rates of insurers for the preceding year. To the extent that such information is not otherwise available, the Secretary may require insurers to submit their terrorism risk insurance premium rates to the NAIC, which shall make such information available to the Secretary.

#### *Section 105. Preemption and nullification of pre-existing terrorism exclusions*

This section voids any commercial property and casualty terrorism insurance exclusion that is in force on the date of the enactment of this Act to the extent that it excludes that in force on the date of the enactment of this Act to the extent that it excludes losses that would otherwise be insured losses. Any State approval of any commercial property and casualty terrorism insurance exclusion in force on the date of enactment is also void to the extent that it excludes losses that would otherwise be insured losses.

This provision is intended to create immediate terrorism coverage for commercial property and casualty policyholders upon enactment for a short window of time, while allowing insurers to immediately send notices of the increased premium for such coverage and giving policyholders the option within 30 days of such notice to pay such increased premium or allow reinstatement of any pre-existing terrorism exclusion.

#### *Section 106. Preservation provisions*

This section preserves State regulatory authority except as specifically provided in this legislation. A uniform definition of a terrorist act is established in this legislation. Until the end of 2003, States would be required to allow rate and form changes to take effect immediately but would retain authority to disapprove any rates as excessive, inadequate, or unfairly discriminatory and where a State has prior approval authority for forms, subsequent review of such forms is permitted. During the period in which the Secretary's authority to carry out the Program is in effect, the Secretary would have access to any books and records of insurers that are relevant to the Program.

#### *Section 107. Litigation management*

The Conferees agreed to a provision on litigation management.

#### *Section 108. Termination of program*

This section provides a three-year program (with a transition period for the balance of 2002) that terminates on December 31, 2005. The Secretary shall conduct a study and report to Congress no later than June 30, 2005 on the effectiveness of the Program and the likely capacity of the property and casualty insurance industry to offer insurance for terrorism risk after termination of the Program, and the availability and affordability of such insurance for various policyholders, including railroads, trucking, and public transit.

#### TITLE II—TREATMENT OF TERRORIST ASSETS

#### *Section 201. Satisfaction of judgments from blocked assets of terrorists, terrorist organizations, and state sponsors to terrorism*

The purpose of Section 201 is to deal comprehensively with the problem of enforcement of judgments rendered on behalf of victims of terrorism in any court of competent jurisdiction by enabling them to satisfy such judgments through the attachment of blocked assets of terrorist parties. It is the intent of the Conferees that Section 201 establish that such judgments are to be enforced. Section 201 builds upon and extends the principles in section 1610(f)(1) of the Foreign Sovereign Immunities Act (28 U.S.C. §1610(f)(1)), authorizes the enforcement of

judgment against terrorist organizations and eliminates the effect of any Presidential waiver issued prior to the date of enactment purporting to bar or restrict enforcement of such judgments, thereby making clear that all such judgments are enforceable against any assets or property under any authorities referenced in Section 1610(f)(1).

Section 201(c) establishes a special rule for cases against Iran. In Section 2002 of the Victims of Trafficking and Violence Protection Act of 2000 (2000 Act), Congress directed that specified claimants against Iran under Section 1605(a)(7) of the Foreign Sovereign Immunities Act receive payment in satisfaction of judgments. Unfortunately, several victims and families of victims who brought suit against Iran, were left out of the 2000 Act. The Conferees has sought to correct this injustice.

In order to accommodate additional dates within the equitable formula for payment of remaining amounts in the accounts and rental proceeds, the Conferees added to Section (c) an adjustment to the proportional formula for payment to qualifying claimants.

In Section 201(d), the Conferees broadened the definition of "act of terrorism" for purposes of that section; defined the term "blocked assets"; and clarified the term "terrorist organization" to mean any entity included in the definition provided in Section 212(a)(3)(B)(vi) of the Immigration and Nationality Act, (8 U.S.C. §1182(a)(3)(B)(vi)). This provision is intended to reach terrorist organizations.

#### TITLE III—FEDERAL RESERVE BOARD PROVISIONS

PROCEEDINGS AND DEBATES OF THE 107<sup>th</sup> CONGRESS, SECOND SESSION

Vol. 148

WASHINGTON, WEDNESDAY, NOVEMBER 13, 2002

No. 146

## Senate

The Senate met at 11 a.m. and was called to order by the Honorable DEBBIE STABENOW, a Senator from the State of Michigan.

### PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious God, You have made gratitude the powerful antidote to grief. As a Senate family we thank You for our dear friends Paul and Sheila Wellstone. We are grateful for Senator Wellstone's courageous leadership and his indefatigable commitment to help the poor and disadvantaged of our society. We praise You for his prophetic zeal for righteousness and justice for all people. Thank You for the way Senator Wellstone befriended all the Senate staff and employees, particularly police officers, maintenance personnel, pages, and those who serve to make the Senate run smoothly. He knew people's names, always had time to stop and visit, and made people feel valued. Dear God, You have enriched all our lives with the affirmation and encouragement communicated so generously through Paul and Sheila Wellstone. They have done justly, loved mercy, and walked humbly with You. Heal our grief over their untimely deaths and fill us with Your Shalom. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable DEBBIE STABENOW led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, November 13, 2002.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable DEBBIE STABENOW, a Senator from the State of Michigan, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Ms. STABENOW thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Nevada is recognized.

### SCHEDULE

Mr. REID. Madam President, today the Senate will have a period of morning business until 12:30 p.m. The Chair

will shortly announce that. That time is equally divided between the two leaders or their designees.

We will have our regular party conferences from 12:30 to 2:15 p.m. today. At 2:15, there will be a period of morning business for one-half hour, and at 2:45 p.m. the Senate will vote on cloture on the Gramm-Miller amendment to the homeland defense bill.

There are additional rollcall votes expected today and tomorrow and Friday. We hope we can complete most of the business. It is my understanding the House is going to recess, and they may be in pro forma sessions for some time after that, but basically they are going home this week. So there is a lot of work to do with conference reports. We need cooperation from all Members. We hope we can get that done.

### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 12:30 p.m., with Senators permitted to speak therein for up to 10 minutes each, and with the time to be equally divided between the two leaders or their designees.

#### IN REMEMBRANCE OF PAUL WELLSTONE

Mrs. MURRAY. Madam President, on October 25, I lost a good friend, the Senate lost a leader, and the American people lost an advocate who was never afraid to stand up and speak for those who had no voice.

I rise today to honor my friend and colleague, Senator Paul Wellstone, who inspired so many people to speak up and to serve. Even as I stand here today, I cannot imagine that when I turn around I won't see Paul standing at his desk, his arms flailing in the air, making some point with great passion.

Paul, with his energy and optimism, has left a mark on all of us. In 1990, when Paul Wellstone ran for the Senate, a lot of people were watching him and following his race. Political pundits said he could not win. But as I watched him, I became motivated. At the time, I was serving in the Washington State Senate, and I, too, was frustrated by what I saw happening in Washington, DC.

In Paul I saw someone who cared about the little guy and who spoke pas-

sionately. Paul was never afraid to voice his ideas or take on big fights. Not only did he win that Senate race, but in the process he inspired a generation of young people to serve their communities.

On a more personal level, Paul inspired me to run for the U.S. Senate. His brilliant example reminded me that you don't need to be powerful or rich—or even tall—to make a difference. You just need to have an honest concern for others, an optimistic spirit, and the courage to act.

Over the last 10 years, I have agreed—and disagreed—with Paul on any number of issues. But never once did I doubt his conviction, and never once did Paul let his policy disagreements soften the love and friendship he felt for all of us. Paul and I worked on everything from domestic violence and education to providing health care for veterans and protecting families from asbestos.

I could always count on Paul to remind me that so many Americans have been dealt a tough hand in life. So many families, through no fault of their own, find themselves struggling, and they need an advocate to speak out for them in this Congress.

No matter what pressures he faced in the Senate or even with his own health, Paul always reminded me how lucky we are to be able to serve in the U.S. Senate.

One thing I will not forget about Paul is that every one of us was important to him and he proved that time and again. A few months ago, I held a meeting in my office to develop a legis-

lative strategy on a bill. I wanted to keep the discussion small and focused and frank, so I invited two other Senators and told them not to bring any staff members. When it was time to start the meeting, Paul bounced through the door with three people in tow. Even though staff were not invited, Paul didn't mind. But these weren't his staff—they were his interns. He proudly introduced each one of them to us, and they all stayed for the entire meeting. We were still able to get everything done that we needed to do in the short time we had. Those young students got to see democracy up close. They got to sit in on a closed-door meeting, and they got a sense—just for a moment—that they, too, belonged there and they, too, could do it.

Paul never stopped showing people what they could accomplish, and that is because he knew that people—plain old people—were important. He didn't care about pollsters and consultants; he cared about people. His love did not depend on whether they could write him a check.

My favorite all-time campaign event with Paul was not a fundraiser, but—in true Paul style—it was a “time-raiser.” On a cold Saturday morning, Paul jammed a hall with folks who could not write a check but who could donate 2 hours of time to call or leaflet or answer phones. Judging from the enthusiasm of that crowd, yelling to the rooftops in the packed room, Paul was their Senator and their guy. He valued them and they valued him.

By order of the Joint Committee on Printing.

MARK DAYTON, *Chairman*.

I remember another event when Paul wasn't even scheduled to speak, but he ended up stealing the show. Earlier this year, I was at a press conference on education in the Dirksen Building. Senators KENNEDY, HARKIN, REED, and others were scheduled to talk about making classrooms less crowded. Out of nowhere, Paul Wellstone rushed into the room looking a bit confused. My colleagues and I looked surprised because Senator Wellstone was not scheduled to speak and was not on the agenda. When Paul got to the podium, the first thing he said was:

I am not sure if I am in the right room. When I ran into Ted Kennedy on the floor a while ago, he asked me if I was going to the education press conference, and I said I hadn't heard about it, but I would be there.

He continued:

Frankly, I don't even know if I am talking to the right group, but I am going to tell you why we need to fight for our kids.

Everyone laughed. Paul went on to give a passionate, off-the-cuff speech that wowed and inspired every person in that room.

To me, that really captures Paul's spirit. Wherever some cause needed a voice, he would rush in—regardless of the schedule—and give his impassioned best. If there were a need, he would be there to speak out.

Paul had said he didn't know if he was in the right room, but today I can say with confidence that Paul was in the right place all along.

We are all poorer for the loss of Paul Wellstone, his wife Sheila, his daughter Marcia, the members of his staff, and the pilots who were taken from us on that dark day. It is sad to say that the Senate will no doubt change without Paul. No one will pace down this aisle and speak as passionately as Paul did for so many causes. But I hope that each one of us who are here will take on part of Paul's legacy—for example, the spirit to speak out for the underprivileged, for students in classrooms with leaky roofs, for the woman on welfare not because she wants to be, but because of domestic violence and she is trying to get back on her feet.

I hope we will pick up his legacy and speak out for the workers who are out of a job because this economy has left them behind, or for those who are trying to overcome mental illness and just need some help from their insurance company.

I hope, too, that we will carry on Paul's legacy of respect. Paul spoke from the heart and he spoke passionately. But he never held any disrespect for those with different views. I saw him so many times debate long and hard against another Senator and then step away from the microphone and share a laugh or a hug with the very person he had just debated a few moments before.

If we can remember to fight for all Americans, no matter what challenges they have been dealt, and if we do it with respect and dignity, then Paul's legacy will live on in the Senate, as it

lives on in our hearts and in our minds. I, for one, am going to miss him very much. He was all heart and soul. He is impossible to replace.

I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWNBACK. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CARPER). Without objection, it is so ordered.

Mr. BROWNBACK. Mr. President, I rise to speak in morning business to pay tribute to Paul and Sheila Wellstone. It is a difficult thing to do. It is a difficult thing for all of us to do. It is easier for me, right now, to imagine Paul standing over there and articulating a great point, a great point that would be for the consideration of some group of people or an individual about whom he would be deeply concerned—he was clear, passionate, and very forceful in his advocacy for them—rather than to think of him as being gone but he is.

You cannot really measure the height of a tree until it is down. That is, unfortunately, again, the case for Paul and Sheila Wellstone. He was a really tall man. They were really tall trees in what they did.

I had the great fortune to be able to work with both Paul and Sheila on an issue we cared a lot about—the trafficking of individuals across country borders, generally for reasons of prostitution but also for other purposes. We found this was going on.

Actually, Sheila discovered this was happening by visiting with a number of Ukrainian women, some of whom had been trafficked themselves when the Soviet Union fell, when the superstructure that was the Soviet Union came down.

It turned out that gangs, groups came in, the Mafia-type organizations, to operate in the former Soviet Union, and they would run a number of different things. They would run drugs, they would run weaponry, and they would run people. It turned out the trafficking of people was actually their third most profitable operation. It was a real despicable thing they were doing. They would actually go into communities, trick young ladies, generally—sometimes young boys, but generally young girls—saying: We have this great bit of excitement for you. We are going to be able to have you travel to Europe or to the Middle East.

With the fall of the Soviet Union, they didn't see hope or opportunity in their own country, and they would sign on, only to have their papers taken away once they crossed the border. They would be put into a brothel, in some cases chained and tortured until they would submit to prostitution. And then they would even be moved from brothel to brothel. It was a real seamy,

dirty, ugly thing that was taking place. It was a dark side of the globalizing economy. It was a dark side of the fall of the Soviet Union. And Sheila found out about it by meeting with Ukrainian women.

Now, I am sure there were not many votes at all in Minnesota that were going to hinge on whether or not Paul or Sheila were going to work on the issue of the trafficking of young girls from the former Soviet Union, Nepal, and India, or from other places. Generally, there was trafficking from poorer countries into richer countries. But Paul was such a champion of the value and the beauty of each person and the needs and the dignity of that individual, and Sheila was as well, that they were willing to put this issue forward and fight for it over a period of a couple years, until we could get the bill passed.

Sheila found out about it. She brought it to Paul's attention. He learned about it and talked with some of these women who had been trafficked. I started to hear about it. I met with women who had been trafficked and found out about the despicable nature of this new form of human slavery, a human slavery of which one person even wrote a book entitled, "Disposable People," because it happened in a situation where they would be moved from one brothel to another, and then, as they would get sick or diseased—in some cases they would get tuberculosis, AIDS—the owners would even throw them out on the street and say: Well, we are done with that one. It was just the most ugly act.

I remember being in a home for girls who had been trafficked and returned to Nepal. There were 50 girls, 16 to 18 years of age. Many of them had been trafficked when they were 12 to 14 years of age. And a lady was helping run this home. This was a recovery house for girls after they would come back from the brothels. This woman was trying to teach them a trade, trying to get them back into the community in Nepal. She would point around the room and say: That girl has tuberculosis and AIDS and she is dying. This girl is dying. That girl has this disease; I don't know if she is going to make it. These were girls who were 16 years of age who should have been in the very flower of their lives, and they were all dying.

They saw it. They were willing to fight for these other people. And we were able to get through legislation on sex trafficking.

Paul joked with me afterwards. He is a more liberal Member and I am a more conservative Member. After that legislative session, he commented that he moved from being the most liberal Member to the second most liberal Member of the Senate, and he blamed it on working with me. I said: Well, just hang around with me, Paul, and we will get you reelected.

He had that kind of humor. He was a friend. He was a friend that was not

scared of ideology splitting people apart. He had his beliefs; I had mine. We all do. But he did not let that separate him. He did not judge a person's soul by their ideology. He judged people by their character and their heart, where they would be willing to stand.

I would often see him come over to greet and talk with JESSE HELMS. He and JESSE disagreed on a number of issues, but they both had passion, soul, and heart. That is what they respected and loved about each other, and that is what I continue to see and love about Paul and Sheila Wellstone, that passion, heart, and soul that would carry them forward.

I do not know that there is a better quote one could put forward than from Dr. Martin Luther King. He once noted that the ultimate measure of a man is not where he stands in moments of comfort but where he stands at times of challenge and controversy.

If we measure Paul and Sheila by that measurement, they stand as a very tall tree. Paul knew controversy. He knew difficulty. He knew challenge. It rallied him. It made him taller. It made him stronger. It was not comfort that he sought. It was not comfort that he wanted to have. I have often thought that in this life it is challenges that build us, it is not comfort that builds us; that God has created us to meet challenges, not to sit back and to eat bon-bons or to let things go by in a measurable way, but He puts challenges in front of us. The more we are willing to accept, the more He is willing to give, and the more He is willing to test us.

Paul and Sheila accepted challenge after challenge, controversy after controversy, always with a pure heart, wanting to do the right thing to help people, regardless of what it might mean to themselves. They were there to do it and they wanted to do it. They relished doing it and they grew in doing it. He was a spirited fighter.

I remember reading about—certainly I was not in this body then—when Hubert Humphrey served in this body and was dying of cancer and they had a tribute to him in Time magazine. I remember so vividly reading about it. The title of it was "Happy Warrior," because he was a warrior and he was happy about it, that his course, his challenge, in life was to be a warrior. He relished in the opportunity to be a warrior.

I did not know him personally, but he could not imagine, as I understand his personality, that there would be any calling any better than to be a warrior.

Paul followed in those footsteps in a great and magnificent way. He was a happy warrior, happily fighting for his cause, happily pressing forward, knowing that people disagreed with him. I disagreed with him often, but I could never disagree with that passion. Nor could I ever disagree with that heart. We developed a really good friendship.

He is a man I was very fond of and I am fond of even now. As I say, it is

hard to think of him being gone. I suppose that is because he and Sheila really probably still are here.

My prayers have been with them, with the other people who went down in that plane. So tragically their lives were ended early. None of us will know why on this side of eternity, but we can always learn and grow from him. We are caused to grow in our life by each person with whom we come in contact. I was caused to grow in a very profound and very personal way by my contact with Paul and Sheila. I am indebted to them. I pay tribute to them and what they have done. God bless them.

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. I would like to join my colleague, Senator BROWNBACK, in paying tribute to the life of Paul and Sheila Wellstone. It is also so important for us to remember the staff and others who were on that airplane. We have people in this country who serve every one of us, and their lives were given in service of their country also.

Paul was a unique individual, no doubt about it, a man who made us smile even when we were in debate against him. He was a happy warrior. I think that is a good description of him.

All of this points out, as the Scripture says, that life is but a vapor. We are only here a short time. We might as well pour ourselves into it and fight for what we believe. Else, what is life all about?

He did that. He poured himself into his job, poured himself into his view of the world and life in general and fought for that. His political agenda was an expanded government. He wanted to help people in need. He was passionate about that. He wanted to help people. To a large degree, I suppose the disagreement I had with him was that he believed that government was the way to make that happen, but the goal was good. I know Paul liked me, and I loved him. He was an individual who was very special.

I feel real sad about this entire event, as do all of us in this Senate. I remember his vote against the Iraq resolution, which was something I felt very strongly in favor of. He was the only Member of this body who was up for reelection who had to answer to the voters on that issue. He did not see it the way I saw it, and he did not tack to the wind. He voted against that resolution and went back home and answered to people of Minnesota. He told them why he did it, and either they agreed with him or they forgave him. He was able to cast what many thought was an unpopular vote and not suffer the apparent political consequences.

I believe Paul was a special person. He set a good example for all of us to realize that life is short. We are only given this opportunity to serve in the greatest deliberative body of the greatest country in the history of the world for what we have to assume is a very short time. We might think constantly that therefore we should use this office

for the people's good, and if we do that, we will have honored his name, honored the commitment he made to public service, and honored the people of the United States.

I will miss Paul. He was a man of great strength and character. This body will be poorer for his absence. Our thoughts and prayers go out to his family and friends.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HUTCHINSON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HUTCHINSON. Mr. President, I take a moment to pay my personal tribute to Paul Wellstone. Paul was a dear friend and someone for whom I had a great deal of respect, someone with whom I enjoyed working. We served on the Health, Education, and Labor Committee together. We served on the Workforce Protections Subcommittee together. We had many opportunities to deal on differing positions, obviously, on that committee, but always with great congeniality and with a great deal of affection for one another.

He and I were both in very heated reelection campaigns, very tight reelection campaigns, and oftentimes discussed before the adjournment our mutual desire to be able to campaign in our States.

I share the grief of my colleagues in the loss we have all experienced, the State of Minnesota has experienced, along with his family and what they are enduring. We also look back with a great deal of joy at the life he lived and the contribution he made not only to his State, to his country, but to each one of our lives.

I recall so often Paul standing at his desk. He took the desk of one of my predecessors in the Senate, Dale Bumpers from Arkansas. He was a good successor for that position. Where Senator Bumpers would often walk up and down that aisle with great passion, so, too, Paul Wellstone would use the entire length as he wandered that aisle and as he spoke with such passion and such conviction.

I remember often his referring to himself, as he would speak, "as a Senator from the State of Minnesota." He would use that expression. I don't know if that is as commonly used as he used it—"as the Senator from the State of Minnesota"—and he stated his position and conviction. I thought that phrase, "a Senator from the State of Minnesota," summed up an awful lot of Paul Wellstone. He was proud of the State of Minnesota, representing the State of Minnesota and the people of Minnesota. He was proud also of this institution, being a Senator. He never lost the love and the awe for serving in

this great institution. In my mind, I will always be able to hear echoing Paul Wellstone as he spoke on issue after issue as a Senator from the State of Minnesota.

The area in which we found mutual interest and, though from very opposite ends of the political spectrum, similar feelings was the area of human rights, especially on the cause of China and the people of China, telling the world about the human rights abuses that continue even to this day in China. Paul and I held many press conferences with Members, colleagues from the House, who shared concerns about China. He and I made many floor speeches about the remembrance of the Tiananmen Square massacre and some of the tragedies in the past.

I speak today with great affection, great admiration, and a great sense of loss about Paul Wellstone. He was a person who had great convictions. He was a man of great conscience. He was a man who did not mind if he upset the political order. He did not care that it might disrupt someone's schedule if he needed to make a speech on a position about which he felt very deeply. As one who admired him for his conscience and his passion, I simply pause today to express my appreciation and admiration for the contribution he has made to all of us.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Nebraska. Mr. President, I would like to add my voice to the many already heard today in remembrance of a passionate, intelligent, spirited man, Paul Wellstone.

Senator Wellstone was an original in a crowd abounding with characters. Paul first gained notoriety for earning this office logging miles on a green school bus, traveling across the State of Minnesota touching the lives of everyone he came across. Once in Washington, Paul made his mark quickly on each Senator, aide, reporter, and officer who has been lucky enough to serve this institution, with him.

Paul Wellstone was a man of principle who provided thoughtful analysis of every issue, but unlike some passionate statesmen, for Paul it was never personal. He respected differences in opinion though he was unwavering in his own beliefs. And although I only served with him for two years, I saw many times his warmth towards those around him regardless of political ideology.

A few weeks ago we were on the floor giving tribute to another of our Members, Senator JESSE HELMS, who will be retiring this year. Senator Wellstone eloquently praised Senator HELMS, who

has been so often on the other side of the ideological divide. At the conclusion of his remarks, he embraced Senator HELMS.

Paul was a man of ideas, but also a man of the people. He will be sorely missed and our thoughts and prayers are with his sons, the Wellstone staff, and the people of Minnesota during this difficult time.

Mr. CONRAD. Mr. President, I rise today to remember a man who is deeply missed. He was a colleague, a leader and a friend: Senator Paul Wellstone of Minnesota. Since joining the Senate in 1990, Paul earned his reputation as a great leader and a man of the people. He had strong convictions and an unparalleled passion for supporting the under-represented.

As a member of the Health, Education, Labor, and Pensions Committee, Senator Wellstone was a tireless advocate for the concerns of working Americans. He pushed for expanded school funding and for improved teacher quality. He championed expanded financial aid to make sure that money was not an insurmountable hurdle for those who wanted to go to college. He fought for a higher minimum wage and better working conditions. He wanted to help the average American by working to provide better, more affordable, more available health care. It was visible to all who watched him that Paul truly loved his work, and the people for whom he did that work.

Paul was a strong voice in the Senate and across the country in the battle for human rights. For example, Paul and his wife Sheila crossed the country fighting against domestic abuse. But his concern for the dignity of human beings did not stop at our country's borders. He championed a trade policy that would protect foreign workers from being exploited by multi-national corporations. He was a vigorous supporter for peace in the Middle East and an advocate of foreign aid to help vulnerable children and the persecuted of all races and religions around the world. There wasn't an issue that affected human beings or our quality of life that Paul did not actively pursue; he fought for the people, stood up for his beliefs and let the political chips fall where they might.

Senator Wellstone was also a leading proponent for American Veterans and their families. Year after year, in ways small and large, Paul Wellstone fought to improve health care and other benefits for those who had served their country. Many veterans disagreed with his views on defense and foreign policy, but that did not matter to Senator Wellstone. He understood that those who had put their lives on the line for their country deserved special treatment and special respect whether they supported him or opposed him.

People didn't always agree with his position, but he was always forthright. There was never a question of motives with Paul. Senator Wellstone never let policy disagreements get personal; he

always had a ready wink or smile or joke to share when the debate had ended. And he had a sense of humor that was downright infectious.

I worked most closely with Senator Wellstone on agriculture issues. Paul was a fighter. He worked tirelessly to improve policy for the farmers in Minnesota and other rural states. Minnesota's dairy farmers couldn't have asked for a more vigorous ambassador in the fight for a fairer dairy program; his efforts paid off in the 2002 farm bill, which made great strides in leveling the playing field for Midwestern dairy farmers. Paul worked on conservation issues, supported farm payment programs to family farmers and worked to improve nutrition programs in the farm bill. Senator Wellstone also understood the value of strong communities in rural areas and tirelessly pushed for rural economic development. As with everything else he worked on, Paul brought a unique passion and unceasing efforts to these battles.

Paul also worked side-by-side with me after the Red River flooded Grand Forks and East Grand Forks in one of the worst flood disasters in our history. His advocacy was invaluable as we secured disaster aid to rebuild the communities that had been devastated by flooding and fires. When a battle was truly important and people's livelihoods were on the line, there was no one who would fight harder than PAUL WELLSTONE.

We also worked together on the issue of mental health parity. I can well remember when Senator Wellstone took this issue to the Senate floor during the debate on health insurance portability. The managers of the bill had crafted a delicately balanced bill and agreed to oppose all amendments in order to preserve their compromise. But that would not stop Paul Wellstone. He offered his amendment, and gave a typically passionate, personal plea to put an end to the injustice that condemns those with mental illnesses to inferior health care coverage. I was privileged to join Senator DOMENICI and former Senator Alan Simpson in making the case for this amendment. And, despite the bipartisan opposition of the leadership on the bill, Paul's passion and the personal stories shared by his allies carried the day overwhelmingly.

Paul's enthusiasm was infectious and deeply respected by his colleagues. No loss on an amendment or other setback could keep Paul down; he was always ready to rejoin the fight and perpetually optimistic that he would expand his coalition and find a way to win the battle the next time. It is his character and good humor that we remember, and it is his unquenchable desire to help human beings of all kinds that will prove to be the greatest loss.

Mr. ROCKEFELLER. Mr. President, Paul Wellstone was a committed and effective Senator who will be deeply missed by millions of often ignored

Americans, people who relied on him not only to fight their battles, but to win important victories on their behalf.

I worked closely with Senator Wellstone for many years, in a number of areas important to both of us.

As Chairman of the Senate Committee on Veterans' Affairs, I know that he was a tireless fighter for the men and women who had served in America's armed forces, especially for ill and aging veterans, those least able to fight for themselves, yet most in need of our help.

He fought for children, for their education and health care. And he worked to fashion a welfare system that encouraged work and protected children, without becoming punitive or unreasonable.

He also worked on behalf of the unskilled and unemployed, for a living minimum wage, for job training, and for education benefits to promote workers' 21st century skills. And I knew I could always count on his support for West Virginia's steelworkers and all workers threatened by unfair practices in an increasingly complex economy.

Senator Wellstone's many battles earned him a reputation as an ideologue and a firebrand. But I saw him reach across the aisle many times in his career. His first loyalty was to people, not to party, and his work with Senator DOMENICI on the groundbreaking Mental Health Parity Act stands as testimony to the strength of his priorities and the effectiveness of his approach. I am proud to be able to continue his work to bring equitable treatment to those who suffer from mental illness.

Paul Wellstone never believed that having principles and sticking to them somehow meant you couldn't get things done in the United States Senate. Instead, he believed that you had to stick to your principles, or you couldn't get anything worthwhile done. It was an approach that made him unique and won him unusual respect and admiration from every member of this body.

Senator Wellstone's tragic death, along with the deaths of Sheila and Marcia Wellstone, staffers Tom Lopic, Mary McEvoy, and Will McLaughlin, and pilots Richard Conroy and Michael Guess, have left a void in the Senate and in our hearts.

But all of us who worked with him, or knew of the work he did, will find some cheer in the memory of Minnesota's great voice for justice and opportunity.

Many will remember him for his fiery speeches and outspoken opinions.

But atomic veterans finally receiving treatment for their service-related disabilities, and homeless veterans with a new chance to find their way off the streets; parents whose children are learning from better teachers and enjoying better access to health care; activists who found an ally in their

struggle to end violence against women; workers receiving job training; and entrepreneurs, especially women, minorities, and the urban poor, profiting from a changed and expanded federal small business loan regime.

All these people will remember Paul Wellstone, as I will, not just for what he said, but what he did.

#### RECESS

The PRESIDING OFFICER. Under the previous order, the hour of 12:40 having arrived, the Senate will now stand in recess until the hour of 2:15 p.m.

Thereupon, the Senate, at 12:40 p.m., recessed until 2:16 p.m. and reassembled when called to order by the Presiding Officer (Mr. REID).

#### MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of morning business, not to extend beyond the hour of 2:45 p.m. today, with the time from now until 2:45 to be equally divided between the two leaders or their designees.

Mr. LEVIN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RECESS SUBJECT TO THE CALL OF THE CHAIR

Mr. LEVIN. Mr. President, I ask unanimous consent that the Senate recess subject to the call of the Chair.

There being no objection, the Senate, at 2:19 p.m., recessed subject to the call of the Chair and reassembled at 2:29 p.m., when called to order by the Presiding Officer (Mr. EDWARDS).

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, is the Senate in morning business?

The PRESIDING OFFICER. Yes.

Mr. LIEBERMAN. Mr. President, I rise to support the motion for cloture that will be voted on in about 15 minutes. This is a way to begin bringing this debate on the creation of a Department of Homeland Security to a close and to allow our Government to begin the urgent business of creating this new Department.

For those of us who have supported this idea for over a year now, this moment is long overdue.

I am troubled by the draft of the substitute bill that began circulating yesterday which, in my view, has not only a number of very good parts in it which are quite similar to those contained in

the bipartisan bill reported out of the Governmental Affairs Committee but also has a number of serious shortcomings that I hope to discuss when it comes to the floor either later today or tomorrow.

I am especially concerned that this new substitute bill creating a Department of Homeland Security also contains a number of special interest provisions that are being sprung on the Senate without prior warning or consideration. This is really not the time for that. We all ought to be focusing on the terrorist threat, the need to create a Department of Homeland Security to meet that threat, and not on using a vehicle that is probably moving to passage to put into it a host of pet personal projects. This is clearly not the time for that, and I hope the President and members of the leadership will discourage Senators and Members of the House from using this homeland security debate as a vehicle for accomplishing those more special purposes.

More than 14 months have now passed since September 11, 2001, that day when terrorists viciously exploited our vulnerability and took the lives of 3,000 of our friends, family, and fellow Americans. Fifteen months have now passed since October of 2001, when Senator SPECTER and I initially proposed legislation creating a Department of Homeland Security to meet and beat the terrorist threat. This measure was not just bipartisan. It was, in fact, intended to be nonpartisan. Our proposal had nothing to do with politics and everything to do with giving our Government the ability to protect the American people from another terrorist attack. I point this out now, not out of pride but to make clear how far we have come, in some ways in the wrong direction, and how much time we have taken before making this urgent transformation.

In the beginning, the vision of a Homeland Security Department was a recommendation and a report issued by a nonpartisan commission chaired by our former colleagues, Warren Rudman and Gary Hart. Then it was put forward in our committee bill. Then, as often happens to good ideas in a democracy, it gained support and steam in Congress.

