SENATE RESOLUTION 487—EX-PRESSING THE SENSE OF THE SENATE WITH REGARD TO THE IMPORTANCE OF WOMEN’S HEALTH WEEK, WHICH PROMOTES AWARENESS OF DISEASES THAT AFFECT WOMEN AND WHICH ENCOURAGES WOMEN TO TAKE PREVENTIVE MEASURES TO ENSURE GOOD HEALTH

Mr. FEINGOLD (for himself and Ms. SNOWE) submitted the following resolution; which was considered and agreed to:

S. RES. 487

Whereas women of all backgrounds have the power to greatly reduce their risk of common diseases through preventive measures such as a healthy lifestyle and frequent medical screenings;

Whereas significant disparities exist in the prevalence of disease among women of different backgrounds, including women with disabilities, African American women, Asian/Pacific Islander women, Latinas, and American Indian/Alaska Native women;

Whereas since healthy habits should begin at a young age, and preventive care saves Federal dollars designated to health care, it is important to raise awareness among women and girls of key female health issues;

Whereas National Women’s Health Week begins on Mother’s Day annually and celebrates the efforts of national and community organizations working with partners and volunteers to improve awareness of key women’s health issues; and

Whereas in 2006, the week of May 14 through May 20, is dedicated as the National Women’s Health Week: Now, therefore, be it

Resolved, That the Senate—

(1) recognizes the importance of preventing diseases that commonly affect women;

(2) calls on the people of the United States to use Women’s Health Week as an opportunity to learn about health issues that face women;

(3) calls on the women of the United States to observe National Women’s Check-Up Day on Monday, May 15, 2006, by receiving preventive screenings from their health care providers; and

(4) recognizes the importance of federally funded programs that provide research and collect data on common diseases in women and highlight racial disparities in the rates of these diseases.

SENATE RESOLUTION 488—EX-PRESSING THE SENSE OF CONGRESS THAT INSTITUTIONS OF HIGHER EDUCATION SHOULD ADOPT POLICIES AND EDUCATIONAL PROGRAMS ON THEIR CAMPUSES TO HELP DETER AND ELIMINATE ILLICIT COPYRIGHT INFRINGEMENT OCCURRING ON, AND ENCOURAGE EDUCATIONAL USES OF, THEIR COMPUTER SYSTEMS AND NETWORKS

Mr. ALEXANDER (for himself, Mr. LEAHY, Mr. HATCH, Mr. NELSON of Florida, and Mr. FRIST) submitted the following resolution; which was considered and agreed to:

S. RES. 488

Whereas the colleges and universities of the United States play a critically important role in educating young people;

Whereas the colleges and universities of the United States are responsible for helping to build and shape the educational foundation of their students, as well as the values of their students;

Whereas the colleges and universities of the United States play an integral role in the development of a civil and ordered society founded on the rule of law;

Whereas the colleges and universities of the United States have been the origin of much of the creativity and innovation throughout the history of the United States;

Whereas much of the most valued intellectual property of the United States has been developed as a result of the colleges and universities of the United States;

Whereas the United States has, since its inception, realized the value and importance of intellectual property protection in encouraging creativity and innovation;

Whereas intellectual property is among the most valuable assets of the United States;

Whereas the importance of music, motion picture, software, and other intellectual property-based industries to the overall health of the economy of the United States is significant and well documented;

Whereas the colleges and universities of the United States are uniquely situated to advance the importance and need for strong intellectual property protection;

Whereas intellectual property-based industries are under increasing threat from all forms of global piracy, including hard goods and digital piracy;

Whereas the pervasive use of so-called peer-to-peer (P2P) file sharing networks has led to rampant illegal distribution and reproduction of copyrighted works;

Whereas the Supreme Court, in *MGM Studios Inc. v. Grokster, Ltd.*, reviewed evidence of users’ conduct on just two peer-to-peer networks and noted that, “the probable scope of copyright infringement is staggering” (125 S. Ct. 2764, 2772 (2005));

Whereas Justice Breyer, in his opinion in *MGM Studios Inc. v. Grokster, Ltd.*, wrote

that “deliberate unlawful copying is no less an unlawful taking of property than garden-variety theft” (125 S. Ct. 2764, 2793 (2005));

Whereas many computer systems of the colleges and universities of the United States, including local area networks under the control of such colleges and universities, may be illicitly utilized by students and employees to further unlawful copying;

Whereas throughout the course of the past few years, Federal law enforcement has repeatedly executed search warrants against computers and computer systems located at colleges and universities, and has convicted students and employees of colleges and universities for their role in criminal intellectual property crimes;

Whereas in addition to illicit activity, illegal peer-to-peer use has multiple negative impacts on college computer systems;

Whereas individuals engaged in illegal downloading on college computer systems use significant amounts of system bandwidth which exist for the use of the general student population in the pursuit of legitimate educational purposes;

Whereas peer-to-peer use on college computer systems potentially exposes those systems to a myriad of security concerns, including spyware, viruses, worms or other malicious code which can be easily transmitted throughout the system by peer-to-peer networks;

Whereas, according to a recent study released by the Motion Picture Association of America, students at colleges and universities in the United States accounted for \$579,000,000 in losses to the motion picture industry of the United States in 2005, which represents 44 percent of that industry’s annual losses due to piracy;

Whereas computer systems at colleges and universities exist for the use of all students and should be kept free of illicit activity;

Whereas college and university systems should continue to develop and to encourage respect for the importance of protecting intellectual property, the potential legal consequences of illegally downloading copyrighted works, and the additional security risks associated with unauthorized peer-to-peer use; and

Whereas it should be clearly established that illegal peer-to-peer use is prohibited and violations punished consistent with upholding the rule of law: Now, therefore, be it

Resolved, That—

(1) colleges and universities should continue to take a leadership role in educating students regarding the detrimental consequences of online infringement of intellectual property rights; and

(2) colleges and universities should continue to take steps to deter and eliminate unauthorized peer-to-peer use on their computer systems by adopting or continuing policies to educate and warn students about the risks of unauthorized use, and educate students about the intrinsic value of and need to protect intellectual property.
