

wrote an essay for the General Mills sponsored organization on parental involvement in schools. His school, Baltimore Hebrew Congregation Day School in Lutherville, MD, was awarded a grant of one thousand dollars because of his achievement.

By using the topic provided, Sam carefully crafted an essay to explain how he would improve parental involvement in schools if he were principal for a day. He recommends parents volunteer their time by speaking to the students about their area of expertise. For example, he mentions how someone in the health profession came to the school and taught the students a lesson in that subject. He also suggests parents come into the classroom to relate their personal experiences to whatever subject is being taught that day.

Sam's essay is extremely motivational. It proves that school-aged children are interested in their families, and would like more opportunities to learn from them. He suggests teachers assign activities that involve parents, making learning fun for both the student and the parent. Sam provides an example of the previous year when he was given an assignment to learn about rocks. He was only able to find a small variety of rocks in his neighborhood so, as a result, his parents needed to take him to other locations to complete the task. I believe that education is one of the most important gifts we can give our children and it must begin in the home.

It is critical to arm our children with the best skills possible to ensure their success in life. They acquire these skills through practice both in the home and at school. It is very important to keep the lines of communication open between parents and school officials. Sam offers an idea of "Principal Coffees" where parents and administrators are given the opportunity to discuss what is happening in the school. He also recommends administrator and parent meetings via chat room discussions.

Mr. Speaker, I ask that you join with me today to recognize the achievement of essay winner Master Sam Hyatt. He should be commended for his outstanding efforts.

IN HONOR OF THE GREGORY FAMILY AS THEY RECEIVE THE TREE OF LIFE AWARD

### HON. JEAN SCHMIDT

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 5, 2006*

Mrs. SCHMIDT. Mr. Speaker, I rise today to recognize the Gregory Family as they receive the Tree of Life humanitarian award on April 30th, 2006 from the Jewish National Fund.

The Jewish National Fund has bestowed its prestigious Tree of Life award annually since 1981. Recipients of this honor are chosen on the basis of outstanding community involvement, professional leadership and humanitarian service.

The Tree of Life award was named to symbolize the Jewish National Fund's efforts to reclaim and develop the land of Israel from barren and uninhabitable land into a land of lush green forests and fields, productive farmlands and varied tourism and recreation facilities.

Members of the Gregory Family receiving the award include the late Ted Gregory, his wife Matula and their children and spouses,

Tom and Pam; Dean and Hedy; Evan and Terry; and Vickie. This talented and generous family is behind one of Cincinnati's most notable treasures, The Montgomery Inn Restaurants. These award-winning restaurants are known not only in our own region, but across the nation.

Ted Gregory and his wife Matula worked hard to build their business and instill a strong work ethic and sense of charity in their children. Ted often said, "Give until it hurts, then give a little more." This belief, combined with a strong work ethic, is no doubt the recipe to the Gregory Family's success.

As the Gregory's success has steadily grown over the years, so too has their mission to give back to others. Some of their beneficiaries include the Bob Hope House, The Free Store Food Bank, The Down Syndrome Association, Big Brothers and Big Sisters, Cincinnati Children's Hospital, One Way Farm and countless others.

The family also established the Montgomery Inn Invitational, which has raised more than \$500,000. These funds have benefited the Jewish Federation, the Uriah P. Levy Jewish Chapel at the U.S. Naval Academy, the United Negro College Fund, the Billy Barty Foundation, and scholarships benefiting many area youth.

Today, Ted and Matula's children continue to carry on the family's charitable legacy. The four Gregory children graduated from Sycamore High School, where they recently endowed a state-of-the-art fitness center bearing the name of their parents.

The Gregory Family will donate the proceeds from this year's Tree of Life dinner to the Jewish National Fund Therapeutic Riding Consortium Endowment for Israel.

In addition to four children, Ted and Matula have eight grandchildren.

All of us in the Cincinnati area congratulate the Gregory Family on receiving the Tree of Life humanitarian award.

### A TRIBUTE TO BURNETTA ROSE LEE GRAVES

### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 5, 2006*

Mr. TOWNS. Mr. Speaker, I rise today in recognition of Burnetta Rose Lee Graves, a distinguished member of the Brooklyn community. I hope my colleagues will join me in recognizing her accomplishments.

Burnetta is a native of Brooklyn, New York and the daughter of Helena and the late Abel Lee Graves both of Wilmington, N.C. She attended the public schools in Brooklyn, N.Y. for her formative education and graduated from George W. Wingate H.S. After attending Fashion Institute of Technology in Manhattan, she embarked on an entrepreneurial career as a clothing designer for 13 years.

Burnetta is an active member of both the Brooklyn and Queens communities; her political affiliations include: Women's Caucus for Congressman EDOLPHUS "Ed" TOWNS; Guy R. Brewer United Democratic Club of St. Albans, N.Y.; and the Thomas Jefferson Democratic Club of Kings County Inc. Additionally, while working for Philip Morris USA, the company aided Burnetta's community affiliation in various areas of New York.