At the outset, President Bush and most Republicans in Congress resisted our legislation. I never took that resistance to be partisan, and I do not believe it was. The President argued that the coordinating Office of Homeland Security within the White House led by Governor Ridge would be strong enough to do this massive and complex job. So for 8 months, the administration did oppose the creation of a Homeland Security Department.

In the meantime, the Governmental Affairs Committee held a total of 18 hearings, exploring every possible aspect of our homeland defense vulnerabilities and how they should be fixed. On May 22 of this year, the product of that work, a new version of the

bill, was reported out of our committee, unfortunately, on a party line vote with all Democrats voting in favor of a Department of Homeland Security and all Republicans opposed.

That partisan split did not last for long. A month or so later, last June, I was very pleased when the President and most of our Republican colleagues endorsed a proposal to create a Department of Homeland Security.

Somebody once said it is common in Washington to see people change their positions but rare to see them change their minds. I like to believe that is exactly what happened in the White House. Based on experience, the President and his assistants changed their minds about the desirability of a Department of Homeland Security. We then worked with the White House and Senate Republicans to build the greatest possible support for a bipartisan bill.

In July of this year, our committee sent such a bipartisan proposal to the Senate floor, which we began to debate in early September. We had a good debate on this proposal. As was acknowledged by all people on both sides, our committee legislation overlapped with the President's proposal and the House-passed bill on 90 or 95 percent of the issues and decisions involved. Somehow, despite finding ourselves on the same page, we could not find a way to turn the page together to create a more secure nation.

The major sticking point was civil service protections and collective bargaining rights for homeland security employees. We tried in good faith to bridge that divide. We pushed repeatedly for a vote on a very reasonable bipartisan proposal.

I ask unanimous consent that I be given 5 additional minutes to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LIEBERMAN. I thank the Chair. We pushed repeatedly for a vote on a very reasonable bipartisan proposal crafted by Senators BREAUX, NELSON, and CHAFEE, to break the unnecessary logjam over the rights of Federal workers. But that was not to be had.

Our colleagues on the other side did not yield. Five times they refused to allow a vote on their own bill, even though Democrats had time and again given ground and simply wanted a vote on the compromise amendment.

As will be remembered, mostly because of Senator DASCHLE's totally justified expression of anger on this floor, the Bush administration even began to question the patriotism of Democratic Senators rather than joining us on this good-faith area of disagreement to try to come to an agreement.

In a new low in the tawdry business of political campaign advertising, two of our colleagues, Senator CLELAND and Senator CARNAHAN, were subjected to ads that took votes they cast out of context on homeland security and questioned their patriotism. That was

outrageous and unacceptable. The fact is that these two Senators, CARNAHAN and CLELAND, had been early supporters of a Department of Homeland Security. So what started out as a non-partisan effort to protect America's national security, unfortunately, became a very partisan effort to decide elections. Now the campaign is over. It is time to turn the page once again.

Benjamin Franklin said, you may delay, but time will not. I say this afternoon we may delay, but the terrorists will not. Senators Hart and Rudman issued another report within the last week or two and they have predicted another terrorist attack:

The next attack will result in even greater casualties and widespread disruption to American lives and the American economy. The need for immediate action is made more imminent by the prospects of the United States going to war with Iraq and the possibility that Saddam Hussein might threaten the use of weapons of mass destruction in America.

Our vulnerabilities remain painfully serious, our disorganization in terms of our national apparatus to combat terrorism and protect national security, homeland security, dangerously disorganized. That is why it is so critical to pass a bill creating a Department of Homeland Security, led by a strong and accountable Secretary. That will start to close our vulnerabilities and improve our homeland defenses. Safety in this new age is a civil right. When Americans live in fear, their rights are compromised. By invoking cloture and moving toward a resolution on a Department of Homeland Security today, we will be saying loudly and clearly that we as a Nation do not succumb to fear. We will face what threatens us with strength. We will not be shaken by the voice that once again has threatened us on audiotape because we will secure our own future by working together in Congress to better organize our government and thereby to secure more control of our own destiny. Fear, uncertainty, and delay will be overcome by strength, unity, and American ingenuity. We will protect our friends, our family, and our children against the worst designs of our terrorist enemies by drawing on the best in each of us and, hopefully, in the days ahead we will do it together.

I urge my colleagues to vote for cloture on this vital legislation. I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, I think I have 5 minutes and then we have a vote, so I will try to be brief. It is fair to say at the beginning of the process, no one conceived there could be partisanship on homeland security. Neither party sought the partisanship, but yet in the process it came. We ended up as the session ended with a situation no one may have chosen, but the reality was every Democrat except one was opposed to the President's program, and every Republican except one was for it. The definition of partisan-

ship is when you have an issue that produces a division right down the middle aisle. That is what we had. We had an election. I do think the American people spoke clearly on this issue. If there was a dominant theme in the election, it was that the American people were unhappy that we had not found our way to a bipartisan solution to our homeland security dilemma.

Today we have an opportunity to fix that. We have the opportunity to fix it by the following procedure. We need to vote yes on cloture on the Gramm amendment, which I intend to vote yes on. There will then be a motion to table the Lieberman amendment which, if it is successful, and I hope it will be successful, will knock down the whole superstructure that has been piled on top of the underlying Homeland Security bill. That will give us an opportunity to offer a bipartisan compromise that has been hammered out over the last 4 or 5 days. There is, at least in terms of what people have said in the reported media, a majority of the membership that is in favor of that compromise. Even as we speak, the House is debating a rule under which they will consider that compromise. Tonight, about 6 p.m., it is my understanding they will vote on that compromise. If they adopt it—and we have every reason to believe they will adopt it overwhelmingly—if we do the same, we will have been successful in a bipartisan effort to provide for Homeland Security.

I conclude by simply noting when we have the kind of debate we had for 6 weeks, it is easy to have hard feelings about it, it is easy to say "I want to prevail" after all the effort. I hope now we have had an election, we have all had an opportunity to go home and tell our side of the story, we can now come together.

I do think we have a good agreement. It does not do everything I want to do. It does some things in ways that I would choose not to do. Overall, it has two redeeming qualities. One, it gives the President the power he needs to get the job done, and the President and all those who would be working with him to create and run this new Department say with this compromise, they can get the job done.

Second, at least if everyone stays where they said they are, we have a majority of Members willing to vote for it. No matter what you think, or no matter what perfection would be, if, after 6 weeks of very difficult partisan debate, you have a proposal that will get the job done, a proposal that is supported by the person who has the constitutional responsibility for doing the job—the President—a proposal that those who would implement say they can make work, and a proposal the majority of Members have decided they are for, I am hoping we can get a very big vote here and put this behind us.

Finally, in the waning days of a session, obviously any individual member has extraordinary power. If someone

decides they want to try to disrupt the process, they can. This is not an extreme proposal. It is a compromise. It has dealt with many of the issues that have been raised, from the appropriations issue Senator BYRD raised to numerous other issues discussed. I hope we will today begin the process that will quickly allow us to pass this bill. I yield the floor.

### UNANIMOUS CONSENT REQUEST

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of the conference report to accompany H.R. 4546, the Department of Defense authorization bill; that there be 75 minutes equally divided and controlled by Senators LEVIN and WARNER or their designees; that upon the use or yielding back of the time with no intervening action or debate the Senate proceed to vote on the adoption of the conference report; that upon the adoption of the conference report and the Senate resuming consideration of H.R. 5005, Senator THOMPSON be recognized to offer a substitute amendment; that immediately upon the reporting of the Thompson amendment Senator LIEBERMAN be recognized to offer an amendment to the Thompson amendment; and, following that, Senator

FEINGOLD be recognized to offer an amendment.

The PRESIDING OFFICER. Is there objection?

Mr. GRAMM. Reserving the right to object—

Mr. REID. I added to the unanimous consent request, which the minority leader did not have a chance to review, that Senator FEINGOLD be recognized following the Thompson amendment, which, as I understand it, deals with the cost-of-living increase.

Mr. GRAMM. Mr. President, maybe something could be worked out, but that was not part of the agreement that we had sent over. On that basis, I have to object.

The PRESIDING OFFICER. Objection is heard.

Mr. REID. The Senator is absolutely right. I only did that to get approval on our side, and I should have checked with the Senator first. I apologize.

Does the Senator from Texas only object to the Feingold part of the unanimous consent?

Mr. GRAMM. Mr. President, if the distinguished Democratic floor leader will yield, we had met and canvased our Members on the original agreement that we had reached. That agreement entailed bringing up the Defense authorization bill, having a 75-minute time limit on it, voting on it, and then having Senator THOMPSON be recognized to offer the Gramm-Miller substitute. Subsequently, the Senator from Nevada made a change in that agreement which has not been canvased on my side. So I am required to object to the unanimous consent request as the Senator has changed it. But the original one we would stand ready to accept.

Mr. REID. The Senator is absolutely right. Standard procedure around here is to check with the other side. I did not do that. I apologize for that.

Would the Senators agree that we could go do the first part of this unanimous consent request; that is, that we would go to the Department of Defense authorization conference report and have 75 minutes of debate on that? And, of course, following the disposal of that, Senator DASCHLE or Senator LOTT or the two managers of the bill would have the first right of recognition. I am sure that would accomplish the same thing anyway.

Mr. President, I ask unanimous consent that the Senate proceed to the consideration of the conference report to accompany H.R. 4546, the Department of Defense authorization bill; that there be 75 minutes of debate equally divided and controlled between Senators LEVIN and WARNER; that following disposition of that matter, the Senate proceed to vote on the adoption of the conference report; that upon adoption of the conference report, we return to the consideration of H.R. 5005, which would be the regular order anyway.

The PRESIDING OFFICER. Is there objection?

Mr. WARNER. Mr. President, reserving the right to object—and I shall not—could we be more explicit as to whether or not we believe there should be a recorded vote because that is a time element. At this point, I think I would speak. We want to convenience the leadership in the expediting of the matters before the Senate. I do not know if there has been a request for a recorded vote because you are looking at 30 minutes for that probably. I just make that clarification.

Mr. REID. We have been told that on your side there is a vote required.

Mr. WARNER. OK.

I thank the Chair.

Mr. REID. I say to my friend from Wisconsin, the Senator from Wisconsin is not in any way jeopardized with anything in the first part of this unanimous consent request. If we can go to the Defense Department authorization conference report, H.R. 5005 reappears automatically anyway.

Mr. FEINGOLD. Mr. President, I object to this request.

The PRESIDING OFFICER. Objection is heard.

The Senator from Wisconsin.

Mr. FEINGOLD. Mr. President, if there would be an understanding that my amendment would follow this process as a separate agreement, I would be happy to lift my objection.

Mr. REID. Mr. President, as I said to my friend from Wisconsin, I will do what I can to make sure he has an opportunity to offer an amendment. I cannot guarantee that. I can only do that with a unanimous consent request.

#### AMENDMENT NO. 4900

(Purpose: To provide that Members of Congress shall not receive a cost of living adjustment in pay during fiscal year 2003)

Mr. FEINGOLD. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Wisconsin [Mr. FEINGOLD] proposes an amendment numbered 4900.

At the appropriate place in the bill insert the following sections:

#### SEC. . COST OF LIVING ADJUSTMENT FOR MEMBERS OF CONGRESS.

Notwithstanding any other provision of law, no adjustment shall be made under section 601(a) of the Legislative Reorganization Act of 1946 (2 U.S.C. 31) (relating to cost of living adjustments for Members of Congress) during fiscal year 2003.

Mr. FEINGOLD. Mr. President, my amendment is very straightforward. It would eliminate the roughly \$5,000 pay raise scheduled to go into effect next January for Members of Congress.

Put simply, this is the wrong time for Congress to give itself a pay hike.

Our economy is still recovering from the recent slowdown. The financial markets have been rocked, wiping out a chunk of the life savings and retirement accounts of many families. Thousands of workers who were laid off have not returned to work, and families face increasing financial pressures.

Our budget is, once again, back in deficit. Even under the most optimistic scenarios, we are facing serious budget deficits for many years to come. The on-budget deficit for the fiscal year that just ended on September 30 is well over \$300 billion, and the Office of Management and Budget projects deficits totaling over one trillion dollars over the next five years.

In fact, the Federal Government is spending all of the Social Security Trust Fund surpluses, and then some, something we should do only to meet the most critical national priorities.

A pay raise of nearly \$5,000 for Members is not a critical national priority.

Nor can one argue that this pay raise is justified because Members have not had one in a while. This is the fourth pay raise in as many years. On January 1, 2000, Members received a \$4,600 pay raise. On January 1, 2001, Members received a \$3,800 pay raise. On January 1, 2002, Members received a \$4,900 pay raise. And unless we stop it, this coming January, Members will receive a \$4,700 pay raise.

That will mean that, as of this coming January, Members will have received four consecutive pay hikes totaling \$18,000—\$18,000 per year.

That is more than the average annual Social Security benefit for a retired worker and spouse. It is more than the average annual Social Security benefit for a disabled worker, spouse, and child. It is more than someone working minimum wage can make in a year and a half.

This automatic, stealth, pay raise system is absolutely wrong. It is an unusual thing to have the power to raise our own pay. Few people have that ability. Most of our constituents do not have that power.

That this power is so unusual is a good reason for the Congress to exercise that power openly, and to exercise it subject to regular procedures that include debate, amendment, and a vote on the record.

That is why this process of pay raises without accountability must end. It is offensive. It is wrong. And I believe it may be unconstitutional. The 27th Amendment to the Constitution states:

No law, varying the compensation for the services of the senators and representatives, shall take effect, until an election of representatives shall have intervened.

I recognize that some of our colleagues may feel they deserve a pay raise. I certainly respect that position. Last year, a colleague said to me that Members deserved a pay increase because of all that we had been through. Again, I strongly disagreed with that assessment last year, but I understood the sentiment.

But even those who favor a pay hike should support voting for it on the record. Certainly, having an open and public vote on the record for a pay hike is better than the stealth pay raise that takes place with no action.

Standing up and making the case before the public is far better than quietly letting the pay raise take effect.

We really should scrap the current stealth pay raise system, and I have introduced legislation to stop this practice. But the amendment I offer today does not go that far. All it does is to stop the pay raise that is scheduled to go into effect in January—the fourth pay raise in four years.

Let's stop this backdoor pay raise, and then let's enact legislation to end this practice once and for all.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. REID. Mr. President, I move to table the Feingold amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. REID. I announce that the Senator from Missouri (Mrs. CARNAHAN), the Senator from Iowa (Mr. HARKIN), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from New Jersey (Mr. TORRICELLI) are necessarily absent.

Mr. NICKLES. I announce that the Senator from North Carolina (Mr. HELMS) and the Senator from Idaho (Mr. CRAIG) are necessarily absent.

The PRESIDING OFFICER (Ms. CANTWELL). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 58, nays 36, as follows:

#### BOB STUMP NATIONAL DEFENSE AUTHORIZATION ACT FISCAL YEAR 2003—CONFERENCE REPORT

Mr. REID. I ask unanimous consent that the Senate now proceed to the consideration of the conference report to accompany H.R. 4546, the Department of Defense authorization bill; that there be 75 minutes of debate equally divided and controlled between Senators LEVIN and WARNER or their designees; that upon the use or yielding back of time, without any intervening action or debate, the Senate proceed to vote on adoption of the conference report; that upon adoption of the conference report, Senator SANTORUM be recognized to offer a unanimous consent request; and that following the disposal of that, the Senate resume consideration of H.R. 5005, with Senator THOMPSON recognized to offer a substitute amendment; and immediately upon the reporting of the Thompson amendment, Senator LIEBERMAN be recognized to offer an amendment to the Thompson amendment.

Mr. NICKLES. Reserving the right to object—and I shall not object—is it the assistant Democratic leader's intention to have a rollcall vote on the DOD authorization?

Mr. REID. We had a request from that side of the aisle to have the rollcall vote.

We do not have a rollcall vote request.

Mr. NICKLES. To my knowledge, that request has been withdrawn.

For the information of our colleagues, it may well be possible to pass the Department of Defense authorization bill by a voice vote.

Mr. REID. That sounds good. We have a number of Senators who have other things to do. That would be helpful.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the conference report.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the House to the amendment of the Senate to the bill (H.R. 5010), to authorize appropriations for fiscal year 2003 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, having met, have agreed that the Senate recede from its disagreement to the amendment of the House, and agree to the

same with an amendment, signed by a majority of the conferees on the part of both Houses.

The PRESIDING OFFICER. The Senate will proceed to the consideration of the conference report.

(The report is printed in the House proceedings of the RECORD of November 12, 2002.)

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. I yield myself 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Madam President, we are pleased to bring to the floor the conference report on the Bob Stump National Defense Authorization Act for Fiscal Year 2003. The conference report would not have been possible without the dedicated work, over many months, of the members of our committee on both sides of the aisle, particularly our subcommittee chairmen and ranking members who bore the brunt of the workload in bringing this bill to this point.

I particularly thank my dear friend and colleague, Senator WARNER, the ranking minority member, soon to be chairman of the Armed Services Committee, for the absolutely essential role he has played throughout this process. Right up to the last minute, we were not sure we would get a bill. Senator WARNER was able to help us accomplish that and get us to that goal line that we finally think we will cross. I thank him for that.

Mr. WARNER. It was a team effort, Madam President. I thank my distinguished chairman.

Mr. LEVIN. This conference report is named after Congressman BOB STUMP, who will be retiring, in honor of all the work he has done, for the dedication of his entire congressional career supporting our men and women in uniform. The bill is deservedly named in his honor. Of course, IKE SKELTON on the House side, the ranking member of the House Armed Services Committee, made an absolutely essential contribution as well.

Last month, we passed H.J. Res. 114 that authorized the President to use the Armed Forces of the United States as he determines to be necessary and appropriate to defend the national security of the United States against the continuing threat posed by Iraq and to enforce all relevant U.N. Security Council resolutions in that regard.

It has been widely reported that the United States has already started the prepositioning of forces and supplies in anticipation of possible military action against Iraq in accordance with this resolution. As we stand poised on the brink of possible military action, hopefully action that will not be necessary but nonetheless possible military action, this bill will provide the men and women in uniform with the tools they need and the pay and benefits they deserve.

For instance, this bill approves a significant military pay raise, including an across-the-board pay raise at 4.1 percent, with an additional targeted pay raise for midcareer personnel that would result in pay raises ranging from 5.5 percent to 6.5 percent. The bill will authorize a new assignment incentive pay of up to \$1,500 per month to encourage service members to volunteer for hard-to-fill assignments. It will authorize \$10.4 billion for new construction of military facilities and housing, which is an increase of about \$740 million above the requested level. The bill will add more than \$900 million to the Navy shipbuilding account. It will authorize an increase of \$42 million in funding for the U.S. Special Operations Command. It provides an increase—and we are talking about increases above the requested budget level from the administration, but when I make reference to increase, that is the reference I am making. Here is a reference of more than \$100 million for defense against chemical and biological weapons, in addition to approving the budget request of \$1.4 billion for such efforts. We approved \$2 billion which was requested for force protection improvements to DOD installations around the world and in order to help address shortfalls in the Department's high-demand, low-density assets, including the EC-130 Commando Solo aircraft and the EA-6B electronic warfare aircraft fleet.

Despite all of these important provisions, we came very close to not having a conference report this year, because of the opposition of the White House to a single provision that was included in both the authorization bills passed by both the Senate and the House of Representatives. This provision would permit retired members of the Armed Forces who have a service-connected disability to receive both military retired pay earned through years of military service and disability compensation from the Department of Veterans' Affairs based on their disability. Currently, military retirees who receive VA disability pay have their military retired pay offset by the amount of their VA disability pay.

Both the House and Senate versions of our bill included provisions phasing in the payment of both military retired pay and VA disability pay to qualifying military retirees, although the Senate provision was more generous and more expensive than the House version.

In June, the Office of Management and Budget issued a Statement of Administration Position indicating their opposition to authorizing concurrent receipt of military retired pay and VA disability pay. As a result of this veto threat, the House conferees then decided that they would not accept even their own concurrent receipt provision. The House conferees took this position despite the fact that the House voted 391 to 0 to instruct the conferees to agree to the Senate position on current receipt in conference.

When it became clear that the President's veto threat would make it im-

possible for us to achieve a conference report containing either the Senate concurrent receipt provision or the House concurrent receipt provision, we had the choice of giving up on the defense bill for the year, or finding an alternative that would be acceptable to the White House and the Republican leadership of the House of Representatives. With the yeoman services and the extraordinary efforts of Senator WARNER, we finally agreed to include a provision that would authorize an enhanced special compensation for certain military retirees with 20 years of service equal to the amount of retired pay forfeited because of the receipt of veterans' disability compensation.

That is just a part of what we tried to accomplish. I commend Senator REID of Nevada and others who have fought so hard for this provision.

There are many members of our committee and many Members of this Chamber who have really tried for years to address this concurrent receipt problem. We moved the ball forward perhaps 20 yards this year. It is, as I think Senator WARNER has described, a beachhead. We are glad we were able to do this much. But it is disappointing that the veto threat that was hurled at us by the Office of Management and Budget made it impossible for us to do even more, despite all of our efforts.

Again, I thank Senator WARNER. Without some provision on this subject, frankly, this bill would not have been brought back to the floor. We had to make some progress on this issue before we could, in good conscience, bring a bill back to the floor.

But I emphasize it is just some progress. It is not anywhere near what the Senate did. It is not even close to what the House did. But it is clearly better than not making any progress at all.

The special compensation that is provided for in the bill would be available to retirees who incur a disability attributable to an injury for which a Purple Heart was awarded—that is one group—regardless of the percent of disability, and the other group is a service-connected disability rated at 60 percent or higher that was incurred as a result of any of four circumstances: Either the result of armed conflict, while engaged in hazardous service, in the performance of duty under conditions simulating war, or through an instrumentality of war. Any of those four circumstances, if the disability is rated at 60 percent or higher, will result in the special compensation being made available to our veterans.

These disabilities are sometimes called "combat-related" disabilities for short. But that is really a misnomer. It is actually misleading to call certain of them "combat-related disabilities" because the categories are far broader than simply combat-related.

I see Senator REID on the floor. Again, I extend my thanks to him. Without his driving concern on this

issue of concurrent receipt, we would not have been able to even advance the bill to the 20-yard line at which perhaps we are right now. It is progress—but minimal progress. Again, it was the only way we could obtain this bill. We would not have gotten to this point without the tenacity of Senator HARRY REID. There are others who joined with him over the years. But it is that persistence which has gotten us to this point.

Mr. REID. Madam President, will my friend yield? I know there is limited time.

I want to say very briefly this compromise only affects up to 15,000 veterans. But having said that, 15,000 people deserve it as much as anyone deserves anything in the world. They are going to get help. That says a lot. There are hundreds of thousands of other people which the original legislation would have helped. We are going to work on that later.

I say to my friend, the chairman—and the soon-to-be chairman—how much I appreciate their tenacity. We have worked this bill over the years. We have received, frankly, no help from the House in years past. I am happy. And I congratulate the President for easing off on his statement that he was going to veto this legislation if there was anything in it for concurrent receipt. I appreciate the President backing off. I wish he would have allowed us to have everything. He didn't. But I take what we have gotten, and I am happy we have what we have.

I say to those 15,000 veterans that I introduced the first legislation. But this has been a team effort. We have worked very hard to get to this point. It is a large step forward.

I say for the third time this will help 15,000 people, most of whom are Korean and World War II veterans—and a sizable number of Vietnam veterans also, of course. But it is for mostly World War II veterans. I am so happy. I wish we had more.

But I want to say to my two friends who are here on the floor that this is important legislation. It is landmark legislation.

I underline and underscore what I have said in the past about the two managers of this legislation. They could have caved in a month ago, and we would have had a Defense authorization bill, and we could have shouted at the hilltops about this legislation. They did not do that because of this issue. I applaud and commend both of them for sticking to a matter of principle. That was correct. Words cannot adequately convey how strongly I feel about the two of them for sticking with it. I am not on the committee. I couldn't comment. I couldn't be there to give a speech. I didn't have an opportunity to issue a written statement. That is how our conferences work. But the two of them did what they had to do. These 15,000 people owe it all to them.

I have heard some people say we can't afford to take care of our veterans. We can afford to take care of our veterans. This is a tremendous step forward. We are taking care of our veterans.

Mr. WARNER. Madam President, if I might again say how much the two of us—Chairman LEVIN and I—appreciate the strong support of Senator REID throughout particularly this year, building on what he did last year, to see that this issue was kept at the very forefront of our legislative objectives with the annual authorization bill.

I say to my good friend that when the group of us gathered with the President's Chief of Staff at the White House, we were there with Mr. Principi, the chief of the Veterans Administration, the rough calculation was that there are about 33,000 who will be embraced with the formulation we have included in this bill. I think, as you say, and as I have said, it is a beachhead.

Mr. REID. That is even twice as good as I thought. That will amplify my remarks, that 30,000 is twice as good as 15,000.

Mr. LEVIN. Madam President, I can assure also the Senator from Nevada that even though he might not physically be on the Armed Services Committee, he was very much present every step of the way even when he wasn't present. Everyone is very much aware of his effort here, and of Senator BOB SMITH's effort. Senator HUTCHINSON was extremely active, too. Senator WELLSTONE, of course, on this kind of veterans issue, was deeply involved.

Mr. WARNER. We should include Senator MAX CLELAND. Very definitely, he worked very hard.

Mr. LEVIN. I will also mention the role of Senator CLELAND, Senator CARNAHAN, and others on this issue on the Armed Services Committee in a few moments. Again, I thank the Senator for that.

Mr. WARNER. Madam President, Senator REID and I and Senator LEVIN in our colloquy are discussing the importance of this bill including a provision on concurrent receipts. Following the election, recognizing that I would become chairman at the appropriate point in time when the chairmanships are established formally, that I make an effort to try and reconcile the differences and get a provision in this bill because, give or take a few, I would think almost all 435 Members of the House of Representatives, in the course of their campaigns, had a colloquy with their veterans on this subject.

I know from experience on the Senate side, those of us 30 plus who were up for reelection this time and others seeking election had to address this issue and respond to our veterans. Therefore, I felt it was a matter of principle for the Congress of the United States not just to rely on campaign rhetoric, but to include in this very historic bill a provision directed at

compensation for those veterans we deemed formed that category deserving of added funds.

I was privileged to work on drafts. I have showed them to our distinguished chairman. While he had views that were somewhat different on this issue in the course of the deliberations, without his final acknowledgment to agree with me that this was as much as we could achieve, we would not be here today. It was a joint effort, I say to the chairman, and he encouraged his colleagues to sign the conference report as I encouraged our colleagues.

I went to the White House with Congressman DUNCAN HUNTER who was standing in for Chairman STUMP in the final days of the conference negotiations. We were joined by Secretary Principi and the Deputy OMB Director, Mrs. Dorn. We met with the President's chief of staff, and in due course worked out what I felt was the best compromise we could achieve.

I wish to say I felt the White House was very cooperative—Mitch Daniels, the Director of the Office of Management and Budget, the chief of staff, and others. Mr. Principi was exceedingly helpful. I had several days before I joined him at the Vietnam Veterans Memorial to read the names of those who bear witness to freedom and their sacrifices on that wall. It was interesting, as we were sitting there on that cold twilight afternoon, I had a little piece of paper, and we were sketching out the framework of what the two of us felt could be achieved. So I thank Mr. Principi for his efforts.

DUNCAN HUNTER was just a tremendously strong working partner throughout this entire deliberation. I thank those individuals, and certainly Mr. Card, who is the President's chief of staff, for at some point in the meeting saying: That's it, we're going to do it.

It is interesting, earlier that day Mr. Principi and I had attended an early meeting at the White House with the President when he addressed a number of veterans. I remember in the front row were a number of Congressional Medal of Honor veterans. We had some veterans from the United Kingdom, and the Chief of Staff of the Army, and the Chief of Staff of the Air Force and others were present.

It was a very moving statement by our President acknowledging this Nation's eternal gratitude to generations of veterans who made possible our life today in these United States, our quality of life, our freedom.

It seemed to be an appropriate time to bring up with the President this issue once again, and he said: We are going to take a good look at it, and that they did. So I am most grateful. Actually, it was not that day, for that day I left that meeting at the White House and went up to Maine to participate in the christening of a destroyer to honor John Chafee, a United States Senator whom the Presiding Officer and I held in the greatest esteem and

affection. It was the day following the White House meeting.

I refer to this as a beachhead, and I do so respectfully because throughout this deliberation, in total fairness, we are faced with an extraordinary demand on the Department of Defense now, and particularly the men and women who are currently in uniform, as well as the Guard and Reserve. We are in the course of transitioning in the roles and missions, the equipment, and the training of our military departments to meet the threat of terrorism today. Therefore, the utilization of dollars from the United States taxpayers that go to the Department of Defense has to be prioritized against that threat today.

The dollars involved in this we estimate to be perhaps as much as \$10 billion over 10 years. That is a considerable factor to take into consideration in the competition for these dollars.

I, speaking for myself, am ever mindful of the rising public debt necessitated in large part by this war on terrorism.

So in fairness to the President and his advisers who looked at this issue and have looked at it for some period of time, there are other factors that had to be considered. In the final analysis, I believe, with the help of the chairman and others, we crafted the best possible compromise we could get. I thank the distinguished chairman once again.

Mr. LEVIN. Madam President, how much time, may I ask the Chair, is remaining?

The PRESIDING OFFICER. Twenty-three and one-half minutes.

Mr. LEVIN. Are 10 minutes exhausted?

The PRESIDING OFFICER. Yes.

Mr. LEVIN. I thank the Chair. I yield myself 5 additional minutes.

There are a number of other important initiatives in this bill we will enact into law shortly. Here are just a few of them.

In the area of missile defense, the conference report, such as the Senate bill, authorizes the President to reallocate \$814 million, should he choose, from missile defense expenditures which, at least to some of us, appears to be unjustified or duplicative in combating terrorism. And he can reallocate the \$814 million to the effort to combat terrorism. Again, that is left to his discretion. But this bill does, this year, require that he identify whether or not he has made that choice.

The bill also would ensure better oversight and management of missile defense programs in a number of ways. We are going to require programmatic information on ballistic missile defense programs with the budget justification materials that come to Congress.

We are going to require the Joint Requirements Oversight Council, the so-called JROC, to perform a review of the cost, schedule, and performance criteria for ballistic missile defense programs so that the validity of those criteria in relationship to military requirements can be assessed.

We are going to require the Department of Defense to establish a more disciplined process for the evolutionary acquisition and spiral development of major defense acquisition programs, including missile defense programs, by issuing guidance and instituting a process for the approval of acquisition plans.

Second, in the area of nuclear weapons, we have taken a number of steps to ensure that the Department of Defense and the Department of Energy do not take any precipitous actions to develop new nuclear weapons.

First, we rejected a House provision that would have repealed the current law prohibiting the research, development, and production of low-yield nuclear weapons.

Second, we included a Senate provision that would require the Secretary of Energy to specifically identify any funds requested for new or modified nuclear weapons. If there is such a request, it cannot be buried in some other subject. It has to be identified as such in the budget material.

Third, we prohibited the Secretary of Energy from spending any funds for the Robust Nuclear Earth Penetrator unless and until the Secretary of Defense submits a report setting forth the requirements for such a system and the employment policy behind such a system, as well as the potential for conventional alternatives to that Robust Nuclear Earth Penetrator.

And we prohibited the use of any funds authorized in the bill for nuclear-tipped missile defense interceptors.

We have a number of initiatives to ensure that the resources our taxpayers provide for national defense are spent wisely. Some of these initiatives include a major initiative based on the recommendations of the Defense Science Board and the Department of Defense Director of Operational Test and Evaluation to address budget shortfalls and organizational shortcomings in the Department's test and evaluation infrastructure that have led to inadequate testing of major weapons systems.

We have advanced last year's initiative by the committee to improve the way in which the Department manages its \$50 billion of services contracts, which we anticipate will save \$600 million.

We included a provision that will address the Department's inability to produce reliable financial information and to achieve \$400 million of savings by deferring spending on new financial systems that would be inconsistent with a comprehensive financial management enterprise architecture that is currently being developed by the Department.

