WASHINGTON, TUESDAY, SEPTEMBER 12, 2006

No. 112

Senate

The Senate met at 9:45 a.m. and was called to order by the Honorable JOHN THUNE, a Senator from the State of South Dakota.

PRAYER

The PRESIDING OFFICER. Today the Senate will be led in prayer by our guest Chaplain, Dr. Clyde P. Thomas, of Cherokee Avenue Baptist Church, in Gaffney, SC.

The guest Chaplain offered the following prayer:

Would you join with me as we pray.

Gracious God, our heavenly Father, we humbly come to You today to seek Your guidance knowing we can take only one step at a time. Illuminate each step as only You can, and keep us strong in our path.

O Lord, grant that we live together as people of vision and understanding, as well as promise and peace.

We pray for our President and the Members of this body as they serve our Nation. Encourage and strengthen them with Your power and wisdom. Protect our military and law enforcement men and women. Give comfort to their families and refresh their spirits. Make us mindful of our responsibilities and grateful for our opportunities to do Your will.

We pray this in the Name above every other name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JOHN THUNE led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. STEVENS).

The legislative clerk read the following letter:

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JOHN THUNE, a Senator from the State of South Dakota, to perform the duties of the Chair.

TED STEVENS,

Mr. THUNE thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. FRIST. Mr. President, today, following 30 minutes set aside for morning business, we return to the port security legislation. Yesterday we were able to adopt the McCain rail security amendment, as amended, and today we have scheduled a vote, to begin at noon, on Senator DEMINT's amendment on a national alert system. The vote at noon will be the first vote of the day. Following that vote, the Senate will recess for the weekly policy meetings to occur. For the remainder of the afternoon and evening, we will make further progress on the bill, with additional rollcall votes expected. It is my hope Senators will continue to work with the managers on their amendments, and that will allow us to schedule votes as necessary.

I do want to thank all Senators for participating in yesterday's east front observance of the anniversary of September 11. It was an emotional day across this country, and I was proud to stand with my Senate and House colleagues during that important tribute.

Mr. President, I will be happy to turn to the Democratic leader for any an-

nouncements, but I do have a short statement to make.

GUANTANAMO BAY

Mr. FRIST. Mr. President, I do want to briefly comment on a very short trip I took on Sunday, when I visited Guantanamo Bay, Cuba, along with Senator MCCONNELL and Senator SPECTER.

It was my first visit to the detainee facility there. We received extensive briefings over the course of the day from Admiral Harris and other base administrators. We took that opportunity to tour five of the detainee camps, as well as visit the medical facilities and visit with the health personnel there.

Bottom line, I left there very impressed with the care and the respect our military affords the detainees kept at Guantanamo. As most of my colleagues know who have visited there—and I am glad to report that many have visited there over the last several years—each detainee receives a copy of the Koran. Arrows in each of the detainees' cells point to Mecca. You see arrows throughout the prison grounds. That makes it easier, and it is a reminder that these individuals have that opportunity to practice their faith, with prayer time occurring five times every day, where everything stops, and that time is set aside so that prayer can be offered.

It was interesting from a health standpoint. The meals themselves are nutritious meals. And I looked at a lot of the charts, aggregate charts, and, indeed, detainees gain weight from these meals. They get regular exercise. It might be as much as 2 hours a day—but 1 to 2 hours a day. They receive mail from their families. They visit privately with their lawyers. They have medical care, which again was amazing to me, which is 24/7, acute care as well as preventive care literally 24 hours a day.

When the camp first opened, much of the medical care was centered around

the treatment of acute care or injuries that may have occurred in the battlefield or the like. Prosthetics were made. I think they said 22 prosthetics had been made for the detainees who have been at the facility.

The nature of health care has shifted a bit. There is still acute care 24 hours a day, in which surgical procedures, everything, can be performed right there in the detainee camps, but as those wounds healed and as the detainees got further and further away from acute injuries, there has been increasing emphasis on preventative care. Indeed, the immunization rate there is higher than in the United States of America.

I think the report is they have had fewer than 500 detainees, but all have been immunized appropriately. Things such as screening for cancer have taken place there. Colonoscopies—a procedure which, as we all know, is used commonly in this country to screen for colon cancer—are performed there on a routine basis.

The health personnel-to-detainee ratio is 1 to 4—remarkably high. That is all health personnel who are there. And I guess, as I left this briefing and the opportunity to talk to the doctors and the nurses and the psychologists and the psychiatrists, I left with an impression that health care there is clearly better than they received at home and as good as many people receive in the United States of America.

Also, I have to comment on the courageous men and women who are our military personnel there, working every day, 24 hours a day. They are doing a tremendous job. I commend them for it. As you walk through the cells, it is clear they are at least verbally abused in just walking through those cells. I know they are under a great deal of stress in carrying out their activities every day.

Our men and women, in spite of that sort of verbal abuse—and clearly at risk of physical assault—remain focused on their mission to provide the detainees there safe and humane treatment but, at the same time, simultaneously protecting Americans from the deadly plots that have been hatched by many of those detainees who are there.

As we all know from the President's comments and speeches over the last week or so, on that island today are some of the world's most hardened enemy combatants, terrorists. Khalid Sheikh Mohammed is there, the man the 9/11 Commission described as the "principal architect of the 9/11 attacks." The fact that we have the presence of them—we did not see them, we did not even ask to go to their facility—but the fact that they are there is a vivid reminder that the detainees at Guantanamo do remain locked up for a critical purpose: to protect Americans. We were reminded of that again and again as we listened to the stories about the backgrounds of the types of people who are there. I left there with no question in my mind that many would return to what they were doing

before they were captured; that is, plotting new ways to attack us. We know some who have been released have, indeed, returned to the battlefield. And that has been well documented.

There has been a lot of debate recently on how we should prosecute these terrorists, these enemy combatants. Soon we will be addressing that issue once again on the floor of the Senate, as we should. But I think we should all be very clear in our own thinking that these men are dangerous terrorists who remain a threat to the safety and well-being of every American. They are militant extremists whose goal in life is to kill Americans, is to destroy our freedom and security.

Mr. President, as we were reminded through remembrances and through the ceremonies of yesterday and through the discussions yesterday, 9/11 shattered our longstanding illusions of safety and security in this country. As we learned then and have since learned—on no less than 11 occasions—safety and security are not static states, but they are dynamic, they are constantly changing, in constant flux. That means we cannot just enact a bill and then move on and say that is sufficient. We have to continuously, in this body, take stock of where we are, assess and reassess and implement changes when necessary.

We have done just that over the last 5 years. As of August, we passed 71 laws and other bills related to the war on terror. The next step is the bill we are debating today; that is, the Port Security Improvement Act. It provides additional authorities and tools critical to improving our port security and our maritime security—and to foil plots to injure us or to destroy our ports, to the detriment of hard-working Americans and to the detriment of our economy.

Very soon we will take up legislation that strengthens and modernizes our foreign intelligence surveillance laws, as well as legislation that authorizes military commissions to prosecute terrorists for war crimes, such as those who are currently detained at Guantanamo Bay.

Without these tools, we simply cannot guarantee the safety and security of the American people. That is why they are being addressed on the floor right now. That is what hangs in the balance: the safety and security of the American people. On this floor, we are not going to always agree on the approach, but it is a goal I believe every one of my colleagues shares.

As we move forward in this body over the next couple weeks, I hope we do remain focused on that goal, ensuring the safety and security of the American people.

Mr. President, I yield the floor.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The minority leader is recognized.

PRESIDENT'S 9/11 SPEECH

Mr. REID. Mr. President, I was honored to join with President Bush and others at the Pentagon yesterday to commemorate the fifth anniversary of 9/11. I was pleased, also to join my colleagues on the east steps of the Capitol last evening in an emotional tribute to those who died on that fateful day 5 years ago.

Mr. President, 9/11 was one of the darkest days of this Nation's history. It brought America together. We were inspired by the bravery of our fellow Americans. We stood shoulder to shoulder with the President. And when he stood upon the mound of rubble at Ground Zero, with a bullhorn in hand, he spoke for all of us.

Last night, however, the President, in his address to the Nation, spoke for himself, for his administration, and not for the Nation. No bullhorn, only the bully pulpit of his office, which he used to defend an unpopular war in Iraq and to launch clumsily disguised barbs at those who disagree with his policies.

By focusing on Iraq in the manner he did, the President engaged in an all-too-familiar Bush administration tactic: conflate and blur the war in Iraq with the response to 9/11.

Despite definitive and repeated findings that there were no ties between Iraq and al-Qaida—a finding most recently echoed by the Republican-controlled Senate Intelligence Committee—the President continued to deliberately lump and blur al-Qaida, Osama bin Laden, Iraq, and 9/11 together.

This is a political move designed to tap the overwhelming public sentiment to destroy al-Qaida as a way to bolster sagging public support for the war in Iraq.

Despite the President's best efforts, the American people can see through this ploy—as we have seen with the pundits' comments following his speech and editorials all across the country today. The American people understand that Iraq is largely a sectarian struggle and that the longer we are bogged down in the streets of Baghdad, the easier it is for al-Qaida and its affiliates to reconstitute in places such as Afghanistan and Somalia.

Americans understand that this administration's "stay the course" strategy is hurting our security and moving Iraq in the wrong direction. Unemployment in Iraq is high. It is 40 to 50 percent unemployment, at least. Some places, it is 70 and 80 percent.

News accounts today say that inflation is now 75 percent in Iraq. An average of a thousand Iraqis are dying each month in Iraq. Is that a civil war? I think so. News accounts, the last couple of days—one, in fact, today said: "Iraq conflict worsens." The General Accounting Office, the watchdog of Congress, a nonpartisan organization, said that the Iraq conflict worsens.

We heard two days ago an Army general saying that the Anbar province is lost. We have a general, even before he

is retired, saying that Secretary Rumsfeld said he would fire anyone who tried to develop a plan after the soldiers went into Iraq. He would fire them. There was no planning as to how the peace would take place.

The American people deserved better last night. They deserved a break from the politics that honored the spirit of 9/11, a chance to reclaim that sense of unity, purpose, and patriotism which swept through our country 5 years ago—feelings only the Commander in Chief could have inspired, that he should have tried to inspire. He didn't. Last night was not the time for a political partisan speech. Sadly, it was a missed opportunity for President Bush, who obviously was more consumed by staying the course in Iraq and playing election year partisan politics than changing the direction for this wonderful country.

I yield the floor.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will be a period for the transaction of morning business for 30 minutes, with the first half of the time under the control of the majority leader or his designee and the second half of the time under the control of the Democratic leader or his designee.

The Senator from Pennsylvania is recognized.

THE PRESIDENT'S ADDRESS TO THE NATION

Mr. SANTORUM. Mr. President, I come to the Senate floor in sadness. The President of the United States gives an address about the condition of our country 5 years after the events of 9/11. He gives an address and lays out the scope of the problem we are confronting. There are people all across this world who subscribe to a radical, perverted form of Islam and want to destroy everything we believe in. That is the enemy we are confronting. We are in an active war with our military against them in Afghanistan and Iraq. That is the reality.

The minority leader just referred to it as sectarian violence. What is that word? Religious? Religious violence. Radical Islam violence—some Sunni, some Shia, but both are radical in their nature, and they are fighting us. That is the reality of the enemy today. The very people who planned the attacks are the people who are in Iraq. Al-Qaida is in Iraq causing that sectarian violence. Should we ignore that? I ask the Senator from Nevada, should we just ignore that, pretend they are not there, not talk about that last night,

pretend al-Qaida is not in Iraq? Is this not part of the mission we are trying to accomplish?

It is sad. We are at war against an enemy that I happen to believe is the most dangerous enemy ever to confront this country, and we play petty politics constantly here on the floor of the Senate—even after a solemn day of remembrance for the valued people who died on September 11. It is chilling. We just cannot get past the politics around here, just cannot get past the partisan advantage around here. We cannot face the reality that we have a dangerous enemy out there who wants to destroy everything we hold dear, an enemy who is very clear about what they want to accomplish. How clear? They say it—not to Mike Wallace on “60 Minutes,” I might add. No, when you are spinning in English in America, you put on the nice face, you put on the happy face that we want peace and want to live together in brotherhood and all this wonderful stuff.

But that is a lie. When they go back and speak in Arabic and Farsi, they give a very different story. It is a consistent story, I might add. It is the destruction of the State of Israel, and it is the submission of the infidels to what they believe in. That is the enemy we confront. It is real. We can play politics about it and say it is not real. We can say it is a trumped-up war. They are at war with us. We may not want to be at war with them, but they are at war with us—not just in Afghanistan and Iraq, not just in southern Lebanon, not just in Great Britain, but here. They want to defeat us. Their intent is to defeat us. They are motivating people in the Middle East and around the world to join their ranks and attack us.

One of the things I learned from my days in Little League, and in everything else I have ever engaged in, is that one of the ways to lose anything you are engaged in with an opponent is not to take your opponent seriously, not to look at what they are really about, and not look at their capability. I remember early that in this war many were calling the terrorists cowards, as if these people were weak and they had no real resolve. These people are not weak. They are misguided—horribly misguided—but they are not weak. They are a dangerous enemy. They are a dangerous enemy that has an ideology that is motivating people, and they have a tactic that is uniquely effective against us.

As Osama bin Laden says, “We will defeat you because you love life; we love death.” And we do love life in this country because we have a lot to live for. We have great freedom, great material wealth. We have a wonderful culture. They, on the other hand, for the most part have none of those. They love death because they see death as better than life. They are willing to die. In fact, they want to die. We have never fought an enemy like this. We have never fought an enemy who want-

ed to die as part of the victory for them. We always fought enemies who saw death as a tragic consequence of war, and their objective was an earthly kingdom. Not this enemy. This enemy says death is part of the war—a desire for those entering into this battle—and their kingdom is not one they want to build here but one they want to achieve after death. This is an enemy who wants a nuclear weapon in Iran, not because they want to stave off attacks, no, but because they want to use it to pursue their messianic vision of the return of the 12th Imam, or Hidden Imam.

I give speeches all across Pennsylvania and lay out for the people of my State this vision of President Mahmud Ahmadi-Nejad and the rulers of Iran, the vision of the 12th, or Hidden, Imam, who is to return at the end of time. That is what the Shias believe. But President Ahmadi-Nejad and the rulers of Iran believe different than most Shias, thank God. They believe it is their obligation to bring about the end of time by the destruction of the State of Israel and by world chaos in which Islam is suppressing the infidels, and only at that time will this Hidden Imam return and the actualization of their religion come to pass.

This is a serious enemy, an enemy with resources. This is an enemy with growing technology, and this is an enemy with fervent disciples who are willing to go around and kill themselves in pursuit of this objective. This is not something to be played politics with. This is not something to ignore and pass off as sectarian violence that we brought about because we happen to be there. These people have been at war with us for 20 years, and we have chosen to ignore them. We paid a very high price.

So what is our lesson? If you listen to the Democratic leader, it is: Let's continue to ignore them. Let's continue to play politics. Let's put domestic politics ahead of the security of this country.

That is his message—that this is not real, this is trumped up, and if we leave them alone, they will leave us alone. Oh, really? Do you really believe that? If we leave these people alone, do you believe that somehow we would be safe here? We can just garrison America, make all public buildings like we have here at the Capitol—put Jersey barriers around everything and have police on every corner. We can protect ourselves from these people. Is that the America in which we want to live? Not me.

We are at war—the most serious war this country has ever faced against an opponent like none we have ever faced. Yet we play politics. We ignore the reality. We can pretend they are just not there—at least until November, at least until we can get control. Then maybe we will come to our senses and recognize the grave threat that confronts our country.

No, the President did not give a political speech last night. He spoke of

the reality of the conflict that is before us. It is not popular to do so, I know. It is not popular to stand up and support a conflict that is difficult to deal with every day. But understand that is exactly what they have in mind.

Did you ever wonder why they don't kill 3,000 people in 1 day? They have the capability of doing so. You just send out, instead of 1 every day or 2 every day, you send out 200 in 1 day. Why not? Why don't they just have one mass, huge offensive? It is because that is not what they are all about. That is not a terrorist tactic.

The terrorist tactic is to cause death every single day. It doesn't matter who but just cause death. So why? To defeat the military? No, their objective isn't to defeat the military or drive back the lines of our troops or to control more area. No, those deaths are not aimed at our military, they are aimed at us. Every day they want to make it harder for you and you and you and you to open the paper, to turn on the television, to see more death.

This is the steady drumbeat of the psychological war of terror being inflicted on the American public. They will keep up the drumbeat every single day—not in big conflagrations but every day—to make it painful, to make it hard.

They want one thing out of us. They know our military, and I am going to submit for the RECORD an assessment from a serviceman who wrote me who provided his experience in Iraq of success, I might add.

Our military knows they must win this war, and they are succeeding at some level. They are not attacking our military. They are attacking us psychologically every single day until finally they get us to say one word—enough. Enough. We have had enough. We can't take this anymore. It is just too hard.

They believe we will say "enough" because they believe we are weak. They believe we and the modern world just don't have the stomach to fight and die for what we believe in anymore. We like our "things" too much, and so we will just leave them alone until they get stronger and stronger and in a position to do more and more damage to our children and grandchildren.

The President is right. This is our hour. We can play politics with the hour, we can seek political advantage to win the next election with this hour, or we can confront the reality of this hour and do something about it.

On my watch, even though I am facing what many consider to be a difficult time back in Pennsylvania, I am going to confront the reality of the threat to me, to this country, and to our children and grandchildren. It is too important to walk away and play politics to get reelected. It is too important to the future of this country to minimize the threat that we are engaged in and play politics with it.

It may win or lose elections. Matters not to me. It matters not to me. What

matters is defending our country when it needs to be defended, not putting personal politics above what is in the best interest of the national security of this country.

I believe the President, given all the mistakes that this administration has made in the conduct of this war—and they certainly are numerous—the President has it right. This is the greatest threat for our generation, and I pray we have the courage to confront it.

Mr. President, I ask unanimous consent to print the assessment from 1LT Jeremy Burke in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MY MISSION

Foreign Military Advising by Military Transition Teams, MiTTs, is currently the Main Effort for the U.S. Military in Iraq. The current objective of CENTCOM is to build and train the Iraqi Security Forces in order that they can take over control of the security in their battlespace. MiTT teams advise on everything from logistical planning, operational management and command & control (C2) of their units. I was an advisor for the 3rd Brigade of the 3rd Division, Iraqi Army.

Overall assessment: I believe we have been extremely successful in our efforts to secure peace and freedom in Iraq. Many people in Iraq are now enjoying freedoms that they never could before. For those born during Saddam's reign of terror, they are tasting freedom for the first time. All over Iraq we are turning over control of security to Iraqi Security Forces like the Army, Border Police and the regular Police. Our presence there as American military is to backup the Iraqis when they need help. They are finally standing on their own two feet. Now we're just letting them get balanced.

AREAS OF SUCCESS WITH IRAQI ARMY

(1) Control of Security: We started out August 2005 and our Iraqi counterparts were assessed at being able to take over control of their battlespace no earlier than 18 months. 10 months later, in June 2006, they completed their validation exercise and we transitioned battle space authority over to Iraqi Army control.

(2) Communications: At onset of our mission our Iraqi counterparts were severely limited in communications and they could not talk between 2 of their 3 battalions nor their Brigade rear location. We needed to locate the appropriate equipment for them and get it issued out. Then we had the task of training them how to utilize all their comms gear and put it into use.

Now they have a Codan radio base station set up at their Brigade (BDE) Headquarters, BDE rear and at each Battalion location. Each location is now capable of communicating across their entire battle space, 16,000 sq KM.

Their vehicles now have mobile Codan radios to communicate between their maneuver elements and their headquarters.

They now have Internet access to send status reports to Division headquarters and to receive and send information from their battalions.

Command & Control: When we arrived in August of 2005 they had no functioning Tactical Operations Center (TOC) in which to manage subordinate units, track convoys, manage information flow and oversee operations.

After months of training and preparation, we helped them open the first Iraqi Army Brigade TOC on January 15, 2006.

All IA BDE communications are handled out of their TOC.

A representative from the S2 (Intelligence) and S3 (Operations) is working in this TOC all day and in the evening. At night there are two enlisted soldiers manning the radios and acting as a runner.

The S3 is tracking units on the ground with large wall sized maps that we provided for them. The S2 tracks enemy activity or a long period of time on an exact replica of the operations map.

As the Coalition Forces Liaison Officer (LNO), I worked 7 days a week in their TOC providing classes on: map reading, Intelligence Analysis, and reporting.

Now that our IA counterparts have taken over control of their battle space a U.S. LNO will work in their TOC as a means of bridging communications between the IA units on the ground and U.S. units providing support. Examples of this function are when an Iraqi convoy is hit with an IED attack they call back to their TOC, then the Iraqi officer in charge would request assistance and I would call in a MEDEVAC request to the U.S. Headquarters in the area.

Pay & Promotions: At the beginning of our mission, approximately 75 percent of the IA Brigade we advised had some sort of pay or promotion issue. The most common example of this was a soldier was promoted but the Ministry of Defense, MOD, had yet to recognize the promotion so they were still being paid at their old pay grade.

When I left Iraq, the Brigade's pay issues were down to 4 percent.

The Brigade S1 and the Division G1, Personnel, now work closely together and get actively involved in resolving pay issues to include traveling to Baghdad to meet directly with the Personnel Department at MOD.

MOD still has problems recognizing promotions when they come but at least now the soldier might only have 1-2 months to wait for it to be resolved as opposed to years as it was before.

(3) Vehicle Maintenance: This is still a difficult problem for the Iraqis but they are slowing making headway. They are facing a difficult task with maintenance because their culture has not adopted the idea of operator maintenance as a personal responsibility. The wealthy would just abandon a vehicle if it died on the road. The lower classes simply use a Duct Tape resolution to solve maintenance issues. One of their problems now is that since they didn't conduct periodic maintenance on their vehicles they have a lot of work to catch up on as they get more involved. Upon our arrival in August 2005, they had dozens of deadlined, inoperable, vehicles just strewn about their bases, which made their motor pools look more like junkyards.

U.S. advisors in Baghdad worked with MOD to set up a National Maintenance Contract for the Army's vehicles. For our unit they bring all their vehicles back to the Division base where the maintenance facilities are and can get any kind of repair done they need—to include newly issued HUMMWVs.

In December of 2005 we started sending soldiers from our Brigade to the maintenance course also run by the NMC group. Soldiers become qualified to perform various levels of maintenance on their vehicles. After the course they spend time at the maintenance facility to get "on the job" training before returning to their units.

(4) Logistics: Logistical support, in my mind, is now their biggest obstacle to being a successful, self-sustaining military.

MOD has not come up with appropriate plan to provide fuel for the Iraqi Security Forces, ISF. Currently the U.S. supplies some fuel to the ISF but that is being cut off—probably by August 2006.

Life Support Contracts are set up and managed by MOD but there is no MOD rep to monitor them locally except for an army officer. In some cases this has led to corruption, in other cases it has allowed local vendors to operate with no quality control.

OVERALL SENTIMENT OF THE IRAQI PEOPLE

Generally the people of Iraq are appreciative of the United States, want our Military to stay as long as possible to ensure their safety and security.

Some portions of the population are happy that we can provide for their safety and are grateful that we ousted Saddam. But they will be equally as happy when we leave. This is more of an Arab cultural thing. Arab culture is driven by pride and shame. These people might be embarrassed that they could not secure their freedoms themselves and now would like us to leave so they can take over from here. And some simply don't want Westerners controlling their future.

When we traveled to various villages we were typically well received. Kids run out to the convoy in hopes that they'll get candy or water. Village leaders come out to greet us and invite us in to sit and talk while we drink Chai. When we entered a village and people looked away or closed their doors to us, it almost always meant that they were being intimidated by the terrorists. It was these villages that we spent more time. We'd come back as often as possible, bringing clothes, food, and commanders of all levels from the Iraqi Army and the Coalition to meet with tribal leadership. When we caught Saddam Hussein, there were celebrations at every village we went to. People were both relieved and overjoyed. And they thanked us in whatever way they could. When U.S. forces killed Abu Musab Zarqawi, people celebrated in the streets firing their guns in the air, they offered us food and gifts when we visited villages. These were true inspiring patriotic moments for Iraq.

When a suicide bomber attacks an Army or Police recruiting station and kills many people, the following day the lines waiting to join up are 3-4 times larger. People are looking for jobs and they see joining the Iraqi Security Forces as a great opportunity to make a living and do their part in getting rid of the terrorism rampant in their region of the world.

We are seeing lots of economic expansion everywhere. Strip malls are being constructed, businesses are expanding and franchises are popping up. New homes are being constructed all over the country. And people are spending money, looking for new types of goods to buy and they desire goods and services that are currently available throughout the rest of the world. Satellite TV has been a big help with this.

OBSTACLES

Fuel—Currently fuel is a major crisis not only for the Iraqi Security Forces but for the general population as well. The issue is not for a lack of oil, but a lack of functioning refineries—2 shut down in November. It has started to limit the ability of the Iraqi Security Forces to conduct long-range operations.

Border Crossings—Foreign Fighters and Terrorist support still continues to flow across the Syrian Border. Smuggling of fuel, cigarettes and other goods is commonplace and put a big strain on the ability of the Border Police to shut down the border. Lack of fuel has reduced the number of border patrols that are conducted. Long lines at the Point of Entry have caused many people to come across illegally. Some smuggling is being conducted as a direct support mechanism for terrorists.

Corruption: Very problematic in all areas of the Iraqi Security Forces. But it is also

misunderstood. Some levels of corruption are generally accepted in Arab culture. It is the way they have done business and government for so long that they have come to allow it—to an extent. Some of the areas of corruption that we've seen are when soldiers or police at checkpoints or border crossings do not check cars as they come through. They will sometimes take payments in order to speed a vehicle through the checkpoint. We began cracking down on this during Spring of 2006. There are also kickbacks with contractors—this is very typical and also very accepted.

Mr. SANTORUM. I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Illinois.

FIFTH ANNIVERSARY OF SEPTEMBER 11, 2001, AND IRAQ

Mr. DURBIN. Mr. President, I came to the Capitol yesterday on the fifth anniversary of September 11. I looked out the window, down the Mall on the west side, and I couldn't help but remember what we saw on 9/11. On that morning as we met in a small room on the west side of the Capitol and watched the television broadcast and first heard of a plane crashing into the World Trade Center, I thought: What a freak accident. I hope a lot of people won't die.

Then as we watched incredulously, a second plane hit the World Trade Center. The scales fell from our eyes and we knew exactly what was happening. This was no accident. This was intentional. America was under attack.

We met in this meeting a few minutes longer. Someone walked into the room and said they were evacuating the White House. We looked down the Mall on 9/11 and saw black, billowing smoke, and then the word came across that there was some explosion at the Pentagon. We weren't sure what had happened. A bomb? It turned out it was a plane.

As that black smoke billowed across the Mall, as we looked on that bright sunlit day at this horrible, disgusting display of destruction, we were told to evacuate this building, to leave the U.S. Capitol for our lives as quickly as we could.

We raced down the steps, all of us, thousands of us, and gathered outside. We stood on the grass not sure where to turn or where to go. We heard a loud boom. Many of us thought it was another explosion. It turned out it was the scrambling of our fighter planes over the Nation's Capital to protect us.

Finally, after dismissing our staff, telling them to go home and find a safe place, I walked a few blocks away from the Capitol Building and sat, as most Americans did, for the rest of the day hearing the news reports, watching the television scenes from New York.

Then late that evening, after that wrenching day, Members of Congress gathered on the steps outside the Capitol in a rare, heartening display of bipartisanship or nonpartisanship, said a prayer, and sang "God Bless America."

In the weeks that followed, there was a mood on Capitol Hill unlike anything

we had seen for a long time. The President came to us within hours and said: We are now declaring war on those responsible for 9/11. He proposed that we mobilize the strength of America, all of us, and strike back at those who had killed 3,000 innocent people on that day. The President's plea was answered with unequivocal support on both sides of the aisle.

I have often said that in the years I have served here, there is no more difficult vote than a vote to go to war. We know that with that vote, people will die. The enemy, brave Americans, and innocent people will die, and you must take that seriously. But I didn't hesitate to vote for that war against al-Qaida. I didn't hesitate to vote for that war in Afghanistan. America had to stand and defend itself against those who would kill innocent people, as they did on 9/11.

Yesterday, on the fifth anniversary of 9/11, there was an effort to rekindle that feeling.

The President made important visits to New York, to the site of the World Trade Center, to Pennsylvania where United flight 93 crashed into the ground when the brave passengers took control of the plane away from the terrorists and, in the process, may have saved my life. Many believe that plane was destined for Washington, destined for this building, this important symbol of America. Those brave passengers took control of that plane and gave their lives in the process. The President visited that rural setting to remember their heroism.

Then he came to the Pentagon, and I was honored to join him as he laid a wreath at the corner of the new section of the Pentagon that was rebuilt after 184 people in that building died on 9/11.

We gathered again on the steps yesterday, a bipartisan gathering of the House and Senate, for a moment of prayer, a moment of reflection, and to sing "God Bless America." It was a time when we tried to recapture that spirit of unity, that spirit of determination, and many of us felt we were moving our Nation again in the right direction.

But what is it that divides us? We heard the speech of my leader and friend, Senator HARRY REID of Nevada, and the speech of the Senator from Pennsylvania, again at odds in debating about our policy. What divides us is clearly another war—not the war in Afghanistan but the war in Iraq. Twenty-three of us on the floor of this Senate, when given a chance, voted against the authorization of force to go to war in Iraq.

As a member of the Senate Intelligence Committee, I knew from closed door sessions, which I was sworn not to disclose, I knew from those sessions that many of the things that were being told to the American people as reasons to go to war against Saddam Hussein and Iraq were just plain wrong.

This last week, the Senate Intelligence Committee, in a bipartisan report, made it public for the record, for

history, for all to see, that the American people were misled into this war in Iraq—statements about weapons of mass destruction that didn't exist, statements about nuclear weapons that didn't exist, statements about connections between Saddam Hussein and al-Qaida which were fabricated. Those reasons were told to the American people to justify a war which is now in its fourth year.

Unlike the war in Afghanistan where our mission was clear to go after those who were responsible for 9/11, to go after al-Qaida, in Iraq we are in our fourth year. The official report from the Pentagon this morning is 2,671 of our best and bravest soldiers have died in that war; more than 19,000 have returned wounded, serious wounds—amputations, blindness, burns, traumatic brain injury. We have spent more than \$320 billion on that war. And last night, as the President spoke to America, he went beyond that spirit of unity that brought us together for the war in Afghanistan and against al-Qaida to discuss this war in Iraq.

It is part of an offensive by this administration. We saw it on Sunday with Condoleezza Rice, our Secretary of State, and with Vice President CHENEY's appearance on television. We saw and heard the statements they made to justify a war in Iraq, a war which, unfortunately, is not going well.

The Senator from Pennsylvania objected to Senator REID saying that we were involved in some sort of sectarian violence in Iraq. Those are not original words of the Senator from Nevada. He made reference to the General Accountability Office which released its report yesterday in which it said:

Iraq's political process has sharpened the country's sectarian divisions, polarized relations between its ethnic and religious groups, and weakened its sense of national identity.

The Senator from Pennsylvania criticized the Democratic leader for being political and partisan in saying these words. But the same words were used by the General Accountability Office. It is a fact. We can't ignore it. The situation in Iraq has worsened.

Mr. President, do you know what the GAO reported in terms of violence in Iraq? The figures are startling. I read the report:

The Pentagon said enemy attacks against coalition and Iraqi forces increased by 23 percent from 2004 to 2005. The number of attacks from January to July 2006 were 57 percent higher than during the same period in 2005.

The GAO published a graph yesterday. The number of attacks rose from around 100 in May of 2003 to roughly 4,500 in July of 2006. Is it political or partisan to note the obvious, the GAO report to which Senator REID made reference? That is not political partisanship; that is a reality, and we should face that reality because Iraq does continue to slip into civil war despite the billions that we have spent and the thousands of American lives which have been lost in that battle.

There is another political reality. Osama bin Laden is still on the loose. Al-Qaida's membership, estimated at 20,000 on 9/11, is now estimated by our intelligence agencies at 50,000. Instead of shrinking and disappearing, they are growing geometrically.

And there is another reality. The Taliban is gaining ground again in Afghanistan. They have set up shop in Pakistan where that Government has agreed to have a safe haven for some of these terrorist forces. That is unfortunate, and it is disastrous when you think of our long-term war on terrorism.

Sitting at home in Springfield, IL, over the weekend, I listened to Vice President CHENEY when he appeared on "Meet the Press." He said that those of us who make these speeches about the reality of the war in Iraq are not showing the kind of resolve that we should. We are somehow validating terrorism. We are weakening America's efforts to fight terrorism.

I couldn't disagree more. If Members of Congress—if the American public cannot stand up and speak when they disagree with the policies of this administration, we have lost sight of the values of this democracy and how important they are. Despite the Intelligence Committee's disclosure of how we were misled into the war in Iraq, and despite the situation on the ground today, when Vice President CHENEY says he would do it all again, it is a reminder that this administration is resolute in continuing on a path that does not make us safer and, in fact, endangers our troops even as we stand and speak today. It strikes me as odd that this Vice President, after the Intelligence Committee report, did not show even a hint of embarrassment for some of the things he said before the invasion of Iraq and not even a word of regret for misleading the American people.

Well, we have a different vision. We believe there are things we can do to make America safe and strong. Let's take the 9/11 Commission report. Let's take their recommendations and make them reality—100 percent of them. Instead of a failing grade, let's have an A+ so that America can take these recommendations and move forward.

The budget of the Bush administration has continued to cut these recommendations, has refused to fund the things that will make us safer, whether it is a stronger National Guard, a better communications system, stronger port facilities, more surveillance and security of chemical plants and nuclear powerplants, better security on Amtrak, on mass transit—these are things the Democrats on this side of the aisle believe should be our highest priority in making America safe.

We need to strengthen our ports and our nuclear powerplants in my State and across the Nation. We need to cut our dependence on foreign oil so that we aren't indirectly subsidizing terrorism and indirectly subsidizing those

who are killing our troops in Iraq and Afghanistan. And we need to push to change course in Iraq. We need a responsible redeployment of troops so that the Iraqis understand this is their battle, this is their war, this is their country. There has to come a time, in this fourth year of a war that has lasted longer than the Korean war, when the Iraqis stand and fight for their own country, when American troops are replaced and can come home.

Last week, the administration sent 5,000 more troops to Iraq. There is no end in sight. The President said we must stay the course. I think we need to change the course. We need to start the redeployment of American troops—not precipitous, immediate withdrawal; that would be wrong, but to start the redeployment of American troops so the Iraqis stand and fight for their own nation, so that our troops, having served us so well and so honorably, can come home safely.

The sad reality in Afghanistan is if we don't put more force in place there, we are not going to see the results for which we fought for so long. Afghanistan is tough territory. Many have learned that. The British Empire learned it. The Soviet Union learned it as well. If we are not going to become victims of the same fate, we need to make certain that our commitment to NATO and Afghanistan is real. That is part of the war on terrorism.

The Senator from Pennsylvania said of Senator REID that he didn't take our opponents seriously. The Senator from Pennsylvania is wrong. Senator REID understands terrorism, as we all do. He understands that we need to stand together, on a bipartisan basis, to make America safe and to fight the right war in the right place, to win a victory that counts. That is why he spoke today. We should never forget, according to the Senator from Pennsylvania, that we are fighting an enemy that wants to die. He said that has never happened before.

I think a brief study of history would tell him it has. The Japanese Kamikaze fliers had the same death wish as those who are suicide bombers today. It has happened before. It doesn't make it any less of a threat, but the fact is, we have faced it before and we have overcome it.

It is interesting that as we listen to our military experts, they tell us we cannot win in Iraq militarily no matter how many troops we put in place; we have to win politically. We have to stop and reflect on the fact that there is a large swath of this world that doesn't understand who we are and what we stand for. They continually are told the wrong thing about America. They continue to be misled. So as we are strong militarily, as we must be, as we must defend America at home, we must also reach out and spread the word about what America's values are, what we are willing to stand for, so that we are better understood in this world and so that this new

generation, looking for an impression of the United States, doesn't come up with the wrong impression.

As we consider what we face today in the closing weeks of this session, let's make sure we do stand together in a bipartisan fashion for defending America as our homeland. Let's put the resources in place to make us safer. We continue to stand behind our troops, but let us not be so bull-headed that we won't consider any change in tactic or strategy that might start to bring our troops home safely, with their mission truly accomplished this time, and let's not give up on Afghanistan. We cannot allow the Taliban to have a resurgence of power and give al-Qaida another place to gather forces to launch against the world. That is our mission. That is our responsibility.

