

company flourished, becoming one of the largest international distributors of specialty tubular products.

In addition to his strong business ethics, Maurice was known for his generosity in his private life. He had earned a reputation of having a commitment of giving both time and resources to improve the quality of life for his family and his neighbors. He was the embodiment of a renaissance man: a constant learner, a collector, accomplished tennis player, scholar of art history, and a man of culture who sought to bring the joys of the fine arts to the Butler community. He was also known for his devotion to many charitable causes. Maurice served as a director for the Butler County Memorial Hospital, worked with the United Way, and the Butler YMCA. In addition, he served as president and chairman of the board of Irene State Community Mental Health Center, and was chairman of the Tri-State District of the United Jewish Appeal.

The life of Maurice Horwitz serves as a role model for us all to follow. He embodied the word service in its finest sense through his kindness, hard work and generosity and will greatly be missed by all.

Mr. Speaker, I hope my colleagues will join me in commemorating the life of Maurice Horwitz.

RECOGNIZING THE COAST GUARD,  
COAST GUARD AUXILIARY AND  
NATIONAL SAFE BOATING COUNCIL  
FOR THEIR EFFORTS TO  
PROMOTE NATIONAL SAFE  
BOATING WEEK

SPEECH OF

**HON. E. CLAY SHAW, JR.**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 23, 2005*

Mr. SHAW. Mr. Speaker, I rise today to recognize and support the efforts of the United States Coast Guard, the Coast Guard Auxiliary, and the National Safe Boating Council as they coordinate yet another successful National Safe Boating Week, May 21–27, 2005.

In 2003, an estimated 78 million Americans enjoyed recreational boating on the approximately 13 million recreational vessels registered throughout the nation. Boating has truly become a treasured piece of American culture.

Thanks to the efforts of many, boating is becoming safer as it grows more popular. Boating fatalities have been cut in half since the 1970's due to increased boater education, more widespread use of life vests, and safer boating equipment.

Nonetheless, we have much work to do. In 2003, 703 Americans died in boating-related accidents. Sadly, half of these deaths could have been prevented had proper flotation devices been used.

I have co-sponsored, along with Representative JIM COOPER and Representative GENE TAYLOR, House Resolution 243, which aims at increasing boating safety education and accident prevention and supports the goals of National Safe Boating Week. As Co-Founder and Co-Chairman of the Congressional Boating Caucus, I certainly understand the importance of these issues on recreational boaters.

Mr. Speaker, the upcoming Memorial Day holiday marks the unofficial start of the sum-

mer boating season in South Florida. As such, we must continue to support boating education and awareness so that our waters can be a fun and, above all, safe place for all Americans to enjoy.

ON THE RETIREMENT OF GENE A.  
LUNDQUIST

**HON. WILLIAM M. THOMAS**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 25, 2005*

Mr. THOMAS. Mr. Speaker, I rise today to honor my constituent and friend, Mr. Gene A. Lundquist, of Bakersfield, California, upon his recent retirement from Calcot, Ltd., where he had an accomplished 36-year career. Although I will miss working with Gene on issues of importance to Kern County and California, I wish Gene and his family well as he enters this next stage of his life.

Gene was born in Bakersfield, California, graduated from Arvin High School, and earned his Bachelor of Science from Colorado State University. He then served two years in the Army, where he was awarded the Decorated Army Commendation Medal.

Gene joined Calcot in 1969, and spent the next 36 years working hard to further the interests of cotton growers in California and Arizona, who grew to admire him for his dependability and effectiveness. During his career, he directed the grower relations program, was active in Management Committee and Board of Directors activities, and most recently served as the Vice President of the Legislative and Public Affairs Department. Through his strong relationships with growers, manufacturers, and legislators he was able to expand markets for raw cotton to textile producers.

During his distinguished career, Gene used his talent and time to serve Kern County and local farmers on a broad range of agricultural and water issues through his active involvement with various agencies, committees, and boards. In fact, Gene became an integral component of the local agriculture and water communities and is known simply as someone who can get the job done.

Gene's involvement in these organizations was broad but deep. For instance, Gene served as Chairman of the Water Association of Kern County, Chairman of the Board of the Agricultural Council of California, Director of the California Farm Water Coalition, President of the Kern County Water Agency (he remains on its Board of Directors), Member of the Cotton Board, and as Delegate to the National Cotton Council of America. He also was appointed to the California Governor's Agricultural Summit, and participated in the California Agricultural Leadership Program, where he traveled to Africa to learn more about the governments and economies of Egypt, Ethiopia, Kenya, Nigeria, and South Africa.

As he enters retirement, Gene leaves behind a legacy of dedicated service, expertise, and accomplishment. Accordingly, I thank Gene for all of his contributions and wish him well.