We also have required, in this bill, that the Department establish new internal controls to address recurring problems with the abuse of purchase cards and travel cards by military and civilian personnel.

In the area of efforts to combat terrorism and to lessen the danger posed by weapons of mass destruction, we have taken the following initiatives:

A title of the bill sets aside \$10 billion to fund ongoing operations in the war against international terrorism during fiscal year 2003. This is a very important provision in the Senate bill. It was very important to the administration that we not use those funds for some other purpose. We did not. This will be the subject of the later appropriation, but, nonetheless, we set aside that \$10 billion fund for the ongoing operations in the war against terrorism.

Next, we fully funded the Nunn-Lugar Cooperative Threat Reduction Program, including funding for the destruction of chemical weapons in Russia. And we fully funded the proliferation preventions at the Department of Energy.

We took an important step to give the President greater flexibility to waive any of the conditions precedent to carrying out that CTR program or the Freedom Support Act programs for three fiscal years. So now the President can proceed with the Comprehensive Threat Reduction programs even if they do not meet technical criteria for spending that money if it is in the national interest that he do so.

He has that waiver authority under this bill for 3 years. He has not had it before. This is an important addition to the fight against proliferation, particularly of chemical and biological weapons.

In addition, and finally, we addressed a number of very difficult environmental issues. The conference report includes, first of all, some environmentally sound provisions that we adopted in the Senate.

Two of these provisions would authorize the Department of Defense to enter into agreements with non-Federal entities to manage lands adjacent to military installations and to create buffer zones between training areas and the surrounding population. Those are two provisions which will help protect the environment.

A third one requires the Department to strengthen its program for the acquisition of procurement items that are environmentally preferable or are made with recycled materials.

We also, in the environmental area, succeeded in removing two ill-advised House provisions. One would have exempted some DOD activities from the Endangered Species Act. That is not within the jurisdiction of our committee. We were able to obtain the removal of that provision. And the other provision which we were able to remove would have provided special exemptions from environmental controls for the training range in Utah.

We were able to modify a House provision which authorized the exemption of certain Department of Defense activities from the provisions of the Migratory Bird Treaty Act. That was a highly controversial action on the part of the House. We were able to obtain some important concessions in the conference relative to that provision, including an agreement to structure the provisions so that the Department of Interior will be required to exercise its

regulatory powers over the Department of Defense activities impacting migratory birds and to require appropriate actions to mitigate the impact of Department of Defense actions on migratory birds.

I hope and believe that the tradeoff that we made in dropping the endangered species provision and the Utah provision and getting a modification of the migratory bird provision was a sound one. I believe that we made some real progress, given the point that we were starting with in the Senate, which was facing all this language on the House side, which we had to either remove or to modify, as well as preserving our own provisions which were very supportive of environmental protection.

I was very disappointed that we were unable to include a Senate provision that would repeal the statutory prohibitions on the use of Department of Defense facilities for legal abortions so that military women overseas could get a legal abortion, at their own expense, in a DOD medical facility overseas. This was a provision that, if we were able to maintain it, would have led to a veto of this bill.

Again, we faced the House conferees who were determined that there would be no bill if this provision was in it. So now we continue for another year what I consider to be the absurdity of forcing women who are obtaining a legal abortion to come home. These are women in the military, committed to the service of their country, who are going to be required, for another year, until we face this issue again next year, to return home to obtain an abortion, which is legal, which they have chosen to obtain.

I find this to be an unconscionable provision in our law. And we are going to continue to try, to the best of our ability, to change that provision. But this year we did not prevail, did not succeed, and we would have faced a veto of this bill. The Office of Management and Budget was very clear in a letter that they would recommend the veto of this bill if the Senate provision, which removed this impediment to legal abortions, at their own expense, by women who are serving this Nation—if that, in fact, prevailed, there would have been a veto.

Madam President, our Armed Forces are ready to help keep the peace, to deter traditional and nontraditional threats to our security and our vital interests around the world. And they are prepared to win any conflict decisively. The success of our forces in Afghanistan is a tribute to the men and women of the Armed Forces and the investments in national defense that Congress and the Department of Defense and administrations over time have made for many years.

The investments in previous years, indeed in previous decades, in equipment, in treating our personnel properly, in raising morale, in readiness—

these investments by prior Congresses, by this and prior administrations, have paid off. And future success on the battlefield will likewise depend upon the success of Congress and the Department to prepare and to train and to equip our military for tomorrow's missions.

So as we stand on the brink of possible conflict in Iraq, the conference report builds on the considerable strengths of our military forces and their record of success by preserving a high quality of life for U.S. forces and their families, by sustaining readiness, and by our efforts to transform the Armed Forces to meet the threats and the challenges of tomorrow.

Madam President, I yield the floor.

**THE PRESIDING OFFICER.** The Senator from Virginia.

**Mr. WARNER.** Madam President, I, once again, thank the chairman for his service. We have been together now for 24 years on the Senate Armed Services Committee. And, given the results of the recent elections, we will be here for another 6.

When I yielded the chairmanship 2 years ago, thereabouts, Senator LEVIN just moved one place over. Now I will just move back to that one place. We have conducted the affairs of this committee in a very spirited way, but I think it reflects as high a degree of bipartisanship as can be achieved in this magnificent institution, the Senate.

I commend the chairman, and I commend him for this bill. He has worked long and hard on it, with me at his side, together with our respective Members. It is a good bill, a very good bill.

(Mr. JEFFORDS assumed the Chair.)

**Mr. LEVIN.** Mr. President, I thank my good friend from Virginia. I had no doubt he would be back. I am glad to see him back. We kept the chair warm for him. The gavel will be handed over with—I will not say with unmixed feelings because, obviously, there are mixed feelings, but I cannot think of anyone I would rather hand the gavel to, if it is not on our side of the aisle, than my dear friend from Virginia.

**Mr. WARNER.** Mr. President, I thank my colleague.

Mr. President, we, as a Nation, were astonished, once again, in the past few days to see the face of Osama bin Laden and hear the remarks he (allegedly) made. I am not here to in any way lend credence to the validity of this, but nevertheless, those in the position to determine will eventually determine the validity of that piece of tape. But it did bring home to America the threats that this Nation faces and the fact that we, under the leadership of a brilliant President, are engaged in all-out war, together with our allies and others, in a war on terrorism. This bill is an essential building block in that war.

Questions were raised in the course of our deliberations on this bill: Can we as a Nation afford, can the military take on the obligation to engage the

enemy of terrorism in the worldwide effort and, at the same time, if it is necessary—and I repeat, if it is necessary—to use force against Saddam Hussein and his regime—not the people of Iraq, but Saddam Hussein and his regime? And I say this bill provides that measure of support such that our President, in his role as Commander in Chief, can conduct the full range of options militarily necessary to protect this Nation, be it from terrorism or the possible use of force in Iraq.

That brings me to another point. As we all watch the developments in Iraq and, indeed, today, very interesting developments, I stop to think we would not as a free world be in the position of having this new resolution from the United Nations had it not been first and foremost for the courageous leadership of our President who, over a period of a year or more, has been constantly reminding the world, not just our citizens, of the threats from Saddam Hussein and his weapons of mass destruction, and the need to address those threats.

Wisely, he sought to go to the United Nations where he put forth that historic speech. Had it not been for the vision, the foresight, and the commitment of this President, we would not be seeing today the unfolding of what I hope will be a successful resolution of the destruction of the weapons of mass destruction now possessed by Saddam Hussein without the use of force.

The second factor in achieving the action by the United Nations was the fact that the men and women in the U.S. military are trained, are ready, and would respond to the Commander in Chief's order, if that were necessary, to resolve this critical worldwide issue by the use of force. They are ready. Saddam Hussein knows that. So I salute the men and women of our Armed Forces who are as much responsible for what we hope will be the successful resolution of this issue pursuant to the most recent resolution of the U.N. It is just as important a factor as the deliberations of the U.N. itself and indeed the valiant efforts of our President, and I wish to acknowledge that.

Congress also played an important role by passing a strong resolution in support of the President; a resolution authorizing the use of force against Iraq. The militaries of the U.S. and our allies stand by, ready to use force if necessary, pursuant to that authorization by the Congress.

I think this bill should remove any doubt of our commitment to fight terrorism, to use force if it becomes necessary in Iraq, and to defend the interests of Americans and our allies throughout the world.

An undertaking of the magnitude of this bill is ultimately a bipartisan effort. Our committee has a long tradition of bipartisanship. Senator LEVIN and I have served under Chairman Stennis, Senator Goldwater, Senator Tower, Senator Nunn, and now the two of us are privileged to have that re-

sponsibility, I as ranking member, and Chairman STROM THURMOND, who is now present on the floor, all of whom tried to have the highest possible bipartisanship in this committee. Our chairman and I have continued that tradition.

When it comes to the welfare of the men and women of the armed services, when it comes to the importance of the security of this Nation and the recognition by our allies that we stand to support them, we should have, and do have, that degree of bipartisanship. Consequently, there are many people deserving of recognition and thanks who have kept that tradition.

I especially want to thank my chairman for his leadership. I want to thank all of our subcommittee chairmen and ranking members for their tireless efforts in ensuring that our troops have the tools they need for peace to accomplish such missions as they may have to undertake.

At this point, I would like to pay special tribute to three Republican Members of our Committee who will not be returning next year. Senator STROM THURMOND has proudly served as a Member of the Senate Armed Services Committee since January 14, 1959, during the Eisenhower Administration. During nine successive Administrations, Senator THURMOND has provided a steady hand, sage advice and strong support for our men and women in uniform. He also had a distinguished military career, leading members of the "Greatest Generation" ashore on the beaches in Normandy and rising to the rank of Major General in the Army Reserve. He is a true American hero, and he will be missed in the years ahead. Senator BOB SMITH has been a Member of the Committee since 1991, serving most recently as the Chairman of the Strategic Subcommittee from 1997–1999. A distinguished Navy veteran who served in Vietnam, Senator SMITH has been a champion of veterans issues, joining Senators REID and HUTCHINSON in the efforts on concurrent receipt. And finally, Senator TIM HUTCHINSON has made significant contributions during his four years of service on the Committee. As the Chairman and then Ranking Member of the Personnel Subcommittee, Senator HUTCHINSON has been committed to improving the quality of life of our military personnel. He joined me in crafting legislation—TRICARE for Life—to ensure that we meet our commitment to our military retirees to provide them with health care for life. In addition, he has been instrumental in ensuring significant pay raises for the military for four consecutive years and major improvements in educational benefits. They have all been valuable Members of the Committee and they will all be missed. No committee succeeds without a dedicated professional staff. I especially want to recognize the unwavering leadership of Judy Ansley of the minority staff, who will soon be moving over to become chief of staff of the

majority, and of David Lyles who likewise will shift his desk a slight distance and continue the partnership that these two magnificent professionals have, as well as the wonderful service they render to the Senate, and indeed our country.

I also want to thank Peter Levine, counsel to both sides. He is good, and we call on him. Fortunately, we do not have to pay his salary out of our allocation, but we get the full measure of his brilliance.

Each of them have a marvelous professional staff. I would like to recognize each of them individually. On the Republican staff: Chuck Alsup, David Cherington, Marie Dickinson, Ed Edens, Brian Green, Bill Greenwalt, Gary Hall, Carolyn Hanna, Mary Alice Hayward, Bruce Hock, George Lauffer, Patty Lewis, Tom MacKenzie, Ann Mittermeyer, Joe Sixeas, Leslie Stone, Scott Stucky and Dick Walsh. On the Majority and non-designated staff: Dara Alpert, Ken Barbee, Mike Berger, June Borawski, Leah Brewer, Chris Cowart, Dan Cox, Madelyn Creedon, Mitch Crosswait, Rick DeBobes, Brie Eisen, Evelyn Farkas, Richard Fieldhouse, Daniel Goldsmith, Creighton Greene, Jeremy Hekhuis, Gary Howard, Drew Kent, Jennifer Key, Maren Leed, Gary Leeling, Mike McCord, Tom Moore, Cindy Pearson, Arun Seraphin, Christina Still, Mary Louise Wagner, Nick West, and Bridget Whalen. So I pay my respects, for they deserve credit and recognition.

The conference report before the Senate represents an important step forward in ensuring the readiness of our Armed Forces, protecting our homeland, and ensuring success in the ongoing global war against terrorism. During this critical time in our history, with our Nation at war and preparing, together with the United Nations, to meet the threats posed by Iraq—I should say posed by Saddam Hussein, not posed by the people of Iraq—it is essential that we provide our President and the Armed Forces with the vital resources they need to defend our Nation to fight the scourge of terrorism both at home and abroad, and to prepare for future threats.

I use the word “home” purposely because in my lifetime, I have seen incredible transition, the focal point being 9/11. I look upon the armed services of the United States as one of the greatest assets the American people have, and we should constantly look for ways in which they can, within the legal framework of our laws, be a full partner with those who are entrusted with our homeland defense. I am not just speaking of the Guard, the Reserve and others, but I am talking about the security forces, the police, be they Federal, State or local, the people who provide medical assistance, the people who provide all types of assistance in the event of a problem at home. We have to continue to strengthen and move in that direction, again within the framework of the laws.

As President George Washington stated in his first inaugural address to Congress on January 8, 1790, and I quote:

To be prepared for war is one of the most effectual means of preserving the peace.

That is what this bill is about, to be prepared. We can all take pride in this legislation. It represents the bipartisan work of all committee members in both Chambers to support our men and women in uniform, and their families.

I want to commend Chairman STUMP, ranking member IKE SKELTON, and DUNCAN HUNTER. They were marvelous working partners in the House for the chairman and I to conclude this conference. This bill is named in honor of Chairman STUMP, a World War II veteran who lied about his age and joined the Navy when he was 15 years old and saw combat before his 18th birthday. I guess that is one of the reasons that generation, of which I am a very small and modest part having come into the tail end, is referred to as the greatest generation.

Chairman STUMP exemplifies that name: The greatest generation. The fact that this legislation is named in his honor is a fitting tribute to that true patriot.

I believe the Presiding Officer served in the House of Representatives at one time with Chairman STUMP.

I also want to thank DUNCAN HUNTER and IKE SKELTON for their unwavering efforts.

Our President sent the first signal to strengthen defense by asking Congress to increase spending, a very considerable increase in this legislation. This conference report sends a further signal to our citizens and to nations around the world that the United States is committed to a strong national defense. More importantly, this conference report sends a clear signal to our men and women in uniform, from the newest private to the most senior flag or general officer, that we are clearly behind them and we support their efforts around the world, and we are behind their families.

We must always pause to remember that the men and women in the Armed Forces rely first and foremost on the support they receive from their loved ones.

I want to thank the Department of Defense. I have had very cordial and strong working relations with Secretary Rumsfeld—we go way back together in the Nixon administration—as well as the Deputy Secretary of Defense and others. I think he has put together a good team. Yes, we do battle with them. We did battle with them on concurrent receipts, but in the end they swung in and gave us the technical advice to write this particular section on concurrent receipts in a way that creates a very special class of deserving career veterans, career military veterans.

To reiterate, I am proud to join Chairman LEVIN in recommending this conference report to the Senate. This

has been a long and difficult conference; but, we have achieved our goal of providing for our men and women in uniform.

An undertaking of this magnitude is ultimately a bipartisan team effort. Our Committee has a long tradition of bipartisanship. Consequently, there are many people deserving of recognition and thanks. I especially want to thank my friend and colleague of 24 years in this Chamber and on the committee, Chairman CARL LEVIN, for the leadership he has shown in bringing this conference to a successful conclusion. I also want to thank all of our subcommittee chairs and ranking members for their tireless efforts in ensuring our troops have the tools they need to accomplish their missions. No committee without a dedicated, professional staff. I especially want to recognize the unwavering leadership efforts of David Lyles, Judy Ansley, and Peter Levine in bringing this process to a successful conclusion. They have led a great staff, all of whom deserve great credit and recognition.

The conference report before the Senate represents an important step forward in ensuring the readiness of our armed forces, protecting our homeland, and ensuring success in the on-going global war against terrorism. During this critical time in our history, with our nation at war and preparing—together with the United Nations—to meet the threat posed by Saddam Hussein, it is essential that we provide our President and our armed forces the vital resources they need to defend our Nation, fight the scourge of terrorism at home and abroad, and prepare for future threats.

As President George Washington stated in his first annual address to Congress on January 8, 1790:

To be prepared for war is one of the most effectual means of preserving the peace.

We can all take pride in this legislation. It represents the bipartisan work of all committee members—in both Chambers—working together to support our men and women in uniform, and their families. I especially want to thank Chairman BOB STUMP for his efforts this year and congratulate him for his outstanding work on behalf of our men and women in uniform for the 26 years he has served on the House Armed Services Committee. The fact that this legislation is named in his honor is a fitting tribute to a true patriot. I also want to thank Congressmen DUNCAN HUNTER and IKE SKELTON for their unwavering efforts to ensure we have a strong defense authorization act for our nation.

Our President sent the first signal by asking Congress to increase defense spending. This conference report sends a further signal to our citizens, and to nations and around the world, that the United States is committed to a strong national defense. More importantly, this conference report sends a clear signal to our men and women in uniform, from the newest private to the most

senior flag officers, that we are clearly behind them and we support their efforts around the world.

The conference report before us contains the largest defense increase in over 20 years—an increase of \$45.0 billion over the fiscal year 2002 appropriated level. The good news story associated with this much needed increase is that it has the full, bipartisan support of the Congress. While there are always minor disagreements over how some of the money in this bill should be allotted, there was no dissent about the need for this significant increase in the top line for defense. This is a remarkable display of unity behind our President, so important and fitting with our Nation at war.

In line with the request of the President, the conference report significantly increases the major defense accounts over the Fiscal Year 2002 appropriated levels:

It increases spending on military personnel by over 14 percent including a 4.1 percent pay raise for our servicemen and women.

The bill increases the procurement account by over 20 percent. This will enable our military departments to procure the equipment they need to replace aging and heavily used assets, as well as to buy the things they need to protect our facilities, infrastructure and people in these increasingly uncertain and dangerous times.

Additionally, the bill increases spending on research and development by almost 17 percent, ensuring that critical investment is being made to develop the capabilities we need in the future to deter and defeat emerging threats to our national security.

The bill also sets aside a \$10.0 billion reserve fund, as requested by the President, to pay for ongoing and future military operations in the global war on terrorism.

The threats to our nation and the ongoing war on terrorism demand this increased investment in national security, both now and in the future.

The bill contains many key provisions which will improve the quality of life of our men and women in uniform, our military retirees, and their families. In addition to the 4.1 percent pay raise I mentioned earlier, additional funding is included for facilities and services that will greatly improve the quality of life for our service personnel and their families, both at home and abroad. This legislation also contains key provisions that will better organize the Department of Defense to support the critical homeland defense mission, including: creation of an Under Secretary of Defense for Intelligence; authorization to add an Assistant Secretary of Defense for Homeland Defense; and, a requirement that the Secretary of Defense establish at least one Weapons of Mass Destruction-Civil Support Team within every state and territory.

One of the most difficult issues facing the conference was how to ensure

that our military retirees, who have incurred disabilities, receive a measure of military compensation.

Concurrent receipt of retired pay and disability pay is as complex an issue as I have dealt with in my 24 years on this committee. Here is how I view this issue: success in certain military operations requires extensive planning, establishment of a "beachhead," and then long term effort to determine the equities and priorities for the future.

We have crafted such a "beachhead" in this conference report—I call it "Purple Heart-Plus-Others." The provision in this conference report provides substantial recognition and compensation for those who were injured in combat, that is, all those with disabilities resulting from injuries for which they received the Purple Heart. In addition, those retirees most severely disabled in combat related operations, in preparation for combat, and in performing hazardous service, that is, those with disabilities rated at 60 percent or greater, would receive additional compensation. We will rely on the Secretary of Defense to exercise his discretion to further define the nature of this service. In both cases, those career retirees who have a certain degree of disability would receive the same amount of compensation—under a new, special compensation program—as if we had removed the prohibition on concurrent receipt.

We all know that this is a complex issue and an emotional issue. Inaction is not an option. We must establish our "beachhead" today. I commit to holding early hearings next year to fully establish a body of fact on this issue. I see great merit in establishing a Presidential commission that can objectively examine the many issues related to the adequacy of compensation provided to our disabled veterans. I await the views of the veterans to be expressed at hearings.

It is important to note that this conference report supports and fully funds virtually all of the priorities established by the Department of Defense for the development and procurement of major weapons systems, including the Joint Strike Fighter, the F-22, the Army's Future Combat System, and unmanned aerial vehicle programs. I remain committed to supporting investment in technologies that will enable us to field significant numbers of unmanned aerial and ground combat vehicles, as soon as feasible.

In addition, I am pleased that the conference was able to add \$229 million to the CVN(X) aircraft carrier to restore the original development and fielding schedule for this essential program. The carrier has proved its worth again and again in the global war on terrorism—a war which has relied extensively on carrier-based assets. This bill supports acceleration of this important program.

The world as we knew it changed forever on September 11. We lost not only many lives and much property that

day, but we also lost our uniquely American feeling of invulnerability. But, from our darkest hour, our nation has quickly emerged stronger and more united than ever. Our President has rallied our country and many nations around the world to fight the evil of terrorism, and to confront those who threaten peace and freedom around the world.

As we conclude the 107th Congress, our nation is at war. U.S. soldiers, sailors, airmen, and marines, together with their coalition partners, are engaged on the front lines in the global war against terrorism, with a mission to root out terrorism at its source in the hopes of preventing future attacks. We are now faced with the possibility of war with Iraq, if the current U.S. led U.N. efforts fail.

Our armed forces have responded to the call of duty in the finest traditions of our nation, and they are prepared to protect our security in future conflicts. It is critical that the Congress keep faith with our troops by providing the resources and capabilities our President—our Commander-in-Chief—has requested.

Homeland security is now, without a doubt, our top priority. We have a solemn obligation to protect our nation and our citizens from all known and anticipated threats—whatever their source or means of delivery. Our President, George W. Bush, has promised our nation that homeland security is his most urgent priority. The fiscal year 2003 budget the President submitted reflected this priority.

The conference report before us funds the urgent security needs of our nation by doubling the funding for combating terrorism at home and abroad, in supporting the President's request for missile defense, and investing in new technologies to detect weapons of mass destruction and to deter their development.

I urge my colleagues to support this conference report that upholds the President's fundamental national security priorities and makes the right investments in future capabilities. It is imperative that we send our President, our fellow citizens and the world a message of resolve from the Congress—a National Defense Authorization Conference Report that provides the resources and authorities our Nation's leaders and our armed forces require to protect our Nation and our vital interests around the world.

Mr. LEVIN. Let me again thank my dear friend from Virginia. I yield 5 minutes to the Senator from Hawaii. If the Senator needs additional time, it will now be available.

The PRESIDING OFFICER. The Senator from Hawaii.

Mr. AKAKA. Mr. President, I rise today to express my support for the conference report to the National Defense Authorization Act for Fiscal Year 2003. I thank my ranking member, Senator INHOFE, for his support and cooperation. It is truly an honor to work

with him as we both seek to advance the readiness of our armed forces. I also commend Senator LEVIN and Senator WARNER for their tireless efforts during a challenging conference.

As the chairman of the Armed Services Subcommittee on Readiness and Management Support, I want to highlight a few provisions in the conference report which enhance the readiness of the men and women in our armed forces. The bill protects the \$10 billion the President requested for operating costs of the ongoing war on terrorism. Fully funding this request reinforces our country's commitment to continuing the war on terrorism, and it also means that in so doing we will not have to rob funds from the operation and maintenance accounts needed to fund all of our other critical ongoing defense activities such as training and maintenance.

Conferees also took actions to ensure that our forces can continue to make the most prudent use of existing training assets. To do this, we authorized exemption of the Department of Defense from the Migratory Bird Treaty Act when training events result in incidental takings, but required DOD to take appropriate actions to avoid any unnecessary takings. We also authorized the Department of Defense to enter into partnerships to purchase land, or easements on land, that would protect training ranges, and provided \$7.2 million for improvements to those ranges.

While the conferees believed that this change to the Migratory Bird Treaty Act was necessary to protect readiness in light of recent court actions, the conferees did not believe the administration made the case that the exemptions it sought from the Endangered Species Act for the Department of Defense were warranted. I continue to believe that when the Department's training needs for land, sea and air space conflict with other needs in our society, whether it is protecting the environment or accommodating the surrounding civilian populations, our focus should be first and foremost on ensuring that all parties involved work together in a spirit of cooperation.

To help to address longer term readiness challenges, the conferees, continued our efforts from last year to enhance the Department of Defense's coordination of anti-corrosion programs. Studies estimate that corrosion costs the Department up to \$20 billion annually, and that corrosion continues to be a serious maintenance challenge and manpower drain. We therefore recommended that DOD designate a senior official to oversee anti-corrosion plans and policies, and added over \$10 million to fund those efforts and other anti-corrosion testing, research, and product applications.

In an effort to continue efforts to improve the quality of life, conferees authorized the requested increases to improve the buildings where servicemembers live and work, and

added an additional \$740 million in military construction funding, which will be enough to maintain the level of investment in our facilities at last year's level. Included in this amount is over \$700 million in funding specifically dedicated to enhancing the security of our installations.

To improve DOD management, the bill includes a number of provisions to expand DOD's authority to acquire major weapon systems more efficiently. With respect to services contracts, we built on last year's legislation requiring improved management of the \$50 billion DOD spends annually on services by establishing specific goals for the use of competitive contracts and performance-based contracting. These goals should help ensure that the Department of Defense achieves contract services savings through specific management improvements rather than through program reductions. The conference report also requires DOD to develop a comprehensive financial management enterprise architecture, and addresses recurring problems with the abuse of purchase cards and travel cards by certain military and civilian personnel.

I also want to mention an issue of significant importance to the people of Hawaii—the cleanup of the island of Kahoolawe. I commend the Navy and the State of Hawaii for working to resolve a number of challenges. I am pleased about the Navy's commitment to continue clearance efforts until November 11, 2003, and its continued efforts to meet the intent and goals of the memorandum of agreement between the Navy and the State of Hawaii signed in 1994.

While I am disappointed that the conference report does not include the provisions passed by the Senate with respect to concurrent receipt, I believe the conference report strongly supports the readiness of our forces, both now and in the future. I urge my colleagues to support this bill.

Mr. LEVIN. I thank the Senator from Hawaii for his invaluable service to our committee as well as his statement. He has been the chairman of our Readiness Subcommittee and has done it with a wonderful spirit and great success. I thank him. We do not know what the subcommittee structures will look like next year, but hopefully he will continue to be a valuable part of our committee. I thank him for it.

The PRESIDING OFFICER. The Senator is recognized.

Mr. SESSIONS. Mr. President, how much time is allotted on this side?

The PRESIDING OFFICER. Thirteen minutes is available.

Mr. SESSIONS. I yield myself 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. Mr. President, I am very pleased with this defense bill. I congratulate Chairman LEVIN. He is a master leader in the Senate. His skill at managing complex matters is very

well known. He works with all members of the committee, Republican and Democrat. We are able to reach agreements that sometimes would not be reached, and I believe he has guided us in a good way. I also appreciate the leadership of the ranking Republican, Senator JOHN WARNER, a man who has given his life to the defense of this country, served it ably in so many different capacities, and all the members of the committee and all the staff. Particularly, I note Archie Galloway on my staff who has worked tirelessly on this effort, a retired colonel infantry combat veteran who does a great job for me.

Money will not tell us everything, but we have the largest increase in spending on this defense bill in over 10 years, nearly a \$50 billion increase. That is very healthy in light of the significant declines our Defense Department has suffered since the Gulf War in 1991. After the Berlin wall fell and after the Gulf War, we went into a significant reduction in our spending, virtually 40-percent reduction in personnel, and cuts in many different areas. After the collapse of the Soviet Union, some reductions were appropriate. Most experts would say today we went too far, that we forgot we needed to transform our military, and we forgot to meet the new challenges and to utilize the new equipment and technologies available to make our soldiers more effective, less at risk, able to target enemy troops and not hit enemy civilians, as has happened in previous wars. I am afraid we did not invest enough in the last decade in these efforts.

Within the last several years we moved aggressively forward. When I came on the committee our defense budget was under \$300 billion. This year it will hit \$393 billion, I believe, nearly \$50 billion more than just last year. This allows us to continue to provide quality pay raises and personnel benefits for our men and women in uniform. These efforts have strengthened their ability to make a career of the armed services. Moreover, we authorized incentive income pay of up to \$1,500 per month to keep key personnel in key positions, the kind of thing we need to do to maintain the most proficient military in the world.

I have been a critic of our spending habits, thinking we have cut our defense too much. To the American people, let me say we need not underestimate the strength and capability of today's military. Ours is clearly the greatest military in the history of the world. We are much more technologically oriented and as a result, we need personnel who serve longer, who have trained with the newest equipment, who constantly train with our best aircraft, weapons, night vision equipment, and communication systems—all the things that allow them to place the maximum possible threat and force on the enemy, while protecting the lives of our own soldiers

and innocent civilians as much as possible. We have done a tremendous job. They are exceptional military men and women. There is no Army, Navy, Air Force, or Marine unit in the world that can compete with ours. They are the best there is, perhaps the best that have ever been. We should be very proud of them.

It allows the President, in times like this, to talk plainly to the United Nations and talk firmly to the Taliban in Afghanistan. It allows the President to speak directly to Saddam Hussein, and Saddam Hussein knows and the Nations around the world know his are not idle threats. We have the capability to carry out any commitments we make in terms of military force. I am pleased with where we are. We are making great progress.

I mentioned a few things that are important in this budget. Progress was made on concurrent receipt. In over 100 years we have not had additional benefits, other than tax advantages, for disabled veterans. This bill takes a big step forward with the "Purple Heart Plus" compromise and will be the first step we have made in that direction. I am pleased with this first step.

This will be the fourth year in a row we have had a significant pay raise, a 4.1 percent across-the-board hike and higher for other pay grades. I am pleased with that.

We have \$10.4 billion for new military construction for facilities and housing for our personnel, many of which are below standard. Frankly, we can do a better job, in my view, of providing quality housing. I visited military houses and found out what they cost. They spend almost as much on them as private housing in the suburbs in Alabama and other places that seem to cost less or no more. We need to improve the quality of our construction as we go forward in the future.

We added \$900 million to the Navy shipbuilding accounts. I was the ranking Republican on the Ship Seapower Subcommittee, serving with Senator TED KENNEDY, the Chairman. We were pleased in the end that our Navy did not take hits. At one point, it looked like that might occur. We are pleased that the shipbuilding account finally came in with a healthy number. This allows us to move forward for such things as refueling and nuclear submarine, refueling and developing nuclear submarines, providing additional advanced procurement for the CVN next generation of aircraft carrier, providing additional payments for prior incurred shipbuilding costs that we had obligated for the DDG-51 class destroyer, and LPD-17 class amphibious ships. We made some real progress there. We need to continue this transformation.

At one point or another, we may disagree with Secretary Rumsfeld's views regarding one weapons systems or another weapons system. But I think few of us can honestly disagree and ought to do nothing other than support his

firm and clear determination—supported by the President of the United States—to transform our military to move us from a cold war configuration to a configuration that helped us meet the challenges we had in 1991 with Iraq, as we have had in Kosovo, as we have had in Afghanistan, and as we might have in the future in Iraq. We need to transform our military forces to do that.

We sometimes accuse the military of being stubborn, and slow to change. I would say that is true of our institution, the Congress. It is also true of the military. But our military is the most transformable, the most committed to change, and the most committed to the introduction of new technology of any military in the history of the world.

I am, all in all, very pleased with the leadership in our military today and their commitment to bring on board as soon as possible new ways of conducting warfare that protect our people, that put threat on the enemy, and that protect innocent civilians. I think we are doing well. I am very pleased with that.

The President has made clear that this Nation—the strongest military power in the world—is the single power capable of protecting its own forces and that of its allies in the most difficult areas of the world. How much more difficult could you find it to protect American forces than in Afghanistan? He is committed to doing that.