As we gathered yesterday, it was a reminder that at one time not that long ago we stood together in that effort.

Mrs. MURRAY. Mr. President, I ask unanimous consent the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

AMENDMENT NO. 4929

(Purpose: To extend the merchandise processing fees, and for other purposes)

At the appropriate place, insert the following:

SEC. _____. COBRA FEES.

(a) EXTENSION OF FEES.—Subparagraphs (A) and (B)(i) of section 13031(j)(3) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(j)(3)(A) and (B)(i)) are amended by striking “2014” each place it appears and inserting “2015”.

(b) USE OF FEES.—Paragraph (2) of section 13031(f) of such Act (19 U.S.C. 58c(f)(2)) is amended by adding at the end the following: “The provisions of the first and second sentences of this paragraph limiting the purposes for which amounts in the Customs User Fee Account may be made available shall not apply with respect to amounts in that Account during fiscal year 2015.”.

Mrs. MURRAY. Mr. President, this morning the Senate is considering a very important bill, the port security bill, which many Members have come to the floor to talk about. I am proud to be an original sponsor of this bill and have been working on it for a number of years; in fact, since five years ago, after September 11, when I was the Transportation Appropriations Subcommittee chair. At that time I began to bring stakeholders together to talk about how we can make sure the cargo containers that are coming into this country are secure. It is a very complex issue. It is very difficult to do. We have a tremendous balancing act of making sure that cargo containers are safe when they come into our ports but also that we don't halt our economy as we move forward with this initiative.

I have been very proud to work with a number of Senators in getting us to this point, and I am hoping this bill will move forward in an expeditious manner. Obviously, there will be a number of amendments that come before us, and I look forward to working with other Senators on both sides of the aisle to move them forward.

The bill that is now before the Senate has one major hole. The original bill we have been working on with all of the committees contained a funding source for this bill that some Members had some concerns about. The original bill that we offered had tariff fees as the funding source. The Finance Committee has objected to that. They were

concerned about that. I understand that concern. Because of that objection, the bill that has come before us is an important bill, but it lacks the ability to put in place a secure system. It is essentially an empty shell without a funding source.

That is why I have sent to the desk right now an amendment we have been working on together with a number of people to make sure this bill is not just about rhetoric but actually has the funding behind it. If we pass this bill without funding it, we will not have done our job. The amendment I sent to the desk extends two existing Customs user fees for 1 year to fund this bill. Those are fees that are collected today that are going to expire, and all we are doing is extending the collection for an additional year.

The fees we are extending are the merchandise processing fee and the passenger conveyance fee. Extending those for just 1 year will produce close to \$2.5 billion in revenue and will importantly provide a dedicated funding stream to pay for the new security initiatives authorized in this bill. By voting for this amendment, this Senate will put money behind the rhetoric of port security. This Senate will put money behind the rhetoric. That is absolutely critical in today's world.

I sit on the Appropriations Committee. I sit on the Department of Homeland Security Appropriations Subcommittee. If we do not put a dedicated source of funding behind this bill, we will simply put port security in contention with all of the other functions of the Department of Homeland Security. We will be looking at Coast Guard money, FBI money, all of the important functions that we need to have within this bill, and port security will be just another issue that doesn't get funded. That is why this funding amendment is so absolutely critical.

The funding for this amendment is going to be used to hire new Customs and Border Protection officers. We can't just simply require our Customs and border officials to do more. They are important positions. Their eyes on the containers and their eyes on the tracking, their eyes on the containers as they are loaded and secured is absolutely critical. Without putting new Customs and Border Patrol agents in place to do the functions we are asking for in this bill, we simply will be sending an empty promise to America.

The funding also will improve the tracking and data collection of every container coming into our ports. That is essential funding which will make sure what we put into those containers is sealed, that someone is watching to make sure they haven't been tampered with, that no one has gotten into them, and that those containers have not gone someplace they are not supposed to. Just putting a tracking seal on it isn't going to make sure we know a container has not been tampered with. We need the personnel in place to do

the tracking. That is an important item for funding in this bill. The current bill doesn't have the funding for it. The amendment I am offering will make sure we have eyes on those tracking systems.

The funding will also establish incentive programs for shippers who voluntarily agree to these standards. That is the GreenLane section of this bill that is very important to make sure we know we can reduce the number of cargo containers coming into our ports that could produce a danger for American citizens and for America's economy.

The funding will also establish protocols for the resumption of cargo shipments after a disruptive incident. We put in place a system which assures, should an incident occur on one of our ports, that we have a resumption strategy in place so we know which cargo, which containers can begin to move off of our ports in an expeditious manner. The reason this is so important is if we don't have a protocol in place, it will take weeks, if not months, to get that cargo moving again. That will have a tremendous impact on our economy not just in our port cities but throughout the Nation, as stores would not have any retail goods on their shelves. The economic impact of that has been outlined in this debate, but it would be devastating. We absolutely need to have a protocol in place, and this funding stream will assure it is not just empty rhetoric but actually a funding source.

Finally, the funding is important for authorizing and appropriating money for a grant system for our ports, critical funding infrastructure for gates, for fencing, for making sure people are in place to know who is coming onto our ports—critical infrastructure that we have known is lacking and needs a real funding stream, not just rhetoric saying we are requiring it.

I am very pleased to bring this amendment to the Senate, and I hope it is agreed to overwhelmingly because it is critical that we put in place not just an authorizing bill to tell the American public we are putting in place a port security bill but that we actually have the funding so we can accomplish what I think everyone believes is an important goal.

I have presented this amendment and ask for its consideration.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Hawaii.

Mr. INOUE. Mr. President, I ask the Senator from Washington I be added as a cosponsor of her amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. INOUE. I thank Senator MURRAY for her efforts to reconcile what we believe to be the most glaring vulnerability of this bill—how to pay for it.

As I noted in my opening statement, authorizing security programs for our ports and supply chain is the first step.

We also must provide the actual funding to implement these new initiatives. While we have rushed to debate this security bill this week as the country remembers those who lost their lives 5 years ago, the Homeland Security Appropriations Subcommittee is in conference struggling to find the necessary funds to pay for existing programs. The security enhancements we are debating this week provide our constituents no benefit if we do not give the agencies we have tasked with these new responsibilities the necessary funds to do their job.

Despite a vulnerable maritime system and a very real threat to the physical and economic security of all Americans, the President has provided little support to help secure our Nation's ports from terrorist attacks. Even though the Congress has enacted two port security laws, the White House has included limited port security funding in their annual budget requests, proving their support for port security has been all talk and no action.

In 2003, when the President's budget failed to provide a fraction of the funding necessary for port security programs, Democrats offered an amendment to the Budget Resolution to provide \$1 billion per year for 2 years to help ports meet the new security mandates. The amendment closely followed the Coast Guard's estimates on the immediate, first year costs for ports to meet the mandates. The amendment received unanimous approval in the Senate. During the conference committee's consideration of the budget resolution, the Republican leadership eliminated the provision.

Recognizing this inadequacy and lost opportunity to deliver funds to the ports quickly, the Democrats offered an amendment to add \$1 billion to the 2003 supplemental again to help ports meet the new security mandates. Despite unanimous approval in the Senate 3 weeks earlier, when it came time to put the real dollars behind the budget commitment, the amendment was opposed by the administration and defeated on the Senate floor on a party-line vote.

Unfortunately, this year we saw history repeat itself. A Democratic amendment offered by Senator BYRD to increase funds for port security programs by \$648 million was offered and agreed to by unanimous consent during committee consideration of the fiscal year 2006 supplemental appropriations bill. Yet again when it came time to put real dollars behind their commitment to port security programs to make them a reality, the additional funds were opposed by the administration and were eliminated in conference.

If history is any guide, the additional funding provided by the Senate in the fiscal year 2007 Department of Homeland Security Appropriations bill is likely to be eliminated again during this ongoing conference.

It has become evident that only by identifying a revenue source other than

appropriated funds to pay for the new initiatives authorized in this Port Security Improvement Act can we truly overcome this cycle of all talk and no action. And that is exactly what the Murray amendment does.

The Murray amendment raises \$2.5 billion by extending customs fees. It goes a long way toward covering the costs for the \$3.2 billion authorized in this legislation. This is a tremendous step in the right direction to pay for more than 78 percent of the authorized levels in the underlying bill. I hope my colleagues will join with me in supporting this amendment.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LOTT. Mr. President, I ask unanimous consent that the order for the quorum call be dispensed with.

The PRESIDING OFFICER (Mr. BURR). Without objection, it is so ordered.

Mr. LOTT. Mr. President, parliamentary inquiry: What is the pending business?

The PRESIDING OFFICER. The pending business is the Murray amendment.

Mr. LOTT. I understand that other Senators may be coming to speak on the amendment. But I wish to speak in general in support of the bill itself.

Mr. President, yesterday, Monday, September 11, 2006, marked the fifth anniversary of the terrorist attacks of our country, on September 11, 2001. It was an emotional day for all of us. There were feelings of remembering the unity that it brought to all of us even here in this institution after that dreadful day. It was a day of mourning and sadness and a lot of mixed emotions. But I also think it reminded us once again that the terrible threat we saw come to fruition on that fateful day is still with us and we have more work to do.

I think it is important for those of us in Congress to point out that we have done a lot to address the terrorist threat to try to make our country safer from a variety of security vulnerabilities since then. I don't think we talk enough about what we do. But I remember very well the months after September 11, 2001, the fall of that year on into the next year, for a period of weeks—yes, even months—when we worked together. We put aside partisanship, we put aside political interests, and we decided we were going to do what was right for our country. It was a great time.

I note that the approval rating of the Congress during that period went to the highest level it has ever been before or since. The people liked it when they saw us working together and doing the right thing for our country. Of course, I should note that it has probably fallen steadily ever since then. But we have more to do.

I took the time last month to go to the west coast and look at ports, to look at ships that come in and their cargo, how the targeting works, how the random selection works, how the scanning works, how the intermodule systems work. It is an incredible thing to see, all the cargo coming into and going out of our west coast port—in fact, all of our ports.

I represent ports that serve the Gulf of Mexico and, of course, we have our very important east coast ports, too. It is a phenomenal thing to see where good progress has been made, but more needs to be done.

I do not know if it is fiscally possible or physically possible to guarantee that our ports are secure. But we have done some, and we need to do more.

I point out that we passed the Maritime Transportation Security Act of 2002. This was major legislation. And I was very pleased we were able to get it done. It has made a difference. It has a number of provisions in it that have helped us to move toward more sophisticated analysis of cargo shipment data; cooperative arrangements between foreign ports and businesses involved; targeted deployment of non-intrusive scanning and radiation detection equipment. Great progress is being made in this area.

The next generation of these scanners is ready to come onto the market. I took a look at how one of them works. It scans a container in 12 seconds. You can pick up something as small as a pistol smuggled among the cargo. You can pick it out because I saw it. If I picked it out, just about anybody can pick it out.

But that was a good piece of legislation. Now we have this next step, the Port Security Act of 2006. I thank the chairman of the Homeland Security and Governmental Affairs Committee, Senator COLLINS of Maine, and her ranking member, Senator LIEBERMAN. They deserve great credit for having produced a good bill—and then they took it beyond that. They worked with the Commerce, Science and Transportation Committee, on which I serve, to address concerns of that committee and some of their jurisdictional interests.

Then we had to go another step and work with the Finance Committee. Good work has been done. It has been done by three different committees and in a bipartisan way.

Now we have an opportunity to do something good and something that is needed, but more is needed. There is no question about that.

This bill will improve security at our seaports by including waterway salvage operations in port security plans. It calls for unannounced inspections of port facilities to verify the effectiveness of facility security plans.

I want to reemphasize I was a little surprised and impressed at what I saw at the Ports of Seattle and Tacoma—the security operation, the way the port officials work with Government

officials and work with our security officials, DEA and Customs, and all the rest of them where there is a maze of entities that are involved. It seems to be working pretty well, I say to the Senator from Washington State. I went out there, frankly, not expecting much, and I was surprised and relatively pleased.

Am I still concerned and nervous? When you look at the Port of Seattle, as the Senator said on the floor, you have a city, two stadiums right there in a pretty compact area. You have ships coming in from all over the world at a steady stream. The risk of danger is unsettling, to say the least.

We need to do more. This legislation provides additional direction on the implementation of the Transportation Worker Identification Card Program. We can do that. In fact, they have already done it in the private sector. It is just the Government that is lagging behind.

It mandates the establishment of interagency operation centers to coordinate the security activities of the many Federal, State and local agencies.

I get a little nervous because I have dealt with this, too, where you have a major event. I remember one time when we had a drug cargo coming into my hometown. A pretty good fracas broke out about what was going to be the lead agency and take the credit. Was it going to be the local sheriff, was it going to be port authority, FBI, Customs or DEA?

Here is my answer: Who cares? Somebody needs to get the job done. Quit squabbling over who is the lead agency or who gets the credit or who gets the blame and make sure it is done seamlessly and effectively. I think we do that with this bill.

This bill mandates the establishment of interagency operations centers to coordinate the security activities of all these different agencies.

It mandates the establishment of an exercise program to test interagency cooperation.

It establishes a training program for ports and their workers.

It improves security in the international supply chain. That is what a lot of people say: Wait a minute, once it gets to Seattle, it is too late. Right. So what is happening at the port of embarkation? Who is looking at the situation there?

The bill ensures that following any maritime transportation security incident there will be an orderly resumption of cargo movement through our ports. It authorizes the Container Security Initiative, which examines containers at foreign ports prior to their shipment to the United States. It authorizes the Customs-Trade Partnership Against Terrorism Program to improve information sharing and cooperation between the private sector and the Department of Homeland Security.

Everything I was concerned about, while I was looking at these ports and

ports in my hometown and gulf ports and other ports, I think this legislation addresses or moves in the right direction.

Now, I admit, some of it will include pilot programs or we are going to study this or that, and we waste so much money and so much time with that sort of thing. But when you are talking about very sophisticated, integrated, voluminous programs, like what is going on in our ports, a little thought might be a good idea.

Now, my complaint would be, why did we not do that a year ago, two years ago, three years ago? Well, sometimes the problem is us. We have to legislate. We have to do something. It is not enough that we just stand around and complain about our concerns, and then, when we have a chance to do something, we cannot follow through.

So I urge the leaders of these committees to press forward. Do it now. Let's not drag this out. There will be some good amendments that will be offered. Probably we ought to take them. Some of them are already being considered. Some of them have already been taken. There will be some amendments, really, that are just grandstanding.

Hey, that is our right. We are Senators. But I would just say we need to get this done. There is not a lot we can take credit for in terms of security in this particular Congress. This would be good. And besides that, I would hate to be the Senator who dragged this bill out or voted against this bill when an incident occurs.

This is a plus for the institution. When you do the right thing for the American people, there is plenty of credit to go around. Let's get this legislation passed and let's do it now. We do not need to be working on this at 6 o'clock Thursday night. We can finish this tonight or tomorrow. And then let's move on because it is well considered. It is bipartisan. There are some legitimate amendments. Let's take them up. Let's deal with them, and then let's go to another subject.

But overall, I feel good about the work that has been done on this bill, and I think we need to do more, and we need to do it very quickly. This will be a step in that direction.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The minority leader.

Mr. REID. Mr. President, first of all, I congratulate the individuals responsible for bringing this bill to the floor. No one is more responsible than the senior Senator from Washington, Mrs. MURRAY. She has talked about this for years. This was a difficult bill because it had multiple jurisdictions—the Homeland Security Committee, the Finance Committee, and the Commerce Committee. The bill is here and I am glad it is here. It is long overdue. But this is a small slice of what we need to do to make America safe. We need to do much more. Five years after 9/11,

America is not as safe as it could be and should be. In my opinion, failures by this White House and inaction by this Republican-dominated Congress have left our ports and borders vulnerable, our chemical plants open to attack, our nuclear power facilities unsafe, our mass transit systems unsecure, and our military stretched to levels not seen since Vietnam. We need a new direction to keep America safe, and we need it now.

AMENDMENT NO. 4936

(Purpose: To provide real national security, restore United States leadership, and implement tough and smart policies to win the war on terror)

Today, I intend to offer the Real Security Act of 2006 as an amendment to the port security bill. The Real Security Act provides an aggressive plan to make America safe. It takes nothing away from the port security legislation before this body. It is based on the real lessons of 9/11, more than 5 years ago, that occurred, lessons that for too long have been ignored by this Congress. This Democratic amendment would get serious about all facets of security—not only on port security but also on rail, aviation, and mass transit.

My colleagues on the other side of the aisle talk tough about national security. Today we will see if they are serious about taking the required steps to actually keep America safe by joining with us in supporting a tough and smart plan to protect our families.

This Real Security Act would, first of all, implement all 41 recommendations of the bipartisan 9/11 Commission.

In a report card last year, the 9/11 Commission gave Republicans in Congress and the Bush administration D's and F's in implementing its recommendations. The amendment would provide the adequate resources for first responders, improve intelligence oversight and homeland security funding, and improve our tracking of material that can be used in nuclear weapons.

An additional section would equip our intelligence community to fight against terrorists. With all the tough talk from this Republican Congress about terrorism, it is striking, stunning to find that for the first time in 27 years, this Congress did not authorize the Intelligence bill for our intelligence community—the first time in 27 years. This year, again, there is no authorization, and we have 18 days remaining in this session of Congress. This Real Security Act would, in fact, adopt the Intelligence authorization bill that needs to be passed.

Third, the amendment will secure not only our ports but our rails, our airports, and our mass transit systems. In addition to that, it would protect our chemical plants. And this is real money here to protect our chemical plants, real money to protect our nuclear power facilities. Our nuclear generating facilities—it is no secret—have their independent security systems. Some have referred to them as “rent-a-cop” programs. What they do is put out

the security of these nuclear power facilities to the lowest bidder. We have to have standard protection for our nuclear power facilities. That would be done with this amendment which we are going to offer.

As I indicated, this legislation will do some good things, in section 3, that I have talked about.

Customs and Border Protection, which we talk about a lot—this would actually give a half a billion dollars, \$571 million, for necessary expenses for border security, including for air asset replacement and air operations facilities upgrade, the acquisition, lease, maintenance, and operation of vehicles, construction, and radiation portal monitors that Border Patrol tells us are absolutely essential, and they do not have them after 5 years.

It would give \$87 million to the U.S. Citizenship and Immigration Services. As I have indicated, it would give an additional \$55 million for air cargo security, including cargo canine teams and inspectors. It would give \$250 million for aviation security, including—very importantly—after all these years after 9/11, we still do not have explosives monitoring equipment. The Coast Guard would be given \$184 million—these are real dollars; these are not authorized dollars—for necessary expenses for the Integrated Deepwater Systems Program. The Coast Guard says this is essential. This section is important, as I have indicated, for making our country safer.

The fourth provision of this amendment would focus resources on the war on terror. Bin Laden's trail has gone cold, as we have seen in the papers in recent days. The administration has taken its eye off the war on terror and gotten our country bogged down in Iraq. This amendment will change this by increasing substantially our special forces operations to capture terrorists, to kill terrorists. It would improve our relationships with the Muslim world so we can help stop recruitment of new terrorists.

Fifth, the amendment would provide better, updated tools to bring terrorists to justice. We have a sense of the Senate on FISA. As we speak, there is good bipartisan work being done on domestic surveillance. Senator FEINSTEIN and others have worked on a bipartisan basis. It is my understanding she has, on the Judiciary Committee, at least two Republican Senators who will support her amendment. That is important.

As to the Hamden decision, the Supreme Court said we need to do something. And we do need to do something. Senators LEVIN and WARNER and others have worked on a bipartisan basis to do something about that. It would bring terrorists and detainees in Guantanamo Bay and other places to justice by listening to our military experts and helping to create tough tribunals that will lock up terrorists while respecting the Constitution and maintaining America's integrity. It is important we do this.

Finally, this amendment would change the course in Iraq. Our amendment would include the Levin-Reed resolution to move in a new direction in Iraq. There would be a transition of the U.S. mission in Iraq to counterterrorism, training, logistics, and force protection. No immediate withdrawal, nothing like that. It would begin a phased redeployment of U.S. forces from Iraq before the end of this year, as called for by some of my colleagues on the other side of the aisle. We would work with Iraqi leaders to disarm the militias and develop a broad-based and sustainable political settlement, including amending the Iraqi Constitution to achieve a fair sharing of power and resources.

We would convene an international conference—which has been called for by Senator BIDEN for years now, and others—and contact group to support a political settlement in Iraq, preserve Iraq sovereignty.

It is very important that this amendment be adopted. We have talked a lot about terrorism, homeland security, talked about doing something about what is going on in Iraq and Afghanistan. This amendment would do that. I would hope my colleagues on the other side of the aisle would allow us to adopt this amendment. I believe it is essential. We have waited too long. It needs to be done.

Mr. President, I ask unanimous consent that the amendment that is now pending be laid aside.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. REID. Mr. President, I call up my amendment.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 4936.

Mr. REID. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The amendment is printed in today's RECORD under “Text of Amendments.”)

Mr. REID. Mr. President, thank you very much.

I now yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I am going to offer an amendment. I will ask that the pending amendment be set aside in a moment. I am not able to debate my amendment at this point because there is a large group of farmers who are in town to talk about disaster relief, and I am expected to be with them at 11:30. I am going to offer the amendment, go over and be a part of what they are doing, and then come back.

But before I offer this amendment, I want to say, just for a moment, this morning the new trade deficit figures were released. The highest trade deficit in America's history was announced

this morning: \$68 billion. That is the highest trade deficit in our history: \$68 billion for 1 month.

This is the most incompetent, unbelievably dangerous trade strategy, and yet all we get from anybody is this talk about free trade, free trade, how wonderful it is. Well, this last month alone, we are up to our necks in \$68 billion of debt, the majority of which is held by the Chinese and the Japanese. If this month's trade deficit does not persuade some people to finally decide the current trade strategy is not working, then I guess nothing ever will.

But let me just, from this 1 month, extrapolate what our yearly trade deficit is with these various countries. We are running a trade deficit at a \$240 billion-a-year level with China. Our trade deficit with the European Union is at a \$140 billion-a-year level; OPEC, \$120 billion a year; Japan, \$90 billion a year; Canada, \$70 billion a year; Mexico, \$60 billion a year. It is unbelievable what is happening—\$68 billion a month in trade deficits.

Now, I understand there are a lot of people who vote for all these trade agreements and think this is wonderful. This is not wonderful. It is undermining this country's economy, it will injure our economic future, and I think it will consign our children to an economic future and opportunities that are much less than we have experienced. I would expect and hope that one of these days this Congress and this President will wake up and decide that this trade strategy isn't working. We are choking on trade debt, moving millions of jobs overseas, and tens of millions more are poised to go.

If this doesn't persuade people to decide to stand up for this country's economic interests, I guess nothing ever will. At this point, we need, on an emergency basis, the understanding that we should create a fair trade commission in this country that leads us toward trade balance, getting rid of deficits, and standing up for American jobs and American interests. That hasn't been the case for a long time.

This morning's announcement simply underscores once again the dramatic failure of this trade strategy, the failure of this Government to stand up for this country's economic interests. I will talk about that more later.

AMENDMENT NO. 4937

Mr. DORGAN. Mr. President, I send an amendment to the desk, and I ask unanimous consent that the pending amendment be set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

The Senator from North Dakota [Mr. DORGAN] proposes an amendment numbered 4937.

Mr. DORGAN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit the United States Trade Representative from negotiating any future trade agreement that limits the Congress in its ability to restrict the operations or ownership of United States ports by a foreign country or person, and for other purposes)

At the appropriate place, insert the following:

SEC. ____ FOREIGN OWNERSHIP OF PORTS.

(a) IN GENERAL.—On and after the date of the enactment of this Act, the United States Trade Representative may not negotiate any bilateral or multilateral trade agreement that limits the Congress in its ability to restrict the operations or ownership of United States ports by a foreign country or person.

(b) OPERATIONS AND OWNERSHIP.—For purposes of this section, the term "operations and ownership" includes—

- (1) operating and maintaining docks;
- (2) loading and unloading vessels directly to or from land;
- (3) handling marine cargo;
- (4) operating and maintaining piers;
- (5) ship cleaning;
- (6) stevedoring;
- (7) transferring cargo between vessels and trucks, trains, pipelines, and wharves; and
- (8) waterfront terminal operations.

Mr. DORGAN. Mr. President, this amendment is simple. It relates to the issue of port security, which is the bill we are on. As you know, earlier this year we had a substantial amount of controversy about port security, at a time when the Bush administration gave the green light for Dubai Ports World, which was a government-owned company in the United Arab Emirates, to have the opportunity to take over management of seaports in our country—in New York, New Jersey, Baltimore, Philadelphia, New Orleans, and Miami, among others.

In February of this year, the Bush administration said that was fine for a company called Dubai Ports World to take over the management of these ports. It had been given official sanction to do so, and the President indicated that if the Congress didn't like it, and if the Congress passed legislation to do something about it, he would veto any bill Congress might approve to block the agreement that would allow the United Arab Emirates-owned company to manage American seaports.

Well, the UAE then indicated it was going to back away, and Dubai Ports World has now moved to try to find a way to sell its interest to others. My understanding is that it has not yet done so. But the circumstances are that the Oman Free Trade Agreement, which will come to the floor of the Senate this week we are told by the majority leader, includes a provision—I will describe it in greater depth later—that would prevent the Congress from interfering in any way with a foreign company from Oman from managing our ports.

My amendment is very simple. It would say that trade officials would be prohibited from agreeing to any trade agreement that would preclude the Congress from blocking a takeover of U.S. port operations by foreign companies. In recent trade agreements they

have actually included—which we have negotiated with other countries—the opportunity for those countries and their companies to come in and run America's ports.

When we are talking about port security, don't tell me about security if we decide we are going to allow other countries, and companies owned in many cases by countries, to take over the management of America's ports. That is not port security and not, in my judgment, improving the security interests of this country.

We went through this debate about Dubai Ports World and United Arab Emirates. That issue is not resolved. It is being raised again in every trade agreement that is being negotiated and is included in the one with Oman that will be debated later this week. The majority leader wishes to take up that trade agreement. I believe there is a 20-hour requirement or debate provision with respect to that agreement.

I intend to talk at some length about what that agreement provides with respect to this provision. The provision in this trade agreement once again is that it is going to be just fine for foreign interests to come in and provide management and many other functions at America's seaports. Tell me how that will make this country more secure.

I don't think anybody can talk about security when at the same time, in trade agreements, we are saying we want other countries, and companies that are owned by these countries, in fact, to come in and manage America's seaports. That is a recipe for disaster, in my judgment.

I will speak more about it later. I wanted to at least lay the amendment down and have the opportunity to be in line after lunch and talk about this amendment at greater length.

I yield the floor.

Mr. GRASSLEY. Mr. President, everyone in this Chamber understands that we are in a political season. And that means we are going to be taking political votes. The amendment offered by the Senator from North Dakota is indeed one of those votes.

Now, Senator DORGAN is a friend of mine. We have worked together on a number of important issues. But let's face it. This amendment doesn't really do anything. It creates the appearance of a problem and then purports to resolve that illusory problem. So there really isn't any point to the amendment. But we also know, that no Member wants to be portrayed in a 30-second television commercial as having voted against U.S. ownership of port operations. So I recommend to my colleagues that they support this do-nothing amendment.

Let me explain why this amendment doesn't really do anything. This amendment says that after the date of enactment, the U.S. Trade Representative may not negotiate any bilateral or multilateral trade agreement that limits the Congress in its ability to restrict the operations or ownership of

U.S. ports by a foreign country or person. But the fact is, our trade agreements do not prevent Congress from legislating on any matter, including ports.

First off, Congress can always override an international agreement by passing subsequent legislation. That is an elementary principle of constitutional law. Moreover, our standard implementing legislation for trade agreements expressly states that if a provision of a trade agreement is inconsistent with any provision of U.S. law, then that provision in the trade agreement shall not have effect. In other words, in the event of an inconsistency between a trade agreement and U.S. law, Federal law prevails over the trade agreement. Yet this amendment suggests that the U.S. Trade Representative can somehow transcend our Constitution and Federal law by negotiating a trade agreement.

That is ridiculous. It is false. But as I said, we are in a political season. So I suggest we accept this do-nothing amendment, recognizing it for the political act that it is, and we move on. It is critical that we move this important legislation through the Senate as soon as possible and avoid getting bogged down in politics.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I ask unanimous consent to lay aside the pending amendment, and I call up my amendment, which I believe is at the desk, No. 4930.

The PRESIDING OFFICER. Without objection, the pending amendment is set aside.

The clerk will report.

The legislative clerk read as follows:

The Senator from New York [Mr. SCHUMER] proposes an amendment numbered 4930.

Mr. SCHUMER. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To improve maritime container security by ensuring that foreign ports participating in the Container Security Initiative scan all containers shipped to the United States for nuclear and radiological weapons before loading)

On page 5, between lines 20 and 21, insert the following:

(9) INTEGRATED SCANNING SYSTEM.—The term “integrated scanning system” means a system for scanning containers with the following elements:

(A) The container passes through a radiation detection device.

(B) The container is scanned using gamma-ray, x-ray, or another internal imaging system.

(C) The container is tagged and catalogued using an on-container label, radio frequency

identification, or global positioning system tracking device.

(D) The images created by the scans required under subparagraph (B) are reviewed and approved by the Secretary, or the designee of the Secretary.

(E) Every radiation alarm is resolved according to established Department procedures.

(F) The information collected is utilized to enhance the Automated Targeting System or other relevant programs.

(G) The information is stored for later retrieval and analysis.

On page 43, strike lines 11 through 14 and insert “enter into agreements with the governments of foreign countries participating in the Container Security Initiative that establish criteria and procedures for an integrated scanning system and shall monitor oper-”.

On page 44, line 5, strike “and”.

On page 44, line 9, strike the period at the end and insert the following: “; and”.

On page 44, between lines 9 and 10, insert the following:

(5) shall prohibit, beginning on October 1, 2008, the shipment of any container from a foreign seaport designated under Container Security Initiative to a port in the United States unless the container has passed through an integrated scanning system.

On page 60, strike lines 9 through 15.

On page 62, lines 7 and 8, strike “As soon as practicable and possible after the date of enactment of this Act” and insert “Not later than October 1, 2010”.

Mr. SCHUMER. Mr. President, I rise to talk about one of the most critical gaps in our homeland security, and that is port security. This week, everyone in my home State of New York—certainly there but also everywhere in America—is asking if we are safer since 9/11. I have to say, if you look at port security, the answer is an unfortunate no.

In this week of remembering the attacks on 9/11, I am pleased that the critical issue of port security is under consideration by the Senate. I think the Port Security Act of 2006 is a good start. I commend my colleagues, and particularly my friend from Washington State, who worked so long and hard on this issue. But I also want to be sure the legislation we pass provides real teeth and resources for port security.

The United States is the leading maritime trading Nation in the world. At any given moment our seaports are full of container ships, warships, cruise ships, and oil tankers. Every one of these ships is an opportunity for terrorists to strike at our industry, our infrastructure, and our lives. We know these enemies will wait patiently and plan carefully in order to create maximum panic and damage.

Our greatest risk is that a terrorist could easily smuggle a nuclear weapon through our ports, God forbid, and bring it into the United States. Once it gets out of the port, it will be gone, and we would not know about it until it is too late.

Yet, unfortunately, our vulnerable seaports have long been neglected by the administration. Programs to screen for nuclear materials are delayed and delayed and delayed. I have been push-

ing amendments such as this for years and, frankly, the administration, in lockstep with my colleagues on the other side of the aisle, generally talks the talk, but they do not walk the walk. They do not say we should not do research to guard against nuclear weapons being smuggled into our country, but then when it comes time to allocate resources to get it done, when the need is \$500 million, they might allocate \$50 million or \$35 million. That is what has happened in years past. That is a disgrace. That is letting our guard down.

Mr. President, we need to fight the war on terror overseas, no question about that. But as any high school basketball coach will tell you, to win a game—in this case, a war on terror—you need both a good offense and a good defense. We have woefully neglected the defense. An example is the spending by this administration, DHS, and by the Senate and this Congress on port security.

By the end of this month, DHS will have provided \$876 million in port security grants since 9/11. This is a fraction of what we have spent on aviation security, and it is far less than what is needed.

Maritime trade is booming. The Coast Guard estimates port owners will need \$7.2 billion over the next 10 years to bring ports in line with Federal security requirements, and we need to give more funding and more attention to vulnerable seaports. If we ever needed convincing that this administration is asleep at the switch when it comes to port security, turn back the clock a few months to the fiasco over Dubai Ports World. That company, a government company from the United Arab Emirates, was cleared to take over operations at more than 20 ports along our eastern and gulf coasts without any serious review.

It was hard to believe. And then when the President learned there wasn't serious review, he still said we don't need it. Now that shows a profound and very disturbing unawareness of what we need for port security.

The Dubai Ports World takeover almost snuck under the radar, after getting scanty review from the CFIUS committee. There is only one bit of good that came from this Dubai Ports World fiasco. It revealed how little we had done to protect our ports and focused the Nation, and hopefully this administration, on bolstering port security in the United States and around the world.

I am inclined to support the Port Security Improvement Act of 2006, but I am also very concerned that this bill does not go nearly far enough toward securing our seaports and shipping vessels, especially against the unspeakable danger of a nuclear weapon.

This is our great nightmare. God forbid—God forbid—a nuclear weapon is shipped into this country and exploded. Nothing could be worse.

So instead of doing little baby steps, instead of saying this is a 10- or 15-year

project, why aren't we moving with alacrity to make ourselves safer against the greater danger we could face?

I know my colleague from Connecticut, who has just walked in, has been very active on this issue and has been very helpful to me when I have offered amendments in this regard.

We need to do much more to guard against nuclear weapons being smuggled into our country by sea, and we can't have any holes in our defenses. Today I am offering two amendments that will strengthen port security improvement in these key aspects.

The first amendment is the amendment that is pending, No. 4930. This amendment secures our ports by screening all cargo containers that reach our shores to make sure they do not contain a nuclear or radiological weapon.

More than 9 million cargo containers enter the country through our ports each year, and as we all know—it is sad, it is woeful—only 5 percent of these containers have been thoroughly screened by Customs agents. That is nothing short of an outrage. It would truly be a nightmare scenario if one of these unchecked containers had a nuclear weapon smuggled in by a terrorist group.

The latest I heard from some on the other side is: We can't guard against every single terrorist act. We don't have the resources or the focus to do it.

I disagree. But even if one believed in that philosophy, one would have to put nuclear weapons and the danger of them being smuggled into this country at the very top of the list of dangers. So even if one's view is we can't do everything, we certainly should do everything we can to prevent this nightmare scenario.

Terrorists, unfortunately, could detonate a nuclear bomb in a port or the bomb could be loaded on a truck or railcar and be sent anywhere in our country or terrorists could combine radioactive material with conventional explosives to make a so-called dirty bomb.

Any attack of this kind would cause unspeakable casualties, destruction, and panic. We know our enemies are ruthless and determined enough to plan this type of attack. Yet the administration has waited years and years, and I have been trying to implore them to take significant action on port security.

We know terrorists have tried to purchase nuclear materials on the black market, and we know that any shipping container could be used as a Trojan horse to smuggle deadly radioactive material into our country. But this country has not stepped up to the plate to fund port security at the levels that are necessary or to pass laws with real teeth.

This amendment will end this shocking state of affairs and make America safer by requiring that within 4 years, every container coming into the United

States will pass an advanced nuclear detection system known as integrated scanning.

Integrated scanning is used now. I have visited—and so has my colleague; I visited, with my colleague from South Carolina, LINDSEY GRAHAM, Hong Kong about 6 months ago. It is an amazing system. The containers are not slowed down. They simply are required to drive through a portal with two detection devices, each on a side, that do two things: They first check for nuclear weapons and nuclear materials. The only good news is—they are terrible and dangerous—they emit gamma rays which pass through just about anything but lead. Even if they are hidden in an engine block, the detection device works.

At the same time, because lead may cover them, there is a scanning device that will reveal large chunks of lead. Once these trucks go through the devices with these containers, we will know if they have nuclear weapons or nuclear radiation, nuclear materials or, alternatively, a significant enough amount of lead that could shield those, and we could then inspect the container.

