

medical devices save or improve the lives of patients around the world and this legislation will mean that patients will have access to new and improved devices in a much timelier fashion.

Mr. Speaker, the manner in which the Energy and Commerce Committee worked to enact the original bill and the legislation before us today should be a model for future legislative efforts. Because of the truly bipartisan process, the Medical Device User Fee and Modernization Act enjoys widespread support which will work to ensure its success. I commend the medical device community and my colleagues for their efforts to improve the delivery of health care to millions of Americans.
