STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. KOHL (for himself and Mr. DURBIN):

S. 1826. A bill to amend the Internal Revenue Code of 1986 to allow a credit to encourage employers to offer flexible and phased work opportunities to older workers, to expand the credit for dependent care expenses to cover eldercare expenses, to extend COBRA coverage for certain older workers who lose health insurance coverage due to a reduction in work, to improve older workers' access to job training services, and for other purposes; to the Committee on Finance.

Mr. KOHL. Mr. President, I rise today to discuss an issue that will greatly affect our Nation's aging population, workforce, and economy: the need to expand opportunities for older Americans to continue working into their later years if they so choose.

As older Americans live longer and healthier lives, many are planning to work longer. According to a recent survey, 80 percent of baby boomers expect to work past traditional retirement age. Some may recognize the physical and mental benefits of work, while some may need the additional income to remain financially secure. Whatever

the reason people decide to stay on the job, it's time to change the way our Nation thinks about retirement. A one-size-fits-all retirement will no longer match the very different plans that seniors and baby boomers have for their later years.

Rethinking retirement is also vital to our Nation's economic future. By 2030, businesses could face a labor force shortage of 35 million workers, and the projected slowdown in labor force growth could translate into lower economic growth and living standards. However, we can soften the potentially serious impact of these trends if we develop policies that expand opportunities for older Americans to work longer.

Today, we are taking a first step by introducing The Older Worker Opportunity Act. This legislation addresses a variety of issues that affect older workers and employers: workplace flexibility, pensions, health insurance coverage, job training, and caregiving needs. Back in April, as ranking member of the Aging Committee, I chaired a hearing on older workers which identified barriers and disincentives to working longer. This legislation specifically targets those.

First, today's workplace rarely offers flexible and part-time work arrangements for older workers. Most older workers would choose to work past traditional retirement age, but would prefer to gradually transition into retirement instead of fully retiring at a traditional retirement age.

To encourage employers to offer flexible and part-time work arrangements, we propose a tax credit for employers that give their older workers such opportunities while protecting them from the loss of health or pension benefits. Our aim is to encourage more workplace flexibility, which would benefit both older workers and employers through increased productivity and job retention.

Second, the bill provides an extra safety net for older workers who reduce their work but whose employers do not keep them on their health plan. In those cases, of course, the employer would not qualify for the tax credit we are offering. However, we would extend COBRA coverage from 18 to 36 months for their workers from the age of 62 until they are eligible for Medicare.

Third, one major reason why older workers exit the workforce is the need to care for aging family members. Older workers who are also caregivers often face a significant loss of earnings and retirement income, and their employers lose up to \$29 billion per year in lost work time and productivity. To help older workers balance the demands of work and caregiving, and to help employers by increasing productivity and reducing turnover costs, we propose expanding the dependent care credit to cover the care of chronically ill family members.

Fourth, as GAO has found, job training programs are often discouraged

from enrolling older workers because their effectiveness is measured in part by participants' earnings. Older workers tend to seek part-time work and receive lower earnings when they get new jobs. As a result, older workers do not have access to the training services they need to develop their technological skills and increase their productivity. We propose adjusting older workers' lower earnings when measuring the success of job training programs in order to more accurately reflect the value of job training programs to the older workforce. We also ask states to collect more data on the success of our current job training programs in meeting the unique needs of older workers.

Fifth, it is clear that the barriers this bill addresses are not the only barriers facing older workers. This bill is just the beginning. Therefore, we propose a "Task Force on Older Workers," composed of experts from all relevant federal agencies, to further identify barriers and disincentives in current law, and recommend solutions.

We face an historic challenge, and with it, an historic opportunity. We need a 21st century workplace that is a win-win for both older workers and their employers—and an effective strategy for retaining our competitive advantage against other countries facing the same demographic tidal wave. We need to usher in a new age of work and retirement in which seniors are not limited to a choice between one or the other. We need to empower seniors to make the continued contributions we all know they can to our economy and our communities.

Many older Americans and employers have already begun to pave the way. More older Americans are willing and able to continue making a contribution to the workplace and our economy, and more employers are beginning to recognize the value of older workers. We must incorporate this new mindset into our national culture, and develop policies that reflect this reality. Our seniors deserve it, and our economic future may well depend on it.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD, and that the attached letters of endorsement also be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

INTERFAITH,
Milwaukee, WI, September 29, 2005.

Hon. HERB KOHL,
U.S. Senate, Hart Senate Office Building,
Washington, DC.

DEAR SENATOR KOHL: It is a privilege to support Senator Kohl's proposed “Older Worker Opportunity Act of 2005.” As an agency that has been providing employment services to older workers for over 25 years, Interfaith Older Adult Programs has first hand knowledge of the value of retaining older workers in the workplace. As stated in the Act, our country is facing a great labor shortage. Terry Ludeman, Chief Economist for the State of Wisconsin, has estimated that in our State by 2017 there will not be enough 18-year-olds to replace workers turning 65.

The proposed tax credit would provide incentive to encourage employers to offer more flexibility in the workplace and encourage support for older individuals who want to stay in the workforce longer. It will also allow work/life balance that is a very important value to individuals as they age.

Extended COBRA coverage would also be a great encouragement to mature workers wanting to cut back but not leave the workforce. Providing the extended COBRA might be just the incentive a 62-year-old needs to continue working part time. The extended COBRA could help employers and older workers transition gradually to full retirement at a later age.

A tax credit for eldercare would be a wonderful benefit to seniors that are balancing the responsibilities of work and taking care of a non-dependent individual with significant health issues. Employers will benefit from having employees that are more productive because they are worrying less about family responsibilities of direct caregiving.

Interfaith strongly supports the creation of a separate set of performance measures for the older worker under the Workforce Investment Act. Statistically, mature workers stay with an employer longer than their younger co-workers, take fewer sick days, and are less likely to have an on the job injury. This results in increased productivity and decreased cost to employers. Retention outcomes should actually be enhanced because of the older workers' work ethic, the pride they take in their work and their loyalty to their employer.

We are faced with the unique opportunity to expand the use of the Senior Community Service Employment Program (SCSEP) through a strong attachment to the Older Worker Opportunity Act.

A Federal Task Force on Older Workers could be very helpful, especially one that would include private sector employers, governmental agencies, older worker service providers and older workers themselves.

Sincerely,

CAROL ESCHNER,
Executive Director.

Employment Services
Director.

GOODWILL INDUSTRIES
OF SOUTHEASTERN WISCONSIN, INC.,
Milwaukee, WI, September 29, 2005.

Hon. HERB KOHL,
U.S. Senate
Washington, DC.

DEAR SENATOR KOHL: Goodwill Industries of Southeastern Wisconsin, Inc. (Goodwill) is pleased to support your Older Workers Act of 2005.

As you may know, Goodwill has a long history of supporting and promoting older workers. Our designation as an “Elder Friendly Workplace” with the Wisconsin Department of Workforce Development, demonstrates our commitment to this remarkable group of workers.

Goodwill, as a leader in the area of workforce development and training, recognizes that the nation's workforce is about to experience a major change. As the “boomers” move closer to retirement, employers across the nation will need to find creative ways to keep these individuals engaged. Your proposed legislation offers many viable solutions that would encourage both employers and older workers to continue their relationship well past the customary retirement age.

Thank you for recognizing and supporting the tremendous value of the older worker. Goodwill is pleased to support you in this effort.

Sincerely,

JOHN L. MILLER,
President and C.E.O.

AGEADVANTAGE, INC.,
Madison, WI, October 1, 2005.

Hon. HERB KOHL,
U.S. Senate, Hart Senate Office Building,
Washington, DC.

DEAR SENATOR KOHL: AgeAdvantage, Inc. would like to extend our full support of your proposed legislation; The Older Worker Opportunity Act of 2005.

AgeAdvantage is an Area Agency on Aging overseeing the provision of services funded by the Older Americans Act (OAA) throughout southern and western Wisconsin. We welcome any effort to improve the lives of older people, be it through expansion of aging services, or the opportunity for those we serve to achieve economic self-sufficiency through employment.

We recognize with a rapidly aging population, efforts must be made to keep America's older workers on the job. The potential loss of workers, as Baby Boomers begin to retire, has frightening implications for business, government and the economy.

Keeping older workers employed is crucial to keeping America strong and competitive in the global market. Demographics show the older worker is the workforce of the future, and we believe the experience, work ethic and dedication to quality of the older worker, will have a positive impact on business.

Government also needs older workers to remain employed and contributing to the tax base, rather than become consumers of public benefits and services. As an example, an older worker who remains employed may also delay drawing Social Security benefits, while at the same time continuing to contribute to the fund through payroll withholdings.

We also know that older people who remain active, both physically and mentally, live longer and healthier lives. Healthier individuals are in less need of publicly funded health care services. Older people who are employed are also less likely to need assistance from other social service programs such

as meal programs, food pantries, subsidized housing, food stamps, and energy assistance.

These programs are already faced with rising demand and shrinking budgets, and extending employment for older Americans can help delay, or at least reduce, the need for these services.

With the many benefits of keeping the older worker employed in mind, we would like to address each of the five key points of your proposal:

EMPLOYER TAX CREDITS

The Baby Boom generation will have a significant impact on both the workforce and the workplace as they continue to age. Employers will need to accommodate the unique needs of this cohort, with a key issue being flexibility.

When an older worker leaves their job, they take with them years of knowledge and experience. This sudden loss of expertise negatively impacts an organization's productivity, and therefore their bottom line. To prevent this, older workers need to be offered incentives to remain in their jobs.

Employers need to consider such concepts as flex time, job sharing, compressed work weeks, telecommuting, part-time employment with pro-rated benefits, and phased retirement. Many of these new work modes can be implemented at little or no cost to the employer. All of them will benefit the employer through a skilled, experienced, and stable workforce.

Using tax credits as an incentive to employers may bring about change, if the credit is attractive, and comes with minimal paperwork.

As further incentive to creating an "older worker friendly" workplace, the tax credit should be based on the number of flexible options an employer offers, and employers who hire older workers should receive additional tax credits.

EXTENSION OF COBRA COVERAGE

As you have noted, current COBRA law allows for only 18 months of continued coverage if group policy coverage is lost as the result of a reduction in hours. Under many other circumstances, coverage can be extended to 36 months.

Older workers who are no longer able to work full-time, typically due to health reasons, often opt for early retirement at age 62. This results in a loss of insurance benefits, and an increased reliance on publicly funded health care systems.

Extending COBRA coverage until age 65 may accommodate an older worker's need for both reduced hours and insurance, thereby delaying their need for Social Security and publicly funded health care.

ELDERCARE TAX CREDIT

Today, employees of any age are often times faced with choosing between working and the needs of someone dependent upon them for care. This is increasingly true for the older worker.

Many older workers find they are not able to remain productive at work because the demands of caretaking have become so great. Often times they will leave their job to devote their time to the care of another. At times, their loss of productivity could result in their termination. In either instance, their employer has lost the benefit of their knowledge and experience, and they have lost the many benefits of being engaged in gainful and meaningful employment.

However, studies show older workers who receive assistance with their caretaking responsibilities, can maintain their productivity, and therefore remain employed. A tax credit to help offset the cost for adult day care, in-home care or respite, will help the older worker balance their life and work needs.

Further, employers will increasingly be asked to provide assistance for employees tending to the needs of another. This legislation should consider extending the eldercare tax credit to employers who offer adult day care subsidies or services.

ACCESS TO THE WORKFORCE INVESTMENT ACT (WIA)

As a provider of employment services to older adults, we can attest to the fact that older job seekers are routinely excluded from participation in programs funded by the WIA. WIA service providers often view the older job seeker as a potential threat to program performance, as they may only be seeking part-time employment.

