The House met at 10 a.m. 
Rev. William H. Hild, Jr., First Baptist Church, Sarasota, Florida, offered the following prayer:

Our Father and our God, we beseech You this morning to grant unto this House abundant wisdom upon which debate and decision will be made. We pray for each and every esteemed Member, their spouses, their families, and the dedicated staffs who undergird them. May the great challenges that confront our land, debated in this Chamber, become opportunities for even greater blessing as, together, we seek Your will for this, our beloved Nation.

May we be reminded today that Your Word teaches: “Blessed is the Nation whose God is the Lord.” We thank You for Your incredible goodness, remembering all Your many blessings both individually and as a Nation. We earnestly pray for a deeper desire to make You the foundation and center of our life as we offer this humble prayer in the name of Jesus Christ our Lord.

Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day’s proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. PENCE. Madam Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker’s approval of the Journal.

The SPEAKER. The question is on the Speaker’s approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. PENCE. Madam Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Pursuant to clause 8, rule XX, further proceedings on this question will be postponed.

The point of no quorum is considered withdrawn.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentlewoman from Arizona (Ms. GIFFORDS) come forward and lead the House in the Pledge of Allegiance.

Ms. GIFFORDS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 5938. An act to amend title 18, United States Code, to provide secret service protection to former Vice Presidents, and for other purposes.

The message also announced that the Senate has passed a bill of the following title in which the concurrence of the House is requested:

S. 2617. An act to amend title 38, United States Code, to codify increases in the rates of compensation for veterans with service-connected disabilities and the rates of dependency and indemnity compensation for the survivors of certain disabled veterans that were effective as of December 1, 2007, to provide for an increase in the rates of such compensation effective December 1, 2008, and for other purposes.

WELCOMING REV. WILLIAM H. HILD, JR.

The SPEAKER. Without objection, the gentleman from Florida (Mr. BUCHANAN) is recognized for 1 minute.

There was no objection.

Mr. BUCHANAN. Madam Speaker, it is my privilege and honor today to recognize and welcome my family’s pastor, also my wife, Sandy, and my two children. He’s been our pastor for the last 8 years. William Hild, since 1997, has served and led as the pastor of First Baptist Church of Sarasota, Florida. Accompanying him here today is his wife, Beverly, of 28 years; William Hild III, who also attends Georgetown Law School; and his sister, Kathy.

Since becoming pastor of First Baptist Church of Sarasota in 1997, Bill has helped to spread the church’s ministry throughout our community, the State of Florida, the United States, and even across the world.

Under Pastor Hild’s leadership, the church has organized over 20 Holy Land trips to Israel, Jordan and Egypt. These trips provide our members with a greater understanding of the Bible and a deeper appreciation of the work of God.

Here at home, Pastor Hild was a leader in the recovery efforts following Hurricane Katrina. Under his leadership, First Baptist Church of Sarasota donated cash and pledges in excess of $140,000 to help the victims of Katrina. The church also conducted multiple trips to the Gulf coast region, delivering food and personal hygiene kits to those affected by the hurricane.

I want to thank my pastor, Pastor Bill Hild, for more importantly, his close friendship and guidance to me, and also providing today’s prayer. Also, I would like to thank his wife, Beverly, and son, Will, for being with us today and his family and many friends from back home watching here today on this very special day.

Thank you, Pastor Hild.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 10 further requests for 1-
minute speeches on each side of the aisle.

EXTEND RENEWABLE ENERGY TAX CREDITS

(Ms. GIFFORDS asked and was given permission to address the House for 1 minute.)

Ms. GIFFORDS. Madam Speaker, I rise today to address the urgent issue of extending the renewable energy tax credits. These tax credits are due to expire this year. As we all know, their extension is critical to the young renewable energy industry in our Nation.

The House has passed extensions four separate times, and I applaud my colleagues for doing so. But our job is not done. I urge our colleagues in the Senate to work with us to pass a responsible extender bill quickly.

Solar power and other renewables are poised to be one of the biggest opportunities of the 21st century. Yet unlike our foreign competitors, we still haven't made a firm national commitment to this industry.

Previously, we've always looked to the future, imagined a better world, and then partnered with the private sector to build it: railroads, the highways, the Internet as well.

Government support was critical to every one of these technologies in its earliest stages. Renewable energy is no different.

I refuse to believe that we cannot get bipartisan action on a bill which prevents U.S.-based oil companies from development of and investment in the petroleum resources of Iraq. This will discourage U.S. oil companies from profiting from the war and stop the further theft of Iraq's oil resources by the very interests who have profited from the war for oil, the U.S. oil companies.

STopping the FURTHER THEFT of IRAQ'S OIL RESOURCES

(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, just prior to the invasion of Iraq on March 17, 2003, the price of a barrel of oil was $30.01, and the price of a gallon of gas was $1.71, the average.

On July 29, 2008, the price of a barrel of oil was $122.21, and the average gallon of gas, $3.96.

The invasion of Iraq was about oil, but it didn't result in more oil or cheaper gas. It resulted in war profiteering by oil companies who benefited by keeping Iraq oil off the market. Remember the secret meetings between the administration and the oil company executives before the war?

Well, today I'm going to introduce a bill which prevents U.S.-based oil companies from development of and investment in the petroleum resources of Iraq. This will discourage U.S. oil companies from profiting from the war and stop the further theft of Iraq's oil resources by the very interests who have profited from the war for oil, the U.S. oil companies.

PROMOTING NEW AMERICAN ENERGY ACT

(Mrs. BACHMANN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BACHMANN. Mr. Speaker, as part of our action plan for energy, Republicans in the United States House of Representatives are asking that we push forward with an all-of-the-above energy strategy to utilize every source of American energy to release us from our dependence on foreign oil.

That's why today I'm introducing, Mr. Speaker, the Promoting New American Energy Act which accelerates tax depreciation to 3 years for investments in newer, cleaner, more efficient technologies, including wind, solar, and geothermal, as well as others.

According to the nonprofit American Council for Capital Formation, American energy investments have less favorable tax depreciation rules in the United States compared to many other countries. This does not put America in a good position for alternatives. My bill will bring America's tax depreciation schedule in line with those of our major trading partners overseas, which will put America on a better foot globally, and that means more jobs in the United States.

This will take us one step closer, Mr. Speaker, to increasing domestic energy production and making it more efficient.

As a member of the Renewable Energy and Energy Efficiency Caucus, I ask my colleagues to promote newer, cleaner, more efficient energy solutions.

COMMENDING SANTA ANA POLICE DETECTIVE CHUCK SALLE

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

LORETTA SANCHEZ. Mr. Speaker, on May 18, 2007, a young mother was executed in cold blood by her former live-in boyfriend. The woman's 11-year-old daughter was in the house and heard her mother begging for her life, then a pause, then a gunshot, and then silence.

Santa Ana Police Detective Chuck Salle, badge number 2005, was assigned to the United States Marshall's Fugitive Task Force and was tasked with tracking down and arresting that suspect.

Task force members located the suspect in a crowded restaurant and arranged a meeting away from the public area. Detective Salle approached the suspect, identified himself as a police officer, and the suspect pointed his gun directly at Salle's head and fired. The bullet missed, officers returned fire, and the suspect fell to the ground fatally wounded.

Today, the Treasury Department will recognize Officer Salle with the highest valor award that they honor ATF agents with.

Today, I publicly commend and thank Detective Salle, the United States Marshall's Fugitive Task Force, and law enforcement officers all across this great Nation for their efforts in protecting and serving our communities, day or night, rain or shine, every minute of the day.

LET'S VOTE ON AMERICAN ENERGY ACT

(Ms. FALLIN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. FALLIN. Mr. Speaker, in just 2 weeks, children from all across America will begin their year by starting back to school. All over America, school officials are struggling with the rising costs of fuel. They have to run their buses twice a day for the next 9 months. And in some States, they're already talking about cutting back on bus routes. They're already talking about forcing some children to have to walk to school, and even going to four-day-a-week school classes. That's just not inconvenient for our families and our children, but it's flat-out dangerous for our children, especially our young ones.

Day after day, we wait for this House and the Democratic leadership to allow
us a vote on expanded energy resources, whether it is drilling, whether it is alternative resources—wind, solar, nuclear, refinery capacity, and day after day they say no.

In just a few weeks, our children, who have been riding buses safely, are now going to have to alter the way they get to school.

Mr. Speaker, time is up. It’s time for us to vote on the American Energy Act. Let’s vote on it today. Let’s vote on it before we go on our August break. Let’s give the American people relief on gas prices.

GAS PRICES

(Mr. HALL of New York asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HALL of New York. Mr. Speaker, gas prices in New York are still at the outrageous price of $4.19, well above what working families in the Hudson Valley can bear. They are looking to us in the government for answers, and Congress needs to respond.

The fact is that the Democratic majority has advanced a wide variety of proposals to provide relief. We have pushed tax credits for fuel-efficient vehicles and renewables, we’ve called for Big Oil to drill on its land that it has already leased and gotten permits for, and advocated a release from the SPR. Each time President Bush and his allies have opposed these measures and stepped on our energy solutions, whether it is drilling, whether it is offshore drilling proposals.

The Republican minority treats our energy crisis like a multiple choice question. The problem is that they keep answering "none of the above." The problem is that they have opposed these measures and stepped on our energy solutions, whether it is drilling, whether it is offshore drilling proposals.

Let’s give the American people relief on gas prices.

AMERICA NEEDS COMPREHENSIVE ENERGY REFORM

(Mr. LATTAN asked and was given permission to address the House for 1 minute.)

Mr. LATTAN. Mr. Speaker, I am proud to represent the ninth largest manufacturing district of the United States Congress. Earlier this week, I had the pleasure of visiting two manufacturing facilities in my district.

During the visits, the management of each facility told me that the number one issue facing them is the rising cost of energy and petroleum products.

Natural gas is a much-needed resource in the manufacturing industry to fuel production, in addition to the thousands of petroleum-based products that are used to fabricate various goods.

Without comprehensive energy reform, the price of oil and natural gas will continue to rise here in the United States, forcing costs to rise, and leaving us at a competitive disadvantage with the rest of the world. Foreign manufacturers located in countries such as India and China are allowing for exploration and recovery of their domestic natural resources that keep their energy prices low.

The bottom line is that energy equals manufacturing which equals jobs. And without energy reform, our Nation will continue to lose business to these countries and our economy will continue to suffer. The time to act is now.

COMPREHENSIVE IMMIGRATION REFORM

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, we are a Nation with a Constitution and a Bill of Rights, with human rights; and that’s what makes our country so great.

These rights were violated for hundreds of families in immigration raids throughout the country, including Postville, Iowa. What we fail to see at times are the long-lasting and devastating impact raids leave behind.

In Postville, hundreds of children have been ripped from their families, elderly left to fend for themselves, single parents forced to wear ankle bracelets are prohibited from working to feed their children. And the schools now resemble ghost towns with the absence of so many children.

We cannot continue to look the other way and ignore what is happening in this country.

The human dignity of these families have been stepped on. We are a country with moral principles and core values. There is no blanket solution for the immigration crisis. We need to look beyond this ugly anti-immigrant rhetoric that is dividing our Nation and work towards comprehensive immigration reform.

213 VOTE TO GET OUT OF DODGE

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, it was 213 to get out of town and it was 212 to stay here and do our job, which is to pass an energy bill for Americans. So the 213 that won this vote, at the end of the day tomorrow they’re getting out of town. But you see, back home where I live, people can’t even leave town because they don’t have enough money to pay for gasoline for their vehicles.

It’s a shame on Congress that we are going in recess when we have to do and have not dealt with the issue of high energy prices.

So let’s bring a vote up today on whether we should drill offshore or not. Let Congress decide—no politics, up or down vote—whether we should drill offshore and get America back to work by lowering gasoline prices.

And that’s just the way it is.

VETERANS TRAVEL PROGRAM REFORM ACT

(Mr. WALZ of Minnesota asked and was given permission to address the House for 1 minute.)

Mr. WALZ of Minnesota. Mr. Speaker, I rise today to introduce a new bill, the Veterans Travel Program Reform Act of 2008. I’m proud to be joined by my colleague from Connecticut (Mr. COURTNEY) in introducing this legislation.

Many of our veterans incur significant costs traveling to and from VA facilities to receive their health care treatment. This is especially true because of skyrocketing gas prices.

While some veterans are reimbursed for their travel, the rate they receive is below what Members of this body receive when we road trip in our cars. That is simply wrong. What’s more, current law requires the VA Secretary to raise the deductible that veterans have to pay when the mileage reimbursement goes up.

We cannot continue to look the other way and ignore what is happening in this country.

The human dignity of these families have been stepped on. We are a country with moral principles and core values. There is no blanket solution for the immigration crisis. We need to look beyond this ugly anti-immigrant rhetoric that is dividing our Nation and work towards comprehensive immigration reform.

COMPREHENSIVE IMMIGRATION REFORM

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, we are a Nation with a Constitution and a Bill of Rights, with human rights; and that’s what makes our country so great.

These rights were violated for hundreds of families in immigration raids throughout the country, including Postville, Iowa. What we fail to see at times are the long-lasting and devastating impact raids leave behind.

In Postville, hundreds of children have been ripped from their families, elderly left to fend for themselves, single parents forced to wear ankle bracelets are prohibited from working to feed their children. And the schools now resemble ghost towns with the absence of so many children.

We cannot continue to look the other way and ignore what is happening in this country.

The human dignity of these families have been stepped on. We are a country with moral principles and core values. There is no blanket solution for the immigration crisis. We need to look beyond this ugly anti-immigrant rhetoric that is dividing our Nation and work towards comprehensive immigration reform.

213 VOTE TO GET OUT OF DODGE

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, it was 213 to get out of town and it was 212 to stay here and do our job, which is to pass an energy bill for Americans. So the 213 that won this vote, at the end of the day tomorrow they’re getting out of town. But you see, back home where I live, people can’t even leave town because they don’t have enough money to pay for gasoline for their vehicles.

It’s a shame on Congress that we are going in recess when we have to do and have not dealt with the issue of high energy prices.

So let’s bring a vote up today on whether we should drill offshore or not. Let Congress decide—no politics, up or down vote—whether we should drill offshore and get America back to work by lowering gasoline prices. That’s what we need to do rather than get out of Dodge—or should I say Washington, DC.

And that’s just the way it is.

VETERANS TRAVEL PROGRAM REFORM ACT

(Mr. WALZ of Minnesota asked and was given permission to address the House for 1 minute.)

Mr. WALZ of Minnesota. Mr. Speaker, I rise today to introduce a new bill, the Veterans Travel Program Reform Act of 2008. I’m proud to be joined by my colleague from Connecticut (Mr. COURTNEY) in introducing this legislation.

Many of our veterans incur significant costs traveling to and from VA facilities to receive their health care treatment. This is especially true because of skyrocketing gas prices, and it’s a big problem in rural areas like southern Minnesota.

While some veterans are reimbursed for their travel, the rate they receive is below what Members of this body receive when we road trip in our cars. That is simply wrong. What’s more, current law requires the VA Secretary to raise the deductible that veterans have to pay when the mileage reimbursement goes up.

We cannot continue to look the other way and ignore what is happening in this country.

The human dignity of these families have been stepped on. We are a country with moral principles and core values. There is no blanket solution for the immigration crisis. We need to look beyond this ugly anti-immigrant rhetoric that is dividing our Nation and work towards comprehensive immigration reform.

213 VOTE TO GET OUT OF DODGE

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Mr. Speaker, it was 213 to get out of town and it was 212 to stay here and do our job, which is to pass an energy bill for Americans. So the 213 that won this vote, at the end of the day tomorrow they’re getting out of town. But you see, back home where I live, people can’t even leave town because they don’t have enough money to pay for gasoline for their vehicles.

It’s a shame on Congress that we are going in recess when we have to do and have not dealt with the issue of high energy prices.

So let’s bring a vote up today on whether we should drill offshore or not. Let Congress decide—no politics, up or down vote—whether we should drill offshore and get America back to work by lowering gasoline prices. That’s what we need to do rather than get out of Dodge—or should I say Washington, DC.

And that’s just the way it is.
energy special session of Congress. Under article II, section 3 of the Constitution, the President has the power, quote, on extraordinary occasions to convene the Congress. If $4 a gallon of gas isn’t an extraordinary occasion that demands action by the Congress, I don’t know what is.

The Congress should stay in session and do its job and give the bipartisan pro-drilling majority a vote. And, Mr. President, if this Congress tries to leave town without voting on more drilling, use your constitutional authority, bring them back and make them work.

RENEWABLE ENERGY AND ENERGY EFFICIENCY EXPO

(Mr. CARNAHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARNAHAN. Mr. Speaker, I rise to thank Congressman MARK UDALL and Congressman ZACH WAMP and the Renewable Energy and Energy Efficiency Caucus for sponsoring the expo today in the Cannon Caucus Room. I urge all Members and staff to attend.

I believe Members from both sides of the aisle can agree that renewable energy and energy efficiency will be a big part of our effort to wean ourselves from a dangerous reliance on foreign oil.

This new and developing sector of the economy will generate thousands of new jobs, high-paying green collar jobs, that will remain in America and won’t be outsourced.

The union of renewable energy and energy efficiency with the built environment will not only generate new jobs and new technology, but it will help to immediately address global climate change. According to recent studies, the quickest and easiest way to positively affect global climate change is to design and build—or retrofit—high-performance green buildings. These buildings are energy efficient, healthy, safe, and secure.

Developing buildings that use renewable energy and seeking energy efficiency is a win for the economy, for the environment, and for the people who work in them.

MEDIA FAIRNESS INITIATIVE: MEDIA DONATIONS FAVOR DEMOCRATS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, the story of the 2008 election is being told by a partisan media. If you have any doubt, just follow the money.

An analysis by Investor’s Business Daily shows that journalists contributed $110 million more money to Democrats than Republicans during this election cycle. While 235 journalists donated to Democrats, just 20 gave to Republicans, a margin of more than 10–1. And journalists who gave to Senator OBAMA outnumbered those who contributed to Senator MCCAIN by a 20–1 margin. No wonder nearly seven in 10 Americans say the media wants Senator OBAMA to win the election, according to a poll.

Mr. Speaker, we need to promote fairness and objectivity in journalism. Only then will we restore Americans’ faith in the media.

CONSUMER SAFETY

(Mr. KLEIN of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KLEIN of Florida. Mr. Speaker, yesterday the House passed two pieces of legislation critical to consumer safety, both in my district in south Florida and of course throughout the United States.

The first bill, the Product Safety Modernization Act, bans dangerous chemicals in the manufacture of children’s toys to keep them safe. The second bill, the Family Smoking Prevention and Tobacco Control Act, grants the Food and Drug Authority to restrict tobacco marketing and sales to children.

Mr. Speaker, one of the most important responsibilities as parents that we have is to keep our children safe. I’m proud that we passed these bills by a bipartisan majority to demonstrate that we will not allow our children to be exposed to toxic chemicals by unscrupulous toy manufacturers or cigarette company marketers.

The rash of product recalls in the last year prove that we must be vigilant when it comes to consumer safety. Thanks to this week’s legislation, parents in south Florida and across the Nation can rest a little easier.

UNFINISHED BUSINESS

(Mr. WESTMORELAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WESTMORELAND. Mr. Speaker, I want to call today your attention to something yesterday. We had a vote 213–212 to adjourn this House without passing a comprehensive energy bill, proving that we passed these bills by a bipartisan majority to demonstrate that we will not allow our children to be exposed to toxic chemicals by unscrupulous toy manufacturers or cigarette company marketers.

So what I’ve done, Mr. Speaker, I’ve got a number here. Call (202) 224–3212. Ask for Speaker PELOSI if you want to make sure that we do something before we leave this Chamber today or tomorrow to vote on drilling; or call and ask for your Member of Congress and find out if they were the swing vote that made us leave this city without voting for you.

But I’ll tell you what, not only are they leaving Washington, DC, they’re going to fly to their dimes. They’re going to fly to Africa and Europe and all over this world on your dime while you don’t have money at your house to go on a family vacation, or even go to the store sometimes, they’re going to be flying around here.

Call this number. Mr. Speaker, I hope they will put it on the Internet. I hope we will let Speaker PELOSI, the Democratic leadership, know we’re tired of them leaving town without voting on more drilling; or making sure that we do something before we leave this Chamber today or tomorrow.

We need to know where you stand. We need to drill for U.S. oil.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. Ross). Members are reminded they must address their remarks to the Chair.

CONGRATULATING THE ENERGY RENEWABLE AND ENERGY EFFICIENCY CAUCUS

(Mrs. BOYDA of Kansas asked and was given permission to address the House for 1 minute.)

Mrs. BOYDA of Kansas. Mr. Speaker, in contrast, I would like to just stand up and, again, like so many others, not rail on somebody, but to thank the bipartisan Energy Renewable and Energy Efficiency Caucus.

Our country is facing deep, deep energy problems, and I think the good people of Kansas certainly understand that the way that we’re going to address that is coming and looking at the bipartisan commonsense solutions.

I want to just congratulate—this is a bipartisan group—the Renewable Energy and Energy Efficiency Caucus. And I would like to specifically thank Representative MARK UDALL and Representative ZACH WAMP, a Republican, for coming together and making this such an important issue. It’s over in the Cannon Caucus Room. And I certainly ask each of us to get over there and to support this bipartisan effort.

You know, I think really in Kansas we are sick and tired of everybody railing on somebody else. It’s time that we work together.

THE EFFECTS OF HIGH GASOLINE PRICES

(Mr. CARTER asked and was given permission to address the House for 1 minute.)

Mr. CARTER. Mr. Speaker, today in Texas the temperature is going to be about 103 to 105 degrees. It’s going to be hot, and it’s been hot for the last 2 weeks.

Last night I had the pleasure of visiting with some of my constituents back home, several hundred of them. And at this time of the year, Texans generally try to get their old folks and their kids out of the heat wherever they can. So historically Texans have gone out in their pickups with their campers or their tents, and they have gone to visit our neighbors in New Mexico and Colorado to get a little bit
up in the mountains and get a little bit cooler so we can stay alive when this heat hits us.

But it’s not happening in Texas today because, quite frankly, ordinary folks can’t afford to load up their pickup, put gasoline in it, and drive the distance to the mountains. And they’re concerned about it, and they’re worried about it. And they want to know if they are having to take the heat, why can’t this House stand the heat and stay here until we have resolved this issue of offshore drilling and drilling in other parts of the country.

RENEWABLE ENERGY AND ENERGY EFFICIENCY EXPO AND FORUM

(Mr. COSTA asked and was given permission to address the House for 1 minute.)

Mr. COSTA. Mr. Speaker, what the American people want is for us in a bipartisan effort to come together and use all the energy tools in our energy tool box to, in fact, solve America’s energy problems. Such an effort is being sponsored today in part by the House Renewable Energy and Efficiency Caucus, of which I am a member.

Renewable energy and energy efficiency are important tools for reducing our reliance on imported oil and addressing climate change. In my home State of California in 2007, 23.5 percent of our electricity came from renewable resources such as wind, solar, geothermal, biomass, and hydroelectric facilities. We’ve made a lot of progress. The Fresno-Yosemite Airport near my district recently installed solar panels that provide 40 percent of the airport’s need for electricity. At my alma mater, Fresno State, we’ve built shaded parking using solar panels that provide over 20 percent of the energy necessary for the university. We also have dairy farmers and utility companies partnering together to generate electricity through methane gas.

This is the kind of partnership and cooperation and collaboration we need. This is an exciting time for renewable energy and energy efficiency. I encourage all to visit this very important expo and forum in the Cannon Office Building.

HONORING MICHAEL DEAN RAMBO

(Mr. MARCHANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARCHANT. Mr. Speaker, I rise today to honor Michael Dean Rambo of Colleyville, Texas.

Michael was an outstanding husband, father, and scout master for Troop 28. Michael was always looking for an opportunity to give back to the community in which he lived. He loved his family and friends, and they loved him. Michael always had a childlike wonder and awe of the world around him and a thirst for knowledge. His example and enthusiasm made those around him want to learn more and do more.

Michael was always up for a challenge and always willing to lend a hand. He was the submaster for Pack 254 before taking the lead role for Troop 28. Michael was the guiding light for Troop 28 for 12 years and helped them earn Colleyville’s first service award.

Among Michael’s many accomplishments, he earned his Eagle Scout at the age of 15. He received his science and math degree from Stephen F. Austin University, and he went on to earn a master’s degree from UT Arlington. His favorite people were his sons, Patrick Rambo and Aaron Rambo, and his wife, Mary Margaret.

Michael Rambo selflessly served the community. He loved his family and friends, and he enjoyed life to the fullest. He was a role model of superior citizenship who had a tremendous impact on our lives.

PROVIDING FOR CONSIDERATION OF H.R. 1338, PAYCHECK FAIRNESS ACT

Ms. SLAUGHTER. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1338 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole on the state of the Union for consideration of the bill (H.R. 1338) to amend the Fair Labor Standards Act of 1938 to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Education and Labor. After general debate the bill shall be considered under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Education and Labor now printed in the bill. The committee amendment in the nature of a substitute shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member of the Committee on Education and Labor, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall be in order, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived except those arising under clause 9 or 10 of rule XXI. At the conclusion of consideration of the bill amendment the Committee of the Whole shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment in the nature of a substitute. The previous question shall be considered as ordered and amendment thereto to final passage without intervening motion except one motion to recommence debate. If such a motion is made, the Chair may postpone further consideration of the bill to such time as may be designated by the Speaker.

The SPEAKER pro tempore. The gentleman from New York is recognized for 1 hour.

Ms. SLAUGHTER. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida, a member of the Rules Committee, Mr. DIAZ-BALART.

Mr. DIAZ-BALART. As I yield the traditional delegation of the rule is for debate only. I yield myself such time as I may consume. I also ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 1338.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Ms. SLAUGHTER. Mr. Speaker, House Resolution 1338 provides for consideration of H.R. 1338, the Paycheck Fairness Act, under a structured rule. The rule provides 1 hour of general debate controlled by the Committee on Education and Labor. The rule makes in order six amendments which are printed in the Rules Committee report, and the rule also provides one motion to recommit with or without instructions.

The Speaker, our great Nation recently celebrated the 160th anniversary of the 1848 Women’s Rights Convention in Seneca Falls, New York. This groundbreaking convention was dedicated to the key principle in the Declaration of Independence that we are all created equal. Women have had a hard time to recognize that because it took more than 70 years for us to pass the Equal Rights Amendment. But in the years since Seneca Falls, generations of courageous women have made great strides towards equality. From securing a woman’s right to vote in 1920 to serving our country in World War II, American women have come a long way. In this Congress alone, we have much to celebrate. Speaker PELOSI is the first woman to lead this esteemed body. And Senator CLINTON made “18 million cracks” in the Nation’s highest glass ceiling as the first woman to run for a formidable Presidential campaign.

Yet as we celebrate these important milestones and look back on all we
have achieved since 1848, we know full well that our journey toward gender equality is not complete. Despite the strong leadership of several generations of women, we are still struggling to achieve equality in the workplace. Among the most distressing disparities is the significant gap in pay between American men and women as they work side by side doing the very same work.

Mr. Speaker, 45 years ago President John F. Kennedy signed into law the Equal Pay Act to address the unacceptable practice of paying women less for the same job. That was 45 years ago and we still struggle. At that time when this bill was signed, women were earning 59 cents for each dollar earned by a man in a comparable job. While the wage gap has narrowed, today the working women in America still earn only 77 cents for every dollar earned by men. In other words, let me put it this way. 18 cents more has been achieved in the past 45 years.

According to the Department of Labor, which maintains data on over 300 job classifications, men are paid more in each and every category. This is so important. I’m going to say it again. As the Department of Labor says in 300 job classifications, men are paid more in each and every 1 of them. Even in what they call the female-dominated industries where women comprise 70 percent of that labor force, women earn 20 percent less than their male coworkers.

Experts estimate that the average woman worker will lose anywhere from $200,000 to $2 million over her lifetime as a result of the wage gap. Over time women earn significantly less than men, and lower wages translate into less income that counts in calculating pensions and in some cases Social Security benefits. Closing the wage gap will have a long-term impact on the women’s economic security, especially in retirement.

To all the cynics who dismiss equal pay as just another women’s issue, I want to point out that the wage gap not only hurts women, it hurts families. It hurts children being raised by single moms who have to work two jobs to make ends meet when one might suffice were she to be paid equally with her male coworkers. It hurts families with two working parents who are struggling as one partner makes 20 percent less than her male colleagues. Currently, single women who are heads of households are twice as likely to be in poverty as single fathers. Again, currently single women who are heads of households are twice as likely to be in poverty as single fathers. That is a fact that we must face here and remedy. And we know that pay equity for women is closely linked to eradicating poverty. For families who live below or near the poverty line, the equal pay for women issue is a significant difference to the well-being of American families. And after all, Mr. Speaker, isn’t that why we are here?

Despite these statistics and shocking data that indicates that men make over 20 percent more than their female colleagues on average, the Supreme Court dealt a blow to working women last year when it decided Ledbetter v. Goodyear. In that case, former Good- year employee of 28 years, sued the company after she left the company after discovering she had been paid significantly less than male employees doing the same job during her nearly two decades of employment. Mr. Speaker, that the Equal Pay Act of 1963 was in effect at that time. Though Ms. Ledbetter was clearly treated as a second-class employee, although she got wonderful ratings and compliments on her job, the Supreme Court let Goodyear off the hook on what I think is a misrepresentation of the law.

The Supreme Court ruled that in order to enforce her right to be paid fairly, Ms. Ledbetter would have had to file wage discrimination complaint within 180 days of when the discrimination began. Now, imagine that. You’re new on the job. You’re happy to be there. You’re learning your job. And you have no idea what other people are paid or whether you’re being discriminated against. That shows you the grave mistake made by the Supreme Court. But since pay practices typically take place in secret, it would be impossible for a woman to discover discrimination within a 180-day window that she has to file a claim.

Justice Ginsberg, the only woman serving on the Court, wisely noted that the Ledbetter decision essentially gutted legislative protections against discriminatory pay practices. Again, that would have been the law of 1963. In its Ledbetter ruling, the Supreme Court has all but endorsed gender discrimination in employment by robbing women of a legal remedy to enforce equality. One certainly understands that we need more women on the United States Supreme Court.

To overcome these efforts to nullify the Equal Pay Act, we must redouble our efforts to insist that Lilly Ledbetter and the countless hard-working women like her in America are compensated fairly.

Earlier this month I was proud to join Speaker PALERMO, Senator CLINTON, ROSA DELAURO, Lilly Ledbetter, and many of my colleagues at an event in support of the Paycheck Fairness Act. The underlying legislation, H.R. 1338, seeks to further prevent gender discrimination in the workplace. The legislation has raised some concerns on how it seeks to achieve the goal. For example, in a letter from the Secretary of Labor, Ms. Chao, to Chairman MIL- LER, the Secretary expressed concerns that the legislation would allow for unlimited compensatory and punitive damages, and she also expressed opposition to changes in the establishment requirement. Under current law, employees whose pay is being compared, must work in the same establishment. In the underlying legislation, that would change to mean workplaces in the same county, and it also allows outreach to employers and to continue to collect and share wage information based on gender.

Today, even though it is late in the day, we have an opportunity to secure the promise of America so that tomorrow our daughters and sons and grand-daughters and grandsons will all have equal opportunity to achieve the American dream. Until we do, we will never reach the gender equality that women had been present at the 1848 Women’s Rights Convention aspired to achieve.

Mr. Speaker, it is our responsibility to the working women in our lives and to the generations of hardworking women who came before us to support this legislation. I urge those who participate in this debate. I yield myself such time as I may consume.

Mr. Speaker, no worker should ever be subjected to discrimination because of gender or any other reason. Anyone who commits such discrimination must be stopped and punished for reprehensible behavior. Discrimination has no place in the workplace.

For that reason, Congress has passed two major laws that prohibit an employer from paying an employee a different wage or otherwise discriminating in any term or condition of employment on the basis of gender. These prohibitions against discrimination are provided in both title VII of the Civil Rights Act and the Equal Pay Act of 1963.

The underlying legislation, H.R. 1338, seeks to further prevent gender discrimination in the workplace. The legislation has raised some concerns on how it seeks to achieve the goal. For example, in a letter from the Secretary of Labor, Ms. Chao, to Chairman MIL- LER, the Secretary expressed concerns that the legislation would allow for unlimited compensatory and punitive damages, and she also expressed opposition to changes in the establishment requirement. Under current law, employees whose pay is being compared, must work in the same establishment. In the underlying legislation, that would change to mean workplaces in the same county, and it also allows...
that change to be defined even more broadly. But, without doubt, Mr. Speaker, this legislation deals with a very important subject.

Mr. Speaker, later this week, the House of Representatives is scheduled to take up the comprehensive energy legislation that Members have been working on for months. As this legislation moves toward final passage, the Rules Committee did the same thing once again.

The majority of Members consider every majority amendment while blocking an overwhelming number of minority amendments.

So what happened to the majority's promise of an open and fair debate? I think it was well described by a recent article in another publication that covers Capitol Hill, called Politico, in an article on the Speaker. It read, "After promising fairness and open debate, she has resorted to hard-nosed parliamentary devices that effectively bar any chance for Republicans to offer policy alternatives."

I think it's unnecessary and unfair, Mr. Speaker. I think it's unfortunate and sad.

I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I yield 3 minutes to the gentlewoman from the Rules Committee and also from Florida (Ms. CASTOR).

These are the values we share as Americans; that if someone works hard and is paid fairly for their work, they and their families are able to provide for their children. That is simply unacceptable.

I have read and heard the stories of wage discrimination. We have all heard the story of Lilly Ledbetter, the worker who was a victim of systematic pay discrimination for 19 years. These are the stories of women who have dedicated decades upon decades of their lives to their employers, only to find out that they are compensated at a fraction of the rate of their male counterparts.

With every paycheck these women deposit, they and their families are being held back, their earning potential limited by a factor over which they have no control, their gender, and a factor that has no affect on their job performance.

This Paycheck Fairness Act addresses that disparity by providing more effective remedies for gender-based wage discrimination and ensuring that if a case goes all the way to a jury, that the arbitrary and outdated caps on damages will be addressed.

Thank you to Congresswoman ROSA DELAURO. She introduced this legislation 11 years ago, but she never gave up. Congresswoman DELAURO, we are not going to give up just because the President has threatened to veto the measure. I'd also like to thank Speaker NANCY PELOSI, Chairman GEORGE MILLER, and Chairwoman LOUISE SLAUGHTER for their leadership and commitment to equality under the law for all Americans.

Passing this historic Paycheck Fairness Act will bring our Nation closer to our promise of equality for all Americans. It is a hopeful day for working women and families, and I urge a "yes" vote on their behalf.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, we reserve.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 3 minutes to a member of the Rules Committee, the gentlewoman from Ohio (Ms. SUTTON).

Ms. SUTTON. I thank the distinguished Chair of the Rules Committee and also the leadership of her party for the time. I also want to thank Speaker NANCY PELOSI and Representative ROSA DELAURO for their commitment and dedication to bringing this forward over hurdle past hurdle past challenge past challenge. Thank you so much.

Mr. Speaker, I rise in strong support of H. Res. 1388 and the underlying legislation, the Paycheck Fairness Act. Mr. Speaker, fairness is something we strive for in all aspects of our lives. From an early age, we try to instill in our children the importance of fairness, fair play, and equality. But, sadly, while we preach fairness, on average, women today earn a deplorable 77 percent of what men earn and, unfortunately, the wage gap in my home State of Ohio is even more substantial than the national average.

According to the National Women's Law Center, Ohio ranked 30th in the ratio of women's earnings to men's earnings. The Center gave Ohio, along with 46 other States, a failing grade. That is simply unacceptable.

I read and heard the stories of wage discrimination. We have all heard the story of Lilly Ledbetter, the worker who was a victim of systematic pay discrimination for 19 years. These are the stories of women who have dedicated decades upon decades of their lives to their employers, only to find out that they are compensated at a fraction of the rate of their male counterparts.

With every paycheck these women deposit, they and their families are being held back, their earning potential limited by a factor over which they have no control, their gender, and a factor that has no affect on their job performance.

Mr. Speaker, I would like to read to you a letter my office received on this issue from a college student at the University of Akron. She wrote, "Equal pay for equal work is a simple matter of justice for women." I couldn't say it better myself. The Paycheck Fairness Act will update and
strengthen the Equal Pay Act. This bill will close numerous loopholes in the 45-year-old law that has allowed employers to avoid liability for discriminatory practices.

The American people expect their government to stand up for fairness and justice. The Paycheck Fairness Act is not only about changing the way we treat our working women. It is about paying rent, putting food on the table, and paying for college tuition. We must return to the founding principles of our Nation and what has moved us forward in difficult times. Fairness has been at the heart of all that makes America strong, and this Congress cannot turn away from that.

I urge all of my colleagues to support this rule and this incredibly important bill.

Mr. LINCOLN DIAZ-BALART of Florida. I reserve my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 3 minutes to the author of this legislation, an outstanding Member, the gentlewoman from Connecticut (Ms. DELAURO).

Ms. DELAURO. Mr. Speaker, I rise in strong support of this rule. I commend Speaker PELOSI, the majority leader, Chairman MILLER, and as well Chairman SLAUGHTER and the entire Rules Committee, for bringing this important legislation to the floor.

With this resolution, we take up an effort that began more than 150 years ago when visionary women came together to stand up for women’s rights, to better the status of women in our society. In this tradition, more than 11 years ago I first introduced the legislation that we consider this morning, the Paycheck Fairness Act, and I cannot help but think of all the Aprils we have commemorated Equal Pay Day without legislation. But, today, the legislative inertia we have experienced for years comes to an end. I could not be more proud.

We have made some important strides during the last quarter century. Women now make up a majority of the workforce, own 6 million small businesses and are more likely to hold an advanced degree than men. But for all of our successes, women continue to be stymied when it comes to equal pay.

The wage gap is real. Over the course of her lifetime, a female high school graduate will make $700,000 less than the young man she graduates with. Compared to a man, a female college graduate stands to lose up to $2 million in the course of her career. This is true across the board. As the National Committee on Pay Equity tells us, the wage gap today finds that women earn about 77 cents for every dollar men earn.

By now, we are all familiar with the case of Lilly Ledbetter. The woman whose pay discrimination case against Goodyear Tire and Rubber Company went all the way to the Supreme Court. In her testimony before the Education and Labor Committee, she said, “Goodyear acknowledged that it was paying me a lot less than the men doing the same work, so I was actually earning 20 percent less than the lowest paid male supervisor in the same position. What happened to me is not only an insult to dignity and honesty, it is a consequence for my ability to care for my family. Every paycheck I received, I got less than what I was entitled under the law.” Clearly, the marketplace alone and even our court system will not correct this injustice. We need a legislative solution. The Paycheck Fairness Act would make modest, commonsense reforms to the Equal Pay Act by closing numerous loopholes in the 45-year-old law that has enabled some employers to evade liability.

It would clarify the “any factor other than sex” defense so that an employer trying to justify paying a man more than a woman for the same job must show that the disparity is not sex-based; that it is job related and necessary for the businesses. It would prohibit employers from retaliating against employees who discuss or disclose salary information with their coworkers.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. SLAUGHTER. I yield an additional 30 seconds.

Ms. DELAURO. Of course, employees such as human resources personnel who have access to payroll information would not be protected if they disclosed workers’ salaries of other workers. And it would strengthen the remedies available to include punitive and compensatory damages.

Pay equity is not just another benefit to be bargained for or bargained away. It is part of something bigger, part of a promise in which we all have a role, giving women the power to gain economic security for themselves and for their families. I urge a yes vote on this resolution.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, we continue to reserve.

Ms. SLAUGHTER. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Mrs. CAPPS).

Mrs. CAPPS. Mr. Speaker, I thank my colleague from New York for her leadership in the Rules Committee bringing this legislation to the floor. I thank my colleague ROSA DELAURO for her stunning work in bringing this legislation into print, and I rise in strong support of H.R. 1338, the Paycheck Fairness Act.

Last week, I was fortunate enough to participate in a rally with several of my female colleagues in the House and Senate and our hero, Lilly Ledbetter. Lilly’s personal experience is a testament to the Equal Pay Act, which guarantees equal pay for equal work, needs modernizing. As the SPEAKER pro tempore has noted, H.R. 1338 closes some existing loopholes so that employees can fight for their deserved wages without fear of retaliation.

As we discussed these issues at the event last week, I was inspired and comforted to see such a crowd of young women, many of whom are recent college graduates just starting out in their careers. They can be sure that with the passage of this legislation, they may not face the same barriers that women from their mothers’ and grandmothers’ generations faced.

I urge my colleagues to vote in favor of this important legislation. Help us secure a better economic future for our daughters, our granddaughters, and their friends.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I reserve my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 1 minute to the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ).

Ms. WASSERMAN SCHULTZ. Mr. Speaker, in 1963 President Kennedy signed the Equal Pay Act in order to add teeth to the wage gap, and yet 45 years later, more than my entire life, women still make on average only 77 cents for every dollar earned by men for the same work.

Last summer I had the opportunity to meet Lilly Ledbetter during a House Judiciary Committee hearing. When she worked for Goodyear, she had no proof of pay discrimination until someone anonymously slipped payroll records into her mailbox. When Lilly took her case to court, the Supreme Court failed her, telling her she should have known all along she was being discriminated against, even though Goodyear’s payroll records were secret. This bill lifts the cloak of secrecy that allows these kinds of unfair pay practices to fester.

I urge my colleagues today to support eliminating discriminatory pay practices. Let’s create an America where our next generation of daughters go to work for their worth equally, regardless of their gender.

My congratulations to Congresswoman DELAURO and Chairman MILLER for their leadership on this issue. The Paycheck Fairness Act is a bold step forward in righting the wrong of pay discrimination.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I reserve my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 1 minute to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the distinguished chairwoman of the Rules Committee.

Her presence on the Rules Committee is evidence of the struggle, but yet the progress, and the reason why we stand here today. I thank the long-standing, committed Member of Congress, ROSA DELAURO, and I urge the leadership for recognizing as we approach a very important time of year, August 26th, 2008, that will reflect on
the movement of women arguing not for special preferences, but simply equality, that this Paycheck equality legislation must pass today!

So the Paycheck Fairness Act is crucial to that equality, because it clarifies the "any factor other than sex" defense that kept Ms. Ledbetter from knowing and being able to petition for more money, is clarified to show that the disparity is not sex-based, is job-related, and necessary for the business. Do people realize that Ms. Ledbetter worked and toiled for years without understanding that she was not being paid a fair day's wage for a fair day's work? How tragic in America.

May I ask the Members to support this legislation, because it is real, it is needed now!

Mr. Speaker, I would also like to thank Congresswoman DeLAURO for this important legislation as well as the Chairman and Ranking Minority Member of the Committee on Education & Labor for working together to see that gender equity is not just something we talk about, but something we are actually willing to put into action.

This legislation is intended to combat the wage gap that still exists today between men and women in the workplace. It is an important step in addressing the persistent wage gap between women and men by updating the Equal Pay Act—passed more than 45 years ago.

The reality is the Equal Pay Act needs to be strengthened and improved for all women to combat wage discrimination and eliminate loopholes in the current law. The Paycheck Fairness Act creates meaningful penalties against employers whose pay practices are proven to have been discriminatory. The bill will also protect workers from retaliation by their employers when employees discuss their pay with coworkers.

Earlier this year the House passed H.R. 2831, legislation reversing last year's Supreme Court decision in Ledbetter v. Goodyear Tire and Rubber Co., in which the court ruled, 5-4, that workers filing suit for pay discrimination must do so within 180 days of the actual decision to retaliate against them.

The Paycheck Protection Act is also needed to stop discriminatory pay practices by employers against our mothers, wives, daughters, and granddaughters that do the same job as their male counterparts.

The Paycheck Fairness Act, which currently has 230 cosponsors, will strengthen the Equal Pay Act—passed more than 45 years ago—and as a result improve the law's effectiveness.

Further, this persistent wage gap not only impacts the economic security of women and their families today, it also directly affects women's retirement security tomorrow. Now is the time for additional proactive measures to effectively address wage discrimination and eliminate loopholes that have hindered the Equal Pay Act's effectiveness.

I urge my colleagues, both men and women, to support equality in rights and pay for all Americans by supporting the Paycheck Fairness Act, and vote "no" on the motion to recommit.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Vermont (Mr. WELCH), a valued member of the Rules Committee.

Mr. WELCH of Vermont. Madam Chairman, I salute you for the work you have been doing on this issue and the issue of equality for women and the issue of equality for all people, and I salute Chairman MILLER for his work in Congress, for being on the verge of passing this legislation.

You know, it is truly shocking that we have a situation where there is a difference in pay depending on whether you are a man or a woman. You have heard the statistics. But what is even more shocking is we had a Supreme Court that probably when history is written, its most shameful decision will be denying relief to a woman on the basis of a claim that she did not know existed. The Supreme Court said this Protected person was dis- criminated against for years and didn't know about it, it was the burden on her to know about something that was ac- tively being hidden from her by her employer. It is a shocking decision by the United States Supreme Court, and this Congress has an opportunity to overturn that.

H.R. 1338 is going to address that loophole. The wage gap that strikes women immediately upon entering the workplace and the fact that as a result of gender discrimination, women are more likely to be a poverty are women, and that is di- rectly as a result of wage discrimina- tion.

The hope of the American Dream is that people who work hard will get paid fairly, regardless of their race, regardless of their national origin, and it is the challenge of this Congress being met by the promise of this legislation to make that American dream of equality of oppor- tunity available and to absolutely prohibit discrimination in wages solely on the basis of the gender of the person doing the work.

H.R. 1338 has 230 cosponsors. It is also supported by major women's and workers' rights advocates, including the National Committee on Pay Equity and the National Women's Law Center. I ask for a "yes" vote and unanimous passage by the House of Representa- tives.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I would ask the distinguished Chair how many speakers she has remaining.

Ms. SLAUGHTER. I would like to thank all of our distinguished colleagues who have come to the floor today to discuss this issue, the important issue of gender discrimination in the workplace and the fact that as a society we have to continue fighting discrimination.

The issue that I am constantly, con- stantly being contacted by my con- stituents about is an issue that affects
our entire society, and that is the un-
acceptable price of gasoline, the con-
tinuous rise of energy prices. There is
no subject, Mr. Speaker, again, that
my constituents contact me and urge me
to act on more than that issue, that
subject, that crisis really. It affects
men and women, our efforts to address one of the clearly most important
issues facing the United States today.

For weeks, we in the minority have
pushed efforts to debate comprehensive
energy legislation, but the majority
constantly assert that the text of the amend-
ment one of the clearly most important
issues facing Americans throughout our society each day.

If the previous question is defeated, I will move to amend the rule to allow
for consideration of H.R. 6566, the American Energy Act, which provides a
compromise approach that would increase the supply of American-made energy,
reduce price increases and new energy allocations and promote renewable and al-
ternative energy technologies.

Mr. Speaker, I ask unanimous con-
sent that the text of the amendment and extraneous materials im-
mediately prior to the vote on the pre-
vious question.

The SPEAKER pro tempore (Mr.
SALAZAR). Is there objection to the re-
quest of the gentleman from Florida?

There was no objection.

Mr. LINCOLN DIAZ-BALART of Florida. By voting no on the previous
question, Members can take a stand
against these unacceptable prices of gasoline, and we can finally begin a comprehensive energy debate. And I re-
mind all of our colleagues that voting no on the previous question will not preclude consideration of the legis-
lation, the underlying legislation, the Paycheck Fairness Act. And I remind them that the unacceptable price of gasoline affects all of our constituents,
men and women. I encourage a “no”
vote on the previous question.

I yield back the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I feel
compelled to explain to the listening
persons and those in our galley why we are
here today.

The other side has consistently
talked as though this is an energy bill,
but let me remind all of us that this is
an opportunity for the United States to
bring into compliance with pay scales,
in compliance with the law of 1963 for
women who, as my colleague Ms.
DELAURO pointed out, comprise 40 per-
cent of the workforce.

The refusal of the majority to enact a
law that has cost many women between $400,000
and $2 million, not only in the lost wages they should have been paid but there
been equality, but also indirectly
their pensions and their Social Secu-
rity in many cases. This hurts families,
Mr. Speaker. This hurts single parents
who are trying, oftentimes doing two
jobs, to try to keep food on the table.

All the statistics show, which abso-
lutely astonished me that more
women are the heads of household than men are under the poverty
line. One reason for that is they did not
get equal pay. We have to right this
wrong. We have to do it today. I can’t
express enough my gratitude for Con-
gresswoman DELAURO and the Women’s Caucus for all the work that they have
done. But it has been since 1963, 45
years ago, when the law was passed de-
manding equal pay. And here we are in
2008, Mr. Speaker, and we still don’t
have it.

I urge all of my colleagues to vote
yes on the previous question, yes on
the rule, and, by all means, yes on the
underlying bill.

The material previously referred to
by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 1388 OFFERED BY Mr.
LINCOLN DIAZ-BALART OF FLORIDA

At the end of the resolution, add the fol-
lowing:

SEC. 3. Immediately upon the adoption of
this resolution the House shall, without
intervention of any point of order, consider
in the House the bill (H.R. 6566) to bring
down energy prices by increasing safe, do-
mestic production, encouraging the develop-
ment of alternative and renewable energy,
and promoting conservation. All points of
order against the bill shall be waived. The
bill shall be considered as read. The previous
question shall be considered as ordered on
the bill and any amendment thereto to final
passage without intervening motion except:
(1) one hour of debate on the bill equally di-
vided and controlled by the majority and mi-
nority leader, and (2) an amendment in
the nature of a substitute if offered by the Ma-
nority Leader or his designee, which shall be
considered as read and shall be separately
debatable for 40 minutes equally divided and
controlled by the Majority Leader and the
Opponent; and (3) one motion to recommit with
or without instructions.

(THE INFORMATION CONTAINED HEREIN WAS
PROVIDED BY DEMOCRATIC MAJORITY ON
MULTIPLE OCCASIONS DURING THE 109TH CONGRESS.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT
REALLY MEANS

This vote, the vote on whether to order
the previous question on a special rule, is not
merely a procedural vote. A vote against or-
dering the previous question is a vote
against the Democratic majority agenda
and a vote to allow the opposition, at least for
the moment, to offer an alternative plan. It
is a vote about what the House should be
debating.

Mr. Clarence Cannon’s Precedents of the
House of Representatives (VI, 308-311) de-
scribes the vote on the previous question on
the rule as “a motion to direct or control the
consideration of the subject before the House
being made by the Member in charge.” To
order the previous question is to give the
opposition a chance to decide the subject be-
fore the House. Cannon cites the Speaker’s
ruling of January 13, 1929, to the effect that
“the refusal of the House to sustain the de-
mand for the previous question passes the
control of the resolution to the opposition”
in order to offer an amendment. On March
15, 1969, a member of the majority party of-
ered a rule resolution. The House defeated
the previous question and a member of the
opposition rose to a parliamentary inquiry,
asking who was entitled to recognition.
Speaker Joseph G. Cannon (R-Illinois) said:
“The previous question having been refused,
the refusal of the House to sustain the de-
mand for the previous question passes the
control of the resolution to the previous
question.”

Because the vote today may look bad for
the Democratic majority they will say “the
vote on the “previous question is simply a
vote on whether to proceed to an immediate vote on adopting the rule (and
the minority Floor Manager) who then man-
ages an hour of debate and may offer a ger-
maneous amendment to the pending business.”

Clearly, the vote on the previous question
on a rule does have substantive policy impli-
cations. It is one of the only available tools
for those who oppose the Democratic major-
ity’s agenda and allows those with alter-
native views the opportunity to offer an al-
ternative plan.

Ms. SLAUGHTER. I yield back the
balance of my time, and I move the
previous question on the resolution.

The SPEAKER pro tempore. The question
is on ordering the previous question.

The question was taken; and the
Speaker pro tempore announced that
the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand
the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursu-
ant to clause 8 of rule XX, further pro-
ceedings on this question will be post-
poned.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 5843

Ms. ZOE LOFGREN of California. Mr. Speaker, I ask unanimous consent that my name be removed as a cosponsor of H.R. 5843.

The SPEAKER pro tempore. Is there objection to the request of the gentle-
woman from California?

There was no objection.
PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 4137, HIGHER EDUCATION OPPORTUNITY ACT

Ms. MATSU. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1389 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 1389
Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 4137) to amend and extend the Higher Education Act of 1965, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

The SPEAKER pro tempore. The gentleman from California? (H.R. 4137 will also expand college opportunity for disabled citizens by expanding eligibility for Pell Grant aid year around.

H.R. 4137 will also expand college opportunity for disabled citizens by expanding eligibility for Pell Grant scholarships and establishing a national center to provide support services.

During times of war, it is extremely important to ensure that our military families and returning veterans have the support services they deserve. This bill will increase college aid and support for veterans and military families, create a new scholarship program for active duty military personnel and their family members, and ensure fairness in student and housing aid for veterans.

The bill also encourages students who graduate from college to enter public service in high-need areas by granting loan forgiveness. It also provides up to $2,000 a year for 5 years for nurses, teachers, mental health professionals, and other low-paying but crucial professionals. I know this loan assistance and forgiveness will help my home of State of California that is suffering from a lack of nurses, teachers, and other vital support professionals who protect and assist our children and most reliant Americans.

Simply put, this conference report will not only advance the opportunity for every American to go to college, but will also put us on track toward creating a better America.

As Lyndon Johnson said, "We must open those doors of opportunity, but we must also equip our people to walk through those doors." Our Constitution creates those doors of opportunity, and today this bill will equip our constituents to walk through those doors.

I want to thank once again Chairman MILLER and Ranking Member McKEON for coming together on this important legislation. I stand strongly in support of the Higher Education Opportunity Act. This is long overdue, and I encourage my colleagues to support the rule and the underlying legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I would like to speak to a friend of mine and the gentlewoman from California (Ms. MATSU) for the time, and I yield myself such time as I may consume.

Increasing the affordability, accessibility, reliability of our Nation's institutions of higher education is critical to our economic growth and the role of the United States in the global economy. Now more than ever we need to reassure our Nation's youth that we are willing to invest in their future. I believe that we must do all we can to make education more affordable so that more Americans can achieve the dream of graduating from college.

This year alone, over $90 billion in Federal financial aid is available to students, but tuition costs are on the rise, students and their families continue to face the question of how to pay for a college education.

This legislation, the Higher Education Opportunity Act, is a bipartisan effort that reauthorizes the Higher Education Act for 5 years and reforms America's higher education system, expanding college access.

Seeking to address the college cost dilemma, the conference report puts in place college affordability tools that put college costs information in the hands of consumers. Students will be able to search, sort, and compare key cost indicators for every college in the country. I believe we must do everything possible to enhance our Nation's historic opportunity to obtain student loans and obtain the aid necessary to complete their college education.

This bill helps to do that by simplifying the financial aid application process, abbreviating the free Application for Federal Student Aid form, and making financial aid information available to students earlier in the college planning process.
I am especially pleased that the conference report will strengthen our Nation’s Pell Grants programs by increasing the maximum authorized Pell Grant amount to $8,000, and by giving students access to Pell Grants year round, a measure that will undoubtedly help more young people in important ways.

Mr. KELLER, has done admirable work the Higher Education Subcommittee, on the needs of growing leadership in our country through providing a higher education to our citizens.

I want to commend Chairman MILLER and the chairman on the Senate side, Senator KENNEDY, and on the Republican side, my good friend, BUCK McKENZIE and MARK SOUDER, and the ranking members, Bill RICHARDSON for their work on Higher Education, Mr. KELLER. They have done a magnificent job putting together a bill that addresses a whole range of issues that are supported in the higher education and broadens our ability in our country. It represents the real needs of moving our kids on to college.

I think cutting the FAFSA form from seven pages down to two, increasing the Pell Grant from $4,800 this year to $6,000 in 2009, up to $8,000 in 2014, in terms of authorization, are very important parts of this reauthorization.

But in 1998, when the reauthorization of Higher Ed was signed into law by President Clinton, we established the Gear Up program, but the truth is all of us worked together. It was a bipartisan effort, and together we have worked to provide minority students the tools needed to succeed.

This conference report is a testament to the fact that Congress can work in a bipartisan way to produce quality legislation. Since the Education Committee began working on the Higher Education Reauthorization legislation, both sides of the aisle have worked together to bridge their concerns and worked together to give students a quality education.

I think it is appropriate to thank both the chairman, Mr. MILLER, and the ranking member, Mr. MCKEON for their work on this important legislation.

I know that the ranking member of the Higher Education Subcommittee, Mr. KELLER, has done admirable work on this legislation, and I thank him as well, in addition to the subcommittee chairman.

I also wish to note the conference report has come to the floor for final approval through the normal legislative and conference process, allowing Members from both the minority and the majority to debate and consider the issues of contention in the legislation.

Unfortunately, the majority, Mr. Speaker, in the 110th Congress, has often used a procedure known as amendments between the two Houses to avoid conference and subvert the rights of the minority. So I am pleased that, in this instance, they have decided to use the regular order, the normal conference procedure, and I would urge them to use the conference procedure as well in the future. So while it is unique, what they have done with this legislation, it is commendable.

I reserve the balance of our time.

Ms. MATSUI. Mr. Speaker, I yield 4 minutes to the gentleman from Pennsylvania, my friend, Mr. FATTAH.

Mr. FATTAH. Mr. Speaker, it is not so much the new selection that will determine our Nation’s future. It is the next generation. And this bill focuses on the needs of growing leadership in our country through providing a higher education to our citizens.

I want to commend Chairman MILLER and the chairman on the Senate side, Senator KENNEDY, and on the Republican side, my good friend, BUCK McKENZIE and MARK SOUDER, and the ranking members, Bill RICHARDSON for their work on Higher Education, Mr. KELLER. They have done a magnificent job putting together a bill that addresses a whole range of issues that are supported in the higher education and broadens our ability in our country. It represents the real needs of moving our kids on to college.

I think cutting the FAFSA form from seven pages down to two, increasing the Pell Grant from $4,800 this year to $6,000 in 2009, up to $8,000 in 2014, in terms of authorization, are very important parts of this reauthorization.

But in 1998, when the reauthorization of Higher Ed was signed into law by President Clinton, we established the Gear Up program, but the truth is all of us worked together. It was a bipartisan effort, and the House and Senate, Senator SPECTER and Senator KENNEDY, all of us working together.

Now some 2 million young people have been served over the last 10 years. 85 percent of them have graduated from high school, from the toughest schools in our country, and in the most difficult circumstances.

Featured on the front page of Philadelphia’s newspaper is a young man, Nicholas Shanks, who, unfortunately, spent years in a homeless shelter, but has graduated at the head of his class, 3.9 average. He is a Gear Up student, and there are millions of them across country who have done so well.

This is the most successful college awareness program in the country’s history. It is reauthorized in this legislation.

It is important to emphasize that the appropriation or the authorizing legislation is doubled.

And I just want to thank the members of the conference committee for its support of Gear Up. It has proven its worth in some 48 States and in all of our territories, in Guam and Puerto Rico, in terms of developing young people who are economically disadvantaged but academically have every ability to succeed. And we see that in the college-going rates, which exceed the national average for all students and exceed the high school graduation rates for all students.

So it is a great program, even if I am the author of it, and I want to thank the conferees for including it, expanding it, and having it reach more and more young people in important ways through reauthorization.

[From the philly.com, July 26, 2008]

FORMERLY HOMELESS TEEN ROLE MODEL

(News article)

Standing in a room full of homeless teen-agers yesterday, Nicholas Shanks was hopeful that he could turn his life around.

“I really do hope I can help them some way, by setting an example,” said Shanks, a friendly, soft-spoken 18-year-old who overcame homelessness in his high school years to become his class valedictorian.

Shanks, who graduated from Martin Luther King High School in Philadelphia with a 3.91 GPA, was at work yesterday as a counselor at the Traveler’s Aid Society’s summer program, a camp for teens who have experienced homelessness. “It’s scary,” said Shanks put it—allowed him to escape the tiny confines.

“When I was in the shelter, it was boring a lot of times,” Shanks said. “I had a CD player, a paper and a pencil, and that got me through most of the months.”

Shanks and Newton now live in transitional housing in Kensington. But the family still faces problems. The lease is up in October, and the family does not have a new place lined up yet.

Newton, who battled drug addiction and unemployment for years, said she has been clean for 17 months. She said off as a teaching assistant and is looking for employment.

“It’s scary,” Newton said. “I just want to know where we’re going to move.”

Her son is relying on the optimism that saw him through tough times before.

Shanks said he does not often think about his days in the shelter. “He is around people with a similar history,” he said.

“I would not necessarily say I’m reliving my past,” he said, “but if I ran into a situation like I heard about this year, I might be like, ‘Yeah, I know how that’s like.’”

Steven Golden, another teen in the summer program, has a very similar past. The two are the same age, but, because of academic troubles, Golden is a year behind in school.

Seeing Shanks has motivated Golden to commit to his studies.

“He’s showed me I need to do this to succeed,” said Golden, a senior at Simon’s High School in North Philadelphia. “Seeing where he’s at now, from where both were, he has inspired me.”

Director of the summer program, said that once teens become homeless, “education is the first thing that takes a
nosedive." The teens deal with embarrassment, he said. Sometimes losing their home means they have to travel across the city to get to school.

Shanks was able to persevere, Monk said, because of his internal drive and the support of the people around him, including his mother and teacher.

"There are lots of people in their life telling them they can do it," he added.

Monk hopes Shanks can show the younger children that they can get into college, too. "Nicholas is a model example," he said. "He's been through a lot, but he's maintained."

Spasoje Jovanovic, 17, a former camper and now the administrative assistant at the program, which is teaching the teens about marine biology, said Shanks is an inspiration to the others.

"He's proof that it's possible," said Jovanovic, who is enrolled at the Community College of Philadelphia for the fall.

Shanks, 15, has lived in four different homes with her family this year alone. She expects to be in yet another in a few months, she said.

Monk and civil confinement has been able to keep a 3.6 GPA. She said Shanks' story gives her courage to keep working hard at school through all of the tumult at home.

"He was in transitional housing, I was in transitional housing," said Johnson, who wants to become a surgeon. "He's someone I look up to.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it is my privilege to yield so much time as he will con- sume to the ranking member of the Subcommittee on Higher Education, who has done tremendous work in this legislation, Mr. KELLER.

Mr. KELLER of Florida. Mr. Speak- er, I thank my friend from Florida, Mr. DIAZ-BALART, for yielding time.

Mr. Speaker, as the ranking member on the House Higher Education Sub- committee, and a member of the con- ference committee, I rise today in strong support of this bipartisan Higher Education Opportunity Act, which is the first reauthorization of the Higher Education Act in 10 years.

I also appreciate the regular order we have followed with respect to the rule on this bill.

I support this important legislation for three key reasons. First, it allows year-round Pell Grants for students who wish to complete their education more quickly.

Second, it reduces burdensome red tape on students and families by pro- viding a much shorter, simpler applica- tion. Third, it is a national embarrassment financial aid to take college courses.

Let me give you a real life example. James Sturtz is one of the most violent sexual predators in America, and he is currently locked up in a Wisconsin fa- cility. He was convicted and sent to prison for raping a 4-year-old girl. After being released from prison, he raped another woman, and was sent to prison a second time. After being released, he met a college stu- dент waiting for a bus, persuaded her to get in his car and then raped her at knife-point. He was then sent back to prison for a third time, and after his sentence ended in 2006, he was locked up in a civil confinement center to be held there indefinitely.

Sturtz and several other locked up sexual predators decided to exploit the civil confinement centers to obtain thousands of dollars in Federal Pell Grants to take college courses, like al- gebra, through the mail. Then, Sturtz and two-thirds of the other inmates dropped their classes and used our tax- payer money to buy jeans, music CDs, movie DVDs, radios, television sets and DVD players.

Of course, even if they hadn't dropped their classes, there is zero evi- dence that violent sexual predators who take algebra and calculus classes have lower recidivism rates.

Well, how could this loophole happen in the first place?

First, when the Higher Education Act was last reauthorized, the underlying bill, the Higher Education Act, was first signed into law in 1965 to help students from low income families afford a college education. Unfortunately, in the 10 years since the Higher Education Act was last reauthorized, the dream of a college degree has moved further out of reach for far too many of our Nation's students.

Overall, the United States is third out of 30 industrialized nations in post- secondary degree attainment, but only about 2 in 30 of our young- er workers. This is an ominous trend that we must act swiftly to address.

With the cost of tuition and text- books skyrocketing, we have taken ac- tion to make college for affordable. Lately we passed a bill that in- creased college financial aid by $18 bil- lion and cut student interest loan rates.

With this bill today, we are raising the bar even higher in fighting for ac- cess to higher education. I am raising the maximum Pell Grant level from $5,800 per year to $8,000 by 2014.

This bill also provides for improved teacher training and development programs. It provides loan forgiveness for students who choose public sector ca- reers, and creates a new scholarship program for active duty military per- sonnel and their families.

Mr. Speaker, from coast to coast, and throughout the heartland, this great land is filled with bright and enthu- siastic students seeking to take advan- tage of any opportunity we can give them for a more prosperous future. This bill makes critical investments in our students to strengthen our work- force for the future of our country.

I urge my colleagues to vote "yes" on the College Opportunity and Affor- dability Act.

I thank Chairman MILLER for his dilli- gent work in making this happen.

Mr. Speaker, the Higher Education Act is en- forced by the Ranking Member of the Committee, Mr. KELLER of Florida. Mr. Speaker, it is my pleasure to yield 3 minutes to my good friend and classmate, the gentleman from Michigan (Mr. KNOLLENBERG).

Mr. KNOLLENBERG. Mr. Speaker, I do want to thank the gentleman for yielding to me this morning. I also wanted to, in fact, thank Chairman MILLER and Ranking Member MCKEON for working together to bring a bill to the floor that makes certain that every student in the Nation has access and receives the highest quality college education.

Currently, college tuition, no sur-.
Ms. MATSUI. Mr. Speaker, I'm privileged to yield 2 minutes to my friend, the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. I rise today in strong support for the rule for the conference report on the Higher Education Opportunity Act, and I thank Chairwoman SLAUGHTER and Congresswoman MATSUI for bringing this rule to the floor. I want to offer my sincere congratulations to Chairman MILLER and Ranking Member MCKEON on this great achievement.

H.R. 4137 is a comprehensive bipartisan bill that will reauthorize the Higher Education Act while addressing concerns about the cost of education, restoring accountability to student aid programs, and expanding college access and support for low-income and minority students.

I greatly appreciate that H.R. 4137 includes a version of legislation which we've worked on. I've worked on for about 6 years, the Campus Fire Safety Right To Know Act. I became involved in this issue of campus fire safety after experiencing the horrible aftermath of a catastrophic fire at Seton Hall University in South Orange, New Jersey, in 2000. That fire killed three young freshman and wounded 58 other students in a dorm on campus.

The campus fire safety reporting requirement in H.R. 4137 mandates that colleges and universities provide prospective and current students and parents with a report on the school's campus safety policies and records.

Evaluating students about fire safety during their time in school will have a strong influence on the choices they make in the future. If we can influence what they learn, we can create a more fire-safe generation for tomorrow and potentially save thousands of lives.

Mr. Speaker, I want to once again state my strong support for the rule and urge my colleagues to support H.R. 4131. As the first member of my family to attend college, I applaud the chairman and the ranking member for their dedication to making the dream of a college education a reality for so many Americans who otherwise would not have had that chance.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. MATSUI. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Speaker, I appreciate the gentilelady's courtesy in permitting me to speak in favor of this rule and the underlying bill.

It's exciting to see this landmark reauthorization come forward, and particularly given the range of advantages that are going to be given to young people around the country strengthening communities and opportunities for higher education.

Mr. Speaker, one of the major challenges we face at this point deals literally with the future of the planet dealing with global warming and sustainable development in a water-stressed, energy-short, carbon-constrained world. I have been pleased to look in my community at colleges and universities that are doing pioneering work with developments on campus for sustainability training students, and doing research.

I am pleased that this legislation incorporates our Higher Education Sustainability Act of 2007, H.R. 3637, which provides provisions here that will help prevent and combat fraud, support sustainability practices on campus, to make it able to make sure that the best practices that are being developed across the country can be incorporated into the day-to-day operations, that we can do more research, more training of students, and that we will be able to incorporate them into how campus life itself operates.

Last but not least, I am pleased that the provision that would direct the Secretary of Education to convene a sustainability summit and leave a national showcase of these best practices has been retained. This is an important element to make sure that our colleges and universities continue to be the change, the engine of innovation for the most vital challenge of our time dealing with global warming and sustainable development.

I strongly urge support of this legislation and that each and every one of my colleagues look at these sustainability provisions and look at how they can be applied to their colleges and universities back home.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, we continue to reserve.

Ms. MATSUI. Mr. Speaker, I yield 2 minutes to my friend, the gentlelady from Minnesota (Ms. MCCOLLUM).

Ms. MCCOLLUM. Mr. Speaker, I thank the Rules Committee for the time. I rise to support this rule and the conference report for the Higher Education Opportunity Act.

Today we begin the Education and Workforce Committee for my first 6 years in Congress, and it is a real pleasure to know that we will finally be able to reauthorize the Higher Education Act. I commend Chairman Tierney and Ranking Member McKee on this bipartisan bill.

This bill increases need-based aid and provides for more access to information on the costs of college. It restores sunshine to student loan programs and simplifies financial aid application processes. And it makes new investments to encourage science and technology careers.

This bill focuses on the needs of students who are the leaders of our country and the key to our global competitiveness. I'm particularly pleased that this conference report includes a provision I worked on with Congressman Tierney to hold States accountable for their investment in higher education.

I also want to thank Chairman MILLER and Congressman Bishop for working to include a definition of "diploma mills" and for requiring the Secretary of Education to provide information on the fraudulent degree, to prevent and prosecute diploma mills.

The failure to shut down diploma mills cheat taxpayers when local school districts and the Federal government hire one individual with a fraudulent degree. Phony medical degrees from diploma mills can have and have caused serious harm and even death. These fraudulent degrees can be used to obtain visas making the fact that they exist a national security issue.

The failure to shut down diploma mills has been noted in other countries, harming our reputation around the world. The increasing number of diploma mills has created, as you can imagine, serious problems. This legislation includes the first step in addressing the problem, and I urge my colleagues to support the bill.
Mr. LINCOLN DIAZ-BALART of Florida, Mr. Speaker, we continue to reserve.

Ms. MATSUI. Mr. Speaker, I yield 2 minutes to my friend, the gentleman from New York (Mr. BISHOP).

Mr. BISHOP of New York. I thank the gentlelady for yielding.

I rise in strong support of the rule and the underlying conference report, and I urge my colleagues to vote both for the rule and for H.R. 4137.

Let me commend Chairman MILLER and Ranking Member MCKEEON and Subcommittee Chair HINOJOSA and Ranking Member KELLER for presiding over such a collegial and bipartisan process. We entered into this process with the goal of enhancing access and affordability, and I truly believe that H.R. 4137 makes significant progress on achieving both of those very important goals.

Let me talk about some specific elements of the bill that I think are worthy of mention.

First, the bill very much strengthens the Perkins Loan program, the loan program that this administration has seemed determined to kill but has strong bipartisan support here in the Congress. The conference report increases the maximum awards that students may receive in any one year, it also increases the aggregate awards, and it also strengthens the revolving loan fund by ensuring that funds collected be returned to the revolving loan fund so that they may be reloaned to future needy students. And all of this helps to reduce the dependence on private loans for needy students, and that was one of our goals as well.

The conference report simplifies the financial aid delivery process by streamlining the completion of the so-called FAFSA form which is a very daunting form for many families, yet it is the gatekeeper to eligibility for all students. The bill also includes the provisions of the Student Loan Sunshine Act. This results from investigations conducted by the attorney general of my home State that revealed several abuses in the student loan program, and this legislation restores confidence and trust to the financial aid delivery system.

It also reestablishes a Federal role for supporting cooperative education which helps students gain valuable career information and also finance their education. It has many very valuable features in this bill.

I urge my colleagues to support it, and I thank my colleagues for working so hard on it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I would inquire of my friend how many additional speakers she has.

Ms. MATSUI. Mr. Speaker, I would like to tell the gentleman I have two additional speakers.

Mr. LINCOLN DIAZ-BALART of Florida. We continue to reserve.

Ms. MATSUI. Mr. Speaker, it's my privilege to yield 2 minutes to my friend, the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas asked and was given permission to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. I thank the gentleman from California for her leadership. I thank the Education Committee and our leadership.

As many States in this great Nation, Texas is a college State; in my community in particular, the University of Houston, Texas Southern University, Houston Baptist, Saint Thomas, Houston Community College, and I'm sure many, many others. This is a relief. This is a hallelujah day to be able to help our young people reach their greatest promise.

This is an important initiative. It encourages colleges to reign in price increases and provides consumers with helpful information. Now, because of desperate times, many, many State legislatures have raised the ability to raise tuition. It is going up and up and up. Now there will have to be an accountability. You will have to explain what are you doing to mitigate the cost. We want our children educated. We don't want them broke.

This conference report removes accountability to the student loan program. You'll have an option, you'll have information, your parents will have information. You will be able to work together so that you can invest in your education and be able to survive once you graduate.

It simplifies the Federal Student Aid application access. It expands college access and support for low-income and minority students. It allows you to have your loans forgiven if you are police officers, teachers, scientists, and others that are helping this community. It strengthens our workforce and our competitiveness. It helps our veterans and military families. It is a day that those who believe in col leges and college and graduate. Finally, it ensures fairness in student aid and housing aid for veterans, making it easier for them to attend college while also fulfilling their military service duties.

Mr. Speaker, I would also like to express my strong support for an amendment introduced by my distinguished colleague Congressman DANNY DAVIS restoring safeguards to student loan borrowers. Mr. Speaker, students who take out loans borrow money as part of their pursuit to better themselves and contribute to the advancement of our Nation and economy. However, current bankruptcy laws apply the same severe standards to student borrowers that it applies to those trying to escape child support payments, alimony, overdue taxes, and criminal fines. Under Mr. DAVIS's amendment, Government student loans and loans made by nonprofit entities would remain non-dischargeable; other student loans, made by for-profit banks and other lenders, would continue to be non-dischargeable for the first 5 years after they come due, and after that time they would be treated like other non-dischargeable loans in bankruptcy. Mr. Speaker, I strongly urge my colleagues to support this amendment, and to work to restore bankruptcy protection to private student loans.
Mr. Speaker, as an active member of the Committee on Homeland Security, I am extremely supportive of the provisions in this legislation that boost campus safety and disaster readiness plans. Last year’s tragedy at Virginia Tech has illustrated the horror to which students might be exposed, and natural disasters in recent years have underlined the necessity of having campus disaster plans.

This legislation helps all colleges develop and implement state-of-the-art emergency systems and campus safety plans, and it requires the Department of Education to develop and maintain a disaster plan in preparation for emergencies. In addition, this legislation creates a National Center for Campus Safety at the Department of Justice to work in collaboration with the FBI and the Department of Education. Finally, it establishes a disaster relief loan program to help schools recover and rebuild in the event of a disaster.

This important piece of legislation gives our youth, our veterans, and our families the opportunity to not only dream of attending college but actually realize that dream. I urge my colleagues to join me in supporting H.R. 4137 and the conference report.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon (Mr. Wu).

Mr. WU. Mr. Speaker, I rise in strong support of the provisions in this legislation that establish a disaster relief loan program, to help the Department of Justice to work in collaboration with the Department of Education to develop and maintain a disaster plan in preparation for emergencies. In addition, this legislation establishes a National Center for Campus Safety at the Department of Justice to work in collaboration with the FBI and the Department of Education. Finally, it establishes a disaster relief loan program to help schools recover and rebuild in the event of a disaster.

For example, the legislation increases the Pell Grant from the current $5,800 per year ultimately to $9,000 per year, and it makes it available for year-round education. It streamlines the Federal student aid application process to restructure integrity and accountability to the student loan industry, and it encourages colleges to better manage tuition and price increases.

There are two provisions that I am particularly proud of and supportive of in the provision intended to make textbook prices more transparent and manageable. This is something that I have been working on for over 5 years. It provides students with advance information on textbook pricing so they can better plan their expenses before each term begins. It assists faculty by ensuring that they have complete information on textbook pricing before making purchase decisions, and it requires textbook publishers to provide the bundled or unbundled educational products separately for purchase.

This bill also establishes a program for low-income Asian American students in title III of the bill. Through the new program, grants will be made available to eligible institutions where at least 10 percent of the student body is Asian American and low-income. And this will have a significant impact on the aspirations of all Americans, and this has been an aspiration of the Asian American community for a long time.

I strongly support this conference report and urge the other Members to support it.

Mr. LINCOLN DIAZ-BALART of Florida. I would ask my friend if she has any additional speakers.

Ms. MATSU. I have no additional speakers. I will reserve.

Mr. LINCOLN DIAZ-BALART of Florida. It’s obvious, Mr. Speaker, that this legislation appropriately enjoys extraordinary bipartisan support, and really, I’m pleased to see an example of Congress working together across the aisle for the good of the Nation, in this instance, all of those who seek a higher education, which is such an important part of the American Dream. The dream of a higher education and to see one’s children and one’s grandchildren do so, to advance that dream as this legislation does is something that’s admirable; and I wish to commend all who have worked to make this legislation possible.

Mr. Speaker, we will not fail to utilize every opportunity on this House floor, before leaving for a 5-week break to be with our constituents, to provide our constituents, before we leave a debate on this floor on the issue that I certainly am being contacted most about by my constituents, and I know that many of our colleagues are as well: the unacceptable price of gasoline, the energy crisis facing American families, American workers, American businesses.

Part of the reason that we are seeing this situation and that we are seeking a debate to alleviate this crisis is that gas prices have continued to rise, one important reason being because more and more so we are dependent on foreign oil, while we avoid developing domestic energy sources. And so we think that we need to comprehensively debate this issue to alleviate the crisis. The crisis is affecting all American families and affecting countless millions of businesses.

One important source of domestic energy is the Arctic National Wildlife Refuge in Alaska. However, efforts to develop just a tiny portion of ANWR have been fought and blocked to the detriment of America’s energy independence, even though the people of that great State overwhelmingly are in favor of searching for energy there.

With the price of gasoline at $4 a gallon, we should be looking to do all we can to increase our domestic energy independence and that includes domestic exploration when the people of a State wish to do so, and I think it’s admirable, Mr. Speaker, that we’re not and that we’re not being allowed to.

Mr. Speaker, I ask unanimous consent to insert the text of the amendment and extraneous materials immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. LINCOLN DIAZ-BALART of Florida. Again, by voting no on the previous question, Members can take a stand, can show that they want to do everything possible on this issue. Once again, I reiterate that this will not preclude taking action on the important piece of education legislation that we possibly, even unanimously, in this House, certainly in consensus fashion, support.

I ask for a “no” vote on the previous question.

I yield back the balance of my time.

Ms. MATSU. Mr. Speaker, I want to thank Mr. DIAZ-BALART, and I yield myself the balance of my time.

I would like to say, first, that nearly 80 percent of offshore oil is in areas that are already open for exploration. In fact, 68 million acres, onshore and offshore, are already under lease by oil companies, but not being drilled. Some Democrats have said “use it or lose it,” and I would like to say, “Yes, oil companies: drill the oil or give up the lease to someone who will.” And Democrats have called for mandatory leasing in the National Petroleum
Reserve in Alaska, which has more oil than the Arctic Wildlife Refuge.

Oil companies have billions of barrels of American oil available to them right now, and the President’s own Department of Energy says the impact of any new tax would be insignificant, promising only pennies per gallon a decade or two down the road.

Under Democratic leadership, the Congress has enacted into law the first new vehicle fuel efficiency standards in 22 years, cutting by 1 mile per gallon a car per year: a historic commitment to American-grown biofuels, which are keeping gas prices 15 percent lower now than they would otherwise be as a result of blended fuels; action to impact record gas prices by suspending oil purchases for the Strategic Petroleum Reserve; recovery rebates that help Americans struggling with rising prices, including gas, with a check of $600 or more. And what we’re doing today, making college more affordable, will let our hard-working families get ahead.

Mr. Speaker, the rule before us today is a fair rule that allows us to highlight educational challenges and offers remedies for them in order to create a brighter tomorrow.

It is our responsibility to provide our constituents with greater access to a college education, especially at a time when the price of college is steadily increasing.

This bill will complete a year of important changes to higher education policy. Nearly 1 year ago, the Democratic Congress took the lead on landmark changes to lend subsidies and student aid, followed by a measure to ensure access to loans and increase loan limits. And now we will send the President yet another bill that makes college more affordable and address the student loan process.

Mr. Speaker, I urge a “yes” vote on the previous question and on the rule.

The unanimously previously referred to by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 1389 OFFERED BY MR. LINCOLN DIAZ-BALART OF FLORIDA

At the end of the resolution, add the following:

SEC. 2. Immediately upon the adoption of this resolution the House shall, without intervening point of order, consider in the House the bill (H.R. 6107) to direct the Secretary of the Interior to establish and implement a cooperative oil and gas leasing program in the Coastal Protection and Environmentally Sound Program Act of 2010, and for other purposes.

Section 106(b) of H.R. 6599 pursuant to this resolution, not to exceed one hour equally divided and controlled by the majority and minority members of the Committee on Natural Resources.

The previous question was ordered. The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 6599, MILITARY CONSTRUCTION AND VETERANS AFFAIRS APPROPRIATIONS ACT, 2009

Mr. CASTOR. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 1384 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. Res. 1384

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 6599) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2009, and for other purposes. The provisions of the bill, except those printed in the portion of the Congressional Record designated for that purpose in clause 2 of rule XXI are waived. Notwithstanding clause 11 of rule XVIII, no amendment to the bill shall be considered for amendment under the five-minute rule. Points of order against provision in the bill for failure to comply with clause 2 of rule XXI are waived. Notwithstanding clause 11 of rule XVIII, no amendment to the bill shall be in order except those printed in the portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII.

Resolved, That the previous question having been refused, Mr. Speaker, I urge a “yes” vote on the rule.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?
There was no objection.

Ms. CASTOR. Mr. Speaker, House Resolution 1384 provides an open rule with a preprinting requirement. The rule provides 1 hour of general debate, equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations.

The rule waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XIX.

The rule waives points of order against provisions of the bill for failure to comply with clause 2 of rule XIX.

The rule provides that any amendment to the bill must be printed in the CONGRESSIONAL RECORD by July 30. Each amendment so printed may be offered only by the Member who caused it to be printed or his designee and shall be considered as read.

The rule provides one motion to recommit, with or without instructions.

Finally, the rule provides that the Chair may postpone further consideration of the bill to a time designated by the Speaker.

Mr. Speaker, I am pleased to rise today to stand with my colleagues in support of the 2009 Military Construction and Veterans Affairs Appropriations Act and this rule.

Mr. Speaker, the New Direction Congress has made the lives of America's veterans one of our top priorities. Years from now, history will reflect that it was this Democratic-led 110th Congress, in the middle of two wars, that renewed the country's commitment to veterans and their health.

Our commitment simply is a reflection of the pride and appreciation the American people have for the service of their brave men and women in uniform, who have served so greatly in recent conflicts and wars.

Now, just weeks ago, after months of perseverance in the face of opposition from the White House, this Congress, in a bipartisan way, adopted the new 21st century GI Bill that provides a full 4-year college tuition to veterans of the Iraq and Afghanistan wars. The new GI Bill for our veterans was adopted by a vote here in the House of 256–156.

Last year, we adopted the largest reform and investment in veterans' health care in the history of the Veterans Administration. And just yesterday, Mr. Speaker, the Congress adopted additional reforms to the Veterans Administration process that will improve the lives of veterans across this country.

Congressman CAZAYOUX from Louisiana brought H.R. 6445, that prohibits the collection by the Department of Veterans Affairs of copayments or other fees for hospital or nursing home care when they are catastrophically disabled.

Congressman PAUL HOODES of New Hampshire also brought H.R. 2192, that establishes in the Department of Veterans Affairs an Office of the Ombudsman to act as a liaison to veterans and their families with respect to VA health care and their benefits.

I also salute my colleague, Congressman J OHN HALL of New York. We adopted his bill yesterday, H.R. 5892, the Veterans Disability Benefits Claims Modernization Act, that directs the Department of Veterans Affairs to modernize the disability benefits claims processing system to ensure that our veterans are served in a timely and accurate way.

Now, in this appropriations bill that is before the House today, the American people, through the actions of this Congress, will provide the necessary resources for veterans and facilities and the infrastructure for the Armed Forces. This includes training facilities, housing, and equipment for our troops in their ongoing fight to defend our great Nation here and overseas.

While our military members are overseas, most military families remain at home on bases, and we are committed to an excellent standard of living for them and quality of life. That includes convenient child care, a safe neighborhood, and a safe and affordable place to live.

I know this because I have conversations with the men and women who serve on the MacDill Air Force Base in my hometown of Tampa, Florida. They tell me that they feel much more safe and secure at home where their families are well taken care of and well served back home on the base.

So Members should be proud that we have gone above and beyond the White House's initial budget offering. We provide nearly $4 billion more than the President in additional resources, particularly for our veterans health care programs.

Just last week, a panel testified before the Congress that returning soldiers still are not receiving the health care they deserve at Walter Reed and across the country, and this is unacceptable. And that is why in this appropriations bill we fund the VA health care system to try to get it back on track because we've asked everything of these great men and women, the ultimate sacrifice, and the least we can do as their government is support them when they return and ensure that they have the health care they need. When our servicemembers, including our veterans who serve on our country, we're going to ensure that they have the best health care when they return.

Now, the signature injuries of the wars in Iraq and Afghanistan are the traumatic brain injury and post-traumatic stress disorder. Oftentimes, these injuries will require a lifetime of continuing medical care. In fact, the Veterans Health Administration estimates that just next year, in 2009, they will treat more than 5.5 million patients. Mr. Speaker, that in my hometown of Tampa, we have an outstanding VA hospital, the James Haley VA Center. It is known as the busiest VA hospital in the country. We are also fortunate to have one of only four polytrauma units there that serve the most critically wounded veterans from Iraq and Afghanistan.

So I've seen directly how oftentimes medical staff is overworked, they don't have the facilities that they need. That's why we provided an additional $38 billion to the President's request and reject his $38 million cut for medical and prosthetic research. We will continue to invest in medical military construction to improve the aging and outdated medical treatment facilities so they have access to the best medical care.

Now, to help the VA get a head start on helping those hundreds of thousands of new patients in the VA system, we're going to ask that they bring on additional VA claims processors because there is a terrible backlog in this country, and that's the last thing that our veterans should have to face after their service. Currently, in my State, there are over 25,000 pending cases, and nearly 19 percent of those have been in a holding pattern for over 180 days. We can and we must do better for our veterans.

We also oppose, through this appropriations bill, the Bush administration's squeeze on veterans' wallets. The Bush administration has proposed increases in enrollment fees and doubling of prescription drug copayments. How sensible is it to add to the already large number of out-of-work Americans by making it harder for those who have sacrificed in service to this Nation to get the care they need? Well, this New Direction Congress can and will do better for our veterans.

Mr. Speaker, I want to particularly applaud the leadership of Chairman EWARTS, who held numerous hearings in an open, bipartisan process that gave Members and the many military families and veterans groups an opportunity to review and weigh in, in a thoughtful and responsible way, to ensure that our current and past military troops and their families get the much-needed funding for various programs that they have earned by way of their service.

Mr. Speaker, I know the American people will appreciate that this is a bipartisan effort for our country's sons and daughters, who are on the line for us every day. We will fulfill our promise to help them lead whole and healthy lives in honor of their sacrifice.

Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I want to thank my colleague from Florida (Ms. Castor) for yielding me the customary 5 minutes. I yield myself such time as I may consume.

(Mr. Hastings of Washington asked and was given permission to revise and extend his remarks.
Mr. HASTINGS of Washington. Mr. Speaker, I have to say that it is astonishing to me to what lengths this liberal Congress will go to shut down debate and close the legislative process.

This House, Mr. Speaker, has become far more ideological and far less deliberative in the last 19 months than ever before. In this Congress, there have been 59 closed rules, which is more than in any Congress in the history of our country.

Mr. Speaker, as you well know, a closed rule means Members are prohibited from coming to the House floor and offering an amendment to the bill that is being considered on the floor. An open rule allows Members to offer amendments to a bill that’s being considered on the House floor. Mr. Speaker, it is simply as simple as that.

But Mr. Speaker, there hasn’t been one single, solitary open rule this entire year in this body. For this entire Congress, going back to January of last year, there has only been one open rule on bills that were not appropriations bills. These facts present a stark picture of just how closed and restrictive this liberal Congress has become.

Yet the Speaker and Democrat-controlled committees aren’t satisfied with having the worst, most closed record in history. They’ve decided to go even further to undermine the rules and traditions of the U.S. House of Representatives. With this rule, they’ve reached an absolute new low. They have chosen to breach the long-standing, bipartisan process of an open rule for the consideration of appropriations bills.

On what has been an open process on the House floor not just for years, not for decades, but dating back to the creation of the Appropriations Committee itself, this process is being closed down by this oppressive, liberal Congress.

This rule provides for consideration of the Defense and Veterans Affairs funding bill for the next fiscal year. It is a bill that has always, Mr. Speaker, had strong bipartisan support. For example, last year it passed by a recorded vote of 499 in favor and only two against. And during that debate last year, there were just 15 amendments that were offered. And the total debate on the House floor was just 5 hours, which is a short time for appropriations bills.

Mr. Speaker, I believe that there is no part of this record that justifies what is being proposed today to decimate this open process. There is simply no excuse for what is being done and proposed by this rule.

I can only conclude that this is a blatant political attempt to stifle debate on the House floor in order to hold onto political power. Sadly, Mr. Speaker, it is being done at the expense of the rules and traditions of the People’s House, the U.S. House of Representatives.

Additionally, Mr. Speaker, the new fiscal year begins on October 1; that’s just 62 days away. Yet this House hasn’t passed one single appropriations bill. At the end of the week, it will probably have passed one. By comparison, Mr. Speaker, in 2006, the Republican House had passed every bill except one by this point of the year.

It is troubling, disappointing, and dangerous situation when those who control this liberal Congress are punting on their duty to pass the 12 annual appropriations bills while simultaneously undermining the open consideration of these very same appropriation bills. And this has been a bipartisan hallmark of this House since the inception of the Appropriations Committee.

And why is this being done, Mr. Speaker? Again, I can only conclude that it is because this liberal Congress refuses to allow open debate and votes on producing more American-made energy. Those who control this Congress have refused to allow a vote on lifting the ban on offshore drilling, at ANWR in the Arctic National Wildlife Refuge.

