

the same confidence in a clean energy economy.

I am not the only one talking about this. I was listening to Senator CLINTON talk about this the other day in the Senate, about the need for an Apollo project. She has made some proposals about a stimulus package that are very similar to some of the ones we are proposing in the House. I think that is the right attitude we should have, because it is based on confidence.

Her larger program for clean energy also tracks the New Apollo Project that I have proposed in the House that would really on a major league basis propose major investments in clean technology. She has proposed a major league weatherization program to weatherize 20 million homes, and that is the scale that we ought to be thinking about. She has proposed 55 mile per gallon standards for our cars, and a \$50 billion pool of funds to be financed by transferring some of the tax benefits that have been given to the oil and gas industry and put it back into the clean energy industry and create a multi-billion dollar fund for the research to expand this technology. That is the type of thing we need. We appreciate that going on in the Senate, and we are going to continue to push these ideas in the House.

But let's start on the stimulus package. It is one small step for man, maybe not quite a giant leap for mankind, but it is commonsense for Americans that we do this. I appreciate my colleagues working with me, LLOYD DOGGETT, who has been a long time leader on this, TOM UDALL and others. We are going to push this ball. We hope we are successful.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. BACA (at the request of Mr. HOYER) for today and January 16 on account of personal business.

Mr. SHERMAN (at the request of Mr. HOYER) for today.