CELEBRATING ASIAN PACIFIC  
AMERICAN HERITAGE MONTH

SPEECH OF

**HON. GRACE F. NAPOLITANO**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 23, 2005*

Mrs. NAPOLITANO. Mr. Speaker, I rise today to recognize Asian Pacific Heritage Month and honor the Asian Pacific Americans who make such a positive impact in the state of California and my district.

California is home to more Asian Pacific Americans—4.6 million—than any other state and it has also seen the greatest increase in this population since 2000. In my congressional district, more than 76,000 Asian Pacific Americans contribute to the vibrancy and diversity of our communities. Their effect in the community has also been felt on an economic level, including the many thriving small businesses they run. It has also been felt on a spiritual level, as a number of Buddhist temples—including the nation's largest in Hacienda Heights—has helped raise cultural awareness throughout our communities.

Since the early 1800's, Asian and Pacific Americans have been crucial to the development of our country. They helped build our transcontinental railroads and have fought for our nation, beginning with the Civil War. While our country wrongly imprisoned many Asian Americans in internment camps during World War II, Japanese Americans and Filipinos valiantly fought for this country and our freedom and continue to do so today.

It took our country much too long a time to apologize and compensate the Asian Americans that were wronged. And it is shameful that the United States continues to fail Filipino veterans by not keeping our promise to give them full veteran's benefits for their service. I am a proud cosponsor of H.R. 302, which would repeal the provisions that deny benefits for those who served our country, fought in the organized military forces of the Philippines and as Philippine Scouts in World War II.

As the chair of the Congressional Hispanic Caucus, I have also seen the same type of barriers placed before our Asian and Pacific American brothers and sisters that have troubled my fellow Latinos. We are working with the Tri-Caucus—consisting of the Congressional Hispanic Caucus, the Congressional Black Caucus and the Congressional Asian Pacific American Caucus—to close the gap in affordable health care coverage and accessibility that continues to heavily impact all of our communities. Together in the last session of Congress, we cosponsored the Healthcare Equality and Accountability Act, H.R. 3459, and expect to reintroduce the bill in the coming weeks. So many issues, especially dealing with healthcare, small business assistance and education difficulties for bilingual students, affect both of our communities.

I am committed to reducing the inequities for all our minority populations. As we celebrate our nation's Asian Pacific heritage this month, be assured I will continue to work year round to ensure future generations have the tools and opportunities they need to thrive.

TRIBUTE TO JOHNSON COUNTY,  
KANSAS, DISTRICT ATTORNEY

**HON. DENNIS MOORE**

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 25, 2005*

Mr. MOORE of Kansas. Mr. Speaker, for 12 years, I had the honor of serving as Johnson County District Attorney. I was proud of the accomplishments of our office during my tenure, including establishing the first Victim Assistance Unit, and beginning programs to protect the victims of family violence—spouse abuse and child abuse.

When I left office to enter private practice, one of my Assistant District Attorneys, Paul Morrison, was elected and was sworn in as Johnson County District Attorney in 1989. This year Paul is celebrating 25 years of working in the Johnson County District Attorney's office, the last 16 as District Attorney.

As my Assistant D.A., Paul headed up our county's narcotics prosecution efforts, and tried many homicide cases. As District Attorney, he and his office have been tough, but fair. His professionalism is unquestioned. Paul has continued the tradition of personally prosecuting many of Johnson County's most difficult and serious cases. During his 25 years as a prosecutor, Paul has tried over 100 jury trials, including many complex homicide cases. Among the accomplishments during his years as D.A., Paul has established a gang task force, successfully promoted "hard 40" legislation to increase sentences for murder, and helped establish D.A.R.E. programs in our county.

All of Paul's friends enjoyed this story: two years ago, on his 49th birthday, Paul was driving down a suburban street when he witnessed a burglary. Paul followed one of the suspects in his car, and ended up chasing him down on foot. Two youths were charged with burglary, theft and possession of alcohol.

Paul is a past president of the Kansas County and District Attorneys Association and of the Johnson County Bar Foundation. He is a past recipient of the Clarence M. Kelly Award for Excellent in Criminal Justice Administration in Kansas City, and was named 2001 Prosecutor of the Year by the Kansas County and District Attorneys Association.

Paul has actively supported community organizations, serving as board president of Sunflower House and Safehome, Inc., two organizations that began during my term as D.A. Paul has also been active in the Metropolitan Organization to Counter Sexual Assault (MOCSA), where he served on the board and chaired the Johnson County Advisory Council. He has also chaired the Johnson County United Way campaign.

Paul and his wife Joyce are the proud parents of three children, and are active in their church, Good Shepherd Catholic Church in Shawnee, Kansas.

Mr. Speaker, on Friday, June 3rd, a reception in the Johnson County Courthouse will celebrate Paul Morrison's career in the District Attorney's office. Although I am unable to attend, I am proud of Paul and I want to recognize my friend for devoting his career to protecting our families and our community. The citizens of Johnson County hope his career continues for many more productive years.