NANCY PELOSI, HARRY REID and BARACK OBAMA oppose offshore drilling and in ANWR, but they refuse to let Congress vote on this important issue while gas prices, Mr. Speaker, are at record levels and Americans are hurting.

Mr. Speaker, I will submit for the RECORD three articles, one from the New York Times regarding Speaker PELOSI, one from the McClatchy Washington Bureau regarding Speaker PELOSI’s position on offshore drilling, one in the House of nearly 6 weeks ago from The Hill regarding Mr. OBAMA’s opinion on drilling, and one from the Las Vegas Review Journal regarding Majority Leader REID’s position on drilling in the Senate.

As you know, Speaker PELOSI has repeatedly insisted that this House won’t ever vote, is not going to be permitted to vote, and that she will do everything possible to stop Congress from lowering gas prices by producing more American-made energy by drilling for our own Nation’s gas and oil. Americans can’t afford this head-in-the-sand approach. Congress needs to stand up and vote on the Republicans’ “all of the above” energy plan that simply says, let’s do everything that we can to produce more American-made energy, including pursuing more clean alternatives like wind and solar, more nuclear power, more biodiesel, improving energy conservation, investing in new technology research, and of course, immediately more drilling and refining of oil and gas from America’s huge underground reserves.

Mr. Speaker, the choice is clear: we can continue with this “drill nothing” approach, or we can decide to act, to change course and to debate and vote on the Republicans “all of the above” plan to lower gas prices by producing more energy here in America and finding ways, at the same time, to use less.

Mr. Speaker, I believe our “all of the above” approach to lowering gas prices would pass. It would pass, I believe, Mr. Speaker, if it were permitted to have a vote on this House floor. I believe there is a majority that would vote for it in this U.S. House. But such a vote has yet to be allowed and is not being allowed today. And next week, we’re going on a 5-week vacation. Mr. Speaker, I think that is intolerable.

The House is being shut down in new, bolder ways to block a vote on producing American-made energy. And as a matter of fact, Mr. Speaker, this rule is proof of it.

It is understandable, bipartisan practice of considering appropriations bills under an open process is being trampeled on by this rule. The actions that are being taken to restrict and shut down Members’ ability to offer amendments and debate spending bills—which I might add, Mr. Speaker, is the very job that the American people elected us to do—is being undermined by this appropriations process, and it creates a very dangerous and volatile situation in this House.

Mr. Speaker, the leaders and the chairmen who’ve made this decision may well rue the day that they chose to go down this path.

By their actions, bipartisanship is being diminished, but more importantly, Mr. Speaker, the traditions of this House are being diminished. One cannot trample on the rules and practices of traditions of this House with impunity and then expect no long-term damage to result.

This is a bad and shameful rule. So I urge my colleagues to oppose it and demand this House uphold open rules for consideration of appropriations bills, which is one of the best practices historically of this institution. If we do not correct the closed rule course that is being set by this rule, it will do a great deal of long-term harm to this House that will prove, in my opinion, much difficult to reverse in the future.

[From the New York Times, July 17, 2008]

FOR PELOSI, A FIGHT AGAINST OFFSHORE DRILLING

WASHINGTON—Upon entering Congress in 1987, Representative Nancy Pelosi quickly became part of the solid California front against oil drilling along much of the nation’s coast.

The Santa Barbara oil spill in 1969 and the strong push to tap the nation’s offshore oil reserves off the state’s rugged coast had galvanized Californians and made opposition to offshore drilling part of the political DNA of up-and-coming figures like Ms. Pelosi.

She repeatedly resisted oil drilling in marine sanctuaries near her San Francisco district and, after joining the Appropriations Committee, was an advocate of reinstating the ban on coastal drilling through spending restrictions each year.

“We learned the hard way that oil and water do not mix on our coast,” Ms. Pelosi told a crucial committee in 1996 as she argued for keeping the ban before a Congress then controlled by Republicans.

Now, with gasoline prices soaring, those drilling restrictions are facing their most severe test in years as calls intensify to pursue
Pelosi, who last year broke a deadlock that had lasted for decades over increasing automotive fuel economy standards. In a private meeting last week, according to some in attendance, Ms. Pelosi told members of her leadership team that she had decided to block any move to lift the moratorium on offshore drilling. The decision is in concert with the recommendations of the bipartisan Energy Security and Modernization Act of 2007, which aims to ensure the nation's energy security without relying on foreign oil.

“The president of the United States, with gas at $4 a gallon, the economic consequences of his failed energy policy, is now trying to say that is because I couldn’t drill offshore,” Ms. Pelosi said in an interview. “That is not the case, and I am not going to get away with it.”

Her voice carries considerable weight because Ms. Pelosi, who is now House speaker, can prevent a vote on expanded drilling from reaching the floor. And she and Senator Harry Reid of Nevada, the majority leader, appear intent on holding the line against calls to approve drilling in areas off the coasts of Alaska and California. They argue that the oil and gas industry is not aggressively exploring large expanses it has already leased on land and offshore. They have also urged Mr. Bush to pour some fuel from national reserves into the commercial supply chain in an effort to lower prices.

Try to make it clear that Democrats are not opposed to drilling in acceptable locales, the House is scheduled to vote on Thursday on a proposal that would deny oil companies any new leases if the president can show they are not diligently exploring existing holdings. The measure would also require annual lease sales to be set aside for the National Petroleum Reserve, and direct the Interior Department to make sure a pipeline is linked to the reserves. Democrats, subtly, are calling the measure the Drill Responsibly in Leased Lands, or Drill, Act.

In the Senate, Democrats are pushing a measure to curb speculation in oil markets. But Representative John A. Boehner of Ohio, the Republican leader, who is escorting Mr. Bush to pour some fuel from national reserves into the commercial supply chain in an effort to lower prices.

“I think Speaker Pelosi is walking her Blue Dogs and other vulnerable Democrats off a cliff, and they know it,” said Mr. Boehner, referring to the coalition of Democrats representing more conservative districts.

He accused the speaker of using procedural maneuvers to thwart votes on expanded drilling, a position that he said would prevail if the moment arrived. “Harry Reid and Nancy Pelosi are standing in the way of what the American people want,” Mr. Boehner said. In insisting on preserving the drilling ban, was putting Democrats in the crosshairs of voters furious about gas prices.

“This is part of the fight we are in,” she said. “I have no plans to do so,” Pelosi said in an interview. “That is not the cause, and I am not going to get away with it.”

She said that natural policy had to move beyond the long dispute over the ban.

“This is part of the fight we are in,” she said. “I have no plans to do so,” Pelosi said in an interview. “That is not the cause, and I am not going to get away with it.”

“Webb’s divergence from his party also came as his name cropped up on Obama’s short list for a running mate. A key McCain ally, GOP Sen. Lindsey Graham said.

By pushing a bill that distances himself from the Democratic Party and its presidential candidate on offshore drilling, Sen. Jim Webb of Virginia is picking a curious time to exercise his well-known independence.

Webb wants his home state to have the right to explore for energy off Virginia’s coast. His staff insists his proposal pertains only to natural gas, and not oil, and that it is completely in line with the state’s other leading Democrat—Gov. Tim Kaine and former Gov. Mark Warner, who is running for Senate.

Yet by attaching his name to the bill, sponsored by Sen. John Warner (Va.), Mr. Webb is taking a step away from Barack Obama (D-Ill.), the party’s presidential candidate, who opposes offshore drilling, and one closer to Sen. John McCain (Ariz.), the GOP standard-bearer who recently called for lifting the federal ban.

Webb’s divergence from his party also came as his name cropped up on Obama’s short list for a running mate. A key McCain ally, GOP Sen. Lindsey Graham said.

Webb rejected the suggestion that his position differs from other Democrats’, saying that the bill calls for “a very careful approach,” state leaders would be a key part of the decision, and Virginia desperately needs the revenue stream for cash-starved transportation needs. Such decisions therefore should be made by Virginia, not Washington, he said.

“We can’t just act,” he said. “It’s time we had some leadership to really grab the larger picture and solve these problems.”

Senators Mark Kirk (R-Ill.) and Sen. Charles Schumer (D-N.Y.) have warned that any oil at all, and the effect on gasoline prices would be negligible at best since the oil produced by drilling off Virginia’s coast. His staff insists his proposal pertains only to natural gas, and not oil, and that it is completely in line with the state’s other leading Democrat—Gov. Tim Kaine and former Gov. Mark Warner, who is running for Senate.

Support is even growing in California, where a majority of residents have long supported the ban. A new Field Poll survey shows that just 51 percent now favor the ban, compared with 42 percent in 2005.

Pelosi made her remarks in a wide-ranging interview with CNN, in which she grabbed headlines for saying Bush was “a total failure” and “utterly unqualified” to govern the country.

Pelosi’s Democratic colleagues in California are happy that the president’s drilling plan is going nowhere, at least for now.

“While the pump prices are at an all-time high and are faced with gas prices well over $4 a gallon, it may be tempting to believe that lifting the ban on offshore drilling would bring immediate relief,” Rep. Doris Matsui, D-Calif., said Friday. But she said Congress “cannot make rash decisions that will leave a legacy of irresponsible energy policy for our children and grandchildren to inherit.”

Pelosi and other Californians have long cited the 1969 oil spill off Santa Barbara as the main reason for their opposition to drilling. This was the oil spill that is opposite California’s three top leaders: Republican Gov. Arnold Schwarzenegger and Democratic Sens. Barbara Boxer, who heads the Senate environment committee, and Dianne Feinstein.

“Californians have learned the hard way how much damage—environmental and economic—can be caused by a major oil spill,” Feinstein said.

But Pelosi may be hard-pressed to stand firm against lifting the moratorium. She’s under heavy pressure from House Republicans, who have been unrelenting in their political attacks against the speaker, blaming her for high gasoline prices.

On Friday, House Minority Leader John Boehner of Ohio called on Pelosi to stop “ignoring the calls of the American people.” He said he would lead a delegation of 10 House Republicans on an “American energy tour” to Colorado and Alaska this weekend to put a spotlight on the refusal of Democratic leaders to allow drilling in Alaska and elsewhere.

The congressional ban on offshore drilling has been in effect since 1981, but Congress must renew it each year. The issue could come to a head again in September, though Republicans on an “American energy tour” to Colorado and Alaska this weekend to put a spotlight on the refusal of Democratic leaders to allow drilling in Alaska and elsewhere.

The congressional ban on offshore drilling has been in effect since 1981, but Congress must renew it each year. The issue could come to a head again in September, though Pelosi could make it tougher for opponents to kill the ban if she included it in an omnibus spending bill that may be required to keep the government operating.

Acknowledging her ability to influence decision-making, Pelosi said in the CNN interview that she gets to operate differently than her Senate counterpart, Majority Leader Harry Reid of Nevada. Reid must reach out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes—enough to stop a filibuster—to get anything out to Republicans to muster 60 votes.

In the House, the power rests in the speaker, the power of recognition, of setting the agenda. I’ve said ‘very different rules,’ Pelosi said.

[From the Las Vegas Review-Journal, July 14, 2008]

REED WON’T ALLOW OFFSHORE VOTE IN SENATE

WASHINGTON.—Sen. Harry Reid said today he will not allow a Senate vote on opening new oil drilling, proposing a Republican to charge the Senate majority leader was “scared chicken” to allow senators to decide on the matter.

Pelosi called by President Bush for Congress to repeal a law that prohibits new drilling was not realistic. Bush issued the challenge after announcing he was lifting a longstanding executive order that bans offshore energy exploration off the East and West coasts.

“I’m very interested in the consequences of having the most effective and efficient tool that we’ve got today in our domestic production but I don’t want to be realistic as to what expectations should be,” Reid told reporters he is more interested in solutions that would seek to curb oil price speculation, release oil from the Strategic Petroleum Reserve and call on energy companies to explain why they are not drilling on oil leases they already have been granted by the government.

In a sign of rising tensions over rising gasoline prices, Sen. Pete Domenici, R-N.M., shortly afterward charged Reid was afraid to allow votes on increasing energy production. “Does it seem to you like it does to me that Harry Reid is either scared chicken to have a vote? Or has he decided he is going to dictate to the United States Senate,” Domenici said at a news conference.

“Domenici would have said, ‘I am frightened with the idea we are going to have a vote on a new plan for this huge reserve of potential energy to benefit other than the people of the United States who are clamoring for us to produce more oil.’”

In response, Reid spokesman Jon Summers said: “This is the United States Senate. It is not a schoolyard. Name calling is not going to do anything to lower energy prices. We need Republicans to work with us on a policy that will protect consumers and lower gas prices.”

Talking to reporters, Reid said the United States can do its way out of energy dependence. “The math doesn’t add up,” he said. “There is not a single Democrat that doesn’t think we can do a better job with domestic production, but for this Johnny One Note of just drill, drill, drill, it is not going to be the trick.”

Mr. Speaker, I reserve the balance of my time.

Ms. CASTOR. Mr. Speaker, I want to make sure that the record reflects and that it is very clear that on this very important appropriations bill relating to veterans affairs and military construction, every Member out of 435 in this House had the opportunity to submit an amendment if they chose to do so.

Mr. HASTINGS of Washington. Will the gentleman yield?

Ms. CASTOR. I would be happy to yield.

Mr. HASTINGS of Washington. I appreciate the gentleman’s yielding.

Let me ask this question: Would a Member be able to come down to the floor when this bill is being taken up and offer a second-degree amendment to an amendment that is being offered by another Member?

Ms. CASTOR. Reclaiming my time, Mr. Speaker, I am fairly new in this Congress. I was proud to be part of a class that ushered in the strongest ethics reform since Watergate, and it seems to me that it is entirely fair and proper for Members to be able to offer amendments to this important bill, this very important bill, but it’s also important that it is done in a responsible way so that there are no ambuses.

And I would like to point out that the Republican member from the Appropriations Committee that came to the Rules Committee did state, and I took notes that afternoon, that Chairman Edwards did a great job. We’ve had 18 hearings. This has been an open and bipartisan process, a very open process. It has served as a model of bipartisanship.

With that, Mr. Speaker, I am pleased to yield 2 1⁄2 minutes to the distinguished gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. I appreciate the gentleman’s courtesy in permitting me to speak.

Mr. Speaker, I rise in support of the rule and the underlying bill.

This is a critical piece of legislation that speaks to the quality of life of our men and women in uniform. One of the consequences of having the most effective and efficient tool that we’ve got today in our domestic production but I don’t want to be realistic as to what expectations should be. In the world is that we have a great deal of activity that takes place training and operating military facilities across the country. And, sadly, Mr. Speaker, one of the consequences of having the most effective and efficient tool that we’ve got today in our domestic production but I don’t want to be realistic as to what expectations should be. In the world is that we have a great deal of activity that takes place training and operating military facilities across the country. And, sadly, Mr. Speaker, one of the consequences of having the most effective and efficient tool that we’ve got today in our domestic production but I don’t want to be realistic as to what expectations should be.

One of the things I have worked on since I came to Congress was to have the Department of Defense and, most important, we in Congress do a better job of helping the military clean up after it. I have come to this floor repeatedly with examples where bombs have been killed in people’s backyards. I see the former chairman of the committee from California on the floor and am reminded of the three young children in San Diego who discovered bombs in a subdivision, and two of those were killed and people have been killed according to my research here in the United States.

It is time for us to take responsibility to clean up that explosive and toxic legacy. In part because it’s not going to get any cheaper. Over the years it’s going to cost more and more. Failure to do this right puts innocent children’s lives at risk. Remember when we came to the floor with a colorizing that told children what they should do when they found unexploded ordinances near their schools. The Pentagon had Larry the Lizard trying to tell them what to do, when they found a bomb . . . rather than spending money to clean it up and remove that hazard.

I am pleased that this year we are fully funding the—the 2005 BRAC account. I am pleased with the leadership from Chairman Edwards, Ranking Member SMITH, and other friends. There has been an open and bipartisan process, a very open process. It has served as a model of bipartisanship.

I am pleased that this year we are fully funding the—the 2005 BRAC account. I am pleased with the leadership from Chairman Edwards, Ranking Member SMITH, and other friends. There has been an open and bipartisan process, a very open process. It has served as a model of bipartisanship.

I am pleased that this year we are fully funding the—the 2005 BRAC account. I am pleased with the leadership from Chairman Edwards, Ranking Member SMITH, and other friends. There has been an open and bipartisan process, a very open process. It has served as a model of bipartisanship.
I appreciate that this is a difficult budget year but it’s always a difficult budget year, and we never seem to quite have enough to deal with the environment that faces our Department of Defense. I hope that this is a start in the right direction for a renewed commitment to clean up this toxic legacy that risks American lives here in this country and will develop new technology that will actually save America’s men and women in places like Iraq and Afghanistan if we do it right. I hope it makes possible more progress in the future, and I urge support.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield such time as he may consume to the distinguished ranking member of the Appropriations Committee and the former chairman of the Appropriations Committee, the gentleman from California (Mr. Lewis).

Mr. LEWIS of California. I very much appreciate my colleague’s yielding. It is really a most interesting commentary, your presentation, which summarizes in this rule what appears to be the dominant leadership of the liberal Democratic leadership in the House. That is, in the quest of power, the ends justify the means. Indeed, at this point in our history when the people’s House finds itself dominated by leadership who will exercise the ends justifying the means to maintain power, indeed the public ought to be most concerned about their people’s House.

Mr. Speaker, I in turn, though, want to congratulate, myself, both Chairman Edwards and Mr. Wamp for producing a truly bipartisan fiscal year 2009 Military Construction Appropriations bill in the longstanding tradition of this committee. Their work is a demonstration to the House that the Democrats and Republicans can work together to create legislation the majority of our Members can support.

As we all know, the Appropriations Committee has steered off course this year because of one single issue which is critical to the American public and which has significant bipartisan support in the House. I do not fault my friend Chairman Obey for the breakdown of the appropriations process this year. While we have had our share of disagreements over the years on overall funding levels and policy issues, he and I have historically worked well together to move our spending bills through the House in a timely fashion.

However, this year the largely bipartisan work of the Appropriations Committee has ground to a virtually standstill because of the energy issue. For reasons I do not fully understand, given present pressures on our economy and the increased worldwide demand for oil, the majority leadership has thrown the shell of the annual spending bills as well as any and all meaningful bipartisan efforts to lower the price of oil and gas. I don’t understand this decision nor do I agree with it. We have had an opportunity and we have an obligation to work on a bipartisan basis to develop and pass long-term energy solutions that involve a combination of conservation, alternative and renewable energy sources, and the development of proven resources both onshore and offshore in the United States.

This effort to bolster our energy resources would create thousands of well-paying union and nonunion jobs across the United States. The overwhelming majority of Americans favor increased domestic energy production. So what is the downside if we develop energy resources in a responsible, environmentally safe manner? Why is the Democratic leadership standing in the way?

Just yesterday a dedicated group of Members, led by my colleagues John Peterson and Neil Abercrombie, introduced sweeping bipartisan energy legislation to break the current energy gridlock in the House. I applaud their efforts. We ought to debate their bill openly in the Appropriations Committee and on the House floor before we leave this town for an August break.

The mere message that Congress was actually debating energy policy, in meaningful, bipartisan debate, would send a signal to the markets and to the foreign suppliers of oil that the United States is serious about addressing its energy future. That powerful message would send oil prices down almost overnight. I believe that an honest energy debate on the floor of the House would be, in itself, a stimulus package that would have a tremendously positive ripple effect throughout our economy, touching every American business and consumer.

Let me respectfully remind my colleagues that it was our Speaker, then the minority leader, in 2006 who outlined the new Democrat majority’s governing philosophy, and I quote: “Bills should come to the floor under a procedure that allows open, full, and fair debate. Bills should be developed following full hearings and open subcommittee markups.” Mr. Speaker, that’s important enough. Let me repeat. The Speaker: “Bills should come to the floor under a procedure that allows open, full, and fair debate. Bills should be developed following full hearings and open subcommittee markups.”

As the body knows, we have not had an open, full, and fair debate on energy policy in committee nor have we had any open amendment process on the House floor. In fact, the House Appropriations Committee has not moved any bills through the full committee since June 25 because of a pending energy production amendment supported by a bipartisan majority of the committee members but opposed by the majority leadership.

I would remind my colleagues that most of the challenges facing us today have little or nothing to do with partisan politics. At a time when our country is facing daunting challenges at home and abroad, my constituents and your constituents are looking for real leadership. Rather than providing the leadership our constituents deserve, the body is now in a state of paralysis.

Again, I remind my colleagues that it was then a minority leader, the gentlewoman from San Francisco, who wrote in an October 20, 2007, letter to Speaker Hastert: “The voice of every American has a right to be heard. Every Member of Congress should be silenced on this floor.”

I encourage each of my colleagues to remind the Speaker of these words so we can return to regular order in our committee work and restore civility and open debate to the legislative process in the House. It is time to set aside partisan politics and get to work. We can do better. We must do better. Let’s support our veterans funding bill today and then move on to support our constituents by openly debating potentially energy solutions.

Again, the House should not leave town for the August recess until it votes to lower gas prices, increase the supply of American-made energy, and promote energy independence.

Ms. CASTOR. Mr. Speaker, I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 2 minutes to the distinguished ranking member of the subcommittee dealing with this issue, the gentleman from Tennessee (Mr. WAMP).

Mr. WAMP. I thank the gentleman from Washington for yielding. I will be back later today to manage the time during general debate and consideration of amendments as the ranking member of the Military Construction and Veterans Affairs Subcommittee of the Appropriations Committee. But I come today to speak briefly on the rule for my only negative comments today because it is ironic that on the same day, at the same time that the House joins in a bipartisan way with a record commitment to our veterans and our military construction and installation needs around the world, that we also are making history by the consideration of this rule, which is unfortunate.

I even know that there are members of the majority who think that it is unfortunate that we are here very late in July, basically clamping down on the process in order to achieve an objective. I understand why, but I regret it, and I know certain members of the majority regret it as well.

The main thing though is I come in opposition to the rule but in tremendous support of the bill. My hat is off to Chairman Edwards, my subcommittee chairman, who has been an excellent partner. I will come back to this later in the day. And Chairman Obey and Ranking Member Lewis, who
have worked on this bill very, very well, because the House will sometime today or tomorrow make a historic commitment to every man and woman in uniform, those serving now and those that have served in the past. I think this is the greatest bill the United States of America has at a time where we have a war on two fronts.

I just shook Holly Petraeus’ hand here in the Capitol today, the spouse of General Petraeus, David Petraeus, perhaps the greatest military general in the modern era of the United States of America.

These threats are real, the enemy is vicious. Our challenges are many. And we do come together today on this bill. I am grateful for that, I wish it was being considered in another way because this rule is not in keeping with the traditions and the history of this committee and the House.

Ms. CASTOR. I reserve the balance of my time for Mr. Speaker.

Mr. HASTINGS of Washington. Mr. Speaker, just for purposes of trying to plan the time, could I inquire of my distinguished colleague how many speakers she has left?

Ms. CASTOR. Mr. Speaker, I am prepared to close after the gentleman from Washington has made his closing statement.

Mr. HASTINGS of Washington. I thank her for that information, and am pleased to yield 2 minutes to the gentleman from Florida (Mr. KELLER).

Mr. KELLER of Florida. I thank the gentleman for yielding. I rise today in support of this veterans funding bill. This is a great victory for 400,000 central Florida veterans because it provides $220 million for a new VA hospital in Orlando. What does this mean for our central Florida vets? As a result of this hospital, our Orlando area vets will no longer have to travel 2 hours to Tampa. They will no longer have to be living in a metropolitan area in the United States without a VA hospital. Instead, they will have a brand new state-of-the-art 134-bed hospital and access to world class physicians and researchers working in partnership with the new UCF Medical School. Our vets deserve it.

We didn’t get here by accident. The critical turning point began on September 10, 2003. That is when the VA CARES Commission held their hearing in central Florida to determine what cities if any in America would get a new VA hospital, since one hadn’t been built in 30 years. I testified at that committee and pleaded that a new one be built in Orlando because of the large number of veterans we had and their lack of access to care. The VA CARES Commission agreed. This decision was ratified by the VA Secretary and then ratified by Congress.

Today, Congress takes the biggest step forward in funding this project. Although we have already provided $75 million toward this project, this new funding of $220 million is quite significant because it’s $100 million more than the President asked for and is the largest single investment so far in this new project.

Where do we go from here? We ask our Senate colleagues to act, and we finish the job. We will work together on a bipartisan basis, Republicans and Democrats to complete this worthwhile project. I’d like to close just by saying that this has been very much a team effort. I would like to thank my Democratic and Republican colleagues on both sides of the aisle.

Ms. CASTOR. I would also like to join with my colleague from Florida (Mr. KELLER) in saluting Chairman OSEY and the other members of the Appropriations Committee and the Military Construction-Veterans Affairs Subcommittee because as that new VA hospital goes to Orlando, it will relieve a great deal of pressure in Tampa, in my hometown, at the Haley VA Center, the busiest VA Center in the country, and the Bay Pines Medical Center in St. Petersburg.

So I thank the gentleman for expressing his opinion on this, and I join with him.

With that, I will reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Oklahoma (Mr. LUCAS).

Mr. LUCAS of Oklahoma. Mr. Speaker, I come to the floor today in support of H.R. 6566, the American Energy Act, an all-of-the-above plan that tackles the current energy crisis we are facing in this country. A well-known Oklahoman has recently alerted us to the fact that we spend $700 billion a year on foreign oil. That is $700 billion. That number is staggering and should be enough for any American to sit up and take notice and know that something has to change.

The American Energy Act paves the way to decrease our reliance on foreign oil by increasing the production of American-made energy. It not only allows for oil exploration both in the Arctic coastal plain and offshore, a move that 73 percent of Americans support, according to the latest CNN poll. It also eliminates the obstacle to the construction of new oil refineries and nuclear power plants.

Now, all we know that increased production of traditional forms of energy, such as oil and natural gas, is only the first step. The American Energy Act also addresses the future of American-made energy by promoting research and development of renewable and alternative energy sources. One of the best components of this bill is the permanent extension of the tax credit for alternative energy production. Oklahoma is the ninth largest producer of wind energy, and we look forward to continued growth in that industry. We know that extending the production tax credit on wind energy will send the right message to wind producers that the American government is ready to work with them to expand upon this already successful alternative energy source.

The Speaker recently was quoted as saying that her refusal to bring legislation aimed at increasing American energy production was an effort to “save the planet.” While I appreciate the gentlewoman from California’s feelings that she has a moral obligation to promote conservation, what about her obligation to the American soldier, the American veteran, the American family that are forced to choose between driving to work and putting food on the dinner table?

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HASTINGS of Washington. Mr. Speaker, I yield the gentleman 30 additional seconds.

Mr. LUCAS. It’s irresponsible to adjourn for 5 weeks without passing a meaningful legislation to reduce the skyrocketing gas prices Americans are forced to pay. Now is the time for America to take its place in the forefront of energy development by utilizing the vast natural resources we have in this country.

I ask all of my colleagues today, stand up, demand a vote on the American Energy Act. Do something for our folks back home.

Ms. CASTOR. Mr. Speaker, I am very pleased to yield 4 minutes to the distinguished Chair of the Appropriations Committee, the gentleman from Wisconsin (Mr. OSEY).

Mr. OSEY of Wisconsin. Mr. Speaker, I simply want to respond to one theme that we have heard here in the last 20 minutes or so. We have heard complaints about the “outrage” that is being perpetrated by the passage of this rule because it is alleged that this rule closes up consideration of this bill and in fact prevents Members from offering legitimate amendments.

Let me point out this rule does one thing and one thing only. It simply says that if a Member offers an amendment, that the amendment be considered on this floor is that it be printed in the Congressional Record the day before it is considered so that no Member of the House is blind-sided by any amendment.

We believe that the bill managers on both sides of the aisle have a right to know in an orderly way which amendments are going to be offered to bills. We also believe that any individual Member who happens to have a project to the floor for which was was an amendment challenged by another Member, that that Member has the right to notice of that challenge. And we believe that every single Member of this House has a right to know ahead of time what they are going to be called upon to respond to, the way of amendments. So this rule simply says any amendment is in order so long as it was printed the day before.
Now, the gentleman managing the bill on the other side of the aisle asked the question, “Will secondary amendments be allowed?” My understanding is yes. My understanding is that this rule provides—or that this rule does not allow you to get in the way of the ability of Members to offer secondary amendments.

So, very simply, this bill is attempting to meet the military needs of the country. It’s attempting to meet the needs of our communities in terms of construction on military bases all around the country. This bill builds upon the fact that in the last 2 years we have provided the largest increase in veterans’ health benefits in the history of the country. This bill continues in that tradition. It is a terrific bill for veterans. It is a terrific bill for the communities that host military bases around the country. And instead of having a sham debate about legislation which is not before us today, I think we would do well to continue our comments to the bill at hand, which is the military construction bill. It’s a good bill, and I would predict it will be supported on a huge bipartisan basis. It was reported unanimously by the subcommittee. What we ought to do, instead of pretending that there’s a procedural problem, when in fact there is none, we ought to get to the subject at hand.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Kansas (Mr. MORAN).

Mr. MORAN of Kansas. I thank the gentleman from Washington for yielding me time. In my short time during my service in Congress, I have been a member of the House Veterans’ Affairs Committee and have chaired the Health Care Subcommittee, and I am here in the short amount of time I have been allotted to commend the Appropriations Committee for a couple of provisions included in this bill. One deals with travel.

This bill increases the travel reimbursement for our veterans going to a VA hospital or facility from 28.5 cents per mile to 41.5 cents per mile, while we have been discussing the cost of gasoline that has real effects upon our veterans. As we work to boost VA health care funding, it’s important to be reminded that rural veterans will be supported on a huge bipartisan basis. This bill continues in that tradition. It is attempting to meet the military needs of the country. It’s attempting to meet the needs of our communities in terms of construction on military bases all around the country.

It is attempting to meet the military needs of the country. It’s attempting to meet the needs of our communities in terms of construction on military bases all around the country.
process of working on the MILCON bill. This is just an addition to it, an addition that I think is very, very important, since Congress is contemplating and probably will go on a 5-week break without taking up any energy legislation.

I urge my colleagues to defeat the previous question so that we can consider this vitally important issue for America.

Broken Promises: The Death of Democracy

A CONGRESSIONAL REPORT ON THE UNPRECEDEDENTED EROSION OF THE DEMOCRATIC PROCESS IN THE 110TH CONGRESS

(Compiled by the House Rules Committee Minorities' Policy Officer, Louise M. Slaughter, Ranking Member)

4. Rules with Pre-Printing Requirements are not "Open Rules"

During the 108th Congress, the Rules Committee reported out four rules with a so-called "pre-printing" requirement. This provision requires Members to submit their amendments for publication in the Congressional Record, in accordance with clause 8 of Rule XVIII, on the day preceding floor debate on the bill. While the majority optimistically calls such rules "modified open rules," we consider them "restrictive" rules and have scored them as such in the appendix to this report.

While we concede that considering a bill with a pre-printing requirement is less restrictive than the more common tactic of limiting amendments to those printed in the Rules Committee report, there is a significant difference between an open rule and a rule with a pre-printing requirement. A pre-printing requirement blocks any amendment proposal that might emerge during the course of the debate. Then Chairman Dreier was in the minority, he made the following statement about the preprinting requirement during debate on a rule on national service legislation:

"This rule also requires amendments to be printed in the Congressional Record. That might not sound like much, but it is another bad policy that goes against the traditions of House debate. If amendments must be preprinted, then it is impossible to listen to the debate on the floor, come up with a new idea to bill, and then offer an amendment to incorporate that idea. Why do we need this burdensome pre-printing process? Shouldn't the committees that report these bills have a grasp of the issues affecting the legislation under their jurisdiction? Again, Mr. Speaker, I think we can do better."

We agree with Chairman Dreier's statement that the purpose of the amendment process on the floor is to give duly elected Members of Congress the opportunity to play a meaningful role in the shape legislation in a manner that they believe is in the best interest of their constituents and the nation as a whole. It is not to help the floor manager with his or her job. A majority interested in allowing "the full and free airing of conflicting opinions" would allow Members to bring their amendments directly to the floor for discussion and whose ideas under the five-minute rule.

Mr. Speaker, I yield back the balance of my time.

Ms. CASTOR. Mr. Speaker, the American people will be pleased today that the House of Representatives will move and pass, hopefully, on a bipartisan basis, like it was in the Appropriations Committee, a bipartisan bill that provides so much for the service-oriented and -women and their families who are being asked to make this sacrifice so much after many years of war. This bill is a fitting salute and tribute to the men and women who are on the front lines, who are on the battlefield and those in the military and VA hospitals across this country and the outpatients fighting a different kind of war, to help those who return maintain a dignified quality of life for them and their families.

We will also assist veterans of wars past and demonstrate our appreciation for their service by ensuring that their claims will be processed in a timely fashion and that they have access to the range of health care options available to them and every American.

Mr. Speaker, this "New Direction" Congress has pledged to put our troops and veterans first. By restoring GI veterans education benefits, improving veterans health care, rebuilding our military and strengthening other benefits for our troops and military families, we are keeping our promises to our courageous and faithful men and women in uniform. For too long, officials in Washington have neglected our troops and veterans in a time of war. On the battlefield, the military pledges to leave no one behind, and, as a nation, let it be our pledge that when they return home, we leave no veteran behind.

Mr. Speaker, with that, I urge a "yes" vote on the previous question and on the rule.

Mr. DREIER. Mr. Speaker, I rise in strong opposition to this disgraceful rule. To illustrate just how bad this rule is, and to provide some context, I'd like to discuss a few telling numbers. I'm just going to throw these numbers out there for the record: 12, 7, 4 and 9. That's 12, 7, 4 and 9.

These numbers are significant, and let me tell you why. The first number is 12. The House has 12 appropriations bills that it must consider in order to fund the Federal budget; 12 bills to consider in order to responsibly exercise our constitutional power of the purse; 12 appropriations bills that cover the priorities that are first and foremost in Americans' minds.

We've now reached the final week of July and the Democratic majority has brought up its adjournment resolution. Traditionally, this is the week when the House wraps up its versions of these 12 appropriations bills, or at least a majority of them. The idea is to finalize or make significant progress in our most important duty as legislators before adjourning for a month of recess in August.

So now that we have arrived at the end of July, how many appropriations bills remain for the House to consider? Twelve. Every last one of them. Today we are considering our very last bills of the August recess, and the Democratic Majority thought, what the hell, why not squeeze one more day in before heading out of town. So, we're starting our job right about the time we've traditionally tried to finish it.

And speaking of tradition, one of the longest-held traditions in this body is the practice of considering all regular appropriations bills under a completely open process. This is one of the few opportunities in the House where all Members, majority and minority, have the unfettered ability to offer any amendments they see fit. Members can amend any aspect of a bill subject to points of order, and ultimately a vote. But Members have had the opportunity to offer them and make their case.

Which brings me to the second number on my list: the number 7. We would have to go back to any example of restrictions on a general appropriations bill.

In 2001, the Rule providing for consideration of the Foreign Operations bill had a pre-printing requirement. This restriction was entirely unopposed. Not one voice of opposition was raised, and the Rule passed by voice vote.

And what was the reason for this restriction? Why did we have a very busy week, in a very busy month, and we all agreed—Democrats and Republicans—agreed to expedite the procedures. Considering we passed 9 of 13 appropriations bills prior to August recess that year, I suppose you could say the unopposed restrictions were justified. Seven years passed before any restrictions were again brought up.

Until today. Today the Democratic majority is rushing out the door with expedited rules. What does this mean? It means that Republicans will be denied the ability to freely bring their amendments to the floor and have their voices heard.

And to add an element of the absurd, they are actually calling this an open rule. With straight faces, no less.

What's the reason for this closed process? I don't doubt expediency plays a part. When you're rushing out the door, you prefer not to get bogged down by open, substantive debate. But the full explanation lies in what the Democratic majority hopes to avoid—any possibility that Republicans will seek to offer energy-related amendments to the underlying bill.

Which brings us to the third number on my list: the number 4. Americans are paying an average of $4 for a gallon of gas. The mutually reinforcing trends of high gas prices and high food prices have strained working Americans enormously. They know Government policies bear much of the blame, and they rightly expect this Congress to do something about it.

But Republicans have tried every means possible to force this Democratic majority to consider real solutions to our energy crisis. But we have faced nothing but roadblocks.

And now, the Democratic majority is using every trick in the book to get out of town without ever scheduling a meaningful vote. And on the way out the door denying Members the ability to freely bring their amendments to the open and fair appropriations process.

And this brings us to the fourth and final number: the number 9. The latest polls show Congress approval rating at a paltry 9 percent. All but 9 percent of the American population thinks we are failing at our job. Frankly, I'd like to know who this 9 percent is who supports what we're doing. Under the
Democratic majority, we are failing in our duty to address Federal spending. We are failing in our duty to find a workable and effective solution to the energy crisis we face. We are failing in our duty to have open and honest debate on the challenges we face. And just this afternoon, we had a vote on a resolution to adjourn, despite all of these failures. Mr. Speaker, the numbers don't lie. I urge my colleagues to oppose this rule.

The material previously referred to by Mr. HASTINGS of Washington is as follows:

**AMENDMENT TO H.R. 1389 OFFERED BY MS. HASTINGS OF WASHINGTON**

At the end of the resolution, add the following:

**Sec. 3. Immediately upon the adoption of this resolution the House shall, without intervention of any point of order, consider in the House the bill (H.R. 6108) to provide for exploration, development, and production activities for mineral resources on the outer Continental Shelf, and for other purposes. All points of order against the bill are waived. The bill shall be considered as read. The previous question shall be considered as waived. The bill is considered as read.**

The material previously referred to by Mr. HASTINGS of Washington is as follows:

**FURTHER MESSAGE FROM THE SENATE**

A further message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed a bill of the following title in which the concurrence of the House is requested: S. 3370. An act to resolve pending claims against Libya by United States nationals, and for other purposes.

**GENERAL LEAVE**

Mr. GEORGE MILLER of California. Mr. Speaker, I request 5 legislative days for Members to revise and extend the Higher Education Act of 1998. In those 10 years that have passed, our world and our country have changed, and so have the needs of college-going students.

Today's students face a number of challenges on their path to college, from skyrocketing college tuition prices, to needlessly complicated student aid and application processes, to the predatory tactics of student lenders. This conference report will remove these obstacles and reshape our higher education programs in the best interest of students and taxpayers.

To address soaring costs, this legislation will increase the transparency and the accountability of the tuition pricing system, shining a bright light on the prices set by colleges and universities. It requires the Department of Education to create new, user friendly computerized systems in colleges and universities. Shining a bright light on predatory student lender practices allows those with alternative views the opportunity to offer an alternative plan.

Ms. CASTOR. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question was taken; and the yeas and nays were ordered.

Mr. HASTINGS of Washington. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

The SPEAKER pro tempore. Is there any objection to the concurrence of the House in the Senate amendment?

The Speaker recognized the gentleman from California (Mr. GEORGE MILLER). Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself such time as may be required to complete.

Mr. Speaker, I rise today in strong support of the conference report on H.R. 4137, which strengthens and reauthorizes the Higher Education Act. In America, a college degree has always been the ticket to opportunities. More than ever before, our future depends upon our ability to produce well-educated and skilled workers to take the jobs of the 21st century.

Over the past 2 years, this Congress has built a strong record of working in a bipartisan way to make college more affordable and accessible. Last year we enacted the College Cost Reduction and Access Act, which provides for the single largest increase in Federal student aid since the GI Bill.

But we also know that there is still work to do to ensure that the doors of college are truly open to all qualified students who want to attend. The last time the Higher Education Act was authorized was 1998. In those 10 years that have passed, our world and our country have changed, and so have the needs of college-going students.

Today's students face a number of challenges on their path to college, from skyrocketing college tuition prices, to needlessly complicated student aid and application processes, to the predatory tactics of student lenders. This conference report will remove these obstacles and reshape our higher education programs in the best interest of students and taxpayers.

To address soaring costs, this legislation will increase the transparency and the accountability of the tuition pricing system, shining a bright light on the prices set by colleges and universities. It requires the Department of Education to create new, user friendly Web sites with helpful information on college prices and the factors that are driving these tuition increases. Colleges with the largest increases in tuition will be required to report their reasons for raising those prices.

This bill will also ensure that States hold up their end of the bargain in

**CONGRESSIONAL RECORD — HOUSE**

**July 31, 2008**
funding higher education by establishing for the first time a maintenance-of-effort requirement on the States that receive Federal funds through the student loan program. This means while we are putting money back in the top from the federal government, we will stop taking that money out at the bottom and leaving families and students who are borrowing loans to go to college no better off than they were before these actions. This is a dramatic change from the patterns of the past.

To better protect students while navigating the often murky world of college loans, this bill restores trust and accountability to the student loan programs by cleaning up the conflicts of interest between the lenders and the colleges. All Federal and private student lenders will be required to provide full and fair disclosure about the terms and conditions of the loans they offer. And to help borrowers’ reliance on more expensive private loans, we will help ensure that students and families first exhaust the less expensive Federal loan aid options before turning to private loans.

It will also help students manage their loans. It provides students and faculties with complete pricing information before each semester so they can shop around for the most affordable deals. For the first time, textbook publishers will be required to offer less expensive versions of each expensive bundled textbook they sell.

This bicameral compromise also simplifies the Federal student aid application process and provides families with early estimates of their expected financial aid packages to help them better plan for their expenses a year ahead of the time.

In addition, H.R. 1437 will make Pell Grant scholarships available year-round for the first time.

It enhances the TRIO and the GEAR UP college readiness and support programs that are critical to helping so many students stay in school and graduate.

It expands funding for graduate programs at historically Black colleges and universities, Hispanic-serving institutions, and predominantly Black institutions.

It increases college aid and support programs for veterans and military families.

It ensures equal college opportunities and fair learning environments for students with disabilities.

It makes colleges safer for the entire campus community.

It encourages colleges and universities to adopt energy efficient and sustainable practices on their campuses.

I am confident that this legislation will improve the higher education system and make it more affordable, fairer and easier to navigate for students and families. Almost all of these students are borrowing money. Time is money, and time is effort, and we need to make this process more streamlined.
offers real solutions to the college cost crisis.

I thank Members on both sides of the aisle for their commitment to this cause.

I reserve the balance of my time.

Mr. HINOJOSA. I thank the gentleman.

Mr. Speaker, I rise in strong support of the conference report for H.R. 4137, the Higher Education Opportunity Act.

We are near the end of our long journey to reauthorize the Higher Education Act. I would like to personally thank all of the members of the conference committee—especially our leaders, Chairman TED KENNEDY, Chairwoman MIKULSKI, Senator ENZI, Chairman MILLER, Representative McKEON, and Representative RICK KELLER, for their commitment to producing a bipartisan, forward-looking bill that will update our existing higher education programs and address emerging needs.

I thank all the committee staff members in both the majority and minority who worked with great commitment to getting this done. They shared a mindset that told me that they didn’t know it couldn’t be done, “and that is why we did it.”

In the Higher Education Opportunity Act, we are taking significant steps to improve our student aid delivery system, ensure the integrity of our student loan programs, and provide students and families with the tools that they need to make informed choices about which college to attend and how to finance it. These are complex issues, and on a bipartisan, bicameral basis we have come together to offer some practical solutions. We couldn’t have done it if we had not worked together.

I am particularly proud of the provisions that will help our veterans and active duty military have full access to the education benefits that are due to them. The provision to establish veterans’ centers and veteran student support teams on college campuses will help our veterans get the full benefit of the GI bill expansion that we just enacted.

Finally, I would like to highlight the great progress we have made in strengthening minority serving institutions.

The Higher Education Opportunity Act represents real progress for our communities.

In closing, I would like to thank all of my colleagues for helping us reach this point. I hope we can get this legislation, which moves us one step forward, with over 1,100 pages, to the President’s desk as soon as possible.

Mr. Speaker, I rise in strong support of the conference report for H.R. 4137, the Higher Education Opportunity Act.

We are near the end of our long journey to reauthorize the Higher Education Act. I would like to personally thank all of the members of the conference committee—especially our leaders Chairman KENNEDY, Chairwoman MIKULSKI, Senator ENZI, Chairman MILLER, Representative McKEON, and Representative RICK KELLER—for their commitment to producing a bipartisan, forward-looking bill that will update our existing higher education programs and address emerging needs.

This has been an enormous undertaking. The last reauthorization of the Higher Education Act took place during my first term in Congress over 10 years ago.

We began this Congress with a series of hearings focused on the steps we needed to take to improve access and affordability in higher education, and now we are poised by the House Education Opportunity Act.

We asked the higher education community and all of our members to come forward with new ideas. This bill reflects the creativity and innovation that makes a U.S. college education sought after in all parts of the world.

Last fall, we enacted into law the largest increase in Federal student aid since the GI bill with the College Cost Reduction Act.

In the Higher Education Opportunity Act, we are taking significant steps to improve our student aid delivery system, ensure the integrity of our student loan programs, and provide students and families with the tools that they need to make informed choices about which college to attend and how to finance it. These are complex issues, and on a bipartisan, bicameral basis we have come together to offer some practical solutions.

I am particularly proud of the provisions that will help our veterans and active duty military have full access to the education benefits that are due to them. The provision to establish veterans’ centers and veteran student support teams on college campuses will help our veterans get the full benefits of the GI bill expansion that we just enacted.

Finally, I would like to highlight the great progress we have made in strengthening minority serving institutions. With over 40 percent of our public school children being racial or ethnic minorities and nearly half of all minority students attending minority-serving institutions, we are taking some very important steps in this legislation to build our capacity in this critical area. After 10 years of waiting, Hispanic-Serving Institutions will have support for graduate programs. We built on the foundation that we established in the College Cost Reduction and Access Act for Asian and Pacific Islander-serving institutions, predominantly Black Colleges and Universities, tribally-controlled colleges and Historically Black Colleges and Universities. We are addressing the urgent need for teachers and college faculty with an emphasis on building the capacity of minority-serving institutions to meet this need. We will leverage minority-serving institutions to engage more youth in the sciences and technology. The Higher Education Opportunity Act represents real progress for our communities.

In closing, I would like to thank all of my colleagues for helping us reach this point. I hope we can get this legislation to the President’s desk as soon as possible.

Mr. McKEON. I yield now to the subcommittee ranking member, the gentleman from Florida, Mr. RICK KELLER, 4 minutes.

Mr. KELLER. I thank the gentleman for yielding.

Mr. Speaker, as the ranking member on the House Higher Education Subcommittee and a member of the conference committee, I rise today in strong support of the bipartisan Higher Education Opportunity Act, which is the first reauthorization of the Higher Education Act in 10 years.

I support this legislation for three reasons.

First, it allows year-round Pell Grants for students who wish to complete their education more quickly.

Second, it reduces the burdensome red tape on students and families by providing a much shorter, simpler application for Federal student financial aid.

And, third, it includes my legislation to curb wasteful spending by closing a loophole that had allowed convicted sexual predators in America to receive Federal financial aid to take college courses. I am going to limit my remarks today to the wasteful spending issue.

It is a national embarrassment that we are wasting taxpayer dollars for child molesters and rapists to take college courses, while hard-working young people from lower and middle income families are flipping hamburgers to pay for college.

I have been working to close this loophole for years, and today, the most insane, wasteful spending program in America comes to an end. This legislation ensures that taxpayer money for Pell Grants will go to low and middle income families, not dangerous sexual predators. Let me give you a real-life example.

James Sturtz is one of the most violent sexual predators in America and he is currently locked up in a Wisconsin facility. He was convicted and sent to prison for raping a 4-year-old girl. After being released from prison, he raped a woman at knife-point and was sent to prison a second time. After being released, he met a college student and persuaded her to get in his car and then raped her at knifepoint. He was then sent back to prison for a third time; and after his sentence ended in 2006 he was locked up in a civil confinement center, to be held there indefinitely.

Sturtz and seven other locked-up sexual predators decided to exploit this civil confinement loophole and obtained thousands of dollars in Federal Pell Grants to take college courses like...
algebra through the mail. Then, Sturtz and two-thirds of the other inmates dropped their classes and used our taxpayer money to buy blue jeans, music CDs, movie DVDs, radios, television sets, and DVD players. Of course, even if they hadn’t dropped their classes, there is zero evidence that violent sexual predators who take algebra and calculus classes have lower recidivism rates.

How did this loophole happen in the first place? Prison inmates have been ineligible for Pell Grants since 1994. In 20 States, including Florida and Wisconsin, they wisely hold the most violent and repeated sexual predators indefinitely in civil confinement centers, after they have served their regular prison sentence, because they are likely to repeat their crimes if released back into society.

For example, in my home State of Florida, 54 violent sexual predators obtained over $300,000 in Pell Grants at taxpayer expense in 1 year alone. Similar expenditures in the other 20 States with civil confinement means millions of dollars being wasted. Until now.

This was a team effort. I would like to especially thank Ranking Member BUCK MCKEON, Chairman GEORGE MILLER, as well as the other members of the conference committee and our entire hard-working professional staff members for working in a bipartisan spirit to include this provision and so many other worthy provisions in this legislation.

I urge my colleagues on both sides of the aisle to reauthorize the Higher Education Act and vote “yes” on H.R. 4137.

Mr. GEORGE MILLER of California. I yield to the gentleman from Connecticut (Mr. SHAYS) for a unanimous consent request.

(Mr. SHAYS asked and was given permission to revise and extend his remarks.)

Mr. SHAYS. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I rise today in support of the conference report on H.R. 4137, the College Access and Affordability Act.

Higher education is not a luxury. It is a public good.

Today, we have an opportunity to expand college access, increase student aid, and make institutions and lenders more accountable to the students they serve.

I believe quality education is the foundation of our nation’s ability to compete in a global economy.

Unfortunately, the skyrocketing cost of college has created a significant barrier for many students. It is unacceptable that in 2005, the price of college was equal to 71.3 percent of household income for the bottom fifth of the population.

I am especially pleased H.R. 4137 will incrementally increase the maximum Pell award for students to $8,000 in 2014.

Two-thirds of four-year undergraduate students graduate with debt, and the average student loan debt among graduating seniors is $19,237.

I am also grateful this conference report includes an amendment offered by Representa-

live MR. MORAÑO and myself, to study how student debt levels impact a graduate’s decision to enter into a public service career.

In the next ten years, 90 percent of our nation’s federal executives will be over the age of 50 and nearing retirement.

The study reviewed assessment of current recruiting and retaining challenges; an evaluation of existing federal programs and whether additional programs could increase recruitment rates; recommendations for pilot programs that would increase recruitment rates.

The time to recognize and encourage an increased commitment to public service is now. According to the Higher Education Research Institute, two-thirds of the 2005 freshman class at institutions of higher education expressed a desire to serve others, the highest rate in a generation. Furthermore, applications to Teach for America and City Year have increased, and religious missions involving young Americans have increased dramatically.

Congressman MORAÑO and I have also introduced the Public Service Academy Act, modeled after our existing military academies, to create the first national civilian institution of higher education in the United States. The public service academy would provide students a competitive, federally subsidized, public service-driven undergraduate education. In return for 4-year education, students would be required to serve our country for 5 years in the public sector after graduation.

The Public Service Academy would strengthen and protect the United States by creating a corps of well-trained, highly-qualified civilian leaders willing to devote themselves to leadership through patriotic public service.

It is alarming to think, in this period of economic uncertainty, we would be willing to provide anything less than the highest quality education to citizens of our Nation.

Access to higher education is critical to maintaining our global competitiveness.

Mr. GEORGE MILLER of California. I yield 1 minute to the gentlelady from California (Mrs. DAVIS of California). Mr. Speaker, I represent 100,000 college students and eight colleges and universities in the San Diego region, and obviously I am very interested in the provisions in the conference report for College Opportunity and Affordability Act. And I am proud of this agreement for many of the reasons that have been given, but I am proud of it for these reasons also:

It makes servicemembers eligible for more financial aid. It stops student loan interest from piling up when servicemembers are off serving our country. And, it guarantees our men and women in uniform will not use their academic standing when they return. And, also, because it allows students to receive work study payments when they are prevented from working by natural disasters such as we had with the wildfires in the San Diego region.

I want to thank Chairman MILLER, Ranking Member MCKEON, Chairman KENNEDY, and Ranking Member ENZI for their hard work. I urge the adoption of this conference report.

Mr. GEORGE MILLER of California. I would just like to thank the gentlewoman for all of her work on behalf of military families, making sure that they did not pay an additional price for being in the military and lose their eligibility, for her work on that amendment.

Mr. MCKEON. I yield now to the gentleman from Wisconsin, our senior member on the committee, Mr. PETRI, 2 minutes.

Mr. PETRI. I am happy to support the provisions in this conference report that put in place a number of reforms that will improve access to higher education, increase transparency in college costs, and provide more accountability in the Federal student loan programs.

One of my top priorities over the years has been to ensure students access to Federal aid and to provide greater budget responsibility to taxpayers with regard to the management of Federal student aid funds. This legislation incorporates several provisions aimed at protecting students’ financial interests.

Furthermore, I strongly support the sunshine measures that will provide greater transparency about relationships between lenders and schools. I am pleased that the conference report also retains the language that I offered to provide greater fiscal accountability at the Department of Education by requiring a Department of Justice review of any settlement with lenders that exceeds $1 million.

The conference report also contains a critical first step toward the implementation of my Income-Dependent Education Assistance Act which would create a new direct consolidated loan for student borrowers that would be pegged to their income after graduation and collected by the IRS.

It also includes several provisions that Representative GRIJALVA and I first proposed in the House that would establish a strong national effort to improve the accessibility of instructional materials for postsecondary students with visual impairments and other print disabilities.

Though there is that much is positive in this conference report, I am disappointed that we failed to adequately address the problems that currently exist in the accreditation system. For many years I have argued that accreditation fails to protect the public interest because it is costly and intrusive and does not ensure educational quality. I believe the reforms included in this bill will do little to improve the system and may, in fact, have made it even worse.

Again, I want to thank my colleagues for working so hard over the years to reauthorize these important higher education provisions. I urge my colleagues to support today’s conference report and look forward to making further improvements in the future.
Mr. GEORGE MILLER of California. I yield 1 minute to the gentleman from Connecticut (Mr. COURTNEY) who has been so helpful on this legislation, both in teacher education and in community service and the work study programs.

Mr. COURTNEY. Mr. Speaker, from 2001 to 2006, the cost of higher education exploded in this country. It went up 40 percent, destroying the dreams of too many young people and damaging our economy. During that time period, the Congress turned a deaf ear to that issue. The Pell Grant program had been basically frozen, and the interest rates for the Stafford Student Loan Program incredibly was increased.

Last year, under Mr. MILLER's leadership, we passed the College Cost Reduction Act which addressed those two problems. This year we are finally addressing a piece of legislation that was 5 years overdue, the Higher Education Reauthorization Act which, as the prior speaker said, will do many good things in terms of holding colleges and universities accountable for high costs, and also cleaning up unethical lending practices which had cropped up, and many students, so desperateto find access to money, fell victim to.

I urge support for this conference report which, again, has been long overdue for 5 years, and applaud the leadership of Mr. MILLER, Mr. KENNEDY and Mr. HINOJOSA in leading the Congress in a new direction.

Mr. MCKEON. Mr. Speaker, I am happy to yield now to the gentlelady from Washington, a member of the committee, CATHY MCMORRIS RODGERS, 5 minutes.

Mrs. MCMORRIS RODGERS. Mr. Speaker, as someone who is still paying off some student loans, I understand how difficult it is for parents and students as they face dramatic increases in college costs. And as the first in my family to graduate from college, I know firsthand the value and the importance of a good education. It truly is the doorway to success, and is a critical piece to making America more competitive in the global economy.

I am pleased how this bill does aim to improve America's competitiveness. It seeks to make college more affordable, and it cracks down on the fraudulent practice of diploma mills where people manufacture fake diplomas.

Since being elected to Congress I have worked to improve America's competitiveness, and I believe it is important that we are focusing more on math and science education. And through the Mathematics and Science Scholars Program, this legislation will refocus the program to award graduate and postgraduate scholarships to U.S. students studying math, science, engineering or computer science.

In the bill incorporates an adjunct content specialist program, which I think is very important to bringing the real world experience into the classroom, and it provides grants to school districts to recruit adjunct content specialists, these experts in math, science and critical foreign languages.

I believe our education can be improved and successful if we focus on the right things and spend our money where it is most needed. And that is why I am so pleased that policymakers have taken advantage of this opportunity to help our students.

In my eastern Washington district manufacturers turn away job applicants because prospective employees don't have the math skills needed for precision manufacturing. These are good paying jobs, on average, $42,000 a year. And most of them come with good medical and retirement benefits.

All too often, students find themselves unprepared to enter college. As a result, they fall behind their peers and must refocus the program to award graduate and postgraduate scholarships to U.S. students studying math, science, engineering or computer science.

I am pleased that this legislation will benefit Chicago and other places throughout the country. I am especially pleased that the bill strengthens minority-serving institutions, especially Hispanic Institutions and Predominantly Black Institutions, or HBCUs. I am very glad that the bill strengthens the TRIO programs that serve first-generation low-income students, and the prohibition on the Department of Education's Absolute Priority within the Upward Bound program.

At this time I would like to engage in a colloquy with Chairman MILLER.

Mr. GEORGE MILLER of California. If the gentleman would yield, I would be happy to engage in a colloquy with the gentleman from Illinois about section 725.

Mr. DAVIS of Illinois. I yield.

Mr. GEORGE MILLER of California. I concur completely with the gentleman's understanding. The conferees intend that this reauthorization is to strengthen the ability of both the Historically Black Colleges and Universities and Predominantly Black Institutions to develop masters professions. For this reason we intend that any appropriated funds be divided proportionately between the sections 723 and 724.

Mr. DAVIS of Illinois. I thank the chairman of the committee for his clarification and appreciate his and the conferees' commitment to writing the statute to promote unity among the higher education community that serves mostly African American students.

It is an excellent bill. I urge its passage.

Mr. Speaker, it is with great pleasure that I support the passage of the conference report for H.R. 4137, which authorizes the Higher
Education Opportunity Act. This bill reauthorizes the higher education act for the first time in 10 years. I commend full-Committee Chairman GEORGE MILLER and sub-Committee Chairman RUBÉN HINOJOSA for their leadership on this bill. I extend my deepest thanks to the Chairman for his commitment to enhancing minority participation in STEM fields. I applaud his steadfast support on multiple issues that were especially important to me and to institutions serving the Black community. I would be remiss if I did not thank the Education and Labor staff who so skillfully advocated to establish so many wonderful programs that will improve higher education opportunities. There are multiple provisions of this bill that will benefit Chicago and Illinois. To begin, this bill greatly expands access to higher education for low-income and minority students. By increasing Pell grants to $8,000, extending the grants to year-round, and allowing part-time students to qualify for Pell grants, this bill will enable many more of my constituents to attend college.

I am especially pleased that the bill authorizes programs for both undergraduate and masters programs at Predominantly Black Institutions. PBIs represent a growing cadre of four-year and two-year institutions that serve as the primary source of educational preparation for college and family finances present special challenges to educational success. PBIs are not eligible to receive funding under the HBCU capacity-building funds given that PBIs were not established prior to 1964. The undergraduate PBI program will provide federal support to strengthen the institutional capacity of schools to attract, retain, and graduate their students. Chicago has many PBIs that provide high quality education for many low-income, minority students, including: Chicago State University, Malcolm X College, Harold Washington College, Olive-Harvey College, Kennedy King College, Eastern Illinois University, Robert Morris College, and South Suburban College. In addition, the new PBI masters program promotes the development of more Black masters-level professionals in the science and health fields by providing specific institutional support. For example, Chicago State University will qualify for valuable aid to strengthen its masters programs in the fields of science as well as strengthen its first professional program in pharmaceutical science. Together, these new PBI programs will enhance the access for low-income African American students to higher education.

I also am pleased that the bill strengthens both HBCU undergraduate and graduate education. As a graduate of an HBCU, I am very familiar with the benefits these institutions provide to low-income students. The new masters program for HBCUs in Title VII fills a void in current law. Title III, Part B includes institutional support for undergraduate education at HBCUs. Title II provides institutional support for doctoral and first professional programs at HBCUs. The new Section 723 completes this continuum by supporting HBCUs with masters programs in the fields of science and health as well as clarifies the congressional intent that the existing Section 326 pertains to doctoral and first professional programs.

Further, the bill strengthens the TRIO programs, which are key supports for low-income, first-generation college students to prepare and succeed in higher education. Importantly, the bill institutes an appeals process when applicants have evidence of errors in the handling or scoring of the applications. A number of Chicago institutions unfortunately have had difficulties in the last few years with denial of applications for suspect reasons and due to data entry errors. The TRIO program, having a procedure in place to allow due process for these applicants is an important element to ensuring a fair application process. Further, the bill prohibits the implementation of the absolute priority that the Department imposed on the Upward Bound program, forcing programs to dramatically alter the nature of the services provided. I am happy that any future evaluations of Upward Bound will exclude the cohorts of students chosen under this well-intentioned but ill-conceived priority.

Chicago also has many for-profit institutions of higher education that serve an important role in educating students. I am glad that the Conference Report includes additional flexibility for these institutions in terms of the 90/10 rule, including flexibility in the types of revenue that count toward the 10 percent, the Departmental response to violations of the rule, and exceeding loan limits as a result of excessive enrollments of Education Department Accepted Students to Student Loans Act. Further, I support the increased monitoring and reporting requirements for for-profit institutions as a means to provide transparency and safeguards for students.

I am happy that the bill emphasizes the need to support populations that are underrepresented in higher education. One such population about which I am particularly concerned is African American men. The under-representation of minority males, especially African American men, is a matter of public record that is reinforced by high drop-out rates in urban and rural school districts, lower participation/enrollment rates, and lower graduation rates. Minority males received a combination of associate’s, bachelor’s, or master’s degrees. Clearly, ensuring success of students in higher education necessitates examining and promoting the success of minority males. To this end, the Conference Report includes a study of minority male access to and success in higher education that will provide key data to lawmakers so that we can better tailor our policies to promote minority men in higher education. The bill also encourages the involvement of individuals—such as African American men—who are from populations underrepresented in higher education, including teacher residency programs, in teacher preparation courses at minority serving institutions, and in loan forgiveness programs. These provisions will help ensure that the higher education community better reflects the diversity of our Nation.

Another population about which I am particularly concerned is individuals in prison. After Congress barred prisoners from receiving Pell grants in 1994, provision of postsecondary correctional education dropped greatly. Multiple empirical studies demonstrate that postsecondary correctional education improves the atmosphere in prisons, increases successful reentry, increases employment after release, and decreases criminal behavior. For example, studies show that such education helps improve communication among correctional staff and inmates, develop positive peer role models, and reduce disciplinary infractions. Further, multiple studies show that postsecondary education saves taxpayers’ money. In 2001, government analysts in Maryland calculated that such programs saved state taxpayers more than $24 million annually, more than two times what the state spent on such programs. Given that the average annual cost of incarceration is more than $22,000 per prisoner and that more than half of formerly-incarcerated people return to prison with 3 years, providing higher education within prisons promises to be a cost-effective investment of taxpayer dollars.

Currently, only approximately 5 percent of the total prison population is enrolled in postsecondary education. Current Federal postsecondary correctional grants target youth, resulting in a great need for such programs for adults. The Conference report expands higher education opportunities by allowing greater flexibility to states to study while in prison. These provisions will allow greater flexibility to states to identify and serve individual inmates who are best able to benefit from postsecondary correctional education. In addition, the bill authorizes a study on the effectiveness of postsecondary correctional education. This study will greatly advance our understanding of what makes programs effective in educating individuals and reducing post release offending.

Further, I am pleased that the bill takes steps to ease the financial burden on low-income students with drug convictions. There are multiple problems with a one-size-fits-all penalty based on financial aid. It inappropriately uses the financial aid application process to apply a mandatory minimum sentence above and beyond what the judicial system has imposed for a restricted group of students. As given that the penalty applies only to students receiving Federal aid who must maintain a C average or higher, the current provision unfairly denies aid only to low-income, high-performing students. The Conference report makes it easier for students who lose aid to re-qualify for Federal aid after it is removed. The report also requires an important study of who is denied Federal aid so that lawmakers can better understand whether this policy penalizes particular categories of students compared to others. As the Committee on Education and Labor’s Report indicated, the study will examine the demographic background of those affected by the federal drug prohibition as well as the nature of the offenses underlying the exclusion. The variables for study are clearly enumerated in the Committee Report.
Mr. CASTLE. Speaker, I thank you for your kind words. I also want to thank the Chairman, Ranking Member, and hardworking staff for their professionalism and their understanding of the emergency that had anything to do with putting this together.

Mr. GEORGE MILLER of California. I yield 1 minute to the gentlewoman from California (Ms. WOOLSEY) who, again, was so helpful in the business partnership agreements.

Ms. WOOLSEY. Mr. Speaker, I am particularly pleased to have had an opportunity in this bill to honor my friend and mentor, the late Congresswoman Patsy Mink, who, during her lifetime, was a leader on guaranteeing equality for all by creating Patsy T. Mink Fellowships.

While we have made great strides in providing educational opportunities for women and minorities, far too few are becoming professors. The Mink Fellowships will be used to encourage women and minorities to become professors in fields where they are underrepresented.

In addition to providing more diversity and opportunity in graduate programs, we recognize the need for more opportunities to attain certificates and degrees in high-wage, high-skilled jobs. This bill helps colleges partner with local businesses to create “for-credit” classes focused on the skills and certificates needed for high-wage jobs in the local community.

Also, many of our Nation’s students enter college needing remedial education classes. Far too many get stuck taking those classes, never graduates. This bill fixes that. Let’s pass it.

Mr. MCKEON. Might I inquire how much time both sides have.

The SPEAKER pro tempore. The gentleman from California (Mr. CASTLE) has 13 minutes remaining. The gentleman from California (Mr. MCKEON) has 17 minutes remaining.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Mrs. MCCA Henry McHenry Mccarty) who’s been a champion on campus safety during this legislation.

Mrs. MCCA Henry McHenry Mccarty of New York. Mr. Speaker, I rise in support of the conference report to the Higher Education Opportunity Act, H.R. 4137.

First, let me start out by thanking Chairman MILLER and Ranking Member MCKEON. I also want to thank the staff for their professionalism and their hard work. And I want to get on the record that this bill to where it is, and my own staff, Kim Becknell and Phil Putter.

The passage of this bill will help millions of Americans make the dream of a college education a reality. In particular, I’m proud to see that many of my provisions are in the bill, including student loan forgiveness for nursing students; incentives for nurses to become instructors, helping to end our nursing shortage; tuition forgiveness for teachers working in New York’s BOCES schools; making career and professional schools more affordable; expanding the availability of guaranteed student loans or Stafford loans to more nursing and professional schools; expanding the Graduate Assistance Areas of National Need Program, and expanding Project GRAD USA; also monitoring our Nation’s most expensive schools’ tuition rates and offering students and families a tool for an educational loan, was won.

Mr. Speaker, I rise in support of the conference report to the Higher Education Opportunity Act, H.R. 4137.

Let me first start out by thanking the Chairman, Ranking Member, and hardworking staff on the Committee on Education and Labor for their efforts and professionalism in passing one of the most comprehensive education bills in years.

The passage of this bill will help millions of Americans make the dream of a college education a reality.

In particular, I am proud to see that many of my provisions are in the bill including:

- Student loan forgiveness for nursing students;
- Incentives for nurses to become instructors, helping to end our Nation’s nursing shortage; tuition forgiveness for teachers working in New York’s BOCES schools;
- Making career and professional schools more affordable;
- Expanding the availability of Guaranteed Student Loans or Stafford Loans to more nursing and professional schools;
- Ensuring that degrees earned from rabbinical schools will continue to be recognized as the equivalent of bachelor’s degrees;
- Expanding the Graduate Assistance in Areas of National Need program;
- Expanding Project GRAD USA;
- Monitoring our Nation’s most expensive schools’ tuition rates and offering students and families a tool to estimate increased costs over the course of a college education;
- Studying the ability of teachers to meet the needs of students with dyslexia.

I am especially pleased that the bill addresses the need for colleges and universities to have policies in place to immediately warn their campus communities when a serious crime or other emergency threatens the safety of students or employees on campus.

These provisions are similar to those in my “Virginia Tech Victims Campus Emergency Response Policy and Notification Act” or VTV Act, H.R. 5735. The tragic events of April 16, 2007, on the campus of Virginia Tech, reminded us that horrific incidents can happen anywhere and that we must be prepared.

The addition of an emergency notification provision to the Jeanne Clery Act will help ensure that students and employees are empowered with information about potential significant threats to their safety such as an unknown shooting suspect at large or an impending natural disaster.

Because emergencies can escalate or spread quickly it is vital that emergency notification guidelines be in place. The three provisions appropriately provide that warnings must occur “immediately . . . upon confirmation” of a threat.
Minutes can mean the difference between life and death.

Using both high and low tech means, many institutions across the country, including Florida Atlantic University, Ferrum College and Northern Illinois University, have already adopted and improved on issuing campus-wide emergency notifications in less than 30 minutes after an incident has occurred.

These provisions will be a very fitting living memorial to the innocent victims of April 16, 2007, and their family members who have sought to have something positive come out of that dark day. The Virginia Tech Victims Family group members have been tireless advocates for safer campuses and their devotion has helped make these provisions a reality. I would ask that the victims' names be included at an appropriate place in the RECORD.

I would also like to thank Catherine Bath, Jonathan Kassa and S. Daniel Carter of the nonprofit organization Security On Campus, Inc., SOC, for their leadership on and help with these issues. Founded in 1987 by Connie Cleary of Michigan, SOC today advocates for safer campuses and victims' rights on campus.

To honor the memory of the lives that were lost as a result of the incident at Virginia Tech, I humbly submit the following names in the CONGRESSIONAL RECORD:

Abdallah Alameddine, Christopher James Bishop, Brian Roy Bluhm, Ryan Christopher Clark, Austin Michelle Cloyd, Jocelyne Couture, Norah P. Granata, and Matthew Gregory Gwaltney.

Caitlin Millar Hammaren, Jeremy Michael Herbstritt, Rachael Elizabeth Hill, Emily Jane Hilscher, Jarrett Lee Lane, Matthew Joseph La Couture-Nowak, Kevin P. Granata, and Christopher Clark, Austin Michelle Cloyd, Jocelyne Couture, Norah P. Granata, and Matthew Gregory Gwaltney.

Gentleman from Massachusetts (Mr. GEORGE MILLER of California).

I yield 1 minute to the gentleman from New Jersey (Mr. HOLT) and thank him for all of his work on the foreign language partnerships and the creation of the deputy assistant secretary.

Mr. HOLT. Mr. Speaker, I would like to join the others in commending Chairman MILLER and Mr. MCKEON and allow me to point out some of the good provisions that are in this bill that I have worked on.

It allows Pell Grants to be used year round and by part-time students. It empowers community colleges to provide childcare programs so that working mothers can attend school. It has grants and loan forgiveness for math, science, and foreign language students who pledge to work in those areas after graduation.

As the chairman just said, it creates a deputy assistant secretary for international and foreign language education. It directs the National Institutes of Health to study the shortage of nursing faculty, which is one of the principal reasons for the shortage of nurses in America.

It provides funding to institutions of higher education that encourage science and engineering students to develop foreign language proficiency. It creates a scholarship database of financial assistance for post-secondary and graduate programs in science, technology, mathematics and engineering.

There are many other good features in this bill, and I, again, commend those who put it together. And I urge my colleagues to support it.

Mr. GEORGE MILLER of California.

Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. ALTMIERE) and thank him for his work on the business workforce partnerships and on the textbook rental program.

Mr. ALTMIERE. Mr. Speaker, this bill is the next step in our efforts to make college more affordable and accessible for American families. I would like to take a moment to highlight four of the provisions I included in this bill.

This bill encourages colleges and employers to join together to form business workforce partnerships that will help graduating students find jobs and provide local businesses the skilled workers they need. It also provides minority-serving institutions with the resources to help them recruit and prepare the teachers of tomorrow and improve the diversity of our Nation’s workforce.

Additionally, my language added to this bill forgives the student loans of teachers who are permanently disabled by the VA.

And finally, the conference report includes an amendment that I offered along with Congressman TIM RYAN to establish textbook rental programs to help students save money.

This conference report is a significant improvement to our higher education system, and I am proud to have been a part of the conference committee that reported this bill.

Mr. McKEON. Mr. Speaker, I am happy to yield now to the gentleman from Indiana (Mr. SOUDER), a member of the conference committee, for his remarks.

Mr. SOUDER. I thank Ranking Member McKEON for his leadership and yielding the time, and I also want to thank Chairman MILLER for working with us to develop a bipartisan bill.

I urge a lot about the controversialities between the parties and the partisanship, but here is a huge piece of legislation that we were able to work through in a basically unanimous way between the House and even the Senate.

I want to talk about a few amendments that I worked with. In fact, there was controversy on each one of these things, but we were able to come to reconciliation.

One is GEAR UP, which is widely supported, and my good friend, CHAKA FATTAH, developed this concept. I was an original cosponsor. We moved it with a Democratic President and a Republican Congress, with a Republican President sustained the program, and now a Democratic Congress with a Republican President. But in that we've made some significant changes that allow GEAR UP to put a 2–1 match for scholarship money because one of the intentions of this was to get actual cash to help students get to college who were low-income, and we wanted to give them a commitment in junior high school, that is what we will do. And this will help balance that back more to cash to those students.

It also allows them to work with the first year of college and to connect with TRIO and others and not just get them in.

In the Drug-Free Student Loan provision, which has been much aligned by pro-drug groups around the country, we've clarified the Department of Education's confusion on how best to implement this plus added a warning that the universities and colleges are to tell the students that they're at risk of losing their loan if they've been convicted of a
drug crime. They can get it back with a drug test. They can get it back the third time. You can go to college but not at taxpayer expense.

We also had an amendment dealing with for-profits’ cohort default rates. One of the unintended consequences if you make it too difficult for how many students don’t graduate, that for-profit schools would have stopped seeking minority, low-income students, or any subgroup that shows any risk of more defaults of student loans. And we would’ve had the unintended consequences if we didn’t delay the implementation of the 3-year averaging, which we also worked to get, and I appreciate the chairman working with this because this is very important in many of these for-profit technical schools or others that are serving higher need, less historically graduating percentages. Our goal with GEAR UP, with TRIO, and others is to increase those percentages, but you don’t want to purge the colleges that reach out.

We also changed in distance education. We made it easier for basically Internet universities or colleges and universities that use that to get accreditation because if you chose the accreditation, you will cut off the expansion and the accessibility. And this is very important for many colleges and universities.

Lastly, I had an amendment in committee that was defeated, but Senator Greggs proposed it in the Senate, and this is the Academic Bill of Rights. I’m pleased that not only it passed the Senate but that the House in effect receded on the Teach to Reach grants and the many years, and I’m pleased this is in the bill, too.

I want to thank Chairman MILLER for his work and Ranking Member MCKEON.

Mr. GEORGE M miller of California. Mr. Speaker, I yield 1 minute to the gentleman from Kentucky (Mr. YARMUTH) and thank him for his work on the Teach to Reach grants and the students success grants for community college students.

Mr. YARMUTH. Mr. Speaker, I rise today in strong support of the College Opportunity and Affordability Act, and I want to thank you, Chairman MIL ler, and the Senate committee chairs for drafting a bill that will help millions of Americans go to college and graduate without the fear of debt. I’m proud to have introduced a number of this bill’s provisions that will help to ensure every American has a world-class education. Our Nation’s teachers confront a multitude of challenges, and if we aren’t providing them with the tools to succeed, we’re failing them and their students.

This legislation authorizes grants to train general education teachers to work with students who have autism and other disabilities, to make sure educators learn the best techniques to help kids read at grade level and student success grants that will help students stay in college to complete their degrees and succeed in the workplace. The revolutionizing Education Through Digital Investment Act will better engage young students by greatly expanding the ways technology is utilized in the classroom. There is a greater way to impact the future of our country than by ensuring that all of our children receive the highest quality education. I therefore urge my colleagues to join me in enacting this critically important legislation.

Mr. MCKEON. Mr. Speaker, could I inquire how much time we have left.

The SPEAKER pro tempore (Mr. HOLDEN). The gentleman from California (Mr. MCKEON) has 1 minutes remaining.

Mr. MCKEON. I would be happy to yield at this time to the gentleman from Pennsylvania (Mr. TIM MURPHY) for 3 minutes.

Mr. TIM MURPHY of Pennsylvania. Mr. Speaker, I thank the chairman and ranking member for the College Opportunity and Affordability Act, which I’m here to offer my strong support, and I thank Chairman MILLER and Committee on Education and Labor for the language for my bill, H.R. 2220, the Mental Health Security for America’s Families in Education Act, was included in the legislation.

This language directs the Secretary of Education to clarify how and when schools can communicate with the parent if a student demonstrates that they pose a significant risk of suicide, homicide, or assault. Schools acting in good faith by communicating with parents would also be protected from liability. The current Family Education Rights and Privacy Act passed in 1974 was originally passed to protect the confidentiality of student records. However, it’s a confusing array of regulations meant to notify parents but often stands in the way as schools are more prone to call an attorney to get clarification than they are to call parents.

As a child psychologist, I understand the importance of confidentiality, but there are times that it may be in the best interest of the student to inform those who can provide the necessary help to protect them and others. Parents are in the best position to help students suffering from mental illness by providing emotional support medical history, coordinating care with various mental health professionals, and long-term follow up. Parents will be around long after the school is gone. Behind a law like this there are stories of beautiful lives tragically stopped in their youth. Children like Stephanie Cady from North Franklin Township who was a junior at Elizabeth town College until she withdrew for medical reasons. According to her parents, she was struggling with depression and paranoia during her sophomore year. Her friends persuaded her to get help, but her parents were never told that she was taking medication until just this past Christmas. Unfortunately, the right combination of help from her parents and therapists came too late and, sadly, she took her own life in April of 2006.

Charles Mahoney from Burgetts town took his own life while in school at Allegheny College in Pennsylvania.

And since the passing of their children, the Mahones and the Cadys have advocated for change to existing laws so the parents can help before it is too late.

Families know the privacy laws that prevent schools from sharing information with parents have to be changed so the parents can get involved to help with the children that they love. Our shared hope is that through the important change of law, their actions will prevent other parents from suffering the same losses, and their children’s lives can be remembered at least in saving the lives of others.

This bill we are dealing with today is taking an important step in saving those lives, and I want to thank Chairman MILLER and Ranking Member MCKEON for their support of this critically important and life-saving proviso that will prevent other tragedies like this and Virginia Tech happening again in the future.

Mr. GEORGE M miller of California. Mr. Speaker, I yield 1 minute to the gentleman from Arizona (Mr. GRIJALVA) and I want to thank him for his work on the cohort default rate and on the year-round Pell Grant.

Mr. GRIJALVA. Thank you, Chairman MILLER, for your work on this very, very important piece of legislation, the first time in a decade Congress is going to pass a Higher Education Act. I’m happy to support this long past due improvement to higher education.

This legislation is about inclusion and not exclusion. This bill simplifies the means by which students and families can research colleges, apply for help, and gather information to aid in the important decisions we all must make.

It expands access and support for poor students and students of color through changes to Pell Grants and improvements to TRIO and GEAR UP, additional support for students who have with disabilities, additional support for veterans and their families.

This piece of legislation is a hallmark of the work of this Congress and this legislation. I’m proud to be on the committee and proud to serve in the development of this legislation.

Mr. Speaker, today, for the first time in a decade, Congress will pass a higher education act, and I am happy to support the long past due improvements to higher education that will be made in this bill.

This Higher Education Opportunity Act demonstrates a commitment by this Congress to inclusion. The bill simplifies the means by
which students and families can research colleges, apply for student aid and gather information to aid in the important decision making process.

It expands access and support for poor students and students of color through changes to Pell Grants and scholarships to TRIO and GEAR UP, making college accessible to first-generation students and those who are most likely to be expenses out of college. It offers expanded support for veterans and their families to honor their continued sacrifice by creating and identifying to TRIO and establishing education support centers and other services to aid in access to education.

It establishes more opportunities for students with disabilities to gain equal access to college by offering national centers of support, aiding colleges in recruitment and retention of students with disabilities, and expands Pell Grant eligibility. Additionally, one of my priorities will create model demonstration programs to improve the access to quality materials for students with print disabilities. It will also create a commission to consider ways to better distribute these materials.

The rising cost of a college education means that students now more than ever must be informed about their decisions as they relate to living expenses and borrowing for education. This bill will add a number of mechanisms for making these decisions, including a provision I worked hard to add that will improve the way cohort default rates are calculated. These changes, though more modest than I had hoped, will encourage schools and lenders to provide better financial literacy to students and college.

The Higher Education Opportunity Act marks a significant improvement in our national commitment to inclusive access to higher education and expresses our continued efforts to make college more affordable and accessible.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 1 minute to the gentlewoman from New Hampshire (Ms. SHEA-PORTER) and thank her for all her work on the TRIO program. It is so important also to get kids to college and to stay in college.

Ms. SHEA-PORTER. Thank you. Mr. Speaker, I rise to express my strong support for the conference report on H.R. 4137, the Higher Education Opportunity Act. I am a proud cosponsor of this legislation; and I thank Chairman MILLER, Ranking Member MCKEON, and the conference.

I want to highlight two achievements of particular importance to my constituents.

The first is a provision that broadens the discretion afforded to school financial aid administrators. It allows them to take into account expenses incurred by families who are caring for an adult dependent when calculating a student’s financial aid package. This sounds like a minor technical change, but it is not. A constituent of mine shared a very personal story about her family’s struggle to make ends meet while caring for their eldest child, who is a disabled adult, and also trying to send their youngest to college. In determining whether this family qualified for financial aid, an administrator could not take this situation into consideration. With the provision included in this bill, they now can.

We have also taken great steps in this legislation to ensure the continued success of the Upward Bound Program. This plays a very important role in my district helping first-generation and low-income high school students achieve their dreams of college education. These programs have faced challenges over the past year. I am proud we have been able to resolve these issues.

We have simplified the FAFSA form and done many other steps. I thank you for your efforts.

Mr. GEORGE MILLER of California. How much time is remaining, might I inquire of the Chair.

The SPEAKER pro tempore. The gentleman from California (Mr. GEORGE MILLER) has 10 minutes remaining. The gentleman from Pennsylvania (Mr. MCKEON) has 7/2 minutes remaining.

Mr. MCKEON. Mr. Speaker, I would be happy to yield at this time to my good friend from across the aisle, a former member of the committee, the gentleman from Pennsylvania (Mr. FATTAH).

(Mr. FATTAH asked and was given permission to revise and extend his remarks.)

Mr. FATTAH. Thank you.

In 1997, when we created GEAR UP in this legislation, it was an idea. Today, after 10 years, some 2 million young people later, it stands as the largest early college awareness program in our country’s history in States and in many of our territories. It has been an extraordinary success. Eighty-five percent of the young people graduated from high school, 64 percent going on to college.

I want to thank Chairman MILLER and the ranking member, BUCK MCKEON, RUBEN HINOJOSA and MARK SOUDER and the committee for tweaking GEAR UP in a very positive way, taking the language from the GEAR UP and Go Act that I introduced, adding a seventh year to focus on that entry into college and retention issues and also allowing dual and concurrent enrollment, along with a number of anti-dropout prevention efforts at the community college and high school level.

I want to thank the committee. This is a great bill overall, and GEAR UP is wonderful. But the increase in Pell, the simplification of the FAFSA form, there is a lot that could be said. This is a historic piece of legislation, and I thank you for the time.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 1 minute to the gentleman from Illinois (Mr. HABIB), and I want to thank him for his work on dislocated workers and on the rural communities.

Mr. HABIB. I thank the Chairman.

Mr. Speaker, I rise today in strong support of the College Opportunity and Affordability Act conference report.

The conference report includes the College and University Rural Education Act, which I introduced with Representatives LOEBSACK and ZACK SPACE. This measure will stop the brain drain and create opportunities in rural America by increasing enrollment of rural high school graduates in institutions of higher education; creating employment pipelines; and providing training for professions of need in rural areas.

Today’s bill also includes a provision I developed with Mr. LOEBSACK to prepare individuals to serve as administrators and principals in rural areas. School leadership is key to student achievement, and rural America experiences a huge deficit in this area.

I included a measure to help dislocated workers by informing them of their right to an alternative income calculation when applying for financial aid. This will ensure that workers who lost their jobs have access to retraining opportunities.

This conference report builds upon the work we started in the College Cost Reduction Act. I commend Ranking Member MCKEON and my chairman, Chairman MILLER, and urge all my colleagues to support the conference report.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 1 minute to the gentleman from Virginia (Mr. SCOTT) and thank him for all of his work on the Historically Black Colleges and Universities and on the modeling and simulation program.

Mr. SCOTT of Virginia. Mr. Speaker, I would like to thank and commend Chairman MILLER, Ranking Member MCKEON, Chairman HINOJOSA, and Ranking Member KELLER for their hard work on this bill.

This bill contains many important provisions that will make college more affordable for our students, particularly the Pell Grant and loan forgiveness provisions.

It has many provisions helpful to institutions of higher learning, especially Historically Black Colleges and Universities which have been funded for new master’s programs at Historically Black Colleges and Universities and Predominantly Black Institutions.

It also, as the Chairman has indicated, has a new program to help the rapidly growing field of modeling and simulation.

Mr. Speaker, there is new language in the bill dealing with revalidation of colleges, and it is important to explicitly note that this new language does not adversely affect or change anti-discrimination provisions.

The bill also contains a direction to the Department of Education to reword the financial aid application to make it clear that students can get financial aid, even if they have a drug offense.

We have worked long and hard on this bill, and for the foregoing reasons, Mr. Speaker, I urge my colleagues to support the bill.

Mr. Speaker, it has been ten years since the Higher Education Act has been reauthorized and I am pleased that we will now make many
needed updates to this law. I would like to commend Chairman Miller, Ranking Member McCaul, Chairman Hinojosa, and Ranking Member Keller for their work on this bill. I would also like to thank the Chairman and Ranking Member of the Senate’s Health, Education, Labor & Pensions Committee, Senators Kennedy and Enzi. Additionally, I would like to express my gratitude to Senator Mikulski for all her efforts in Senator Kennedy’s absence. I would also like to thank the House and Senate Committees’ staff; we could not have reached this point without your hard work and dedication.

This bill contains many important provisions that will help make a college education more affordable for student and their families. I am particularly pleased with the increase in the authorization of the Pell grant and the loan forgiveness provision that will aid students who give back to their community if they enter a profession in an area of national need, including mental health professionals and child welfare workers.

The legislation also specifically assists minority students in several ways. For example, it contains a provision to promote cultural diversity in the entertainment media industry. It will also require that a study be conducted on whether race, ethnicity, or gender biases exist in the design of standardized admission tests used by higher education institutions. The information collected for the study is intended to be made available to the public—except in cases where the information showing good cause or in the case where the information is proprietary—so that such biases are found we can work to correct them.

The bill requires the Department of Education to conform hate crime reporting requirements to FBI guidelines to more accurately report incidents of hate crimes on our campuses. This will result in consistent and accurate reporting of crimes against persons and crimes against property. In addition, improved data will give parents and students a more accurate sense of campus safety and education institutions a better picture of their campus climate.

The legislation also contains many provisions helpful to institutions of higher education. The Secretary will now be required to develop and maintain a plan to help schools cope with natural and man-made disasters. The bill also creates an Education Disaster and Emergency Relief Loan Program to provide emergency loan funds to schools after a federal declared major disaster or emergency, including those schools affected by the 2005 Gulf Hurricanes. Additionally, the bill includes a provision which significantly helps schools affected by Hurricanes Katrina and Rita. Recognizing them as religious missions, reflects Congress’ belief that accredited institutions should be allowed to choose their own missions rather than having them imposed or regulated by accrediting bodies. In response to concerns raised by Representatives Robert C. Scott (D–VA) and Ruben Hinojosa (D–TX) about whether the individual autonomy of accreditors to enforce nondiscrimination provisions, the author of the amendment, Representative Timothy Walberg (R–MI), explained that the provision would not affect nondiscrimination provisions and instead would require accreditors to respect the missions of schools, including when the missions are religious.

"It is the intent of the Committee that this amendment does not change or alter current accreditation requirements, and the exemptions included in those requirements, for training professionals in the practice of medicine and other health care professions."

Similarly, the Senate report that accompanies S. 1642 (the companion bill to H.R. 4137) filed by the Senate Committee on Health, Education, Labor & Pensions on November 15, 2007 (Report No. 110–231) confirms this position. The Senate report states in relevant part:

"Accrediting agencies or associations recognized by the Department are invested with a public trust and perform an important public function. Congress expects that those receiving Department recognition will perform those functions with the same diligence and competence as would be provided by any public body and that their proceedings will be conducted with the same level of transparency, due process, and accountability that would apply to the Department if it performed this function itself.

"The new language requiring accrediting agencies or associations to apply and enforce their standards in a manner that respects the missions of institutions of higher education, including religious missions, reflects these goals. It is not intended to allow an institution to deny a person participation in, the benefits of, or to subject a person to discrimination under any program or activity receiving Federal financial assistance under existing laws, including those with respect to race, color, religion, sex, national origin, age, or disability; or because the person has not complied with a standard of the institution that requires the person to discriminate on the basis of race, color, religion, sex, national origin, age, or disability."

Mr. Speaker, I would also like to highlight a provision included in the Managers to the Conference which I feel is extremely important. Currently, the Free Application for Federal Student Aid (FAFSA) is written in a way that misleads many students to believe that if they have been convicted of a drug offense, they do not qualify for financial aid. In the Statement of Managers, Conferences encourage the Department to reword the FAFSA to more accurately reflect the ways in which students who have been convicted of drug offenses can obtain financial aid.

Mr. Speaker, I yield myself such time as I may consume. The Higher Education Opportunity Act is truly a bipartisan achievement, reflecting major priorities of both parties, as you can see from the debate. In recognition of that fact, I would like to take just a moment to touch on some of the provisions that Members on both sides of the aisle were able to secure in this bill.

This bill includes meaningful steps to address the college cost crisis. I have been fighting this battle for years, and the steps in this bill are a discrimination for students and their families.

We have ensured that this bill increases accountability through the
power of sunshine and transparency. H.R. 4137 will put quality information in the hands of students and parents to help them make more informed decisions when choosing their path for obtaining a higher education.

This conference report protects student privacy by prohibiting the development of a Federal unit record system. Republicans believe students should not be forced to relinquish their privacy just because they wish to pursue post-secondary education.

The bill includes numerous reforms to strengthen Pell Grants for low-income students. The bill now prohibits Pell Grants from being provided to sex offenders that remain involuntarily confined by closing a loophole that allowed these individuals, deemed so dangerous that they cannot be released after completing their incarceration, to receive taxpayer-funded Pell Grants to pursue higher education. The bill also includes a sensible funding limitation to ensure that taxpayers are not being stretched thin as more students and students are making progress toward completing their degrees.