Though more than 60% of our current customers are between the ages of 55 and 64, and seeking full-time employment with benefits, a separate set of performance measures for older job seekers, may alleviate WIA provider's fears, and result in improved access to WIA services.

Performance measures in the WIA, particularly those regarding full-time employment and earnings increase, need to be modified for an older job seeker. Placement into employment, whether full- or part-time, should be considered a positive outcome, and the earnings increase measure should be removed altogether.

This legislation should also consider an often overlooked employment and training program serving older job seekers, the Senior Community Service Employment Program (SCSEP). The SCSEP is funded under Title V of the Older Americans Act of 1965 (OAA). Administered jointly by the Administration on Aging (AoA) and the Department of Labor (DOL), this unique program provides a lower-income, older adult with the opportunity to learn new skills, and build the experience necessary to transition into employment.

The SCSEP is unique from all other employment and training programs in many respects. It serves only those aged 55 or older. It provides paid training, intensive case management, and supportive services to all eligible individuals. And, training activities result in services that benefit the general welfare of the community.

The SCSEP is also unique in that it takes a "whole person" approach in providing assistance. As a SCSEP operator, we understand that an older person often times has needs other than, or in addition to, employment. Being part of the aging network, we are able to link our customers with the programs and services they need to address non-employment issues.

Over the past decade, the SCSEP has experienced a shift in the balance between aging services and employment services. The AoA has admittedly distanced itself from administration of the program, effectively yielding its authority to the DOL. As a result, less value is placed on the community service aspects of the program, the connection to the aging network and aging services is almost nonexistent, and the program has actually become less accessible to older job seekers.

With the upcoming reauthorization of the Older Americans Act, perhaps now is an opportune time to revisit the intended purpose of the SCSEP and explore ways to strengthen its services and expand its use. Because it is unique from other programs funded under the OAA, and equally unique from the WIA, perhaps the SCSEP is better placed among the unique concepts described in the Older Worker Opportunity Act of 2005.

TASK FORCE ON OLDER WORKERS

Finally, the creation of a task force to address the on-going needs of the aging workforce will be vital in assisting business and government in implementing the changes necessary to keep older workers working.

A task force comprised not only of governmental units, but also of business, service providers, and older workers themselves, will prove a great asset as we face the challenges and opportunities presented by an aging workforce, and the need to keep them employed.

Senator Kohl, thank you for the opportunity to comment on, and support The Older Worker Opportunity Act of 2005. We also thank you for your support of the older worker as is evidenced in this progressive and forward-thinking proposal.

If we can be of any further assistance, please do not hesitate to call.

Sincerely,

ROBERT KELLERMAN,
Executive Director.

COMMITTEE FOR ECONOMIC
DEVELOPMENT,

Washington, DC, September 28, 2005.

Hon. HERB KOHL,

*U.S. Senate, Hart Senate Office Building,
Washington, DC.*

DEAR SENATOR KOHL: on behalf of the Committee for Economic Development (CED), I commend you for your leadership in addressing issues related to the aging of the American workforce with your bill, the Older Worker Opportunity Act.

CED stated several years ago that expanding opportunities for older workers would be crucial to continued prosperity. Our 1999 policy statement, "New Opportunities for Older Workers," argued that demographic change would reduce the growth of our labor force well below current rates, absent significant changes in behavior and policy. We noted that many workers retire totally and abruptly because they have no viable option to continue working, perhaps at reduced hours that would be more suitable and would provide a phased beginning to retirement. We urged that the business sector and the federal government change perceptions and attitudes, and where necessary laws and rules, to make it easier and more attractive for older workers to achieve a gradual rather than an immediate retirement.

We are gratified to see that your bill would address many of the problems that we identified in our 1999 statement. We believe that your recommended changes in law would allow workers to phase into retirement without the financial penalties, in retirement income and health coverage, that now can force people into unwilling retirement. With such an improved incentive to work, our economy might suffer less of a loss of labor-force growth, and might make the transition to the retirement of the baby-boom generation more easily.

We appreciate your efforts on this important issue, and stand ready to help in building public understanding of the vital and growing role of older workers.

Sincerely,

CHARLES E.M. KOLB,
President.

By Mr. DEMINT (for himself, Mr. DURBIN, and Mr. CORNYN):

S. 1827. A bill to amend the Public Health Service Act to provide for the public disclosure of charges for certain hospital services and drugs; to the Committee on Health, Education, Labor, and Pensions.

Mr. DEMINT. Mr. President, I rise today to offer a bill that would require hospitals to disclose their charges for the most common procedures and drugs.

This bill recognizes that consumers seeking routine hospital services need to know what they are paying so they can make educated decisions about their own health care. This legislation aims to give Americans that information in a user friendly format.

Specifically, the bill would require hospitals to regularly report to the Secretary of U.S. Department of Health and Human Services the amount they charge for the 25 most commonly performed inpatient procedures, the 25 most common outpatient procedures, and the 50 most frequently administered medications. The Department would then post this information on the Internet for easy access.

Under the current system, patients often have no idea what they will be charged until they receive a bill. This is a problem because hospital charges vary significantly based on facility and procedure. Some hospitals charge one-hundred and twenty dollars for a chest x-ray while others charge more than fifteen hundred. Uninsured patients and those who pay with cash are often surprised with unexpected hospital charges because there is no way for them to know what they will be charged up front.

No other industry expects consumers to commit to buying before they know the true cost. Patients should have access to price information before they commit to a procedure.

This bipartisan bill is good for the uninsured and for consumer driven healthcare. Individuals cannot be expected to get comfortable making their own health care decisions unless they know how much they will be expected to pay for different services.

I am grateful to Senators RICHARD DURBIN and JOHN CORNYN for joining me as original cosponsors of this bipartisan legislation. I am also pleased that Representatives BOB INGLIS and DAN LIPINSKI have introduced companion legislation in the House. They recognize that information is power, and this bill is an important step in empowering Americans with the tools to be smart consumers. I urge my Senate colleagues to support this bill.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1827

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

By Mrs. CLINTON (for herself and Mr. ROBERTS):

S. 1828. A bill to amend the Public Health Service Act to improve and secure an adequate supply of influenza vaccine; to the Committee on Health, Education, Labor, and Pensions.

Mrs. Clinton. Mr. President, today, I am pleased to introduce the Influenza Vaccine Security Act with Senator Roberts.

In recent months, our public health professionals have been sounding the alarm about the increasing incidence of avian influenza. Since December 2004, 70 cases of avian influenza have been confirmed in Indonesia, Vietnam, Thailand and Cambodia—and 27 of these cases have been fatal. In countries across Asia and Europe, farmers have been culling their poultry stocks because of fears of infection.

Various agencies—from the Department of State to the Department of Health and Human Services—have begun to mobilize in preparation for when—not if, but when—avian influenza hits our shores.

What is particularly worrisome to me, when thinking about our Nation's ability to face the threat posed by pandemic or avian influenza, is the fact that we aren't even prepared to deal with the seasonal influenza epidemic that we face every year.

Last fall, we witnessed senior citizens lining up for hours to obtain flu vaccine, unscrupulous distributors attempting to sell scarce vaccine to the highest bidder, and millions of Americans delaying or deferring necessary flu shots.

This wasn't the first time that our vaccine production and distribution system has failed. Since 2000, our Nation has experienced three shortages of influenza vaccine.

Fortunately, we had a relatively mild influenza season this past year, but we cannot count on such luck to save us every time we have a flu vaccine shortage.

Approximately 36,000 Americans die of the flu each year, and these deaths are largely preventable—we could stop them if we increased immunizations, if we had a secure vaccine market, and if we made sure that everyone understood the importance of vaccines.

For several years now, I've been asking the Secretary of Health and Human Services to undertake reforms to fix our flu vaccine supply problems, and the legislation I'm introducing with Senator ROBERTS today provides a mechanism through which we can develop a stable supply and distribution system for our seasonal flu vaccine.

There is a great deal of risk involved with developing an annual flu vaccine. Because the dominant strain changes from year to year, manufacturers must develop doses on an annual basis, without being able to store or resell any excess vaccine the following year. There's also no steady demand for a flu vaccine, largely because shortages have confused so many of us as to when we should or shouldn't get vaccinated.

This legislation will help create a stable flu vaccine market for manufacturers by increasing coordination between the public and private sectors, so that we can set targets and procedures for dealing with both shortages and surpluses before they hit.

Stabilizing the vaccine market will also require increasing demand for vaccination. This bill increases the funding for the CDC's educational initiatives, and sets up grants through which State and local health departments, in collaboration with health care institutions, insurance companies, and patient groups, can increase vaccination rates among all Americans, but, in particular, priority populations.

Another major problem with our national influenza supply mechanisms is that we rely on production methods that haven't kept pace with our other biomedical advances. In order to make a vaccine, strains of influenza virus are cultivated in chicken eggs, a non-sterile environment. Many of the contamination problems we have seen with vaccine result when problems arise in this cultivation process.

Although we've got to rely on this technology for the time being, we need to increase research into safer, faster, and more reliable methods of vaccine production. This legislation would provide the National Institutes of Health with increased funding for research into alternative forms of vaccine development.

Of course, vaccine does us no good if it can't get to the people who need it, and in last season's epidemic, we had problems matching existing stocks of vaccine to the high priority populations, like senior citizens, who were in need of vaccine. It took weeks before we could determine how much vaccine was actually in communities, and where it was needed. We wasted lots of time and resources—valuable public health resources—in trying to track this vaccine.

This bill sets up a tracking system through which the CDC and State and local health departments can share the information they need to ensure that high priority populations in all parts of the country will have access to vaccine.

Improving our system for vaccine manufacture and distribution will not only help us in the event of a pandemic, but will help us every winter when senior citizens, children, and chronically ill individuals need to get a flu shot to protect them from the virus.

I hope that the legislation Senator ROBERTS and I are introducing today will call attention to the immediate needs of our priority populations, and I look forward to working with our colleagues in the Senate on both seasonal and pandemic prevention initiatives.

Mr. ROBERTS. Mr. President, I am pleased to be introducing the Influenza Vaccine Security Act with Senator CLINTON today because I believe this legislation is critical to strengthening our public health preparedness here in the U.S. The experiences of the flu vaccine shortage last year made us all aware that our system needs improvement. This legislation takes a comprehensive approach to addressing the root causes of seasonal flu vaccine shortages by creating stability in the U.S. vaccine market.

Our legislation requires the Department of Health and Human Services to set annual production targets for the flu vaccine, to stockpile up to 10 percent of the vaccine each year in the event of a shortage, and to create a vaccine buyback program to provide market guarantees for our vaccine manufacturers. This legislation also provides a much-needed framework for public health officials to track vaccines and provides increased education and outreach about getting an annual flu vaccine.

I now want to turn to some of the provisions in this legislation that deal with an issue I believe deserves our utmost attention: pandemic influenza. I think we can agree that we all learned a good lesson from Hurricane Katrina: government at all levels must be prepared to deal with a large-scale public health emergency. Unfortunately, our government is not currently not prepared to deal with pandemic influenza. Our legislation seeks to address this by strengthening the underlying public health infrastructure to heighten our ability to respond to both seasonal and pandemic flu.

As Chairman of the Senate Intelligence Committee and a member of both the Senate Agriculture Committee and Senate Health, Education, Labor and Pensions (HELP), I take the threat of an influenza pandemic very seriously. I view it as not only a public health concern, but a national security concern. The timing for a large-scale worldwide influenza outbreak is ripe. Many experts believe the next flu pandemic will come in the form of avian flu.

