

RECOGNITION TO SALVATORE M.
SCHIBELL

HON. FRANK PALLONE, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. PALLONE. Mr. Speaker, I would like to call the attention of my colleagues to a friend of the Sixth District of New Jersey. Mr. Salvatore Michael Schibell, who is being honored as the Man of the Year for the Amerigo Vespucci Society.

Mr. Schibell is being honored for his untiring dedication and remarkable assistance to his community. Mr. Schibell, a native of Long Branch, attended Long Branch High School and later graduated from Monmouth University with a Bachelor's Degree in Accounting and a Master's Degree in Business Administration. In 1990, Mr. Schibell was awarded his Masters Degree in Tax Law by Fairleigh Dickenson University. He holds CPA Certificates in both New Jersey and New York.

In 1989 Mr. Schibell was a founding partner of Rescinio, Schibell & Company. Prior to the formation of the firm, he spent fifteen years in public accounting, most of them with an international Big 6 firm. Formerly a senior manager, he left public accounting to serve eight years as the senior financial officer and general manager of a major beverage distributor. In 1993, Mr. Schibell became a partner of the accounting firm of Lawson, Rescinio, Schibell & Associates, P.C. in Oakhurst, NJ.

Mr. Schibell's professional memberships are numerous, some of which include: The American Institute of Certified Public Accountants, New Jersey Society of Certified Public Accountants; Community Associates Institute, and the Estate Planning Council of Central New Jersey, for which he served as the past president and was on the Board of Trustees. In addition, Mr. Schibell has served on numerous committees for charitable organizations, such as: the Amerigo Vespucci Society, and the Ronald McDonald House in Long Branch.

Presently, Mr. Schibell and his wife Lois reside in Eatontown, New Jersey where they enjoy the company of their four children Stephanie, Andy, Sean, and Denise and their first grandchild, Ashley Brook.

On this day we celebrate and honor the distinguished Mr. Salvatore M. Schibell for his extensive accomplishments and his dedicated service to his community. I ask my colleagues to join with me in commending him in his dedication.

T.C. ROBERSON FUTURE FARMERS
OF AMERICA

HON. CHARLES H. TAYLOR

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. TAYLOR of North Carolina. Mr. Speaker, I rise today to recognize the T.C. Roberson High School Future Farmers of America organization and their teacher, Lonnie Johnson. The organization was recently recognized in the November/December 2002 issue of New Horizons magazine for their efforts to help poor and elderly individuals by participating in MANNA FoodBank's Plant a Row for the Hun-

gry project. Through their hard work, these outstanding high school students provided hundreds of pounds of fresh vegetables to needy individuals throughout western North Carolina. The T.C. Roberson High School Future Farmers of America organization was also recognized in a July 8, 2002 editorial and a July 5, 2002 article in the Asheville-Citizen Times, which I am happy to share with my colleagues.

[From the Asheville Citizen-Times, July 5, 2002]

FUTURE FARMERS RAISE CROPS FOR THOSE IN
NEED

(By Barbara Blake)

SKYLAND.—Lonnie Johnson can almost see the smiles on the faces of the elderly people who will soon be eating fresh corn, beans, tomatoes, squash and peppers his horticulture students are growing out at Roberson High School.

And thinking about the pleasure these nutritious vegetables will bring to those senior citizens and others who live on the edge of hunger brings a smile to Johnson's face.

"Elderly people go crazy with fresh produce," he said. "A lot of these people don't get much fresh, and we're going to be giving them hundreds of pounds all the way up into September and October. And we won't stop then—in the fall, we'll plant our fall garden with greens and cabbage and turnips and broccoli, and we'll keep it coming."

Those are sweet words to the staff at MANNA FoodBank, which will receive the vegetables from the Roberson students and immediately distribute them to the poor and hungry in Western North Carolina as part of the nonprofit's Plant a Row for the Hungry project.

Johnson, who formerly was the horticulture teacher at the Swannanoa Valley Youth Academy, started the Plant a Row project on that campus two years ago, providing MANNA with nearly 2,000 pounds of produce.