This conference report also includes a proposal to make transfer of credit policies public so students can plan ahead and avoid wasting time and money. It encourages States to develop and improve articulation agreements to make credit transfer easier among institutions within a State and across State lines.

Republicans have worked with our colleagues on the other side of the aisle in a true bipartisan spirit to make higher education more accessible and affordable. Republicans believe students should not be discriminated against on college campuses because of their political or ideological views, and that’s why we fought to ensure the college conference report would include an Academic Bill of Rights.

The bill also protects local control and prevents Federal meddling in curricula in programs under the Higher Education Act, including teacher training programs and within academic competitiveness grants.

Finally, in a time of war, we all recognize that our higher education system must be flexible enough to meet the unique needs of student-soldiers. The bill includes numerous proposals to improve higher education opportunities for members of the Armed Forces, including changes to allow greater participation in college across grants and improvements to the way financial aid is calculated for military personnel.

The bill also creates a Web site to make it easier for veterans and members of the military to find information on financial aid opportunities available to them, and it requires States to provide in-state tuition rates to members of the military, their spouses, and their dependents.

These are just a few of the many reforms that were important to members of the committee during this process. I want to thank Chairman MILLER again for working with me to ensure this bill is the best it can be. I want to thank my colleagues to join me in voting yes on this bill that contains so many important provisions.

I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, Members of the House, families across America and students everywhere, it is a pleasure to yield 1 minute to the gentleman from Illinois, who revolutionized and changed the equation, to take it down to two pages, 44 questions, for kids to go to college, for the GI Bill for kids to go to graduate school. This is the most important investment that parents who were trying to make sure that their kids had a shot at the American Dream don’t have the government stepping in the way and preventing that.

This new legislation is going to take the burden off of America’s families and students from this day forward.

Mr. EMANUEL. When I was campaigning, I met a firefighter, Pat Kehoe, who told me about the night before he and his wife were trying to fill out the form for their only child to go to college. He talked about it was 108 questions, how complicated it was.

If you can fill this out, forget college; go to graduate school. This is the most complicated form out there for kids just trying to go to college.

This new legislation is going to take that 108 questions, those eight pages, take it down to two pages, 44 questions, and take it from bureaucratic language down to consumer-friendly language.

It’s high time that parents who were trying to make sure that their kids had a shot at the American Dream don’t have the government stepping in the way and preventing that.

I yield to the chairman.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GEORGE MILLER of California. I yield the gentleman an additional 30 seconds.

Mr. EMANUEL. This legislation goes from protecting colleges to empowering college students, and this Congress will be remembered because of the chairman being the most friendly to college students and those families, for going to $20 billion in additional aid for college, for the GI Bill, which is new, and now this legislation.

And I thank the chairman for his work, as well as the ranking member, for making sure that families across America who are trying to send their kids to college no longer have to jump through hoops every year filling out a form that was more friendly to the bureaucracy than it was to their family and their children.

Mr. GEORGE MILLER of Oregon. Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. BLUMENAUER) and I want to thank him for his work on the sustainability program and creating a summit on sustainability in colleges and universities.

Mr. BLUMENAUER. I appreciate the gentleman’s courtesy in permitting me to speak on this measure and for the hard work that the chairman and the ranking member have done. This is truly a landmark reauthorization. We’re all pleased to see it come forward.

The major challenge of this century is literally the future of the planet, global warming, sustainable development, an energy short, carbon-constrained world.

To help us cope, this higher education reauthorization incorporates the provision of our Higher Education Sustainability Act. Inspired by the late Debi Murdock from Portland State University, it will fund programs in our colleges and universities for research, for training of students, for sustainability practices on campus.

It also does direct the Secretary of Education to convene a sustainability summit to be able to showcase all these best practices.

One of the things that I am pleased about as I travel around the country, is looking at the environmental progress on our campuses. This legislation will help accelerate that vital process, and I deeply appreciate what the committee has done.

Mr. GEORGE MILLER of California. I yield 30 seconds to the gentleman from Wisconsin (Mr. KIND) and thank him for his work on the real-time writers program.

Mr. KIND. Mr. Speaker, as a 10-year member of the Education and Labor Committee, I’m very proud of the product that the chairman and the ranking member and members of the committee have produced in this Congress today. It’s the most important investment that this country is going to make in the future of our Nation for many years to come, but I’m especially grateful for the inclusion of the real-time court reporter scholarship program.

The court reporters are the guardians of our public record, and not too many of my colleagues realize that with the Telecom Act, we mandated closed captioning for every television program in the United States. But because of the shortage of court reporters, we’re having a hard time filling our courtrooms and meeting closed captioning services.

So I’m glad they included it; I commend them for the job they’ve done;
and I ask my colleagues to support this legislation.

Mr. GEORGE MILLER of California. May I inquire of the Speaker as to the time remaining?

The SPEAKER pro tempore. The gentleman from California (Mr. MILLER) has 5 minutes remaining. The gentleman from California (Mr. McKeon) has 2 minutes remaining.

Mr. McKeon. Mr. Speaker, I yield myself the balance of my time.

For years, Republicans have fought on behalf of students and families to make college more affordable. Now our cause is bipartisan, and our vision for reform is the centerpiece of a comprehensive Higher Education Act reauthorization.

For students and families grappling with rising college costs, this bill establishes college affordability comparison tools to help put cost increases into perspective. Students will be able to search, sort, and compare key cost indicators for every school in the country. We will identify institutions that are the most costly, the least costly, and the fastest rising costs. And for schools engaging in a pattern of extraordinarily high cost increases, we demand greater disclosure and concrete steps to identify inefficiencies and fix them.

This legislation reflects Republican principles for reform, including financial aid simplification, protection of student privacy, safeguards for taxpayer dollars, an emphasis on competitiveness, and many more positive reforms.

Before I close, I want to recognize the staff on both sides of the aisle for their hard work. I want to thank Amy Jones, in particular, for her tireless efforts. Amy has carried this bill now through two Congresses, and we couldn’t have done it without her.

I also want to recognize Susan Ross and Rob Borden on my staff, along with my staff director, Sally Stroup.

I’d also like to recognize Chairman Miller’s staff—and I’m trying to learn their names—including Gaby Gomez, Julie Radocchia, and Jeff Appel; great people, and they’ve worked hard and worked well together.

Mr. Speaker, this bill isn’t perfect, but it will make a real difference to students and families struggling to pay for college. I encourage all of my colleagues to join me in voting yes to send this legislation to the President for his signature.

Mr. Speaker, I yield back the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, and members of the committee, I’m very proud of this legislation. I’m very proud of the members of my committee on both sides of the aisle. This legislation doesn’t just belong to this committee at this time or to party lines at any time. This legislation has been worked on by many people on both sides of the aisle.

When the Republicans were in the majority and Mr. McKeon was the subcommittee chair, he pushed hard for this legislation. And Mr. Kildee has spent many years on our committee working on behalf of higher education. And Mr. Wilson, along with Mr. McKeon, that made it through the House in the last session.

Why has that been true? Why is this legislation so broadly supported? Because we all understand the importance of the American workforce population, and we all understand the urgency of this moment. At no time in our history has America needed a better educated population than it needs today.

And we understand the importance of a college education and what it means to America’s families, what it means to young people as they start out in their careers, as they start out their families, and their ability to provide for themselves and go to jobs that are interesting, that work for them, that make sense for them, and yet be able to have the skills so they can continue in the American economic system. This legislation does all of those things.

This legislation helps to make college more affordable. It certainly helps to make it more accessible. And it has done that because of the agreements that we have reached on both sides of the aisle. Mr. McKeon has pushed long and hard for increases in the Pell Grants, long and hard for accountability in this system, and long and hard to make sure that the cost of college, that we have greater transparency, that we understand it better, that parents would be able to decipher, that students would be able to decipher and understand it. This legislation improves this act with respect to all of those provisions of the law.

I tried to recognize the contributions made by each Member on our side of the aisle and the programs that they worked on to increase access to college for so many populations that haven’t been given that opportunity in the past that will be able to take advantage of that opportunity.

And finally, this legislation makes it more affordable for many students. It’s in combination with what we did in the reconciliation bill, where we provided $20 billion in new resources for students by cutting the interest rates, by providing forgiveness for loans, by increasing the Pell Grants, and providing real-time tuition assistance for those who want to take advantage of that.

This is an important piece of legislation; it’s important to the Congress, it’s important to our Nation, it’s important to families and students who struggle to figure out how they can finance an education.

I think this is a big step in assuring that every qualified student should be able to afford college. They may have to borrow some money, but it’s well worth it if they can achieve a college education. And I think it’s going to make a major contribution to strengthening the American economy.

This is a moment in time legislation and authorization of the Higher Education Act. But for over 45 years, there has been a fixed star in increasing the opportunity for young people to go to college and increasing the wherewithal for families and students to afford a college education. And for over 45 years, the Senator from Massachusetts, who, unfortunately, is not able to be with us as we pass this conference report today in the House and in the Senate, but he is with us in great spirit. He called the other day to congratulate me with great enthusiasm. He wasn’t convinced we were actually going to get it done, and he said he was quite excited that we did. And he was looking forward to the passage of this legislation.

Mr. Speaker, I yield myself the balance of my time.

Mr. MARK HINOJOSA of Texas. Mr. Speaker, I yield the balance of my time.

And Mr. HINOJOSA authored legislation, when the Republicans were in the majority, to make the same investment in our young people as they started out in their careers, and make that investment in our young people as they start out in their families. And I ask my colleagues to support this legislation.

Mr. Speaker, today the House is voting on the conference report for H.R. 4137, the Higher Education Opportunity Act. I want to thank my dear friend Senator Kennedy for all of his hard work on this bill. Like our fuel and food, college tuition prices continue to rise, making a college degree unaffordable for many of our constituents. If Congress is serious about helping our country through this economic downturn, we must provide our young people with the tools and resources to be successful now and in an increasingly global economy.

And back home in Michigan, we are facing higher and higher unemployment rates. Many are forced to look to a new career field after a plant closes, and others are simply having a hard time transferring the skills they learned from their previous career to a new one. I want to do everything I can to help the citizens of Michigan’s 15th Congressional District through this tough time and I believe that access to a college education is one way to do so.

Many of you have probably heard from constituents who have had trouble navigating the federal student aid programs or just filling out the extensive application forms. The last thing we want is to discourage anyone from attending college merely because they find the
federal aid process confusing or overwhelming.

H.R. 4137 proposes to streamline the Free Application for Federal Student Aid (FAFSA) in order to make it easier for students and their families to navigate. This will be done by cutting the number of questions of the FAFSA form in half and allowing applicants to answer their information rather than re-filing a new form each year. It will also allow students and their families to determine their Expected Family Contribution and their federal student aid package prior to college so that families can plan accordingly.

For those of us with children and grandchildren, we all know how expensive a college education can be. Back home in Michigan, over 143,000 students take out need-based loans each year. While this bill will not cover the cost of a college education, it will help to make the costs a little more manageable by increasing the value of the Pell grant. H.R. 4137 will increase the maximum Pell grant increase from the current level of $5,800 to $8,000 by the 2014 school year. More importantly, this will ensure that students who are going to school part-time will have access to this aid.

For those many students who do rely on student loans to pay for school, this legislation will ensure that their loan payments do not penalize the best interests of our students. This will be done by requiring higher education institutions and lenders to adopt strict codes of conduct and ban all gifts and revenue sharing agreements between institutions and lenders. Lenders will now also be required to provide students with full and fair information about their loans before they sign on the dotted line, as well as be informed by the lenders of all borrowing options available to them when taking out and repaying loans.

This legislation will increase aid to our veterans and military personnel. The veterans from Iraq and Afghanistan have served our country honorably and it is our duty to ensure that they have access to a college education should they desire to return to school. I know college is an opportunity to help our country have the best veterans and military families. This will also allow many of them to complete their education and return to the classroom.

H.R. 4137 will create a scholarship program that could award up to $5,000 for veterans, their spouses, or their children enrolled in college. It will also create support centers on college campuses designed to coordinate services and assist veterans with enrollment and completion of their degrees. More importantly, H.R. 4137 ensures that veterans are not penalized by their financial contributions to their GI benefits in the financial aid process.

This bill will reward students who enter public service fields in areas of high-need by establishing a $10,000 loan forgiveness program for individuals who work to become nurses; early childhood educators; librarians; teachers; school counselors; public sector employees; medical specialists; among other career fields.

Madam Speaker, as the federal representative of a number of great universities and colleges in my district, I want to ensure that our constituents are able to take advantage of the education these fine institutions provide. However, with Michigan’s economy struggling, many students are forced to forego college altogether in favor of working to support their families and pay their bills. Over the August district work period I look forward to going home to these constituents and telling them that a college education can still be an option. I want to tell them that Congress is willing to increase the Pell grant and I want to tell them that Congress is going to make the federal aid application process simpler and easier for them. And at the end of the day, I want to tell my constituents that H.R. 4137 was signed into law. I urge all of my colleagues to vote in favor of making college more accessible to all our constituents that access to a college education is a top priority for Congress.

Mr. SPACE. Mr. Speaker, I rise today in support of the Conference Report accompanying H.R. 4137, the Higher Education Opportunity Act. This legislation will complete a long-overdue reauthorization of the Higher Education Act, bringing the promise of opportunity to countless young Americans. I commend Chairman MILLER and Ranking Member MCKEON for their work on this critical legislation.

In particular, I wish to thank Chairman MILLER and Ranking Member MCKEON for including in this conference report provisions from legislation I introduced, H.R. 4139, the College and University Rural Education Act. This legislation aims to help to foster new opportunities and a higher quality of life for residents of rural America.

The provisions that I mention authorize grants to rural serving institutions to improve access to higher education in rural America, and also to create employment pipelines that can help to foster economic development and also to create employment pipelines that can benefit the community. These grants can be used by rural-serving institutions to collaborate with regional school districts to improve access to higher education for high school graduates in rural America, where participation lags. Additionally, these grants can be used to create other outreach programs that will bring more nontraditional students back into the classroom.

These grants can also be used to create new employment pipelines for professionals that are needed throughout the country. The legislation increases in the enrollment of veterans; however, many do not have the resources to give the veterans the support they need. This is frankly unacceptable and this legislation will help correct this problem.

H.R. 4137 includes many new initiatives and improvements to existing programs. I was particularly pleased with the following provisions:

Undergraduate Program (GEAR UP), which provides funding to eligible colleges to support minority youth engagement in STEM fields through outreach and hands-on experiential learning; and the Robert C. Byrd Mathematics and Science Honors Scholarship Program, which focuses on encouraging students to earn degrees in math and science.

H.R. 4137 requires higher education institutions and student loan providers to provide incentives for students in STEM majors to teach in these academic areas; the YES Partnership Grant Program, which provides funding to eligible colleges to support minority youth engagement in STEM fields through outreach and hands-on experiential learning; and the Robert C. Byrd Mathematics and Science Honors Scholarship Program, which focuses on encouraging students to earn degrees in math and science.

H.R. 4137 increases college aid and support for our veterans and military families by requiring colleges and universities to treat students returning from military service as continuously enrolled students and preventing active duty servicemembers from accruing interest on student loans for the duration of their activation. The measure also encourages those students who commit to a job in high-need areas and public service for at least five years by establishing a $10,000 loan forgiveness program for nurses, early childhood educators, foreign language specialists, school counselors, public sector employees, medical specialists, and mental health professionals. This measure further addresses the
shortage of nursing faculty by establishing competitive grants to fund scholarships for nurses studying for advanced degrees with the intention of becoming faculty.

In recent years, our country’s college and university campuses have seen terrible tragedies. We have worked to bolster campus safety by helping all colleges develop and implement state of the art emergency systems and campus safety plans, and will also create a National Center for Campus Safety at the Department of Justice. Administrators and students on campuses across the country have also found ourselves facing hard economic decisions, which must empower the next generation with the necessary tools and invest in their education. Innovation and Affordability Act will set a blueprint for the future, and I encourage all my colleagues to vote for this bill.

Mr. ETHERIDGE. Mr. Speaker, I rise in strong support of this conference agreement. This is the first time in 10 years that we will reauthorize the Higher Education Act, landmark legislation that has strengthened our colleges and universities and made the dream of higher education possible for countless Americans. I commend the bipartisan, bicameral work of Education and Labor Chairman GEORGE MILLER and Ranking Member BUCK MCKEON, and Senators KENNEDY, MIKULSKI and ENZI who crafted this compromise, and I urge my colleagues to join me in support of it.

Our Nation’s competitiveness depends on a vigorous college and university system and on ample opportunities for Americans to pursue their educational goals. As the first member of my family to graduate from college, I know firsthand that affordable access to higher education is the key to the American Dream for working families.

H.R. 4137 is an important step to make sure our schools remain strong and that students from all walks of life can go to college.

H.R. 4137 keeps costs down for students and provides additional support through Pell Grants and education loans. It strengthens successful college-readiness initiatives and bolsters cooperation between school districts and teacher-preparation faculties. It improves access to emergency notification services for students. And it makes the process of applying to school easier: streamlining the federal student financial aid application; creating the “College Navigator” to provide cost and aid data to prospective students; and ensuring professors and students know the costs of course textbooks before the semester starts.

I am pleased that this bill includes support for Historically Black Colleges and Universities in my district and across North Carolina, recognizing schools that have added master’s degree programs with a new source of grant funding. It also provides new funding for Predominantly Black Institutions. These schools, which include Fayetteville State University, Shaw University and North Carolina Wesleyan in my Congressional district, have an important ongoing role in improving educational opportunities for African Americans. I am also pleased that the conference agreement recognizes the situation of military families, like so many families of soldiers at North Carolina’s Fort Bragg, who move frequently or are deployed abroad.

H.R. 4137 requires states to offer these military students and their dependents when the soldier is deployed for more than 30 days. We must not allow service to our country to prevent the education of a soldier or his or her family.

Mr. Speaker, education is the key to better lives and a better future for individuals and our Nation. H.R. 4137 improves educational opportunities for all Americans. I am pleased to support this legislation, and I urge my colleagues to join me in voting to pass it.

Mr. FATTAH. Mr. Speaker, I want to especially recognize the good work of GEAR UP students and staff in Philadelphia. Tens of thousands of Philadelphia high school students have been fortunate enough to benefit from GEAR UP, either directly as participants in the State or partnership grants we have been awarded or indirectly as recipients of the CORE Philly scholarship program which was jump started by GEAR UP. I am proud that Philadelphia has received one of the greatest investments from this exemplary program.

Beyond just the direct benefits of GEAR UP, Philadelphia’s students are being raised in communities that are increasingly focused on college and greater opportunities for the next generation. Although not surprising, it is encouraging to learn that when adults (whether teachers or support staff) commit to preparing their students for college, high school graduation rates shoot through the roof. Our students are ready, willing and able to meet the challenges of this new century and the next, we need only prepare and support them.

In Philadelphia we are seeing renewed attention brought to the challenge of abyssmal high school graduation rates. I have every confidence that as the educational leaders of our city contemplate strategies to reenginee disconnected students and close the at risk of failing through the cracks, they will look to the national and local successes of GEAR UP.

In the past 10 years, GEAR UP has served millions of students across the country. I look forward to advocating on behalf of the millions more who will benefit in the future and the opportunity to expand this program to even more communities.

Once again, I would like to express my gratitude to my colleagues and their staff who created this ambitious document. The Higher Education Opportunity Act paves the way for more robust and effective funding of higher education. It also will help more qualified and enthusiastic teachers in our Nation’s classrooms.

Mr. Speaker, today’s bill will increase transparency, simplify the financial aid process, and make higher education more affordable. I urge my colleagues to join me in supporting it today.

Ms. HIRONO. Mr. Speaker, I rise in strong support of H.R. 4137, the Higher Education Opportunity Act. I want to thank my colleagues on the Education and Labor Committee and in the Senate for their important legislation.

The bill increases the maximum Pell grant and reauthorizes the Higher Education Act. I thank the Conferees for their work on this issue, and especially commend Chairmen MILLER and KENNEDY, Ranking Members MCKEON and ENZI, and Senator MIKULSKI for their efforts in bringing this bipartisan legislation to the Floor today.

Mr. Speaker, 60 percent of new jobs require some post-secondary education. But paying for college can be a real challenge for many students and their families. In order to maintain America’s competitive advantage, spur economic development, and fulfill the potential of our Nation’s students, we must make college affordability and accessibility a priority.

This Congress has responded to that challenge. Beginning last year with the largest increase in student assistance since the G.I. Bill, we have worked to open doors to college for our Nation’s best and brightest. And today, we continue that commitment.

The bill increases the maximum Pell grant again to $6,000 for 2009 and $8,000 for 2014. It also allows for year-round Pell grants to give students more options and allow them to complete their degrees earlier.

It furthers our ambitious Competitiveness Agenda by creating programs to recruit new science and technology teachers and collaborate with the business community to improve science, technology, engineering, math, and foreign language education. These important provisions will help ensure American innovation in the competitive global economy.

The Conference Report before us today aims to provide more transparency and clarity in the financial aid process by simplifying the Free Application for Federal Student Aid, creating a user-friendly website to centralize information about schools and costs, and ensuring students and parents get easy-to-understand information about the terms and conditions of Federal and private loans. It also includes provisions to require schools and lenders to adopt strict codes of conduct to avoid conflicts of interest and protect students from aggressive lending practices.

Finally, the Conference Report includes provisions from the Teach for America Act, a bill I introduced with Mr. CASTLE, Ms. DELAURO, Mr. REGULA, and Mr. SARBAES. These provisions will allow Teach for America to expand its reach and put more enthusiastic teachers in our Nation’s classrooms.

Mr. Speaker, today’s bill will increase transparency, simplify the financial aid process, and make higher education more affordable. I urge my colleagues to join me in supporting it today.
for and successfully attend college. I am particularly pleased to see provisions in this reau-
CROERISATION that provide much-needed re-sour-
atives to Native Hawaiian-serving institutions for programs to help Native Hawaiians meet the
demands of careers in Science, Technology,
EING, and Mathematics.

Again, I want to thank my colleagues from
both chambers for their tireless efforts in ad-
vancing this significant legislation. In par-
ticular, I would like to recognize Senator Ted
Kennedy for his leadership and for his years of
dedication to improving access to high quali-
y education for all of our students.

I strongly urge my colleagues to support the

Mr. GEORGE MILLER of California. Mr. Speaker, I yield back the balance of
my time.

The SPEAKER pro tempore. Without
objection, the previous question is or-
dered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The question was taken; and the
Speaker pro tempore announced that the ayes appeared to have it.

Mr. GEORGE MILLER of California. Mr. Speaker, on that I demand the yeas
and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant
to clause 8 of rule XX, this 15-
minute vote on adopting the con-
ference report will be followed by 5-
minute votes on approving the Journal,
if ordered; ordering the previous ques-
tion on H. Res. 1388; adopting H. Res.
1388, if ordered; and ordering the previous question on H. Res. 1384; and adopting
H. Res. 1384, if ordered.

The vote was taken by electronic de-
vice, and there were—yeas 380, nays 49,
not voting 5, as follows:

Mr. RANGEL. Pursuant to clause 1 of rule IX, I rise to a point of personal privilege.

The SPEAKER pro tempore. The gentleman from New York is recognized for 1 hour.

So the Journal was approved.

If there is no objection, I will put in the Record the vote. There are 2 minutes remaining in this vote.

QUESTION OF PERSONAL PRIVILEGE

Mr. RANGEL. Pursuant to clause 1 of rule IX, I rise to a point of personal privilege.

The SPEAKER pro tempore. The Chair has been made aware of a valid basis for the gentleman's point of personal privilege.

The gentleman from New York is recognized for 1 hour.

So, I don't know the parliamentary inquiry, and, as most of you suspected, most of my friends say, Rangel, the less you say the better, get out of the headlines, and do all of these things. And this is normally what I recommend to newer Members: just leave it alone, it will go away. But my reputation won't, and I could not really appreciate if this body was to bring that I bring dishonor to this House, to this wonderful House and this wonderful country, or that I be censured.

So I make an appeal to the minority; let me join in with you with the request. Let me say if there is any doubt about anything, I would feel better if it went to the Ethics Committee. I have requested that it go to the Ethics Committee. Let us join in. But with not one scintilla of any evidence, other than a newspaper story, I think fairness would say for God's sake; put in whatever the heck the headlines, and do all of these things. Strike out "discredit," strike out "censure," and put in there whatever the heck the Ethics Committee recommends. I join with them. I ask you to consider that. I yield back the balance of my time.

RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. BOEHNER. Mr. Speaker, I have a privileged resolution at the desk. The SPEAKER pro tempore will recognize the Member. The Clerk will report the resolution. The Clerk reads as follows:

The Clerk reads as follows:

H. RES. 1396

Whereas the representative from New York, Charles B. Rangel, serves as chairman of the House Ways and Means Committee, a position of considerable power and influence within the House of Representatives; 

Whereas clause 1 of rule XXIII of the Rules of the House of Representatives provides that "A Member, Delegate, Resident Commissioner, or employee of the House shall conduct himself at all times in a manner that shall reflect creditably on the House;";

Whereas the New York Times reported on July 31, 2008, that “While aggressive evictions are reducing the number of rent-stabilized apartments in New York, Representative Charles B. Rangel is enjoying four of them, including three adjacent units on the 16th floor overlooking the Capitol. In building owned by one of New York’s premier real estate developers;”;

Mr. Rangel acknowledged that his use of one of the apartments as a campaign office ‘presents a question of privilege.’

Whereas Rangel’s campaign to disclose certain contributions from the Olmick Organization, Inc. violates Federal law; now, therefore, be it

Resolved, That—

(1) by the conduct giving rise to this resolution, Representative Charles B. Rangel, has discredited himself and brought discredit to the House and the censure of the House for same; and

(2) the representative from New York, Mr. Rangel, is hereby so censured.

The SPEAKER pro tempore. The motion to censure the representative from New York, Mr. Rangel, has been agreed to by the roll-call vote of 254 to 138. Mr. BOEHNER, Mr. Speaker, I move to lay the resolution before the House; ordering the previous question; and ordering the previous question on H. Res. 1388; adopting H. Res. 1388, if ordered.

The SPEAKER pro tempore. The motion to table the motion to reconsider the decision of the Speaker is refused.

The SPEAKER pro tempore. The question is on the motion to table. The question was taken; and the Speaker pro tempore announced that the ayes had appeared to have it.

The SPEAKER pro tempore. The motion of the gentleman from New York, Mr. BOEHNER, for reconsideration has been rejected; and the House has adopted H. Res. 1384, if ordered.

The vote was taken by electronic device, and there were—ayes 254, nays 138, answered “present” 34, not voting 9, as follows:

[Roll No. 546]

AYES—254

Abscond into a campaign co-headquarters, which included rent payments of $2,500 a month, according to the Web site of their building, and that Representative Rangel’s separate political action committee also received $2,500 donations from Mr. Olmick in 2004 and 2005.

Whereas the New York Times newspaper reported on July 11, 2008, “City records show

1,700-unit luxury development of six towers, with doormen, that is described in real estate publications as Harlem’s most prestigious rental building.

Whereas the New York Times newspaper reported on July 11, 2008, that ‘The current market-rate rent for similar apartments in Mr. Rangel’s building would total about $8,125 a month, according to the Web site of the owner, the Olmick Organization.’

Whereas clause 4(a) of rule XXV of the Rules of the House defines a gift as, ‘a gratuity, favor, discount, entertainment, hospitality, loan, forbearance, or other item having monetary value;’

Whereas clause 5 of rule XXV provides that a Member, Delegate, or Resident Commissioner of the House not knowingly accept a gift in violation of that clause.

Whereas the New York Times newspaper reported on July 18, 2008, ‘Mr. Rangel acknowledged that his use of one of the apartments as a campaign office ‘presents an issue,’ given that city and state guidelines require rent-stabilized apartments to be used as a primary residence.

Whereas section 290.11(k) of the Rent Stabilization Code of the State of New York prohibits the application of rent stabilization to ‘housing accommodations which are occupied by the tenant, not including subtenants or occupants, as his or her primary residence as determined by a court of competent jurisdiction.’

Whereas Olmick Organization, Inc. owns the Lennox Terrace Development; whereas to the State of New York, Department of State, Division of Corporations, the Olmick Organization, Inc., owner of Representative Rangel’s apartments, is an active domestic business corporation.

Whereas section 441b(a) of title 2, United States Code, states that ‘it is unlawful for any national bank, or any corporation organized by authority of any law of Congress, to make or to participate in an expenditure in connection with any election to any political office, or in connection with any primary election or political convention or caucus held to select candidates for any political office for any corporation whatever, or any labor organization, to make a contribution or expenditure in connection with any election at which presidential and vice presidential electors or a Senator or Representative in, or a Delegate or Resident Commissioner to, Congress are to be voted for, or in connection with any primary election or political convention or caucus held to select candidates for any of the foregoing offices, or for any candidates for political committees, or for any person knowingly to accept or receive any contribution prohibited by this section, or by any officer or any director of any corporation or any national bank or any officer of any labor organization to consent to any contribution or expenditure by the corporation, national bank, or labor organization, as the case may be, prohibited by this section.’

Whereas Federal Election Commission records from 2004 campaign contributions from Sylvia Olmick, an owner of Olmick Organization, Inc, the company that owns this apartment building, and that Representative Rangel’s separate political action committee also received $2,500 donations from Mr. Olmick in 2004 and 2005.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 1338, PAYCHECK FAIRNESS ACT

The SPEAKER pro tempore. The unfinished business is the vote on ordering the previous question on House Resolution 1338, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 229, nays 191, not voting 11, as follows:

[Roll No. 548]
PROVIDING FOR CONSIDERATION OF H.R. 6590, MILITARY CONSTRUCTION AND VETERANS AFFAIRS APPROPRIATIONS ACT, 2009

The SPEAKER pro tempore. The unfinished business is the vote on ordering the previous question on House Resolution 1384, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

This vote will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 243, nays 181, not voting 10—indicated:—

[Roll No. 549]
PAYCHECK FAIRNESS ACT

The SPEAKER pro tempore. Pursuant to House Resolution 1338 and rule XVIII, the Speaker declares the House in Committee of the Whole on the State of the Union for the consideration of the bill, H.R. 1338.

Mr. GEORGE MILLER of California. Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1338) to amend the Fair Labor Standards Act of 1938 to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, and for other purposes, with Mr. CAPUANO in the chair.

The Clerk read the title of the bill. The SPEAKER pro tempore. Pursuant to the rule, the bill is considered read the first time.

Mr. GEORGE MILLER of California. The gentleman from California (Mr. GEORGE MILLER) and the gentleman from California (Mr. MCKEON) each will control 30 minutes.

The Chair recognizes the gentleman from California (Mr. GEORGE MILLER). The Clerk reads the title of the bill. The SPEAKER pro tempore. Pursuant to the rule, the bill is considered read the first time.

Mr. GEORGE MILLER of California. The gentleman from California (Mr. GEORGE MILLER) and the gentleman from California (Mr. MCKEON) each will control 30 minutes.

The Chair recognizes the gentleman from California (Mr. GEORGE MILLER)
women has narrowed since the Equal Pay Act was passed, gender-based pay wage discrimination remains a very significant problem for women. According to the Census Bureau, women make 77 cents for every dollar earned by men. Just as disturbing is that African American women only earn 60 cents on the dollar, and Hispanic women earn an astonishing 55 cents on the dollar compared to their male counterparts.

The figures do not just tell us what they lose in their wages on a daily basis, on a weekly basis, and on a monthly basis. But we must also understand that this wage disparity costs a woman anywhere from $500,000 to $2 million over a lifetime in lost wages and will follow her into retirement with lower retirement benefits, and will follow her into the Social Security system with lower Social Security benefits.

These women pay a great price because the law still allows employers to pay these individuals on a discriminatory basis for the jobs that they produce. But today this House has an opportunity to take a critical step to ensure that the Equal Pay Act lives up to its promise: equal work for equal pay, equal pay for equal work.

The Paycheck Fairness Act will strengthen the Equal Pay Act and close many of the loopholes that have allowed employers to avoid responsibility of engaging in discriminatory pay practices. Currently, an employer can refute a pay discrimination claim if he proves that the pay difference in a $2 is based upon any factor other than sex. They can pull any defense out of the air that they want, even if the factors are not related to the job. What we say is that they must provide a real business justification for not paying that equal wage. It must be related to the work.

They will have to show that any gender-based wage differential is job-related, not based on or derived from sex-based and is consistent with the business necessity.

H.R. 1338 will also prohibit employers from retaliating against employees who discuss their pay. We all remember the Lilly Ledbetter case. She did not know that she was being discriminated on every pay period because her fellow employees were unable to discuss their paychecks with her because that’s the way the corporation kept the discriminatory practice secret and hidden from Lilly Ledbetter. We would not allow that to continue to happen.

The bill would also put gender-based discrimination sanctions on equal footing with other forms of discrimination by allowing employees to seek punitive damages, in addition to compensatory damages, just as business and workers may do under section 1981 for race or national origin discrimination. If we are serious about closing the gender pay gap, we must get serious about punishing those who would otherwise scoff at the current weak sanctions under the current law.

The Paycheck Fairness Act will require the Department of Labor to continue collecting pay information based upon gender. It also creates a program designed to help strengthen the negotiating skills of girls and women. Any wage gap that is gender is unacceptable, especially in these tough economic times.

For families living near or under the poverty line, equal pay for women will make a significant difference in that family’s well-being. By allowing discrimination to continue, we hold down women, their families, and harm the American economy as a whole. Today, we have a chance to rectify those practices. Today, we have a chance to make that happen, that in fact, women will receive equal pay for equal work as they do not now receive in the workplace because of the barriers that have been erected to their being able to prosecute those individuals who engage in a discriminatory practice.

Today, we are taking up this bill. And no one is more responsible for the House consideration of this legislation than Congresswoman ROSA DELAURO. I thank her for her tireless leadership on this bill, and the 230 cosponsors who are taking a strong stand against unequal pay. Congresswoman DELAURO has worked over a decade trying to get the Congress to pay attention to this problem that women face in the workplace, to this economic devastation that takes place against women in the workplace, the discriminatory practices that women face in the workplace. Today, we have no response to this body to her pleas. There was no response to the practices against these women in this body. Today there is. Today, this Congress, the House has an opportunity to finally enforce the Equal Pay Act and to make sure that women no longer have to suffer the discrimination of unequal pay.

Mr. Chairman, I reserve the balance of my time.

Mr. MCKEEN. Mr. Chairman, I rise in opposition to the bill and I yield myself such time as I may consume.

Discrimination in the workplace is wrong. Paying women lower wages for the same work is wrong. It’s also illegal. Congress enacted protections to ensure equal pay for equal work in 1963 when the Equal Pay Act was added to the Fair Labor Standards Act. Congress enacted again to protect women and put an end to one of those undeniable discriminatory practices against women with enactment of title VII of the Civil Rights Act. Together, these laws offer women protections against workplace discrimination, and strong remedies should they be subject to illegal employment practices.

Yet we’re here today debating a bill that has been touted as necessary to protect women from being underpaid. Supporters of the bill would have you believe that unless this legislation is enacted, employers are free to pay women less money for doing the same job as their male counterparts. Nothing could be further from the truth.

H.R. 1338 isn’t needed to protect women from wage discrimination; such protections are already included in the law. No, this bill is about something entirely different. Rather than addressing the real concerns of working families, issues like health care, a lack of health care, the high price of gasoline, this bill invites more and costlier lawsuits.

The bill opens EPA claims to unlimited compensatory damages, even in cases where there was clearly no intention of discrimination. The majority will offer an amendment today that attempts to mask this trial lawyer boondoggle. But make no mistake about it, at the end of the day this bill will invite more lawyers to bring more law suits because it offers them the promise of a bigger payday. H.R. 1338 will breed litigation in other ways as well, from encouraging class action lawsuits to expanding liability.

I am concerned that this bill has been put forward using misleading claims to justify its dangerous consequences. Supporters will repeat over and over the statistic that women earn just 77 cents on the dollar. Mr. Chairman, if a woman earned 77 cents on the dollar doing the same job as a man, it would be a travesty—and it would be illegal.

What supporters of this bill won’t tell you is that the 77 percent figure does not compare one man and one woman doing the same work at the same job. To argue that a woman only makes 70 cents on the dollar doing the same work as her male counterpart is to distort reality. The 77 percent figure is based on 2005 Census data looking at median earnings of all women and men who work at least 35 hours per week.

Interestingly, if you look at 2006 data from the U.S. Department of Labor comparing men and women who work 40 hours per week, women actually earn 88 cents on the dollar, the wage gap is much narrower, but the existence of a gap is still troubling.

However, last year the Education and Labor Committee heard testimony that cited an article published in The American Economic Review which found that when data on demographics, education, scores on the Armed Forces Qualification Test, and work experience are added, the wage ratio rises to 91.4 percent. The addition of variables measuring workplace and occupational characteristics, as well as related factors, causes the wage ratio to rise to 95.1 percent. When the percentage female in the occupation is added, the wage ratio becomes 97.5 percent, a far less significant difference.

In another study, researchers from the University of Chicago and Cornell University found almost no difference in the pay of male and female top corporate executives when accounting for size of firm, position in the company, and industry.

So before we use the 77 percent figure to justify new legal "gotchas," I think we need a better understanding of the
scope of any actual pay disparity and why such a disparity exists.

Luckily, there are steps we could take right now, right here, that would ease the strain on working women. Republicans have proposed a bill, the American Energy Act, that embraces our ‘race’ of approach to the energy reform. It would unlock America’s vast energy resources, increasing the production of American-made energy and reducing foreign nations’ stranglehold on our economic and national security.

Republicans recognize that we need comprehensive solutions to solve our energy crisis and ease the strain on working families brought by high energy costs. Unfortunately, the majority has refused to allow a vote on commonsense energy reform. Now we’re poised to go home for a month without voting on real energy reforms. We’re about to pass a bill that will bring a major payday to trial lawyers, but will do nothing to tackle the pocketbook concerns of hardworking American families.

Mr. Chairman, I am strongly opposed to H.R. 1338; it’s the wrong bill at the wrong time. We shouldn’t be here giving trial lawyers what they want. We should be voting on energy solutions for American families.

Mr. Chairman, I reserve the balance of my time.

Ms. LINDA T. SÁNCHEZ of California. At this time, I am pleased to yield 1 minute to the distinguished majority leader, the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. I thank the gentlelady for yielding.

I must say to my friend on the other side of the aisle, I believe it’s never the wrong time to do the right thing, and this is the right thing.

My friend mentions trial lawyers. Trial lawyers are in the business of re-dressing grievances. Judges and juries are in the business of deciding whether the grievance deserves redress, not trial lawyers. Trial lawyers raise the issue. Judgments are not given by trial lawyers, but by judges and juries.

Equal pay for equal work. When we put the principle as bluntly as that, I doubt that anyone in America would disagree. It’s a basic ideal of fairness. Is there a woman on this floor that believes they ought to be paid less than the next man for doing exactly the same kind of work? And I would suggest the answer to that is no, whether they’re staffers or Members. I hope there is not a female page who watches these proceedings that believes that they are less valuable than the male pages that serve this House. They are equally valued, irrespective of gender.

The value of work lies in a job well done, not in the gender of the worker; but within my lifetime, it was a radical notion. For decades, it was perfectly acceptable for women to earn less simply because they were women.

We celebrated the 60th anniversary of the integration of the Armed Forces just a few days ago. Colin Powell spoke, and he indicated that he was too small to really remember the ramifications of that executive order, but he said to himself, how strange it would seem today to think that men and women were segregated by unit and by housing because of the color of their skin. It is equally wrong to make distinctions of gender in payment for services.

Thanks to the hard work of generations of women, we’ve closed that gap from 61 cents back in 1963 to 77 cents on the dollar today. Being 77 percent right is not enough, we need to be 100 percent right. We need to pay dollar for dollar for work performed.

In fact, it depends on staying hidden, it depends on keeping women in the dark. Because, of course, it’s against the law not to pay equally, but if you don’t know that you’re being discriminated against, how can your grievances be redressed? In fact, the Constitution of the United States says that, as all of us know, that Americans are guaranteed the right to petition the Congress of the United States for redress of grievances, and yet we keep people in the dark as to whether or not, in fact, they are aggrieved.

By now, we have all heard about the Lilly Ledbetter case. Ms. Ledbetter was a supervisor at a tire plant in Alabama, and for years she was paid less than her male coworker. I would be interested if any Member of this House is prepared to come to this well or stand at one of these microphones and say it was right to pay a supervisor that was a woman less than a supervisor who was a man. And if you do come to this well and say that, I look forward to debating you on that issue.

But Lilly Ledbetter had no way of knowing that she was being paid differently. She didn’t know the truth. And by the time she found out, years after she discovered the discrimination, the court said it was too late, time had run, statute of limitations gone, insurance run out. She didn’t have the right to redress her justifiable grievance.

Her case is hardly unique. Justice Ginsburg has written that “comparative pay information is often hidden from the employee’s view.” In many workplaces, merely asking a coworker about his or her pay is a firing offense. Far from protecting privacy, rules like this are instrumental in giving employers the power to discriminate.

And should we say, well, I know the employer discriminated, but we don’t want to have a lawyer take that case because, after all, we don’t like lawyers, they bring to our attention wrongdoing, they ask for redress of grievances, they petition the jury and the court; this is wrong. You know, a famous individual from my State, Justice Thurgood Marshall, did that. He was a trial lawyer. And he petitioned the court to segregate blacks and whites, it is wrong to give secondary education to African Americans, just as lawyers come and say it’s wrong to discriminate on gender as opposed to quality of work.

In many workplaces, as I’ve said, merely asking a coworker about his or her pay is a firing offense. That’s why this bill, the Paycheck Fairness Act, is so necessary. It is time to do the right thing. It may be too late for some, but it’s the right time for many.

It amends the Equal Pay Act to bar retaliation against employees who share or inquire about pay information. It strengthens sanctions against discriminatory employers—which have not been adjusted for 17 years. It clarifies acceptable reasons for differences in pay related to factors other than gender. And it authorizes additional training for Equal Employment Opportunity Commission staff to better identify and handle wage disputes.

I want to recognize my colleague Congresswoman DeLAURO for working so hard for so long and so passionately to bring this bill to the floor.

I urge all of my colleagues to support it. It’s the right time. It’s the right place. It’s the right thing.

Mr. MCKEON. Mr. Chairman, I yield myself such time as I may consume.

My good friend the majority leader mentioned trial lawyers. I’m not a lawyer. I know we have a lot of them here in the House, and I am not particularly friendly to trial lawyers. I think they perform a good service.

One of the things that we did in subcommittee is we thought maybe we should be able to limit trial lawyers’ pay when they take some of these claims, and we even had an amendment that we presented that we would limit the trial lawyers to $2,000 an hour. We thought maybe that would be reasonable. Every Democrat voted against that. And when we took it to the Rules Committee to bring it here to the floor, we denied the ability to discuss that here on the floor. So maybe that’s why the other side feels that we are against trial lawyers, because we wanted to limit their pay to $2,000 an hour. Anyway, we were not able to discuss that here and we won’t be able to have that amendment here today.

Mr. Chairman, I am happy to yield 3 minutes at this time to the ranking member on the subcommittee over this issue, the gentleman from South Carolina (Mr. WILSON).

Mr. WILSON of South Carolina. Mr. Chairman, thank you for this opportunity to speak on H.R. 1338.

I want to thank the ranking member of the committee, Representative Buck McKeon of California, for his leadership here today.

I know we can all agree that discrimination in the workplace is unacceptable. That is why employment discrimination, including pay discrimination, is prohibited by law. As an attorney myself, I believe there are already considerable legal ramifications for discrimination
in our Federal laws, which makes the legislation we are considering here today unnecessary and redundant.

Additionally, it seems the premise for bringing this bill to the floor today is in response to potential wage gaps between men and women in the workforce. I would remind my colleagues that research into this issue, including a report by the Government Accountability Office, GAO, concluded that the “wage gap” was not simply derived from sex discrimination or pay discrimination but in fact, the reasons for such a gap can be numerous.

But to the bill itself, I am concerned that this legislation will not strengthen current laws or improve workplace protections but rather create additional and greater potential for individuals, well-meaning or otherwise, to abuse these protections in our courts.

This bill does two very damaging things to current law. It allows for unlimited compensatory and punitive damages to be brought under the Equal Pay Act, and it does not require proof of intent to discriminate in those claims. These two components could have unintended consequences for employers and employees, and they make it more attractive for unsubstained claims before the courts.

I welcome a healthy debate on employee and employer protections in the workplace. In fact, I would hope that before going forward, the debate on these issues would be more open where both the minority and majority might have greater opportunity to offer amendments to strengthen legislation and address the real concern of America’s hardworking families.

I want to thank Ranking Member BUCK MCKEON for his leadership, and I encourage my colleagues to oppose this legislation. American workers deserve reasonable protections that are enforced. This bill would undermine those protections but rather create additional and greater potential for individuals, well-meaning or otherwise, to abuse these protections in our courts.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Ms. WOOLSEY) having assumed the chair, Mr. CAPUANO, Chairman of the Committee of the Whole House on the State of the Union, reported that the Committee, having had under consideration the bill (H.R. 1338) to amend the Fair Labor Standards Act of 1938 to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, and for other purposes, had come to no resolution thereon.

I want to thank Speaker PELOSI, whose leadership today continues to build on the legacy of those who preceded us. Leaders such as Susan B. Anthony, Harriet Tubman, Clara Barton, and in the United States Congress, our 19th District’s own Barbara Jordan.

The Speaker pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

PAYCHECK FAIRNESS ACT

The SPEAKER pro tempore. Pursuant to House Resolution 1388 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill, H.R. 1338.

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 1338) to amend the Fair Labor Standards Act of 1938 to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, and for other purposes, with Mr. CAPUANO in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier today, the gentleman from Connecticut (Ms. LINDA T. SA´NCHEZ) had 23 minutes remaining.

Ms. LINDA T. SA´NCHEZ of California (Mr. MCKEON) has 20 1⁄2 minutes remaining. And the gentleman from California (Ms. SA´NCHEZ) has 23 minutes remaining.

The Clerk reads the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier today, the gentlewoman from California (Ms. LINDA T. SÁNCHEZ) has 23 minutes remaining. And the gentlewoman from California (Mr. MCKEON) has 20 1⁄2 minutes remaining.

The Chair recognizes the gentlewoman from California.

Ms. LINDA T. SÁNCHEZ of California. Mr. Chairman, at this time I would like to recognize a true champion of women in the House and the author of the Paycheck Fairness Act, the gentlewoman from Connecticut (Ms. Rosa DeLauro), for 6 minutes.

Ms. DeLAURO. I thank the gentlewoman for yielding.

I want to thank Chairman GEORGE MILLER for his dedication to this cause. We never could have come this far without his tenacious leadership.

We are grateful, Chairman MILLER.

Mr. Chairman, the Paycheck Fairness Act is about valuing the work that women do in our society. One of our Nation’s greatest aspirations, one of our greatest hopes, has always been ensuring equality of opportunity for all. There is no more important American promise that allows us to be a country of dreams and of success, and today we can take an important step toward finally honoring that promise.

I want to thank Speaker PELOSI, whose leadership today continues to build on the legacy of those who preceded us. Leaders such as Susan B. Anthony, Harriet Tubman, Clara Barton, and in the United States Congress, our 19th District’s own Barbara Jordan.

We all know Lilly Ledbetter’s story. For so many years she was short-changed by her employer. And years after her discrimination claim was upheld by the Supreme Court, ruling of 5–4 against her discrimination claim, drastically limiting women’s access to seek justice for pay discrimination based on gender.

We have an obligation to ensure that this does not go on any longer, and we must begin today by toughening remedies in the Equal Pay Act to give America’s working women the opportunity to fight against wage discrimination and receive the paycheck they have earned. No one should be forced to consider a trade-off between a full wage, a family life, and a good job.

No one should be forced to consider a trade-off between a full wage, a family life, and a good job.
My colleagues on both sides of the aisle, we are so fortunate to come to work every day in this extraordinary institution. We are blessed. Different regions of the country we come from, different backgrounds, and different experiences. We are men and we are women and we are paid equally. Every woman in this country deserves the same. Every family deserves to know that this institution will act today to make it real.

It is about ensuring that women who work under productive and carry a full range of family responsibilities are paid at a rate they are entitled. I urge my colleagues to support the Paycheck Fairness Act. We should not underestimate the power of a big idea whose time has come.

So many employers and companies do the right thing as a matter of course, but passing this bill today says that this is now a matter of right and wrong, that discrimination is unacceptable. They are all diminished when we fall short. But today we have a chance to make all men and women whole and contribute to the richness of America.

In 1963 President Kennedy signed the Equal Pay Act, saying that it would "add to our laws another structure basic to democracy" and "affirm our determination that when women enter the labor force, they will find equality in their pay envelope."

Today we have another opportunity to make good on that promise. Those days come only few times in our tenure in the United States Congress.

I have always been proud to serve in this institution, and I revere those lawmakers before us who on previous days made history for our country.

I worked all my life for equal rights and have named bills here this year. The Free Choice Act, which takes away the choice of a secret ballot for voting for unions, does exactly the opposite.

This bill, the Paycheck Fairness Act, will not do what the Democrats purport the Paycheck Fairness Act does not do. Those in charge of the House of Representatives, I believe, are being contrived by trial lawyers, union leaders, and radical environmentalists.

I think this bill will make it easier for trial lawyers to cash in. It includes several steps that will make it more lucrative for trial lawyers to pursue sex discrimination claims under the EPA. This may be good for lawyers, but it will be costly for businesses and their workers.

I agree, discrimination against anyone is wrong. No one who serves in this House or who lives in this country wants to see that. But I want to quote from an article by Carrie Lukas, and I will put the entire article in the record. It is called "Does the Paycheck Fairness Act work?"

The Paycheck Fairness Act, and the title is: Feminists Meddle with the Market. It's in National Review.

"Today is a rare moment when Congress has the potential to meaningfully address the problem of rising energy prices, with sensible legislation to allow more drilling to increase energy supplies. So what has Congress slated for consideration this week? The Paycheck Fairness Act, a bill that is the equivalent of throwing sand into the wheels of our economic machine."

She goes on to say, "Of course, no congressional legislation would be complete without a healthy serving of waste, and the Paycheck Fairness Act doesn't disappoint. It would create a new grant program to instruct women on salary negotiation tactics and require the Department of Labor to train employers in strategies for eliminating pay disparities. It seems almost quaint to ask, is this bill the equivalent of throwing sand into the wheels of our economic machine?"

She says that it's not fair that jobs that require an equal skill and experience command lower pay than men do. In fact, the Department of Labor estimates that full-time working women spend about half an hour less each day on the job than men do. And most of this is work indoors, in safe, climate-controlled buildings, with regular, or even flexible, hours. More people are interested in working in libraries and school buildings than on the fishing boats featured in Deadliest Catch, which is why physically strenuous, dangerous jobs pay higher salaries.

Feminist activists tend to be frustrated by women who would otherwise scoff at the weak sanctions. The Paycheck Fairness Act is the equivalent of throwing sand into the wheels of our economic machine.

Mr. MCEON. I am pleased to yield to the gentlelady from North Carolina (Ms. FOXX).

Ms. FOXX. I want to thank Ranking Member MCEON for his work on this bill. I find it very interesting that our colleagues have such hubris that they think we are going to solve all of the problems of the world here in the Congress. I wish that it were so.

I worked all my life for equal rights for women and I don't take a back seat to anyone on this floor or in this body for that. But I want to say that this bill is not going to solve the problem that we face in terms of equal pay for equal work.

My colleagues have reviewed very well the existing law. They have stated well why this bill is not needed. But I have to say that the Democrats have been very clever in the way that they have named bills here this year. The Free Choice Act, which takes away the choice of a secret ballot for voting for unions, does exactly the opposite.

This bill, the Paycheck Fairness Act, will not do what the Democrats purport for that bill. So I want to say that this bill is not needed. But I want to say that this bill doesn't disappoint. It includes several steps that will make it more lucrative for trial lawyers to pursue sex discrimination claims under the EPA. This may be good for lawyers, but it will be costly for businesses and their workers.

I agree, discrimination against anyone is wrong. No one who serves in this House or who lives in this country wants to see that. But I want to quote from an article by Carrie Lukas, and I will put the entire article in the record. It is called "Does the Paycheck Fairness Act work?"

The Paycheck Fairness Act, and the title is: Feminists Meddle with the Market. It's in National Review.

"Today is a rare moment when Congress has the potential to meaningfully address the problem of rising energy prices, with sensible legislation to allow more drilling to increase energy supplies. So what has Congress slated for consideration this week? The Paycheck Fairness Act, a bill that is the equivalent of throwing sand into the wheels of our economic machine."

Today we have another opportunity to make good on that promise. Those days come only few times in our tenure in the United States Congress.

I have always been proud to serve in this institution, and I revere those lawmakers before us who on previous days made history for our country. Different backgrounds, and different experiences. We are blessed. Different regions of the United States we come from, different backgrounds, and different experiences. We are men and we are women and we are paid equally. Every woman in this country deserves the same. Every family deserves to know that this institution will act today to make it real.

Yet a statistic that simply compares the way the legal and political machinery works for women and men and the full-time working woman tells us nothing about the existence (or lack thereof) of systematic wage discrimination. Many factors contribute to income disparities, from occupation and area of specialty to education and years of experience. Not surprisingly, once those factors are taken into account, the wage gap shrinks.

Men tend to take jobs that are dirtier, more dangerous, and distasteful than those people, yet men are the ones working in our sewers, guarding our prisons, laying concrete in the scorching sun, and catching and gutting our fish. They work longer hours. In fact, the Department of Labor estimates that full-time working women spend about half an hour less each day on the job than men do. And most of this is work indoors, in safe, climate-controlled buildings, with regular, or even flexible, hours. More people are interested in working in libraries and school buildings than on the fishing boats featured in Deadliest Catch, which is why physically strenuous, dangerous jobs pay higher salaries.

Feminist activists tend to be frustrated by women who would otherwise scoff at the weak sanctions. The Paycheck Fairness Act is the equivalent of throwing sand into the wheels of our economic machine. The bill doesn't disappoint. It would create a new grant program to instruct women on salary negotiation tactics and require the Department of Labor to train employers in strategies for eliminating pay disparities. It seems almost quaint to ask, is this bill the equivalent of throwing sand into the wheels of our economic machine?"

Of course, no congressional legislation would be complete without a healthy serving of waste, and the Paycheck Fairness Act doesn’t disappoint. It would create a new grant program to instruct women on salary negotiation tactics and require the Department of Labor to train employers in strategies for eliminating pay disparities. It seems almost commonplace to point out that while the Constitution is Congress granted the power to engage in this type of activity? Taxpayers should be outraged that their money is being put to such use.

Federal law already outlaws sex discrimination. This legislation would afford women few new protections against actual sex discrimination but would raise the cost of employment and discourage workplace flexibility. It is exactly what women—and the economy—don’t need. If this is what we can expect from the rest of this Congress, Americans should hope for an early recess.

Ms. LINDA T. SÁNCHEZ of California. I would yield 2 minutes to a distinguished Member of this body, the gentlewoman from California (Ms. Woolsey).

Ms. WOOLSEY. As some of you may know, at one time I was a single mother raising three small children. I was working full time, but I still wasn’t able to put food on the table, pay for doctor’s bills, or provide for the other needs of my children all on my own because my paycheck was for a 40-hour week but it did not cover our necessities. To make ends meet, I was forced to turn to public assistance.

That was more than 35 years ago, but today there are still millions of single mothers in our country who are struggling to provide for their families, many while balancing full-time jobs. In fact, single mothers are twice as likely as fathers to raise their children in poverty.

Unfortunately, so long as women continue to receive pennies on the dollar compared to their male counterparts, this statistic is unlikely to change any time soon. I want to thank my friend, Congresswoman DeLAURO, for her work on this issue, and I would like to remind all of you that the Paycheck Fairness Act is about a lot more than fixing a couple of loopholes. It’s about strengthening families, combating poverty, and finally recognizing that equal work deserves equal pay.

I am proud to be a cosponsor of this legislation, which will provide the additional tools that we need to stamp out wage discrimination once and for all.

Mr. MCKEON. I yield the balance of my time.

Ms. LINDA T. SÁNCHEZ of California. It gives me great pleasure to yield 2 minutes to a champion of the working class and the Chair of the Health, Employment, Labor, and Pension Subcommittee of Education and Labor, the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. I would like to thank my friend from California for yielding.

This bill is for the woman who runs the office, who makes all the important decisions, without whom the place couldn’t function; who one day comes in and discovers that a man, usually a man younger than her, has been brought in and given a higher title, a higher salary, higher status, higher opportunities. And she goes to work and says, this isn’t fair. I’m doing a job that is actually more important than this other person and getting paid less for it.

It’s true that the statutes presently deny women equal pay for equal work. But it’s also true that the remedies are so limited under existing law that many women can’t get an attorney to represent them in their case so it never gets brought.

The best idea in this bill is for the first time it gives robust and full remedies to help that woman so that if she is able to prove her claim that she is underpaid relative to the work that she is doing, she will be fully and fairly compensated. Women will actually get the funds to get her the competent representation that she deserves. The woman who’s the office manager who doesn’t make as much as the executive vice president for administration?

Well, I will tell you, in my life, Mr. Chairman, I benefited from a lot of women who are office managers that don’t have fancy titles but without whom institutions could not run. This bill is also going to help those single mothers, those working mothers, those working daughters so that they do not have the situation where they are devalued, de-based, degraded, and disrespected in the workplace.

It is long overdue that we vote ‘yes’ on this bill, and I would urge colleagues on both sides to do that.

Mr. MCKEON. I yield such time as I may have to thank my colleague, Representative DeLAURO, for introducing this bill, and Chairman MILLER for steering it through committee and onto the floor.

Ms. LINDA T. SÁNCHEZ of California. I rise today in strong support of the Paycheck Fairness Act, to protect the right of all Americans to equal pay for equal work.

Mr. MCKEON. I reserve the balance of my time.

Ms. FOXX. Thank you, Mr. MCKEON. I was actually saying before. Republicans are deeply concerned about working families. Every day we come to this Congress and we do everything that we can to help those working families. We believe that if any worker is subject to discrimination in the workplace because of their sex, or for any other reason, that discrimination should be rooted out and punished accordingly. That is why current law protections are so important. Again, we have outlined why those laws are inadequate currently.

We are also concerned about other workplace policies and proposals that threaten workers’ wages, flexibility, and freedom. However, unfortunately, Democrats are focused on strengthening de-base in the House and blocked the minority from offering amendments that address the real concerns of working women and families.

They have done the exact opposite of what they promised to do in 2006, make this the most open Congress ever, make this the most ethical Congress ever, make this the fairest Congress ever. It has been just the opposite of that.

Again, what we should be doing today is we should be debating how we can bring down the price of gasoline and heating oil and all of those things that are harming working Americans every day, but line the pockets of trial lawyers and create what I call high-priced welfare, which are high-priced bureaucratic jobs which don’t really do anything for working men and women in this country, especially working women, increase their pay.

We will be stifling businesses. It seems as though they hate business and industry, and want to do everything that they can to shut it down in this country. This bill will certainly help do that.

So I say we vote “no” on this bill because this bill doesn’t do what the title pretends it does, and in fact harms working women. What we need to do is doing something to bring down the price of energy.

Mr. GEORGE MILLER of California. It’s a pleasure to yield 2 minutes to a member of our committee, the gentlewoman from California (Ms. LINDA T. SÁNCHEZ).

Ms. LINDA T. SÁNCHEZ of California. I rise today in strong support of the Paycheck Fairness Act, to protect the right of all Americans to equal pay for equal work.

Women across America are still only paid 77 percent of what men are paid. Does this mean that women are only 77 percent as valuable as their male counterparts? Certainly not. It means there are, unfortunately, still lingering remnants of an earlier time in our history when women didn’t have the same rights as men.

After years of neglect under the former majority, this House has boldly taken on the challenge of trying to solve longstanding economic problems so that hardworking families can really achieve the American Dream instead of just dreaming about the American Dream.

Women across America are still only paid 77 percent of what men are paid. Does this mean that women are only 77 percent as valuable as their male counterparts? Certainly not. It means there are, unfortunately, still lingering remnants of an earlier time in our history when women didn’t have the same rights as men.

Though we have made great strides toward fair and equal treatment for women in the workplace, our work is still not done. This bill continues our progress by creating more opportunities for women and their families. Nearly 7½ million of America’s poverty-stricken children live in female-headed households. This bill will help those families rise out of poverty by ensuring the hard work of female-headed households is rewarded equally and fairly.

Much has been said about this bill lining the pockets of trial lawyers. Let’s not lose focus of what this bill is about. It is saying to women that if you have been wronged, if you have
been discriminated against, you will have a fair day in court.

So, for yourselves, your wives, your sisters, your daughters, and the children of America, I urge my colleagues on both sides of the aisle to vote “yes” on this important piece of legislation.

Mr. MCKEON. How much time do we have left?

The CHAIRMAN. The gentleman from California (Mr. MCKEON) has 15 minutes. The gentleman from California (Mr. GEORGE MILLER) has 11 ½ minutes.

Mr. MCKEON. I reserve the balance of my time.

Mr. GEORGE MILLER of California. It’s a pleasure to yield 2 minutes to the gentlewoman from California (Ms. SOLIS).

Ms. SOLIS. I thank our chairman from the Labor Committee. I want to urge our Members here today to vote on this very important bill, H.R. 1338, the Paycheck Fairness Act. Our colleagues, Rosa DELAURO, and others, have championed this bill for many years. But Rosa has really dedicated herself to this movement. I am happy to be a cosponsor of this bill. She understands, as we know and many women know, that we have to recognize that there are inequities that exist in our communities, and especially among women and women of color.

Some of you may know that while women overall only receive 77 cents on the dollar, Latinas only average 57 cents on that dollar, and African American women only get 68 cents on the dollar.

Indeed, there are disparities that exist and continue. We have an obligation here in this House to do the right thing.

Just today, this morning, Arnold Schwarzenegger, our Governor, cut the payroll for many State employees. Many of them are women. They are the earners for their households. They have to put food on the table. Now they are going to be making Federal minimum wage, which is less than what the State of California’s minimum wage is. What an atrocity.

I am not going off message, I am just trying to strike home a point that it’s important to take care of all those that work in our society, but particularly women because they are the ones that are mostly discriminated against, and we have to cut that out.

Again, I want to wholeheartedly offer my support and have my colleagues know that I stand first and foremost for pay equity for all of us. I ask you to vote for H.R. 1338.

Mr. MCKEON. Mr. Chairman, let me yield myself such time as I may consume.

I want to put it on the record that I like women. I have been married almost 46 years, and we have three daughters and we have three sons, and I would not want the daughters to be discriminated against, I would not want my sons to be discriminated against.

I wish we could do something here that would end for all time all discrimination. Unfortunately, I guess when there are people involved in different things of them will tend to discriminate. That is why the law was passed in 1963, to level all pay. I want to just on the record make sure that everybody understands when we throw everybody into a pot and then add up on our salaries, we are not talking about equal pay for equal jobs.

One of the things that we learned when we had the hearing last year, when we are talking about actual people, actual jobs, is that many women ended up going into, after graduating from college, many of them go into teaching, many of them go into social work. Many men go into jobs, some of them go into teaching. If they go into teaching, they are hired, they make the same exact wage. If the men go into social work and women go into social work, they make the same wage.

But if a person goes into banking at a level that pays higher or into law at a level that pays higher, again, a woman is going to be hired the same as a man. But when they throw all of these jobs into the same pile, that is where you get some differentiation in the pay.

Again, if we could just hold to equal pay, same job, same pay, I am totally supportive of that. That is what the law says, and that is what we should enforce. And the numbers that I quoted earlier, the pay is almost exactly the same. Where there is some discrimination, we should go after it, we should enforce the law. That is what I would encourage us to do.

Mr. Chairman, I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Chairman, I yield 2 minutes to the gentlewoman from California (Ms. ESHOO).

Ms. ESHOO. I thank the chairman for recognizing me.

First I want to pay tribute to a great, great Member of the House and someone that we are so, so proud and grateful to, and that is Congresswoman ROSA DELAURO. Your mother is proud, Rosa. We are all proud. You have really paid for your keep here by making such a contribution. And also to the great GEORGE MILLER, who saw this legislation through.

I want to make a couple of observations. My friend from California just went through a whole discussion that really is not a part of this bill, and it is all about comparable worth. That is not what is in this bill.

I also want to make another observation. There are very few on the other side that are coming to defend the case that is being made over there.

Mr. MCKEON. Will the gentlewoman yield?

Ms. ESHOO. No, because I don’t have that much time.

Mr. MCKEON. I would yield you more time.

Ms. ESHOO. My other observation is that the case being made by our friends on the Republican side really states very fully that you are on the wrong side of history. What this bill does is to give women the tools that they need legally so that an employer can no longer discriminate against them.

Have any of you heard of Lilly Ledbetter, of that case and what happened to that woman?

Mr. MCKEON. Will the gentlewoman yield?

Ms. ESHOO. No, I am not yielding. I told you, I don’t have enough time. I would like to be able to say everything that I want to say.

Mr. MCKEON. I said I would be happy to yield you more time.

Ms. ESHOO. What this bill does is it says to employers today that you cannot punish employees any longer who discuss or disclose salary information with their coworkers. I think that is a pretty important thing. This bill also says to employers today that you have to give a satisfactory explanation for paying a man more than a woman for the same job, and that they are going to have to demonstrate that the disparity is not sex-based, but job related.

Today we are saying that we have been given out of the playing field. I think if my mother were sitting up there, she would be applauding. I think that mothers and daughters and fathers and grandparents and legislators and people throughout the country today, the last day of the month, are saying that the last now are going to come first, and we know in our society that women have not come first. Today we are talking about the waitresses. We are talking about what Mr. ANDREWS talked about, and that is the woman who heads up the office. We are talking about the Lilly Ledbetters.

The CHAIRMAN. The time of the gentleman has expired.

Mr. GEORGE MILLER of California.

I yield the gentlewoman an additional 30 seconds.

Ms. ESHOO. So today I think that we are making the Union stronger and better by recognizing that there have been disparities and by recognizing the way we fix the disparities, and I salute those who have been on this effort for a long, long time.

America, it is a good day, July 31st, 2008, in the House of Representatives, thanks to ROSA DELAURO rewriting history, Chairman MILLER for pushing it the way he has, and thank God for the Speaker that makes all of this possible, NANCY PELOSI.

I rise today to express my strong support for H.R. 1338, the Paycheck Fairness Act and I salute Congresswoman DELAURO and Chairman MILLER for their important leadership to bring us to this day.

With the passage of the Paycheck Fairness Act the Congress will make the Equal Pay Act a more effective tool in combating gender-based pay discrimination.

Today, if an employer can name any factor that has determined an employee’s pay other than gender, they can defend unequal pay in
pay discrimination cases. The employer's reason doesn't even need to be related to the job in question. Under H.R. 1338 employers will have to give a satisfactory explanation for paying a man more than a woman for the same job and they will have to demonstrate that the disparity is not sex-based, but job-based.

Employers should not be barred from punishing employees who discuss or disclose salary information with their co-workers.

Under current law women who have been discriminated against may only recover back pay or double back pay. The Paycheck Fairness Act will finally put gender-based discrimination on the same level as other forms of wage discrimination by giving women the opportunity to sue for compensatory and punitive damages.

The wage gap between men and women has narrowed since the passage of the landmark Equal Pay Act in 1963, but according to the U.S. Census Bureau, women still only make 77 cents for every dollar earned by a man. It's time to close the gap and pass this law.

I'm very proud to support this bill and I urge you to vote yes on the underlying legislation.

Mr. MCKEON. Mr. Chairman, I reserve my time.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentlewoman from California (Ms. LEE).

Ms. LEE. Thank you, Mr. Chairman.

First let me thank Chairman MILLER for his leadership and for being such a strong supporter of pay equity and women's rights, not only today or last year, but throughout his life. Thank you, Chairman MILLER.

Also, I just have to say to my colleague, Congresswoman DeLAURO, sometimes, oftentimes a lone voice in the wilderness, but today we pay tribute to the women of America, thanks to ROSA DeLAURO. Thank you so much. Congresswoman DeLAURO. You have been a champion for women and working families since before your career here in Congress began. So we salute you.

In 1963, and I know these statistics have been repeated earlier, but I have to say them again because it is so important to remember where we were, where we are and where we need to go, and that is what today is about. In 1963, women who worked full time made about 59 cents on average for every dollar earned by men. For every dollar earned by men in 2006, women earned about 57 cents. The wage gap has narrowed by less than half a cent per year. Clearly we have a long way to go.

The wage gap is most severe for women of color. It is absolutely inexcusable that women, and especially minority women, earn a fraction of what men earn from the same job. African American women earn just 63 cents on the dollar, and Latinos earn far worse at 57 cents. In my own State of California, black women working full time year-round earn only 61 percent and Latinos 52 percent of the wages of white men. This is outrageous.

The wide disparity begins at the start of a woman's work life and grows wider as women age. In the long term, combined with a decrease in pension income and Social Security benefits, which is what happens, many women are at risk of falling into poverty as they get older, because this disparity began when they were still in the workforce.

H.R. 1338 takes immediate steps to close the wage gap for all women by amending and strengthening the Equal Pay Act so that it will be a more effective tool in combating gender-based discrimination.

So let's keep close that gap today. Let's stand up by making the Paycheck Fairness Act the law of the land. This should have been the law of the land many years ago. Many of us remember when we first started working and how that male counterpart in our job was making twice as much as we were making. I remember those days, and, as a result of that, many women now will have less in their Social Security and their pensions.

To my colleagues here in Congress began. So we salute you.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentlewoman from California (Mrs. DAVIS) for today.

Mrs. DAVIS of California. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the gentlewoman that spoke earlier, a good friend of mine from California, said that I gave a long description of equal pay for equal job, and I thought that that is kind of what the debate was about. People keep talking about equal pay for equal work. If you want to have the same pay for the woman as for the man for the same job.

Now, if we are just talking about we want just women paid the same as men for whatever job, then that is kind of the figures being used. But I think most of us know, we fly a lot, the pilot usually makes more than the flight attendant. Whether the flight attendant is male or female, they are paid the same. The pilot, whether he is male or female, they are paid the same. But the pilot is not paid the same as the flight attendant. We understand that, and I think that is probably not what we are arguing about here, but it seems like that is the way the debate is going.

I support equal pay for the same job, men, women. With this bill, apparently the debate is equal pay for men and women, and I thought that is what we were talking about, because that is what the debate is. But as the gentlewoman said, that is not what this bill does.

Mr. Chairman, I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Chairman, I yield 2 minutes to the gentlewoman from California (Mrs. DAVIS), a member of our committee.

Mrs. DAVIS of California. Mr. Chairman, I rise today in support of the Paycheck Fairness Act. I also want to applaud Congresswoman DeLAURO and Chairman MILLER.

When I was growing up, women only had a few career options. You could either be a teacher, a nurse, a secretary or a social worker, all very noble and difficult professions, but which don't pay nearly enough, mostly because a disproportionate number of women still do these jobs. But when my granddaughter enters the workforce, she will be able to work in any field she wants. So we have come a long way. But we still have, as many have said, a long way to go.

The tragedy is that our daughters and granddaughters will do the same jobs as men on a number of occasions in a number of fields, but will only earn far less than what their male colleagues earn for the same work. So despite the progress that we have made over the past four decades, many employers continue to overlook and occasionally even intentionally ignore the contributions of their female employees.

It is about transparency. That is what we are talking about today. to give women who traditionally have stood by and been hesitant about taking full credit for the work that they do. It is about being paid the tools that they need to be certain that they are recognized in the workforce for what they are actually accomplishing.

Employers must recognize all of their employees for this important work that they do and reward them with fair compensation. Unfortunately, despite what we are hearing, it is not happening on its own. Our daughters and our granddaughters need this legislation. I urge my colleagues to support it.

Mr. MCKEON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, again, it sounds like we are talking equal pay for equal work and, again, I support that. I oppose discrimination. I support equal pay for equal job.

If we are saying that nurses should make the same as doctors, if the doctor is a female and the nurse is a male, should they make the same money? No. I think all nurses should make the same money. Doctors should make the same money if they are doing the same work. Not even all doctors make the same. Some surgeons make more than others, depending on their specialty, depending on what they do.

We understand that in our economy what the work does decides on what they make. I think everybody working and divide up all of their pay, and you have more women that are serving in occupations that pay less, as my good friend just pointed out, women didn't have I guess the same opportunities in the past as they do now, and so if you took those figures and you had more women working in lower-paid fields, that is how you get the 77 percent discrepancy.

But if you took all of the same jobs, added up what they are paid, maybe 40 years ago, 50 years ago there was a lot more discrimination than now, but I think now if you look across the field and equal pay for equal job, you would
July 31, 2008

H7686

CONGRESSIONAL RECORD — HOUSE

find there is, if anything, very little difference.

\(\text{\textbullet} 175\) Should it be no difference? You bet. And I think you would probably find in some occupations you have women making more than men. And I guess men should probably claim discrimination in that case, but I don’t think they should. I think the reason women are paid more is they are probably worth more. I reserve the balance of my time.

Mr. GEORGE MILLER of California. Could the Chair apprise how much time I have remaining?

The CHAIRMAN. The gentleman from California has ¾ minutes.

Mr. GEORGE MILLER of California. I yield 1 minute to the gentlewoman from the District of Columbia (Ms. NORTON).

Ms. NORTON. I thank the chairman for the priority consideration given this bill throughout, and Rosa DeLAURO for her indefatigable perseverance on this bill.

This bill has not been updated for 45 years, and yet we have seen the transformation of American work life. It needs a 21st century makeover. I wasn’t there at the birth, but I was there when I chaired the EEOC and worked with President Carter to bring the Equal Pay Act to the EEOC. The whole point of doing that was to bring this, the first of the great civil rights statutes, into line with title VII, which was passed thereafter. We have never done that. This is the first time we have done that, Mr. Chairman. That makes this an historic bill.

Seventy-five percent of women in the workforce today have small children. Women are backsliding now. They are stuck on 76 cents for every male dollar. With the economy in the worst condition in a generation, women need every tool. It is not too much to ask that they have the tool of equal rights.

Mr. MCKEON. I am happy to yield at this time to the gentleman from Georgia (Mr. PRICE), a member of the committee, such time as he may consume.

Mr. PRICE of Georgia. I thank the gentleman.

Mr. Chairman, I have an amendment that I will offer to this piece of legislation. I was going to attempt to refrain from further comment on the legislation, but I think that some light needs to be shed on the discussion that has been going on here.

Equal pay for equal work is the law of the land. It is the law of the land. It has been for 45 years. What our friends on the other side want to do is, we have seen over 70 percent of all mothers. Yet, women continue to earn less than men even if they have similar educational levels and work in similar kinds of jobs.

In 2003, the Government Accountability Office (GAO) study that I commissioned showed that when occupation, marital status, job tenure, industry, and race are accounted for, women still earn 80 cents for every dollar men earn.

Research has found that women’s choices cannot explain about 40 percent of the wage gap between men and women.

Pay discrimination hurts not only a working woman, but her entire family—especially in the face of rising prices for basics, like food and gasoline.

The typical wife brings home about a third of her family’s total income. Over the past three decades, only those families who have a working wife have seen real increases in family income: Families without a working wife have real incomes today that are nearly identical to what they were over 35 years ago.

Congress passed the Equal Pay Act nearly half a century ago, yet women still experience pay discrimination.

According to the National Committee on Pay Equity, working women stand to lose $250,000 over the course of their career because of unequal pay practices.

The Paycheck Fairness Act will prevent, regulate and reduce discrimination for working women nationwide. It will help women become better negotiators, enforce equal pay laws for federal contractors, and require the Department of Labor to work with employers to eliminate pay disparities.

As we saw in the Lilly Ledbetter case, if a woman doesn’t know how much her male colleagues earn, she cannot know that she is being discriminated against.

The Paycheck Fairness Act will prohibit employers from retaliating against employees who share salary information with their coworkers.

Women need to know the true value of the jobs that they do and this is an important step towards gender parity.

I strongly urge you to vote yes on this bill. Mr. MCKEON. Mr. Chairman, I yield myself the balance of the time.

Someone on the other side said this bill isn’t about equal pay for equal work, but I know others have said it is about equal pay for equal work. And I think you would probably find in some occupations you have women making more than men. And I guess men should probably claim discrimination in that case, but I don’t think they should. I think the reason women are paid more is they are probably worth more.
The Paycheck Fairness Act is a clever name. Who doesn’t support paycheck fairness? Unfortunately, that is not what this bill is offering.

No, Mr. Chairman. If this bill becomes law, it will make the system fundamentally unfair by putting the interests of trial lawyers above the interests of the workers.

As I mentioned earlier, we did try to offer an amendment. I don’t think it was totally out of line to think that we should make it limit the trial lawyers working on these cases to $2,000 an hour. But every Democrat voted against that. And then they didn’t let that amendment be placed in order to discuss here on the floor. I am sorry that we weren’t able to do that.

This bill will expose family businesses to unlimited liability even if there is no intentional discrimination. The Democrats’ fig leaf amendment doesn’t change the fact that trial lawyers stand to receive a big payday by lowering the bar on costly jury awards.

This bill will encourage class-action lawsuits, treating the EPA as a litigation factory. This bill will make it harder for businesses to defend against legal challenges, inviting unscrupulous trial lawyers. I say unscrupulous; I have many good friends who are trial lawyers, and I exclude them from that definition. But the unscrupulous ones will pursue baseless claims.

Now we know what the bill would do. But what about what it fails to do? It doesn’t prohibit discrimination under the law. We did that 45 years ago, as Mr. Price so eloquently explained. It doesn’t offer working women new flexibility so that they can balance work and home.

Mrs. McMorris Rodgers had a bill earlier that she wanted to present that she has never been given the chance to do so. But it would give women the opportunity to take compensated time, the same compensation workers can now do. If you work overtime, you can be paid time-and-a-half in cash; but if you want to take that time in compensated time, we do not give people the opportunity to do that. We should do that.

It certainly doesn’t do anything to bring down the price of gasoline, which is the number one issue many working families are struggling with today.

Mr. Chairman, this is a bad bill. I strongly urge my colleagues to oppose it.

I yield back the balance of my time.

Mr. GEORGE MILLER of California.

Mr. Chairman, we have come to the end of a long debate, but let’s get something very clear. This is all about equal pay, and this is all about whether or not women are going to receive equal pay. What this legislation does is recognize the barriers that have been put up in front of women trying to enforce the existing law.

It is rather interesting that the Secretary of Labor sent us a letter, and in her random audits of businesses working with government contractors she found systematic discrimination and she collected $51 million, and this is a record year, and it is the third record year in a row because of systematic discrimination.

Now, everybody has come to the floor and said they are all against this discrimination. Yes, we all are against that. Nobody is suggesting that anybody isn’t. But if you can’t enforce your rights, then you suffer the discrimination. Random audits, $51 million was denied to these individuals. And these are just people working with government contractors. Think what it does to the individual. If they don’t get a random audit, they don’t get the Secretary of Labor, they don’t get the Department of Labor. What they get is discrimination in their pay. That is what they get.

Today, we are going to decide whether or not these women are going to be able to collect the pay that is owed them, whether they are going to be able to enforce the law that requires as a matter of national policy and law the equal pay for women. That is the issue here. It is not complicated. It is not complicated.

Study after study has determined that pay discrimination exists whether you are in the workforce 10 years, whether you are starting out in the workforce, no matter what your life experiences are. When they control for all of that, there still is discriminatory pay against women in the American workforce, and today this House is going to change that.

Mr. LEVIN. Mr. Chairman, I rise in strong support of H.R. 1338, the Paycheck Fairness Act.

In 1963, President Kennedy signed the Equal Pay Act into law in order to promote workplace equality for women. Since then, women have made great gains in workforce participation, compensation, and advancement, but a significant wage gap still exists between women and men. Women working full-time year-round earn on average 77 cents for every dollar earned by a man. The wage gap is even wider in Michigan: On average, women in Michigan are paid only 67 cents for every dollar earned by a man.

Wage discrimination is not just a women’s issue—it is a family issue. With a majority of American households depending on two incomes to make ends meet, the wage gap is more relevant than ever. The current pay disparity may cost a woman anywhere from $400,000 to $2 million in lifetime earnings relative to a man performing equivalent work. It is often borne by an individual, but by all the members of the household who rely on that income. Congress must respond to this injustice.

The Paycheck Fairness Act updates and strengthens the Equal Pay Act in light of more than 45 years of real-world experience. Courts have interpreted the Equal Pay Act more narrowly than other employment discrimination laws, counter to the intent of Congress. The Paycheck Fairness Act clarifies that the factors used by employers to justify wage disparities must be related to the employee’s work or to the business. The bill also redefines the standard for comparing employees’ compensation, reducing a frequently prohibitive burden of proof for plaintiffs.

Data collection is key to tracking women’s retirement compensation in the workplace, but the federal agencies charged with enforcing employment discrimination laws have little information about wage disparities. The Bush administration, furthermore, has halted or tried to halt many efforts to collect data. The Paycheck Fairness Act ensures that the Bureau of Labor Statistics will collect data on wage disparities, and it requires the Equal Employment Opportunity Commission to offer guidance in order to enhance enforcement of federal law. These measures will help shed light on wage discrimination that would otherwise go unseen.

This legislation takes vital steps toward realizing the goals established 45 years ago in the Equal Pay Act. I urge my colleagues to join me in supporting the bill.

Mr. DAVIS of Illinois. Mr. Chairman, the House of Representatives passed H.R. 1338, the Paycheck Fairness Act, sponsored by Representative ROSA L. DELAURO (D-CT). H.R. 1338 amends the Equal Pay Act, one of the primary laws addressing pay discrimination. Since becoming law, loopholes and weak remedies have made the Equal Pay Act less than effective in combating discrimination. The Paycheck Fairness Act, strengthens and improves the effectiveness of the Equal Pay Act.
There should be little doubt that such improvements are necessary. More than four decades after the enactment of the Equal Pay Act, women still make only 77 cents for every dollar made by their male counterparts, a wage disparity that cannot be explained by differences in qualifications, education, training, or life choices. Rather, in many cases, the pay differential has resulted from unlawful sex discrimination.

The consequences of this discrimination are severe and predictable. The pay disparity forces single-parent households and families of women who earn less than their own households, while simultaneously reducing women’s retirement earnings. In short, unfair pay disparities perpetuate women’s economic dependence and deprive them of economic opportunity and equal protection of the laws.

The Paycheck Fairness Act provides for compensatory and punitive damages only “as appropriate,” with no further limitation or arbitrary cap being necessary. The modest provisions for compensatory and punitive damages in the Paycheck Fairness Act bring remedies for victims of sex-based wage discrimination in line with those available for victims of wage discrimination based on race and national origin.

I want to take this opportunity to thank Chairman MILLER, and Subcommittee Chairwoman WOOLSEY and Congresswoman DELAUR to championing this important wage discrimination legislation.

Mr. KUCINICH. Mr. Chairman, the Paycheck Fairness Act is an important step in eliminating the gap that exists between the compensation of men and women, a gap that has existed for decades and persists to this day despite the gains made by women.

Among other things, the bill will close a loophole that some employers exploit to avoid compensation discrimination lawsuits, and will put gender discrimination on a par with other types of discrimination.

Men and women are equally important to the health and vitality of the American economy, and it is high time that compensation reflected that fact.

Women who work full time continue to make roughly 25 percent less for equal work and with equal qualifications to their male counterparts. This means that a woman makes significantly less money based on one single factor: Her sex. This is sexist, unconscionable and discriminatory.

This discrimination impacts women in their struggle for economic independence, and their ability to care for their families and themselves. It continues to promote the backward thinking that undervalues and devalues women in the United States and around the world.

I support H.R. 1338 because I believe it moves us in a direction that closes the discriminatory wage gap. It is long overdue.

I look forward to the day when everyone in the labor force is treated equally.

I urge my colleagues to support this important bill.

Ms. SCHAKOWSKY. Mr. Chairman, I rise today in strong support of H.R. 1338, the Paycheck Fairness Act. I am an original cosponsor of this bill because I believe it is time that we end gender discrimination in the workplace.

The Paycheck Fairness Act addresses one of the most evident and detrimental aspects of gender discrimination: Wage disparity. As we know from the U.S. Census Bureau, women across the country earn, on average, only 77 cents for every dollar a man receives for the same work, with many employers paying up to between $400,000 and $2 million over a working lifetime. In Illinois, where the average working woman earns 75 cents for every dollar earned by a man, the wage gap and the cost to women are even larger.

In today’s economy, the discrimination hits working parents particularly hard, whether they are heads of households or the second or even third wage earner in a family. With higher food, energy, health care, transportation and housing costs, women are struggling to stretch every dollar in order to meet their family’s needs. Wage discrimination unfairly shrinks those dollars, especially for women of color and self-employed women who suffer from a higher-than-average wage gap. It deprives women of dollars that they have earned but, because of the paycheck gap, do not get.

H.R. 1338 would eliminate this unjustifiable disparity. It is long overdue. H.R. 1338, the Paycheck Fairness Act, is vital to our families. It is the right thing to do, and I urge my colleagues to support it.

Mr. STARK. Mr. Chairman, there is no excuse for the wage gap that still exists between men and women in today’s workforce. Equalizing wages will provide women with equal pay for equal work and improve the standard of living for millions of American families. That is why I rise today in strong support of H.R. 1338, the Paycheck Fairness Act.

The need for the reform of the Equal Pay Act (EPA) is obvious. More than four decades after Congress enacted it, hard-working women still earn only 77 cents for every dollar earned by a man. This represents an improvement over the 58 cents women earned when the EPA was passed in 1963, but it is hardly enough. And it still will not be enough when the day comes that women earn 99 cents for every dollar that a man earns. “Equal” is not a word that allows room for negotiation, and nothing short of women being paid the same wages as men should be acceptable.

We are here today to vote for the Paycheck Fairness Act for the fourth time since it was first introduced in 2005. That is three times too many. We took jobs as Representatives of the House with the promise to represent our constituents to the best of our ability. I don’t see how it is possible to do that when we neglect to ensure that something as basic and fundamentally important as fair pay is granted to the working women of our districts.

The Paycheck Fairness Act contains the tools necessary to achieve EPA’s goal. It will increase penalties for employers who pay different wages to men and women for equal work, requiring employers who pay more than $2 million to pay back pay and in some cases double back pay. It will also strengthen the remedies available to include punitive and compensatory damages.

Under the EPA, plaintiffs can only recover back pay and in some cases double back pay. The damages would not be capped; require the Department of Labor to improve on and expand training efforts to work with employers in order to eliminate pay disparities; Enhance the collection of information on women’s and men’s wages in order to more fully explore the reasons for gender-based wage gap and to assist employers in their efforts to rectify pay disparities; and

Create a new grant program to help strengthen the negotiation skills of girls and women.
Mr. Chairman, I was shocked when I heard last year about the case of Lilly Ledbetter, the Goodyear Tire plant employee who suffered from pay discrimination for nearly two decades. After learning that she had been victimized by her employer, she brought an Equal Employment Opportunity Commission complaint against the firm without a win. Unfortunately, a majority of our anti-quirk, pro-corporate Supreme Court denied her claim, ruling that employees can only file a wage-discrimination complaint within 180 days of a discriminatory paycheck. Ms. Ledbetter, a clear victim of discrimination, was left with no recourse in a country founded on a respect for the rule of law. For this, we should be ashamed.

Mr. Chairman, I believe our courts are our last line of defense when it comes to protecting the fundamental rights enshrined in our Constitution and in our civil rights laws. With our marketplace and court systems unwilling to correct obvious injustices, we need a legislative solution that will ensure that the universal values of fairness, respect, and decent continue to be a part of the American work experience. To this end, I urge my colleagues to step up to “equal pay for equal work” and pass H.R. 1388.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Chairman, I rise today in strong support of H.R. 1338, the Paycheck Fairness Act.

It has been 45 years since the passage of the landmark Equal Pay Act of 1963, and while pay disparities have narrowed, a strong wage disparity still exists. In fact, according to the U.S. Census Bureau women still make only 77 cents on the dollar to their male counterparts.

We cannot deny that this gender disparity exists, and it is essential that we close the loopholes that allow it to continue. The Paycheck Fairness Act helps close these loopholes by increasing enforcement and accountability in cases of discrimination. This bill provides relief for women who face retaliation for standing up for “equal pay for equal work” and it requires the Department of Labor to increase their effort to end pay disparities.

This is not only a bill for women, but a bill for children. For the millions of working mothers in America—many of whom are heads of households—it offers financial stability. This wage disparity is costing women between $400,000 and $2 million over a lifetime.

Lower wages factor into long-term financial planning. Retirement and Social Security is based on income. Retirement aged women today are far less likely to receive a pension, and rely on Social Security benefits to survive. The wage discrimination women are facing today will continue to follow them well into retirement.

We cannot continue to simply accept this disparity, and the Paycheck Fairness Act is a strong statement that this type of discrimination will not be tolerated. I would like to thank Congresswoman DELAUR. for offering this important piece of legislation, and commend Chairman MILLER and the Democratic leadership for bringing this bill to the floor.

Mr. DINGELL. Mr. Chairman, I rise today in strong support of H.R. 1338, the Paycheck Fairness Act.

Kofi Anan once said “When women thrive, all of society benefits, and succeeding generations are given a better start in life.” In a period of tough economic times, this bill and this quote could not be more timely or more relevant. Despite the passage of the Equal Pay Act in 1963 women still earn only 77 cents for every dollar that men earn. In a society where women are increasingly the heads of households, pay inequity harms not only the individual woman but her children and other family members as well. H.R. 1388 increases the penalties for gender discrimination, and puts gender discrimination sanctions on equal footing with other forms of wage discrimination, including those based on race, disability, or age. The bill prohibits employers from retaliating against employees who share salary information with their co-workers. The fact of the matter is that, for every woman who comes forward and speaks out against pay discrimination, there are scores of other women who remain silent for fear of retaliation. This legislation sends a strong message to women that their elected officials recognize the discrepancy in pay and are doing everything in their power to remedy pay discrimination.

In closing, I would like to quote Betty Friedan, world renowned feminist and author of the book The Feminine Mystique: “A girl should not expect special privileges because of her sex but neither should she adjust to prejudice and discrimination.” There is no room in this society for gender discrimination, which harms the greater community because when we uplift one segment of society, we uplift our entire society.

For all the single mothers, working mothers, and young women entering the workforce, I lend my full support to H.R. 1338, the Paycheck Fairness Act.