Unlike the seasonal flu, humans have no natural immunity to avian flu. A routine flu shot for more common influenza viruses won't protect against the deadly avian flu. The Department of Health and Human Services is work-

ing with vaccine manufacturers to develop a vaccine, but it is unclear when and how many doses will be ready.

Other than a vaccine, the only defense against a new flu strain such as avian flu is an antiviral medication such as Tamiflu. Currently, the United States currently only has enough pills to treat less than one percent, or about 2.3 million people.

This is why experts believe the effects of avian flu in the U.S. and around the world could be devastating. Some have predicted the loss of life could reach as high as 160-200 million. A pandemic might infect a third of the U.S. population and cost more than \$100 billion alone in medical treatments. A pandemic of this sort could also have catastrophic economic or social effects.

It is for these reasons I am pleased our legislation addresses some of the underlying public health infrastructure concerns that can help us effectively respond to pandemic flu. Our vaccine industry here in the U.S. is extremely fragile and our manufacturers need the necessary tools to effectively produce and deliver vaccines in the event of either seasonal or pandemic flu. First and foremost, our legislation ensures vaccine manufacturers and health care providers are not held liable in the event of a public health emergency involving pandemic influenza. Without this necessary liability protection, the ability to develop or deliver a vaccine during an outbreak could be significantly hampered.

Our legislation also encourages improved technologies for influenza vaccine development by providing additional funding for NIH research into alternative methods of vaccine development, such as cell-based cultures and a permanent flu vaccine. Currently, flu vaccine production is a strenuous process and takes several months, leaving us extremely vulnerable in the event of a large-scale outbreak and a subsequent need for a mass production of vaccines.

Our legislation encourages more companies to enter the U.S. market with domestic-based production facilities and to improve the ability of the current manufacturers to remain in the market. Manufacturers currently do not have the capacity to simultaneously produce enough flu vaccine for seasonal flu and an avian flu vaccine in the event of an outbreak. We must assist our manufacturers in increasing production capacity.

Aside from vaccines, our legislation also requires the government to purchase and store additional antiviral medications, such as Tamiflu, to protect against an influenza epidemic.

Finally, our legislation provides a framework to identify public health professionals that can provide services in the event of a public health emergency through the use of a medical personnel registry linked at the Federal, State and local levels.

I am pleased to introduce the Influenza Vaccine Security Act with Senator CLINTON today. We need to fix our seasonal flu vaccine production and distribution problems not only to prevent future shortages, but also to strengthen our public health infrastructure in case of pandemic.

As Senator CLINTON knows, the HELP Committee will soon be considering legislation to develop countermeasures to protect the U.S. from deliberate and natural public health threats. This legislation, known as Bio-shield II, will present a great opportunity to build on the first steps we take in this legislation to protect against pandemic flu. I look forward to working with Senator CLINTON and my other colleagues on the committee to deliver a comprehensive package to ensure we are prepared and can respond to all types of public health threats.

S. 1829. A bill to repeal certain sections of the Act of May 26, 1936, pertaining to the Virgin Islands; to the Committee on Energy and Natural Resources.

By Mr. DOMENICI (for himself, Mr. BINGAMAN, and Mr. AKAKA) (by request):

S. 1830. A bill to amend the Compact of Free Association Amendments Act of 2003, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. DOMENICI (for himself and Mr. BINGAMAN) (by request):

S. 1831. A bill to convey certain submerged land to the Commonwealth of the Northern Mariana Islands, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. DOMENICI. Mr. President, today I join my colleague, the Ranking member of the Committee on Energy and Natural Resources, Senator BINGAMAN, in introducing three bills, by request, to make necessary changes to law regarding the U.S.-affiliated islands.

Briefly, the bills include: First, legislation requested by the Attorney General of the Commonwealth of the Northern Mariana Islands (CNMI). This bill accomplishes two objectives—to provide the Commonwealth with the same ownership and jurisdiction over offshore submerged lands as has been provided to other United States territories and to provide a less formal mechanism for the Governor of the CNMI to raise issues with the Federal Government than the procedures under section 902 of the Covenant that established the Commonwealth in political union with the United States.

The legislation also provides a general authorization for the Commonwealth to raise issues arising under provisions of the Covenant with the Secretary and for the Secretary to resolve those issues with assistance from

other agencies as appropriate. This would provide a less formal approach than the more elaborate procedures for issue resolution set forth under section 902 of the Covenant which require, among other items, the formal appointment of negotiators. Section 902 is unique to the Commonwealth and legislative approval of a less formal approach may serve to improve Federal-commonwealth relations and the ability of both sides to reach agreements. As with the submerged lands issue, further legislation may be required, but such legislation will likely be easier to achieve if both sides are not either tied up in the processes of 902 or at opposite sides in court.

The second bill, requested by the House Delegate from the United States Virgin Islands, Representative DONNA M. CHRISTENSEN, came as a result of Federal court rulings which invalidated many of the Real Property tax provisions of the Virgin Islands Code. The bill would repeal sections 1401-1401e of Title 48, of the United States Code to provide the Government of the United States Virgin Islands the ability to fully regulate real property tax matters in the territory.

Finally, the last bill would make several changes to the Compact of Free Association Amendments Act (CFAAA) of 2003 P.L. 108-188, which was enacted in December, 2003. Because of the 2003 deadline on the term of the original Compact assistance, several issues were left unresolved. One of these unresolved issues was whether the Republic of the Marshall Islands (RMI) and the Federated States of Micronesia (FSM) would continue to receive disaster assistance from FEMA. Since the passage of P.L. 108-188, the Administration has transmitted language to Congress that would provide authority for the RMI and FSM to obtain disaster assistance. In addition to this new authority, the bill makes several technical changes to P.L. 108-188.

I look forward to working with my colleagues, the Administration, and officials from the RMI, FSM, and the U.S. Virgin Islands to move these bills through the process.

I ask unanimous consent that the text of the bills, be printed in the RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

Mr. BINGAMAN. Mr. President, today I join my colleague and the chairman of the Committee on Energy and Natural Resources, Senator DOMENICI, in introducing three bills, by request, to make necessary changes to law regarding the U.S.-affiliated islands. As chairman and ranking minority member of this committee, Senator DOMENICI and I have a special responsibility for matters relating to our fellow U.S. citizens who live in the territories of the United States. While the people

of the territories are U.S. citizen or nationals, they lack full voting representation in the U.S. Congress. Their problems and concerns are just as deserving of attention as are those of U.S. citizens who live in the 50 States, and it is the committee on Energy and Natural Resources which has the responsibility for considering island issues that are brought to our attention, and for making recommendations, as appropriate, to the full Senate.

The committee is also responsible for authorization and oversight of U.S. financial assistance to the freely associated states of the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands—three sovereign nations that were formerly administered by the U.S. as districts of the United Nations Trust Territory of the Pacific Islands. While not under U.S. sovereignty, these nations enjoy a unique relationship with the U.S. which developed following the Pacific battles of World War II and which continues to be based on our mutual interest in security, democracy, and economic development.

The first bill being introduced, the Compacts of Free Association Amendments Act of 2005, would make several changes to the Compact of Free Association Amendments Act, CFAAA, of 2003, (Public Law 108-188) which was enacted in December 2003. That law continued the close relationships that were established in 1986 between the U.S. and the Federated States of Micronesia, FSM, and between the U.S. and the Republic of the Marshall Islands, RMI by revising and extending U.S. financial and program assistance until 2023. Final consensus was not reached in 2003, however, on continuation of U.S. disaster assistance programs and services to the FSM and RMI. Instead, section 105(f)(1)(A) of the CFAAA directed the Secretary of State, in consultation with FEMA, to negotiate disaster assistance agreements with the FSM and RMI, report to Congress on the outcome of the negotiations, and make recommendations to Congress on any necessary changes to law.

On August 19, 2004, the State Department transmitted new agreements regarding disaster assistance to Congress along with the legislative language needed to bring them into effect. Generally, these agreements provide that FEMA and USAID will jointly consult on disaster damage assessments and on disaster declaration recommendations; FEMA will provide all disaster recovery funding consistent with past policy and practice and transfer those funds to USAID which will then administer all disaster response and recovery activities. In addition to approving these new disaster assistance agreements, this bill would make several other conforming, clarifying, and technical amendments to the CFAAA of 2003. The second bill being introduced today would convey submerged lands, out to 3 miles, to the Commonwealth of the

Northern Mariana Islands, CNMI, and hopefully resolve a long standing dispute between the U.S. and the CNMI over the extent of the CNMI's territorial limit.

The CNMI became a U.S. territory in 1976 pursuant to the covenant between the U.S. and CNMI, as approved by Public Law 94-241. However, interpretation of the covenant regarding the CNMI's territorial limit came into dispute, and then became the subject of discussions under the formal government-to-government consultation procedures of the covenant. The U.S. executive branch took the position that the CNMI had the same territorial limit as the other territories—that is 3 miles—while the CNMI claimed a 200-mile exclusive economic zone. After discussions deadlocked, the CNMI pursued their claim in Federal court. Earlier this year, the Federal Appeals court upheld, in Northern Mariana Islands v. United States, 399 F. 3d 1057, the district court decision that the CNMI not only did not have 200-mile jurisdiction but did not have a 3-mile limit either. Establishing Federal ownership up to the mean high-water mark has compromised local authority to manage activities in the near-shore areas, such as shoreline permitting activities that are normally handled by State and local authorities. The District Court is allowing the local government to continue to exercise near-shore jurisdiction temporarily.

On June 6, 2005, the attorney general of the CNMI wrote to Chairman DOMENICI and myself requesting that legislation be enacted to establish a 3-mile territorial limit for the CNMI—the same distance granted the other territories. This bill would grant the CNMI's request without prejudice to their right to further appeal their claim, and would allow the local government to continue management of near-shore areas.

A second provision in this bill, also requested by the attorney general of the CNMI, would support an alternative process for the resolution of disputes between the U.S. and the CNMI. As mentioned above, there is an existing, but very formal, consultation process established under the covenant which requires the President and the Governor to designate official representatives to hold formal meetings. These procedures have generally been ineffective because their formality makes compromise difficult, particularly for those representing the CNMI. This proposed provision would offer a less formal alternative by indicating that Congress expects the Secretary of the Interior to take initial responsibility for seeking to resolve disputes. It would encourage the Secretary, in consultation with the other agencies involved, to settle any claim arising under the covenant, and it authorizes appropriations for any settlement. It would also allow the Secretary to use other funds that may have been appropriated under the covenant for the set-

tlement of a dispute, if agreed to by the CNMI. For example, article VII of the covenant provides annual direct spending for capital construction projects. Disputes that may arise and be addressed under this new less-formal process include those relating to leases of land for defense purposes, construction of infrastructure, eligibility for Federal programs, or payments due the CNMI.

The third bill being introduced today is requested by the delegate from the United States Virgin Islands, USVI, Donna Christensen, on behalf of herself and the Governor of the USVI. This bill would repeal sections of the United States Code that were enacted in 1936 to determine how real property taxes would be assessed in the USVI. These sections were thought to have been effectively repealed in 1954 with enactment of the Virgin Islands Organic Act—a law that substantially expanded the scope of local self-government. Last year, however, the Third Circuit Court of Appeals ruled that the 1936 law remains in effect. The court ruling has, therefore, effectively overturned 50 years of local tax law. The simple solution to this situation, which this bill proposes, is to repeal the 1936 provisions as soon as possible. This approach is consistent with the intent of the 1954 law, and it is consistent with our general Federal territorial policy of delegating local real property tax policy to the local government.