An integrated scanning system works. I have seen it with my own eyes. I salute the firm of Hutchison Wampoa, the largest shipping company in the world, for on their own instituting this system in the Port of Hong Kong. They do the checks using non-intrusive imaging technology. Then it is checked with a tracking device, as well as, of course, the nuclear device. And if the checks don't match up, Customs inspectors know something is wrong and can stop the container.

Isn't it a shame that China and Hong Kong have better port security than we have in the United States? Integrated scanning for nuclear weapons is a model of what it means to make a true commitment to port security.

We don't need to study this any more. My amendment sets firm deadlines for containers entering the United States to meet this mark. If it is working in Hong Kong, there is no reason why America shouldn't hold other ports that handle our commerce to the same high standard of safety.

There are some critics who say this is an unrealistic deadline; let's study it some more. It is working. It is there. It has been working for a year without flaws. Why do we have to study it when the danger is so great and the technology is there?

The Department of Homeland Security has wasted enough time securing our ports. It is time for Congress to hold DHS accountable and time for us to demand real security at our seaports.

Under this pending amendment, by October 2008, integrated scanning must be used to check all containers that arrive on U.S. shores from foreign ports participating in what is known as CSI, the Container Security Initiative.

There are 40 ports in the CSI in 22 countries. U.S. Customs agents, under

the program, work directly to inspect containers bound for America.

But it is not enough to extend integrated scanning only to the ports in the voluntary CSI program. So my amendment also sets a deadline of October 2010 for every single container entering the United States to pass an integrated scan.

We have waited long enough for port security to receive the attention it deserves. While the Department of Homeland Security drags its feet, it is time to put our safety first by voting for a measure that will actually stop nuclear weapons before they ever get near the United States.

This does not cost the taxpayers a plug nickel. We simply require the shipping companies to do it. When Senator GRAHAM and I visited Hong Kong—and Senator COLEMAN, who has been very interested in this issue, will confirm it—they told us it costs about \$8 to scan a container; whereas, the cost of shipping that container from Hong Kong to the west coast is \$2,000. That is .2 percent.

Shipping companies will have to put these scanners in. They will then have to pass along the costs to their customers. But I doubt the U.S. consumer would see any increase, the amount is so small and competition in the shipping industry is so large.

I support this amendment and urge bipartisan support so we can once and for all say we are keeping our world safe.

AMENDMENT NO. 4938

I have another amendment which I am not going to ask to call up at the desk right now because we don't have anyone on the other side, and they haven't seen it yet. I don't think there will be any objection to calling it up, but I am going to talk about it now, and then we can get unanimous consent to call it up. It is amendment No. 4938. Let's talk about that.

This is the Apollo project amendment. Here is what it does.

Forty-four years ago today, John Kennedy vowed to put a man on the Moon by the end of the decade. That was a bold and visionary promise. NASA succeeded with time to spare because it was backed by the full extent of American resources and ingenuity. John Kennedy called for us to do it, and we went forward and did it. It was a bold and visionary promise.

Now it is time for Congress to make the same bold commitment to homeland security. Too often since 9/11 we have said this has to be done; here is \$5 million when the job takes \$100 million. As a result, 5 years after the attacks on our country, we are still far behind where we need to be. We must stop shortchanging port security.

This amendment dedicates \$500 million over the next 2 years in competitive grants to public and private researchers who have innovative and realistic ideas for nuclear detection devices that will keep us ahead of our enemies. The funding is sorely needed.

We have to develop better portal monitoring devices. We need devices that can be positioned on cranes. We need devices that can be placed under water. In all of these areas, we need devices accurate and effective enough to keep commerce moving smoothly.

The model Hong Kong uses will work for big ports, but it may not work for small ports. In all these areas, we need the devices to be accurate enough and effective enough not only to detect radiation but to not have so many false positives that they interfere with commerce.

So many times in the past, this Congress has authorized appropriations for port security. They are simply hollow promises and do not go anywhere. This amendment is different. It makes a meaningful and long-term commitment of a worthy goal of keeping our seaports safe. Funding for the grant process will come from a port-related user fee that will be a dedicated source of revenue. It is only fair to ask those who will benefit most from port security improvements to contribute to this task.

We have spent \$18 billion on aviation security in the past 5 years. Mr. President, \$500 million is not too much to devote against the horrifying threat of a nuclear attack on our soil. The first amendment doesn't cost us any money. This amendment does. I imagine that is why there is a temporary holdup on the other side to offering it.

The bottom line is the leaders of the 9/11 Commission called a nuclear weapon being smuggled into this country "the most urgent threat to the American people." Congress has done far too little for far too long in this area. We are running a marathon against a ruthless enemy. We haven't taken any more than a few halting steps. We can no longer afford to fail in securing our ports.

I ask my colleagues to support both amendments, when we have a chance to vote on them, to strengthen this important bill.

Once again, she wasn't here earlier. I praise my colleague from Washington for the good work she has done on this bill, a bill I am strongly inclined to support.

Mr. President, I yield the floor.

The Senator from Connecticut.

Mr. LIEBERMAN. Mr. President, I rise to speak on the overall bill before the Senate to express my strong support for it and to say I am proud to be an original cosponsor of the Port Security Improvement Act of 2006 and its predecessor, the GreenLane Cargo Act.

Seeing that the clock is reaching noon, I ask unanimous consent we extend the time for the scheduled vote by 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LIEBERMAN. I thank the Chair. Mr. President, I rise to express my support for the bill and say I am proud to be a cosponsor with Senator COLLINS, Senator MURRAY, and Senator COLE-

MAN. This is a comprehensive, bipartisan port security bill. I would also like to thank Senator STEVENS and Senator INOUE of the Commerce Committee, and Senator GRASSLEY and Senator BAUCUS of the Finance Committee, for their hard work, leadership, and commitment to passing a port security bill this Congress. This is really important. In the midst of a Congress and a Capitol that has become all too reflexively and destructively—I might say self-destructively—partisan, and that partisanship getting in the way of us getting anything done, this is a bill on which members of our Homeland Security Committee and the other relevant committees have risen above partisanship and focused on a real threat to our security, a terrorist threat that would come to us in containers moving through our ports or in terrorist acts at our ports.

I know there will be many amendments offered this week. I hope we will consider them in the fullness of debate that is part of the Senate but that we always ask ourselves the question: Will this amendment stand in the way of this bill passing and making it through conference committee to be signed by the President? This is urgent and this bill responds comprehensively to the urgent terrorist threat that we face.

Ninety-five percent of our international trade flows through our ports. Prior to 9/11, the main goal was to move these millions of tons through our ports efficiently, quickly, for reasons obviously of commerce, jobs, and employment. Since 9/11, we have realized that we need to bring security into the equation but without inflicting on ourselves the precise economic harm that the terrorists intend to do to us. This is a difficult but imperative balance we must achieve.

The 9/11 Commission report said that "major vulnerabilities still exist in cargo security," and that, since aviation security has been significantly improved since 9/11, "terrorists may turn their attention to other modes. Opportunities to do harm are as great, or greater, in maritime and surface transportation"—i.e. ports.

Just last month, RAND's Center for Terrorism Risk Management Policy published a report entitled "Considering the Effects of a Catastrophic Terrorist Attack" that considered the effects of a nuclear weapon smuggled in a shipping container sent to the Port of Long Beach in California and detonated on a pier. This is chilling.

But I remember that the 9/11 Commission, in its conclusions, said one of the great shortcomings we had prior to 9/11 was a failure of imagination. Imagination is usually thought to be a wonderful thing, but what they meant by that is our inability to imagine how brutal, inhumane, and murderous terrorists could be.

The potential short- and long-term effects of a nuclear weapon smuggled in a shipping container sent to the Port of Long Beach and detonated on a

pier are devastating. The report estimated that up to 60,000 people might die instantly from the blast or radiation poisoning, with 150,000 more exposed to hazardous levels of radiation.

The blast and fires could completely destroy both the Port of Long Beach and the Port of Los Angeles and every ship in the port. As many as 6 million people might have to be evacuated from the Los Angeles area, and another 2 to 3 million people from the surrounding area might have to relocate due to the fallout. Gasoline supplies would quickly dry up because one-third of all the gas used on the west coast is processed at the refineries of the Port of Long Beach.

Short-term costs for medical care, insurance claims, workers' compensation, and evacuation and reconstruction could exceed \$1 trillion. By comparison, the cost in similar categories resulting from the attacks on America on September 11, 2001 were between \$50 billion and \$100 billion. Besides damage to the United States, the attack would cause economic effects that would ripple across the globe.

That is devastating and chilling. I hesitate to even speak it on the floor of the Senate, and yet it is the world in which we live, and the threat is real.

The unsettling fact is, we still have too little idea about the contents of thousands of containers that are shipped into and across the heart of America every day. It is strange to say, but perhaps the controversy over the Dubai Ports World incident raised the collective consciousness of the American people and Members of Congress to the vulnerabilities that we face at our ports. Following that incident, the Homeland Security and Governmental Affairs Committee marked up the GreenLane bill, and later Senators COLLINS, MURRAY, and I started working with the Senate Commerce and Finance Committees to craft the comprehensive port security legislation that is before the Senate today.

The Port Security Improvement Act of 2006 builds on these foundations for homeland security by strengthening key port security programs by providing both direction and much-needed resources. I would like to focus my colleagues' attention on a few critically important parts of the bill.

First, the bill moves us closer to the goal of inspecting all of the containers entering the United States through our ports. The legislation requires DHS to establish a pilot program to inspect 100 percent of all containers bound for the U.S. from three foreign ports within 1 year and then report to Congress on how DHS can expand that system.

There is legitimate concern that inspecting 100 percent of containers would be so burdensome that it would bring commerce to a halt. However, technology companies have been working for several years to build more efficient inspection systems. The Port of Hong Kong is currently testing an integrated inspection system to scan every

container entering the two largest terminals at that port, while the research and development offices of DHS have begun work on developing automated systems to analyze this data. We should move towards 100 percent inspection as fast as we can get there, understanding that we can not afford to bring commerce to a halt. This legislation will provide us critical information about how soon we can achieve this goal.

Second, this bill authorizes comprehensive and robust port security grant, training, and exercise programs, with a \$400 million grant program available to all ports. Third, this legislation requires DHS to deploy both radiation detection and imaging equipment to improve our ability to find dangerous goods and people being smuggled into the United States.

DHS has committed to deploying radiation portal monitors at all of our largest seaports by the end of 2007. Unfortunately, this "solution" is, in fact, only half of the equation. To provide real port security, radiation detection equipment capable of detecting unshielded radiological materials, as these portal monitors do, must be paired with imaging equipment capable of detecting dense objects, like shielding.

This legislation requires DHS to develop a strategy for deploying both types of equipment, and the pilot program for screening 100 percent of containers at three ports similarly requires that both types of equipment be used.

Fourth, this bill requires DHS to develop a strategic port and cargo security plan, and it creates an Office of Cargo Security Policy in DHS to ensure Federal, State, and local governments and the private sector coordinate their policies.

Currently, the Coast Guard is responsible for the waterside security of our ports. U.S. Customs and Border Protection regulates the flow of commerce through our ports. The Transportation Security Administration is responsible for overseeing the movement of cargo domestically. And the Domestic Nuclear Detection Office has been working with the Defense Department and the Department of Energy to strengthen our ability to detect radiological materials anywhere in the country.

It is imperative that these agencies, offices, and departments are working closely with each other, as well as State and local government and the private sector to develop and coordinate port security policies and programs.

Lastly, this bill requires DHS to develop a plan to deal with the effects of a maritime security incident, including developing protocols for resuming trade and identifying specific responsibilities for different agencies.

This is critically important to ensuring the private sector and our global partners have enough confidence in our system, so that we can mitigate any

economic disruption and foil a terrorist's plan to hurt our economy.

Moving the Port Security Improvement Act of 2006 forward will take us one giant step closer to where we ought to be by building a robust port security regime, domestically and abroad, and provide the resources necessary to protect the American people.

I look forward to continuing to work with Senators COLLINS, STEVENS, INOUE, GRASSLEY and BAUCUS, and our colleagues in the House, to finalizing meaningful port security legislation.

Yesterday was a day of remembrance and requiem. Today is a day to resolve that we will do everything in our capacity to make sure that no terrorist attack against our country and our people succeeds in the future. That is the intention of this bill. I urge Members of the Senate to adopt it by this week's end.

Mr. President, I yield the floor.

2006 LITTLE LEAGUE WORLD SERIES CHAMPIONS

Mr. CHAMBLISS. Mr. President, I rise today to encourage my colleagues to join Senator ISAKSON and me in supporting a resolution congratulating the 2006 Little League World Series Champions, the Columbus Northern Little League team of Columbus, GA.

On August 28, 2006, the Columbus Northern Little League team defeated the Kawaguchi Little League of Japan by a score of 2-1 and concluded their season with an impressive record of 20 wins and only 1 loss. And when you consider the fact that more than 7,000 Little League all-star teams took the field in July, you realize the magnitude of this accomplishment.

Their talent, hard work, and sportsmanship allowed them to become the second team from the State of Georgia to win the Little League World Series, and in doing so they captured the hearts of people across Georgia and in many parts of the Nation who love the game of baseball.

As a former Little League coach during the years that Julianne and I were raising our children in Moultrie, I was so proud to participate in the long-standing tradition of Little League Baseball as a coach for my son's team—the Destiny Dawgs. There is no question that this great arena of sportsmanship, founded in 1939, builds confidence, determination, and hard work in youth.

And since the inception of the Little League World Series in 1947, it has grown to encompass not only national teams, but teams from all around the globe.

I would like to recognize the 11 young men of the Columbus Northern Team individually for their great accomplishment: Matthew Hollis, Ryan Lang, Mason Myers, Matthew Kuhlenberg, Patrick Stallings, Josh Lest, Brady Hamilton, Cody Walker, J.T. Phillips, Kyle Rovig, and Kyle Carter, who became the only pitcher in Little League Baseball World Series history to win four games in one series. Their manager Randy Morris and their coach Richard Carter deserve strong recognition for guiding these young players to victory.

And I would be remiss if I didn't recognize the teachers and students of these young men's schools, and the fans who represented their community and the State of Georgia with such enthusiasm and support.

It is with great pride that I extend my heartfelt congratulations to the

Columbus Northern Team and their families. Columbus, the city that produced Major Leaguers Frank Thomas and Tim Hudson, now has a few more heroes to celebrate. I am extremely proud of them and their accomplishments and wish them great success in the future. I urge my colleagues to support this resolution.

The PRESIDING OFFICER. The Senator from Georgia is recognized.

Mr. ISAKSON. Mr. President, I am pleased to join my colleague, Senator CHAMBLISS, in support of the resolution honoring the Columbus Northern Little League, the Little League World Series champions for the year 2006.

I am particularly honored to pay tribute to them because this is *deja vu* all over again for me; in 1983 another Georgia team, the East Marietta team, where I live, was the first Georgia team to win the Little League World Series. So now, in just 60 years, 2 of the 60 champions have come from our great State.

SAXBY and I had the chance to meet these fine young men with the President of the United States just last week on Thursday on the tarmac at Dobbins Air Force Base. They were poised, they were excited, and they were proud.

I also pay tribute to the parents of these young men. If you watched the championship game against the State of New Hampshire when they won the American title, before they went on to play Japan, you saw the parents of these young men, right before the game, sharing their baskets of Georgia peaches with the parents of the New Hampshire team, just as they did with the Japanese team 2 days later. The parents showed the sportsmanship and good will and the care and the compassion that makes Little League Baseball so special.

These are special young men: Matthew Hollis, second baseman and center fielder; Ryan Lang, right fielder; Mason Meyers, right field and third base; Matthew Kuhlberg, left field; Patrick Stallings, third base; Josh Lester, second base and shortstop; Brady Hamilton, first base, outfield, and pitcher; Cody Walker, catcher; Kyle Carter, pitcher; J. T. Phillips, shortstop and pitcher; and Kyle Rovig, left field and pitcher. And there was the management and leadership brought by manager Randy Morris and coach Richard Carter.

These fine young men played wonderful baseball all the way through the tournament. But in those final two games against New Hampshire and Japan, they soared and played like true professionals—young men who had been taught well, who were respectful, and who knew how to pay the price for victory.

Columbus Northern is our State's second team to win the Little League World Series. Kyle Carter, the pitcher, made history by striking out 11 batters and became the first pitcher in history to win 4 times in the Little League World Series.

We cannot forget Cody Walker's hitting—with the pitch and where it was pitched—and knocking a two-out pitch over the fence in right field for the two runs that won the game over Japan, nor can we forget the great second baseman workmanship of Josh Lester nor any of these fine young men who brought great pride to their State, great pride to their parents, and great pride to the great city of Columbus, GA.

I am pleased to rise today on the floor of the Senate and join Senator CHAMBLISS in acknowledging the great achievement of these young men and encourage the Senate to unanimously adopt this resolution of recognition and appreciation for the Columbus Northern Little League team.

Mr. President, I yield back.

RECESS

The PRESIDING OFFICER. Under the previous order, the hour of 12:30 having arrived, the Senate stands in recess until 2:15 p.m.

Thereupon, the Senate, at 12:48 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. VOINOVICH).

SECURITY AND ACCOUNTABILITY FOR EVERY PORT ACT—Continued

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. INOUE. Mr. President, I yield to the Senator from Colorado.

AMENDMENT NO. 4935

Mr. SALAZAR. Mr. President, I ask unanimous consent that the pending amendment be set aside so I can call up amendment No. 4935.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Colorado [Mr. SALAZAR], for himself, Mr. CHAMBLISS, Mr. ISAKSON, Mr. PRYOR, and Ms. CANTWELL, proposes an amendment numbered 4935.

Mr. SALAZAR. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To create a Rural Policing Institute as part of the Federal Law Enforcement Training Center)

At the appropriate place, insert the following:

SEC. ____ . RURAL POLICING INSTITUTE.

(a) IN GENERAL.—There is established a Rural Policing Institute, which shall be administered by the Office of State and Local Training of the Federal Law Enforcement Training Center (based in Glynco, Georgia), to—

(1) evaluate the needs of law enforcement agencies of units of local government and tribal governments located in rural areas;

(2) develop expert training programs designed to address the needs of rural law enforcement agencies regarding combating methamphetamine addiction and distribu-

tion, domestic violence, law enforcement response related to school shootings, and other topics identified in the evaluation conducted under paragraph (1);

(3) provide the training programs described in paragraph (2) to law enforcement agencies of units of local government and tribal governments located in rural areas; and

(4) conduct outreach efforts to ensure that training programs under the Rural Policing Institute reach law enforcement officers of units of local government and tribal governments located in rural areas.

(b) CURRICULA.—The training at the Rural Policing Institute established under subsection (a) shall be configured in a manner so as to not duplicate or displace any law enforcement program of the Federal Law Enforcement Training Center in existence on the date of enactment of this Act.

(c) DEFINITION.—In this section, the term "rural" means area that is not located in a metropolitan statistical area, as defined by the Office of Management and Budget.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section (including for contracts, staff, and equipment)—

(1) \$10,000,000 for fiscal year 2007; and

(2) \$5,000,000 for each of fiscal years 2008 through 2012.

Mr. SALAZAR. Mr. President, I ask unanimous consent that Senator CANTWELL be added as a cosponsor to this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SALAZAR. Mr. President, I rise this afternoon to discuss my amendment to create a rural policing institute within the Federal Law Enforcement Training Center. I thank Senator CHAMBLISS, Senator ISAKSON, and Senator PRYOR for cosponsoring this very important legislation. Law enforcement matters should be nonpartisan, so I am particularly pleased to see my friends from both Arkansas and Georgia on this amendment.

I want to acknowledge the tremendous work done by the 800,000 State and local law enforcement officials and first responders throughout our Nation. They are at the forefront today of our efforts to make sure our homeland is more secure. In Colorado alone, there are 14,000 of these law enforcement officers. Too often, these heroes are on their own when it comes to help from the Federal Government. This is especially true when it comes to rural America. This is wrong because our law enforcement officials and first responders are at the forefront of the effort to not only protect our communities but to ensure our homeland is secure.

Mr. President, along with some of my colleagues on the Senate floor, I have often referred to these rural communities as "the forgotten America." Indeed, rural America is the backbone of our country, but it is too often neglected by Washington and political figures who have lost touch with the people in the heartland. Nowhere is this neglect felt more acutely than in the small-town law enforcement agencies of my State and of every State in the country. These are small communities that have been confronted with decreased funding, with increased

homeland security responsibilities, and with the great toll of the meth epidemic that is devastating rural America.

Many people don't realize that most American law enforcement agencies serve rural communities or small towns in very large proportions. Indeed, of the nearly 17,000 police agencies in the United States, 90 percent of them serve a population of under 25,000 people. And of those, most of them operate with fewer than 50 sworn officers and, in many cases, with 3, 4, or 5 officers.

I am well aware of the difficulties these small-town law enforcement agencies face day to day. As attorney general in Colorado, I had the honor of working with 14,000 of some of America's finest law enforcement officers. Many of them are from rural Colorado—sheriffs such as Jerry Martin, from Dolores County, and the other sheriffs in my State. These people are always asked to do a lot more with a lot less. Their pressure is great. The growing demands on rural law enforcement and shrinking budgets have hit training programs particularly hard. Many rural law enforcement agencies simply don't have the budget to provide officers with adequate training. Furthermore, even those agencies that can come up with the money cannot afford to take police officers off the street to get additional training.

As attorney general and chairman of the Colorado Peace Officers Standards and Training Board a few years ago, one of my proudest accomplishments was working on a bipartisan basis to help establish a \$1 million annual training fund for Colorado's 14,000 peace officers, with the focus on the smaller law enforcement agencies in Colorado.

That is where our amendment on the floor today comes in. FLETC does a fantastic job in training Federal, State, and local law enforcement in our Nation. But FLETC doesn't have enough resources dedicated specifically toward training rural law enforcement officers. The rural policing institute would do the following:

First, evaluate the needs of rural and tribal law enforcement agencies throughout our Nation, so that we know exactly what the challenges are that we are facing in those rural communities.

Secondly, it would develop training programs designed to address the needs of rural law enforcement agencies, with a focus on combating meth, domestic violence, and school violence.

Third, it would export those training programs to rural and tribal law enforcement agencies.

Fourth, it would conduct outreach to ensure that the training programs reach rural law enforcement agencies.

As attorney general, I learned that a small investment in law enforcement can pay great dividends.

Mr. President, when we look at 9/11 today and the fact that we are all

united in this effort to try to make America safer, and we look at who it is within our country who ultimately will be out there to stop the next attack on America, I would submit there is a very good chance it is going to be the deputy sheriff in a small county somewhere in America or a member of the police force in some small community making sure that a water tank is not contaminated with some kind of biological contamination or it is going to be somebody else who understands that some kind of a network has come together to try to take the fertilizer that our farmers use in rural America and make a bomb out of it. It is going to be rural law enforcement that is going to make sure they are going to help us prevent those kinds of attacks on America. When we think about the 800,000 men and women in law enforcement across America, they are on the frontlines, in terms of making sure we have a more secure homeland.

I cannot think of a more important amendment than to establish a rural police training institute under the auspices of FLETC, to ensure that these 800,000 men and women have the right kind of training so that through their eyes they can help us in our march and our efforts to make America more secure. We have a long way to go. I hope our colleagues will support this bipartisan amendment to establish a rural police training institute.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey is recognized.

AMENDMENT NO. 4940

Mr. LAUTENBERG. Mr. President, I send an amendment to the desk, and I ask unanimous consent that the pending amendment be laid aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from New Jersey [Mr. LAUTENBERG] proposes an amendment numbered 4940.

Mr. LAUTENBERG. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide that the limitation on the number of Transportation Security Administration employees shall not apply after the date of enactment of this Act, and for other purposes)

At the appropriate place, insert the following:

SEC. ——. CERTAIN TSA PERSONNEL LIMITATIONS NOT TO APPLY.

(a) IN GENERAL.—Notwithstanding any provision of law to the contrary, any statutory limitation on the number of employees in the Transportation Security Administration, before or after its transfer to the Department of Homeland Security from the Department of Transportation, does not apply after the date of enactment of this Act.

(b) AVIATION SECURITY.—Notwithstanding any provision of law imposing a limitation on the recruiting or hiring of personnel into

the Transportation Security Administration to a maximum number of permanent positions, the Secretary of Homeland Security shall recruit and hire such personnel into the Administration as may be necessary—

(1) to provide appropriate levels of aviation security; and

(2) to accomplish that goal in such a manner that the average aviation security-related delay experienced by airline passengers is reduced to a level of less than 10 minutes.

Mr. LAUTENBERG. Mr. President, I wish to talk about the current hiring limit on TSA screeners at our Nation's airports. That is what this amendment deals with—to eliminate the current hiring. One can ask: Why can't we just add more funding to TSA's budget and let them hire the personnel they need?

Unfortunately, it is not that simple. Each year, in the Homeland Security appropriations bill, the House Republican leaders tie the hands of TSA officials by setting an arbitrary limit on the number of screeners they can hire.

This cap has no basis in security. It is not what the security experts at TSA want. This cap only undermines our security, while forcing Americans to wait in longer security lines at airports.

This arbitrary cap currently restricts the TSA screener population to 45,000. Now, 45,000 is a large number, until you consider that 2 million people fly within the United States every day. In our discussions with TSA officials, it is clear that we need more than 45,000 screeners.

Mr. President, we are at a point in time, I am told by the managers of airports, particularly at Newark Liberty Airport, that we are likely to be exceeding the gross travel numbers in aviation that were achieved in the year 2000. So here we are with more people traveling, more concern about terrorist invasions of our country and particularly in aviation.

So why do we have this cap? Well, it is not for security, it is not for efficiency. Believe it or not, it is based on ideology.

Conservatives in the House want this cap to limit the growth of a so-called big Government workforce. But do you know what? The American people want this workforce, and they want it fully staffed, as I do; we should all want it fully staffed.

The result of this ill-advised cap is the shortage of screeners. We witnessed this last month when British and U.S. authorities foiled a plot to attack airliners headed to our shores using liquid explosives.

In the days following the British threat, DHS raised the security alert level and overworked screeners at American airports. They had to doublecheck bags, conduct random searches at gates, and help calm anxious crowd fears. At Newark Liberty Airport in New Jersey, screeners worked 12-hour shifts and 60-hour weeks for several weeks after the London incident. There were reports of exhausted screeners falling asleep at x-ray machines. One screener said that his colleagues "can't maintain these

12-hour days." Remember, this work is on your feet. You are mandated to look at every little detail in front of you. It is exhausting work. Overstretching this workforce puts the American people at risk, and that is unacceptable.

Now, with my amendment, TSA will be able to hire enough well-trained, alert screeners to give us the safety and efficiency we deserve. Since 9/11, long lines have been the rule rather than the exception at our Nation's airports. Each year, 760 million people fly in the United States, and by 2015, we will hit 1 billion passengers a year.

Anyone who has traveled by air in the last few years has seen this congestion at airport security checkpoints. To give an example, this is Orlando Florida International Airport. The lines are waiting to go through security. We see the same thing throughout the country. This is Denver, a very efficient airport, but one cannot get through security in time enough, in many cases, to reach the flights. It is an unacceptable condition. This is the international airport in Nashville, TN—lines and lines. We see it wherever we travel in almost any part of the country.

The Senate accepted an amendment I offered in July to the Homeland Security appropriations bill to eliminate this arbitrary cap, but the Republican majority in the House of Representatives wanted to remove my amendment in the final bill that will be sent to the President. They want to keep the 45,000-worker cap rather than letting TSA decide what its workforce needs are. Security cannot be based on arbitrary numbers. Conservative ideology must not trump commonsense security needs.

Americans stuck in long security lines at airports don't care about ideology. They want to get through, and they want to get through on time. The mission for our system to operate efficiently is to have no longer than 10-minute waits, and we can only accomplish that if we have the people and the equipment to review this baggage as it comes to them.

The American people want to know that they and their families are safe when they fly. This body needs to go on record on this issue so it can scrap this limit once and for all. I hope my colleagues will look carefully at this amendment. Listen, remember, it might be their family who is on an airplane, it might be their friends who are on a particular airplane, it might be anybody who is entitled to feel secure when they are in an airplane. But judge it by one's personal attitude and say this is a responsibility we have as Senators to want enough people to assure security wherever we can get it. One way to do that is to have enough of these screeners working these lines, fully awake, able to handle their jobs, and reduce what we find is significant growth in sick days among the screener population. There are a lot of absences.

Perhaps we will hear: We have a 45,000-person limit, but we only have 43,000 people working. The problem is we will always have some absentees. We will always have some job turnovers. These are not easy jobs. So we are going to have a difference between the number hired and the number at work at a given time. We should raise the limit so we know we are increasing the likelihood that all of the places will be covered, that the flying public will be able to get through their security check within a 10-minute timeframe.

I urge my colleagues to support the amendment. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is not a sufficient second.

Mr. LAUTENBERG. How many do we need, Mr. President, for the yeas and nays?

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I understand the Lautenberg amendment is the pending amendment.

The PRESIDING OFFICER. The Senator is correct.

Mr. STEVENS. Mr. President, this would lift the TSA's current screener cap of 45,000 persons. The cap is at 45,000, but currently the resources available to TSA allow for only 43,000 screeners, and currently there are only 41,000. The reason is there is such an enormous turnover in screeners. They work for a small period of time and then move on to other jobs.

We have enhanced screening technology and improved staffing models that have helped maximize the workforce currently available. We have a strong security system with minimal passenger line waits. They have been reduced considerably.

I do believe the Lautenberg amendment is not necessary. The current cap of 45,000 screeners helps us maintain the pressure on the TSA to employ new screening technology. I personally met in a classified briefing with the head of the TSA to discuss this problem last week. It was classified because of some of the technology that is involved and new models being pursued. One of the comments that was made to me was that the cap really helps us maintain the pressure to secure the new screening technology and reduce the redundancy in the workforce. The workforce is only relevant to the extent the technology does not do the job. We believe we should have more and quicker screening, and that is going to be brought about by new technology. That is where we have put our money this year.

Unless my friend wants to make any further comments, I intend to move to table this amendment. I still have the floor. Does my friend wish to have some time on the amendment?

Mr. LAUTENBERG. I wish to ask the Senator from Alaska a question, if I might, in relation to his comments.

Is it not possible that with the increased passenger volume we are seeing—and it is about to break the record held since the year 2000 in terms of volume of people traveling—is the manager, the committee chairman, aware of the fact that TSA has said that in order to have a 10-minute wait or less, they need more screeners than they have? They need as many as 48,000.

Mr. STEVENS. I say to the Senator, in answer to the question, I personally talked with the head of TSA. He told us they have never been able to reach the cap yet because of unavailability of people to take these jobs under the circumstances that they must be screened and checked themselves before they are employed. The delay in getting the clearances for screeners is one of those things that hold people up. It is not the limited resources or the cap that is the problem; the problem is getting people who will take these jobs who can fit through the screening process they face before they become a screener.

As I said, the current cap is 45,000. There are 41,000 right now with full-time employment and people trying to find more screeners. The answer isn't to raise the cap; the answer is to keep the pressure on the system so we use more technology, not more screeners. More screeners is more delay. The technology processes these inspections faster than individual screeners can.

Mr. LAUTENBERG. Mr. President, if I may ask the Senator from Alaska another question, and that is, if we had a higher cap and were able to persuade the management of TSA to search for a larger pool of people, might we have more people available presently to serve? My experience from my corporate life tells me that you never quite reach the level you have. We see that in our staffing here.

I urge the Senator from Alaska to respond to whether the Senator thinks we can improve our population of screeners who are readily available if we search a little bit harder, train a little bit better, reduce the fatigue factor which now occurs and causes so many sick days, so many absences, and so much turnover because the job, at 60 hours a week, as many of our people are working, is a strain on them and they just can't take it.

Mr. STEVENS. Mr. President, I say to my friend again that the workforce right now is approximately 41,000 in number. The turnover rate is enormous because they don't want to stay in these jobs. They are not exactly the kind of full-time jobs some people want to pursue. It is not a career.

The real problem is we already are capped at 45,000. There is room for 4,000 more right now. They are looking for

them. But as we speak, there are more people leaving than we can add to the force. The reason is the problems associated with this type of activity. It is the screening, as we all know, as we go through these lines and through the detection systems at the airports. The people who have the jobs just don't like to stay on that kind of a job. We have discussed how we get around it. I don't know, but increasing the number will not solve the problem. Increasing the cap is what the Senator wants to do. The concept of lifting that cap is not a solution. The solution is to try to find some way to make the job more attractive, maybe pay them more, whatever it takes.

The two limitations involved right now are the 45,000 cap and the budget resources that are available now. We tried to increase that, but we have not been able to get additional moneys yet for this purpose in terms of the screeners.

The TSA budget resources currently, as I said, allow for only 43,000. But still that is 2,000 more than are actually on duty right now, and the cap is still 4,000 above that. They can go to a 10-percent increase under the existing circumstance. Lifting the cap is not the answer is what I tell my friend.

Mr. LAUTENBERG. I have so much respect for the Senator from Alaska. He is on top of the issues of security, as well as aviation. But is the Senator aware that many of the screeners are on military duty or medical leave because of exhaustion? Shouldn't we try to improve the pool of people from which we can choose? We have as much as 10 percent of the workforce out at a time. If it is 10 percent of 48,000, that is 4,800. That is quite different from having a population that is short on the job. We don't have enough time.

I can simply add that at Newark Airport, we are about 10 percent short of the number we need, something over a thousand. We can't get them. The recruiters can't search for them because they will be bumping up against the cap. I think and I hope the Senator will reconsider. I believe—and I throw this in for the Senator's consideration with my question; that is, aren't we better off taking the limit off and trying to find a way—we are talking about security of the people. The Senator doesn't need any lecture from me. But aren't we better off knowing that everybody who can make a connection can get through in 10 minutes, thoroughly screened, and having a population that is equal to the growing population of those who want to travel by air?

Mr. STEVENS. Mr. President, I understand the Senator from New Jersey. He is really trying hard, and I am trying hard, to work on this problem. Let me tell the Senator this: 37.5 percent of the screeners at Dulles turned over last year; 37.5 percent left. The reason is they are handling bags; they don't like the hours, as you mentioned; they work hours in accordance with the shifts based on the number of flights,

not in terms of—it is not a steady workload is what I am saying. So they might be there 10 hours, but they are working 6 of that 10 hours and very hard in those 6 hours. The turnover rate is enormous.

I do think the difficulty is not in the cap; the difficulty is in the money. We have to impress on our people in the appropriations process to provide more money. We are trying to see if we can find some way to justify higher salaries. In some places, the salaries are enormous for small airports. In others where you deal with the numbers of passengers at Dulles or New York airports or Los Angeles, those airports are totally overworked, and the turnover in those big airports is enormous, almost 40 percent a year. You have to consider the fact that these replacements have to be cleared under the clearance process with regard to security. They have to be cleared people; they cannot be people who just walk in off the street. It takes months to clear one of them. You can lift the cap all you want, but you are not going to get any more than 45,000 in the next year.

Mr. President, let me tell my colleague this: We will just accept the amendment because it won't make any difference in terms of the number of screeners who are available. That is what my staff just told me. Why am I arguing? Because no matter what the ceiling is, we won't have any more screeners.

Mr. LAUTENBERG. Mr. President, is the Senator aware of the fact that this was an amendment which was already there, it was already conferenced and was dropped in conference? The Senator is certainly aware of the process here. If you don't like it, accept it; it will die of its own weight.

For the Senator's information, before the screeners were federalized, the turnover rate was 400 percent and we were ignoring the risks we were putting people under. That was a porous thing. You could walk through there with almost anything.

What we want to do is get a stable workforce of screeners who have passed the vetting, who work normal hours, who have—and by the way, the Senator is absolutely right about the improvement in equipment so the baggage lifting doesn't have to be as strenuous as it is.

So I would ask the Senator whether we can have a vote.

Mr. STEVENS. Have a vote on it?

Mr. LAUTENBERG. And when we meet with the House, let the conferees, when the issue goes to conference, look at the issue and review what it is that is keeping them from—

Mr. STEVENS. I will give you a vote and move to table. I will tell my friend, this isn't a solution to the problem. The solution is in more money and finding a way that we can get people who are cleared to take the job and keep it. You can't put just anybody in there handling those bags. If you get a terrorist in there, they could add some-

thing rather than see whether there is something in the bags. So they all have to be cleared. This ceiling is not an issue.

Mr. LAUTENBERG. Mr. President, if I may respond to say I am so pleased that the Senator is asking for more money for screeners, and we will try to convince the appropriators jointly to increase the funding for those workers.

