Congressional Record

PROCEEDINGS AND DEBATES OF THE 108th CONGRESS, SECOND SESSION

Vol. 150

WASHINGTON, FRIDAY, JUNE 25, 2004

No. 90

Senate

The Senate met at 9:30 a.m. and was called to order by the Honorable ROBERT F. BENNETT, a Senator from the State of Utah.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray. Eternal God, Who stretches out the heavens and rules over land and sea, You keep Your promises to us. You restore power and glory to those who return to You. Our enemies stumble at the sound of Your footsteps. You give strength to the faint and endurance to the weary. Arise, O God, and show Yourself strong in these grand and awful times.

Reveal Yourself to our Senators that they may find hope in Your might. Remind them that the battles belong to You and not to them. Teach each of us that humanity simply cooperates with divinity in accomplishing Your purposes.

Be exalted, O Lord, among the nations until Your kingdom shall reign wherever the sun in its successive journey returns. May Your kingdom never end.

Amen.

PLEDGE OF ALLEGIANCE

The Honorable ROBERT F. BENNETT led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, June 25, 2004.

To the Senate:

Under the provisions of Rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable ROBERT F. BENNETT, a Senator from the State of Utah, to perform the duties of the Chair.

TED STEVENS,
President pro tempore.

Mr. BENNETT thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, today is the final day prior to the July 4 recess. I expect we will be in for a short period of morning business to allow Members to make statements. However, as we announced yesterday, there will be no rollcall votes today.

In addition, today is the final day to submit statements for the RECORD regarding the passing of our former President, Ronald Reagan. Again, these statements will be included in a book containing all of the tributes and services of 2 weeks ago.

This past week has been a challenging week, but as we discussed yesterday in the Senate, it was a satisfying week in that we have been able to complete two very important pieces of legislation, the Defense authorization and the Defense appropriations bills.

Today we still expect to clear for confirmation many of the pending ambassadorial nominations. I will be consulting with the Democratic leadership again this morning on these important diplomatic posts. We hope to have that confirmed prior to our adjournment. I will have more to say as to the sched-

ule when we return after the break a little bit later this morning prior to closing.

RECOGNITION OF THE ACTING MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Nevada is recognized.

RETURN SCHEDULE

Mr. REID. The question was asked six or seven times last night as we were leaving. Tuesday, when we come back, the leader has indicated there will be a vote sometime after 2:30. Those from the West are wondering if that might be closer to 5 o'clock. Has the leader made a decision on that?

Mr. FRIST. Mr. President, we will have a decision made before we close down this morning. We are right now looking at the schedule. That day we will likely be scheduling a judge, which will require some debate prior to that. For right now, what we have said is that vote will not occur before 2:30, Tuesday, July 6. We will modify that based on discussions.

Mr. REID. On our side, the Democratic leader has indicated he will hold the regular caucus on Tuesday. Do you plan to do the same thing?

Mr. FRIST. Mr. President, that is correct. We have announced to our caucus, as well, we will hold our policy lunches, our caucus lunches, on Tuesday. Tuesday will be a full day. We will be coming in Tuesday morning, in all likelihood, at 9:30 Tuesday morning. It will be a full and hopefully very productive day.

That week we are going to class action which we agreed to. Hopefully we will have one judge and go straight to class action. We will spend next week on class action. With so few legislative days when we come back after the recess—we have a total of 3 weeks, but we are not going to have that first

Monday—we have a lot to do in that 2¾ week session. Therefore, we will have to be pushing hard on Tuesday, Wednesday, Thursday, and Friday of that week.

DARFUR

Mr. FRIST. Mr. President, I mentioned last night the importance of this African Growth and Opportunity Act which we passed last night. In my comments, I also mentioned a restatement of my earlier comments in the day, a restatement of what has been said again and again on the floor. That is that we as a country and we as a world community need to focus attention on the Darfur region of Africa, of the Sudan in Africa.

Africa is a huge continent and a lot of people do not realize how big Sudan is. It is huge. When we say Darfur region, the Darfur region is the western part of the Sudan. If you look at the continent, it is almost in the middle of the continent of Africa. The Darfur region is huge. It is about the size of Texas.

Over the last year and a half, because it started as a civil war, militias fighting, government supporting the militias there, we have 2 million people in this region of Darfur, the size of Texas, who have been affected, 1.2 million people displaced, driven away from their homes, driven away from the land they might farm or, if they are herders, that they might herd animals on, families destroyed. A lot of people are fleeing west to, Chad, 30 or 40 kilometers away, to refugee camps. There are about a million displaced inside the Darfur region but away from their homes, away, many times, from their families and any chance of livelihood.

