

Mullen, USN, Deputy Chief of Naval Operations for Resources, Requirements, and Assessments.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PRIVILEGE OF THE FLOOR

Mr. ALLARD. Mr. President, I ask unanimous consent to allow my judicial nomination staffer, Cory Gardner, to be allowed to sit next to me on the floor along with a member of Senator HATCH's Judiciary staff, Ryan Higginboth.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE CALENDAR

Mr. TALENT. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of the following calendar items en bloc: Calendar No. 54 and Calendar No. 55.

The PRESIDING OFFICER. The clerk will report the bills by title.

The legislative clerk read as follows:

A bill (S. 711) to amend title 37, United States Code, to alleviate delay in the payment of the Selected Reserve reenlistment bonus to members of Selected Reserve who are mobilized.

A bill (S. 712) to amend title 10, United States Code, to provide Survivor Benefit Plan annuities for surviving spouses of Reserves not eligible for retirement who die from a cause incurred or aggravated while on inactive-duty training.

There being no objection, the Senate proceeded to consider the bills.

Mr. MCCAIN. Mr. President, I rise to talk about two bills—S. 711 and S. 712. I am honored to cosponsor these bills with Senators LINDSEY GRAHAM, CHAMBLISS, and ALLEN. There may be others that also wish to cosponsor these bills to support our service men and women.

S. 711 simply authorizes a Selective Re-enlistment Bonus, SRB, for National Guard and Reserve service members who would be eligible for SRB if they were in a nonmobilized or drilling status. However, when they are mobilized under a Presidential select Reserve callup and they re-enlist during that period, National guardsmen and reservists are prohibited from receiving SRB payments until after they get off active duty or mobilization status sometimes 1 to 2 years later.

S. 712 authorizes Survivor Benefit Plan, SBP, benefits to survivors of National Guard and Reserve service members who die while performing inactive duty training or weekend drills.

This legislation provides equity with active duty service members and is consistent with Defense Department regulations when National guardsmen and reservists are mobilized under a Presidential select Reserve callup.

However, since January there have been 13 Reserve Component deaths during weekend military training while their units were preparing for Operations Enduring Freedom and Iraqi Freedom where families of National guardsmen and reservists did not receive the survivor benefit payments.

Furthermore, this legislation would cover those Reserve Component personnel who were serving in a drill status in the Pentagon during the attacks on the United States on 9/11.

This bill has the support of the Military Coalition, a consortium of nationally prominent uniformed services and veterans organizations representing more than 5.5 million members, the National Guard, and the Senate Armed Services Committee.

The roles and missions of the Reserve components has changed over the past several years, as the active duty force has evolved from the downsizing of our military forces during the last decade. I suspect that more changes will come as our national military strategy continues to evolve.

Instead, we have a military force that continues to rely more on the Reserve Components—men and women in the National Guard and Reserves—to go to war and to perform other critical military tasks abroad and at home. Many combat, combat support and other support missions are being carried on the backs of our active and Reserve Component forces—soldiers, sailors, airmen and marines.

For example, in March 2001, the Army National Guard 29th Infantry Division took command of the American peacekeeping mission in Bosnia. The significance of this deployment was enormous, considering that more than 75 percent of the 4,000 U.S. Army soldiers on the ground were Army Reserve and Guard soldiers from 17 states—not just headquarters' staff, but operational units as well.

More recently, in October 2002, Fighter/Attack Squadron 201's commanding officer received the call to mobilize that many Reserve Component commanding officers have recently received. With few exceptions over 100 Navy reservists mobilized with their 12 F/A-18 Hornet A-plus jets, and began work-ups with Carrier Air Wing 8 in Nevada and full day and night carrier qualifications at sea. The impact of this accomplishment cannot be overstated. It was the first time since the Korean War that an entire Naval Air Reserve Squadron has deployed aboard an aircraft carrier, and this time VFA-201's base was not Fort Worth, Texas but the flight deck of the USS Theodore Roosevelt, CVN-71.

The reports from the field are outstanding. VFA-201, like hundreds of other aviators during the first night of "shock and awe," flew their Hornets downtown to Baghdad. The pilots and their maintenance crews hailed from Texas, Arizona, California, New Mexico, Georgia, Florida, Nevada, Utah and Colorado. They are citizen soldiers. Thirteen of eighteen VFA-201 pilots are airline pilots who took a temporary leave of absence from their airline jobs.

They were similar to active duty sailors, yet they were different. Because they were reservists, every aviator has cruise experience, over 1,000 flight hours, and many have over 1,000 or 2,000 hours in the F/A-18. VFA-201's squadron aviators provided leadership

to the air wing in strike planning, flight execution and carrier operations. Their day and night time boarding rates and landing grades have exceeded all other Carrier Air Wing 8's squadrons.

While these are only two of the deployments that have taken place in recent years, they highlight the ever-increasing role of reservists in defending America's security interests around the world, and mark a radical departure from the past.

The figures are quite staggering when considered in total.

Today, nearly 60,000 reservists and National Guardsmen, including volunteers, are deployed under three Presidential callup orders for Bosnia, Kosovo, and Southwest Asia. For Operations Noble Eagle, Enduring Freedom and Iraqi Freedom over 275,000 men and women from the National Guard and the Reserves have been mobilized.

During each of the past 5 years, Reserve and National Guard service members have performed between 12 and 13.5 million duty days in support of the active force. These numbers are a direct contrast to 1990, when 1 million duty days were performed at a time when there were 25 percent more reservists.

Reservists also currently make up more than half of the airlift crews and 85 percent of the sealift personnel that are needed to move troops and equipment in either wartime or peacetime operations. In addition, reserve medical and construction battalions and other specialists are critical to a wide range of operations.

National Guard and Reserve service members are performing many vital tasks: from direct involvement in military operations to liberate Iraq in the air, on the ground, and on the sea; to guarding nuclear power plants in the United States; to providing support to the War on Terrorism through guarding, interrogating, and providing medical service to al-Qaida detainees; to rebuilding schools in hurricane-stricken Honduras and fighting fires in our western states; from overseeing civil affairs in Bosnia, to augmenting aircraft carriers short on active duty sailors with critical skilled enlisted ratings during at-sea exercises as well as periods of deployment.

I believe that the civilian and uniformed leadership of our Armed Forces and the Congress must recognize this involvement, and at a minimum provide equality in benefits for Reserve Component service members when they put on the uniform and perform their weekend drills or other critical training evolutions. Reservists, on duty, who resemble their active duty counterparts during training evolutions and are deployed at times around the world, should be treated equally when the administration and Congress provide for quality of life benefits.
