

rates among high school students reached an all-time-high, with 36.4 percent of high school students reporting that they were current smokers.

As we celebrate the 10th annual Kick Butts Day on April 13, 2005, the picture is much improved. After nearly 10 years of hard work, our nation has turned the tide, and we are making unprecedented progress in reducing youth tobacco use in our country. By implementing scientifically proven solutions like tobacco tax increases, well-funded tobacco prevention programs and smoke-free air laws, we have reduced smoking rates among high school students by 40 percent since 1996.

Still, there is much work to be done. Tobacco use remains the leading preventable cause of death in our country, killing more than 400,000 people and costing the nation more than \$89 billion in health care bills every year. A quarter of all high school seniors still smoke, and another 2,000 kids become regular smokers every day, one-third of whom will die prematurely as a result.

Perhaps most troubling, a survey released March 31, 2005, by the Centers for Disease Control and Prevention (CDC) found that our progress in reducing youth smoking has slowed considerably or stalled completely. The survey found no statistically significant change in either high school or middle school smoking rates from 2002 to 2004.

Public health experts have pointed to several reasons for this leveling off in youth smoking rates: While states have cut tobacco prevention funding by 28 percent in the last three years and the American Legacy Foundation has also had funding reduced for its effective, national truth® youth smoking prevention campaign, the tobacco companies have increased their marketing expenditures to a record \$12.7 billion a year—more than \$34 million a day. More than two-thirds of all tobacco marketing dollars is spent on cigarette price discounts and free cigarette giveaways that make cigarettes more affordable to kids, who are very price-sensitive.

The recent CDC survey is a wakeup call to elected leaders at all levels that we cannot take continued progress in reducing youth smoking for granted and must redouble efforts to implement proven measures to reduce tobacco use, including tobacco tax increases, well-funded tobacco prevention programs, and smoke-free air laws. It is also critical that Congress enact legislation granting the U.S. Food and Drug Administration authority to regulate tobacco products, including the authority to crack down on marketing and sales to kids. If we take these steps, our nation will continue to achieve significant reductions in youth tobacco use. If we fail to do so, the progress we have made is at risk and could even reverse.

This report summarizes the progress we have made in reducing youth smoking in the United States and the challenges that remain.

PROGRESS IN REDUCING YOUTH SMOKING, SAVING LIVES AND SAVING MONEY

High school smoking rates have been reduced by 40 percent since reaching an all-time-high in 1997—in 1997, 36.4 percent of high school students smoked; today about 22 percent smoke (source: CDC's Youth Risk Behavior Survey and Youth Tobacco Survey).

Youth smoking rates have been reduced among all vulnerable age groups. Since smoking rates peaked in 1996–1997, we have reduced smoking by 56 percent among eighth graders, 47 percent among tenth graders and 31.5 percent among twelfth graders (source: National Institute on Drug Abuse Monitoring the Future Survey).

These declines mean that there are roughly 2 million fewer high school kids smoking

than there would have been if smoking rates had remained constant.

These reductions in youth smoking will prevent 600,000 premature deaths due to smoking.

These reductions in youth smoking will save \$32 billion in tobacco-related health care costs.

SUCCEEDING BY IMPLEMENTING SCIENTIFICALLY PROVEN SOLUTIONS

Our nation has succeeded in reducing youth smoking by implementing scientifically proven solutions, including tobacco tax increases, tobacco prevention programs funded with tobacco settlement and tobacco tax dollars, and smoke-free air laws that require all workplaces and public places to be smoke-free. We are making significant progress in implementing these solutions:

Cigarette Taxes—Forty-one states and DC have increased cigarette taxes since 1995, some more than once for a total of 79 separate cigarette tax increases. The average state cigarette tax has increased from 30.3 cents per pack on June 30, 1995, to 84.7 cents a pack (once all already approved cigarette taxes take effect July 1, 2005).

Smoke-Free Air Laws—In 1998, California became the first state to require all restaurants and bars to be smoke-free. Today, 10 states and 234 communities across America have strong smoke-free workplace laws. Seven states—California, Connecticut, Delaware, Maine, Massachusetts, New York and Rhode Island—have smoke-free laws that require all workplaces, including restaurants and bars, to be smoke-free. Three states—Florida, Idaho and Utah—have smoke-free laws that include restaurants, but not bars. Such laws now cover more than a third of the nation's population.

State Tobacco Prevention Programs—In 1996, only three states—Arizona, California and Massachusetts—had well-funded tobacco prevention programs. Today, 13 states do.

National Public Education Campaign—Another key factor in youth smoking declines has been the American Legacy Foundation's national truth® youth smoking prevention campaign. A study published in the March 2005 issue of the American Journal of Public Health found that declines in youth smoking accelerated after the launch of this campaign in 2000 and that there was a significant dose-response relationship between exposure to the truth® campaign's anti-smoking advertising and declines in youth smoking between 2000 and 2002, the period of the study.

DESPITE PROGRESS, CHALLENGES REMAIN

While our nation has made significant progress in reducing youth smoking, our work is far from done:

Tobacco use is still the nation's leading preventable cause of death, killing more than 400,000 people every year and sickening millions more.

