

Communism and the ultimate end of the Cold War.

NATIONAL POLLINATOR WEEK

Mr. FRIST. I ask unanimous consent the Senate now proceed to consideration of S. Res. 580, which was submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 580) recognizing the importance of pollinators to ecosystem health and agriculture in the United States and the value of partnership efforts to increase awareness about pollinators and support for protecting and sustaining pollinators by designating June 24 through June 30, 2007, as "National Pollinator Week."

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 580) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 580

Whereas bees, butterflies, and other pollinator species have a critically important role in agriculture in the United States and help to produce a healthy and affordable food supply and sustain ecosystem health;

Whereas pollinators help to produce an estimated 1 out of every 3 bites of food consumed in the United States and to reproduce at least 80 percent of flowering plants;

Whereas commodities produced in partnership with animal pollinators generate significant income for agricultural producers, with domestic honeybees alone pollinating an estimated \$14,600,000,000 worth of crops in the United States each year produced on more than 2,000,000 acres;

Whereas it is in the strong economic interest of agricultural producers and consumers in the United States to help ensure a healthy, sustainable pollinator population;

Whereas possible declines in the health and population of pollinators pose what could be a significant threat to global food webs, the integrity of biodiversity, and human health;

Whereas the North American Pollinator Protection Campaign, managed by the Co-evolution Institute, is a tri-national, cooperative conservation, public-private collaboration of individuals from nearly 140 diverse stakeholder groups, including concerned landowners and managers, conservation and environmental groups, scientists, private businesses, and government agencies; and

Whereas the Pollinator Partnership™ web site (<http://www.pollinator.org>) has been created as the source for pollinator information: Now, therefore, be it

Resolved,

SECTION 1. DESIGNATION OF NORTH AMERICAN POLLINATOR APPRECIATION WEEK.

The Senate—

(1) recognizes the partnership role that pollinators play in agriculture and healthy ecosystems;

(2) applauds the cooperative conservation collaborative efforts of participants in the North American Pollinator Protection Campaign to increase awareness about the impor-

tant role of pollinators and to build support for protecting and sustaining pollinators;

(3) designates June 24 through 30, 2007, as "National Pollinator Week"; and

(4) encourages the people of the United States to observe the week with appropriate ceremonies and activities.

SUPPORTING THE GOALS AND IDEALS OF NATIONAL EPIDERMOLYSIS BULLOSA AWARENESS WEEK

Mr. FRIST. I ask unanimous consent the HELP Committee be discharged from further consideration of S. Res. 180, and the Senate now proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 180) supporting the goals and ideals of a National Epidermolysis Bullosa Awareness Week to raise public awareness and understanding of the disease and to foster understanding of the impact of the disease on patients and their families.

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 180) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 180

Whereas epidermolysis bullosa is a rare disease characterized by the presence of extremely fragile skin that results in the development of recurrent, painful blisters, open sores, and in some forms of the disease, in disfiguring scars, disabling musculoskeletal deformities, and internal blistering;

Whereas approximately 12,500 individuals in the United States are affected by the disease;

Whereas data from the National Epidermolysis Bullosa Registry indicates that of every 1,000,000 live births, 20 infants are born with the disease;

Whereas there currently is no cure for the disease;

Whereas children with the disease require almost around-the-clock care;

Whereas approximately 90 percent of individuals with epidermolysis bullosa report experiencing pain on an average day;

Whereas the skin is so fragile for individuals with the disease that even minor rubbing and day-to-day activity may cause blistering, including from activities such as writing, eating, walking, and from the seams on their clothes;

Whereas most individuals with the disease have inherited the disease through genes they receive from one or both parents;

Whereas epidermolysis bullosa is so rare that many health care practitioners have never heard of it or seen a patient with it;

Whereas individuals with epidermolysis bullosa often feel isolated because of the lack of knowledge in the Nation about the disease and the impact that it has on the body;

Whereas more funds should be dedicated toward research to develop treatments and eventually a cure for the disease; and

Whereas the last week of October would be an appropriate time to recognize National Epidermolysis Bullosa Week in order to raise public awareness about the prevalence of epidermolysis bullosa, the impact it has on families, and the need for additional research into a cure for the disease: Now, therefore, be it

Resolved, That the Senate—

(1) supports the goals and ideals of a National Epidermolysis Bullosa Awareness Week to raise public awareness and understanding of epidermolysis bullosa;

(2) recognizes the need for a cure for the disease; and

(3) encourages the people of the United States and interested groups to support the week through appropriate ceremonies and activities to promote public awareness of epidermolysis bullosa and to foster understanding of the impact of the disease on patients and their families.

CONGRATULATING THE KANSAS STATE UNIVERSITY DEPARTMENT OF AGRONOMY IN THE COLLEGE OF AGRICULTURE

Mr. FRIST. Mr. President, I ask unanimous consent that the Agriculture Committee be discharged from further consideration, and the Senate proceed to the consideration of S. Res. 539.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 539) congratulating the Department of Agronomy in the College of Agriculture at Kansas State University for 100 years of excellent service to Kansas agriculture.

There being no objection, the Senate proceeded to consider the resolution.

Mr. FRIST. Mr. President, I ask unanimous consent the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 539) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 539

Whereas, in 2006, the Department of Agronomy in the College of Agriculture at Kansas State University in Manhattan, Kansas, celebrates its centennial year;

Whereas Kansas State Agricultural College was established under the Morrill Act as the first land-grant college in the United States in 1863 and, in July 1906, the Kansas Board of Regents established the Department of Agronomy in the College of Agriculture at the Kansas State Agricultural College;

Whereas, since its inception, the Department of Agronomy has exemplified the land-grant mission by providing statewide leadership in teaching, research, and extension programs in crop breeding, crop production, range science, soil science, and weed science;

Whereas advances in sciences studied at the Department of Agronomy have had a major impact in insuring the profitability of Kansas agriculture while sustaining the natural resources and improving the livelihood of all Kansans;
