COMMENDING ISRAEL ON THEIR ELECTIONS

SPEECH OF

HON. ELTON GALLEGLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 11, 2003

Mr. GALLEGLY. Mr. Speaker, on February 11, 2003, I was unavoidably detained and unable to vote on H. Res. 61. However, I would have voted yes.

As you know, I have always been a strong supporter of Israel. As the only democracy in the Middle East, Israel is a beacon of liberty and a model for her neighbors. As a country under siege and in an almost constant state of war against terrorists, Israel also serves as an inspiration for the United States as we continue our war against terrorists.

HONORING THE FLINDERS UNIVERSITY OF SOUTH AUSTRALIA WASHINGTON DC INTERNSHIP AND INTERNSHIP PROGRAM

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 12, 2003

Mr. HASTINGS of Florida. Mr. Speaker, it is with great pride and enthusiasm that I rise today to pay tribute to Flinders University of South Australia Washington, DC Internship Program. The Flinders University program is to be commended for providing five Australian college students with the opportunity to experience the American political process first hand, while at the same time, furthering the already strong relationship between the United States and Australia.

For the past six weeks, I have had the privilege to participate in the Flinders University program. The intern assigned to my office, Ms. Tamera Gale, has been an incredible asset to my staff and me. I have learned from her, and I certainly hope that she has learned from me.

Tamera is a third year college student at Flinders University in her hometown of Adelaide, Australia. She is majoring in American Studies. When speaking with her recently, Tamera expressed her appreciation for the opportunity to intern in my office. But as I told her then, I truly appreciate the opportunity to have her working with my staff and me.

During her time in my office, Tamera has assisted in the drafting of a resolution hon-

oring the long-standing U.S.-Australia relationship, as well as educating herself and others on the rich history of African Americans in the U.S. Armed Forces. The fruit of Tamera's labor has been passed on to my colleagues in the House of Representatives through my African American History Month Dear Colleague letters honoring the lives of a different African American military hero each day.

Mr. Speaker, we live in a good country filled with opportunity and good people. However, we venture outside of our borders all too little. The Flinders University of South Australia Washington, DC Internship Program provides Australian students with the opportunity to travel to the United States and view our democracy and life in our country. Equally, the program provides Members and staff with an opportunity to learn about the political process and life in Australia, a country and continent that too few of us visit.

It has been an honor to have Tamera intern in my office, and I wish her and her fellow interns good luck and fortune in all of their future endeavors. I look forward to participating in the Flinders program next year and urge my colleagues to do the same.

FEBRUARY IS AMERICAN HEART MONTH

HON. MARK FOLEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 12, 2003

Mr. FOLEY. Mr. Speaker, I would like to take this moment to help recognize February as American Heart Month.

As Co-Chair of the Congressional Heart and Stroke Coalition I am well aware of the seriousness that cardiovascular disease plays in the lives of approximately 62 million Americans today. The statistics are staggering:

One million Americans die from some form of cardiovascular disease each year—one American every 33 seconds.

Heart disease is the number one killer in the United States, topping cancer (549,000 deaths), Alzheimer's Disease (44,536) and HIV/AIDS (14,802).

Women in particular are greatly affected, with one in five having some form of cardiovascular disease.

Heart disease and stroke are expected to cost the U.S. over \$350 billion in 2003.

We should not be without hope, however, since cardiovascular diseases can be treated aggressively with a variety of procedures. Various treatment options include medicines for high blood pressure—a leading risk factor of heart disease and stroke, medicines that lower cholesterol, clot-buster medicines that can save the lives of heart attack patients and medicines that can prevent repeat heart attacks.

These means of combating heart disease are not cheap. This is why I have co-sponsored legislation in the past that will add more benefits to Medicare recipients, covering procedures such as cholesterol screening and medical nutrition therapy. I am looking forward to re-introducing the Medicare Wellness Act in the 108th Congress.

Even with the improved access to medical procedures and medicines, the American people still need to be educated on the issue of