Tobacco use costs our nation more than \$89 billion in health care bills and \$88 billion in productivity losses each year.

About 25 percent of high school seniors still smoke.

Every day, another 2,000 kids become regular smokers, one-third of whom will die prematurely as a result.

The tobacco industry is spending record amounts to market its deadly and addictive products. Since 1996, total tobacco marketing expenditures have increased by 144 percent to a record \$12.7 billion a year—more than \$34 million a day, according to the Federal Trade Commission's most recent annual report on cigarette marketing (for 2002). The tobacco companies spend more than \$23 to market cigarettes and other tobacco products in the U.S. for every dollar the states spend on programs to protect kids from tobacco. More than two-thirds of all tobacco

marketing dollars is spent on cigarette price discounts and free cigarette giveaways that make cigarettes more affordable to kids, who are very price sensitive.

While the tobacco companies have increased their marketing, the states have cut funding for tobacco prevention programs by 28 percent in the last three years (from \$749.7 million in Fiscal 2002 to \$542.6 million in Fiscal 2004). These cuts decimated some of the nation's most successful tobacco prevention programs, including those in Florida, Massachusetts and Minnesota. While more states have well-funded tobacco prevention programs today than 10 years ago, the bad news is that 37 states and DC are funding prevention programs at less than half the CDC's recommended minimum amount or providing no funding at all.

The progress of the past decade has shown that we have proven solutions to reduce tobacco use, including cigarette tax increases, well-funded tobacco prevention programs and smoke-free air laws. These solutions are the equivalent of a vaccine that protects kids from tobacco addiction and its deadly consequences. But like other vaccines, this vaccine must be administered to every generation of children. Otherwise, the tobacco epidemic will explode again, at great cost in health, lives and money.

CONGRATULATIONS TO MISS USA, CHELSEA COOLEY

HON. SUE WILKINS MYRICK

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mrs. MYRICK. Mr. Speaker, on April 11, 2005, Miss North Carolina, Chelsea Cooley, won the Miss USA pageant. I congratulate her on this momentous accomplishment and want her to know that everyone in her hometown of Charlotte, NC, is very proud of her.

The Miss USA pageant is a competition where America's best and the brightest young women compete for the crown of Miss USA. It is truly a great accomplishment for Chelsea to have been crowned as the winner of this tough competition.

Currently, Chelsea is studying fashion marketing at the Art Institute of Charlotte. She listed that her dream job would be working as a buyer for Ralph Lauren. I have no doubt that she can achieve this, and many other, dreams.

Chelsea will now go on to represent the U.S. this May in the Miss Universe competition in Bangkok, Thailand. Chelsea's hometown of Charlotte, North Carolina, will again be cheering her on as will the whole country. We know she will represent us well and will do our country proud.

HONORING THE CONTRIBUTIONS OF NEW BRAUNFELS CITY ATTORNEY CHARLES E. ZECH

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to honor the contributions of City Attorney Charles E. Zech.

Charles Zech serves as the City Attorney for New Braunfels, Texas. He handles all aspects

of municipal representation for the City of New Braunfels by providing representation and legal advice to the City Council, city employees, and 27 boards and commissions.

Before graduating from Southwest Texas State University with a Bachelor of Business Administration in Economics and Finance, Mr. Zech was a member of the United States Navy. He went on to receive his law degree from St. Mary's University School of Law. Attorney Zech is licensed to practice in all County and District Courts of Texas, the Texas Supreme Court, and the United States District Court.

He is a member of the Texas Bar Association, the San Antonio Bar Association, the Comal County Bar Association, and the Phi Alpha Delta International Legal Fraternity.

As an active member of the Board of Directors of the Texas City Attorney's Association and the chair of the ethics section of the International Municipal Lawyers Association, it is obvious that Mr. Zech plays an active role in the legal community.

Mr. Speaker, I am proud to have this opportunity to recognize New Braunfels City Attorney Charles Zech for his dedication and contributions to the community and his service to our Country.

CONGRATULATING THE PRESIDENT OF THE TENNESSEE STATE UNIVERSITY, DR. JAMES A. HEFNER, ON HIS RETIREMENT

HON. JIM COOPER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. COOPER. Mr. Speaker, I rise today to recognize the extraordinary contributions of Dr. James A. Hefner, President of the Tennessee State University, and to congratulate him on the occasion of his upcoming retirement on May 31, 2005.

During 14 years of leadership as President of TSU, Dr. Hefner has operated under the motto that "a passionate faculty are the most important instruments of change in the academic environment." He is indeed "passionate" about encouraging students to reach higher academic heights and he is a strong advocate for excellence in education.

Dr. Hefner has helped countless students realize their educational goals and subsequent contributions to the community. Under his leadership, enrollment at TSU has grown from 7,405 in 1991 to 9,100. Dr. Hefner has elevated the standing of TSU to the extent that, for the past 11 years, the University has been consistently recognized in the U.S. News & World Report's "Guide to America's Best Colleges."

