

many union brothers and sisters, Dan continued his work with the union. In addition to his membership in the UAW, he also joined the International Brotherhood of Electrical Workers in 1956.

In 1983 Dan was named chairman of the UAW Retirees for the Alpena International Council. As chairman, he organized presentations on a monthly basis for his fellow retirees that ranged from elected officials to speeches about prescription drugs and Medicare.

Dan was later named chairman of the UAW Region 1-D retirees, serving members from sixty-two counties. He was also a board member of the UAW statewide coordinating committee for the Democratic Party.

In addition to his union activities, Dan Benac was instrumental in forming the Montmorency County Democratic Party, and served as chairman for many years. While he is no longer chairman, he remains active in the Party.

Dan Benac was a board member of the National Council for Senior Citizens and was nominated Senior of the Year in Region 4 in 1995 and 2003. He is also a member of other organizations including the Shrine Club, Disabled American Veterans, American Legion, and Masons. He was also chairman of the Michigan Veterans Trust Fund for Montmorency County.

Madam Speaker, Dan Benac's activities are amazing for a person of any age but as an eight-five year old his many activities are exceptionally admirable. Dan and Geraldine have been great assets to their family, their fellow workers, and their community, as well as good friends of mine. On January 4, 2008, family and friends will gather for a well deserved and final retirement party for Daniel Benac at the Addison Oaks Conference Center in Leonard, Michigan.

Today, as Dan prepares to enter a well deserved retirement, I offer him, his wife Geraldine, his three children, eight grandchildren and fourteen great-grandchildren all the best for the future. I would ask, Madam Speaker, that you and the entire U.S. House of Representatives join me in thanking Dan Benac for his service to the Montmorency community and commending him for the many years he has spent his life in service to others.

A TRIBUTE TO JOHN EDWARD
HUTCHINSON

HON. TIM MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, I rise today to recognize the career of John Edward "Hutch" Hutchinson. Hutch has served as the Greensburg Fire Chief in Greensburg, Pennsylvania, for the past 55 years.

The position of fire chief in Greensburg is an elected office. Since 1952, the residents of the community have resoundingly affirmed they appreciate Hutch's dedication to the job by reelecting him.

Since taking office, Hutch has made countless improvements to the department. His firefighters are all volunteers, highly trained and specialized. Hutch has developed a dive team,

a swift water rescue, large foam and vent operations, a bloodhound team, and an air rescue team.

In 1997, the Greensburg Fire Department First Responders were prepared to handle a large community disaster, including attacks involving weapons of mass destruction. Few in 1997 could have seen the value in this forward-thinking for a volunteer department, yet it is essential knowledge for all firefighters today.

Under Hutch's leadership, the Greensburg Fire Department has assisted with natural disaster response nationwide. From helping rebuild a community playground in Alabama to clearing trees off roads in South Carolina, Hutch has turned the Greensburg Fire Department into a humanitarian outlet.

Hutch takes his job beyond the walls of the firehouse into the community. He established health and fitness centers for the community, firefighters, and City employees.

Hutch has developed burn prevention classes for the local elementary and middle schools. He has served on the local hospital board, the Greensburg YMCA Board, the aerobics center board, and the camp cadet board.

Though he's been in office for 55 years, Hutch has no interest in slowing down. He calls himself "a young kid"—and isn't that a wonderful attitude? Hutch refuses to let his age be a factor. He works out twice a day, 7 days a week, to ensure that he's not asking his firefighters to do anything he can't do himself.

It is my great honor to recognize the long career of John Edward "Hutch" Hutchinson, a man who has given immeasurable amounts to the city of Greensburg, to Pennsylvania, and to our nation during his five and a half decades of service as fire chief.

INTRODUCING THE CANCER AND
TERMINAL ILLNESS PATIENT
HEALTH CARE ACT

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. PAUL. Madam Speaker, I rise to help working Americans stricken with cancer or other terminal illnesses, and their families, by introducing the Cancer and Terminal Illness Patient Health Care Act. This act exempts people with terminal illnesses from the employee portion of payroll taxes while they are suffering from such illnesses or are incurring significant medical costs associated with their conditions. The Cancer and Terminal Illness Patient Health Care Act also provides a payroll deduction to any worker who is the primary caregiver for a spouse, parent, or child with a terminal illness.

When stricken with cancer or another terminal disease, many Americans struggle to pay for the treatment necessary to save, or extend, their lives. Even employees with health insurance incur costs such as for transportation to and from care centers, prescription drugs not covered by their insurance, or for child care while they are receiving treatment. Yet, the Federal Government continues to force these employees to pay for retirement benefits they may never live to see!

Many Americans struggle to pay the costs of treating children, a spouse, or a parent with

a terminal illness. My bill also provides much needed tax relief for those who are providing care to a loved one with a terminal disease.