Mr. STEVENS. Will the Senator just let us take it to conference and see what we can work out? I don't see that the number makes any difference. The problem is the process and who is hired and what are the restrictions and how much money is available, not the numbers. You could put the number at 90,000 and we will still have 41,000 people next year.

Mr. LAUTENBERG. Mr. President, we obviously don't agree. I ask for the yeas and nays.

The PRESIDING OFFICER. The Senator from Alaska has the floor.

Mr. STEVENS. Mr. President, there is a series of meetings going on in the Capitol right now pertaining to national defense issues, and I would like to see—

Mr. LAUTENBERG. Mr. President, I note the absence of a quorum.

Mr. STEVENS. I still have the floor.

The PRESIDING OFFICER. The Senator from Alaska has the floor.

Mr. STEVENS. I want to work this out with my friend to have the time for a vote that he wishes to have. Could we have this vote at 5 o'clock? Is that all right? We will ask for the yeas and nays with the understanding that we will vote at 5 o'clock.

Mr. LAUTENBERG. I appreciate that.

Mr. STEVENS. I join him in requesting the yeas and nays and ask unanimous consent that the vote take place at 5 o'clock.

The PRESIDING OFFICER. Is there a sufficient second? There is. Without objection, the unanimous consent request is agreed to.

AMENDMENT NO. 4931

Mrs. HUTCHISON. Mr. President, I send an amendment to the desk, amendment No. 4931, and ask for its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The pending amendment is set aside.

The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Texas [Mrs. HUTCHISON] proposes an amendment numbered 4931.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To strengthen national security by adding an additional 275 Customs and Border Protection officers at United States ports)

On page 76, line 1, strike "725" and insert "1000".

On page 77, strike lines 17 through 21 and insert the following:

“(A) \$130,000,000 for fiscal year 2008.

“(B) \$239,200,000 for fiscal year 2009.

“(C) \$248,800,000 for fiscal year 2010.

“(D) \$258,700,000 for fiscal year 2011.

“(E) \$269,000,000 for fiscal year 2012.”.

Mrs. HUTCHISON. Mr. President, my amendment would increase the number of U.S. Customs and Border Protection officers by 275. This would bring the total of new U.S. Customs and Border Protection officers in this bill to 1,000.

In my State of Texas, the Customs and Border Protection officers are assigned in the Houston region are responsible for the seaports along the Texas coast from Port Arthur to the Port of Corpus Christi. Some of these officers are also assigned to Houston's George Bush Intercontinental Airport. The CBP officers work at the Port of Houston in the morning and leave the port in the afternoon to go work at the Houston Intercontinental Airport. Sharing these U.S. Customs and Border Protection officers between port duties and airport duties is unacceptable.

With increased security demands being placed on our Nation's ports and the desire to increase the number of containers inspected as they enter the United States, local port officials have long expressed the need for additional personnel in order to carry out the tasks that are so critical to our Nation's economy. With an unprecedented 11 million containers entering the United States annually, cargo doesn't stop when there isn't a Customs agent there to inspect the incoming shipments. What happens, of course, is that the cargo is not inspected. So I hope we can pass my amendment.

I believe the Port Security Improvement Act of 2006 is a very good bill, and I particularly commend the leaders of the respective Senate committees for working together to bring all of the port security bills that have been introduced in Congress into one comprehensive bill so that we can address this issue.

In the last 5 years, we have significantly strengthened our national defense. I think we saw yesterday that so many things have been done to keep our country safe and secure, because yesterday, of course, was the 5-year anniversary of the attack of 9/11. We have engaged the enemy before they have reached America since 9/11 of 2001. We have improved our homeland security. We have passed the PATRIOT Act to give law enforcement officials the tools they need and the resources necessary to protect our Nation. We must remain vigilant in pursuing terrorists who seek to harm our country. An integral aspect of our national defense and our economy is the security of our ports.

Our Nation has more than 360 federally regulated, thriving ports, any one of which could be a target for our enemies. One terrorist incident at a U.S. port could impact an entire coast, and the financial impact of closing one of these ports could be devastating.

Texas is home to 29 ports, including 4 of the 10 busiest in the Nation. The

Port of Houston is one of the most important ports in the world. It ranks first in the United States in foreign waterborne tonnage, second in total tonnage, and is the sixth largest in the world. It is also home to one of the biggest petrochemical complexes in the world. It is also part of our Nation's U.S. Strategic Petroleum Reserve, the world's largest oil stockpile. Due to the volume of hazardous materials, a terrorist attack in the Port of Houston would be an enormous disaster. An attack in the Port of Houston could also disrupt our Nation's energy supply, delivering a blow to our economy at a time when we cannot afford such a disruption.

For years, I have worked with my colleagues on both sides of the aisle for more stringent port security. In the 107th Congress, my colleagues, Senators FEINSTEIN, KYL, SNOWE, and I introduced the Comprehensive Seaport and Container Security Act of 2002. This bill called for container seals and tracking numbers for goods being shipped to the United States. It also called for a plan to increase inspection of merchandise at foreign facilities as well as for a shipment profiling plan to track containers and shipments of merchandise imported into the United States that could be a threat to security.

In the 107th Congress, we passed the Maritime Transportation Security Act. This bipartisan bill was landmark legislation that closed a large hole in our national security. I was an original co-sponsor of this bill as well. However, when it passed the Senate, I made the point of saying the legislation only laid the foundation for port security and more needed to be done.

The following year, I introduced the Intermodal Shipping Container Security Act in both the 108th and 109th Congresses. This was comprehensive legislation, and I am pleased that many of the key provisions in that bill, such as the random inspection of containers, the establishment of minimum standards and procedures for securing containers in transit to the United States, and the implementation of an improved container targeting system, have been incorporated into the legislation before us today. I thank Chairman STEVENS and Cochairman INOUE for working with me in the Commerce Committee on these provisions.

In addition, Senator COLLINS and Senator LIEBERMAN have added so much to make this bill even more powerful and more helpful in our overall goal of securing the ports in our country.

This legislation calls for the Department of Homeland Security to develop and implement a plan for random inspection of containers in addition to any targeted or preshipment inspection. This significant provision would require the Secretary of Homeland Security to develop and implement a plan to conduct random searches of containers in addition to any targeted or

preshipment inspection of the containers as required by law. This would allow the U.S. Customs inspectors to do more at the point of embarkation with the random sampling of different cargo that has been inspected.

Another important provision in this legislation is the establishment of minimum standards for securing containers in transit to the United States. The Secretary of Homeland Security is encouraged to promote and establish those minimum standards for the security of containers moving through the entire international supply chain. This is a key element and I am hopeful the Secretary will take this action. We cannot inspect every piece of cargo, or our international commerce as we know it today would come to a grinding halt. However, if we have better technology, such as a seal which is tamper-proof, we will know when the contents of the cargo have been altered.

My amendment would add to the numbers of Customs and Border Protection officers. A thousand new officers, when you have more than 360 federally regulated ports in this country, is not asking a lot.

We must do more. We must do more at the point of embarkation, the point of origin, at the point where ships come into our U.S. waters, and at the ports themselves. We need more inspectors to be authorized in order to do that.

I am asking that my colleagues support my amendment to raise this number to 1,000. We cannot afford, as we are passing this major legislation, not to do it right, not to authorize everything we need and give the Department of Homeland Security the tools they need to do the job of securing our ports.

We have done a lot. We have passed maritime security laws since 2001, since our country was attacked. But this bill adds to the measures that we know are lacking in the system today. We are taking more steps every week, every month, and every year to secure our country.

I thank Chairman STEVENS and Cochairman INOUE, Chairman COLLINS and Ranking Member LIEBERMAN, Chairman GRASSLEY and Ranking Member BAUCUS for their leadership in this area. I appreciate that they have come together. It is very difficult in this Congress, when more than one committee has jurisdiction over a major part of the Government of this country. In homeland security we find that the Commerce Committee and the Homeland Security Committee do have overlapping jurisdiction.

This bill could have been brought down with in-fighting among the committees, but it has not been brought down because of the leadership of the committees on a bipartisan basis. I appreciate what we are doing today. I urge my colleagues to support my amendment.

I ask for the yeas and nays.

The PRESIDING OFFICER (Mr. COLEMAN). Is there a sufficient second?

At this time there is not a sufficient second.

Ms. COLLINS. Mr. President, while we are awaiting representation on the other side of the aisle in order to get the yeas and the nays, let me respond to the Senator from Texas about her amendment.

First, let me acknowledge the work of the Senator from Texas on port security issues over the past few years. Her amendment would increase the minimum hiring of Customs and Border Protection officers in the resource allocation model of the legislation before us from 725 to 1,000. As the Presiding Officer is aware, our bill requires the Department to do a resource allocation model, really take a hard look at how many CBP officers are needed at which port.

One reason we believed that was necessary was the experience of Houston's ports and airports. The Senator from Texas has told me of the problems that Houston has experienced, where CBP agents actually are being transferred from the port to the airport to deal with incoming flights and then are sent back to the port. Clearly that is a situation that cries out for more agents so they do not have to be constantly shifting back and forth from a busy port to a busy airport.

I think the Senator is correct that she has a real problem with understaffing in the Houston seaport and airport and that we do need to have more agents allocated. But I also want to point out to my colleagues that we do specifically require the Department to do this resource allocation plan. There may be some seaports or airports that actually have more staff than they need. Those could be allocated to busier seaports and airports. But clearly the situation in Houston cries out for more agents so we do not have this constant choice of where they should be.

I do support the amendment of the Senator. I will assist her in gaining the yeas and nays when we have representation from the Democratic side. I hope that will be shortly.

I also suggest that we stack the vote on the amendment of the Senator at 5 o'clock, after the vote on the Lautenberg amendment, in order to make it more convenient for our colleagues.

Once we get the yeas and nays, I will be making a unanimous consent request that the vote occur immediately after the vote on the amendment offered by the Senator from New Jersey, with 4 minutes of debate equally divided prior to the vote. But I am withholding that unanimous consent request until we have representation from the minority on the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, while we are waiting, I would like to respond to the Senator from Maine and thank her. She and I have had a conversation about the situation at the Port of Houston. It is particularly dire,

in that it is such a busy port and one that has so many unique features. I think the fact that she is supporting the amendment will go a long way toward getting us to the point we need to be.

I think her point is very well taken that giving the Secretary of Homeland Security the capability to reallocate personnel within this mandate that we are giving is also the right thing to do, just as we should be allocating our resources for homeland security based on terror threats, based on needs, not based on politics or anything else. We need to secure our homeland, and we need to do it in a professional way. I think this bill goes a long way in a very bipartisan spirit toward giving our Department of Homeland Security the tools it needs to do the job. I am very hopeful we will be able to agree to my amendment and go forward to conference and send this bill to the President very shortly.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I think we are now ready to order the yeas and nays.

Mrs. HUTCHISON. Mr. President, I ask for the yeas and nays on my amendment No. 4931.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Ms. COLLINS. We are still not ready for the timing on that, but we have ordered the yeas and nays, and I hope we will be able to stack the vote to occur immediately after the conclusion of the vote on the amendment of the Senator from New Jersey.

Mrs. HUTCHISON. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from California is recognized.

Mrs. FEINSTEIN. Mr. President, before I make my statement, which will be on the Reid amendment, I would like to congratulate Senator COLLINS, Senator INOUE, Senator MURRAY, and all of the Members who worked in committee on this bill. Although one doesn't often tell tales of what happened in a Democratic caucus, I would like to quote Senator MURRAY in that caucus. She said, "This bill will make a difference."

I think that is a very dispositive, definitive, and positive statement. So I would like to offer my congratulations to the chairman of the committee and all who worked on it and thank them very much.

AMENDMENT NO. 4936

Mr. President, I would like to speak about this very long Reid amendment

which has been offered to be part of this bill. The amendment, much like the Real Security Act introduced last week, is a comprehensive package of ways to strengthen our national security through improved intelligence, military, diplomatic, and homeland security tools. But in particular I would like, as a member of both the Judiciary Committee and the Intelligence Committee, to address the issue of electronic surveillance to identify and prevent terrorist attacks.

All Democrats support giving the President the tools he needs to find the terrorists before they have a chance to strike us again. This cannot be said too many times in too many ways. It is a fact, and I have never heard anything to the contrary.

We also agree, though, that these intelligence tools, especially electronic surveillance of telephone content—the content of a phone call or wiretapping of a phone call—can and should be done in a way that protects constitutional and privacy rights of all Americans, because whatever is done here will go on for decades and because whatever is done here will likely impact tens of thousands of persons in the United States.

I am pleased that the minority leader has endorsed these concepts, as they are the key pillars of legislation that Senator SPECTER and I have introduced. That is the Foreign Intelligence Surveillance Improvement and Enhancement Act. I thank the minority leader for "Rule 14'ing" my bill, which now appears as the Feinstein-Specter bill as hotlined, S. 3877.

Tomorrow in Judiciary we will be marking up FISA bills. This same bill but under a different bill number, namely S. 3001, will be subject to markup along with the other bills. Senator SPECTER's Administration bill, Senator DEWINE's bill, and a bill by Senator SCHUMER will be marked up tomorrow morning and Thursday morning.

My legislation, which is pretty simple and pretty limited, is aimed at providing our intelligence agencies with more authority, more resources, and more flexibility to conduct electronic surveillance. In doing so, the legislation reaffirms that the Foreign Intelligence Surveillance Act of 1978, or FISA, is the exclusive means for conducting electronic surveillance to collect foreign intelligence in the United States. I believe this is very important.

We have had hearings in Judiciary. The Attorney General has testified. The head of the NSA program has testified. It is pretty clear to me that this terrorist surveillance program can be fit into the confines of the Foreign Intelligence Surveillance Act passed in 1978. What has to be done is a streamlining of the process leading up to it and some revised provisions for emergency hot pursuit. So what I have tried to do is take what the Attorney General has said to the committee were obstructions to using FISA and solve those obstructions but keep FISA because it is so important.

The legislation that I have introduced would recognize that further changes are needed in this shadowy world of asymmetric terror. That is why the legislation would give the executive branch the authority to listen in to conversations between terrorists and their conspirators inside and outside the United States.

At the same time, we preserve the cornerstone of FISA, and that is that it is by warrant, that a Federal judge reviews and approves every individual warrant request for content to ensure the Government is not spying on innocent Americans.

I think it is useful to remind ourselves why this body wrote and enacted FISA in the first place. In 1976 a committee headed by Frank Church, which became known as the Church committee, provided a report to the Select Committee to Study Government Operations with Respect to Intelligence Activities.

There are three books just like this, on what went on in our Nation prior to 1976. It is startling. I will get to it in a moment. But it was the genesis for the 1978, very carefully considered Foreign Intelligence Surveillance Act.

This committee reported—and please read it, Members—on a series of excesses and abuses that had taken place in the intelligence community. These included some of the worst civil rights violations our Government has ever committed, such as the secret campaign to smear Dr. Martin Luther King, Jr., and domestic targeting of Americans peacefully advocating civil disobedience in areas such as civil rights and opposition to the Vietnam war.

The Church committee found these abuses stemmed from a lack of oversight and checks on Government power. Watch lists were established on people whose views ranged from Joan Baez on the left to members of the John Birch Society on the right.

The Church committee's report led not only to FISA but also to the establishment of the Permanent Intelligence Committees in both Houses of the Congress. It was a historic report.

So discussions today that the President has the authority to go around FISA and doesn't need court approval should cause Members of this great body serious concern. It was a surprise to almost every Senator to learn last December that the President had authorized the National Security Administration to electronically surveil U.S. persons without following the law.

As a member of the Intelligence Committee, I have received many briefings on the President's program. There are still some unanswered questions, and the administration has a responsibility to provide Congress with answers. But basically the Senate Intelligence Committee has been briefed on the program in the main.

But from what I have learned to date, I am convinced of two things: First, the work that NSA is doing is impor-

tant to prevent terrorists from attacking us again—and I support it. Second, the surveillance that is done under the "terrorist surveillance program" can be done under FISA's framework with some changes. As a member of the Judiciary Committee, I participated in the hearings, and I thank my chairman, Senator SPECTER, for holding these hearings.

The conclusion I draw from them, and from the briefings, is that fairly modest changes can be made to FISA which would remove the barriers standing in the NSA's way while also restoring the FISA Court oversight that is necessary to protect a citizen's constitutional right.

Let me briefly tell you what we have done.

We have expanded hot pursuit. Currently, the law states that during specified "emergency" periods surveillance can proceed without a warrant for 72 hours. At the recommendation of former FISA judges, we have extended the time for hot pursuit to 7 days. So if something happens and the NSA wants to immediately wiretap someone, they can, provided they notify the Attorney General within 24 hours that it is happening, and then go to the FISA Court.

Attorney General Gonzales testified to us that he personally has to approve applications before they go to the FISA Court. That was a problem. So we created additional flexibility to handle the increased caseload by allowing the Attorney General to delegate this authority to two Senate-confirmed officials: the Deputy Attorney General, and the Assistant Attorney General for National Security.

Wartime authority: Currently, FISA provides the President with authority to wiretap without a warrant for 15 days after a declaration of war. That is a good thing, I believe.

Our bill would expand Presidential authority by allowing the President to also order wiretaps without a warrant for 15 days following a congressional authorization to use military force and a terrorist attack on the United States.

Additional resources: The staff and court need additional resources, and Members have expressed concern about a backlog of FISA applications. We would authorize additional judges as necessary, additional OIPR assistant United States attorneys as necessary, and additional NSA and FBI staff as necessary, so that this problem would be taken care of.

Then we clarify "foreign to foreign." It has often been said that in the 28 years since FISA was written changes in technology have made the law outdated. Communications that start and end outside of the United States but may switch through the United States—communications that FISA never attempted to cover—are now regularly put before the FISA Court.

General Alexander expressed his frustration that foreign-to-foreign communications impede the FISA process.

This bill—which again has been "Rule 14'd"—would explicitly exempt these telephone calls and e-mails from FISA while preserving the existing process for the appropriate handling of communications involving a U.S. party that were inadvertently wiretapped.

We believe these provisions will go a long way. We also would mandate that briefings on electronic surveillance conducted for foreign intelligence purposes be given to the full Intelligence Committee of both the House and the Senate, really to prevent what was happening, which was the beginning of a major wiretapping program where only eight Members of Congress knew very early on about the program, and therefore there was virtually no congressional oversight that was meaningful in any way, shape, or form.

In this bill is a two-page sense of the Senate beginning on page 313 of the Reid amendment and going through pages 314 and 315. Essentially, it states up front that the U.S. Government should have the legal authority to engage in electronic surveillance of any telephone conversation in which one party is reasonably believed to be a member or an agent of a terrorist organization.

It goes on to say that absent emergency or other appropriate circumstances, domestic electronic surveillance should be subject to judicial review in order to protect the privacy of law-abiding citizens or Americans with no ties to terrorism.

I strongly support the Reid amendment. I support the Sense of the Senate. And I look forward to being able to debate the bill which Senator REID has agreed to cosponsor, as well as Senator SPECTER—it is a bipartisan bill—at the appropriate time when bills to change the Foreign Intelligence Surveillance Act are before the body.

I thank the Chair. I yield the floor. Once again, I indicate my very strong support for the bill before the U.S. Senate today.

Thank you, Mr. President.

Ms. COLLINS. Mr. President, I ask unanimous consent that a vote in relation to the Hutchison amendment No. 4931 occur following the vote on the Lautenberg amendment, No. 4940, with no second degrees in order to either amendment prior to the votes, and 2 minutes of debate equally divided between the managers or their designees before each vote, and that this occur at 5 o'clock.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Ms. COLLINS. Thank you, Mr. President. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. MURRAY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Mr. President, I ask unanimous consent to set aside the pending amendment and call up the Murray amendment No. 4929.

The PRESIDING OFFICER. That is the pending amendment.

Mrs. MURRAY. Mr. President, is my amendment now pending?

The PRESIDING OFFICER. The amendment is already pending.

AMENDMENT NO. 4929

Mrs. MURRAY. Mr. President, I send a modification to the desk.

The PRESIDING OFFICER. Without objection, the amendment is so modified.

The amendment (No. 4929), as modified, is as follows:

At the appropriate place, insert the following:

SEC. ____ . COBRA FEES.

(a) EXTENSION OF FEES.—Subparagraphs (A) and (B)(i) of section 13031(j)(3) of the Consolidated Omnibus Budget Reconciliation Act of 1985 (19 U.S.C. 58c(j)(3)(A) and (B)(i)) are amended by striking “2014” each place it appears and inserting “2015”.

Mrs. MURRAY. Mr. President, this is an agreed-upon modification to the amendment I spoke to this morning regarding the funding for port security.

As I said this morning, it makes sure that we have adequate resources to implement the port security bill, and that is essential to its success. We have worked out an agreement with Finance, and that amendment is pending. I hope we can move quickly and agree to it.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Ms. COLLINS. Mr. President, I rise in support of Senator MURRAY’s amendment. I commend her for offering it. Each year, U.S. Customs and Border Protection collects more than \$24 billion in Customs duties and fees.

The amendment would extend the merchandise processing fee and passenger conveyance fee for an additional year, and our hope is that that money will then be targeted to pay for this bill. This makes sense. In many ways, it is a user fee. It makes a great deal of sense. It will help ensure that there is a dedicated funding source for the security measures.

I point out again that the amendment has been cleared with the Finance Committee. Senator MURRAY has worked hard with Senators GRASSLEY and BAUCUS to find the source of funding. I commend her for her efforts. I fully support the amendment and I urge its adoption.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 4929), as modified, was agreed to.

Ms. COLLINS. Mr. President, I move to reconsider the vote.

Mrs. MURRAY. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mrs. MURRAY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REED. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 4936

Mr. REED. Mr. President, I rise today to discuss Senator HARRY REID’s amendment, the Real Security Act. This is a comprehensive plan for making our Nation safer and making true progress in the war on terror.

I would argue that despite continued upbeat assessments by the President, there is growing evidence that we need to change course—not cut and run, but change course, regroup, and reassess our progress in Iraq, in the global war on terror, and in the area of homeland security. I believe an evaluation would lead to the realization that changes need to be made and that a step in the right direction would be to implement measures that are included in Senator REID’s amendment.

I would like to focus on just a couple of aspects of Senator HARRY REID’s proposal, which is entitled the “Real Security Act,” those dealing particularly with Afghanistan and Iraq.

Reports indicate that we may be losing ground in Afghanistan, the initial proper focus of the war on terror. Afghanistan was the locale of the Taliban. They were aiding and abetting al-Qaida and bin Laden, and we, by unanimous approval of this Congress and the Senate, gave the President the authority to launch offensive operations there. Those operations were successful. But then, before the entire success was secured, the focus of this administration turned away to a pre-9/11 project: regime change in Iraq.

In the intervening years, we have lost ground in Afghanistan. The Taliban has regrouped and rearmed, and this spring they mounted the toughest resistance since 2001. Suicide attacks, which once were unknown in Afghanistan, have more than doubled this year.

Almost 5 years after the U.S. invasion, only half the money pledged by the international community to rebuild Afghanistan has been delivered and effectively spent. As Afghanistan’s Ambassador to the United States has said:

We will not be able to stabilize the country if we don’t build up the domestic security forces and have development in the countryside. Had we invested more in development, we would have less security problems today.

I have traveled to Afghanistan on a number of occasions. One of the problems we have is moving outside of Kabul, the capital, and creating a governmental presence, an Afghani governmental presence, in the countryside. We are trying vigorously to disrupt the production of poppies and opium, but that is hard in a society in which that cash crop is easy to move

around, and it is quite lucrative. It is harder to move around other agricultural staples because there are no roads and irrigation is difficult.

If we had, as the Ambassador suggested, focused more resources and attention more promptly on development, we might have a much more benign climate in which to deal with a resurgent Taliban.

Without viable alternatives, there are scores of problems in Afghanistan. Sixty percent of the country is still without electricity, 80 percent is without potable water, and the unemployment rate is 40 percent. These are features which tend to support angry, disappointed young men, particularly, who are easy targets for those fanatics who would try to sway them into attacking security forces of both the Afghani Government and the United States. Without viable alternatives in terms of jobs and economic progress, it is easy to see how some turn to growing poppies, to providing support for this underground economy. According to the United Nations, Afghanistan just produced a record poppy crop, enough for 6,100 tons of opium—one-third more than the world’s demand for heroin. These harvests fund the Taliban fighters who fuel the fighting in Afghanistan and terrorists around the world.

Section 301 of Senator HARRY REID’s amendment calls for a long-term commitment to Afghanistan, focusing on economic and developmental assistance, along with security assistance. That is the right plan.

I have had the occasion to visit with our commanders in the field, and we asked them about additional forces, and we asked them about additional military hardware. They will say: We could use that, but I can tell you something we know we need right now; that is, economic development to give the people of Afghanistan confidence in their Government and hope for the future. Confidence and hope is one of the best anecdotes to the kind of regime the Taliban is trying to impose again in Afghanistan.

Last night, as he addressed the Nation, President Bush stated:

The safety of America depends on the outcome of the battle in the streets of Baghdad.

Two weeks ago in Salt Lake City, the President said:

America has a clear strategy to help the Iraqi people protect their new freedom and build a democracy that can govern itself and sustain itself and defend itself. . . . We will stay the course.

Yesterday, the Government Accounting Office, in testimony before the House Committee on Government Reform, provided a grim assessment of the Iraq security situation. GAO found, in their words:

Since June 2003, the overall security conditions in Iraq have deteriorated and grown more complex, as evidenced by increased numbers of attacks and Sunni/Shia sectarian strife which has grown since the February 2006 bombing in Samarra. Attacks against

the coalition and its Iraqi partners reached an all-time high during July 2006. The deteriorating conditions threaten the progress of U.S. and international efforts to assist Iraq in the political and economic areas.

A New York Times story yesterday entitled "Deal on a Constitution for Iraq is Teetering" details how Shia and Sunnis failed once again over the weekend to reach an agreement on changes to the Constitution which would allow for a truly inclusive government.

Also yesterday, the Washington Post reported that on August 16, COL Pete Devlin, the Marine Corps chief of intelligence in Iraq, filed a classified report about Iraq's Al Anbar Province, which includes the cities of Fallujah and Ramadi. This province borders Saudi Arabia and Syria.

Colonel Devlin has been stationed in Iraq for 7 months and is considered by his fellow officers to be one of the best who is "careful and straightforward." An army officer in Iraq familiar with the report says he considers it accurate. "It is best characterized as 'realistic,'" he said.

This report, while one of the first negative reports filed by a military officer, echoes several years of pessimistic CIA assessments of the province. The report is classified, so there are no direct quotes; however, those who are familiar with the report state that the assessment is dire. As the Washington Post summarized:

One Marine officer called it "very pessimistic." Another person familiar with the report said it describes Anbar as beyond repair; a third said it includes that the United States has lost in Anbar.

The document reportedly states that there are no functioning Iraqi Government institutions in Anbar, leaving a vacuum that has been filled by the insurgent group al-Qaida in Iraq, which has become the province's most significant political force.

One Army officer summarized the situation in Anbar province with the following:

We haven't been defeated militarily, but we have been defeated politically—and that's where wars are won and lost.

I visited Fallujah in March 2005 with General Abizaid. At that time, there was one State Department official there and no representatives from other agencies. That State Department official was tired and overworked. He was doing a remarkable job, both in terms of exposing himself to dangers and working tirelessly to try to give a political mentoring to the Iraqi authorities. He was desperate for assistance. At that time, he said he didn't think there was another big fight in Iraq unless the politics broke down and that it was a big year for politics. Clearly, more civilian assistance was key. My first visit was in 2005. I revisited the province this July. That same State Department official was still there, still doing a remarkable job, and still weathering the dangers and putting in the long hours to try to make a

difference. Sixteen months since my last visit, and he was still the only civilian representative in Fallujah. He was even more tired. He said he believes the Marines have accomplished all they can reasonably be expected to accomplish. They are quickly running out of a mission. He felt it was time to see if the Iraqi forces could perform without the Marines, if the Iraqi Government could support their troops in the field and whether sectarian divisions were so acute that they would prevent the Iraqis from forging even minimal political cohesion. In his view, the United States was currently in a holding pattern, delaying the inevitable day when the Iraqis must step forward and, in the meantime, our forces are suffering additional casualties.

These are the views of those on the ground in Fallujah, and they are representative of a larger problem this administration has had since the beginning of the war in Iraq. There was simply no postwar planning. While this administration has been focused exclusively on our military forces in Iraq, the reconstruction of the Iraqi infrastructure and economy has been virtually ignored. Iraqi reconstruction funds have been depleted with only a fraction of needed projects completed. The ability of the United States to aid in ministerial capacity building is hobbled by the lack of U.S. civilian experts in Iraq. In fact, because of the shortage of appropriate civilian advisers, the military is providing personnel on a case-by-case basis to help mentor civilian ministries.

Clearly, the lack of emphasis on reconstruction is having a dire effect on progress in Iraq. Tired of 3 years without adequate security or services, Iraqi professionals are leaving the country. Those who remain do not trust or feel invested in the new Government. Frustration with services and lack of employment opportunities means angry young men join militias instead of supporting their Government. Lieutenant General Chiarelli, Commanding General of the Multi-National Corps of Iraq, told me in July that unless we devote renewed attention and additional resources to the economic reconstruction of Iraq and the development of governmental capacity, the emergence of capable Iraqi forces will not be decisive. We can train an Army, but unless we have the ministries to support that Army, unless we have a police system and a judicial system that can give individual Iraqis a sense of both security and the hope of justice, simply having an Iraqi Army in the field will not be decisive to the ultimate challenge of stabilizing Iraq.

I, and many of my colleagues, have made it clear to the administration that several steps can and should be taken immediately to address this situation.

The administration should secure fulfillment of international pledges to provide economic support to Iraq. We

are spending billions and billions of dollars a month. The American people cannot indefinitely spend this kind of effort without support from our international partners. We cannot meet all of the demands for reconstruction. In fact, we should insist, and this Government should be effective, in securing the already pledged funds, so that at least we have another chance—and maybe we can do it right this time—to rebuild the infrastructure of Iraq to a point at least that individual Iraqis feel they will have a minimal amount of electricity, hopefully, more than that; that they will feel secure in terms of access to health care and to those things that give them the sense that their Government can succeed, and they should risk, in some cases, their lives to make that Government succeed. That is not the situation today in Iraq.

The administration should work with Iraqis to create a master list of necessary reconstruction projects with estimated funding and timelines. Funding for such projects should be a priority in the President's budget. We invested a lot of money, and we made a lot of contractors rich by building huge projects. General Chiarelli has been quoted several times talking about a huge water project in Sadr City was a model of engineering. There was only one problem: There was no distribution system, so it became the largest and most expensive water fountain in the world. He took his own resources, as a division commander, took some PVC piping and at least got some water out into the neighborhoods. That is the type of project that will make progress in Iraq.

Time is running out. We have to refocus ourselves on these types of efforts. We should assign these projects to the military, the Army Corps of Engineers, USAID, and private contractors, but we have to make sure that these private contractors are willing to go out and do the work, not simply to bill for the work. We have examples where scores of health clinics were supposedly built, and it has been discovered that those health clinics have not been built, and those that have, the few, are inadequate. In fact, I have seen films, videos of raw sewage in the operating rooms of the supposedly new and improved health clinics.

The administration should work with the Iraqis to establish target efforts to increase employment in order to provide young men an alternative to joining the militia. One of the things that is being done now on a neighborhood-by-neighborhood basis under the leadership of General Chiarelli is, after securing the neighborhood, now we are moving in, searching, taking out the weapons, trying to disrupt the cells of terrorists and others but then putting people to work with simple tasks, such as picking up trash and giving them some money, giving them a sense of hope, and improving the environment in these communities. We have to do more of that: putting people to work.

The administration should provide increased incentives and funding to attract large numbers of volunteers from the Department of State, Agriculture, Justice, and Commerce to serve in Iraq. The President is fond of reminding the American people that we are a country at war. But this is not an administration at war; it is a Department of Defense at war. We are seeing soldiers and marines sent back to Iraq for the third time and some for the fourth time. But where is the mobilization of all of our power, our State Department experts, our agriculture experts, our Justice Department experts? That is the great fight we are facing today in Iraq. The military, through the loss of lives and through the wounded of so many Americans, are buying this Government the time to work with the Iraqi Government to build capacity, to build infrastructure. But we are not using that time because, once again, despite the President's claim that this is a Nation at war, this is not an administration at war. And until we mobilize all of our resources, we are not going to be able, I think successfully, to meet the challenges of stabilizing Iraq.

Last year, the Secretary of State talked about provincial reconstruction teams which would be spread throughout Iraq. So far, we have not fully deployed sufficient numbers of these teams to do the job. It made for a good speech line last fall. It hasn't happened yet, and it is overdue.

Section E of Senator REID's amendment calls for a new direction for Iraq and expresses the sense of Congress that Iraq should work for an inclusive government and disarm the militias, diffusing the sectarian violence. These militias are becoming a critical and dangerous aspect of the situation in Iraq, and unless the Iraqi Government is able to deal with these militias successfully, the Iraqi Government will be compromised and incapable of effectively governing their country.

Today, and for the last 2 days, we have been looking at a situation where the Iraqi Assembly is debating whether they want to regionalize the country—break it up. Shia representatives, led by Hakim and the Badr organization, are pushing for a legislative approach that will essentially provide the southern part of Iraq and the northern part of Iraq with their autonomy, leaving the center autonomous but desperately poor. It is raising the fears of the Sunni community. But the battle is between not just Sunnis and Shias but within the Shias because, on the other side, Moqtada al-Sadr and his militia are urging that the regionalization plan be dropped. This is what is going on in Iraq. It is not international terrorists plotting to attack us from there; it is the sectarian struggle for power of who will run that country, and we are caught in the middle of it.

That is why Senator HARRY REID's proposal is so sensible. It talks about redeploying our forces, reinvesting

again and is perhaps the last chance we will get to provide the Government of Iraq with the tools and the mentoring so that they can provide their people with basic services and basic security.

I hope we can rally around and support this amendment because it represents not only a strong policy for America but a smart policy for America. I hope that when Senator REID's proposal comes up for a vote, it is supported. It is one thing to go around the country and make speeches about staying the course, and it is something else to provide the resources, to provide the support, to provide the relief for our military that will give them a chance to succeed and give the Iraqis a chance to succeed. So I urge passage, when it is called for a vote, of the Harry Reid amendment.

Mr. President, I yield the floor.

Mr. BYRD. Mr. President, the Senate is now considering a long overdue—a long overdue—authorization bill to address the security of our ports—yes, our ports. I applaud the efforts of Senators LIEBERMAN, STEVENS, INOUE, MURRAY, COLLINS, and many others for their steadfast commitment to address this vulnerability.

The administration has let the issue of port security languish for far too long—far too long. Oh, yes, the President has made a series of speeches in recent days about the threat to the homeland and the great desire and capabilities that al-Qaida possesses to attack us—yes, to attack us, the United States. Yet when one reviews the President's homeland security budget, gaping holes can be found in funding to address known vulnerabilities. After 9/11, we learned that our first responders could not communicate with one another. How about that. We learned that our first responders could not communicate with one another. How awful that was. The cost was lives, human lives.

It now appears that we have a similar problem in the White House, where the administration's speech writers and its budget writers don't communicate. They operate in alternate worlds—worlds far apart.

In his speech last Friday at Georgetown University, Homeland Security Secretary Chertoff urged Congress to pass this port security legislation. He said that passing the bill:

Would be not only a fitting tribute to the fifth anniversary of 9/11, but would also be an important set of tools that we can use in achieving the goal that we have set for ourselves over the next couple of years.

Now, this is the very same rhetoric and, if I may say, it is the very same hot air that we have been listening to and we have been hearing for 5 years—5 years. Yes, we have been listening to it for 5 years, the same rhetoric, the same hot air that is used for lifting balloons, lifting balloons into the heavens.

The administration, time and time again, uses tough talk when it comes to homeland security, but, sadly, that

tough talk rarely is followed up with real money, cash on the barrelhead.

This month the majority leadership is once again playing a clever rhetorical game with homeland security. The port security bill that is before the Senate authorizes \$400 million for port security grants. These grants would provide essential resources to our most vulnerable ports for building fences, deploying cameras and sensors, training security personnel, and for verifying the identity of the thousands of port workers who access our ports every day.