His rich career has spanned many areas of academia. Dr. Hefner has held positions as president of two universities, administrator, professor, writer and speaker. He credits the single common element of his success to his devotion to students. He strives to improve the education and financial conditions of minorities and is recognized as a renowned authority on minority economic issues. Dr. Hefner has authored 50 articles on economic research and authored or co-edited two books: *Black Employment in Atlanta and Public Policy for the Black Community: Strategies and Perspec-*

tives. He has served on many regional and national boards and associations dedicated to scholarship in economics, labor relations and public management. He is a consultant to the Congressional Black Caucus, the National Institute of Public Management, the Department of Health, Education and Welfare, and the Department of Transportation. In addition to numerous honors, publications and professional leadership positions, Dr. Hefner was awarded the Presidential Leadership Award from the National Association for Equal Opportunity in Higher Education (the organization's highest honor) and the Achievement Award in Research.

On behalf of the Fifth District of Tennessee, I join with Tennessee State University as they celebrate Founders Day to thank my friend and colleague, Dr. James A. Hefner, for his generosity, commitment and dedication to American scholarship and service to the State of Tennessee. I extend my heartfelt congratulations on his retirement and wish him all the best in his future endeavors.

IN TRIBUTE TO PATRICIA HAVENS

HON. ELTON GALLEGLY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. GALLEGLY. Mr. Speaker, I rise to pay tribute to Patricia Havens, who has dedicated her life to preserving, researching and re-telling the history of my hometown of Simi Valley, California, and who will be honored this Saturday for her decades as a teacher, director and author in pursuit of that dedication.

Forty years ago, Pat Havens and 3 others founded the Simi Valley Historical Society. The society, largely under Pat's guidance, has been responsible for documenting and saving local buildings and antiques of historical significance. Many of them are now housed at the Strathearn Historical Park and Museum, where Pat serves as the Museum Director. The projects are ongoing.

The society is currently renovating Simi Valley's first house of worship, which opened as a Presbyterian church in 1902 and became a Catholic church 10 years later. The Rancho Simi Recreation and Park District purchased the building in 2002 and moved it to Strathearn Park, where it joins the Simi Adobe, which was built during the early days of the city's Spanish period beginning in 1795; the Strathearn family farmhouse that was built onto the adobe in 1892; the Simi Valley Library building that served the community from 1930–1962; and many other buildings and artifacts that tell the valley's story.

Preservation has not been enough for Pat Havens, however. Thirty years ago she began teaching the "History of Simi Valley" program and five years ago, in collaboration with Bill Appleton, she published through the historical society a comprehensive history of the valley, "Simi Valley: A Journey Through Time."

The City Council named Pat as Simi Valley's first City Historian while I was mayor of the city, a post she still holds.

Pat's ties to Simi Valley run deep. Although born in Arkansas, she moved here as a young girl and graduated from Simi Valley High School in 1947 with her future husband, Neil. Neil Havens served as the city's postmaster

for 30 years, following in the steps of his father and grandfather, and died peacefully last year. Together they raised three children in Simi Valley, Debra, Barbara and Russ.

During Pat's lifetime, Simi Valley transformed from a farming community into a thriving suburban city of 120,000 people. Thanks in large part to her efforts, Simi Valley's past was preserved before it slipped away. Mr. Speaker, I know my colleagues join me in thanking Pat Havens for dedicating 40 years to preserving Simi Valley's history and for helping to make it relevant to our lives today.

HONORING THE CONTRIBUTIONS OF THOMAS C. LOPEZ OF THE SAN ANTONIO INDEPENDENT SCHOOL DISTRICT

HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 13, 2005

Mr. CUELLAR. Mr. Speaker, I rise today to recognize Thomas C. Lopez of the San Antonio Independent School District for his dedication to public service.

A long time resident of Texas, Thomas C. Lopez was born in San Antonio. He is a strong believer in his community, where he continues to work hard ensuring that our children receive the education that they deserve.

Thomas C. Lopez is no stranger to public service. He spent thirty-four years in the United States Army Reserve in active and reserve time. Having served his country, he retired with the rank of Major in 2004.

A strong believer in education, Mr. Lopez currently serves as Secretary and District 5 Trustee of the San Antonio Independent School District. He has also helped to improve our community through his involvement with the Affordable Housing Board of San Antonio Housing Services.

Mr. Lopez has striven to achieve the continued rebuilding of our inner-city neighborhoods. Because of his dedication toward education and housing, San Antonio, Texas is a better place for our families to live.

Mr. Speaker, I am deeply proud to have been given this opportunity to recognize Thomas C. Lopez of the San Antonio Independent School District for his dedicated service to his community.

HONORING THE LIFE AND ACHIEVEMENTS OF HIS HOLINESS POPE JOHN PAUL II AND EXPRESSING PROFOUND SORROW ON HIS DEATH

SPEECH OF

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 6, 2005

Ms. ROYBAL-ALLARD. Mr. Speaker, I rise today to honor His Holiness Pope John Paul II.

As the first non-Italian pope in 455 years, Karol Wojtyla would have drawn distinction no matter what his papacy held. However, his 26-year reign as the 264th pope has proven to be a remarkable and historic papacy.
