MEDICARE NATIONAL COVERAGE DETERMINATION ON THE TREATMENT OF ANEMIA IN CANCER PATIENTS

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the Finance Committee be discharged from further consideration and the Senate now proceed to S. Res. 305.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 305) to express the sense of the Senate regarding the Medicare national coverage determination on the treatment of anemia in cancer patients.

There being no objection, the Senate proceeded to consider the resolution.

Mr. WHITEHOUSE. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 305) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 305

Whereas the Centers for Medicare & Medicaid Services issued a final Medicare National Coverage Determination on the Use of Erythropoiesis Stimulating Agents in Cancer and Related Neoplastic Conditions (CAG-000383N) on July 30, 2007;

Whereas 52 United States Senators and 235 Members of the House of Representatives, representing bipartisan majorities in both chambers, have written to the Centers for Medicare & Medicaid Services expressing significant concerns with the proposed National Coverage Determination on the Use of Erythropoiesis Stimulating Agents in Cancer and Related Neoplastic Conditions, issued on May 14, 2007, regarding the use of erythropoiesis stimulating agent therapy for Medicare cancer patients;

Whereas, although some improvements have been incorporated into such final National Coverage Determination, the policy continues to raise significant concerns among physicians and patients about the potential impact on the treatment of cancer patients in the United States;

Whereas the American Society of Clinical Oncology, the national organization representing physicians who treat patients with cancer, is specifically concerned about a provision in such final National Coverage Determination that restricts coverage whenever a patient's hemoglobin goes above 10 g/dL;

Whereas the American Society of Clinical Oncology has written to the Centers for Medicare & Medicaid Services to note that such a "restriction is inconsistent with both the FDA-approved labeling and national guidelines", to express deep concerns about such final National Coverage Determination, and to urge that the Centers for Medicare & Medicaid Services reconsider such restriction;

Whereas such restriction could increase blood transfusions and severely compromise the high quality of cancer care delivered by physicians in United States; and

Whereas the Centers for Medicare & Medicaid Services has noted that the agency did not address the impact on the blood supply in such final National Coverage Determination and has specifically stated, "[t]he concern about the adequacy of the nation's blood supply is not a relevant factor for consideration in this national coverage determination": Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) the Centers for Medicare & Medicaid Services should begin an immediate reconsideration of the final National Coverage Determination on the Use of Erythropoiesis Stimulating Agents in Cancer and Related Neoplastic Conditions (CAG-000383N);

(2) the Centers for Medicare & Medicaid Services should consult with members of the clinical oncology community to determine