The House-passed bill which authorized the same \$400 million level was adopted by a vote of 421 to 2. But, I ask my colleagues, where, oh where is the \$400 million? Where is it? Right now, the Senate and House are confereing the Homeland Security appropriations bill for fiscal year 2007. The Senate-passed version of the bill includes an amendment that I offered with the support of my illustrious, inimitable chairman, JUDD GREGG, which provides an additional \$648 million for port security. The amendment would appropriate the full \$400 million authorization for port security grants along with critical funds for cargo container inspection equipment, for Coast Guard ships and planes, and for increased cargo inspections at foreign and domestic ports. That is real port security, but—oh, there is that conjunction here—but, regrettably, the House majority has refused to make the \$648 million available to the conference. What a sad state of affairs.

Our citizens watching the Senate today are being led to believe that this bill will secure our ports. Here it is:

H.R. 4954, an Act to Improve Maritime and Cargo Security Through Enhanced Layered Defenses, and for other purposes.

They believe this bill will secure our ports. Here is the bill. It doesn't weigh very much, but it means security for our ports. However, it will be a charade if the port security funds are not appropriated. How about that? Money. What does the Bible say about money? The love of money, what does it say about it?

Did the White House step to the plate? How about it? "Hey, Mr. President—hello there, down at the White House." Did the White House step up to the plate to address security risks at our ports? No. No. One of the hardest words in the English language to say: No.

If the administration were really serious about port security, it would have voiced support for the \$400 million in the Senate bill for security grants. Yet there was not one mention of port security in the administration's letter—not one mention. It has been more than 3½ years since the Coast Guard estimated that the security cost at our ports would be \$5.4 billion.

Senator COLLINS, bless your heart, to date not a cent of that amount has been funded despite the fact that U.S. seaports handled over 95 percent of U.S. overseas trade.

Last year, the Department of Homeland Security was able to fund only 24 percent of the critical projects requested by the port authorities. These funds are critical, absolutely critical for ports to improve communications, access control systems, and provide waterside security. Where, oh where has the administration been? "Where, oh where has my little dog gone?" Where has the administration been?

Of the \$816 million the Congress appropriated since 9/11 for port security, only \$46 million was requested by the President. Did you get that? Let me say it again. Of the \$816 million the Congress appropriated since 9/11 for port security, only \$46 million was requested by the President. There is an odd disconnect at the White House when it comes to port security funding.

While I applaud the efforts of my colleagues today for moving this authorization legislation forward, and hopefully to the President's desk, authorizations of funding are not worth a hill of beans unless we provide real money, real dollars to fund them. That funding is in jeopardy. Why? That funding is in jeopardy due to an irresponsible indifference from the White House and objections from the House majority.

I challenge the White House—yes, come on now—I challenge the White House and the majority, not only to talk the talk on port security but also to walk the walk by supporting the funding that will actually make us safer. Our ports are seriously vulnerable to a terrorist attack. Potentially, thousands of American lives are at stake. Think about it. If we are truly determined to tighten security at our ports, we should send the Homeland Security appropriations bill to the President with the \$648 million to fund port security.

My amendment includes the funding to address many of the provisions in this bill that are being debated today. In addition to port security grant funding, my amendment includes \$40 million to hire 354 additional Customs and Border Protection officers to conduct cargo container inspections at our seaports and \$211 million to purchase additional nonintrusive inspecting equipment for U.S. seaport and rail border crossings.

There you have it. Currently, only 5 percent of the 11 million containers entering the United States are physically inspected by opening—take a look at it by opening the containers. Only 5 percent of the 11 million containers entering the United States are physically inspected by opening the containers.

The Coast Guard has only 34 inspectors to review security plans at foreign ports. Of the 144 countries that conduct maritime trade with the United States, the Coast Guard has assessed security at only 59.

I have to say that again. I have a duty to say that again. Of the 144 countries that conduct maritime trade with the United States, the Coast Guard has assessed security at only 59—59 out of

144. At the current rate of inspections, U.S. inspectors will visit countries that trade with the United States only once every 4 years. Does that make you feel safer? Think about that tonight when you are laying your head on the pillow. Think about that.

My amendment includes \$23 million to double the presence of inspectors at foreign ports and increase security compliance checks at domestic ports.

Finally, my amendment includes \$184 million for Coast Guard deepwater assets that are critical to securing our ports and surrounding waterways. These funds will allow the Coast Guard to address an immediate shortfall in boats and planes needed to patrol our ports and adjacent waterways. The President and Members of Congress may applaud each other and congratulate themselves for protecting lives with this port security authorization bill, but the truth of the matter is that this bill will do little to secure our ports if the President and those same Members of Congress do not provide the money—there you go again—the money to actually scan for dirty bombs, inspect containers, and implement the security systems that are so desperately needed. What on Earth is wrong?

Can we please stop playing these dangerous political games with homeland security and actually come together to protect the precious lives of people?

Unless we provide the funding authorized in this bill, we will be playing fast and loose with the security of our people.

Hear me. Hear me now. I say it again. Unless we provide the funding authorized in this bill, we will be playing fast and loose with the security of our people.

I yield the floor.

Ms. COLLINS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be dispensed with.

The PRESIDING OFFICER (Mr. DEMINT). Without objection, it is so ordered.

AMENDMENT NO. 4937

Mr. DORGAN. Mr. President, I previously offered an amendment to the pending bill. My understanding is it will likely be accepted. I did not have a chance to speak at any length on the amendment. I want to do so now. I recognize we have a vote in about 10 minutes. I will be mindful of that.

The amendment which I offered says that our U.S. trade officials will be prohibited from agreeing to any future trade agreement that would preclude the Congress from blocking the takeover of a U.S. port operation by a foreign company. I offered this amendment in the shadow of this morning's announcement that our monthly trade deficit—get this—was the highest in

U.S. history. It was announced this morning—\$68 billion in 1 month.

If anyone needs additional information about the failure of our trade strategy and the failure of this so-called "free trade" nonsense we have been hearing around here, take a look at this morning's announcement—\$68 billion trade deficit in 1 month.

Mr. BYRD. Shame.

Mr. DORGAN. This is not money we owe to ourselves. That is money we owe largely to Japan, and China, and other countries and will be repaid someday with a lower standard of living in this country.

I offer this amendment dealing with trade as a backdrop to this morning's announcement of the highest trade deficit in history, a trade strategy fraught with error—and this is injuring this country.

Let me describe the need for this amendment.

You might recall that earlier this year it was announced that Dubai Ports World was going to begin to manage a number of ports in this country. Dubai Ports World, in February of this year, indicated that they were going to manage ports in America in New York, New Jersey, Baltimore, Philadelphia, New Orleans, Miami, and some others. Dubai Ports World is a company that is operated by the United Arab Emirates.

In February of this year, the Bush administration gave the green light to Dubai Ports World, a company owned by the United Arab Emirates, to manage these American ports. The President said that he felt it was fine for our ports to be managed by a company owned by the United Arab Emirates.

In fact, when a firestorm erupted over this issue, here is what the President said, brushing aside objections from Republicans and Democrats alike. President Bush endorsed the takeover of shipping operations in six major U.S. seaports by a state-owned business in the United Arab Emirates. The President pledged to veto any bill Congress might approve to block the agreement.

Even more than that, the head of Homeland Security, Mr. Michael Chertoff, strangely enough said this: Homeland Security Secretary Michael Chertoff reported yesterday that the proposed takeover of terminal operations at five U.S. ports by Dubai Ports World would give U.S. law enforcement a better handle on security at U.S. terminal operations.

Here is a member of the Cabinet in this country saying that if we turn our port management over to a foreign company, it will actually improve security.

I don't know what he might have had for breakfast that morning, but I am telling you it didn't agree with his thinking process. It is going to improve security to turn the management of American ports over to a company that is owned by the United Arab Emirates? I don't think so.

There was a firestorm of protest. The President said he would veto any legislation that we would provide that

stopped this takeover of management of these American seaports. Despite that, at some point, it was quite clear the Congress was going to say to the President—Republicans and Democrats—we are sorry. It doesn't matter what you threaten with respect to a veto, we will pass legislation that prohibits this.

We believe the security of our seaports is best maintained by not turning the management of our seaports over to a company owned by the United Arab Emirates. Dubai Ports World, at some point, announced that they were going to find another way to do this and sell their interests. My understanding is that has not yet been done. But in any event, the administration backed away.

However, the trade agreements that we are negotiating now include it. Past agreements have included it. I don't intend to interrupt that with this amendment. If I could, I would. But I don't have the votes to do that.

But the trade agreements say this, including the Oman agreement, which I am told will be brought to the floor of the Senate on Thursday of this week. I intend to speak at some length on that agreement. I am opposed to it. But it includes this provision, and other trade agreements have included the same provision. U.S. port operations that we couldn't block Oman from acquiring under the FTA, under our Free Trade Agreement with Oman, we would be prohibited from blocking an agreement that included landside aspects of foreign activities, including operations and maintenance of docks, loading and unloading of vessels, directly to or from land, marine cargo handling, ship cleaning, et cetera. In point of fact, we are negotiating trade agreements that include provisions which say we are not able to block a foreign company owned by a foreign country from coming in and managing our seaports.

That is what we are doing in trade agreements. Most of our trade negotiators have been fundamentally incompetent from the start.

It was Will Rogers who said many decades ago that the United States of America has never lost a war and never won a conference. He surely must have been talking about our trade negotiators. They don't wear uniforms so they do not remember whom they represent. I have often threatened to buy them jerseys so they can look down and see whom they represent—the good old U.S.A.—just like Olympic athletes represent the U.S.A.

We negotiate trade agreements that we are told will strengthen this country, and month after month and year after year we sink deeper into this abyss of red ink, with now a \$68 billion trade deficit in the last month alone.

Is it surprising then that the same incompetence that has led to the largest trade deficit in history—the same incompetence that led to that—led them to do this, to undermine the very debate we had in February of this year

about the management of American ports by a United Arab Emirates-controlled company, Dubai Ports World?

Just as an aside, let me describe the incompetence. Let me describe one example. I could give a hundred. Next year, according to a report, we will be getting imports of Chinese cars into this country because the country of China is now beginning a substantial automobile export industry. They have announced they will begin exporting cars from China to the United States next year. So we will be able to see Chinese cars driving up and down the streets of America. Guess what. Our trade negotiators agreed that when Chinese cars come into our country, we will impose a 2.5-percent tariff on Chinese cars that come into the United States.

We also agreed that any U.S. cars we could sell in China, they could impose a 25-percent tariff.

A country with which we had a \$200 billion trade deficit, we agreed they could impose a tariff on automobiles 10 times higher than the tariff we would impose.

Is that brain dead? It is where I come from. Is that incompetence? It is incompetence in my hometown.

That doesn't represent our country's interests.

We come back to the point. I could give you a hundred examples similar to that, where soft-headed foreign policy is masquerading as trade policy.

We come back to the newest trade agreements, including Oman, which we will have on the floor of the Senate next Thursday which includes this provision. It is identical to provisions that are included in previous agreements as well.

I say we ought to block this from ever occurring in any future free trade agreement. This provision undermines the entire position that we have taken with respect to deciding that it is not in our country's security interests to have the United Arab Emirates engaged in the management of our seaports.

For that reason, I believe we ought to pass the amendment I am proposing, prohibiting this from happening in the future. I would like to go back, frankly, and undo that which was done in previous trade agreements.

There is a little thing that people outside of this congressional system don't recognize very easily. It is called fast track. Fast track sounds so innocuous—just fast track.

Fast track means Congress has decided to give up its opportunity, which exists in the Constitution, to be engaged in trade activities so that when a trade agreement comes to the Congress, this Congress has no opportunity to review it with the understanding of wanting to amend it.

Fast track means we have put ourselves in the straight jacket and no amendments.

That is why, when a trade agreement comes to the floor of the Senate such

as Oman—and there will be others. We are now negotiating nine additional trade agreements with nine additional countries right now. The House of Representatives announced they will take up two additional trade agreements in November. When those agreements come to the floor of the Senate, because the Congress, in its lack of wisdom, decided to put itself in a straight jacket, no one can offer an amendment to strip out this kind of provision of a trade agreement. It surely escapes my line of reasoning why the Congress would want to decide to limit its capability to improve a trade agreement, but it has.

Some will say, notwithstanding what trade agreements say, notwithstanding all the other issues, the President can, for national security reasons, decide to back an agreement such as this. Yes, that is true.

It was this President who said: I agree that we ought to allow the United Arab Emirates and Dubai Ports World to come in and manage seaports. I agree that we should do that. We have already evaluated it. It makes sense.

He is wrong about that, of course. His Secretary of Homeland Security says not only does it make sense, but it will make America safer if we have the management of America's seaports being done by a foreign company through a foreign country.

That is the most absurd thing I ever heard. Yet in this country, in this town, it passed with thoughtful debate. Again, it doesn't meet the test of thoughtful debate in my hometown cafe.

I am offering this amendment. My understanding is it will likely be accepted, for which I am very appreciative. I will speak more about the general subject when we have the opportunity to talk about the free trade agreement with the country of Oman. My understanding is it may be this Thursday.

I yield the floor.

Ms. COLLINS. Mr. President, the amendment offered by Senator DORGAN is a restriction on the U.S. Special Trade Representative's authority in negotiations. As such, it is under the jurisdiction of the Senate Finance Committee. However, it is my understanding that the chairman and the ranking member of the Finance Committee have no objection to acceptance of the amendment.

I urge acceptance of the amendment.

The PRESIDING OFFICER. Is there further debate on the amendment? If not, the question is on agreeing to the amendment.

The amendment (No. 4957) was agreed to.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Ms. COLLINS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 4940

The PRESIDING OFFICER. Under the previous order, there will now be 2 minutes of debate equally divided on the Lautenberg amendment.

Who yields time?

The Senator from Maine.

Ms. COLLINS. Mr. President, based on the debate that occurred earlier, I believe the distinguished chairman of the Commerce Committee has decided to accept this amendment and was willing to do it without a rollcall vote. However, the distinguished Senator from New Jersey wants a rollcall vote, so we are going to have a rollcall vote.

I do not know whether the Senator from New Jersey is on his way. I see that he is in the Chamber, so I yield the floor to the Senator from New Jersey.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President as we are now prepared to consider the amendment, in the minute I have—which I assume is the time—I would like to tell everybody that the purpose of this amendment is to ask that we take the cap off the number of TSA screeners we can hire. The cap is 45,000. We have had it in legislation before, but the House insisted on the cap being continued. It is silly, when passenger volume on airlines, as of this point in the year is almost at the alltime high, and it is expected this year we will see the largest number of airline passengers in the history of the country.

We have these constant reviews to protect ourselves from terrorist attack from those who want to sabotage an airplane. So it is simple. Just remove that cap. Remove it and let the TSA figure out what to do with it.

The PRESIDING OFFICER. The Senator's time has expired.

All time has expired.

The question is on agreeing to the Lautenberg amendment. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. MCCONNELL. The following Senator was necessarily absent: the Senator from Rhode Island (Mr. CHAFEE).

Mr. DURBIN. I announce that the Senator from Hawaii (Mr. AKAKA), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 85, nays 12, as follows:

AMENDMENT NO. 4931

The PRESIDING OFFICER. Under the previous order, there is 2 minutes of debate equally divided on Hutchison amendment No. 4931.

Who yields time? The Senator from Texas is recognized.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent to add Senators KYL and DEWINE as cosponsors of the amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. HUTCHISON. Mr. President, I urge my colleagues to support this amendment. It increases the number of Customs and Border Protection officers by 275 for a total of 1,000.

In my home State of Texas, where the Port of Houston is the sixth largest port in the world, we have officers who have to leave the port at noon and go out to the airport. Because of this, we don't have enough officers to cover our ports.

This amendment will add just 275 officers for a total of 1,000 new officers.

I think this is an amendment that is very important to add for the overall security of our ports. I urge everyone to vote for it.

The PRESIDING OFFICER. The Senator's time has expired. Who yields time?

Mrs. MURRAY. Mr. President, I yield back the time on the Democratic side.

The amendment (No. 4931) was agreed to.

Ms. COLLINS. Mr. President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Ms. COLLINS. Mr. President, I ask unanimous consent that when the Senate resumes action on the bill on Wednesday, the time until 12:15 be equally divided in the usual form and that at 12:15 the Senate proceed to a vote in relation to the Reid amendment No. 4936, with no second degrees in order prior to the vote.

Before the Chair rules, we anticipate a budget point of order against this amendment, and therefore this vote is likely to be on the motion to waive.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Ms. COLLINS. Therefore, Mr. President, although we are going to consider two more amendments tonight, there will be no more rollcall votes tonight.

AMENDMENT NO. 4935

Mr. CHAMBLISS. Mr. President, I rise today to urge my colleagues to support the amendment proposed by the Senator from Colorado, Mr. SALAZAR. My colleague from Georgia, Senator ISAKSON, and I are cosponsors and strong supporters of this measure which I believe fulfills a great need in rural America.

The amendment creates a policing institute that would be administered by the Office of the Federal Enforcement Training Center in Glynco, GA.

The creation of this office provides training for those who may not currently have access to it because it sends folks who are going to train our local law enforcement personnel directly into our rural areas. Our local communities have fewer resources and fewer folks on the payroll, so they really can't afford to do without men and women who may be called away for an extended period of time to undergo training.

There is no question—and I hear this whenever I travel around the State—that our local law enforcement in rural areas are called upon day in and day out in providing the nuts and bolts of criminal investigations and law enforcement. In many areas, increased crime and the scourge of methamphetamine drug trafficking have placed severe pressures on rural law enforcement capabilities. If we're going to call upon folks to do more, then we have to provide them with the resources they need to carry out their duties—and as a strong supporter of the criminal justice system this includes giving them access to the vital training they need.

In addition, these dedicated and hard-working professionals are also asked to prepare for different types of threats in our changing security environment. This amendment will greatly assist in their efforts.

I urge my colleagues to support this common sense, bipartisan amendment. I yield the floor.

Mr. ISAKSON. Mr. President, I rise today as a cosponsor of the Salazar amendment—and I thank Senator COLLINS and Senator MURRAY for agreeing to accept the Salazar amendment—which authorizes a new Rural Policing Institute within the Office of State and Local Training at the Federal Law Enforcement Training Center in Glynco, GA. I am joined on my side by Senator CHAMBLISS and others as cosponsors and very much appreciate the acceptance of this important amendment.

Modeled after existing programs within the office, the rural policing institute would evaluate the needs of local law enforcement located in rural areas, and develop expert training programs designed to assist law enforcement in training regarding combating methamphetamine addiction and distribution, domestic violence, law enforcement response related to school shootings, and other topics.

By having a program whereby we can send instructors to these police departments rather than have them come to FLETC itself, we maximize our training capabilities and ensure that these officers are able to receive on the job training without reducing manpower.

This is a win-win for our law enforcement personnel, FLETC, and the American taxpayer. I urge passage of the amendment.

Mr. INOUE. Mr. President, the managers on this side unanimously approve this measure and seek its support.

The PRESIDING OFFICER. Is there further debate on the amendment?

Ms. COLLINS. Mr. President, I am unclear whether the Salazar amendment No. 4935 is actually pending.

I do support the amendment offered by the Senator from Colorado, and the managers on this side are also pleased to recommend its acceptance.

Mr. President, I urge the adoption of the Salazar amendment.

The PRESIDING OFFICER. Is there further debate? If not, the question is agreeing to the amendment.

The amendment (No. 4935) was agreed to.

Mr. SHELBY. Mr. President, I move to reconsider the vote.

Mr. SARBANES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 4956

Mr. SHELBY. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Alabama [Mr. SHELBY], for himself and Mr. SARBANES, proposes an amendment numbered 4956.

Mr. SHELBY. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The amendment is printed in today's RECORD under "Text of Amendments.")

Mr. SHELBY. Mr. President, I rise today to offer the amendment that has just been referenced on behalf of myself and Senator SARBANES to the Port Security Improvement Act of 2006. This amendment is virtually identical to the Public Transportation Terrorism Prevention Act that the Banking Committee unanimously reported in November of 2005. In fact, the Senate passed an almost identical bill in the 108th Congress. I am hopeful that as we consider port security today, we can include this critically important legislation designed to help address the security vulnerabilities of our Nation's public transportation system.

The national dialog has appropriately been focused on aviation post-9/11, and this week port security is at the top of this agenda here in the Senate. In addition to these key areas, I believe it is imperative that we make transit security a priority, too. We know full well from the occurrences in Great Britain, India, and Spain that our buses, our subways, and rail systems across the country are attractive targets for terrorist attacks. The Public Transportation Terrorism Act before us now is an appropriate first step to address widespread needs, and it paves the way toward making transit safer for the traveling public.

The language in this amendment was carefully crafted and is a result of several hearings on this topic, review of two comprehensive studies by the American Public Transportation Association and the Government Accountability Office, and negotiations with

key industry leaders. This amendment authorizes \$3.5 billion in capital investment grants, operation security assistance, and research. While this is short of the \$6 billion worth of needs identified by the industry, it is an important and necessary first step.

I thank those who have worked hard over the course of several years to produce a sound piece of legislation that will result in safer public transportation systems, particularly my colleague on the Banking Committee and former chairman, Senator SARBANES, as well as the chairman and ranking member of the Subcommittee on Housing and Transportation, Senators ALLARD and JACK REED. I also thank Chairman STEVENS and Senator INOUE with the Commerce Committee for their steadfast support in this effort. In addition, I thank Chairman COLLINS and Senator LIEBERMAN with the Homeland Security Committee.

I ask unanimous consent that Senators ALLARD, BENNETT, SCHUMER, and BOXER be added as cosponsors of this amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SHELBY. Mr. President, at the proper time I will urge adoption of the amendment, but I think Senator SARBANES wishes to speak.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. SARBANES. Mr. President, I rise in very strong support of the amendment offered by the able chairman of the Senate Banking, Housing, and Urban Affairs Committee. While the need for improved security at our Nation's ports is clearly evident, we must not forget the other areas of our Nation's multimodal transportation network. The amendment Chairman SHELBY has offered would provide grants to our Nation's public transportation systems to help protect the millions of riders who use subway trains, commuter rail, and buses every single day.

This amendment is based on legislation that passed the Senate unanimously in the 108th Congress and legislation that has been reported out again by the Banking Committee in the 109th Congress. We must not wait any longer to pass this needed legislation.

If there is any question as to whether transit is at risk, one need only look at recent events. Less than 2 months ago, 7 coordinated bomb blasts devastated commuter trains in Mumbai, India, leaving over 200 dead and 700 injured. Last year, the London subway system was the target of a tragic attack that left 50 people dead, and in 2004, almost 200 people were killed when bombs exploded on commuter trains in Madrid.

Here, this past May, the Department of Homeland Security issued a specific warning to transit systems to remain alert against possible terrorist attacks. The warning said that four people had been arrested in separate incidents involving videotaping of European subway stations and trains or similar activity, which the Department noted

provides "indications of continued terrorist interest in mass transit systems as targets."

The threat is clear. In response, both the Federal Transit Administration and the Department of Homeland Security have worked with transit systems to identify steps that can be taken to help prevent and mitigate attacks. In fact, the greatest challenge to securing our Nation's transit systems is not a lack of knowledge of what to do, but rather, a lack of resources with which to do it. In the words of the Government Accountability Office, "Obtaining sufficient funding is the most significant challenge in making transit systems as safe and secure as possible."

In an editorial published shortly after the London subway bombings, the Baltimore Sun stated that, "Since September 11, 2001, the Federal Government has spent \$18 billion on aviation security. Transit systems, which carry 16 times more passengers daily, have received about \$250 million. That is a ridiculous imbalance."

I commend Chairman SHELBY and Senator REED of Rhode Island and Senator ALLARD of Colorado. We have all worked together on the Public Transportation Terrorism Prevention Act. As I mentioned, this legislation has now twice come out of the Banking Committee. It authorizes, as the chairman mentioned, \$3.5 billion over 3 years in security grants for our Nation's public transportation systems. The money will be available for projects designed to resist and deter terrorist attacks, including surveillance technologies, tunnel protection, chemical, biological, radiological and explosive detection systems, perimeter protection, employee training, and other security improvements.

Let me give one example of a critical need right here with respect to Washington's Metro. Their greatest need is a backup operations control center. This need was identified by the Federal Transit Administration in its initial security assessment and then identified again by the Department of Homeland Security in a subsequent security assessment. This amendment would authorize the funding to make this and other urgently needed security upgrades to transit systems around the country.

We know transit systems are potential targets for terrorist attacks. We know the vital role these systems play in our Nation's economic and security infrastructure. I urge my colleagues to support this amendment, which is designed to address the critical security needs of America's transit systems.

I thank Chairman COLLINS and Senator LIEBERMAN for their acceptance of this amendment, and Senator STEVENS and Senator INOUE. This is a major step forward.

Mr. President, I would like to add as cosponsors on our side—I didn't pick up all the names Chairman SHELBY read, but I have Senator REED of Rhode Island, Senator MENENDEZ of New Jersey,

Senator CLINTON of New York, Senator LIEBERMAN, Senator BOXER, and Senator SCHUMER.

Ms. STABENOW. If the Senator will yield, I ask to add my name as a member of the committee.

Mr. SARBANES. And Senator STABENOW of Michigan.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SHELBY. I urge adoption of the amendment if there is no further debate.

The PRESIDING OFFICER. Is there further debate?

Ms. COLLINS. I commend the Senators for their initiative. The horrific terrorist attacks in London and Madrid demonstrate that terrorists are willing and able to attack transit systems. Our systems in the United States remain vulnerable.

Just today, the Homeland Security Committee held a hearing looking at the next 5 years and what challenges face us. The witness, the deputy commissioner for counterterrorism from New York City, specifically pointed out the vulnerabilities of our transit systems and also the inequities in funding. I believe the statistics he gave us were that there was a ratio of 9:1 in the amount of money that had been spent on aviation security versus other forms of transportation security. So I think there is an imbalance. I believe this is a vulnerability and that this amendment would allow for the authorization of significant transportation security improvements. I am pleased to join my colleagues in support of the amendment.

The PRESIDING OFFICER (Mr. CHAMBLISS). Is there further debate? The Senator from Hawaii.

Mr. INOUE. Mr. President, the managers on this side are very pleased to support this bipartisan amendment and urge its immediate adoption.

Mr. SHELBY. I urge adoption of the amendment.

The PRESIDING OFFICER. If there is no further debate, the question is on agreeing to the amendment. The amendment (No. 4956) was agreed to.

Mr. SHELBY. Mr. President, I move to reconsider the vote.

Mr. SARBANES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Mr. President, I commend my chairman and the ranking member of the Banking Committee for all their hard work. This has been a wonderful bipartisan effort, and I am pleased it is included in the underlying bill. I commend the leadership of Senators COLLINS and MURRAY on the underlying bill.

I wish to speak about a piece of security that is so critical for us that I will be offering tomorrow, an amendment to provide our first responders with the interoperable communications equipment they need to effectively respond

to emergencies. Whether it is port security, rail security, whether it is our local police and firefighters, we know that having radios that can actually talk to each other, actually work to be able to actually communicate with the Department of Homeland Security or the Department of Defense or be able to speak to our armed services is absolutely critical.

We also know, in fact, right now that the system is not what it should be.

I also want to thank Senators LIEBERMAN, LEVIN, SCHUMER, DURBIN and BOXER for cosponsoring the amendment that will be offered tomorrow.

My amendment would finally give our first responders the resources they need to be able to quickly communicate and respond to a terrorist attack or other kind of national emergency.

It would provide a dedicated source of funding for our communities by creating a 5-year \$5 billion grant program for interoperable communications.

My amendment is based on the interoperability communications program included in the bipartisan Lieberman-Collins bill, S. 1725, which passed out of the Homeland Security and Governmental Affairs Committee with strong bipartisan support. Unfortunately, this has languished on the Senate floor for almost a year. There has to be a sense of urgency about this issue and getting the resources to our local communities so they, in fact, can respond.

My amendment authorizes, as I said, \$5 billion in grants. It is slightly more than the \$3.3 billion in the Lieberman-Collins bill but certainly very close in terms of our approach.

I think it is important to provide more funding in the early years so that communications can finally address this issue and be able to do what they need to do as quickly as possible.

Yesterday, we observed the 5-year anniversary of the 9/11 attacks. We took time to remember the victims and their families and to recount the events of that horrible day. Many of these victims were our brave firefighters and police officers who gave their lives to save others.

Every day, first responders all across our country, and certainly in my great State of Michigan, put their lives on the line to make our communities safer, a job they do bravely and with honor. Now is time for us in Congress to do our job and finally make sure they have the resources and the equipment they need in coordinated national efforts so they can respond and can communicate in case of a terrorist attack or other national emergencies.

Almost 2 years after the attacks, the 9/11 Commission Report outlined the numerous communications problems first responders had as they tried to save lives. The report details the problems police officers and firefighters in New York faced because they were on different radio systems. Over 50 different public safety organizations from Maryland, Virginia, and DC reported to

the Pentagon that they couldn't talk to each other.

This makes absolutely no sense. People running into buildings, into the World Trade Center, into the Twin Towers, when they should have been running out because they did not know what was happening. The radios did not work.

The 9/11 Commission concluded that "the inability to communicate was a critical element at the World Trade Center, the Pentagon, and the Somerset County, Pennsylvania, crash site, where multiple agencies and multiple jurisdictions responded."

They went on to say, "The occurrence of this problem at three very different sites is strong evidence that compatible and adequate communications among public safety organizations at the local, State, and Federal level remain an important problem."

The 9/11 Commission published its final report in July of 2004, 2 years ago, that the men and women in the first responder community knew the communications difficulties even before 9/11, 2001. Unfortunately, the Federal Government has not yet made a substantial commitment to solve this problem. It has been 2 years since the 9/11 Commission gave its report.

In fact, 10 commissioners gave Congress a failing grade, an F, for not yet providing adequate radio spectrum for first responders and not addressing the problem where our local communities are stretched too thin and have too many urgent and competing priorities to effectively and completely solve the problem by themselves.

We addressed the issue of the radio spectrum, in part, in the year 2006 budget reconciliation bill, which set a February 17, 2009, handover date and providing \$1 billion in funding for interoperable communications for first responders in advance of the handover.

I support these positive steps. But now we have to build on that to provide a guaranteed stream of funding to resolve this overall crisis about radios not being connected, not being able to talk to each other.

The 9/11 Commission is not alone in the assessment of this critical problem. In June of 2004, a U.S. Conference of Mayors survey found that 94 percent of our cities do not have interoperable capability between the police departments, the fire departments, and emergency medical services—unbelievable, 94 percent. And 60 percent of cities do not have interoperable capability with the State emergency operations systems.

This is unacceptable. There needs to be a sense of urgency about changing that, and we have to be a major part of that solution.

The most startling finding was that 80 percent of our cities don't have interoperable communications with the Department of Homeland Security or the Department of Justice.

Imagine if there were a terrorist attack and 80 percent of our cities did

not have the capacity for interoperable communications with Homeland Security.

This vulnerability was again exposed over 1 year ago with the Hurricane Katrina disaster, where we know the New Orleans Police Department and three nearby parishes were on different radio systems. First responders were unable to communicate with each other as they attempted to rescue people trapped in New Orleans.

When I visited the gulf, I was very proud of seeing Michigan people there. I remember sitting for lunch outside the New Orleans Convention Center with a young man from the Michigan Coast Guard on one side and a young man from the Michigan National Guard on the other. I asked them: Do you have radios? They said: Of course. I said: Can you talk to each other on the radios? They said: No. How are you rescuing people? How are you communicating when you are out on the beat? Hand signals, was the response.

We can do better in 2006 than hand signals when we have a national emergency or a terrorist attack. How many more disasters need to happen before we fix this problem?

In May of 2006, Michael Chertoff, Secretary of Homeland Security, said: "The fact of the matter is we cannot effectively manage an incident if we do not, and if we cannot, talk to one another."

I couldn't agree more.

He went on to concede that it is still the case that too many emergency responders are not able to talk to their counterparts, to their own organizations, let alone communicate with agencies in neighboring cities, counties or States during a crisis.

On the fifth anniversary of the September 11 attacks, I believe it is shameful that we have made so little progress on interoperable communications.

It is unacceptable that there is not a sense of urgency about getting this done now—frankly, about having not done it now. We should have gotten it done 4 years ago, 3 years ago, 2 years ago, 1 year ago.

I believe that our constituents would be stunned to learn that the Federal Government has not yet dedicated funding to specifically address this problem.

How many times do we have to hear this is an issue? How many experts, how many bipartisan reports before we do what we need to do urgently and to the maximum extent that we can?

We know that the lack of interoperable communications for America's first responders puts them and our communities in danger. Too many of our police, fire and emergency medical services and transportation officials cannot communicate with each other, and our local departments are not able to link their communications with State and Federal emergency response agencies—way too many.

Our first responders are making do with less and less each year which makes no sense. And they should not have to choose between communicating with each other and critical training and other means.

I think people would be shocked to know that there are fewer police officers on our streets today than on 9/11/2001. In Michigan alone, over 1,500 fewer police officers are on our streets because of cutbacks in law enforcement funding. This makes no sense.

In the 5 years since the 9/11 attacks, one of the too many requests for support that I receive every year from communities is for interoperability communications equipment. Every time I meet with police officers and firefighters and emergency responders and local mayors, others who are leaders in their communities, the issue comes up about the radios, about the lack of ability to communicate. I have done everything I can to help. I have come to this floor many times urgently requesting that we move forward in an aggressive way to address this issue.

I am pleased to be able to put together specific grants to be able to support individual communities, and that is a step in the right direction. But what we need is a comprehensive national approach. We need to make a commitment that we are not going to accept anymore any community in this country not having the ability to talk to each other, the neighboring communities, the folks at the State and the Federal Government. That is intolerable.

This is the fourth time I have stood on the Senate floor and offered an amendment to provide the dedicated stream of funding to address our first responders' interoperable communication problems.

I am very hopeful that now will be the time that we come together right after this fifth anniversary of 9/11 and agree that we are going to turn that F, given by the 9/11 Commission, into an A, by finally coming together and solving this problem so in case of whatever the emergency is in the future, folks will not walk away and say part of the reason we lost lives, part of the reason we couldn't respond was because the radios didn't work. We have the ability to fix that in relationship to this important bill. I hope we do.

I yield the floor.

Mr. President, I suggest the absence of a quorum.

Mrs. MURRAY. Mr. President, will the Senator withhold his request?

The PRESIDING OFFICER. Does the Senator withdraw his suggestion of the absence of a quorum?

Mr. ISAKSON. I withdraw my suggestion of the absence of a quorum.

Mrs. MURRAY. Mr. President, I ask unanimous consent to add Senator CLINTON as a cosponsor to my amendment No. 4929.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Mr. President, I ask unanimous consent to add Senator

SCHUMER as a cosponsor to the Dorgan amendment No. 4937.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. MURRAY. Thank you, Mr. President.

Mr. President, we are here on the floor of the Senate this evening talking about the maritime cargo security bill. This is an extremely important piece of legislation. I have been working on this issue since September 11, 5 years ago, when I recognized, as did others, that we have an extreme vulnerability in our port cargo container system when it comes to our Nation's security.

We have been working since that time to put together legislation. I commend Senator COLLINS and her staff, Senator INOUE, Senator STEVENS, the Finance Committee, and numerous Senators who have worked together to get us to this point.

As I said earlier on the floor of the Senate, this measure is extremely important. For the first time, when this bill is passed and it goes to the President's desk, we will assure that every cargo container coming into this country has a much higher level of security. We also will put in place what is called the GreenLane bill, which will allow an even higher point of security for companies that voluntarily opt to make sure that when their cargo containers are loaded overseas, they are secured, that we know what is in them, we know who is handling them, and we know if they have been diverted. They will be tracked across the ocean, and before they ever come into our ports we will know that they are safe.

Those cargo containers with that higher level of scrutiny will then move off of our ports in a much more efficient and quick manner, leaving behind those containers that will still need to have a higher degree of inspection.

Finally, our bill will make sure we have a way to resume cargo handling quickly and efficiently should a terrible incident ever occur at our ports.

This bill balances the need of making sure our ports and our containers and the people who live and work around those containers, as well as the cargo there, are secured. It balances that with the important economic activity that occurs at ports across our country.

When this bill was brought to the floor of the Senate earlier last week, it lacked one critical component, and that was a dedicated funding stream. As I shared with my colleagues, I was deeply concerned that if we did not fund this bill, we would leave an empty shell and an empty promise to the people of America that we were securing our ports.