Consideration of these bills is important to meeting our Nation's responsibilities to the governments and residents of the islands. I look forward to working with Chairman DOMENICI, the representatives of the island governments, the administration, and the other members of the committee in considering these bills and reporting our recommendations to the Senate.

By Mr. INHOFE (for himself and Mr. COBURN):

S. 1832. A bill to authorize the Secretary of the Interior to lease oil and gas resources underlying Fort Reno, Oklahoma, to establish the Fort Reno Management Fund, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. INHOFE. Mr. President, today I proudly rise to introduce the "Fort Reno Mineral Leasing Act".

Fort Reno was established as a frontier cavalry post in 1874, and it played a key role in the settlement of the west. It is a historic site of National significance and it is listed on the National Register of Historic places. Over 9,000 visitors view the fort each year.

In 1948 the U.S. Army turned its lands and buildings, at Fort Reno, over to the U.S. Department of Agriculture. Today, the original site remains intact as a complete frontier post. Dozens of buildings constructed by the military, as early as the 1880's, still stand around the Historic District.

The Agricultural Research Service administers the fort site which includes the Grazinglands Research Facility, the Fort Reno Historic District, and the Fort Reno Science Park.

Many of the historic buildings are in desperate need of restoration. A small agency like the Agricultural Research Service is not financially able to keep up with the continued costs of maintenance of so much aged infrastructure. Independent studies show that over \$18 million is now needed to restore the most important of the many old officers' quarters and other key buildings.

I have been an active supporter of Fort Reno and its facilities. For instance, several years ago I helped secure a Save America's Treasures Grant of \$300,000 to assist a local historical organization with the costs of stabilization of exteriors on those deteriorating buildings that are most in need of renovation. In fiscal year 2004, I arranged for an appropriation of \$2.1 million for construction of two greenhouses for use in research on forage grasses that is conducted by the Agricultural Research Service at the Fort Reno site.

The legislation I am introducing today will provide a revenue-neutral, non-appropriated source of funding which will be adequate to restore the historical buildings of Fort Reno, so that they will be here for future generations.

In addition, this bill authorizes the development of the oil and gas that lies beneath Fort Reno's 6,737 acres and places those funds in a special account in the U.S. Treasury that will be utilized for restoration and maintenance of those facilities. These funds will also be used to assist with handling visitors to the fort, historic interpretation and related activities. The remaining funds will be used to pay down the national debt.

The Fort Reno Mineral Leasing Act is fully supported by State legislators, local municipalities, the Chamber of Commerce, farm groups, the USDA, and the ARS Administrator at Fort Reno.

I look forward to seeing this Oklahoma-specific legislation enacted and am proud to have Senator COBURN as my original cosponsor.

I ask unanimous consent that letters of support be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CITY OF EL RENO,
El Reno, OK, September 29, 2005.

Hon. JAMES INHOFE,
*U.S. Senate, Russell Building,
Washington, DC.*

DEAR SENATOR: As you know, the citizens of the City of El Reno and others from across Oklahoma have long maintained a strong interest in restoring the military buildings and other historic features at Fort Reno. Fort Reno serves as a focal point for many of this community's cultural and historical events, and it is visited by thousands of tourists each year.

As vital as Fort Reno is to our community and the State of Oklahoma, it has much

more potential as a national historic site. That potential cannot be realized until the historic buildings are restored. Cost to restore this site will be considerable. Not restoring this site will cause Americans to lose a significant piece of our nation's history. When you consider the importance of saving this site for generations to come, the cost is insignificant by comparison.

The citizens of El Reno are thankful that you have graciously agreed to consider drafting legislation that would provide financial support for restoration and maintenance of Fort Reno's aged buildings. You are to be commended for acknowledging it is our responsibility to preserve our past for future generations. I sincerely appreciate your respect for our past and vision for our future.

Sincerely,

DEBBIE HARRISON,
Vice Mayor, City of El Reno.

CITY OF EL RENO,
OFFICE OF THE CITY MANAGER,
El Reno, OK, September 29, 2005.

Hon. JIM INHOFE,
*Russell Building,
Washington, DC.*

DEAR SENATOR: The purpose of this letter is to express my appreciation for your efforts on behalf of the citizens of the City of El Reno, particularly as relates to restoration of historic buildings at Fort Reno. We are grateful that you assisted with the Save America's Treasures grant that recently allowed work to begin on restoration of one of the Fort's officers quarters, built before 1890. Fort Reno is one of our city's most important resources, and we have long looked forward to seeing it restored to its former glory.

We understand that you intend to introduce legislation that could allow more progress to be made toward complete restoration and future maintenance of the Fort's buildings and other historical assets. I urge you to do so. The benefits will be considerable, not only for the people of this city, but for the state of Oklahoma and the Nation.

Sincerely,

DOUGLAS D. HENLEY,
City Manager.

OKLAHOMA STATE SENATE,
Oklahoma City, OK, September 29, 2005.

Hon. JAMES INHOFE,
*Russell Building,
Washington, DC.*

DEAR SENATOR INHOFE: On behalf of my constituents and all citizens of Oklahoma, I wish to thank you for assisting with efforts to obtain funding for restoration of historic buildings at Fort Reno. When they learn of it, many people in my district will be grateful for your support. I and others in the Legislature have worked hard to assist those who operate the Fort Reno Visitors Center, but the level of funding required to rescue and maintain these old structures and other historical resources at the Fort is beyond our abilities.

Restoration and continued maintenance of the Fort's buildings are of critical importance to all Oklahomans. Fort Reno is a primary historic site in our area, and it attracts over 9,000 visitors annually. It has great potential for tourism and economic development, and that potential cannot be realized until it is properly restored. I admire and appreciate your willingness to introduce legislation that will insure that Fort Reno's historic buildings are preserved and maintained for future generations of Oklahomans.

Please let me know if I can assist with this important effort in any way.

Sincerely,

MIKE JOHNSON,
Oklahoma State Senate, District 22.

EL RENO CHAMBER OF COMMERCE
AND DEVELOPMENT CORP.,
El Reno, OK, September 29, 2005.

Hon. JAMES INHOFE,
*Russell Building,
Washington, DC.*

DEAR SENATOR: On behalf of the members and Board of Directors of the El Reno Chamber of Commerce, I wish to express our gratitude to you for assisting the citizens of this city and the State of Oklahoma to restore one of our most cherished historical assets, the buildings of Fort Reno. New sources of funding to restore and maintain the Fort's buildings are of critical importance to us. Fort Reno is the principle historic site in our area and it attracts almost 10,000 visitors to our city annually; however, it is badly in need of repair and maintenance.

As you know, the costs required to complete a restoration project of this magnitude far exceeds the capabilities of any state, local organization or entity. We appreciate your willingness to assist us with legislation that will insure that Fort Reno's historic buildings are preserved and maintained, and made available for the benefit of both Oklahomans and our out-of-state visitors.

Please let us know if there is anything we can do to help with this effort by calling (405) 262-1188.

Sincerely,

KAREN NIX,
Executive Director.

OKLAHOMA FARM BUREAU,
Oklahoma City, OK, October 4, 2005.

Hon. JIM INHOFE,
*U.S. Senate, Russell Building,
Washington, DC.*

DEAR SENATOR INHOFE: We appreciate your ongoing support for the Ft. Reno Agricultural Research Service Station. As you know, at one time the physical ARS facility had suffered from neglect and the reorganization of ARS. Now the physical facility is much improved, and the research staff are doing great work. It is truly an operation in which many of us take great pride.

I appreciate that you have an interest in helping the citizens of Oklahoma to preserve the historical buildings of Fort Reno. Funding is badly needed to restore and maintain these buildings, many of which were built as early as the 1880s. I understand you are willing to introduce legislation that will ensure that these historic buildings are not lost, but are preserved and maintained and made available for viewing and use by future generations of Oklahomans.

I understand the historic area of the Fort has a lot of local support from the community, and that you support a revenue-neutral approach to financing the restoration of Fort Reno without increasing our tax burden. Our much missed state board member, Henry Jo VonTungeln, was an active proponent of using a revenue-neutral approach to funding the restoration of the Fort.

Your willingness to carry legislation to implement this approach is greatly appreciated. The success of the legislation will mean a great deal to Oklahomans and Americans, as well as the thousands of people who visit Fort Reno each year.

Thank you for your consideration in this matter.

Sincerely,

STEVE KOUPLEN,
President.

OKLAHOMA FARMERS UNION,
Oklahoma City, OK, September 30, 2005.

Hon. JAMES INHOFE,
*U.S. Senate,
Washington, DC.*

DEAR SENATOR INHOFE: On behalf of Oklahoma Farmers Union and the 100,000 family

farmers, ranchers and rural citizens our organization represents, we appreciate your dedication to Oklahoma and your current efforts to preserve, restore and maintain Fort Reno here in the heart of our great state. This historical location and buildings, built in the 1800s, remains an attraction to thousands of Oklahomans and out-of-state tourists each year.

Thank you for your interest, and more importantly, your efforts to ensure much needed funding for this project. The legislation you are currently working on in regards to Fort Reno will ensure these buildings and this historic site will not be lost, but instead will be available for generations to come. We sincerely appreciate the revenue-neutral approach to financing the restoration of Fort Reno, without increasing our tax burden.

Again, thank you for your active role in preservation of Fort Reno and all your efforts on behalf of our great state.

Sincerely,

RAY L. WULF,
President & CEO.

By Mr. JEFFORDS (for himself,

Mr. SARBANES and Mr. DAYTON):

S. 1834. A bill to authorize the Secretary of the Department of Housing and Urban Development to make grants to States for affordable housing for low-income persons, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. JEFFORDS. Mr. President, over the past several weeks, in the wake of two hurricanes, we have felt the heartbreak of Americans forced from their homes with no return in sight. Safe and affordable housing is not something we should take for granted.

Today I am introducing the Affordable Housing Preservation Act of 2005. I am proud to be joined by my colleagues, Senators PAUL SARBANES and MARK DAYTON. This bill provides federal matching funds for the acquisition and rehabilitation of existing federally-assisted or -insured affordable housing properties that are in danger of being lost from the affordable housing inventory.

There is a great need for affordable housing. All across the country, housing is becoming less attainable for more and more families. In my own State of Vermont, renting—let alone owning—a home is becoming difficult if not impossible for many families. The minimum wage in Vermont is seven dollars. However, a family must earn almost \$28,000 in yearly income to afford a two-bedroom apartment, which requires a wage of over \$13 per hour. For example, in Vermont, a two-bedroom apartment costs about \$698 per month, and a minimum wage earner can afford no more than \$364 for rent. This trend is not unique to Vermont. Nationwide, the wage needed to afford a two-bedroom apartment is over \$15 an hour. Approximately one-quarter of the U.S. earns less than \$10 per hour. There are some communities where affordable housing was never a concern before, but are now facing a shortage growing ever more severe. I ask unanimous consent to have a chart compiled by the National Low Income Housing Coalition (NLIHC), “State Ranks Based

on Two Bedroom Housing Wage”, inserted in the RECORD. As my colleagues read this chart, I encourage them to refer to the NLIHC report issued last year, “Out of Reach”, for a more comprehensive overview of housing prices and diminishing affordability. I found this report particularly alarming and eye-opening.

There are several strategies to consider in combating the affordable housing crisis. A comprehensive plan of economic and community development and revitalization—from public and private sector sources—is one strategy that has proved successful. Some of the increasing need for affordable housing is met with the construction of new units. But in many communities, a stock of affordable housing already exists, and there is a desire among local leaders to preserve it. My bill helps States, localities, and other entities do just that.

