spending, and he’s right, because for 6 years, President Bush joined with Republi- cans that led this Congress on the most fiscally irresponsible budget policies in the history of the Nation. They turned the record surpluses of the 1990s into the record deficits we face today, and while they raked up those record deficits, inconceivably they cut medical research. They cut Head Start, they cut clean water programs, and they cut health care for our Nation’s veterans.

Mr. Speaker, the Democratic budget balances the budget within 5 years, and our appropriations bills comply with pay-as-you-go scoring. We passed Homeland Security and Military Construction and Veterans appropriations bills last week, and this week we’ll pass an Energy and Water bill that includes renewable fuel and reduces our dependence on foreign oil.

So you see, Mr. Speaker, the President’s right; we do have different priorities on Federal spending.

IN APPRECIATION OF THE NRA
(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, nearly 2 months after the horrifying events at Virginia Tech took the lives of 32 innocent people, I am grateful the House last week acted to improve State reporting to the National Instant Criminal Background Check System. Sadly, had this legislation been in place sooner, that tragic day at Virginia Tech might never have occurred.

I’m especially pleased that the National Rifle Association, of which I’m a proud member, was active in supporting this effort. I’m also thankful John Goodwin, previously with former Congressman Rob Simmons, has recently joined their able team. The NRA plays a vital role in promoting second amendment rights, and I appreciate their work.

Our thoughts and prayers remain with the families affected by the Virginia Tech shootings. I urge the Senate to quickly consider H.R. 2640 to ensure guns are available to law-abiding citizens and kept from the hands of criminals.

In conclusion, God bless our troops and we will never forget September 11. Our sympathy to the people of Charleston due to the tragic deaths of courageous firemen.

DEMOCRATS MAKE GLOBAL WARMING A PRIORITY THIS WEEK AS PART OF ENERGY AND WATER BILL
(Mr. WILSON of Ohio asked and was given permission to address the House for 1 minute.

Mr. WILSON of Ohio. Mr. Speaker, this week the new Democratic House addresses two of our Nation’s most important issues, global warming and energy independence.

This new Democratic Congress recognizes that we must take wide-ranging action to lessen our dependence on foreign oil and to cut our greenhouse gas emissions to protect our planet, to reduce energy prices, and to boost our economy while strengthening our national security.

This week we will bring an Energy and Water funding bill to the floor that makes a significant investment in energy efficiency and renewable energy programs.

We invest $51 million more than the President has asked for in our solar energy and more affordable, $70 million more for the development of biofuels, and $50 million more to develop technologies to improve our fuel efficiency.

Mr. Speaker, this new Democratic Congress is serious about addressing the issues that have been ignored for far too long. I would hope our energy bill would receive strong bipartisan support this week.

FEDERAL FUNDING FOR PLANNED PARENTHOOD
(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, President Bush has been very clear. If Congress sends him appropriations bills that weaken current pro-life provisions, he will veto the bills. But don’t be surprised if the new Democratic majority is trying to do so anyway. When they do, I am sure they will have countless reasons for why they should weaken protections for the unborn.

But as this debate goes forward, it’s important to keep in mind how much Uncle Sam already gives to abortion providers. Planned Parenthood reported record profits in 2005–2006 fiscal year. Guess who helped them achieve another record? Keep this in mind as Congress considers a new direction for Federal funding for Planned Parenthood.

In 2005–2006, Planned Parenthood received over $305 million in taxpayer funding, the most ever in a year. They also performed nearly 265,000 abortions, another record. Keep this in mind as we hear the other side’s arguments for giving even more money to abortion providers. The fact is, these groups are milking the American taxpayers.

President Bush is right to stand up for current pro-life provisions, and House Republicans will stand with him on this issue.

GENERAL PETRAEUS ADMITS THAT CONDITIONS WILL NOT IMPROVE IN IRAQ BY SEPTEMBER
(Mr. SIRES asked and was given permission to address the House for 1 minute.)

Mr. SIRES. Mr. Speaker, through a congressional debate on the Iraq supplemental funding bill, Senate and House Republican leaders said that significant improvements will be needed to be seen by September in Iraq, otherwise a serious course correction might be needed.

I would like to see if Republican leaders will continue to back those words and will finally join us in moving the Iraq war in a new direction, or will they move the deadline to a later date like they have done in the past. It will be interesting to see if they stand by their statements in light of General David Petraeus’ acknowledgment over the weekend that conditions in Iraq were not improved by September. The general also indicated that stabilizing Iraq will take as long as 10 years.

Mr. Speaker, Democrats remain committed to forging a new direction in Iraq. In the coming months, Democrats will continue to hold President Bush accountable to fight for consensual that the Iraqi people take control of their country. A 10-year commitment is simply unacceptable to us. Now we will see if the Republicans will stand by their past statements and join us in the efforts in September.

CHILD CRUSADERS
(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, in the days of the recent past, when a child was sexually assaulted, the criminal justice system continued to victimize the child, because the victim was bounced all over town relating the story to numerous strangers.

Sometimes a child, when interviewed at the police station, actually came in direct contact with the offender. Also, the child could wait for hours in the same county emergency rooms as other victims of stabbings, car wrecks and overdoses.

But times have changed. There are over 600 child advocacy centers in the United States, including one in Houston, where victims go when assaulted. At the center are trained police, therapists, doctors and lawyers that are experts in dealing with children. Here the child is helped before the trial, during the trial, and, yes, after trial.

