

GEN Lance W. Lord, commander of Air Force Space Command, and his wife Beccy for their lifetime of service and unflinching dedication to the U.S. Air Force and our great country.

As both an airman and leader, spanning 37 years of military service, General Lord's contributions to our Nation's strategic deterrence and space missions were critical to the warfighter, global economy, and the safety of our families. General Lord's leadership was an essential element in winning the Cold War and vital to Air Force Space Command's support of combat operations around the world to include Operations Enduring Freedom, Iraqi Freedom, and the global war on terrorism.

General Lord prepared for his illustrious Air Force career by graduating from Otterbein College and its Reserve Officer Training Corps in 1968. In January of 1969, General Lord was introduced to the Air Force through Intercontinental Ballistic Missile, ICBM, operational readiness and combat crew missile training. This training led to his first assignment to North Dakota as a Minuteman II combat crewmember. General Lord's Air Force journey would take him and Beccy through a series of Air Staff and Department of Defense assignments relating to space and strategic and tactical missile systems. He was assigned as the military assistant to the director of Net Assessment and directed the Ground-Launched Cruise Missile Program in Europe. He served as the commander of the 10th Strategic Missile Squadron in Montana, vice commander of the 351st Strategic Missile Wing in Missouri, and later commanded two ICBM wings in Wyoming and North Dakota. In California, General Lord commanded the 30th Space Wing responsible for satellite launch and ballistic missile test launch operations. Leading professional development and educational programs was a hallmark of General Lord's career. He led Air Force's education and training programs as commandant of Squadron Officer School, commander of Second Air Force in Mississippi, and commander of Air University in Alabama. Prior to assuming his current position, General Lord served as the assistant vice chief of staff for Headquarters, U.S. Air Force.

During General Lord's tenure as commander, Air Force Space Command, he provided inspirational leadership to over 39,000 service men and women responsible for a global network of satellite command and control, communications, missile warning, space launch, and ensured the combat readiness of America's ICBM force. General Lord guided the command to a number of historic firsts: 44 successful consecutive operational space launches, establishment of National Security Space Institute, the launch of the last Titan IV, and transition to the Evolved Expendable Launch Vehicle, deactivation of the Peacekeeper ICBM weapon sys-

tem, and the establishment of the quarterly High Frontier, Air Force Space Command's first scholarly space and missile journal. General Lord has been a stellar Air Force advocate for the creation of the Space Power Caucus, orchestrated the "50 Years of Air Force Space and Missiles" celebration, and developed the Space Professional Development Strategy. Most recently, he answered the President's call to service with the creation of the High Frontier Adventures, a program designed to inspire students to explore space, mathematics, science, engineering and technology.

General Lord's impeccable service is characterized by his Command Space Badge, Space Professional Level III certification, operational space experience in nuclear operations and spacelift, weapon systems expertise in the Minuteman II, Minuteman III, and Peacekeeper ICBMs, and the Atlas E, Delta II, Titan II, and Titan IV Boosters. General Lord is the recipient of numerous prestigious recognitions: Space Champion Award, General Bernard A. Schriever Award, General Jimmy Doolittle Fellow Award, General James V. Hartinger Award, and the General Thomas D. White Space Trophy.

Today, I have mentioned but a few of GEN Lance W. Lord's many achievements. General Lord is a visionary, steadfast military leader, and honorable man. I know my colleagues join me in paying tribute to him and his wife Beccy and their two sons, Jason and Joshua, for the years they have dedicated to our country and to the betterment of the U.S. Armed Forces. As a distinguished space pioneer, General Lord widely proclaimed the mandate, "If you're not in space, you're not in the race." General Lord, we wish you well.

TEXT OF RESOLUTION OF ADVICE AND CONSENT TO RATIFICATION AS RECOMMENDED BY THE COMMITTEE ON FOREIGN RELATIONS

*Resolved (two-thirds of the Senators present concurring therein),*

Section 1. Senate Advice and Consent Subject to Understandings and Declaration

The Senate advises and consents to the ratification of the Protocol of 1997 to Amend the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 Relating Thereto (hereinafter in this resolution referred to as the "Protocol of 1997"), signed by the United States on December 22, 1998 (T. (2) The United States of America understands that Regulation 15 applies only to safety aspects associated with the operation of vapor emission control systems that may be applied during cargo transfer operations between a tanker and port-side facilities and to the requirements specified in Regulation 15 for notification to the International Maritime Organization of port State regulation of such systems.