This is a sound piece of legislation, a critical piece of legislation, and I encourage all of my colleagues to support H.R. 1338, the Paycheck Fairness Act.

Ms. DELAUR. for her tireless leadership on this legislation. We owe it to our mothers, wives, and daughters to support this legislation. We owe it to our mothers, wives, and daughters to support this legislation.

Mr. VAN HOLLEN. Mr. Chairman, I rise in strong support of the Paycheck Fairness Act— for the basic promise of equality it upholds for America’s women and the fact it keeps with the best of who we are as a nation.

The Equal Pay Act was passed in 1963 to enshrine into law the basic principle of equal pay for equal work. Forty-five years later, we are here today because American women still only make $.77 cents for every dollar a male counterpart earns when performing equal work. Worse, African-American women earn only $.66 on the dollar, and Hispanic women a mere $.55.

This continued and persistent wage gap between men and women cannot be explained by differences in education, qualifications or experience. It is both unacceptable and un-American. And it must stop.

The Paycheck Fairness Act will move us towards our ultimate goal of eliminating wage disparity in the United States by clarifying that any employer’s decision to pay a male employee more than a female employee must not be based on gender, must be job-related and must be consistent with business necessity. To avoid a repeat of the facts presented to the Supreme Court in the Ledbetter v. Goodyear Tire and Rubber case, this legislation also prohibits employers from retaliating against employees who discuss or disclose salary information with co-workers. And it strengthens the remedies made available to women who have been subjected to gender-based wage discrimination.

Mr. Chairman, in closing, I want to recognize my good friend and colleague ROSA DELAUR. for her tireless leadership on this legislation. We owe it to our mothers, wives, sisters and daughters to pass it without delay.

Mr. LANGEVIN. Mr. Chairman, I rise in strong support of H.R. 1338, the Paycheck Fairness Act, which would narrow the wage gap between men and women. As a cosponsor of the Paycheck Fairness Act and a co-signer of the Equal Rights Amendment, I have long believed that our Constitution to finally give women the respect and the rights that it upholds for women’s issue.” In fact, this is not a women’s issue. It is a women’s issue.

Ms. DELAUR. for her tireless leadership on this legislation. We owe it to our mothers, wives, and daughters to support this legislation.

Mr. Chairman, I rise today in strong support of H.R. 1338, the Paycheck Fairness Act.

I would like to acknowledge my colleague, Representative ROSA DELAUR. for her leadership on this issue and for bringing this bill to the Floor.

Kofi Anan once said “When women thrive, all of society benefits, and succeeding generations are given a better start in life.” In a period of tough economic times, this bill and this quote could not be more timely or more relevant. Despite the passage of the Equal Pay Act in 1963 women still earn only 77 cents for every dollar that men earn. In a society where women are increasingly the heads of households, pay inequity harms not only the individual woman but her children and other family members as well.

H.R. 1388 increases the penalties for gender discrimination, and puts gender discrimination sanctions on equal footing with other forms of wage discrimination, including those based on race, disability, or age. The bill prohibits employers from retaliating against employees who share salary information with their co-workers. The fact of the matter is that, for every woman who comes forward and speaks out against pay discrimination, there are scores of other women who remain silent for fear of retaliation. This legislation sends a strong message to women that their elected officials recognize the discrepancy in pay and are doing everything in their power to remedy pay discrimination.

In closing, I would like to quote Betty Friedan, world renowned feminist and author of the book The Feminine Mystique: “A girl should not expect special privileges because of her sex but neither should she adjust to prejudice and discrimination.” There is no room in this society for gender discrimination, which harms the greater community because when we uplift one segment of society, we uplift our entire society.

For all the single mothers, working mothers, and young women entering the workforce, I lend my full support to H.R. 1338, the Paycheck Fairness Act.

This is a sound piece of legislation, a critical piece of legislation, and I encourage all of my colleagues to support H.R. 1338, the Paycheck Fairness Act.
Women now comprise 59 percent of the workforce, compared to about one-third when the Equal Pay Act was first passed. All working people deserve the same opportunities to succeed professionally and personally. The Paycheck Fairness Act will solidify our commitment to this equality and bring us closer to achieving the goal set in 1963 not so long ago in the Equal Pay Act of 1963 by closing loopholes in the law that have allowed employers to evade liability, providing tools to improve outreach and training efforts to work with employers, strengthening the negotiation skills of girls and women, and promoting the collection of information on women’s and men’s wages.

It is simply unacceptable that in the past 40 years the wage gap has narrowed by less than 20 percent. We have the opportunity to aid millions of American workers to achieve the American Dream, and so I am proud to support H.R. 1338.

Mr. GENE GREEN of Texas. Mr. Chairman, as cosponsor of this legislation for multiple Congresses, I rise in strong support and urge my colleagues to join me in supporting the Paycheck Fairness Act.

This legislation would take meaningful steps to empower women to negotiate for equal pay, to create strong incentives for employers to follow the law, and to strengthen federal outreach and enforcement.

According to the 2006 Census Bureau, women still earned only about 77 percent as much as men did. Women of color were worse off—African American women made 66 cents on the dollar compared to the highest earners, white men, while Hispanic women made only 55 cents. According to the Institute of Women’s Policy Research, working women stand to lose anywhere between $400,000 and $2 million dollars over the course of their career because of unequal pay practices.

While women’s wages and educational attainment have been rising, there is still a sizeable gender wage gap. Only a portion of the difference in pay can be explained by experience, education, or qualifications.

Using data collected by the Bureau of Labor Statistics and the Census Bureau between 2004–2009, men were paid 96 cents for every dollar earned by women. The paycheck has to come to make sense common sense adjustments to the act in order to make it more effective in fighting gender-based employment and pay discrimination.

The American dream is undermined daily as women are denied equal pay for their work. Improvement has come too slowly over the past 45 years, with women’s wages rising from 59 cents for every dollar earned by a man—less than a 20 percent increase since the Equal Pay Act was signed into law in 1963. Even more troubling, African-American women earn 66 cents to the dollar and Latina women earn 55 cents to the dollar. According to a Census Bureau study, male high school graduates earned $13,000 more than female high school graduates, with a bachelor’s degree employed year-round earned $53,201, while similarly educated men earned an average of $76,749. This same study also noted that the pay difference between men and women grows wider as they age.

Mr. HARE. Mr. Chairman, I urge my colleagues to support this bill so that women like Lilly Ledbetter do not have to argue their case for equal pay all the way to the Supreme Court, so that single mothers do not have to worry whether or not they are being treated fairly by their employers while they provide for their children, and so that daughters entering college can reach their full potential when they graduate.

Finally, I would like to thank my friend Congresswoman DELAURA for her many years of leadership, as well as inspiring women of all ages across our country.

Mr. HONDA. Mr. Chairman, I rise today to speak in very strong support of H.R. 1338, the Paycheck Fairness Act. The Equal Pay Act of 1963 was a critical step forward in the ongoing struggle for pay equity for women. The time has come to make sense common sense adjustments to the act in order to make it more effective in fighting gender-based employment and pay discrimination.

A 2003 study by the U.S. Government Accountability Office found that when all the key factors that influence earnings are controlled for—demographic factors such as marital status, race, number and age of children, and income, as well as work patterns such as years of work, hours worked, and job tenure—there is a 23 percent pay gap between women and men that cannot be explained or justified.

Congress must pass this legislation to help ensure that this goal becomes a reality, and I urge my colleagues to join me in supporting H.R. 1338.

Mr. HARE. Mr. Chairman, I rise today in strong support of H.R. 1338, the Paycheck Fairness Act of which I am an original cosponsor. Every April I participate in “Equal Pay Day” with my friend, Representative ROSA DELAURA and other colleagues. This is the time of year when wages paid to American women “catch up” to the wages paid to men from the previous year. In other words, because the average woman earns less, she must work longer for the same amount of pay. The legislation before us today addresses this unacceptable reality.

According to the U.S. Census Bureau, women only make 77 cents for every dollar earned by a man. This wage disparity will end up costing women anywhere from $400,000 to $2 million over a lifetime in lost wages. Making matters worse, the wage gap grows wider as women age and move through their careers, creating serious economic security concerns.

The Paycheck Fairness Act will strengthen pay equity laws by closing the loopholes that have allowed employers to avoid responsibility for discriminatory pay, and help build economic and retirement security for women.

It is in the best interest of all Americans to ensure that every worker is treated fairly and I urge my colleagues to support this bill. I commend Ms. DELAURA for introducing the legislation and for her leadership on this issue over the past decade.

Ms. HIRONO. Mr. Chairman, I rise in strong support of H.R. 1338, the Paycheck Fairness Act. This legislation is needed to strengthen the Equal Pay Act of 1963. I thank Congresswoman DELAURA for sponsoring this bill and fighting for its passage year after year and Chairman GEORGE MILLER for championing this bill through the committee and on the House floor.

The Paycheck Fairness Act has garnered tremendous support from 230 cosponsors and over 200 national, state, and local organizations. While the Equal Pay Act was intended to prevent pay discrimination in the workplace, 45 years after it was signed by President Kennedy, one woman in five is paid less than her male counterpart for the same work.

Women earn less than their male colleagues during their careers, which in turn adversely affects their ability to save and accrue retirement benefits.

As a representative of the second Congressional district of Hawaii, I have the great honor and responsibility of continuing the important work of my predecessor, Patay Takemoto Mink. Congresswoman Mink’s personal struggles as a woman in a culture dominated by men inspired her to work tirelessly for equal rights for women and girls. She faced obstacles in pursuing her education and career, but she never gave up, and she broke down barriers, becoming the first Japanese-American woman admitted to the bar in Hawaii and the first woman of color elected to national office in this country when she was elected to the U.S. House of Representatives in 1964.

To this day, women continue to break down barriers in the workplace, but they still receive only a fraction of the pay men receive for the same work.
Although the Equal Pay Act of 1963 was passed to prevent pay discrimination based on sex, the law clearly has not had the intended result, even after 45 years. Women still make only 77 cents for every dollar earned by men for equal work. This bill will strengthen enforcement of the law, thereby fulfilling its intended purpose.

I strongly urge my colleagues to stand up for the right of women to receive equal pay and support the Paycheck Fairness Act.

Mr. BACA. Mr. Chairman, I rise in support of H.R. 1338 and I want to thank Congresswoman LAURO for her leadership on this important bill.

She has fought for paycheck fairness for women during every Congress for the past decade and should be commended for her tenacity.

We are a nation with a constitution and bill of rights.

It is sad to admit that in a country as prosperous as ours, women only earn 77 cents to every dollar that men earn.

It's even worse for minority women: with African American women earning 66 cents to the dollar of Latinas earning 55 cents to the dollar.

This bill corrects this injustice by making it illegal for employers to pay unequal wages to men and women who perform equal work.

In 1923, women's suffragist Alice Paul, wrote the Equal Rights Amendment which would guarantee “equal justice under law” to all citizens. I was proud to sponsor a bill that would honor Alice Paul with a congressional Gold Medal for her heroic leadership in fighting for the ERA and in working to achieve women’s right to vote. My bill, H.R. 406 passed the house with 406 cosponsors, a historic record of support! While the ERA was never ratified, the Paycheck Fairness Act brings us closer to achieving its intent.

Wage discrimination keeps women down and harms the overall economy. It also represents the worst of America. We must confront discrimination head on and ensure that all Americans, regardless of gender, receive equal pay for equal work.

Mr. GEORGE MILLER of California. I yield back the balance of my time.

The CHAIRMAN. All time for general debate has expired.

Pursuant to the rule, the amendment in the nature of a substitute printed in the bill shall be considered as an original bill for the purpose of amendment under the 5-minute rule and shall be considered read.

The text of the committee amendment is as follows:

H.R. 1338

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SEC. 1. SHORT TITLE.

This Act may be cited as the “Paycheck Fairness Act”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Women have entered the workforce in record numbers over the past 50 years.

(2) Despite the enactment of the Equal Pay Act in 1963, many women continue to earn significantly lower pay than men for equal work. These pay disparities exist in both the private and governmental sectors. In many instances, these pay disparities can only be due to continued intentional discrimination or the lingering effects of past discrimination.

(3) The existence of such pay disparities—

(A) depresses the wages of working families who rely on the wages of all members of the family to make ends meet;

(B) undermines retirement security, which is often based on earnings while in the workforce;

(C) prevents the optimum utilization of available labor resources.

(D) has been spread and perpetuated, through commerce and the channels and instrumentalities of commerce, among the workers of the several States;

(E) burdens commerce and the free flow of goods in commerce;

(F) constitutes an unfair method of competition in commerce;

(G) leads to labor disputes burdening and obstructing commerce and the free flow of goods in commerce;

(H) interferes with the orderly and fair marketing of goods in commerce; and

(I) in many instances, may deprive workers of equal protection on the basis of sex in violation of the 5th and 14th amendments.

(B) These barriers have been imposed, in significant part, because the Equal Pay Act has not worked as Congress originally intended. Improvements and modifications to the law are necessary to ensure that the Act provides effective protection to those subject to pay discrimination on the basis of their sex.

(C) Elimination of such barriers would have positive effects, including—

(i) providing a solution to problems in the economy created by unfair pay disparities; (ii) substantially reducing the number of working women earning unfairly low wages, thereby reducing the dependence on public assistance; (iii) promoting stable families by enabling all family members to earn a fair rate of pay; (iv) remedying the effects of past discrimination on the basis of sex and ensuring that in the future workers are afforded equal protection on the basis of sex; and

(v) ensuring equal protection pursuant to Congress' power to enforce the 5th and 14th amendments.

(5) The Department of Labor and the Equal Employment Opportunity Commission have important and unique responsibilities to help ensure that women receive equal pay for equal work.

(6) The Department of Labor is responsible for—

(A) collecting and making publicly available information about women's pay;

(B) ensuring that companies receiving Federal contracts comply with anti-discrimination affirmative action requirements of Executive Order 11246 (relating to equal employment opportunity);

(C) disseminating information about women's rights in the workplace;

(D) helping women who have been victims of pay discrimination obtain a remedy; and

(E) being proactive in investigating and prosecuting equal pay violations, especially systemic violations, and in enforcing all of its mandates.

(7) The Equal Employment Opportunity Commission is the primary enforcement agency for claims made under the Equal Pay Act, and issues regulations and guidance on appropriate interpretations of the law.

(8) With a stronger commitment by the Department of Labor and the Equal Employment Opportunity Commission to their responsibilities, increased information about the provisions of the Equal Pay Act, added enforcement, and more effective remedies, women will be better able to recognize and enforce their rights.

(9) Certain employers have already made great strides in eradicating unfair pay disparities in the workplace and their achievements should be recognized.

SEC. 3. ENHANCED ENFORCEMENT OF EQUAL PAY REQUIREMENTS.

(a) BONA FIDE FACTOR DEFENSE AND MODIFICATION OF SAME—ENFORCEMENT REQUIREMENTS.—Section 6(b)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(d)(1)) is amended—

(1) by striking “No employer having” and inserting “(A) No employer having”;

(2) by striking “any other factor other than sex” and inserting “a bona fide factor other than sex, such as education, training, or experience”;

and

(3) by inserting at the end the following:

(B) The bona fide factor described in subparagraph (A)(v) shall apply only if the employer demonstrates that such factor (i) is not based upon or derived from a sex-based differential in compensation, or (ii) is job-related with respect to the position in question; and (iii) is consistent with business necessity. Such defense shall not apply where the employee demonstrates that employment practice exists that would serve the same business purpose without producing such differential and that the employer has refused to adopt such alternative practice.

“(C) For purposes of subparagraph (A), employees shall be deemed to work in the same establishment if the employer has the same employer at workplaces located in the same county or similar political subdivision of a State. The preceding sentence shall not be construed as limiting broader applications of the term ‘establishment’ consistent with rules prescribed or guidance issued by the Equal Opportunity Employment Commission.”.

APPLICATION OF PROVISIONS.—Section 6(d)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(d)(1)) is further amended by adding at the end the following: ‘‘The provisions of this subsection shall apply to a woman’s employment if such applicants, upon employment by the employer, would be subject to any provision of this section.’’

in subsection (a)(3), by striking ‘‘employee has filed’’ and all that follows and inserting ‘‘employee—’’;

“(A) has made a charge or filed any complaint or instituted or caused to be instituted any investigation, proceeding, hearing, or action under or related to this Act, including an investigation conducted by the employer, or has testified or is planning to testify or has participated in any manner in any such investigation, proceeding, hearing, or action or in an investigation conducted by the employer, or has served or is planning to serve on an industry Committee; or

“(B) has inquired about, discussed or disclosed the wages of the employee or another employee;’’;

and

(2) by adding at the end the following:

(c) Section (a)(3)(B) shall not apply to instances in which an employer would have access to the wage information of other employees as a part of such employee’s essential job functions discloses the wages of such other employees to individuals who do not otherwise have access to such information, unless such disclosure is in response to a complaint or charge or in furtherance of an investigation, proceeding, hearing, or action under section investigation conducted by the employer. Nothing in this subsection shall be construed to limit the rights of an employee provided under any other provision of law.’’

ENHANCED PENALTIES.—Section 16(b) of the Fair Labor Standards Act of 1938 (29 U.S.C. 216(b)) is amended—

(1) by inserting after the first sentence the following: ‘‘Any employer who violates section 6(d)’’;
shall additionally be liable for such compensatory
damages or punitive damages as may be approp-
rate, except that the United States shall not
be liable for punitive damages; 
(2) in the case of an action brought
by striking “any of the preceding sentences
and inserting “in any action brought to
recover the liability prescribed in any of the preceding sentences of this subsection”;
and 
(3) by inserting before the period the fol-
lowing: “, including expert fees’. ’
(e) ACTION BY SECRETARY.—Section 16(c) of
the Fair Labor Standards Act of 1938 (29 U.S.C. 216(c)) is amended— 
(1) in the first sentence— 
(A) by striking “in such action” and inserting
“in any action brought to enforce section 6(d),” and 
(B) by inserting before the period the fol-
lowing: “, or such compensatory or punitive
damages, as appropriate”; 
(2) in the second sentence, by inserting before the period the fol-
lowing: “and, in the case of a violation of section 6(d), additional compensa-
tory or punitive damages”; 
(3) in the third sentence, by striking “the first or second sen-
tence” and 
(4) in the last sentence— 
(A) by striking “commenced in the case” and inserting
“(1) in the case,” 
(B) by striking the period and inserting “; or” and 
(C) by adding at the end the following: “(2) in the case of a class action brought to
enforce section 6(d), on the date on which the individual becomes a party plaintiff to the class action.”

SEC. 4. TRAINING.
The Equal Employment Opportunity Commis-
sion and the Office of Federal Contract Compli-
ance Programs, subject to the availability of funds appropriated under section 11, shall pro-
vide training to Commission employees and af-
fected individuals and entities on matters in-
volving discrimination in the payment of wages.

SEC. 5. NEGOTIATION SKILLS TRAINING FOR
WOMEN AND GIRLS.
(a) PROGRAM AUTHORIZED.—
(1) IN GENERAL.—The Secretary of Labor,
after consultation with the Secretary of Edu-
cation, is authorized to establish and carry out
a grant program.
(2) In carrying out the program, the Secretary of Labor may make grants on a compet-
etive basis to eligible entities, to carry out nego-
tiation skills training programs for girls and women.
(3) ELIGIBLE ENTITIES.—To be eligible to re-
ceive a grant under this subsection, an entity shall
be a public agency, such as a State, a local
government in a metropolitan statistical area (as
defined by the Office of Management and Bud-
get), a State educational agency, or a local edu-
cational agency, a private nonprofit organiza-
tion, or a community-based organization.
(4) APPLICATION.—To be eligible to receive a grant
under this subsection, an entity shall sub-
mit an application to the Secretary of Labor at
such time and in such form as the Secretary may
determine, and containing such information as the Secretary of Labor may re-
quire.

H7692
CONGRESSIONAL RECORD—HOUSE July 31, 2008

(5) USE OF FUNDS.—An entity that receives a grant
under this subsection shall use the funds made
available through the grant to carry out an
effective negotiation skills training program
that is appropriate.
(6) USE OF FUNDS.—An entity that receives a grant
through the program shall use the funds
made available through the grant to carry out an
effective negotiation skills training program
that is appropriate.
(b) a partnership;
(c) a professional association;
(d) a labor organization; and
(e) a business entity similar to an entity de-
scribed in any of subparagraphs (A) through (D);
(2) an entity carrying out an education refer-
ral program, a training program, such as an
apprenticeship or management training program,
or a similar program;
and
(3) an entity carrying out a joint program,
formed by a combination of any entities de-
scribed in paragraph (1) or (2).

SEC. 8. COLLECTION OF PAY INFORMATION BY THE
EQUAL EMPLOYMENT OPPOR-
TUNITY COMMISSION.
Section 709 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-8) is amended by adding at the end the
following:
“(1) Not later than 18 months after the date of
enactment of this subsection, the Commission shall—
(A) complete a survey of the data that is cur-
rently available to the Federal Government re-
lating to employee pay information for use in
the enforcement of Federal laws prohibiting pay
discrimination and, in consultation with other
relevant Federal agencies, identify additional
data sources that will enhance the enforce-
ment of such laws; and
(B) based on the results of the survey and
analyses under subsection (A), issue regula-
tions to ensure that pay information data from employers as described by the
sex, race, and national origin of employees.

(2) In implementing paragraph (1), the Com-
misson shall have as its primary consideration
the most effective and efficient means for en-
hancing the enforcement of Federal laws pro-
hibiting pay discrimination. For this purpose, the
commission shall consider factors including the
imposition of burdens on employers, the fre-
cency of required reports (including which em-
ployers should be required to prepare reports),
appropriate protections for maintaining data
confidentiality, and the most effective format for
the data collection reports.

SEC. 9. REINSTATEMENT OF PAY EQUITY PRO-
GRAMS AND PAY EQUITY DATA COL-
LECTION.
(a) BUREAU OF LABOR STATISTICS DATA COL-
LECTION.—The Commissioner of Labor Statistics
shall continue to collect pay data relating to women workers in the Current Employment Statistics survey.
(b) OFFICE OF FEDERAL CONTRACT COMPLI-
ANCE PROGRAMS INITIATIVES.—The Director of the
Office of Federal Contract Compliance Pro-
grams shall ensure that employees of the
Office—
(1) shall use the full range of investigatory tools at the Office’s disposal, including pay
grade methodology;
(2) in considering evidence of possible compensa-
tion discrimination—
(A) shall not limit its consideration to a small
number of types of evidence; and
(B) shall not limit its evaluation of the evi-
dence to a small number of methods of evalu-
ingen the evidence; and
(C) shall not require a multiple regression
analysis or anecdotal evidence for a compensa-
tion discrimination case;
(2) for purposes of its investigative, compli-
ance, and enforcement activities, shall define
“similarly situated employees” in a way that is
consistent with and not more stringent than the
definition provided in item 1 of subsection A of
section 10–III of the Equal Employment Oppor-
tunity Commission Compliance Manual (2000),
and shall consider only factors that the Office’s
investigation reveals to be used in making com-
penstation decisions; and
(3) shall reinstate the Equal Opportunity Sur-
avy, as required by section 60–2.18 of title 41,
(a) releasing the Federal Regulations, designating not
less than half of all nonconstruction contractor

establishments each year to prepare and file
such survey, and shall review and utilize the responses to such survey to identify contractor establishments for further evaluation and for other enforcement purposes as appropriate.

(c) DEPARTMENT OF LABOR DISTRIBUTION OF WAGE DISCRIMINATION INFORMATION.—The Secretary of Labor shall make readily available (in print, on the Department of Labor website, and through any other means that the Department may use to distribute compensation discrimination information), accurate information on compensation discrimination, including statistics, explanations of employer rights, historical analyses of such discrimination, instructions for employers on compliance, and any other information that will assist the public in understanding and addressing such discrimination.

SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated $25,000,000 to carry out this Act.

The CHAIRMAN. No amendment to the committee amendment is in order except those printed in House Report 110–807. Each amendment shall be considered only in the order printed in the report; by a Member designated in the report; shall be considered read; shall be debatable for the time specified in the report, equally divided and controlled by the proponent and an opponent of the amendment; shall not be subject to amendment; and shall not be subject to a demand for division of the question.

AMENDMENT NO. 1 OFFERED BY MS. BEAN

The CHAIRMAN. It is now in order to consider amendment No. 1 printed in House Report 110–807.

Ms. BEAN. Mr. Chairman, I have an amendment at the desk.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 1 offered by Ms. BEAN:

Page 8, line 23, strike "(b) APPLICATION OF PROVISIONS" and all that follows through page 9, line 4.

Page 9, line 5, strike "(c)" and insert "(b)".

Page 10, line 12, strike "(d) and insert "(c)".

Page 11, line 18, strike "(e)" and insert "(d)".

The CHAIRMAN. Pursuant to House Resolution 1388, the gentlewoman from Illinois (Ms. BEAN) and a Member opposed will each control 5 minutes.

The Chair recognizes the gentlewoman from Illinois.

Ms. BEAN. Mr. Chairman, I rise today to offer an amendment to H.R. 1338, the Paycheck Fairness Act.

First, I would like to acknowledge the leadership of Congresswoman Rosa DeLAURO, Chairman MILLER, and so many others in our Congress who worked long and hard to address the issue of pay equity. Having worked 20 years in the private sector before coming to Congress, where I am now uniquely qualified to speak about this issue, I understand the significance of this legislation before us today.

The amendment I am offering would strike section 3(b) titled Application of Provision in the Underlying Bill. By doing so, this amendment would prevent the expansion of the Equal Pay Act to include job applicants.

Under the current Equal Pay Act, only employees can raise a claim on pay discrimination. However, the underlying bill, in its current form, would, for the first time, allow job applicants to file suit, even if they do not accept a position for pay discrimination under the statute. This is a significant expansion of the act, especially in the context of a bill that is otherwise focused on strengthening existing rights already provided to employees under the Equal Pay Act.

While I am an ardent supporter of expanding the Equal Pay Act rights to applicants, the very nature of extending these rights to applicants leads to several practical complications. The bill is unclear on how to deal with these complications.

For example, H.R. 1338 fails to clarify for employers how long they would be liable to an applicant who is offered lower wages than an individual subsequently hired. First, there is no certainty that the initial offer is representative of what a negotiated final offer might have been.

In addition, if an employer originally offers a job at, say, $10 an hour, but raises the offer to $12 a few months later because she was unable to find a qualified applicant, is the employer potentially liable to every prior applicant of the opposite sex? How far back would that liability extend?

Even more concerning is that without better defined rules for how applicants would be covered under this act, employers might be deterred, out of an abundance of caution, from raising the salary offered for a job opening when they are unable to initially fill a position.

For these reasons, and others, I believe this bill should be narrowed to only employees, but even applicants for employment. I agree that striking this provision is the right thing to do. Under current law, and since 1963, the Equal Pay Act has required that employers pay equal wages earned for equal work performed. It is hard to imagine how the law was ever meant to cover the payment of wages which have not yet been earned for work that has not yet been done. Frankly, the provision should not have been included in the bill in the first place, and I support its deletion.

That said, I stress again that this change is, at best, cosmetic and too little too late to address the fundamental flaws in the underlying bill. Put more simply, this amendment is the equivalent of putting lipstick on a pig. At the end of the day, it doesn’t change things much.

You know where I got that from. I will not oppose the amendment, but I remain opposed to the bill.

I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment. The amendment was agreed to.

AMENDMENT NO. 2 OFFERED BY MR. PRICE OF GEORGIA

The CHAIRMAN. It is now in order to consider amendment No. 2 printed in House Report 110–807.

Mr. PRICE of Georgia. Mr. Chairman, I have an amendment made in order by the Clerk.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Mr. Price of Georgia:

Page 12, after line 20, insert the following:

(1) CONCEPTUAL IMPLEMENTATION.—

(1) CONCEPTUAL EFFECTIVE DATE.—Subject to subparagraph (d), this section and the amendments made by this section shall become effective on the date that is 90 days after the Secretary transmits to Congress the report required under subparagraph (2).

(2) STUDY ON RECRUITMENT AND HIRING OF EMPLOYEES.—The Secretary shall conduct a study to determine the effect of the requirements of this section and the amendments made under this section on the ability of employers to recruit and hire employees irrespective of gender, and not later than 90 days after the date of enactment of this Act shall transmit to Congress a report containing the findings of such study.

(3) DETERMINATION BY SECRETARY.—This section and the amendments made by this section shall not take effect if the Secretary finds that the requirements of this section may significantly hinder employers’ recruitment of employees irrespective of gender.

The CHAIRMAN. Pursuant to House Resolution 1388, the gentlewoman from Georgia: 1730

H7693

July 31, 2008

CONGRESSIONAL RECORD — HOUSE
Georgia (Mr. PRICE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Georgia.

Mr. PRICE of Georgia. Mr. Chairman, this amendment makes implementation of the changes required by this bill contingent upon a study that demonstrates that these provisions do not hinder recruiting and hiring.

Equal pay for equal work, as has been mentioned multiple times today, is the law of the land. It is now and it has been since the passage of the Equal Pay Act in 1963. And generally, businesses do a tremendous job paying employees fairly, regardless of gender.

But the plan before the House today treats wage discrimination as systemic. Consequently, the conclusion of the majority party is to take this measure and turn power over to bureaucrats and to trial lawyers to interject, distort and oversee how wages are determined through lawsuits and regulations. If this happens, employment opportunities may actually become more limited, and flexible job structures may become more scarce or a thing of the past. In short, the very real opportunity this legislation attempts to correct may, in fact, exacerbate others, very real challenges, already facing American workers.

With these reforms, there would be less incentive for employers to offer a variety of working situations like flex time or more limited travel if doing so puts an employer at risk of being sued, and this bill would do that.

Such rigidity and limitations means increased expenses for employers. Current and prospective workers then suffer through lower wages and slower job creation, or simply fewer opportunities to meet individual workers needs. Overall, it may prove to be a drag on the economy by adding additional friction to labor markets.

This amendment calls on the Secretary of Labor to study the impact of these new wage discrimination provisions on the ability of employers to recruit and hire employees, regardless of gender.

A strong contention, I believe, can be made that these changes will have a detrimental effect on labor markets, increased lawsuits, unlimited damages may discourage hiring and perhaps further employment preferences for one gender in favor of another.

In order to determine this, the Secretary should have time to quantify and evaluate the bill's impact on recruitment and hiring decisions. This information that everyone should want. I believe, in this House, prior to voting on an implementation of this bill. If there is no harm to job creation, then these provisions would go forward.

All that this amendment is asking is 90 days for the Secretary to undertake an informed review. The impetus for this bill's passage shouldn't rest on faulty comparisons of male and female median annual earnings that do not take into account all sorts of things, such as education or experience or occupation.

Mr. Chairman, equal pay for equal work is already the law of the land. The revisions before us today are a departure from this standard, and may radically alter how labor markets work through increased litigation and regulation. If that happens, it is best for all of us to have a clear understanding of its impact beforehand.

I urge adoption of the amendment. I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIRMAN. The gentleman from California is recognized for 5 minutes.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentleman from New Jersey (Mr. ANDREWS).

Mr. ANDREWS. Mr. Chairman, I am opposed to this amendment because I believe it gives veto power over this legislation to the Secretary of Labor.

The premise of this amendment is we need to study more and let the Secretary of Labor decide whether we need strong protections for women to earn equal pay for equal work. I don’t think we need to study it at all. I think the fact that women are earning 77 cents for every dollar that a man earns is evidence of why we need this law.

I think the fact that 10 years out of college, when you adjust for different family factors such as child rearing, that women are earning, on the average, 12 percent less than men in similar professions shows that we need this law.

I think the fact that studies have shown that women are shorted millions of dollars, anywhere from $400,000 to $2 million over a lifetime because of inadequate enforcement of the law for equal pay for equal work. I think it makes it crystal clear that the idea of subordinating our responsibility and giving the Secretary of Labor the opportunity to subvert what we are doing here today is unjustified and unwarranted.

So I would urge the defeat of this amendment because I believe it is unnecessary, and I think it substitutes the judgment of the Secretary of Labor for that of the people elected representatives of the people. We should defeat this amendment, support this bill.

Mr. GEORGE MILLER of California. I yield 1 minute to the gentlewoman from Ohio (Ms. KAPTUR).

Ms. KAPTUR. I thank the distinguished chairman for yielding and rise to oppose the amendment and in support of the Paycheck Fairness Act.

Today, this House moves America's working women into the 21st century. From the Paycheck Fairness Act, I do not spare its history of hardship and struggle that still characterizes the lives of millions of women in our country today. In passing this act, I do so in memory of our mother and millions and millions of American women who ask only to be treated fairly in the workplace and earn equal pay for equal work and get that check.

It is a commentary on the struggle of working people everywhere that it takes a Nation centuries to enact into law what is decent and right on the merits. Today we do what is morally right and economically just. Today we give America's working women a real dose of liberty.

Mr. Chairman, I thank you for yielding me time today, oppose this amendment but strongly support this measure.

Mr. PRICE of Georgia. How much time remains, Mr. Chairman?

The CHAIRMAN. The gentleman from Georgia has 2 minutes. The gentleman from California has 2½ minutes.

Mr. PRICE of Georgia. I will reserve.

Mr. GEORGE MILLER of California. I would just join in what my colleagues have already said, that I don’t think this needs further study. And I think, certainly, the idea of basing whether or not this law will be enacted on a single study by this Secretary of Labor within 90 days, when we have a decade of studies, very few that have been challenged for their accuracy, that continue to tell us that the situation has improved, we still have this huge disparity between the pay of men and women for the same jobs, for the same responsibilities. And this legislation is designed to rid us of that disparity. It is designed to rid us of that discrimination, and it is designed to give women the tools that they need to go in and to enforce their rights. And I would hope that we would support this legislation that we would reject this amendment.

I yield back the balance of my time.

Mr. PRICE of Georgia. I would just say to my friend from Ohio, who I see is off the floor, but the egregious example that she gave, all of us agree is wrong, and it is already illegal. It is not addressed with this act. Equal pay for equal work is already the law of the land.

This amendment asks for a 90-day study by the Secretary to determine whether there are adverse effects on hiring and recruitment of employees. It is a simple amendment, commonsense amendment.

With that, I am pleased to yield to my friend from California for such time as he may consume.
Mr. MCKEON. I thank the gentleman for yielding. I think that we have heard in this debate today, 70 percent, 77 percent, over and over and over and over. And when we had a hearing last year, we had a lot of different figures that were given. It seems to me that it is important to have an outside source look at this, and I think the Secretary of Labor should do this study so that we don’t do more harm than good.

I think this is a good amendment. I thank the gentleman for offering it, and I urge support of the amendment.

Mr. PRICE of Georgia. I thank the gentleman for his comments. I would just say in closing that, in fact, there is evidence that, in fact, 70 cents on the dollar may not be an accurate figure. I don’t know what the accurate figure is. But I do know that there is disagreement about what it is.

I would like to put into the RECORD an article from Independent Women’s forum talking about just that. As such, I believe that a study is in deed appropriate. That is all that the amendment does, requests a study, 90-day study, and then report back and move forward if there is no evidence of difficulty in hiring and recruitment.

A BARGAIN AT 77 CENTS TO A DOLLAR

[From Independent Women’s Forum, April 3, 2007]

(By Carrie L. Lukas)

Why are politicians again championing the Equal Rights Amendment—newly minted as the Women’s Equality Amendment—when the speaker of the House, secretary of state and the Democratic presidential frontrunner are all women? One reason is that many claim women are making gains in education and the workforce. One reason is that many claim women are systematically discriminated against at work, as the existence of the so-called wage gap proves.

Talking about wage discrimination against women is a political mainstay. Last month, Sen. Hillary Clinton expressed consternation that women continue to make “just 77 cents for every dollar that a man makes” and re-introduced legislation, the Paycheck Fairness Act. Clinton’s legislation would give Washington bureaucrats more power to oversee how wages are determined, which might prompt businesses to make their pay structures more rigid. Flexible job structures such as the one I enjoy today would probably become scarcer.

Why would companies offer employees a variety of ways to earn a living instead of one-size-fits-all compensation packages if doing so puts them at risk of being sued?

Women hearing Clinton’s pledge to solve their problems and increase their pay should think hard about the choices they have made. They should think about the women they know and about their career paths. I bet they’ll find that maximizing pay hasn’t always been the top priority. Eliminating the wage gap may sound like a good campaign promise, but since the wage gap most likely results from differences in priorities, it’s a promise that we should hope a President Hillary Clinton wouldn’t try to keep.

Carrie Lukas is vice president for policy and economics at the Independent Women’s Forum and the author of “The Politically Incorrect Guide to Women, Sex, and Feminism.” This article was first published in The Washington Post.

I encourage adoption of the amendment and yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Georgia (Mr. PRICE).

The question is on the amendment, and the Chairman announced that the noes appeared to have it. Mr. PRICE of Georgia. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Georgia. The amendment offered by the gentleman from Georgia will be postponed.
Mr. ALTIMRE. Mr. Chairman, I demand a recorded vote.

The CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Pennsylvania will be postponed.

AMENDMENT NO. 4 OFFERED BY MS. GIFFORDS

The CHAIRMAN. It is now in order to consider amendment No. 4 printed in House Report 110–807.

Ms. GIFFORDS. Mr. Chairman, I have an amendment at the desk.

The CHIEF CLERK will designate the amendment.

The text of the amendment is as follows:

Amendment No. 4 offered by Ms. GIFFORDS:
Page 10, beginning on line 17, strike ‘‘damages or’’ and insert ‘‘damages, or, where the employee demonstrates that the employer acted with malice or reckless indifference.’’

The CHAIRMAN. Pursuant to House Resolution 1388, the gentlewoman from Arizona (Ms. GIFFORDS) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Arizona.

Ms. GIFFORDS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, as the President and CEO of my family's small tire business, I know the challenges that small businesses face in America, not just to thrive but truly to survive in a rapidly increasing global economy. Small businesses, which are the backbone of a strong and vibrant community, and women are major economic contributors since we constitute over 45 percent of small business employees.

That is why I strongly support H.R. 1338, the Paycheck Fairness Act, because it recognizes women's valuable role in the workplace.

It is also important, though, to make sure this legislation is fair. So today I'm offering an amendment that will clarify who would be subject to punitive damages as requiring malice or reckless indifference. This commonsense amendment means that businesses will not be subject to punitive damages unless they act with malice or reckless indifference. That is why I strongly support H.R. 1338, the Paycheck Fairness Act, because it recognizes women's valuable role in the workplace.

Today, as we close loopholes in the Equal Pay Act that have allowed women to continue to be underpaid for equal work, we must do so fairly. It is unacceptable for society to undervalue the work that women do and underpay us for equal work. According to the United States Department of Labor, American women are earning 74 cents for every dollar earned by a man, taking women 16 months to earn what men earn in 1 calendar year. This disparity is just unfair, but it is also a major economic concern for millions of working American families.

Closing the wage gap will also have a long-term impact on women's economic security especially during their retirement years. Women, of course, are living longer. Men are living longer, too, but women longer than men. Over time, lower wages translate into less income that counts for calculating pension and Social Security benefits. Older women are less likely than older men to receive pension income. And when they do, they only receive one-half of the benefit that men do.

As a cosponsor of the Paycheck Fairness Act, I am proud to join with 229 of my colleagues in showing strong support for this legislation.

I urge the House to pass this amendment that has been endorsed by the United States Chamber of Commerce. It is time that America, the land of equal opportunity, recognize equal pay between men and women. I am proud to be part of this historic effort.

I'm particularly proud that my mother is here in the gallery today to witness this historic act of Congress.

So thank you, Congresswoman DE LAURO, for your tireless effort over so many years, and Chairman MILLER, for continuing to fight for the people that are truly underrepresented in so many ways.

Mr. Chairman, I reserve the balance of my time.

Mr. MCKEON. Mr. Chairman, I claim the Republican time to speak on the amendment.

The CHAIRMAN. The gentleman from California is recognized for 5 minutes.

Mr. MCKEON. I yield myself such time as I may consume.

I will not oppose this amendment. I do want to make clear that as the gentlelady spoke, the Chamber of Commerce supports her amendment, not the bill. They are opposed, as I am, to the underlying bill. I want to be clear that adoption or defeat will not change my position on the underlying bill. The so-called Paycheck Fairness Act, which we're debating today, has nothing to do with making paychecks fairer and even when they do, they only receive one-half of the benefit that men do.

The gentlelady's amendment tinkers at the margins of just one of the bill's fundamental flaws. Whether adopted or not, it does not change my strong opposition to the Chamber of Commerce's strong opposition to the underlying bill.

The gentlelady's amendment would appear to limit the circumstances in which a plaintiff can recover punitive damages under the situations where he or she can show that an employer acted with malice or reckless indifference. First, let me point out that nowhere in the Fair Labor Standards Act or Equal Pay Act is this standard of proof, malice, or reckless indifference used. It's an entirely new concept to this statute and one which will no doubt and to one's great surprise encourage extended litigation to determine its meaning in the context of the Equal Pay Act.

Even more telling is what the gentlelady's amendment does do. It does not limit compensatory or punitive damages but still puts employers
at risk for unlimited punitive and compensatory damage awards, remedies far beyond those contained in title VII, nor does it require that the plaintiff show the employer engaged in intentional discrimination. Presumably now an employer will be slapped with a multi-million-dollar punitive fine if a jury finds that he or she was indifferent, whatever that means.

When all is said and done, the amendment does little, if anything, to address the radical expansion of liability and the tremendous expansion of the bill’s dramatic expansion of liability that one could imagine.

Now some limitation may be better than none at all, but this fig leaf does not come close to addressing core problems of the bill. I will not oppose the amendment, but I remain strongly opposed to the underlying bill.

I yield back the balance of my time.

Mr. CAZAYOUX. Mr. Chairman, as I said I personally applaud that one of my experiences that I bring to the United States Congress is running a family tire and automotive company. There are not that many Members of Congress that know what it’s like to make a payroll, to know what it’s like to have laws imposed on them at the local, at the State, at the Federal levels, and I think that that background is really critical. That’s one of the reasons that I am pleased that the United States Chamber of Commerce has endorsed this amendment.

With that, I urge my colleagues on both sides of the aisle to join with me in passing this amendment.

The Acting CHAIRMAN (Mr. BERRY). The question is on the amendment offered by the gentleman from Arizona (Ms. GIFFORDS).

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.

Ms. GIFFORDS. Mr. Chairman, I demand a recorded vote.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

Amendment No. 5 offered by Mr. CAZAYOUX.

The Acting CHAIRMAN. It is now in order to consider amendment No. 5 printed in House Report 110–807.

Mr. CAZAYOUX. Mr. Chairman, I have an amendment.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 5 offered by Mr. CAZAYOUX:

Page 3, after line 3, insert the following:

SEC. 11. RULE OF CONSTRUCTION.

Nothing in this Act, or in any amendments made by this Act, shall affect the obligation of employers and employees to fully comply with all applicable immigration laws, including any penalties, fines, or other sanctions.

The Acting CHAIRMAN. Pursuant to the House Resolution 1388, the gentleman from Louisiana (Mr. CAZAYOUX) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Louisiana.

Mr. CAZAYOUX. Mr. Chairman, I yield myself such time as I may consume.

I would like to thank Congresswoman DELAURA for this thoughtful legislation that is long overdue. It is imperative that hardworking women be fairly compensated and that they are not being shortchanged by long-standing practices. Far too long in this country many American women have suffered pay inequities that have denied them the earnings they deserve. In America, this is unacceptable, and this bill aims to rectify those inequities. However, we must also protect the legal rights of American workers, we must also protect their rights from being abused by those who work here illegally. The amendment I bring to the floor today serves to ensure that nothing in this legislation or in any amendments to this legislation will affect the obligations of employers and employees to comply with immigration laws. That means that anyone found to be in violation of our immigration laws, whether they are employers or employees, will be subject to all fines and penalties imposed by those laws regardless of the protections for all workers, male or female, contained within this Act.

Again, I thank Chairwoman DELAURA as well as Chairwoman MILLER for this meaningful legislation, and I urge my colleagues to support this amendment and the underlying bill.

I yield back the balance of my time.

Mr. MCKEON. Mr. Chairman, I claim the Republican time in opposition.

The Acting CHAIRMAN. Without objection, the gentleman from California is recognized for 5 minutes.

There was no objection.

Mr. MCKEON. I yield myself such time as I may consume.

I will not oppose this amendment. I don’t know that any Member of the House would or could. It is simply a restatement of current law. I strongly believe that every employer and every worker comply with our Nation’s immigration laws. Indeed, I have long argued that our immigration laws need to be strengthened, that we need to get serious about reasserting control of our borders, enforcing the laws that are on the books and enhancing those laws which are in effect. If we truly want to secure our borders.

Mr. CAZAYOUX. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 6 offered by Mr. FLAKE:

The Acting CHAIRMAN (Mr. POMEROY). It is now in order to consider amendment No. 6 printed in House Report 110–807.

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The question was taken; and the Acting Chairman announced that the ayes appeared to have it.

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Louisiana will be postponed.

Amendment No. 6 offered by Mr. FLAKE:

The Acting CHAIRMAN (Mr. POMEROY). It is now in order to consider amendment No. 6 printed in House Report 110–807.

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 6 offered by Mr. FLAKE:

Page 21, line 2, strike “There are” and insert “(a) Authorization of Appropriations.—There are”.

Page 21, after line 3 insert the following:

(b) Prohibition on Earmarks.—None of the funds appropriated pursuant to subsection (a) for purposes of the grant program in section 5 of this Act may be used for a Congressional earmark as defined in clause 9(d) of rule XXI of the Rules of the House of Representatives.

Mr. SPEAKER pro tempore. Pursuant to House Resolution 1388, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.
The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, this amendment is noncontroversial. I assume it will be accepted by the other side. It’s similar to an amendment that was offered earlier this year on an unrelated bill.

The amendment simply seeks to ensure that the competitive grant program established and authorized by this bill does not become a vehicle to be earmarked later. I am not alleging that there are any earmarks in this bill; there are not. There’s simply a competitive grant program established.

My amendment is simply aimed as a precaution in order to avoid future earmarking.

Earlier this year, a similar amendment was approved by the House of Representatives during consideration of the Beach Act of 2007 by a vote of 263 to 117.

When it comes to earmarking, the message is clear: just because Congress hasn’t earmarked an account or a grant program before doesn’t mean we won’t in the future. My amendment makes no substantive change to the grant program included in the legislation and is simply offered as a safeguard against future earmarking.

Judging by the nearly four and a half billion dollars worth of earmarks that have been reported in the House Appropriations bill this summer, it appears that, even with all the talk of earmark reform this year, it’s business as usual.

Unfortunately, when it comes to earmarking, business as usual means Congressional earmarks funding up programs and accounts that never used to have them.

The worst example of this is the Department of Homeland Security appropriations bill. Keeping relatively earmark-free from its inception in order to keep politics out of spending decisions, the earmarking truce was broken when the 2008 omnibus spending bill contained 128 earmarks worth more than $400 million in Homeland Security funding.

Included were 95 earmarks for the Pre-Disaster Mitigation Program, a competitive grant program with a 70-page guidance document for grant applicants that had not previously been earmarked.

If the Fiscal Year 2009 Homeland Security Appropriations bill approved by committees becomes law, then the earmarking of the Pre-Disaster Mitigation Program will continue with nearly 25 million dollars, or one third of the program funds, already having been spent by Members earmarking funds for their own districts.

Emergency Operations Centers funding is another example of earmarks encroaching into a previously non-earmarked program.

Created last year by Congress, fifteen million earmark-free dollars were appropriated, to be awarded through a formula-based grant program for the “equipping, upgrading, and constructing of Emergency Operations Centers.”

This year’s Homeland Security Appropriations bill proposes increasing Emergency Operations Center funding to 35 million dollars—this would earmark nearly sixty percent of this funding by including 34 earmarks worth more than 21 million dollars.

Unfortunately, those examples of earmarking competitive programs are not alone cases. Another example is a program funded through the Department of Housing and Urban Development called the Economic Development Initiative.

This program started in 1994 as a competitive program with strict selection-based criteria to assist with low-income housing and neighborhood development. Over time, the program became a prime target for earmarkers and, by 2000, the competitive program was not funded and the program was entirely made up of earmarks.

A similar story can be told about the Byrne Discretionary Grant program. This program was established in 2006 as a competitive grant program where awards are to be evaluated by a peer review system and other review processes. Allegedly, the program has remained that way, however, the agency that administers the program still calls it a competitive program but the account was heavily earmarked last year and it appears that earmarking has been adopted as the standard operating practice.

In fact, should the Commerce Justice and Science Committee Report approved by the Appropriations become law, there will be 280 earmarks for the Byrne Discretionary Grant account, alone.

The message is clear: just because we haven’t earmarked an account or a grant program before doesn’t mean we won’t in the future.

With few opportunities this session to deal directly with the broken earmarking process, the least we can do is explicitly prohibit earmarks in programs or accounts that provide funding on a formula or competitive basis.

I urge my colleagues to support this commonsense amendment.

With that, I would like to ask if this amendment will be accepted by the other side and reserve the balance of my time.

The Acting CHAIRMAN. The gentleman from California is recognized for 5 minutes.

Mr. GEORGE MILLER of California. We have no problem with this amendment. We agree with the gentleman. We think that these grants to increase the negotiating skills of young women and girls, all women, are very important. We would hope and we expect that they would be given on merit by the Secretary under the provisions of the law. We don’t expect that they would be earmarked.

Mr. FLAKE has offered this language so that hopefully it would not be earmarked, and that language hopefully will be respected by other committees of the Congress, and we would accept the amendment.

I reserve the balance of my time.

Mr. FLAKE. Let me just comment and thank the majority for accepting this and also thank the Rules Committee for making this amendment in order. I’ve offered this same amendment on a number of authorization bills over the past couple of months, and it has not been made in order. So I appreciate the fact, and whatever influence the gentleman from California had on the Rules Committee to make this important amendment in order, I appreciate it.

I yield back the balance of my time.

Mr. GEORGE MILLER of California. I yield back the balance of my time.

The Acting CHAIRMAN. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The amendment was agreed to.

ANNOUNCEMENT BY THE ACTING CHAIRMAN

The Acting CHAIRMAN. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments printed in House Report 110–807 on which further proceedings were postponed, in the following order:

Amendment No. 2 by Mr. PRICE of Georgia.

Amendment No. 3 by Mr. ALTIERI of Pennsylvania.

Amendment No. 4 by Ms. GIFFORDS of Arizona.

Amendment No. 5 by Mr. CAZAYOUX of Louisiana.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 2-minute votes.

AMENDMENT NO. 2 OFFERED BY MR. PRICE OF GEORGIA

The Acting CHAIRMAN. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from Georgia (Mr. PRICE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 188, noes 240, not voting 11, as follows:

[Roll No. 551]

AYES—188

Aderholt     Boozman     Coble
Ahkin        Boustany     Cole (OK)
Alexander    Brady (TX)   Conaway
Bachmann     Brown (GA)   Crenshaw
Bachus       Brown (SC)   Davis (KY)
Barrett (SC)  Buchanan     Davis, David
Bartlett (MD) Burgess     Davis, Tom
Barton (TX)  Burton (IN)  Deal (GA)
Bayh         Calvert      Dent
Biliray      Campbell (CA) Drake
Bilirakis     Campbell (UT) Diaz-Balart, M.
Blackburn    Camp (MI)    Douillet
Bowles       Camp (CA)    Doyle
Bratton       Cantor      Dreier
Brown         Capito      Duncan
Bonner       Carter       Emmer
Bono Mack     Castle       Emmer (PA)
Bono Mack
Messrs. JACKSON of Illinois, HALL of New York, LYNCH, Ms. MOORE of Wisconsin, Mrs. CAPPS, Mrs. JONES of Ohio, Mrs. MCCARTHY of New York, Ms. MURPHY of Mississippi, Ms. TIAHRT, Ms. SMITH of Texas, Ms. VANDYCK of New York, Ms. WONG of California, Ms. CASTOR, Ms. CARDOZA, Ms. CAPITO, Ms. CAPELL, Ms. CAPP, Ms. CASEY of Pennsylvania, Ms. CASTRO of Texas, and Ms. CASTROMANCHE, Ms. LEVIN, and Mr. MURDOCH of Virginia changed their vote from “aye” to “no.”

Mr. WALTERS, Mrs. EMERSON, and Messrs. TIAHRT, SMITH of Texas, and TANCREDO changed their vote from “no” to “aye.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT NO. 3 OFFERED BY MR. ALTMEIRE

The Acting CHAIRMAN. The unfinshed business is the demand for a recorded vote on the amendment offered by the gentleman from Pennsylvania (Mr. ALTMEIRE) on which further proceedings were postponed and on which the ayes prevailed by voice vote. The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIRMAN. A recorded vote has been demanded.

As a record vote was ordered.

The Acting CHAIRMAN. This will be a 2-minute vote.

The vote was taken by electronic device, and there were—aye 426, noes 1, not voting 12, as follows:

[A roll No. 552]

AYES—426

[Roll No. 552]
The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

The Clerk redesignated the amendment.

The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

The Clerk redesignated the amendment. The Acting CHAIRMAN (Mr. Young) said the amendment was agreed to.

So the amendment was agreed to.

**NOT VOTING—12**

Mr. CHABOT? changed his vote from "no" to "aye.", so the amendment was agreed to. The result of the vote was announced as above recorded.

The Acting CHAIRMAN: The question is on the committee amendment in the nature of a substitute, as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The Acting CHAIRMAN: Under the rule, the Committee rise.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. WEAVER) having assumed the chair, Mr. POMEROY, Acting Chairman of the Committee of the Whole House on the state of the Union, reported that the Committee, at the recommendation of the bill (H.R. 1338) to amend the Fair Labor Standards Act of 1938, to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, and for other purposes, pursuant to House Resolution 1388, he reported the bill back to the House with an amendment adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered. Is a separate vote demanded on any amendment to the amendment reported from the Committee of the Whole? If not, the question is on the amendment.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill. The bill would be ordered into engrossed and read a third time, and was read the third time.

**MOTION TO RECOMMIT**

Mr. PRICE of Georgia. Mr. Speaker, I have a motion to recommit to the Committee on Education and Labor with instructions to report the bill back to the House with promptly with the following amendment:

Page 4, line 21, strike "and".

Page 4, line 24, strike the period and insert "and".

Page 4, after line 24, insert the following:

(J) are exacerbated by the increase in the price of gasoline to unprecedented levels since January 3, 2007, and the failure of the Congress to enact meaningful reforms to lower the price of gasoline at the pump, which has a greater impact on the household budgets of those who earn less.

Page 11, line 15, strike "and".

Page 11, after line 15, insert the following:

(B) by inserting "in an amount not to exceed $1,000 per hour" after "a reasonable attorney’s fee"; and

Page 11, line 16, strike "(B)" and insert "(C)".

The SPEAKER pro tempore. The gentleman from Georgia is recognized for 5 minutes.

Mr. PRICE of Georgia. Mr. Speaker, equal pay for equal work is currently the law of the land, and it has been since the passage of the Equal Pay Act of 1963. Generally, businesses do a tremendous job paying employees fairly, regardless of gender. But the bill before the House today treats wage discrimination as systemic, and is a boon for trial lawyers. It also fails to address the very real challenges affecting Americans’ wages and the purchasing power of their paychecks. That is why we Republicans are offering this motion to recommit, in order to expose the errors of this Democracy majorly.

The first half of this motion points out the simple fact wages are being stretched thin by the price of gasoline, and this Democracy majorly has repeated failed to take action. The
Mr. PRICE of Georgia. A point of order, Mr. Speaker.

The SPEAKER pro tempore. The gentleman from Georgia, for 5 minutes.

Mr. PRICE of Georgia. I know the gentleman is not interested in talking about the substance of the motion to recommit. Should not the comments be addressed——

Mr. GEORGE MILLER of California. Mr. Speaker, the subject of the amendment is discrimination against women. The SPEAKER pro tempore. The gentleman from California will suspend.

Mr. PRICE of Georgia. A point of order.

The SPEAKER pro tempore. The gentleman will state his point of order.

Mr. PRICE of Georgia. I have a point of order.

The SPEAKER pro tempore. The gentleman's comments should be addressed to the Chair.

The SPEAKER pro tempore. The gentleman is correct.

The gentleman from California is recognized.

Mr. GEORGE MILLER of California. I yield to the gentleman from New Jersey.

Mr. ANDREWS. The purpose of this amendment is to kill this bill. It says to the woman who makes 77 cents to drive a truck when a man makes a dollar, wait your turn. It says to a woman who shortly out of college makes 90 cents for every dollar a man who majored in the same thing makes, wait your turn. It says to a woman who has been discriminated against intentionally, discriminated against in pay, paid 77 cents for every dollar, or 20 cents for every, we don’t know, that woman is going to have a cap on her attorneys’ fees.

They put it at $1,000 to get your blood rushing. But you know who doesn’t have a cap? The employer who discriminated against that woman doesn’t have a cap on their attorneys’ fees. That employer doesn’t have a cap at $1,000. Is it $1,000? Is it a complicated case? And when that woman needs two attorneys or three attorneys or four or five experts to prove this discrimination? She has a cap on those. The employer needs five experts, no cap; five attorneys, no cap.

Your last act of discrimination in denying discrimination is to make sure that they can’t recover the wages that are due them, and you ought not to be able to do this. You ought not to be able to do that on the floor of this House. You simply should not be able to do that.

This is about whether or not women will have the tools necessary to get rid of the wage discrimination that costs them $2 million every week, every month and every year, and it follows them into their retirement. You’ve heard it here today. It can cost them as much as $2 million in lost Social Security, in lost retirement benefits, in lost wages. And now they want to suggest that those women who may lose $2 million have a cap on their ability to recover.

I hope Ms. Lilly Ledbetter is watching you guys, because now she understands what your problem was.
Mr. GEORGE MILLER of California. Mr. Speaker, there is no more time. Time has run out. We have seen this discrimination documented time and again in all different kinds of businesses, in all different kinds of occupations. It doesn’t matter your education or your experience, this discrimination exists, and we have the opportunity with this vote tonight to put an end to it, to allow these women to enforce existing law.

We don’t change the law. We give them the right to enforce the law. And if they don’t have that right, they have no justice and the law means nothing. That is why we continue to see tens of thousands of cases of wage discrimination where women can’t afford to go in and recover the wages.

I ask my colleagues to vote down this motion to recommit and with great pride vote for final passage of this legislation to end wage discrimination, and with that vote to recognize the phenomenal work of ROSA DELAUR, in seeking out justice for women all across this country.

I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to the motion, it was agreed that the vote be taken by electronic device, and there were—aye, 189, noes 236, not voting 9, as follows:

**NOT VOTING—9**

Brown-Waite, Millie
Broun, Jack
Cann, Young (AK)
Cubin, Carol

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are reminded that they have less than 2 minutes remaining on this vote.

---

Ms. HOYER and COHEN changed their vote from “aye” to “no.” So the motion to recommit was rejected.

The result of the vote was announced above recorded. (Because unanimous consent, Mr. HOYER was allowed to speak out of order.)

LEGISLATIVE PROGRAM

Mr. HOYER. Ladies and gentlemen of the House, I know that all of you are concerned about the schedule. There was some hope that we might have some more time to get out late tonight. We have been unable to reach an accord on unanimous consent on the adjournment resolution. As you know, the Senate has not passed an adjournment resolution. As a result of that, we will be here tomorrow. So we are going to work accordingly in the following way: We will have no further votes tonight. I have discussed that with the minority, and they are not going to be asking for votes on amendments, and so we will be having no further votes tonight.

We will meet tomorrow at 9. We will be considering whatever amendments and the Military Construction and Veterans bills, we will vote on that. We will then have a rule on the adjournment resolution, and that will be the balance of our business.

It is my hope, again, not knowing what might transpire during the course...
of the day, that we would be able to complete the business that will be before us before 1 o’clock tomorrow, perhaps earlier, again, depending upon how many votes we have and what action is taken on the floor. I wanted all the Members to know that.

Mr. BLUNT. If the gentleman would yield.

Mr. HOYER. I yield to the Republican Whip.

Mr. BLUNT. If I heard the gentleman correctly; you said that there would be no more votes tonight. But there will be one more vote tonight.

Mr. HOYER. Exactly.

Mr. BLUNT. We will finish up this bill.

Mr. HOYER. There are two votes apparently left.

Mr. BLUNT. Two more votes tonight. And then we will go to debate the Military Construction-Veterans Affairs bill and all the amendments, with no votes at all tonight.

Mr. HOYER. That is correct.

Mr. FRANK. Would the gentleman yield?

Mr. HOYER. I yield to my friend from Massachusetts.

Mr. FRANK. I have a minor correction to the leader. There will be no more votes on the floor, but there will be five more votes in the Committee of Financial Services so we can get it done. So please come back.

Mr. HOYER. I thank the gentleman, not only for his announcement, but for the hard work of he and his committee.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Without objection, 5-minute voting will resume. There was no objection.

The SPEAKER pro tempore. The question is on the passage of the bill. The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. ANDREWS. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 247, noes 178, not voting 9, as follows:

** roll no. 556 **

** ayes—247 **

LYBIAN CLAIMS RESOLUTION ACT

SEC. 2. DEFINITIONS.

SEC. 1. SHORT TITLE.

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above noted. A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. JOHNSON of Georgia. Mr. Speaker, I wish to let the RECORD reflect my intent when I voted on rollcall vote No. 552. On that vote I meant to vote “no.” The reason why was because I was called in the football coach's office and I was unable to vote. However, I voted “aye.”

PERSONAL EXPLANATION

Mr. CONYERS. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 3370) to resolve pending claims against Libya by United States nationals, and for other purposes, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The text of the Senate bill is as follows:

SEC. 1. SHORT TITLE.

This Act may be cited as the “Libyan Claims Resolution Act”.

SEC. 2. DEFINITIONS.

In this Act—

(1) the term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on the Judiciary of the Senate and the Committee on Foreign Affairs and the Committee on Foreign Operations and Related Programs of the House of Representatives;

(2) the term “claims agreement” means an international agreement between the United States and Libya, binding under international law, that settles or provides for the settlement of terrorism-related claims of nationals of the United States against Libya through fair compensation;

(3) the term “national of the United States” has the meaning given that term in section 101(a)(22) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(22)).

(4) the term “Secretary” means the Secretary of State; and

(5) the term “state sponsor of terrorism” means any country the government of which the Secretary has determined, for purposes of section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), section 40 of the Arms Export Control Act of 1979 (50 U.S.C. 2371), and section 101(a)(9) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(9)), does not take steps to stop the activities of organizations that support international terrorism.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The text of the Senate bill is as follows:

SEC. 1. SHORT TITLE.

This Act may be cited as the “Libyan Claims Resolution Act”.

SEC. 2. DEFINITIONS.

In this Act—

(1) the term “appropriate congressional committees” means the Committee on Foreign Relations and the Committee on the Judiciary of the Senate and the Committee on Foreign Affairs and the Committee on Foreign Operations and Related Programs of the House of Representatives;

(2) the term “claims agreement” means an international agreement between the United States and Libya, binding under international law, that settles or provides for the settlement of terrorism-related claims of nationals of the United States against Libya through fair compensation;

(3) the term “national of the United States” has the meaning given that term in section 101(a)(22) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(22)).

(4) the term “Secretary” means the Secretary of State; and

(5) the term “state sponsor of terrorism” means any country the government of which the Secretary has determined, for purposes of section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), section 40 of the Arms Export Control Act of 1979 (50 U.S.C. 2371), and section 40 of the Arms Export Control Act (22 U.S.C. 2378), or any other provision of law, is a government that has repeatedly provided support for acts of international terrorism.

SEC. 3. SENSE OF CONGRESS.

Congress supports the President in his efforts to provide fair compensation to all nationals of the United States who have terrorist-related claims against Libya through fair compensation.
such nationals against Libya pursuant to an international agreement between the United States and Libya as a part of the process of restoring normal relations between Libya and the United States.

SEC. 4. ENTITY TO ASSIST IN IMPLEMENTATION OF CLAIMS AGREEMENT.

(a) DESIGNATION OF ENTITY.—

(1) IN GENERAL.—The Secretary, by publication in the Federal Register, may, after consultation with the appropriate congressional committees, designate 1 or more entities to assist in providing compensation to nationals of the United States, pursuant to a claims agreement.

(2) AUTHORITY OF THE SECRETARY.—The designation under paragraph (1) is within the sole discretion of the Secretary, and may not be delegated. The designation shall not be subject to judicial review.

(b) IMMUNITY.—

(1) PROPERTY.—

(A) IN GENERAL.—Notwithstanding any other provision of law, if the Secretary designates any entity under subsection (a)(1), any property described in subparagraph (B) of this paragraph shall be immune from attachment or any other judicial process. Such immunity shall not be subject to judicial review.

(B) PROPERTY DESCRIBED.—The property described in this subparagraph is—

(i) any property described in this subparagraph is—

(I) held by an entity designated by the Secretary under subsection (a)(1);

(II) transferred to the entity, or

(III) transferred from the entity;

(2) TITLE OF PROPERTY.—An entity designated by the Secretary under subsection (a)(1), and any person acting through or on behalf of such entity, shall not be liable in any Federal court for any action taken to implement a claims agreement.

(c) NONAPPLICABILITY OF THE GOVERNMENT CORPORATION CONTROL ACT.—An entity designated by the Secretary under subsection (a)(1) shall not be subject to chapter 91 of title 28, United States Code, or section 589 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1997 (28 U.S.C. 1605 note), that has been given effect as if the action had originally been filed under 1605A(c) of title 28, United States Code, pursuant to section 1083(c) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 342; 28 U.S.C. 1605A note).

(b) TEMPORAL SCOPE.—Subsection (a) shall apply only with respect to any conduct or event occurring before June 30, 2006, regardless of whether, or the extent to which, application of this subsection affects any action filed before, on, or after that date.

(c) AUTHORITY OF THE SECRETARY.—The certification by the Secretary referred to in subsection (a)(2) may not be delegated, and shall not be subject to judicial review.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. EDWARDS of Texas. Mr. Speaker, I ask unanimous consent that the entire debate, including all those amendments offered, be extended to 1 hour.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The question is on the adoption of the amendment offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 6309, as amended.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

LANCE CORPORAL MATTHEW P. PATHENOS POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 6208.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 6208.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

CORPORAL ALFRED MAC WILSON POST OFFICE

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 6437.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. DAVIS) that the House suspend the rules and pass the bill, H.R. 6437.
The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RECOGNIZING THE 20TH ANNIVERSARY OF THE CIVIL LIBERTIES ACT

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 1357, as amended.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. CONYERS) that the House suspend the rules and agree to the resolution, H. Res. 1357, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The title of the resolution was amended so as to read: “Recognizing the significance of the 20th anniversary of the signing of the Civil Liberties Act of 1988 and the greatness of America in her ability to admit and remedy past mistakes and to recognize that there are other communities who may have suffered the mistakes of our government but have not received an apology and reparations.”

A motion to reconsider was laid on the table.

AUTHORIZING FUNDING FOR THE NATIONAL ADVOCACY CENTER

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 6083, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. CONYERS) that the House suspend the rules and pass the bill, H.R. 6083, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The title was amended so as to read: “A bill to authorize funding to conduct a national training program for State and local prosecutors.”

A motion to reconsider was laid on the table.

PROVIDING FOR PATENT AND TRADEMARK JUDICIAL APPOINTMENTS

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the Senate bill, S. 3295.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. COHEN) that the House suspend the rules and pass the Senate bill, S. 3295.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

SUPPORTING NATIONAL NIGHT OUT

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 1324.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. COHEN) that the House suspend the rules and agree to the resolution, H. Res. 1324.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

UNITED STATES PAROLE COMMISSION EXTENSION ACT OF 2008

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the Senate bill, S. 3294.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. COHEN) that the House suspend the rules and pass the Senate bill, S. 3294.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

UNITED STATES OLYMPIC COMMITTEE PARALYMPIC PROGRAM ACT OF 2008

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 4255, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. HARE) that the House suspend the rules and pass the bill, H.R. 4255, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.
The Senate met at 9:30 a.m. and was called to order by the Honorable Mark Pryor, a Senator from the State of Arkansas.

PRAYER
The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Loving God, our mighty rock and fortress, we have no secrets from You. You know us far better than we know ourselves. Help the Members of this body to humble themselves before You and find in Your love a very present help in times of trouble. Touch every person in the Senate with grace and love and healing. Forgive and restore wherever there is need in heart and office and home. Help us to see that it is our weakness that qualifies us for Your strength.

Lord, we commit this day to live and work for You, inviting the indwelling power of Your spirit to control our minds and give us discernment. We pray in the Name of Him who never minds and give us discernment. We pray in the Name of Him who never

pledge of allegiance

The Honorable Mark Pryor led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE
The Presiding Officer. The clerk will please read a communication to the Senate from the President pro tempore (Mr. Byrd).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable Mark L. Pryor, a Senator from the State of Arkansas, to perform the duties of the Chair.

Robert C. Byrd,
President pro tempore.

Mr. Pryor thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER
The acting President pro tempore. The majority leader is recognized.

SCHEDULE
Mr. Reid. Mr. President, following leader remarks, if any, there will be a period of morning business until 10:30, for 1 hour, with Senators permitted to speak for up to 10 minutes each. The majority will control the first half, the Republicans the second half. Following morning business, the Senate will resume consideration of the motion to proceed to S. 3001, the Department of Defense authorization bill. The time from 10:30 until 12:30 will be controlled in alternating 30-minute blocks of time between the majority and Republican sides, with the Republicans controlling the first 30 minutes. We hope to be able, later today, to turn to the Consumer Product Safety Commission conference report and the higher education conference report. We assume there could be votes throughout the day.

RESERVATION OF LEADER TIME
The acting President pro tempore. Under the previous order, the leadership time is reserved.

MORNING BUSINESS
The acting President pro tempore. Under the previous order, there will now be a period for the transaction of morning business until 10:30 a.m., with the time equally divided and controlled between the two leaders or their designees, with Senators permitted to speak therein for up to 10 minutes each, with the majority controlling the first half of the time and the Republicans controlling the second half.

The Senator from Wisconsin.

SOMALIA

Mr. Feingold. Mr. President, I rise to express my deep concern about the continued crisis in Somalia and my dismay at the failure of the United States and also the international community to give this situation the attention and resources it deserves.

Time and again, I have called for a comprehensive, coordinated U.S. strategy to bring security and stability to Somalia. Yet despite Somalia’s continued collapse, the administration has clung to a clumsy set of tactics that have done little to quell the relentless violence or to enhance our own national security.

According to the U.N. High Commissioner on Refugees and the U.N.’s Under Secretary General for Humanitarian Affairs, the crisis in Somalia has become the world’s worst humanitarian crisis. Yes, let me repeat that: the world’s worst humanitarian crisis. Ongoing violence, a poor harvest, drought, rising food prices, and skyrocketing inflation have created a perfect storm. Over 2.6 million or 35 percent of Somalis are currently in need of aid, with that number likely to increase to 3.5 million or nearly 50 percent of the population by the end of the year. Simultaneously, the fighting has forced an estimated 1 million Somalis from their homes into overcrowded and squalid camps both within the country and in northern Kenya and Ethiopia.

In the midst of this disaster, those individuals working courageously to provide aid to the battered population have themselves become targets. I have been deeply troubled by the recent
killings of aid workers, including the head of the U.N. Development Program in Mogadishu and three Somali elders who were shot while they were distributing food to displaced communities.

According to the New York Times, at least 10 aid workers have been killed and 17 kidnapped since January. This is unacceptable. The international community, with the U.S. leading the way, must make clear that attacks on humanitarian workers will not be tolerated.

More to us we must make sure that aid agencies, including the World Food Program, have sufficient resources to respond to the escalating needs on the ground.

Humanitarian assistance, however, only stops the bleeding temporarily. Transforming the underlying causes of Somalia’s instability requires a political solution leading to a national government that is both representative and reconciliatory. As I said shortly after it was brokered last month, the Djibouti Agreement—between the Transitional Federal Government and a moderate faction of the opposition group for the Alliance for the Re-Liberation of Somalia, ARS—was a positive step forward. I applaud the U.N. Representative of the Secretary General for taking a lead role and the U.S. Special Envoy for Somalia, Ambassador John Yates, for ensuring the U.S. was actively involved—but now it is time to get down to business.

I am concerned by the slow progress of implementation. Rather than moving quickly to shore up that agreement and injecting the necessary diplomatic resources, the international community has remained in a wait-and-see posture. This has allowed al-Shabaab and other spoilers to undermine the legitimacy of the agreement and divide the opposition party, rather than the other way around.

I have repeatedly called on the administration to develop a long-term comprehensive regional strategy toward Somalia backed by sufficient resources and political commitment. Our current approach is clearly not working. Relying on reactive and short-term tactics has limited our ability to change the security dynamics on the ground and in the wider region. An effective strategy begins with refocusing on the bigger picture and committing to our long-term goals, namely, helping to stabilize and nurture robust democratic institutions that can provide security and undercut violent extremism—which poses a direct threat to the U.S.

It is not too late to salvage the opportunity presented by the Djibouti Agreement. To do so, the United States and our international partners must move quickly with a coordinated diplomatic push to bring more Somalis into the process as well as put forth the necessary resources for implementation. An inclusive and vigorous political process must marginalize the appeal of al-Shabaab and other violent extremists, but only if we act now. Simultaneously, there must be a more active effort to hold accountable all those who perpetrate violence and violate human rights. This includes strengthening the existing arms embargo and pressuring regional actors who undermine a sustainable political solution. It won’t be easy, but it is critical to begin the groundwork for long-term peace and security.

The need to bring stability to Somalia is imperative not only to avert humanitarian catastrophe, but also for our own national security. On August 7, we will commemorate the 10-year anniversary of the terrorist attacks on the U.S. Embassies in Nairobi and Dar-es-Salaam, which left 224 people dead, including 12 U.S. citizens and dozens of other Embassy employees. That was a tragic day in American history. While some of those responsible have been brought to justice, there is still work to be done to ensure that the remaining suspects are held to account for their involvement in these heinous acts and that victims receive fair and just compensation.

Meanwhile, Somalia remains a safe haven for terrorists, as we know from the recent designation of the al-Shabaab and periodic Defense Department Designation of Terrorist Target notices. But neither these strikes, nor other ad hoc or fragmented actions, can substitute for a sustained, comprehensive strategy. We must act aggressively against terrorist groups, pose a threat to them at every turn, but it will take more than just military options alone to solve Somalia’s problems. Instead of helping to build a society committed to the development of legitimate democratic institutions, we are effectively allowing Somalia to serve as a recruitment tool for insurgents and extremists as they further isolate various groups from the current political process. This is what the State Department itself said this past April about safe havens in places like Somalia.

Defeating the terrorist enemy requires a comprehensive effort executed locally, nationally, regionally, and globally. Working with partner nations, we must eliminate terrorist leadership, prevent or kill terrorists who will not achieve an end to terrorism. We must simultaneously eliminate terrorist safe havens, tailoring regional strategies to disrupt terrorist networks and break terrorist financial, travel, communications, and intelligence links. Finally, and most challenging, we must address the questions that terrorists exploit at the national and local levels to induce alienated or aggrieved populations to become sympathizers, supporters, and ultimately members of terrorist networks. We can marginalize violent extremists by addressing people’s needs and grievances, by giving people a stake in their own political future, and by providing alternatives to what terrorists offer.

The problem is not so much that the administration doesn’t recognize what needs to be done, but that it doesn’t have the will or the commitment to do it. Basically, our bark is bigger than our bite. Ten years after those attacks in Kenya and Tanzania, it appears we have missed the larger lesson of that tragic day, and our front-line diplomats continue to pay the price as they scramble to respond to the problems of weak states caught up in a vicious and turbulent cycle of collapse. They aren’t the only ones paying the price, however. We risk losing our advantage by failing to respond to the demands of weak states. We lose our ability to conduct principled diplomacy and intelligence and foreign assistance efforts, drain our resources at our disposal, but they are ineffective in the absence of a coordinated and balanced strategy that incorporates both the short- and long-term goals. This is no more evident than in Somalia.

It is not too late to chart a new path and prevent future suffering, but we must act decisively. As I remember those who lost their lives 10 years ago, many doing diplomatic work in some of the most demanding postings in the world, let us commit to honor their legacy by ensuring that our country is no longer vulnerable to the terrorists who attacked us a decade ago.

Mr. President, I yield the floor.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HONORING OUR ARMED FORCES

SPECIALIST JASON E. AMBS

Mr. MCCONNELL. Mr. President, my home State of Kentucky is mourning the loss of a brave young soldier. On August 31, 2005, Specialist Jason E. Ames was killed while serving in Mosul, Iraq. Hailing from Cerulean, KY, Specialist Ames was 21 years old.

For his valor in uniform, Specialist Ames received several medals, decorations, and awards, including the Army Commendation Medal, the Good Conduct Medal, the National Defense Service Medal, and the Combat Infantryman Badge.

Jason was taken from his loved ones much too soon. But those closest to him know he packed his 21 years with happiness, kindness, and pride. Jason was always a happy-go-lucky person,” says his mom Susan Fouast. “Whatever he encountered . . . he did it with a lot of life and a lot of laughter.”

Born in Illinois to a military family, Jason moved around a lot as a kid and saw many parts of the world. Wherever he went, he made his own fun.

Susan recalls:

"Jason loved to play Army as a child and played it often with kids in the neighborhood. He made a suit out of camouflage netting, sticks, and leaves. Using the military acronym for Battle Dress Uniform—she says—he would also wear his mother’s BDUs.

Susan also says:
Another favorite of Jason’s was riding in his mother’s Dodge convertible with the top down, no matter the weather, and listening to “Danger Zone” from “Top Gun.”

Young Jason could also rely on the Commonwealth’s best friend. As Susan explains it:

Jason would often play in the woods for hours while trying to hide from the family dog named Moocher. I would tell Moocher to find Jason, and no matter how well hidden Jason thought he was, Moocher would find him.

Jason eventually settled in Cerulean, a town in Trigg County, in the southwestern part of my State. He attended Trigg County High School in Cadiz and graduated in 2003.

Even before reaching high school graduation, however, Jason felt strongly that he wanted to serve his country. He certainly was influenced by the respect for duty and service that ran deep in his family. At the age of 17, while still in high school, he asked his mother to grant her permission for him to enlist. Susan wanted Jason to wait until he turned 18, but Jason was so eager he convinced his mom to let him go ahead and sign up.

“We supported him with whatever decision he made,” Susan says.

Jason enlisted and became an infantryman. By the time he was deployed to Iraq in October 2004, he was assigned to the 3rd Battalion, 21st Infantry Regiment, 1st Brigade, 25th Infantry Division, based in Fort Lewis, WA.

Sadly, Jason’s life was taken just a few weeks shy of when he was due to return home and shortly before his 21st birthday.

The Reverend Ron Hicks, a close friend of the Ames family, officiated at the services, and Jason was buried with full military honors at the Kentucky Veterans Cemetery West in Hopkinsville, the Commonwealth’s first State veterans cemetery.

Many beloved family members and friends across the country mourn Jason’s loss, including his mother, Susan Arlene Ames Fouot, and his sister Krystal Dawn Knight. Our thoughts turn to them as they are confronted with this great loss.

Jason’s mom Susan says:

Jason had just turned 21 years old when he was taken. For the 21 years that he was with us, those years are priceless.

Susan and all of Jason’s family are certainly right to treasure those 21 precious years. It is my hope they are also comforted by the knowledge that this country and this Senate honors SPC Jason E. Ames as a patriot and as a hero. He left his Nation stronger by his service and his sacrifice.

Staff Sergeant Carnes had volunteered for the mission that would be his last, stepping in for another soldier on leave. For his bravery and service, he received several medals, awards, and decorations, including the Combat Action Badge, the Army Good Conduct Medal, the Kentucky Distinguished Service Medal, the Purple Heart, and the Bronze Star Medal.

Because of a letter he sent to his wife Terri, we know why Nick chose to serve and place himself in harm’s way. This is what he wrote in November 2006, a few weeks after he deployed to Afghanistan. He said:

Dear Terri...If the other soldiers who came before me did not stand up for freedom, then we would not have freedom. So I feel that I am obligated to stand up for freedom to ensure that everyone else after me has the same freedoms we do today.

Nick’s family and friends remain inspired to this day by that young man’s courage. His mother, WrayJean, puts it simply:

My son has been a hero from the second he was born. He became a bigger hero when he did the job he did over there.

Nick grew up in Dayton, and WrayJean says that when he was just a little boy, Nick loved country music, especially Johnny Cash, George Jones, and Hank Williams. "I have a country band and Nicholas would sing with us," Gove remembers.

His sister, Amanda Manasra, remembers: "We went four-wheeling often and got a little muddy."

She also remembers the time she and Nick built a treehouse, a treehouse Amanda was too scared to climb. "I never went up there," she says.

Nick helped me overcome my fear. He always pushed me to my limits. He always had a can-do attitude. He said: "can't" isn't in your vocabulary.

Gove and Gove’s uncle were both in the Kentucky National Guard, and Nick grew up climbing on Army trucks. In 1999, when he was 17, he entered a Guard training program and by his senior year at Dayton High School, Nick was in the Guard. "It was in his blood," WrayJean said.

There was no stopping the desire. He would say, "Who would use us if I don’t do this?"

Nick graduated from high school in 2000 and went to work for BB Riverboats, a company that runs riverboat cruises along the Ohio River. It was there he met Terri, the woman he would ask to become his wife. "We ran off to Las Vegas for my 30th birthday," Terri says.

When we were there, we went to Lake Mead...he got on his knee and asked me to marry him. I said, “Sure! Let’s go!” It was meant to be.

With a happy life and friends and family who loved him, Nick still felt the call to duty. WrayJean remembers what Nick said to her on the day of the worst terrorist attack in this Nation’s history.

“When 9/11 happened, Nicholas and I sat side by side on the couch,” she says.

"We both sat there with tears rolling down our face. He said, “This is what I want to do.”

Terri also remembers how her husband was eager to serve. “He could not wait to go overseas,” she says.

He would say, “Can you imagine preparing for your whole life and never getting to fight for your country?” He loved what he was doing over there...I know he would do it again.

Nick’s Guard unit was activated and he was eventually deployed to Afghanistan with Battery A, 2nd Battalion, 138th Field Artillery, based out of Carrollton, KY. His friend, Brian Sawyer, who served alongside him, remembers Nick’s dedication to his training and to his mission.

“Nick was by the rulebook,” Brian says.

When he graded my physical training test, if it wasn’t a push-up by the book, he would have nothing to do. With everybody, he was by the book. Not mean, but fair. Fair and firm. He knew just how to push the right way was better for me.

Nick believed he had been sent to Afghanistan to make people’s lives better, and he did it even in his downtime. He asked Terri to send him toys and gifts he could distribute to the kids there.

“Everything he did was sweet,” Terri says.

It was rare, because mainly guys typically aren’t caring and understanding. He was different than all the rest.

Nick’s work ethic also impressed everyone. His commanding officer, MAJ Walt Leaumont, had this to say:

When Nick came into the National Guard originally, I was his battery commander. He was this little chubby 18-year-old who had a positive attitude, he had a positive attitude. He was a dream to command.

Sadly, Major Leaumont was also the officer charged with the sad task of telling Nick’s family he would not be coming home. “The night I notified his family was probably the toughest time I have ever worn this uniform,” the major recalls.

Our prayers are with the Carnes family after their terrible loss. We are thinking of his wife Terri Bernstein-Carnes; his mother WrayJean; his father, Earl Glascock; his sisters, Amanda Manasra and Sarah Carnes; his brother Brian Carnes; his grandmother, Frankie Glascock; his grandfather, Gove Carnes, Jr.; his stepmother Charlotte Carnes, and many other beloved family members.

Nick was predeceased by his grandfather, Earl Glascock, and his grandmother, Hazel Carnes.

Before Nick shipped out, he and his family threw a birthday party for his friend Terri. Nick’s sister, Amanda, jokingly told him:

You don’t have to go. I can break your legs.
But Nick would have none of it. He told his little sister:

Just always know that I did it for us and I did it for them. This was my destiny given by God and I have to fulfill it. 

SSG Nicholas R. Carnes represented the very best his town, his State, and his Nation have to offer. His service and his sacrifice prove it. The Senate is proud to honor men like him who see that America needs defending and bravely step forward to defend it.

The ACTING PRESIDENT pro tempore. The Senator from Hawaii is recognized.

ACCOMPLISHMENTS OF THE COMMITTEE ON VETERANS’ AFFAIRS IN THE 110TH CONGRESS

Mr. AKAKA. Mr. President, as we prepare to return to our home States, I believe it is important to remind our colleagues about the work we have done for the veterans of this Nation. As Chairman of the Committee on Veterans’ Affairs, I have had the privilege of working with every employee of Government, veterans and military service organizations across the Nation, and every branch of the military, in an ongoing effort to better serve those who have served us.

In the past 19 months, the committee has held over 50 hearings, taking testimony from over 320 witnesses. The committee staff has carried out over 140 days of investigations and visits across the country. I commend the hard-working members of our committee, on both sides of the aisle, for their work this session.

After years of underfunding veterans programs, I wish to remind everyone that this Congress appropriated the largest increase in the history of the Department of Veterans Affairs. These funds are helping to provide better health care to veterans and enabling the Veterans Benefits Administration to hire almost every new employee. It is my profound hope this investment will produce marked improvements in care and in reduced backlog of veterans’ disability claims. Last year, in connection with the disclosures about Walter Reed, America learned of the disgraceful treatment of some of our disabled servicemembers and veterans. Congress responded promptly and the Armed Services and Veterans’ Affairs Committees collaborated in an unprecedented manner to address the issues. At Walter Reed and elsewhere. One result of this cooperation was the wound-ed warrior provisions included in last year’s National Defense Authorization Act.

I take special pride in one particular wounded warrior provision which more than doubled the period of automatic VA health care eligibility for returning troops. Servicemembers returning from Iraq and Afghanistan are now eligible for 5 years of VA health care upon separation from service.

I am also pleased with the work we have done in seeking an expanded out-reach to veterans of the National Guard and Reserve. It is vital that the growing role they play in our all-volunteer military be recognized and that those who have been deployed in Iraq and Afghanistan be recognized and helped.

Congress also enacted the 21st Century GI bill of rights. Like others who served in World War II, I personally know how that GI bill changed our country for the better. I hope this improved benefit will similarly help for today’s and tomorrow’s troops.

But for all we have done, much remains unfinished in these waning weeks. Important legislation is pending in both the House and the Senate. To name two bills, we are still waiting for action on S. 1315 and S. 2162.

S. 1315, the Veterans’ Benefits Enhancement Act of 2007, would provide needed assistance to veterans young and old, including the Filipino veterans of World War II who served under U.S. command but were denied veterans status for over 60 years.

S. 2162 is the Veterans’ Mental Health and Other Care Improvements Act of 2008. This bill responds to the growing need among veterans for high quality mental health care. Many veterans return from war suffering from invisible wounds. If left untreated, these wounds can infect a veteran’s life and livelihood, with dire consequences. The bill represents a tribute to Justin Bailey, a young Iraq veteran who overdosed while under VA care. We must not let other veterans suffer a similar fate.

Both of these bills passed the Senate with unanimous or nearly unanimous support, and both count strong supporters in the House. I hope that before this session ends, we will see both become law.

I do not report today that our work for veterans is anywhere near done, but I do say it is work in progress. I thank my colleagues in both Chambers and both parties for their support and cooperation.

TRIBUTE TO WILLIAM BREW

Mr. AKAKA. Mr. President, as chairman of the Veterans’ Affairs Committee, I normally come to the Senate floor and speak on various veterans issues—I advocate for increased screening and treatment and mental health issues for our veterans; I remind my colleagues of the veterans of their home States must file income taxes for 2008 in order to receive their tax rebates; I argue for increased funding for VA’s vital mission; and I urge the Senate to approve a new GI bill. Today, I rose to the Senate floor to speak about one particular veteran—a Vietnam veteran who has dedicated his long career, enormous talents, and tireless efforts to better the treatment and the lives of all who have served our Nation in uniform. Today, I will speak of my staff director, William Brew.

Bill has just completed 20 years of service to the Senate. His entire tenure in the Senate has been at the Committee on Veterans’ Affairs. Bill started in the Senate on April 3, 1978. At that time, his desk was in what is now the committee’s hearing room. The chairman was Alan Cranston of California. The major issues were Agent Orange and the developing medical condition that had newly been labeled post-traumatic stress disorder. As a former naval officer, and a lawyer, Bill was thrown right into these issues, and his presence made a huge difference.

An immediate and pressing need was to provide psychological counseling to Vietnam veterans at a time when the war and, sadly, even those who fought in it, remained a divisive issue for our Nation. Men and women who had served during that conflict did not return to heroes’ welcomes, yellow ribbons, and joyous neighborhood celebrations we so often see today. In 1980, in Van Nuys, CA, one of the very first vet centers opened and offered a means of providing community-based counseling and outreach services to those who were returning from Southeast Asia. Now, there are 232 scattered around the country.

Millions of veterans and their families from all wars have received counseling and support through these centers. Bill was instrumental in developing the legislation that established these facilities and was present at the opening of the first center.

Bill was deeply involved in the debates surrounding Agent Orange and quickly became an expert on an issue whose vocabulary resolved around dioxin, defoliation, Ranch Hand, and a variety of health problems and concerns. His efforts contributed to the development of wide-ranging initiatives designed to address the needs of those who believe their exposure has adversely affected their health. Bill was also instrumental in the passage of legislation in 1996, which fundamentally changed the law with regard to eligibility for VA health care. Eligibility Reform, as this law is known, eradicated the line between inpatient and outpatient care. VA, for the first time, was authorized to provide a standard benefits package of services in the most appropriate care setting. This seemingly simple change enabled VA to open up community-based clinics all across this country. Veterans have been dramatically improved because of the increased access to the now 700 clinics dotting the landscape.

Assisting disabled veterans to reenter civilian life has always been a high priority for the committee. Bill worked on legislation to revamp federally assisted State vocational rehabilitation programs, giving priority to the most seriously disabled.

Bill was instrumental in the establishment of the Court of Veterans Claims, which gave judicial review to veterans’ benefit determinations, and the committee recently approved legislation to expand the Court.
It is little known that Bill has served on both sides of the aisle, working not only for Chairmen Cranston and Rockefeller, and now myself, but also working for Chairman Alan Simpson, my Republican colleague from Wyoming. In 1980, when the Democratic nominee, Bill remained a majority staff member under Chairman Simpson for 9 months before returning to Ranking Member Cranston’s staff.

I congratulate Bill for his service and tell him that I am grateful for that, and anybody back in the heartland, where the occupant of the chair and I live: America is suffering a gas price crisis. I regret to tell the people back home that the Senate is in a crisis of its own.