Sometimes we may wish it were not so. But my own personal view is that there will be continual challenges around the world and that the wise and proper surgical application of military power can save lives, promote peace, and promote economic prosperity around the world. Indeed, this Nation has the opportunity to help lead the world out of what could be a disintegrating chaos of independent states—many of them rogue nations—and into a more stable environment, and promote peace and prosperity for everybody in the world.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. SESSIONS. Mr. President, I will conclude by saying this budget moves us in that direction.

Mr. LEVIN. Mr. President, I ask unanimous consent that the Senator from Alabama have whatever time he may need.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. I will take a couple more minutes. I thank Chairman LEVIN for his courtesy as always.

But we are at a point where this Nation will have the need from time to time to utilize force around the world to protect our just and legitimate national interests. We don't need to do that recklessly, or arrogantly, or without careful thought. But at times we will be able to help defend our just national interests and at the same time promote peace and prosperity in the world. That is a high calling. I think it is falling to us at this time in history.

I am pleased that we are not only strengthening our defense budget, but that we are strengthening it intelligently. We are strengthening it with technology. We are training our personnel. We are keeping our good men and women longer, so they can become even more proficient in operating our ships, our command centers, our missiles, and so forth.

I am also pleased that we did maintain the President's request for funding for national missile defense. That is a key ingredient in our Nation's defense in the decades to come. We made that commitment in this bill also. I feel good about it.

Again, I would like to thank Senator LEVIN for his leadership, the staff for their work, and Senator WARNER for his leadership and support.

I yield the floor.

Mr. LEVIN. Mr. President, how much time do I have?

The PRESIDING OFFICER. Four minutes fifteen seconds.

Mr. LEVIN. Mr. President, first of all, I thank my friend from Alabama for his very fine presentation as well as for his kind words about me. I enjoy working on the committee with the Senator from Alabama. He has always been willing to listen and try to work out issues. There are all kinds of issues that come up—thank God, rarely on a partisan basis—complicated issues that have to be worked out. He has worked not only on the Seapower Subcommittee but on the full committee to address those issues. I am grateful for that participation.

Senator THURMOND was on the floor a few minutes ago. It reminded me that this will be, of course, his last term. No Senator serving today can appreciate what this body will be like when STROM THURMOND leaves this year. He has served longer in this body than any other Senator in history. His 48 years in the Senate span the terms of 10 Presidents of the United States. He keeps pictures of all 10 of those Presidents on his wall in the office.

When I joined the Armed Services Committee in 1979, Senator THURMOND by then was on the committee already 20 years.

His love for and dedication to the U.S. military goes back even further, though, to his commission as an Army Reserve second lieutenant of infantry in 1924 at the age of 21. He served with distinction in both the European and Pacific Theaters in the Second World War, receiving numerous decorations that include the Legion of Merit, the Bronze Star medal with "V" device, the Army Commendation Medal, the Belgian Order of the Crown, and the French Croix de Guerre. He landed in a glider on Normandy with the 82nd Airborne Division on D-Day and went on to win 5 battle stars. In 1959—the year that he joined the Senate Armed Services Committee—Senator THURMOND was promoted to major general in the U.S. Army Reserve.

During Senator THURMOND's tenure on the Armed Services Committee, our

Armed Forces have faced challenge after challenge in Western Europe, Vietnam, the Middle East, the Caribbean basin, the Persian Gulf, the Balkans, and Afghanistan. Through it all, Senator THURMOND has persevered in his unwavering support for our men and women in uniform. His steadfast commitment to our national defense has been a rock upon which they could all rely and has helped ensure that our military has always been ready to answer the call whenever and wherever needed.

Senator THURMOND served as chairman of the Senate Armed Services Committee in the 104th and 105th Congresses. I had the honor and pleasure to serve as his ranking member in 1997 and 1998. I know from personal experience how seriously Senator THURMOND treated his duties as chairman and how hard he worked to be fair and even-handed with every member of the committee. I am sure that I speak for all of our colleagues in saying just how much we appreciate not only the commitment that Senator THURMOND brought to his duties as chairman, but also his lifelong dedication to the defense of our Nation and to the welfare of the men and women in uniform.

He came to the floor a few minutes ago just to check things out—basically to satisfy himself that this Defense authorization bill was moving along. So he made the effort to come to the floor just to see for himself that things were OK.

I left the floor momentarily to just go out and thank him for coming over and to wish him well on behalf of the entire committee and the Senate, as we will not be seeing too much more of him because he is going to be moving on hopefully to other adventures.

Mr. SESSIONS. Mr. President, if the Senator will yield, I was going to add that Senator THURMOND, at the age of 99 and soon to be 100, was at the Republican Conference luncheon today. And here it is, a quarter to 6, and he just left the floor a few minutes ago. He has been fully engaged all day today. He is a true American.

I remember my first foreign trip with him to China. They respect age in China. So we were well respected. We went out to a Chinese Army military base. They asked him to review the troops. I was standing there—this Senator from rural Alabama—watching the famous STROM THURMOND troop in front of a group of Chinese Communist troops. Afterwards, I told him, "I never thought I would ever see that, STROM." I never thought I would have been there.

He is a remarkable man, a thorough expert in military affairs, and an absolute patriot. I thank Senator LEVIN for recognizing his service to our country.

Mr. LEVIN. Mr. President, if I could yield myself 5 additional minutes—if I am not taking the time of colleagues who are waiting to speak—to ask unanimous consent to add a word or two.

Mr. LIEBERMAN. Mr. President, if the Senator from Michigan will yield, I

was hoping the chairman planned for further discussion because I would like a few moments myself to speak in favor of the Defense authorization bill.

Mr. LEVIN. Why don't I finish with a comment about Senator THURMOND and then yield to the Senator from Connecticut. We are going to be here anyway.

I have one other comment about Senator THURMOND, and then I will yield the floor.

My first trip with Senator THURMOND wasn't to a foreign country. It was to California. I will leave it at that.

(Laughter.) But he was only, I guess, 75 years old because it would have been 24 years ago.

I remember we were staying at a military base. We were studying a number of issues. I had just joined the Armed Services Committee. And I heard somebody, at about 5:30 or 6 in the morning, below my window running. I was trying to figure out who was up at 5:30 in the morning running. I knew it was a military base, but still 5:30 is a little early. That was STROM THURMOND running.

He was and is someone who really has put a lot of emphasis not just on his own health but on the health of his colleagues. How many times did he lean over to me, in the Armed Services Committee, and ask, are you watching your diet or are you getting exercise?

Here is a man who is really concerned that his colleagues would take care of themselves. I don't think any of us did the exercising he did and watched our diet quite the way he does, but, at any rate, he will be missed for all kinds of reasons.

The Senator from Connecticut is ready to speak. I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. LIEBERMAN. I thank the Chair and my friend and colleague from Michigan.

Mr. President, I rise today to support the Defense authorization bill and to thank the chairman of our committee, Senator LEVIN, for his leadership in this effort, obviously supported, in a very strong partnership, by Senator WARNER, the ranking member, and other members of the committee of both parties.

It is particularly important we pass this bill now, not only because our forces are preparing for the possibility of combat to remove the threat Saddam Hussein represents, but also because this proposal has important provisions that will lead to transforming our military to ensure it is even more capable of protecting the American people in the uncertain and dangerous future ahead of us.

I do want to give credit to Senator LEVIN, who really has earned the gratitude of every American for his dedication and commitment not only to our national security in general but to the men and women in our Armed Forces. He has certainly ably explained the important provisions in this bill.

Obviously, there will soon be a transition in the leadership of the committee. Senator WARNER, I presume, will return as chairman. The fact these two colleagues have worked so well and so productively across party lines should give us all a sense of encouragement and hope about the work of this committee in the future.

I have been particularly proud to have been able to have worked on some provisions I believe will improve the readiness of our military in the years to come, and that will help our military become a more important part of the national homeland security team.

It has been a great honor to serve on the Armed Services Committee and to have worked with Senator LEVIN and Senator WARNER in the actions they have taken, particularly to improve the compensation and quality of life of our military.

I have also had the privilege, for the last year and a half—and I should say thanks to the occupant of the chair—to have served as the chair of the Airland Subcommittee, working very closely with Senator SANTORUM of Pennsylvania as my ranking member. We have now spent two sessions of Congress, as chair and ranking member, alternating our roles. I am particularly proud of the work our subcommittee has done with the full committee in providing additional resources to accelerate the Army's future force and to fully resource the combat aircraft that will serve as the backbone of our air forces and ensure our continued dominance of the air far into the future.

It has also been good to work with Senator SANTORUM and others on provisions that will permit more timely transition of promising leap-ahead technologies from research to full utilization, and to require the Department of Defense to fully assess its role in homeland security, each of which are parts of the Defense authorization legislation that is now before the Senate.

I worked with fellow members of both parties on the committee on a controversial matter that has reached resolution. It is a resolution that is unsatisfactory, but I know we have to move ahead with it; that is, the efforts to redress this longstanding inequity of a double standard that has allowed all Government retirees except our military retirees to receive both their full retirement pay and the disability compensation they are entitled to. Our original provision would have allowed all military retirees to draw both full-retired pay and any disability compensation they are entitled to.

To me, this is an issue of fundamental fairness. As Senator LEVIN has explained, we were forced by administration opposition to scale back the provision with regard to military retirees.

The compromise now in this conference report greatly reduces the number of retirees who will be able to draw both benefits I have described and

that they are entitled to. It does authorize an enhanced special compensation only for military retirees with 20 or more years of service who incurred a qualifying combat-related disability. That means any rate of disability attributable to an injury for which the retiree was awarded the Purple Heart, or a service-connected disability rated at 60 percent or higher incurred as a direct result of armed conflict, while engaged in hazardous service, in the performance of duty under conditions simulating war, or through an instrumentality of war.

This, unfortunately, does not cover all the retirees who should be eligible. It greatly reduces the number who will be covered. It is a step forward, and a significant step forward, for those who will benefit, but I hope—and I would guess that members of both parties on the Armed Services Committee join in the hope—in the years ahead, beginning next year, we continue to extend the number of retirees who are entitled to receive both retirement pay and disability compensation but do not, and to reach the point where all of them, in fact, receive it. That seems to be our moral responsibility in this case, and we are not yet fully meeting it.

Bottom line, this is a critically important, otherwise not just adequate but adequate to the special needs of the moment, authorization bill. We are, after all, a nation at war. We forget that sometimes because our enemy does not have the normal attributes of enemies in war. They are not able to be seen on a battlefield massing their troops. They are not in ships at sea that we can observe. They certainly are not in the conventional military aircraft. But they are out there. They are plotting. They are planning. They are arming in conventional and unconventional ways to do us damage.

This authorization bill will continue to provide the men and women who serve us in uniform, and those civilians who support them, the resources they need to keep us not only defended but the mightiest Nation in the history of the world.

I thank Senator LEVIN, Senator WARNER, and all the members of the committee for the work they have done on this legislation. I look forward to supporting this conference report.

I thank the Chair and yield the floor.

#### CUSTOMS SERVICE

Mr. GRASSLEY. I would like to engage in a colloquy with Senator BAUCUS on provisions in the homeland security bill pertaining to commercial operations of the Customs Service.

Mr. BAUCUS. This is a very important topic. As my good friend will recall, the Finance Committee held a hearing on this issue last July, which we followed up with a letter to the Chairman and Ranking Member of the Committee on Governmental Affairs. We stressed the importance of preserving the revenue collection and trade facilitation functions of the U.S. Customs Service, even as that agency

moves into a Department with a national security focus. I would be pleased to engage in a colloquy on this topic with the Senator from Iowa.

Mr. GRASSLEY. I appreciate the Senator's recalling our hearing of last July. I would note that following the hearing and our letter to the Committee on Governmental Affairs, we worked closely with that Committee and with the Administration to develop text that would keep intact the commercial functions of the Customs Service. That text has evolved. I note that the bill now before the Senate provides, as a general matter, for the transfer of Customs Service functions and personnel to the new Department of Homeland Security. Notwithstanding that, authorities vested in the Secretary of the Treasury relating to customs revenue functions are to remain with the Secretary of the Treasury unless delegated to the Secretary of Homeland Security. My understanding is that this exclusion from transfer pertains to authorities now exercised by the Secretary of the Treasury to issue revenue regulations developed by the Customs Service, and authority to provide oversight and supervision of the Customs Service in this area, especially with regard to policy matters.

Mr. BAUCUS. I share the Senator's understanding on this point.

Mr. GRASSLEY. I note that, technically, the bill allows even revenue-related authorities to be delegated. However, it is my understanding that a wholesale—or even a large-scale—delegation of such authorities is not contemplated by this legislation.

Mr. BAUCUS. I agree with the Senator from Iowa. This bill should not be read as permission for the Secretary of the Treasury to undertake a wholesale or large-scale transfer of revenue-related authorities to the Secretary of Homeland Security. That would be an abdication of the responsibility that this bill assigns to the Secretary of the Treasury.

Mr. GRASSLEY. I thank the Senator from Montana. I also would note that the issue of Customs' revenue functions is dealt with differently in this bill than in the draft bill originally sent to Congress by the Administration. In the Administration's draft bill, all Customs functions would have been transferred to the Department of Homeland Security without any further action by any government official. That is, no Customs-related authorities would have been retained by the Secretary of the Treasury. Would the Senator from Montana agree that this contrast further supports the point that the bill now before the Senate is not intended to give the Secretary of the Treasury blanket permission to engage in a wholesale or large-scale transfer of revenue-related authorities to the Secretary of Homeland Security?

Mr. BAUCUS. I fully agree with the Senator's observation. The Congress has taken a different approach from the one originally proposed by the Ad-

ministration. Under the approach in this bill, significant revenue-related authorities remain at the Treasury Department. It would not make sense to take this different approach if the result would be a wholesale delegation of these authorities after enactment. Accordingly, the bill should be interpreted as establishing a presumption that those authorities should not be delegated in the absence of a compelling reason for their delegation. Moreover, while delegations in this area are indeed allowable under the legislation, it is fair to conclude that they will be scrutinized closely by those of us responsible for these provisions.

Mr. GRASSLEY. I appreciate this colloquy, and I thank the Senator for engaging in this colloquy on a very important topic.

#### MIGRATORY BIRD TREATY ACT

Mr. JEFFORD. Mr. President, I would like to engage my colleague Chairman LEVIN of the Armed Services Committee, in a colloquy on a provision relating to the Migratory Bird Treaty Act.

The Migratory Bird Treaty Act is one of our nation's oldest wildlife protection laws. Before this law was passed in 1918, many migratory birds were on the brink of extinction. However through international coordination and domestic conservation programs, the MBTA has succeeded in restoring many species of migratory birds. This law is within the jurisdiction of the Environment and Public Works Committee which I chair.

As the Chairman is aware, the conference report before us today contains an exemption for the Department of Defense from incidental takings of Migratory Birds related to military readiness activities. I think it is unfortunate that this provision was included, however, I know Chairman LEVIN worked tirelessly on this and many other difficult tissues in conference, and I thank him for his efforts.

While I am concerned that these provisions were never subjected to scrutiny in the committee of jurisdiction, I have yet to agree that these provisions, or any other provisions affording special treatment to the Department of Defense, are necessary. For years our military has efficiently and effectively trained for conflict in full compliance with environmental laws. Our defense agencies have taken pride in their stewardship of the environment. I applaud Chairman LEVIN for rightly insisting that these provisions not be included in the Senate DoD Authorization bill.

I would like to confirm my understanding of these provisions with Chairman LEVIN who was a principal negotiator of this legislation. First, it is clear in Subsection (d) that the authority of the Secretary of the Interior to prescribe regulations for the incidental taking of migratory birds during military readiness activities is limited to the Secretary's authority under section 3(a) of the Migratory Bird Treaty Act.

Mr. LEVIN. That is correct. This authority must be consistent with the authority in section 3(a) of the Act, and in no way changes our obligations under the Migratory Bird Treaties.

Mr. JEFFORD. I would also like to point out that the Department of Interior has a mandatory obligation to promulgate regulations to permit the incidental taking of migratory birds by DOD within one year of the enactment of this Act. Subsection (d) of the provision clearly provides that "not later than the expiration of the one-year period beginning on the date of the enactment of this Act, the Secretary of Interior shall exercise the authority . . . to prescribe regulations to exempt the Armed Forces for the incidental taking of migratory birds during military readiness activities."

Mr. LEVIN. Yes, it is quite clear that the Department of Interior has a statutory obligation to promulgate regulations within one year.

Mr. JEFFORDS. Also, according to subsection (b), in the one-year time period between the enactment of this Act and the promulgation of regulations by the Department of Interior, the Secretary of Defense must, "identify measures to minimize and mitigate . . . any adverse impacts of authorized military readiness activities on affected species of migratory birds." Is it the Chairman's understanding that DOD has a mandatory obligation to implement these measures?

Mr. LEVIN. That is correct, the Secretary of Defense must not only take measures to minimize and mitigate adverse impacts on migratory birds, they must also ensure that such measures are implemented.

Mr. JEFFORDS. Finally, according to subsection (b), in the time period in which the regulations promulgated pursuant to subsection (d) are in effect, the Secretary of Defense must, "identify measures to minimize and mitigate . . . any adverse impacts of authorized military readiness activities on affected species of migratory birds" and "monitor the impacts of such military readiness activities on affected species of migratory birds." Is it the Chairman's understanding that these minimization and monitoring measures must be addressed in the regulations promulgated pursuant to subsection (d), to ensure that those regulations are consistent with the Migratory Bird Treaty Act?

Mr. LEVIN. That is correct, the regulations must prescribe measures to minimize, mitigate and monitor impacts of military training activities on migratory birds, so that the regulations are consistent with section 3(a) of the Migratory Bird Treaty Act. The two key changes made by the conferees to the House provisions: (1) require the Department of the Interior to exercise its regulatory authority over DOD activities impacting migratory birds and (2) require appropriate actions to mitigate the impact of DOD actions on migratory birds. The Senate conferees

agreed to accept the provision only because of these changes.

Mr. MCCAIN. Mr. President, I rise today in support of H.R. 4546, the National Defense Authorization Act for Fiscal Year 2003. Overall, the House and Senate Armed Services Committee Conferees have produced a bill which is deserving of approval and is generally supportive of the brave servicemen and women in our armed forces, in terms of training, pay, family quality-of-life benefits, and providing modern equipment and weapon systems.

Building upon evaluations and recommendations regarding growing readiness and modernization problems throughout the services, the Conference Committee has done an admirable job of addressing some of the more pressing issues contributing to the multiple problems that have been brought to Congress' attention over the past several years.

Unfortunately, there are areas that the Conference Committee did not adequately address. First and foremost is Concurrent Receipt. It was tremendously important to me that the Senate version of the defense authorization bill and report would authorize, at a minimum, payment of retired pay and disability pay for all military retirees with disabilities, a practice known as Concurrent Receipt. For the past eleven years, I have offered legislation on this issue. This matter is of great significance to many of our country's military retirees, because it would reverse existing, unfair regulations that strip retirement pay from military retirees who are also disabled, and costs them any realistic opportunity for post-service earnings.

While I commend the Chairmen and Ranking Members of the Armed Services Committees for going further in addressing a longstanding inequity in the compensation of military retirees' pay, this bill does not go far enough and falls far short of the much broader provision that was included in the Senate, or even the House. However, it was important that a compromise was reached with regards to Concurrent Receipt. The defense authorization bill provides many critical quality-of-life and pay benefits for our servicemen and women. Foregoing a defense authorization bill because full Concurrent Receipt was not included would be wrong because I believe we would be hurting an even greater number of servicemembers who are currently serving, reservists who have been mobilized in support of Operations Noble Eagle and Enduring Freedom, and their families who endure long periods without a spouse or parent during periods of training or deployment. More must be done on Concurrent Receipt. More will be done.

The compromise legislation, in effect, de facto Concurrent Receipt would increase payments under legislation I previously introduced in 1999, Special Compensation for Severely Disabled Military Retirees, in an amount equaling the monthly disability compensa-

tion prescribed by the VA for disabling conditions of that percentage.

Eligible recipients would include those military retirees with 20-years military service who have a disability, 10 to 100 percent, that is a result of an injury for which the member was awarded the Purple Heart; or have a 60 percent or more combat-related disability to include disabling conditions incurred as a result of armed conflict, including, PTSD, Agent Orange, and Persian Gulf War disease; while engaged in hazardous service such as atomic veterans; under conditions simulating war such as military training; or caused by an instrumentality of war like accidents involving military equipment.

Again, while this legislative compromise will provide critical help to an additional 35,000 disabled military retirees, it is not good enough to only correct this injustice for a select few no matter how deserving.

We must do more to restore retirement pay for those military retirees who are disabled. I have stated this before, and I am compelled to reiterate now; retirement pay and disability pay are distinct types of pay. Retirement pay is for service rendered through 20 years of military service. Disability pay is for physical or mental pain or suffering that occurs during and as a result of military service. In this case, members with decades of military service receive the same compensation as similarly disabled members who served only a few years. This practice fails to recognize their extended, more demanding careers of service to our country.

This is patently unfair, and I will continue to work diligently to correct this inequity for all career military servicemembers who are disabled.

Fully enacting concurrent receipt, for all who deserve it, is the next step to ensuring that we recognize the military service of those military retirees who by no fault of their own become disabled during their career military service.

Another disappointing action was the removal of language I sponsored, modifying the calculation of back pay for persons who were approved for promotion as members of the Navy and Marine Corps while interned as prisoners of war during World War II. Last year's Defense authorization bill authorized back pay to World War II veterans who were not promoted on time due to the arcane Navy Department rules of the early 1900s. Unfortunately, when the law was changed, an adjustment for inflation was not taken into account. While these men received the back pay they deserved, it was not adjusted for inflation. A simple fix to this problem would be to take into account changes in the Consumer Price Index. Though included in the original version of this year's Defense Authorization Act, the language was removed from the final version of the legislation.

I also am disappointed that the Conferees dropped the Senate Armed Services Committee's recommendation submitted by the Administration to waive certain buy America restrictions. The Senate authorized the Secretary of Defense to waive domestic source or content requirements for close defense allies that provide reciprocal treatment for our defense products. "Buy America" restrictions divert necessary funds to ensure our military is properly equipped. An additional \$5 billion can be saved per year by eliminating "Buy America" restrictions that are protected by the Berry amendment that only undermine U.S. competitiveness overseas. Every dollar we spend on archaic procurement policies, such as "Buy America," is a dollar we cannot spend on training our troops, keeping personnel quality of life at an appropriate level, paying full concurrent receipt, maintaining force structure, replacing old weapons systems, and advancing our military technology.

Although I have shown that there are numerous examples of why this bill is far from perfect, I am putting my reservations aside to support the final passage of the Fiscal Year 2003 National Defense Authorization Act Conference Report. I feel that taken as a whole this legislation represents a step forward for our Nation's military.

The bill contains a package of benefits for servicemembers and their families that would go a long way toward addressing the readiness problems facing all the services. It includes a 4.1 percent across-the-board pay raise for all active and reserve servicemembers, with an additional targeted pay raise ranging from 5.5 percent to 6.5 percent for sergeants, petty officers and chiefs.

Military pay, by almost all accounts, has fallen considerably behind civilian pay. Arguments can be made as to the precise pay differential, and at which pay grades and mission areas the gap is greatest, but there is no credible argument as to whether or not we need to address the issue of compensation.

Additionally, the Committee approved a provision that would authorize a new assignment incentive pay of up to \$1,500 per month to encourage servicemembers to serve in difficult-to-fill assignments, like Korea or the Persian Gulf region.

The Committee approved a significant legislative provision directing the Secretary of Defense to review personnel compensation laws and policies, including the Reserve retirement system, to determine how well they address the needs of Guard and Reserve servicemembers. This provision is particularly noteworthy since the Secretary of Defense recalled nearly 95,000 Reserve Component servicemembers for Operations Enduring Freedom and Noble Eagle. Oftentimes the collective memory of our active duty, including active duty reserve servicemembers, is short and a comprehensive examination of reserve force policies, if done right, will help address waning reten-

tion of reservists and continued support by employers of reservists.

I forcefully endorse the Conference Committee's inclusion of an amendment that will direct the Secretary of the Air Force to obtain specific authorization and appropriation to lease 100 Boeing 767 tanker aircraft that was previously approved by the Department of Defense Appropriations Act of Fiscal Year 2002.

Many Senate Armed Services Committee Members expressed concern that the payment of leasing of major weapon systems, aircraft, vessels, and combat vehicles, should not come from critical funds providing for readiness spending, such as training, spare parts, flying hours, and maintenance of weapons systems and barracks. There appeared to be a sense of agreement that any lease for major weapon systems should instead be funded from the procurement accounts.

During posture hearings, the Service Secretaries and Chiefs confirmed that readiness unfunded requirements still exist and submitted lists to meet their readiness requirements. Robbing "Peter to pay Paul" so that Air Force Secretary Jim Roche can modernize the tanker fleet is questionable at best and several reports by the GAO, OMB and CBO bear this out. I will not take the time of this body today to again articulate the reasons why Secretary Roche's and the Appropriations' Committee Boeing 767 leasing scheme is a rip-off of the taxpayers as I have stated on the floor of the Senate in the past. However, servicemen and women will someday look at this lease of aerial tankers and wonder how Congress was duped into agreeing to a provision that was so costly and in the end irresponsible.

I fully support the Conference Committee's inclusion of the "National Call to Service Act," which provides for strong incentives to encourage young Americans to enlist in the Armed Services.

The Committee adopted provision is the military component of the "Call to Service Act," introduced by Senator EVAN BAYH (D-IN) and myself, which also expands civilian service opportunities in AmeriCorps and SeniorCorps and in other service organizations.

This is a very significant boost to a bill that will give Americans concrete opportunities to serve in causes greater than self interest. By encouraging more military enlistments, this legislation could greatly assist our war against terror.

Under the "National Call to Service Act," individuals who volunteer to serve under this new program would be required to serve on active duty for 15 months in the Armed Services after completion of initial entry training and could complete the remainder of their military service obligation by choosing service on active duty, in the Selected Reserve or in the Individual Ready Reserve. The reserve obligation could also be fulfilled by serving in a

civilian national service program such as the Peace Corps or AmeriCorps.

In return for service, the legislation provides the choice of incentives including a \$5,000 bonus, repayment of a student loan up to \$18,000, an educational allowance under the Montgomery GI Bill.

At this time of national challenge, Americans are yearning for opportunities to serve. I hope Congress will expeditiously take action on this entire legislation to create more options in both the areas of military and civilian service.

In conclusion, I would like to reiterate my belief in the importance of enacting meaningful improvements for active duty and Reserve service members. They risk their lives in Afghanistan and elsewhere to defend our shores and preserve democracy, and we cannot thank them enough for their service. But, we can and should pay them more, improve the benefits for their families, and support the Reserve Components in a manner similar to the active forces. Our service members past, present, and future need these improvements. We also cannot continue with this "business as usual" mindset. We must reform the Department of Defense and not fall prey to the special interest groups that attempt to warp our perspective and misdirect our spending. We owe so much more to our men and women in uniform who defend our country. They are our greatest resource, and I believe they are woefully underrepresented. We must continue to do better.

Mr. BYRD. Mr. President, the Fiscal Year 2003 Defense authorization bill was in conference for nearly 16 weeks. This bill, which creates the policies and programs that will guide the Department of Defense during this fiscal year, is the counterpart to the defense appropriations bill, which was passed by Congress and signed into law last month. After the President challenged Congress to make the defense budget a priority, why did it take so long for Congress to complete action on the defense authorization bill?

This bill has wide support in the Senate, having originally been passed on June 27, 2002, by a vote of 97 to 2. So the bill is not so divisive that controversy among Members of the Senate could have delayed its completion.

The chairman and the ranking member of the Armed Services Committee, Senator LEVIN and Senator WARNER, worked diligently during this extended period of time to be able to produce a defense authorization bill for this year. They cannot be blamed for it taking so long to completing conference on the bill.

The true reason for the delay was the myopic veto threats that emanated from the White House over provisions in the Senate- and House-passed bills that would have expanded benefits to disabled veterans. The reason the White House opposed these benefits is clear: the President's advisors were

only looking at the bottom line. It just does not make sense that we can pass a defense budget that will spend a billion dollars a day during the next 12 months, and we can spend more than a billion dollars a month on military operations in Afghanistan, but when it comes to providing benefits to disabled veterans, suddenly we do not have the money.

The veterans' benefit that was proposed in the Senate version of the Defense authorization bill would allow an individual with a disability who retired from the military after 20 years of service to receive the full amount of his military retirement pay and his veterans' disability pay, without reduction from either. Under current law, these two payments are offset, in effect forcing these individuals to pay for their own disability checks.

The Senator from Nevada, Mr. REID, has authored a bill to correct this situation. I am one of 82 cosponsors of that bill. The House version of this bill has 403 cosponsors. These bills are of the highest priority to a great number of veterans' groups and of great importance to thousands of disabled veterans around the country. Despite such broad support, the White House veto threats torpedoed the full expansion of these benefits in the Defense authorization bill.

The conference report to the Fiscal Year 2003 Defense authorization bill that we will soon vote on contains a limited expansion of benefits to some veterans, depending on their level of disability and how their injuries were inflicted. It is well short of what veterans deserve.

I will vote in favor of the conference report, however, because the bill makes improvements to a number of other programs that are important to the men and women who serve our country in uniform. The Defense authorization bill provides for an across the board pay increase, creates new bonus payments for hardship assignments, and reduces housing costs for military families. The bill also authorizes \$10.4 billion for military construction, which includes funding to replace dilapidated housing at military bases throughout the United States. This bill will help to improve the quality of life of those who now serve in the military.

Although this bill does not make enough progress in getting veterans the benefits that they have earned, the passage of this Defense authorization bill will not be an end to that issue. There is strong support in Congress to allow disabled veterans to receive the full amount of their military retired pay and their disability compensation, and I am certain that this issue will be raised again.

In the meantime, I urge the thousands of veterans who contacted me in support of expanding these benefits to let the President know how important this issue is to you. No veteran should doubt who is responsible for killing this proposal. Veterans and their fami-

lies should hold the President accountable for his stand against benefits for disabled veterans.

Mrs. MURRAY. Mr. President, I rise today to express my deep disappointment that the Murray/Snowe amendment was dropped, once again, in conference.

The Murray/Snowe amendment would guarantee that women serving in our military overseas have access to safe, affordable and legal abortions. This amendment passed the Senate on a 52 to 40 vote. A similar amendment also passed in 1996 and was dropped in conference. Once again, reproductive health care needs of women were abandoned behind closed doors.

The DOD authorization bill before us today will ensure that our men and women in the armed forces have the equipment and resources they need to protect us. Every day our service men and women work overtime, often in hostile, dangerous environments to protect our citizens and to secure the freedoms and values we cherish. They deserve our full support.

Suprisingly, as the women of our military, fight for our freedoms overseas, they are actually denied some of these freedoms during their service. Here at home, women have the right to chose. They have constitutionally-protected access to safe and legal reproductive health services. But, this is not the case for women serving overseas. The Murray/Snowe amendment would have ensured that women serving in the military are not forced to check their rights at the U.S. border.

Under current restrictions, women who have volunteered to serve their country are not allowed to exercise their legally guaranteed right to make their own reproductive health decisions simply because they are serving overseas.

These women are committed to protecting our rights as free citizens, yet they are denied one of the most basic rights afforded women in this country. Our amendment would not, and let me stress does not require any direct federal funding of abortion related services. The amendment would have required women to pay for any direct costs associated with an abortion in a military facility. The Murray/Snowe amendment does not, and again let me stress does not, compel a medical provider to perform abortions. All branches of the military allow medical personnel who have religious or ethical objections to abortion not to participate. Finally, this amendment would not have changed or altered conscience clauses for military medical personnel. This is an important and critical women's health issue. Women should be able to depend on their base hospital and military health care providers to meet all of their health care needs, including reproductive health. To single out abortion-related services could jeopardize a woman's health.

Opponents of this amendment have argued that the military does ensure

access for women. Under current practices, a woman who requires abortion related services can seek the approval of her commanding officer for transport back to the U.S. as unscheduled leave: not medical leave, but unscheduled leave.