Early in the spring, Johnson found his Future Farmers of America students at Roberson equally interested in participating. So they worked together to plant more than one row for the hungry after clearing brush to make beds, working the soil and carefully planting seeds—all while learning about all things gardening and horticulture.

Throughout their summer vacation, students have come one, two or 10 at a time to replant, weed, water and, now, harvest the vegetables of their labor.

"It's fun—I like to work with my hands," said rising sophomore Levi Dowdle, peering into a bushy hill of squash loaded with yellow flowers and tiny fruits. "I like seeing how much stuff has grown, and how fast it grows, and how much time different things take.

"And," he said, "I like helping people."

This produce will definitely help people, according to Kitty Schaller, director of development at MANNA, which netted more than 15,000 pounds of donated produce from local gardens last year.

"Lots of times during the year, we're able to access produce because it's not in great condition. But this puts the freshest stuff in the hands of the agencies that need it—and the need is great," Schaller said.

"This is first-quality stuff, and as soon as it comes in, it goes out."

Schaller said the Youth Academy and the Roberson FFA kids are the only two schools formally involved with the Plant a Row for the Hungry project, and said she hopes other schools will take part.

"We love having children do this, because it establishes a pattern for them—making a

connection with the soil, making a connection with hungry people," Schaller said. "We're grateful to the folks at Roberson for taking this on, and we hope other schools will decide to do it as well."

Schaller said MANNA also is grateful for more informal donations of fresh vegetables, ideally between 8 a.m. and 3:30 p.m., weekdays.

"But if someone needs to come on Saturday, they can call and we'll make special arrangements," she said.

"While we emphasize the 'plant a row' concept, we also are very, very welcoming of people's excess produce, even if it's just excess," Schaller said. "It's a lot of people doing a little amount that really makes a difference—and a few people doing extraordinary stuff."

[From the Asheville Citizen-Times, July 8, 2002]

ROBERSON'S FFA GOOD SIGN OF BRIGHT
FUTURE FOR WNC CITIZENSHIP

Thanks to a group of Future Farmers of America at Roberson High School and their teacher, Lonnie Johnson, poor, elderly people in Western North Carolina will be benefiting from one of summer's greatest pleasures—a bounty of fresh, homegrown vegetables.

As any backyard gardener knows, nothing tastes as good as a ripe, freshly picked tomato. And nothing is more nutritious than homegrown vegetables that are eaten soon after they were harvested.

Johnson and his students decided to participate in MANNA FoodBank's Plant a Row for the Hungry project, but they planted more than a row. They're growing corn, beans, tomatoes, squash and peppers. Before coming to Roberson, Johnson taught horticulture at the Swannanoa Valley Youth Academy, where he started a Plant a Row project two years ago. That project provided MANNA with nearly 2,000 pounds of produce.

"Lots of times during the year, we're able to access produce because it's not in great condition," said MANNA's Director of Development Kitty Schaller. "But this puts the freshest stuff in the hands of the agencies that need it—and the need is great. This is first-quality stuff, and as soon as it comes in, it goes out."

The project benefits not only those whose consume the vegetables, it gives young people an opportunity to learn about gardening. Throughout their summer vacation, students have come singly and in groups to replant, weed, water and harvest the vegetables. They're learning more than practical horticultural skills.

"We love having children do this," pattern for them—making a connection with the soil, making a connection with hungry people.

The Youth Academy and Roberson FFA are the only two schools formally involved with the Plant a Row program, Schaller said, but she'd love to see others participate.

As for Johnson, he gets a lot of satisfaction thinking about those who will relish the vegetables his students grow.

"Elderly people go crazy with fresh produce," he said. "A lot of these people don't get much fresh, and we're going to be giving them hundreds of pounds all the way up into September and October. And we won't stop then—in the fall, we'll plant our fall garden with greens and cabbage and turnips and broccoli, and we'll keep it coming."

