

an ambitious goal, one which will require innovation and new thinking about national priorities. However, I believe that the goal of producing 25% of America's energy from renewable resources is well worth aiming for.

Renewable energy can be harnessed in every one of America's 50 States. It can come from resources including wind, solar, hydro-power, and biofuels, and it is currently the fastest growing energy sector. In particular, ethanol introduces the possibility that we can produce 25% of our projected gasoline use in 2025 from farm and forest resources, including many waste materials.

Both the House and the Senate have taken an important first step toward achieving this critical goal by passing comprehensive and bipartisan energy security measures. These initiatives have included critical proposals aimed at reducing our dependence on foreign oil; lowering energy costs through greater efficiency, cleaner energy, and smarter technology; creating new American jobs; and reducing global warming.

Madam Speaker, the legislation we are considering today has the support of a broad range of farm organizations, along with leaders from business, labor, conservation, environmental, and religious groups. It sets an ambitious but achievable goal, and will make important strides toward achieving energy independence. I strongly urge my colleagues to join me in supporting this legislation.

Mr. FORTENBERRY. Madam Speaker, I am pleased to be an original cosponsor of H. Con. Res. 25, which calls for 25 percent of America's energy supply to come from agriculture and rural based renewable energy sources by 2025. This 25x25 approach is a worthy goal.

Renewable energy holds wonderful promise for rural America, which can benefit exponentially from these trends. Production of renewable fuels and renewable energy meets multiple policy objectives. It decreases America's reliance on foreign sources of energy, creates new farm income, and fosters good stewardship of resources.

Clearly, Nebraska is a leader in America's renewable energy future. We will soon be the second leading producer of ethanol in the Nation, and we are home to cutting edge technologies that are producing renewable fuels and electricity from wastes at animal feeding operations. In addition, developments in biomass and wind energy are very encouraging. This kind of innovation will only continue to grow as more of America's energy comes from renewable sources.

Madam Speaker, America's renewable energy future is now. This is a very exciting opportunity for our farmers to lead the way for clean, environmentally-friendly energy production. I urge my colleagues to support H. Con. Res. 25.

Mr. PETERSON of Minnesota. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. PETERSON) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 25.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. PETERSON of Minnesota. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the concurrent resolution just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

LOUISIANA ARMED SERVICES VETERANS POST OFFICE

Mr. DAVIS of Illinois. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 2089) to designate the facility of the United States Postal Service located at 701 Loyola Avenue in New Orleans, Louisiana, as the "Louisiana Armed Services Veterans Post Office".

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2089

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LOUISIANA ARMED SERVICES VETERANS POST OFFICE.

(a) DESIGNATION.—The facility of the United States Postal Service located at 701 Loyola Avenue in New Orleans, Louisiana, shall be known and designated as the "Louisiana Armed Services Veterans Post Office".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the "Louisiana Armed Services Veterans Post Office".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. DAVIS) and the gentleman from North Carolina (Ms. FOX) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

□ 1515

GENERAL LEAVE

Mr. DAVIS of Illinois. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. DAVIS of Illinois. Madam Speaker, it is my pleasure to yield such time as he might consume to the sponsor of this legislation, Representative JEFFERSON from Louisiana.

Mr. JEFFERSON. Madam Speaker, I rise today as the sponsor of H.R. 2089 to rename the main post office in New Orleans from the New Orleans Main Office Window Service to the Louisiana Armed Services Veterans Memorial Post Office.

I would like to thank Chairman WAXMAN for his leadership in bringing this bill to the floor today as well as my colleague Mr. DAVIS of Illinois, as well

as fellow members of the Louisiana congressional delegation who join me as cosponsor of this measure.

As we approach the commemoration of Veterans Day, it is important to note that the State of Louisiana has made many contributions to each branch of our armed services and, by extension, to the defense of this Nation. My State of Louisiana is home to many proud armed service veterans dating from World War I to the present military engagement in Iraq. I am proud to say that many of my fellow Louisianans have volunteered and sacrificed as soldiers and as families of soldiers in the defense of this great Nation, and it is only appropriate that we memorialize them in this significant way. Louisiana is home to well over 370,000 uniformed veterans. This includes nearly 120,000 who served in World War II, 47,000 in the Korean War, 115,000 in the Vietnam War, and 80,000 in Desert Storm, the first Gulf War.

However, simply citing statistics does not give a complete picture. It doesn't give a complete picture of the sacrifices nor contributions made on behalf of the soldiers nor does it detail the historical relationship of Louisiana and the armed services branches of our Nation. It could be easily argued that the very battle that propelled America onto the world stage as a political and military power was fought on January 8, 1815, just below New Orleans, the Battle of New Orleans. Louisiana military posts were key supply points for the Mexican War of 1848. The Nation's first African American woman to earn her star as a general in the U.S. Army was Sherian Grace Cadonia, who grew up in Marksville, Louisiana, and graduated from my alma mater at Southern University in Baton Rouge.

Louisiana is also home to three major military installations, Barksdale Air Force Base in Bossier City, the Army's Fort Polk Joint Readiness Training Center near Leesville, and in my district, the Belle Chase naval facility across the Mississippi River from New Orleans. Each installation is an integral part of its respective community. Each also employs many local residents and has a profound impact on the economy of our State.

I would be remiss, Madam Speaker, were I not to mention the Louisiana National Guard, which calls New Orleans home at Jackson Barracks. The National Guard has made significant contributions within the State as well as abroad. During the first Gulf War, Louisiana had the highest number of guardsmen serving per capita than any other State in the Nation. However, Louisiana's contributions to the armed services does not come without cost. During the current war in Iraq, Louisiana lost more than 100 of its servicemen and women and over 500 have been wounded; yet this is not the only area in which our armed servicemen and women have paid a high price. Unfortunately, some of our veterans have had to fight two wars, one abroad and then