It appears that Democrats are desperate to deny real gas price relief. They are apparently united behind the misguided policy of the presumptive Democratic nominee for President who says: Don’t provide any new sources of supply. They are doing anything they can to keep the one real solution to this gas price.

Opening new offshore drilling will bring suffering American families 18 billion barrels of new oil supplies. News of America’s commitment to new supplies and oil will drive down the prices immediately. New supplies, 10 years’ worth in the case of offshore reserves, will drive prices lower for years to come.

Some may say it will take a long time to come online. That is what President Clinton said in 1996 when he vetoed the authorization to open ANWR, which could have been producing a million barrels of oil a day. He said it wouldn’t happen for 10 years. Well, it is now 13 years past that veto. It is now time to let the additional million barrels of oil a day.

The Democratic leader, when it comes to lowering gas prices with new offshore supplies, says: “No, we can’t.” Actually, in the case of the Senate Democrats, it is “No, we won’t,” reflecting the views of their Presidential nominee.

Earlier this month, I tried to join with my colleagues to repeal the legislative moratorium preventing new offshore drilling off our Atlantic and Pacific coasts. With the high gas prices facing our families, it is time to end the offshore drilling ban included each year on the annual appropriations bill for the Department of the Interior.

Reviewing the Senate’s position on offshore drilling could meet the cry from our people back home to do something about the price of gas. But the Democratic leadership canceled the planned business meeting to consider and write the Interior appropriations bill. We thought we would succeed. We thought people would understand that lowering gas prices to American families by reversing the current ban on offshore drilling could meet the cry from our people back home to do something about the price of gas. But the Democratic leadership canceled the meeting to prevent the will of the people through their Senators from being heard.

Now we have confirmation. We have seen a statement from the Appropriations Committee that the Democrats thought they would lose the vote and fail in their attempt to keep new oil supplies from the American people. It came from the Appropriations Committee itself saying they did not want to see the offshore opened for drilling. That is not the way this body is supposed to work.

We disagree with a lot of things, but we at least ought to come to the floor and have a vote. Those who are for it and those who are against it, let them take their stand in public and let the people through their Senators from being heard.

Now we are on the floor of the Senate trying to move to a bill supposedly on energy. We have asked for a debate and a vote on measures in addition to their measure on speculation, because speculation is a small price relief to American families by reversing the current ban on offshore drilling could meet the cry from our people back home to do something about the price of gas. But the Democratic leadership canceled the meeting to prevent the will of the people through their Senators from being heard.

The plan of Republican Senators and the public Employee Retirement Systems of California, and of local governments that are saying: Hey, if we don’t open oil supplies, we are going to see that $145 a barrel oil go to $175 and $200 and $250.

Regrettably, if the policy of the Democrats being acted on in the Senate today holds, we will see those oil prices going above $200 a barrel and over $5 at the gas pump. The Democrats, in lockstep with their Presidential nominee, are doing anything they can to block the one real solution: News of America’s commitment to new clean nuclear-powered electricity that can drive our next generation of hybrid cars and trucks, and give financial help to jump-start our U.S. manufacturing supply base for hybrid car batteries to bring their prices down and put people in America to work.

The only real thing that will work to get gas prices down is fundamental—more oil supplies to scare away the speculators and meet the demand. Missouri does not need more hot air from the Democrats. Energy summits where Washington politicians talk about how much they claim they care about families will not get the gas prices down. And yet, the Senator from Illinois, the Democratic presumptive nominee for President, has had a solution for the gas price crisis. He said we need to keep our tires fully inflated.

I agree with keeping our tires fully inflated. I am told by the studies of the Department of Transportation that can save 6 to 12 gallons of gasoline a year. So please keep your tires inflated. But suggestions to inflate our tires fully are not going to make a significant difference in the gas price.

America deserves more than Democratic hot air. Here it is hot air to inflate our tires. On the floor of the Senate, it is hot air to tell us everything
else but increasing supplies may have an impact.

America deserves real action with real solutions. We should not abandon the American people to this gas price crisis. We need to move back to the bill on speculation and include amendments that will bring real gas price relief.

I have an amendment, No. 5121, to open 18 million barrels of oil reserves off our Atlantic and Pacific coasts—10 years of new oil supplies for the American people.

My amendment would also authorize more than $1 billion a year to jump-start a U.S. manufacturing supply base for hybrid car and truck batteries. Funding would go to hybrid battery research and development, battery manufacturing equipment and capabilities, and re-equipping, expanding, and establishing U.S. domestic manufacturing facilities or hybrid vehicle batteries.

Why? We need it to get the supply of batteries. I have visited factories in Missouri where they are producing battery-powered cars, hybrid cars, such as the Ford Escape, the Claycomo plant. General Motors is working on these products. These are tremendous opportunities. We need to move to more plug-in vehicles.

In my hometown of New Mexico, MO, my good friend who sells modified golf carts is selling street-ready vehicles now. He and they are popular. We can have full-size vehicles if we have the battery to power them. But most of those batteries are being made in Asia, and American car manufacturers get second call. We need to have those batteries manufactured in America to supply our automobile industry.

This amendment would force gas prices down, find more oil and use less. The amendment would provide new oil supplies and new sources of oil conservation. But the Democratic leadership has said, no, they do not want to hear about issues that are important, at least to my constituents, of what it costs them to fill up their car tires. They are concerned about it when they fill up their car with gasoline, but they are even more concerned about it heading into the winter.

People in New Hampshire anticipate winters. We know it is coming. There is not much we can do about it. It is coming. We also know that 60 to 70 percent of homes in New Hampshire—maybe more—are heated by oil. The price of oil that has to be put in the tanks in order to heat homes has doubled or tripled. A lot of families in New Hampshire, low-income families, but also moderate income families are going to be extraordinarily stressed to try to meet that energy need and the price of that energy.

There are a lot of things that you can maybe do to change your lifestyle. You can maybe drive a little less. Maybe you can take a bus; not so much in New Hampshire because there are not a lot of city areas that have bus districts, although we do have some. But you can adjust your driving. You can downsize your car so you use less gasoline. But if you have a home as a family, there is nothing you can do about it. You have to heat that home. You have to stay warm in the winter when the temperature is at zero or even minus degrees and the wind chill is certainly minus degrees, and that takes a lot of energy and takes oil. So people are scared. They are scared about how they are going to heat their homes.

I believe my No. 1 responsibility as their representative in Washington is try to do something about bringing down the price of that energy. How do we do that? In my opinion, we do it by at least voting in the Senate on the issue of expanding our supply in the United States, with American energy, while also conserving more. Yet we have been blocked now. As the Senator from Texas points out, this will be the seventh time the Democratic Party and the Democratic leadership has tried to move the Congress off the issue of trying to bring down oil prices, bring down gasoline prices by expanding American sources and American production by allowing us to drill offshore, by allowing us to use oil shale, by allowing us to expand nuclear power, by allowing us to put an effort into the development of electric cars, by doing a whole series of things.

Seven times now the Democratic leadership here has said, no, they do not want to hear about this. They do not want to talk about issues that are important, but they are nowhere near the importance, at least to my constituents, of what it costs them to fill up their gasoline tanks and what it is going to cost them to fill up their oil tanks this winter.

I cannot think of a higher priority as a Congress than to take up this Energy bill and have some votes on these very important issues of whether we open more drilling offshore, whether we use more oil shale, whether we expand our efforts to try to bring online nuclear powerplants, whether we continue our efforts to try to expand electric cars.
The Senator from Texas hit the nail on the head. We need to act on these issues, and we should stop this obfuscation which is occurring on the other side of the aisle on this issue. We should get to the essence of the issue, which is produce more American energy.

Mr. CORNYN. I appreciate the Senator from New Hampshire addressing that issue. I have always been amazed that those who say we ought to do something to help poor people who need their heating oil are the same folks who seem to be the most resistant to opening America’s reserves of natural resources which would have the effect of bringing down oil prices for everybody. It seems to me that would be one of the most commonsense things we could do.

Mr. GREGG. The Senator makes a truly excellent point. If we want to address the fear low-income people have about the cost of their energy to heat their home, bring down the cost of energy. Address the systematic problem.

LIHEAP is an important program. It is a critical program for us in New England. But it is the bandaid. It is not a solution.

The problem becomes more acute because this also merges into our national defense, into our security as a nation. When the Persian Gulf war took place, Alaska increased its production of oil, and at that time they were producing at a capacity of 2.1 million barrels a day. Today they are only producing 700,000 barrels a day because the supply of oil in Alaska is dwindling because we are not allowed to develop additional resources there.

What is occurring, essentially, is that the domestic supply of oil is ever decreasing, our percentage of dependency on foreign sources is ever increasing, while at the same time the price is going through the roof. It is a supply-and-demand problem that cries out for a solution.

What has occurred? My own transformation has been that while I was adamantly opposed to any form of drilling, my own Governor took a forward-thinking position and decided maybe the time had come for us to reconsider and think a little differently about it. We still want to protect our coastline. We still want to protect our beaches. But at the same time, we have to recognize a new reality. That new reality requires us to adapt to the current circumstances and transferring wealth to the extent of $700 billion a year to foreign sources. It is unsustainable over a long period of time. America will be squandering its wealth purely to satisfy our demand for oil.

Surely we have to do other things about renewables. We have to do all that. But at the end of the day, we have to do more on our own resources to produce more oil from America’s soil.

What has occurred is, in fact, the presumptive nominee of the Democratic Party and the presumptive nominee of the Republican Party have taken divergent points of view. Senator MCCAIN, the presumptive Presidential nominee of the Republican Party, has said: Times have changed. We have to drill in the offshore. Senator OBAMA remains stuck in the past. He is not for change. He is against change when it comes to taking care of America’s oil resources.

I believe what we are following in the dictates of higher powers. At the same time, the business of the Senate has ground to a halt. We have not been able to accomplish much because we have not been allowed to have a thorough debate we need to have on this very important issue.

When I hear from Floridians today, they want us to move the business of Government, but they most of all want us to solve this problem. They do not want us to put it aside. They know they are hurting.

They also realize, by the way, this is no panacea. We have no magic wand we can wave and lower prices tomorrow, but we can begin a trend that is going to trend in the downward direction if we begin to do something about opening America’s resources to more drilling.

Mr. CORNYN. I appreciate the comments of the Senator from Florida. In the real world, when the facts change, people are free to change their mind.

Mr. GREGG. The Senator from New Hampshire, I know, as from Florida said, more oil is going to be a transitional step on our part because production globally is declining. Yet demand, especially from huge economies such as China and India, is going up. I know the Senator from New Hampshire is a big proponent of clean nuclear power. I wonder if he can comment on what he sees this transition looking like, in terms of starting with more American production but with conservation, with renewable energy, and developing wealth there.

Mr. CORNYN. Mr. President, I ask if you would please notify us when 10 minutes remain in our time so the Senator from Georgia can take the floor. We would like to continue with the colloquy.

I know the Senator from Florida, Senator MARTINEZ, is here. I know offshore drilling has been somewhat controversial in his State. I would like him to address that. But I would also like him to help us understand the bigger picture, and that is why the majority leader, who controls the agenda on the floor of the Senate, a Member of the other party, refuses to allow us to vote. I know Senator OBAMA has adamantly opposed any additional offshore exploration. On the contrary, I can say that the majority leader, by refusing an opportunity for Senators to vote, is somehow protecting the Presidential nominee, the presumptive Presidential nominee of the Democratic Party, Tom Coburn, is embarrasing split in his own political party. I wonder if the Senator has any comments.

Mr. MARTINEZ. I am happy to comment on the situation in Florida and also what I think is an observation you made accurately in the larger political climate. They are related. The State of Florida has jealously guarded its offshore resources because we have a tremendous tourism economy. As does Texas in the Gulf of the State. However, $4 for a gallon of gas has caused a transformation in thinking. It has allowed us to see more clearly what is occurring. What is occurring to our Nation is not just that the people, the families, the individuals, are hurting at the pump when they go pump gas. Fortunately in Florida our winters are mild, but I understand the situation in New Hampshire and other cold States that is going to be coming up. This is hurting families. This is a problem to the American family, particularly those on fixed income, many of whom live in Florida.

The problem is not just that the people, the families, the individuals, are hurting at the pump when they go pump gas. Fortunately in Florida our winters are mild, but I understand the situation in New Hampshire and other cold States that is going to be coming up. This is hurting families. This is a problem to the American family, particularly those on fixed income, many of whom live in Florida.

The problem becomes more acute because this also merges into our national defense, into our security as a nation. When the Persian Gulf war took place, Alaska increased its production of oil, and at that time they were producing at a capacity of 2.1 million barrels a day. Today they are only producing 700,000 barrels a day because the supply of oil in Alaska is dwindling because we are not allowed to develop additional resources there.

What is occurring, essentially, is that the domestic supply of oil is ever decreasing, our percentage of dependency on foreign sources is ever increasing, while at the same time the price is going through the roof. It is a supply-and-demand problem that cries out for a solution.

What has occurred? My own transformation has been that while I was adamantly opposed to any form of drilling, my own Governor took a forward-thinking position and decided maybe the time had come for us to reconsider and think a little differently about it. We still want to protect our coastline. We still want to protect our beaches. But at the same time, we have to recognize a new reality. That new reality requires us to adapt to the current circumstances and transferring wealth to the extent of $700 billion a year to foreign sources. It is unsustainable over a long period of time. America will be squandering its wealth purely to satisfy our demand for oil.

Surely we have to do other things about renewables. We have to do all that. But at the end of the day, we have to do more on our own resources to produce more oil from America’s soil.

What has occurred is, in fact, the presumptive nominee of the Democratic Party and the presumptive nominee of the Republican Party have taken divergent points of view. Senator MCCAIN, the presumptive Presidential nominee of the Republican Party, has said: Times have changed. We have to drill in the offshore. Senator OBAMA remains stuck in the past. He is not for change. He is against change when it comes to taking care of America’s oil resources. I believe what we are following is the dictates of higher powers. At the same time, the business of the Senate has ground to a halt. We have not been able to accomplish much because we have not been allowed to have a thorough debate we need to have on this very important issue.

When I hear from Floridians today, they want us to move the business of Government, but they most of all want us to solve this problem. They do not want us to put it aside. They know they are hurting.

They also realize, by the way, this is no panacea. We have no magic wand we can wave and lower prices tomorrow, but we can begin a trend that is going to trend in the downward direction if we begin to do something about opening America’s resources to more drilling.

Mr. CORNYN. I appreciate the comments of the Senator from Florida. In the real world, when the facts change, people are free to change their mind.

Mr. GREGG. The Senator from New Hampshire, I know, as from Florida said, more oil is going to be a transitional step on our part because production globally is declining. Yet demand, especially from huge economies such as China and India, is going up. I know the Senator from New Hampshire is a big proponent of clean nuclear power. I wonder if he can comment on what he sees this transition looking like, in terms of starting with more American production but with conservation, with renewable energy, and developing wealth there.

Mr. CORNYN. I think $4 gasoline and $140-plus for a barrel of oil have caused a lot of people to rethink their prior positions. Gasoline was $2.33 when the Democrats took control of Congress in early 2007 but now is hovering around $4 a gallon, and I think it is only reasonable that people will reassess their decisionmaking. Indeed, I think we have seen that happen with the American people, if you look at public opinion polls, shifting to overwhelming support for exploration and production from the Outer Continental Shelf.

I say to the Senator from New Hampshire, I know, as from Florida said, more oil is going to be a transitional step on our part because production globally is declining. Yet demand, especially from huge economies such as China and India, is going up. I know the Senator from New Hampshire is a big proponent of clean nuclear power. I wonder if he can comment on what he sees this transition looking like, in terms of starting with more American production but with conservation, with renewable energy, and developing wealth there.

Mr. CORNYN. The acting President pro tempore, if the Senator will suspend, morning business is closed.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2009—MOTION TO PROCEED

The acting President pro tempore. Under the previous order, the Senate will resume consideration of the motion to proceed to S. 3001, which the clerk has reported.

The assistant legislative clerk read as follows:

Motion to proceed to Calendar No. 732, S. 3001, a bill to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes.

The acting President pro tempore. Under the previous order, the time until 12:30 shall be divided in alternating 30-minute blocks of time, with Republicans controlling the first block.

ENERGY

Mr. CORNYN. Mr. President, I ask if you would please notify us when 10 minutes remain in our time so the Senator from Georgia can take the floor. We would like to continue with the colloquy.

I know the Senator from Florida, Senator MARTINEZ, is here. I know offshore drilling has been somewhat controversial in his State. I would like him to address that. But I would also
need. The American people understand the basic common sense of an issue, which is we need to use all the different options we have at hand. We are a nation with great creativity, great ability to be innovative. We are also willing to push the envelope, to try to use technology to improve our situation.

Not only do we need to find more, we need to use less. We need also to use our great strength in technology to advance our cause of delivering more American energy.

Nuclear power is a classic example of that. We basically created nuclear power, the concept of it, and how to use it in a positive way. Yet for the last 27 years, because of the adamant and, in my opinion, inappropriate opposition of the most activist environmentalist groups in this country, we have not had a new nuclear powerplant application approved.

Now historically, was the last State to bring online a nuclear powerplant. That occurred in the late 1980s. That nuclear powerplant was resisted by the Democratic leadership in the State and by the activist environmentalists in the State at a level which I believe will be dissolved today. Thousands of people were arrested at the site where the plant was being built. It was delayed for almost 15 years. The cost of it quadrupled—it went up by a factor of 10, I think.

What happened in the end was the plant came online. What has happened since the plant has been online? It has produced safe, clean, reliable energy—not only for the people of New Hampshire but for the people of all the Northeast because it is producing so much energy it actually exceeds New Hampshire's needs. As a result, we have had an energy source which has saved us from having to buy thousands and thousands—millions of barrels of oil. We should be doing that across the country.

Mr. MARTINEZ. May I ask the Senator a question. This nuclear plant, does it produce greenhouse gases? Does it, in any way, harm the quality of air or produce the kinds of problems associated with global warming?

Mr. GREGG. That is a good question and it is very important. Nuclear power is clean. It addresses the issue of global warming. It is the most effective energy source for that. It has no emissions which basically go into the atmosphere and aggravate the issue of global warming, so it is the type of power we want. It is safe and it is ours. We do not have to buy it from some other country. It is very logical we should be aggressively pursuing nuclear power. Again, you have to appreciate the fact that the other side of the aisle and the leadership of the other side of the aisle, especially Senator OBAMA, are opposed to expanding the nuclear option for our Nation which, in my opinion, is cutting off your nose to spit your face. This is a very safe and usable form of energy which addresses the issue of global climate change in a positive way by still giving Americans American-purchased energy.

Mr. CORNYN. I would say to the Senator from New Hampshire, it does not make sense to me. The U.S. Navy, of course, have been using nuclear power for its aircraft carriers and submarines for, I think, 50 years and is able to do so safely and without incident.

France generates 80 percent of its electricity using nuclear power. In France, the environmental activists have actually cut a deal, as I understand it, with the nuclear power producers because they understand. They get the point the Senator from New Hampshire, and the Senator from New Hampshire, that nuclear power is clean power. For those who are concerned about climate change, that would be one of the best things we could do to alleviate the pressure on the environment.

I wish to get back, if I can for a second, because there has been a lot of talk, particularly the Senator from Tennessee, Mr. ALEXANDER, is talking about the new technology, to develop plug-in hybrid cars, battery-operated cars. I know there is a little confusion because right now we need transportation energy, which is basically oil and gasoline—aviation fuel to fly our aircraft. I wonder, how does nuclear power or using coal in a clean way to generate electricity figure into that? The point we are trying to make is we need all of the above. We need to generate the electricity cleanly so we can use the new technology that we think will bring us into a clean energy future.

I wish to ask both my colleagues to comment on a couple things. One of my constituents, T. Boone Pickens, is in town. He is a remarkable man. He has been very successful in the oil and gas business. He says we need a different way of looking at our energy future. He is advocating increased use of wind energy technology. He is advocating more use of natural gas because he says we have found ways to develop more of that here in America so we have to buy less—the point of the Senator from Florida, that less money we have to send than the $700 billion we send overseas each year. Mr. GREGG. He also said, did he not, that we need to use everything. He didn't say don't use drilling; he said we have to drill everywhere we can in the United States. We have to use wind, we have to use solar, we have to use nuclear, we have to use everything, because we have to stop sending $700 billion, as the Senator from Florida mentioned, to people who do not like us. Venezuela and Iran. Let's keep it here, where we can use it to build our economy.

Mr. MARTINEZ. I remember him being asked: What do you feel about drilling? He said: I want to drill everywhere.

Now, I am not there, because I don't want to drill everywhere. I want some beaches to be protected. But he was saying we need to drill, drill, drill. That is part of the answer. It is not going to get us out of the problem, but it is part of the solution.

Mr. CORNYN. I have two points, and I would like to hear from both Senators. One is we have thought about the other side, and, in my opinion, is cutting off your nose to spit your face. This is a very safe and usable form of energy which addresses the issue of global warming. It is the most effective power, the concept of it, and how to use it in a clean way to generate electricity using nuclear power. In France, the environmental activists have actually cut a deal, as I understand it, with the nuclear power producers because they understand. They get the point the Senator from New Hampshire, and the Senator from New Hampshire, that nuclear power is clean power. For those who are concerned about climate change, that would be one of the best things we could do to alleviate the pressure on the environment. We do not have to buy it from some overseas. We have the resource. I understand that we have an estimated 2 trillion barrels of oil that can be produced from oil shale. So maybe we can drill our way out of this with enough creativity, enough technology, and enough resources being employed.

So it is not going to just be about nuclear, although it ought to be nuclear. Florida has three nuclear powerplants built in the 1970s and 1980s, and thank goodness for those because in Florida we cannot produce any oil, we do not have any hydro, and we depend on those nuclear powerplants to power ourselves. So thank goodness we have that.

We also need to look at more production offshore. We need to produce more oil shale, and the new technologies of wind and solar and new battery technology— all of the above.

My point is, we cannot drill our way out of this, but part of the solution is drilling. So it is not about suggesting that we should forget everything else and just drill, but it is to say that drilling as a component part of a comprehensive energy policy can move this country ahead, can move us forward.

Mr. GREGG. Well, the point the Senator makes is extraordinarily valid. But there is an ancillary issue here,
which is, not only do we need the energy to try to increase supplies and reduce the price, but it seems incomprensible that we would not want to put in place programs which would relieve us from sending Americans' hard-earned dollars, you know, folks who are very much concerned to see those dollars to Venezuela and Iran and other countries which hate us and want to do us harm. It seems that common sense would want us to produce American energy if we have American energy available we can produce it in an environmentally sound way rather than send the money overseas.

Mr. CORNYN. I want to ask the Senator from New Hampshire, the bill that was on the floor about 2 weeks ago was a bill to deal with speculation and the commodity futures market. Our point was, we should not just deal with part of it, part of the problem, we ought to deal with the whole problem. That is why we have insisted—in fact, we have demanded—we should not leave here until we have had an opportunity to vote on offshore production and those other good ideas.

But I wonder if the Senator would address why the speculation component along with would be an insufficient response—may be part of the answer but certainly not the complete answer to the problems we face today?

Mr. GREGG. The simple answer is that it does not produce any more energy. Yes, there is probably speculation in the market. Yes, we should have more transparency and more enforcement to make sure the market is not being abused. But that is not going to produce any more energy.

We know there are 2.5 billion people between India and China, and they are starting to have much more high-quality lives, and so they are starting to buy cars, they are starting to buy motor scooters, they are starting to use electricity, the demand for energy is accelerating dramatically. That is 2.2 billion more people than we have in the United States. So the simple math of it shows us we have to find more energy and we have to use less energy.

That is why amendments brought to the floor which are directed at finding more energy—such as oil shale, drilling offshore, and nuclear—need to be addressed. We need to discuss them. I cannot believe why the other side of the aisle refuses to do that.

I asked my staff to put together a chart which would summarize this in the most simple and stark way. Here is the chart. It is a big zero. It is a zero. Zero amendments are being allowed here. Zero new oil is being produced as a result of that. Zero new gas, zero new nuclear plants. Until we have some amendments on this floor which allow us to address these issues, we are still going to have zero as being the answer of the type of energy we have to put out more oil and more energy. It is not right. We should be getting down to the issue of what the American people want, which is to get the price of energy down by producing more and using less and producing more American energy rather than buying it from other countries that do not like us.

The ACTING PRESIDENT pro tempore. The Acting President. Mr. MARTINEZ. The International Energy Agency printed a grim picture about the future. The report estimated that over 3.5 million barrels a day of new production needed each year just to hold the total production steady. So as India, China, and these other countries are rising in their demand, we need 3.5 million barrels a day of new oil just to keep the current standards of what we have. That is not just a U.S. problem, it is a global problem.

Mr. CORNYN. I thank my colleagues. We are going to relinquish the floor to the Senator from Georgia for the final comments.

I would say in closing that I can anticipate what the argument is going to be when the majority leader comes out, and the whip—they are going to say it is all about the oil embargo. But the problem is, we have insisted we are not going home, we are not going to quit, we are not going to change the topic until we get an opportunity to vote on what we believe will have the most direct impact reducing gas prices: increasing supply and offering all of the above that we have discussed during this colloquy this morning. That is our position, and we believe that should be a bipartisan position. We invite our friends on the other side of the aisle to join us in being part of the solution instead of being part of the problem.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Georgia.

Mr. ISAKSON. Mr. President, I associate myself with the Senators from New Hampshire, Florida, and Texas, and would like to report an interesting occurrence that took place yesterday that kind of verifies exactly what Senator CORNYN said.

After the vote on the media shield motion to proceed, I went back to my office and placed two phone calls, one to the president of the Georgia Press Association, the other one to the president of the Georgia Broadcasters Association. I told both of them: We have had conversations about the importance of media shield, and I know both of the other one in it. But I want to explain why a few minutes ago I cast a "no" vote on a motion to proceed to media shield.

I said: The reason I did it, quite simply, is that for everybody in my State—I would submit most everybody in the United States of America—the No. 1 issue is the high cost of energy. So that is why I have remained committed to staying on the Energy bill until we find some way to bring Republicans and Democrats together. Both of us can give. I said in a speech the other day: We ought to put our donkeys and elephants in the barn and sit down and talk about ways to really meaningfully change the lives of the American people, not 20 years from now but today.

The country is hungry for a Congress and for leadership that will say yes to more production, yes to more conservation, yes to a better environment, yes to a productive economy, all of which would be the result of a comprehensive, balanced approach toward energy. But a singular slingshot approach or a rifle approach, like just speculation or just drilling or just something else—we have to do it all. We have to do it comprehensively. We have it within our capabilities to do it right.

As the Senators before me have stated, we have all kinds of resources. Many of these resources are not only abundant but they are cleaner than gasoline and they are cleaner than oil—nuclear energy, for example. In America, 19 percent of our electric energy is produced with nuclear; in France, it is 87 percent. Think about the difference that makes not only in the reliability and the cost of energy but the carbon-free emissions that come from nuclear versus the heavy carbons that come from the burning of oil or gas or coal or other sources.

Ingenuity and innovation. The American people are a remarkable people. When confronted with whatever challenge, we have almost always come up with a solution. But sometimes these solutions either take inspiration or they take encouragement. When we needed to go to the moon, in the space race, we had the inspiration of a great President, John Kennedy, to declare a goal to land a man on the Moon and bring him back again before the end of the decade. We did not know how to do it, but we did it. We need a Congress that is just as bold today to say that $1 a gallon is too much for gasoline, carbon is too bad for our atmosphere, and fossil fuels are geopolitically not in our interest.

It is time that we as America find ways through ingenuity and innovuity to invent and to develop and to process those sources of energy that are clean, renewable, reliable, and less expensive. And we can do it. But you cannot do it if you stand in gridlock on the floor of the Senate and the House of Representatives, unwilling to talk about all the issues.

We all have our biases and we all have our prejudices, but all of us take
an oath of office to represent the people of our State and to uphold the Constitution of the United States of America and defend the domestic tranquility of our people. When your economy is tanking, when your debt is going up because of your addiction to foreign oil, and Congress sits here for 2 weeks debating only one sliver of the solution without everything, then we are not living up to our responsibility.

So if the Georgia Press Association understands, if the Association of Broadcaster understands, if the 17,486 people who communicated last week with my office about one issue—and that was cost of energy—understand, why can’t we in the Senate understand? We are all in this together. We are 100 coequal. We all have the same responsibility. And we ought to all have the same goal; that is, to find a way to thread the needle so we sit down and we develop a comprehensive energy program for the people of the United States of America.

I did a talk show yesterday—actually, it was a television program where I was asked about this energy question. I was asked about the Arab oil embargo of the 1970s. I said that the Arab oil embargo of the 1970s was an early warning. It gave us a second chance to address the energy question. But when prices went down in the 1980s and 1990s and the price of gasoline was not that high, we did not take that chance. Well, today, prices have spiked to an all-time high.

This is not a second chance for us in America, this is a last chance for us in America. A sustained cost of gas at $4 a gallon, oil at $120 to $150 a barrel will break the U.S. economy. It will destroy the value of the U.S. dollar, and it will hurt the people of the United States of America.

So it is time for us to put these prejudices aside, put them aside and sit down to an agreement. I’ve been the first person to lay on a table—I am willing to sit down and talk to anybody, anyplace, anywhere, about any singular facet of the energy crisis if they are willing to talk about the other facets of the energy crisis.

As Boone Pickens said, drilling will not solve it, but it will help. Solar will not solve it, but it will help. Wind will not solve it, but it will help. Renewables will not solve it, but they will help. We have to do is put together the pieces of the puzzle that are within our grasp and make sure the people of the United States have abundant energy at affordable prices. We are sitting on a ham sandwich, starving to death. We are not developing the resources we have at our disposal, and because of that, our citizens are paying a dramatic price.

Anytime, anywhere, anywhere, let’s start talking about solutions rather than continuing to perpetuate the problem.

I yield back any time we have remaining, and I suggest the absence of a quorum.
both a sad time and a happy time for me to know that Katy is joining a religious order to further her life in giving to other people.

She is foregoing money. She is foregoing material things. In fact, she will be in an order that was established some 30 years ago associated with the Catholic Church out of Argentina that she will dedicate the rest of her life to, making a difference—a real difference—in other people’s lives.

She is passioning on troubled urban youth. Her characteristics and multilingual talents will lead her in that direction. To me, the greatest compliment you can have as a Senator is to have a staff member leave for such a higher calling. For Katy and all of those who work in our office and on behalf of the Senate, and as a reflection of the rest of the staff of the Senate, we thank you for your efforts on behalf of freedom.

I thank you, Katy, for your efforts on behalf of freedom, for your office and what we are trying to do for the people of Oklahoma. Most importantly, I thank you for your grasp of faith and what it means to truly give up your life so that in the words of that man from Nazareth, “I will last will be first.”

Katy French has lived that example. We will miss her.

I thank the Senate for the time. I yield the floor, and I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. DEMINT. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMERICAN ENERGY FREEDOM DAY

Mr. DEMINT. Mr. President, I rise today to invite my colleagues to join me in supporting American Energy Freedom Day on October 1, 2008.

On the current prohibitions on oil and gas exploration off the Outer Continental shelf and in the oil shale fields of the West will expire, giving Americans the freedom to access their own energy reserves and providing them with relief from sky-high prices at the pump.

Estimates indicate there are upwards of 18 billion barrels of recoverable crude oil in the off-limit areas of the Outer Continental Shelf, as well as more than 3 trillion cubic feet of natural gas. In addition, estimates indicate that between 800 billion and 2 trillion barrels of oil can be drawn from American oil shale.

Taking advantage of American resources will increase the worldwide supply of petroleum and bring down prices at the pump. The very access to these resources will send powerful price-reducing signals to the futures market, providing immediate relief for all Americans.

For over 25 years, Democrats have denied Americans the freedom to access their own energy, making our Nation more and more dependent on foreign oil. Each year, they have continued the ban on American energy. Now it is time for them to get out of the way and open up American energy supplies.

I strongly encourage my colleagues to support Energy Freedom Day and allow the prohibitions on American energy exploration to expire once and for all. We must actively oppose any attempt to extend these bans on American prosperity and security. Now is not the time to deny Americans access to their own energy.

October 1 is going to be a great day for all Americans. I invite my colleagues to join me in supporting American Energy Freedom Day.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada is recognized.

RENEWABLE ENERGY

Mr. ENSIGN. Mr. President, I rise today to speak about the importance of renewable energy and addressing our current energy crisis in the United States.

We need a comprehensive approach to our energy problems in the United States. Renewable energy is one of the answers.

Senator MARIA CANTWELL, a Democrat from the State of Washington, and I have been working tirelessly together, in a bipartisan way, to get a renewable energy bill passed through the Senate, passed through the House, and onto the President’s desk for a signature. I applaud her for her efforts in this battle.

We passed our renewable energy bill—a bipartisan bill—in April. We attached it to the housing bill that was done then. It passed this body with a vote of 88 to 8. Not too often around here do you see Republicans and Democrats joining together in such a bipartisan way. But it shows you the kind of support this body has shown toward renewable energy. Unfortunately, the Democrats in the House of Representatives blocked our renewable energy bill from being considered as part of the housing bill.

Once again, we attempted, in July, to get our amendment added to the housing bill that would expand renewable energy, such as solar, wind, geothermal, and other types of green energy to the United States. We would have been able to attach that to the housing bill if the majority party had allowed us to have that kind of a vote. Unfortunately, they used the excuse it wasn’t paid for and that the House of Representatives—the Democrats in the House—would block our piece of legislation from being considered in the final package.

So we offered a compromise and we said, OK, we will pay for it, except that instead of raising taxes to “pay for it,” we will offer spending cuts. The Federal Government is too big anyway. We said let’s have a very small “haircut” from nonveteran spending programs across the board. We will do across-the-board spending cuts—a tiny percentage.

Once again, the Democratic majority said no. It was very disappointing. We need to come together in a bipartisan way to address the energy needs of this country. Republicans have been saying: Let’s do a comprehensive approach; let’s include renewable energy and make sure we pass a comprehensive bill that allows us to drill in places such as our Outer Continental Shelf. Deep sea exploration is a great way for us to bring more oil and natural gas to the United States, to make us less dependent on Middle Eastern oil.

My colleague from South Carolina talked about oil shale. Up to 2 trillion barrels of oil—which is three times more oil than Saudi Arabia has—is potentially available between Wyoming, Colorado, and Utah. Right now, we have a moratorium put on that. Why? Because the Democratic majority put that into law last year.

We need to repeal that moratorium so that we can go forward to make us less dependent on countries that—frankly, a lot of them don’t like us. Whether it is Hugo Chavez in Venezuela, or some of the other more volatile regions of the world where we get a lot of our oil today, there are not exactly the places where we should be sending our money.

Currently, the United States sends about $700 billion a year overseas, funding a lot of governments that are not our friends. We, as Republicans and Democrats, need to lay our party labels aside and become Americans. Let’s do something that is right for the country. Let’s bring more American energy production to America, so we are less dependent on other governments around the world.

I strongly believe we need to tap more of our coal reserves. That is one of our cheapest forms of power we have in the United States. There is exciting technology for carbon recapture technology. Senator KERRY and I have a Subcommittee—he is chairman and I am the ranking member—and we have done several hearings over the last couple of years on this carbon recapture technology to make coal even cleaner than it is today. That carbon recapture technology is exciting. We are talking about capturing 95 percent of all of the carbon produced by coal. It can produce more and more electricity than the President has said.
several years, unless we bring more supplies. I would like more of those supplies to be right here in America. I think that is the right thing to do. It is good from a national security standpoint, from an economic security standpoint, and it is good for the pocketbook of ordinary Americans across our country.

I call on my colleagues to look at a comprehensive approach that would include renewables, more conservation, and looking for more American energy in the form of oil and natural gas. It is the right thing to do for the American people.

It is time for us to act and to quit playing more politics. The motto on the Republican side has been to find more and use less. Well, the only way we are going to be able to do that, frankly, is for the Democrats to talk less and start voting more. We need to have amendments that are fully debatable on the Senate floor, because there are answers out there. There are no silver bullets, but in a comprehensive approach, we can have answers to bring down the cost of gasoline in the United States.

Let’s join together as Republicans and Democrats and act for the good of the American people.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The Acting PRESIDING OFFICER. The clerk will call the roll.

Ms. KLOBUCHAR. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. McCaskill). Without objection, it is so ordered.

ONE-YEAR ANNIVERSARY OF THE I–35W BRIDGE COLLAPSE

Ms. KLOBUCHAR. Madam President, tomorrow at 6:35 p.m. Minnesota time, it will be one year since the horrific collapse of the I-35W bridge. It is a day and a moment when all Minnesotans will always remember where they were. They will remember what they were doing, they will remember what they heard, and they will remember the pictures. Minnesotans will even remember the weather and what it was like that day because as if to symbolize what was to come, that warm summer day started with clear skies, but by late afternoon, dark and ominous storm clouds had begun forming on the horizon, with thunder rumbling in the distance. Then after the bridge collapsed, as if to provide relief for the rescuers, the storms retreated.

I know many people across America will also remember that day, and they will think about those who died and those who survived, miraculously, on that bridge.

I know my colleagues in the Senate will also remember. I thank each and every one of them for their tremendous sympathy and concern for the people of my State following the bridge collapse. On behalf of all Minnesotans, I wish to say how grateful we are for the bipartisan support in the days after that bridge collapse, the immediate funding for emergency relief, and then the funding for the bridge so that bridge could be built again.

This support from the Senate and the Congress helped lay the groundwork for the fast and efficient reconstruction of the bridge. In fact, a new bridge already spans the river. It is expected that by the end of the year, possibly within the next month or two, cars and trucks will be traveling over the Mississippi River on the newly constructed 35W bridge. My home is only 6 blocks away. So my family and I look forward to, once again, driving across the 35W bridge.

Not only in Congress but across the Nation, the catastrophic failure of this bridge provoked deep concern that it might not be an isolated incident, that there might be a broader problem with bridges across the country. That is because down in the middle of America on the 1st day of August in 2007, especially not an eight-lane interstate highway, especially not one of the most heavily traveled bridges in the State, especially not in the heart of a major metropolitan area.

But on August 1 of last year, the 35W bridge in Minneapolis fell down. So tomorrow, 1 year later, we remember the 13 people who lost their lives on that bridge, the brave 145 people who were injured, many of them now living with serious and permanent injuries.

Tomorrow we also remember the many people—the police officers, the firefighters, the paramedics, the citizen bystanders who risked their lives by running toward that catastrophe and not away from it.

When I watched what unfolded that night, I was shocked and horrified. But as the days went by, the entire world watched our State come together, and I was proud to be a Minnesotan.

We saw the heroes. We saw them in the face of unimaginable circumstances. We saw the off-duty Minnesota firefighter, Shanna Hanson, who grabbed her lifejacket. She was off duty, but she was among the first on the scene. She was tethered to a yellow life rope and she was in the midst of broken concrete and shards as she made her way from car to car, in and out, in and out of that river searching for survivors.

We saw a school bus perched precariously on the falling bridge deck. I like to call it the ‘Miracle Bus,’ perched on that falling bridge deck, on the side, ready to fall in. Inside were dozens of kids from a Minneapolis neighborhood who had been on a swimming field trip. Their bus was crossing the bridge when it collapsed. Thanks to the quick action of responsible adults and the kids themselves, they all survived.

Now, with the perspective of a year, what can we learn from this catastrophe? Well, first, the emergency response to the bridge collapse demonstrated an impressive level of preparedness that should be a model for the Nation. You can never feel good about a tragedy such as this, but I do feel good about our police officers, our firefighters, our first responders, our medical personnel, and the American people.

This week, the Hennepin County attorney for 8 years, I remember meeting with the sheriff, the police chief, and other officials as we planned and practiced for disaster relief drills after 9/11. Even though no one imagined a major bridge would collapse, the County attorney and other officials were prepared. The preparation was evident on the night of August 1 when our survivors were quickly rushed to the hospital.

Second, we saw how important it was to move forward and build a new, safer bridge. I know many people across America wish you are here to do more than talk about it. We have to respond after 9/11, and first responders. Look at the scene they came upon, this enormous eight-lane highway in the middle of the water, a storm above them, and they dove into that water and literally saved hundreds of people.

This week, the Hennepin County Medical Center, located only blocks from the bridge, was honored with a national award for extraordinary response to this crisis. As the Hennepin County attorney for 8 years, I remember meeting with the sheriff, the police chief, and other officials as we planned and practiced for disaster relief drills after 9/11. Even though no one imagined a major bridge would collapse, the County attorney and other officials were prepared. The preparation was evident on the night of August 1 when our survivors were quickly rushed to the hospital.

Second, we saw how important it was to move forward and build a new, safer bridge. I know many people across America wish you are here to do more than talk about it. We have to respond after 9/11, and first responders. Look at the scene they came upon, this enormous eight-lane highway in the middle of the water, a storm above them, and they dove into that water and literally saved hundreds of people.

Second, we saw how important it was to move forward and build a new, safer bridge. I know many people across America wish you are here to do more than talk about it. We have to respond after 9/11, and first responders. Look at the scene they came upon, this enormous eight-lane highway in the middle of the water, a storm above them, and they dove into that water and literally saved hundreds of people.

Which this. I still remember the day the Senate voted for a billion dollars for bridge reconstruction across the country, but it didn’t include the funding for our bridge. I came in early, and I sat at my desk, and I said I wasn’t going to leave until we got our amendment to fund the construction on our bridge. The pages and the chaplain came in, and the Senate was starting, and Senator DURBIN came and sat next to me and he said: Somehow I think you are here to do more than talk about it. He helped to get that amendment through and we got it passed.

Approval of this funding came with remarkable speed and bipartisanship. Capitol Hill veterans tell us it was a rare feat to get it done so quickly.

What else can we learn from this bridge? Third, we must still get to the bottom of why this enormous bridge fell into the middle of the Mississippi River. It didn’t happen because of an extra large or some kind of electrical storm or tornado. It just fell down. Evidence is accumulating that the bridge’s condition had been deteriorating for years.
and that it had been the subject of growing concern within the Minnesota Department of Transportation. This wasn’t a bridge over troubled waters, this was a troubled bridge over waters. Still, as a former prosecutor, I know much work will unite all the facts and evidence are not necessarily coincident. We will need to be patient as the investigation continues.

Mark Rosenker, the Chairman of the NTSB, the National Transportation Safety Board, said the other day that the NTSB investigation is incomplete and that a final report should be ready for public release within 100 days. Already, the NTSB has publicly released a number of documents, photographs, diagrams, and other evidence that are part of their investigation. We know this bridge had problems, and we look forward to the NTSB report to give us definitive answers.

Finally, the bridge collapse in Minnesota has shown us that America needs to come to grips with the broader questions about our deteriorating infrastructure. The Minnesota bridge disaster shocked Americans into a realization of how important it is to invest in safe, sound infrastructure.

As if we didn’t know already, Minnesotans got a reminder a few months after the 35W bridge collapsed, because we learned another bridge of a similar design was inspected and found to be in serious condition. That bridge is in St. Cloud, MN, a major regional city in central Minnesota, which is now closed with plans to replace it.

Unfortunately, it took a disaster to put this issue of infrastructure squarely on the agenda of this Congress. According to the Federal Highway Administration, more than 25 percent of the Nation’s 600,000 bridges are either structurally deficient or functionally obsolete. That is more than 150,000 bridges.

Mr. DORGAN. Madam President, how much time remains in this half-hour allocation?

The PRESIDENT OFFICER. Nine minutes remain on the Democratic time.

Mr. DORGAN. Madam President, I came expecting to be recognized at 12:10, so I think what I will do, I believe my colleague from Minnesota appears is seeking time as well. I assume my colleague from Minnesota is seeking time in the second half-hour allotted; is that correct?

Mr. COLEMAN. Madam President, I am seeking time to follow on the remarks of my colleague from Minnesota reflecting on the collapse of the bridge, but I will defer to my colleague from North Dakota.

Madam President, how much time is left in the majority’s time?

The PRESIDENT OFFICER. There is 8 minutes.

Mr. DORGAN. Madam President, let me, in the spirit of allowing the two Senators from Minnesota to be able to complete their discussion of the bridge collapse, which is truly a tragedy, let me ask the Chair that the Senator from Minnesota be recognized for that 8-minute period, and that the majority side be allowed to claim 8 minutes in the next half-hour, if that is what the Senator is suggesting.

Mr. COLEMAN. No objection, Madam President.

The PRESIDENT OFFICER. Without objection, it is so ordered.

The Senator from Minnesota is recognized.

Mr. COLEMAN. Madam President, I first thank and applaud my colleague for the leadership she has shown in dealing with the challenges this Nation faces on infrastructure. We need to do something about it. She moved forward aggressively after the bridge collapse, and I joined her and applaud her for those efforts.

Like everyone who suffers loss, the people of Minnesota have come to a tragic anniversary, a hole in the calendar where we confront the pain of our past. Friday, at 6:05 p.m., we commemorate the moment when the I–35W bridge collapsed, taking the lives of 13, injuring hundreds, and disrupting the lives of untold thousands.

I have a few words to share as we observe this first memorial.

So much of what Minnesota was, is, and will become is tied to our rivers and bridges. Before the roads and the railroads, rivers were Minnesota’s fluid highways through difficult terrain. European settlement followed the rivers. Because of Minnesota’s unique geography, our rivers flow out toward all the points of the compass, which is why we call ourselves “The Headwaters State.”

But rivers can be barriers as well as they bring an array of towns and cities grew up around bridges which allowed people to move perpendicular to the river flows. More than a century later, we are a State of river towns and bridge towns.

That is why the I–35W bridge collapse was so significant humanly and spiritually to Minnesotans. It fell not far from the Falls of St. Anthony, the head of navigation of one of the world’s great rivers. It fell where Father Louis Hennepin became the first European to look on the area which comprises Minneapolis today. It fell where huge early 19th century flour mills, textile mills, lumber processors, and railroad terminals to create an economic zoom which put Minnesota on the map. It fell at the heart of our homeland.

It has been said that adversity doesn’t create character, but it surely does reveal it. We witnessed that in the days following August 1, and it continues to this hour. Preparation is a virtue, and our Twin Cities learned the valuable lesson of 9/11, that we have to get ready for the unthinkable. When it happened to us, there was an extraordinary response from law enforcement, medical institutions, and other first responders.

The speed and professionalism of their actions are a textbook case of emergency response.

We also experienced amazing spontaneous acts of heroism. It is our natural instinct to run from pain and danger, and on this occasion, hundreds of regular Minnesotans ran toward the pain and toward the danger to save many lives. In the days following the disaster, the 364 days preceding today, we have seen an unprecedented unity of effort among all branches of government and levels of government, without regard to party preference. A single goal has been to raise a new bridge over our old river that we can be proud of and that we can trust, as the pictures shown by my colleague from Minnesota reflect. Our goal has also been to care for those who have been injured, and we have done that.

But this is a day to remember those who have been lost; Greg Joldstad of...
far northern Kanabec County, a construction worker on the bridge; Sadiya Sahal, her daughter Hana, and her unborn child; Paul Eickstadt of Mounds View, 10 miles north of the bridge; Vera Peck and her son Richard Chit, who had an inseparable bond; Scotty Sather, young husband of Minneapolis; Peter Hausman, a computer security specialist; Christina Scocoras, of White Bear Lake; Julia Blackhawk of Savage, MN, 10 miles south of the bridge; Patrick Holms, also from Mounds View; Sherry Engebretsen, a wife, mom, and businesswoman from Shoreview; and Artemio Trinidad-Mena of Minneapolis.

I ask my colleagues to join me in a moment of silence and reflection in their honor.

(Moment of silence observed.)

Madam President, sometimes a meaningful silence is the only answer. I conclude with the ancient words I have prayed many times this last year, the Hebrew Kaddish, prayed by Jewish mourners for centuries. It ends as follows:

May there be abundant peace from Heaven and life upon us all and upon all Israel, now say amen. May He make peace upon us all.

Madam President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CRAIG. Madam President, I ask unanimous consent that the order for the quorum be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRAIG. Madam President, we may be hours or a day away from adjourning for the August recess. At the same time, many of us have said there is no more important issue for this Senate to be dealing with than the issue of energy and the price of gas at the pump. For the last year, the American consumer has gone through increasing price shocks as they have seen more and more of their family budget left at the service station or gas station every time they fill the family car. First it was $15, then $20, then $25, then $30, $40, $50, and in some instances now and in certain locations $60 to fill the family car. If that family car is also the vehicle in which they commute to their workplace and they have to fill it several times a week, it has become a dramatic hit on the American family in a way that has now clearly registered in polling across our country and in what we are hearing every day in our phone calls coming in from those distressed Americans out there who are paying more for energy than they ever have before.

That is one side of the energy equation. Our whole world, our whole economy runs on energy. The cost of that energy in that economy has to be felt—whether it is in the heating of the home or the processing, manufacturing, or growing of food. All segments of our economy feed on energy and feed, basically, on gas or hydrocarbons that are reduced into gas and diesel and oil and plastics and the refining of energy. All of them have also become aspects of our average American—and certainly the average Idaohan—is paying now at a higher price than they have ever paid.

In my great open Western State of Idaho, we often long distance. The majority of our people do not live downtown, don't live in the suburbs. They live out in the countryside. Going to town is a trip that is not unusual to rack up 50, 60, 70, 80 miles. I grew up on a ranch that was 30 miles from the nearest community. It was not unrealistic, when my mother went to town to acquire groceries or do the family shopping, to travel 60 or 70 or 80 miles in one round trip. That still goes on today in many of our Western States. The family has gone up dramatically, also, simply by the character of where we live.

Yet, for the last 2 weeks, in an effort to try to deal with this issue on the floor of the Senate by allowing the offing of oil from the OCS, we have heard many ways cause production to begin once again in this country in locations where we know oil exists today but they have been taken off limits for political reasons—in that debate over the last 2 weeks, the majority leader of the Democratic Party, the majority leader has stopped us from doing so on at least six different occasions.

Why, I am not sure—why any leadership of the great Senate would stop this Senate from doing what the American consumer and the American voter are asking for is largely beyond me. I could speculate—and I have, on numerous occasions, in speeches on the floor over the last several weeks, as have many colleagues here: On six occasions, the majority leader, the Democratic leader, has said: No, we will not proceed to offer amendments to allow or to cause this country to become once again a producing nation.

Now we are about ready to try a seventh time. I am told that on the Defense Authorization Act, cloture has been filed. That is a procedure we use here in the Senate ultimately to force a vote on whether we will proceed to go forward with the bill. Could the majority leader vote on that today if we all agreed or we could vote on it tomorrow, as the cloture motion ripens—the term we use for the first time. There is something even more important today to every American than that Defense authorization; that is, the price of energy at the pump which is literally sucking the family budget dry.

What do we do? My guess is we are going to adjourn for the August recess having done nothing. Every Senator here is going to go home. I hope they go home to explain to their voters and to their State why they would not vote for increased production; why they will not allow this great country of ours to get in the business of producing energy once again.

The President has responded. He removed the moratorium he had placed on Outer Continental Shelf drilling. Prices dropped a little as a result of that. Yesterday, the Interior Department initiated a 5-year lease and drilling lease program for the OCS. They are preparing, if we act, to expedite and allow these areas in which we believe production can go on to go on sooner. We have heard the argument here on the floor that it is 5 or 6 or 7 years away. No, it is not. In many areas, it could be as short as 2 or 3 years. And the anticipation of coming into the market in 2 or 3 years, in nearly everyone’s opinion who understands oil markets—they would tell you it is not just bringing the price of that product down now in the market.

The price already is coming down—not because of our actions but because of a beleaguered consumer out there who simply cannot afford the price any longer. That consumer, and her or his family are already making decisions to shrink their travel and shrink their gas budgets. They are doing so.

In the last 4 months comparable to the 4 months of a year ago, the American family has driven 40 billion fewer miles. They didn’t want to, they didn’t want to alter their lifestyle, but they did. The reason they did is they simply did not have the money to go forward. The price began to drop.

Across America today, the gas price in many States has now dropped below $4 a gallon.

You see the marketplace is out there, and what we have said about supply and demand is true in the market even though there are limits here in the Senate on the marketplace. Deny production is to deny that the marketplace exists. What is going on today across America is living proof that market exists.

What can we do? If we were able to act as we have asked our majority leader here in the Senate to allow us to do, we could gain access to what we believe is about 30 billion barrels of known oil reserves in the Outer Continental Shelf. We think there is an additional drilling on those resources out there, simply, if we are allowed to explore and develop the resources we know there are that are off limits today—if.

If we were allowed to offer an amendment, here is the amendment I would offer. I would go to what we call the eastern gulf that is now off limits and I would say: 50 miles out from the shoreline along Florida in the eastern gulf, this would be open for leases. We believe there are over 2 billion barrels of oil but there are trillions of cubic feet of gas. Right across here are the pipelines and the infrastructure we could connect to, which would go into
the refining areas in Louisiana and Texas.

Doesn’t that make sense? Even Floridians who once said: No, we do not want any drilling, are now by their latest polling saying: Yes, we do, because we, too, think like at the pump. We want an opportunity to do so.

Of course, what Floridians know is that if oil is discovered here, they will share in the money that comes from it, and that can go into their educational programs and their state budgets and potentially reduce the tax burden on the average Floridian, along with bringing the price of gas down at the pumps in Florida.

I have offered that amendment. I filed that amendment at the desk. Yet the majority leader of the Senate has said no, that amendment will not be offered.

Ultimately, it will be offered. Ultimately, someday the voter is going to say: We have had enough. We are not going to stand by and let the Senate of the United States block us from the resources that are ours as a nation, that need to be developed, that can bring the price of energy down.

It is a pretty simple equation and, as many of you know, this is an inevitable solution. Many of us have called it a bridge to the future. The Energy Policy Act we passed in 2005, and the new Energy Policy Act we passed in 2007, already the Senate of the United States was recognizing that the day of a nation living exclusively on oil as a form of transportation energy was a day that would ultimately end and that we would invest in hybrids and electric-powered cars and new technologies.

I am very proud, in my State of Idaho, that, in part, we have led those kinds of technologies in our national energy laboratory in Idaho Falls. Hydrogen cars and hydrogen initial combustion vehicles and full-sized electric cars have been experimented with and are being developed at that laboratory and in other facilities across the Nation.

But that is not going to be available tomorrow. It takes billions of dollars and 10 or 15 years for a lot of this new technology to come online and be available to the American consumer. So do we sit idly by and allow the family budget to be drained away? Do we sit idly by and buy from foreign nations barrels of barrels of oil we currently buy from them and pay $1.2 billion a day to a foreign nation and drain not only our family budgets dry but our national treasure?

It is a phenomenal dilemma we have put ourselves in. As you note, I used the word “we” put ourselves in because it is folks on the floor of the Senate and the House of Representatives across the Rotunda from us who have put these properties off-limits, who have put Alaska’s oil off-limits, all in the name of the environment.

We caused this crisis, and American families now know it. Eighty percent of American families and consumers out there are saying: Congress, fix it. For 3 weeks we have been on the floor trying to do that, and every time we try it, we are denied that opportunity in the raw name of politics.

Well, we are about to go home. I hope in the raw name of politics, America’s voters rise and say to their politicians: Go back to Washington and do your work and do it in a way that allows this great Nation of ours to once again become a producing Nation, not just a consuming Nation.

We know we have to do, as the Senate begins to finish its work prior to the August recess, the Chamber will consider the nomination, which I understand is pending, of Kathy Stevens, a career diplomat of many years who has been nominated to become the new Ambassador to South Korea.

I had the privilege of visiting with her, and I certainly felt that, in every respect, she is eminently qualified to take this important post. I wish to thank Ambassador Hill this morning, because he addressed a number of issues, most notably the question of the deprivation of basic human rights by North Korea to so many of its citizens. I support Ambassador Hill in this in the Senate, and colleagues on both sides who, in the course of the hearing this morning, expressed our concerns about the human rights of individuals in North Korea and the environs. Senator BROWNBACK, an internationally respected spokesman on behalf of human rights, took an active role in today’s hearing.

I wish to note that Senator MIKULSKI and Senator CARDIN from Maryland, Congressman STENY HOVER, and I met with a group of Korean war veterans who came to the Hill to talk, to memorialize the sacrifices of so many of their fellow service persons of that generation.

I am so humbled and privileged to have had that very modest, brief, tour of service with that generation. My service was inconsequential compared to the extensive loss of life and limb by others during this conflict.

But I do urge America not to forget those who served in Korea. The war is often referred to as the “forgotten war.” But they laid the foundation for the current freedoms in South Korea. Indeed, Harry Truman’s decision to stop the spread of communism on that peninsula saved other small nations in this region. Today, those countries might not have the freedoms, they now have, had it not been for the sacrifices of the men and women of the U.S. Armed Forces, and other nations fighting under the “banner” of the United Nations Organization.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.
The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING REVEREND FRED SHUTTLESWORTH

Mr. BROWN. Madam President, a few days ago the Birmingham, AL, airport announced plans to rename the Birmingham International Airport after Reverend Fred Shuttlesworth. I rise to honor the work of activist, legendary civil rights leader, the Reverend Fred Shuttlesworth. For more than 60 years, Reverend Shuttlesworth has tirelessly passionately fought for racial equality and social justice in our great country.

Born in Birmingham, AL, Reverend Shuttlesworth became involved in the civil rights movement as a young pastor. He organized sit-ins and boycotts. He challenged the injustice for decades of Birmingham’s Jim Crow laws, despite attempts on his life, and there were many by the Ku Klux Klan.

In spite of repeated arrests, attacks by police dogs and firehoses, Reverend Shuttlesworth simply refused to back down. In 1957, Reverend Shuttlesworth joined the efforts with Dr. Martin Luther King, Jr., and Ralph Abernathy to form the Christian Leadership Conference. Members of the SCLC fought side by side to increase educational opportunities, to promote voter registration, and to promoting equality of opportunity for African Americans throughout the country.

In 1961, Reverend Shuttlesworth took up the pastorate of Revelation Baptist Church in Cincinnati, OH, and continued his campaign for racial justice.

Braving the same fearless opposition to segregation he had displayed in Birmingham, he joined forces with other Black ministers to make William Lovelace the city’s first African-American judge.

For later than a half century, Reverend Shuttlesworth spoke out against injustice. He has worked to increase minority representation in city government, he has expanded minority hiring by the local police department, and worked for access to housing in Over-the-Rhine, an area of Cincinnati, for needy families and throughout Hamilton County.

Reverend Shuttlesworth has made great personal sacrifice, risking his life, risking his own health and the health of his family, so every American, without regard to race, would have access to equal opportunity to succeed.

I announced my campaign for the Senate in 2005 at the church of Reverend Shuttlesworth in Cincinnati. I consider him a friend. I have met him many times over the last 15 or so years. He took me one day to a small room in a room he called a museum. It was a room dedicated to the civil rights movement. It had so many wonderful examples of his courage, his bravery, his accomplishments, and the accomplishments of so many people he worked with to promote social justice, to promote economic justice, to promote civil and human rights.

For that, I am especially proud of Reverend Shuttlesworth. I am especially proud of the role he plays in Cincinnati, always battling for racial justice. I am proud the Birmingham, AL, airport has named their international airport after the Reverend Fred Shuttlesworth.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mrs. McCASKILL. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SCHUMER). Without objection, it is so ordered.

ENRICH

Mrs. McCASKILL. Mr. President, I have been presiding in the chair listening to some of our friends across the aisle talk about oil and gas prices and lamenting that we may go home without taking action. I was blessed to be home yesterday and had the chance to be in rural Missouri. I talked to a lot of people who represent the heart of our country.

I will tell my colleagues what they have figured out. They have learned to look beyond everybody talking about this stuff and to figure out who wants what. This is simple for the American people. All they need to do is ask about the solutions and who wants them.

The Republican Party says there is only one solution. Even with the 68 million acres they are not touching, they only need to have another 10 or 20 million acres and our problems are over. Who wants that? Big oil.

What this town has done for decades is give big oil everything it wants. This administration has given big oil everything it wants. For 25 years, big oil has had its way with the Congress. The solution is simple. We need to put an end to this.

The Republican Party says there is only one solution. Even with the 68 million acres they are not touching, they only need to have another 10 or 20 million acres and our problems are over. Who wants that? Big oil.

This town has done for decades is give big oil everything it wants. This administration has given big oil everything it wants. For 25 years, big oil has had its way with the Congress. The solution is simple. We need to put an end to this.

I don’t know how one can look at today’s financial news and not shake their head. ExxonMobil with $12 billion in profits, announced today, in the last 3 months; $11 billion the quarter before. They want to give ExxonMobil what they want moving forward.

It is very simple. We got in this mess because our President keeps saying no to big oil and start doing what makes sense for the future. If only we had been willing to say no to big oil in 2000, 2001, 2002, 2003, 2004, and 2005, when the Vice President had 40 meetings with big oil executives and one meeting with alternative fuels people.

It is time we say no to big oil. America is sick and tired of being handcuffed by the demands of big oil.

Democrats say no to big oil. We say yes to getting out from underneath big oil. We did that by extending tax credits for solar and wind, to which Republicans keep saying no. Of course, they keep saying no to that; big oil doesn’t want that. They called big oil. Big oil said no; they say no.

We say: Let’s do more alternatives and be guided by technology that will rid us of our dependence on foreign oil.

America has 2 or 3 percent of the world’s oil and she consumes 25 percent. We will never drill our way out of this. The only way we will find relief for the American public is to say no to big oil.

It is time. They have to have the courage. The sky will not fall if they will only stand and say, for the first time on that side of the aisle, no to big oil.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. DODD. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. McCASKILL). Without objection, it is so ordered.

NATIONAL INFRASTRUCTURE

Mr. DODD. Madam President, I come to the floor today to remember the terrible tragedy that occurred 1 year ago tomorrow in Minneapolis, MN, when the bridge carrying Interstate 35W over the Mississippi River near downtown Minneapolis abruptly collapsed during the evening rush hour. At least 50 vehicles plunged some 60 feet into the Mississippi River, killing 13 people and injuring dozens more.

As we approach the anniversary of this devastating event, my thoughts and prayers and those, I know, of all our colleagues are with the victims and their families, with Senator Klobuchar, our colleague, Senator COLEMAN, Representative ELLISON, whose district the bridge is in, and all those affected by this terrible tragedy.

The people of my own State of Connecticut can sympathize in a direct way with the people of Minnesota, as they prepare to remember: 25 years ago, a bridge carrying Interstate 95—the main thoroughfare along the east coast of the United States—over the Mianus River in Greenwich, CT, abruptly collapsed in the early afternoon. Four vehicles plunged into the Mianus River, three people lost their lives, and others sustained serious injuries. It remains one of the worst transportation disasters in my small State’s history.

The tragedy in Minnesota is the most recent example of our national infrastructure crumbling before our very eyes. Indeed, this is not a problem that only affects Minneapolis or Connecticut or—in the case of last year’s steampipe eruption—New York City. These problems affect every single State, every single county, every single community in our Nation from San Diego, CA, to Bangor, ME.
For far too long, we have taken all our infrastructure systems—our roads, bridges, mass transit systems, drinking water systems, wastewater systems, public housing properties—for granted. For far too long, we have failed to invest in these systems in their long-term sustainability. Today, we find ourselves in a precarious position concerning their future viability—a precarious position that is costing lives and jeopardizing the high quality of life we have come to enjoy and expect as American citizens.

The Federal Highway Administration estimates that 152,000 of the Nation’s bridges are either structurally deficient or functionally obsolete. Put another way, one out of every four bridges in our Nation is in a state of serious disrepair. The American Association of State Highway and Transportation Officials estimates it would cost some $140 billion just to repair the 152,000 bridges that are in that condition.

The life-threatening problems are not confined to bridges. The National Highway Traffic Safety Administration reports that approximately 14,000 Americans die each year, at least in part, because our roads and bridges are no longer up to the task.

Congestion on our highways causes tons of carbon dioxide and other pollutants to be pumped into the atmosphere every day. These emissions compromise the health of children and adults and contribute to global warming, which poses immense risks to the future of all of us. This congestion on our highways stems from the absence of mass transit systems or other adequate means to move people.

Tens of millions of Americans receive drinking water in their homes every day from pipes that are, on average, over 100 years old. In our Nation’s capital city, in the area of Georgetown—one of the most affluent neighborhoods—we find water is still conveyed through wooden sewage pipes constructed in the 19th century.

In the city of Milwaukee, over 400,000 people were sickened several years ago with flu-like symptoms caused by a strain of bacteria in the municipal drinking water system of that community. The bacteria strain was eventually linked to inadequate treatment of the drinking water.

It is not just the health and safety that are at stake for our crumbling infrastructure; in fact, our national prosperity is at stake. From the days of the Roman aqueducts to the present, a nation’s ability to grow and prosper has always relied upon its ability to effectively move people, goods, and information.

Ask any American today how we are doing in achieving this objective, and chances are the response would be the same: We are not doing very well, and we could be doing substantially better. When the average American spends 5.15 hours a year—more than 2 full days of one’s life, per year—stuck in traffic congestion, then I think we can do better. When one out of three of our roads is in poor, mediocre, or fair condition, then I think all of us would agree we can do better. When the United States invests less than 2 percent of its gross domestic product in infrastructure, while nations such as China and India—the major competitors of this country in the 21st century—invest between 7 and 12 percent, then I think all of us recognize we need to do better or we are going to find ourselves in a very weakened position very quickly. Infrastructure is not something you can correct overnight. The investments need to be made. It takes time to do it right. We are almost to the second decade of this century, and we remain way behind in this area.

Tomorrow is also the 1-year anniversary of the introduction of the National Infrastructure Bank Act that I have offered along with Senator Chuck Hagel. Not a bill that has gained a number of co-sponsors over the last year, and we would like more.

The Infrastructure Bank would establish a unique and powerful public-private partnership to restore our Nation’s infrastructure. Using limited Federal resources, it would leverage the significant resources, both at home and abroad, of the private sector. If we don’t talk about how we are going to finance this, it is not going to happen.

Madam President, I ask unanimous consent to proceed for 2 additional minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. DODD. We need to come up with a financing mechanism. We all understand the need for doing this. I think all of us recognize as well that we are not going to talk about doing this out of the appropriations process alone. There are not enough resources there to meet the $1.6 trillion currently needed to complete the good news contract. We need a better mechanism to finance this. Senator Hagel of Nebraska and I have worked with the Center for Strategic and International Studies over the last 2½ years, along with Senator Bob Kerrey, the former Senator of Nebraska; Warren Rudman, the former Senator of New Hampshire; Felix Rohatyn, a well-known business individual from New York who is almost certainly responsible for getting New York City back on its feet years ago; and John Hamre, a former official at the Defense Department, and we have constructed a means by which a limited amount of Federal dollars could attract massive amounts of private capital to allow us to really begin this work.

Absent some idea like this—and we think this is a good one—then year after year we can give speeches about how we are going to deal with regional and national needs, not local ones. We leave those up to the local municipalities.

We need to once again recognize that to grow as a people, to have our economy grow and provide the jobs and fulfill the aspirations and hopes of many Americans, we have to grow as well in our capacity to handle that kind of growth. The infrastructure needs of our Nation are daunting.

So on this tragic anniversary of the events in Minneapolis and the reminder of what occurred in my own State, as well as the recognition of what is occurring every single day all across our Nation, my hope would be that in the coming Congress, whether we are talking about a McCain administration or an Obama administration, that infrastructure would be a high priority for our country, that we get on that track together, as Democrats and Republicans, and come up with some creative ideas on how we can invest in this needed aspect of our economy.

With that, I yield the floor.

Mr. VITTER. Mr. President, I rise to urge action on what is clearly the single top priority, the single top challenge for American families; that is, sky-high gasoline prices and energy prices.

In the real world, in every State of the Union, families are struggling with this enormous additional burden. Gasoline prices, the prices at the pump—all energy prices have obviously gone through the roof in the last several months. Yet, even faced with this true crisis, even faced with this outpouring of hurt on the part of the American people and call for action, we are not yet acting. We are not yet acting as grownups. We are not yet coming together. We are not yet acting on the issue. I urge us to do just that and to simply act in a full, bipartisan, and balanced way on what is clearly the single biggest challenge facing Louisiana and all American families.

The bad news is that there has been an energy-related bill on the floor of the Senate which has been the pending business that I think goes back to Tuesday, July 22—almost 2 full legislative weeks ago. The bad news is that this legislation has blocked all attempts to have an open debate and an open amendment process about energy.

That bill—his bill—about the limited issues of speculation—and I urge us to act on speculation, but we clearly must act on other things as well—that speculation-only bill has been the business at hand on the floor of the Senate for almost 2 legislative weeks, and yet we have had a single amendment considered, certainly not a single vote on an amendment. What an enormous lost opportunity. What an enormous example of pure obstructionism in Washington and the sort of gridlock people are sick and tired of when the country truly faces a crisis. American families face enormous challenges based on energy prices. We need that real debate.
We need that open amendment process. We need to act as grownups. We need to come together and act on energy.

It is in that vein that I suggest two very specific things. First of all, in less than 24 hours, I assume there is going to be a quorum call to go off on August. I don't think we should until and unless we take some reasonable action on energy. I believe it is a deroga-
tion of our responsibility to go home for any length of time when this crisis is here and this institution is failing to act. I think we should stay here and work. We should stay here and act in a fair and in a balanced way.

We should consider a host of issues—yes, including speculation, but also fundamental issues that go to supply and demand on both sides of that equation: conservation; yes; greater fuel ef-
ciciency; yes; new technology; yes; re-
newable sources of energy and alter-
native sources of energy, yes. Also, we should be thinking about at the sim-
ply side: finding more here at home and using our resources we do have right here at home. So I am against going home, going off on vacation, going on the August recess—however you want to put it—we are not acting on the top priority and concern of the American people.

Secondly, I certainly oppose moving off this topic, which has been what the distinguished majority has tried to get us to do over and over again. We will have an upcoming vote—his latest at-
tempt to get us off this topic. He has fil-
ed a motion to invoke cloture to pro-
ceed to the Defense authorization bill. Defense is an extremely important issue, particularly in this time of war and terrorist threat. However, I can tell my colleagues the reaction the American people have to this choice of energy versus Defense authorization. They have the same reaction I have: Staying in place, acting on energy in a meaningful, bold, positive, balanced way, is the single most important thing we can do to improve our secu-
rity, to improve our defenses. Quite frankly, that is far more important for national security and for defense than any Defense authorization bill. So surely we should reject that attempt to move off the subject to take this vote and move to the Defense authorization bill when the single biggest issue that not only faces American families and hits their pocketbooks but also the sin-
gle biggest national security issue is energy.

So, again, I urge us to reject that at-
tempt once again to move off the sub-
ject. We need to stay on energy but, more importantly, we need to act on energy. We need to reject that cloture vote. I urge us to stay here and work and act rather than go off on any Au-
gust recess. We must address this cru-
cial energy issue.

As so many of my colleagues, I have important amendments on the topic. I specifically filed seven amendments. Those amendments address a number of key issues and a number of key ques-
tions, but they are balanced. They are not just about drilling because we can't just drill our way out of the problem. They have us use less and find more at the same time. That is exactly the sort of compromise I said I was looking at, a few minutes ago. Yes, use less. Yes to con-
servation. Yes to greater efficiency standards. Yes to new technology. Yes to renewables. Yes to biofuels. Yes to alter-
native fuels. Also, at the same time, yes to accessing greater supply right he at a reasonable; a way that energy we have here offshore, in West-
ern States in shale deposits and else-
where, to help ourselves rather than have to go beg, hat in hand, to Middle Eastern countries to cut us a break. We need to do all of the above. We need to act on the demand side and the supply side to stabilize, bring down prices, and help American families with this, their top challenge and their top concern.

I have seven amendments. Unfortu-
nately, the majority leader at the end of the game that the distinguished majority leader has laid out, I haven't come near any opportunity to call any of those amendments up, and certainly I have not been able to have a vote on those amendments. The majority leader at one point offered four votes on the en-
tire issue; none of them would have been on my amendments. He then re-
scinded that offer, so we are back to an offer of zero amendments and zero amendment votes.

Let's get serious about a serious challenge facing American families. Let's not only be on the topic on the Senate floor—so what. Let's act on it in a growny way, in a bipartisan way, in a balanced way, addressing supply and demand, using less and finding more right here at home. Let's take up not just my amendments but any good ideas for debate and consideration and vote, and let's act on the single greatest challenge facing Louisians families whom I represent and American fami-
lies across the Nation. Surely we shouldn't vote to move to any other topic when we still have this tremen-
dous challenge not acted upon.

I think we shouldn't run home for the August recess to vacation or even to talk with our constituents when this or balancing the budget we need, as I said minutes ago, is a comprehen-
sive strategy that includes the best ideas from both sides of the con-
gress and do whatever it takes to reduce our dependence on foreign oil.''

Mrs. DOLE. Mr. President, I ask
the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. DOLE. Mr. President, the Fed-
eral Government has more acronyms for more Federal agencies that produce more economic statistics than anyone can reasonably be expected to com-
prehend in a single sitting. We have the Office of Management and Budget, the Congressional Budget Office, the Bu-
reau of Labor Statistics, the Bureau of Economic Analysis—just to name a few.

These agencies produce a wealth of information that we use to inform our policy decisions with facts and expert analysis; but I often find that the best advice I get on matters of public policy comes not from these experts and their reports, but from the wisdom and sin-
cerity of North Carolinians who write to me.

I received a letter recently that I think gets to the heart of our energy debate here in the Senate. It comes from a retiree who is living on a fixed income from his life savings, who re-
sides in Lake Jauluska, North Caro-
lina, a picturesque mountain town of 3,000 situated on a mountain lake. I used to go to church camp there almost every summer when I was grow-
ing up.

"Too much energy," the letter reads, "has gone into rhetoric and not enough into actually doing something about it. We have so many brilliant leaders and the ability to make major trans-
formations, so let's concentrate on ac-
tion and do whatever it takes to reduce our dependence on foreign oil and to reduce our dependence on it forever."

My friend from Lake Jauluska is right. Indeed, too much energy in this energy debate has been spent on par-
tisan rhetoric, and not enough on de-
ivering real solutions to provide Americans with relief from these record high gas prices.

Both sides bring important and worthwhile ideas to this debate. On one side, we see a focus on conservation and cracking down on alleged and be-
heaved carbon footprints. On the other side, we hear more about energy exploration.

There is no "silver bullet" that can solve our energy woes. We need every option on the table. We need to throw everything and the kitchen sink at our energy crisis. Conservation. Alter-

There is no reason we can't develop a comprehensive strategy that includes the best ideas from both sides of this debate.

The bottom line is that high gas prices are driven by too much demand and too little supply. Last year, global oil production exceeded global supply by roughly one million barrels per day. Because of that, families in my home State of North Carolina are having to pay 30 percent more to fill their tanks than they did just 1 year ago.

To truly solve this problem, we have to tackle both the demand side and the supply side. We need to find more and use less.
On the demand side, we need to make major investments in alternative energy research and take a crash course in conservation.

That is why I introduced legislation last week to repeal roughly $17 billion in tax breaks to oil companies and pour that funding into alternative energy research. With the price per barrel of oil at record highs, the market is providing petroleum producers all the incentive they should need to produce more oil. So, that funding would be better spent by investing in alternative sources of energy that are the key to our energy future.

In the near term, we could also help decrease demand by incentivizing the purchase of hybrid and other clean fuel vehicles with point of sale rebates and by investing in better transit systems.

While decreasing demand and investing in alternative and renewable forms of energy is certainly a necessary part of any comprehensive energy solution, it is by no means sufficient. We cannot simply conserve our way to energy independence.

We must also increase supply by making better use of America’s vast energy resources. We should open up 2,000 out of 19.6 million acres in ANWR to energy exploration. We should capitalize on our immense oil shale reserves, which could produce three times as much oil as Saudi Arabia’s proven reserves. And we should also allow the States to decide whether or not to permit offshore energy exploration at least 50 miles off their shores on the Outer Continental Shelf, where we could gain access to billions of barrels of oil.

Of course, some will argue that bringing these energy resources online will take years to complete, and won’t help provide the immediate relief that folks need. But, if anything, that means we cannot afford to let another day pass without pursuing them.

After all, if President Clinton hadn’t vetoed legislation in 1996 to allow energy exploration in ANWR, our current energy shortfall would already be reduced by roughly 1 million barrels per day.

To provide immediate relief, we can release one-third of the strategic petroleum reserve to inject some much-needed supply into the markets, which will drive down prices in the near term and help market speculators that the American Government is dead serious about lowering gas prices.

Because of enormous and unprecedented economic growth in developing countries like India and China, it is imperative that in this debate we keep our eyes fixed firmly on the ultimate goal of ending our dependence on foreign oil altogether. Facing an ever-dwindling global supply of oil and ever-increasing global demand for energy, this is America’s moment of truth. We can take lightly. When it comes to securing America’s energy future, partisan politics need not apply.

To lower gas prices and reach our ultimate goal of energy independence, we need every option on the table—everything and the kitchen sink.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, 92 times this session, which is now in its 19th month, Senate Republicans have filibustered critical legislation, everything and anything to maintain the status quo. Of course, it is an all-time record, 92 filibusters. It is more than 100 percent of what has been done in a full Congress—that is 2 years—and this has been done in a year and a half.

For those unfamiliar with the language of the Senate, a filibuster is a stall tactic to give a Senator more time, but it prevents the Senate from debating legislation. A filibuster is not a “no” vote in the true sense of the word. It is an objection to even having a vote. A filibuster cuts off debate before there can even be a vote. Most importantly, it cuts off negotiation and compromise.

Ninety-two times and more than 100 percent than has ever been done before, Republicans have filibustered America’s priorities. Republicans have shown no favoritism on whom their filibusters harm the most. They have filibustered our troops, veterans, children, working families, small businesses, elderly, disabled, and recently stroke victims, those suffering from paralysis, those suffering fromLou Gehrig’s disease. The list is endless.

Not a single American has escaped this harm from a Republican filibuster in this, the 110th Congress.

Perhaps our country has been most damaged by Republicans blocking us from addressing the energy crisis. CNN issued the results of a poll they took over a couple of days very recently. Here is how the American people feel about major causes of high gas prices:

No. 1. U.S. oil companies. Is that any surprise with the record profits being reported today by Exxon?

No. 2. Foreign oil producers, OPEC mainly.

And, of course, speculators.

One, oil companies; two, oil producers; three, speculators, and new demand from other countries, and the American people are very perceptive. We know there is a tremendous demand from India and China.

No. 5. A major cause of higher gas prices, the Bush administration.

No. 6, the war in Iraq.

So if this is how we react to the loud outpouring of our Republican colleagues, you might think it is the Democrats who sent the past 2 years blocking every effort to lower gas prices and reducing our dependence on oil. But the exact opposite is true. Republicans may talk about high gas prices and oil prices today, but they are late to the party and they have shown up empty-handed.

The one idea they have come up with lately is more coastline drilling. But we all know it won’t have any significant impact on prices, and some say in more than 20 years. That is according to the Bush-Cheney administration, which says the change in price will be in 2027.

Yesterday, in the New York Times and in newspapers all over America, the most syndicated columnist in America, Tom Friedman, wrote as follows:

Republicans have become so obsessed with the notion that we can drill our way out of the current energy crisis that reopening our coastal waters to offshore drilling has become their answer for every energy question. Anyone who looks at the growth of middle classes around the world and their rising demands for natural resources, plus the dangers of the climate change driven by our addiction to fossil fuels, can see clean renewable energy—wind, solar, nuclear, and stuff we haven’t yet invented—is going to be the next great global industry. It has to be if we are even to grow in a stable way.

Friedman went on to say:

Therefore, the country that most owns the clean power industry is going to most own the next great technological breakthrough—the energy technology revolution—and create millions of jobs and thousands of new businesses, just like the IT revolution did.

Republicans, by mindlessly repeating their offshore-drilling mantra, focusing on a 19th-century fuel, remind me of someone back in 1980 arguing we should be putting all our money into making more and cheaper IBM Selectric typewriters—and forget about these things called the “PC” and “the Internet.” It is a strategy for making America a second-rate power and a second-rate economy.

He is not only the most well-read and the most well-spread columnist in America today but a man who is a prize winner for his best selling books, and his books are so tremendous because they see the world as it is going to be, not as it now is.

Their one idea, more coastline drilling, is not the answer. It is no wonder Senator McCaIN said the plan was purely psychological, the Republican plan for more coastal drilling is psychological.

Anyhow this morning came to the Senate floor. We were going to offer some consensus agreements, but the time was inconvenient. I did not want to use leader time and throw off the sequence of time we had. So we are here this afternoon to offer Republicans yet another chance to end their obstruction and do the right thing. We will offer unanimous consent requests on seven Energy bills, each one of which is extremely important, a package of bills that would lower the prices of gas at the pumps by approving the long-delayed transition away from oil and toward clean renewable fuels of the future Tom Friedman talked about.
If past is prolog, Republicans will object to each of these proposals. If they do, and they probably will, it will be clear again for all Americans to see which party wants to only talk about our energy crisis and which party wants to solve it.

The first I would like to offer is S. 3044, the Consumer-First Energy Act. This is a very thoughtful piece of legislation which ends billions of dollars of tax breaks for big oil companies, and if there is an opportunity to recognize why they are unnecessary, look at those profits today and what they do with those profits. Do they do new energy exploration? No. Do they invest in renewables? No. They buy back their stock.

It was announced today they made last quarter, Exxon alone, about $12 billion. S. 3044 would force oil companies to invest some of their massive profits in clean, alternative affordable fuels rather than buying back their stock. S. 3044 would protect the American people from price gouging and profiteering. It would also stand up to OPEC countries that are colluding to keep prices high.

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 743, S. 3044, the Consumer-First Energy Act; that the bill be read three times, passed, and the motion to reconsider be laid upon the table; and that any statements relating to this bill be printed in the RECORD, as if given.

The PRESIDING OFFICER. Is there objection?

The PRESIDING OFFICER. The Senator from Arizona. Mr. KYL. Mr. President, reserving the right to object, this bill does not produce any new American energy and would increase the price of gas at the pump. Further, I agree with Chairman BINGAMAN that a windfall profits tax is “very arbitrary” and “bad policy.” For these reasons, I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from New York. Mr. SCHUMER. Mr. President, I am going to speak about a proposal that has been at the desk for a period of time and was put together by Senator BINGAMAN which deals in a very real way with the issues about which so many of our colleagues on the other side of the floor have talked.

First, it increases domestic production by giving the Secretary of the Interior the authority to shorten lease terms and raise rental rates, requiring oil companies to comply with benchmarks. It would require the oil companies to buy back their stock rather than just hold property for decades and not produce. It would also bring down prices immediately by selling about 70 million barrels of high-quality light crude in the SPR, releasing it later with high-quality heavier crude.

Mr. President, 90 percent of sales would be invested in LIHEAP. Even more importantly, it reduces demand. First, building codes, 40 percent of our energy is used by cooling and heating buildings. Certain States have put in building codes for decades and dramatically reduced demand. We also have research for batteries, so we might have electric cars and many other provisions.

I cannot go into all of them because time is narrow. Why do my colleagues oppose something so rational? The bottom line is because they want to do what the oil companies want: give them record profits.

What do the oil companies do with those profits? Do they promote alternative energy? Absolutely not. Do they drill domestically? We are hearing all this talk about drill. Look what the oil companies do with their profits. They buy back stock. That is very good if you are a big shareholder in ExxonMobil. It is very bad if you are a homeowner heating your home or a commuter driving your car.

It does no one any good except a handful of people, mostly very well off, to raise ExxonMobil stock, raise Chevron stock, raise BP stock, and not put that money into production. Our proposal says what the oil companies want, but it increases production, domestic production, and reduces demand, exactly the slogan that my colleagues are talking about on the other side of the aisle. But it does it in a way not through our lives.

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of a bill authored by Senator BINGAMAN, the Energy Price Reduction and Security Act of 2008, which is at the desk; that the bill be read a third time, passed, and the motion to reconsider be laid upon the table; and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

The PRESIDING OFFICER. Objection is heard.

The Senator from Arizona. Mr. KYL. Mr. President, reserving the right to object, this bill does not open a single new acre for the production of American energy and, in fact, would place new regulations and fees on American energy production, which would raise the price of gas at the pump. For these reasons, I object.

The PRESIDING OFFICER. Objection is heard.

The assistant majority leader. Mr. DURBIN. Mr. President, 68 million acres are currently open to the oil and gas companies. Federal land leased to them for oil and gas exploration. You would think, from the position and the statements on the Republican side of the aisle, that there was no land available and that we have to find new opportunities for oil and gas companies. They have 68 million opportunities they are not using today.

Time and time again, over the last several weeks, the position of the Republicans on the energy question has come down to two or three very basic things: First, the Republicans in the Senate and Senator JOHN MCCAIN are stuck on old ideas. Secondly, they can’t wait to go hat in hand to big oil—the oil companies, and ask them: What would you like us to do? Well, the oil companies have a pretty good agenda. Before President Bush and Vice President CHENEY leave town, can you try to find some way to provide even more Federal acreage we can drill on? More in the future? What would you like us to do? Well, the oil companies have a pretty good agenda.

That is the Republican agenda: More acreage beyond the 68 million they currently have and no vision for the future. It is an old agenda, an old idea. The Grand Old Party is stuck in an old way of thinking when it comes to energy. On the bill I am about to talk about looks to the future. It is a vision for tomorrow. Of course, there is responsible exploration and production—there has to be and there should be—but it realizes that the energy future of America has to be different. We have to get ahead of the curve. As Senator REID said in quoting Thomas Friedman, it is time for us to think of the energy revolution we are about to engage in, one that is going to make a profound difference in our lives.

Twice this week we have given the Republicans a chance to vote for a real energy package. Is it a bipartisan plan? Read this quote from 48 Governors, Democrats and Republicans, across the United States:

"Securing our energy future must be a priority at both the State and Federal levels. We strongly urge you—"

They are speaking to the Congress—to partner with States by passing legislation on a bipartisan basis to extend expiring renewable energy and energy efficiency tax credits that can be enacted this year.

The Governors understand it. The American people understand it. The Democrats in the Senate understand it. It is only the Republican Senators who continue to object.

Now, what are these incentives? They are incentives for renewable energy that will chart a course for America to find clean energy sources and the creation of new business and new jobs so America can again lead the world. The Republicans look in the rearview mirror at drilling for oil because that is where the big oil companies are—their friends, their allies, their inspiration when it comes to energy.

This bill that came before us yesterday brought in five Republican votes. Only 5 out of 49 crossed the aisle and joined us to try to pass it. Not enough. They know it. Coincidentally, four out of five are in tough reelection contests. They understand when they go home that they can’t sell this “drill forever” and the mentality the Republicans in the Senate have been peddling.
The bill talks about incentives for biomass and hydropower, solar energy, biodiesel, advanced coal, electricity, demonstration plug-in electric cars, battery performance standards, idle reduction units for trucks, and so many other things that move us forward using those nonpolluting renewable sources of energy that are truly our future.

Time and time and time again, the Republicans in the Senate have said no, to these incentives for renewable and no to our future. I will give them a chance this time.

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 767, H.R. 6049, the Renewable Energy, Job Creation Act of 2008; that the amendment at the desk, the text of which is S. 3335, be considered and agreed to, the bill, as amended, be read a third time, and the motion to reconsider be laid upon the table; that any votes relating thereto be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

The minority whip.

Mr. KYL. Mr. President, reserving the right to object, I ask that the unanimous consent request be modified; that instead of adopting S. 3335 as an amendment, the Senate adopt the McConnell-Grassley substitute which is filed at the desk. This substitute provides the AMT patch, extends all of the traditional tax extenders, some of them with modifications, it extends the many energy tax incentives, provides for Midwest disaster relief, and includes no tax increases.

The PRESIDING OFFICER. Does the Senator modify his request?

Mr. DURBIN. Reserving the right to object, the Republicans, the Grand Old Party that used to be the party of fiscally conservative, refuses to pay for these incentives. We have come up with an approach that is reasonable and accepted by the business community and that puts the tax burden on companies that are shifting jobs overseas. The Republicans can’t stand the thought of imposing taxes on companies that are sending American jobs overseas and that is why they object to our bill and that is why I object to their alternative.

The PRESIDING OFFICER. Is there objection to the original request?

Mr. KYL. Mr. President, further reserving the right to object, yesterday, the majority leader said that legislating is the art of compromise, and indeed it is. There has been discussion here about the Grand Old Party—they are the party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud—comparing it to the idea that oil is in the past, that oil is an old idea, we were told, the Grand Old Party, of which I am proud.

Mr. DORGAN. Mr. President, the pending business of the Senate is S. 3268, the Stop Excessive Energy Speculation Act. That is currently the pending business. That has been objected to. I would like to try, once again, to see if perhaps we can do what every one of us as kids has been told by our parents to do—first things first. We need to do a lot of things and a lot of things well—produce more energy, produce different energy, and conserve more energy. I understand that. I think almost all of us agree with that. But first things first.

We have a broken oil futures market, and let me describe it. Seventy-one percent of energy consumed in the United States is imported; 57 percent of the energy traded in the oil futures market are speculators. They don’t know about oil. They do not want any oil. They do not want to carry a 5-gallon can of oil. They want to trade paper and make a lot of money.

A couple months ago, the vice president of ExxonMobil says the price of oil should be about $30 or $55 per barrel. The CEO of Marathon Oil has said the same thing. Finally, in testimony before the Congress, Fidel Gheit, 30 years in this business at Oppenheimer and Company—the top energy person at Oppenheimer and Company—said there is no shortage of oil. I am absolutely convinced that the price of oil shouldn’t be a dime above $50 per barrel. The market is broken and infested now with oil speculators.

In speaking of the futures market, he said:

I call it the world’s largest gambling hall, open 24/7 and totally unregulated. It’s like a highway with no cops and no speed limits. The market is broken. It is because the market is broken.

We have a broken oil futures market, and let me describe it. We have a broken oil futures market, and let me describe it. Seventy-one percent of energy consumed in the United States is imported; 57 percent of the energy traded in the oil futures market are speculators. They don’t know about oil. They do not want any oil. They do not want to carry a 5-gallon can of oil. They want to trade paper and make a lot of money.

A couple months ago, the vice president of ExxonMobil says the price of oil should be about $30 or $55 per barrel. The CEO of Marathon Oil has said the same thing. Finally, in testimony before the Congress, Fidel Gheit, 30 years in this business at Oppenheimer and Company—the top energy person at Oppenheimer and Company—said there is no shortage of oil. I am absolutely convinced that the price of oil shouldn’t be a dime above $50 per barrel. The market is broken and infested now with oil speculators.
The PRESIDING OFFICER. Is there objection?

The minority whip.

Mr. KYL. Mr. President, I recognize the majority leader.

Mr. KYL. Mr. President, I ask unanimous consent to take the lead, but we ought to have a national set of goals and a national standard to say there are a lot of ways to produce, this is about producing energy for this country.

