When he was just 23 years old and still attending medical school, Dr. DeBakey developed a roller pump for blood transfusions—the precursor and major component of the heart-lung machine used in the first successful open-heart operation. During his service in World War II, Dr. DeBakey observed soldiers dying on the battlefield who he believed could be saved. From that experience he made numerous recommendations to improve the military's medical procedures, including the development of mobile army surgical hospitals, better known as MASH units. These efforts earned him the Legion of Merit in 1945. Dr. DeBakey later helped establish the specialized medical and surgical centers system for treating battlefield casualties, which subsequently became the Veterans Affairs Medical Center System.

In 1948, Dr. DeBakey joined the Baylor University College of Medicine. Adding to his list of accomplishments, Dr. DeBakey performed the first successful procedure to treat patients with aneurysms, performed the first successful coronary bypass surgery, and he was the first to successfully implant a partial artificial heart.

Dr. DeBakey continued to amaze the medical world when he pioneered the field of telemedicine, performing the first open-heart surgery transmitted over satellite and later when he supervised the first successful multi-organ transplant, where a heart, both kidneys, and a lung were transplanted from a single donor into four separate recipients. Most recently, Dr. DeBakey worked with NASA engineers to develop the DeBakey Ventricular Assist Device, which may eliminate the need for some patients to receive heart transplants.

These accomplishments have led to national recognition. Dr. DeBakey has received the Presidential Medal of Freedom with Distinction from President Lyndon Johnson and the National Medal of Science from President Ronald Reagan.

Dr. DeBakey's efforts and innovative surgical techniques have saved the lives of thousands, if not millions, of people. We hope you will join us in recognizing Dr. DeBakey's profound impact on the field of medicine and how we care for our veterans, by co-sponsoring and voting to honor him the Congressional Gold Medal.

The Presiding Officer. Without objection, it is so ordered.

OLDER AMERICANS REAUTHORIZATION TECHNICAL CORRECTIONS ACT

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 1002 submitted earlier today.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows: A bill (S. 1002) to amend the Older Americans Act of 1965 to reauthorize certain provisions relating to the nutrition services incentive program.

There being no objection, the Senate proceeded to consider the bill.

Mr. KENNEDY. Mr. President, the Older Americans Technical Corrections Act of 2007 that I introduced today with Senator Enzi and Senator Roberts will restore States’ ability to obtain Department of Agriculture commodities under the Nutrition Services Incentive Program. Through this program seniors obtain their meals through organizations in the community such as Meals on Wheels.

Last year, during the Older Americans Act Reauthorization negotiations, the Department of Agriculture asked
Congress to make a change to this program. It was not made clear to us at the time that, under this change, States could not continue to receive commodities through the Department of Agriculture. Without this correction, thousands of seniors in Massachusetts and a number of other States will be affected. Department of Agriculture commodities are much less expensive than what States can purchase on the commercial market and are of higher quality. And they’re less expensive. The State distributing agency in Massachusetts has calculated that purchasing similar commodities would cost $1 million more a year which would lead to 500,000 fewer meals served.

Six States in addition to Massachusetts have been obtaining USDA commodities for several years. The program is especially important to our States, to their partners, and to the seniors who obtain their meals through this program.

I urge our colleagues in both the Senate and the House to pass this legislation without delay.

Mr. REID. Mr. President, I ask unanimous consent that the bill be read the third time and passed, as follows:

S 1002

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

The amount of funds transferred for the expenses related to the procurement of the commodities shall be mutually agreed on by the Secretary and the Secretary of Agriculture. The transfer of funds for the costs of the commodities and the related expenses shall occur in a timely manner after the Secretary of Agriculture submits the corresponding report described in paragraph (2), and shall be subject to the availability of appropriations. Amounts received by the Secretary of Agriculture pursuant to this section to make commodity purchases for a fiscal year for a State agency or title VI grantee shall remain available, only for the next fiscal year, to make commodity purchases for that State agency or grantee pursuant to this section.

“(4) Each State agency and title VI grantee shall promptly and equitably disburse for the costs of commodities received under this subsection to recipients of grants and contracts. Such disbursements shall only be used by such recipients of grants or contracts to purchase domestically produced foods for their nutrition projects.

“(5) Nothing in this subsection shall be construed to require any State agency or title VI grantee to elect to receive cash payments under this subsection.”; and

(3) by striking subsection (f) and inserting the following:

“(f) In each fiscal year, the Secretary and the Secretary of Agriculture shall jointly disseminate to State agencies, title VI grantees, area agencies on aging, and providers of nutrition services assisted under this title, information concerning the foods available to such State agencies, title VI grantees, area agencies on aging, and providers under subsection (c).”.