RECOGNIZING WILLIAM "BILL"  
BROOKS

**HON. ALBERT RUSSELL WYNN**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 25, 2005*

Mr. WYNN. Mr. Speaker, it is with great pleasure that I rise today to recognize William "Bill" Brooks on his retirement as a member of the Board of Directors of the National Association of Federal Credit Unions (NAFCU). A native of Maryland, Mr. Brooks has served on the Board of Directors of NAFCU since 1996, and with 28 years of experience in the credit union industry I know that his presence will be sorely missed by NAFCU.

Mr. Brooks began his credit union career in 1976, working as an Examiner with the National Credit Union Administration (NCUA). He later moved on to the Government Printing Office Federal Credit Union, where he served as the President/CEO. After a short period working as a CPA, Mr. Brooks took a position as President/CEO of Lafayette Federal Credit Union. Today, he serves as the President/CEO of First Combined Community Federal Credit Union, located in Kensington, Maryland.

Mr. Brooks is also heavily involved in the Credit Union Cherry Blossom Run, which benefits the Children's Miracle Network. Several years ago, after the race lost its sponsor and needed a new one, Mr. Brooks was the driving force behind getting credit union sponsorship of the race and establishing a partnership with the Children's Miracle Network. He is Chairman Emeritus of the Credit Union Miracle Day, Inc. Board of Directors. This year, the event raised \$400,000 in donations, and to date, the run has raised over \$1 million in donations for the Children's Miracle Network.

I congratulate Mr. Brooks on his longtime service to NAFCU, and to the entire credit union community. While this marks the end of his time at NAFCU, I am certain it also marks a beginning for some new activity to which he will no doubt tirelessly devote himself. Congratulations on your retirement from the NAFCU Board, Mr. Brooks.

RECOGNIZING THE CONTRIBUTIONS OF ANN R. MCNAIR IN SUPPORT OF AMERICA'S EXPLORATION OF SPACE

**HON. TERRY EVERETT**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 25, 2005*

Mr. EVERETT. Mr. Speaker, I would like to recognize the efforts of Ann R. McNair, who serves as the Director of the Mission Operations Laboratory in the Engineering Directorate, Marshall Space Flight Center, Huntsville, Alabama.

A native of Moundville, Alabama, Ms. McNair is a graduate of the University of Alabama where she earned a Bachelor of Science in Mathematics and Physics. Ms. McNair accepted an engineering position with the Army in 1958 and was transferred with the von Braun team to NASA in July 1960 when that group became the nucleus for the George C. Marshall Space Flight Center in Huntsville, Alabama.

Ms. McNair is responsible for the expert technical and programmatic direction of the operations ground support facilities, including operational control, engineering, and training for all programs supported at the Huntsville Operations Support Center. Her work encompasses the Payload Operations Integration Center (POIC) for International Space Systems, the U.S. Payload Control Center for International Space Systems, and the U.S. Operations for International Space Systems. Additionally, Ms. McNair has been involved in the development, implementation, and verification of Chandra Operations Control Center and deployment for a remote non-NASA location, the Smithsonian Astronomical Observatory at Cambridge, Massachusetts—a first for NASA.

Ms. McNair has authored several technical papers and has been recognized with numerous awards, including the NASA Exceptional Service Medal in 1973 and 1989 as well as the NASA Exceptional Achievement medal in 1998. She has also been selected as a member of the 1998 SES Center Development Program.

I join with Ms. McNair's family, friends, and the state of Alabama in honoring, the public service of Ms. Ann R. McNair and congratulate her on an outstanding career.

STEM CELL RESEARCH  
ENHANCEMENT ACT OF 2005

**HON. MICHAEL E. CAPUANO**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 25, 2005*

Mr. CAPUANO. Mr. Speaker, I rise today to express my strong support for H.R. 810—the Stem Cell Research and Enhancement Act.

I want to make it clear that the type of scientific research some in this chamber are trying to prevent will occur. It is occurring as we speak—all around the world.

However, we face a substantial threat that in this new field, with all of its promise and potential, America will be left behind. If our current political leadership continues to restrict research as other countries embrace it—we risk losing not only our research edge, but also our scientists. American scientists will pursue their research in places like Korea and Israel, and international scientists will no longer come to America as they have for generations . . . people like Einstein and Fermi, just to name two.

Make no mistake—as a result of the restrictive policies of this Congress and the current Administration, many companies may not invest in this research here in America. However, American companies will make sure that they have a piece of this business by investing in foreign countries where the basic research has been performed, scientists have perfected the techniques, and the government is welcoming to their industry, not hostile to it. Private industry will look for a place to make these investments because the chance that this research could produce cures for many devastating diseases seems very good not only to scientists, but also to business leaders.

It is simple: There is no question that this research will occur; there is no question that this research will result in scientific breakthroughs; there is no question that this science
