CONFIRMATION OF SAMUEL BODMAN AS SECRETARY OF ENERGY

Mr. HATCH. Mr. President, I rise today to express my support for the Senate's confirmation of Dr. Samuel Bodman as our new Secretary of Energy.

I believe Dr. Bodman will bring considerable skill to the position of Secretary of Energy. Dr. Bodman's distinguished career speaks for itself. In the private sector, he excelled as a professor at MIT, president of an investment company, and chairman and CEO of a worldwide industrial company. In these positions, he gained a great deal of knowledge in financial markets and the impact energy and technology has on those markets. He further proved his capabilities in his service as Deputy Secretary of Commerce and Deputy Secretary of the Treasury. There is no question that Dr. Bodman is qualified to assume this important position.

As a Nation, we are far too dependent on foreign sources of energy and must work to increase our energy independence. While I support domestic oil production, I also believe that we must continue to develop alternative sources of energy in the United States. In my home State, Utah State University is working with the Department of Energy to that end. I was pleased that the Department of Energy recently awarded Utah State University a grant to further the university's studies into alternative energy research and development programs. Such programs are essential to ensure we can meet our Nation's future energy needs, and I admire the university for being at the forefront on this issue.

I have a great deal of respect for Dr. Bodman, and I look forward to working with him on the compelling energy issues facing our Nation. While there will certainly be challenges to overcome as we work to shape our energy policy and increase our energy independence, I am confident that Dr. Bodman will serve admirably in the position.

HOMELAND SECURITY GRANT ENHANCEMENT ACT

Mr. FEINGOLD. Mr. President, I am pleased to again be an original cosponsor of Senator COLLINS' Homeland Security Grant Enhancement Act. This important legislation will coordinate and simplify the often complicated and confusing homeland security grant process. This bill will make it much easier for local first responders to get funding by reducing the many, and often redundant, grant applications steps. The amendment also gives local officials far more flexibility in spending homeland security dollars, including paying for overtime costs associ-

ated with homeland security tasks and training. Successful programs, such as FIRE Act grants, the COPS program, and the Emergency Management Performance Grant program, are protected in this legislation.

The legislation also tackles the controversial topic of how to allocate funding. I believe it has struck a fair balance by both allocating funding based on threat, as recommended by the 9/11 Commission and others, and maintaining baseline funding so that States and local officials can have a predictable stream of funding to meet the homeland security needs faced by all jurisdictions. As Senator COLLINS noted, the support this bill has gotten from Senators from both large and small States is indicative of the balanced approach taken by this legislation.

The Senate adopted this measure by voice vote in the last Congress as an amendment to the intelligence reform bill and it is my hope that the Senate will soon take up and pass this important bill. Simplifying and rationalizing the current homeland security grant system should be a top priority. I urge my colleagues to support this legislation and to adequately allocate resources to meet our homeland security needs.