In addition to the serious risk posed by delaying an abortion, this policy compromises a woman's privacy rights by forcing her to release her medical condition and needs to her superiors. This policy also forces women to seek abortions outside of the military establishment in foreign countries. Many women have little or no understanding of the laws or restrictions in the host country and may have significant language and cultural barriers as well.

In this country, we take for granted the safety of our health care services. When we seek care in a doctor's office or clinic, we assume that all safety and health standards are adhered to. Unfortunately, this is not the case in many other countries.

In addition, many of our military personnel serve in areas that are hostile to women's reproductive rights and choices. In some countries, women can be severely punished for seeking abortion-related services or family planning. This is the environment that many women face.

Regardless of one's view on abortion, it is simply wrong to place women at risk. This amendment would have required the women to pay the full cost associated with the abortion. It would prohibit any direct federal funding.

Ensuring that women have access to safe, legal and timely abortion related services is an important health guarantee. It is not a political statement. It is essential that women have access to a full range of reproductive health care services. That's why the Murray/Snowe amendment was endorsed by the American College of Obstetricians and Gynecologists, the Americans Medical Women's Association, Physicians for Reproductive Choice and Health, Planned Parenthood of America, National Family Planning and Reproductive Health Association, and the National Partnership for Women and Families.

As we send out troops into the war on terrorism to protect our safety and freedoms, we should ensure that female military personnel are not asked to sacrifice their rights and protections as well. Allowing extreme ideology to dictate military health care policy is simply wrong. Women have suffered a major set back today. Dropping the Murray/Snowe amendment sends the wrong message to our military servicewomen. It is simply wrong to deny women their basic rights behind closed doors.

I will not give up. I will be back again to fight for this important reproductive health care protection. Eventually, we will do the right thing and enact the Murray/Snowe amendment.

Mr. ALLARD. Mr. President, this week our Nation honored our veterans; the men and women who have served

the United States with distinction. Although we take one day of the year to recognize what veterans have done for us, it is understood that we are in constant debt to those who defended our country's liberty. It is said that "Freedom is not free". There is a cost, and this cost has been paid by America's veterans. They have sacrificed for our country, and increasingly for our world. Around the globe, from Asia to Europe to the Middle East to right here at home, the millions of men and women who have served in our armed forces deserve as much honor and respect as we can give them.

Knowing this, there is not one member of this body who would not want our veterans to receive benefits that they have earned. Unfortunately, the House and the Senate have chosen not to give full concurrent receipt to our veterans, and for this reason I did not sign the Conference Report to the Defense Authorization. While I applaud the inclusion of a special compensation for some categories of war veterans, I believe that more work needs to be done and I will continue to push for these benefits in the future.

The withholding of my signature to the Conference Report should not, however, be seen as my disapproval for the entire bill. In fact, overall I am very pleased with the outcome of the defense authorization for this year. I believe that the work we have done will continue to ensure that our men and women in the armed forces have access to the tools they need to perform their critical missions across the globe. Also, we should not overlook the impact that increasing basic pay will have on our military personnel, any commitment that Congress shows to our armed services in this regard is a positive gain for the American people.

As I have stated on this floor many times before, it is abundantly clear more and more each day how important missile defense is to our country. The development of this program is central to homeland defense and the protection of our friends, allies and deployed forces against threats that are serious and growing. The authorized levels of funding for critical ballistic missile defense systems and their components is an outstanding accomplishment for this Congress. As the ranking member of the Strategic Subcommittee, ensuring full support of missile defense is my most important priority and it will continue to be as we begin work in the 108th Congress.

The Defense authorization conference also provided for a number of developmental programs critical to space-based systems and technologies. The Network, Information, and Space Security Center will facilitate cooperation for protecting information and information systems, which is becoming increasingly important in the face of cyberterrorism threats from around the world. The Center for Geosciences is a leading-edge environmental research center continuously improving

weather forecasts for our military forces around the world. TechSat 21 will demonstrate the technical and operational feasibility of microsatellites, a truly transformational approach to space-based systems. And finally, the GPS Jammer Detection and Location System will enable our military commanders to rely on GPS and GPS-supported systems such without the threat of interference or jamming by the enemy.

One of my particular interests for several years has been the use of commercial imagery to help meet the Nation's geospatial and imagery requirements. I do not believe that the Department of Defense has been aggressive enough either in crafting a strategy or in providing funding for this purpose. I am gratified that we have included a substantial increase for commercial imagery acquisition, and some very helpful words in report language that I expect will drive the Department toward establishing a sound relationship with the commercial imagery industry.

Closer to home, I know that my constituents in Colorado are pleased that we not only fully funded the Rocky Flats Environment Technology Site and its cleanup activities but also added an extra \$18 million for included security costs at the site. I also appreciate the support of the new Department of Energy environmental cleanup reform initiative that will incentivize cleanup sites to do their important work faster and more efficiently. The accelerated cleanup initiative will reduce risk to the workers, communities and the environment, shorten the schedule by decades, and save tens of billions of dollars over the life of the cleanup.

Let me make it very clear that I chose not to sign the Defense Authorization Conference Report because of our failure to include the full Senate provision for concurrent receipt, but I strongly support the bill for providing the technology and resources our military men and women need to protect our national security.

Mr. NELSON of Florida. Mr. President, I rise to address a number of issues in the Defense authorization bill. I am voting for this bill because it contains many provisions critical to fighting the war on terror and it provides pay raises for the men and women of our military. But it fails to rectify a longstanding inequity for disabled military retirees. It's wrong that disabled retirees are forced to pay for their own disability benefits. While this bill ends the penalty for some 30,000 retirees, there are more than half a million veterans out there who still are forced to pay for their own disability benefits.

For the many good things we have in this bill, I'd like to thank leadership of our Chairman, Senator LEVIN, and Ranking Member, Senator WARNER. Americans can be assured of their devotion to the security of our nation

and the welfare of the men and women in uniform around the world today serving in harm's way.

I would also like to say I am grateful for the opportunity to have served on this committee for two years with the Senior Senator from Georgia, MAX CLELAND.

MAX CLELAND has been an inspiration making countless sacrifices during his lifetime of service to our Nation. I have turned to Senator CLELAND again and again over the years on the most challenging issues confronting us—from the war on terror to the welfare of our service members and their families, our military retirees and our veterans.

Deep within the chest of Senator MAX CLELAND beats the heart of an American Soldier, an American who has given much in the defense of freedom; an American who has much, much more to give. I know that I will call upon my friend and colleague again and again, no matter where he is, when I need the clear insight and straightforward counsel of a soldier.

This has been a very important year in American history. We have learned much about the dangers that confront our Nation at home and around the world. We have learned much about the capability of our Armed Forces to confront and defeat these dangers. I am confident we will win the war on terror, there can be no question among the American people, or in the minds of our friends and enemies.

This bill goes beyond the President's request and beefs up our arsenal with additional warships, better fighting aircraft and improved security at our military bases.

This is a strong bill for our service members and their families. This bill provides for important increases in pay, bonuses, special pays, medicare care and family housing.

This is a major piece of legislation that lays the foundation for how this Nation will prosecute the war on terror at home and abroad; how this Nation will transfer its military for the dangers that may confront us in the future; and, how this Nation will care for the soldiers, sailors, airmen and Marines, and their families, that put themselves in harms way everyday.

I would like to highlight two provisions in this bill, for which I am grateful for the support of my colleagues in the Senate and the House's conferees.

Earlier this year, the Defense Department acknowledgement that Navy ship defense and vulnerability experimentation during the Cold War, known as Shipboard Hazard and Defense or Project SHAD, used chemical and biological agents that exposed sailors unwittingly to potentially lethal toxins.

While the military necessity of anticipating, understanding, and mitigating the vulnerability of our fleet to gas attack is indisputable, using our sailors, intentionally or not, as human guinea pigs is reprehensible.

A provision that I sponsored and included in this bill (Section 709) directs

the Department of Defense to submit to the Congress, within 90 days, a comprehensive plan for the review, declassification and submission to the Veterans Administration all medical records and information relating to the SHAD project. Subsequent reports are required every six months allowing the Congress to evaluate the Defense Department's progress in executing the plan.

We owe this level of effort to the sailors that may have been exposed to potentially toxic agents and get them the medical care to which they are entitled.

I also sponsored a provision included in this bill, Section 583, that requires the Department of Defense to provide the Congress a report, classified and unclassified, on their progress toward resolving the fate of Navy Captain Michael Scott Speicher. Captain Speicher is the only American still unaccounted for from our war with Iraq nearly twelve years ago. In that time, the Defense Department has painfully mismanaged the search for and subsequent classification of Captain Speicher.

Section 583 of the bill requires the Defense Department to report to Congress not later than 90 days of enactment, and every 120 days thereafter, providing specific details on their efforts to resolve the fate of Captain Speicher. We need to give American service members the certain knowledge that we are not a nation that casually or negligently abandons its military men and women during or after a conflict.

I share the hope of so many of Captain Speicher's shipments, friends and family that we will one day know his fate. I am proud to have sponsored this provision and expect that the Defense Department's efforts will reflect the Nation's interest in bringing peace and comfort to all.

There is also heartbreak in what we were not able to do in this bill, especially for our military retirees. This bill fails to repeal the prohibition on the concurrent receipt of retired pay and disability compensation, as we had provided in our Senate version of the bill.

Instead we have a compromise acceptable to the President who is unwilling to pay the cost of correcting the injustice of requiring our military retirees to pay for their own disability compensation.

This is an intolerable disappointment for the hundreds of thousands of military retirees and their families hurt by the policy. We failed them again and I am deeply disappointed.

It has been clear to all that President Bush has worked hard against the interests of our military retirees in this instance. And, with the help of the civilian leadership in the Department of Defense and the Republican leadership in the House of Representatives, he's got what he wanted, controlling federal spending on the backs of our retired veterans.

I would have preferred that we as a Congress had done the right thing and passed the Senate version of the bill giving our retired military authority to receive their full pay and disability compensation.

I would have preferred that we had passed full concurrent receipt as eighty-two Senators and 403 members of the House have already agreed to support as cosponsors on separate legislation.

I would have preferred that we had passed full concurrent receipt and forced the President's veto. I would have proudly voted to override a veto and fix the injustice once and for all. And, I believe an override could have been easily achieved.

Sadly, this effort was lost in the partisan, election engineering of this Administration, the civilian leadership in the Defense Department, and the Republican leadership in the House of Representatives. For weeks we have delayed resolution of this issue in this bill in order to avoid forcing the President to take an action contrary to the interests of veterans.

Hopefully, veterans will quickly learn that there are those of us who truly care about meeting our obligations to them; and, they do have a place to go where their voices will be heard, where America's promises will be kept, and where their needs will be met.

I am ready to take up this fight in our next session. I am proud to represent the interests of our veterans and our military retirees. I am also proud to represent the interests of our retirees' surviving spouses, military widows, and their children. We have a lot of work to do correcting some of the injustices created over the years with conflicting and inconsistent benefits policies that seem to be concentrated in our Armed Services and Veterans programs. I look forward to taking up these challenges and working with my colleagues to rationalize and simplify our benefits systems so that we keep our promises to those who have given their all to the Nation.

I would like to close with a quintessentially American expression of what we need to do by President Teddy Roosevelt, "A man who is good enough to shed his blood for his country is good enough to be given a square deal afterward." I believe that there should be at least eighty-two of my colleagues in this chamber who will agree with this and be willing to make it a reality next session.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, it is my understanding that all time has expired.

The PRESIDING OFFICER. That is correct.

Mr. REID. The chairman of the committee wishes to enter a statement in the RECORD that will take less than 5 minutes. I would only state there are a number of Senators who wish to attend the service for Senator Wellstone and

his wife, which begins at 7 o'clock, so I would hope everyone can keep that in mind and we can move forward with this legislation.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. My understanding is there is no need for a rollcall vote on this bill.

Mr. President, just two additional moments I appreciate taking here. One relates to Senator CLELAND.

Senator CLELAND has been a true champion of the men and women who serve our country in uniform. He is directly responsible for a great deal of important legislation, including the transferability of GI bill benefits to a military member's spouse and children. This was a major retention initiative.

Secondly, this year he led the effort for a new special assignment incentive pay to encourage military members to serve in hard-to-fill positions.

This year he warned us that our military services are too small to meet our ongoing and growing commitments, and he is proving to be prescient in that regard because of the needs we see for our military services in the way in which they are involved in so many parts of the world.

But in addition to his role on the Personnel Subcommittee, Senator CLELAND continually reminded us of the pitfalls of committing U.S. Armed Forces to conflict without clearly defined objectives supported by the Congress and the American people.

Senator CLELAND's careful and thoughtful approach to national security has been appreciated by every member of the Armed Services Committee, every Member of this body. His advice and his judgment are going to continue to be needed by us individually, and we will be calling upon him. His indomitable spirit has inspired us, and it will continue to do so.

Senator CARNAHAN has been a valued member of the Armed Services Committee for the last 2 years. She was able to quickly get up to speed. She played an important role in the committee's deliberations on a wide array of issues.

She had a particular interest, and had a significant impact, in a number of areas, including Reserve health care and counterproliferation programs.

In the area of Reserve health care, Senator CARNAHAN played a key role in extending the period during which Reservists remain eligible for military health care after being released from active duty, and in initiating a review of alternative means for providing health care to the Reserves.

In the area of counterproliferation, Senator CARNAHAN played a key role in developing legislation to improve our nonproliferation programs to address the problem of radiological weapons and so-called "dirty bombs."

She has always been a strong advocate of efforts to expand these programs to countries outside of the former Soviet Union. Her thoughtful,

balanced approach to legislation will be missed on our committee, and her good and gentle nature will be missed by every Member of this body.

Finally, Senator BOB SMITH and Senator TIM HUTCHINSON were key members of our committee.

I take this opportunity to recognize the contribution that Senator BOB SMITH has made to the work of the Armed Services Committee and the national security of this country over his 12 years of service on this Committee.

Most recently Senator SMITH has served as both the Chairman and Ranking Member of our Strategic Subcommittee where he was a strong advocate of national security space programs, ballistic missile defense programs, and the modernization of our strategic nuclear triad. He did not limit his work on the Committee to the work of one or two subcommittees, however. He made it a point to involve himself in the whole range of issues that came before the Committee and the Committee's deliberations and conclusions were always improved by his involvement. This past year for example, he worked very hard on the issue of concurrent receipt for our deserving veterans.

Every member of the Armed Services Committee will miss Senator SMITH's thoughtful advice and collegial approach to national security issues in the next Congress.

I would also like to take this opportunity to recognize and thank Senator HUTCHINSON for his service on the Armed Services Committee for the last 6 years. In particular, I would like to recognize his service as Chairman and Ranking Member of the Personnel Subcommittee.

Senator HUTCHINSON demonstrated great leadership in helping our military recruiters. He was a major player in enacting TRICARE for Life, significantly increasing the pay of our troops, and reducing the out-of-pocket housing expenses for military personnel not able to live on a military installation. In response to requests for help from enlisted recruiters, he initiated legislation that ensures that military recruiters have the same access to secondary school students as is provided to colleges, universities, and other potential employers.

Our service members and our Nation have greatly benefitted from Senator TIM HUTCHINSON's service here in the Senate on the Armed Services Committee. We thank him.

The PRESIDING OFFICER (Mr. NELSON of Nebraska). The Senator from Alabama.

Mr. SESSIONS. Mr. President, I ask unanimous consent to make a few remarks about Senators SMITH and HUTCHINSON.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. I join with Senator LEVIN in his high compliments of Senators CLELAND and CARNAHAN. Both have served this committee exceedingly well.

BOB SMITH is a true American patriot. He loves his country. He served in the Navy. He was a history teacher. He came down here with a "Mr. Smith Comes to Washington" view of the highest possible values he could bring to bear. He loved the Defense Department. He gave it extraordinary interest. He was a top leader in national missile defense and high technology defense. He was a leader on the Strategic Subcommittee and chaired it for a number of years.

He was a champion for lost POWs. No Senator in this body spent more time and effort fighting to make sure every single prisoner of war of the United States was recovered or we knew about. He led on the Mike Speicher case, the missing pilot in Iraq.

TIM HUTCHINSON came in with me. I love TIM and watched him lead in this body year after year. He was a tremendous contributor to the Armed Services Committee. He chaired the Personnel Subcommittee. In that subcommittee, he fought hard to improve the pay, benefits, and living conditions of our men and women in uniform. He also fought successfully to break down the barriers where some of our colleges would not let military recruiters come on campus to recruit. He led a tough battle to change some of those laws.

He was a leader, as was Senator SMITH, in the concurrent receipt battle to make sure our veterans who have been injured and disabled received better compensation.

I thank Senator LEVIN for mentioning these Senators at this time.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, as Senator WARNER did, I add my thanks to our staffs: David Lyles, chief of staff on the Democratic side; Judy Ansley, taking the same responsibility on the Republican side. We are deeply in debt to them and to their entire crew which works with them.

Without our staffs, needless to say, we could not even come close, not just procedurally, not just mechanically, to accomplishing this goal of a conference report, but also for the wisdom, the advice they give us on substantive issues as well which is so important to us.

I don't know of anybody else who wants to speak. I don't know of a request for a roll call. I yield the floor and hope we can adopt the conference report.

The PRESIDING OFFICER. Is there further debate on the conference report?

If not, the question is on agreeing to the conference report.

The conference report was agreed to.

Mr. LEVIN. Mr. President, I move to reconsider the vote.

Mr. LIEBERMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, what is the business now before the Senate?

#### HOMELAND SECURITY ACT OF 2002—Continued

The PRESIDING OFFICER. Under the previous order, the Senator from Tennessee is recognized to offer an amendment.

Mr. REID. Mr. President, I appreciate that. I noted previously that Senator SANTORUM was going to be recognized after we disposed of the Defense authorization bill. Senator SANTORUM, due to the fact we are having a ceremony for Senator Wellstone at 7 o'clock, agreed to do that after we bring up the port security legislation tomorrow, after that vote. Everyone should expect Senator SANTORUM to offer a unanimous consent request at that time dealing with the CARE Act.

The PRESIDING OFFICER. The Senator from Tennessee is recognized.

#### INDEPENDENT COMMISSION TO INVESTIGATE SEPTEMBER 11 ATTACKS

Mr. MCCAIN. Mr. President, the legislation Senator LIEBERMAN and I introduced last year to create an independent commission to investigate the September 11 attacks passed the Senate as an amendment to the homeland security bill by a vote of 90 to 8 in September. Days before the vote, the administration issued a letter supporting the creation of an independent commission. But Congress is about to adjourn without having done so, to get it done.

The agreement that was reached on the homeland security bill is a welcome development and will make our Nation more secure. But the agreed text does not include our independent commission proposal, despite an overwhelming Senate vote in September and despite its previous inclusion in both the Lieberman and Gramm-Miller bills.

I believe President Bush and his team have responded admirably and with a sense of purpose to the terrorist attacks, and the joint intelligence committee investigation into the associated intelligence failings has added to our understanding of what went wrong. But neither the administration nor Congress is alone capable of conducting

a thorough, nonpartisan, independent inquiry into what happened on September 11, or to propose far-reaching measures to protect our people and our institutions against such assault in the future.

To this day, we have little information on how 19 men armed with boxcutters could have so effectively struck America. After every other such tragedy in our Nation's history, like Pearl Harbor and President Kennedy's assassination, independent investigations were immediately appointed to examine what went wrong and recommend needed reforms to prevent such tragedies from happening again. There has been no such review since September 11.

This is what our proposed commission would do. Its goal would be to make a full accounting of the circumstances surrounding the attacks, including how prepared we were, and how well we responded to this unprecedented assault. The commission would also make comprehensive recommendations on how to protect our homeland in the future. It would examine not just intelligence but the range of Government agencies and policies, from border control to aviation security to diplomacy.

Learning the lessons of September 11 will require asking hard questions. It will require digging deep into the resources of the full range of Government agencies. It will demand objective judgment into what went wrong, what we did right, and what else we need to do to deter and defeat depraved assaults by our enemies in the future.

No such review has occurred to date. Passage of the homeland security legislation is a good start to making needed reforms, but to some extent we are flying blind in our efforts to reform our approach to homeland defense because we still do not know what parts and policies of the Government failed the American people last September 11.

We do know, thanks to press leaks and the work of the joint intelligence committee, that significant failures occurred.

The chairman and ranking member of the Senate Intelligence Committee have suggested we might have prevented the September 11 attacks had we properly analyzed available information. They strongly support our independent commission legislation to carry on the work their joint intelligence investigation started. Together with Senators BOB GRAHAM and DICK SHELBY, we have been negotiating intensively with the White House and remain hopeful we might reach an agreement with them to create a commission, but we believe Congress must speak on this issue.

The families of September 11 will not rest until they have answers about how their Government let them down and what we can do to make sure such tragedy never strikes America again. This is not a witch hunt. It is a search for the answers that will enable us to

better protect our Nation against future attack by terrorists. It is about the future, not the past. It is worthy of the strong bipartisan support it has already received. I urge my colleagues to support this amendment.

I want to thank my friend from Connecticut for his efforts on behalf of this commission. I want to thank him for his efforts on behalf of the families, and I want to thank the White House for their continued negotiations. It is time we wrapped up these negotiations so this commission can be part of the Homeland Security bill.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I thank my dear friend from Arizona for his strong statement, for joining me in introducing this amendment, and for his characteristic steadfastness in pursuit of an important cause regardless of the opposition and where it comes from.

He and I introduced legislation last December. We are approaching a year ago. It was a few months after the tragic attacks of September 11. We felt there should be an independent citizen commission, nonpartisan, with full powers of subpoena and adequate resources to investigate how could September 11 have happened, because clearly the fact it did happen said we were not adequately protecting the American people. We were insistent that this kind of investigation occur so we could learn how to prevent it from ever happening again.

There have been roadblocks along the way, but we have continued to state, and we state again, we are not going to give up this fight until such an independent commission is created because we cannot rest until the truth and the whole truth, so help us God, as best as anyone is able to find it, is determined about September 11. Because without that unlimited, unvarnished, uninhibited truth, we are not going to be able to inform this new Department of Homeland Security adequately.

This measure of ours passed the Senate earlier this year when we were considering the Homeland Security measure. It passed overwhelmingly with bipartisan support. In fact, the so-called Gramm-Miller substitute incorporated this provision, which I was very grateful to Senator GRAMM and Senator MILLER for doing, and Senator MCCAIN was a great advocate for that cause.

In the substitute introduced by Senator THOMPSON, in coordination with the White House and the House, the commission proposal is not in it, and that is not acceptable. Senator MCCAIN has said happily we continue to negotiate with the White House up until this moment, hopeful that an agreement can be secured that will create the aggressive, independent, non-political commission this tragedy requires. But if it is not, and we have not reached an agreement yet, we are going to do everything we can to reinsert this commission into this Homeland Security bill where it belongs.

I think I can say for my friend from Arizona and myself if for some reason that does not work, we are going to keep introducing it wherever and whenever we think we can get a vote that will make it law. We owe this to the families of the September 11 victims.

I have met with them, as Senator MCCAIN has, several times. Their desire for this commission is in some ways the strongest and most compelling argument anyone can make on its behalf, because they asked us and they asked America, having lost loved ones, how could September 11 have happened? We owe them an answer to that question, and we have not given it to them yet.

As Senator MCCAIN said, the work by the Joint Intelligence Committee has revealed information, media investigations have revealed information, that only increases our understanding of how much more we need to know. The Senate coleaders of the Intelligence Committee, Senator GRAHAM and Senator SHELBY, are now strong supporters of this commission idea.

Going back to the families of the September 11 victims, I do want to say the persistent advocacy of these families, led by Steve Push, Kristen Breitweiser, Mary Fetchet, Beverly Eckert, and so many others, despite their great personal loss, has inspired not only my deep admiration but our continuing commitment to fight for this commission until it comes to fruition. We are not interested in pointing fingers. This is all about our common security, and improving it is our common responsibility.

I hope our colleagues will join us in supporting this amendment to the Homeland Security bill and restoring this provision to create an independent commission on September 11.

Mr. MCCAIN. Will the Senator yield?

Mr. LIEBERMAN. I yield to my friend.

Mr. MCCAIN. Will the Senator agree it is a bit surprising we have not been able to make greater progress on this commission since there was a recorded vote in the Senate of 90 to 8, and it was included in the Homeland Security bills prior to this latest iteration?

Again, I want to thank the White House for their active participation, but I hope that mandate would be felt by one and all. A 90-to-8 vote usually does not seem to have difficulty, at least from the Senate side, in becoming a part of legislation.

Interestingly, we do not find it in the Homeland Security bill. In the interest of straight talk, if there is a cloture vote and it is not in there at that time, then the amendment for a commission will fall because of nongermaneness, a situation which I do not think is really what was intended when we had a 90-to-8 vote on this issue in the Senate.

Mr. LIEBERMAN. The Senator from Arizona is quite right. He remembers the numbers exactly. It was a 90-to-8 vote—very strong bipartisan support for this idea. That support ought not be frustrated.

I have seen public opinion surveys that say it represents the desire and opinion, quite naturally, not just of the families of September 11 victims but of the American people. So while I join my friend from Arizona in expressing my gratitude that the White House has again today restarted negotiations to try to reach an agreement, I must say leaving this proposal for a commission out of this substitute that is now put in to create a Department of Homeland Security is inexplicable. I hope we can explain it by either putting it back in or coming to an agreement with the White House. It is that critical.

Mr. MCCAIN. Will the Senator yield for one more question?

Mr. LIEBERMAN. I would be glad to.

Mr. MCCAIN. Is it not true, from conversations with the families, that the families do not want this commission created by executive order because then it would not have the input of the legislative branch? And second of all, that other commissions in the past have all been created by acts of Congress, not by executive order? Is that the Senator's understanding?

Mr. LIEBERMAN. The Senator from Arizona again is correct. There have been some commissions created by other bodies. But the ones in the most important cases have been created by Congress. On the first point, which is a powerful point, it is the clear desire of the families of the victims of September 11 that this commission be created by Congress. We ought to create it. This was a national catastrophe.

As we create a Department of Homeland Security to protect the American people from that ever happening again, we ought to, as the representatives of all the people of this country, all of them in this terrible new era we have entered, potentially victims of terrorism—we, as their representatives, ought to say loudly and together, hopefully together with the administration, we can never know too much about how September 11 happened. We do not know enough now how September 11 happened. The one best way to know as much as we can of the truth about September 11 is to create a strong, non-political commission with full resources and powers of subpoena to get to the truth.

The day for this commission will come. The arguments for it are irresistible. Let us hope that day is sooner than later. I thank my friend from Arizona for his persistence and advocacy. Also, it is an honor to work with him. We will stand shoulder to shoulder with a lot of other Members, of both parties, of this body to get this commission created.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CLINTON). Without objection, it is so ordered.

#### MORNING BUSINESS

Mr. DURBIN. Madam President, I ask unanimous consent that there be a period for morning business with Senators permitted to speak therein for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE CONFIRMATION OF JOHNNY MACK BROWN TO BE UNITED STATES MARSHAL FOR THE DISTRICT OF SOUTH CAROLINA

Mr. THURMOND. Mr. President, I am pleased that the Senate has confirmed Johnny Mack Brown to be United States Marshal for the District of South Carolina. Johnny Mack Brown is a man of outstanding character and is highly qualified to serve as a United States Marshal. He will serve our Nation well.

Johnny Mack has over 30 years' experience in law enforcement. In 1966, he went to work for the South Carolina Department of Probation, Parole & Pardon, serving as a probation officer. From there, he joined the Thirteenth Circuit Solicitor's Office and worked as an investigator for four years.

Mr. Brown's success soon provided him with opportunities to showcase his substantial leadership skills. In 1973, he became the director of the Municipal Offender Program at the Greenville City Municipal Court in Greenville, SC. From 1974 to 1976, he served as Director of the Pre-Trial Diversion Program in the Thirteenth Circuit Solicitor's Office.

After his time at the Solicitor's office, Johnny Mack decided to run for office himself. He was elected in 1976 as the Sheriff of Greenville County, SC. He was subsequently re-elected five times and served a total of 24 years as Greenville's beloved sheriff.

As sheriff, Johnny Mack Brown served with distinction. He proved himself to be a strong leader, and it is no wonder that he was elected to a total of six terms. There is no doubt that Johnny Mack Brown's constituents felt secure with him as their sheriff. The voters' repeated endorsement of Johnny Mack is a tribute to his skill and professionalism.

During his time as sheriff, Johnny Mack contributed to the State and national law enforcement community in various ways. For example, he has written numerous articles for law enforcement publications. These writings have dealt with topics such as the professionalizing of sheriff's offices, the use of information technologies, and the implementation of community programs for crime prevention.

Mr. Brown has also served in prominent leadership positions at both the state and national levels. In 1983, he served as President of the South Caro-

lina Sheriffs' Association. Ten years later, he was elected President of the National Sheriff's Association. Johnny Mack's selection to these prestigious positions is a testament to his capacity to lead others.

Johnny Mack Brown has also been the recipient of numerous awards. In 1990, the Lion's Club of Greenville awarded Johnny Mack the Distinguished Citizen Award, and in 1998, the Blue Ridge Council of the Boy Scouts of America awarded him another Distinguished Citizen Award. In 1999, the Pleasantburg Lion's Club named him as its Citizen of the Year. Johnny Mack Brown is also a 1993 recipient of the Order of the Palmetto, South Carolina's highest civilian award.

Johnny Mack Brown's law enforcement credentials and his leadership skills will serve him well as United States Marshal in the District of South Carolina. He is truly a deserving man who has striven to serve the public with honor and integrity for many years. He will be a very successful United States Marshal, and I am proud to see him confirmed.

#### TRIBUTE TO JESSE HELMS

Mr. CONRAD. Madam President, I take this opportunity to recognize the distinguished career of one of our retiring colleagues, the senior Senator from North Carolina, Senator HELMS.

Senator HELMS began his service in the U.S. Senate in January of 1973. When he retires at the end of this year, at the conclusion of his fifth term, he will have served the public as a U.S. Senator for a full 30 years. Those of us who have had the privilege of being a member of this institution understand well the commitment, hard work, dedication, and personal sacrifice that make such a record possible.

Senator HELMS' lengthy career in the Senate actually represented the continuation of an already notable and varied public life that included, among other things, service in the U.S. Navy from 1942 to 1945, senior staff positions under two U.S. Senators, two terms on the Raleigh, NC, City Council, and a host of leadership positions with civic, business, and educational organizations.

During our time in the Senate, I have come to know Senator HELMS best as a fellow member of the Committee on Agriculture, Nutrition, and Forestry. While on the Committee, he proved to be an outspoken and vigorous defender of those commodities, such as peanuts and tobacco, that are important to North Carolina's vital agricultural sector. But he has also shown himself to be a leader for all of U.S. agriculture, as when he chaired the Agriculture Committee during the period when Congress wrote the Food Security Act of 1985, otherwise known as the 1985 farm bill. That legislation is recognized even today for its groundbreaking commitment to keeping U.S. agriculture competitive in the

international marketplace through such programs as the Export Enhancement Program and the Targeted Export Assistance program—now the Market Access Program—and for its landmark provisions in support of natural resource conservation, such as the Conservation Reserve Program.

When I think of Senator HELMS as a person, two characteristics stand out. First and foremost, I think of him as a gentleman always, one who gives current meaning to an old-fashioned term: courtly. Refined in his manners and respectful toward others, he brings a Southern charm and grace to all that he does, and a civility to political discourse that sadly is too often lacking today.

Second, he has displayed even in the twilight of his career an openness and a tolerance toward others who hold views that he may not always have shared. In that respect, he has displayed a capacity for growth and understanding that should serve as an inspiration to the rest of us.

I know that I am joined by all of my colleagues in wishing Senator HELMS and his wife Dorothy a long restful, and fulfilling retirement together in North Carolina.

#### PASSAGE OF S. 1868

Mr. BIDEN. Madam President, I am pleased the Senate passed S. 1868 by unanimous consent on October 17, along with a Biden-Thurmond substitute. Enactment of this measure will make our children safer, and I rise today to explain several of the bill's provisions.