As a physician who has specialized in women's health issues for decades, I know how critical it is that cancer patients and others suffering from terminal illnesses have the resources they need to combat these illnesses. The Cancer and Terminal Illness Patient Health Care Act provides a realistic way to help people suffering from cancer or other terminal illnesses receive quality health care.

It is hard to think of a more compassionate tax policy this Congress could enact than to stop taking the resources away from working Americans that could help them treat cancer, AIDS, or other terrible health problems. I hope all my colleagues will help people suffering from terminal illnesses, and their caregivers, by cosponsoring the Cancer and Terminal Illness Patient Health Care Act.

HONORING THE LIFE OF PATSY
SANDERS

HON. DAVID DAVIS

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. DAVID DAVIS of Tennessee. Madam Speaker, I rise today to honor the memory and life of Patsy Marie Fitzgerald Sanders, a resident of the First Congressional District of Tennessee, who passed away December 12, 2007.

Patsy Sanders was a foundation to her family and our thoughts and prayers are with her husband of 52 years, Joe, and their daughters Jolene, Arlene, Darlene, and son Jacky.

As a lifetime member of Hales Chapel Christian Church, Patsy showed the love for her family and community that would shine to all who met her.

She was also a member of the Washington County Commission. As a Commissioner, she had a reputation of fairness and concern for the advancement of her county.

Madam Speaker, I ask that the House join me this evening in offering our sympathies to the family and friends of Patsy Marie Fitzgerald Sanders. She was a dedicated mother and an irreplaceable servant of her community.

Her service is greatly appreciated, and she will be deeply missed throughout Northeast Tennessee.

A TRIBUTE TO THE LIFE OF ALICE
KATHERINE MATTOS SANDERS

HON. JIM COSTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. COSTA. Madam Speaker, I rise along with my colleague from California, Congressman DENNIS CARDOZA to pay tribute to the life of Alice Katherine Mattos Sanders of Merced, CA, who recently passed away at 110 years of age. Mrs. Sanders was an outstanding lady filled with energy, love and high spirits. She leaves behind a loving family including a daughter-in-law, six grandchildren, fourteen great-grandchildren and twelve great-great-grandchildren.

A strong matriarch born in 1897, Alice immigrated to America from San Jorge Island in the Azores in 1903 with her mother and brothers to join her father. Samuel Mattos, Alice's father, was already in America working and saving money for the family's travels. The Mattos family first settled in the San Francisco Bay Area, where Alice and her family experienced the legendary 1906 San Francisco earthquake. Soon after, the Mattos family decided to make their home in California's Central Valley in the lovely communities of Dos Palos and then Gustine in Merced County. It was in Gustine where Mrs. Sanders attended high school and met her future husband Clarence Leonard Sanders. They married in 1913 and moved to the State of Oregon soon after following a job offer made to her husband.

After a few years living in Oregon, the couple and their two children, Isabel and Marvin, returned to the Central Valley and settled in Atwater, California in 1922. The family became entrepreneurs in 1947 when they bought a farm and began operating a dairy and almond orchard. Alice worked as a seamstress for many years for a local company called Passadori's and it was during these times she befriended many people in the community who still remember her today.

A woman described as kindhearted and courageous, Alice took pride in raising her children well and doing what she could to make sure her family's needs were met. In 1963, Alice and her husband Clarence celebrated their 50th wedding anniversary. A year later, Alice would become a widow and still continue on as a strong, independent woman with many years to live ahead of her. As one of the world's oldest Portuguese women, Alice will be remembered for her formidable spirit and splendid character.

Alice Sanders was part of a generation that endured incredible hardships to get to America and build a life for themselves and their families. Mrs. Sanders will be remembered for her commitment to her family and community and the lives she so graciously touched. She saw three centuries and a world full of change; she is a true inspiration to us all. I am honored and humbled to join her family in celebrating the life of an amazing woman.

PERSONAL EXPLANATION

HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. ABERCROMBIE. Madam Speaker, I regret that I was unable to record my vote on rollcall No. 1155. Had I been present, I would have voted "yea."

TRIBUTE TO JOHN FISHELL FOR 35 YEARS OF DEDICATED SERVICE TO THE UNITED STATES NAVY

HON. KEN CALVERT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. CALVERT. Madam Speaker, I rise today to honor and pay tribute to an individual whose dedication and contributions to his

community, the United States Navy and our country has been exceptional. The Naval Surface Warfare Center located in Corona, California has been fortunate to have dynamic and dedicated leaders and John Fishell is one of these individuals. I am sorry that I will not be able to attend his retirement ceremony which will be held on Tuesday, December 18, 2007.