The rainy season has begun there. It began a few weeks ago and will continue. As the rainy season continues, conditions get worse and worse. Roads at that point cannot be traversed so we cannot get enough food going in. There is very little in the way of health supplies going in. We need to bring attention to that part of the world. The world needs to shine a spotlight on it.

I was delighted Secretary Powell announced yesterday he will be going to that part of the world. I understand Secretary General Kofi Annan also will be going to that part of the world, to bring increased attention on behalf of the Congress, with 200,000 people dead from what is happening there. They are dying.

Statistically, they are dying from disease: respiratory disease, water-borne disease, diarrheal disease, malaria, and a little bit of measles. Now, with the fighting, it may well be that the No. 1 cause of death there is the actual fighting.

Right now we are not able to get in sufficient aid. Aid and support is being restricted by the government in Khartoum. There is plenty of aid. The world community is ready to go in there, but right now there is a restriction by the government.

I am going to keep mentioning this issue on the floor at every opportunity because we have a chance to reverse this travesty. We are going to do that. Every opportunity we have as public officials, in interacting with the international community, we need to continue to put pressure on the government of Khartoum to recognize the travesty, the devastation that is going on in that country.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DASCHLE. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Democratic leader is recognized.

ARE AMERICANS BETTER OFF WITH REGARD TO HEALTH CARE?

Mr. DASCHLE. Mr. President, on a recent visit to South Dakota, I met a couple that impressed me a great deal. Their names are Lowell and Pauline Larson.

Throughout their life together, Lowell and Pauline farmed 160 acres just outside of Chester, SD. After a lifetime of hard work, they were looking forward to a well-earned retirement together.

But 2 years ago, Pauline suffered a stroke. Before the Larsons knew it, they had incurred \$40,000 in medical bills. Even though they had insurance, it only covered \$75 a day of Pauline's hospital costs. So Lowell did the only thing he could. He sold all his farm equipment and his cattle to pay the bills.

All they are left with is the deed to their farm, and if Pauline suffers another stroke, or if the MS she has been battling for the past 15 years gets worse, the Larsons know they may have to sell their farm.

I wish I could say that the Larsons' story came as a surprise to me, but it did not.

For the past 4 years, stories like the Larsons' have become commonplace. I've heard from businesses that have been forced to cut back on benefits or lay off workers in order to pay for escalating insurance premiums.

I have heard from retirees who have seen their life savings evaporate due to the skyrocketing cost of prescription drugs.

I have heard from families forced to sell the businesses or farms that have sustained their families for generations, because a child got sick and insurance just wouldn't pay for it.

I have heard from veterans who have been forced off the rolls of the VA and have nowhere else to turn for care.

I have heard from Native Americans forced to undergo a literal "life or limb" test to receive care at Indian Health Service facilities.

I have heard from National Guard members who face losing their health coverage once their Iraq deployment ends. And I have heard from citizens from all walks of life who can't afford the high cost of insurance, and who live in constant fear that an illness or an injury could throw them and their families into bankruptcy.

It's no mystery what is happening. Americans are being caught in the undertow of historic increases in the cost of health care.

Millions have lost their insurance. Tens of millions more know that they are just one layoff, or one illness, away from a life of poverty and poor health.

In this election year, as with every election year, Americans are asking themselves, "Am I better off than I was 4 years ago?"

With the cost of doctors' visits, prescription drugs, and monthly insurance premiums moving farther out of reach, the answer for most of us is clearly no.

America is enduring a health care crisis that is deepening with each passing month. And after four years of inattention from the White House, it is clear that when it comes to health care, as a nation, we are significantly worse off than we were just four years ago.

The scope of this crisis is staggering.

Since 2001, the amount workers are paying for their family coverage has increased by 50 percent, and the average premium for family health care is now above \$9,000 per year. Prescription drug costs rose at four times the rate of inflation last year alone.

Both businesses and workers are feeling the squeeze. And, as a result, we have seen unprecedented increases in the number of uninsured.

Each month since January 2001, an average of 100,000 Americans have lost their health insurance. Today, 44 million Americans have no health insurance whatsoever. The problem is even worse among minority communities. One in six Asian and Pacific Americans lacks insurance. For African Americans, it is one in five. For Latino Americans, it is one in three.

As startling as these numbers are, they do not include the tens of millions more who shuttle on and off the insurance rolls depending on unpredictable work schedules.

Nearly 82 million people lacked insurance at some point in the last 2 years.

The impact of losing health insurance can be catastrophic—for uninsured individuals, for families, and for our Nation as a whole. According to the National Institute of Medicine, children and adults without health insurance are less likely to receive preventive care and early diagnosis of illnesses. They live sicker and die younger than those with insurance.

Eighteen thousand Americans die prematurely each year because they lack health insurance.

Families suffer emotionally and financially when even one member is uninsured. Communities suffer as the cost