UNANIMOUS CONSENT REQUEST—H.R. 669

I ask unanimous consent the Senate proceed to the immediate consideration of a bill to establish the renewable electricity standard which is at the desk, that the bill be read three times and passed, the motion to reconsider be laid on the table, and any statements relating to this matter be printed in the Record.

The PRESIDING OFFICER. Is there objection?

The Senator from Arizona is recognized.

Mr. KYL. Mr. President, reserving the right to object, this bill does nothing to increase American energy independence but would increase our reliance on the Middle East. Further, authorizing our Government to sue OPEC could, as Chairman BINGAMAN said, “get us into all kinds of trouble internationally” and “is not practical.”

For these reasons, I object.

Mr. DORGAN. Mr. President, I say to the majority leader, I yielded 8 minutes to the Senator from Minnesota today in order that his statement could be coterminous with Senator KLOECKNER. He did not mind this, this is the last unanimous consent request—and let me do that by saying I think all of us in this Chamber understand the way you produce energy, and we support virtually every mechanism and approach to produce energy. Drilling for oil is one of them. But drilling a hole in the ground is not the only way you produce energy. You can use turbine and blades to produce energy from the wind and produce electricity. You can take energy from the Sun and produce electricity. There is biomass and biofuels. There are many ways to produce.

The problem is we do not aspire to set any national goal or national standard to require or to push that production of alternative energy.

I think we need something around here that is game changing. Every 10 or 15 years people are content to shuffle on the floor and talk about what do we do, when we don’t know what we have ridden in. Then they say let’s drill some more. I am all for drilling, but what about other ways of producing energy, wind and solar and the alternatives?

I am going to offer a unanimous consent request on an issue that has been kicking around for a long time. I know some people oppose it strongly. I respect their views but respectfully they are wrong. We ought to have a national standard—many States now have it—to provide a renewable energy standard, saying when you are producing electricity, a certain percentage of that energy it would produce and also because, he said, it would have a positive psychological impact on energy markets.

This would increase heating and cooling costs for American homes. For that reason, I object.

Mr. President, what this legislation would do is run over, and the next 30 minutes in the next block of Democratic time would be cut by whatever time I use at this time. It will only be a few minutes; otherwise, I will use leader time.

Mr. REID. Mr. President, I ask unanimous consent to take the lead, but we ought to have a national set of goals and a national standard to say there are a lot of ways to produce, this is about producing energy for this country.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, Senator KOBOL, and Senator SPECTER have been talking quite a bit. They both have visited with me on more than one occasion because they believe they have one of the answers to the problems we have with oil, and that is let’s do something about the electric cartels. It is a monopoly, and they have no concern for the American people, and they are obviously in violation of antitrust laws. But it is a question of whether American law can take them into court.

The legislation introduced by Senator KOBOL, and Senator SPECTER in the form of S. 879, the No Oil Producing Exporting Cartels Act of 2007, would make OPEC subject to the Sherman Antitrust Act. Why shouldn’t they? At the very least, we only have two entities that are exempt from the Sherman Antitrust Act: baseball and insurance companies.

We know how we all feel about insurance companies, and how the American people feel about them, because they violate what would be antitrust laws all the time, but they are not subject to it.

Mr. President, what this legislation is all about is let’s have OPEC be subject to the antitrust laws. I agree with Senator SPECTER. I agree with Senator KOHL. This should be something the Senate does.

Therefore, I ask unanimous consent that the Senate proceed to Calendar No. 169, H.R. 2264, that the bill be read three times and passed, the motion to reconsider be laid on the table, and any statements relating to this matter be printed in the Record.

The PRESIDING OFFICER (Mr. NELSON of Nebraska). Is there objection?

Mr. KYL. Mr. President, reserving the right to object, this bill does nothing to increase American energy independence but would increase our reliance on the Middle East. Further, authorizing our Government to sue OPEC could, as Chairman BINGAMAN said, “get us into all kinds of trouble internationally” and “is not practical.”

For these reasons, I object.

Mr. DORGAN. Mr. President, I say to the majority leader, I yielded 8 minutes to the Senator from Minnesota today in order that his statement could be coterminous with Senator KLOECKNER. He did not mind this, this is the last unanimous consent request—and let me do that by saying I think all of us in this Chamber understand the way you produce energy, and we support virtually every mechanism and approach to produce energy. Drilling for oil is one of them. But drilling a hole in the ground is not the only way you produce energy. You can use turbines and blades to produce energy from the wind and produce electricity. You can take energy from the Sun and produce electricity. There is biomass and biofuels. There are many ways to produce.

The problem is we do not aspire to set any national goal or national standard to require or to push that production of alternative energy.

I think we need something around here that is game changing. Every 10 or 15 years people are content to shuffle on the floor and talk about what do we do, when we don’t know what we have ridden in. Then they say let’s drill some more. I am all for drilling, but what about other ways of producing energy, wind and solar and the alternatives?

I am going to offer a unanimous consent request on an issue that has been kicking around for a long time. I know some people oppose it strongly. I respect their views but respectfully they are wrong. We ought to have a national standard—many States now have it—to provide a renewable energy standard, saying when you are producing electricity, a certain percentage of that should come from renewable sources.

This proposal at the desk requires a 15-percent renewable energy standard. If we are ever going to change the game, we have to do this by deciding that America is going to produce energy and produce different energy. So this would be a renewable energy standard. Many States have taken the lead. I regret they have had to take the lead, but we ought to have a national set of goals and a national standard to say there are a lot of ways to produce, this is about producing energy for this country.

UNANIMOUS CONSENT REQUEST—H.R. 2264

I ask unanimous consent the Senate proceed to the immediate consideration of a bill to establish the renewable electricity standard which is at the desk, that the bill be read three times and passed, the motion to reconsider be laid on the table, and any statements relating to this matter be printed in the Record.

The PRESIDING OFFICER. Is there objection?

The Senator from Arizona is recognized.

Mr. KYL. Mr. President, reserving the right to object, we need more energy production to reduce costs. Republicans support it, Democrats do not. Tom Friedman, quoted by the Democratic leaders, is right about one thing, Republicans want more offshore drilling, Democrats do not.

Second, and I respectfully correct the majority leader in this, Senator MCCAIN did not say offshore drilling is our psychological effort—and we have talked about some of them today—they now claim to have seen the light. After a year and a half, all they want to talk about is gas prices. But as we have seen, they do not want to do as I refer to part of what Thomas Friedman said: Republicans, by mindlessly repeating their offshore-drilling mantra, focusing on a 19th century fuel, remind me of someone back in 1999 saying that we should be putting all of our money into making more and cheaper IBM Selectric typewriters—and forget about these things called the “PC” and “the Internet.” It is a strategy for making America a second-rate power and economy.

I did not hear JOHN MCCAIN say drilling was psychological. All I did was...
The Senator from Colorado is recognized.

**Mr. SALAZAR.** Mr. President, reserving the right to object, the reality is the Democrats have been in favor of drilling in the Outer Continental Shelf in previous years, as the Gulf coast, in inclusion voting we took here, a bipartisan basis 2 years ago. The reality is the Republican proposal here will not do anything in terms of addressing the gap issue price which we are facing here today because it will not be effective in bringing down the price of gas I object.

The PRESIDING OFFICER. Object is heard.

**Mr. MCONNELL.** Mr. President, I know the Senator from Minnesota is on the floor. The amendment I propounded in the form of a consent agreement was essentially the Coleman proposal to open the Outer Continental Shelf. It was not geared to any particular price of gasoline at the pump. But I renew consent for the very same proposal, a consent agreement—that the enactment date is triggered when the price of gasoline reaches $4.50 a gallon.

The PRESIDING OFFICER. Is there objection?

**Mr. MCCONNELL.** Mr. President, our good friends on the other side of the aisle apparently do not believe $4.50 a gallon gasoline is sufficient emergency to open the Outer Continental Shelf, those portions of it that are currently off limits which—by the way, 85 percent of the Outer Continental Shelf is currently off limits, I renew my consent agreement with the following modification, that the enactment date is triggered when the price of gasoline reaches $5 a gallon.

The PRESIDING OFFICER. Is there objection?

**Mr. MCCONNELL.** Mr. President, if we were moving forward with a package of energy legislation that would address the fundamental national security, economic security, and environmental security issues we are facing, and this were part of that kind of package, this might be very well worthy of consideration, including some of the triggers that have been mentioned. But it is clear to me this is another one of the tactics that essentially is wanting to get this Senate and this Congress to the point where we simply are not going to be able to get to a bipartisan energy package, and so I object.

The PRESIDING OFFICER. Object is heard.

**Mr. MCCONNELL.** We know why we cannot get to a bipartisan energy package. The American people are saying—some 70 percent of them—that we ought to open the Outer Continental Shelf, those portions that are currently off limits, and it is my understanding that 85 percent of the Outer Continental Shelf is currently off limits. I
have been proposing a series of concepts, basically drafted consistent with the Coleman amendment that would have been offered had we had a chance to offer it.

I would ask my friend from Minnesota, if he would describe his proposal.

Mr. COLEMAN. Mr. President, I would say to the Republican Leader, first, I want to make it clear that if I understand the objection, the Republican Leader has offered an amendment that if gas reaches $10 a gallon, more than double the record levels, the other side is objecting to opening areas of the Outer Continental Shelf, areas that would yield at least 14.3 billion barrels of oil and 55.3 trillion cubic feet of natural gas at a minimum—at a minimum; there are other estimates that say if we opened all of these areas, up to 80 billion gallons of gas.

So I understand the objection and that as a result of that objection, we cannot keep on increasing the supply of oil, that we cannot then move forward and open these areas on the Outer Continental Shelf that could yield at a minimum over 14 billion barrels of oil. Is that the result of the objection to the majority?

Mr. MCCONNELL. I say to my friend from Minnesota, I think he has it entirely correct. I have offered a series of consent agreements here to give us an opportunity to take up and pass the Coleman amendment with differing triggers, starting at $4.50 a gallon and going up to $10 a gallon. Our friends on the other side have objected to passing legislation even with those ascending triggers, leading me to believe there is opposition on the other side to opening the Outer Continental Shelf, 85 percent of which is currently off limits—and over 70 percent of the American people support that—even if gasoline reaches $10 a gallon.

Mr. COLEMAN. Mr. President, I would note to the leader that, by the way, the Coleman-Domenici amendment also has conservation pieces in it. I believe we will discuss that later.

But as I listen to the objection from my friend from Colorado, talking about phantom solutions as we look at the issue of the rising price of oil, I think there is bipartisan understanding that part of the problem is the basic law of supply and demand; that demand is increasing, and you want to respond to that by increasing supply. I would take it that the supply piece is the other piece. And as I understand the Coleman amendment, this is an opportunity to increase supply.

I would also note that part of the discussion has been about the issue of speculation, that there is money going into believing that oil is going to be scarce in the future, and that is somehow driving up the price of oil today. I would ask, then, if, in fact, we had opened the Outer Continental Shelf, that we would increase supply, finding more oil of at least 14 to 15 billion barrels, would that not indicate that in the future there will be less scarcity because we are increasing supply, and would it make common sense that if there is going to be less scarcity, more supply, we are going to tap into America's resources, that would have an impact on the price of oil?

Mr. MCCONNELL. I say to my friend from Minnesota, it makes sense that if you were betting on the future, so to speak, which I guess is what the futures market does, if there were signs of optimism, an indication that the United States was going to do something within its boundaries to deal with this problem, it is reasonable to expect that the markets would respond favorably.

I might add—it was not alluded to specifically by my friend from Minnesota, but I might add that the underlying bill which we have been seeking to amend is actually opposed by the New York Times, the most liberal newspaper in America, as being inefficient, unsustainable, that it would only make things worse. So clearly doing that alone runs the risk, according to the New York Times, of destroying or at least adversely impacting one of America's great markets. But also refusing to amend the honorable Coleman-Domenici proposal, the majority means we would be making an inefficient, short-term response to the issue that is the most important issue in the country.

Mr. COLEMAN. Mr. President, I have one more observation. First, I do wish to make clear that when the Republican leader talks about the underlying bill, he is talking about the majority proposal on speculation, a proposal that does not do anything to increase production?

Mr. MCCONNELL. Yes. Mr. COLEMAN. A proposal that does nothing to deal with more conservation? A proposal that suggests it is going to focus on speculation only, and that is what the New York Times says would actually do more harm than good?

Mr. MCCONNELL. The Senator from Minnesota is entirely correct.

Mr. COLEMAN. Mr. President, I would note that this issue of speculation is something that has come before the Permanent Subcommittee on Investigations on which I am now ranking member and I was, in the past Congress, the chair. We looked at this issue of speculation on energy and security, a committee that works on a very bipartisan basis. I would tell the Republican leader that at least one of the witnesses has come forward and said: If we do all we can do, if we do conservation, if we let the world know America is working on our addiction to foreign oil, that we are serious about not being held hostage to what Saudi sheiks or Chavez or Ahmadinejad does, the suggestion is that prices could drop like a rock.

I am not going to suggest that I know. I would not suggest to the Republican leader that in fact they will drop like a rock. But common sense says that if we increase production, if we do those things, tell the world that we are not going to be stuck with scarcity, that we are going to use the great power of America to tap into our resources, that, in fact, would have an impact.

I would also note, for those who say it is only going to have an impact in the future, would that be such a bad thing, for this Congress to be looking forward to the future? We are going to debate this issue now if we do not do anything. In 10 years, we will be saying: If only 10 years ago we had opened the Outer Continental Shelf, we might today not be 80 or 90 percent dependent on foreign oil. I would suggest that we have the debate now.

One final comment. We have not talked much about the issue of natural gas. I represent a State which is cold. Natural gas is a market that is representing a State that gets very cold in the winter. I would suggest that we are going to come back here in September, and the cost of heating our homes is going to start to go up as the leaves turn color and the temperature drops. By October, the snows may hit. By November, they actually may be here. In December and January, it is going to be below zero. And the price of natural gas is going through the roof.

My farmers in Minnesota have trouble today buying fertilizer and will next year because folks will not speculate on what the price of natural gas will be.

I would then ask the Republican leader, in objecting to the Coleman-Domenici proposal, the majority is not only stopping the possibility of tapping into billions of gallons of oil but also trillions of cubic feet of natural gas, a market that is much more susceptible in the short term to increases of supply.

Is that the result of the Democratic objection, that we are not going to be able to tap into this and that the world there are trillions of cubic feet of natural gas available, and I cannot tell my folks in Minnesota, when it is cold in November and December and prices shoot through the roof, that we were not able to act because the Democrats objected to the unanimous consent offered by the Republican leader.

Mr. MCCONNELL. Well, my friend from Minnesota is entirely correct. I learned from the distinguished Senator from New Mexico, who has been our leader on energy issues for a number of years, that we can be entirely independent and sufficient in natural gas. We have enough here in the United States, if we would simply go get it, to take care of our own resources.

So, yes, we are walling off natural gas as well as oil, exacerbating all of these problems, driving up the price of fertilizer and every other product in which natural gas is used, refusing to exploit our own resources. It strikes the American people, and we know that by looking at all of the public opinion polls. It is not making any sense at all.
I thank my friend from Minnesota for his observations.

Mr. President, it is not only offshore that we have enormous potential to increase our production. It has been estimated that we have three times the reserves of Saudi Arabia right here in our country onshore in oil shale.

Last year, this new Democratic Congress passed a moratorium on going forward with oil shale research and development. I think that moratorium was a foolish thing to do. It should be lifted.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of the Senate bill to address oil shale leasing, the text of which is identical to amendment No. 5233 filed by Senator ALLARD to the Energy bill.

I would further ask unanimous consent to the bill to be laid on the table, and any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

Mr. SALAZAR. Mr. President, reserving the right to object, I would remind the Republican leader that even the oil companies—Chevron Oil—have said we do not even know whether the technology is out there to be able to develop oil shale. At the earliest, it is 2015, 2016 when we will know that. We had the Assistant Secretary of the Department of Interior, and in his testimony before the Energy Committee, he said the same thing.

So the consequences of moving forward with the legislative proposals pronounced here by the Republican leader essentially would do nothing more than to lock up millions of acres of land and millions of barrels of reserves to oil companies that already are getting the highest record profits of any company in the history of the world. That includes companies such as Shell, which reported a 40 percent increase in its second-quarter profit on Thursday, Exxon, and all the rest of the oil companies.

So if this is about giving the national public resources away to the oil companies, then I would say we should support the Republican leader’s unanimous consent. But it is not about that, it is about creating a new energy frontier for America. Therefore, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. MCCONNELL. Mr. President, I see the Senator from New Hampshire is on his feet with some observations about this objection.

Mr. GREGG. If I may, I am a little surprised at the objection. The first objection to your first amendment was that we did not have a comprehensive approach. Now you suggested another approach; we would add to a comprehensive approach that appears to be objected to.

The gravamen of the objection appears to be that we do not know if we can produce oil shale, oil from oil shale; that the technology and the location of the oil shale is not necessarily far enough along to be able to produce, and therefore we should not even look at it.

As I understand the leader’s amendment, it says simply remove the regulation which was put in place last year which barred the Interior Department from putting out regulations which allow us to find out whether the oil is there and whether we can move it.

So there seems to be an inconsistency here on the reasons why people would object to taking off that regulation which was put in place last year by the Democratic leadership.

Secondly, the known reserves from oil shale are projected to be two to three times the known reserves of Saudi Arabia. That is a huge amount of oil, potentially. I do not think we want to lock up billions of barrels of oil sitting there, and all the leader has said we are going to throw a sheet over our head and not look at this potential reserve which would give us as a nation more potential oil reserves than Saudi Arabia, that we are not going to allow the Department of Interior to begin the process of developing regulations that will, if the oil is there and if it can be used, expedite the production of that oil. That makes no sense at all.

As I understand, the proposal that came earlier from the Democratic Party was to open the Strategic Petroleum Reserve. That is 3 days’ worth of oil. If there is 2 trillion barrels of oil in oil shale, that is 40,000 days of oil. Well, two to three times that, the American people would have liked to have the opportunity to find 40,000 days of oil in the United States rather than have to buy it from Iran or from Venezuela, places that do not like us very much, even from Saudi and say we are going to throw money kept here in the United States.

Yes, the oil companies are making some big profits. They are spending it to look for oil also. But when they are not spending it to look for oil, they are actually paying some dividends. Who gets those dividends? Well, if they are American companies, I suspect that many Americans are, Americans who invested in pension funds, Americans who have 401(k)s.

Are we to say they shouldn’t get those profits and we should, rather, send them to Saudi Arabia or to Iran or to Venezuela so Hugo Chavez gets the profits? How absurd. On its face it is absurd that we are willing to let them keep billions of barrels of oil sitting there, and all the leader has asked for is to lift the regulation which will let us find out whether we can look for it and whether it is there.

Mr. SALAZAR. Mr. President, will the Senator from New Hampshire yield for a question?

Mr. GREGG. I was propounding a question to the leader.

Mr. MCCONNELL. I would say to our good friend, the other side had plenty of time to discuss their proposal.

I say to my friend from New Hampshire, he is entirely correct. Why would we not want to look. Maybe we don’t want to look because we might find something. If the potential is as vast as the Senator from New Hampshire portrays and as other experts have indicated, it seems to me we would be fooling the extreme not to pursue this further. The American people simply would not understand.

Mr. SALAZAR. Will the Republican leader yield for a question?

Mr. MCCONNELL. Not at this time.

I think the American people would not understand our reluctance to continue to explore this alternative given the vast potential it seems to possess.

Mr. GREGG. If I may ask the Republican leader a further question: Have we not been on the floor for 2 weeks, asking for the right to offer a series of amendments to address these issues that could be voted up or down, that would be fairly presented, where the minorities would have the right to present its amendments so we could present to the American people the case for Outer Continental Shelf oil, oil shale, nuclear power, electric cars, for a variety of other things we might do to get us out from underneath this severe issue which is the price of oil? Have we not been asking for the opportunity to present those amendments in a fair and open manner in the tradition of the Senate and been denied that right? Are we not being denied that right one more time here today?

Mr. MCCONNELL. The Senator is entirely correct. All we are asking for is the way the Energy bill was handled last year, the way the Energy bill was handled in 2005, in which we had an open amendment process, in which Members from both sides of the aisle were given an opportunity to offer their amendments. Forty or fifty amendments were handled in 2005, in which we had an open amendment process, in which Members from both sides of the aisle were given an opportunity to offer their amendments. Forty or fifty amendments were handled in 2005.

It ultimately led to a law. What we have been engaged in in the last 2 weeks is not designed to lead to anything other than a check-the-box exercise and move on. That is why Republicans in great numbers have insisted that we stay on this subject, the No. 1 issue, that we remain in our effort to find more and use less. The only way to achieve that is with a balanced approach, not a sort of single-issue approach which is in the underlying bill.

In addition to addressing gas prices directly, there are also a great many Members of the Senate on both sides of the aisle who understand we need to move in the direction of more nuclear power. A lot of us think the French have not done a whole lot right in recent years, but one thing they have done right is develop a nuclear power industry that supplies the vast percentage of their electricity. Had we been given the opportunity, we would have been offering a nuclear power amendment.

Therefore, I ask unanimous consent that the Senate proceed to the immediate consideration of a Senate bill to address oil shale leasing, the text of which is identical to amendment No. 5179 filed by Senator LINDSEY.
DOMENICI and Senator ALEXANDER both wondering if the leader could explain used by the other side of the aisle. I will use leader time to allow us to get up to the same 30 minutes that was I want to talk it over. We have so many more amendments. Of course, time ran out. Now they are back again. We have given them ample opportunity to talk about nuclear power, to offer their amendments, offer their energy package. Each time they couldn’t get it together. This is the gang that can’t drill straight. I object.

Mr. MCCONNELL. I thank the Senator from New Mexico. Madam President, what time remains on this side to 30 minutes. The PRESIDING OFFICER. The 30 minutes has been consumed. Mr. MCCONNELL. I will use a few more minutes of leader time. If the other side wants to expand their time, it would be perfectly permissible with me.

There is one other area that is important to me and to other Members on both sides and that is coal. We have vast reserves of coal in this country. There is a great opportunity to advance the usage of coal, including coal gasification and carbon sequestration that will require a little bit of debate and then vote. That is what we have been denied. That is why I am here saying the public is going to understand this. We should have voted on the Outer Continental Shelf, opening it, with amendment and full debate. We can’t do it because they won’t let us. It is that simple.

Mr. MCCONNELL. I thank the Senator from New Mexico.

The PRESIDING OFFICER. Objection is heard.

Mr. MCCONNELL. Absolutely. Of course, I come from a big coal-producing State. The amendment I sought to call up is actually authored by Senator BUNNING, my colleague from Kentucky. We are, not surprisingly, enthusiastic about this option. But putting aside the Kentucky-specific interest, the military is looking for a reliable, secure source of fuel for our planes. They don’t want to be dependent on the Middle East.

Mr. CORNYN. Madam President, I say to the distinguished Republican leader, this is not just an energy issue, this is a national security issue. Let me ask the leader, since he comes from a State that produces significant amounts of coal, whether these figures given to me by my staff are accurate. It has been reported to me that the Air Force uses about 2.6 billion gallons of jet fuel a year at a total cost of about $8 billion. That is $8 billion the United States appropriates and goes to the Department of Defense and the Air Force to buy jet fuel. It is estimated that for every $10 increase in the barrel of oil, the Air Force—and we can see in parentheses the U.S. taxpayer—spends an additional $600 million in fuel costs. Do those figures I have cited sound approximately correct?

Mr. MCCONNELL. Those are statistics I have heard in the past. It certainly underscores what a promising
alternative this would be, were we willing to pursue it. I thank my friend from Texas for his thoughts.

Madam President, I see the Senator from Tennessee is on his feet as well.

Mr. ALEXANDER. I had a brief question for my friend from the other side.

Nearly 2 weeks ago, when the Democratic leader brought the speculation Energy bill to the floor, isn’t it true that we met and said we look forward to a balanced debate where we can get a result, and we believe in the law of supply, as well as demand, and, therefore, we think we should come up with a proposal for finding more and using less?

On the finding more side, which we talked a lot about today, we had offshore drilling and oil shale, which would produce over time about 3 million barrels a day. We talked about nuclear power for more American energy.

But we have even more on the demand side, being using less. In our case, the idea was, was it not, to create an environment in the United States where, as rapidly as possible, we could encourage the use of plug-in electric cars. Is there not much support on the other side for that?

So my question to the leader is: Why is it that when Republicans, nearly 2 weeks ago, suggested a proposal for finding more that would produce 3 million more barrels a day, eventually—that is a third more production—would save 4 million barrels a day, which together would have cut in half, over time, our imported oil—why is it we have been unable, for the last 2 weeks nearly, to actually begin to debate and adopt such amendments and produce a bill that would send a signal to the world that the United States of America is taking an action to find more oil and to use less oil, which would bring down the price of gasoline? Why have we not been able to do that?

Mr. MCCONNELL. Madam President, I say to the Senator from Tennessee, I am perplexed. The American people do not understand taking a time out until next year. The senior Senator from Illinois is recognized.

Mr. DURBIN. Madam President, before the Republican leader leaves the floor, I would like to reconcile the remaining time allotment.

I understand he said we could have extra time in the next segment for Democrats, to make up for the additional time used by the Republican side: is that correct?

Mr. MCCONNELL. Yes, that is fine.

Mr. DURBIN. Madam President, could the Chair indicate how much additional time was used by the Republican side?

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. DURBIN. Madam President, if I could ask unanimous consent, then, that the next segment be 40 minutes on the Democrats and, the following day, we return to 30-minute segments on each side.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Thank you very much.

Madam President, for those who are following this debate, it is interesting because a friend of mine I used to work for in politics as a young man used to say: When politicians speak, there is a good reason and a real reason for the things they are saying.

The good reason for the position taken by the Republicans is they believe more oil put on the market is going to mean more supply and lower prices. It is intuitive to us, in a supply-and-demand economy, that makes sense.

So the pillar of their argument on energy policy is we have to find more places to drill. We do not have enough places to drill for oil now. If we could find more oil, there would be more gasoline, and gasoline prices would come down. The logic is good. But it fails to tell the whole story. It fails to account for 68 million acres of Federal lands currently leased by oil and gas companies that they have not touched. They have paid the Federal Government for this land to go drill for oil and have done nothing.

The Republicans never mention the 68 million acres out there that the oil companies are not using.

There is a second matter they never mention. If we do not start drilling for oil on the Mall—and sometimes I think in the speeches on the floor a few people might be for that—but if we decided to drill, they think it takes 8 to 14 years before you put the oil well into production, 14 years. As they put for your gasoline each week and somebody says: Hey, hang on, in 14 years we are going to get this under control, you have a right to be a little impatient. But that is the Republican approach.

So who would buy this approach? Well, the people who are buying this approach—the real reason behind the position on the Republican side—this is the oil companies’ answer: Keep drilling, give us more land, give us more options, let us put these in our portfolio—the same oil companies that are reporting not just recordbreaking profits for oil companies, but recordbreaking profits for American businesses. No businesses in our history have ever reported the profits they have reported.

Shell reports a profit jump. Despite reducing production of oil, their profits have gone up. Shell went up 33 percent this quarter; Exxon, 14 percent—recordbreaking profits for these oil companies, and the position they hold, coincidentally, is the same position as the Republican Party in the Senate.

So an honest question: Who is one that looks forward, says we need responsible exploration and production. That means we do not go into environmentally sensitive areas; we do not pollute our beaches and our shore communities, but we do the right thing but we produce oil and gas as we can in this country, realizing the entire inventory of oil in America represents 3 percent of the global supply of oil—3 percent—and we consume 25 percent of the oil.

We cannot drill our way out of this. We have to look beyond that. We have tried to do that. Twice this week we brought an energy policy bill to the floor. Twice this week the Republicans defeated it. They refused to vote for an energy policy that is comprehensive, that has just not exploration and production in it but looks to things that are our future: more fuel-efficient cars and trucks.

We cannot keep driving these gas hogs. We have to drive cars and trucks that are sensible, that meet the needs of our families and our economy and do not consume so much gas. I think my kids and my grandkids will be using plug-in hybrid cars. They will wonder why their old man used to use so darn much gasoline when he was growing up because they will have found ways to do it without gasoline, without diesel fuel, using these batteries and using plug-in hybrids.

That is the future. That is what we asked the Republicans to join us on and vote for, and they refused. We asked them to join us in creating tax incentives for solar power and wind power and geothermal sources, all of which can serve our economy, serve our businesses, serve our families, and not create global warming. They refused. Time and again, the only thing they will vote for is the oil company agenda.

And the oil companies are pretty powerful. You may see some of their folks walking the halls out here, wearing pretty nice suits and shoes. You can’t...
miss them. But that is not the future. That is the past. They have done their part. They will continue to play a role—a major role—but the future is a future of vision, looking for clean energy and good-paying jobs right here in America, creating the kind of industry where growth in manufacturing jobs so families across our country have an opportunity.

The Republican view and the Democratic view are quite different. When we offered them a chance to come together, they would not do it. The last bill they defeated not only had the energy provisions I mentioned, it had a lot of other important provisions. There was disaster assistance for the poor people in Iowa. There was $8 billion to put in the highway trust fund so we can reduce congestion on our highways and create construction jobs across America.

It even included the Wellstone Mental Health Parity Act. Paul Wellstone of Minnesota was assassinated away about 6 years ago. This was his passion, and we have never passed this bill. We have to pass it now so your health insurance covers mental illness, as it covers physical illness. They voted against that too. It was all part of the same bill.

It is unfortunate we have reached this point, but that is the point we find ourselves.

The final word in this debate is going to be on November 4, and the voters will have it. If the voters believe we need to look backward to the oil company agenda, they can agree with our Republican friends. But if they believe we need to look forward, with responsible exploration and production but also incentives for renewable energy that brings us into the 21st century, then I hope they will consider voting for those who have brought that to the floor.

Mr. SALAZAR. Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. SALAZAR. Madam President, I wish to make a few comments to clarify some of the colloquy that went on and what I consider to be some of the distortions that were spread.

First, there is a misconception that the minority side is trying to spread: that Democrats are against drilling. If you go to my State of Colorado, you will find tens of thousands of natural gas wells and oil wells that are producing. If you look at the votes we have taken in this Chamber, there are many of us who have said we need to go and drill, and we need to explore, whether it is off the gulf coast or whether it is in other areas. So for them to try to use the brand that we are against the use of our conventional fuels and resources is simply wrong.

I wish to comment on two or three specific matters. First, on the opening of the outer continental shelf, it is true the President has said he wants to lift the moratoria. It is true Senator McCaIN has said it would have some kind of a psychological effect, perhaps, on the market. The fact is, there are some of us who say we ought to at least have an inventory of what is out there on the OCS.

But no matter how you cut it, the Department of the Interior, the Energy Information Administration has said we are not going to be producing anything out there for 7 to 10 years. So it is not going to have an impact on gasoline now. That raises the question: What is the real motivation of these moratoria that are being pushed by the Republican side? It is a stalling tactic to keep gas on the minds of people through the month of August so they play it for their own political advantage.

I think the American people expect better of us. I think the American people expect us to come up with real solutions and not phantom solutions. Solutions that have been proposed here are, by and large, phantom solutions. There is no greater phantom solution, frankly, than what we have seen countless times over the last 2 weeks: the assertion by my wonderful friends on the other side who have said that somehow out of this shale rock—which is shale; it is not rock; it is shale; it is rock—that somehow we are going to be able to develop 2 trillion barrels of oil out of that rock.

Well, it has been tried for about 100 years. Nobody has figured it out. Even the oil companies they cannot figure it out right now. We, contrary to the assertions made by my good friend from New Hampshire, opened the opportunity for oil and gas companies to go in and see whether the technology could be developed. So we have a robust research and development program that is taking a look at whether oil shale can be commercially developed in my State of Colorado, where 80 percent of the reserves are located.

So I would hope, as we move forward in what is one of the most important issues in the crucible of our times, that we look to the future to find real solutions that are so important for us on energy because, at the end of the day, what will drive us to that new energy world is the importance of national security, economic opportunity here at home, and the environmental security of our planet.

Mr. SALAZAR. I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

Ms. STABENOW. Madam President, a little earlier this afternoon, our leader came to the floor with colleagues and offered six different opportunities for the Senate to bring before it bills that include responsible drilling, investments in alternatives, investments in areas that will create jobs right away, which relate to my great State of Michigan, which is investing immediately in technology research and development and retooling our plants for the new vehicles, which will create, within 2 years—not 15 years—changes that will allow us to move aggressively to hybrids and plug-in automobiles. We saw legislation put forward to deal with energy speculation and what is going on in the marketplaces.

Each of those times, there was an objection to even moving ahead to consider those bills. Twice this week, we have tried to move forward on tax incentives for production, for alternative energy, and other consequences that will get us off foreign oil and bring down gas prices for good. Each time there were objections. In the month of June, two other times—we can go back a year—objection, objection, objection.

Frankly, people watching the Senate get sick of this because they want action. They want something to be done. The question is: Who benefits by this blocking continually, by this stopping of us moving forward to alternatives to move to bills that would open up oil shale, allow oil speculation or windfall profits tax proposals that would require you to pay an extra tax if you don't reinvest in alternatives or in drilling in America to create more supply? Who would benefit by these types of tactics?

I think it is clearly the announcement in the paper today. Today ExxonMobil reported second quarter profits of $11.68 billion, the highest ever for an American company. It did that last month—the last quarter: highest profits ever—ever—for an American company. All together, since President George Bush and Vice President Dick Cheney, two oilmen, have been in the White House over the last 8 years, all together ExxonMobil has reached $32 billion in profits. That is a lot of zeroes: $32 billion in profits.

I wonder who benefits from the inability of the Senate to get agreement to move to bills that would open up oil speculation or windfall profits tax proposals that would hold them accountable? It is right here. It is right here. This is very clear. As my kids say, it is simple as the nose of the camel of what this is all about. This is about an oil company agenda that has run wild for 8 years, and the American people are paying a huge price. Our economy is paying a huge price.

Along with ExxonMobil, Shell has also reported profits of $11.56 billion, bringing their grand total since this administration took office to over $157 billion. The total combined net profits of the top five oil companies, since President Bush and Dick Cheney took office are upwards of $641 billion.

What have they done with those profits? Well, oil companies have spent $188 billion in stock buy-backs and other responsible drilling as part of the solution. We know there is no silver bullet, but we also know we have to be aggressively moving to the future and not
stuck in what is an oil company agenda for this country.

We also know we are in a global marketplace. Nobody knows that more than the people in my great State of Michigan. We are competing in a global economy where you can drill here and it can go anywhere to the highest bidder.

Here is also what we know: We know we have to get extremely serious—and quickly. We still need all the things we talked about making a difference, such as bringing accountability to the energy markets and addressing speculation, and focusing aggressively on those areas that will give us real alternatives and competition for the people who have been doing so well.

To add insult to injury, we take a look at the other ways in which this industry has received so many benefits from this administration. Eighteen months ago, we heard in the New York Times that the Bush administration was allowing oil and gas companies to forgo royalty payments. They didn’t have to pay their royalty payments on leases in Federal waters in the Gulf of Mexico. By the Department of the Interior, the cost of the Interior can cost up to $60 billion. They were supposed to make payments. Those payments were waived, for whatever reason, costing us up to $60 billion. Sixty billion dollars is the equivalent of 38 days of free gas for every American. Right now, I know a lot of folks who would take that gladly.

The reality is we have seen at every turn efforts to support this industry for the least and leave them lowest. Where has it gotten us? Where has it gotten us?

I wish to share with my colleagues some stories of folks from Michigan in terms of where it has gotten us—not only $4 a gallon at the pump, but when we look at what has happened to real people, it is an outrage, where this 8 years of a policy that has put oil companies first has gotten us. We know that everybody is affected. The folks going to work are affected. Yesterday I read a letter from a young woman who worked at a school and was cut because she takes the bus to school and now the buses are being cut because they can’t afford to put gas into the schoolbuses. What an outrage in the United States of America.

Let me share today an article that was in the New York Times. Older poor people and those who are homebound are doubly squeezed by rising gas prices because they rely not just on social service agencies but also on volunteers. We have heard from our home health care agencies that do such a wonderful job in this country helping people to be able to remain at home and allowing them to receive services. In a survey of home health agencies, more than 70 percent said it was more difficult to recruit and to keep volunteers. We have heard that from Meals on Wheels. We have heard that from other kinds of volunteer programs that go into homes to help seniors, to help the disabled, to help those who need some assistance.

Let me share with my colleagues one letter. Mrs. Fair, who has limited mobility, lives on Social Security and can’t afford to put gas into her car. She said when they married, she raised her five children as if they were her own. Mrs. Harman started to develop Alzheimer’s 8 to 10 years ago. He said, “I promised her, don’t worry, I will take care of you as long as I can.” But without a home health aide, he said, he was going to have to put his wife in a nursing home and he probably would need to live there himself.

In the greatest country in the world, we have folks who are not able to get their Meals on Wheels. They are not able to get their home health care. Why? Because they can’t afford gas. We have school buses that can’t run because they can’t afford gas.

Let me share with my colleagues one other story. Sandra Prediger, who is 71 years old and who still drives a car, said higher gas prices hit her every time she needs to go to the doctor. From her senior apartment in South Haven, MI, she was barely able to pay her bills because gas prices rose. She said it’s in the history of the ladies around here, driving them to the doctor or to the store.” But a round trip to her doctor or the beauty shop now costs $26 in gas. She has had to ask her friends to pay half. She said, “I hate to ask because they hate the gas prices too.”

Her Social Security check arrives on the 3rd of the month. For the first few days before, her local gas station lets her write a postdated check to fill up. On February 12 she had no money and walked to the gas station and she knew that in a few minutes her friend would be calling saying, could you please take me to the store to get the meals for my diabetes. What am I going to do?

There is something wrong when we are in a situation where we have seen an agenda benefiting a special interest in this country, and in the world right now, where we have seen the highest prices that we have ever seen in this country, and in the world right now. People are competing in a global economy where you can drill here and drive it anywhere in the world. This is what we need to do. It’s about this country, is what we need to do. It’s about what is in the best interest of the country, is what we need to do.

It’s about what is in the best interest of the country, is what we need to do.
the Democratic majority who have been working very hard to create an alternative vision for the future. Yesterday the Senate leadership, including Senator Byrd, the chairman of the Appropriations Committee, laid out a jobs stimulus that we intend to bring forward. September is a major investment of $300 million in advanced battery technology research and development. We are so close to having the electric vehicle on the road and mass produced. We are so close. There is so much needs to be done, but we are so close. Within 18 months to 2 years, we can have a real alternative to oil on the road.

Part of this package also includes a commitment to Americans and American jobs by helping to retrofit and make capital available, make credit available to companies to retool our plants for these new vehicles, so that we keep those jobs here.

Our companies are competing with countries right now. Come to China, we will build a plant for you. Come to Korea, we will build a plant for you. We want those jobs here.

I am very proud that the stimulus that has been put forward shows a commitment to American jobs and American manufacturing. I am very proud that this part of the stimulus package we will be working on and voting on in September.

Around the world, everybody else gets it that it is not just about oil and drilling. Everybody else understands. Every other country is racing to alternatives. Germany announced the great advanced battery alliance that will invest over $650 million in advanced batteries to help German automobile makers. South Korea spent over $700 million in advanced batteries and developing electric vehicles. We are in a race with them to get to the future, not the past. China has invested over $100 million in advanced battery research and development.

In the next 5 years, Japan will have spent $230 million on this research, as well as $278 million on hydrogen research for zero-emission fuel-cell vehicles. That is the future. That is the real competition, so when you go to the pump and look up and see that price for traditional gas, you have another choice. That is the future. We are working very hard to get us to that future.

We need a White House that will help us get to that future. We need support from the other side of the aisle, not just to talk about it.

In conclusion, part of what is talked about on the other side of the aisle in terms of supporting advanced battery research is a prize. If you go out and spend all this money—and Germany spends $650 million—but if you, an individual or a business in America, figure out a way to get the capital to do this, we will give you a prize at the end. It is in essence the presumptive publican nominee and his colleagues on the other side of the aisle have decided to run our economy like a game show.

We have said we have to invest upfront in America, in American jobs. That is the future. That is the only way to create the opportunity for schoolbuses to be able to run, for seniors to be able to get to the doctor, for folks to be able to get home health, for kids to be able to get to a job, and to create the jobs we need in the future in advanced manufacturing.

I hope before this week is out, our colleagues will come to the floor, stop objecting and work with us. What we know is right in front of us—what we know can be done to bring down gas prices and create jobs in America.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

STATE OF PARALYSIS

Mr. Webb. Madam President, I want to take a few minutes today to speak about the state of paralysis we seem to have found ourselves in on the Senate floor, and then also to make a brief comment about two nominations the Senate will be considering.

First, we are paralyzed, obviously. The other side of the aisle has voted against a windfall profits measure for oil companies at a time when we have seen some of the largest companies in American history, which has only increased. How did they get these profits? Certainly not by working any harder. In fact, as people have mentioned on the floor today, it seems a lot of oil has gone down. I don’t know how else you define a windfall than what has happened in the price of oil and the profits that have gone to the oil companies over the past 6 or 7 years. They will not give us a vote on the rampart speculation that has now taken place in the oil market.

I have to say at the outset that I do not have a fundamental disagreement with a lot of the things that are being said on the Republican side. What we need to do. I think we very much need a comprehensive energy strategy in this country. I am not opposed, personally, to the idea of expanding exploration for oil and gas in those cases where it is appropriate, and to get down and find the assets that are available to us as a nation and increase our national security. This may not be, as some people say, the answer in the distant future, but it is certainly an essential transition for us as we reach toward that future.

I personally support nuclear power and expanding nuclear power programs. We have not built a new nuclear power plant in more than 30 years. There has been ample comment about that on the floor today. I think nuclear power is safe. We are the best in the world at it. The experiences of the U.S. Navy at sea for at least a half century demonstrate that. It is environmentally clean, and we have gotten better technology, advanced technology, in terms of taking care of nuclear waste.

I believe we can reach a point where we have cleaner coal. This requires new technology. We are the Saudi Arabia of coal. We are looking to improve national security, and we are looking for independence from countries where we have seen an enormous transfer of wealth from the United States. This transfer of wealth is going to result in further infrastructure for those other countries, and it is going to harm us in the long-term.

I believe we need to support conservation and alternative energy programs of every sort. I went to high school in Nebraska. If you draw a line from Canada to northern Texas, where the winds come down from the Arctic Circle, you will see there is not a mountain in the way. There are actually trees in Oklahoma that bend toward the south because of the power of those winds. I believe we must invest, in terms of alternative energy technologies, whether it is wind, solar, or other areas.

At the same time, when do we debate this? How do we develop a strategy? What should we be doing now, today, looking into the immediate future? The bill our leadership brought to the Senate floor is the best short-term fix, which is why we are talking about an incredible increase in the price of oil. If you go back 6 years when this Congress voted in favor of the invasion of Iraq, oil was $24 a barrel. The price of oil went all the way up to $147 a barrel. It has tamped down a little since then, but it is a six-fold increase in 6 years.

I can guarantee this is not simply a supply-and-demand issue. The demand didn’t go up six times in the last 6 years. There are other interests, including the speculation market, that have driven the price of oil up that high. We have had testimony from oil companies’ executives saying that, in a pure supply-and-demand environment, oil would probably be at $60 a barrel. That is an issue we can affect. We can do something about it by regulating a market that has dramatically changed because of the participants in that market since late 2000. I hope we can have some sort of agreement on this. We should have a vote on the speculation issue. I compliment our leadership for having attempted to bring that issue before the Senate.

PENDING NOMINATIONS

Madam President, I want to speak for a couple of minutes about two nominations that are pending before the Senate.

First, I express my appreciation to the senior Senator from Virginia, Senator Warner, today for the comments he made about Kathy Stephens, who has been nominated to be Ambassador to South Korea, has cleared the Senate Foreign Relations Committee, and has been waiting for a vote on this floor. I know of very few people who have better qualifications to serve in that part of the world. I have spent a good part of my career serving as a Peace Corps worker in South Korea. She is fluent in Korean. I believe she is the best qualified person to

S7834 CONGRESSIONAL RECORD — SENATE July 31, 2008
address all of the issues that people on both sides have expressed their concerns about, in terms of politics, the culture, human rights issues, etcetera. I was very gratified to see Senator WARNER mention his support for her nomination today. I hope we can find a way to get her out there doing her job in the very near future.

The second nomination I want to mention is that, regrettably, I am unable to support the nomination for the Chief of Staff of the Air Force. This is an important appointment. When Senator Richard B. Lugar, at a key time after the invasion of Iraq, was asked repeatedly to give answers to a question for which I personally believe there were answers, I was writing about it at the time. I have very strong feelings about this. Regrettably, I am unable to support the nomination for the military out of politics. I believe if we do not insist on this standard in the relationships between the U.S. military and the Congress, then we are going to continue to have the same difficulties that we saw with attempting to get straight comment out of the U.S. military as we went into Iraq.

There was a very wise Marine general who said, at the time I was entering the Marine Corps, “It is very important in the United States to get the politics out of the military and to keep the military out of politics.” I believe that. In that, we need to insist that those military officers who testify before the Congress abide by it. With that, I yield the floor.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. REID. Madam President, I have had the good fortune of working with Senator BINGAMAN now for 26 years. He is such a wonderful man. His academic record is as good as anyone’s in the Senate. His ability to do legislation is as good as anyone’s in the Senate. Everybody knows what an easy man he is to deal with. He is now chairman of the Energy and Natural Resources Committee, which is so important to what goes on in our country. New Mexico is so fortunate to have his service in the Senate. He does so much for New Mexico and, of course, for our country.

The reason I mention his name is that one reason Senator BINGAMAN does such a good job is he has a wonderful staff. I have worked very closely with them. One of the most interesting is the issue of public lands—land owned by the Federal Government. Only 13 percent isn’t private lands. Over 40 percent of the State of Nevada is restricted air space. You cannot fly an airplane over most of the State of Nevada. It is restricted to the military. So we have lots of dependence on the Federal Government. We are the most public land State in the country.

As a result of that, I have worked closely with the Energy Committee all these many years. One of the people I have worked closely with over these years, for more than a decade, is the chief of staff of that committee, Bob Simon. He is a wonderful guy—quiet, intellectually very sound, a graduate of a small college in Pennsylvania called Ursinus College. He has a PhD from MIT in chemistry.

I have followed very closely the travels of Bob Simon these last few weeks because he has a son by the name of Gregory, 16-year-old boy, who was struck with a very bad bleed on the brain and died today. He was in the hospital in a coma. We thought he would pull through. He did not. He died. It is devastating to Bob Simon, his wife Karen, and, of course, Anne-Marie, his daughter, and Catherine. Catherine is not here today, of course. Her brother passed away. She is in charge of the Democratic Caucus. She works very hard in that capacity.

It is times such as these when you really understand that when we talk about a Senate family, we really mean it. Bob Simon is part of the family. He works with Senators and Republicans. He is great for working on a bipartisan basis. When Senator DOMENICI was in that committee, Bob Simon was the Democratic chief of staff. The committee with the two New Mexicans as the ranking member and chairman of that committee, one time as chairman, one time as ranking member—one reason that committee functions so well is because of Bob Simon.

There is nothing I can do other than to recognize what a good man Bob Simon is. There is nothing I can do to ease the pain of the Simon family, their friends, and loved ones.

On behalf of the Senate, I extend my deepest condolences to Bob Simon and his wife Karen for their heartbreaking loss. Being the father of five children, I can only think how devastating this must be.

Mr. DOMENICI. Will the leader yield a moment?

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, I heard the leader’s comments about Gregory. I just want to say I am aware of the way in which the majority leader feels. I thank him so much for his graciousness toward Bob and his wife. I know how tough it is on them. We don’t know it until something like that happens, but that is a very young, wonderful boy who was loved by everyone. Everybody who knows him knows he is a dedicated, devoted father. It is just pathetic that this happened.

I join the majority leader in every way in extending my most sincere regrets and hope and pray that the best will come of this. I know that sounds impossible, but at least we can ask for the best and that the Lord consider them and be merciful to them.

Mr. REID. Madam President, I did not know my friend from New Mexico was on the floor, but as he knows, I did mention his name and the great relationship Bob Simon has had with the committee. As I mentioned, not knowing the Senator from New Mexico was on the floor, I will repeat what I said, that the committee has functioned very well. Two New Mexicans run that committee, either as chairman or ranking member, back and forth, and they work so well together. One reason they do is because of Bob Simon. He is a very quiet, brilliant man, and it is very nice that Senator DOMENICI would say what is in his heart because we join in this in his wishes that the Lord will look down on his family with understanding and compassion, and hopefully, as time goes by, there will be some good that comes from this tragedy.

The PRESIDING OFFICER. The Senator from New Mexico.

Mr. DOMENICI. Madam President, as I understand it, time now inures to the Senate Republicans for—is it a half hour?

The PRESIDING OFFICER. The Senator is correct.

Mr. DOMENICI. Madam President, I am here to lead off for the Republicans. There are two others. Senator BYRD is here, and there may be another Senator, Senator ALLARD. I say to them, I am only going to make a 2-minute or 3-minute statement and then yield to whoever wishes to go first. I would like them to hear what I say.

Yesterday, the chairman of the Appropriations Committee, Senator BYRD, issued what I believe to be a very telling and extraordinary statement. He said:

It becomes clear that an attempt to add language to the supplemental—

That is the supplemental appropriations—repealing the two-decade-old ban on offshore oil and gas drilling would be successful, resulting in the necessity of having to produce 60 votes on the Senate floor to strip the repeal.

And so for that reason, the markup in the Senate Appropriations Committee on two important bills that fund the government was canceled.

I will say that not only does this statement contradict claims of the majority about why the tax cut was canceled, it also crystallizes exactly why the last 9 days in the Senate have resulted in absolutely nothing. The majority is afraid of allowing the Senate to vote on increasing American production of energy—because a vote just might yield results.

We have spent 9 days debating this bill. During this time, we could have
considered dozens of amendments, just as we did on the energy legislation in 2005 and 2007, and without a doubt, because the majority leader has taken sole control over the process, we have been held to zero votes. So zero votes, I say to my colleagues, Americans, cannot yield results. When you have no votes, you cannot accomplish anything. That means you cannot add to the offshore reserve that can be made available for oil and gas production. It remains as is, no much good is there, neither how much we could end up drilling for so the American people could look out and say: By producing our own, we don’t have to waste all our money sending it overseas, and the price might come down.

My last observation before I yield to my good friends is that I continue to hear comments from the other side that say we should not be drilling because all we say is drill, drill, drill, and that we are not drilling, and we don’t need to do that; we need alternatives. We can have all the alternatives we would like—and I am surely in favor—but we are going to be using crude oil or something much like crude oil for at least that 60 years minimum—because we cannot get off crude oil any faster. The oil products we use for our cars, our trucks, and our airplanes we cannot change over fast enough; so we have to use oil. And if we don’t produce more of our own, we all know what we are going to do is buy from others and continue to send the money overseas.

It is not just drilling because we want to drill, drill, drill; it is drilling because we don’t have enough oil. And if we find more, we import less. That should be good, and the American people sense it is good. That is why so many of them have said let’s open the offshore for drilling.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas is recognized.

Mr. BROWNBACK. Madam President, I would like first to thank my colleague from New Mexico and ask him a question, because this will be the last year he is serving in this body. He has served in it for many years, very distinguished. It has been my pleasure to get to know him. Senator DOMENICI can be irascible sometimes, but he is always fair. I find he will get on both sides, depending on which way he makes the call.

I just saw this, too, that we are not having this Appropriations Committee markup. I am on that committee. I am a relatively new member. Senator ALLARD is on it, and Senator DOMENICI has served on it in a distinguished capacity for many years.

This is really striking. I have not seen this take place. I have not been in the Senate that long, but I wonder if my colleague has seen that sort of move taking place to stop a major issue that is confronting the American public?

Mr. DOMENICI. Madam President, I have not seen such a thing. In fact, I have said—not as direct as this, but I have said that in 36 years being a Senator, through thick and thin and bills I have managed, bills I have amended, whatever kinds, I have never seen anything where such a simple proposition—can we open lands that we own?—no—I have never seen where it takes 10 days and they waste 10 days of time and still say no. I have never heard of that. Yet the majority, the leader of the Appropriations Committee says in the Appropriations Committee there are enough votes to end the offshore hindrance that has been there, it says, for two decades or three decades. If the amendments do that, they are awfully scared, right? Maybe that is why we didn’t get the vote.

I think it is other things. I don’t think Members on that side wanted to vote, win or lose. They didn’t want to vote. Now the American people can judge. That is how I see it. They can judge what the Senator says.

Mr. ALLARD. Madam President, I wonder if I might ask the Senator from Kansas to yield because I would like to add additional remarks.

Mr. DOMENICI. Madam President, I yield the Senator from New Mexico, Mr. DOMENICI, has done a fabulous job with the energy issue, not just this year when it is fashionable—and this is the big issue—but he has voted his whole legislative career to ensure that it is available, how we can use research and technology to meet the energy needs of this country. He is recognized not only by me but nearly all Members of this Senate for his hard work on energy. We all should appreciate that work.

I join in the chorus of those who have congratulated Senator DOMENICI on a distinguished career. His dedication to energy—I cannot think of another subject one could pick up that would have such a long-term impact on this country, whether we are talking about economic security, whether we are talking about military security, or whether we are just talking about a secure home where one can rely on utilities and everything to have a comfortable lifestyle in this country. The Senator needs to be recognized for that. It is a pleasure for me to do so, as I have served on several committees now with him. He is very articulate on this subject. It is a great job.

Mr. DOMENICI. Madam President, I thank the Senator from Colorado, and I will add one supplement to it because he knows this and maybe we will just say it together here. I did devote 10 years, with three or four experts, to seeing if we could bring nuclear power back to life in America, instead of leaving it dead, for others to use it as we sit around having invented it and wondering what is happening. I did work on it for 10 years, and then when I introduced a bill in provisions that brought it back to life. That does make you feel good. You don’t do that alone.

We never had a single vote, I say to my friend from Colorado, not one vote was taken on any of the bills to try to negate the provisions we put in for nuclear power. One would have thought 5 years ago it would be the most contentious issue we could have brought to the floor. In the new Energy bill, there was a whole chapter on nuclear power. Nobody sought to amend it, change it, anything. That was really a credit to the Senators who worked so hard on nuclear power, and the Senator was one of them. Senator Domenici always said he has been proud of it. I don’t know about the Senator from Kansas, but I assume so. He has a good brain, and if you have a good brain and you are a reasonable legislator, you couldn’t be against nuclear. You just had to be one of these fringe people against everything, scared because we had an accident once.

If you are scared because you had an accident once, you would not get up in the debate. The doctor told my mother. She didn’t want me to get out of bed because I had a bad knee. The doctor said: The best thing to do if you don’t want him to get hurt is you be his maid. He can stay in bed, and you can serve him food for 25 years. Of course, he won’t amount to anything. And that is true.

I am talking on. It is getting close to the end of the day.

I yield the floor.

Mr. BROWNBACK. Madam President, I yield my colleague from New Mexico. I note that when the nuclear industry comes back, I hope one of the first powerplants has ‘Pete Domenici’ written over the archway going into it.

We have an excellent nuclear powerplant in Kansas called Wolf Creek. My colleague recognizes this. It has been in operation for 25 years. It had huge protests before it got built. People were protesting the train that carried the main core elements into this spot. It has been operating efficiently, cleanly. It doesn’t put off CO2. It was a huge investment that has been fantastic for our whole State. And it was a capital expense. It was expensive on the capital side of it, substantially so, but, boy, does it run well. It has been good to see. And if we need to bring that back, we need to bring it back on a cost-efficient basis, but that was one of our key elements on moving this forward and moving our car fleet. But electricity more electric means the need that base power generation, and we want it clean, and here is a good spot to do it.

Mr. DOMENICI. There are 16 applications to the Nuclear Regulatory Commission as of this day before yesterday—16—for new nuclear powerplants; in some cases, two plants at one site, both construction and design applications. We had zero the day we adopted the new Energy bill. For once it seems as if we said something. Why doesn’t it?

Mr. BROWNBACK I agree.

Madam President, I join my colleagues from New Mexico and Colorado
in talking about the energy issue, and I particularly want to associate myself with the comments of the Senator from New Mexico, who responded that we are not just focusing on drill, drill, drill. The point of the matter is two numbers: 25 and 3. Twenty-five percent of the world’s oil is consumed by the United States, and we produce 3 percent.

Now, how long can we operate that way?

You can say, as my colleague from New Mexico has pointed out: Well, OK, we are going to get off oil. We want some alternative. Lord knows, I want an alternative. I want more ethanol, which is produced in my State. I want it produced out of cellulose. The problem is, if we turned off oil tomorrow, we are not in a position to produce enough of that or virtually anything else. We are going to need to use oil for some period of time, and that 3 to 25 ratio doesn’t work—our consuming 25 percent and producing 3 percent—when we could produce probably a good 50 percent more. Who knows what the actual number is. We know it is much higher when you look at what it is currently is.

For every dollar we are not spending on oil here, we are spending it somewhere else. They are building these huge indoor sea complexes in Dubai in the Middle East and lavish buildings. They are building islands, whole islands, beautifully designed like a palm tree. That takes huge amounts of money.

You sit there for just 3 minutes, and you think: Where is all that money coming from, I wonder? It is coming from our consumers’ pocketbooks when people are pulling up at the gas station and paying 100 bucks or more for gas to fill up. Hopefully, there are people who have the same problems I do, and the 3 to 25 ratio doesn’t work. That is why I believe that drilling is part of the answer. It is clearly part of the answer when our numbers are 25 and 3; when we use 25 percent of the world’s oil and produce 3 percent of it. We have to get our numbers up. It helps to balance the trade, it helps our deficit, it helps our people, and it spends it here at home.

That is why I continue to join my colleagues in voting that we stay on energy instead of going to other issues. I would like to solve some of these other issues as well, as would my colleagues. I don’t want to deal with them. I want to deal with all these issues. But when you pass up the biggest issue that is confronting most Americans, and you don’t deal with it, and for 9 days you don’t deal with it when you are simply saying: Let’s deal with the biggest one here, and then we will be happy to deal with these other issues. We need to deal with these other things, but not until you deal with the biggest one. If no one is doing anything with it, are we going to deal with it this year? I don’t think so. I don’t think that will happen. We are not going to get more time, nor will we have more political will the closer it gets to the election.

So now is the time, now is the place, now is the time when the American people want us to deal with this matter. So I join my colleagues in continuing to vote this way; that we take up these amendments to increase production in the United States.

Mr. DOMENICI. Will the Senator yield for a question?

Mr. BROWNBACK. I will be happy to yield to the Senator from New Mexico.

Mr. DOMENICI. Before I leave, I want to say to the Senator from Colorado, who is standing here patiently, that he might recall that the Senator from New Mexico went up and visited Colorado and Utah to see the oil shale before we had the big bill, where we put everything that we did.

Mr. ALLARD. I do remember.

Mr. DOMENICI. I was prompted to do that by you, to find out why we weren’t doing anything with that shale. We found out that we didn’t have any leasing laws that permitted it. I recall it was at your instigation that we put the first laws in the energy impact bill, the big bill, allowing leases for research and development. That is what has brought the development they are all worried about. It is a research and development in a phased process.

Now they don’t want to have any, as you put it, rules or regulations, so they can stop it dead after we got a good start. We understood that Shell Oil was ready to try a new process. They were going to spend more than a few billion dollars on it, and we found that out and said: Well, we ought to at least give them a chance. And we did, thanks to you. But now they won’t let us vote on any development in the oil shale, that is dead in the water too—that great big resource.

So I thank you.
delay when the technology is ready to go.

So I am hoping—and I want to thank the Senator from New Hampshire, who had proposed the amendment I had made in the Appropriations Committee a little while ago, but it hasn't been in place any sooner than that. So that was acceptable. The Department of the Interior has got the rules and regulations. They are out there for public comment, but that is all the further they can go.

If we continue what we have been doing year after year, we have stopped the development of oil shale dead in its tracks. Even worse than that, when it is ready for development, we will have delayed it that much more because we haven't done the things up front that will allow us to get it moving. So it is time to look at what their lease agreements might be, as the Senator mentioned from his visit, or what the royalty payments might be or what the remediation issues may be when they move in with the oil shale.

I happen to think the technology we are developing in Colorado is environmentally friendly, and it is not a mining operation. You freeze out an area of the ground, you heat out the middle of it, and you get high-quality fuel out of there which will help meet our energy needs. The hydrocarbons we get out of the ground, I think all of us realize these are nonrenewable resources. At some point in time, we are going to have to do something else other than just rely on those. But right now they are the bridge. They are our bridge to renewable energies.

I have heard comments on the Senate floor against the Republicans; that all we are interested in is drill, drill, drill. Republicans, to a person, believe that we need to use our hydrocarbons to bridge, and they understand we need the new technology. We are not saying exclude anything. On the other side they are saying: We will just go with renewables. We will let $4 a gallon stand. Who cares. Let it go to $5. Let it keep going to $7.50, even to $10 a gallon. We don't care because the high cost of gasoline will encourage conservation.

I think there are other ways we can encourage conservation, and I think a lot of it is happening today. But that is certainly not the way to do it because it has such a dramatic adverse impact on our economy, and it has an adverse impact on the security of this country.

Both my colleague from Kansas and New Mexico talked about how all of our dollars are going overseas, more than $700 billion a year going overseas to support the economies of our adversaries. They are the ones who don't support what we are trying to do: to spread democracy around the world. They would like to see us go away.

So I think we need to take a serious look at our alternative energies, and we need to act now to do something to increase hydrocarbons and do something to reduce the price of gas at the gas pump.

There is one area of the economy that I don't think we have talked much about, and that is the trucking industry. Talk about renewables. What is going to provide the energy for trucks? What renewables do we have for trucks? Truck companies are looking forward to going to propane to help a little bit, but there is not much substitute out there on renewables for the diesel engine right now. The diesel engine is what we use in trains, in trucking, in farming, and it is not going to be an easy solution for us to come up with an alternative fuel for diesel. We need to do what we can to hold down the cost of these kinds of fuels because that new technology is going to be developed while we discontinue it. We can't just shut it off today and expect our economy to function when it is such a vital part of what is happening in this country.

Mr. DOMENICI. Will the Senator yield?

Mr. ALLARD. I will be glad to yield. Mr. DOMENICI. I note that you just used a word a minute ago—"bridge." I think you have heard me speak of the bridge. You see, the bridge is how you are going to get from where you are now, with an economy that is using hydrocarbons to move itself, to do all kinds of things; how we are going to get from the middle of the road that has no more of that. That is a bridge.

Most interesting, the bridge is going to be crude oil because the only way you can get there is to stay alive, to have an economy, to produce, to get things done. And to get across that bridge you have to have crude oil because there is nothing else to get you there. You cannot put everything in parking lots and in abeyance until you find what is on the other side of the bridge.

The truth is, we have to produce crude oil for perhaps a decade. You said 10, 15, 20 years. That is my guess. Even if all these things work, the automobile where you can turn it on with a switch, everything that we can do, we are still going to be, what I say, stuck in the mud—the oil mud.

Whether people like it or not, Americans have it right. They are saying drill some more, they are not saying level the playing field. Everybody was afraid of the word. Now they are not afraid of it because people understand if you have more of that stuff called oil you might pay less. Costs might come down.

I thank the Senator for his understanding, and I am pleased to be with him.

Mr. BROWNBACK. If my colleague from Colorado will yield as well?

Mr. ALLARD. I yield to the Senator from Kansas.

Mr. BROWNBACK. There is another bridge I would like to talk about, and that is the continuing resolution. I wish to point out to my colleagues these are annual limitations on drilling offshore, in the oil shale. These are annual things put in, these limitations. There is a building coalition and commonsense people starting to want those limitations put on this year's appropriations. We do a continuing resolution as a bridge. I am warning my colleagues if this doesn't get voted on and dealt with, I think you are going to see people starting to be not willing to put that into that bridge funding into next year.

I hope we can work this out on something on offshore drilling, on oil shale development of rules, before we get to that continuing resolution piece where this would normally, or often, be put in. People are saying I do not want that in this financing bill for the Government, the continuing resolution.

I yield the Senator from Kansas for his support. I couldn't agree more with him. It is time we stop these tactics that are causing the price of gas to get so high. Obviously, before the summer break, it looks like we are going to have an opportunity to deal with the issue of bringing down the price of gas. Come September, we are going to have to do something more dramatic than what we have at this point. If it means we have to stop the continuing resolution with moratorium language in it, I think at that point in time we may have to make a strong stand—at that particular point in time. I predict we are not going to see that much of a decrease in the cost of gasoline and diesel fuel at the gas pump.

I thank the Senator from Kansas for his comments and for his support. We talked about how various aspects of the economy are being impacted by the high price of gas. I was at a press conference earlier. We had representatives speak on how the poor are getting adversely impacted, more than any other segment of the population in the United States, because of the high cost of fuel. We had a member from the Congress of Racial Equality. We had Bishop Harry Jackson, who talked about the High Impact Leadership Coalition. We heard from the All Nations Pentecostal Church of God in Christ talk about how the poor they were dealing with were being so impacted by the high cost of fuel. We had a number of people from all aspects of life, including veterans. We also had consumer groups. We had the Farm Bureau and we had Americans for American Energy, all there at that press conference, talking about how letting the price of fuel get so high was actually a war on the poor. I think that was a rather dramatic way of putting it.

We need to think a little bit about the fact, if we allow the price of gas to get high like this, there is a lower income population of our society that is going to be dramatically hurt because they do not have the reserve capacity to pick up the costs of fuel that is impacting their lives.
We need to act now. We should not be putting it off. I have been disappointed that we have not been able, as Republicans, to put our amendments forward on the floor. The majority leader has changed his view—we will go up to four, we will let in some amendments—and the remainder of the time be given to Senator Dorgan.

THE PRESIDING OFFICER. The Senator from New Jersey is recognized.

Mr. MENENDEZ. Madam President, I rise in support of the Higher Education Opportunity Act.

There is no doubt in my mind that we would not be speaking here today if it were not for the kind of assistance we will be voting on today. I was not able to go from the small tenement apartment I grew up in to the halls of the United States Senate if it were not for our Federal Government’s commitment to educating our young people, no matter what neighborhood they grow up in, no matter how much money their parents make, no matter what their ethnicity or the color of their skin.

I was the first person in my family to attend college, and then law school, thanks to Pell Grants and Perkins loans. The fact that I could get a quality education and was willing to work hard-work meant that the American promise was real for me. And I believe that providing every child with the same opportunities I had—so they can achieve their God-given potential—should be the unalienable birthright of every American.

Supporting our children’s future isn’t just a social responsibility, it is an economic necessity. Just a few decades ago, workers could find a good paying job and comfortably raise a family on the strength of their high school diploma. But times have changed. If we are going to stay on the apex of the curve of innovation, if we are going to be the economic power we were in the 20th century going forward into the 21st century—a century that increasingly belongs to those who innovate—we have to do all we can to educate our children and prepare them to compete.

Unfortunately, we are in danger of falling behind. At the same time we are seeing higher education become increasingly more important, we are seeing it become increasingly less affordable.

We are seeing students pass up the opportunity to go on for a higher degree, because they are so pressured to pay their bills today that they can’t focus on what is best for them tomorrow. We are seeing so many students who do go to college leave with two pieces of paper that they will carry for the rest of their lives—their diploma in one hand, and the bill for their tuition loans in the other. What we need now is a brainpower stimulus package that will make college more accessible and more affordable so that higher education is not reserved only for the wealthy; a brainpower stimulus package that will improve our Nation’s colleges and universities so they will remain the greatest and most distinguished in the world; a brainpower stimulus package that will protect students from unscrupulous lenders and ensure they are getting the best deals possible when they invest in their education with private loans; and a brainpower stimulus package that will close the achievement gap, because in this great Nation, the darkness of your skin should not diminish the brightness of your future.

The package we pass must honor and respect our soldiers and their families and provide them with the same opportunity and promise that they have given so much to defend.

Today we have the opportunity, and the responsibility, to make education a national priority and commit ourselves to accepting nothing less than greatness from our educational system. The Higher Education Opportunity Act would take enormous strides to accomplish many of these goals by increasing Government assistance for students, families, and institutions of higher learning. Allow me to take a moment to point out some crucial aspects of this bill.

Recognizing the dramatic increases in tuition over the years, this bill would increase Pell Grants and Perkins Loans would also permit low-income students to live and study in their own neighborhoods, so they can stay in school and earn their diplomas quicker. As tuition costs continue to skyrocket, we need to do everything we can to ensure that every child has the ability to soar to the highest heights of achievement.

In the wake of the recent student lending scandal, we must protect our students from deceptive loans that often leave them mired in debt even before they receive their diploma. This bill would establish strong standards to prevent schools from playing favorites with lenders due to expensive gifts they were given and ensure students are given the best rates possible.

This bill would work to narrow the achievement gap between Caucasians and minorities by investing in Minority Serving Institutions, Hispanic Serving Institutions, and enhancing vital programs such as TRIO and GEAR-UP.

It would reauthorize funding for Historically Black Colleges and Universities and Predominantly Black Institutions and expand their master’s pro-

grams, by providing $500,000 per year in mandatory funding to each of these institutions for 6 years.

This bill would also honor the dedication and commitment of our armed forces and their families by helping servicemembers, veterans, and their children attend college by providing interest-free deferral on student loans while servicemembers are on active duty and in-State tuition rates if they are not stationed in their home State.

Finally, it would establish new college scholarships of up to $5,000 for children and family members of servicemembers who have died since 9/11.

When one of our brave servicemembers gives their life in defense of our country, they are not the only ones sacrificing—rather their sons and daughters; husband and wife; and often mother and father have also given the most precious thing in their lives for our country. Like their cherished loved one, they deserve more than anybody the opportunity and promise that makes this country so great and worth defending and sacrificing for.

Our Nation faces great challenges to meet the demands of global innovation and competition, but as I true with all great challenges, we also have a great opportunity—an opportunity to invest in our most important resource: our children, our youth, artists and engineers, captains of industry and commanders of our Armed Forces and their families by helping servicemembers, veterans, and their children attend and pay for college by providing interest-free deferral on student loans while servicemembers are on active duty and in-State tuition rates if they are not stationed in their home State.

Today we have the opportunity, and the responsibility, to make education a national priority and commit ourselves to accepting nothing less than greatness from our educational system. The Higher Education Opportunity Act would work to narrow the achievement gap, because in this great Nation, the darkness of your skin should not diminish the brightness of your future.

The package we pass must honor and respect our soldiers and their families and provide them with the same opportunity and promise that they have given so much to defend.

Today we have the opportunity, and the responsibility, to make education a national priority and commit ourselves to accepting nothing less than greatness from our educational system. When one of our brave servicemembers gives their life in defense of our country, they are not the only ones sacrificing—rather their sons and daughters; husband and wife; and often mother and father have also given the most precious thing in their lives for our country. Like their cherished loved one, they deserve more than anybody the opportunity and promise that makes this country so great and worth defending and sacrificing for.

Our Nation faces great challenges to meet the demands of global innovation and competition, but as I true with all great challenges, we also have a great opportunity—an opportunity to invest in our most important resource: our children, our youth, artists and engineers, captains of industry and commanders of our Armed Forces, are depending on what we do here today.

This legislation has been in the works for a long time. We are a little late on the assignment, but we can still get an “A” for finally taking the time to turn it in.

I certainly hope our colleagues on the other side will allow us to make this happen today.

I yield the floor and yield the remainder of any time I may have to Senator LEAHY.
Mr. LEAHY. Madam President. I thank the distinguished Senator from New Jersey. I wish to discuss two matters that involve the Senate Judiciary Committee.

IMMUNITY

Mr. LEAHY. Madam President, today the Federal court evaluating the contempt charges against former White House Counsel Harriet Miers made a very significant ruling. The court's ruling is a rebuke of this White House's arrogant coverup and stonewalling, an arrogant coverup designed to shield from public view the inappropriate and even illegal actions of this administration. It is also a reaffirmation of the principle of separate, coequal branches of our Government, something that has guided our Republic since its inception and something this administration has tried to ignore by making its best efforts to accrue unchecked Executive power.

I commend Judge Bates. He is a former prosecutor, a Republican appointed by President Bush. I commend Speaker Pelosi and Chairman Conyers for their steadfastness in pressing this matter. I have long pointed out this administration's claims of executive privilege and immunity, which White House officials have used to justify refusing even to show up when the Congress has subpoenaed them, are wrong. Last November, in the Senate Judiciary Committee, I issued a ruling that the White House's privilege and immunity claims were not legally valid to excuse Karl Rove and White House Chief of Staff Josh Bolten from appearing, testifying and producing documents related to the White House's investigations into the unprecedented firing and manipulation of U.S. attorneys. Mr. Rove and Mr. Bolten's continued non-compliance with the committee's subpoenas, even after my ruling, led the committee to vote to hold them in contempt of Congress. Even with that, they have put themselves above the law by refusing to appear and testify.

This week the House Judiciary Committee also cited Mr. Rove for contempt. They had previously cited Ms. Miers for her failure to appear, as well as Mr. Bolten.

It is long past time for senior administration officials to abide by the law and appear before Congress to offer testimony, testimony that is compelled by subpoena. This administration places themselves above the law. What the court said is none of us is above the law, not even the President of the United States. They are not above the law. I commend the court for making that clear.

In fact, the ruling by Judge Bates could not have been more plain. He wrote:

'[T]he Executive's current claim of absolute immunity from compelled Congressional process for senior Presidential aides is without any support in the case law. I will be sending letters to Karl Rove's lawyer and the White House counsel to schedule Mr. Rove's and Mr. Bolten's long-overdue appearances before the Senate Judiciary Committee. In fact, Judge Bates explained why the Bush-Cheney administration's blanket immunity claims were an unjustified encroachment upon the constitutional powers of Congress. The judge wrote:

'[T]he Executive's absolute immunity argument were to prevail, Congress could be left with no recourse to obtain information that is plainly not subject to any colorable claim of executive privilege. This result, which the court concluded was "unacceptable," would be that the "Executive's proposed absolute immunity would thus deprive Congress of even non-privileged information."

Many of us have said that this is an administration that considers themselves above the law, that the law applies to everybody except them. Well, the court has said the law applies to them just as it does to all other Americans. Despite the administration's attempts at every turn to short circuit Congress—even the courts—from being able to evaluate the executive privilege and immunity claims, Judge Bates's concurrence in these principles is a significant milestone.

I will be sending a letter today to Attorney General Mukasey. I am going to ask when he intends to withdraw the erroneous Office of Legal Council opinion from Stephen Bradby relied upon by the White House to justify its non-compliance with congressional subpoenas since that opinion has been repudiated by a court and the court has said that this administration, the Attorney General, all have to abide by the law. In addition, I intend to ask the Attorney General whether the court decision will cause them to reevaluate the Department's memoranda and opinions that have supported overbroad and unsubstantiated executive privilege claims not only in the investigation of the firing and manipulation of the U.S. attorneys but also in other matters, such as the claims used to block Congress when investigating warrantless wiretapping or the leak of the name of undercover CIA agent Valerie Plame for political retribution, or even White House interference in the Environmental Protection Agency's decisionmaking to protect corporations at the expense of Americans' health.

The court's decision undercuts the White House's blanket claims in all of these matters. The judge wrote that:

'clear precedent and persuasive policy reasons compel the executive cannot be the judge of its own privilege.

That is why we have asked for over a year for the White House to provide us with the specific legal basis for those claims and their validity. What the White House has said is they do not have to obey the law. They can break the law, they are above the law, and when they are asked: What do you base that on? What is it that shows you are above the law and the people who work for you are above the law? their answer is: Because we say so. That is it. They do not point to any statute, they do not point to any case law, they do not point to anything. It is an exercise in arrogance in stonewalling the people of this country who want to know what they are doing. That is not the way to have a nation of laws. You cannot have one person decide the law will apply to you, the law will apply to everybody in this Chamber but will not apply to the President or the people who work for him.

I will continue to ask whether the White House's continued assertion of executive privilege in this matter represents a President's responsibility for the decision to fire well-performing prosecutors. To date, after more than a year and a half, he has not done so. Instead, he seeks to have it both ways. Well, "mistakes were made," they say. But "mistakes were made" by others, of course. Somehow, executive privilege still applies.

The White House's other blanket assertion says there is no wrongdoing in the firings. We have asked: What was the basis for that? They provide none. If the White House has information that led the President and others to discount the evidence of wrongdoing the investigating committees have gathered so far, that should be produced. Otherwise, we have to conclude they do not have any and it does not exist.

To the contrary, the Judiciary Committee's investigation which led to the resignation of the Attorney General, the entire senior leadership of the Justice Department, and high-ranking White House political officials has uncovered grave threats to the independence of law enforcement from political manipulation in the highest political ranks in the White House, including Karl Rove. The evidence shows that senior officials were apparently focused on the political impact of Federal prosecutions and whether Federal prosecutors were doing enough to bring partisan voter fraud and corruption cases. It has long been the case that the reasons given for these firings were contrived as part of a cover up.

The tragic and corrupt politicization of Federal law enforcement by this administration is wrong. Reports released by the Justice Department's Inspector General and Office of Professional Responsibility, the latest just this week, have shown the reach of the political operatives of this administration, infecting the hiring for career prosecutors and immigration judges with inappropriate and illegitimate tests designed to embed "loyal Bushies" throughout the Department. So far, neither the Justice Department
They have this voice track. It goes over and over and over; it is called looping. They say: Do you know what the problem is? We know what the problem is: The Democrats will not let anybody produce energy. Well, it is an interesting discussion but not true. It reminds me of Will Rogers, who said: It is not what he knows that bothers me, it is what he says he knows for sure that just ain't so.

It is not true that people on this side of the Senate Chamber do not want anybody to drill. It is simply not true. I have brought out chart after chart showing so much that is open for drilling. In both the House and Senate, we have let people learn the truth about their government.

Mr. DORGAN. Madam President, those of us who serve in the Senate serve in a political system. John F. Kennedy used to say that every mother intends her children to serve in a political system. John F. Kennedy used to say that every woman with two heads; come in here and see the woman with two heads; come in here and see the world’s fattest man; come in and see the sideshow and see the man born with an alligator’s tail. And my eyes were like dinner plates, thinking, boy this is going to be something. And none of that was in there. I mean, it was just not true.

Well, let me talk a little about big old claims that are not true here in the Senate. We have been hearing them now for 2 weeks. The President pays us the energy problem. It is a significant problem. The price of oil and gasoline doubled in a year, bumping up to $120, $140 a barrel. The price of gasoline—$4, $4.50 a gallon—doubled in a year.

So our colleagues on the minority side come to the floor of the Senate. They have this voice track. It goes over and over and over; it is called looping. They say: Do you know what the problem is? We know what the problem is: The Democrats will not let anybody drill. Well, it is an interesting discussion but not true. It reminds me of Will Rogers, who said: It is not what he knows that bothers me, it is what he says he knows for sure that just ain’t so.

It is not true that people on this side of the Senate Chamber do not want anybody to drill. It is simply not true. I have brought out chart after chart showing so much that is open for drilling. In both the House and Senate, we have let people learn the truth about their government.
Sun and so on, to make us less dependent on the Saudis. I voted against that because I demand and insist that hedge fund managers have a right to run their income through the Cayman Islands and avoid paying U.S. taxes.

Get you want to get a chart, print that up in a chart and take it to the Rotary Club and say: Here is what I stand with. Here is what I stand for. Explain that at home.

How on Earth do you get by with that? I do it along with you. Then you bring a chart to the floor and say “produce more.” Well, let me tell you how you produce more—the renewable energy production tax credit.

Let me tell you what we have done in this country. We said a long time ago, 1916: If you go looking for oil and gas, we like that. We want you to find oil and gas because we have an economy that needs it. So you go drilling, good for you; we give you robust permanent tax incentives. We have done that for nearly a century. Here is what we have found for people who tried to do new technologies that take energy from the wind and the Sun and so on—a production tax credit for renewable energy.

In 1982, we said: We will give you tax incentives for renewable energy, kind of shallow tax incentives. By the way, they are going to be short term, so they will expire. We extended them five times for a short term. We let them expire three times. It stuttered, staggered, stopped. It was an unbelievably pathetic approach.

Some of us believe we ought to go 10 years and say: Here is where America is headed. You want to join us, we are going to be here for 10 years trying to develop America’s renewable energy so we can become less dependent on oil from Saudi Arabia and elsewhere.

That is what we ought to be doing. But my colleagues from the minority come to floor of the Senate and have opposed all along the way. They have opposed it eight times. In fact, the people who oppose this have come to the floor of the Senate and said: We need more electric-drive vehicles. We need to move toward plug-in hybrid vehicles. You bet we do. That means substantial investment in battery technology. That is in the bill, by the way, that you voted against. That means substantial investment in renewables. If you are going to drive electric vehicles, you are going to have to have electricity

They vote against that, vote against all of this, and then come to the floor and say: We need the product of this to do what we want to do to drive electric vehicles. It is unbelievable. I have described this probably 20 times in the Senate. Perhaps some get tired of it, but we are trying to do something here. We have been stopped, which is frustrating. It is the easiest thing in the world to stop progress. The minority has demonstrated that now for 2 weeks. I have described Mark Twain when he was asked if he would engage in a debate once. He said: Sure, I would be happy to engage in a debate, as long as I can take the negative side. They said: No one has told you the subject of the debate. Mark Twain said: The subject doesn’t matter. The negative side will require no preparation.

It doesn’t require any skill or preparation to take the negative side of anything. So for 2 weeks we have tried to pass legislation to wring the speculation out of the oil futures market. Several have described market-oriented solutions that are controlled by speculators who don’t want a thing to do with oil. They wouldn’t lift a quart of oil. They want to trade paper and make money. We are trying to shut down excess speculation. What we have found is our colleagues, when the question is, who do you stand with, they say: We will stand with the oil speculators. We will block that.

Eight times we bring a bill to the floor that says, let’s at least provide incentives to try to change the plan at this point and begin substantially increasing the use of renewable energy. Eight times our colleagues have voted against that.

Let me go through what this would have provided, what we tried to do: a renewable energy production tax credit, solar and fuel cell investment tax credits, clean renewable energy tax credits, 7,500 dollar tax credit for plug-in electric drive vehicles. The list goes on and on, all things we should be doing. Eight times we have lost the vote to proceed because the minority, which says they support all of this, has decided that they support the loophole that allows hedge fund managers to run their incomes through the Cayman Islands and other tax havens in order to avoid paying taxes. We close the loophole to help pay for all of this, and our colleagues have an apoplectic seizure. You can’t do that, they say.

I don’t understand. It is beyond me that they believe it is going to work to come to the floor of the Senate and make this claim and say that somehow the majority party doesn’t support drilling. Of course we do.

Let me describe it from a parochial standpoint. The biggest drilling play in the world today is in eastern Montana and western North Dakota. The U.S. Geological Survey did an assessment at my request. The U.S. Geological Survey and I announced about 3 months ago that that is the largest assessment ever made in the lower 48 States; 3.6 billion barrels to 4.3 billion barrels of oil using today’s technology are going to be recoverable. We have up to 75 drilling rigs active right now, drilling a well about every 30 or 35 days to a new well site. It is the biggest oil play in our country. I fully support that. It makes a lot of sense, I was the one who got the U.S. Geological Survey to do the assessment. I was the one who helped get lease 181 opened up, 8 million acres in the gulf.

It doesn’t wash with me or my colleagues to have people come to the floor with their little charts talking about this side doesn’t support production. Of course we do. But production by drilling a hole searching for black gold called oil is not the only way to produce energy. We are never going to get out of this fix of needing 65 percent of the oil we use from the Saudis and others, unless we change the game completely. That means completely changing our energy future.

We have this big old planet that circles the Sun. We share it with about 6.6 billion people. We stick straws in the Sun and suck oil out, about 85 million barrels a day, and 21 million barrels a day is destined for here because we need one-fourth of all the oil produced on the planet. One-fourth of the oil coming out of this planet every day has to come to this country because we have a prodigious appetite for oil. The fact is we need to continue to use oil, and will. But we need to find ways to change our energy mix in the future. The only conceivable way to do that is to begin substantial research dollars and pass these tax incentives to move toward other kinds of energy use, solar, geothermal, wind, and so on. You can add up all the money we spend on this sort of thing to change our energy future and make this country less dependent and more secure, and it’s equivalent to what the Pentagon spends in 40 days. That makes no sense.

If we are going to invest in this country’s future, we have to pass legislation such as this. We can’t have a situation in which we have people who fashion ourselves as human brake pads coming over here to stop everything just because they want to support hedge fund managers who want to wash their U.S. income through foreign subsidiaries and avoid taxes. That is not a sustainable policy, to continue protecting tax avoidance and stopping investment in renewable energy.

We are not going to get out of this mess, we are not going to buy our way out of it. And we are not going to go ahead unless they have some notion that this country will extend the tax incentives for that energy. On eight separate occasions, the minority has come to the floor of the Senate and said, when asked, will you extend these tax incentives, they have said: No, no, no, eight times. That is not in this country’s interest.

UNANIMOUS CONSENT AGREEMENT—H.R. 917
On behalf of the majority leader, I ask unanimous consent that at 5:30
today, the Senate proceed to the conference report to accompany H.R. 4137, the College Opportunity and Affordability Act, and that there be 130 minutes for debate divided as follows: 50 minutes under the control of Senator MIKULSKI or her designee, 30 minutes each with the Senate's control of Senators ENZI and ALEXANDER or their designees, and 20 minutes under the control of Senator COBURN; that upon the use or yielding back of time, the Senate proceed to a vote on adoption of the conference report, without further intervening action or debate. I note for the Record that this agreement has been cleared on both sides of the aisle.

The PRESIDING OFFICER (Mr. Nelson of Florida). Without objection, it is so ordered.

Mr. DORGAN. I suggest the absence of a quorum.

The PRESIDING OFFICER. Mr. President, I know this is the Republican portion of the time, but until a Republican arrives, I will briefly say for 1 minute that I am very pleased the Consumer Product Safety Improvement Act of 2008 is going to be coming through the Senate. We saw over 28 million toys recalled in 2007. The Consumer Product Safety Commission is a shadow of its former self. This legislation is long overdue. It was a bipartisan effort. Many of us worked on this very hard, including the Presiding Officer. I am pleased we are able to get an agreement on what the Wall Street Journal has called the most significant consumer product legislation in 16 years. It is particularly important to my State where we had a 4-year-old boy die when swallowing a lead charm. It was the 99-percent lead, made in China. It should have never been in his hands.

Ms. KLOBUCHAR. Mr. President, I know this is the Republican portion of the time, but until a Republican arrives, I will briefly say for 1 minute that I am very pleased the Consumer Product Safety Improvement Act of 2008 is going to be coming through the Senate. We saw over 28 million toys recalled in 2007. The Consumer Product Safety Commission is a shadow of its former self. This legislation is long overdue. It was a bipartisan effort. Many of us worked on this very hard, including the Presiding Officer. I am pleased we are able to get an agreement on what the Wall Street Journal has called the most significant consumer product legislation in 16 years. from the regular order. Our Committee, however, has a proud tradition of successfully conducting that part of the appropriations process that is under our direct control, i.e. the markup of the Senate Interior, Environment, and Related Agencies Appropriations Act. This year, however, the Appropriations Committee is hard to imagine there will be enough time to act on that measure in consideration of the second supplemental bill in September, but it is likely that the Appropriations Committee will consider a second supplemental bill. Both the Appropriations Committee and the Senate will need to consider the remaining fiscal year 2009 bills. The Appropriations Committee, however, has an important role to play.

The Fiscal Year 2009 Interior, Environment, and Related Agencies Appropriations Act contained provisions that prohibit the production of oil and gas from large portions of the federal onshore, and would allow the issuance of regulations that are necessary for the responsible development of America’s vast oil shale resources in the Rocky Mountain west. It is likely that the chairman’s mark of the Fiscal Year 2009 Interior bill would have contained one or both of these provisions. As such, it would have been highly unlikely that the Appropriations Committee would meet to consider the merits of continuing these provisions in Fiscal Year 2009, and to consider whether the provisions should be modified or repealed in Fiscal Year 2008. Members of the Committee might well have other energy-related amendments that they wish to consider.

I wish to reiterate that Chairman Byrd has done an admirable job of trying to uphold the committee’s responsibilities and responsibilities in the face of these circumstances. We both share the view that our committee has an important and fundamental responsibility to write and put forth bills that support the basic operations of our Nation’s Government. As a Congress, however, we are getting into some very bad habits as it pertains to consideration of these bills.

We are completely abandoning efforts to move the regular appropriations bills across the House and Senate floors, something which has nothing to do with filibusters. Nobody filibustered the fiscal year 2008 bills that were brought to the Senate floor. When we do manage to pass appropriations measures, the differences are resolved not by an open meeting of a conference committee but, usually, in closed-door negotiations, followed by an exchange of messages between the House and Senate. Now, apparently, we are starting to accept the markup is based on an unwillingness to take votes on difficult issues. They may be entirely germane.

So I regret these trends for the sake of our committee that is struggling to maintain its tradition of bipartisan cooperation and action. I regret it for the sake of millions of Americans who will simply not know why the Senate cannot manage to take votes and process its legislation and its appropriations bills in a straightforward and open manner. I regret it for the sake of those of us who want to do things slide now into an unusual procedure that does not reflect credit on the Senate.

The PRESIDING OFFICER. The Senator from Utah.

ENERGY

Mr. BENNETT. Mr. President, we are about to adjourn for the August recess without having passed a single piece of legislation addressing the energy crisis or the most important issue, which is the rise in our own rising gasoline prices.

I attended the Fourth of July parade in my home State. In Utah, there is also a 24th of July parade celebrating the anniversary of the time when the first Pioneer settlers came into the valley. In both parades, I had things shouted at me. Fortunately, that experience. Usually, we hope the things that are shouted at us are complimentary. In this case, the things I had shouted at me in the parades were: ‘‘Why aren’t you drilling? Why aren’t you producing more American oil? Drill now.’’ I said: We are discussing it. We are trying to do that. We are trying to get something done.

If there were a parade scheduled now, I would have to go back and say: The Senate would not let us vote on any of the proposals to increase the supply of American oil. There are proposals combining in the form of letters from Senators to the President of the United States saying: Will you please go to Saudi Arabia and beg them to produce some more oil? There are suggestions that somehow we should sue Saudi Arabia or members of OPEC to get them to produce more oil. But we are not even allowed the opportunity to vote on proposals to produce more oil in the United States.