That is why today I was very happy the Senate agreed to my amendment to have a funding stream and to put that into this bill to make sure, as it moves forward, we will have the personnel we need to make sure the regime we have put in place actually occurs, that we will have the infrastructure that will

be needed to make sure we can assure a secure system of cargo containers this country relies on for its economic activity.

That amendment was adopted, and with that I believe this bill is one we can all be proud of. Within a few days, as we work through the rest of the amendments, I, for one, will finally be able to sleep at night knowing we have made a major move forward.

So there are still amendments to be brought forward to the Senate. I know we are going to work our will through them. But I commend all of our colleagues for stepping up to the plate on this important issue.

Mr. President, I ask unanimous consent to have printed in the RECORD four editorials that talk about the need for funding.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FULLY FUND MURRAY'S BILL ON PORT SECURITY

Five years after terrorists seared feelings of vulnerability deep into the American consciousness, much has been done to improve our security. Airport security has been enhanced by more than \$20 billion in federal spending. Locally, first responders are more capable of dealing effectively with a disaster, natural or manmade.

But public safety leaders here and elsewhere worry about a potential terrorism target they believe is still neglected: our seaports. Only a tiny percentage of the approximately 10 million containers that enter our ports are inspected, leaving gaping holes that terrorists could exploit with a radioactive bomb or other weapon. And costs for many of the physical upgrades in port security since Sept. 11, 2001, have been borne by local ports rather than the federal government.

On Thursday, Congress sent a signal that it may be ready to give port security the serious attention it needs. Senators announced an agreement on bipartisan legislation that Sen. Patty Murray (D-Wash.) introduced shortly after the 9/11 attacks and has been pushing ever since. It's expected to get a floor vote this week, then go to a conference committee that will iron out differences with a similar bill already passed by the House.

What's still needed, though, is dedicated funding. Murray's bill calls for \$835 million annually for a program that will create higher levels of cargo security, allow cargo to be inspected and tracked from the time it leaves the factory floor overseas, and implement a plan to resume trade quickly after an attack to minimize its impact on the economy. "The bill also calls for \$400 million in security grants to local ports.

"I've been very clear with everyone that I can't support another NCLB (No Child Left Behind) bill," Murray said Friday, referring to the federal education bill that educators complain was far heavier on mandates than money. "We have to provide the funding or it will never be fully implemented."

The bill originally sought to use money from tariffs on imported goods, but members of the Finance Committee objected, arguing that if tariffs were lowered, funding would dry up. Murray concedes that point, and said she'll offer an amendment this week that would tap existing customs fees that aren't related to duties.

A fully funded bill will mean a more secure Puget Sound, which has major ports in Se-

attle and Tacoma and a growing container operation at the Port of Everett. Ship activity in Everett has increased roughly tenfold in the past two years, and as, business continues to grow in Seattle and Tacoma, even more figures to come north.

Five years after terrorists proved their desire to hurt us, our ports remain a huge potential target. Congress mustn't wait any longer to act.

IN OUR VIEW—SECURE PORTS

(By Columbian editorial writers)

Five years after 9/11, Senate should take action on Murray's GreenLane bill, because the horror of 9/11 was orchestrated in the air, the logical immediate concern was in air-travel security. But five years after 9/11 it is frightening to see what little the United States has done to enhance port security.

The intransigence and complacency is especially alarming in Washington state, the nation's most trade-dependent state.

There's good news, though. Thanks largely to U.S. Sen. Patty Murray, D-Washington, Congress is finally paying proper attention to port security. Murray's GreenLane bill co-authored with Sen. Susan Collins, R-Maine has been approved by the House and passed by the Senate Homeland Security Committee. Last Thursday, senators announced agreement on port security legislation, and they are expected to vote on the measure this week.

Even if approval is expedited and it should be this congressional footdragging is inexcusable. We're glad Murray has kept forcing Congress to pay attention. The GreenLane offers five desperately needed components:

It would create tough new standards for inspecting and approving all maritime cargo.

It offers the Greenlane option, a faster and even higher level of security for companies that agree to have their cargo tracked and monitored from the time it leaves a factory overseas until it reaches the United States.

The bill offers a plan for quickly resuming maritime trade after any incident, minimizing the economic impact of terrorism.

Port security grants would allow ports to strengthen their perimeter security.

The Department of Homeland Security would be held more accountable for port security, in part by establishing an Office of Cargo Security Policy.

Locally, Port of Vancouver Executive Director Larry Paulson said Friday that he has been frustrated by the congressional foot-dragging. But he is confident about his port's security. "It's less of an issue here because the emphasis is on containers, and we handle very few containers," Paulson said. "The greater concern for port security in our state is in Seattle and Tacoma."

In a speech Friday, Murray enlisted a RAND Center for Terrorism and Risk Management Policy report that presented this horrifying scenario: Terrorists put a 10-kiloton nuclear bomb inside a cargo container and detonate it at the Port of Long Beach, Calif. According to the report, up to 60,000 people would be killed instantly, 15,000 more would be injured, 6 million people would flee the area and economic losses would be about \$1 trillion.

In Seattle and Tacoma, ports are close to downtowns and Interstate 5. Imagine how enticing that is to an evil mind that wants to kill Americans and cripple our economy.

Murray also pointed to the 2002 closure of several ports on the West Coast. It cost the U.S. economy about \$1 billion a day. She said one study estimates that if all U.S. ports were closed for nine days, it would cost the national economy about \$58 billion. Of course, the greater concern of port security is preventing deaths and injuries. Five years

even five months is far too long. The Senate should expedite passage and implementation of the Green Lane bill for enhancing port security.

[From the Oregonian, Sept. 12, 2006]

TIME TO LAND TIGHTENED PORT SECURITY

A bill that addresses the vulnerability of U.S. shipping fetches up in the Senate, but still needs to be brought to shore.

The most impressive thing about the port security legislation that the Senate begins debating today isn't the bill's boldness or its thoroughness. It's the five years it took the bill to get to this point.

Talk about a slow boat from China.

Five years after what was supposed to be a new reality, after constant warnings about the vulnerability of U.S. ports that inspect only about 6 percent of incoming cargo containers, the bill raises some new barriers against a seagoing Sept. 11. Ports "were extremely vulnerable," says Sen. PATTY MURRAY, D-Wash., who has been pushing the bill, "on the fact that five years after 9/11 they've failed to address homeland security issues."

This bill may not entirely address those issues, but at least it finally raises them.

It requires the Department of Homeland Security to set minimum container security regulations, sets up an Office of Cargo Security Policy to coordinate federal and local port policy, and makes some federal money available.

Maybe most usefully, it sets up a "Green Lane" program to swiftly move cargoes already inspected at their point of departure. Most containers will still remain uninspected, but sending already-checked containers through will, in MURRAY's phrase, "reduce the size of the haystack where we're trying to find the needle."

Even after last week's carefully negotiated deal among three Senate committees, the bill faces serious hazards to navigation. The Senate has rejected the House's way of financing the programs, without completely agreeing on its own. Sen. JOHN McCAIN, R-Ariz., wants to attach to it a major rail security program, an excellent idea by itself that could send port security off the tracks.

In a Congress with minimal accomplishments and a swiftly dwindling number of days to manage any, a bill with real prospects can be a magnet to any idea that any legislator wants to slip across, even if the weight of the additions ends up sinking the bill.

Our strong feelings about getting serious about maritime security may be basic strategic thinking, or may be mostly slack-jawed astonishment at how long this process has taken. It might even be the touchy sensitivity coming from living in a city that not only includes a major port, but is named after it.

There are legitimate points to debate about this bill, and the Senate has two days to debate them.

Let's just hope Congress isn't still debating them next year, which would make it six years after action should have happened.

[From the Washington Post, Sept. 12, 2006]

SAFE PORTS

The brief session of Congress that just convened is distinguished in part for what is absent from its agenda—immigration and lobbying reform, for example. A notable exception, though, is a serious bill that has just emerged from the Senate Commerce, Finance and Homeland Security committees: the Port Security Improvement Act of 2006.

The bill contains several common-sense proposals. It requires the Department of Homeland Security to develop a strategy to rapidly resume trade after an incident at one

of the nation's ports, in order to limit economic slowdown. It codifies a number of good programs in law, including the Container Security Initiative, which, if it operates properly, will target suspect cargo for inspection in foreign ports before it gets close to the United States. And it establishes deadlines for Homeland Security to complete critical infrastructure projects—including installing radiation portal monitors in the nation's 22 biggest ports by the end of next year.

Two things distinguish this moderate legislation from the irresponsible rhetoric on port security that has marred debates on the subject for years. First, it does not call for 100 percent of containers arriving at U.S. ports to be individually inspected for all dangerous materials. The "inspect all containers" mantra is a red herring that exploits Americans' fears about what might slip through in order to score political points, ignoring the fact that there are much more cost- and time-effective ways of keeping dangerous cargo out of the country.

To her credit, Sen. Susan Collins (R-Maine), one of the bill's key sponsors, recognizes that the time and money it would take to inspect all 11 million containers that come into the country every year would be prohibitive with the technology available today, and she has committed to vote against it if such a provision is added. Instead, the bill calls for a pilot program in which the feasibility of individually inspecting all containers leaving three overseas ports will be gauged, which should test promising next-generation technologies without significantly slowing the pace of trade to the United States.

Second, while providing five years of steady funding for port security projects, the bill does not dedicate money for port security in perpetuity. The initial costs of making essential improvements such as buying radiation detectors, putting up fencing around ports and coordinating inspection procedures with ports overseas will require a fair amount of steady start-up cash. But a half-decade of grants for improving port security ought to be enough. After that, port security should have to compete for federal money with other worthy projects.

With those sensible checks in place, the Senate should pass this bill.

Mrs. MURRAY. Again, I thank the Senate for working with us to put a funding stream in this bill and to make this a real Maritime Cargo Security Act.

Thank you, Mr. President. I yield the floor.

The PRESIDING OFFICER. The Senator from Maine.

Ms. COLLINS. Mr. President, I rise to commend the Senator from Washington State for her dogged pursuit of a funding source for this bill. I agree with her that it is so important we have dedicated funding so the promise of this bill can become the reality.

Mr. President, I ask unanimous consent that I be added as a cosponsor to Senator MURRAY's amendment No. 4929.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. COLLINS. Again, I thank the Senator for her efforts. It has been a real pleasure to work with her on this important bill.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FRIST. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FRIST. Mr. President, we began consideration of the very important port security bill on Thursday of last week, and earlier in the week we addressed the Department of Defense appropriations bill. We generally agreed as a body that we would address the security issues first and foremost over the course of these 3 to 4 weeks, and this is the second step in that process. We made reasonable progress on the bill, but at this point it is not certain when we will finish the bill, and the fact is, we have really a little over 2½ weeks left. We have a lot to do, and therefore we need to keep business moving along.

We have been talking about a filing deadline and an amendment list, but we have been unable to reach agreement on either of those.

CLOTURE MOTION

Mr. FRIST. Mr. President, I will file a cloture motion tonight to ensure that we do get a vote this week. We will continue to consult with the managers on both sides, and if we can reach a reasonable agreement to bring the bill to a finish on Thursday, then I believe we should vitiate this particular vote. But since it is still uncertain and we do have a lot of business to do, at this time I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on Calendar No. 432, H.R. 4954, a bill to improve maritime and cargo security through enhanced layered defenses, and for other purposes.

Bill Frist, Susan M. Collins, David Vitter, Jon Kyl, James Inhofe, Tom Coburn, Jim DeMint, Richard Burr, Wayne Allard, Ted Stevens, Craig Thomas, Richard C. Shelby, R.F. Bennett, Mike Crapo, Sam Brownback, Rick Santorum, Larry E. Craig.

Mr. FRIST. Mr. President, I ask unanimous consent that the mandatory quorum under rule XXII be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. FRIST. Mr. President, I ask unanimous consent that the Senate now proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO ERSKINE RUSSELL

Mr. ISAKSON. Mr. President, in 1 last minute on this day, I want to pause to pay tribute to a great Georgian and a great American, an individual we all lost last Friday morning in Statesboro, GA.

On Friday morning of last week, 80-year-old Erskine Russell, former assistant head coach at the University of Georgia and later head coach at Georgia Southern University, died of a stroke leaving the 7-11 near his home on the way to his beloved Snooky's Restaurant in Statesboro, GA. Erskine Russell was a football coach, but he was far more than a football coach. He changed the lives of countless young men in Georgia and changed the attitude of the people of our State about higher education.

Erskine Russell was a man who led the University of Georgia and its defense in 1980 to the national championship. Then, a few years later, he got the opportunity at a fledgling Georgia college—Georgia Southern—to establish a football team. He went there and went to the local sporting goods store and bought a football. He took a drainage ditch that ran by the field and named it the "wonderful, beautiful Eagle Creek," and slowly but surely he recruited young men to come to Georgia Southern to play football.

Within a few years, Georgia Southern went from just having a program to being a national champion. And he repeated that national championship again. But more importantly, all through his life, Erskine Russell did what only he could do: he led by example, not by lecture, what was right about America, what was right about living by the rules, what was right about playing by the rules, and what was right about moral character.

Two thousand people appeared at Paulson Stadium last Sunday to pay their last respects to Erskine Russell—a man who will be missed not just for a short period of time but for the lifetime of all those whose lives he touched.

In conclusion, talking about the lives he touched, when my son Kevin was in the 11th grade at Walton High School in Marietta, GA, he was tragically injured in an automobile accident. He was a junior football player there. Erk Russell took the time to write him a personal note when it was questionable as to whether he might ever play football again or even walk normally again. It was Erk Russell's inspiration and his caring, his challenging someone to overcome adversity, that led to Kevin's complete recovery and a year later his competition on the football field once again.

That is just one vignette. It is just one cameo in a lifetime of service to young people.

I pay tribute tonight to Erk Russell, to his family, and to all those who knew him, all those who loved him, and to all of us who will always treasure the fact that he was our friend.

TRIBUTE TO MR. MORTON J. HOLBROOK, JR.

Mr. MCCONNELL. Mr. President, I rise today to pay tribute to a distinguished Kentuckian, Mr. Morton J. Holbrook, Jr., for his dedicated service to the Commonwealth and his commitment to the practice of law and higher education.

Last month, Mr. Holbrook, a resident of Owensboro, passed away. He was a pre-eminent attorney in Kentucky and will be remembered for the permanent impression he left on Kentucky's legal system. He helped modernize the courts' rules of procedure and was instrumental in pushing for sweeping changes to the State's judicial system.

On August 30, 2006, the Owensboro Messenger-Inquirer published an editorial highlighting Mr. Holbrook's legal brilliance, his contributions to the judicial system, and his duty to public service. I ask unanimous consent that the full editorial be printed in the CONGRESSIONAL RECORD and that the entire Senate join me in paying respect to this beloved Kentuckian.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Owensboro Messenger-Inquirer, Aug. 30, 2006]

STATE BETTER PLACE BECAUSE OF HOLBROOK

Because Morton Holbrook Jr.'s accomplishments were so many, his love for his community so strong, his quest for knowledge so persistent and his zest for life so complete, penning a tribute to his life invites inadequacy.

Holbrook, who died Friday at the age of 91, was a Daviess County icon who mixed a legal career as a Harvard-trained lawyer with a lifetime of public service, gaining fame in both arenas. Twice his leadership helped completely change the face of Kentucky's legal system. Closer to home, there might not be an Owensboro Community & Technical College without his point work in the 1980s.

Whenever and wherever Holbrook decided to take a stand, he usually became an irresistible force for progress and change. Slight of build and not tall, Holbrook was nevertheless formidable, thanks to his agile mind, gifted and eloquent speaking ability and compelling personality.

For 56 years Holbrook practiced law and would have been admired for his legal abilities alone. One colleague called him the greatest attorney he ever knew. But Holbrook strayed far beyond private practice, to Kentucky's lasting benefit. In 1948 he was appointed to a state judicial committee that totally revised the state courts' rules of procedure. Two and a half decades later he helped push through an in-toto reform of Kentucky's judicial system, which required changing the state Constitution.

Holbrook's other passion was higher education. He was a member of the Kentucky Council on Higher Education for 10 years. OCTC can trace its origins to his involvement in the early 1980s.

Holbrook received many awards and recognitions through the years. Perhaps the most fitting came on his 90th birthday in September 2004 when Daviess Fiscal Court named the county's judicial center in his honor—the Morton J. Holbrook Jr. Judicial Center.

Morton Holbrook—a delight and truly one of a kind—will be deeply missed.

REMEMBERING SEPTEMBER 11, 2001

Mr. OBAMA. Mr. President, I rise today to remember the horrifying terrorist attacks that took away so many innocent lives 5 years ago.

As a rule, tragedies of the magnitude we saw on 9/11 do not have silver linings. On that day, we were left only with an aching sense of loss, a sadness that seemed endless, and a bitter rage toward those who had brought chaos to our doorstep.

And yet it is undeniable that amidst one of the worst moments in our history, an ordinary goodness emerged in America. You could see it in the rescue workers and firefighters who rushed toward the rubble, in the scores of young people who signed up to serve their country, and in the quiet candlelight vigils held by millions of people for those they had never met and never would.

In our politics, too, there was a brief moment where it seemed as though the crass partisanship of the nineties would give way to a unity of purpose among Republicans and Democrats that would refocus our efforts on attacking the terrorists, not each other. We saw this in the immediate support given to President Bush, in the near unanimous vote to go after the Taliban and al-Qaida in Afghanistan, and in the formation of an independent, bipartisan commission that would tell us how and where to strengthen our homeland security.

Five years after 9/11, the days of that unity are long gone. In the last two elections, the Republican Party has used national security as a political weapon to attack and beat opponents, while the recommendations of the 9/11 Commission float further and further from the front pages. Now, as we approach another election season, the party in power has announced again that it intends to "run on" the issue of national security, with some going so far as to say that the terrorists are just waiting for Democrats to take over so that they can attack.

I realize that in this day and age, it is naive to think that politics would stop at the water's edge. But I refuse to believe that we cannot find the will or the resources to implement a series of recommendations that an independent panel of Democrats and Republicans agree would keep our country safer from terrorist attack.

In a report card delivered last year by the 9/11 Commission, the country's security efforts received mediocre to failing grades—17 Ds and Fs in 41 areas of homeland security.

To this day, our first responders still do not have the communications equipment they need to coordinate a rescue in the event of an attack. We still inspect only 5 percent of the 9,000,000 containers that enter this country every year. We are still spending only 2 percent of what we need to secure our railroads and subways, and not nearly enough on baggage and cargo screening at our airports. We still have only

10,000 border patrol agents to guard 8,000 miles of land borders, and only 1 agent to guard every 3 miles of border with Canada. And we are leaving some of America's most vulnerable targets—including chemical plants with toxic substances that could kill millions—with the most minimal security.

If on the day after 9/11 you had told anyone in America that these gaps in our security would still exist 5 years later, they might have thought you were crazy. And yet since then attempt after attempt to correct these problems—from efforts to fully fund rail, transit, and port security to the legislation I have introduced to protect chemical plants—have been rebuffed by the administration and the Republican-controlled Congress.

This cannot go on. National security cannot be something we only discuss on 9/11 or when terrorists try to blow up planes over the Atlantic or when it suits our political interests on election day. It is an every day challenge, and it will take Americans of every political persuasion to meet it.

Like most Americans, the effect of September 11 felt profoundly personal to me. It wasn't just the magnitude of the destruction that affected me or the memories of the 5 years I had spent in New York, but the intimacy of imagining those ordinary acts which 9/11's victims must have performed in the hours before they were killed, the daily routines that constitute life in our modern world—boarding a plane, grabbing coffee and the morning paper at a newsstand, making small talk on the elevator.

For so long, these acts represented the concrete expression of our belief that if we just exercised, wore seatbelts, and avoided needless risks, our safety was assured, our families protected. Certainly, the prospect of mass violence on American soil seemed remote.

Five years later, we know that world is gone—that we must better understand our fragility and better secure ourselves from those who have the will and the way to do us harm. This means a change in priorities, yes, but it also means a change in our politics—a willingness to put aside the petty, if just for a moment, so that we may rise together to meet one of the greatest challenges of our time. History has shown this will not be easy, but if the ordinary goodness that emerged from that rubble 5 years ago is any indication, I still believe it is imminently possible.

HONORING OUR ARMED FORCES

SERGEANT LONNIE CALVIN ALLEN, JR.

Mr. NELSON of Nebraska. Mr. President, I rise today to honor SGT Lonnie Calvin Allen, Jr. of Bellevue, NE.

Sergeant Allen, 26, graduated from Bellevue East High School, where he was a four-sport athlete, participating in football, track, basketball, and wrestling. After attending Northeastern

Junior College in Colorado, Sergeant Allen joined the Army, where he met his wife Birgit while stationed in Germany. "I was just glad every minute I spent with him because it was the most wonderful time I've had," said Mrs. Allen.

Sergeant Allen was dedicated to the Army, choosing to reenlist after his first tour of duty. According to his family, he was expected to wrap up his Iraq tour in July and wanted to enter law enforcement as a career.

While serving with the 2nd Battalion, 22nd Infantry Regiment, 10th Mountain Division in Baghdad, Iraq, Sergeant Allen was killed when an improvised explosive device detonated near his military vehicle on May 18, 2006.

Sergeant Allen is survived by his wife, Birgit, who lives in Bellevue, NE; his parents, Lonnie and Sallie Allen, also of Bellevue; and his brother, Nuru Allen, of St. Louis, MO.

My prayers go out to the family and friends of Sergeant Allen as they face this difficult tragedy. Nebraskans should be proud of the commitment Sergeant Allen showed toward the Army and his country. He is an example for us all.

FIRST LIEUTENANT GARRISON AVERY

Mr. President, today I honor 1LT Garrison Avery of Lincoln, NE.

First Lieutenant Avery, 23, graduated from Lincoln High School before earning his degree from the U.S. Military Academy in West Point, NY. Following his graduation from West Point, he underwent Army Ranger and sapper training, receiving various honors. But according to his father, "He wasn't interested in the decorations. He was interested in the job." Following his service, Lieutenant Avery dreamed of helping war orphans.

While serving with the 101st Airborne Division stationed south of Baghdad, Lieutenant Avery and two fellow soldiers were killed when a roadside bomb exploded on February 1, 2006.

Lieutenant Avery is survived by his wife, Kayla, who lives in Clarksville, TN. He is also survived by his parents, Gary and Susan; siblings, Clinton, Johnathan, and Elizabeth; and numerous other family members, friends, and fellow soldiers.

I offer my sincere condolences and prayers to the family and friends of Lieutenant Avery. His noble service to the United States of America is to be respected and remembered by all. Every American and all Nebraskans should be proud of the service of brave military personnel such as 1LT Garrison Avery.

LANCE CORPORAL KYLE CODNER

Mr. President, today I honor LCpl Kyle Codner, 19, of Shelton, NE.

Lance Corporal Codner joined the military after his graduation from Shelton High School on June 16, 2003, and was deployed to Iraq in mid-February. His deployment was to last 7 months, and the family hoped to see him home safe around mid-September. At the time of his death, Lance Cor-

poral Codner was one among a group of marines traveling in an armored personnel carrier conducting security and stability operations in Anbar province, Iraq.

Lance Corporal Codner was liked by all who knew him; he was involved in his church and in his community, and he was a selfless part of the military who knew the worth of life. Codner's family remembers him saying, "Freedom isn't free."

The loss of this outstanding marine is felt by all Nebraskans, but his example will remain as an inspiration for his survivors, a devoted friend, fiancée, son, and grandson, and we extend our thoughts and prayers to them in condolence.

ARMY NATIONAL GUARD SERGEANT GERMAINE L. DEBRO

Mr. President, today I honor Nebraska Army National Guard SGT Germaine L. Debro of Omaha, NE.

Sergeant Debro was a loyal son, brother, friend, and soldier. Selflessly placing his friends and their families before his own life, he volunteered for his last assignment to Iraq so others could stay home with their loved ones. "He put his friends and loyalty first. He couldn't have lived with himself if one of his friends with kids went over there and died. My brother is a better man than me," said Sergeant Debro's brother, Alvin Debro, Jr.

Sergeant Debro was born into the military, as his father, Alvin Debro Sr., served in the Air Force. He first attended Omaha Benson High School; then in 1991, he graduated from high school in Arkansas, where he played football. His military career began on October 14, 1994, when he enlisted in the U.S. Army as an M-1 Abrams tank crewman. Sergeant Debro joined the Nebraska Army National Guard on October 12, 1997, as a tank crewman with Detachment 1, Troop B, 1-167th Cavalry Squadron based in Wahoo, NE. He was reassigned to the Fremont-based Troop B, 1-167th Cavalry Squadron in January 2001.

While serving with the National Guard, Sergeant Debro was mobilized overseas various times, including service in Kuwait in 2001 and in Bosnia-Herzegovina from 2002-2003. He was deployed in support of Operation Iraqi Freedom in March 2005, serving as a scout with Troop B, 1-167th Cavalry Motor Reconnaissance Troop. On Monday, September 4, 2006, Sergeant Debro passed away when an improvised explosive device struck the humvee he was driving while on patrol near Balad, Iraq. Then-SPC Germaine L. Debro was posthumously promoted to Sergeant.

Sacrificing his own life so that others could live, Sergeant Debro was the embodiment of bravery and the finest example of generosity. In addition to his brother Alvin, he is survived by his parents Alvin, Sr. and Priscilla Debro of Omaha; and his brother Maurice Debro. I extend my deepest condolences to Sergeant Debro's family and friends, who played such a tremendous role in

his life. His unfaltering dedication to his country and family will remain a source of hope and inspiration for all Americans. Sergeant Debro was a man of exceptional honor, and we will not forget what he gave for our Nation.

At Papillion-La Vista South, he was a member of the Naval Junior Reserve Officer Training Corps program. After graduating, he joined the Navy in an effort to fulfill his dream of traveling to Japan, a dream which began in elementary school after writing a report on Japan. He was also fascinated with flying. "You combine a love for the country of Japan, a love of other cultures and a love of airplanes, and the Navy was a perfect fit for him," said his father.

Airman Doyle had been serving with the Electronic Attack Squadron 136 off the east coast of Japan since October when he fell from the flight deck of the USS *Kitty Hawk* on July 8, 2006. It was his first assignment.

Friends say he was dedicated to the Guard, even convincing three friends to join with him.

but when he did, people listened to him," said James Arends, a sergeant in the VA Police Service.

Staff Sergeant Hansen passed away on August 27, 2006, at Landstuhl Regional Medical Center in Landstuhl, Germany, from injuries he received when the humvee he was riding in went off a wet and eroded roadside berm and became submerged in an irrigation canal near Camp Anaconda, Iraq.

Staff Sergeant Hansen is survived by his wife Jennifer L. Hansen of Cairo; father Robert Hansen of Bertrand; and brother Jeremy Hansen.

I offer my sincere condolences to Staff Sergeant Hansen's family and friends. DEFENSE APPROPRIATIONS

Mr. LIEBERMAN. Mr. President, I rise today to give my support to the 2007 Defense appropriations bill which passed the Senate last week by a unanimous vote of 98 to 0. The bill provides \$469.7 billion in discretionary spending authority for the Department of Defense and will supply critical funding to many Connecticut defense companies that provide our Nation's military with the cutting edge technology, weaponry, and equipment it needs.

It includes \$2.5 billion for the construction of another *Virginia* class submarine, which will be built at Connecticut's submarine base in New London. It also includes \$54 million for submarine research. This funding will support the significant work of our submarine designers and engineers in New London and will enable important cost-cutting improvements to the *Virginia* class. Eight million dollars of that funding is targeted for advanced submarine research, which will allow our designers and engineers in New London to begin the early steps of designing a new class of nuclear attack submarines. In aircraft procurement, the bill contains funding for 12 additional Black Hawk helicopters for a total of 94 aircraft and 12 C-17 transport aircraft, also produced in Connecticut. Finally, I am particularly heartened by the inclusion of funding for several of our smaller defense companies and contractors in Connecticut, which provide our troops with sophisticated technological support. Fuel cell development, sonar technology, clotting agents for troops wounded in battle, mobile military health units, and laser machine tool systems are all products of the high-tech defense industry in Connecticut, and I am proud that I was able to secure funding for this burgeoning sector of my State's economy.

There were several important amendments proposed to the Defense appropriations bill. Senator KENNEDY offered an amendment that would have required the Pentagon to provide information about whether a civil war has developed in Iraq as part of the Defense Department's already mandated quarterly reports. Senator MENENDEZ's proposed amendment prohibited the use of funds for a public relations program designed to monitor news media in the United States and the Middle East to create a database of news stories to promote positive coverage of the Iraq war. Both of these amendments were prevented from being considered explicitly by procedural votes on the Senate floor. If I had voted on those motions, I would have supported both amendments, which would have meant voting against both motions to table. Unfortunately, both amendments were set aside, and my vote would not have changed the procedural outcome in either instance, nor prevented their defeat in a party-line vote.

As I have stated earlier, I will be spending much of my time before the

November election in Connecticut. I believe it is important for me to spend time with people in Connecticut, listening to their ideas and concerns. These next 2 months will provide me with a good opportunity to learn more about their views on how we can move forward to solving our Nation's most pressing problems. That being said, I plan to return to the Senate for votes when my presence is a deciding factor and important committee business in which my participation is crucial. The task of representation is truly a two-way street, and I value those times, such as during campaigns, when citizens and their elected representatives can engage in a democratic dialogue. I am looking forward to continuing to participate in that process and also continuing to represent the people of Connecticut in the U.S. Senate.

HONORING GARY STEVENS

Mr. CRAIG. Mr. President, I rise today to recognize Gary Stevens, an accomplished Hall of Fame jockey and Idaho native.

Gary retired in 2005 from an impressive career in horse racing that includes several victories in each leg of the Triple Crown, as well as multiple titles in the Santa Anita and Breeders' Cup races. Holding claim to honorary awards and international racing cups, Gary's popularity only grew in 2003 when he played the role of George Woolf in the Academy Award nominated movie *Seabiscuit*.

It is an honor to note that Gary started his career in Idaho. At 16 years old, Gary rode his first thoroughbred winner at Les Bois Park in Boise. Born in Caldwell, Gary's father was a riding trainer and his mother was a rodeo queen. This summer, Idaho Governor Jim Risch named a week in Gary's honor, to spotlight this accomplished jockey's ties to Idaho.

On behalf of thousands of Idahoans who are proud of him and his Idaho roots, I say congratulations to Gary Stevens for a lifetime of outstanding achievements.

LET US LOOK UPON THE OCEAN WITH REVERENCE

Mr. KENNEDY. Mr. President, during the August recess, one of my constituents, Michael Mulroy, of Fairhaven, wrote a very thoughtful article that was printed in the *New Bedford Standard-Times* on August 15 in its "Your View" feature. Mr. Mulroy's article eloquently describes the restorative and wondrous nature of the ocean and questions the wisdom of placing wind farms and other large-scale industrial projects at sea. He urges us to "look upon the ocean with reverence."

As someone who is committed to preserving the natural beauty of Massachusetts and its magnificent coastal waters, I was moved by Mr. Mulroy's inspiring article, and I believe many of our colleagues will be inspired by it as well. I ask unanimous consent that it be printed in the *RECORD*.

There being no objection, the material was ordered to be printed in the *RECORD*, as follows:

[From the *New Bedford Standard-Times*,
Aug. 15, 2006]

"YOUR VIEW: LET'S LOOK UPON OCEAN WITH REVERENCE, UNOBSTRUCTED"

(By Michael Mulroy)

After years of reading about and listening to the debate over the proposed wind farm off the coast of Cape Cod, I felt compelled to weigh in on the subject after reading David Kibbe's article in *The Standard-Times*.

As a child growing up in one of the tenement neighborhoods in New Bedford, I loved it when my parents would take my sister and me to one of the area beaches for the day. Sometimes we would stop to get ice cream afterwards, or maybe have some clam cakes at one of the small clam shacks that dotted the coast. When it was too cold for swimming, we would still go down to the shore and walk the beach looking for shells or whatever treasure the tide may have washed ashore. In the winter, we would simply take a drive along the seashore and enjoy the scenery. One of the greatest joys for me was looking out at the ocean and being able to see unobstructed to the horizon—there were no tenements or telephone poles or wires or factories to spoil the vista. The ocean was to my mind a blank canvas, I was free to paint my imagination across it, and I dreamed of whaling ships and merchants of days long ago.

Later, when I was first married, one of our first apartments was in Fairhaven. I used to ride my daughter around town in a carrier seat on the back of my bicycle. Wherever else we went, we always went down to Fort Phoenix, and out onto the Hurricane Barrier, and looked out upon the ocean. My grandfather was a construction worker who helped build the barrier, and so it made our visits there all the more special.

Life being what it is, we could not afford to buy a home in Fairhaven at the time, and so we moved back to New Bedford. As time went by, I was eventually divorced from my first wife. Saddled with debt, I was forced to file for bankruptcy. Through hard work and determination, I was able to restore my credit and eventually bought a fine tenement on the same street where I grew up. I went to the beach, I took drives by the shore, but I also worked; I worked hard.

I am now remarried and once again live in Fairhaven. We have easy access to the beach, and I ride my bicycle by the shore. Through all the changes in my life, one thing that has never changed is the ocean. I can still gaze out upon the open sea and look unobstructed to the horizon. I am humbled at the awesome power that lies there. The sheer vastness of the sea amazes me, and I cannot help but think of our great Creator every time I look upon it. Surely this is a holy place! I can imagine how the first people to set eyes upon this wonderful site must have felt, and I feel that as I am able to see what they first saw, I can share their experience.

At first I felt guilty for not wanting to see a wind farm off the coast. After all, this would be a great source of energy. Clean, renewable, it might even lessen our dependence on foreign oil, even if it's only a little bit. I would feel patriotic. I felt like one of the NIMBY (not in my backyard) people, but it just didn't feel right. Some people say that the only argument against the project is that some rich folks on Nantucket and Cape Cod don't want to spoil their view. Rep. Bob Kocera calls it "reasons of aesthetics and really nothing else." I've got news for you, Bob, the grandeur of the world's natural wonders are not "aesthetics!" Aesthetics are in your living room! That's like calling the Grand Canyon "just a hole," or Mount Everest "a big hill and really nothing else."

The ocean is our last wild place on this Earth. We are a throwaway society, and we are too lazy, or too cheap, to bother to clean up the messes we have made on land, and so now we are looking to the sea. Rep. Frank Smizik of Brookline states "We're relying on dirty power plants" and urges us to "get away from that."

Well, Frank, why not hold the Bush Administration to their responsibility, and stop letting them relax pollution standards for these filthy polluters? Why not force them to clean up their act? I, for one, am sick to death about hearing these corporations whine about the cost! Too bad! Record profits for Big Oil sound familiar? All the while, the public is being gouged at the gas pump!

Why do we have to have this wind farm in the ocean when there are many existing wind farms in areas that are not near the ocean? The answer is simple: It is easier, and cheaper! Cape Wind wants to locate here because they feel this is the best location for them. What is best for an energy corporation is not necessarily what is best for the Earth or for our people. It is time we start to think of ourselves as people of the Earth, and not as people who belong to corporations. It is time we listen to the ancestors of our native peoples. Since time began, they have known that the Earth does not belong to us, we belong to the Earth. We are here as her caretakers. They have been telling us this since the white people first came here. It's time we open our ears, our eyes, and our hearts, and listen.

It is time to use self-restraint and set limits for ourselves. We must take responsibility for our actions, and clean up the mess we have made upon our lands, and not expand our careless ways to the sea. Let us look upon the ocean with reverence, and let us see to the horizon, unobstructed, and let it be our inspiration to take back our Earth from unbridled development. Let us say, "Stop!" Enough is enough! We have the technology to develop alternative energy sources without this project. This is not a "do or die" issue. Why not explore other options? Cape Wind would have us in fear of not supporting them now. Who says they are the only energy development corporation on the horizon? Rep. Matthew Patrick wants to "let the process go forward, and if Cape Wind survives based on its merits, it should not be subject to the arbitrary whims of the governor." If? If it survives? Well what Matthew, pray tell, will befall us if it doesn't survive? Who will pay to dismantle it? Or would you rather it just stay out there, a rusting hulk, as a monument to our failure, until it finally collapses into the sea? If that happened, what then would be the danger to navigation? What would be the environmental impact then? Has anyone thought about this? And what about the diesel fuel stored there for the generators?

The sea and its creatures are a precious resource. Today, our fishermen are paying the price for the sins of our fathers. Exploitation of fish stocks since pre-Colonial times has left them depleted to the point of disaster. We cannot think that human invasion of this delicate environment will have little or no impact. I cannot help but think that if we allow this wind farm, that they will want to expand in the future, or that others will want to follow. Will we ask our children to pay forever for our sins?