The bill I am introducing today, the Affordable Housing Preservation Act of 2005, represents an effort to complement the good work being done throughout the country on Section 8 initiatives, and it strives to preserve existing affordable housing. Specifically, this legislation would conserve federally-subsidized housing units by providing matching grants to states and localities, who then may work with other housing entities, seeking to preserve privately owned, affordable housing.

The Secretary of Housing and Urban Development, HUD, would make determinations for the grants based on a number of factors, including the number of affordable housing units at risk of being lost and the local market conditions in which displaced residents would have to find comparable new housing options. States and localities could use the funds to acquire or rehabilitate housing, which may be done by working with established not-for-profit organizations that specialize in providing affordable housing. They could use the funds, in part, for administrative and operating expenses. Properties with mortgages insured by HUD, Section 8 project-based assisted housing, and properties that are being purchased by residents would all be eligible for the matching grant funds. I believe that flexibility with the funding would make this program more efficient and cost effective, and, most importantly, more helpful to the recipients themselves.

What’s more important to a family than a place to call home? Affordable, quality, and safe housing is the foundation, literally and figuratively, that communities are built upon. As the Senate crafts a comprehensive federal response to the housing crisis, including emergency housing assistance for those affected by the hurricanes Katrina and Rita, I am eager to work with my colleagues to integrate the principles of housing preservation into affordable housing, economic and community development and revitalization initiatives.

By Mr. JEFFORDS (for himself, Mrs. BOXER, Mr. LIEBERMAN, Mrs. CLINTON, Mr. CARPER, Mr. LAUTENBERG, Mr. OBAMA, and Mr. BAUCUS):

S. 1836. A bill to provide for reconstruction, replacement, and improvement of infrastructure in the Gulf Coast Region; to the Committee on Environment and Public Works.

Mr. JEFFORDS. Mr. President, I rise today to introduce the Gulf Coast Infrastructure Redevelopment and Recovery Act of 2005 on behalf of the minority side of the EPW Committee. We have introduced three bi-partisan bills to date in our committee’s jurisdiction. One of them even passed the Senate last week. Those bills, which I would characterize as tweaks to existing authorities, were good first steps and are included in the package we introduce today.

But, we feel that the breadth and the magnitude of the damage after Hurricane Katrina demands a more significant response. As I look at the pictures of the damage in the areas hit hardest by Hurricane Katrina, I think of the visitors from Terrebonne Parish that visited me in my office to seek support for flood control projects in Louisiana. At the time, I was struck by the vulnerability of this community to the effects of nature. Today, we are seeing those effects firsthand. I have thought

often in the past month of the strong spirit shown by those who visited my office, and I know, that while it is almost unimaginable today, in a few years, there will be thriving communities in Louisiana, Mississippi, and Alabama once again.

The bill I am introducing today is not intended to address every need of every person in the Katrina-affected area. It is a bill that seeks to take action for those agencies within the jurisdiction of the EPW Committee to ensure that they have the authority and the direction they need. I am a big believer in a single coordinated Federal disaster response process through the Stafford Act. Our bill complements the single, coordinated approach, yet recognizes the unique conditions in this case.

FEMA has shown itself to be ineffective, in my opinion, largely due to the bureaucracy of the Department of Homeland Security and FEMA's lack of independence. At the time of the creation of DHS, I said: I cannot understand why, after years of frustration and failure, we would jeopardize the Federal government's effective response to natural disasters by dissolving FEMA into this monolithic Homeland Security Department. I fear that FEMA will no longer be able to adequately respond to hurricanes, fires, floods, and earthquakes, begging the question, who will? (November 20, 2002)

Today, unfortunately, we know the answer—no one.

The Federal aid provided for Katrina must be coordinated in a wise, targeted manner. To perform this task, our bill creates a Federal infrastructure Task Force to make spending decisions and establish Federal investment standards.

There have been large storms before—in 1965 Hurricane Betsy hit almost this same area. There will be large storms again. This bill recognizes that and establishes National Preparedness Grants and several readiness studies to update emergency response plans, resolve inadequacies, and identify infrastructure vulnerabilities.

To speed economic recovery, the bill provides 200M to both the Economic Development Administration and the Delta Regional Authority.

Part of the long-term recovery of the region will be the clean-up of the environmental damage. Our bill provides direction to EPA to ensure that adequate sampling is performed, that the public knows the results, that drinking water and wastewater services are restored, and that cleanups are prioritized.

The Army Corps of Engineers has a lot of explaining to do after the levee failure in New Orleans. The Corps also has a lot of clean up to do and a lot of rebuilding to do. The flood control system in place today was built in the wake of the damage caused by Hurricane Betsy in 1965. I believe it is critical that we fully evaluate the entire Corps process to determine what

changes should be made. This bill takes only a first step to be sure that we don't simply rebuild what was already in New Orleans without thinking. The bill requires the Corps to assess all projects in the area and repair or modify them with one comprehensive approach.

We establish a National Levee Safety Program in this bill, similar to the Dam Safety Program to be sure our nation's levees can be counted on.

Finally, our bill allows communities that provide incentives for the use of public transportation or ridesharing after a disaster to seek Federal reimbursement.

What doesn't our bill do? Our bill does not waive environmental statutes. Since the Stafford Act was passed in 1974, there have been thousands of declared disasters. Never before have we faced a proposal to haphazardly waive environmental statutes across the Nation in the name of economic recovery in one devastated area. In the last few weeks several proposals have been introduced to give the President or EPA broad waiver authority in the wake of Hurricane Katrina. These proposals put human health and the environment at risk throughout the Nation by allowing permanent waivers to environmental or other laws, anywhere in the Nation, to be granted with few or no criteria, and no public involvement.

The consequences of such an action could be significant. For example, new refineries or power generating facilities could be built while exempt from the Clean Air Act, causing long-term air quality impacts. Congressional offshore drilling bans could be waived to alleviate a fuel shortage. Safe Drinking Water Act regulations could be changed to waive limits on pollutant levels in an effort to speed reoccupancy of hurricane-affected areas, putting public health at risk. Protections for minorities or low-income people such as OSHA safety regulations or the minimum wage could be waived.

I want to help the people of Louisiana, Mississippi, and Alabama. The people of my home State of Vermont are appalled at the state of affairs there and want to help. But, I cannot accept a proposal this broad which will put human health and the environment throughout the Nation at the mercy of one President or appointed official with no time limits, no consideration of human health or the environment, no public participation, and no guidance. Such an effort will only hurt the people of an already devastated region in the long run, not help them.

We must not just act to help the victims of Katrina. We must act in a thoughtful, meaningful, positive way.

The Gulf Coast Infrastructure Redevelopment and Recovery Act of 2005 meets that test. I urge my colleagues to co-sponsor this legislation.

By Mr. REED:

S. 1837. A bill to amend the Magnuson-Stevens Fishery Conservation and

Management Act to add Rhode Island to the Mid-Atlantic Fishery Management Council; to the Committee on Commerce, Science, and Transportation.

Mr. REED. Mr. President, today I introduce the Rhode Island Fishermen's Fairness Act of 2005. This legislation would address a serious flaw in our Nation's regional fisheries management system by adding Rhode Island to the Mid-Atlantic Fishery Management Council (MAFMC), which currently consists of representatives from New York, New Jersey, Delaware, Pennsylvania, Maryland, Virginia, and North Carolina.

The MAFMC manages the following 13 species, all of which are landed in Rhode Island: Illex squid, loligo squid, Atlantic mackerel, black sea bass, bluefish, butterfish, monkfish, scup, spiny dogfish, summer flounder, surfclam, ocean quahog, and tilefish.

In 2003, the most recent year for which final data are available, Rhode Island fishermen brought in 30 percent of MAFMC landings by weight—more than any of the MAFMC member States except New Jersey, which is responsible for about 60 percent of total MAFMC landings.

If Rhode Island fishermen are responsible for a large percentage of overall MAFMC landings, these species make up an even larger proportion of landings within Rhode Island every year. Between 1995 and 2003, MAFMC species represented between 32 percent and 56 percent of all finfish landed in Rhode Island annually, for an average of 44 percent of total landings by weight. In eight of the years between 1990 and 2003, squid, Illex and loligo, was the number one marine species landed in Rhode Island, with a value of between \$11.6 million and \$20.1 million annually.

Yet Rhode Island has no voice in the management of these species.

Following council tradition and Federal fisheries law, the Rhode Island Fishermen's Fairness Act would create two seats on the MAFMC for Rhode Island: one seat nominated by the Governor of Rhode Island and appointed by the Secretary of Commerce, and a second seat filled by Rhode Island's principal State official with marine fishery management responsibility. The MAFMC would increase in size from 21 voting members to 23.

There is a precedent for this proposed legislation. In 1996, North Carolina's representatives in Congress succeeded in adding that state to the MAFMC through an amendment to the Sustainable Fisheries Act. Like Rhode Island, a significant proportion of North Carolina's landed fish species were managed by the MAFMC, yet the State had no vote on the council. Today, Rhode Island's share of total landings for species managed by the MAFMC is more than six times greater than that of North Carolina.

I look forward to working with my colleagues to restore a measure of equity to the fisheries management process by passing the Rhode Island Fishermen's Fairness Act. I ask unanimous consent that the text of the legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1837

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Rhode Island Fishermen's Fairness Act".

SEC. 2. ADDITION OF RHODE ISLAND TO THE MID-ATLANTIC FISHERY MANAGEMENT COUNCIL.

Section 302(a)(1)(B) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1852(a)(1)(B)) is amended—

- (1) by inserting "Rhode Island," after "States of";
- (2) by inserting "Rhode Island," after "except North Carolina,";
- (3) by striking "21" and inserting "23"; and
- (4) by striking "13" and inserting "14".

S. 1838. A bill to provide for the sale, acquisition, conveyance, and exchange of certain real property in the District of Columbia to facilitate the utilization, development, and redevelopment of such property, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. VOINOVICH. Mr. President, today I rise to introduce the "Federal and District of Columbia Government Real Property Act of 2005," a bill to authorize the exchange of certain land parcels between the Federal Government and the District of Columbia. This proposal was submitted to Congress by the administration with support of the District.

As Chairman of the Subcommittee on Oversight of Government Management, the Federal Workforce and the District of Columbia, I understand the special relationship shared with the Federal Government and the District. Because of this relationship, Congress shares in the responsibility of ensuring that the Nation's capital remains a socially, economically, and culturally vibrant city.

Under this legislation, the Federal properties to be transferred to the District of Columbia will be put to better use. This will free up tax dollars being used to maintain the underutilized land to be spent on more important needs facing our Nation. The vast majority of the conveyance is contained in three large properties at or near the Anacostia River: Popular Point, Reservation 13, and several acres of National Park Service land near Robert F. Kennedy Stadium. The bill also would transfer buildings and property located on the west campus of St. Elizabeth's Hospital and several smaller properties from the District of Columbia to the Federal Government.

Conveying these properties will allow the Federal Government to better man-

age its properties. Additionally, the District gains the ability to spur economic development in Southeast Washington, better address the needs of its citizens, and increase the local tax base. I urge all of my colleagues to support this legislation and I am confident that it can be enacted this year.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1838

By Mr. THUNE (for himself and Mr. BINGAMAN):

S. 1840. A bill to amend section 340B of the Public Health Service Act to increase the affordability of inpatient drugs for Medicaid and safety net hospitals; to the Committee on Finance.