Today, 87 million of our children are involved in activities provided by child and youth organizations which depend heavily on volunteers to deliver their services. Millions more elderly and disabled adults are served by public and private service organizations. Organizations across the country, like the Boys and Girls Clubs, often rely solely on volunteers to make these safe havens for kids a place where they can learn. The Boys and Girls Clubs and others don't just provide services to kids, their work reverberates throughout our communities, as the after-school programs they provide help keep kids out of trouble. This is juvenile crime prevention at its best, and I salute the volunteers who help make these programs work.

Unfortunately, some of these volunteers and employees come to their jobs with less than the best of intentions. According to the National Mentoring Partnership, incidents of child sexual abuse in child care settings, foster homes and schools ranges from 1 to 7 percent. Organizations have tried to weed out bad apples, and today most conduct background checks on applicants who seek to work with children. Unfortunately, these checks can often take months to complete, can be expensive, and many organizations do not have access to the FBI's national fingerprint database. These time delays

and scope limitations are dangerous: a prospective volunteer could pass a name-based background check in one State, only to have a past felony committed in another jurisdiction go undetected.

The intent of S. 1868 and the substitute, the Biden-Thurmond National Child Protection and Volunteers for Children Improvement Act, are to streamline the process for organizations to check the backgrounds of potential volunteers and employees. A review of the statutory background in this area is appropriate.

Effective December 20, 1993, the National Child Protection Act, "NCPA," P.L. 103-209, encouraged States to adopt legislation to authorize a national criminal history background check to determine an employee's or volunteer's fitness to care for the safety and well-being of children. On September 13, 1994, the Violent Crime Control and Law Enforcement Act of 1994, P.L. 103-322, expanded the scope of the NCPA to include the elderly and individuals with disabilities.

As envisioned by Congress, the NCPA was to encourage States to have in effect national background check procedures that enable a "qualified entity" to determine whether an individual applicant is fit to care for the safety and well-being of children, the elderly, or individuals with disabilities. The procedures permit this entity to ask an authorized State agency to request that the Attorney General run a nationwide criminal history background check on an applicant provider. "Qualified entity" is defined at 42 U.S.C. 5119c as "a business or organization, whether public, private, for-profit, not-for-profit, or voluntary, that provides care or care placement services, including a business or organization that licenses or certifies others to provide care or care placement services....". The authorized agency should access and review State and Federal criminal history records through the national criminal history background check system and make reasonable efforts to respond to an inquiry within 15 business days.

Congress addressed this issue again in 1998 through enactment of the Volunteers for Children Act, Sections 221 and 222 of P.L. 105-251, "VCA". The VCA amended the NCPA to permit child care, elder care, and volunteer organizations to request background checks through State agencies in the absence of state laws implementing the NCPA.

Thus, the NCPA, as amended by the VCA, authorizes national fingerprint-based criminal history background checks of volunteers and employees, including applicants for employment, of qualified entities who provide care for children, the elderly, or individuals with disabilities, and those who have unsupervised access to such populations, regardless of employment or volunteer status, for the purpose of determining whether they have been con-

victed of crimes that bear upon their fitness to have responsibility for the safety and well-being of children, the elderly, or individuals with disabilities.

Two years ago, organizations seeking to conduct background checks on their employees and volunteers made me aware of serious problems with the current background check system, problems that were jeopardizing the safety of children. Groups like the Boys and Girls Clubs of America alerted me that, despite the authorities provided in the NCPA and the VCA, national check requests were often delayed, in some jurisdictions they were never processed, and that the prohibitive costs of some of these checks were discouraging entities from seeking the reviews.

Under current law, whether they want a State or national criminal background check, organizations must apply through their state-authorized agency. The State agency then performs the State check and forwards the request to the FBI for a national check. The FBI responds back to the State agency, which then forwards the information back to the volunteer organization. In Delaware, the State Police Bureau of Identification works with groups to fingerprint prospective workers and check their backgrounds.

A patchwork of statutes and regulations govern background checks at the State level; there are currently over 1,200 State statutes concerning criminal record checks. This has led to widely different situations in each State: different agencies are authorized to perform the checks for different types of organizations, distinct forms and information are required, and the results are returned in various formats that can be difficult to interpret. States have not been consistent in their interpretation of the NCPA and VCA. Put simply, the current system is extremely cumbersome, particularly for those organizations that must check criminal records in multiple States, and for those groups employing seasonal workers, such as summer camps, for whom time is of the essence when seeking the results of background checks.

After careful study of this issue it became clear to me that the concerns of groups such as the National mentoring Partnership and the Boys and Girls Clubs are not merely anecdotal. In 1998, the FBI's Criminal Justice Information Services, "CJIS", Division performed an analysis of fingerprints submitted for civil applicant purposes. CJIS found that the average transmission time from the point of fingerprint to the State bureau was 51.0 days, and from the State bureau to the FBI was another 66.6 days, for a total of 117.6 days from fingerprinting to receipt by the FBI. The worst performing jurisdiction took 544.8 days from fingerprinting to receipt by the FBI. In a survey conducted by the National mentoring Partnership, mentoring organizations on average waited 6 weeks for the results of a national criminal background check to be returned.

The danger these delays pose to mentoring groups and others cannot be overstated. Suppose a group seeks to hire a volunteer who grew up in a neighboring jurisdiction to work with children. The group has the volunteer fingerprinted at their local police department, forwards those prints along to the agency designated by State statute or procedure to receive such requests, and then waits for the national results. FBI data indicates they will wait close to four months, on average, for the final results of the background check. That's too long. It forces groups to choose between taking a risk on someone's background, not making the hire at all, or seeking out only candidates from their jurisdiction for whom a full national background check may not be necessary.

Delay is not the only problem with the current system. The NCPA/VCA caps the fees the FBI can charge for national background checks at \$24 for employees. For State fees, the NMCPA/VCA requires States to "establish fee systems that insure that fees to non-profit entities for background checks do not discourage volunteers from participating in child care programs." In a survey of mentoring organizations, the National mentoring Partnership found that organizations were paying on average \$10 for a State records check, plus the fee for a national check. For organizations utilizing hundreds of volunteers and employees, the costs of conducting through background checks can be exorbitant. Small, community-based organizations with limited funding often must choose between funding services to children or checking the criminal history records of prospective volunteers.

In an attempt at addressing some of these concerns with the current NCPA/VCA system, at the conclusion of the 106th Congress I introduced S. 3252. I reintroduced the same bill as S. 1868 in this Congress, and I am proud to have Senator THURMOND as a cosponsor. As introduced, S. 1868 would have permitted qualified entities like the Boys and Girls Clubs to apply to a clearinghouse within the Justice Department for national criminal history background checks. Checks would have been affordable and results would have been quickly returned to the qualified entities. The Judiciary Committee took up and passed the bill, along with a Biden/Thurmond/DeWine amendment in the nature of a substitute.

On June 18, 2002, the Justice Department sent me a letter outlining their views on the legislation as reported by the Committee. In its letter, the Department noted that the bill's goal of providing effective, efficient national criminal history background checks will "help to protect children and other vulnerable segments of the nation's population, [and will] promote volunteerism in the United States, which is one of the President's priorities."

The Department went on to raise several concerns with the legislation.

First, they noted that the funds authorized by the bill to perform the checks and operate a new clearinghouse within the Department may be prohibitive. The Biden-Thurmond substitute the Senate considers today addresses those concerns. In a change from the measure reported by the committee, the substitute authorizes the Attorney General to charge a modest fee \$5 for volunteer checks. In addition, the substitute dramatically scales back the duties of the clearinghouse, now labeled the "Office for Volunteer and Provider Screening." Where the bill as reported charged the clearinghouse with developing model fitness standards and applying standards against each applicant utilizing the resources of the clearinghouse, the version we consider today eliminates this fitness determination requirement. While I still feel it would be preferable for the Department to assist qualified entities in making these fitness determinations, the substitute provides that model standards will be developed and envisions qualified entities then using these standards to make their own fitness determinations. S. 1868 as reported by committee authorized \$180 million over five years to cover the costs of volunteer checks and to establish the clearinghouse. The vision we consider today has scaled this authorization back to \$100 million.

Second, the Department expressed concerns with language in S. 1868, added in Committee at the behest of Senator DEWINE and drawn directly from his S. 1830, which made amendments to the National Criminal History Access Act Child Protection Act. There is a difference of opinion between the Justice Department and SEARCH, a group created by the States to improve the criminal justice system and the quality of justice, as to the impact of this language. Resolution has not been reached on the matter, and because I do not believe the issue raised by language drawn from S. 1830 to be directly related to the issue at hand of providing quick and effective background check results to qualified entities, the substitute the Senate considers today deletes the language objected to by the Justice Department.

Third, the Department expressed administrative and constitutional concerns with the makeup and operations of the clearinghouse described in the bill reported out of Committee. I have reviewed the Department's concerns and find them to be valid. The language objected to by the Department is not a part of the substitute amendment considered today.

Since introduction of S. 1868, through the Committee markup process, and stemming from extensive discussions regarding this measure over the past several months, I have agreed to modify the impact of the bill in several critical ways. Raised first in Committee by Senator DEWINE, and then later by SEARCH and other groups, arguments were made to me that S. 1868

could unintentionally undercut the work done in many States to process background check requests. Senator DEWINE rightfully pointed out to me that in some States, the system that the Congress put in place after enactment of the National Child Protection Act in 1993 and the Volunteers for Children Act in 1998 is working. In those cases, we should not uproot a system that is effective. The substitute we consider today acknowledges this concern. Upon enactment, the clock will toll on a one-year period during which the Attorney General will review the extent to which States have participated in the NCPA/VCA system. At the conclusion of that one year period, the Attorney General is charged with designating states as having "qualified state programs". The substitute lays out several objective criteria designed to guide the Attorney General's decision. States that are quickly, cheaply, and reliably processing background checks will be recognized as having a "qualified State program" by the Attorney General and will continue to process background check requests as under current law. But if the Attorney General determines that a State does not have a qualified State program, based upon the criteria delineated in the version of S. 1868 we consider today, qualified entities in those jurisdictions are permitted to apply directly to the Justice Department for background checks. This legislation thus creates a separate track for qualified entities seeking national criminal history background checks. This track will only be available, however, to qualified entities doing business in States without a qualified State program, as determined by the Attorney General.

A concern has been raised during drafting of this measure that the substitute does not give the Attorney General the discretion to label a State's program as qualified for one category of qualified entities, but not qualified for another. The intention of the authors of S. 1868 is to give the Attorney General that discretion. The language of the substitute considered by the Senate today does not require the Attorney General to make a blanket determination for a State's entire universe of qualified entities. The substitute should be interpreted by the Attorney General to permit States to be qualified for some categories of qualified entities but not all categories if necessary.

Other provisions of the version of S. 1868 we consider today deserve mention. SEARCH and others have suggested to me that one of the main impediments States face in fully implementing the NCPA/VCA is that current law does not authorize the Attorney General and States to deliver criminal history records information directly to qualified entities. S. 1868 changes this and makes clear that the Attorney General and States may provide this information to qualified entities should they desire to do so.

Also, we have authorized in this measure grants to the States so they can purchase so-called Live-Scan fingerprint technology. These devices permit prints to be electronically transmitted, obviating the need for fingerprint cards. Wide dissemination of this technology would facilitate nationwide background checks, and I am hopeful this grant program will be adequately funded so that this equipment can be installed throughout the country.

I would like to thank Robbie Callaway and Steve Salem of the Boys and Girls Clubs of America, Margo Pedrosa of the National Mentoring Partnership, and Abby Shannon of the National Center for Missing and Exploited Children for their tireless advocacy on behalf of S. 1868. Captain David Deputy of the Delaware State Police and Director of Delaware's State Bureau of Identification offered invaluable comments throughout the drafting of this measure, and I thank him for his assistance. Thanks also to Bob Belair, General Counsel of SEARCH, for his helpful suggestions. I would like to pay a special tribute to Senator THURMOND, as well as to his Judiciary Committee counsel Scott Frick, for their dedication to this bill. I appreciate the assistance of Chairman LEAHY and Senator HATCH for agreeing to report S. 1868 out of Committee last spring. I am also appreciative of the efforts made by Senator DEWINE and his staff to move this legislation along. Finally, I thank Congressman MARK FOLEY, the author of the Volunteers for Children Act, as well as Elizabeth Nicolson and Bradley Schreiber of his staff, for agreeing to introduce this legislation as H.R. 5556 in the other body.

I remain hopeful that S. 1868 can be taken up by the other body and sent to the President for signature this year.

#### LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Madam President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred October 11, 2001 in College Park, MD. Around 1 p.m. on National Coming Out Day, a 22 year-old woman wearing gay-supportive pins was hanging her bicycle on her car rack when a man approached her from behind and struck her on the back of the head, pushing her head into the rack and knocking her to the ground. The assailant kicked her several times and hurled anti-gay epithets, according to police. The victim was treated at the university health center for injuries sustained during the attack.

I believe that Government's first duty is to defend its citizens, to defend them against the harms that come out

of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

#### VETERANS DAY

Mr. KERRY. Madam President, on Monday I was privileged to stand with thousands upon thousands of veterans and their families who traveled to Washington to visit the Vietnam Wall for its 20th anniversary, to reconnect with those with whom we had served, and above all to honor our fallen brothers and sisters.

These veterans, some of whom traveled for days and all at their own expense, proved something I think every American knows deep down in their heart—something that cuts to the quick of what we as Americans stand for—that part of being an American means keeping faith with our citizens and those heroes who gave so much to our country. That responsibility extends to those of us who have the honor to serve here in the Chambers of Congress.

Today, my friends, after another Veterans Day where words of praise for America's veterans were spoken, at a time when it is an increasingly real possibility that more Americans will be sent into harm's way for their Nation, we must keep faith—in deeds and not just words—with the veterans of our country. We must do the duty we were sent here to do, as they did their duty wearing the uniform of our country.

Because of a 111 year-old law, when our soldiers have returned from combat wounded, debilitated by illness, missing limbs, confined to wheelchairs—disabled for life these veterans have been told that their retired pay would be reduced dollar-for-dollar for any VA disability benefits they received. Yesterday the House and Senate reached a compromise on the issue of concurrent receipt in the National Defense Authorization Act. The authorization act has been held up for weeks because the administration has threatened a veto if concurrent receipt language was included in this bill. The compromise that was reached yesterday begins to correct the injustice created by this archaic law but it does not go nearly far enough.

The compromise language applies only to veterans injured during combat, combat-oriented training, or certain other hazardous activities, with a disability rating of 60 percent or greater, and those with a rating of at least 10 percent if they received a Purple Heart. This compromise leaves a bitter taste in the mouths of anyone who believes we have a faith to keep with our veterans. On October 10, the House passed overwhelmingly a motion to instruct their conferees to accept the far more comprehensive Senate-passed concurrent receipt language—which

would have provided all disabled veterans the full amount of their disability benefits and their retirement pay. There is strong bipartisan support for full concurrent receipt in both Chambers of Congress, yet because of the considerable pressure from this administration we have been forced to accept a compromise that will leave hundreds of thousands of our veterans behind.

I cannot believe that this administration is willing to tell a veteran who, through service to his country, has suffered an injury leaving him 50 percent disabled, that he is not entitled to both disability compensation and retirement pay earned for 20 years of service. Military retirees are the only category of federal employees who are required to relinquish a portion of their retirement pay when they receive VA disability benefits. Not only does this practice unjustly penalize our disabled career soldiers—it weakens our military by effectively encouraging injured servicemembers to leave the military early in their careers. We have been working for years to right this wrong. This change in law is a beginning, but much remains to be done.

The issue of compensation for our disabled veterans is only one aspect of a much larger problem—we are failing to meet our promises to the people who have so courageously served our country. Nothing punctuates this fact more than the ongoing financial crisis facing the veterans health care system.

We must address simple mathematics. From 1996 to the present, the number of veterans seeking health care from the VA has grown from 2.9 million to 4.5 million, while the VA's health care staff has decreased from 195,000 to 183,000—forcing many veterans to wait 6 months or longer for care. But this administration's continued refusal to fully fund our VA has done nothing to help them hire new staff, let alone offer better care to our Nation's veterans.

The overall thrust of their approach to this funding crisis has been to push reforms aimed at reducing enrollment in the veterans health system rather than providing the funds necessary to ensure that every veteran gets the best health care we have to offer. Even VA Secretary Principi identified a \$400 million shortfall in the fiscal year 2002 budget of the VA health care system. But the administration requested only \$142 million to compensate for this shortfall, and plans to make up much of the remainder of the shortfall by imposing "efficiencies" on a system that's already reached a crashing point.

In July Congress passed \$417 million for veterans health care as part of the fiscal year 2002 emergency supplemental—to reduce waiting times for health care, keep clinics open, and establish new Community Based Out-patient Clinics. But in August the President blocked \$275 million of the amount provided by Congress, announcing the administration would

only spend the \$142 million it requested for VA health care.

This is not the way to keep faith with our veterans. They are aging and in need of medicine and health care, they are sitting in our waiting rooms, and struggling to pay hefty bills and still afford rent and food. Many are homeless—in fact, nearly one quarter of all homeless Americans are veterans. By any measure, we are not doing enough for those who have done so much for us.

That is why I am asking the Congress to provide full funding for veterans medical care in the fiscal year 2003 VA/ HUD Appropriations bill. The committee reported bills in the Senate and House both provide \$25.3 billion for the VA health system, an increase of \$3.3 billion over the fiscal year 2002 level, and \$1.8 billion more than the administration's request for 2003.

Because we are not doing enough for our veterans, I am asking the Senate to reject the President's proposed \$1,500 health care deductible for Priority 7 veterans included in his fiscal year 2003 VA/ HUD budget. So far the House and the Senate have rejected the President's request to include this deductible in the VA/ HUD Appropriations bill.

I am also asking this body to join me in urging the administration to rescind the VA memo dated July 18, 2002 that ordered the directors of every veterans health care network in the country to cease outreach activities such as health fairs, open houses, newsletters, and public service announcements.

And I ask the Senate to call on the VA to rescind its new regulations which require the rationing of health care. These regulations—which give priority for health care to veterans with service-connected conditions, without taking into account the medical needs of patients—could add to the VA's red tape, making the already long waiting times at many VA facilities even longer.

I believe it is also important the Senate join in supporting Senator JOHNSON's Veterans Health Care Funding Guarantee Act, which would assure adequate funding of these important priorities.

Regrettably, this administration has launched an assault on Priority 7 veterans, those who lack a service-connected disability and whose income is higher than the current VA eligibility standard—\$24,500 for a single person. Priority 7 veterans have grown from 2 percent of VA patients in 1995 to about 33 percent currently—a total of 1.6 million veterans. Although this increase coincides with the 1996 law that changed the VA's eligibility system, veterans have turned to the VA mainly because they have nowhere else to go for affordable prescription drugs. These are the same people who would benefit most from a Medicare prescription drug benefit—their incomes are too high for Medicaid, but too low to handle the health system's growing reliance on expensive prescription drugs.

Where are our priorities when we are content with not passing a prescription benefit plan for our seniors—including these honorable men and women—and then say that we will not fight for adequate funding for our VA hospitals? I find these misplaced priorities disturbing and I think it high time we finally did something about it.

We should remember the words of George Washington: "The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional to how they perceive the veterans of earlier wars were treated and appreciated by their nation." Today, after one of the most meaningful days in our year, it is time for us to show our commitment to our veterans and, by doing so, show our soldiers that their service means something to this country and to this government—that we won't just send them into harms way and forget about them when they come home. We will remember their service and always keep faith.

#### AMERICA'S POWER

Mr. SESSIONS. Madam President, I join my colleagues today to commemorate September 11, 2002, and the Special Joint Session of Congress held in New York City. Americans are a generous people, with both our time and our money. We are a people committed to our religious beliefs. We are a people who place great value on education and the individual. We seek opportunity at every turn for our children, and we strive to take care of those who are elderly, infirm, and less fortunate.

We are also a people who take great pride in the protections we collectively offer one another through a common defense. We wear most humbly the mantle of "Super Power."

Last September 11, our collective vulnerability in securing the borders of our nation was made known to all. In those initial chaotic hours, we watched the opening battle of what is now called the "War on Terror."

Like many states, Alabama lost sons and daughters that day. Indeed, five Alabamians died in the Pentagon. Families were broken and great symbols of our might and entrepreneurial achievement made waste. We felt, and I believe we still feel, a collective pain in our hearts that will never heal. But the world has witnessed the development of a new resolve among Americans. A resolve too quiet for too long.

In the past year, we have taken a long and hard look at our defense posture. We have found great problems that must be fixed. We have found strength. We have committed our uniformed services to battle, and we must give our President tools and the authority to get the job done.

Nearly a year has elapsed. Our emotions still run high.

America is demanding much from itself and its governmental leaders. The creation of the Department of

Homeland Security has resulted in a vigorous and healthy debate and a strong interest in making our homeland safer and improving our intelligence gathering capabilities.

Fundamentally, the homeland defense debate is about change. Specifically, it is about protection of American citizens.

I am proud of this country and how we have reacted. Everything has not been perfect, but great progress has been made. Noted columnist Mr. Charles Krauthammer recently wrote, "National character does not change in a day. September 11 did not alter the American character, it merely revealed it." I could not agree more.

The American character displayed "courage, resolve, resourcefulness and above all resilience" Krauthammer wrote and I agree. We are a great power and indeed a super power.

We are a nation that believes in freedom and progress and are forgiving and slow to anger, but when aroused we have proven once again we can be a terrible force.

Our President is leading us with strength and resolve. Homeland defense is but a part—an important part—of that resolve. Foreign policy initiatives, social policy changes and prosecution of the War on Terror are other aspects as well. Of the latter, winning is no simple matter. Patience, superior planning, and the support of the military are all required to complete the tasks which lie ahead.

The nation has met the challenge this year. Now we must work hard as the memories of the horror of September 11 fade, to finish the job of making our homeland safe and ensuring that our magnificent military continues to expand its capabilities and world leadership. We must not sleep.

#### CLARENCE MILLER POST OFFICE

Mr. VOINOVICH. Madam President, I speak today on behalf of a bill considered by the Senate, H.R. 4755, to designate a post office in Lancaster, OH, as the "Clarence Miller Post Office Building." I strongly support this bill honoring a long-time Member of the Ohio Congressional delegation.

Clarence Miller is a native and life-long resident of Lancaster, OH. The third of six children, Clarence grew up during the difficult times of the Great Depression. He learned the value of hard work at an early age and began his professional life by delivering newspapers for the Lancaster Eagle Gazette. After graduating from high school, he started his career at Ohio Fuel and Gas digging ditches. Through determination and hard work he eventually earned a position of electrical engineer. While employed full time at Ohio Fuel, he joined his family in opening a small electric wiring business in Lancaster and worked there during his "off" hours.

At Ohio Fuel, Clarence was introduced to politics when he participated

in a civics course offered to help employees better understand government. Clarence was enthralled by the subject and soon began teaching the course.

He was able to put into practice all he learned when he was appointed to fill a vacancy on the Lancaster City Council. Subsequently, he was elected to a full term and then was elected mayor. Following his term as mayor, Clarence served the people of 10th District of Ohio in the U.S. House of Representatives for 27 years, from 1966–1993. Representative Miller served for 6 years on the House Agriculture Committee and the Public Works and Transportation Committee, and then he was selected to serve on the Appropriations Committee, where he served for 20 years, and fought hard to reduce Federal spending during times of skyrocketing deficits.

Mr. Miller's achievements did not go unrecognized by his fellow Ohioans. His many awards include honorary doctorate degrees from Marietta College and Rio Grande College, and the Phillips Medal of Public Service from Ohio University.

I thank my colleagues for their consideration of this matter important to the people of Ohio.

#### ADDITIONAL STATEMENTS

##### CHANDLER RAYMOND KELLER: IN MEMORIAM

• Mrs. BOXER. Mr. President, I take this opportunity to share with my colleagues the memory of one of my constituents, Chandler Keller, of Manhattan Beach, California, who lost his life on September 11, 2001. He was a passenger on American Airlines Flight 77. As we all know, that plane crashed into the Pentagon, killing everyone on board. Mr. Keller was a 29 year-old lead propulsion engineer and project manager with Boeing Satellite Systems in El Segundo, California.

Chandler Keller was known to his family and friends as "Chad". He was born in Manhattan Beach, California. Chad mostly grew up there, with the exception of some time spent in Hong Kong, New York and Sydney, Australia due to his father's work assignments with Security Pacific Corporation.

As a child, Chad enjoyed a great love of rocketry and an avid interest in space. As a young boy he had an innate ability to understand machines and how to make them work. In 1993, Chad graduated from the University of Colorado's aerospace engineering program and pursued his career at Hughes/Boeing, working in their satellite launching program.

Chad and his wife, Lisa Hurley Keller, were married on July 22, 2000 at the Old Mission in Santa Barbara. During their brief time together Chad and Lisa enjoyed travel, outdoor activities, and most of all, being with one another.

Chad Keller enjoyed surfing, skiing and snowboarding. He loved to cook

and possessed a wonderful sense of humor. "He had the ability to bond with people, and he touched many lives during his short life. He lived his life to its fullest," says his father, Dick Keller.

In celebration of his life, the Keller family established the Chandler Keller Memorial Scholarship at the University of Colorado. It is to be awarded to well-rounded aerospace engineering students. Chad was posthumously awarded the Defense of Freedom medal for his work with the Department of Defense in conjunction with Boeing Satellite Systems.

Chad Keller is survived by his wife, Lisa Hurley Keller; parents Kathy and Dick Keller; brothers Brandon and Gavin; mother-in-law and father-in-law Shirley Ann and Jim Hurley; and brother-in-law James Hurley.

Mr. President, none of us is untouched by the terror of September 11th, and many Californians were part of each tragic moment of that tragic day. Some were trapped in the World Trade Center towers. Some were at work in the Pentagon. And the fates of some were sealed as they boarded planes bound for San Francisco or Los Angeles.

I offer this tribute to one of the 54 Californians who perished on that awful morning. I want to assure the family of Chad Keller, and the families of all the victims, that their fathers and mothers, sons and daughters, aunts, uncles, brothers and sisters will not be forgotten.●

#### DINO XAVIER SUAREZ RAMIREZ: IN MEMORIAM

● Mrs. BOXER. Mr. President, I take this opportunity to share with my colleagues the memory of one of my constituents, Dino Xavier Suarez Ramirez, who lost his life on September 11, 2001. Mr. Ramirez was a 41-year-old civil engineer returning to Los Angeles from vacation when the flight he was on, American Airlines Flight 11, was hijacked by terrorists. As we all know, that plane crashed into the World Trade Center, killing everyone on board.

Xavier Ramirez was born in Guayaquil, Ecuador and completed his primary and secondary education there, receiving certification in mathematics, physics, chemistry and biology. Mr. Ramirez achieved his goal of becoming a civil engineer by working during the day and completing his university studies at night. He majored in civil engineering at the University Laica Vicenete Rocafuerte de Guayaquil. "He was very intelligent, and his hobby was reading. He knew very much about the history of nations because of his reading," recalls his mother, Blanca Vilma Ramirez.

Upon coming to this country, Mr. Ramirez worked to have his degree recognized here. In his native country of Ecuador he worked in the construction of roads. His mother further recalls that,

"He worked very hard and was not afraid of any kind of job, wanting only to go beyond himself in what he did." Xavier Ramirez is survived by his mother, Blanca and his brother, Klinger David Suarez Ramirez.

#### JOHN D. YAMNICKY, SR.: IN MEMORIAM

● Mrs. BOXER. Mr. President, I take this opportunity to share with the Senate the memory of Captain John D. Yamnicky, Sr., of Waldorf, Maryland, who lost his life on September 11, 2001. He was a passenger on American Airlines Flight 77. As we all know, that flight was hijacked by terrorists and crashed into the Pentagon, killing everyone on board. Captain Yamnicky was a 71-year-old retired naval aviator who, since his retirement from the United States Navy in 1979, continued to work as a defense contractor for Veridian Engineering.

Captain Yamnicky was a gentleman and a scholar. He graduated from the Naval Academy in 1952, and devoted a 26-year career in service to this country. He served a combat tour in Korea and served two tours in Southeast Asia flying from aircraft carriers. He earned several military honors, including the Distinguished Flying Cross.

After graduating from the Naval Test Pilot School at Patuxent River, Maryland, in 1961, one of his first assignments was to determine the minimum acceptable airspeed for the A-4 aircraft after a catapult launch from an aircraft carrier. He was inducted into the Society of Experimental Test Pilots in recognition of his contributions. In 1963, after that honor, Captain Yamnicky reported to VA-146 at NAS in Lemoore, California.

Captain Yamnicky met his wife, Jann, while she was working as a nurse at Jacksonville Naval Hospital. They married in 1959 and had four children. Their son John David, of California, said of his father, "This guy was the head of the family, he made everyone feel safe. If he ever talked about accomplishing something, it was as a group or a team. He was a modest man."

Friend and colleague, Dennis Plautz, commented that, "John Yamnicky emphasized teamwork. His style was

never to leave a teammate straggling, rather work with them, help them, encourage them to maximize their potential."

He applied this attitude in all areas of his life, including his community contributions. Captain Yamnicky served on the Board of Directors at his daughter Lorraine's high school, St. Mary's Academy, was a member of the Knights of Columbus, and the Elks Lodge. He was proud of his volunteer contributions to the De La Brooke Foxhounds Hunt Club, where he and Jann were members for 25 years.

His best times were spent away from the office, riding on a tractor through the fields of his Waldorf horse farm. "He loved being out there. His nature was not to stand around. He was always out in the fields, always working on something," remembers his son, John.

Captain Yamnicky is survived by his wife Jann and their four children, John, Jr., Lorraine, Mark and Jennifer.

#### DOROTHY A. DEARAUJO: IN MEMORIAM

● Mrs. BOXER. Mr. President, I take this opportunity to share with my colleagues the memory of one of my constituents, Dorothy A. deAraujo, of Long Beach, California, who lost her life on September 11, 2001. Mrs. deAraujo was an 80-year-old retiree when the flight she was on, United Airlines Flight 175, was hijacked by terrorists. As we all know, that flight crashed into the World Trade Center killing everyone on board.

Mrs. deAraujo was returning to her home in Long Beach after enjoying a lengthy visit with her son, Joaquim ("Tim"), his wife Rita and their two sons, Jonathan and Jason in Bedford, Massachusetts.

Dorothy worked as an Executive Administrative Assistant in the business office of California State University, Long Beach for 20 years. She retired in 1979 and returned to the University as a student, earning her Bachelor's Degree in Fine Art. During her retirement, Mrs. deAraujo traveled extensively and pursued her passion for watercolor painting. She was a talented artist, and her paintings won several prizes in various competitions.

During the 1970's Dorothy successfully overcame breast cancer. She was active in her community and devoted her spare time to the American Cancer Society. She was especially involved in operating the American Cancer Society's Discovery Shop in Belmont Shore.

Mr. President, none of us is untouched by the terror of September 11th, and many Californians were part of each tragic moment of that tragic day. Some were trapped in the World Trade Center towers. #### ALAN BEAVEN: IN MEMORIAM

● Mrs. BOXER. Mr. President, I take this opportunity to share with my colleagues the memory of one of my constituents, Alan Beaven, who lost his life on September 11, 2001. Mr. Beaven was a 48-year-old environmental lawyer when the flight he was on, United Airlines Flight 93, was hijacked by terrorists. As we all know, that plane crashed in a Pennsylvania field, killing everyone on board.

Mr. Beaven was born in New Zealand and was educated at the University of Auckland, New Zealand where he was a recipient of the Butterworth Prize. He taught law and practiced in the areas of securities, class actions and environmental law in New Zealand, England, New York and California.

Considered one of our nation's leading environmental lawyers, over the past nine years Mr. Beaven prosecuted nearly 100 clean water cases. His law firm partner, Joe Tabbacco, observes, "This is an absolutely remarkable record. Alan's efforts had almost single-handedly cleaned up the waters in Northern California through his aggressive prosecutions."