A lot of my constituents are not aware that at one point, not too distant in the past, America produced more oil than any other country in the world and controlled the pricing power over oil. We could affect the world price by opening up oil in the eastern United States by producing more here. But in the 1970s, that pricing power left our shores and was transferred from the Texas Railroad Commission to the Saudi royal family. Now we are in the posture of begging the Saudi royal family to produce more oil when we have the capacity to bring that pricing power back to the United States by producing more here.

I wish to talk specifically about oil shale because I understand there has been an exchange on the floor about oil shale earlier, with the junior Senator from Colorado saying we are not ready, the technology is not finished, and, therefore, we should maintain the congressionally ordered moratorium on the Department of the Interior from permitting the leasing of oil shale leases which leases could be granted on public land.

Now, let’s look at that argument for a minute.

The Department of the Interior has released draft rules. We know what they want to do. They have been preparing these rules for months. They are not doing it today. They cannot turn those draft rules into firm rules as long as the Democrat moratorium is in place. So
when we wanted to lift that moratorium—we tried to in the Appropriations Committee—we were denied on a straight party-line vote. The Republican leader tried to lift that moratorium here. We were denied in a unanimous consent request.

So let’s ask ourselves: What are those rules? The best analogy to help people understand what those rules are is to talk about a fishing license. If you want to catch fish, you have to get a fishing license. You go in and you pay for it for a specified period of time. Now, there is no guarantee the fish will respond to your efforts to catch them. There is only an opportunity to go forward with it.

Mr. President, I ask unanimous consent that I be allowed 2 additional minutes.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered. Mr. Bennet is understood to be talking about, with respect to the rules of the Department of the Interior, is let’s give companies a fishing license. If the technology is not ready, the companies will know that. They will find that out very rapidly. If the technology doesn’t work, the marketplace will prove that it doesn’t work, and companies won’t invest in it.

This is not a government subsidy for oil shale. This is not even a government support of oil shale. This is simply a mining license to say: Go see if you can find some fish or, in this case, go see if you can find some oil. If you can, and you can produce it at an economically acceptable price and in an environmentally friendly manner, then go ahead.

But in this body we are saying: No, we won’t even let you look for it. We won’t even let you move forward to try to find out if it will work.

The Senator from Colorado said: We are not ready. I would say to him: We are in Utah. We have a program going forward in Utah on State land that shows every indication of producing oil by the end of this year. The reason they can’t produce large amounts of oil is that we don’t have enough State land to produce on a larger scale. If you are going to produce large quantities, you have to allow development on public lands, but there is a moratorium in place that says: We won’t even let you look for it.

The easiest thing we could have done this week in Congress would have been to lift the moratorium. The least we could have done would have been to let the Department of the Interior implement the rules and give companies an opportunity to look at the Federal lands to see if they want to get a fishing license to catch some fish or, in this case, oil. That is all we are asking for, but it has been objected to repeatedly and repeatedly.

If I may say in a parade again, I am going to have a hard time explaining to anybody why the Senate won’t allow us to do that.

HIGHER EDUCATION OPPORTUNITY ACT—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to the conference report on H.R. 4137, which the clerk will report.

The legislative clerk read as follows:

The committee of conference on the disapproving vote in the House of the amendment of the Senate to the bill (H.R. 4137), to amend and extend the Higher Education Act of 1965, and for other purposes, having met, have agreed that the House rescinds from its disagreement to the amendment of the Senate and agree to the same with an amendment, and the Senate agree to the same, signed by all the conforess on the part of both Houses.

The PRESIDING OFFICER. The Senate will proceed to the consideration of the conference report.

(The conference report is printed in the proceedings of the House in the Record of July 30, 2008.)

The PRESIDING OFFICER. Under the previous order, there will be 130 minutes of debate: 50 minutes under the control of the Senator from Maryland, 30 minutes each under the control of Senator Enzi of Wyoming and Senator Alexander of Virginia, and 20 minutes under the control of Senator Coburn of Oklahoma.

The Senator from Maryland is recognized.

Ms. MIKULSKI. Thank you very much, Mr. President.

It is a great honor for me to be able to bring to the floor of the Senate the higher education conference report for the Health, Education, and Labor Committee. I bring this bill to the Senate on behalf of Senator Kennedy.

What I wish colleagues to know is that this bill is truly a bipartisan agreement. It was led by Senator Kennedy and Senator Enzi, the ranking member, our colleague from Wyoming, who worked tirelessly. This bill has been a work in progress for more than 5 years.

Early this summer, as Senator Kennedy advanced this bill, we are all aware that he received some pretty surprising news. As he went into his own treatment regime, he called me and asked me to take over the conference report. I viewed it as an honor, I viewed it as a privilege, and I view it as an honor and privilege today.

Before I go into describing the bill and press remarks, I wish to thank Senator Enzi for his work with Senator Kennedy and his collegial and civil attitude in working with me to move this bill.

As I get ready to present this to the Senate, however, I have a letter from Senator Kennedy. I have been in touch with Senator Kennedy on a regular basis, receiving his advice, his guidance, his caution, and his jocular wit. I know he is watching us as we begin this debate today. This is a short statement he asked me to read to his colleagues:

I’m pleased to express my strong support for final passage of the Higher Education Opportunity Act of 2008. This legislation builds on key measures we’ve approved this Congress to increase college aid and make loans more available for students. This bill goes even further to assure that college education is affordable and accessible to our citizens.

This legislation comes at a time when students and their families need help then ever to deal with the rising cost of college. Average costs at public colleges are more than $13,000 today, and $32,000 at private colleges. Every $780,000 spent in public schools doesn’t attend a four-year college because they can’t afford it.

Our bill takes important steps to expand college access and affordability. It holds colleges accountable for rising costs requiring the top five percent of colleges with the greatest cost increases to submit detailed reports to the Secretary of Education on why their costs have risen, and what they will do to hold costs down. It simplifies the complex student aid application process by replacing the seven-page Free Application for Federal Student Aid with a two-page “EZ-PFSA.” It also expands aid for our neediest students by enabling them to receive Pell Grants year-round for the first time.

The legislation also responds to the ethical scandals in the student loan industry, which the Committee documented in investigations last year. It bans large gifts to college officials, and requires college to adopt strict codes of conduct on student lending.

I am particularly proud of provisions that help students with disabilities and veterans. It enables students with intellectual disabilities who attend postsecondary transition programs to receive Pell Grants for the first time, and provides support for colleges to expand these programs.

The bill helps service members by enabling them to defer payments on their student loans—interest-free—while they’re on active duty. It also allows service members and their families to receive in-state tuition rates for college when they move to a new state, and enables them to re-enroll in college without delay when their service is complete.

This bill creates a lasting legacy for students and families, and it wouldn’t have been possible without the bipartisan cooperation of members of the Senate and the House Committee on Education and Labor. I commend our Ranking Member, Senator Enzi, and Chairman Miller and Ranking Member McCaul for their strong support. I’m especially grateful to my friend, Senator Mikuleck, for her impressive work in resolving some of the most difficult issues in this bill.

We can be proud that with passage of the Higher Education Opportunity Act, we’re meeting our responsibility to help all our citizens obtain a higher education. By improving their lives, we also strengthen our nation and our future. I urge all my colleagues to support this needed legislation.

I ask unanimous consent that a longer statement by Senator Kennedy be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

SENATOR EDWARD M. KENNEDY, HIGHER EDUCATION OPPORTUNITY ACT

From our earliest days as a nation, education has been the mainstay of our democracy and the engine of the American dream. Our Founders knew that an educated citizenry would strengthen us to build the values and character that make us Americans. They believed in the power of
education and its ability to create an even greater America over the horizon.

In our own day and generation, we’ve seen an excellent example of the fulfillment of the promise of higher education. The Higher Education Opportunity Act passed the GI Bill of Rights in 1944, which enabled service members returning from World War II to receive a college education. Today, we are attempting to do our part. Congress passed the College Cost Reduction and Access Act last fall, we renewed our commitment to the idea that no qualified student should be denied the opportunity to go to college because of the cost. It included the largest increase in student aid since the GI Bill—more than $20 billion. We also increased the maximum Pell Grant—the lifeblood of low-income students—from $4310 to $5400 over the next five years.

In addition, the Act provided new relief for students struggling under the weight of their student loans. Many seniors were required to be capped at 15 percent of monthly discretionary income. We also included new incentives for students to enter key professions such as health care and teaching. We also promoted workforce training, by providing loan forgiveness to those who commit to public service jobs for 10 years.

This spring, we passed a second bill to underscore our commitment. When the crisis in the credit markets appeared to be threatening the ability of students and families to obtain loans, Congress took prompt action. We approved emergency legislation—the Ensuring Continued Access to Student Loans Act—to make sure that loan funds will be available this fall.

That bill increased the amount of federally-subsidized loans for college students, in order to reduce their reliance on higher cost private loans. We gave parents greater access to low-cost federal PLUS loans, to provide an alternative to private loans and home equity. We also gave faculty members and the Secretary of Education new tools to ensure that lenders have the funds they need to make loans to students.

That is why we passed today—the Higher Education Opportunity Act of 2008—takes even more steps to ensure that a college education is affordable and accessible to our citizens.

A college education has never been more important than it is now. Today, 60 percent of new jobs require some post-secondary education, compared to just 15 percent back a century ago. Yet the United States ranks only 14th in the college graduation rates of all industrialized nations. At the same time, college costs have never been more difficult to afford. The cost of college has more than tripled over the last twenty years. Today, average tuition, fees and room and board costs for a four-year college is more than $33,000, and it’s more than $32,000 at private colleges.

Each year an estimated 780,000 talented, qualified students don’t attend a four-year college because they can’t afford it.

In last year’s student aid bill, we made a commitment to American students and families to invest billions more in student aid—especially for those who need help the most.

Now, with the Higher Education Opportunity Act, Congress chose to do their part and keep costs under control. Our bill requires the Department of Education, for the first time, to make detailed information about college costs available to students and families on its website. It also requires the Department to highlight, on national lists, those colleges that are doing a good job of keeping their costs down, and those that are not.

By providing greater transparency and enabling students to see if it’s a good deal for them.

Act, we’re asking colleges to do their part to especially for those who need help the most.

This fall, colleges can expect an increase in student demand for financial aid. Our bill also increases the maximum Pell Grant—the lifeblood of low-income students—from $4310 to $5400 over the next five years. The Higher Education Opportunity Act also enhances grant aid for the neediest students, adding to the dramatic increase in underprivileged students with last year’s student bill. For the first time, we allow students eligible for Pell Grants to receive those grants year-round, so they can accelerate their courses of study.

But ensuring access to adequate grants and loans is only one component of solving the college access crisis. We must also ensure that more students are graduating from high school ready for college. In 2001, colleges required one-third of all freshmen to take remedial courses in reading or math. Because so many high school students are not learning the basic skills to succeed in college or work, the nation loses more than $33 billion a year. That’s why our new bill offers service members returning in "bundles" with workbooks and other materials that their professors don’t use.

Our bill will reverse this trend by requiring textbook publishers to "bundle" textbooks with support materials. The student will only buy what they need. We also expanded the "EZFAFSA" for low-income students. With this legislation, we’re reducing the length of the FAFSA from 7 pages to 2 pages.

Higher Education Opportunity Act also takes overdue action to rein in the high cost of college textbooks. According to the U.S. Public Interest Research Group, the average college student spends about $900 a year on textbooks. Since 1991, textbook prices have risen at four times the rate of inflation, and they continue to increase. Often, students are forced to waste money buying textbooks because they can only be purchased in "bundles" with workbooks and other materials that their professors don’t use.

CONGRESSIONAL RECORD—SENATE

S7847

Our bill also takes other much-needed steps to ensure that all citizens are able to enjoy the benefits of higher education. As we know, discrimination has long limited the opportunities for many students and make higher education. As a result, these groups are still under-represented today among graduates of institutions of higher learning, and among professors, attorneys, and other professionals.

Decades of reports and studies document the under-representation of minorities in higher education. In 2006, a report, Faculty Gender Equity Indicators by the American Association of University Professors, was starkly under-represented among university faculty—they make up just 39 percent of full-time faculty at institutions of higher education. And, it is the responsibility of such institutions to take steps to ensure that all citizens obtain a higher education, as a result, these groups are still under-represented today among graduates of institutions of higher learning, and among professors, attorneys, and other professionals.

This bill is the product of many months of hard work, and it couldn’t have been possible without the cooperation and passage of every member of the HELP Committee and the House Committee on Education and Labor. I commend our Ranking Member, Senator Jackie Speier, for being a leader on this bill, and forward, and Chairman Miller and Rank- ing Member McKeon in the House for their enormous contributions to this legislation.

I’m especially grateful to my friend, Sen- ator Mikulski, for going above and beyond the call of duty to help resolve some of the most difficult issues in this bill over the past several months.

I also commend Senator Dodd and Senator Shelby for the assistance the Banking Com- mittee have provided on the private loan pro- visions in the bill, and all the Members of both committees for their individual con- tributions.

We owe an immense debt of gratitude as well to the many staff members on both sides of the aisle who have dedicated hun- dreds of hours of their time to working on this legislation. I’m grateful for the efforts of Dvora Lovinger and Robin Juliano on Senator Mikulski’s staff, and Ilyse Shuman, Greg Dean, Adam Brink, Kristin Romero, Amy Friend, and Robin Juliano on Senator Enzi’s staff.

From Chairman Miller’s office, I’m grate- ful for the efforts of Peter Beckerman, Alex Nock, Gabriela Gomez, Julie Radocchia, and Jeff Appel. From Ranking Member McKeon’s office, I thank Sally Stroup and Amy Jones. I also thank Mark Koster, Kristin Romero, Amy Friend, and Robin Juliano on Senator Enzi’s staff.

I also thank Shawn Maher, Amy Friend, and Jenny Hastings on Senator Enzi’s staff.

As I mentioned, the Banking Committee provided special help during this process and I thank Shawn Maher, Amy Friend, and Ilyse Shuman in the Budget Office for helping us prepare this bill. I thank Mark Koster, Kristin Romero, Amy Gaynor, and Laura Ayoud from the Senate Legislative Counsel’s office, Steve Cope and Molly Lothamer from the House Legislative Counsel’s office, Deb Kelcevic and Justin Humphrey of the Congressional Budget Office, and Robert Brown from the Budget Committee.

As President Kennedy said in 1961, “Our progress as a nation can be no swifter than our progress in education. Our requirements for world leadership, our hopes for economic growth, and the demands of citizenship itself in an era such as this all require the max- imum effort of our most brilliant minds—America’s capacity. The human mind is our funda- mental resource.”

President Kennedy was speaking then about the aspirations that gave life to the original Higher Education Act of 1965. His words rang true then, and they still ring true today. We can all be proud that with passage of the Higher Education Opportunity Act, we’re recognizing our responsibility to help all our citizens obtain a higher education, and only to improve their own lives, but also to strengthen our nation and our future. I commend all my colleagues and their staff members on both sides of the aisle for being a leader on this bill and making passage of this vital legislation possible.

Ms. MIKLUSKI. Mr. President, I wish to add to this. I won’t repeat what Senator KENNEDY reminds us are the good things in this bill.

In addition to our empowerment op- portunity, which was expanding Pell grants from $4,800 to $6,000, we are also making sure that Pell grants are available all year long, not just during the aca- demic year. As a result, young people who want to get rid of the cronymism in private lending where there were kickbacks going on between lenders and those at colleges who were offering it.

In addition to that, one of the things I am very proud of is how we met two major shortages in our country. Right now, there are the issues related to the nursing shortage. This bill recognizes the fact that though there is a nursing shortage, there are now several thou- sands of positions that are getting rid of.

nursing programs. They were smart enough. They were good enough. There was even financial aid to help them, but there just wasn’t room. But we are making room for them.

Another issue that we were able to deal with was promoting innovative and effective teacher preparation pro- grams. Our Nation faces a shortage of high-quality K-12 teachers, and new app-licants who want to go to nursing school but can’t get in because the nursing schools either have no room, no labs, or no faculty.

Working together, we have been able to pass in this bill a very significant empowerment opportunity that will expand faculty and laboratory capacity so that we can crack the nursing short- age code by making sure all who want to go have the opportunity to go. By the time this is over there will be 100,000 appli- cants who could not get into nursing programs. They were smart enough. They were good enough. There was even financial aid to help them, but there just wasn’t room. But we are making room for them.

Another issue that we were able to deal with was promoting innovative and effective teacher preparation pro- grams. Our Nation faces a shortage of high-quality K-12 teachers, and new app-
neither Dr. Ride nor I could teach in a Baltimore high school. Dr. Ride has a Ph.D. in astrophysics, two under-graduate degrees—one in physics and one in Shakespeare. I have a master’s degree in sociology. I think I am qualified to give a different opinion. People couldn’t do it. That is OK. We should be qualified, but it would be darn hard to get into an alternative certification program.

I think there is a lot of talent coming out of the system. People who are looking for second careers—an experienced core. We need to give them an opportunity to come into our college classrooms, bringing knowledge, expertise, and the kind of mentoring that goes on. This is what is in this bill. It is not a laundry list of programs. It is about helping those young people who want to get into school, making sure we deal with some of the critical shortages facing our country, and at the same time having empowerment, where we have some areas of expertise, because of his accounting background, in the fiscal reforms, we did and a real passion for the community college.

Mr. ENZI. Mr. President, I rise to express my support for the conference agreement of the Higher Education Opportunity Act, which would reauthorize the Higher Education Act. This conference agreement represents a major victory for America’s students and families. I can’t say enough about the tremendous role that Senator Mikulski has played in getting this wrapped up. I often say, on bills it takes 90 percent of the time to get the 90 percent done, and the other 10 percent also takes 90 percent. I think she did a significant job of cutting that other 90 percent to get the 10 percent done.

My only regret is that Senator Kennedy isn’t here to share in this great moment. He has been working on this with me for 3 years. We actually worked a little bit on it before that. Without his able help on this bill and the superb help of his staff, who have continued to work on it, we wouldn’t be in this position today. I will be eternally grateful, though, that he asked Senator Mikulski to step in and help out. She has been tireless and has done a phenomenal job. Without her leadership, we also wouldn’t be here at this moment.

This is an important step, and it will have an impact on the lives of students of all ages for years to come. It is much like the launch just over 50 years ago of the Sputnik satellite that sparked a great debate about our place in the space race. The success of Sputnik sent shock waves through the Nation. Russia was getting the better of us technologically, and we couldn’t allow that to happen. It sparked a change in our education policies, and it sparked America to do what it does best, which is to rise to the challenge with innovation and a marked determination to be second to none. No longer could we rest on our past triumphs as a nation. We met the challenge of Sputnik through the National Defense Education Act.

Today, we are again being challenged but in a different way.

Now, instead of a race for space, it is a race for knowledge and skills that are necessary to our country’s economic future. We need to ensure that no one is left behind, that we are not, in the words of the TIME magazine cover, in danger of losing our competitive edge. This conference agreement provides Pell grants for year-round education. You can think of it as 9 months and 3 months off, but people who are in this position need to be able to go continuously until they get the certification or degree they are working for. Again, this agreement provides Pell grants for year-round education, so students can complete their programs more quickly.

One issue I have concerns with is the maintenance of effort provision. I am worried that it may serve as a disincentive for students to return to college for additional education and training. This agreement provides Pell grants for year-round education. You can think of it as 9 months and 3 months off, but people who are in this position need to be able to go continuously until they get the certification or degree they are working for. Again, this agreement provides Pell grants for year-round education, so students can complete their programs more quickly.

One issue I have concerns with is the maintenance of effort provision. I am worried that it may serve as a disincentive for students to return to college for additional education and training. This agreement provides Pell grants for year-round education. You can think of it as 9 months and 3 months off, but people who are in this position need to be able to go continuously until they get the certification or degree they are working for. Again, this agreement provides Pell grants for year-round education, so students can complete their programs more quickly.

This conference report is not a perfect bill, but it is a good bill and an important accomplishment because we followed the 80/20 rule and concentrated on the 80 percent of the issues we could agree on, not the 20 percent we disagreed on. We also followed the regular order to craft this bill. It went through committee and was considered on the floor. When we met with the House to draft a conference report, this process takes time, but the result is an important accomplishment for America’s students and their families. What we are doing today will make a great difference in the lives of our children and our grandchildren for many years to come.

I thank all of the members of both the Senate and the House committees, and in particular Senator Kennedy for working toward this goal for years and keeping his commitment that we would get this done. Senator Kennedy has long been a champion for education in our country. He shares my determination that the educational opportunities of students of all ages will be second to none. That is a difficult challenge. When he and I started on this challenge to reauthorize the Higher Education Act 3½ years ago, we knew there would be bumps along the way. I believe we hit every single one of those bumps, but he provided the kind of leadership in committee, in the Senate, and in the Congress that made it possible for us to reach this agreement today.

I also thank Senator Mikulski for the key role she played in assuring that we reached agreement on the bill.
In addition, I acknowledge the tremendous work of Chairperson MCKEON of the House Education and Labor Committee. There were a tremendous number of meetings between us to work in a very positive way toward getting to this point.

As well, I thank Congressmen HINOJOSA and KELLER of the subcommittee. They helped to shepherd this bill through the House so we could take it up on the Senate floor.

There are many congressional staff who worked on this conference report. The breadth and importance of the issues, not to mention the length of the legislation, requires many people working on it to get it done.

I have always said that I have a staff worthy of gold medals and my staff who worked on this bill have shown their gold medal status once again. I must first acknowledge and thank Beth Buehler—our legislation policy director. It is no exaggeration to state that without Beth there would be no Higher Education Act reauthorization bill today. She truly was the force to start the reauthorization 3 ½ years ago. She worked tirelessly to ensure that we drafted a bill that reflected the changing nature of our student bodies as well as to ensure that we, as a Nation, will maintain our status as having the best education system in the world.

Her team of Ann Clough, Adam Briddel, Kelly Hastings, and Lindsay Hunsinger is comprised of remarkable individuals who brought their talents and knowledge to the forefront in this bill. I would also like to thank my staff director, Ilyse Schuman, and Greg Dean, Amy Shank, Randi Reid, John Hallmark, and Ron Hindle who also put in many hours and added invaluable input into the bill as well as the overall process.

I would also like to thank members of Senator KENNEDY’s staff for their hard work—Michael Myers, Carmel Martin, JD LaRock, Missy Rohrbach, Erin Renner, Roberto Rodriguez, and Emma Vadehra.

Additionally, I would like to thank all of the other HELP Committee staff for their hard work throughout this process, especially David Cleary and Sarah Rittling of Senator ALEXANDER’s subcommittee staff. Also deserving thanks are our Republican members’ staff—Sen. Dembrow, Sims, Glee Smith, Karen McCarthy, Julianna Andreen, Alison Anway, John van Meter, and Elizabeth Floyd, as well as their Democratic staff counterparts. Also, I would like to thank Scott Raab from Senator McCONNELL’s office for helping us work through some of the more difficult issues in the negotiations.

Also deserving my gratitude is the House staff including Mark Zuckerman, Alex Nuck, Gabriella Gomez, Julie Radocchia, and Jeff Apley with Chairperson MILLER’s staff and Sally Stroup, James Bergeron, and Amy Jones with Mr. McKEON’s staff.

Also, with any piece of legislation that we draft, we shall not forget the legislative counsel in both bodies who worked tirelessly to put this 1,000 plus page agreement together—Steve Cope, Molly Lothamer, Mark Koster, Kristin Romero, and Amy Gaynor—who all deserve to be thanked.

I look forward to getting the conference report to President Bush for his signature soon so that students and their families who are making plans to attend college this fall will have the benefits of this bill to help them.

I yield the floor and reserve the remainder of our time.

The PRESIDING OFFICER. Who yields time?

Ms. MIKULSKI. Mr. President, I yield time to the distinguished Senator from New Mexico, a member of the HELP Committee, who played a significant role in crafting this bill as it moved through our committee.

Mr. ALEXANDER. Mr. President, I wonder if I might ask, through the Chair, the Senator from Maryland if I might speak after the Senator from New Mexico?

Ms. MIKULSKI. If I may say to the Senator two things. One, I believe the agreement is that we have from—

The PRESIDING OFFICER. Under the order of agreement from Senator BINGAMAN and Senator REED. If Senator REED is not here, we can then see how we can accommodate the Senator from Tennessee. The Senator from Tennessee has 50 minutes. The Senator from Maryland has 50 minutes and the Senator from Wyoming has 30 minutes. The Senator from Tennessee has 30 minutes.

Mr. ALEXANDER. I thank the Chair. Ms. MIKULSKI. Mr. President, in order of agreement that after Senator Enzi spoke, we would take 10 minutes for Senator BINGAMAN and Senator REED. If Senator REED is not here, we can then see how we can accommodate the Senator from Tennessee. The Senator from Tennessee was to go after the Senator from Rhode Island.

Mr. ALEXANDER. Thank you. I can wait until there is available time.

The PRESIDING OFFICER. The Senator from North Carolina is recognized.

GREGORY SIMON

Mr. BINGAMAN. Mr. President, I rise today to speak about the devastating loss that Bob Simon and the Simon family suffered today with the loss of their beloved son and brother Gregory. Bob has been the staff director of the Energy and Natural Resources Committee for nearly 10 years, and worked with me in other capacities for a number of years before that. During that time, and for the harrowing times both personally and professionally. He has always handled these times with grace, strength, and his own personal brand of dry humor.

Bob, his wife Karen, and their three other children—Stephen, Cathryn, and Annamarie—have been through countless hours at Gregory’s bedside since Gregory fell ill on July 10, exactly 3 weeks ago, and throughout that time, they have shown extraordinary courage. Their devotion to Gregory reflects their devotion to one another as a family.

Greg was a really inquisitive, artistic, creative individual. He always drew cartoons and comics. He didn’t like math. He looked exactly like Bob except with blond hair. He had Bob’s temperament—he was such a positive young man.

Gregory was always small for his age, but he refused to let his stature get in the way of anything he wanted to do. He was a fighter, and he fought valiantly for the last 3 weeks. In the end, though, the odds were too great to overcome, and Gregory died at the age of 16.

Mr. President, there are no words that can properly capture the pain the Simons must feel now, and no words we can say that can truly provide comfort. The best we can do is be sure that those who are bereaved know that they have our love and our prayers, and so we send both in great measure to the Simon family.

Mr. President, I would like to speak briefly on the legislation that is before the Senate.

I urge my colleagues to adopt the conference report on this Higher Education Opportunity Act. The title to that legislation indicates that the bill is about providing greater opportunities for families to send their children to college and greater opportunities for students to succeed in and graduate from college.

I particularly thank Chairperson KENNEDY and Senator EnzI for their untiring commitment and dedication to the college students of this country. Of course, I thank Senator MIKULSKI as well for her leadership in getting this legislation to the Senate floor for a vote this evening.

Only 1 year after passing the largest student aid package in more than 50 years, this body is poised to pass legislation that will take the next step to make college more affordable and accessible to students and their families.

There are many important provisions in the bill, but I will highlight just one provision in particular. Native American enrollment in post-secondary education more than doubled between 1976 and 2002, with almost 166,000 Native American students enrolled in higher education. Student enrollment in tribally controlled colleges and universities has increased in recent years to almost 16,000 students in 2002.

It is important to note the critical role tribally controlled colleges play in educating Native American students and ensuring that these schools offer Native American students. We need to continue to do all we can to strengthen and support those schools. But that means that approximately 150,000 Native American students are enrolled in higher education in non-tribally controlled colleges.

We know, unfortunately, that Native American students are still much less likely to enroll in college than their peers. Only 18 percent of Native American students have enrolled in college, as compared to 42 percent of other students. We also know, however, that Native American students are less likely...
to persist once in college. And 77 percent of Native Americans did not have a postsecondary certificate or degree, as compared with 37 percent of others.

The Higher Education Opportunity Act, the bill before us today, addresses the most pressing need facing the majority of Native American students are being educated in non-tribally controlled colleges and universities and that we need to do a better job to support these students within these schools. This provision authorizes the Native American-Serving Non-Tribal Institutions Program to enable such colleges to improve and expand their capacity to serve these Native American and low-income individuals.

Right now, there are 42 colleges and universities that serve large Native American student populations. In my State, we have three such schools that serve large Native American student populations. In fact, the student population, the University of New Mexico at Gallup, NM, is close to 80 percent Native American.

Native American students in New Mexico would not be the only students to benefit from that legislation. Many colleges and universities around the country would also qualify in other States, including schools in Alaska, Wyoming, Colorado, North Carolina, and Utah. Out of the 42 schools that could be eligible to benefit from the provisions in this legislation, 24 of the schools are located in the State of Oklahoma.

I am very pleased this provision has garnered strong bipartisan support. It is a part of this very important legislation. I am also pleased that the bill includes funding for a long overdue graduate program for Hispanic-serving institutions.

I thank the chairman and Senator Enzi for their strong support of these provisions. I urge my colleagues to support the conference report.

I yield the floor.

The PRESIDING OFFICER (Mr. Whitehouse). The Senator from Maryland.

Ms. MIKULSKI. Mr. President, following our agreement and time allocation, I yield 5 minutes to the Senator from Rhode Island—the other Senator from Rhode Island, the senior Senator, Senator REED, also a member of the HELP Committee. He is a very persistent person in engaging in the content of this bill.

The PRESIDING OFFICER. The senator from Rhode Island is recognized.

Mr. REED. Mr. President, I thank Senator MIKULSKI for not only the time to speak about this important measure but for her leadership. I particularly wish to recognize the extraordinary contribution of Senator KENNEDY who has been the architect of this legislation and many previous reauthorizations. And I wish to give particular thanks to the chairman Enzi whose thoughtful, determined approach made a contribution to this legislation. I thank him for his hard work.

I rise in strong support of the Higher Education Opportunity Act of 2008. It will be an important way in which we fulfill our obligation to the American people, and keep opportunity and hope alive throughout this country. Education is the ladder that pulls people forward. It allows individuals and families to move up the economic ladder, and not only for their own progress, but also for the benefit of the communities in which they live.

This is one of the most important pieces of legislation we ever considered on this floor. I am proud it has been so well handled and so meaningful that today we are debating legislation which I believe will get overwhelming support. I am particularly pleased it is being reauthorized at this time. We have seen an economy in turmoil. One of the realizations that is taking place is that the housing sector of our economy is not rebounding. That equity has been diminished, if it has not disappeared altogether.

Today we are responding to that urgent need by providing more assistance to families to send their children to higher education. I am particularly pleased the aspects of the legislation I helped author are included in this final version. I introduced legislation called the FAFSA Act, which is the acronym for the federal financial aid form, to streamline the financial aid application process. There will now be a short EZ-FAFSA form for low-income students and families while also allowing students to apply earlier so they have an idea of what their financial options are as they consider colleges. These provisions will make the sometimes daunting task of getting financial aid, I hope, a little easier and a little more efficient.

I am also pleased that aspects of my legislation called the ACCESS Act have been included. This legislation deals primarily with the LEAP program. The LEAP program is a partnership between States and the Federal Government to provide grants to students who need the help—not loans, but grants. The States put in some resources; we match those resources. It is a way in which we can fulfill our commitment and our promise to many low-income families. This legislation builds on the LEAP program by providing critical additional financial resources, particularly resources and that will be useful for helping middle- and low-income families attend college.

We are addressing another aspect of our educational system, and that is teacher quality. This legislation incorporates some other provisions which I advanced that will help prepare teachers for the reality of today's classroom. I am very pleased they are included also.

We also included in this legislation a Perkins student loan forgiveness for librarians and for members of the Armed Services. The Perkins program provides need-based loan assistance for students attending college. We are going to forgive the debt on that loan assistance for librarians and members of our armed services.

This is a wonderful act. I am pleased and proud to support it and be a part of it. I once again thank Chairman KENNEDY, Senator ENZI, and Senator MIKULSKI for their great work.

I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, do I understand I have up to 30 minutes?

The PRESIDING OFFICER. The Senator is correct.

Mr. ALEXANDER. I thank the Chair. I ask unanimous consent that I may bring demonstrative evidence on the floor and use it during my remarks.

The PRESIDING OFFICER. Without objection.

Mr. ALEXANDER. Mr. President, in case anyone is wondering, these boxes, which are nearly as tall as I am, are the rules and regulations that our 6,000 colleges and universities must comply with in order to have a Federal grant or loan. As I will make clear in my remarks, my primary objection to the legislation I am about to address is that the legislation doubles the size of this stack of boxes. My primary concern is undermining the quality of American higher education. The greatest threat, I believe, to American higher education is not underfunding, it is overregulation.

Before I say that, let me first say a word, as has been said before, about Senator KENNEDY, Senator ENZI, and Senator MIKULSKI. While they have, among themselves, different philosophical views, I regard each of them as institutions whom I greatly admire. In other words, they like to work with this body across the aisle to get a result. I thank both Senator Enzi and Senator MIKULSKI for the courtesy accorded me in the development of this result. And as every other Member of this body does, I greatly admire Senator KENNEDY for his tenure and his commitment to education. Obviously, we wish he were here tonight to join us.

Because I admire Senator KENNEDY and Senator MIKULSKI and Senator ENZI does not mean I admire the particular result of this work. After 4 years, the Senate has spewed forth a well-intentioned contraption of unnecessary rules and regulations that waste time and money that ought to be spent on students and improving quality. It confirms my belief that the greatest threat to the quality of American higher education is not underfunding, it is overregulation.

Current Federal rules for the 6,000 higher education institutions that accept students with Federal grants or loans fill a stack of boxes that is nearly as tall as I am. The former President of Stanford, Gerhard Casper, estimated
that it cost these institutions from Harvard to the Nashville Auto Diesel College 7 cents of each federal dollar to do all the busy work to fill out these regulations.

The legislation which we are considering today doubles those rules and regulations with 24 new categories and 100 new reporting requirements. These new requirements include a total of 54 so-called college watch lists which I believe will be too confusing for families to understand, and complicated rules involving all schools which only will prove that Members of Congress have no idea about how faculty members prepare their courses.

Most of these complications of rules, graduation rates in 48 different categories, disaggregation of student reporting dates by 14 racial, ethnic, and income subgroups, employment of graduates of institutions will leave college administrators scratching their heads and create thousands of new jobs for people who know how to fill out forms.

All of this will be put on the Web, I suppose, and most of it will be sent to Washington, DC, for someone to read. Having once been the Secretary of Education myself, I do not know whether I would read all these new regulations and all these new reports, and I don’t know what they would do about them if they did read them.

The American higher education system is far from perfect, but it is one thing in our country that works and it works well. It is our secret weapon in maintaining our brain power advantage and in State after State, the money has to come from somewhere. The United States not only has the best colleges and universities in the world, it has almost all of the best colleges and universities in the world.

These two steps are the best way to drive down college costs and to maintain academic excellence.

There are major accomplishments in this bill, some of which I have worked on and of which I am proud. They include simplifying the Federal student aid form and allowing year-round Pell aid for students making progress toward a degree. There is a new compliance calendar, which the Secretary of Education will be required to develop, that will set forth all of the reports and disclosures required under the Higher Education Act. I am proud to say I suggested that. In other words, the new Secretary of Education will have to make a calendar listing every single report that will have to be compiled. And it will be compiled. And the new Secretary of Education will have to make a calendar listing every single report that will have to be compiled. And the new Secretary of Education will have to make a calendar listing every single report that will have to be compiled.

More importantly, we need to give States more flexibility in dealing with Medicaid costs and give them an opportunity to take steps to make it easier to free themselves from outdated Federal Court consent decrees, which restrict the ability of Governors and legislators to direct money to higher education priorities. Then, of course, there is the REAL ID, another $4 billion in unfunded mandates for the States, and out of which pot do you think the States might take that? Higher education could be more top priority of Governor and legislators can point to many more unfunded Federal mandates.

These two steps are the best way to drive down college costs and to maintain academic excellence.
I authored the restrictions prohibiting the Secretary of Education from regulating student learning standards or requiring accreditors to adopt specific measures of learning assessment, which would have been additional federalizing of our 6,000 autonomous institutions.

There is an accountability research grant in this bill to focus attention on institutions making progress in measuring student achievement and asking the all citizens. The Governors, in their recommendations that serve the best interests of which points out that Governors are first of these is a release today from following my remarks.

Since beginning his 6 years, is in the midst of a good things for higher education during my tenure. I would like to also go back down to our maintenance-of-effort bill, but I lost the good work in simplifying the student application form, to review this stack of growing Federal regulations. I also sponsored the new discretionary grant program for Teach for America. All these actions in this bill are for the good, as is the increase in the availability of Pell grants for students who need help attending college. But I cannot support a piece of legislation that would stunt the excellence in higher education that comes from institutional autonomy.

I would like to offer a few letters and statements, and I ask unanimous consent they be printed in the RECORD following my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. ALEXANDER. Mr. President, the first of these is a release today from the National Governors Association, which points out that Governors are responsible for making funding decisions that serve the best interests of all citizens. The Governors, in their release, say:

Maintenance of effort undermines governors’ authority and guarantees students and their families will be writing larger and smaller tuition checks in the future. This is not the answer to affordable higher education. Governors oppose the higher education bill because of the negative impacts of the maintenance of effort and implore Congress to vote against it.

We had a vote on stripping out the maintenance-of-effort bill, but I lost that by one vote in the conference committee. Basically, what it says is that Members of the Senate and the House will substitute their judgment for that of Governors and State legislators. My suggestion was that if we are going to pass a bill and take credit for requiring States to spend more money on higher education, whether or not they have priorities, it might as well also go back down to our State capitals and join in the pain and suggest to the Governors whom to lay off or what school to close or what mental hospital to limit or what tax to raise because of our requirement about higher education maintenance of effort.

The second letter I would like to include in the RECORD comes from the commissioner of the Department of Finance and Administration in Nashville. Our Democratic Governor, Phil Bredesen, who has done a great many good things for higher education during his 6 years, is in the midst of a budget crisis. He is reacting to the very idea that during the midst of that, when he is laying off employees and making cuts in virtually every program, that we would take it upon ourselves to say that if he doesn’t increase funding for higher education, we are going to cut his Federal funding. All when we ourselves are one of the reasons he is having a hard time finding higher education, because of all our unfunded mandates.

The third letter I would like to include is from the chancellor of Vanderbilt University in Nashville, one of our most distinguished research universities and one of which I am proud to be an alumnus. It is a well-modulated letter, as you would expect from the chancellor of Vanderbilt. The letter argues very eloquently why the autonomy, competition, and choice that characterizes excellence in higher education is so important and so fragile. It is a well-modulated letter, as you would expect from the chancellor of Vanderbilt.

Why do we believe we do a better job in the Senate making Vanderbilt University a better university by complying with all this stuff, when it takes money that might be used to educate the students and improve academic excellence? They already have deans, vice chancellors, provosts, chancellors, and a board of trustees. If they are a public institution, they have a Governor, they have a higher education commission. They have plenty of overseers. They do not need us.

Two other letters, one from the President of Duke University, office of the president, Richard Brodhead, an equally thoughtful letter about the Federal role in higher education. I might say that North Carolina has done one of the best jobs of any State in accountability for higher education.

No one is doubting we need accountability for the Federal Government spends. As I mentioned earlier, the dollars we spend for research, tens of millions a year, are made accountable by being competitively granted, for the most part. The dollars we spend for colleges and universities don’t go to the colleges and universities, they go to the students, and the students choose the school. If they do not like the school or the cost of the school, they may go to another school. Each of those choices to be in accredited before the student can choose the school. That has been a marvelous system for helping to give autonomous institutions the freedom to be good, while at the same time allowing for accountability, for what we spend.

Finally, two letters that were written to Senator Isakson of Georgia. One is from the president of the University of Georgia, Mike Adams, who was president of two other colleges before he was president of the University of Georgia. A distinguished educator, Georgia, of course, is one of our distinguishing public universities in America.

Finally, a letter from the President of Emory University, James Wagner, and the president of Georgia Tech, Gary Schuster, to Senator Isakson, making the same objections.

As I said at the beginning, I admire my colleagues, I admire their 4 years of hard work, and I admire your commitment to a result. My hope would be we could go on two different tracks from here. One would be to look for ways to deregulate higher education, not add regulations to it. Realize that in America, where we are asking this might work or that might work, our system of higher education, with all its warts, is the best in the world. The rest of the world is trying to emulate it. Its greatest threat, in terms of its quality, is overregulation, not underfunding.

That leads me to the second track we go on. I hope we will be careful as Members of Congress that if we have a great idea for States, that we don’t pass it and send them the bill. Because I know from having been Governor and having been president of a university and having been Secretary of Education, and seeing it in different areas. As a Governor making up a budget, it’s pretty well set that you start with K–12. That is pretty well set. He then goes to prisons, and that is probably in the courts. Then he does mental health. That might be in the courts too. Then he or she goes to highways, and that comes from the gas tax. Then they are pretty well down to the choice between Medicaid and higher education. I can guarantee you that if we continue to increase requirements for funding of higher education at the State level, at the rate of 7, 8 or 9 percent a year, when State budgets are only going up 2 or 3 or 4 percent a year, we will significantly reduce the quality of our State universities and colleges. We will significantly increase the tuition costs that we say in this bill we would like to lower.

EXHIBIT 1

NATIONAL GOVERNORS ASSOCIATION STATEMENT ON HIGHER EDUCATION BILL GOVERNORS SAY INCLUSION OF MAINTENANCE OF EFFORT WILL RAISE TUITION FOR STUDENTS

WASHINGTON—The National Governors Association released the following statement regarding the impending vote on the Higher Education Reauthorization bill:

“Governors are responsible for making funding decisions that serve the best interest
of all their citizens. MOE undermines govern-

ers' authority and guarantees that students

and their families will be writing larger

er, not smaller, tuition checks in the future.

This is not the answer to affordable higher

education. Governors oppose the higher edu-

cation bill because of the negative impacts

of the maintenance of effort and implore

Congress to vote against it.

STATE OF TENNESSEE,

DEPARTMENT OF FINANCE AND

ADMINISTRATION, STATE CAPITOL,

Hon. LAMAR ALEXANDER,
United States Senate, Via Email.

Dear Senator Alexander, The State of
Tennessee shares your concerns with regard to
the MOE mandate provided in the higher education bill and appreciates your efforts in

defending our state interests. These restric-
tions on a state's ability to manage its way
through a fiscal downturn would be a ter-
rible mistake.

Under Governor Bredesen's leadership, we
have made public education a priority. We
know sufficient funding is critical to achiev-
ing success in our schools and higher

education. During the good economic times,
we've increased funding for higher education operating costs and put over $1 billion into capital projects.

However, when times are tough economi-
cally, we have to share the downside. When
budget cuts have been necessary, education programs have had to be cut. It is not a decision we considered. Unfortunately, Governor Bredesen has ex-
penced two very tough budget fiscal years
during his six years in office, FY 2003-2004 and
FY 2008-2009. The severe problems re-
quired some base reductions in higher edu-
cation's operating budgets. In FY 2003-04 there
was a 9 percent base reduction of $35.8 million. These reductions were not
made lightly. However, our constitution re-

equires that we are trying to rein in costs, we are

complying with federal regulations. Over-

sponsible for dollars not being returned.

However, after I have been evaluating the
conference agreement for the Higher Educa-
tion Act. While there are provi-
sions in this agreement that will support and
enhance access to higher education, there are other provisions that deeply trouble me and, I
think, have the potential to profoundly threaten our ability to be a “center for scholarship,
creative teaching, and service to the community and society at large.”

I believe you share my view that at the heart of the American system of higher edu-
cation are its autonomy and its great diver-
sity. What works for Vanderbilt may not
work for Rhodes College, MTSU, Volunteer State, or any other school in Tennessee. I firmly believe that
increased federal intrusion into higher edu-
cation would completely and irreparably damage our system of postsecondary edu-
cation. For these reasons, I am saddened to
come to the conclusion that Vanderbilt cannot whole-
heartedly support the entire agreement. However, before I enumerate the rea-
sons for our reservations, I would like to
remind you of my interest in protecting
institutional autonomy with respect to the
accreditation process. As you know, this has been our top priority throughout the reau-

corner of the implementing the entire agreement. We are grateful that we do not
have to make this drastic action, and we have you—and your staff—to thank for this.
Without your unyielding persistence on the mat-
ter of institutional autonomy with respect to

accreditation, the outcome would have been far different. Vanderbilt is immensely proud of the role we play in our own state and is in-
debted to you and your staff for your efforts.

Nonetheless, there is a lengthy list of provi-

dions with which we have serious concerns. We recognize that many Members and staff
have worked diligently on this legislation for
years, and we regret that more reason-
able language was not agreed upon.

Chief among our concerns are the count-
less number of new regulations with which universities are going to be forced to comply,
including the following: course filing, shar-
ing, campus emergency notifications,
data on alumni, charitable gifts, student di-
versity, immunization records, missing per-
sons, and the price of textbooks. These new
regulations will place an immense burden
on institutions and carry with them a heavy
implementation price tag. At the same
time that we are facing spiraling expenses
in providing high-quality education to our
students.

Vanderbilt University is a center for schol-
arily research, informed and creative teach-

ing, and service to the community and soci-
ety at large. Vanderbilt will uphold the high-
est standards and be a leader in the quest
for new knowledge through scholarship, dis-
covery, and outreach; creative experimentation of ideas and concepts.

In pursuit of these goals, Vanderbilt values
most highly: intellectual freedom that sup-
ports open inquiry; equality, compassion,
and excellence in all endeavors.

With this in mind, I have been evaluating the conference agreement for the Higher Education Act. While there are provi-
sions in this agreement that will support and
enhance access to higher education, there are other provisions that deeply trouble me and, I
think, have the potential to profoundly threaten our ability to be a “center for scholarship,
creative teaching, and service to the community and society at large.”

I believe you share my view that at the heart of the American system of higher edu-
cation are its autonomy and its great diver-
sity. What works for Vanderbilt may not
work for Rhodes College, MTSU, Volunteer State, or any other school in Tennessee. I firmly believe that
increased federal intrusion into higher edu-
cation would completely and irreparably damage our system of postsecondary edu-
cation. For these reasons, I am saddened to
come to the conclusion that Vanderbilt cannot whole-
heartedly support the entire agreement. However, before I enumerate the rea-
sons for our reservations, I would like to
remind you of my interest in protecting
institutional autonomy with respect to the
accreditation process. As you know, this has been our top priority throughout the reau-

corner of the implementing the entire agreement. We are grateful that we do not
have to make this drastic action, and we have you—and your staff—to thank for this.
Without your unyielding persistence on the mat-
ter of institutional autonomy with respect to

accreditation, the outcome would have been far different. Vanderbilt is immensely proud of the role we play in our own state and is in-
debted to you and your staff for your efforts.

in providing high-quality education to our
students.

Vanderbilt University is a center for schol-
arily research, informed and creative teach-

ing, and service to the community and soci-
ety at large. Vanderbilt will uphold the high-
est standards and be a leader in the quest
for new knowledge through scholarship, dis-
covery, and outreach; creative experimentation of ideas and concepts.

In pursuit of these goals, Vanderbilt values
most highly: intellectual freedom that sup-
ports open inquiry; equality, compassion,
and excellence in all endeavors.

With this in mind, I have been evaluating the conference agreement for the Higher Education Act. While there are provi-
sions in this agreement that will support and
enhance access to higher education, there are other provisions that deeply trouble me and, I
think, have the potential to profoundly threaten our ability to be a “center for scholarship,
creative teaching, and service to the community and society at large.”

I believe you share my view that at the heart of the American system of higher edu-
cation are its autonomy and its great diver-
sity. What works for Vanderbilt may not
work for Rhodes College, MTSU, Volunteer State, or any other school in Tennessee. I firmly believe that
increased federal intrusion into higher edu-
cation would completely and irreparably damage our system of postsecondary edu-
cation. For these reasons, I am saddened to
come to the conclusion that Vanderbilt cannot whole-
heartedly support the entire agreement. However, before I enumerate the rea-
sons for our reservations, I would like to
remind you of my interest in protecting
institutional autonomy with respect to the
accreditation process. As you know, this has been our top priority throughout the reau-

federal government and institutions of higher education. While the current legislation is somewhat more palatable, I fear that it still represents a major intrusion and regulatory encumbrance on the business of universities. The proportion of bureaucracy relative to public value will be extremely high.

Please highlight several troublesome provisions that I urge you to revise or eliminate before the bill moves forward:

It is apparent that you have taken our concerns about the inappropriate use of federal control of accreditation seriously. Including language that limits the authority of Education to prescribe standards and otherwise regulating measures of student achievement success is welcome. But, the language is not restrictive enough. I urge you to modify the legislation to prevent the Secretary from regulating standards for faculty, facilities, equipment, supplies, student services and the fiscal and administrative capacity of institutions.

Duke takes the accreditation process with great seriousness. We are convinced that the experience that we have undertaken from our intensive self-study, as well as external evaluations, to help guide the high quality of the educational experiences we offer our students is currently in the midst of its decennial review with the Commission on Colleges of the Southern Association of Colleges and Universities—SACS. I am impressed with the thoughtful questions the SACS team asks of us regarding a wide range of issues. Maintaining this quasi-independent assessment and the assurance of quality is an important contribution to the unique success of American higher education. While there are areas of accreditation that may need some tinkering, it is not role, nor is it wise public policy, to have the responsibility of institutional trustees and accreditation usurped by federal intrusion. I urge you to carefully consider the door the Secretary’s ability to dictate the measurement of standards that should remain outside the scope of the federal government’s responsibility in higher education.

At a time when institutions are struggling to find ways to reduce administrative costs, I am struck by the number of new reporting requirements in the bill, which inevitably will lead to greater bureaucracy both at the institution level and at the Department of Education. For example, the reporting of graduation rates in 48 different student categories gives pause and raises questions about the usefulness of the data.

Penalizing institutions for increasing tuition by requiring a report to the Department of Education about cost reducing strategies is an example of an approach that is not working. At least, there is no doubt that the quality of the educational experience Duke provides does not come cheap. Our trustees invest in progressive and aggressive financial aid programs to make a Duke education affordable to the more than 40 percent of Duke students who receive financial aid under Duke’s need-blind admission policy. In the coming year alone, we are budgeting more than $86 million from institutional funds to help ensure that no admitted student loses access to the Duke educational experience for financial reasons. Our trustees have developed over time both policies and procedures to ensure that the university’s budget—including our tuition and financial aid programs—is consistent with the mission of the university. Inserting the Department of Education into this conversation eats away at the delineation between governmental responsibility and institutional autonomy. Please remove this provision.

Along those same lines, the proposed requirement to provide non-binding, multi-year tuition price estimates is misleading and inappropriate. In order for this to be of minimal assistance to an enrolling student, each institution of higher education would need to forecast every individual student’s financial situation in advance. Each year we reassess all of our students’ financial situations to make sure we are meeting each student’s demonstrated need. If their financial situation changes during the year—for instance if their mother loses her job or wins the lottery—the aid package is appropriately adjusted. We simply can’t predict what will happen to the, potentially 10,000 independent-student population at Duke, or student at any university as far in advance as the proposed legislation would require.

There is much in the proposed REA that will benefit students, their families, and institutions of higher education, and I applaud the Congress for these positive steps. As the bill will be likely to produce in Duke and your colleagues to reconsider the inappropriate regulatory burden that will be placed on institutions of higher education if this legislation passes in its current form. While such improvements are laudable, the legislation, in its current form, still represents a major intrusion and regulatory burden for higher education.

It is always difficult to balance the need for transparency in the educational process with the need for new regulations. In a time of declining state funds for higher education and a need to reduce administrative costs, I am concerned about the wisdom of creating new unfunded mandates for reporting data from our universities.

Many of the new requirements contained in the draft of the legislation are unnecessary and duplicative, and they would impose significant compliance costs in exchange for little, if any, benefit. I fear these reporting requirements will lead to measuring efficiency both at the institution level and at the Department of Education.

Please allow me to highlight a few troublesome areas that UGA and other members of the National Association of State Universities and Land-Grant Colleges are seeking to revise or eliminate before the bill moves forward:

College Costs and Transparency: The proposed provisions in Title I of the bill for institutions that must raise tuition; the reporting requirements related to the lists; and the proposed provisions in Title VIII of the Higher Education Act (proposals that would establish new requirements for costs reporting and reducing net tuition. All of these could be simplified, and Section 809 of the conference report contains additional reporting requirements on institutions with respect to costs and is consistent with the current legislation.

Multi-year Tuition Price Estimates: The Murphy-Myrick Amendment would require institutions to publish non-binding, multi-year estimates of future tuition and fee levels. Although “non-binding,” these figures would create the potential for ill will between universities and prospective students if the state of the economy or other events force institutions to take action. As you know, tuition at state universities is inexorably linked to the state budget. This provision is fundamentally flawed and should be addressed.

New Reporting Requirements: This legislation would impose a number of new reporting requirements on colleges and universities that would be virtually impossible to meet. For example, the bill would require universities to obtain individual information on student employment, salary, and graduate education. Such data is very valuable, but we cannot compel graduates to report it.

Student Diversity and Graduation Rates Reporting Requirements: Institutions would be required to report to the Department of Education the percentage of enrolled, full-time students who are male, female, Pell Grant-eligible, and self-identified members of a major racial or ethnic group. These categories would also be applied to existing reporting of graduation rates. Institutions would have to report data in no fewer than 48 separate categories. To determine Pell Grant eligibility, institutions would have to demand private financial information.

Peer-to-Peer File Sharing Copyright Infringement Requirements: Institutions would be required to disclose “the development and deployment of technologies that allow for unauthorized distribution of copyrighted material on the institution’s information technology system, which shall, to the extent practicable, include offerings in illegal downloading.” Although our institutions offer alternatives to illegal downloading, the legislators simply insist to prevent all unauthorized distribution of copyrighted material on our IT systems.

While it has the potential to benefit students, their families, and institutions of higher education, the regulatory requirements and the additional costs relative to benefits are such that I recommend that you vote against this bill. We hope for a better bill to come along shortly.

Sincerely,

Michael F. Adams, President.

Emory University,
Office of the President,
Atlanta, GA.

Hon. Johnny Isakson,
Russell Senate Office Building,
Washington, DC.

DEAR SENATOR ISAKSON: As conference consideration of the Higher Education Act Reauthorization progresses, I would like to take the opportunity to comment on the latest draft of the proposed legislation.

As you know, we have followed the process to reauthorize the Higher Education Act very closely. We are very thankful to Georgia for the very thorough, detailed and comprehensive bill that we have received from our colleagues. I hope that, during this process, you have been an advocate for higher education nationally as well as for our institution and the University of Georgia.

In the latest draft, many improvements have been made, particularly in the areas of accreditation, teacher education, reporting, and collecting of data. While such improvements are laudable, the legislation, in its current form, still represents a major intrusion and regulatory burden for higher education.

It is always difficult to balance the need for transparency in the educational process with the need for new regulations. In a time of declining state funds for higher education and a need to reduce administrative costs, I am concerned about the wisdom of creating new unfunded mandates for reporting data from our universities. Many of the new requirements contained in the draft of the legislation are unnecessary and duplicative, and they would impose significant compliance costs in exchange for little, if any, benefit. I fear these reporting requirements will lead to measuring efficiency both at the institution level and at the Department of Education.

Please allow me to highlight a few troublesome areas that UGA and other members of the National Association of State Universities and Land-Grant Colleges are seeking to revise or eliminate before the bill moves forward:

College Costs and Transparency: The proposed provisions in Title I of the bill for institutions that must raise tuition; the reporting requirements related to the lists; and the proposed provisions in Title VIII of the Higher Education Act (proposals that would establish new requirements for costs reporting and reducing net tuition. All of these could be simplified, and Section 809 of the conference report contains additional reporting requirements on institutions with respect to costs and is consistent with the current legislation.

Multi-year Tuition Price Estimates: The Murphy-Myrick Amendment would require
The draft bill would significantly increase the number of federal requirements with which universities must comply. Many of the new proposed requirements are unnecessary and/or duplicative, and they would impose significant compliance costs in exchange for little, if any, benefit. We fear these reporting requirements will lead to greater bureaucracy both at the institution level and at the Department of Education.

Please allow us to highlight several other troublesome areas that we hope can be revised or eliminated before the bill moves forward:

College Costs: The proposed 400 "watch" lists that make up the HEA bill; the reported requirements related to the lists; and the proposed provisions in Title VIII of the bill (Tierney provisions) that would establish new requirements for costs reporting and reducing net tuition should be simplified. The proposed reporting requirements in Title I and Title VIII of the bill would require "high-cost" institutions to form cost efficiency task forces and issue reports to the Department describing actions they are taking to reduce costs and net tuition.

Tuition Price Estimates: The Murphy-Myrick Amendment would require institutions to report high-cost; employment and enrollment in graduate and professional education programs. Although we would like to have more detailed information on our alumni, we cannot force them to provide us with this information.

Student Diversity and Graduation Rates Reporting Requirement: Institutions would be required to report to the Department of Education the percentage of enrolled, full-time male, female, Pell Grant-eligible, and self-identified members of a major racial or ethnic group. These categories would also be applied to existing reporting rate requirements. Institutions would have to report graduation rates in no fewer than 48 separate categories. Although we already collect some of this information, other information, such as the Pell Grant-eligible, would require us to demand personal financial information that our students, and their parents, may not want to share with us.

Peer-to-Peer File Sharing/Copyright Infringement Requirements: Institutions would be required to disclose "the development of plans to detect and prevent unauthorized distribution of copyrighted material on their information technology system, which shall, to the extent practicable, include offering alternatives to illegal downloading." Although our institutions offer alternatives to illegal downloading, the technology simply does not exist to prevent all unauthorized distribution of copyrighted material on our IT systems.

We have asked our staff to provide your staff with more information detailing our concerns with this legislation in its current form. The proposed HEA has the potential to greatly benefit students, their families, and institutions of higher education. We applaud Congress for these steps. However, we urge Congress to reconsider the inappropriate regulatory burden that will be placed on insti-

Sincerely,

James W. Wagner, President, Emory University
Gary Schuster, President, Georgia Institute of Technology

Mr. ALEXANDER. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Ms. MIKULSKI. Mr. President, under our agreement, I will yield time to our colleague, Senator McCaskill from Iowa, before I wish to do two things. First, a few minutes ago we heard from our colleague, Senator BINGMAN, about the untimely death of one of Senator BINGMAN’s key staffer’s sons, Bob Simon is a staff director on his Energy Committee. Bob Simon’s 16-year-old son passed away, and he, Senator BINGMAN, paid an eloquent tribute about this very melancholy situation. On behalf of the Senate, we would like to extend our condolences to the Simon family.

The other comment I wish to make is in response, very quickly, to the comments my colleague from Tennessee made.

First, I would like to thank my colleague from Tennessee for his very collegial and thoughtful remarks as we moved our bill through. I enjoyed our conversations, from talking about bluegrass and Grand Old Opry, we went on to high notes and higher education, and then we went on to maintenance of effort.

I am sorry you took out the regulatory stack you had because it is bigger than I am. As we said in our conversation, I look forward to working with the Senator from Tennessee to see if some of the regs might be dated, arcane, duplicative, and so on and how, over the next year or so, we could look forward to doing that.

But before I move off of the regs comment, I do want to go on to comment about the maintenance of effort. In many ways, I understand the point the Senator from Tennessee is making. My own home State of Maryland’s Governor O’Malley inherited a $1.7 billion budget deficit that was not of his making, and at the same time I understand Governors and State legislators are facing real obstacles. However, we need to be realistic. Congress is doing its part by increasing Pell grants, and families can be assured that, as the Federal Government increases its commitment to colleges, funds will not be offset by the States.

Last night we did pass an amendment offered by another gentleman from Massachusetts, Representative TURENNE. What his amendment does is provide incentives and funds to Governors, which they can use for a broad range of college access activities. They would be able to access $66 million to States for very important state important state college access activities, particularly need-based grants and college prep programs.

But I also want to acknowledge the validity of the issues raised by the Senator from Tennessee on unfunded mandates. Over here we have a champion. Mr. ALEXANDER. Mr. President, may I have 60 seconds to respond?

Ms. MIKULSKI. Yes, but I am not done with my comments so I have not yielded the floor.

Mr. ALEXANDER. I am sorry. Ms. MIKULSKI. I wish to comment on the unfunded mandates. The Senator who will speak shortly has been a champion of the disability community and a leader of the IDEA community. We have been fighting to double IDEA and we have been trying to do it on both sides of the aisle. We look forward to having the Senator’s support to do exactly that. We look forward to increasing the Federal role in Medicaid, particularly in SCHIP, which would be a very important component of Medicaid. Last, but not at all least, in Medicaid, 80 percent of the money goes to 20 percent of the population. That 20 percent of the population that gets that Medicaid is primarily old or fragile people in nursing homes, many of them who have serious cognitive impairment such as Alzheimer’s.

Let’s get the Coburn hold off my bill to double funding for Alzheimer’s. One of the ways to lower the cost of Medicaid is to find the cure of the cognitive impairment for people with Alzheimer’s. It is estimated by NIH and other institutions that comment on these things that we could reduce Medicaid by $5 to $11 billion a year if we could do that.

I think we can work our way through this, but I must say, working with the Senator from Tennessee has been indeed a pleasure. It has been based on intellectual rigor, good conversation, excellent exchanges of ideas. I look forward to doing more of it and trying to see some of the problems that we both strongly believe need to be addressed.

Mr. ALEXANDER. If I may just acknowledge the remarks of the Senator, I feel the same way about working with her. I am delighted we will be working together to take a look at the rules and regulations that we impose from here in Congress to make sure they are useful and needed. The natural thing here is to add. It is also very natural for me to think that we might discover that the Dean or the Provost or the Governor or somebody else might have a good idea as well.

This is one of those issues that has no partisan attribute whatsoever. As far as I am concerned, the Republicans are as bad as the Democrats on unfunded mandates and unnecessary regulations. I look forward to an opportunity to work with the Senator from Maryland to see if we can identify a process that makes certain that in situations like this we have Federal dollars, but at the same time we leave them free to be excellent in their own autonomous ways.
Ms. MIKULSKI. I yield to the Senator from Iowa. Senator HARKIN, also a member of the Health-Education committee and who is a prime mover in the area of expanding access for people with disabilities to be able to have access to education.

The PRESIDING OFFICER. The Senator from Iowa is recognized.

Mr. HARKIN. Mr. President, I came here to speak, obviously, in favor of the Higher Education Opportunity Act. Passage of this bill today restores the Federal commitment to make a college education a reality for Americans from all walks of life. I commend Senator KENNEDY and Senator ENZI for all of their hard work in passing this bill. I recognize and thank my good friend, Senator MIKULSKI, for stepping in and shepherding this bill to final completion the other evening.

The Higher Education Opportunity Act is the first reauthorization of the Higher Education Act in 10 years. It takes important action to make college more affordable for low- and middle-income students and their families, our top higher education priority.

This legislation will provide families with accurate information on the cost of college, as well as hold colleges accountable for skyrocketing tuition and fees.

I am also proud we have saved money for students by requiring publishers to no longer bundle unnecessary materials with their textbooks, giving students the freedom to buy only what they need for their classes.

I have heard from students about the need to reform the unnecessary long form that is required to receive Federal student aid. It is called the Free Application for Federal Student Aid form—FAFSA. I understand is the short term nomenclature for that.

The bill we have here cuts through much of the red tape to immediately provide information for incoming students and to phase out the current 7-page form for all students in 5 years.

In recent years we have seen corruption and mismanagement in the student loan arena. This bill takes strong action to root out the lenders’ improper gifts and inducements for school financial aid officers and to protect students from onerous private lending practices.

I am one of the many achievements of this bill. I want to take the time to highlight two initiatives included in this bill that I was proud to sponsor.

I started my legal career as a legal aid lawyer. It is an experience I will never forget and always cherish. Our promise of equal justice under law rings hollow if those who are most vulnerable are denied access to representation. But right now it is almost impossible for a new lawyer, a new young lawyer, newly admitted to the bar, to make the choice that I made, to work for legal aid. The average starting salary for a legal aid lawyer is now about $35,000 a year. But the average annual loan repayment burden for a new law school graduate is $12,000. That doesn’t leave a lot left over for rent or food or for starting a family.

The Legal Aid Loan Repayment Program, which we have included in this bill, will make it possible for young lawyers to make a longer commitment to equal justice. The program is simple. If a legal aid lawyer agrees to make a minimum 3-year commitment, he or she will be eligible for up to $6,000 a year to help repay their student loan debt. This is a critical step to ensuring that qualified lawyers can be recruited and retained to represent low-income Americans.

I particularly again thank Senator MIKULSKI for her great leadership in this area, both on this committee and on the Appropriations Committee, in making sure we have adequate funding for the Legal Services Corporation and that we give young lawyers a commitment to help legal aid lawyers repay their student loans if they want to be a legal aid lawyer for at least 3 years.

I am also proud this legislation includes a Realtime Writers Program, an initiative I have long fought for to improve the quality of life for more than 30 million Americans who are deaf or have a hearing impairment. As many know, my late brother Frank was deaf for all of his life. I know from personal experience that access to culture and to news and other media was important to him and to others in having a good quality of life.

Closed captioning, which many of us now take for granted on our television sets, doesn’t benefit those with a hearing impairment, however. Captioning improves the quality of life of individuals seeking to read or to speak better, adults who may be functionally illiterate, immigrants learning English as a second language and children just learning to read. Captioning also helps travelers trying to get emergency information in loud settings such as airports and bus or train stations. I would guess that every American at some time or another relies on the captioning on their television to get some kind of information.

As part of the 1996 Telecom Act, I offered an amendment, a requirement in that bill now, that all English language television broadcasts must be realtime captioned by 2006. Every television program must be realtime captioned by 2006. The date has come and gone and all television programs are still not realtime captioned. This is due to a lack of captioners. So what has happened is that stations all across the country have asked the FCC for waivers to delay the stations that they should have because we simply do not have the supply of people trained to be realtime captioners. Passage of the Realtime Writers Act, which is now in this bill, authorizes competitive grants to recruit and train realtime writers to alleviate this hardship.

This is a very good bill. It has a lot of good things in it to help low-income families and kids to be able to get to college. It alleviates some of the burdens, some debts kids have hanging over their heads when they get through. It provides, as I said, for some of the unbundling of textbook materials and things that students buy that they do not need. I will tell you. Of course, as I said, it does a lot to weed out the corruption and mismanagement in the student loan program.

To close here, I often speak of the necessity of having a ladder of opportunity for our kids. I am particularly proud will assist members of the military, particularly those who are in Iraq. It was kind of a townhall meeting, with Senator ENZI, to bring this bill to completion. Hopefully we will have an overwhelming vote in favor of this conference report later this evening.

I yield the floor.

Mr. ENZI. Mr. President, I believe under the previous order we will move to Senator MURkowski for 5 minutes at this point.

The PRESIDING OFFICER. The Senator from Alaska is recognized.

Ms. MURKOWSKI. Mr. President, I rise to speak briefly on the conference report to the Higher Education Opportunity Act. The reauthorization of this act, the Higher Education Act, has taken 5 years and thousands of hours to complete. I congratulate Senator KENNEDY and Senator ENZI for guiding us through passage of the Senate bill and then through a long and somewhat contentious conference process. Their leadership has brought us to an agreement of which we will be proud. It is a bipartisan product that will have a positive impact on the lives of American students.

I also acknowledge and thank Senator MIKULSKI for the good work she has done, stepping in for Senator KENNY during his period of absence, in order to help us resolve these last issues.

The Higher Education Opportunity Act includes many provisions that will help students and their families. A provision of which I am particularly proud will assist members of the military, particularly those who are in the lowest ranks. It will help them and their spouses and their children to afford college or job training.

I had the opportunity last winter to visit Fort Richardson, outside of Anchorage. I met with the spouses of the deployed soldiers who were over in Iraq. It was kind of a townhall meeting. I asked them what I could do to help make their lives a little bit easier, help them get through the long winter. One of them told me...
that the one thing that was keeping her from being able to afford to go to college was the money that the military pays to help offset a portion of their housing costs. The housing allowance prevented her from being eligible for a Pell Grant.

Given the low rate of pay for many members of our military, particularly those in the lowest ranks, they could not afford to take on any student loan debt. So I made contact with the National Military Families Association and found that so many military spouses are in that same position.

So what we included in this legislation, through my provision, is language that excludes the cost of the basic allowance for housing for servicemembers who live off base, as well as the value of on-base housing. We exclude that from being calculated in the final calculations for financial need.

Excluding the basic housing allowance, which in the vast majority of cases completely covers military families’ housing costs, and the value of on-base housing will benefit the least well paid members of our military and their spouses, whether they be privates, seaman apprentices, lance corporals—those whose base pay is less than $35,000 per year. While they are off defending our country at war, we want to be able to help the spouses and family members who remain at home.

I am especially proud to know that this wonderful woman I had the privilege to meet last winter, and potentially thousands like her, will have a better chance now of being able to attend college or obtain job training.

Another provision I was pleased to participate in and to authorizes a program dedicated to improving science, technology, and engineering and mathematics education, with a focus on Alaska Native and Native Hawaiian students through engineering, science, and technology programs.

There are three programs in Alaska, Washington State, and Hawaii. They have had outstanding success using an innovative model to recruit and support Alaska Native and Native Hawaiian students through engineering, science, and technology programs. These are available at the University of Alaska, the University of Hawaii, and also through the Maui Economic Development Board.

The program’s graduation rate is phenomenal. By identifying the students who have an interest in math, science, and technology while they are still in middle school, helping them to graduate from high school with the coursework they need to be successful in those disciplines in college, and then mentoring them throughout the college program, these entities have helped so many of our young students, Natives and the non-Natives alike, to really succeed in these demanding and high-paying fields.

The Higher Education Opportunity Act includes many provisions of which Members of the Senate can be proud. Suffice it to say that before the fall semester begins at many colleges around the country, we will have authorized: improvements to the Federal Pell Grant; changes designed to help colleges and textbook publishers take steps to make the textbooks more affordable; increased and improved information about the cost of college and financial aid; rules intended to increase students’ safety on campus; and greater State involvement in and accountability to the public for the success of our teacher preparation programs.

There are so many provisions in this legislation that I think we have to be proud of, and I thank my colleagues for their good work and certainly urge all Members to support this legislation. And my thanks to those who have led this through the process: Senator Kennedy, Senator Enzi, and Senator Mikulski.

I yield the floor.

Ms. MIKULSKI. I yield the Senator from Vermont 3 minutes so he can make a brief statement before he presides, and then to Senator Brown.

Mr. SANDERS. I thank Senator Mikulski and Senator Brown. I will be very brief.

In the United States today, there is a nursing shortage approaching a crisis. According to the Bureau of Labor Statistics, more than 1.2 million new and replacement nurses will be needed by 2014. We are not educating enough nurses to meet the needs. That is why the U.S. Department of Health foresees a nursing shortage of over 1 million by 2020. Yet, even with such an enormous need for nurses, U.S. nursing schools turned away—turned away—41,000 qualified applicants for baccalaureate and graduate nursing programs in 2005 because they do not have the resources to train more nurses. If community college nursing programs are included in these numbers, 150,000 well-qualified applicants are turned away each year from nursing programs.

The College Opportunity and Affordability Act includes an important new program which will enable our colleges to train more nurses to meet the nursing crisis. It provides extra capacity for nursing students in a very simple, efficient, and cost-effective way.

The nursing provision in title VIII provides colleges, community colleges, and universities a grant for each additional nursing program that enrolls over their previous average enrollment. The nursing program gets a $3,000 grant for each additional student, money which will help defray the increased cost required to teach and train that student. With this program in place, nursing programs can expand to admit an additional 10,000 student nurses each year, or more, at modest costs.

I thank Chairman Mikulski, and I thank Huck Gutman of my office for his outstanding work over the last year. This is an outstanding program, and we are going to begin to address a serious problem.
off to war, they know they will be given the time and support they need now, because of this legislation, without falling unnecessarily behind academically or financially when they return to their life as a college student.

By allowing servicemembers to defer paying interest on Federal student loans while serving on Active Duty, we have removed a financial penalty for student veterans.

I would also like to thank the committee and the staff who worked with me to include several other provisions in the conference report. Among them is a program that creates an early childhood educator workforce development system to ensure that all children are taught by great teachers in their developmental years. I spoke with the head of Ohio Head Start today in Dayton, who is very excited about what this will mean for Head Start students in all of Ohio.

Also included was a program that helps increase the enrollment rates of rural students at institutions of higher education.

Finally, provisions are included that will reauthorize the Underground Railroad Educational and Cultural Programs, which establish a Perkins loan forgiveness program for our nation’s firefighters. We did it for the nurses, teachers, and police officers. We inadvertently left out firefighters in the bill last year. This takes care of that.

While there are many other issues we must address in higher education, including the rise in private student loans, this bill makes important progress in assisting needy students, increasing affordability for all, and enhancing protections for our service-members because of this legislation, because of Chairman Mikulski’s work. It means a whole lot of working-class kids, a whole lot of poor kids, a whole lot of middle-class kids will be able to go to college.

It will be easier for them to finish their college degrees, not drop out with huge student loans. It will enable most of these students to graduate without the onerous burden of huge student loans.

I thank Chairman Kennedy and I thank Ranking Member Enzi for their work. I hope my colleagues will join me in supporting this legislation.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. COBURN. Mr. President, I will assure everyone I will not take 20 minutes.

First of all, let my thank all of those on the committee who worked on this bill.

The Higher Education Act of 1965, HEA, authorizes the Federal Government’s major Federal student aid programs, as well as other programs which provide institutional aid and support. HEA also authorizes services and supports to disadvantaged students, and to students pursuing international education and certain graduate and professional degrees. The last time the act was reauthorized was over a decade ago, in 1998.

The Senate passed HEA reauthorization in July of 2007, with a vote of 95-0. The House of Representatives passed HEA reauthorization with a vote of 354-58. The final conference agreement is the product of nearly 6 months of work between the House and the Senate.

The Higher Education Act conference report, by the numbers, is nearly 1,200 pages, authorizes for appropriation of roughly $3.7 billion, creates 65 new programs, requires 24 new government studies, and requires the Department of Education to publish 26 different lists with information from more than 6,463 schools.

This bill seeks to address an enormous concern for many American families and students who are struggling to afford the cost of a college education. During the 2006-2007 academic year, more than $130 billion in financial aid was distributed to students in the form of grants, Federal loans, work-study, and tax credits and deductions. However, the financial aid is hardly keeping pace with the increasing rate of tuition.

According to the College Board, from 1996 to 2006, tuition rose 51 percent at 4-year public colleges and universities, after adjusting for inflation. Furthermore, according to the U.S. Department of Education’s National Center for Education Statistics, the average rate for undergraduate tuition and fees has nearly tripled over the past decade.

No one argues that the cost of college is rapidly rising, or that Congress, the States and institutions of higher education should examine this issue and work together to increase access and affordability for a college education. However, we must ask ourselves, is this bill the right solution? This bill dramatically increases funding. If we truly wish to make college education more affordable for students and families, we must focus on why tuition is increasing, despite increased subsidies from the Federal Government.

A July 31 editorial in the Washington Times discusses the correlation between increased government funding and rising tuition. The editorial states that the higher education conference agreement does more than expand financial aid for students. The bill authorizes 65 new programs, many of dramatic increases in Federal student aid may sound like a helpful solution at first. However, research shows that increases in government funding only lead to further increases in tuition. According to a report by the Cato Institute, for every dollar increase in Pell Grants, private 4-year colleges increased tuition by more than two dollars.

The findings of the College Board in “Trends in Student Aid 2007” are even more astounding. The report further reported that student aid increased by about 82 percent over the decade from 1997 to 2007, and Federal loans increased by 61 percent. Interestingly, this increase in aid covered about two-thirds of the increase in tuition at private 4-year colleges and almost all of the increase in tuition at public 4-year institutions.

These statistics demonstrate that both public and private universities are increasing tuition—far faster than the Government increases funding. If we truly wish to make college education more affordable for students and families, we must focus on why tuition is increasing, despite increased subsidies from the Federal Government. The Higher Education conference agreement would create incentives for families and students to save money and ease tax burden for students. Federal education tax credits and the Federal tuition tax deductions generated $5.9 billion in savings for taxpayers in 2006. The Higher Education conference agreement does more than expand financial aid for students. The bill authorizes 65 new programs, many of
which are duplicate, wasteful and unnecessary. By authorizing appropriations for these programs, Congress is allowing them to take funding away from student aid. Consider the following examples of misplaced priorities in the bill:

- Teach for America: Authorizes a 5-year grant to Teach for America, Inc. for $20 million in FY 2009, $25 million for FY 2010 and such sums for each of the four succeeding fiscal years. It is important to note that if a Federal audit of Teach for America recently found that the organization did not properly account for $755,000 in Federal funds, the Department of Education Inspector General found that Teach for America was unable to provide documents to support roughly half its claimed spending. The New York Times reported that there was no documentation that any teachers actually attended and completed the class or that there even was a class. Rather than cleaning up the waste, Congress authorizes $45 million for the organization.

- According to a July 11 CBS Evening News report titled, “Teach for America Gets Schooled; Organization That Trains Teachers Gets a Failing Grade for Its Accounting Skills,” after the audit, Teach for America tried handing over an audit document, but it didn’t help. The Inspector General said they contained “significant discrepancies.”

Another important way to help contain the skyrocketing costs of education is to simplify and ensure taxpayers’ dollars and students’ tuition are directed towards educational purposes, and not lobbying or earmarks. We cannot continue to earmark millions of dollars to universities with billion dollar endowments, while students and families struggle to afford the cost of college.

The total cost of earmarks for colleges and universities exceeded $9 billion between 1995 and 2003. At the same time, average annual tuition at public 4-year institutions increased by 137 percent, from $2,357 to $5,836. The Chronicle of Higher Education recently reported that Congress set aside a reserve of $300 million for projects for colleges and universities last year, $300 million more than in 2003, when the total was $2.01 billion.

Furthermore, in 2005 and 2006, colleges and universities spent more than $127 million on lobbying activities. This amount could have paid the full tuition for more than 21,760 students to attend public colleges and universities. Most students struggling to pay for housing and tuition may not be able to afford to hire lobbyists. They should not, therefore, be forced to pay higher tuition so their school can hire Washington lobbyists.

Nobody who listened to Senator Alexander come away saying we are on the right track. And this is certainly a compromise piece of legislation.

But it is very worrisome to me that the only thing rising faster than the cost of health care in this country, other than gasoline in the last year, and a half, is the cost of a college education. The only way we can compete globally is with an educated workforce. We have to ask ourselves the question: Why is it costing so much? Could it be the 10-foot tall—now with the passage of this bill—group of regulations that require billions of dollars to comply with every year that has taken away from the educational opportunities in this country?

I think another thing that was not addressed in the bill that should have been added in the bill is the fact that we have had over $9 billion worth of earmarks in the higher ed bill over the last 7 years. That is $6 billion that did not get prioritized. It was put in in the dark of night, inside a bill, inside an appropriations bill, that did not go out on the basis of merit, did not go out on the basis of a competitive grant.

And when the American people hear that we spent $1.27 billion last year by colleges and universities to lobby this place, is it not any wonder that we are spending $9 billion on earmarks?

I also want to spend a moment talking about realtime writers. I held that hearing and there was a demand for them anymore, whether it be for a new business, a new industry, or a new area where there is a shortage, and then they walk away. Now they have a maintenance of effort requirement. There is no exemption on that. You have killed one of the best things we have in Oklahoma, which is hiring people to do that. I want you to ask yourself the question: If there is greater demand for realtime writers and we are seeing the salaries rise and we are seeing the numbers start to come in, why is it costing so much? Could it be the 10-foot tall—now with the passage of this bill, the cost of a college education is going to rise about 9 percent a year. They can’t keep up no matter what we do with Pell grants.

The better part of wisdom would be to ask the question: Is what we are doing really making a difference to increase the availability of a 4-year education or a 2-year education post high school? The maintenance of effort in this bill will kill every community college in Oklahoma because they design programs for certain things and then walk away from them because there is not a demand for them anymore, whether it be for a new business, a new industry, or a new area where there is a shortage, and then they walk away. Now they have a maintenance of effort requirement. There is no exemption on that. You have killed one of the best things we have in Oklahoma, which is hiring people to do that, involving to strangle them with this maintenance of effort. Now they will be very hesitant to create a new program that
will make a big difference in the lives of Oklahomans, even though they will only run the program for 2 years because they will have to continue to fund it to be able to get anything else from us. It is shortsighted.

I wish I knew everybody who worked on this bill is well intentioned. Their heart is in the right place. They want us to have better educational opportunities. They want us to be able to afford it. They want greater excellence in terms of academia. I just don't think we did it. If we didn't do it, we are not going to be able to measure because we don't have any metrics.

The hope would be that maybe we could learn from this exercise. Maybe we ought to put in metrics. If we are going to create 65 programs, maybe we ought to think about getting rid of 6 instead of 6, and maybe we ought to measure the effect of what we are doing.

I yield the floor.

Mr. FEINGOLD. Mr. PRESIDENT, I am pleased to support passage of the conference report reauthorizing the Higher Education Act of 1965. This law is the federal law governing higher education in this country and authorizes a number of important federal programs including Pell grants and other need-based grant programs as well as Federal student loan programs. This conference report represents an important part of the Higher Education Opportunity Act, will improve college access and affordability for our nation's students in a number of ways including, raising the authorized level of Pell grants, allowing Pell grants to be awarded on a year-round basis, and simplifying the financial aid application process. Congress has been working on revisions to the Higher Education Act for many years and it is welcome news that Congress has finally completed its work on this important, if imperfect, legislation.

Access to postsecondary education is becoming more and more important in this increasingly competitive 21st century. In Wisconsin and around the country, we continue to see a significant gap in which students can afford to obtain a higher education and which students cannot, with students from low income and middle class families increasingly unable to attend college due to rising costs and less availability of financial aid. Furthermore, students increasingly have to turn to federal and private student loans to cover the costs of a higher education because of declining grant aid. Some of these students are then saddled with heavy debts upon graduation from college, which impact what sort of career decisions and life choices they can make for themselves.

Since coming to the Senate in 1993, I have made increasing funding for the Pell grant program one of my top higher education priorities. I have worked with Senators Kennedy, Collins, and Coleman to lead efforts to increase funding for the Pell grant program as part of the yearly budget and appropriations process. I am pleased that the 110th Congress has taken some important steps to boost the availability of Pell grants for our Nation's students. Congress also reauthorized the College Access and Opportunity Act which was signed into law in 2008, increased the maximum award for the Pell grant for the first time since 2003, from $4,500 to $4,310.

As part of the College Access and Opportunity Act, Congress has been working on revisions to the Higher Education Act to make for itself. These recent increases in the maximum Pell grant award represent a good step to improved access to higher education for our Nation's students most in need of assistance and remains work to be done. This conference report builds on these efforts to boost the Pell grant program, by increasing the authorized levels for the maximum Pell grant award from $5,000 in 2009 to $5,500 by 2014 and by allowing students to use their Pell grant funds year round. Congress has also improved the process whereby students can reapply for financial aid so that they do not have to fill out a new FAFSA every time they want to apply for additional financial aid. Many of Wisconsin's students fill out these FAFSA forms every year and I hope that the new provisions in this conference report can make the FAFSA application process less burdensome in the coming months and years.

This conference report also retains language from the Senate-passed bill to ensure that the grants for training of teachers will promote a wide range of teaching skills, including measuring students on different forms of assessment, such as performance, and student measures, student portfolios, and formative assessments. In an era of increased accountability at the local, State, and Federal level, we need to do all we can to promote more responsible and accurate assessment of students in our K-12 schools and universities.

I remain concerned about the increased use of high-stakes standardized testing at the K-12 level, including using high-stakes standardized tests to make decisions related to accountability. By broadening the definition of student learning and teaching skills as this new title II language does, we can better ensure that teachers are trained to more accurately and responsibly measure student achievement through alternatives to high-stakes standardized testing. I hope that Congress can build on these efforts to promote better and more responsible assessments of our Nation's students when we reauthorize the Elementary and Secondary Education Act by providing increased funding for the development of these types of assessments as well as the teacher training that is needed to implement these assessments in our classrooms.

The student loan industry has also seen some tumultuous times over the past 2 years, with a number of abuses involving lenders and some financial aid administrators brought to light as well as ongoing unrest in the lending market. I remain concerned about the sustainability of our Nation's students when we reauthorize the Elementary and Secondary Education Act by providing increased funding for the development of these types of assessments as well as the teacher training that is needed to implement these assessments in our classrooms.

I also remain concerned about the increased use of high-stakes standardized testing at the K-12 level, including using high-stakes standardized tests to make decisions related to accountability. By broadening the definition of student learning and teaching skills as this new title II language does, we can better ensure that teachers are trained to more accurately and responsibly measure student achievement through alternatives to high-stakes standardized testing. I hope that Congress can build on these efforts to promote better and more responsible assessments of our Nation's students when we reauthorize the Elementary and Secondary Education Act by providing increased funding for the development of these types of assessments as well as the teacher training that is needed to implement these assessments in our classrooms.
ensure students’ continued access to Federal loans in the upcoming school year and this conference report seeks to help prevent certain abuses in the student loan markets from happening in the future. For example, this conference report requires schools and lenders to create codes of conduct governing their lending practices and relationships. This legislation also bans lenders and colleges from accepting gifts as part of their student loan business. I cosponsored many of these provisions in Senator Kennedy’s stand-alone legislation, the Student Loan Sunshine Act, and I am pleased that these provisions were included in this conference report.

I know a number of colleges are concerned about the increased reporting requirements in this legislation related to college costs and tuition increases. These reporting requirements and the provisions described many of these provisions in the two previous Congresses. I am pleased that part of the Veterinary Workforce Expansion Act made it into the higher-ed reauthorization.

To meet the critical shortage of public health veterinarians and to augment the ability of veterinary expertise to guide public health, I introduced the Veterinary Workforce Expansion Act, S. 746, this Congress and am pleased that the two previous Congresses. I am pleased that part of the Veterinary Workforce Expansion Act made it into the higher-ed reauthorization.

The language in the higher-ed bill will establish a new competitive grant program for capital improvements to allow veterinary medical colleges to expand and graduate more veterinarians trained in public health. As both a veterinarian and a member of the HELP Committee, I have seen firsthand the links between human and animal health. A half-century ago, more people appreciated this too and we were able to all-but eradicate malaria and other animal-born infectious diseases with techniques such as mosquito control and inoculations.

Veterinarians are uniquely qualified to address high-priority public health issues such as animal-to-human transmission of infectious diseases because the curriculum in veterinary medical colleges is significantly different from that of human medicine. In addition to the basic biomedical sciences and the surgical and medical training that physicians receive, veterinarians receive extensive training in population medicine. Veterinary colleges also provide full curriculum, comparative medical approach to disease prevention and control, which is fundamental to understanding the transmission and life cycle of infectious disease agents, especially those that animals share with humans.

Although I hope awareness of the part veterinarians play in promoting public health will improve, I want to note that I am by no means the first Government official to recognize the importance of veterinarians in public health practice. Dr. Julie L. Gerberding, Director of the Centers for Disease Control and Prevention, CDC, noted that, “Eleven of the last 12 emerging infectious diseases that we’re aware of in the world have probably arisen from animal health sources.” CDC estimates that more than 60 percent of all infectious organisms that are harmful to people are transmissible between humans and animals. In addition, more than 80 percent of newly emerging infectious diseases fit into this category and, even more important, more than 80 percent of biothreat agents of concern are shared between animals and man. These are the harmful biothreat agents most likely to be used in a bioterrorism attack.

In closing, I would like to thank Senators KENNEDY, ENZI, MIKULSKI, and BURR for working with me to include this program in the bill. I am grateful for their hard work and support. My hope is that through this new grant program, veterinary colleges will be able to fulfill the needs of the communities that they serve and on a national level will augment the expertise of other public health specialists in preventing or mitigating the effects of possible pandemics or biological terrorist attacks.

Mr. DORGAN. Mr. President, I am here today to talk about the reauthorization of the Tribally Controlled College or University Assistance Act of 1978, which is included in H.R. 4137, the Higher Education Reauthorization and College Opportunity Act of 2008.

As chairman of the Senate Committee on Indian Affairs, I worked with the Appropriations, Labor, and Pensions Committee and the House of Representatives to ensure that provisions enhancing tribal colleges and universities were included in the reauthorization of the Higher Education Opportunity Act.

H.R. 4137 reauthorizes the Tribally Controlled College or University Assistance Act of 1978. Additionally, it will authorize two tribally controlled postsecondary career and vocational technical institutions: United Tribes Technical College and Navajo Technical College. Both of these institutions are critical to strengthening tribal higher education and providing the necessary resources for Indian students.

I have been a longtime supporter of tribal colleges and universities because of the benefits they provide to both the community and the individual student. There are 36 tribal colleges and universities throughout the United States. I am very fortunate to have five of these tribal colleges in my State of North Dakota.

Tribal colleges and universities offer a wide range of accredited programs from business administration to nursing. In addition to college-level courses, tribal colleges and universities also offer high school completion programs, job training, and college preparatory courses.

These colleges and universities are essential to their communities, often serving as community centers, libraries, tribal archives, career and business centers, economic development centers, public meeting places and child care centers.

Because most tribal colleges and universities are located on or near Indian reservations, they provide a greater level of access to higher education for a group of Native students who would otherwise be unable to attend college.

Approximately 28,000 American Indian and Alaska Native students attend tribally-controlled colleges and universities across the country. Characteristics of American Indian students enrolled in tribal colleges differ from those of most other undergraduate students: Students attending these schools often come from geographically isolated communities with high dropout rates. Their average family income is $13,998.00. This is 27 percent below the Federal poverty level. Most students attending tribal
colleges are the first generation in their family to go to college. American Indians who earn a bachelor’s degree or higher can expect to earn two times as much as those with a high school diploma and four times as much as those with no high school diploma.

I am committed to finding ways to strengthen tribal colleges because they are truly a success story in Indian country. The reauthorization of the Tribally Controlled Colleges or Universities Assistance Act is a strong step in that direction.

Mr. LEVIN. Mr. President, access to higher education is increasingly important in a competitive, global economy where training beyond a high school education is frequently required. On average, a student who earns a bachelor's degree will earn 70 percent more annually than a student who has only a high school diploma.

Last year, Congress approved more than $17 billion in new Federal aid for college students, the largest Federal investment since the GI bill with the enactment of the College Cost Reduction Act of 2007. This was a great victory for students and families all across America, including my home State of Michigan. We will receive over $429.8 million in new assistance above the current $429.8 million for the upcoming academic year and an additional $869.6 million over the next 5 years.

However, we still need to do more to help students achieve their goal of attaining a college education as college cost continues to rise. The legislation before us, the conference report of the Higher Education Opportunity Act of 2008, is another major step forward to support students and families in this endeavor. It contains several important policy changes to increase access to college and help protect students, families and taxpayers from high college cost and unmanageable debt. It also increases grants aid further by increasing Pell grants, from $4,800 to $6,000 for 2009 and to $8,000 for 2014; and allows students, for the first time, to receive Pell grants year-round, to help them accelerate the completion of their degrees. The legislation also creates the Grants for Access and Persistence, GAP, program, a new matching grant program to allow States to increase need-based grant aid to students. This will give a major boost to the 5.3 million students who qualify for the Federal Pell Grant in Michigan alone.