Mr. THUNE. Mr. President, the rising cost of prescription drugs has squeezed not only the budgets of American consumers but also the budgets of America's health care providers. The rural hospitals in my State of South Dakota serve as a lifeline to thousands of constituents living in medically underserved areas. They cannot afford to have the cost of their inpatient and outpatient drugs rising faster than the rate of inflation.

In 1992, Congress created the 340B program to lower the cost of drugs purchased by a limited number of entities serving a high number of low-income and uninsured individuals, such as federally qualified health care centers and nonprofit hospitals providing care to a disproportionate share of Medicaid patients.

Under the 340B program, pharmaceutical manufacturers are required to provide eligible 340B entities discounts on outpatient drugs as part of the manufacturers' Medicaid participation agreement. The rising cost of prescription drugs has created the need to modify the 340B program and extend these discounts to the inpatient side of disproportionate share hospitals, as well as to critical access hospitals.

Today, I and my colleague from New Mexico, Mr. BINGAMAN, are providing relief on the cost of drugs purchased by America's health care providers by introducing the Safety Net Inpatient Drug Affordability Act.

Our bill extends the 340B discounted drug prices to inpatient drug purchases of disproportionate share hospitals and allows critical access hospitals to participate in the 340B program. This not only saves hospitals money on the cost of drugs, it relieves them from the burden of carrying two different inventories for inpatient and outpatient drugs.

Our legislation also generates savings for the Medicaid program by requiring hospitals that participate in the 340B program to rebate Medicaid a percentage of their 340B savings on inpatient drugs administered to Medicaid patients. Specifically, the Safety Net Inpatient Drug Affordability Act would require disproportionate share and critical access hospitals to determine the acquisition cost of drugs used on Medicaid patients and apply the minimum Medicaid rebate percentages applicable to outpatient-dispensed brand name and generic drugs.

Extending the 340B program to critical access hospitals also helps reduce expenditures in the Medicare Program. Critical access hospitals are a vital part of the rural health care delivery

system. They provide emergency outpatient and limited inpatient care to individuals in remote rural areas. Out of the 61 hospitals in my State of South Dakota, 37 qualify as critical access hospitals.

Outpatient care in critical access hospitals is reimbursed by Medicare at 101 percent of reasonable costs. Allowing critical access hospitals to participate in the 340B program will lower the cost of drugs in the outpatient setting and ultimately lower the cost of care provided by these hospitals. Decreasing the cost of care in critical access hospitals lowers the amount the Medicare Program expends on reimbursement.

The Safety Net Inpatient Drug Affordability Act is commonsense legislation that reduces the cost of drugs for health care providers serving society's most vulnerable citizens. Lowering the cost of care in these settings means lowering the cost of health care for all American taxpayers. I look forward to working with my colleagues on both sides of the aisle in getting this bipartisan legislation passed and signed into law.

By Mr. NELSON of Florida (for himself, Ms. STABENOW, and Mr. HARKIN):

S. 1841. A bill to amend title XVIII of the Social Security Act to provide extended and additional protection to Medicare beneficiaries who enroll for the Medicare prescription drug benefit during 2006; to the Committee on Finance.

Mr. NELSON of Florida. Mr. President, I am pleased to be joined by my colleagues and cosponsors Senators STABENOW and HARKIN as we introduce the Medicare Informed Choice Act of 2005. This bill provides additional essential protections for Medicare beneficiaries during the first year of implementation of the new Medicare prescription drug benefit.

Medicare beneficiaries are understandably concerned and confused about the new benefit. They face a number of private plan options and sorting through these plans will be complicated. Medicare beneficiaries will have to make many difficult decisions about what is the best course of action for them.

Choosing the right plan will be a challenge for all beneficiaries, but it will be most difficult for those who are frail and living with problems like dementia. The task will be virtually impossible for Hurricane Katrina victims who do not have permanent addresses and, therefore, won't even be able to obtain Part D materials. Yet, beneficiaries who do not act by the May 15, 2006 deadline and who enroll at a later date will face a substantial financial penalty.

In response, we are introducing this legislation which will provide added protections for beneficiaries during the first year of the new program. By delaying late enrollment penalties and giving every beneficiary a chance to

change plans once during the first year, we can make sure that our constituents are not forced to make hasty decisions they may later regret.

The Medicare Informed Choice Act of 2005 contains three important protections:

1. Delays late enrollment penalties: The bill expands the existing six-month open enrollment period to the entire year of 2006. This will give people added time to do the research and make the best decisions for themselves.

2. Protections against bad choices: The bill gives every Medicare beneficiary the opportunity to make a one-time change in plan enrollment at any point in 2006. Given the importance of the decision they make, it is appropriate to give beneficiaries a one-time chance to correct an initial mistake made during the first year of implementation.

3. Protections for employer-provided retiree benefits: This provision would protect employees from being dropped by their former employer's plan during the first year of implementation, so that beneficiaries have time to correct enrollment mistakes.

The Medicare Informed Choice Act is a small, time-limited step that would help ease the pressure of the first year of this new drug program. It is also critical for all those beneficiaries who face hurdles in obtaining Medicare Part D materials or are unaware that they will be penalized by failure to act. We urge all of our colleagues to join us in this effort to help protect Medicare beneficiaries during the benefit's implementation period.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

By Mr. SALAZAR (for himself and Mr. ALLARD):

S. 1848. A bill to promote remediation of inactive and abandoned mines, and for other purposes; to the Committee on Environment and Public Works.

Mr. SALAZAR. Mr. President, I rise to make a statement regarding an important bill I am introducing today. It is a bill that is meant to provide a straightforward and commonsense fix to a nettlesome problem that plagues communities throughout the west: pollution from abandoned mines.

The bill simply says that we should make life easier for Good Samaritans. Surprisingly, that is not currently the case.

The Western United States is pockmarked with old mines and mining residues, and many of these sites continuously pollute the water, the land, and the air. Our rivers and streams suffer particularly from this type of pollution.

In many cases, no one alive is legally responsible for cleaning these sites. In other cases, those who are legally responsible lack the money or other resources necessary to clean them up, and the pollution continues.

Fortunately, some people and some companies are willing to clean up mine sites in whole or in part, even though they are not legally responsible. These are Good Samaritans.

They act for many reasons. Some are people who live nearby and suffer directly from the pollution. Others are companies that want to perform a service to the community and to address less fortunate aspects of the history of the mining industry. Still others act for other reasons.

Unfortunately, though, our environmental laws create great risks of broad, long term, and very expensive liabilities for anyone who acts at a mine site, even if they act only as Good Samaritans. This problem understandably dissuades Good Samaritans from cleaning mine sites.

My bill is designed to fix this problem. It is written to encourage meritorious projects to proceed provided they have the full approval of the governments involved and full participation by the public—all to benefit the environment.

This bill intentionally is simple and intentionally straightforward. No Good Samaritan project will proceed unless it creates a true, overall environmental benefit. No project will gain approval unless the U.S. Environmental Protection Agency, the state involved, and local authorities affected agree that it is a good thing. The public will be fully involved in the process from the very beginning.

And, finally, the permit system and the standards in the bill are intentionally uncomplicated, so that permits for simple projects can be issued using simple proceedings.

My idea is to make clear that the work of Good Samaritans is very welcome. Some cleanup of the environment in these circumstances is far better than none at all.

The bill encourages Good Samaritans to clean pollution by freeing them from the large environmental liabilities that ordinarily burden anyone who acts to fix the pollution.

The bill applies to the cleanup of non-coal inactive and abandoned mines anywhere in the United States.

Its approach—which wraps all environmental requirements for a Good Samaritan project into a single permit that must be agreed to first by the Federal Government, the affected State, and local communities—is straightforward.

Its inclusion of the states and local communities as well as the affected publics—including by assuring that State and local authorities have a say in the provision of any permit—are based on the best traditions of the west.

And its impact is clear—only projects that benefit the environment will be permitted, and the work done pursuant to that permit will be afforded clear legal protection.

I am proud of this bill. It is the result of a series of meetings I held around my state earlier this year. And it is endorsed by the National Mining Association, the Colorado Mining Association, and the Great State of Colorado.

It is the right thing to do, and I look forward to working with my colleagues to ensure its enactment.

I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1848

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Cleanup of Inactive and Abandoned Mines Act”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the Federal Government and State governments encouraged hard rock mining in the United States through a wide variety of laws, policies, and actions;

(2) the mining activities that took place disturbed public and private land, and those disturbances led to considerable environmental pollution;

(3) many areas in which hard rock mining took place in the United States are now inactive and abandoned mine sites;

(4) many inactive and abandoned mine sites pollute the environment today and will continue to do so indefinitely unless remediated;

(5) adits and other tunnels will continue to drain pollutants to surface and ground water through gravity flow;

(6) surface runoff will continue to pick up pollutants as the runoff moves over disturbed ground and transports pollutants to surface waters; and

(7) tailings and other materials left exposed to the elements will continue to blow in the wind and pollute the atmosphere and soils;

(8) many of the individuals and corporate owners and operators of those mines, who caused this pollution, are no longer alive or in existence;

(9) some of the remaining owners and operators who remain do not have resources that are adequate to conduct remediation properly under applicable environmental laws, for all practical purposes leaving no one responsible for the cleanup of pollution from those sites;

(10) inactive and abandoned mine sites are located in areas of known economic mineralization;

(11) modern mining activities often take place on or in the vicinity of the area in which historic hard rock mining activities took place;

(12) from time to time, individuals and companies are willing to remediate historic mine sites for the public good as Good Samaritans, despite the fact that these individuals and companies are not legally required to remediate the mine sites;

(13) Good Samaritan remediation activities may—

(A) vary in size and complexity;

(B) reflect the myriad ways that mine residue may be cleaned up; and

(C) include, among other activities—

(i) the relocation or management of tailings or other waste piles;

(ii) passive or active water treatment;

(iii) runoff or run-on controls; and

(iv) the use or reprocessing of, or removal of materials from, mine residue;

(14) the potential environmental liabilities that may attach to those Good Samaritans as a result of the remediation can dissuade those Good Samaritans from acting for the public good;

(15) it is in the interest of the United States, the States, and local communities to remediate historic mine sites, in appropriate circumstances and to the maximum extent practicable, so that the environmental impacts of the sites are lessened into the future; and

(16) if appropriate protections are provided for Good Samaritans, Good Samaritans will have a greater incentive to remediate those sites for the public good.