Burnetta has always been an active member of her church, St. Mark's United Methodist Church in Harlem USA. While there she was president of the Young Adult Club for 4 years and served as a Trustee for 3 years. In 1997, she was drawn to St. Paul Community Baptist Church in East New, Brooklyn, N.Y. because of the interactive relationship that the church has with the community. As a member of the Baby Dedication Ministry and various activities of the church, she has numerous opportunities to reach out to the community at large.

Working for the Rochdale Village Community Center in Jamaica, N.Y. enables Burnetta to teach children ages 5–12 the art of quilt making. To this day the quilts are still displayed in the front entrance of the center.

In 2002 she joined the staff of Congressman ED TOWNS as a Special Assistant and Ecumenical Liaison. In that role she deals with all faith-based organizations in the 10th Congressional District of Brooklyn, N.Y. She also assists constituents in housing concerns and other issues. Burnetta's current project is "Adopt A School" working with Health-based organizations to insure better health care standards for the community.

Mr. Speaker, Burnetta Rose Lee Graves' selfless service has continuously demonstrated a level of altruistic dedication that makes her worthy of our recognition today.

HONORING DANIEL FIGUEROA FOR HIS RETIREMENT AFTER MANY YEARS OF SERVICE TO WESTERN NEW YORK

### HON. BRIAN HIGGINS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, April 5, 2006*

Mr. HIGGINS. Mr. Speaker, I rise today to pay tribute to Daniel Figueroa, who has set an example to all, through community involvement, selfless dedication and tireless compassion for the community.

To his community he is known as a pioneer, and as someone who never forgot his roots, to his coworkers he is known for his diligence and exemplary work ethic. Detective Sergeant Daniel Figueroa is not only an outstanding member of the department but also an outstanding member of his community.

Daniel Figueroa has been a member of the Buffalo Police Department for 35 years. It is also important to note that officer Figueroa was one of the first Hispanic-Latino officers in Buffalo, NY.

Aside from his duty in law enforcement he also served as an Army paratrooper during the Vietnam War.

Officer Figueroa has also been recognized for his service working undercover for the Federal Drug Enforcement Administration.

Stories and memories of his work while in the department have changed lives and inspired others. A prime example of officer Figueroa's dedicated service occurred in 1970 when on patrol at the Erie Basin Marina; he noticed a crowd of people and saw a man in the water. Without hesitation, he jumped in to rescue the drowning man. He learned later that the man he had rescued was trying to commit suicide, eventually the man contacted officer Figueroa to thank him.

Mr. Speaker, it is with great pleasure and gratitude that I stand here today to recognize

Daniel Figueroa for his dedication, honorable service and his daily commitment to making western New York a safer place, and guaranteeing a better tomorrow.

COLLEGE ACCESS AND  
OPPORTUNITY ACT OF 2005

SPEECH OF

**HON. FRANK R. WOLF**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, March 30, 2006*

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 609) to amend and extend the Higher Education Act of 1965:

Mr. WOLF. Mr. Chairman, I rise today in support of the amendment offered by my colleagues Representatives KIRK and LARSEN. They are to be commended for drawing attention to the importance of student exchange and language education programs, particularly related to Chinese and Arabic. In the 21st century world, China and the Middle East are critically important.

I share their support for language and culture education programs to help equip today's young people for the global marketplace. I was pleased to be able to help bring Japanese and Chinese language programs to the Fairfax County Public School system in northern Virginia. During the early 1980s Japan was the primary United States competitor. In an effort to understand how to help United States businesses remain competitive in an expanding global economy, especially with Japan, I wrote to the top 500 U.S. companies asking for their feedback.

The overwhelming response was that U.S. businesses were having difficulty finding qualified people who spoke Japanese and understood that culture. It became clear that the younger generation of Americans who would be the business leaders of tomorrow needed the training to compete with Japan. To help enlarge the pool of fluent Japanese speakers and broaden understanding of the Japanese culture, I worked with the U.S. Department of Education to establish language immersion programs in northern Virginia in 1988.

As a result, Floris, Fox Mill and Great Falls Elementary schools, all in the Fairfax County Public School system, began offering Japanese immersion programs. In these programs, students spend half the school day in their subjects learning to converse in Japanese and the other half in English. I insert for the RECORD excerpts from my congressional newsletters from 1988 announcing the launch of the Japanese language immersion program.

Today, the United States' main global competitor is no longer Japan. China has assumed that position. As we did in the 1980s with Japanese language immersion, we need to replicate today with the Chinese language. The Chinese program will expand and build upon the success of the Japanese immersion program, which helped America counter the serious competition it faced from Japan. In addition to having the opportunity to improve academic performance, students also will have the chance to learn a language that will equip them to compete in the global economy. With one-quarter of the world's population living in China, it is imperative that America's rising

business leaders learn the Chinese language and culture.

