Whereas the early care and education industry employs more than 2,300,000 workers; whereas these workers indirectly add $500,000,000,000 to the economy by enabling millions of parents to perform their own jobs; whereas the average salary of care and education workers is $18,180 per year, and only 1/3 of these workers have health insurance and even fewer have a pension plan; whereas the quality of care and education programs is directly linked to the quality of childhood education; whereas the turnover rate of early childhood program staff is roughly 30 percent per year; and lack of benefits among other factors, make it difficult to retain high quality educators who have the consistent, caring relationships with young children that are important to the children’s development; whereas the compensation of early childhood program staff should be commensurate with the importance of the job of helping the young children of the Nation develop their social, emotional, physical, and cognitive skills, and helping them to be ready for school; whereas providing adequate compensation to early childhood program staff should be a priority, and resources can be allocated to improve the compensation of early childhood educators to ensure that quality care and education are accessible for all families; whereas additional training and education for the early childhood workforce is critical to ensuring high-quality early learning environments; whereas child care workers should receive compensation commensurate with their training and experience; and whereas the Center for the Child Care Workforce, a project of the American Federation of Teachers Educational Foundation, with support from the National Association for the Education of Young Children and other early childhood organizations, recognizes May 1 as National Child Care Worker Day; Now, therefore, be it

Resolved, That the Senate—

(1) designates May 1, 2007, as National Child Care Worker’s Day; and
(2) calls on the people of the United States to observe National Child Care Worker’s Day by promoting early childhood care and education staff and programs in their communities.

Mr. MENENDEZ. Mr. President, I am proud to be submitting a resolution designating May 1, 2007, as National Child Care Worker’s Day. On this day, child care providers and other early childhood professionals nationwide conduct public awareness and education efforts highlighting the importance of early childhood education for our Nation’s young children. This resolution is an effort to support these initiatives and to help develop greater public awareness to our early educators and the critical work they do.

Every day, nearly 63 percent of children under the age of 5 are cared for outside their home so their parents can work. Early care and education workers, who make up more than 2.2 million, make it possible for millions of parents to leave their children at day care and go to work. By enabling parents to go to work every day, our early education work saves more than $380 billion to our economy nationwide.

The importance of early education cannot be overstated. From the day they are born, children begin to learn, and the quality of care they receive will affect their language development, math skills, behavior, and general readiness for school. Our early educators help future leaders and workers of our Nation develop their social, emotional, physical, and cognitive skills so they can be ready for school. However, the committed individuals who nurture and teach these young children continue to be undervalued, with grossly low wages and lack of benefits. The average salary of our early education staff is just a little over $18,000 per year, that only one-third has health insurance and even fewer have pension plans.

Early childhood educators perform essential work by supporting the development of our Nation’s children. Yet, many early childhood educators leave their jobs year after year. This is not only unfair to our child care workers, but it undermines the quality of care that our children receive.

Our early educators deserve nothing less than to be recognized and adequately compensated for the work they do. We must give our Nation’s early childhood workers wages worthy of the incredible work they do every day to train and develop the future workforce of America.

The Nation’s child care workforce, and the families who depend on them, deserve our support, and I urge my colleagues to join me in supporting this resolution.