(b) PURPOSES.—The purposes of this Act are—

(1) to encourage partial or complete remediation of inactive and abandoned mining sites for the public good by persons who are not otherwise legally responsible for the remediation;

(2) to provide appropriate protections for Good Samaritans under applicable environmental laws;

(3) to ensure that remediation performed by Good Samaritans creates actual and significant environmental benefits;

(4) to ensure that remediation by Good Samaritans is carried out—

(A) with the approval and agreement, and in the discretion, of affected Federal, State, and local authorities and with review by the public; and

(B) in a manner that is beneficial to the environment and all affected communities; and

(5) to create an efficient permit process under which the cost and complexity of obtaining a permit are commensurate with the scope of remediation work to be completed and the environmental benefits from the work;

(6) to avoid permitting for ongoing, for-profit businesses that specialize in multiple Good Samaritan projects that are designed to be permitted outside otherwise applicable Federal, State, and local environmental laws; and

(7) to ensure that the protections for Good Samaritans provided in this Act are interpreted in accordance with the purposes of this Act and to enhance the public good.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 268—EXPRESSING THE SENSE OF THE SENATE THAT A COMMEMORATIVE POSTAGE STAMP SHOULD BE ISSUED TO HONOR SCULPTOR KORCZAK ZIOLKOWSKI

Mr. JOHNSON (for himself, Mr. THUNE, and Mr. LEVIN) submitted the following resolution; which was referred to the Committee on Homeland Security and Governmental Affairs:

S. RES. 268

Whereas Korczak Ziolkowski was born in Boston, Massachusetts on September 6, 1908, the 31st anniversary of the death of Lakota leader Crazy Horse;

Whereas, although never trained in art or sculpture, Korczak Ziolkowski began a successful studio career in New England as a commissioned sculptor at age 24;

Whereas Korczak Ziolkowski's marble sculpture of composer and Polish leader Ignace Jan Paderewski won first prize at the 1939 New York World's Fair and prompted Lakota Indian Chiefs to invite Ziolkowski to carve a memorial for Native Americans;

Whereas in his invitation letter to Korczak Ziolkowski, Chief Henry Standing Bear wrote: “My fellow chiefs and I would like the white man to know that the red man has great heroes, also.”;

Whereas in 1939, Korczak Ziolkowski assisted Gutzon Borglum for a brief time in carving Mount Rushmore;

Whereas in 1941, Korczak Ziolkowski met with Chief Henry Standing Bear who taught Korczak more about the life of the brave Lakota leader Crazy Horse;

Whereas at the age of 34, Korczak Ziolkowski temporarily put his sculpturing career aside when he volunteered for service in World War II, later landing on Omaha Beach;

Whereas after the war, Korczak Ziolkowski turned down other sculpting opportunities in order to accept the invitation of Chief Henry Standing Bear and dedicate the rest of his life to carving the Crazy Horse Memorial in the Black Hills of South Dakota;

Whereas on June 3, 1948, when work was begun on the Crazy Horse Memorial, Korczak Ziolkowski vowed that the memorial would be a nonprofit educational and cultural project, financed solely through private, nongovernmental sources, to honor the Native Americans of North America;

Whereas the Crazy Horse Memorial is a mountain carving-in-progress, and once completed it will be the largest sculpture in the world;

Whereas since his death on October 20, 1982, Korczak's wife Ruth, the Ziolkowski family, and the Crazy Horse Memorial Foundation have continued to work on the Memorial and to continue the dream of Korczak Ziolkowski and Chief Henry Standing Bear; and

Whereas on June 3, 1998, the Memorial entered its second half century of progress and heralded a new era of work on the mountain with the completion and dedication of the face of Crazy Horse: Now, therefore, be it

Resolved, That—

(1) the Senate recognizes—

(A) the admirable efforts of the late Korczak Ziolkowski in designing and creating the Crazy Horse Memorial;

(B) that the Crazy Horse Memorial represents all North American Indian tribes, and the noble goal of reconciliation between peoples; and

(C) that the creation of the Crazy Horse Memorial, from its inception, has been accomplished through private sources and without any Federal funding; and

(2) it is the sense of the Senate that the Citizens' Stamp Advisory Committee should recommend to the Postmaster General that a commemorative postage stamp be issued in honor of sculptor Korczak Ziolkowski and the Crazy Horse Memorial, commemorating his 100th birthday.

SENATE RESOLUTION 269—EX-PRESSING THE SENSE OF THE SENATE THAT A “WELCOME HOME VIETNAM VETERANS DAY” SHOULD BE ESTABLISHED

Mrs. BOXER submitted the following resolution; which was referred to the Committee on Veterans' Affairs:

S. RES. 269

Whereas the Vietnam War took place in Vietnam from 1961 to 1975 in which North Vietnam and the Viet Cong were in conflict with the United States and South Vietnam;

Whereas the United States became involved in Vietnam because policy makers in the United States believed that if South Vietnam fell to a communist government then communism would spread throughout the rest of Southeast Asia;

Whereas members of the United States Armed Forces began serving in an advisory role to the people of South Vietnam in 1961;

Whereas, as a result of the Gulf of Tonkin incidents on August 2, 1964 and August 4, 1964, Congress overwhelmingly passed the Joint Resolution entitled “Joint Resolution

to promote the maintenance of international peace and security in southeast Asia”, approved August 10, 1964 (Public Law 88-408; 78 Stat. 384), which effectively granted war-making powers to President Johnson until such time as “peace and security” had returned to Vietnam;

Whereas, in 1965, ground combat units of the United States Armed Forces arrived in Vietnam;

Whereas, by the end of 1965, there were 80,000 troops of the United States Armed Forces in Vietnam, and by 1969 the number of troops reached a peak of approximately 543,000;

Whereas, on January 27, 1973, the Paris Peace Accords were signed, which required the release of all United States prisoners-of-war held in North Vietnam and the withdrawal of all members of the United States Armed Forces from South Vietnam;

Whereas, on March 30, 1973, the United States Armed Forces completed the withdrawal of combat troops from Vietnam;

Whereas more than 58,000 members of the United States Armed Forces lost their lives in Vietnam and more than 300,000 members of the United States Armed Forces were wounded;

Whereas, in 1982, the Vietnam Veterans Memorial was dedicated in the District of Columbia to commemorate those members of the United States Armed Forces who died or were declared missing-in-action in Vietnam;

Whereas, as of 2005, more than 1,800 members of the United States Armed Forces remain unaccounted for in Vietnam and Southeast Asia and the Department of Defense continues efforts to recover these members;

Whereas the Vietnam War was an extremely divisive issue among the people of the United States;

Whereas members of the United States Armed Forces who served bravely and faithfully for the United States during the Vietnam War were caught, upon their return home, in the middle of public debate about the involvement of the United States in the Vietnam War;

Whereas the Department of Veterans Affairs estimates that 250,000 veterans are homeless every night and that 47 percent of all homeless veterans served during the Vietnam era;

Whereas veterans of the Vietnam War continue to be at risk for post-traumatic stress disorder and health problems related to Agent Orange exposure;

Whereas veterans of the Vietnam War, and all veterans, are entitled to the best care and treatment the Government of the United States can provide;

Whereas the establishment of a “Welcome Home Vietnam Veterans Day” would be an appropriate way to honor those members of the United States Armed Forces who served in Vietnam during the Vietnam War; and

Whereas March 30, 2006 would be an appropriate day to establish as “Welcome Home Vietnam Veterans Day”: Now, therefore, be it

Resolved, That it is the sense of the Senate that a “Welcome Home Vietnam Veterans Day” should be established to honor those members of the United States Armed Forces who served in Vietnam.

Mrs. BOXER. Mr. President, I am pleased to submit a resolution today expressing the sense of the Senate that a “Welcome Home Vietnam Veterans Day” should be established. I join Representative LINDA SÁNCHEZ in this effort and applaud her for previously submitting this resolution in the House of Representatives. Establishing this day would be an appropriate way to honor

members of the United States Armed Forces who bravely and faithfully served during the Vietnam War.

During the course of the Vietnam War, over 58,000 U.S. troops lost their lives. In addition, more than 300,000 were wounded. To date, more than 1,800 members of the United States Armed Forces remain unaccounted for in Vietnam and Southeast Asia.

Those who did return home from Vietnam did not have the traditional welcome home ceremonies. And they continue to face many problems, including health problems related to Agent Orange exposure, prolonged risk for post-traumatic stress disorder, and homelessness. Of the 250,000 veterans who are homeless every night, the Department of Veterans Affairs estimates that 47 percent of them served during the Vietnam era.

Veterans of the Vietnam War, and all veterans, are entitled to the best care and treatment the U.S. Government can provide. It is important that we honor and respect their service. It is especially important to do so now, at a time when we have so many new veterans returning home from the wars in Iraq and Afghanistan.

By honoring those who have served before, we show these new veterans how committed we, as a country, are to them and how much we value the sacrifices they make on our behalf. Establishing a “Welcome Home Vietnam Veterans Day” is one way we can accomplish this. I urge my colleagues to support this resolution.

SENATE RESOLUTION 270—EX-PRESSING THE SENSE OF THE SENATE THAT THE INTERNATIONAL MONETARY FUND SHOULD INVESTIGATE WHETHER CHINA IS MANIPULATING THE RATE OF EXCHANGE BETWEEN THE CHINESE YUAN AND THE UNITED STATES DOLLAR

Mr. BAYH (for himself, Ms. STABENOW, and Mr. SCHUMER) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 270

Whereas the global current account deficit of the United States has already reached almost \$800,000,000,000 and is growing rapidly;

Whereas the global current account surplus of the People's Republic of China is likely to reach \$150,000,000,000 and is also growing very rapidly;

Whereas China has intervened massively in the exchange markets to artificially block appreciation of China's currency;

Whereas China has been increasing its competitiveness by riding the dollar down against other currencies, therefore achieving a trade-weighted depreciation of about 10 percent over the past 3 years;

Whereas it is the responsibility of the International Monetary Fund to take the lead in promoting correction of such huge, costly, and potentially destabilizing imbalances in the world economy;

Whereas the International Monetary Fund's Articles of Agreement enjoin member countries to “avoid manipulating exchange rates or the international monetary system

in order to prevent effective balance-of-payments adjustments or to gain unfair competitive advantage over other member countries";

Whereas the International Monetary Fund has identified "protracted, large-scale interventions in one direction in the exchange markets" as indicating a need for International Monetary Fund discussion with the offending country; and

Whereas the People's Republic of China has engaged in such manipulation and intervention: Now, therefore, be it

Resolved, That it is the sense of the Senate that the President should instruct the United States Executive Director to the International Monetary Fund to bring a general complaint under the International Monetary Fund's Articles of Agreement against the People's Republic of China for not complying with Article IV of the Articles of Agreement and manipulating the rate of exchange of its currency against other currencies to gain an unfair trade advantage and to prevent effective balance of payment adjustments.

SENATE CONCURRENT RESOLUTION 57—RECOGNIZING THE CONTRIBUTIONS OF AFRICAN-AMERICAN BASKETBALL TEAMS AND PLAYERS FOR THEIR ACHIEVEMENTS, DEDICATION, AND CONTRIBUTIONS TO THE SPORT OF BASKETBALL AND THE NATION

Ms. STABENOW (for herself and Mr. LEVIN) submitted the following concurrent resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. CON. RES. 57

Whereas, even though African-Americans were excluded from playing in organized White-only leagues, the desire of African-Americans to play basketball could not be repressed;

Whereas, unlike baseball, which had Negro leagues, basketball had no organized Black leagues, thus forcing Blacks to take to the road out of necessity;

Whereas among the most well-known black barnstorming teams that found their beginnings in the 1920s were the New York Renaissance (or Rens), the Harlem Globetrotters, the New York Enforcers, the Harlem Clowns, the Harlem Road Kings, the Harlem Stars, the Harlem Ambassadors, and the Philadelphia Tribunes;

Whereas, despite the racism they faced, Negro basketball teams overcame great obstacles to play the game before Black players were allowed to play in the National Basketball Association in the early 1950s;

Whereas the New York Rens became one of the first great basketball dynasties in the history of the game, compiling a 2,588-539 record in its 27-year existence, winning 88 straight games in the 1932-33 season, and winning the 1939 World Professional Championship;

Whereas the Harlem Globetrotters proved that they were capable of beating professional teams like the World Champion Minneapolis Lakers led by basketball great George Mikan in 1948;

Whereas the barnstorming African-American basketball teams included exceptionally talented players and shaped modern-day basketball by introducing a new style of play predicated on speed, short crisp passing techniques, and vigorous defensive play;

Whereas among the pioneers who played on Black barnstorming teams included players such as Tarzan Cooper, Pop Gates, John Isaacs, Willie Smith, Sweetwater Clifton,