John began his career at Corona in 1972 as a Missile Flight Analyst, soon after graduating with a Bachelor of Science degree in Electrical Engineering from the University of Texas, El Paso. His early career involved traveling the globe analyzing missile tests for the Navy. John was the on-board missile analyst for the first 22 missile tests on the USS *Norton Sound* (AVM-1), the development test ship for today's state-of-the-art Aegis combat system. Thirty-five years later, this missile system is America's mainstay defense system on the Fleet of Aegis Destroyers and Cruisers. In addition to being a missile flight analyst, various groups that John led early in his career developed several of the foundational databases and analysis software the Navy uses to assess its combat and weapon systems today.

As Associate Head of the Measurement Science Directorate in 1993, John was appointed to coordinate all 1995 Base Re-alignment and Closure (BRAC) efforts at Corona. From 1993–1995, he led the team that made the case for Corona's military value to the Navy. John and his team were successful in articulating Corona's military value and why its function needed to remain in Norco in order to maintain its value to the Navy. The Navy recognized John's leadership during the BRAC process and awarded him the Navy Award of Merit for Group Achievement.

Following several leadership roles at Corona, John was promoted to Head of the Measurement Science Directorate in August 1995. As director of the Navy's top metrology calibration directorate, he worked to significantly increase the metrology research and development program funding. He served as MS director until his promotion to Corona's top technical director position in January 2002.

During John's tenure as technical director, he has overseen significant facilities improvements at Corona. In 2002, the Measurement Science and Technology Laboratory (MSTL)—a 39,000 sq. ft. environmental laboratory—was completed. The MSTL is a top facility that supports Navy and Marine Corps weapons and interface gages, force and dimensional calibration standards, and electro-optics research and development. In 2008, Corona will complete the \$11.5 million extension of the Joint Warfare Assessment Laboratory, one of the Navy's premiere analysis labs. This 39,000 square-foot expansion significantly increases the secure analysis workspace to 87,000 square feet and will aid the base's primary mission: Assessing the warfighting capability of ships, aircraft, missiles, and weapons systems for the Navy and other Armed Forces. John has also overseen planning for three additional labs in the future, as part of a long-term plan to enhance Corona's facilities.

In addition to Corona's facilities, John has led many institutional transformations that have helped Corona meet today's demand for its technical services, while positioning the organization to meet future requirements. In 2004, John guided Corona's growth from four departments to six, resulting in cost savings to the Navy and better alignment of technical capabilities for naval programs.

John has been instrumental in creating long-term professional development programs at Corona that will strengthen the organization for years to come. Under his direction, Corona embedded a systemic Employee Development Program to institutionalize professional development for future generations of Corona employees. These efforts were recognized by the University of the Notre Dame Mendoza College of Business' highest recognition, The Outstanding Leadership in Executive Education Award. The development program has also received international acclaim as a case study for its proactive and innovative approach to managing leadership development, career, and succession planning. During John's time as the senior civilian, Corona has also been recognized as one of the Top Companies to Work For in the Inland Empire.

In addition to strengthening Corona's workforce, John has been a strong proponent of being active in professional organizations. He served as Measurement Science Conference President and in various liaison positions for National Conference of Standards Laboratories International. He was also a founding member of the Inland Empire Chapter of the American Society of Naval Engineers and its Chairman from 1995–96. From 2001–2003, he served on the National Cooperation for Laboratory Accreditation Board of Directors and has served as the Science and Technology Education Partnership (STEP) Conference Co-chairman since 2001 and STEP's Vice President of Operations since 2003.

I've known John for many years and am sincerely grateful for all the work he has done for our Nation, our community, NSWC, Corona and for STEP. His absence will be deeply felt in our community. I also congratulate John for receiving the Navy Meritorious Civilian Service Award for exemplary service to the Naval Surface Warfare Center, Corona Division. I commend John for his many years of excellent service and wish him health and happiness in retirement.

IN HONOR OF FIREFIGHTER DAVID
M. LOVING OF RICHMOND

HON. ERIC CANTOR

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, December 13, 2007

Mr. CANTOR. Madam Speaker, I rise today to honor Firefighter David M. Loving of the Richmond, Virginia Department of Fire and Emergency Medical Services and to congratulate him on receiving the National Public Safety Medal of Valor award. This award is the highest national award for bravery by a public safety officer and it recognizes extraordinary valor above and beyond the call of duty.

On August 6, 2005, Firefighter Loving was off-duty and on his way home after completing a 24-hour shift when he came upon the scene of a horrific traffic accident on Interstate 95. A motor home had rear-ended an 18-wheeler parked on the shoulder of the highway. Firefighter Loving stopped to offer assistance and was advised that there were people trapped inside the motor home. As the motor home filled with smoke, Firefighter Loving, without any safety gear, climbed inside the vehicle and was able to untangle the victim and pull him to safety. Within minutes, the motor home