California lost an environmental champion, and Mr. Beaven's family lost a loving and devoted husband and father. His proudest achievement was his family. His wife, Kimi Beaven, recalls, "He would do anything for his children and spent hour after hour reading to Sonali, playing ball with John and scuba diving with Chris."

Mr. Beaven was flying back to California to prosecute one more water pollution case before taking a sabbatical in India where he was to volunteer his services as an environmental lawyer. Alan Beaven was one of many heroes on Flight 93 who, aware of the terrorist attacks on the World Trade Center and the Pentagon, chose to fight back against the hijacking terrorists. His voice was recognized by his family on

the cockpit voice recorder, and his remains were found in the wreckage of the cockpit.

His son John perhaps describes Alan Beaven best when he writes, "His love for simplicity and genuine appreciation for the happiness he held within was not lost on others; friends would always leave his company with uplifted spirits."

Mr. President, none of us is untouched by the terror of September 11th, and many Californians were part of each tragic moment of that tragic day. Some were trapped in the World Trade Center towers. Some were at work in the Pentagon. And the fates of some were sealed as they boarded planes bound for San Francisco or Los Angeles.

#### TRIBUTE TO DOUG DENLER

● Mr. BURNS. Madam President, I rise today to ask my colleagues to join me in paying tribute to a dedicated member of the Montana Department of Fish, Wildlife and Parks, FWP, as he concludes over 30 years of service to his State and Nation. We are proud that much of this Montanan's working life has been dedicated to serving the citizens of and visitors to our great State.

Mr. Doug Denler deserves this honor. We owe our gratitude for his contributions to the conservation of Montana's wildlife and natural resources, as well as preserving the outdoor heritage in the Rocky Mountain west.

Doug Denler's personal and professional career accomplishments truly reflect the values of rural life under the big sky. His loyal service with our military forces, followed by public service in several Montana State agencies are a testament to all who find value in outdoor experiences. I would like to take a moment to reflect upon Doug's career as he embarks on a new phase of life beyond government service.

Doug was born and raised in Boise, ID and attended college at Montana State University in Bozeman. Following graduation he was commissioned as a Second Lieutenant in the U.S. Army and shortly thereafter received orders to join a unit deployed to South Viet Nam. During that assignment Doug was highly decorated for service in combat, receiving the Air Medal and Bronze Star. Subsequently he continued uniformed service, and having completed 10 years on active duty he then elected to resign his commission and move his family to Montana.

Doug's first job in State government was as human resource manager with the Department of Administration where he was instrumental in crafting

legislation to enable hiring temporary workers in State government. His approach for quickly and efficiently engaging short-term workers continues today as a foundation for many State agencies whose missions include part-time and seasonal tasks. He then spent two years at the Department of Highways before being selected in 1989 to be the Human Resource Bureau Chief at FWP.

Bringing diverse experience and unbounded enthusiasm to his assignment Doug embarked on innovative ventures in pay plans, safety, training, labor relations, recruitment, and retention. Among his first achievements was crafting a comprehensive Policy Manual that is now widely used by FWP managers and is an essential component of new employee orientation.

Turning his attention toward safe operating practices, he created an FWP statewide safety program that incorporated management oversight, documentation of mishap statistics and costs, and funding generated by savings from lowered accident rates. Demonstrating leadership ability and dedication, Doug volunteered to chair the new safety committee. A measure of his success is reflected in the fact that during the past three years FWP has twice received Governor's Award recognition for surpassing accident prevention goals.

In 1999 Doug took the lead to initiate an Alternative Pay Plan for the Department's employees. This effort required his team to analyze market data, establish performance standards, initiate agency wide competencies, and obtain funding. Among the first of such plans approved by the Legislature and implemented the next year, the pay plan in use at FWP today typifies Doug's tireless efforts to find common ground and craft sensible solutions for both management and rank and file employees.

Over the past year Doug stepped up yet again when asked to take on additional duties following the unexpected retirement of an executive manager. For eight months Doug served as the acting Chief of Administration and Finance. Along with performing his normal duties he provided oversight for a troubled \$8 million computer development project, assisted with the preparations for a special session of the Legislature, and finalized a \$62 million biennium budget.

Doug Denler is highly regarded among his peers and the public for his devotion to resource conservation and his unmatched appreciation for Montana's hunting and fishing lifestyle. Embracing the FWP mission both in and outside the office makes Doug a consummate professional, and his retirement will leave a gap in knowledge and ability that FWP will find difficult to replace.

It is a great honor for me to present these credentials of Doug Denler before the Senate today. It is clear through his many accomplishments that Doug

has dedicated himself to public service, in and out of uniform, and to further the many benefits we enjoy as Americans. His actions consistently reflect a true leader who has served with courage and commitment.

As Doug departs from public service I ask my colleagues to join with me in delivering an appreciative tribute from a grateful State and Nation, along with our best wishes for a rewarding retirement.●

#### TRIBUTE TO REX ROBLEY

● Mr. BUNNING. Madam President, I rise today among my fellow colleagues to honor and pay tribute to Kentucky's last surviving World War I veteran. Of the 84,000 Kentuckians who were sent to fight in World War I, Rex Robley, 91 years young from Louisville, KY, is believed to be the only one still alive. This man has sacrificed and accomplished so much in just one lifetime. He truly exemplifies the American spirit.

Monday, we as a Nation came together to celebrate Veterans Day. On this very important day, every American has the opportunity and the obligation to thank and honor those who so valiantly fought for our freedoms, rights and liberties in the trenches of France, the beaches of Normandy, the jungles of Korea and Vietnam and the deserts of Iraq. These men and women fought so that future generations would be able to live under a blanket of freedom that reaches from coast to coast.

Sadly, thousands of these veterans are dying off in large numbers every year. During the 1990s, the number of World War II veterans in Kentucky decreased by nearly 54,000. The Kentucky Department of Veteran Affairs calculates that, on an average day, Kentucky loses 22 military veterans, of whom 17 were in World War II. To ensure that this country continues to build and prosper, we must make a promise to ourselves to never forget the sacrifices these individuals have made. It is their memory that will guide us in the right direction.●

#### TRIBUTE TO BILL CAPPEL

● Mr. BUNNING. Madam President, I rise today to honor Bill Cappel of Covington, KY for his years of dedicated and selfless service to this nation and to the Commonwealth of Kentucky. Yesterday, Mr. Cappel celebrated his 90th birthday.

In honor of this event, city officials in Covington presented Mr. Cappel with a key to the city, read a proclamation in his honor and even provided him with a special police escort as they officially named the Bill Cappel Youth Sports Complex after him.

Bill Cappel is one of those rare individuals in life who has the innate ability to put a positive spin on every situation. The only thing harder than getting him out in a softball game is getting him to take that permanent smile

off his face. As a soldier in World War II, not only did Bill Cappel earn the Legion of Merit and the Bronze Star for his courageous military service, he also organized baseball and softball games for the soldiers while on tours of duty in Africa and Europe as a way for the men to escape the darkness that surrounds war. It is this type of service that has led many to think of Bill Cappel as a saint.

In 1933, Mr. Cappel organized a women's softball league in Covington as way to get more women involved in the sporting world. Nearly 30 years later, he founded the Covington Major Girls League at Meinken Field. Three of the teams from the Covington Major Girls League won national championships. Bill learned that when you treat people like champions, they play and act like champions.

Throughout his life, Bill Cappel has given much to his country and the people of Northern Kentucky. He has always found a way to give back to the local community. In his mind, his actions do not merit any sort of special attention. He is simply trying to do for others what they have done for him. Whether it has been as a soldier, umpire, coach, player or friend, Bill Cappel has managed to make the world around him a better place for people to live. It truly is amazing how the actions of one man could positively affect so many.

I believe we all can take something away from the life Bill Cappel has lived. In politics, we each took an oath to serve the people and uphold the Constitution of the United States of America. While Mr. Cappel never swore an oath, he has demonstrated to thousands of people how far the human spirit can travel.●

#### RETIREMENT OF DOCTOR IRVING GUTTENBERG

● Mr. DODD. Madam President, I rise today to honor a constituent of mine, Dr. Irving Guttenberg, on the occasion of his retirement.

For 35 years, Dr. Guttenberg has specialized in ear, nose, and throat medicine in Meriden, CT. Over the course of his career, he treated and cured virtually thousands of neighbors in Meriden and surrounding communities, gradually earning the trust and admiration of an entire region.

I had the pleasure of having Dr. Guttenberg's daughter, Lisa Guttenberg Weiss, on my Connecticut staff for many years. Last month, I was deeply touched by an affectionate letter Lisa wrote to the Meriden Record Journal describing her father's dedication to his patients and chosen profession. I would like that letter printed in the CONGRESSIONAL RECORD following my remarks.

I know that the people of Meriden and central Connecticut will truly miss Dr. Guttenberg. Once again, I commend Dr. Guttenberg on the occasion of his retirement, and I wish him success in all of his future endeavors.

The letter follows:

AN END OF AN ERA FOR DR. GUTTENBERG

It is with a sense of pride and a few tears that I write to mark the end of an era and the retirement of Dr. Irving Guttenberg, my father. With my mother's help, he opened his medical office, now known as Ear, Nose and Throat Specialists, P.C. in 1967 at 219 West Main Street in Meriden. He officially retired September 30.

I imagine he has treated at least half the people in town, not to mention Wallingford and Cheshire. I cannot even guess how many tonsils he has removed or strep throats and sinus infections he has treated. But, I know that he has performed well over 50,000 pressure-equalizing tubes procedures (because he told me so). I also know that he is greatly admired, if not beloved, by his patients. My knowledge comes from the school vacations I spent working in his offices when I would schedule patient appointments, often triple-booking his days because so many patients wanted to see "Dr. G". As a young girl and now as an adult in my late thirties, I have seen Dad's patients' come up to him at the movies, at restaurants, at the grocery store, everywhere to thank him for all his good work and kindness. People still come up to me and tell me how great and dedicated and smart my father is. I know and I agree.

My father has always taken his responsibilities for his patients seriously. Even after he purchased his first pager and cell phone, it seemed like he would not leave the house if he were "on call". Forget about going to the movies. Do not even think about asking him to change his schedule to go away for some occasion. If he was on call, he was staying home, close to the phone and close to the hospital.

When I was growing up, my father left early in the morning and returned home relatively late, often eating dinner well after the rest of the family had finished. During weekends Dad had early morning and late afternoon "rounds" at Meriden's two hospitals. Sometimes he brought my brother and me with him and we would wait for an eternity in the doctor's lounge or near the nurses' station. (We are rumored to have been wheelchair racers, but there is no proof.) Other times, when we awoke Mom told us that Dad went to the hospital in the middle of the night to operate on someone.

Now, after 35 years in practice and after having served as Chief of Surgery and Chief of Ear Nose and Throat (ENT) at WWII Veterans' Memorial Hospital and Chief of ENT at MidState Medical Center and as a clinical instructor at Yale School of Medicine, my father is retiring. I do not know what he will do next. He told me he would sleep for a week and then baby-sit for my kids. I think there is some talk about travel too. Was that Dad or was that Mom? Whatever they do, I hope they both enjoy Dad's retirement. It is well deserved. Best wishes from me and everyone who knows and appreciates you.

Your daughter,

#### BENEFICIARY ACCESS AND MEDICARE PAYMENT EQUITY

● Mr. NELSON of Nebraska. Madam President, today I urge the Senate to act on the Beneficiary Access and Medicare Payment Equity package before the end of the session. Nebraska's health care providers are hurting financially. They need help from Congress to stop these Medicare reimbursement cuts or many will not be able to provide treatment to Medicare patients. Our 40 million seniors who depend on the Medicare system for their

health care coverage need to know they have access to quality, affordable care. The bill addresses a number of Medicare inequities including cuts to hospitals, home health care providers, physical therapists, physicians, and skilled nursing facilities.

The Nebraska Hospital Association estimates that in this bill Nebraska hospitals would receive approximately \$56 million in additional revenue for one year and \$120 million over three years. The hospitals in my State need this funding to survive financially.

This legislation would have a tremendous impact on Nebraska's teaching hospitals. Teaching hospitals receive indirect medical education (IME) payments because they have higher patient care costs than non-teaching hospitals due to the extra costs incurred for teaching. The Balanced Budget Act, BBA, of 1997 cut these payments, and a provision in this bill would provide for additional relief. Nebraska has two academic medical centers—the University of Nebraska Medical Center and Creighton University Medical Center—and both would benefit from this legislation. Other hospitals in my State would also benefit including: Alegent Bergan Mercy in Omaha, Alegent Immanuel in Omaha, BryanLGH Medical Center in Lincoln, St. Elizabeth Regional Medical Center in Lincoln, Good Samaritan in Kearney, and St. Francis in Grand Island.

The legislation also increases the Federal Medicaid disproportionate share hospital, DSH, allotment in extremely low-DSH States, such as Nebraska, from 1 percent to 3 percent of program costs. Even though the allotment percentage would be tripled, it is still far less than the national average. The DSH program provides relief to safety net hospitals that provide critical health care access to 42 million uninsured people in our country. Nebraska and 14 other States receive far less funding through the Medicaid DSH program per Medicaid and uninsured resident than the rest of the Nation and this lack of funding threatens the viability of many safety net hospitals.

A number of other important provisions are included that would help Nebraska's hospitals including: equalizing the standardized amount for rural and other urban hospitals; adjusting the wage index rate; increasing Medicare DSH payments to rural hospitals; extending the hold harmless provision for rural hospitals for outpatient services for another year; and improving the Critical Access Hospital program by allowing more flexibility in allocating swing and inpatient acute care beds.

In addition to providing much-needed relief to hospitals, the bill also eliminates the 15 percent reduction in home health payments. This cut would reduce payments to home health care providers in my State by nearly \$2 million per year. Nebraska providers cannot afford this cut. The legislation also recognizes the additional costs in-

curred by rural home health care providers and give them an addition 10 percent in payments.

I am also pleased that the bill eliminates the \$1500 outpatient therapy cap for two years. This arbitrary limit discriminates against Medicare beneficiaries who desperately need outpatient therapy to help them recuperate from surgery, a stroke, or other medical condition.

As I mentioned last month, we also need to rectify the physician payment cut. Under current law, Medicare's physician payment rates are projected to fall by 12 percent over the next three years. Nebraska physicians' losses due to the 2003–2005 cuts will total about \$63 million or \$17,230 per physician. This comes on top of a 5.4 percent payment cut which cost Nebraska doctors a total of \$12.9 million or about \$3,875 per physician in 2002.

I also spoke of the need to help skilled nursing facilities which are experiencing severe financial difficulty. If action isn't taken, Nebraska's facilities will lose \$28.48 per patient per day next year for a total of \$10 million.

Finally, I have spoken many times about providing fiscal relief to our States. This legislation also includes \$5 billion in fiscal relief to States by increasing the Federal Medicaid matching rate and by providing a temporary social services block grant. This provision, that I helped author, would give Governors some needed flexibility in assessing the needs of their States. States would be eligible for the Medicaid funding increase as long as the eligibility levels they had in place on January 2, 2002 are maintained. Unfortunately, the Nebraska Legislature made Medicaid eligibility cuts in the recent special session, and these cuts would prevent our State from receiving the full funding available. However, I crafted a provision that would allow Nebraska to receive the funding if they reinstate these Medicaid cuts in the future.

We need to pass this legislation before the session ends. Our Nation's seniors need to know that they can depend on the Medicare system for their health care needs. I look forward to working with my colleagues in addressing these important issues.●

#### IDAHO'S TEACHER OF THE YEAR

● Mr. CRAIG. Madam President, I rise today to salute a very special teacher in my State, Patti Perry, who was recently named as Idaho's Teacher of the Year.

Patti Perry teaches first grade at Skyway Elementary School in Coeur d'Alene. She has taught in Coeur d'Alene for 30 years, and there are many people in the community who look back fondly on the lessons they learned from her. In fact, one of her former students said that she has "been in my heart since the first day of first grade." I'm sure this is a sentiment shared by many.

I come from a family of teachers, so I know how much a good teacher can affect the life of a student. What that teacher imparts in a classroom can stay with a student for the rest of his or her life. It's obvious that Mrs. Perry has had such an impact. She assesses every student individually and tailors her lessons to them. She is a leader in the school and a mentor to other teachers. And, most important of all, she inspires her students to strive for their highest possible performance, academically and otherwise.

It's not really a surprise that Mrs. Perry won this award. What is remarkable, though, is that she's Coeur d'Alene School District's third teacher in five years to be named as Idaho's Teacher of the Year. It's clear that the Coeur d'Alene District is doing something right. Kootenai County, which has Coeur d'Alene as its county seat, is one of the fastest growing counties in Idaho, and I suspect this might have something to do with the outstanding quality of schools in the county. I'm very proud of Mrs. Perry, and I'm also very proud of the Coeur d'Alene School District. They are both setting a great example for the rest of Idaho, and the rest of the Nation, to follow.●

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. GRAMM:

S. 3150. A bill to authorize negotiation of free trade agreements with Turkey, and for other purposes; to the Committee on Finance.

By Mr. GRAMM:

S. 3151. A bill to authorize negotiation of free trade agreements with Afghanistan, and for other purposes; to the Committee on Finance.

Mr. GRAMM. Mr. President, today I am introducing legislation to authorize the President to negotiate free trade agreements with the countries of Turkey and Afghanistan. Trade is a powerful engine in the promotion of prosperity and in the strengthening of freedom. The more we promote trade, the more we benefit and the more our trading partners benefit.

The legislation builds upon the Bipartisan Trade Promotion Authority Act of 2002, enacted earlier in the year. Within the structure of that Act, each of these bills would give the sanction of the Congress to undertaking free trade negotiations with Turkey and with Afghanistan. That sanction would remain in place for five years, ample time to conclude these important agreements.

Turkey has correctly been called the eastern anchor of NATO, an ally of the United States across some five decades in the effort to keep the world free. Turkey is a secular nation with a predominantly Muslim population and historic ties to the United States. For nearly one hundred years Turkey has served as an important force for modernization in the eastern Mediterranean and central Asian area.

Turkey's successes have provided important examples to many of the new

nations of the former Soviet union located on the southern border of Russia. As these nations map out their future, they do so with frequent reference to the experience of Turkey. A free trade agreement with Turkey would mean that we would be a lasting, positive part of that future, contributing to Turkey's continued growth and democratic development, and influence that would be sure to have a beneficial effect on Turkey's neighbors. Such an agreement would operate well in light of our existing free trade agreements with Israel and with Jordan.

Afghanistan is at an historical turning point. What better way to rebuild the Afghan economy and set the Afghan people firmly on the road to prosperity than with a free trade agreement with the United States?

In addition, history has shown the powerful effect of trade and other economic freedoms in creating a stable basis for the growth and maintenance of political freedom. In Germany, Italy, Japan, Taiwan, South Korea, Chile, and elsewhere, we have seen authoritarian regimes replaced by stable, free societies preceded by the growth of trade and economic freedom. A free trade agreement between the United States and Afghanistan can and should be a powerful tool in our efforts to bring peace and prosperity to a land that has known little of either.

I ask unanimous consent that the text of the two bills be printed in the RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

S. 3150

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Turkey Free Trade Agreement Act".

#### SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The economic prosperity of the United States and Turkey will increase by reducing trade barriers between the 2 countries.

(2) Trade protection endangers economic prosperity in the United States and Turkey and undermines civil liberty and constitutionally limited government.

(3) The successful establishment of a North American Free Trade Area sets the pattern for the reduction of trade barriers throughout the world, enhancing prosperity in place of the cycle of increasing trade barriers and deepening poverty that results from a resort to protectionism and trade retaliation.

(4) The reduction of government interference in the foreign and domestic sectors of a nation's economy and the concomitant promotion of economic opportunity and freedoms promote civil liberty and constitutionally limited government.

(5) Countries that observe a consistent policy of free trade, the promotion of free enterprise and other economic freedoms (including effective protection of private property rights), and the removal of barriers to foreign direct investment, in the context of constitutionally limited government and minimal interference in the economy, will follow the surest and most effective prescription to alleviate poverty and provide for economic, social, and political development.

(b) TREATMENT OF AGREEMENTS.—Subject to subsection (c), in the case of any agreement to which subsection (a) applies—

(2) the President shall, as soon as feasible after the commencement of negotiations under section 3(a)—

(A) notify the Congress of such negotiations, the specific United States objectives in the negotiations, and whether the President is seeking a new agreement or changes to an existing agreement; and

By Mr. HELMS:

S. 3155. A bill to authorize the President to establish and maintain the Foreign Language and Cultural Institute program; to the Committee on Foreign Relations.

Mr. HELMS. Mr. President, I am today introducing a bill entitled the Language Mastery Support Act of 2002. I don't expect this Senate to act on it this year, but I hope and believe it can serve as a model for the 108th Congress.

This bill addresses the dangerous shortage of government officials who possess critical foreign languages skills and expert knowledge of foreign cul-

tures. A report issue this year by the General Accounting Office concluded that foreign language skills are critical to the success of our diplomatic and intelligence agencies and that the shortage of skilled personnel has adversely affected American law enforcement, intelligence, counter-terrorism, diplomatic and military efforts.

The end of the Cold War and the rise of terrorism have exacerbated this problem because the most serious shortages involved those languages found in Asia and the Middle East. In fact, we have received warning signals. For example, the disclosure that intercepts of suspected terrorists were translated long after the events they discussed had taken place should be viewed with alarm.

Even before 9/11, Senator COCHRAN referred to a "crisis in federal language capabilities" when the intelligence community disclosed that the United States could be faced with a "technical surprise" because thousands of foreign scientific papers could not be translated due to the lack of skilled translators.

Our governments has experienced this shortage of skilled personnel going back to the beginning of the Cold War. Intermittent attempts to solve the problem over the years have left us with an accumulation of patchwork fixes. As the recent GAO report demonstrates clearly, this approach has not succeeded. It is time to take a fresh approach and seek a broader, long-term solution.

This bill will establish a national program in our academic institutions that encourages students to pursue critical language skills, supports their academic careers and provides a clear employment path to Federal agencies. It does so by making maximum use of existing academic programs and facilities with minimal additional resources.

Students enrolled in this program would be required to meet certain academic standards for which they would receive reasonable stipends, equivalent to those provided under the ROTC program.

During the academic summers, under this legislation, participants would receive specialized training at underutilization Federal and academic facilities, instructed by a faculty composed of both Federal Government and civilian instructors. The participants could also travel to overseas posts for so-called "immersion" training in foreign languages and cultures at U.S. diplomatic and military facilities.

At the beginning of their senior year, participants would receive offers of employment from interests Federal agencies which they must accept or reject within 30 days. This would allow their processing to be completed by the time they graduate, allowing them to enter the Federal workforce without the current delays attributable to security clearances and administrative processing.

The program would be embodied in an Institute. This Institute would not

be composed of bricks and mortar but of a nationwide enrollment of students at colleges and universities who would receive specialized training during their academic summers. The Institute would be run by a Chairman of the Board, appointed by the President. The Chairman would be supported by a Board composed of representatives from each of the participating Federal agencies. Staff would be minimal and provided by the participating agencies.

Each agency would still be able to set its own qualifications issue its own employment offers and maintain its own security requirements. But it could do so in a manner that is competitive with private industry employment opportunities that are available to graduates, after an opportunity to evaluate potential employees throughout the course of their involvement in the Institute and with the added benefit of the financial incentive that the Institute would provide.

This program will broaden the pool of available candidates for Federal employment, allow Federal agencies to compete efficiently for these skilled language specialists and make Federal employment more attractive.

So far, we have avoided serious consequences from the lack of language skills in the Federal Government. This bill constitutes a new approach to this problem. It is long overdue and desperately needed. I ask that each of my colleagues give it prompt and serious consideration.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3155

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Language Mastery Support Act of 2002".

#### SEC. 2. PURPOSE.

The purpose of this Act is to establish a program of study and overseas training in critical foreign languages and cultures, including the establishment of a Foreign Language and Cultural Institute, in order to—

- (1) increase in Federal Government service the number of persons possessing critical skills that are in short supply;
- (2) create a pool of prospective candidates for employment in those agencies of the Federal Government that rely on significant levels of overseas assignments;
- (3) provide monetary and employment incentives for candidates to participate in the program;
- (4) facilitate the identification of potential Federal Government employees with the pool of prospective candidates;
- (5) provide additional opportunities for candidate development and evaluation;
- (6) substantially shorten the delay between identification of a desirable candidate and entry upon service by the candidate;
- (7) minimize the necessity for training during the initial period of employment;
- (8) provide for "cross-fertilization" through the incorporation of both private sector and Government instructors in the faculty of the Institute;

(9) reduce the underutilization of existing Government and educational facilities; and

(10) achieve these objectives for a minimal cost, that would be partially offset by a reduction in the amount of initial training provided by participating agencies for new employees.

#### SEC. 3. DEFINITIONS.

In this Act:

(1) APPROVED FACILITIES.—The term "approved facilities" means—

(A) excess Government facilities, including former military installations; and

S. RES. 355

*Resolved*, That Senate Resolution 105 of the One Hundred First Congress, agreed to April 13, 1989, as amended by Senate Resolution 383 of the One Hundred Sixth Congress, agreed to October 27, 2000, is further amended by adding at the end the following new section: "SEC. 4. ### SENATE CONCURRENT RESOLUTION 156—RECOGNIZING AND HONORING AMERICA'S JEWISH COMMUNITY ON THE OCCASION OF ITS 350TH ANNIVERSARY, SUPPORTING THE DESIGNATION OF AN "AMERICAN JEWISH HISTORY MONTH", AND FOR OTHER PURPOSES

Mr. VOINOVICH (for himself and Mr. DEWINE) submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

S. CON. RES. 156

Whereas in 1654, Jewish refugees from Brazil arrived on North American shores and formally established North America's first Jewish community in New Amsterdam, now New York City;

Whereas America welcomed Jews among the millions of immigrants that streamed through our Nation's history;

Whereas the waves of Jewish immigrants arriving in America helped shape our Nation; Whereas the American Jewish community has been intimately involved in our Nation's civic, social, economic, and cultural life;

Whereas the American Jewish community has sought to actualize the broad principles of liberty and justice that are enshrined in the Constitution of the United States;

Whereas the American Jewish community is an equal participant in the religious life of our Nation;

Whereas American Jews have fought valiantly for the United States in every one of our Nation's military struggles, from the American Revolution to Operation Enduring Freedom;

Whereas not less than 16 American Jews have received the Medal of Honor;

Whereas 2004 marks the 350th anniversary of the American Jewish community;

Whereas the Library of Congress, the National Archives and Records Administration, the American Jewish Historical Society, and the Jacob Rader Marcus Center of the American Jewish Archives have formed "The Commission for Commemorating 350 Years of American Jewish History" (referred to in this resolution as the "Commission") to mark this historic milestone;

Whereas the Commission will use the combined resources of its participants to promote the celebration of the Jewish experience in the United States throughout 2004; and

Whereas the Commission is designating September 2004 as "American Jewish History Month": Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That Congress—*

(1) honors and recognizes—

(A) the 350th anniversary of the American Jewish community; and

(B) "The Commission for Commemorating 350 Years of American Jewish History" and its efforts to plan, coordinate, and execute commemorative events celebrating 350 years of American Jewish history;

(2) supports the designation of an "American Jewish History Month"; and

(3) urges all Americans to share in this commemoration so as to have a greater appreciation of the role the American Jewish community has had in helping to defend and further the liberties and freedom of all Americans.

### SENATE CONCURRENT RESOLUTION 157—EXPRESSING THE SENSE OF CONGRESS THAT UNITED STATES DIPLOMATIC MISSIONS SHOULD PROVIDE THE FULL AND COMPLETE PROTECTION OF THE UNITED STATES TO CERTAIN CITIZENS OF THE UNITED STATES LIVING ABROAD

Mrs. LINCOLN submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

S. CON. RES. 157

Whereas there are numerous cases in which citizens of the United States are prevented from leaving Saudi Arabia against their will or in violation of United States law;

Whereas Amjad Radwan and Rasheed Radwan, 2 United States citizens, were prevented from leaving Saudi Arabia by their Saudi-national father in 1985;

Whereas Monica Stowers, the mother of Amjad Radwan and Rasheed Radwan and a United States citizen, traveled to Saudi Arabia in November 1990 and heard directly from her children of the physical and sexual abuse they had endured there;

Whereas upon learning of the abuse, Ms. Stowers brought her children to the United States Embassy in Riyadh, displayed their United States passports, and sought the protection of the Embassy and assistance in returning home to the United States;

Whereas personnel from the Department of State told Ms. Stowers and her children that

the Embassy was "not a hotel" and urged them to leave;

Whereas personnel from the Department of State informed Ms. Stowers' ex-husband, without her permission and in total disregard for her safety, that she and her children were in the Embassy;

Whereas personnel from the Department of State ordered United States Marines to physically eject Ms. Stowers and her children from the Embassy;

Whereas following her ejection, Ms. Stowers was arrested for refusing to leave Saudi Arabia without her children and sent to a women's prison;

Whereas the current Ambassador to Saudi Arabia, Robert W. Jordan, has pledged that no United States citizen will be similarly removed from the Embassy while he is ambassador;

Whereas American women in Saudi Arabia have directly informed Members of Congress of the physical abuse inflicted upon them by their Saudi husbands, the lack of support or protection for battered women in Saudi society, and the inability to leave Saudi Arabia with their children unless their husbands give permission;

Whereas these women and personnel from the Department of State estimate that there are hundreds of abused American women in Saudi Arabia who do not report their cases due to fear and hopelessness;

Whereas many of these abused American women do not attempt to escape for fear that failure would result in death or serious bodily injury to them and their children;

Whereas abused American women in Saudi Arabia are discouraged from seeking assistance from the United States Embassy or consulate in escaping with their children and are told that nothing can be done for them;

Whereas many of these women and their children are denied religious freedoms and other basic human rights while detained in Saudi Arabia;

Whereas a primary purpose of United States diplomatic missions is to protect the interests of United States citizens;

Whereas international law recognizes certain privileges and immunities for United States embassies, ambassadors' residences, and consulates; and

Whereas such privileges and immunities enable United States diplomatic personnel to provide sanctuary to United States citizens abroad: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* That it is the sense of Congress that United States diplomatic and counselor missions should provide the full and complete protection of the United States to citizens of the United States who—

- (1) are living or traveling abroad;
- (2) are victims of international child abduction, domestic violence, or sexual abuse; and
- (3) seek sanctuary in a United States diplomatic or counselor mission.

(b) **SPECIAL RULES.**—In an action brought under this section for damages the following provisions apply:

(1) **PUNITIVE DAMAGES.**—No punitive damages intended to punish or deter, exemplary damages, or other damages not intended to compensate a plaintiff for actual losses may be awarded, nor shall any party be liable for interest prior to the judgment.

(1) **IN GENERAL.**—Should a product liability or other lawsuit be filed for claims arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies approved by the Secretary, as provided in paragraphs (2) and (3) of this subsection, have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, there shall be a rebuttable presumption that the government contractor defense applies in such lawsuit. This presumption shall only be overcome by evidence showing that the Seller acted fraudulently or with willful misconduct in submitting information to the Secretary during the course of the Secretary's consideration of such technology under this subsection. This presumption of the government contractor defense shall apply regardless of whether the claim against the Seller arises from a sale of the product to Federal Government or non-Federal Government customers.

The Seller will conduct safety and hazard analyses on such technology and will supply the Secretary with all such information.

(3) **CERTIFICATE.**—For anti-terrorism technology reviewed and approved by the Secretary, the Secretary will issue a certificate of conformance to the Seller and place the anti-terrorism technology on an Approved Product List for Homeland Security.

(2) **MAXIMUM AMOUNT.**—For the total claims related to 1 such act of terrorism, the Seller is not required to obtain liability insurance of more than the maximum amount of liability insurance reasonably available from private sources on the world market at prices and terms that will not unreasonably distort the sales price of Seller's anti-terrorism technologies.

(3) **SCOPE OF COVERAGE.**—Liability insurance obtained pursuant to this subsection shall, in addition to the Seller, protect the following, to the extent of their potential liability for involvement in the manufacture, qualification, sale, use, or operation of qualified anti-terrorism technologies deployed in defense against or response or recovery from an act of terrorism:

anti-terrorism technologies have been deployed in defense against or response or recovery from such act.