Studies have shown that students who participate in language immersion programs do well academically. This amendment highlights a critical area in preparing our young people—as Tom Friedman so aptly put it in his best-selling book "The World is Flat"—to develop language skills to help our country meet the challenge being posed by China and India.

I urge my colleagues to join me in supporting the Kirk/Larsen amendment and thank the gentlemen for their good work on highlighting this important issue.

FOREIGN LANGUAGE STUDY KEY TO  
COMPETITIVENESS

Our national trade deficit has caused deserved concern. We must not only make sure that American companies are on a level playing field with their foreign competitors, but also provide that American companies are equipped to compete in the international marketplace. The key to this is the education and training of our young people.

We must educate our young people in the languages and cultures of other nations, so that in the future American businesses are able to market products abroad and negotiate with foreign counterparts.

I have been pleased to work with our local school systems to expand the foreign language courses offered. The language of Japan, which has the largest trade surplus with the United States of any of our trading partners, is now offered at many of our area high schools. In addition, if a recently submitted grant application to the Department of Education is approved, Japanese, Spanish, and French may soon be taught to kindergarten students in some local schools.

These youngsters who are able to study the languages and cultures of other peoples of the world will be the business leaders of tomorrow, negotiating and devising strategies to sell American products all over the world.

EDUCATION GRANT FOCUSES ON FUTURE  
LEADERS

The U.S. Department of Education recently awarded a \$175,000 grant to George Mason University to begin a foreign language immersion program in Fairfax and Arlington counties public elementary schools.

I was pleased to have worked with local school and GMU officials in support of this program which would be one of the first of its kind in the country to focus on kindergarten students for intensive training in Japanese, Spanish and French.

Under the program, six kindergarten teachers and six first grade teachers would be trained in language instruction and assigned to selected classes in participating schools.

Students participating in the program would spend up to one half of each school day being taught the target language.

I sought funding for this program because of my concern about U.S. competitiveness abroad and the need to prepare our future business leaders on how to deal with an increasingly international marketplace.

I have corresponded with leaders in the U.S. business community including the chief executive officers of many of the top U.S. companies doing business in Japan and business school deans. Most agree that American students must be exposed to the language and culture of other countries from the earliest possible age in order to remain competitive in the international marketplace.

In addition, training in foreign languages helps students to improve their verbal and intellectual capacities and encourages interest in other cultures.

While Fairfax and Arlington counties schools have expressed interest in implementing this innovative effort, a firm commitment has not been made as yet. I am hopeful, however, that the local schools will take advantage of this opportunity to assist our area's young people.

RECOGNIZING THE 20TH ANNIVERSARY OF THE CHERNOBYL NUCLEAR DISASTER

SPEECH OF

**HON. CHRISTOPHER H. SMITH**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 4, 2006*

Mr. SMITH of New Jersey. Madam Speaker, I rise this afternoon to join Chairmen HYDE and GALLEGLY, Mr. LANTOS and others in commemorating the Chernobyl disaster, a tragic event that has left a legacy of pain and suffering felt by the people of Ukraine and Belarus to this day. I welcome this resolution and especially its emphasis on encouraging national and international health organizations to focus their research on the public health consequences of Chernobyl.

As Co-Chairman of the Helsinki Commission, I can recall the Commission hearing I chaired on the 10th anniversary of Chernobyl, at which witnesses, including then Ukrainian Ambassador Yuri Shcherbak offered compelling testimony addressing the health and demographic consequences of the world's worst nuclear disaster. I am pleased to inform colleagues that on the 25th of this month the Helsinki Commission will hold a hearing commemorating Chernobyl. I am pleased that Ukrainian Ambassador Shamshur has accepted my invitation to testify along with health experts and others.

Madam Speaker, as a strong advocate of the health of all children, including the unborn, Chernobyl is of special concern.

In Ukraine and Belarus, there is growing evidence of a steep increase in birth defects, especially an alarming 4-fold increase in spina bifida that has been documented by the Ukrainian-American Association for the Prevention of Birth Defects. Many other forms of birth defects have doubled since Chernobyl, including cataracts, deformed limbs and fingers, and cleft palates. Recent Israeli-Ukrainian studies have shown that children born to Chernobyl liquidators have a 7-fold increase in chromosome damage as compared to their siblings born prior to the Chernobyl disaster.

Last year, I authored language that was included in the State Department Authorization Act authorizing funding for assistance to improve maternal and prenatal care, especially for the purpose of helping prevent birth defects and pregnancy complications. The monies would be for individuals in the Republic of Belarus and Ukraine involved in the cleanup of the region affected by the Chernobyl disaster. We need to make sure that Chernobyl health studies and efforts to prevent birth defects through the distribution of folic acid and better prenatal care receive sufficient funding. These are funding priorities that I will continue to pursue.

Madam Speaker, the public health research community was caught off guard by the massive 80-fold increase in thyroid cancer among Chernobyl children in Belarus in 1993, and the