I am not rich, but this is not about being rich. It is about a deep respect and reverence for our earth, and yes, it is about my vista. When I look out upon the ocean, it is, to me, as if I am looking upon the face of God, so I would say to you: Yes, I would be happy to

have a wind farm in my backyard, as long as it stays where it belongs, on land, and not in the middle of one of the most beautiful places on earth, the ocean.

ADDITIONAL STATEMENTS

RAPID CITY WEED AND SEED ORGANIZATION

• Mr. JOHNSON. Mr. President, today I wish to recognize the hard work and amazing results of the Weed and Seed organization of Rapid City, SD.

The Rapid City group will cease operations later this month after nearly a decade of tireless efforts to rehabilitate a significant portion of the residential and business area in the community.

In partnership with organizations that included the Rapid City Police Department, the Center for Restorative Justice, Volunteers of America, the Project Safe Neighborhood/Gunwise Program, and Good Housekeeping, dozens of individuals came together to address neighborhood crime, abuse, housing, and aesthetic issues.

Primarily focused on the East North and East Boulevard neighborhoods, the Rapid City Weed and Seed organization worked with the Rapid City Police Department on a zero-tolerance policy with an aggressive police presence in areas that were beset with crime, homelessness, and urban blight issues.

The group worked with Rapid City leaders to aggressively enforce city codes involving housing. Vacated and rundown homes and businesses were torn down and replaced with new and thriving businesses and new homes. Other businesses, homes, and apartment complexes were expanded and renovated during this timeframe. Efforts to revitalize Roosevelt Park resulted in the construction of a new ice arena and indoor swimming pool, as part of the city's 2012 economic development program. A business association was formed to bring together local business owners to discuss relevant issues of importance. The Weed and Seed organization also developed an adopt-a-creek program with 21 sections of Rapid Creek adopted by local companies, organizations, and families. The first major cleanup of Rapid Creek since the tragic 1972 flood resulted in the collection of 18 tons of trash, including debris from the 1972 flood event.

Four townhall meetings were conducted with local residents, and annual picnics were sponsored to develop a sense of camaraderie and connection between neighbors.

As a result of these efforts, the East North and East Boulevard areas have once again become a source of pride for the community. This sense of pride is now reflected in the residents and businesses located in the area. These results are due in large part to the collective work of the Rapid City Weed and Seed organization and the partner-

ships that were developed with city officials, law enforcement agencies, and the local businesses.

Funded through a 5-year Weed and Seed grant of \$1.025 million, the local organization will cease operations later this month. I wish to recognize the vision and hard-working efforts of the dozens of Rapid City citizens and officials who have provided tireless efforts to rehabilitate and renovate a key part of the community.

I wish to recognize the help of executive director Patricia Pummel and board members Wayne Asscherick, Phyllis Boernke, Dave Bussard, Jim Castleberry, Patrick Clinch, Cynthia Clinch, Linda M. Colhoff, Richard Cooper, Darcy Dennison, Lee Dennison, Ken Edel, Fred Eisenbraun, Lawren Erickson, Dan Island, Adeline Kalmbeck, Jim Kinyon, Craig Kirsch, Eileen Leir, Burt Lang, Carol Lang, State legislator Alice McCoy, Jim McCoy, Dave Morgan, Lou Morgan, Sharon Oney, Kenneth Palmer, Gloria Pluimer, Alys Ratigan, Kerri Severson, Mickey Snook, Roberta Stevens, Betty Strobel, Raymond Summers, Pat Trumble, Holli Vanderbeek, Jerry Walenta, Lieutenant David Walton, Les Wermers, Dexter Wittman, Rapid City mayor Jim Shaw, former mayor Jerry Munson, and Connie Ewing.

Thanks to the efforts of these individuals, other concerned and committed citizens, and officials in Rapid City, the East North and East Boulevard areas of Rapid City have been effectively rehabilitated. The efforts of this organization may serve as a model for other Weed and Seed organizations in the country. Although ceasing operations, the vision and tireless efforts of individuals in the Rapid City Weed and Seed organization will be maintained. I commend the energetic and innovative work of the Rapid City Weed and Seed organization and the individuals involved in their great work over the past several years.●

CENTENNIAL OF THE FOUNDING OF STRATFORD, SOUTH DAKOTA

• Mr. JOHNSON. Mr. President, today I pay tribute to the centennial of the founding of the city of Stratford, SD. A latecomer in inclusion into Brown County, Stratford sprung up rapidly in just weeks.

Stratford was founded 100 years ago on the Minneapolis and St. Louis railroads. Stratford was a convenient commuter system to many of its neighboring cities at the time. In just 5 years, Stratford reached its peak population of 600.

Stratford is one of South Dakota's classic small towns. It has been the home of industry and farm-related businesses and has been served by a volunteer fire department since 1911. The Baribeau Honey Company, which processes about a million pounds of honey annually, was established in 1955 and is still a booming business. The post office and BS Bar and Grill are open to this day.

A hundred years after its founding, Stratford continues to be a vital community and a great asset to South Dakota. I am proud to honor the achievements of Stratford on this memorable occasion.●

S. 3888. A bill to amend title XVIII of the Social Security Act to sunset the sustainable growth rate formula as of January 1, 2009, in order to expedite Congressional action in establishing a new physician payment system that would appropriately reimburse physicians by keeping pace with increases in medical practice costs and providing stable, positive Medicare updates; to the Committee on Finance.

Ms. STABENOW. Mr. President, I am pleased to introduce the "Fix and Improve Reimbursement (FAIR) for Physicians Act of 2006" today with the support of the Michigan State Medical Society and the Michigan Osteopathic Association.

Over 20,000 M.D.'s and D.O.'s in Michigan provide more than 1.4 million seniors and people with disabilities with high-quality medical services under the Medicare program. Our Michigan families have received fantastic care, from fantastic doctors.

But will they continue to? Not unless we do something about the payment system used to reimburse physicians for Medicare services. Beginning January 1, 2007, the Medicare Sustainable Growth Rate (SGR) formula will cut payments to physicians and health care professionals by 5.1 percent. What does that mean in dollar terms? Medicare payments in Michigan alone will be cut by \$137 million in 2007; the aver-

age cut for a physician in Michigan would be \$34,000 per year.

That doesn't make any sense. Medical costs are going up. How can doctors provide the same high-quality care when costs are going up and their payments are going down?

It makes even less sense when you realize physicians and other health care professionals have been struggling with this payment system for years. The SGR formula resulted in significant payment cuts in 2002, and would have resulted in payment cuts in 2003, 2004, 2005 and 2006 had Congress not intervened.

And it won't stop with the cut in 2007. According to the Medicare Payment Advisory Commission (MedPAC) and the Board of Trustees of the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund, the Medicare SGR formula will result in substantial payment cuts to physicians and health care professionals through at least 2015.

The cuts are scheduled to total 40 percent by 2015, costing Michigan doctors in excess of \$8 billion between 2007 and 2015.

Can doctors absorb these kinds of cuts and continue to serve all Medicare beneficiaries with high-quality care? Absolutely not. The cuts would be particularly devastating for primary care doctors, the very doctors that, according to MedPAC, many Medicare beneficiaries rely on for important health care management. MedPAC states in their March 2006 report that they "are concerned that such consecutive annual cuts would threaten access to physician care services over time, particularly primary care services." They go on to say that "payment policies that may discourage medical students and residents from becoming primary care physicians raise particular concern".

A recent survey conducted by the AMA suggests that if the scheduled cuts go into effect, 45 percent of doctors will decrease the number of Medicare patients they accept—and this at a time that the Medicare population is burgeoning! Further, 50 percent of doctors will defer purchase of health information technology, 37 percent of doctors practicing in rural communities will be forced to discontinue rural outreach services, and 43 percent of physicians will decrease the number of new TRICARE patients they suggest.

This is not a new issue. MedPAC considers the Medicare SGR formula a flawed, inequitable mechanism for controlling the volume of services and first recommended repeal of the Medicare SGR formula in 2001. Since then they have consistently recommended repealing the formula.

But what has Congress done? Have we repealed the SGR? No. Instead, each year since 2003 Congress has acted to override the formula temporarily. While these actions have prevented cuts since 2002, nobody can believe this

is a good way of going about business. Congress tends to act very late in the year—or AFTER the cuts have actually gone into effect—which results in instability and unpredictability for physicians, health care professionals, seniors and individuals with disabilities.

Further, annual Congressional actions to override SGR don't solve the long-term problem as the formula extracts the added spending in future years by imposing even more drastic cuts.

We know what we need to do. A Medicare physician payment system that will provide stable, positive payment updates is critical to preserve Medicare beneficiaries' access to high-quality care and allow doctors to invest in health information technology and quality improvement programs.

While a new system is being developed, we know we need to adopt MedPAC's recommendation to update payments for physicians' services under the Medicare program by the projected change in input prices less MedPAC's expectation for productivity growth. The "Preserving Patient Access to Physicians Act of 2005", which I introduced last year with Senator KYL, would do just that. It would have provided physicians with a 2.7 percent update in 2006 and would provide a 2.8 percent update in 2007.

When I introduced that legislation I said that it was just the beginning. I said that our bill was necessary to provide updates for a couple of years but that we cannot continue to use stop-gap measures, and must replace the SGR with a payment system that actually makes sense and reflects the costs of providing physician care to Medicare beneficiaries.

This bill—the "Fix and Improve Reimbursement (FAIR) for Physicians Act of 2006"—takes the next step. The purpose of the "FAIR for Physicians Act" is to sunset the Medicare sustainable growth rate formula in order to expedite Congressional action in establishing a new physician payment system under the Medicare program that would appropriately reimburse physicians by keeping pace with increases in medical practice costs and providing stable, positive Medicare updates.

The "Fair for Physicians Act" would repeal the SGR formula as of January 1, 2009. I continue to believe that we must adopt MedPAC's recommendation for updates in 2007 and 2008 to give seniors access to high-quality care while giving Congress time to develop an alternative payment system.

To help Congress with developing the new payment system, the "Fair for Physicians Act" establishes a new, 17 member "Physician Payment Update Commission", the "Physician Commission". The members of the Physician Commission will include members with a wide variety of expertise in the delivery and financing of health care, but—and I believe this is critical—individuals who are physicians and other health professionals shall constitute a

majority of the membership of the Commission.

The new Physician Commission will study all matters relating to payment rates under the Medicare physician fee schedule, and develop recommendations on the establishment of a new system that would appropriately reimburse physicians by keeping pace with increases in medical practice costs.

We need to do this right, but we also need to get it done soon. Our physicians and health care professionals, and our Medicare beneficiaries, have been dealing with an unworkable, unsustainable system for too long.

Therefore, the Physician Commission must report to the appropriate Congressional Committees and MedPAC by December 1, 2007. MedPAC then has a month to review the recommendations of the Physician Commission and submit a report to the appropriate Committees. MedPAC's report must include a review of the recommendations, including the reasons for their support if they support their recommendations and, if they do not support the recommendations, the reasons for that, and their own recommendations.

I know we need to get this done by January 1, 2009 and I know we can get this done by January 1, 2009. My bill would repeal the SGR formula as of that date, and establish a new Commission to develop a new payment system by that time, to ensure that our Nation's 42 million Medicare beneficiaries continue to have access to high quality physician care.

In the meantime, we must provide updates based on MedPAC's recommendations.

The Medicare program is one of the most successful federal programs of all time. It has lifted countless seniors out of poverty, and it has ensured access to necessary, affordable, quality medical care for our most vulnerable citizens for the last 40 years.

We can—and must—fix the physician payment formula to maintain Medicare's record of success in providing access to high-quality Medicare services for all of our seniors and people with disabilities.

By Mr. FEINGOLD:

S. 3889. A bill to enhance housing and emergency assistance to victims of Hurricanes Katrina, Rita, and Wilma of 2005, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. FEINGOLD. Mr. President, today I am introducing the gulf coast Housing Accessibility Act to address some of the challenges facing survivors of Hurricanes Katrina and Rita a year after the hurricanes struck the gulf coast. Two weeks ago, we commemorated the anniversary of Hurricane Katrina and honored those who lost their lives and those who lost their livelihoods last year. A year later, the people of New Orleans and the gulf coast continue to deal with an unfortunate reality—that in a lot of neighbor-

hoods, it looks like the hurricanes hit a week ago, not a year ago.

Over the past year, I have heard from a number of Wisconsinites upset with the Federal Government's response to Katrina. They have made powerful pleas to not forget about the people who lost their homes, their communities and their way of life.

In July, I visited some neighborhoods in the New Orleans area that were ravaged by Hurricane Katrina. The painful realities about life there were everywhere—abandoned businesses, and homes and neighborhoods that were totally destroyed by the hurricane and its aftermath. The challenge of rebuilding is enormous. But what's even tougher is trying to rebuild in a way that helps everyone come back, not just people with access to more resources and different options. It is the responsibility of all levels of government to help those who want to come back regardless of their income level. We must ensure that the rebuilt gulf coast reflects the same cultural diversity that made it an American gem before the hurricanes struck. This legislation seeks to meet some of that responsibility by providing low income individuals and families with immediate and long term housing assistance as they rebuild their lives and move back to the gulf coast.

There are so many ways that gulf coast communities still need help—creating jobs, rebuilding the school systems, and gutting damaged homes so that they can be rebuilt. And, when you see those blocks and blocks of neighborhoods that were destroyed—with no sign of reconstruction—it's clear just how much help the people of New Orleans and the gulf coast need to find affordable housing.

Housing has to be affordable so that the gulf coast can get back to work. So many of the people who are the lifeblood of the tourism industry—like hotel and restaurant workers—want to call New Orleans home again, but they can't move back if they can't afford any place to live.

It's a testament to the strength of these communities that so many people want to come back, at every income level. You can't do that if you were working a minimum wage job that doesn't exist anymore, and you were renting an apartment that ended up engulfed in flood water.

There are a lot of barriers to moving back for homeowners, but it's also tough for gulf coast citizens who were renting when the hurricane hit. In the year since the hurricane struck, rents in the gulf coast region have skyrocketed, which makes it even more difficult for low income renters to return to their homes. With a significant percentage of renters in the New Orleans area before Katrina, we need to ensure that the housing assistance in the gulf coast is aimed at helping renters, as well as homeowners, rebuild their lives.

We've got to do something to help displaced residents—particularly low-

income individuals—who want to move back to New Orleans. I have put together a few different ideas into one bill, building on some really good work on housing issues by some of my colleagues in the Senate. This bill doesn't tackle every problem, but it will help address some of the tough housing issues facing New Orleans and the gulf coast. It includes housing vouchers to help make rents affordable for the lowest income people and families. It also makes housing like the Katrina cottages—which are more like homes, and less like trailers—more available to those who want them. There have been a lot of problems with the FEMA trailers, so it's important to give people the option of living in a more permanent home. And finally it allows HUD to handle temporary rental assistance programs from here on out, instead of FEMA, which isn't equipped to handle housing issues like these for the long haul.

Not only does this legislation address the needs of current Katrina survivors, but the changes it makes to the Stafford Act to allow FEMA to provide permanent and semi-permanent housing, as well as allowing HUD to provide temporary housing assistance instead of FEMA, apply to future disasters also. The importance of this cannot be stressed enough—we in government must learn from our past mistakes and work to prevent such a horrible government response to future disasters.

A year after Hurricane Katrina and Hurricane Rita, there is so much that we can still do—and that Congress can do—to help the gulf coast recover. We need to have serious conversations about the persistent poverty that still exists in the gulf coast and around our nation, for this poverty magnified the disaster of Hurricane Katrina. We need to develop solutions to address this poverty that exists in cities and rural communities throughout our country. We need to work to ensure the levees are built correctly. We need to better protect the diminishing wetlands of the gulf coast. But we also have to focus on the here and now—what people are facing on the gulf coast today. As we look at the images of the hurricanes a year later, and we remember what people went through, we also have to recognize how far we have to go, and rededicate ourselves to helping the people of the gulf coast make it home again.

I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

By Mr. HARKIN (for himself, Mr. LUGAR, Mr. DURBIN, Mr. HAGEL, and Mr. NELSON of Nebraska):

S. 3890. A bill to enhance and improve the energy security of the United States, expand economic development, increase agricultural income, and improve environmental quality by reauthorizing and improving the renewable energy systems and energy efficiency improvements program of the Department of Agriculture through fiscal year 2012, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. HARKIN. Mr. President, today I am introducing the Rural Energy for America Act of 2006. This legislation will strengthen and expand the renewable energy and energy efficiency program established in section 9006 of the Farm Security and Rural Investment Act of 2002 by increasing its overall funding, creating a new rebate program, providing new grant options for wind energy projects, allowing rural schools to qualify for the program and fostering the administration of direct

loans. I am very pleased to have Senators LUGAR, DURBIN, HAGEL and NELSON as co-sponsors.

The section 9006 Renewable Energy Systems and Energy Efficiency Improvements program—to be re-named under this legislation as the Rural Energy for America Program (REAP)—provides farmers, ranchers, and rural small businesses with financial support for installing renewable energy systems and making energy efficiency improvements.

I authored section 9006 in 2002 as Chair of the Senate Committee on Agriculture, Nutrition and Forestry with the strong support of Senator LUGAR, the Ranking Member at that time and a long-time ally in advocating for renewable energy production. This has proven to be one of the most important provisions we included in the 2002 farm bill's first-ever energy title.

During its first three years, the Renewable Energy Systems and Energy Efficiency Improvements program has distributed \$63.9 million and catalyzed the development of 412 renewable energy and energy efficiency projects in 37 states. The awards have leveraged an additional \$699 million, bringing the total program-related investment in clean energy systems for farms, ranches and rural communities to \$763 million. Thus, this program has had remarkable success in stimulating investments that increase reliance on clean, domestic energy systems and enhance energy efficiency in our agricultural and rural business sectors.

Developing and expanding homegrown renewable energy is a key part of our national energy security strategy. Section 9006 provides grant support for many different forms of renewable energy, including solar, wind, biomass, geothermal and renewable hydrogen.

Prior to 2003, there were fewer than 30 locally-owned wind farms in operation. As a direct result of the section 9006 program, over 80 new community wind projects were awarded grants by the end of 2005. When completed, these projects will have a capacity of over 300 megawatts of wind power and provide new income for American farmers and cleaner air for all of us.

Section 9006 successfully promotes on-farm anaerobic digesters, which capture and use methane gas from livestock and poultry manure. Before 2003, there were fewer than 10 digesters in operation in the United States. Under the section 9006 program, 15 new digester projects are now operational and an additional 59 projects are under development. These projects provide new sources of farm income and help farmers deal with manure in a more environmentally sound manner.

The program also has funded bio-energy production and the adoption of energy efficiency technologies and practices. As a result, 124 million gallons of ethanol and biodiesel production capacity are coming online, and energy saving improvements have been

installed at 160 farms, ranches and rural small businesses, resulting in a savings of 250 billion BTUs/year and millions of dollars in reduced electricity, diesel fuel, natural gas and propane expense.

Together, these renewable energy projects produce 16.9 trillion BTUs/year in the form of fuels, electricity and thermal energy. The combination of renewable energy and energy efficiency projects also will reduce carbon dioxide emissions into the atmosphere by 4 million metric tons a year, showing that our rural communities can be a part of the solution to global warming.

It is clear that the section 9006 program has been extraordinarily successful. However, we have only begun to tap into the potential for American ingenuity in homegrown clean energy production and energy efficiency measures. The demand for rural renewable energy and energy efficiency assistance far outpaces the program's resources. Today, the demand is almost triple the available program funding.

Our legislation will strengthen and expand the program to help agricultural producers and rural small businesses cope with high energy prices, move our rural economies forward and protect the environment. In addition to increasing overall program funding, this bill will allow rural schools to apply for REAP funding. Schools have been eager to participate in the section 9006 program since its inception. Allowing schools to qualify will help them mitigate high energy costs and help teachers educate our youth about the many benefits of energy efficiency and clean alternative energy sources.

This legislation further promotes wind energy expansion by giving farmers and other eligible developers an additional financing option. Currently, most of the funds granted for wind power projects under section 9006 are used to purchase and install wind turbine systems. Under Federal tax rules, however, grants used for such acquisition and construction costs have the potential to significantly reduce important tax credits for the project.

To avoid such counterproductive tax impacts, the legislation authorizes USDA in appropriate circumstances to structure grants as production incentives instead of equipment purchase or construction grants, thereby reducing the risk of negating the tax credit benefit. The need for such a change was highlighted in a recent report written by Berkeley National Lab entitled "Avoiding the Haircut: Potential Ways to Enhance the Value of the USDA's Section 9006 Program."

This legislation also includes a new rebate program providing the lesser of \$10,000 or 50 percent of project costs for energy efficiency improvements and the purchase of renewable energy systems. Similar state-run rebate programs are recognized as effective mechanisms for promoting small-scale development projects. This rebate program will enable small and medium-

sized farmers and rural small businesses to obtain rapid and long-lasting relief from high energy prices through a simple and proven mechanism. Grants for this purpose would be limited to no more than 20% of the total REAP funding.

This bill also urges USDA to initiate the use of direct loans to complement the REAP program grants, by expressing the sense of the Senate that USDA should implement the direct loan provisions of section 9006. Although the original legislation in section 9006 called for the establishment of a program of "grants, loans and loan guarantees," USDA has not yet established a direct loan program. Our legislation urges USDA to move a direct loan initiative forward.

The bill also allows USDA to provide grants for feasibility studies. Feasibility studies can ensure that projects are thoroughly assessed through technology and systems' analysis in their early stages, thus promoting successful and cost-effective projects. The amount of funds for feasibility studies would be capped to ensure that the majority of REAP funding continues to focus on deployment of renewable energy systems and energy efficiency improvements.

Farm-based energy initiatives encompass a wide range of proven technologies to produce or save energy. The unique and successful section 9006 program has been instrumental to adoption of renewable energy and energy efficiency systems in the agricultural and rural small business sectors. The record to date signals an opportunity for vastly expanding these alternative energy and energy efficiency benefits in rural America.

We have broad agreement in our country on moving farm-based renewable energy and energy efficiency forward. Let's help do that by updating and improving the section 9006—Rural Energy for America Program—for the future.

I urge my colleagues to support this important legislation.

By Mr. MENENDEZ (for himself,
Mrs. CLINTON, Mr. LAUTENBERG,
and Mr. SCHUMER):

S. 3891. A bill to extend the time for filing certain claims under the September 11th Victim Compensation Fund of 2001, and for other purposes; to the Committee on the Judiciary.

Mr. MENENDEZ. Mr. President, today I am pleased to join with Senators CLINTON, LAUTENBERG, and SCHUMER to introduce the James Zadroga Act. This bicameral and bipartisan legislation would reopen the September 11 Victims Compensation Fund, VCF, to provide financial assistance to victims and first responders of the attacks of 9/11 who became ill, in addition to their respective family members.

James Zadroga was a New York Police Department, NYPD, detective and New Jersey resident, who when he died earlier this year was the first 9/11 responder to have his death directly attributed to exposure to the toxins of

Ground Zero. He became ill just weeks after working at Ground Zero, but because he retired in 2004, the NYPD determined that his four-year-old daughter Tylerann could only receive a disability pension, instead of the full death benefit to which she should be entitled.

That is why in April, I authored a letter with my colleagues Senators LAUTENBERG, CLINTON, and SCHUMER that called on New York officials to enact legislation that would provide full benefits to Tylerann and other beneficiaries like her.

In August, New York enacted three new laws, including one that would allow those recovery workers who have retired from public service to have their retirement status reclassified as accidental disability if they later become ill due to their efforts at Ground Zero. That action by the State of New York is vitally important, because we unfortunately know that Detective Zadroga's death will not be the last to be suffered by the brave Americans who rushed to Ground Zero in the hours and days after September 11.

As our Nation continues to heal from the wounds inflicted by the 9/11 terror attacks, there are many first responders whose wounds have yet to heal from the aftermath of that day. We as a nation must care for those who cared for America in its time of need. We cannot let bureaucratic red tape stand between those who helped America pick up the pieces and the compensation they deserve.

Today, by introducing this legislation we take the next step in working to ensure that the heroes who sacrificed their health—and in Detective Zadroga's case, his life—will be justly compensated. I believe we owe them nothing less.

This legislation reopens the fund created to care for the families of 9/11 victims and for those injured or who became ill as a direct result of the attacks. Unfortunately, many who should have received compensation from the VCF never did because their illnesses did not develop or have become significantly worse since the original filing deadline of December 22, 2003. In other instances, original guidelines prohibited the VCF to make awards if injuries were sustained more than 96 hours after the attacks.

Specifically, the "James Zadroga Act" would: Reopen September 11 Victims Compensation Fund for individuals who became ill or did not file before the original December 22, 2003 deadline;

Allow for adjustment of previous awards if the Special Master of the fund determines the medical conditions of the claimant warrants an adjustment; and

Amend eligibility rules so that responders to the 9/11 attacks who arrived later than the first 96 hours could be eligible if they experienced illness or injury from their work at the site.

Congress needs to pass this bill—we need to stand up for these American

heroes and their families. I urge my colleagues to join with us in this important effort by cosponsoring this piece of legislation.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3891

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "James Zadroga Act of 2006".

SEC. 2. FINDINGS.

Congress finds the following:

(1) The September 11th Victim Compensation Fund of 2001 was established to provide compensation to individuals (or relatives of deceased individuals) who were physically injured or killed as a result of the terrorist-related aircraft crashes of September 11, 2001.

SEC. 1105. RELEVANT CONGRESSIONAL COMMITTEES DEFINED.

In this chapter, the term “relevant congressional committees” means the Committee on Homeland Security, the Committee on Government Reform, and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Homeland Security and Government Affairs and the Committee on Environment and Public Works of the Senate.

CHAPTER 2—ASSISTANCE FOR FIRST RESPONDERS

SEC. 1111. SHORT TITLE.

This chapter may be cited as the “Faster and Smarter Funding for First Responders Act of 2006”.

SEC. 1112. FINDINGS.

Congress makes the following findings:

(1) In order to achieve its objective of preventing, minimizing the damage from, and assisting in the recovery from terrorist attacks, the Department of Homeland Security must play a leading role in assisting communities to reach the level of preparedness they need to prevent and respond to a terrorist attack.

(2) First responder funding is not reaching the men and women of our Nation’s first response teams quickly enough, and sometimes not at all.

(3) To reform the current bureaucratic process so that homeland security dollars reach the first responders who need it most, it is necessary to clarify and consolidate the authority and procedures of the Department of Homeland Security that support first responders.

(4) Ensuring adequate resources for the new national mission of homeland security, without degrading the ability to address effectively other types of major disasters and emergencies, requires a discrete and separate grant making process for homeland security funds for first response to terrorist acts, on the one hand, and for first responder programs designed to meet pre-September 11 priorities, on the other.

(5) While a discrete homeland security grant making process is necessary to ensure proper focus on the unique aspects of terrorism preparedness, it is essential that State and local strategies for utilizing such grants be integrated, to the greatest extent practicable, with existing State and local emergency management plans.

(6) Homeland security grants to first responders must be based on the best intelligence concerning the capabilities and intentions of our terrorist enemies, and that intelligence must be used to target resources to the Nation’s greatest threats, vulnerabilities, and consequences.

(7) The Nation’s first response capabilities will be improved by sharing resources, training, planning, personnel, and equipment among neighboring jurisdictions through mutual aid agreements and regional cooperation. Such regional cooperation should be supported, where appropriate, through direct grants from the Department of Homeland Security.

(8) An essential prerequisite to achieving the Nation’s homeland security objectives for first responders is the establishment of well-defined national goals for terrorism preparedness. These goals should delineate the essential capabilities that every jurisdiction in the United States should possess or to which it should have access.

(9) A national determination of essential capabilities is needed to identify levels of State and local government terrorism preparedness, to determine the nature and extent of State and local first responder needs, to identify the human and financial resources required to fulfill them, to direct funding to meet those needs, and to measure preparedness levels on a national scale.

(10) To facilitate progress in achieving, maintaining, and enhancing essential capabilities for State and local first responders, the Department of Homeland Security should seek to allocate homeland security funding for first responders to meet nationwide needs.

(11) Private sector resources and citizen volunteers can perform critical functions in

assisting in preventing and responding to terrorist attacks, and should be integrated into State and local planning efforts to ensure that their capabilities and roles are understood, so as to provide enhanced State and local operational capability and surge capacity.

(12) Public-private partnerships, such as the partnerships between the Business Executives for National Security and the States of New Jersey and Georgia, can be useful to identify and coordinate private sector support for State and local first responders. Such models should be expanded to cover all States and territories.

(13) An important aspect of terrorism preparedness is measurability, so that it is possible to determine how prepared a State or local government is now, and what additional steps it needs to take, in order to prevent, prepare for, respond to, mitigate against, and recover from acts of terrorism.

(14) The Department of Homeland Security should establish, publish, and regularly update national voluntary consensus standards for both equipment and training, in cooperation with both public and private sector standard setting organizations, to assist State and local governments in obtaining the equipment and training to attain the essential capabilities for first response to acts of terrorism, and to ensure that first responder funds are spent wisely.

SEC. 1208. SEMI-ANNUAL REPORT ON PLANS AND STRATEGIES OF UNITED STATES NORTHERN COMMAND FOR DEFENSE OF THE UNITED STATES HOMELAND.

(a) **FINDINGS.**—Consistent with the report of the 9/11 Commission, Congress makes the following findings:

(1) The primary responsibility for national defense is with the Department of Defense and the secondary responsibility for national defense is with the Department of Homeland Security, and the two departments must have clear delineations of responsibility.

(2) Before September 11, 2001, the North American Aerospace Defense Command, which had responsibility for defending United States airspace on September 11, 2001—

(A) focused on threats coming from outside the borders of the United States; and

(B) had not increased its focus on terrorism within the United States, even though the intelligence community had gathered intelligence on the possibility that terrorists might turn to hijacking and even the use of airplanes as missiles within the United States.

(3) The United States Northern Command has been established to assume responsibility for defense within the United States.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Secretary of Defense should regularly assess the adequacy of the plans and strategies of the United States Northern Command with a view to ensuring that the United States Northern Command is prepared to respond effectively to all military and paramilitary threats within the United States; and

SEC. 1212. PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD.

(a) **SHORT TITLE.**—This section may be cited as the “9/11 Commission Civil Liberties Board Act”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) On July 22, 2004 the National Commission on Terrorist Attacks Upon the United States issued a report that included 41 specific recommendations to help prevent future terrorist attacks, including details of a global strategy and government reorganization necessary to implement that strategy.

(2) One of the recommendations focused on the protections of civil liberties. Specifically the following recommendation was made: “At this time of increased and consolidated government authority, there should be a board within the executive branch to oversee adherence to the guidelines we recommend and the commitment the government makes to defend our civil liberties.”

(3) The report also states that “the choice between security and liberty is a false choice, as nothing is more likely to endanger America’s liberties than the success of a terrorist attack at home. Our History has shown that the insecurity threatens liberty at home. Yet if our liberties are curtailed, we lose the values that we are struggling to defend.”

(4) On December 17, 2004, Public Law 108-458, the National Intelligence Reform Act, was signed into law. This law created a civil liberties board that does not have the authority necessary to protect civil liberties.

(5) The establishment and adequate funding of a Privacy and Civil Liberties Oversight Board was a crucial recommendation made by the 9/11 Commission.

(6) In its Final Report on 9/11 Commission Recommendations, the Commission noted “very little urgency” and “insufficient” funding as it relates to the establishment of the Privacy and Civil Liberties Oversight Board.

(7) While the President’s budget submission for fiscal year 2006 included \$750,000 for the Privacy and Civil Liberties Oversight Board, the President’s budget submission for fiscal year 2007 does not contain a funding line for the Board.

Subtitle C—Nonproliferation

SEC. 1321. SHORT TITLE.

This subtitle may be cited as the “Omni-bus Nonproliferation and Anti-Nuclear Terrorism Act of 2006”.

SEC. 1322. FINDINGS.

Congress makes the following findings:

(1) **LOOSE NUCLEAR WEAPONS AND MATERIALS IN THE FORMER SOVIET UNION.**—

(A) There are in the world today enormous stockpiles of nuclear weapons and the materials required to make them. Counting materials both in assembled warheads and in other forms, worldwide totals are estimated to encompass some 1,900 tons of highly enriched uranium (enough for 143,000 nuclear weapons) and 1,855 tons of plutonium (enough for 330,000 nuclear weapons).

(B) The Russian Federation alone is estimated to have over 1,000 tons of highly enriched uranium (enough for over 80,000 nuclear weapons) and 140 tons of plutonium (enough for over 30,000 nuclear weapons).

(C) The United States has been working for over a decade to eliminate stockpiles of loose nuclear weapons and materials in the former Soviet Union, but the Department of

Energy acknowledges that there is still a need to properly secure about 460 tons of weapons-usable Russian nuclear material (outside of warheads), enough for more than 35,000 nuclear weapons.

(D) A recent report by the Central Intelligence Agency faulted the security of nuclear arsenal facilities in the Russian Federation and assessed that “undetected smuggling has occurred.”

(E) There are at least 18 documented incidents of “proliferation significant” fissile material trafficking from facilities in the former Soviet Union between 1991 and 2001. In one incident in 1998, an inside conspiracy at a Russian nuclear weapons facility attempted to steal 18.5 kilograms of highly enriched uranium. In another incident, 2 kilograms of highly enriched uranium taken from a research facility in Sukhumi, Georgia, has never been recovered.

(F) In May 1994, German police found a small but worrisome quantity of supergrade plutonium in the garage of Adolf Jackle. Extremely expensive to produce, this rare item was likely stolen from one of Russia’s two premier nuclear weapons laboratories.

(G) Comprehensive security upgrades are not yet completed at 90 percent of Russian nuclear warhead bunkers for Russia’s Strategic Rocket Forces.

(H) Border security in the former Soviet Union is inconsistent at best. Existing infrastructure helps at the outer borders of the former Soviet Union but many borders internal to the former Soviet Union, such as the border between Kazakhstan and the Russian Federation, exist only on a map.

(2) **LOOSE NUCLEAR MATERIALS AROUND THE GLOBE.**—

(A) Dangerous caches of weapons-usable nuclear materials, much of it poorly secured and vulnerable to theft, exist in a multitude of facilities around the world. For example, there are over 130 research reactors in over 40 countries that house highly enriched uranium, some with enough to manufacture an atomic bomb. In total, about 40 tons of highly enriched uranium, enough for over 1,000 nuclear weapons, is estimated to remain in civilian research reactors.

(B) Over the last 50 years, the United States is known to have exported about 27.5 tons of highly enriched uranium to 43 countries to help develop nuclear power production or bolster scientific initiatives. In 1996, the United States began an effort to recover the more than 17.5 tons of the nuclear material that was still overseas, but has recovered only about 1 ton, according to the Department of Energy and the Government Accountability Office.

(C) It is especially important to keep highly enriched uranium out of terrorists’ hands because, with minimal expertise, they could use it to make the simplest, gun-type nuclear weapon—a device in which a high explosive is used to blow one subcritical piece of highly enriched uranium from one end of a tube into another subcritical piece held at the opposite end of the tube.

(D) To Osama bin Laden, acquiring weapons of mass destruction is a “religious duty”. Al Qaeda and more than two dozen other terrorist groups are pursuing capability to use weapons of mass destruction.

(E) Osama bin Laden’s press spokesman, Sulaiman Abu Ghait, has announced that the group aspires “to kill 4 million Americans, including 1 million children,” in response to casualties supposedly inflicted on Muslims by the United States and Israel.

(F) Al Qaeda documents recovered in Afghanistan reveal a determined research effort focused on nuclear weapons.

(3) **SECURITY STANDARDS FOR ALL NUCLEAR WEAPONS AND MATERIALS.**—

(A) There are no international binding standards for the secure handling and storage of nuclear weapons and materials.

(B) Making a nuclear weapon requires only 4 to 5 kilograms of plutonium or 12 to 15 kilograms of highly enriched uranium.

(C) In October 2001, the United States Government became very concerned that Al Qaeda may have smuggled a 10-kiloton Russian nuclear warhead into New York City. If placed in lower Manhattan, such a device would probably kill 100,000 people instantly, seriously injure tens of thousands more, and render the entire area uninhabitable for decades to come.