(c) **EXTENT OF LIABILITY.**—Notwithstanding any other provision of law, liability for all claims against a Seller arising out of, relating to, or resulting from an act of terrorism when qualified anti-terrorism technologies have been deployed in defense against or response or recovery from such act and such claims result or may result in loss to the Seller, whether for compensatory or punitive damages or for contribution or indemnity, shall not be in an amount greater than the limits of liability insurance coverage required to be maintained by the Seller under this section.

**SEC. 886. SENSE OF CONGRESS REAFFIRMING THE CONTINUED IMPORTANCE AND APPLICABILITY OF THE POSSE COMITATUS ACT.**

(a) FINDINGS.—Congress finds the following:

(1) Section 1385 of title 18, United States Code (commonly known as the “Posse Comitatus Act”), prohibits the use of the Armed Forces as a posse comitatus to execute the laws except in cases and under circumstances expressly authorized by the Constitution or Act of Congress.

(2) Enacted in 1878, the Posse Comitatus Act was expressly intended to prevent United States Marshals, on their own initiative, from calling on the Army for assistance in enforcing Federal law.

(3) The Posse Comitatus Act has served the Nation well in limiting the use of the Armed Forces to enforce the law.

(4) Nevertheless, by its express terms, the Posse Comitatus Act is not a complete barrier to the use of the Armed Forces for a range of domestic purposes, including law enforcement functions, when the use of the Armed Forces is authorized by Act of Congress or the President determines that the use of the Armed Forces is required to fulfill the President’s obligations under the Constitution to respond promptly in time of war, insurrection, or other serious emergency.

(5) Existing laws, including chapter 15 of title 10, United States Code (commonly known as the “Insurrection Act”), and the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), grant the President broad powers that may be invoked in the event of domestic emergencies, including an attack against the Nation using weapons of mass destruction, and these laws specifically authorize the President to use the Armed Forces to help restore public order.

(b) SENSE OF CONGRESS.—Congress reaffirms the continued importance of section 1385 of title 18, United States Code, and it is the sense of Congress that nothing in this Act should be construed to alter the applicability of such section to any use of the Armed Forces as a posse comitatus to execute the laws.

**SEC. 887. COORDINATION WITH THE DEPARTMENT OF HEALTH AND HUMAN SERVICES UNDER THE PUBLIC HEALTH SERVICE ACT.**

(3) POTENTIAL PUBLIC HEALTH EMERGENCY.—In cases involving, or potentially involving, a public health emergency, but in which no determination of an emergency by the Secretary of Health and Human Services under section 319(a) of the Public Health Service Act (42 U.S.C. 247d(a)), has been made, all relevant agencies, including the Department of Homeland Security, the Department of Justice, and the Federal Bureau of Investigation, shall keep the Secretary of Health and Human Services and the Director of the Centers for Disease Control and Prevention fully and currently informed.

(5) Each appropriate Federal agency, as determined by the President, shall have access to each information sharing system through which information is shared under paragraph (1), and shall therefore have access to all information, as appropriate, shared under such paragraph.

(A) to access information shared with such personnel; and

(B) to share, with others who have access to such information sharing systems, the homeland security information of their own jurisdictions, which shall be marked appropriately as pertaining to potential terrorist activity.

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Dot Kids Implementation and Efficiency Act of 2002".

**SEC. 2. FINDINGS AND PURPOSES**

(a) FINDINGS.—The Congress finds that—

(1) the World Wide Web presents a stimulating and entertaining opportunity for children to learn, grow, and develop educationally and intellectually;

(2) Internet technology also makes available an extensive amount of information that is harmful to children, as studies indicate that a significant portion of all material available on the Internet is related to pornography;

(3) young children, when trying to use the World Wide Web for positive purposes, are often presented—either mistakenly or intentionally—with material that is inappropriate for their age, which can be extremely frustrating for children, parents, and educators;

(4) exposure of children to material that is inappropriate for them, including pornography, can distort the education and development of the Nation's youth and represents a serious harm to American families that can lead to a host of other problems for children, including appropriate use of chat rooms, physical molestation, harassment, and legal and financial difficulties;

(5) young boys and girls, older teens, troubled youth, frequent Internet users, chat room participants, online risk takers, and those who communicate online with strangers are at greater risk for receiving unwanted sexual solicitation on the Internet;

(6) studies have shown that 19 percent of youth (ages 10 to 17) who used the Internet regularly were the targets of unwanted sexual solicitation, but less than 10 percent of the solicitations were reported to the police;

(7) children who come across illegal content should report it to the congressionally authorized CyberTipline, an online mechanism developed by the National Center for Missing and Exploited Children, for citizens to report sexual crimes against children;

(8) the CyberTipline has received more than 64,400 reports, including reports of child pornography, online enticement for sexual acts, child molestation (outside the family), and child prostitution;

(9) although the computer software and hardware industries, and other related industries, have developed innovative ways to help parents and educators restrict material that is harmful to minors through parental control protections and self-regulation, to date such efforts have not provided a national solution to the problem of minors accessing harmful material on the World Wide Web;

(10) the creation of a "green-light" area within the United States country code Internet domain, that will contain only content that is appropriate for children under the age of 13, is analogous to the creation of a children's section within a library and will promote the positive experiences of children and families in the United States; and

(11) while custody, care, and nurture of the child reside first with the parent, the protection of the physical and psychological well-being of minors by shielding them from material that is harmful to them is a compelling governmental interest.

(b) PURPOSES.—The purposes of this Act are—

(1) to facilitate the creation of a second-level domain within the United States country code Internet domain for the location of material that is suitable for minors and not harmful to minors; and

(2) to ensure that the National Telecommunications and Information Administration oversees the creation of such a second-level domain and ensures the effective and efficient establishment and operation of the new domain.

**SEC. 3. NTIA AUTHORITY.**

Section 103(b)(3) of the National Telecommunications and Information Adminis-

tration Organization Act (47 U.S.C 902(b)(3)) is amended—

(1) in subparagraph (A), by striking "and" at the end;

(2) in subparagraph (B), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(C) shall assign to the NTIA responsibility for providing for the establishment, and overseeing operation, of a second-level Internet domain within the United States country code domain in accordance with section 157."

**SEC. 4 CHILD-FRIENDLY SECOND-LEVEL INTERNET DOMAIN.**

The National Telecommunications and Information Administration Organization Act (47 U.S.C. 901 et seq.) is amended in part C by adding at the end the following new section:

**"SEC. 157. CHILD-FRIENDLY SECOND-LEVEL INTERNET DOMAIN.**

"(a) RESPONSIBILITIES.—The NTIA shall require the registry selected to operate and maintain the United States country code Internet domain to establish, operate, and maintain a second-level domain within the United States country code domain that provides access only to material that is suitable for minors and not harmful to minors (in this section referred to as the 'new domain')."

"(b) CONDITIONS OF CONTRACTS.—

"(1) INITIAL REGISTRY.—The NTIA shall not exercise any option periods under any contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain unless the initial registry agrees, during the 90-day period beginning upon the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002, to carry out, and to operate the new domain in accordance with, the requirements under subsection (c). Nothing in this subsection shall be construed to prevent the initial registry of the United States country code Internet domain from participating in the NTIA's process for selecting a successor registry or to prevent the NTIA from awarding, to the initial registry, the contract to be successor registry subject to the requirements of paragraph (2).

"(2) SUCCESSOR REGISTRIES.—The NTIA shall not enter into any contract for operating and maintaining the United States country code Internet domain with any successor registry unless such registry enters into an agreement with the NTIA, during the 90-day period after selection of such registry, that provides for the registry to carry out, and the new domain to operate in accordance with, the requirements under section (c).

(c) REQUIREMENTS OF NEW DOMAIN.—The registry and new domain shall be subject to the following requirements:

"(1) Written content standards for the new domain, except that the NTIA shall not have any authority to establish such standards.

"(2) Written agreements with each registrar for the new domain that require that use of the new domain is in accordance with the standards and requirements of the registry.

"(3) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to use the new domain in accordance with the standards and requirements of the registry.

"(4) Rules and procedures for enforcement and oversight that minimize the possibility that the new domain provides access to content that is not in accordance with the standards and requirements of the registry.

"(5) A process for removing from the new domain any content that is not in accordance with the standards and requirements of the registry.

"(6) A process to provide registrants to the new domain with an opportunity for a

prompt, expeditious, and impartial dispute resolution process regarding any material of the registrant excluded from the new domain.

"(7) Continuous and uninterrupted service for the new domain during any transition to a new registry selected to operate and maintain new domain or the United States country code domain.

"(8) Procedures and mechanisms to promote the accuracy of contact information submitted by registrants and retained by registrars in the new domain.

"(9) Operationality of the new domain not later than one year after the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002.

"(10) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit two-way and multiuser interactive services in the new domain, unless the registrant certifies to the registrar that such service will be offered in compliance with the content standards established pursuant to paragraph (1) and is designed to reduce the risk of exploitation of minors using such two-way and multiuser interactive services.

"(11) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit hyperlinks in the new domain that take new domain users outside of the new domain.

"(12) Any other action that the NTIA considers necessary to establish, operate, or maintain the new domain in accordance with the purposes of this section.

"(d) OPTION PERIODS FOR INITIAL REGISTRY.—The NTIA shall grant the initial registry the option periods available under the contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain if, and may not grant such option periods unless, the NTIA finds that the initial registry has satisfactorily performed its obligations under this Act and under the contract. Nothing in this section shall preempt or alter the NTIA's authority to terminate such contract for the operation of the United States country code Internet domain for cause or for convenience.

"(e) TREATMENT OF REGISTRY AND OTHER ENTITIES.—

"(1) IN GENERAL.—Only to the extent that such entities carry out functions under this section, the following entities are deemed to be interactive computer services for purposes of section 230(c) of the Communications Act of 1934 (47 U.S.C. 230(c)):

"(A) The registry that operates and maintains the new domain.

"(B) Any entity that contracts with such registry to carry out functions to ensure that content accessed through the new domain complies with the limitations applicable to the new domain.

"(C) Any registrar for the registry of the new domain that is operating in compliance with its agreement with the registry.

"(2) SAVINGS PROVISION.—Nothing in paragraph (1) shall be construed to affect the applicability of any other provision of title II of the Communications Act of 1934 to the entities covered by subparagraph (A), (B), or (C) of paragraph (1).

"(f) EDUCATION.—The NTIA shall carry out a program to publicize the availability of the new domain and to educate the parents of minors regarding the process for utilizing the new domain in combination and coordination with hardware and software technologies that provide for filtering or blocking. The program under this subsection shall be commenced not later than 30 days after the date that the new domain first becomes operational and accessible by the public.

“(g) COORDINATION WITH FEDERAL GOVERNMENT.—The registry selected to operate and maintain the new domain shall—

“(1) consult with appropriate agencies of the Federal Government regarding procedures and actions to prevent minors and families who use the new domain from being targeted by adults and other children for predatory behavior, exploitation, or illegal actions; and

“(2) based upon the consultations conducted pursuant to paragraph (1), establish such procedures and take such actions as the registry may deem necessary to prevent such targeting.

The consultations, procedures, and actions required under this subsection shall be commenced not later than 30 days after the date that the new domain first becomes operational and accessible by the public.

“(h) COMPLIANCE REPORT.—The registry shall prepare, on an annual basis, a report on the registry’s monitoring and enforcement procedures for the new domain. The registry shall submit each such report, setting forth the results of the review of its monitoring and enforcement procedures for the new domain, to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

“(i) SUSPENSION OF NEW DOMAIN.—If the NTIA finds, pursuant to its own review or upon a good faith petition by the registry, that the new domain is not serving its intended purpose, the NTIA shall instruct the registry to suspend operation of the new domain until such time as the NTIA determines that the new domain can be operated as intended.

“(j) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

“(1) HARMFUL TO MINORS.—The term ‘harmful to minors’ means, with respect to material, that—

“(A) the average person, applying contemporary community standards, would find, taking the material as a whole and with respect to minors, that it is designed to appeal to, or is designed to pander to, the prurient interest;

“(B) the material depicts, describes, or represents, in a manner patently offensive with respect to minors, an actual or simulated sexual act or sexual contact, an actual or simulated normal or perverted sexual act, or a lewd exhibition of the genitals or post-pubescent female breast; and

The Interagency Committee shall include provisions in the memorandum of understanding identifying those repairs or categories of repairs described in paragraph (1) for which the best practices identified under paragraph (3), when properly employed by a pipeline operator, would result in no more than minimal adverse effects on the environment and for which discretionary administrative reviews may therefore be minimized

“(A) allowing the operator to implement such measures would be consistent with the protection of human health, public safety, and the environment;

“(B) the operator, with respect to a particular repair project, has applied for and is pursuing diligently and in good faith all required Federal, State, and local permits to carry out the project; and

“(C) the proposed alternative mitigation measures are not incompatible with pipeline safety.

“(e) OMBUDSMAN.—The Secretary shall designate an ombudsman to assist in expediting pipeline repairs and resolving disagreements between Federal, State, and local permitting agencies and the pipeline operator during agency review of any pipeline repair activity, consistent with protection of human health, public safety, and the environment.

“(f) STATE AND LOCAL PERMITTING PROCESSES.—The Secretary shall encourage States and local governments to consolidate their respective permitting processes for pipeline repair projects subject to any time periods for repair specified by rule by the Secretary. The Secretary may request other

Mr. DURBIN. Madam President, I ask unanimous consent that the committee substitute amendment be agreed to; the bill, as amended, be read the third time and passed and the motion to reconsider be laid upon the table, with no intervening action or debate; that any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment in the nature of a substitute was agreed to.

The bill (H.R. 4073), as amended, was read the third time and passed.

**DOT KIDS IMPLEMENTATION AND EFFICIENCY ACT OF 2002**

Mr. DURBIN. Madam President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 3833 and the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 3833) to facilitate the creation of a new second-level Internet domain within the United States country code domain that will be a haven for material that promotes positive experiences for children and families using the Internet, provides a safe online environment for children, and helps to prevent children from being exposed to harmful material on the Internet, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. DORGAN. Madam President, I rise in support of H.R. 3833, the Dot Kids Implementation and Efficiency Act of 2002. Earlier this year Senator ENSIGN and I introduced the companion legislation, S. 2537, in the Senate and today I am pleased to offer an amendment in the nature of a substitute along with my colleagues Senators ENSIGN, HOLLINGS, and ALLEN.

As anyone who has surfed online knows, the development of the Internet has been a mixed blessing. On the one hand the Internet has brought enormous benefits to adults and children alike as it gives us new options for reading the news, researching school

papers, shopping, conducting business, and communicating with each other. But, on the other hand, the Internet also poses great risks to our children because there is no perfect way to protect them from the mountains of material that is inappropriate for their eyes.

Just after we had introduced this bill in the Senate a seventh grade girl at Erik Ramstad Middle School in North Dakota reported she had been solicited for a sexual encounter online. In a school assembly the same day 30 other students revealed that they have been threatened online.

The National Center for Missing and Exploited Children has charted 5,700 reported cases of online enticement in the past four years, and those are only cases that were intercepted by parents. And while there is not yet any way to compile Federal, State, and local cases involving sex, children, and the Internet, experts estimate that there are 4,000–5,000 each year.

The most recent study available “Online Victimization: A Report on the Nation’s Youth” found that “almost one out of five young people who use the Internet regularly were exposed to unwanted sexual solicitations or approaches” and “twenty-five percent had been exposed to unwanted online pornography” in the previous year.

This is a frightening situation. Computers have become an open door for predators into the homes of children. It is necessary to create a safe haven online for children to surf.

Today we have before us a bill called the Dot Kids Implementation and Efficiency Act that will help this situation by creating a safe haven on the Internet for kids.

Introduced in the Senate by myself and Senator ENSIGN, after it was successfully shepherded through the House by Representatives SHIMKUS, UPTON, and MARKEY, the idea behind the “dot kids” domain is very simple—to create a space on the web that can be a cyber-sanctuary for kids. A place where parents and kids can be confident that every site on the “dot-kids” domain contains materials that are suitable for children under the age of thirteen.

The bill calls for the creation of a sub-domain under our Nation’s country code “.us” called “.kids.us” which will only host content that is age appropriate for children. A number of safeguards were also put in this bill. “Dot-kids-dot-us” will be monitored for content and safety; and should objectionable material appear, it will be taken down immediately.

One of those safeguards is a restriction on peer-to-peer communication unless the entity hosting the site certifies that it will be done safely. And further, hyperlinks, which would take children out of the safe “dot-kids” domain are expressly prohibited to help insure that parents can be confident that when their children visit sites in “dot-kids” they will stay within the dot-kids domain.

Last October the Department of Commerce awarded the contract to handle the management and commercialization of the “dot-us” domain. And while this bill is careful to not change the terms of the existing contract it would condition the next contract on the creation of the “dot-kids-dot-us” domain.

So, under this bill, participation in “dot-kids” would be completely voluntary. Not only will whomever accepts the next contract know what they will be getting into, parents will choose to use it, and website operators will choose to be located within it.

The only requirement will be that site operators on the “dot-kids” domain agree to keep their sites full of material that is suitable for minors. Personally, I think the idea of using our country’s Top-Level-Domain to create a cyber-sanctuary for children makes a great deal of sense and I want to thank all of my colleagues and the many stakeholders who have been involved in this legislation for all their hard work and cooperation in making this bill a reality today.

I urge my colleagues to support the Dot Kids Implementation and Efficiency Act.

Mr. ENSIGN. Madam President, I am pleased to rise in support of H.R. 3833, the Dot Kids bill of 2002. Senator DORGAN and I introduced this bipartisan bill earlier this year to protect children on the Internet, and I am gratified that the Senate will act on it today.

It is estimated today that over 140 million Americans use the Internet, many of them children. Most schools are equipped with computers, where our children learn to navigate the Internet; in most cases children do so with better skill than parents. No longer do our children have to go to the library and sift through voluminous card catalogues for their research projects. No longer do our children need to be in school to communicate with their teachers and fellow classmates—they can do it from home by using e-mail and instant messaging. Families simply need a computer with an Internet connection to provide children with access to a greater breadth of information than the Library of Congress. The educational opportunities are limitless.

However, the Internet can also be used as a tool for evil. Many young children have tragically fallen victim to on-line predators. They have been stalked by pedophiles masquerading as other children. Many more young children on the Internet are routinely exposed to graphic violence, drugs and inappropriate sexual content despite parents’ efforts at restricting such content.

Congress first acted to protect children on the Internet in 1996 with passage of the Communications Decency Act, CDA. This legislation criminalized engaging in indecent or patently offensive speech on computer networks if the speech could be viewed by anyone

18 years of age or younger, but it did not survive constitutional challenges. The U.S. Supreme Court held in *Reno v. American Civil Liberties Union* that the CDA violated First Amendment free-speech protections. Congress subsequently responded in 1998 with passage of the Children’s Online Protection Act, COPA, legislation that prohibited communication of material that is harmful to minors on for-profit websites. The U.S. Supreme Court, however, in *American Civil Liberties Union v. Reno*, upheld an injunction by U.S. Court of Appeals for the Third Circuit on constitutional grounds and remanded the case for further review.

Another attempt was made to strike the careful balance between the first amendment and protecting children on the Internet with passage of the Children’s Internet Protection Act of 2000, CIPA. This legislation required schools and libraries that receive Federal funding to install filtering software to block from minors Internet content that contains child pornography, or other obscene and indecent material that is harmful to minors. Moreover, this legislation required federally funded libraries to block adults from accessing websites containing obscene material or child pornography. However, the U.S. District Court for the Eastern District of Pennsylvania unanimously held in *American Library Association v. United States* that CIPA was unconstitutional.

The bill before us today represents the most recent effort by Congress to craft legislation that can both protect children on the Internet and withstand constitutional scrutiny.

The Dot Kids bill establishes a children’s section of the Internet, much like a children’s section of the library, where children will be safe from pedophiles, pornography, and violence. We worked to craft the Dot Kids bill to withstand first amendment challenges by not imposing a burden on free speech to adults; the use of the Dot Kids subdomain is completely voluntary. As such, it recognizes and protects the rights of those who wish to view content not suitable for minors outside of the Dot Kids subdomain. Content within the Dot Kids subdomain must be suitable for children under 13 years of age. Dot Kids also protects children from accessing websites outside the Dot Kids subdomain or engaging in uncertified interactive services. This is a major victory for children and families. Chat rooms and instant messaging is a key component in allowing pedophiles to stalk children over the Internet. Liability protection was also provided for the domain administrator by utilizing the “Good Samaritan” provision in the Communications Act of 1934. This provision will ensure that the Dot Kids administrator will not be held liable for actions voluntarily taken in good faith to restrict access to, or availability of, obscene, harassing, violent or other objectionable material.

I am pleased that the Family Research Council, the National Center for Missing and Exploited Children, the American Center for Law and Justice, a Safer America for Everyone, SAFE, and the National Law Center for Children and Families have joined our effort in supporting this proposal.

The U.S. House of Representatives previously passed this measure by an overwhelming majority vote with the hard work of many dedicated Members of Congress including Congressman SHIMKUS, Congressman TAUZIN, Congressman UPTON, Congressman MARKEY and Congressman DINGELL.

Mr. HOLLINGS. Madam President, I rise today in support of the substitute amendment to H.R. 3833, the Dot Kids Implementation and Efficiency Act of 2002. I am proud to co-sponsor this amendment with Senators DORGAN, ENSIGN, and ALLEN. This bipartisan legislation is a result of compromise and hard work by interested parties including Senators DORGAN, ENSIGN, ALLEN, and MCCAIN. I also want to thank Representatives SHIMKUS, MARKEY, and UPTON for their efforts in the House on the companion legislation. They have all demonstrated their commitment to making the Internet safe for children.

In short, H.R. 3833 will create a safe haven for children on the Internet. It creates a domain designated strictly for minors—"kids.us". This new domain will allow parents to be confident that their child can experience the Internet, at least in part, without being exposed to objectionable material. Only content producers who can meet the standard of providing material suitable for minors will be allowed to register a .kids domain.

Really, this bill is just a next step of sorts for me. After all, I have been a strong advocate for a safe harbor for television to ensure that children are protected from objectionable material. I am happy to see that we are now able to extend such protections online, ensuring that children can safely surf the Internet without being bombarded with images of sex, violence, and drugs or being lured by child predators.

I am pleased that we have been able to reach an agreeable compromise on this bill and look forward to working with the Department of Commerce and the administrator for the U.S. country code domain to implement this legislation.

Mr. DURBIN. Senators DORGAN, ENSIGN, HOLLINGS, and ALLEN have a substitute amendment at the desk, and I ask unanimous consent that the amendment be considered and agreed to and the motion to reconsider be laid upon the table; that the bill, as amended, be read three times and passed and the motion to reconsider be laid upon the table; and that any statements relating thereto be printed in the RECORD, without intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4903) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The bill (H.R. 3833), as amended, was read the third time and passed.

#### PIPELINE INFRASTRUCTURE PROTECTION TO ENHANCE SECURITY AND SAFETY ACT

Mr. DURBIN. Madam President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of H.R. 3609 and the Senate proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3609) to amend title 49, to enhance the security and safety of pipelines.

There being no objection, the Senate proceeded to consider the bill.

Mr. MCCAIN. Madam President, Congressional action to send comprehensive pipeline safety legislation to the President is long overdue. The Senate has worked long and hard during both the 106th and the 107th Congresses on this important issue and we should not let any more time pass without taking needed action to improve pipeline safety. I am hopeful we will finally achieve final passage on this issue before adjournment.

The Office of Pipeline Safety, OPS, within the Department of Transportation's Research and Special Programs Administration, RSPA, oversees the transportation of about 65 percent of the petroleum and most of the natural gas transported in the United States. OPS regulates the day-to-day safety of 3,000 gas pipeline operators with more than 1.6 million miles of pipeline. It also regulates more than 200 hazardous liquid operators with 155,000 miles of pipelines. Given the immense array of pipelines that traverse our nation, reauthorization of our pipeline safety programs is critical to the safety and security of thousands of communities and millions of Americans nationwide.

As my colleagues know, the Senate has approved pipeline safety legislation three times in the last three years. Twice we passed stand alone bills, in 2000 and again in 2001. Beginning in the 106th Congress, we worked on a bipartisan basis to develop and approve legislation to promote both public and environmental safety by reauthorizing and strengthening our Federal pipeline safety programs which expired in September 2000. In particular, the efforts of Senators Slade Gorton and PATTY MURRAY were instrumental to the Senate's efforts to address this important safety issue.

In our protracted effort to enact pipeline safety legislation—the House had not approved its version of a related measure—we resorted to adding the pipeline safety bill to the Energy bill during its floor consideration last March. Subsequently, the House approved its pipeline safety legislation in

July. While the House-passed energy bill did not include pipeline safety provisions, the House agreed to try to reach a consensus on the important issue in the context of the energy conference. As a result, the measure before us today is the sound, pro-safety agreement that was achieved during the energy conference deliberations.

The members of the energy conference are to be commended for their commitment to this important issue. They developed a consensus pipeline safety title that includes the best provisions from both the Senate- and House-passed bills. Although I did not serve as a formal member of that conference, we shared a goal of enacting comprehensive legislation to promote pipeline safety for the public, the environment, and the economy.

I want to commend Representatives BILLY TAUZIN, JOHN DINGELL, and DON YOUNG and Senators JEFF BINGAMAN and FRANK MURKOWSKI for their leadership and hard work on this issue and their courtesies to ensure the Senate authorizing committee was fully consulted during the process. Given that a consensus on a comprehensive energy package will not be achieved during this Congress, it is time to move forward and approve the agreement that was reached regarding pipeline safety.

In large part, the legislation before us is the result of several tragic pipeline accidents that have occurred in recent years. Since 1999, pipeline accidents have resulted in 78 fatalities. In June 1999, a fatal accident occurred in Bellingham, Washington, when gasoline leaked from an underground pipeline and was subsequently ignited. That accident resulted in three deaths, a number of injuries, and severe environmental damage to the area. On August 19, 2000, a natural gas transmission line ruptured in Carlsbad, New Mexico, killing 12 members of two families. These were two very serious accidents and they helped spur the Senate's action to address identified safety shortcomings.

As I mentioned, the Senate has worked at length to improve pipeline safety and reduce the risk of future accidents. During the last Congress, with the assistance of a bipartisan group of Senators, the Senate passed the Pipeline Safety Improvement Act of 2000. Since the House failed to approve pipeline safety legislation, we were never able to send a measure to the President.

When the 107th Congress convened, one of the first legislative actions taken by the Senate was to consider and pass S. 235, the Pipeline Safety Improvement Act of 2001, a measure nearly identical to what we passed in the prior Congress. Early attention by the Senate demonstrated our firm commitment to improving pipeline safety. Although it has taken far longer than I

would have hoped, it is important that we are taking this action today as we work to finish our legislative activities for the year.

Despite the tragic accidents I highlighted earlier, the safety record of the pipeline industry has generally improved significantly and compares favorably to other forms of transportation. According to the Department of Transportation, pipeline related incidents dropped nearly 80 percent between 1975 and 1998, and the loss of product due to accidental ruptures has been cut in half. From 1989 through 2001, pipeline accidents resulted in about 24 fatalities per year, far fewer than the number of fatal accidents experienced among other modes of transportation. But this record must not be used as an excuse for inaction on legislation to strengthen pipeline safety.

The pipeline safety program expired more than two years ago. It is essential that the Congress take final action on this critical public and environmental safety issue. This legislation reauthorizes and strengthens Federal pipeline safety programs, providing additional funding for safety enforcement and research and development efforts. It also provides for increased State oversight authority and facilitates greater public education efforts at the local community level.

This pending pipeline safety legislation includes many important provisions. I urge my colleagues to support final passage of this critical safety improvement legislation.

Mr. BREAUX. Madam President, I rise in support of H.R. 3609, the Pipeline Safety Improvement Act of 2002, which will improve the safety and security of our Nation's pipeline systems through important reforms within our Federal safety regulatory program. This idea is not new. The Senate passed this legislation in the 106th Congress, and again in February 2001 as one of the first orders of business of the 107th Congress. The Senate also passed the same language as part of the Energy Policy Act of 2002. This bill is the product of good-faith compromise over three years of work, including compromise with the House of Representatives, and I ask my colleagues to join me in its support.

Both liquid and natural gas pipelines provide transportation of vital energy resources to many parts of our country. In my State, pipelines support what was recently determined to be a \$92 billion oil and gas industry. Louisiana is the third leading producer of natural gas and fourth leading producer of crude oil in the country. These products must be transported to the rest of the country for consumption, and pipelines are a key part of this infrastructure. In Louisiana alone, there are over 40,000 miles of gas pipelines, some of which pass through towns, residential areas, schools, churches, and other high-consequence areas. Oil and other product pipelines also number in the thousands of miles in my State.

In recent years, we have experienced at least two major pipeline accidents: one in Bellingham, WA, and the other near Carlsbad, NM. I am deeply sympathetic to the families of the victims of these tragedies. Nothing can possibly replace their losses. What we have endeavored to do here is take steps to ensure that we as a government address the risks of such accidents in the best possible manner. I think that this legislation will increase the tools available to the Secretary of Transportation to ensure that our pipeline system is as safe as possible. I would ask that the Secretary use the tools that we provide to ensure the aggressive oversight of pipeline safety practices, and involve and protect the affected communities to the greatest possible extent.

Passage of this bill will help to ensure the safety and security of natural gas and hazardous liquid pipelines and will take strides to increase the safety of our network of oil and natural gas pipelines. I appreciate the considerable number of hours that went into creating this bill by all of the parties. I am also satisfied with the spirit of compromise that accompanied the parties' diligent efforts. As a result of their cooperative work we have a bill that reaffirms our efforts to regulate gas and hazardous liquid pipelines safely and effectively without interfering with the pipeline gas and hazardous liquid pipelines safely and effectively without interfering with the pipeline operators' and owners' ability to provide service to our Nation and without compromising national security.

While there were many who worked arduously to ensure passage of legislation in this area, Senator MURRAY, Senator BINGAMAN, and Senator MCCAIN should be recognized for their important contributions. Senator MURRAY vigorously pursued changes to increase the level of safety and public participation in pipeline safety, and she worked closely with other Commerce Committee members to ensure a reasonable and fair compromise. Senator BINGAMAN was instrumental in helping bolster the bill's provisions on research and development. We also added provisions he authored to focus our research on progressive areas that will help us develop better systems of early detection, and to ensure that we can avoid accidents such as those that occurred in Bellingham, WA, and near Carlsbad, NM. Senator MCCAIN is to be recognized for his continuing efforts to get this legislation passed. He first initiated this effort years ago as Chairman of the Committee. Last, I would like to thank the efforts of my dedicated staff and all those staff members who helped reach this agreement.

Clearly, this measure is a compromise, and as such, not every group got exactly what they wanted, but this measure will advance the programs and system regulating the safety of our pipeline system. It will require our regulators to finalize a number of overdue regulations. The bill also updates the

penalties that would be levied for misconduct and provides whistle blower protection for employees who reveal misconduct. Further, the bill helps us focus on long-term research needs so as to make our future pipeline system even safer. Investment today in research will help us be more efficient and effective in providing a safer and more secure system. While I was for the most part pleased with the final product that we negotiated in this bill, I was concerned that we did not include provisions that would have outlined what sort of pipeline safety information should be made available to the public. Concerns were raised that public disclosure of certain pipeline safety information could jeopardize security. We need to take a look at how we get safety information to the people who need it, but protect that information from those who wish to do harm if it is security-sensitive.

Overall, this is good legislation. It will improve the safety of our pipelines and communities through which pipelines run, and I urge my colleagues to support it.

Mr. DURBIN. I understand Senators MCCAIN and HOLLINGS have a substitute amendment at the desk. I ask unanimous consent that the amendment be considered and agreed to; the motion to reconsider be laid upon the table; the bill, as amended, be read three times and passed and the motion to reconsider be laid upon the table; and that any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4904) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The bill (H.R. 3609), as amended, was read the third time and passed.