Ermer Robinson, Bob Douglas, Pappy Ricks, Runt Pullins, Goose Tatum, Marques Haynes, Bobby Hall, Babe Pressley, Bernie Price, Ted Strong, Inman Jackson, Duke Cumberland, Fat Jenkins, Eddie Younger, Lou Badger, Zachary Clayton, Jim Usry, Sonny Boswell, and Puggy Bell;

Whereas the struggles of these players and others paved the way for current African-American professional players, who are playing in the National Basketball Association today;

Whereas the style of Black basketball was more conducive to a wide open, fast-paced, spectator sport;

Whereas, by achieving success on the basketball court, African-American basketball players helped break down the color barrier and integrate African-Americans into all aspects of society in the United States;

Whereas, during the era of sexism and gender barriers, barnstorming African-American basketball was not limited to men's teams, but included women's teams as well, such as the Chicago Romas and the Philadelphia Tribunes;

Whereas only in recent years has the history of African-Americans in team sports begun receiving the recognition it deserves;

Whereas basketball is a uniquely modern and uniquely American sport;

Whereas the Black Legends of Professional Basketball Foundation, established by former Harlem Globetrotter Dr. John Kline of Detroit, Michigan, honors and highlights the significant contributions of these pioneers and their impact on professional basketball today; and

Whereas the hard work and efforts of the foundation have been instrumental in bringing African-American inductees into the Naismith Memorial Basketball Hall of Fame in Springfield, Massachusetts: Now therefore, be it

Resolved by the Senate (the House of Representatives concurring), That

(1) Congress recognizes the teams and players of the barnstorming African-American basketball teams for their achievement, dedication, sacrifices, and contribution to basketball and to the Nation prior to the integration of the White professional leagues;

(2) current National Basketball Association players should pay a debt of gratitude to these great pioneers of the game of basketball and recognize them at every possible opportunity; and

(3) a copy of this resolution be transmitted to the Black Legends of Professional Basketball Foundation, which has recognized and commemorated the achievements of African-American basketball teams, the National Basketball Association, and the Naismith Basketball Hall of Fame.

SEC. ____ SUPPORT FOR YOUTH ORGANIZATIONS.

(a) SHORT TITLE.—This Act may be cited as the "Support Our Scouts Act of 2005".

(b) SUPPORT FOR YOUTH ORGANIZATIONS.—

(1) DEFINITIONS.—In this subsection—

(A) the term "Federal agency" means each department, agency, instrumentality, or other entity of the United States Government; and

(B) the term "youth organization"—

(i) means any organization that is designated by the President as an organization that is primarily intended to—

(I) serve individuals under the age of 21 years;

(II) provide training in citizenship, leadership, physical fitness, service to community, and teamwork; and

(III) promote the development of character and ethical and moral values; and

(ii) shall include—

(I) the Boy Scouts of America;

(II) the Girl Scouts of the United States of America;

(III) the Boys Clubs of America;

(IV) the Girls Clubs of America;

(V) the Young Men's Christian Association;

(VI) the Young Women's Christian Association;

(VII) the Civil Air Patrol;

(VIII) the United States Olympic Committee;

(IX) the Special Olympics;

(X) Campfire USA;

(XI) the Young Marines;

(XII) the Naval Sea Cadets Corps;

(XIII) 4-H Clubs;

(XIV) the Police Athletic League;

(XV) Big Brothers—Big Sisters of America; and

(XVI) National Guard Youth Challenge.

(2) IN GENERAL.—

(A) SUPPORT FOR YOUTH ORGANIZATIONS.—

(i) SUPPORT.—No Federal law (including any rule, regulation, directive, instruction, or order) shall be construed to limit any Federal agency from providing any form of support for a youth organization (including the

Boy Scouts of America or any group officially affiliated with the Boy Scouts of America) that would result in that Federal agency providing less support to that youth organization (or any similar organization chartered under the chapter of title 36, United States Code, relating to that youth organization) than was provided during the preceding fiscal year. This clause shall be subject to the availability of appropriations.

(ii) **YOUTH ORGANIZATIONS THAT CEASE TO EXIST.**—Clause (i) shall not apply to any youth organization that ceases to exist.

(iii) **WAIVERS.**—The head of a Federal agency may waive the application of clause (i) to any youth organization with respect to each conviction or investigation described under subclause (I) or (II) for a period of not more than 2 fiscal years if—

(I) any senior officer (including any member of the board of directors) of the youth organization is convicted of a criminal offense relating to the official duties of that officer or the youth organization is convicted of a criminal offense; or

(II) the youth organization is the subject of a criminal investigation relating to fraudulent use or waste of Federal funds.

(B) **TYPES OF SUPPORT.**—Support described under this paragraph shall include—

(i) holding meetings, camping events, or other activities on Federal property;

(ii) hosting any official event of such organization;

(iii) loaning equipment; and

(iv) providing personnel services and logistical support.

(C) **SUPPORT FOR SCOUT JAMBOREES.**—

(1) **FINDINGS.**—Congress makes the following findings:

(A) Section 8 of article I of the Constitution of the United States commits exclusively to Congress the powers to raise and support armies, provide and maintain a Navy, and make rules for the government and regulation of the land and naval forces.

(B) Under those powers conferred by section 8 of article I of the Constitution of the United States to provide, support, and maintain the Armed Forces, it lies within the discretion of Congress to provide opportunities to train the Armed Forces.

(C) The primary purpose of the Armed Forces is to defend our national security and prepare for combat should the need arise.

(D) One of the most critical elements in defending the Nation and preparing for combat is training in conditions that simulate the preparation, logistics, and leadership required for defense and combat.

(E) Support for youth organization events simulates the preparation, logistics, and leadership required for defending our national security and preparing for combat.

(F) For example, Boy Scouts of America's National Scout Jamboree is a unique training event for the Armed Forces, as it requires the construction, maintenance, and disassembly of a "tent city" capable of supporting tens of thousands of people for a week or longer. Camporees at the United States Military Academy for Girl Scouts and Boy Scouts provide similar training opportunities on a smaller scale.

(2) **SUPPORT.**—Section 2554 of title 10, United States Code, is amended by adding at the end the following:

"(i)(1) The Secretary of Defense shall provide at least the same level of support under this section for a national or world Boy Scout Jamboree as was provided under this section for the preceding national or world Boy Scout Jamboree.

"(2) The Secretary of Defense may waive paragraph (1), if the Secretary—

"(A) determines that providing the support subject to paragraph (1) would be detri-

mental to the national security of the United States; and

"(B) reports such a determination to the Congress in a timely manner, and before such support is not provided."

(d) **EQUAL ACCESS FOR YOUTH ORGANIZATIONS.**—Section 109 of the Housing and Community Development Act of 1974 (42 U.S.C. 5309) is amended—

(1) in the first sentence of subsection (b) by inserting "or (e)" after "subsection (a)"; and

(2) by adding at the end the following:

"(e) **EQUAL ACCESS.**—

"(1) **DEFINITION.**—In this subsection, the term 'youth organization' means any organization described under part B of subtitle II of title 36, United States Code, that is intended to serve individuals under the age of 21 years.

"(2) **IN GENERAL.**—No State or unit of general local government that has a designated open forum, limited public forum, or nonpublic forum and that is a recipient of assistance under this chapter shall deny equal access or a fair opportunity to meet to, or discriminate against, any youth organization, including the Boy Scouts of America or any group officially affiliated with the Boy Scouts of America, that wishes to conduct a meeting or otherwise participate in that designated open forum, limited public forum, or nonpublic forum."

SA 2055. MR. STEVENS (for Mr. BYRD) proposed an amendment to the bill H.R. 2863, making appropriations for the Department of Defense for the fiscal year ending September 30, 2006, and for other purposes; as follows:

At the appropriate place, insert the following:

TITLE ____

SEC. 101. (a) There are appropriated out of the Employment Security Administration Account of the Unemployment Trust Fund, \$14,000,000 for authorized administrative expenses.

(b) From the money in the Treasury not otherwise obligated or appropriated, there are appropriated to the Office of the Inspector General of the Department of Health and Human Services \$5,000,000 for oversight activities related to Hurricane Katrina.

(c) The amounts appropriated under subsection (a) and (b)—

(1) are designated as emergency requirements pursuant to section 402 of H. Con. Res. 95 (109th Congress); and

(2) shall remain available until expended.

ORDERS FOR FRIDAY, OCTOBER 7, 2005

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senate stand in recess until 8:15 a.m. on Friday, October 7. I further ask consent that following the prayer and pledge, the Journal of proceedings be approved to date, the time for the two leaders be reserved, and the Senate then resume consideration of H.R. 2863, the Defense appropriations bill. I further ask consent that following the leader's remarks, Senator LANDRIEU be recognized to speak until 9:15. I further ask consent that immediately following her remarks, and with no intervening action or debate, all time under cloture then be considered expired, the bill be read a third time, and the Senate proceed to a vote on passage of the bill, with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. STEVENS. Before we recess, I will yield to the Senator from Louisiana for 5 minutes before we close.

Ms. LANDRIEU. I thank the Senator from Alaska.

The PRESIDING OFFICER. The Senator from Louisiana.

Ms. LANDRIEU. I thank the Chair.

DISASTER ASSISTANCE

Ms. LANDRIEU. Mr. President, it has been a very long day. I am hoping, as this day continues into the evening hours, as we continue to work on the underlying bill, which is the Defense appropriations bill, to have an amendment dealing with Hurricane Katrina in a way this Congress might respond to this urgent need. I thank the Senator from Alaska for his patience through this day because the issue that is before us really is not an amendment on the Defense bill. It is a separate issue but needs to be handled before we leave, in my opinion.

That is why I have stayed here throughout the day and have been

here, of course, throughout the week, in many meetings and phone calls, and now in time on the floor throughout the day, to try to find a way to get some immediate help to our cities and parishes and counties along the gulf coast. It looks like there is a possibility that still might be the case.

But because of the lateness of the hour, really for the staff that has been here so long, I am going to agree to continue to work through the night, allow the staff to take a recess, and spend some time on this, as I have throughout the last few hours, working with my colleagues, particularly Senator LEVIN from Michigan, who has put in a tremendous amount of time, other Senators, Senator CARPER from Delaware, Senator CLINTON, Senator DURBIN, Senator REID. And Senator FRIST has been here for a while. Of course, Senator VITTER was here earlier trying to get through this process, with the specific focus of mine being to try to get our State in the same situation that other States have been put in when they needed help.

We are not quite there yet, but we may yet get there by the time we close the debate in just a few hours. But, really, the staff has done more than they should be asked, to stay this late.

We have tried four or five different compromises in the last 8 hours, and we are not quite there yet. But we may be there in the morning when the Senate comes out of recess.

I am going to continue to work through the evening to see if we can find some sort of solution so that our four States—Louisiana, Mississippi, Alabama, and Texas—can be treated in the same way with the same respect as other States have in disasters in the past.

I thank the Senator for his patience throughout the evening.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Mr. President, I thank the Senator from Louisiana.

PROGRAM

Mr. STEVENS. Mr. President, we will reconvene at 8:15 tomorrow morning. Following additional remarks by Senator LANDRIEU in the morning, we will vote on passage of the Defense appropriations bill. That vote will occur concerning at 9:15. Following that vote, we will proceed to the Homeland Security appropriations conference report. It is my understanding that we will be able to consider that conference report under a 30-minute time agreement and that a vote would not be necessary. We have not locked in that agreement. We will turn to that conference report in the morning after voting on the DOD appropriations bill.

RECESS UNTIL 8:15 A.M.

Mr. STEVENS. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in recess in accordance with the previous order.

There being no objection, the Senate, at 1:39 a.m., recessed until Friday, October 7, 2005, at 8:15 a.m.