Kudos to Johnson and his students, who have pointed the way for other schools. But in this time of fiscal austerity, participating in the Plant a Row project is a tremendous and inexpensive opportunity for anyone who has a garden spot to give a great bounty to

those in need. Seeds are inexpensive and with a little tender loving care they become a nourishing gift beyond compare.

Schaller said MANNA is also grateful for more informal donations of fresh vegetables, preferably between 8 a.m. and 3:30 p.m. weekdays. So, if your garden is producing more than you can possibly preserve, consider a donation to MANNA.

You'll have the joy of imagining, as Johnson does, the pleasure your gift will bring.

[From New Horizons, Nov./Dec. 2002]

T.C. ROBERSON HIGH SCHOOL FUTURE FARMERS OF AMERICA

Here in Asheville, a city of 60,000 people in the hills of western North Carolina, the MANNA Food Bank feeds people in need across a 19-county area. They do their best to keep food moving to soup kitchens, the elderly, child daycare centers for families with low incomes and anywhere else where people have trouble putting food on the table.

A few years ago, Lonnie Johnson, the Roberson FFA Chapter advisor, heard about MANNA's "Plant a Row for the Hungry" program, where local citizens donate a portion of their garden vegetables to the food bank.

Johnson recognized the opportunity and pounced on it. "There are people in our community who have needs, and if we can help meet those needs, then there's a lot of learning that can go on." Johnson says.

BREAKING GROUND

Roberson FFA members quickly latched onto the project. For many, it's a hands-on component for horticulture class. For others, it's afterschool volunteerism.

Jacob Laughter, a junior who currently serves as FFA chapter president, has been at Roberson High since the project began. "I got to break ground for the beginning of our garden with our new Troy-Bilt tiller. I was also part of the seeding process, where we dug small holes to plant our seeds."

Senior Jenny Stove, the FFA chapter secretary, is just glad she has the opportunity to be involved. "I think I love to work in the garden more than all else," she says. "Behind our greenhouse, we have corn that grows mile-high, spinach that the local rabbits eat, onions, collard greens cucumbers and zucchini."

It's fresh vegetables like these that are considered delicacies at the food bank, where most of the food distributed is packaged in cans and boxes. "People really get excited when they get fresh produce," Johnson says.

While this modest, one-third of an acre garden isn't breaking any records for size, everything from the garden is donated to the food bank. So far, the small parcel of ground has yielded hundreds of pounds of vegetables, and counting.

Deborah Stines, a junior, likes the harvest best. "I enjoy working in the garden because I like to pick the vegetables and be able to say to myself, 'Hey, I planted this, and it grew!'" When the time for harvest arrives, the FFA crew loads and drives the procedure to MANNA's loading dock, where workers eight the load and give the students a receipt.

IN THE NEWS

The chapter's efforts haven't gone unnoticed. Editors at the Asheville Citizen-Times caught wind of the FFA chapter's project in July. In a lengthy editorial, they had this to say: "Kudos to Johnson and his students, who have pointed the way for other schools." After this appeared in the newspaper, the phone in the agriculture shop started ringing.

As a result of the editorial, people from the school and the community called and wanted to visit the garden. "It just perked them up

and made them feel good," Johnson says. Soon thereafter, a local television station and the school's own televised news program quickly picked up the story.

While these FFA members appreciate the positive publicity their FFA chapter has received, they realize something more important is happening. Their gardening project has built public awareness of hunger—a move that will put Asheville, and the world, a few steps closer to making sure everyone has enough food to eat.

IN THEIR OWN WORDS

Krystal Dorsey, a sophomore, didn't have any community service experience a couple of years ago. "After working on this project," she says, "I started to realize how important it is to do things for others, as well as how awesome it feels."

Jessica Stouder, a junior, echoes those sentiments: "It makes me glad to see that if students are working like this to help a cause here in little Asheville, then think of the big difference we could make all over the country."

TRIBUTE TO NICK PINO

HON. SCOTT MCINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. MCINNIS. Mr. Speaker, it is with great pride that I rise today to honor Nick Pino of Pueblo, Colorado for the selfless act of courage he displayed on November 8, 2002. Nick's quick actions, along with the efforts of other students from Centennial High School, helped Edith Lichtenberg to safety after flames engulfed her home.

