The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California (Mr. RADANOVICH) and the gentleman from Arizona (Mr. GRIJALVA) each will control 20 minutes.

The Chair recognizes the gentleman from California (Mr. RADANOVICH).

Mr. RADANOVICH. Mr. Speaker, I yield 2 minutes to the gentleman from Colorado (Mr. BEAUPREZ).

Mr. BEAUPREZ. Mr. Speaker, occasionally on this floor we get to do win/win proposals, and this is clearly one of them.

This legislation is almost identical to legislation adopted by this Chamber earlier this session which I, the gentleman from Colorado (Mr. UDALL), and the gentleman from Colorado (Mr. TANCREDO) introduced. The difference is, this legislation actually is better. It is better in that it provides the United States Forest Service a 45-day window of opportunity to do their due diligence before the transfer actually takes place, and it also increases the acreage that the city of Golden is willing to trade to the government to accomplish this mission.

What is this mission? The mission is the city of Golden gets to increase its water storage capacity by 40 percent, which is critical to this small town in

my district, in exchange for 10 acres to connect a pipeline to the reservoir, the storage reservoir. The United States Forest Service will acquire 80 acres near the city of Evergreen which will stay perpetually green, maintaining pristine wilderness, and also an additional 56 acres that includes a portion of the Continental Divide Trail. Yes, the Continental Divide, that place where east and west divide and a pristine wilderness trail that is critical not only to our State but to much of the Nation as we connect from our southern border clear to our northern border.

Mr. Speaker, it is a privilege to see this legislation before this body. It is a privilege to rise in support of it. I thank the gentleman from California (Mr. RADANOVICH).

Mr. RADANOVICH. Mr. Speaker, I reserve the balance of my time.

Mr. GRIJALVA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have no objection to the consideration of this measure.

Mr. Speaker, I yield back the balance of my time.

Mr. RADANOVICH. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from California (Mr. RADANOVICH) that the House suspend the rules and pass the Senate bill, S. 2180.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

The Chair recognizes the gentleman from California (Mr. RADANOVICH).

Mr. RADANOVICH. Mr. Speaker, I yield myself such time as I may consume.

H.R. 3210, authored by the gentleman from Oregon (Mr. WALDEN), authorizes the Secretary of the Interior, acting through the Bureau of Reclamation, to conduct a water management feasibility study and environmental impact statement to evaluate integrated water resource management and supply needs in the Little Butte/Bear Creek Subbasins near Medford, Oregon.

The underlying water management effort is a collaborative Federal/State/local partnership to improve the health of the subbasins and increase the water-use efficiency of the three local irrigation districts. The studies will be completed in accordance with a memorandum of agreement between the bureau and the city of Medford. Today, Congress has the opportunity to make this collaborative effort come true for these Oregon watersheds. I urge adoption of the bill.