The National Children’s Alliance, led by Nancy Chandler, is the umbrella organization that helps these 600-plus centers throughout the Nation. All these child crusaders are in Washington this week working to make our land safer for kids.

America is grateful to these members of the victims’ posse that help protect our greatest resource, children. After all, it shouldn’t hurt to be a kid in the United States.

And that’s just the way it is.

MAKE GLOBAL WARMING A PRIORITY THIS WEEK AS PART OF ENERGY AND WATER BILL
(Ms. SHEA-PORTER asked and was given permission to address the House
Mr. STEARNS. Mr. Speaker, past experiences in the United States and Europe clearly show that amnesty legislation only encourages further illegal immigration. The Immigration Reform and Control Act of 1986 required a criminal background check, payment of application fees, acquisition of English-language skills, and a civics criminal background check, and despite all those measures, the law failed to curb the influx of illegal immigration.

The Senate’s immigration reform legislation embodies the same flawed strategy as the 1986 law. Any measures to enhance border security or to improve immigration services would be overwhelmed by a continued flow of both illegal border crossing and individuals who entered legally, but remain in this country past the period authorized by their visa.

To stop further illegal immigration, Congress should not grant these illegal immigrants in the United States any form of legal status that does not require them to leave the United States voluntarily and undergo adequate criminal national security and health checks before seeking to return.

JUNETEENTH

Mr. COHEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SHEA-PORTER. Mr. Speaker, energy independence and fighting global warming are essential, and they are the challenges of our day. Years of inaction, even disbelief on the part of the White House and the Republicans, have delayed any real work being done.

This week the Democratic Congress will bring a bill to the floor to change this. There will be an Energy and Water appropriations bill that will provide $3 billion for researching the effects of global warming. Overall, the bill appropriates $3 billion for researching the effects of global warming. This funding will allow us to monitor radiation in the atmosphere, to use state-of-the-art computer technology to conduct climate change modeling and to conduct long-term experiments on the impact of increased carbon dioxide levels on forests and other ecosystems.

This research will finally allow us to have the science that we need to fight this battle. We have delayed it for years because of the Republican administration’s inactivity. I hope that this week the Republican leadership will join with the Democrats in Congress to finally move this forward.

TRUE IMMIGRATION REFORM NEEDED

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, past experiences in the United States and Europe clearly show that amnesty legislation only encourages further illegal immigration. The Immigration Reform and Control Act of 1986 required a criminal background check, payment of application fees, acquisition of English-language skills, and a civics criminal background check, and despite all those measures, the law failed to curb the influx of illegal immigration.

The Senate’s immigration reform legislation embodies the same flawed strategy as the 1986 law. Any measures to enhance border security or to improve immigration services would be overwhelmed by a continued flow of both illegal border crossing and individuals who entered legally, but remain in this country past the period authorized by their visa.

To stop further illegal immigration, Congress should not grant these illegal immigrants in the United States any form of legal status that does not require them to leave the United States voluntarily and undergo adequate criminal national security and health checks before seeking to return.

THE DRIVE ACT

(Mr. KINGSTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KINGSTON. Mr. Speaker, in 2004, we spent $103 billion buying oil from nondemocratic countries, countries such as Iran, Venezuela and Russia, and the list goes on and on. Indeed, we are funding both sides in the war on terrorism, because every time we send money to these folks, the money winds up in the hands of somebody, some group, who doesn’t stand for what we stand for and often is overtly anti-American.

That’s why we should pass the DRIVE Act, which I have co-sponsored with Democrat Congressman Eliot Engel. The DRIVE Act seeks to reduce our oil consumption by 20 percent, which is roughly the amount of oil we buy from the Middle East.

We do this through tax incentives, putting people in hybrids and flex-fuel vehicles, getting gas stations to convert to flex-fuel stations so that they can sell ethanol and biodiesel and giving a tax incentive for automobile manufacturers so that they can work with lightweight material to make cars more fuel efficient.

Please co-sponsor the DRIVE Act.

PROVIDING FOR CONSIDERATION OF H.R. 2641, ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

Ms. MATSUI. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 481 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 481
Resolved. That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, refer the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 2641) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2008, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. Points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the pages of the Congressional Record designated for that purpose in clause 8 of rule XXI. Amendments so printed shall be considered as read. When the committee rises and reports the bill back to the House with a recommendation that the bill do pass, the previous question shall be considered as ordered on the bill and agreement to final passage without intervening motion except one motion to reconsider with or without instructions.

Sec. 2. During consideration in the House of H.R. 2641 pursuant to this resolution, notwithstanding the operation of the previous question, the Chair may postpone further consideration of the bill to such time as may be designated by the Speaker.

The SPEAKER pro tempore (Mr. SNYDER). The gentleman from California (Ms. MATSUI) is recognized for 1 hour.

Ms. MATSUI. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from Washington (Mr. HASTINGS) pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for purposes of debate only.

GENERAL LEAVE

Ms. MATSUI. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and insert extraneous materials into the Record.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Ms. MATSUI. Mr. Speaker, this rule permits the House to consider the Energy and Water Development Appropriations Act of 2008. The bill today is being considered under an open rule. The issues of energy and water are always important, but this year these issues are the very center of our national dialogue.
