

URGING THE PRESIDENT TO DECLARE LUNG CANCER A PUBLIC HEALTH PRIORITY

Mr. PRYOR. Mr. President, I ask unanimous consent that the HELP Committee be discharged from further consideration of S. Res. 87, and that the Senate then proceed to its consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 87) expressing the sense of the Senate that the President should declare lung cancer a public health priority and should implement a comprehensive interagency program to reduce the lung cancer mortality rate by at least 50 percent by 2015.

There being no objection, the Senate proceeded to consider the resolution.

Mr. PRYOR. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 87) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 87

Whereas lung cancer is the leading cause of cancer death for both men and women, accounting for 28 percent of all cancer deaths;

Whereas lung cancer kills more people annually than breast cancer, prostate cancer, colon cancer, liver cancer, melanoma, and kidney cancer combined;

Whereas, since the National Cancer Act of 1971 (Public Law 92-218; 85 Stat. 778), coordinated and comprehensive research has raised the 5-year survival rates for breast cancer to 88 percent, for prostate cancer to 99 percent, and for colon cancer to 64 percent;

Whereas the 5-year survival rate for lung cancer is still only 15 percent and a similar coordinated and comprehensive research effort is required to achieve increases in lung cancer survivability rates;

Whereas 60 percent of lung cancer cases are now diagnosed in nonsmokers or former smokers;

Whereas ¾ of nonsmokers diagnosed with lung cancer are women;

Whereas certain minority populations, such as Black males, have disproportionately high rates of lung cancer incidence and mortality, notwithstanding their lower smoking rate;

Whereas members of the baby boomer generation are entering their sixties, the most common age at which people develop cancer;

Whereas tobacco addiction and exposure to other lung cancer carcinogens such as Agent Orange and other herbicides and battlefield emissions are serious problems among military personnel and war veterans;

Whereas the August 2001 Report of the Lung Cancer Progress Review Group of the National Cancer Institute stated that funding for lung cancer research was "far below the levels characterized for other common malignancies and far out of proportion to its massive health impact";

Whereas the Report of the Lung Cancer Progress Review Group identified as its

"highest priority" the creation of integrated, multidisciplinary, multi-institutional research consortia organized around the problem of lung cancer rather than around specific research disciplines; and

Whereas the United States must enhance its response to the issues raised in the Report of the Lung Cancer Progress Review Group: Now, therefore, be it

Resolved, That it is the sense of the Senate that the President should—

(1) declare lung cancer a public health priority and immediately lead a coordinated effort to reduce the lung cancer mortality rate by 50 percent by 2015;

(2) direct the Secretary of Health and Human Services to increase funding for lung cancer research and other lung cancer-related programs as part of a coordinated strategy with defined goals, including—

(A) translational research and specialized lung cancer research centers;

(B) expansion of existing multi-institutional, population-based screening programs incorporating state-of-the-art image processing, centralized review, clinical management, and tobacco cessation protocols;

(C) research on disparities in lung cancer incidence and mortality rates;

(D) graduate medical education programs in thoracic medicine and cardiothoracic surgery;

(E) new programs within the Food and Drug Administration to expedite the development of chemoprevention and targeted therapies for lung cancer;

(F) annual reviews by the Agency for Healthcare Research and Quality of lung cancer screening and treatment protocols;

(G) the appointment of a lung cancer director within the Centers for Disease Control and Prevention with authority to improve lung cancer surveillance and screening programs; and

(H) lung cancer screening demonstration programs under the direction of the Centers for Medicare and Medicaid Services;

(3) direct the Secretary of Defense, in conjunction with the Secretary of Veterans Affairs, to develop a broad-based lung cancer screening and disease management program among members of the Armed Forces and veterans, and to develop technologically advanced diagnostic programs for the early detection of lung cancer;

(4) appoint a Lung Cancer Scientific and Medical Advisory Committee, comprised of medical, scientific, pharmaceutical, and patient advocacy representatives, to—

(A) work with the National Lung Cancer Public Health Policy Board described in paragraph (5); and

(B) report to the President and Congress on the progress toward and the obstacles to achieving the goal described in paragraph (1) of reducing the lung cancer mortality rate by 50 percent by 2015; and

(5) convene a National Lung Cancer Public Health Policy Board, comprised of multi-agency and multidepartment representatives and at least 3 members of the Lung Cancer Scientific and Medical Advisory Committee, to oversee and coordinate all efforts to accomplish the goal described in paragraph (1) of reducing the lung cancer mortality rate by 50 percent by 2015.

PESTICIDE REGISTRATION IMPROVEMENT RENEWAL ACT

Mr. PRYOR. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. 1983, introduced earlier today by Senators HARKIN and CHAMBLISS.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1983) to amend the Federal Insecticide, Fungicide, and Rodenticide Act to renew and amend the provisions for the enhanced review of covered pesticide products, to authorize fees for certain pesticide products, to extend and improve the collection of maintenance fees, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. HARKIN. Mr. President, I am pleased to join with my colleague and committee ranking member, Senator CHAMBLISS, to offer the Pesticide Registration Improvement Renewal Act.

This legislation will reauthorize and amend the Pesticide Registration Improvement Act we enacted in 2003 to control the collection and disbursement of fees collected in the pesticide registration process. This legislation extends the authority for the Environmental Protection Agency to collect maintenance fees for the reregistration of pesticides.

This legislation is agreed upon by a broad array of stakeholders, including the manufacturers, environmental groups and agricultural producers. This legislation ensures that these chemicals are reevaluated in a timely manner, while covering the costs of the EPA workers who carry out this important work. This bill has no budgetary impact and should not be controversial. I ask my colleagues to support this important measure.

Mr. PRYOR. Mr. President, I ask unanimous consent that the bill be read three times and passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1983) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1983