On November 8, 2002, billowing smoke one block from Centennial High School prompted a group of students—Prince Speights, Clint Albrecht, Nick Pino, Kathy Ortiz, Linus Trujillo, and Taylor Proctor—into action. Driving toward the smoke, the group quickly discovered the bushes and trees in 86-year-old Edith Lichtenberg's yard ablaze and used a cell phone to contact emergency dispatchers. The flames rapidly spread to the house and the group moved swiftly to make sure no one was in the home. With the fire engulfing the front of the house, the students jumped the locked fence around the backyard to warn anyone who might still be inside. Noticing the back door open and seeing Ms. Lichtenberg still inside, they caught her attention and guided her outside away from the flames. Nick courageously assisted in getting Ms. Lichtenberg out of the house, and the group moved her to safety.

The youths maintained their composure during a time of adversity and conducted themselves in a fashion that has brought honor to themselves, their families, their school, and the entire community of Pueblo. It is always heartening to see young Americans meet such an extraordinary circumstance successfully. Courage like theirs strengthens and protects our communities everyday.

Mr. Speaker, I am honored to rise today and recognize the heroic efforts of Nick Pino before this body of Congress and this nation. Nick's quick actions, coupled with those of his fellow students, prevented a terrible fire from ending in great tragedy. Their selfless actions are an inspiration to us all, and it is an honor to represent such an outstanding group of Americans in this Congress.

IN RECOGNITION OF GOUVERNEUR HEALTHCARE SERVICES

HON. CAROLYN B. MALONEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mrs. MALONEY. Mr. Speaker, I would like to pay tribute to Gouverneur Healthcare Services, on the occasion of their Annual Chinese New Year Celebration. Founded in 1885, Gouverneur Healthcare Services has a rich and lengthy history of providing innovative healthcare services for New Yorkers and their families.

In 1885, Gouverneur made history by becoming America's first public hospital to establish a tuberculosis clinic. As a pioneer in healthcare, it was also the first institution to employ a female physician on its ambulance service as well as the first to set up day camp on a boat for undernourished adults and children. A century later, Gouverneur established Project HELP, the first psychiatric mobile crisis unit for homeless, mentally ill individuals. These are just a few examples of Gouverneur's ability to create innovative programs to fulfill the needs of our community.

Gouverneur's 210 bed Nursing Facility has provided outstanding skilled nursing and rehabilitation care for over a quarter of a century. Care is provided in an ethnically and culturally sensitive manner, with special programs for Chinese and Hispanics. In addition, Gouverneur's ambulatory care facility, with over 300,000 visits in FY 1998, is one of the city's busiest. Among Gouverneur's many notable services is the Diagnostic and Treatment Center, which is the largest in New York State, providing more than 300,000 visits each year. The center focuses on maintaining patient wellness through a wide range of outpatient diagnostic and healthcare services including general medicine, pediatrics, gynecology, obstetrics, HIV care, behavioral health, dentistry, podiatry, dermatology and an eye clinic.

Gouverneur aims to reach all members of the culturally and ethnically rich Manhattan community. Special programs include the Asian Bicultural Unit, which provides psychiatric services for members of the Asian community, and the Roberto Clemente Center and the Sylvia Del Villard Continuing Day Treatment Program, which offer mental health programs designed to suit the needs of the Latino community.

Gouverneur's attentive concern and dedication to a multi-cultural patient population have made it a leader in providing services to non-English speaking patients. Gouverneur's staff is multilingual and is devoted to meeting each patients' individual needs. For example, Gouverneur's nursing facility provides Chinese, English and Spanish menus, with an emphasis on individual food preferences.

Gouverneur's multicultural services department works diligently to ensure that each and every patient feels comfortable while his or her healthcare needs are addressed. The department has members and volunteers that provide interpreting services in various languages, and printed materials are available in English, Chinese and Spanish throughout the facility. Gouverneur has also piloted TEMIS,