(4) RUSSIA'S NUCLEAR EXPERTISE.—

(A) Employment at the large nuclear facilities in the Russian Federation's 10 closed nuclear cities is estimated to be in the range of 120,000 to 130,000 people, of whom approximately 75,000 were employed on nuclear weapons-related work.

(B) Poor wages and living conditions in Russian "nuclear cities" have inspired protests and strikes among the employees working in them.

(C) Insiders have been caught attempting to smuggle nuclear materials out of these facilities, presumably to sell on the lucrative black market.

SEC. 1323. ESTABLISHMENT OF OFFICE OF NONPROLIFERATION PROGRAMS IN THE EXECUTIVE OFFICE OF THE PRESIDENT.

(a) **ESTABLISHMENT.**—There is established in the Executive Office of the President an Office of Nonproliferation Programs (in this section referred to as the "Office").

(b) **DIRECTOR; ASSOCIATE DIRECTORS.**—There shall be at the head of the Office a Director who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level II of the Executive Schedule in section 5313 of title 5, United States Code. The President is authorized to appoint not more than four Associate Directors, by and with the advice and consent of the Senate, who shall be compensated at a rate not to exceed that provided for level III of the Executive Schedule in section 5314 of such title. Associate Directors shall perform such functions as the Director may prescribe.

(c) PRIMARY FUNCTIONS OF DIRECTOR.—

(1) **IN GENERAL.**—The primary function of the Director is to coordinate and lead—

(A) efforts by the United States to curb terrorist access to nuclear technology, materials, or expertise; and

(B) other United States nonproliferation activities, including nuclear nonproliferation activities and activities to counter other weapons of mass destruction.

(2) **SPECIFIC FUNCTIONS.**—In addition to such other functions and activities as the President may assign, the Director shall—

(A) advise the President, and others within the Executive Office of the President, on the role and effect of such nonproliferation activities on national security and international relations;

(B) lead the development and implementation of a plan (including appropriate budgets, other resources, goals, and metrics for assessing progress) to ensure that all the highest-priority actions to prevent terrorists from getting and using nuclear weapons are taken in the shortest possible time, including but not limited to a fast-paced global effort to ensure that every nuclear warhead and every kilogram of weapons-usable nuclear material worldwide is secured and accounted for, to standards sufficient to defeat demonstrated terrorist and criminal threats, as rapidly as that objective can be accomplished;

(C) identify obstacles to accelerating and strengthening efforts to prevent terrorists

from getting and using nuclear weapons, and raise approaches to overcoming these obstacles for action by the President or other appropriate officials;

(D) lead an effort, to be carried out jointly by the various Federal agencies responsible for carrying out such nonproliferation activities, to establish priorities among those activities and to develop and implement strategies and budgets that reflect those priorities;

(E) build strong partnerships with respect to such nonproliferation activities among Federal, State, and local governments, foreign governments, international organizations, and nongovernmental organizations; and

(F) evaluate the scale, quality, and effectiveness of the Federal effort with respect to such nonproliferation activities and advise on appropriate actions.

(3) by striking subsections (c) and (d); and

(4) by redesignating subsection (e) as subsection (c).

“(N) Take such other actions as may be necessary to effectively implement the Global Threat Reduction Initiative.”.

SEC. 1331. EXPANSION OF PROLIFERATION SECURITY INITIATIVE.

(a) SENSE OF CONGRESS RELATING TO PROLIFERATION SECURITY INITIATIVE.—It is the sense of Congress that—

(1) the President should strive to expand and strengthen the Proliferation Security Initiative announced by the President on May 31, 2003, placing particular emphasis on including countries outside of NATO; and

(2) the United States should engage the United Nations to develop a Security Council Resolution to authorize the Proliferation Security Initiative under international law, including by providing legal authority to stop shipments of weapons of mass destruction, their delivery systems, and related materials.

(b) AUTHORIZATION OF APPROPRIATIONS RELATING TO PROLIFERATION SECURITY INITIATIVE.—There are authorized to be appropriated for fiscal year 2007, \$50,000,000 to conduct joint training exercises regarding interdiction of weapons of mass destruction under the Proliferation Security Initiative. Particular emphasis should be given to allocating funds from such amount—

(1) to invite other countries that do not participate in the Proliferation Security Initiative to observe the joint training exercises; and

(2) to conduct training exercises with countries that openly join the Proliferation Security Initiative after the date of the enactment of this Act.

SEC. 1332. SENSE OF CONGRESS RELATING TO INTERNATIONAL SECURITY STANDARDS FOR NUCLEAR WEAPONS AND MATERIALS.

It is the sense of Congress that the President should seek to devise and implement standards to improve the security of nuclear weapons and materials by—

(1) establishing with other willing nations a set of performance-based standards for the security of nuclear weapons and weapons;

(2) negotiating with those nations an agreement to adopt the standards and implement appropriate verification measures to assure ongoing compliance; and

(3) coordinating with those nations and the International Atomic Energy Agency to strongly encourage other states to adopt and verifiably implement the standards.

SEC. 1333. AUTHORIZATION OF APPROPRIATIONS RELATING TO INVENTORY OF RUSSIAN TACTICAL NUCLEAR WARHEADS AND DATA EXCHANGES.

In addition to any other amounts authorized to be appropriated for such purposes, there are authorized to be appropriated to the Administrator for Nuclear Security for fiscal year 2007, \$5,000,000 for assistance to Russia to facilitate the conduct of a comprehensive inventory of the stockpile of Russia of—

(1) non-strategic nuclear weapons; and

(2) nuclear weapons, whether strategic or non-strategic, that are not secured by PALs or other electronic means.

SEC. 1334. REPORT ON ACCOUNTING FOR AND SECURING OF RUSSIA'S NON-STRATEGIC NUCLEAR WEAPONS.

counting for and securing of Russia's non-strategic nuclear weapons and Russia's nuclear weapons, whether strategic or non-strategic, that are not secured by PALs or other electronic means;

(2) detail the actions that are most likely to lead to progress in improving the accounting for and securing or dismantlement of such weapons; and

(3) detail the feasibility of enhancing the national security of the United States by developing increased transparency between the United States and Russia with respect to the numbers, locations, and descriptions of such weapons and of the corresponding weapons of the United States.

SEC. 1335. RESEARCH AND DEVELOPMENT INVOLVING ALTERNATIVE USE OF WEAPONS OF MASS DESTRUCTION EXPERTISE.

(a) AUTHORITY TO USE FUNDS.—Notwithstanding any other provision of law and subject to subsection (c), any funds available to a department or agency of the Federal Government may be used to conduct non-defense research and development in Russia and the states of the former Soviet Union on technologies specified in subsection (b) utilizing scientists in Russia and the states of the former Soviet Union who have expertise in—

(1) nuclear weapons; or

(2) chemical or biological weapons, but only if such scientists no longer engage, or have never engaged, in activities supporting prohibited chemical or biological capabilities.

(b) TECHNOLOGIES.—The technologies specified in this subsection are technologies on the following:

(1) Environmental restoration and monitoring.

(2) Proliferation detection.

(3) Health and medicine, including research.

(4) Energy.

(c) LIMITATION.—Funds may not be used under subsection (a) for research and development if the Secretary of State, in consultation with the Secretary of Defense and the Secretary of Energy, determines that such research and development will—

(1) pose a threat to the security interests of the United States; or

(2) further materially any defense technology.

(d) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There is authorized to be appropriated to the Department of State \$20,000,000 for fiscal year 2007 for the following purposes:

(2) AVAILABILITY.—(A) Amounts authorized to be appropriated by paragraph (1) are authorized to remain available until expended.

(B) Any amount transferred to a department or agency of the Federal Government pursuant to paragraph (1)(B) shall be merged with amounts available to such department or agency to cover costs concerned, and shall be available for the same purposes, and for the same period, as amounts with which merged.

SEC. 1336. STRENGTHENING THE NUCLEAR NON-PROLIFERATION TREATY.

(a) FINDINGS.—Congress makes the following findings:

(1) Article IV of the Treaty on the Non-Proliferation of Nuclear Weapons (commonly referred to as the Nuclear Nonproliferation Treaty or NPT) (21 UST 483) states that countries that are parties to the treaty have

the “inalienable right . . . to develop research, production and use of nuclear energy for peaceful purposes without discrimination and in conformity with articles I and II of this treaty.”.

(2) The rights outlined under article IV include all fuel cycle activities, despite the fact that uranium enrichment and plutonium production potentially put a country in a position to produce weapons usable material.

(3) David Bergmann, former chairman of the Israeli Atomic Energy Commission, stated: “. . . by developing atomic energy for peaceful uses, you reach the nuclear weapon option. There are not two atomic energies”.

(4) The wording of article IV has made it possible for countries that are parties to the NPT treaty to use peaceful nuclear programs as a cover for weapons programs. In particular, the misuse by North Korea and Iran of these provisions threatens to undercut the viability of the nuclear nonproliferation regime and the entire system of international nuclear commerce.

(5) If the international community fails to devise effective measures to deal with the “loophole” in article IV, then there is a great likelihood that the ranks of countries possessing nuclear weapons will increase markedly in the next decade.

(b) PRESIDENTIAL REPORT ON CONTROL OF NUCLEAR FUEL CYCLE TECHNOLOGIES AND MATERIAL.—Not later than 90 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a report identifying ways to more effectively control nuclear fuel cycle technologies and material, including ways that the United States can mobilize the international community to close the “loophole” of article IV of the NPT, without undermining the treaty itself.

SEC. 1337. DEFINITIONS.

In this subtitle:

(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term “appropriate congressional committees” means—

(A) the Committee on International Relations, the Committee on Armed Services, the Committee on Homeland Security, and the Committee on Appropriations of the House of Representatives; and

(B) the Committee on Foreign Relations, the Committee on Armed Services, the Committee on Homeland Security and Governmental Affairs, and the Committee on Appropriations of the Senate.

(2) COOPERATIVE THREAT REDUCTION PROGRAMS.—The term “Cooperative Threat Reduction programs” means programs and activities specified in section 1501(b) of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201; 110 Stat. 2731; 50 U.S.C. 2362 note).

DIVISION B—COMBATTING TERRORISM

SEC. 2001. SHORT TITLE.

This division may be cited as the “Targeting Terrorists More Effectively Act of 2006”.

TITLE XXI—EFFECTIVELY TARGETING TERRORISTS

SEC. 2101. SENSE OF CONGRESS ON SPECIAL OPERATIONS FORCES AND RELATED MATTERS.

It is the sense of Congress that—

(1) the number of active-duty Army Special Forces-qualified personnel should be increased during the four years after the date of the enactment of this Act so that on the date that is four years after the date of such enactment such number is 9,290;

(2) an additional 16 Predator aircraft should be acquired for the Air Force Special Operations Command by the end of fiscal year 2008;

(3) an additional Special Operations squadron should be established not later than fiscal year 2009; and

(4) the increase in the number of regular and reserve component personnel who are assigned civil affairs duty should be accelerated.

SEC. 2102. FOREIGN LANGUAGE EXPERTISE.

(a) FINDINGS.—Congress makes the following findings:

(1) Success in the global war on terrorism will require a dramatic increase in institutional and personal expertise in the languages and cultures of the societies where terrorism has taken root, including a substantial increase in the number of national security personnel who obtain expert lingual training.

(2) The National Commission on Terrorist Attacks Upon the United States identified the countries in the Middle East, South Asia, Southeast Asia, and West Africa as countries that serve or could serve as terrorist havens.

(3) Although 22 countries have Arabic as their official language, the National Commission on Terrorist Attacks Upon the United States found that a total of only 6 undergraduate degrees for the study of Arabic were granted by United States colleges and universities in 2002.

(4) The report of the National Commission on Terrorist Attacks Upon the United States contained several criticisms of the lack of linguistic expertise in the Central Intelligence Agency and the Federal Bureau of Investigation prior to the September 11, 2001 terrorist attacks, and called for the Central Intelligence Agency to “develop a stronger language program, with high standards and sufficient financial incentives”.

(5) An audit conducted by the Department of Justice in July 2004, revealed that the Federal Bureau of Investigation has a backlog of hundreds of thousands of untranslated audio recordings from terror and espionage investigations.

(6) The National Security Education Program Trust Fund, which funds critical grant and scholarship programs for linguistic training in regions critical to national security, will have exhausted all its funding by fiscal year 2006, unless additional appropriations are made to the Trust Fund.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the overwhelming majority of Muslims reject terrorism and a small, radical minority has grossly distorted the teachings of one of the world’s great faiths to seek justification for acts of terrorism, such radical Islamic fundamentalism constitutes a primary threat to the national security interests of the United States, and an effective strategy for combating terrorism should include increasing the number of personnel throughout the Federal Government with expertise in languages spoken in predominately Muslim countries and in the culture of such countries;

(2) Muslim-Americans constitute an integral and cherished part of the fabric of American society and possess many talents, including linguistic, historic, and cultural expertise that should be harnessed in the war against radical, fundamentalist terror; and

(3) amounts appropriated for the National Flagship Language Initiative pursuant to the amendments made by subsection (e)(2) should be used to support the establishment, operation, and improvement of programs for the study of Arabic, Persian, and other Middle Eastern, South Asian, Southeast Asian, and West African languages in institutes of higher education in the United States.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) NATIONAL SECURITY EDUCATION TRUST FUND.—Section 810 of the David L. Boren Na-

tional Security Education Act of 1991 (50 U.S.C. 1910) is amended by adding at the end the following:

“(d) AUTHORIZATION OF APPROPRIATIONS FOR THE FUND FOR FISCAL YEAR 2007.—

“(1) IN GENERAL.—There are authorized to be appropriated to the Fund \$150,000,000 for fiscal year 2007.

“(2) AVAILABILITY OF FUNDS.—Amounts appropriated pursuant to the authorization of appropriations in paragraph (1) shall remain available until expended and not more than \$15,000,000 of such amounts may be obligated and expended during any fiscal year.”.

(2) NATIONAL FLAGSHIP LANGUAGE INITIATIVE.—

(2) Public diplomacy should reaffirm the paramount commitment of the United States to democratic principles, including preserving the civil liberties of all the people of the United States, including Muslim-Americans.

(3) The report of the National Commission on Terrorist Attacks Upon the United States stated that, “Recognizing that Arab and Muslim audiences rely on satellite television and radio, the government has begun some promising initiatives in television and radio broadcasting to the Arab world, Iran, and Afghanistan. These efforts are beginning to reach large audiences. The Broadcasting Board of Governors has asked for much larger resources. It should get them.”

SEC. 2223. TREATMENT OF DETAINEES.

(a) FINDINGS.—Consistent with the report of the National Commission on Terrorist Attacks Upon the United States, Congress makes the following findings:

with respect to the detention and treatment of captured international terrorists that are adhered to by all coalition forces.

(2) Article 3 of the Convention Relative to the Treatment of Prisoners of War, done at Geneva August 12, 1949 (6 UST 3316), was specifically designed for cases in which the usual rules of war do not apply, and the minimum standards of treatment pursuant to such Article are generally accepted throughout the world as customary international law.

(3) The Commission on Terrorist Attacks Upon the United States urged to the United States to engage its friends to develop a common coalition approach toward the detention and humane treatment of captured terrorists. The 9/11 Public Discourse Project went on to give the Administration a ranking of “unfulfilled” in this area, commenting that “[d]ismissal either at home or abroad on how the United States treats captured terrorists only makes it harder to build the diplomatic, political and military alliance necessary to fight the war on terror effectively”.

(2) It is the policy of the United States that all officials of the United States are bound both in wartime and in peacetime by the legal prohibitions against torture, cruel, inhumane, or degrading treatment set out in the Constitution, laws, and treaties of the United States, as reiterated by the Supreme Court in *Hamdan v. Rumsfeld* (126 S. Ct. 2749 (2006)).

(3) If there is any doubt as to whether a detainee is entitled to the protections afforded by the Geneva Conventions, it is the policy of the United States that such detainee shall enjoy the protections of the Convention Relative to the Treatment of Prisoners of War, done at Geneva August 12, 1949 (6 UST 3316) until such time as the detainee’s status can be determined pursuant to the procedures authorized by Army Regulation 190-8, Section 1-096.

(4) It is the policy of the United States to expeditiously process and, if appropriate, prosecute detainees in the custody of the United States, including detainees in custody at Guantanamo Bay, Cuba.

(c) REPORTING.—The Secretary shall submit to the appropriate congressional committees the following:

(1) Not later than 180 days after the date of the enactment of this Act, a report setting forth the number of individuals currently held at Guantanamo Bay, Cuba, the number of such individuals who are unlikely to face a military commission in the next six months, and each reason for not bringing such individuals before a military commission.

(2) Not later than 90 days after the date of the enactment of this Act, a report setting forth all interrogation techniques approved, as of the date of the enactment of this Act, by officials of the United States for use with detainees.

(2) REPORT TO CONGRESS.—The Secretary and the Director shall submit to Congress the rules, regulations, or guidelines prescribed under paragraph (1), and any modifications to such rules, regulations, or guidelines—

(1) REQUIREMENT.—The Secretary and the Director shall each submit, on a timely basis and not less than twice each year, a report to Congress on the circumstances surrounding, and a status report on, any investigation of, or prosecution on account of, a possible violation of the standards specified in subsection (d)(1) by United States Government personnel or by a person providing services to the United States Government on a contract basis.

(2) FORM OF REPORT.—A report required under paragraph (1) shall be submitted in a manner and form that—

(A) will protect the national security interests of the United States; and

Subtitle C—First Responders

SEC. 2321. FINDINGS.

Congress makes the following findings:

(1) In a report entitled “Emergency First Responders: Drastically Underfunded, Dangerously Unprepared”, an independent task force sponsored by the Council on Foreign Relations found that “America’s local emergency responders will always be the first to confront a terrorist incident and will play the central role in managing its immediate consequences. Their efforts in the first minutes and hours following an attack will be critical to saving lives, establishing order, and preventing mass panic. The United States has both a responsibility and a critical need to provide them with the equipment, training, and other resources necessary to do their jobs safely and effectively.”.

(2) The task force further concluded that many state and local emergency responders, including police officers and firefighters, lack the equipment and training needed to respond effectively to a terrorist attack involving weapons of mass destruction.

(3) The Federal Government has a responsibility to ensure that the people of the United States are protected to the greatest possible extent against a terrorist attack, especially an attack that utilizes nuclear, chemical, biological, or radiological weapons, and consequently, the Federal Government has a critical responsibility to address the equipment, training, and other needs of State and local first responders.

SEC. 2322. RESTORATION OF JUSTICE ASSISTANCE FUNDING.

(2) An independent task force has concluded that hundreds of local police offices and firefighting and emergency response units throughout the United States are unprepared for responding to a terrorist attack involving nuclear, chemical, biological, or radiological weapons.

(3) The Edward Byrne Memorial Justice Assistance Grant Program provides critical Federal support for personnel, equipment, training, and technical assistance for the homeland security responsibilities of local law enforcement offices.

(4) The Consolidated Appropriations Act, 2005 (Public Law 108-447) appropriated funding for the Edward Byrne Memorial Justice Assistance Grant Program, a program that resulted from the combination of the Edward Byrne Memorial Grant Program and the Local Law Enforcement Block Grant Program.

(5) Funding for the Edward Byrne Memorial Justice Assistance Grant Program, as provided in the Consolidated Appropriations Act, 2005, has been reduced by nearly 50 percent since fiscal year 2002.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should request in the annual budget proposal, and Congress should appropriate, the full amount authorized to be appropriated in subsection (c).

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for the Edward Byrne Memorial Justice Assistance Grant Program—

TITLE XXV—OTHER MATTERS

SEC. 2501. SENSE OF CONGRESS ON MILITARY COMMISSIONS FOR THE TRIAL OF PERSONS DETAINED IN THE GLOBAL WAR ON TERRORISM.

(a) FINDINGS.—Congress makes the following findings:

(1) The Constitution of the United States grants to Congress the power “To define and punish . . . Offenses against the Law of Nations”, as well as the power “To declare War . . . To raise and support Armies . . . [and] To provide and maintain a Navy.”.

(2) On November 13, 2001, the President issued a military order establishing military commissions to try individuals detained in the global war on terrorism.

(3) On June 29, 2006, the Supreme Court held in *Hamdan v. Rumsfeld* (126 S. Ct. 2749 (2006)) that—

(A) the authority to establish military commissions “can derive only from the powers granted jointly to the President and Congress in time of war”; and

(B) the military commission established by the President to try Hamdan “lacks the power to proceed” because the procedures governing the commission departed impermissibly from the procedures governing courts martial and the requirements of Common Article 3 of the Geneva Conventions; and

(C) procedures governing military commissions may depart from the procedures governing courts martial “only if some practical need explains deviations from court-martial practice”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) aliens detained by the United States who are alleged to have violated the law of war should be tried for their offenses;

(2) it is in the national interest for Congress to exercise its authority under the Constitution to enact legislation authorizing and regulating the use of military commissions to try and punish offenders against the law of war;

(3) procedures established by Congress for the use of military commissions should be consistent with the decision of the Supreme Court in *Hamdan v. Rumsfeld*;

(4) in drafting legislation for the use of military commissions, the Committees on Armed Services of the Senate and the House of Representatives should take into account the views of professional military lawyers who have experience in prosecuting, defending, and judging cases under chapter 47 of title 10, United States Code (the Uniform Code of Military Justice);

(5) the Committee on Armed Services of the Senate is drafting a bipartisan proposal on military commissions that reflects the views of senior military lawyers, and this process must be allowed to move forward; and

(6) as the Judge Advocate General of the Navy explained in testimony before the Committee on Armed Services of the Senate on July 13, 2006, “[w]e need to think in terms of the long view, and to always put our own sailors, soldiers, Marines, and airmen in the place of an accused when we’re drafting these rules to ensure that these rules are acceptable when we have someone in a future war who faces similar rules”.

SEC. 3315. SENSE OF CONGRESS ON ELECTRONIC SURVEILLANCE.

(a) FINDINGS.—Congress makes the following findings:

(1) United States government authorities should have the legal authority to engage in electronic surveillance of any telephone conversation in which one party is reasonably believed to be a member or agent of a terrorist organization.

(2) Absent emergency or other appropriate circumstances, domestic electronic surveillance should be subject to judicial review in order to protect the privacy of law abiding Americans with no ties to terrorism.

(3) The Foreign Intelligence Surveillance Act of 1978 (FISA) authorizes the President to obtain a warrant for the electronic surveillance of any telephone conversation in which one party is reasonably believed to be a member or agent of a terrorist organization. That Act also establishes procedures for engaging in electronic surveillance without a warrant on a temporary basis when emergency circumstances make obtaining a warrant impractical.

(4) During the quarter century since the enactment of the Foreign Intelligence Surveillance Act of 1978, the Foreign Intelligence Surveillance Court has issued a warrant for electronic surveillance in response to all but 5 of the approximately 19,000 applications for such a warrant.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Select Committee on Intelligence of the Senate and the Permanent Select Committee on Intelligence of the House of Representatives must be fully briefed on the history, operation, and usefulness of the warrantless wiretapping program carried out by the National Security Agency;

(2) Congress should modify the Foreign Intelligence Surveillance Act of 1978 as needed to ensure that the government may engage in electronic surveillance of telephone conversations in which one party is reasonably believed to be a member or agent of a terrorist organization;

(3) the requirement that the government must, absent emergency or other appropriate circumstances, obtain a judicial warrant prior to engaging in electronic surveillance of a United States person should remain in place to protect the privacy of law abiding Americans with no ties to terrorism; and

(4) the President is not above the law and must abide by congressionally-enacted procedures for engaging in electronic surveillance.

**DIVISION E—A NEW DIRECTION IN IRAQ
TITLE LI—UNITED STATES POLICY ON
IRAQ**

SEC. 5001. UNITED STATES POLICY ON IRAQ.

(a) **SHORT TITLE.**—This section may be cited as the “United States Policy on Iraq Act of 2006”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) Global terrorist networks, including those that attacked the United States on September 11, 2001, continue to threaten the national security of the United States and are recruiting, planning, and developing capabilities to attack the United States and its allies throughout the world.

(2) Winning the fight against terrorist networks requires an integrated, comprehensive effort that uses all facets of power of the United States and the members of the international community who value democracy, freedom, and the rule of law.

(3) The United States Armed Forces, particularly the Army and Marine Corps, are stretched thin, and many soldiers and Marines have experienced three or more deployments to combat zones.

(4) Sectarian violence has surpassed the insurgency and terrorism as the main security threat in Iraq, increasing the prospects of a broader civil war which could draw in Iraq’s neighbors.

(5) United States and coalition forces have trained and equipped more than 129,000 Iraqi soldiers, sailors, and airmen, and more than 165,000 Iraqi police, highway patrol, and other Ministry of Interior forces.

(6) Of the 106 operational Iraqi Army combat battalions, 85 are either in the lead or operating independently, according to the August 2006 report of the Administration to Congress entitled “Measuring Stability and Security in Iraq”;

(7) Congress expressed its sense in the National Defense Authorization Act for Fiscal Year 2006 (119 Stat. 3466) that “calendar year 2006 should be a period of significant transition to full Iraqi sovereignty, with Iraqi security forces taking the lead for the security

of a free and sovereign Iraq, thereby creating the conditions for the phased redeployment of United States forces from Iraq”.

(8) Iraq’s security forces are heavily infiltrated by sectarian militia, which has greatly increased sectarian tensions and impeded the development of effective security services loyal to the Iraq Government.

(9) With the approval by the Iraqi Council of Representatives of the ministers of defense, national security, and the interior on June 7, 2006, the entire cabinet of Prime Minister Maliki is now in place.

(10) Pursuant to the Iraq Constitution, the Council of Representatives is to appoint a Panel which will have 4 months to recommend changes to the Iraq Constitution.

(11) Despite pledges of more than \$8,000,000,000 in assistance for Iraq by foreign governments other than the United States at the Madrid International Donors’ Conference in October 2003, only \$3,500,000,000 of such assistance has been forthcoming.

(12) The current open-ended commitment of United States forces in Iraq is unsustainable and a deterrent to the Iraqis making the political compromises and personnel and resource commitments that are needed for the stability and security of Iraq.

(c) **SENSE OF CONGRESS.**—It is the sense of Congress that in order to change course from an open-ended commitment and to promote the assumption of security responsibilities by the Iraqis, thus advancing the chances for success in Iraq—

(1) the following actions need to be taken to help achieve the broad-based and sustainable political settlement so essential for defeating the insurgency and preventing all-out civil war—

(A) there must be a fair sharing of political power and economic resources among all the Iraqi groups so as to invest them in the formation of an Iraqi nation by either amendments to the Iraq Constitution or by legislation or other means, within the timeframe provided for in the Iraq Constitution;

(B) the President should convene an international conference so as to more actively involve the international community and Iraq’s neighbors, promote a durable political settlement among Iraqis, reduce regional interference in Iraq’s internal affairs, encourage more countries to contribute to Iraq’s extensive needs, and ensure that pledged funds are forthcoming;

(C) the Iraq Government should promptly and decisively disarm the militias and remove those members of the Iraqi security forces whose loyalty to the Iraq Government is in doubt; and

(D) the President should—

(i) expedite the transition of United States forces in Iraq to a limited presence and mission of training Iraqi security forces, providing logistic support of Iraqi security forces, protecting United States infrastructure and personnel, and participating in targeted counterterrorism activities;

(ii) after consultation with the Government of Iraq, begin the phased redeployment of United States forces from Iraq this year; and

(iii) submit to Congress a plan by the end of 2006 with estimated dates for the continued phased redeployment of United States forces from Iraq, with the understanding that unexpected contingencies may arise;

(2) during and after the phased redeployment of United States forces from Iraq, the United States will need to sustain a non-military effort to actively support reconstruction, governance, and a durable political solution in Iraq; and

(3) the President should carefully assess the impact that ongoing United States military operations in Iraq are having on the capability of the United States Government to

conduct an effective counterterrorism campaign to defeat the broader global terrorist networks that threaten the United States.

TITLE LII—SPECIAL COMMITTEE OF SENATE ON WAR AND RECONSTRUCTION CONTRACTING

SEC. 5101. FINDINGS.

Congress makes the following findings:

(1) The wars in Iraq and Afghanistan have exerted very large demands on the Treasury of the United States and required tremendous sacrifice by the members of the Armed Forces of the United States.

(2) Congress has a constitutional responsibility to ensure comprehensive oversight of the expenditure of United States Government funds.

(3) Waste and corporate abuse of United States Government resources are particularly unacceptable and reprehensible during times of war.

(4) The magnitude of the funds involved in the reconstruction of Afghanistan and Iraq and the war on terrorism, together with the speed with which these funds have been committed, presents a challenge to the effective performance of the traditional oversight function of Congress and the auditing functions of the executive branch.

(5) The Senate Special Committee to Investigate the National Defense Program, popularly known as the Truman Committee, which was established during World War II, offers a constructive precedent for bipartisan oversight of wartime contracting that can also be extended to wartime and postwar reconstruction activities.

(6) The Truman Committee is credited with an extremely successful investigative effort, performance of a significant public education role, and achievement of fiscal savings measured in the billions of dollars.

(7) The public has a right to expect that taxpayer resources will be carefully disbursed and honestly spent.

HONORING THE DETROIT SHOCK ON WINNING THE 2006 WOMEN'S NATIONAL BASKETBALL ASSOCIATION CHAMPIONSHIP

Mr. FRIST. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 567, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 567) honoring the Detroit Shock on winning the 2006 Women's National Basketball Association Championship.

The PRESIDING OFFICER. There being no objection, the Senate proceeded to consider the resolution.

Mr. LEVIN. Mr. President, Saturday, September 9, 2006, was a great day for the Detroit Shock and for the people of Michigan. A crowd of over 19,600 at the Joe Louis Arena joined with the rest of Michigan in celebrating the Shock's

second championship win and a tense victory in the fifth game against the reigning champions, the Sacramento Monarchs.

In 2003, when the Detroit Shock came back after a difficult 2002 season to win the championship, it was the first time in the 7-year history of the WNBA that the championship title was taken by a team other than Houston or Los Angeles.

The finals were tense, as the Shock started off with a loss at the Palace of Auburn Hills, in Michigan on August 30, which they followed up with a 73 to 63 win on Friday, September 1. As the finals moved to the Arco Arena in Sacramento, California, the Shock suffered another loss in the third game. With strength and courage, the Shock beat the Monarchs 72 to 52 in an away win on Wednesday, September 6. With one game left to go, and the prospect of overtaking the WNBA reigning champion, the Shock moved into the Joe Louis Arena for the last game of the finals.

The heat was on as the Sacramento Monarchs led for the first half of the game and went into halftime with a 44 to 36 lead over the Shock. In the beginning of the second half, Deanna Nolan led the Shock to an 18 to 3 scoring run that put the Shock ahead for the rest of the game. The final two points were scored in the last seconds of the game by Katie Smith, with a 17-foot jump shot that made the Detroit Shock one of the very few teams to have achieved multiple championships in the WNBA.

The win over the Monarchs in the deciding game showcased the spectacular performances of the Most Valuable Player of the 2006 WNBA Finals, Deanna Nolan, who, with a total of 24 points, led the game in points scored; Cheryl Ford, who led the game in rebounds, recovered 10 rebounds in addition to scoring 10 points; Katie Smith, who scored 17 points; and the rest of the Shock teammates.

Each member of the Detroit Shock organization made meaningful contributions to the team's success, including players Jacqueline Batteast, Kara Braxton, Swin Cash, Cheryl Ford, Kedra Holland-Corn, Deanna Nolan, Plenette Pierson, Elaine Powell, Ruth Riley, Katie Smith, and Angelina Williams, as well as the Head Coach, Bill Laimbeer, Assistant Coaches Cheryl Reeve and Rick Mahorn, Athletic Trainer Mike Perkins, and the owner of the Detroit Shock, Bill Davidson.

This championship win marks the fourth professional basketball title for Head Coach Bill Laimbeer, including two as coach of the Detroit Shock and two as a player for the Detroit Pistons. This is the fifth championship title for Detroit Shock owner Bill Davidson's Detroit teams.

I know that my colleagues will join me and Senator STABENOW in congratulating the Detroit Shock on another spectacular championship win, and I know that the Shock will continue to be a source of pride for the people of

the City of Detroit and throughout the whole State of Michigan.

Ms. STABENOW. Mr. President, I rise today to commend the Detroit Shock on winning the 2006 Women's National Basketball Association Championship.

On Saturday, September 9, 2006, the Detroit Shock won their second WNBA Championship by defeating the defending champion Sacramento Monarchs by a score of 80 to 75.

The Detroit Shock were able to celebrate the tenth year of the WNBA with an inspiring victory in the fifth game of the finals and secured their second championship in four years.

The attendance for game 5 at the Joe Louis Arena was over 19,600 people. The enthusiasm shown by the people of Michigan clearly demonstrate Michigan's strong support for the Detroit Shock organization and the determined effort of all of its players.

The Shock completed an incredible season! It was capped by spectacular performances in the deciding game by the WNBA Finals Most Valuable Player, Deanna Nolan, who scored a game high 24 points. Cheryl Ford, who had a game high 10 rebounds, in addition to scoring 10 points; and Katie Smith also contributed 17 points.

Head Coach Bill Laimbeer has now won four professional basketball titles, including two as coach of the Detroit Shock and two as a player for the Detroit Pistons. And the Detroit Shock owner Bill Davidson's Detroit teams have won five championship titles, including three Pistons' Titles.

The Shock demonstrated superior strength, skill, and perseverance during the 2006 season and have made the City of Detroit and the entire State of Michigan proud.

I congratulate the Detroit Shock on winning the 2006 WNBA Championship and recognize all the players, coaches, staff, fans, and others who were instrumental in this great achievement.

Mr. FRIST. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid on the table, and any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution, (S. Res 567) was agreed to.

The preamble was agreed to.

CONGRATULATING THE COLUMBUS NORTHERN LITTLE LEAGUE TEAM

Mr. FRIST. Mr. President, I ask unanimous consent the Senate now proceed to the consideration of S. Res. 568 submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 568) congratulating the Columbus Northern Little League Team of Columbus, GA, for winning the championship game of the Little League World Series.

There being no objection, the Senate proceeded to consider the resolution.

Mr. OBAMA. Mr. President, I rise today to join my colleagues from Georgia in congratulating the Columbus Northern Little League team for winning the Little League World Series.

I would also like to congratulate a team from my home State, the Lemont Little League team from Lemont, IL. On August 23, these young athletes competed in the U.S. semifinals of the Little League World Series. It was the

culmination of a long journey. After earning the honor of representing Illinois, the Lemont team traveled to the Great Lakes Regional Tournament in Indianapolis. Early in the regional, they lost games to both Indiana and Kentucky. But they turned things around, beating both of those teams to advance to World Series play in Williamsport, PA.

Once again, the team was challenged, losing in its first game. But again, they did not quit, and won their next two games to advance to the U.S. semifinals. The semifinal game against Beaverton, OR, was hard fought. Lemont got on the board first with two runs in the third, but going into the bottom of the sixth and final inning, they were down 4-2. Exhibiting the strength and spirit that got them this far, they rallied, scored and got the tying run to third, but still lost 4-3.

The young men of Lemont Little League had a terrific run, and I congratulate them for going this far into the tournament. Baseball is a wonderful sport and as the summer winds down, I am sure the boys are already looking to next year. I wish them continued success.

Mr. FRIST. I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 568) was agreed to.

Whereas, although no other pitcher in the history of the Little League Baseball World Series had ever won more than 3 games during the tournament, Kyle Carter made history by striking out 11 batters in the championship game to earn his 4th win of the Little League Baseball World Series;

The PRESIDING OFFICER. Without objection, it is so ordered.

REINTRODUCING S. 3815

Mr. SMITH. Mr. President, today, I am taking a parliamentary step to, in effect, reintroduce S. 3815, a bill I sponsored with Senator LINCOLN, that would improve access to and quality of long-term care. By doing this, we are removing a provision from the original text of the bill that we did not intend, nor agree, to include in our legislation. Due to human error, a provision entitled "Liability Acts of Abuse Committed by Employees" was incorrectly included in text of the bill that I introduced with Senator LINCOLN on August 3, 2006.

Mrs. LINCOLN. I thank Senator SMITH for taking this step to correct this error because I do not support the provision regarding liability protection for acts of abuse in nursing homes that was mistakenly included in the version of S. 3815 I cosponsored with Senator SMITH on August 3, 2006. The parliamentary step taken today will replace the incorrect version of legislation with a new version that accurately reflects the bill Senator SMITH and I agreed to sponsor to help improve the quality of life for those who need long-term care.
