Mr. HATCH. Mr. President, I rise today to say a few words about S. 1497, the Virgin River Dinosaur Footprint Preserve Act and its companion measure in the House, H.R. 2385. This bill would convey certain property to the city of St. George, Utah, in order to provide for the protection and preservation of certain rare paleontological resources on that property.

This legislation would provide vital protections to one of our nation’s most recent, and most intact pre-Jurassic paleontological discoveries. In February 2000, Sheldon Johnson of St. George, UT, began development preparations on his land when he uncovered one of the world’s most significant collections of dinosaur tracks, tail draggings, and skin imprints in the surrounding rock. Without any advertising, the site has attracted many tens of thousands of visitors and the interest of some of the world’s top paleontologists.

This was a fantastic discovery that has added important new insights into the Jurassic period. However, now that these prints have been uncovered, the fragile sandstone in which the impressions have been made is in jeopardy due to the heat and wind typical of the southern Utah climate. We must act quickly if these footprints from our past are to be preserved. This bill would authorize the Secretary of the Interior to purchase the land where the footprints and tail draggings are found and convey the property to the city of St. George. The city will work together with the property owners and Washington County to preserve and protect the area and the resources found there.

We owe a debt of gratitude to Sheldon and LaVerna Johnson who made this discovery on their land and have dedicated thousands of hours of their personal time and much of their own money to trying to preserve this site. They have done all they can to protect it, while at the same time opening up their land for visitors and scientists to view the new findings free of costs. They have given so much to this cause, but they cannot keep it up indefinitely. They desperately hope that the Government will step up and help carry the burden of managing this precious re-

source, and with passage of this legislation tonight we will provide them with the relief they deserve.

I thank Senators BINGAMAN and MURKOWSKI, the chairman and ranking member of the Senate Committee on Energy and Natural Resources, for their assistance in seeing this measure passed by Congress and sent to the President. I also thank Representative JAMES HANSEN, my good friend and the sponsor of the companion measure in the House for all he has done to make this legislation possible.

Mr. REID. Mr. President, I ask unanimous consent that the committee-reported amendments be withdrawn; that the bill be read the third time and passed; and that the motion to reconsider be laid upon the table, with no intervening action or debate.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The committee amendments were withdrawn.

The bill (H.R. 2385) was read the third time and passed.

Mr. REID. Mr. President, before we get to the next matter, let me express my appreciation to the Senator from Utah, Mr. BENNETT. He has been here all night. But for him, we would not have made the progress we have. All Senators should be very grateful for his weighing in on these delicate matters. I appreciate what the Senator from Utah has done to help us get to this point.

Mr. BENNETT. Mr. President, I thank the assistant majority leader. I wish to make it clear that without his leadership and cooperation, we would not be doing what we are doing. It takes two hands to clap. We were waving our hands uselessly in the air until the Senator from Nevada stepped in. I am very grateful to him.
