

can go to Juba, in southern Sudan, to see its effects where there is no electricity, running water or paved roads.

In the face of such challenges Dr. Garang fought to achieve a "new Sudan" where all were united and equal and worked to turn his rebel movement into a popular government, open to dialogue, cooperation and constantly suiting the needs of the nation.

Accordingly, I pay tribute to Dr. Garang's tireless efforts for the struggle of peace in Sudan. Dr. Garang was a charismatic figure who awakened the consciousness of a society. And he set the bar very high.

In order to ensure a lasting peace, we must urge President Al-Bashir and all stakeholders to maintain the integrity of the Comprehensive Peace Agreement, to respect human rights and to create a stabilized nation where everyone enjoys their full rights of citizenship. This is the best way to honor the spirit of Dr. Garang's life's work.

Madam Speaker, there is still work to do. Dr. Garang's premature death left a great void. May his death not be in vain. That is why I pledge my continued support for peace and development in Sudan. As we honor one of Sudan's greatest leaders as well as one of Africa's, I further extend my commitment to end the genocide in Darfur. I know Dr. Garang would agree that peace must be everywhere.

HONORING HANNAH PADAWER
STARK

HON. STEVE COHEN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 7, 2007

Mr. COHEN. Madam Speaker, I rise today to honor Hannah Padawer Stark, of Memphis, Tennessee, who passed away early yesterday in her hometown of Memphis.

Ms. Stark was a wonderful mother and a gentle soul, with her kindness and goodwill contributing to what makes Memphis great. She was a sweet, virtuous woman and she never lost her zeal for life. Passing away at age 88, she lived life to its fullest, for years frequenting Huey's in Midtown every Sunday for live rock music with her daughter Laurie. Ms. Stark leaves behind another wonderful daughter Judy, who may have lived miles away, but was never far from her heart.

Ms. Stark had the love of not only her daughters, Madam Speaker, but also the love of all those who entered into her life, as her humanity and thoughtfulness crossed generational lines. She had a love of animals only surpassed by her love of life. Yesterday, Madam Speaker, this earth lost a friend and a lovely spirit. Hannah Padawer Stark, may you rest in peace and watch over us all.

CELEBRATING THE LIFE AND
SERVICE OF INDIANA STATE
SENATOR ANITA BOWSER

HON. JOE DONNELLY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 7, 2007

Mr. DONNELLY. Madam Speaker, today I rise to honor the life of distinguished Indiana

State Senator Anita Bowser. Senator Bowser, age 86, succumbed to breast cancer peacefully in her sleep on Sunday, March 4, 2007.

Senator Bowser's career in public service began in 1980 upon her election to the Indiana House of Representatives. As a member of House, she became the first female House Speaker as she acted as the Deputy Speaker Pro-Tempore. In 1992 she was elected to the State Senate where she served as the representative of Indiana's 8th District until her recent passing. Senator Bowser was known among her colleagues as both a constitutional scholar and the "Conscience of the Senate." She worked tirelessly as an advocate for Hoosiers' civil rights and liberties. Her later career was defined by her efforts to reform Indiana's capital punishment laws. She was a prominent member of the Correctional, Criminal and Civil Matters; Education and Career Development; Ethics; and Judiciary committees, as well as the Committee of Pensions and Labors, on which she served as the senior Democrat.

Senator Bowser's illustrious service was commemorated by many awards including the Louis Ingelhart Award for Freedom of Expression, the Amnesty International Abolitionist of the Year Award, and she was a two-time recipient of the Robert Dole Owen Legislator of the Year Award from the Indiana Civil Liberties Union.

Prior to her career in the State legislature, Senator Bowser earned several graduate degrees including a law degree from the McKinley School of Law at Kent State University and a doctoral degree from the University of Notre Dame. She was a founding member of Purdue University North Central where she taught as a professor of Political Science. Senator Bowser was also a founding member of the Barker Woods Enrichment Center which provided childcare and educational services for children with special needs in Michigan City, Indiana.

Senator Bowser's legacy as a public servant will be defined by her passionate advocacy and her legislative integrity. She will be dearly missed by her family, her constituents, and all Hoosiers. It is with great pride and honor that I celebrate the life and service of Indiana State Senator Anita Bowser.

HONORING EDWARD LINDSEY

HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 7, 2007

Mr. LINCOLN DAVIS of Tennessee. Madam Speaker, I rise today to honor Mr. Edward M. Lindsey for his many contributions to Lawrence County, Tennessee and the world through the Lions Club organization.

Edward Lindsey joined the Lawrenceburg Lions Club in 1946. Since then he has served as president, zone chairperson, district governor, and a member of the association board of directors. Through his work and good nature, Mr. Lindsey was elected president of the International Association of Lions Clubs at the 49th Annual Convention in 1966.

Mr. Lindsey has also served the Lawrenceburg area as mayor, president of Lindsey Manufacturing Company, and president of Ed Lindsey Industries of the Blind where he received the National Board Member of the Year award from the National Industries for the Blind.

I congratulate and thank Mr. Lindsey for his numerous contributions to the people of Lawrence County. I have no doubt that a great many have been affected by his generous works.

HONORING RETIRED NAVY CAPTAIN
AND FORMER CONGRESSMAN
WILLIAM ANDERSON

HON. LINCOLN DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 7, 2007

Mr. LINCOLN DAVIS of Tennessee. Madam Speaker, I remember reading about Captain William Anderson's adventure under the North Pole with his crew of 115 on board the USS *Nautilus*. Anderson captained the first atomic submarine from the Pacific Ocean to the Atlantic Ocean under the polar caps of the North Pole in 1958.

Born in Bakerville, Tennessee on June 17, 1921, Captain Anderson graduated from Columbia Military Academy in Columbia Tennessee and the U.S. Naval Academy in 1942. By the age of 39 he was promoted to Captain. ADM Hyman Rickover, the Father of the Nuclear Navy and longest-serving active duty military officer in U.S. history, tapped Anderson to be the Skipper of the first working nuclear submarine.

After a distinguished military career Capt. Anderson retired from the Navy in 1962. During his service Anderson participated in eleven submarine combat patrols and was awarded the Bronze Star among a multitude of other citations.

Upon retirement from the Navy, Capt. Anderson served as a consultant to Presidents Kennedy and Johnson for the National Service Corps. In 1964, Anderson was elected to Congress as Tennessee's Sixth District representative. He served from 1965–1973.

Never a person to seek the limelight, Captain Anderson embodied the American spirit. He may have received acclaim for his polar voyage, but he also served admirably during World War II and continued his service after retiring from the Navy in the United States Congress. Navy Captain (ret.) William Anderson, a great Tennessean, will be missed.

REMEMBERING CAPTAIN WILLIAM
R. ANDERSON

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 7, 2007

Mr. TANNER. Madam Speaker, I rise today in memory of William R. Anderson, a well-decorated Navy Captain and former Congressman from the state of Tennessee, who died late last month at the age of 85 and will be laid to rest at Arlington National Cemetery.

Anderson was a decorated World War II submarine combat veteran and in 1958 captained the *Nautilus*, the first nuclear submarine, and a crew of 115 on a mission under the North Pole. For the feat, the first of its kind, the *Nautilus* submerged in the Pacific Ocean, traveled beneath the polar ice cap and resurfaced four days later in the North Atlantic.