The bill enhances and strengthens TRIO and GEAR UP, proven programs that help students, many of whom are first generation college-bound, prepare for and succeed in higher education. It expands required activities with a special focus on improving students’ financial and economic literacy, and encourages student enrollment in challenging secondary coursework and professional development.

The legislation also replaces the complex, 7-page Free Application for Federal Student Aid, FAFSA, with a 2-page EZ-FAFSA; bans lenders from offering gifts to college officials as a condition of making student loans, and requires colleges to adopt a code of conduct regarding student loans; promotes innovative and effective teacher preparation programs for new and prospective teachers; makes competitive awards for high-quality teachers to teach in high-need schools; supports partnerships between teacher education programs and high-need districts.

The bill also makes college a reality for more students with disabilities through a number of new initiatives, including supporting model demonstration projects to make college course materials more accessible; and expands and strengthens nursing faculty by creating a new grant program to help nursing schools enroll more students.

Finally, this legislation also includes a much-needed amendment introduced by Senator DURBIN, which I cosponsored, that creates a targeted student loan repayment assistance program that will bolster the ranks of attorneys in this country's criminal justice system. It will provide up to $10,000 a year in student loan forgiveness for those who will work a minimum of 3 years as State or local criminal prosecutors or State or local public defenders. This would benefit many young law graduates who want to take a job as a young prosecutor or public defender, but find it difficult to do so because of a mountain of student debt. The new grant is apparent. Prosecutor and public defender offices throughout the country are having serious difficulties recruiting and retaining qualified attorneys. In a recent survey, over a third of prosecutor offices nationwide reported problems with keeping attorneys on staff. Over 60 percent of prosecutor offices that serve populations of 250,000 or more have reported serious problems with the retention of attorneys. The story is the same for public defender offices. Another recent survey found that over 60 percent of State and local public defender offices reported difficulty in attorney recruitment and retention. When prosecutor and defender offices cannot attract new lawyers or keep experienced ones, their ability to protect the public is compromised. Caseloads become unmanageable, cases can be delayed or mishandled, crimes may go unprosecuted, and innocent defendants may sit in jail.

A student’s access to higher education ought not to depend on his or her family’s income. Working families and aspiring students across this country are struggling to obtain the financial resources to secure a college education. Low and middle income students who have managed to enter and stay in college are graduating with unprecedented levels of debt. This legislation, coupled with the legislation Congress passed last year responds to this crisis.

Mr. LEVIN. Mr. President, with the enactment of the Higher Education Opportunity Act of 2008, we will renew major programs that ensure our Nation’s students have access to a college education.

This important legislation would increase grant aid to our neediest students, provide new measures to address rising college costs, and would reform the student loan system so that it better serves students.

Students and their families in California and nationwide are struggling to pay the growing costs of a college education.

Specifically, this bill will increase Pell grants from $4,800 to $6,000 for 2009 and to $8,000 for 2014. Over 625,000 California students rely on Pell grants to afford college.

It will allow low-income students, for the first time, to receive Pell grants year-round, including summer school. This will help students complete their degree programs more quickly.

It will allow military servicemembers to defer payments, interest free, on Federal direct loans while they are on active duty. Our service men and women risk their lives for our Nation and deserve to not have to worry about paying their student loans while they are on duty.

It will authorize the U.S. Department of Education to award competitive grants for Teacher Preparation Programs that help recruit and retain high-quality teachers in high-need schools.

It will require the U.S. Department of Education to publish detailed data about college pricing trends on its website to ensure more transparency.

It will simplify student financial aid forms by creating a new 2-page form for low-income students, and phase out the current 7-page form within 5 years.

It is critical that we help make college more affordable and accessible for students at a time when they are taking on more debt to pay for school.

More than half of California students who graduate from 4-year public colleges have debt averaging over $12,000. Nearly 1 year ago, the President signed into law major legislation that provides over $17 billion in new grant aid to low-income college students—$2.5 billion of which would go to help California’s students. And the key reforms in the renewal of this Higher Education legislation before us today will further help ensure that college is more affordable for our young people and that they receive the education they deserve to succeed.

Mr. LEVIN. Mr. President, education is at the core of America’s basic promise—that all Americans should be able to make the most of their potential.

Every young person should graduate from high school, and every young person who works hard and wants to go to college should be able to afford it. And all Americans should be able to get the skills they need to succeed throughout their lives.

Today, I am supporting the Higher Education Opportunity Act conference report because it will advance key reforms that will address the soaring
July 31, 2008

CONGRESSIONAL RECORD — SENATE
S7863

price of a college education and remove obstacles that make it harder for qualified students to attend college. This legislation is an important step forward for students and their families. It will help reduce their college costs and will help expand the future growth of our economy.

This legislation would not have been possible without the leadership of Senator EDWARD M. KENNEDY who has tirelessly dedicated his time in the Senate to help our children and their families gain increased access to education. It is another victory for Senator KENNEDY, whose record of achievement in the Senate has helped benefit the lives of virtually every man, woman and child in the country. As we adopt this legislation, I want Senator KENNEDY to know that we miss him, that we are thinking of him as he recovers from his illness and we congratulate him on this important accomplishment.

The Higher Education Opportunity Act of 2008 changes more accounts for increasing costs and will simplify the federal financial aid application process. The legislation will make textbook costs more manageable for students by helping them plan for textbook expenses in advance of each semester. It will increase college aid and support programs for veterans and military families. This legislation will ensure equal college opportunities and fair learning environments for students with disabilities. It includes new measures to curb unethical practices in the student loan industry, increasing federal grant aid to our neediest students, and strengthen college pipeline programs.

The Higher Education Reauthorization Act will help ensure that all Americans can make the most of their God-given talents. Educating our children is a key part of ensuring a strong economy in the future. It will help make college more affordable and accessible for every American. While we have done a good job giving high school students the opportunity to attend higher education, the time has come to do more to make it affordable.

Tuition rates have steadily increased over the last few years while our Nation’s financial aid programs have failed to keep up, causing college students to graduate with higher amounts of debt than ever before. In West Virginia, the cost of college education has increased at least 30 percent since the 2000-2001 school year, while the median family income of most West Virginians has increased only 13 percent. Additionally, the percentage of higher education that is paid for with grants has decreased significantly, from 77 percent in 1975-1976 to just 20 percent in 2004-2005.

The Higher Education Act before us today will modernize the financial aid system. The act will revitalize title IV loans, including Pell grants. Pell grants help over 35,000 West Virginia students attend college at a value of $292 million annually. An increase in assistance is needed to help students cope with the rising cost of tuition. The bill will invest $20 billion to improve Pell grants. The loan amount will increase approximately $900 next year, and in 2012, the maximum Pell grant should be $5,400. These improvements will allow more low-income students to have the opportunity to pursue higher education that before would have been out of their reach.

An important provision in the act will protect students by giving them greater access to information about their loans by requiring student loan providers to be up front about terms and interest rates. This will reduce interest rates on Federal student loans, allowing students to graduate college with less debt and on a stable financial foundation. The law even addresses the real concern about the rising costs of textbooks with balanced provisions to disclose prices.

The act would also increase TRIO funding and provide better tools to encourage high school students to apply for college. It helps meet with TRIO leaders and students from across the state of West Virginia about the importance of this program. The Higher Education Reauthorization Act allows our dedicated TRIO counselors to focus on tutoring, college exam preparation, and assisting students with application and financial aid applications. West Virginia has 30 TRIO programs which will benefit by the increase in the grant duration and funding. This increase, will better enable the 8,000 plus West Virginia TRIO students to reach their potential in high school, and achieve their goal of pursuing higher education.

Another vital part of this legislation is the emphasis it places on sciences and mathematics. The greater assistance and grant money going to students who study science and mathematics, will ensure that our Nation has a group of educated individuals who are ready to handle future challenges.

To support our troops and their families, this legislation allows service members to defer payments on loans, and stop interest on Federal direct loans while they are on duty. It will ensure that military benefits do not count against service members’ eligibility for Federal grants and loans they need to pay for college. It will provide for easy reenrollment for service members when they return from duty and go back to school.

The Higher Education Reauthorization Act will provide opportunity to students in West Virginia and throughout the country. This bill also encourages public service and puts a new emphasis on science and math, causes that I have long promoted. This is an important bill and I commend my colleagues and the leadership for forging bipartisan consensus to enact this legislation that should inspire students to pursue their dreams of a higher education.

Mr. AKAKA. Mr. President, today, I was pleased to vote in favor of the conference report to accompany the College Opportunity and Affordability Act, H.R. 4137. I congratulate my colleagues, particularly my good friend, Senator KENNEDY, for their dedication and bipartisan efforts in moving this vital legislation forward. It is imperative during these difficult economic times, to do all that we can to help students achieve their educational goals by making college more affordable and more accessible. This legislation will assist students and their families in Hawaii and across the Nation by, among other things, simplifying the Federal financial aid application process, increasing the amount of Federal grants to students and their families who need them, providing more authority to regulate private student loan lenders engaged in predatory practices, and holding colleges accountable for growing tuition rates.

As chairman of the Veterans’ Affairs Committee and a senior member of the Armed Services Committee, I was also pleased to support this legislation which will make higher education more accessible for the men and women who have volunteered to protect and defend our Nation. It includes a provision allowing the members of our Armed Forces to defer their payments, interest free, on Federal Direct Loans while they are on Active Duty with recurring reenrollment for service members who left college to join the military. It also benefits the families of our soldiers and sailors who have also sacrificed so much. First, by providing new scholarships for the children and family members of service members who have died since 9/11. And, second, by providing instate tuition for members of the military and their dependents who have lived in a state for more than 30 days.

This legislation also incorporates several provisions which will specifically benefit students in Hawaii. These include the authorization of the creation of the Henry Kuualoha Giugni Kupuna Memorial Archives at the University of Hawaii as a repository for Native Hawaiian historical artifacts and the expansion of authorized grant programs for Native Hawaiian Institutions to include education designed to improve financial literacy. It also clarifies that Native Hawaiians and other Pacific Islanders are eligible for the Federally funded McNair Scholars Program. In addition, it benefits our State by authorizing the development
and expansion of programs to improve science, technology, and mathematics education specifically focused on meeting the educational and cultural needs of Native Hawaiian students.

Today, more than ever, a college education is a key to future opportunities and financial stability. A student who desires to attend college should not have to delay or give up their dreams of a higher education because of the cost.

With the passage of this bill today, we are helping students achieve this dream and I applaud its passage. Now, it is time for the President to sign this critically important bill into law and make it a reality.

Mr. REID. Mr. President, last year, as Democrats took control of the Congress, we made college affordability and access one of our top priorities.

In the fall, we completed work on the first and of their landmark College Cost Reduction and Access Act. This landmark legislation provided nearly $20 billion in new student aid and benefits, including a significant increase to the Pell grant and a reduction in student loan interest rates, which went into effect last month, providing a tangible benefit to college students across this country.

It's been a full decade since the Congress last reauthorized the Higher Education Act. Today, as a result of a bipartisan effort, we take up the final piece of our commitment to make a college education more affordable and accessible.

Among other key provisions, this conference report addresses the scandals that have tainted the student loan industry. Through increased disclosure requirements, a prohibition on payments and gifts from lenders to colleges and student loan administrators, and new restrictions on preferred lender lists, we are finally putting an end to these unacceptable practices, and making sure that the student loan system works in the best interests of our students.

Just as importantly, the Higher Education Opportunity Act tackles the rising costs of college. Despite the billions in new student aid and benefits we approved last year, if college costs continue to rise at the rate they have been—nearly tripling over the past 20 years—higher education will continue to remain further and further out of reach for too many Americans.

I am pleased that students in Nevada have the good fortune of a state university system with some of the lowest tuition costs in the nation. But the same is not true everywhere and this bill will hold colleges and universities accountable for keeping college costs from increasing too dramatically. It also ensures that students and parents have the information they need to make objective decisions based on the cost of college, and attempts to rein in the high cost of textbooks and the greater degree of prices and purchasing information.

On the issue of costs, the Federal Government has raised the bar in its commitment to higher education. While statehouse budgets are undoubtedly strained in these difficult economic times, I am hopeful that these efforts will not result in a reduced State commitment to making sure that a college education is affordable. I have spoken with deans and college administrators in my own State, about harmful budget cuts to colleges and universities in Nevada. The Federal Government is doing its part for students, and I hope State governments continue to do the same.

To further assist students, the bill authorizes an increase in the maximum Pell grant to $6,000 in 2009 and $8,000 by 2014, and makes it available to college students year-round, instead of just during the traditional academic year. This is particularly important for low-income, nontraditional students in Nevada—those juggling college, jobs and a family—or for those students at community colleges taking summer courses so they can finish their degrees.

Additionally, to help low-income and first generation students, this legislation strengthens the GEAR UP and TRIO programs, programs which have helped thousands of young Nevadans achieve their dream of a college degree.

A final point I want to highlight is the simplification of the federal financial aid form—the FFASFA. Currently seven pages long and probably more complicated than filling out a tax return, the bill creates a two-page “EZFAFSA” for low-income kids, and phases out the current form within five years. This will help get federal aid to the students that need it most.

While Senator KENNEDY and ENZI, and the entire HELP Committee deserves enormous credit for their work to move this legislation forward in a bipartisan way, I also want to thank my friend from Maryland, Senator Mikulski, who stepped into some very big shoes with Senator Kennedy’s absence, to help get this bill across the finish line.

Combined with our efforts last year, passage of the Higher Education Opportunity Act reaffirms our commitment to making sure higher education is affordable and accessible for students across America.

The PRESIDING OFFICER (Mr. SANDERS). Who yields time?

Ms. MIKULSKI. I yield 3 minutes to the Senator from Illinois 3 minutes.

Mr. DURBIN. I thank the Senator from Maryland. What a great job she did pinch hitting for our friend Ted Kennedy, with Senator Enzi, bringing this bill to the floor tonight and the conference report. There are three or four provisions in here I worked hard to include, and I think they are going to help provide an affordable college education.

You would be surprised to know that about one-fourth of the expense that college students face when they go to college is for textbooks. Textbooks cost twice as much as ordinary books. Until we put this provision in, students couldn’t go on Amazon and other places to find discounts. Now they will be able to. They will have the information so they can search for the most affordable books. We make the publisher split up the books into pocket parts so they can bundle them together, and students can buy only what they really need.

Secondly, I have been working for years with my friends who are prosecutors and public defenders. Kids graduating from law school today have a mountain of debt. They can’t afford, usually, to take a job as a young prosecutor or public defender. We have a student loan forgiveness program in here. It went through the Judiciary Committee. It will provide up to $10,000 a year in student loan forgiveness for those who will work a minimum of 3 years. That is the way to build the professionals we need as both prosecutors and defenders. It is the John R. Justice Act. It is one that will help our Nation and help the enforcement of law all across the country.

I also have a provision to help campuses deal with insecurity and terrorism. We have seen too many instances of violence on campus. This will provide for coordination on campuses to develop plans to keep their students safe. That is something every parent wants to feel when they leave their kids at school.

These are all steps in the right direction. I thank all those who worked on this bill. Most of us in the Senate would say flat-out we wouldn’t be here today were it not for higher education. It has become a more difficult challenge for today’s students. This bill is going to give those students a helping hand. I will be happy to cast my vote in favor of it.

I yield the floor.

The PRESIDING OFFICER. Who yields time?

Ms. MIKULSKI. I yield 3 minutes to the Senator from Connecticut, who also chairs the Banking Committee. On behalf of all of us who worked on this bill, I thank Senator Dodd for helping us resolve some very serious issues that existed between the Banking and Education Committees on the student loan issue. His steadfastness and work with Senator Shelby actually helped us bring this bill to the floor. I thank him.

Mr. DODD. Mr. President, let me return the compliment by commending our colleague from Maryland, who has taken on the Herculean task in the absence of our colleague from Massachusetts, of shepherding, along with Senator Enzi, this very important piece of legislation. My friend Mr. Enzi, the Republican leader on this issue, along with Barbara and the House leaders—George Miller, with
Senator SHELBY and I, along with 19 from Maryland pointed out, the inclusion of child care in this bill.

women who are providing a college education, though not close enough when it comes to private education. The Pell grant in this bill is not inexpensive, but it provides benefits to our country and its future. This bill is not inexpensive, but it provides benefits to our country and its future.

I am particularly proud of a number of provisions. One is the Pell grant increase, up to $8,000, which will help us in dealing with the cost of a public education, though not close enough when it comes to private education. The Pell grant in this bill is not inexpensive, but it provides benefits to our country and its future.

One of those is deregulation. If we can just get rid of some of those forms. Obviously, this is an even bigger opportunity.

The Senator from Oklahoma, Mr. COBURN, and the Senator from Tennessee, Mr. ALEXANDER, who pointed out some things that still need to be done in the area of higher education. It would have been nice to have been able to do them in the bill. One of those is deregulation. If we have that much paper, that many billions of dollars’ worth of paper that need to be done, it is time for us to appoint a task force to evaluate their usefulness. I did that with some of the elementary education issues the first year I was here, and we found that every single paper that was submitted to the Department of Education was looking for that blank that every blank was filled in and every “I” was crossed and every “T” was dotted. Our disappointment was that they were then filed away and nobody made any use of them.

We were able to get rid of some of those forms. Obviously, this is an even bigger opportunity.

The Senator from Oklahoma pointed out the lack of metrics for progress in these areas. Although there are new programs, past experience has been that many of them do not get funded because they have to come out of discretionary funds. They are good ideas that probably will never happen. But it would be a good idea to have metrics in there so we can gauge how well things are doing. We have a law that provides for that kind of measurement and requires each agency to have a program to set up the guidelines by which we can measure, and then they are reviewed to make sure that the years that there are a number of agencies that are actually failing their own evaluations. We never do anything with that, which is another challenge.

Our country is being challenged today, and it is a challenge we cannot afford to lose. We are engaged in a race for knowledge and skills, and the nation that wins will have a head start on building a stronger economy. The solution to this challenge is to make a college education more accessible, affordable, and accountable for all Americans. That is what we are trying to do in the Higher Education Opportunity Act.

In this era of rising college costs, students and families must have good information to use when making decisions about which college to attend, how to finance their college education, and how to manage their student loans once they are out of college. This legislation is about good information, sunshine, and transparency. College is no longer an option. It is a necessity. Most good jobs today require some college. I want to make sure everyone has access to the education and training they will need to be successful in the global economy. This legislation gets us much closer to that goal.

I am pleased to say that with the passage of this agreement, we will have completed the work of two of the four pieces that make up Federal education and training policy.

Late last year we finished Head Start. Today we will finish higher education. We still have more work to do because we must reauthorize and improve the Workforce Investment Act so that our workers have the skills they need to be successful in an increasingly skill-driven economy. That leaves reauthorizing No Child Left Behind to complete our education task.

Mr. President, as this debate on this legislation comes to a close, it is necessary to thank those who have worked long and hard on this bill. First and foremost, I thank Chairman KENNEDY for his commitment to keeping this package bipartisan and working with me and all of my Republican colleagues on the HELP Committee throughout this entire process, lately by telephone, but with the same passion and enthusiasm.

I also thank Senator MIKULSKI for taking the helm and getting us to the finish line when others might have given up.

Because this has been a bipartisan, bicameral process, I want to thank our House counterparts—Chairman MILLER, Banking Member MCKOWN, Congressmen HINOJOSA, and Congressman KELLER—for their commitment to working with us to find ways to reach
an agreement on issues that many thought would be impossible to achieve.

There are many other Members I wish to thank for contributing the time and effort they did to make sure we were all working toward the same goal. It is difficult to single out just a few. I have to immensely thank every single Senator who is on my committee, both Republican and Democrat. That is where we share ideas. That is where most of the changes in the bills are made. That is where people are able to get together and debate at length their ideas for how to make things better. And we do.

I thank Senators ALEXANDER, BURR, and COBYN for their comments. They have disagreements on some of the key issues in the conference report, but, nonetheless, they continued to work to reach a resolution and improve the final product.

There are many congressional staff who worked on this conference report. The breadth and importance of the issues, not to mention the length of the legislation, requires many people working many hours to get it done. Actually, it is not only many hours of work by many weeks or months—but this one has been many years.

I have always said I have a staff worthy of gold medals, and my staff who worked on this bill have shown their gold medal status once again. I first acknowledge and thank Beth Buehlmann, my educational policy director. It is no exaggeration to state that without Beth, I do not think there would be a Higher Education Act reauthorization today. That is what I hired her for several years ago. She truly was the force to start the reauthorization 3½ years ago. She worked tirelessly to ensure that we drafted a bill to reflect the changing nature of our student bodies so that we, as a nation, will maintain our status as having the best education system in the world.

Her team of Ann Clough, Adam Bridell, Kelly Hastings, and Lindsay Husnicker is comprised of remarkable individuals who brought their talents and knowledge to the forefront in this bill.

I also thank my staff director, Ilyse Schuman, and Greg Dean, Amy Shank, Randi Pojd, John Hallmark, and Ron Hindle, who also put in many hours and added invaluable input into this bill as well as the overall process.

I also thank members of Senator KENNEDY’s staff for their hard work: Michael Myers, who has been tireless on this and has provided the kind of leadership that coordinated it through some of these difficult times; Carmel Martin, the expert on education; JD LaRock; Missy Rohrbach, who, incidentally, had twin babies today, a boy and a girl—this is my understanding she is doing well. She worked while pregnant and helped to get this pregnant bill done. I also thank Erin Renner, Roberto Rodriguez, and Emma Vadehra of Senator KENNEDY’s staff.

Additionally, I thank all of the other HELP Committee staff for their hard work throughout this process, especially David Cleary and Sarah Rittling of Senator BURR’s committee staff. Also deserving thanks are our Republican Members’ staff, including Allison Dembeck, Celia Sims, Glee Smith, Karen McCarthy, Juliann Andreen, Allison Anway, John van Meter, and Beth Floyd, as well as their Democratic staff counterparts. Also, I thank Scott Raab from Senator MCCONNELL’s office and Jim Johnson in Senator SHLEY’s office for helping us work through some of the more difficult issues in the negotiations.

Also deserving my gratitude is the House staff, including Mark Zuckerman, Alex Nock, Gabriella Gomez, Julie Radocchia, and Jeff Appel with Chairwoman MILLER’s staff, and Sally Streiff, Jane Greenwell, and Amy Jones with Congressman McKEON’s staff.

Also, with any piece of legislation that we draft, we should not forget the legislative assistants who worked tirelessly to put the 1,500-page agreement together. They are Steve Cope, Molly Lothanner, Mark Koster, Kristin Romero, and Amy Gaynor, who also deserve to be recognized. It has been since the last major reauthorization. I believe it was worth the time and the effort to get it to this point. The changes we make today will affect today’s students and students for generations to come.

I yield the floor and yield the remainder of my time to the Senator from Maryland.

The PRESIDING OFFICER. The Senator from Maryland.

Ms. MIKULSKI. Mr. President, I thank the Senator from Wyoming.

We are now heading to our wrap-up. Mr. President, I ask unanimous consent that the following letters in support of the bill be printed in the Record. They range from the American Association of State Colleges and Universities, to the United States Student Association, to the Chamber of Commerce, and many others.

There being no objection, the material was ordered to be printed in the Record, as follows:

**LETTERS OF SUPPORT RECEIVED FOR HIGHER EDUCATION OPPORTUNITY ACT**

There were also other Democrats who worked on the bill on our side—two who could not speak tonight, but I acknowledge the very hard-working role of Senator OBAMA, an aggressive advocate on many of these issues, along with Senator CLINTON.

Mr. President, I ask unanimous consent that a list of the staff thank-yous be printed in the Record so we do not forget one person who helped make this legislation possible.

There being no objection, the material was ordered to be printed in the Record, as follows:

**LIST OF STAFF THANK-YOUS FOR HREA**

- Senator Kennedy: Michael Myers, Carmel Martin, J.D. LaRock, Erin Renner, Missy Rohrbach, Emma Vadehra, Jennie Fay, Shawn Daugherty, Michael Zawada, Roberto Rogers, David Johns, Jane Gates.
- Senator Enzi: Ilyse Shuman, Greg Dean, Beth Buehlmann, Ann Clough, Adam Bridell, Lindsey Husnicker, Aaron Bishop, Kelly Hastings, John van Meter.
- Chairman Miller: Mark Zuckerman, Alex Nock, Gabriella Gomez, Julie Radocchia, Jeff Appel.
- Ranking Member McKeon: Sally Stroup, Amy Jones.
- Senator Dodd: Mary Ellen McGuire, Jeremy Sharp.
- Senator Mikulski: Julia Fritfeld, Dvora Lovinger, Robin Juliano.
- Senator Harkin: Harry Mann.
- Senator Bingaman: Michael Yudin, Michele Mazzocco.
I think this bill today, tonight, will advance this whole freedom to achieve, this opportunity ladder for our young people. I am very honored to participate in it. I am very honored Senator Kennedy asked me to take on this conference. But we could not have advanced this idea without Senator Ted Kennedy.

Senator Ted Kennedy is a giant in this institution and in this country. His whole life has been devoted to access to opportunity, access to education, access to health care, that there be no barriers in the area of civil rights where people were sidelined or redlined.

So tonight, as we move to the adoption of this bill, I say to my colleagues here, I urge the adoption of this bill. I want Senator Kennedy to know many of us today, and while he has been recovering from his illness, have worn these blue armbands. They say: “Ted Strong.” Well, we know Ted is strong.

So, Ted, this is for you tonight.

Mr. President, I ask for the yeas and nays on the adoption of the conference report.

The PRESIDING OFFICER. Is there a sufficient second?

The yeas and nays were ordered.

The yeas and nays were ordered.

Ms. MIKULSKI. Mr. President, I understand that the actual vote on the conference report will occur at a time to be determined by our leadership.

So, Ted, this is for you tonight.

Mr. President, I ask for the yeas and nays on the adoption of the conference report.

The PRESIDING OFFICER. Is there a sufficient second?

The yeas and nays were ordered.

Ms. MIKULSKI. Mr. President, I understand that the actual vote on the conference report will occur at a time to be determined by our leadership.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

Mr. President, I ask for the yeas and nays on the adoption of the conference report.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the conference report to accompany H.R. 4137 be set aside; and the Senate now proceed to the conference report to accompany H.R. 4090, the Consumer Product Safety Improvement Act of 2008.

Today is a great day for American families. This bill is the first step toward revitalizing an important safety agency and restoring confidence in the safety of consumer products for years to come.

Media reports and consumer advocates have called this bill the most important consumer product safety legislation in a generation. I call it legislation that is long overdue. The Consumer Product Safety Commission—Commission—is a small agency with an exceptionally broad and important charge, as the name suggests, the protection of consumers, particularly children from dangerous products. The Commission is responsible for more than 15,000 products—everything from infant cribs to all-terrain-vehicles—are safe to use. Every year, more than 28,000 Americans die and an additional 33 million are injured by consumer products. These numbers are too high, and an effective CPSC with increased funding, staff, and authority is essential to reducing these losses.

I am very pleased that many of the key provisions which originated in the Senate, such as the searchable database of all-terrain vehicle safety standards, and all-terrain vehicle safety standards were included in...
the final bill. Several of these initiatives faced significant initial opposition from the administration, industry, and indeed, from the chair of the Commission itself, and I am pleased that we have come together in the House and the Senate to overcome these challenges.

H.R. 4040 restores needed resources and authority to the Commission. Starting in fiscal year 2010, the bill would authorize $626 million over a 5-year period to provide the agency the manpower and the technical resources that are needed to police a complex consumer marketplace. The legislation would restore the CPSC to a full complement of five Commissioners in order to expand expertise, maintain continuity and avoid the losses of quorum that have plagued the agency in recent years.

In addition, State attorneys general gain clear authority to bring civil actions to seek injunctive relief for clear violations of statutes enforced by the CPSC. Creating a joint enforcement relationship with the states has proven to be successful in the area of consumer protection, and this collaboration would provide CPSC a strong partner to help protect American families in a manner that I believe is needed.

H.R. 4040 would require manufacturers to use independent labs to test children’s products and to certify their compliance with mandatory safety standards, including the mandatory toy safety standard established in the bill. This new toy standard would provide the CPSC with necessary enforcement tools to keep dangerous toys out of the hands of children.

Essential and groundbreaking provisions that will improve the health of every child include the bans of lead and certain phthalates from children’s products. Dangerous substances have no place in children’s products. This legislation provides a significant shift in protecting children and children have no business being used as guinea pigs or becoming victims of the expediency of the manufacturing process.

Our bill also would provide better information to consumers and the CPSC. It would create a searchable, publicly available database of information from nonindustry sources, such as hospitals, child care providers, public safety agencies, and consumer reports about products. The database would provide consumers with potentially life-saving information, in an organized and timely fashion, which would better equip them to assess product safety risks and hazards. To aid in the Commission’s enforcement mission, H.R. 4040 would provide whistleblower protections for employees of manufacturers of consumer products when they find and report violations of consumer product safety laws.

Recognizing the differences between the House and the Senate was no easy task, but I had no doubts that the work of the committee would come to a timely and successful conclusion. The Senate conferees worked countless hours since the passage of the Senate amendment last March. Senator Pryor authored the original Senate bill reported by the Commerce Committee, which became the basis of the Senate amendment. H.R. 4040. His stewardship and attention to the details of this bill were essential to negotiating the conference report with the House. I also commend my good friend Senator Ted Stevens. Without his guidance and encouragement, the Senate bill would not have passed, and we would not have this groundbreaking legislation before us today.

I would also like to recognize several Senators who were not conferees for their contributions to the original Senate amendment and for working with the conference committee on the provisions they championed in the Senate. Senator Nelson was the leader in crafting mandatory toy standards and the only Senator to testify in support of the mandate in the Senate bill. Senator McCaskill’s work on the whistleblower and the inspector general provisions helped convince the conferes to provide whistleblower protections to independent third party consumer products sector. Finally, Senator Feinstein’s amendment to ban certain phthalates from children’s products was the foundation of the compromise provision that was ultimately accepted by the conference.

I thank my friend Congressman John Dingell, the chairman of the House Energy and Commerce Committee, who has shown his legislative skill and care for the American people for more than 50 years. His partnership with me this Congress has led to the passage of two monumental bills. We worked together to increase fuel economy standards last December, and to reform the Consumer Product Safety Commission today.

The committee staff have labored on a nonstop basis since May. I want to thank David Strickland, Alex Hoehn-Saric, Jana Fong-Swamidoss, Mia Petrin, and Jared Bomberg of my Commerce Committee staff for a job well done. I would also like to thank Paul Nagle, Rebecca Hooks, and Megan Beechener of the Republican Commerce Committee staff, and Lloyd Ator and Christopher Knox of the Commerce Committee’s Office of Legislative Counsel.

I also wish to recognize the efforts of the following staff of the Senate conferrees: Erik Olson, Bridget Petruszok, Price Feland, Kate Nilan, Tamara Fucile, Brian Hendricks, and Peter Phipps; the House Energy and Commerce Committee staff; Consuela Washington, Judy Bailey, Christian Field, Andrew Woelfling, Valerie Baron, Brian McCullough, Will Carty, and Shannon Weinberg; and House legislative counsel Brady Young.

I would thank CPSC Commissioner Thomas Moore and Michael Gougisha and Pamela Weller of his staff for their assistance.

Mr. President, I urge the adoption of this conference report, and I look forward to the President signing this landmark measure into law.

Mr. Stevens. Mr. President, I thank my house and Senate colleagues for their hard work and dedication. In these past months we have worked for a bipartisan, bicameral consumer product safety bill. This is a product of a bipartisan effort in both chambers and I am proud to have been a part of it. This final product will provide essential resources to the CPSC badly in need and help ensure the safety of our children from hazardous products.

The number of toys coming from overseas has increased greatly, while the resources of the Consumer Product Safety Commission have decreased. The result is unsafe products making their way to our store shelves and into our homes. We all remember the wave of recalls last year. Passage of this bill will help assure consumers that products are safe.

In addition to these increased resources, the CPSC will have greater authority to punish violators of its statutes. The amount the CPSC can collect in civil penalties for a single violation will be raised to $100,000, with a maximum penalty cap of $15 million. And, as a way to ensure compliance, state attorneys general will have authority to enforce particular violations of CPSC statutes, including violations of consumer product safety rules, regulations, standards, and bans, as well as product recalls.

I am pleased that the all terrain vehicle (ATV) provision that I included in the Senate-passed bill remains in this final bill. For many Alaskans ATVs are the primary means of transportation in the summer. More than a third of the ATVs sold in 2006 came from overseas—many ATVs from overseas do not meet our safety standards. ATVs injured over 146,000 people in 2006, and approximately 39,000 of those injuries were to children under 16. This bill requires all ATVs, both foreign and domestic to be subject to the same safety standards.

Additionally, the bill establishes tough lead standards and calls for safety rules for durable infant and toddler products such as strollers and cribs. Selling, reselling, offering or providing for use any of these products not meeting our new safety standards will be illegal. Consumers will also have the option of registering their purchases so they can be notified in the event of a recall.

Consumers are purchasing more products over the internet or through catalogues, and it is sometimes difficult to ascertain a product’s dangers by the photo online.
Advertisements providing a direct means of purchase will be required to contain a cautionary statement. By including these statements, consumers, will be able to make an informed decision when purchasing products for a young child.

I congratulate everyone who worked so diligently on this bill. It took some time, but we have a solid bill to send to the President that will better protect our children and give the Consumer Product Safety Commission the resources it needs.

Ms. COLLINS. Mr. President, I am pleased that the Senate is taking up the conference report on legislation to accomplish the urgent task of preventing dangerous consumer products—especially those intended for children—from entering the country or reaching store shelves. The conference report contains a wide variety of measures that, taken together, deserve our support because they will greatly bolster our Nation’s ability to protect children from potentially lethal hazardous goods.

I want to commend the chief sponsor of the bill, Senator Pryor, for his leadership on this issue. It has been a pleasure to work with him.

We are all aware of last year’s alarming and, too often, tragic stories of product hazards and recalls that demonstrated the need to strengthen protections for consumers, particularly children. Unfortunately, those dangers continue. In 2006, the Consumer Product Safety Commission, CPSC, recalls have included 19,000 baby rattles that present choking hazards, 685,000 wireless helicopter toys whose batteries can catch fire, and 91,000 horseshoe-shaped magnet toys whose coating contains high levels of lead.

Lead, as we know, is a particular concern because of its use in plastics and paints can expose children to the risk of serious nervous system damage and other health effects. The committee’s investigation made it clear that our inspector inspections regime must target and intercept foreign products that fall below U.S. safety standards. The committee found that Customs and Border Protection currently lacks the authority to seize and destroy dangerous imported products even if the agency suspects that an unscrupulous importer turned away at one port might attempt to bring these products in through another U.S. port.

The committee’s investigation also revealed that coordination and information sharing between CBP and CPSC were often ad-hoc—providing CBP with limited information and CPSC without the ability to target shipments that are more likely to contain dangerous goods.

The provisions that I authored, and worked with Senators Inouye, Specter, and Pryor to include in the bipartisan reform bill that the Senate passed, specifically target problems with unsafe imports by ensuring that CPSC and U.S. Customs and Border Protection work effectively together to keep unsafe consumer products out of our country. These provisions: authorize CBP to seize and destroy dangerous consumer products entering our ports, long before they reach store shelves or our children’s homes; enhance information sharing between CPSC and CBP so that inspectors at our Nation’s ports can focus their resources on the most risky shipments, targeting products, manufacturers, and importers with poor consumer-safety records; task CPSC with developing a comprehensive risk assessment tool to help CBP quickly evaluate imported products that might violate our Nation’s safety standards; and direct the CPSC to develop a plan to ensure that Commission employees are assigned to the National Targeting Center at CBP to increase interagency collaboration in evaluating the potential risks of inbound shipments for potential safety issues.

I am pleased that the conferees retained these provisions in their report. They will help the CPSC and Customs and Border Protection identify dangerous products that enter our ports and prevent them from reaching American homes.

Other measures in this conference report—increased staffing and funding for the CPSC, tougher civil and criminal penalties for violations of safety laws, a ban on reselling recalled products, enhanced whistleblower protections, safety certifications, and product tracking labels—will also strengthen the Consumer Product Safety Commission’s ability to protect American consumers.

I urge my colleagues to adopt the conference report.

Mr. SUNUNU. Mr. President, I rise today in support of the conference report to H.R. 4040, the Consumer Product Safety Improvement Act. As many of my colleagues know, the Consumer Product Safety Commission, or CPSC, is responsible for protecting children and families against unreasonable risks associated with 15,000 consumer products. Over the past year, Congress has worked to improve the ability of the CPSC to ensure the products in their jurisdiction are safe for children and families across the Nation. The legislation here will provide increased funding and expanded authorities for the CPSC to accomplish their mission.

This conference report is a comprehensive measure that reflects the give and take of each Chamber and between both Chambers. It is a compromise measure that reflects the give and take of each Chamber and each party. It is a bipartisan measure, demonstrated by the fact that the House Representatives voted 424-1 on Wednesday in favor of this conference report.

Among the many items in this report, it takes a tough stand on lead in children’s products by banning lead in products made for children 12 and younger in 6 months, setting a maximum threshold of 60 parts per million, ppm, which is reduced over time to 100 ppm after 3 years.

The conference report includes a significant increase in civil fines, with a maximum fine of $15 million, more than 8 times the current maximum, and it raises the per violation penalty cap to $100,000 from the current level of...
MR. PRESIDENT, the American people use every day are the safest possible. Dangerous toys and household products that are not made in the U.S. can be imported into the United States and enter our homes without the CPSC even knowing they exist. 

Last year, the CPSC was shocked when it learned the millions of pet toys sold in the United States contained high levels of lead. At least seven children died as a result, and the CPSC has since recalled thousands of toys. It is unacceptable that we cannot ensure the safety of the products we import.

$9,000. It also includes language to consider the economic impact on small businesses when levying a fine. Further, it toughens criminal penalties on bad actors who commit “knowing and willful” violations of product safety laws, which could be dispensed for up to 5 years in prison, fines, or both.

The conference report establishes testing and certification requirements for children’s products made for those ages 12 and under before they are sold in the United States. It accredits third-party labs to do such product testing, including qualified proprietary labs.

The conference report includes a searchable consumer database that the CPSC will be required to maintain for the next 2 years. It will contain minimum reporting requirements for data to be posted, including: a description of the product; identification of the manufacturer; a description of the harm related to the use of the product; the submitter’s contact information; and verification that the submitted information is true and accurate. Companies would have ten business days to review whatever information is slated to go on the database, and if the company disagrees with the information, necessary, the CPSC would remove inaccurate material and redact confidential information.

The report gives authority to the CPSC to pick the recall remedy that a business must follow, to either replace the product, repair the product, or refund the consumer’s money. It also makes it illegal to sell a recalled product, or export a recalled product without explicit permission. Further, it requires tracking labels for children’s products and packaging where it is practicable, to make sure products are identifiable for more effective recall purposes.

Unlike the report, all foreign and domestic-made all-terrain vehicles, or ATV’s, will be required to meet the same mandatory safety standards. It also bans the sale of new 3-wheeled ATV’s in the United States.

One of the contentious items dealt with in the conference, a compromise was reached earlier this week to ban three specific phthalates, and place an interim ban on three other phthalates while a formal health assessment is done. Once complete, the CPSC will consider the findings of this assessment and conduct a rulemaking to see if the interim ban should stay in place or be removed.

Finally, the conference report provides a significant increase in the amount of funding available to the CPSC. Beginning in fiscal year 2010 and running through fiscal year 2014, the agency is authorized to receive a total of $82 million in new funding. If needed for travel is included in the overall funding level to meet the ban placed on travel paid for by outside groups. Given the new and expanded authorities the CPSC will be required to undertake, this level of funding will meet those needs.

Mr. President, the American people expect the CPSC to protect them from dangerous toys and household products and ensure the consumer goods they use every day are the safest possible. Congress is giving them the tools to meet that goal.

I would like to extend my thanks and congratulations to Senator Pryor, Boxer, Klobuchar, Stevens and Hutchison for their hard and due diligence in putting together a measure that should enjoy the support of a majority of our colleagues. Mr. LEVIN. Mr. President, I will vote for H.R. 4040, the Consumer Product Safety Improvement Act. The conferees have reached a responsible compromise that makes important reforms to the Consumer Product Safety Commission, CPSC, that are long overdue that will make products safer for consumers and children.

This bill takes important steps to shore up a weak and ineffective Consumer Product Safety Commission. As a grandfather and consumer, I am appalled at the lack of resources and enforcement the CPSC has to combat its inability to adequately protect our children, our food supply and the general public from harmful or contaminated products.

We can and should be doing much more to protect the American consumer. As was recently underscored by the alarming number of children’s products with high lead content, contaminated pet food, and defective imported tires, there are a lot of cracks in the systems that were supposed to be watching out for consumers.

We need to know our children’s and grandchildren’s toys are safe. We need to know that the food we import is not tainted with harmful chemicals. We need to know that products we buy will not harm us or our children. I believe it is the government’s basic responsibility to protect the public.

Those who work for the companies that make these products may often be in a position to detect and prevent serious problems or injuries before they occur. I am pleased that this bill includes important protections for corporate whistleblowers that will encourage employees to come forward about violations and defective products without the fear of retaliation by their employer.

Many of the defective and contaminated products are imported. Even with its current limited resources and reach, CPSC recalled approximately 150 tainted products from China in 2007 including tires, toys, baby cribs, candles, bicycles, remote controls, hair dryers, and lamps. Imagine how many more contaminated or defective products are slipping through the cracks and reaching American consumers without being detected.

We are being deluged by cheap imports from China and elsewhere. We should at least be making sure the products we import are not contaminated or dangerous. That is why I wrote to President Bush requesting that his administration investigate dangerous products that have been imported from China. We need to strengthen our agencies and laws so that products that do not meet our health and safety standards are stopped at our borders. To do this we need to give the CPSC the necessary tools and resources, including more manpower to adequately inspect imports.

This bill makes the legislative changes needed to give the CPSC the necessary tools and resources to improve on its past poor performance and reassure consumers that there will be more oversight of the marketplace in the future.

This bill will: increase overall funding for the CPSC and give CPSC staff the tools to better prohibit the use of dangerous phthalates in children’s toys and child care articles; streamline product safety rulemaking procedures; ban lead beyond a minute amount in products intended for children under the age of 12 and require certification and labeling; increase inspection of imported products; and ban the sale of recalled or banned products to cross our borders; increase penalties for violating our product safety laws; strengthen and improve recall procedures and ban the sale of recalled products; and give the CPSC to provide consumers with a user-friendly database on deaths and serious injuries caused by consumer products; and ban 3-wheel all terrain vehicles, ATVs, and strengthens regulation of other ATVs, especially those intended for use by youth.

The legislation has the strong support of consumer, scientific and public health organizations. In a letter to Senate leaders, key representatives of these groups called H.R. 4040 "ground-breaking measure, which will help ensure that the Consumer Product Safety Commission (CPSC) has the resources and regulatory authority it needs to protect consumers and repair our long-broken product safety net.”

Organizations supporting the bill include the following, among others: Thomas H. Moore, Consumer Product Safety Commissioner; Alliance for Patient Safety; American Academy of Pediatrics; American Library Association; American Association of University Professors, AZ Conference; American Library Association; Circumpolar Conservation Union; Coalition for Civil Rights and Democratic Liberties; Consumers Union; Consumer Federation of America; Doctors for Open Government; DoorTech Industries, Inc.; Ethics in Government Group, EGG; Federation of American Scientists; Federal Employees Against Discrimination; Focus On Indiana; Fund for Constitutional Government; Georgians for Open Government; Government Accountability Project; HALT, Inc.—An Organization of Americans for Legal
reform was not up to the task. This breakdown in authority was made crystal clear by the fact that the CPSC had only one full time employee—who worked in this cramped, antiquated lab—responsible for ensuring the safety of our children's toys.

Quite frankly, I was outraged by this—and last summer I introduced S. 1833, the Children's Product Safety Act, which would, require third-party testing of toys and other children's products.

The conference report also keeps in place the changes that the H.R. 4940, the Consumer Product Safety Improvement Act of 2008, makes to ensure that America's consumers are safe. However, one of the main goals of the bill is to provide the Consumer Product Safety Commission, CPSC, with the tools and resources it needs to protect American consumers. Although this conference report does take some steps towards that end, it simultaneously hurts businesses without providing commensurate benefits to consumers. For this reason, I will vote against the conference report.

The CPSC was created in 1972 to establish a single set of product safety regulations for manufacturers and distributors to follow throughout the country. This conference report, however, includes a section that would expand the power of state attorneys general to bring actions on behalf of their own states against businesses they believe violate federal consumer protection statutes mandated by the CPSC. Giving 50 attorneys general discretion over consumer product safety laws would lead to 50 different interpretations of the law, and, thus, a confusing patchwork of safety standards that would not be efficient, effective, or fair. Such a wittingly undermines the effectiveness of the CPSC to enforce uniform, national policies. Moreover, in recent years, some State attorneys general have used their positions to garner national attention to advance their careers. I am worried that this conference report leaves enough discretion to the state attorneys general to enforce CPSC rules that would tempt some to file frivolous lawsuits that could ultimately undermine the effectiveness of the CPSC.

The conference report also keeps intact a requirement for the CPSC to create a public database of product-related complaints. This public database provides the opportunity for parties to post false information online, and allows minimal oversight by the CPSC or an opportunity for manufacturers to defend themselves. Inaccurate information about a company's product on a government-endorsed website could irreparably damage a company's reputation, and I cannot support such a provision.

I also oppose the section in the conference report that would extend new whistleblower protections to millions of employees of consumer product manufacturers, distributors, and retailers. Under this bill, once an employee notifies the CPSC of an action he "believes to be" a violation of a consumer product safety regulation, the employer faces a fine if it discharges or takes any negative action against the employee. Including such a provision would grant any disgruntled employee a powerful incentive to report erroneous or unsubstantiated information as a way of providing de facto authority to in order to insulate himself from unrelated disciplinary actions. There is no reason for such a provision except to dramatically unbalance the employee-employer relationship, and the failure to fix this section after repeated attempts caused me even greater concern that it has little to do with legitimate whistleblowers and more to do with hamstringing employers from dealing appropriately with problem employees.

It is unfortunate that I am forced to vote against this conference report because I do believe the CPSC's resources ought to be bolstered. However, this conference report carries with it too many of the problems that existed when the bill left the Senate. Mr. NELSON of Florida. Mr. President, I rise today in strong support of the H.R. 4040 conference report.

The issue of consumer product safety—and particularly the safety of toys and other children's products—has long been an important issue for me. Over the last few years, however, we've seen ample evidence that the Consumer Product Safety Commission's authority to protect the public was not up to the task. This breakdown in authority was made crystal clear by last year's "summer of recalls"—when we saw recall after recall of children's products, including:

- Children's jewelry and toys covered in lead and with detachable magnets that can cause fatal intestinal obstructions. Stuffed animals with small parts that can detach and become a choking hazard. A children's craft kit containing beads that—when swallowed—metabolized into the same chemical compound as GHB, the date rape drug. Unfortunately, I saw some of the impacts of harmful toys first hand. Last July, I visited with a team of emergency medical workers in Tampa who treated children with intestinal obstructions due to magnets that had detached from toys. In some cases, the doctors noted that the intestinal obstructions were so severe that the children had to undergo surgery to remove the blockages.

Invasive surgery like this is scary for most adults—so you can only imagine what it was like for a 4- or 5-year-old to go through something like this.

That August, I also visited with a family in Jacksonville who left two of their children in a room with a disco ball toy. The disco ball toy later overheated, caught fire, and emitted enough carbon monoxide to kill both children.

After visiting with the families of these children, I also learned first hand about the weaknesses in our product safety laws—and the general failure of leadership at the CPSC. This regulatory breakdown was highlighted by the fact that the CPSC had only one full time employee—who worked in this cramped, antiquated lab—responsible for ensuring the safety of our children's toys.

Quite frankly, I was outraged by this—and last summer I introduced S. 1833, the Children's Product Safety Act, which would, require third-party testing of toys and other children's products.

Taken together, these provisions will ensure that toys and other products intended for children 12 and under will be tested by a rigorous third-party screening process that is continuously updated to address new and emergency hazards. And that is a big victory for America's families. I want to thank the members of the conference and the staff of the Senate Commerce Committee for all of their hard work on this report.

This legislation will help ensure that we never face another "summer of recalls." I urge my colleagues to support this bill and get it to the White House as soon as possible.
the structural soundness of bridges, politicians were more concerned with their earmarks, and diverted funds away from bridges such as the one in Minnesota for their own political benefit.

In another example of Government incompetence, the census is currently in grave peril of not completing its constitutional duty effectively and on time. This speaks volumes about the inefficiencies of our Government, as we have the ability to prepare for the census with over two centuries of experience to draw upon to execute this responsibility.

This bill is a perfect example of politicians rushing to legislate on a problem that really isn’t there in order to pat themselves on the back to try to curry favor with their constituents in an election year. The truth is the paranoia and hysteria regarding consumer product safety is not proportional to the reality of the situation. Nancy Ord, Chairman of the Consumer Product Safety Commission, stated in January, “Last year was marked by intense media coverage and a series of toy recalls in particular . . . the coverage reached near-hysteria level. And then, of course, some politicians, sensing a possible political issue, jumped on the bandwagon. While there has been a rise in product recalls, in a sense, the recalls are themselves a positive sign, as dangers identified by manufacturers and products were removed from the market. More importantly, these product recalls have not translated into dire health consequences, as there has been little evidence of any deterioration in overall product safety. There were few if any reports of consumer injuries from the recalled products. Although the number of injuries from toys increased somewhat in 2006, injury rates generally have decreased since 2001. Also, lead poisoning cases are at historical low levels.

Regardless, many of the companies that fall under the CPSC umbrella have raised the levels of their own self-policing. Wal-Mart has announced that this month it will require independent lab testing for all new toys as well as those it reorders. Mattel and others have ended the use of certain kinds of batteries and of toy recalls in particular . . . the coverage reached near-hysteria level. And then, of course, some politicians, sensing a possible political issue, jumped on the bandwagon. While there has been a rise in product recalls, in a sense, the recalls are themselves a positive sign, as dangers identified by manufacturers and products were removed from the market.

More importantly, these product recalls have not translated into dire health consequences, as there has been little evidence of any deterioration in overall product safety. There were few if any reports of consumer injuries from the recalled products. Although the number of injuries from toys increased somewhat in 2006, injury rates generally have decreased since 2001. Also, lead poisoning cases are at historical low levels.

Another free giveaway to trial lawyers is the creation of a consumer product safety database. The database is estimated to cost $10 million, which accounts for over 10 percent of the Commission’s budget. This section requires the CPSC to establish a fund to post any complaint, regardless of accuracy or merit, from consumer groups or individuals.

While on the surface the database appears to aim to educate and warn consumers about potential product defect or harm, the reality of it is far from effective. It is highly doubtful that many consumers will know about or even care to peruse a Government Web site to validate whether a product is safe prior to purchase, especially considering the claims are not verified prior to posting.

What the database does provide in much more practical terms however, is a centralized, consolidated data source where law firms, unions, and lobbyists are given access to cherry-pick consumer reports for potential lawsuits. There is already a consumer product database, called lawcash.com, that consolidates consumer product complaints.

The Web site brags that its database provides consumers “the information you need and the access you deserve to find out if you are eligible to claim your share of billions of dollars distributed yearly through thousands of class action lawsuits.”

This reveals the true motives for such “consumer product databases,” and accordingly the Government has no role in serving as a conduit of information that promotes hit job lawsuits.

This cumbersome endeavor will divert funds and resources from efforts that actually go toward consumer safety and redirect it toward maintaining a Web site that will only contain inflammatory information that unions and lawyers can utilize to sue businesses. The bill drastically increases maximum civil penalties more than tenfold and on consumer safety three times in twentyfold, subjecting each product that wrongfully enters the market to a $100,000 fine. The threat of a $100,000 fine will cause many small manufacturers and retailers who commit only minor violations to declare bankruptcy.

Additionally, faced with these hefty fines, this provision could erode the healthy and productive relationship between businesses and the Commission. With bankrolled businesses would be much less inclined to voluntarily report violations and as a consequence would not receive the proper guidance to fix the problem, subjecting the business and its employees to potential harm.

While allowing increases in frivolous lawsuits and drastically hiking up the fines for businesses may allow Senators to tout to the public that they are working on consumer safety, actions are unlikely to improve the situation, and more importantly, the unintended consequences would be to increase the cost of doing business, impairing economic and job growth at a time when our economy desperately needs economic and job growth.

Mr. SCHUMER. Mr. President, I ask today to speak on the Consumer Product Safety Improvement Act of 2008. I recommend the committee for outlining the differences between the House and Senate passed versions of this bill that will deliver to the American people strong and much needed reform to consumer product oversight. I was proud to be a cosponsor of the Senate version. I would like to take this opportunity to congratulate Chairman Inouye for his leadership and Senator Pryor for his extraordinary work in crafting this outstanding, bipartisan bill.

Over the last several years the Consumer Product Safety Commission has become a shell of its former self, with a noticeable void in leadership. Dangerous goods and toys have fallen into
the hands of our most vulnerable population while the CPSC has looked the other way. This act, however, will prevent the CPSC from shirking its responsibility and ignoring its obligation to make America safe.

The bill will provide the Consumer Product Safety Commission with the authority and resources it needs to be more effective in its critical mission to protect consumers. Quite frankly, the current product safety system is broken. The CPSC is in desperate need of reform. Too many unsafe goods are reaching the shores of the United States. Too many dangerous products are finding their way into the hands of American consumers, and all too often, young children.

We worry about our kids when they are in class, when they are walking or driving home alone, even when they surf the Internet. We should not have to worry that the toys they play with might be hazardous to their health, or god forbid, even fatal.

The effectiveness of the CPSC has been severely undermined by years of budget and personnel cuts and, as a result, has been unable to keep up with globalization of the marketplace. This bill will reverse the trend and give the CPSC the budget and the tools it desperately needs to again become an effective force for consumer protection.

Protecting consumers, and especially children, is a priority, and the bill takes a tough approach to products that might threaten their health and safety. Imports of untested children’s products will be prohibited, and mandatory third-party testing of children’s products will be implemented. Tracking labels for children’s products will help parents tie safety recalls and alerts to prior purchases. Children’s products containing lead and certain plastic additives will be banned. A new Chronic Health Advisory Panel will be created to review the sale of recalled products will be prohibited.

The CPSC must do a better job of getting hazardous products off the shelves and out of consumers’ reach and these provisions will give the CPSC the tools to do just that. Manufacturers, importers, and retailers will be required to do their part as well or face serious consequences. The bill provides for increased criminal and civil penalties for those who knowingly and willingly violate product safety laws.

It also gives State attorneys general the means to enforce Federal safety standards and get dangerous products off the shelf. Protections for whistleblowers are also included in the bill, so that employees who identify dangerous products along the supply chain can come forward with vital health and safety information without fear of retribution.

These and other provisions of the CPSC Improvement Act is in the public’s interest and it responds to the need of keeping consumers informed and safe from dangerous products. The bill will also ban industry-sponsored trips, which have the perception of unduly influencing CPSC officials.

Passage of this bill is vital if we hope to rebuild, reform, and revitalize the CPSC. The CPSC must be re-equipped to do its job of enhancing product safety and protecting kids and consumers from unsafe products.

The Federal Government must again become an effective force for consumer protection. The Consumer Product Safety Improvement Act is a first step— as Chairman Inouye said at that.

Ms. BOXER. Mr. President, in a Senate where recently it has been so hard to get things done, Democrats and Republicans have come together in a bipartisan manner to produce a strong conference report that is a victory for children and families.

I have a message for American parents everywhere who are concerned about the safety of their children’s toys. “We have heard your concerns, and today, Congress has acted.”

The Senate has finally Reapproved landmark consumer legislation to protect our kids from dangerous children’s products and hazardous substances.

I want to thank Chairman INOUYE, Vice-Chairman STEVENS, Senator Pryor for their hard work and dedication to this important bill.

As both a parent and a grandparent, I have been incredibly distressed by the seemingly endless stream of reports about dangerous products and dangerous children’s toys and products.

Consumers Union dubbed 2007 “The Year of the Recall” after 45 million toys and other children’s products were recalled. Recalls jumped 22 percent for the 8-month period that ended June 30 of this year.

Clearly, the Consumer Product Safety Commission has not been able to keep pace with the growing market of consumer products many of which are now made abroad.

For too long we have asked this agency, which has a staff of approximately 400 charged with overseeing the safety of 15,000 consumer products, to do too much with grossly inadequate resources and enforcement tools.

The Consumer Product Safety Improvement Act of 2008 addresses those resource problems and finally brings the CPSC’s enforcement powers in line with those of other Federal agencies charged with safeguarding the public.

The Consumer Product Safety Improvement Act of 2008 includes a strong ban on lead and phthalates, requires testing of all children’s products that must meet mandatory toy standards, and for the first time, includes a public searchable national database on the CPSC website of all consumer complaints filed with the CPSC so consumers can be better informed about dangerous products.

The bill also strengthens the Consumer Product Safety Commission’s authority to recall products, increases enforcement authority for Attorneys General, includes stronger civil and criminal penalties for violators, bans industry sponsored travel, and provides whistleblower protections for employ- ees of manufacturers, private labelers, retailers, and distributors.

I want to thank the conferees for including two provisions I authored in committee.

The Labeling Requirement for Advertising Toys and Games requires products sold over the Internet or in catalogues to list any cautionary statements such as choking warnings, in their advertisements.

These labels would normally be visible when the products are purchased in the store but oftentimes are not visible to the consumer when sold over the Internet or in catalogues.

My second provision requires manufacturers of durable infant or toddler’s products to provide consumers with postage-paid registration forms with each product so consumers can be better informed if the product they bought is actually recalled.

This provision was based on a bill by Congresswoman JAN SCHAKOWSKY called the Danny Keysar Child Product Safety Notification Act.

Danny Keysar was a 16-month-old child who died when his Playskool Travel-Lite portable crib collapsed—5 years after the CPSC had ordered it off the shelves because it was dangerous. Danny was tragically the fifth victim to die due to the faulty design of this product and a sixth child died 3 months later.

From 1990 to 1997 more than 1.5 million portable cribs with a similar dangerous design were manufactured. A total of 17 children have been killed by these types of cribs.

Neither Danny’s parents nor a caregiver at the daycare where the accident occurred were aware of the recall. State inspectors who had visited the daycare a week before were not aware of the crib’s recall.

Our provision will provide parents with a method for receiving these vital recall updates that could save their child’s life.

I was also pleased to work closely with Senator KLOBUCHAR, Representative WAXMAN, and other conferees to get a strong ban on lead in toys and other children’s products to protect our kids from dangerous lead contamination.

I also want to thank Chairman INOUYE and Senator Pryor for their leadership and support on this issue.

We all know that lead poisons the brain and nervous system, can decrease IQs, and cause behavioral problems, and that it is especially dangerous to children.

Let me tell you about Colton Burkhart, a 4-year-old boy from Oregon on a family camping trip who became violently ill from lead poisoning after he swallowed a medallion from a necklace brought in a 25-cent toy vending machine. The medallion turned out to be 39 percent lead, which had elevated his blood lead level to a potentially
fatal level of 123 micrograms of lead per deciliter of blood, more than 12 times the CDC's lead poisoning level of concern.

Jarnell Brown, another 4-year-old boy was brought to the hospital emergency department in Minnesota. Jarnell's mother thought he was choking. Believing that the child had a stomach virus, he was released. The next day, Jarnell was rushed to the hospital after having suffered a seizure and respiratory arrest. Jarnell later died. An autopsy revealed that he died of acute lead poisoning from a heart-shaped charm from a bracelet that his mother had gotten free with her Reebok sneakers. The charm was found to contain 99.1 percent lead. Reebok recalled 300,000 bracelets worldwide as a result.

The many recalls of lead toys and products over the past year have highlighted the need for action.

This legislation puts into place a ban on lead in children's products that gets increasingly stringent over 3 years, and that will help ensure that we protect our kids today and in future generations from the scourge of lead poisoning.

In addition, Senator FEINSTEIN, Representative WAXMAN and I successfully fought, shoulder-to-shoulder, for a ban on dangerous phthalates in many children's products.

Phthalates have been banned from many children's products in the European Union since 1999, and at least nine other countries have followed suit in an effort to better protect children from harmful health effects of these chemicals.

My home State of California was the first in the Nation to prohibit phthalates in many toys and child care products, and Washington State and Vermont have taken similar actions.

In addition, major retailers such as Wal-Mart, Target, and Toys "R" Us have already begun to take phthalate-containing products off their shelves.

China, which manufactures 85 percent of the world's toys, reportedly has created a manufacturing line for products intended for export to nations that ban phthalates.

This legislation will permanently ban three of the most dangerous phthalates, DEHP, DBP, and BBP from all children's toys and child care articles.

In addition, it imposes an interim ban on three other dangerous phthalates, DINP, DIDP, and DnOP, in children's toys that can be put in the mouth, and in childcare articles. That ban can only be altered after a detailed scientific review.

Of course, nothing in this bill undercuts the Commission's authority to go beyond the specific products listed in this section's ban, or the specific phthalates listed in the ban, in any additional action the Commission takes under its regulatory authorities.

States such as California that have been leaders in protecting children by restricting toxic phthalate alternatives, are protected.

I also want to thank the conference for working with Congressman WAXMAN and myself to ensure that strong laws related to consumer products, such as California's Proposition 65, are so pleased to see the final conference report clarifies that State and local toy and children's product requirements in effect before the date of enactment of this legislation are not preempted.

This bill is so important to the health and safety of our children and families. I want to again thank my colleagues and Senate side for all of their efforts on this legislation.

We can't risk one more child's injury or tragic death due to faulty toys or children's products, and we believe that the President has agreed to sign this legislation.

Mrs. FEINSTEIN. Mr. President, I rise in support of the Consumer Product Safety Improvement Act of 2008. This legislation makes a number of long overdue changes and improvements in the Consumer Product Safety Commission and their ability to protect children and other consumers. It will impose mandatory toy safety standards, have current voluntary standards; create an online database, which parents and consumers can search for reports of safety problems; provide whistleblower protections to employees of manufacturers, retailers and distributors; and promote prompt reporting of any safety hazard; and authorize a much needed funding increase for the Consumer Product Safety Commission to ensure that these reforms are effective.

Most importantly, this legislation bans the use of six phthalates in many children's products and child care articles. It will ban the use of more than .1 percent of three phthalates—DEHP, DBP, or BBP—in toys for children ages 12 and under and childcare articles for children ages 3 and under; and place an interim ban on the use of more than .1 percent of three additional phthalates—DINP, DIDP, and DnOP— in any toy that can be placed in a child's mouth or a child care article for ages 3 or under.

The Consumer Product Safety Commission will convene a Chronic Hazard Advisory Panel, CHAP, to fully examine the effect of phthalates and any phthalate alternative. After this study, they will determine whether the interim ban should remain in place.

I believe they will find that the ban is essential to the protection of children's health.

Let me say, it is about time. The United States is often behind the rest of the world when it comes to chemical policy. The same has been true for phthalates. These chemicals have been restricted in at least 31 nations, including European Union—27 countries—Argentina, Fiji, Japan, Korea, and Mexico.

It took action from three States—California, Washington and Vermont—before we have reached this point.

It took voluntary action from the country's largest toy retailer: Wal-Mart, Toys "R" Us, and Target, all of which have announced that they will stop selling products that contain phthalates.

With the passage of this legislation, parents throughout this country will have the same assurances as parents in the E.U., in Argentina, in Japan, and all of these other countries. They will be sure that the toys they give their children do not contain a dangerous product.

And make no mistake, these chemicals are dangerous. When children chew on toys filled with phthalates, these chemicals leach from the toy, and into their bodies. Phthalates have been linked to a variety of reproductive defects.

The science on phthalates is still evolving. But today, we are acting out of precaution: removing potentially dangerous substances from products until they are shown to be safe.

Our current system for dealing with chemicals requires that regulators show that a chemical is dangerous before it can be removed from the market. We believe that if a chemical harms children, that burden should be placed on the manufacturers to prove to us that the chemicals they want to put in everyday items are safe. Our children should not be guinea pigs for untested chemicals.

The interim ban on three phthalates marks a departure from this longstanding "use chemicals first, ask questions later" approach. These chemicals will be permitted back into products until they are shown to be safe.

This is a sea change in our Nation's chemical policy, and backwards, we faced strong opposition from industry.

Many people contributed to this victory here today, and I would like to mention a few.

I would like to thank Chairman INHOFFEN, Senator STEVENS, and Senator PRYOR for their steadfast support throughout this process.

This would not have been possible without my home State colleagues, Senator BOXER and Congressman WAXMAN.

They supported this from the beginning, and their work ensured that the best product possible emerged from conference.
David Strickland, Alec Hoehn-Saric, and the Commerce Committee staff have been invaluable. They worked long nights and weekends to reach an agreement on this provision, and I appreciate it.

Kristen Wikkelso and Chris Thompson of my staff, who quickly learned about this issue and worked hard to move this through the legislative process.

Dozens of grassroots groups from across the country supported my amendment and rallied their members to do the same. I will ask to have a list of these groups printed in the RECORD.

This Coalition was led by the Breast Cancer Fund, based in my home city of San Francisco. Their work, expertise, and support made this happen.

On another matter central to children’s health, I am very pleased that this bill includes a provision that I sponsored to require secondhand cribs that are sold and used in the marketplace to have the same product safety standards as new cribs.

This bill will close a loophole in consumer product safety standards, and help reduce injuries and deaths that come from used cribs that have missing or broken parts.

Currently, U.S. consumer product safety standards apply only to new cribs and not to the sale or commercial use of secondhand cribs, which cause most crib-related infant injuries and deaths.

The provision included in the conference report would prohibit commercial users, such as thrift stores and resale furniture stores, to sell, resell or lease unsafe used cribs that are structurally unsound, and prohibits hotels, motels, and daycare centers from using unsafe cribs, and adds secondhand cribs to the list of child and infant products covered by the Consumer Product Safety Act, the law that already applies to new cribs and other children’s products.

The safety standards for secondhand cribs will now match the safety standards for new cribs, including crib slats should be no more than 2 1/4 inches apart to prevent infant from slipping through the slats and corner posts should not be higher than 1/16 inches above the end panels of the crib which prevents infant’s clothing from becoming tangled on the crib.

Every year, more than 11,300 children require hospital treatment from crib-related injuries, and over 50 children die from injuries sustained in cribs.

Most of these injuries and deaths occur in secondhand cribs that have dangerous features.

The language included in this conference report is similar to proposals that Representative ELLEN TAUSSCHER and I have worked on for many years. I am very pleased that this legislation will help give parents the peace of mind that secondhand cribs are just as safe as brandnew cribs.

The phthalate ban, the expansion of crib safety protections, and the entire Consumer Product Safety Improve-
Senator P. RYOR, the distinguished Senate legislation, the preemptive whistleblower provision. This provision is affirm the rights conveyed in the worker's manual, employment contracts, company manuals, prerequisites for insurance policies or agreements such as whistleblower protections through nondisclosure agreements.

Mrs. McCASKILL. Companies should also not to override the whistleblower protection through nondisclosure agreements or company contracts, employment activities, or exit nondisclosure agreements.

Mr. PRYOR. There should be no confusion that the rights for protected activities are under this statute and are the law of the land. They supersede and cannot be canceled or overridden by any conflicting restrictions in company manuals, employment contracts, or exit nondisclosure agreements.

Mrs. McCASKILL. Thank you for engaging in this collogy with me to re-affirm the rights conveyed in the whistleblower provision. This provision is one of many in this legislation that reflects on the skill you have demonstrated in guiding this bill through the Congress. PREEMPTION

Mrs. BOXER. I rise to discuss with Senator PRYOR, the distinguished chairman of the Subcommittee on Consumer Affairs, Insurance, and Auto motive Safety, and lead sponsor of the Senate the preemptive effect of certain provisions in H.R. 4040. I am pleased that the bill protects State warning laws related to consumer products or substances, such as California's Proposition 65. The conference report clarifies that any such warning laws in effect as of August 31, 2003, are not preempted by this act or the Federal Hazardous Substances Act. This important clarification effectively harmonizes existing laws that are enforced by the Commission. Other laws enforced by CPSC, including the Consumer Product Safety, clearly do not preempt or affect State warning requirements like Proposition 65. The Federal Hazardous Substances Act, however, is arguably ambiguous as to its effect on State warning requirements. I am pleased that we have eliminated this ambiguity with this conference report and harmonized all of the Commission's statutes on this point.

Mr. PRYOR. Yes, that is my understanding.

Mrs. BOXER. My second inquiry relates to the bill's provisions on phthalates. I am alarmed that the language preserves the ability of States to regulate phthalates in product classes that are not regulated under this legislation, as well as States' ability to regulate alternatives to phthalates, such as other plasticizers that might be used as substitutes to the phthalates that will be removed from toys under this law. I yield to Senator PRYOR and ask, is it your understanding that this law does not preempt or affect States' authority to regulate alternatives to phthalates that are not specifically regulated by the Commission in a consumer product safety standard?

Mr. PRYOR. Yes, that is my understanding.

Mrs. BOXER. I also ask the distinguished floor manager Senator PRYOR to confirm my understanding that the third-party testing provisions of the conference report have no preemptive effect on State or local testing related requirements. Is my understanding correct?

Mr. PRYOR. Yes, the bill leaves such authority to impose testing requirements in place without preemption.

Mr. BOXER. I wanted to confirm my understanding that the conference report makes it clear in section 106(h)(2) that State or local toy and children's product requirements in effect prior to enactment of this bill are not preempted by this legislation or by the Consumer Product Safety Act. Is my understanding correct?

Mr. PRYOR. My colleague is correct. The legislation does not preempt or otherwise affect State or political subdivision requirements applicable to a State or local statute that is designed to deal with the same risk of injury as the consumer product safety standard, if such State or political subdivision has filed such requirement with the Commission within 90 days after the date of enactment of this act.

Mr. INOUYE. Mr. President, I yield now to the author of the measure, Senator PRYOR of Arkansas, the balance of my time.

Mr. INOUYE. Mr. President, the first thing I want to say is this is a great bill, and it is something Senator STEVENS should be proud of, because what we saw in 2007 was a record number of product recalls. In fact, last year, there were 45 million toys that were recalled. Every single toy was made in China that was recalled last year.

Unfortunately, it doesn't stop there. In 2008, we are 29 percent ahead of the schedule we set back in 2007. So this problem is not going away. This is a great bill, and this is a classic example of how things can and should work around here.

We added third-party testing for toys. We added a new database for people to search to look at complaints about products. We give the Attorney General the ability to follow what the CPSC has done and get dangerous products off the shelves. We add whistleblower protection, so if people in the private sector know about a dangerous problem and reveal that, they don't lose their jobs. We increase civil penalties to make sure these companies—especially the ones who are repeat offenders—will know the CPSC has the authority to enforce what they do and make them feel the pain of that. We ban lead in children's products.

We move the consumer commission, which used to be a five-member commission and is now down to three, back to a five-member commission.

We change the rulemaking process so that the authority rests with the CPSC again and not with the industry. I could go on and on about the great things in this legislation. I know my time is short. Mr. President, how much time do I have?

Mr. INOUYE. Five minutes.

Mr. PRYOR. Mr. President, I want to make sure I thank the people who deserve the lion's share of the credit. Senator STEVENS was critical. He came in very early in the process, and helped shape the bill and helped get us from a Democratic bill to a bipartisan bill that got us to where we are today. In fact, the House voted last night 424 to 1 to pass this.

I also thank Senators SUNUNU and HUTCHISON. Senator INOUYE, chairman of the Commerce Committee, was fantastic. Senator BOXER was great; she
was very focused on several issues. Senator KLOBUCHAR, although a new Senate, had a positive impact on the process. It was an honor to work with them. Also I thank several House Members, of course, including Chairman Dingell and Congressman Barton, fantasy football over worked hard to get this done. And also Speaker Pelosi weighed in at the end to make sure we got it done.

Maybe more important than all of us is the staff. We have a lot of staff sitting in back offices, but they have spent countless hours on this bill. They have been here weekends, in the evenings, and they have been haggling over every word, comma, and paragraph. I am so grateful to all of them. The people on my staff include Andy York and Price Feland. When you look at the Commerce Committee, there is David Strickland, Alex Hoehn-Saric, Jana Fong Swamidoss, Mia Petrin, and Jared Bomber. They were great. Of course, the bipartisan side were Paul Nagle and his team, including Megan Beechener, Becky Hooks, Bridget Petruzok, Erik Olson, Kate Nilan, Tamara Fucile, Brian Hendricks, and Peter Phipps.

Also, the CPSC commission. They helped as did their staff. Commissioner Moore, and Michael Gougihsa and Pam Weller of his staff, as well as Jack Horner of the acting chairman's staff. all of these people played a key role in this very good bipartisan piece of legislation.

As I said, this is something of which the Senate and House can be very proud. Today, the White House announced they will sign the legislation. This is a major victory for the American people. Again, we followed the rules, we followed the correct process here. We got this done and we are going to make a big difference in the American marketplace.

Mr. President, I will turn it over to my colleagues from Texas.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mrs. HUTCHISON. Mr. President, I thank the Senator from Arkansas. First, I have to say he was dogged in his determination to work out this bill. It was a very long conference, with many issues. It was complicated. The importance of it was paramount in both of our minds.

I also want to say that on something this hard, the leadership of our committee was the driving force. Senator INOUYE and Senator STEVENS, the chairman and vice chairman of our committee, worked so hard, along with their staffs, to make sure the process kept going. That we never gave up. The conference lasted for months. I cannot say enough about Senator INOUYE and Senator STEVENS and the partnership on this committee that produced this great bill.

Then Senator PRYOR and Senator SUNUNU, chairman and ranking member of the subcommittee, also worked diligently and hard to make sure we took everyone’s views into consideration. We tried to make compromises, even on some of the very toughest issues. That was just in the Senate. And then we also had the House. I feel very good about this result.

Again the support of this bill by very diverse groups shows this is a very good bill. The American Academy of Pediatrics, the Consumer Federation of America, and the Retail Industry Leaders Association all were at the table working with us to try to make sure we get a good bill that is safe for consumers—especially the parents of small children—and the needs of retailers and manufacturers to be able to produce products that consumers can safely purchase.

In this bill, we have a considerable emphasis on children’s toys. That is what caused us to start looking at whether we had enough manpower in the Consumer Product Safety Commission. So I think children’s toys are a very big part of the emphasis in this bill.

Let me talk about another few points in the bill. We authorize significant upgrading and modernization of the equipment and labs used by the commission to assure safety, including more personnel at ports of entry and in foreign countries, to improve inspection of manufacturing facilities abroad and the products brought into our country from abroad. We establish comprehensive lead safety standards that we have seen to date for toys and the paint manufacturers use on toys. These standards are implemented responsibly to give manufacturers time to adapt, without compromising safety. The standards also allow for use of alternative detection and measurement methods to improve the accuracy and efficiency of testing paint on small surfaces.

We also strengthen enforcement by increasing civil and criminal penalties and providing a limited role for State attorneys general to work in concert with the commission to enforce commission actions in the States. This is a huge improvement—one that Senator PRYOR, a former attorney general, was very aware of that we could have better information, because the attorneys general in all of the States know, perhaps more urgently and more readily, when a product is deficient. So when they start looking and take an action based on the Consumer Product Safety Commission regulations, that is very helpful to expanding the reach.

We can also point to other areas where we made compromises. The bottom line is this is a very good bill. Maybe you don’t like everything in it. I agree. I didn’t get everything I wanted in the conference, nor did anyone else. But as I said, this was a months-long conference committee. It was a bill that passed the Senate with many amendments. The Senate bill was vastly improved in the conference. We could not have done that without many hours—and weekend hours—of staff support. The Senator from Arkansas pointed out the number of staff who did such a great job. I want to say that on our side, Christine Kurth, Paul Nagle, Megan Beechener, Rebecca Hooks, and my staff, we did a great job of working with the Democratic staff to forge the compromises.

On the Democratic side, I thank David Strickland, Andy York, Price Feland, and Jana Fong Swamidoss. I think we did a great job with the help of the experts on our staffs.

Mr. President, with that, I will reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Arkansas is recognized.

Mr. PRYOR. Mr. President, Senator HUTCHISON said something that is very important. We did focus on toys. Toys capture the imagination of the American public because no parent or grandparent wants to see their child buy something—in some cases, that means they can’t test for that standard.

This bill has mandatory toy testing. For the first time ever, we are going to test these toys to make sure they meet the U.S. safety standards before they are ever sold in the marketplace. If you think about a recall, a recall is a very uneconomical—I will use that term—and inefficient way to find a dangerous product. So the manufacturer comes here with a product—many cases from abroad, it is distributed, sold, and it injures some one, and the recall happens, and these products are all over America. We are streamlining it and making our marketplace more efficient and better for people all over this country.

I will end where I started. I see Senator SUNUNU here, who played a very key role. All of the Senators helped in some ways. Again, I will end where I started, and that is that this is a great piece of legislation. It really is. The American people will be so pleased with the work we have done to get this passed and get the President to sign it. It will make a big difference in everyone’s lives all over this country. Again, it shows what we can do if we work together to solve our problems.

I am very honored and privileged to have Senator INOUYE designate me as the lead guy on our side to do this, and to watch Senators STEVENS and INOUYE work together. They set the pace on this legislation.

I thank the Chair. The PRESIDING OFFICER. The Senator from Texas is recognized.

Mrs. HUTCHISON. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.
The legislative clerk proceeded to call the roll.

Mr. INOUYE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, I ask for the yeas and nays on this measure.

The PRESIDING OFFICER. The question is on agreeing to the conference report to accompany H.R. 4040. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New York (Mr. CLINTON), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Minnesota (Ms. KLOBuchar), the Senator from Arizona (Mr. MCCAIN), and the Senator from New Mexico (Mr. DOMENICI) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Minnesota (Mr. COLEMAN), the Senator from New Mexico (Mr. DOMENICI), the Senator from Nebraska (Mr. HAGEL), and the Senator from Arizona (Mr. McCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 89, nays 3, as follows:

[Rollcall Vote No. 194 Leg.]

The conference report was agreed to.

Mr. DORGAN. Mr. President, I move to reconsider the vote by which the conference report was agreed to, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

HIGHER EDUCATION OPPORTUNITY ACT—CONFERENCE REPORT—Continued

The PRESIDING OFFICER. Under the previous order, there will now be 2 minutes of debate equally divided.

Ms. MIKULSKI. Mr. President, we are about to vote on the Higher Education Act. It is an excellent bipartisan bill, led by the architect of the bill, Senator TEC KENNEDY, working with Senator MIKE ENZI.

We bring to the Senate a bill that expands opportunity, expands the Pell grants, simplifies the process, gets rid of cronyism in lending, and at the same time deals with important shortages with teachers and with nurses.

I think when you review the whole content, you will know that tonight this Senate can pass a great bill. And we say to our friend, Senator KENNEDY, who is watching this vote, “This one’s for you, Ted.”

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I just ask my colleagues to vote for this bill, and I yield back the remainder of my time.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The yeas and nays have been ordered.

The assistant legislative clerk called the roll.

Ms. SNOWE (when her name was called). Present.

Mr. DURBIN. I announce that the Senator from New York (Mr. CLINTON), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Minnesota (Ms. KLOBuchar), and the Senator from Illinois (Mr. OBAMA) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Minnesota (Mr. COLEMAN), the Senator from New Mexico (Mr. DOMENICI), the Senator from Nebraska (Mr. HAGEL), and the Senator from Arizona (Mr. McCAIN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 83, nays 8, as follows:

The conference report was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote. Ms. MIKULSKI. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2008—MOTION TO PROCEED

Mr. REID. Mr. President, the Republican leader and I have had a number of conversations today. We know the caucuses on his side and my side are tired. We have had a very difficult few weeks. We have a few more things to do this work period. That work period can be a matter of hours or it could be the next day.

Most would like to finish it tonight. If we could move up the cloture vote on the motion to proceed to the Defense authorization bill, we could do that tonight. The issue, it turns out now, is how long that debate would take. On our side we need 10 minutes. Senator LEVIN wanted a half-hour. He cut that back to 10 minutes.

If we could have some agreement on the other side that we could take 10, 5 minutes, whatever is appropriate, we could finish that tonight and basically finish the work of the Senate for this work period and come back, renew our struggles in September.

I ask unanimous consent that we move to the Defense authorization bill, that the motion to invoke cloture on that that was set for the morning, that we would do that following 10 minutes of debate controlled by the Senator from Michigan. The chairman of the committee would control 10 minutes, and whenever the Republican leader designates on his side would control whatever time they feel appropriate.

The PRESIDING OFFICER. The Republican leader.

Mr. MCCONNELL. Mr. President, I would say to my friend, the majority leader, we are prepared to vote right now.

A number of Members are prepared to have a vote immediately. I think we all understand what we are voting on. I am not sure many of our Members think any further debate about the whole issue of whether to go to the Defense bill at this particular time would be enlightened by any additional debate.
We have a number of Members who have plans who know how to vote and would be happy to vote. The PRESIDING OFFICER. The Senator from Michigan.

Mr. LEVIN. Mr. President, this bill is worthy of 10 minutes on tonight. This is the Defense authorization bill. For heavens' sake, can we not set aside the frustrations we all have on this other issue and at least support our troops and come together and unify behind the President?

Can we not at least set a time to take up the Defense authorization bill, which is critically important? We cannot do this on the appropriations bill. It would be legislating on an appropriations bill. This is a pay increase, special benefits, the BRAC implementation. This has to do with whether families are going to get support, whether we are going to hire nurses. This is the men and women in uniform who are in harm's way.

The suggestion is, we cannot spend 10 minutes on whether to take up an authorization bill. We have never passed an authorization bill. By law, we must pass an authorization bill or else all the authorities which are critically important to the men and women in uniform are not going to be passed.

This cannot just be another vote, another vote which divides us Republicans from Democrats. We have to unify behind this bill. Senator WARNER and I think the majority leader made a good point. I do think, I hope I can say one word. To my leadership, I have explained to you I will soon conclude 30 years in this Chamber. Having served with 264 Senators in that period of time, I say thanks to each and every one of them. But in that period, I think half my time has been devoted to issues relating to national security and the Armed Services. I checked the records of the committee. We have had 42 consecutive bills authorizing funds for the armed services of the United States. This will be the 30th of those bills that I have participated in, in bringing to the floor and, hopefully, getting a strong endorsement of this body.

I fully recognize the issues my colleagues have forefronted in their mind at this moment. Not a one of them is against our national defense, not a one of them by their votes now could be challenged as to their patriotism and devotion to the men and women of the Armed Services. But I will vote to go forth now, in an effort to support the cloture motion.

Mr. MCCONNELL. Mr. President, if I may, our good friend, Senator WARNER, has, of course, been a leader on this issue throughout his tenure in the Senate, and we respect his views. He has been a strong supporter of a strong national defense.

But the issue before us tonight is whether we are going to continue to try to solve the No. 1 issue in the country, and that is the price of gas at the pump. It is not whether we will do a Defense authorization bill.

The ranking member of the Armed Services Committee shares my view, that the first thing we ought to do is stay on the subject of energy, stay on the subject of getting the price of gas at the pump down, and then do the Defense authorization bill.

I am authorized to speak on behalf of the ranking member of the Armed Services Committee, our colleague, Senator MCCAIN, who shares my view that at this particular moment, the most important issue related to the national security of our country is to stay on the subject of energy, finish the job, and then, as Senator WARNER and Senator LEVIN have suggested, do the job of passing the Defense authorization bill.

Mr. REID. Mr. President, there is a unanimous consent pending. The PRESIDING OFFICER. Is there objection to holding the cloture vote at this time?

Without objection, it is so ordered.

Pursuant to rule XXII, the clerk will report the motion to invoke cloture. The automatic legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to S. 3001, the National Defense Authorization Act for Fiscal Year 2009.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call is waived.

The question is, Is it the sense of the Senate that the debate on the motion to proceed to S. 3001, an original bill to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military strengths for such fiscal year, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from New York (Mrs. CLINTON), the Senator from Massachusetts (Mr. KERRY), the Senator from Minnesota (Mr. KLOBUCHE), and the Senator from Illinois (Mr. OBAMA) are necessarily absent.

Mr. KYL. The following Senators are necessarily absent: the Senator from Kentucky (Mr. BUNNING), the Senator from Minnesota (Mr. COLEMAN), the Senator from New Mexico (Mr. DOMENICI), the Senator from Nebraska (Mr. HAGEL), the Senator from Texas (Mrs. HUTCHISON), and the Senator from Arizona (Mr. McCAIN).

Further, if present and voting, the Senator from Kentucky (Mr. BUNNING) would have voted "nay."

The PRESIDING OFFICER (Mr. TESTER). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 51, nays 39, as follows:

[Rollcall Vote No. 195 Leg.]

YEAS—51

Akaka          Durbin
Baucus         Murray

ORDER OF PROCEDURE

Mr. GRASSLEY. Mr. President, before I speak, I have been asked to propound a unanimous consent request on speaking orders: 4 minutes for Senator GRASSLEY, 4 minutes for Senator COBURN, and whatever time Senator HARKIN would consume.

The PRESIDING OFFICER. Without objection, it is so ordered.

MIDWESTERN FLOOD TAX RELIEF

Mr. GRASSLEY. Mr. President, I rise for the purpose of a unanimous consent request for the Midwestern flood tax relief bill sponsored by the Senators of several Midwestern States, including Senator HARKIN of my State, Senator DURBIN, Senator OBAMA of Illinois, and other midwestern Senators.

I rise to seek fairness and equity for people in the Midwest who have been hurt by floods, and I would say fairness and equity as measured by the United States Congress responded to the natural disaster of Katrina, New Orleans, et cetera.

I remember back in September of 2005, after that terrible catastrophe of August 29, what happened in New Orleans. Within the week after we were in session, after Labor Day, we had appropriated $60 billion. Within 3 weeks after that—I was chairman of the Finance Committee—we voted out of committee a tax equity bill that changed provisions of the Tax Code to encourage employers and businesses and people to stay there and weather it out.

What we did, we did without asking any questions. And now we seek the same tax relief for the States of the Midwest that have had the same type of catastrophe happen to them. I would measure catastrophe by a 500-year flood in the city of Cedar Rapids, IA, which won’t be the same as it was prior to the flood.

So we have entered this legislation for consideration. We have worked it out with a lot of people who were involved in it. We worked closely with Senator BAUCUS’s staff, with the staff of Ways and Means, trying to satisfy...
everybody. We think we have a consensus.

Here it is, 6 weeks after the floods hit, and Congress has not acted. Congress should act. In other words, shouldn’t the people hurt by the natural disaster of the Midwest have the same consideration as the people of New Orleans and those with other catastrophes? We are not getting it. It is very clear that when our disaster is not on television for 2 months in a row, like the disaster of New Orleans was on television for 2 months in a row, somehow Congress is absentminded about what happened in the Midwest.

So we face things like arguments from staff of some of the people in the other body that, well, this disaster wasn’t anything like what happened in Katrina or you hear things like, well, we need to offset this bill. When I was chairman of the Senate Finance Committee and the people in New Orleans were hurting, we did not ask for offsets. We play political games with the legislation we eventually passed, like some efforts this Midwest Tax Flood Relief Act ought to be connected with extenders or with AMT or something like that. We got the job done about it.

I come before this body tonight to ask for consideration of this legislation.

UNANIMOUS CONSENT REQUEST—S. 3322

At this point, I ask unanimous consent that the bill be discharged from further consideration of S. 3322 and the Senate proceed to its immediate consideration. I ask unanimous consent that the Grassley amendment at the desk be agreed to; that the bill, as amended, be read the third time and passed; that the motion to reconsider be laid upon the table; and that the bill be held at the desk pending House action on the companion measure.

"Mr. PRESIDING OFFICER. Is there objection?"

Mr. DURBIN. Mr. President, reserving the right to object, I am speaking on behalf of Senator BAUCUS. I note that the Senator from Iowa realizes the bill that was before us yesterday, S. 3335, would not only have taken care of his State of Iowa, which truly deserves disaster assistance, but also my State of Illinois and all of the States that faced that disaster problem this year. Unfortunately, did not pass this measure, it would have been on its way to the House yesterday. Had we received more than five Republican votes, it might have passed the House and be on its way to the President. But the decision was made on the Republican side of the aisle not to vote for that measure that would have helped Iowa, Illinois, and all of the States.

The measure Senator GRASSLEY brings before us leaves behind victims of disaster in the States of Nevada, Colorado, Kentucky, Missouri, Mississippi, Tennessee, and Texas—to name a few—who would receive no relief under Senator GRASSLEY’s bill but would have under the bill he opposed. So it is sad. I wish this could have been resolved yesterday with the vote if the Republicans would have joined us. Unfortunately, they did not. We will have to take this matter up when we return. I hope we can find a way to help all of the victims not just in the Midwest but all across the country, which is the tradition of the Senate and the House. Regretfully, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. GRASSLEY. Mr. President, I ask unanimous consent for 1 minute.

"The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I point out that what the Senator from Illinois described is an amendment that would not have responded to the Midwest in exactly the same way as we responded to Katrina. It would not have been as beneficial. It also did not contain the same 25 provisions we did for New Orleans, which were in that tax bill to help them.

I think we have a situation where we ought to respond the same way we did for Katrina. We are not doing it because the disaster in the Midwest is as grave as it was for Katrina. We didn’t argue with other people about going back and taking care of disasters that previously happened. We took care of what was before us.

Right now, the flood of the Midwest is before us. We ought to have the same equity and fairness that, when we had a Republican Congress, we gave to New Orleans. Whether we have a Democratic Congress or a Republican Congress, that should not make any difference. We are being treated differently when the Democrats control the Congress.

I yield the floor.

"The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, I ask unanimous consent that I may speak for about 7 minutes. I will try to do it in less time.

"The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Mr. President, I thank the majority whip for being on the floor tonight. I am one of the reasons why he is here, so I beg his indulgence at this time.

The Emmett Till Unsolved Civil Rights Crimes Act was first introduced in the 109th Congress. The Republican sponsor at that time on our side of the aisle agreed to the offsets in that bill. That wasn’t agreed to by the other side, so that bill wasn’t passed. Although the offsets were accepted, it was still opposed.

Over the past 5 months, two press conferences have highlighted my “obstruction” of this bill and questioned my motives for holding it. I sent two letters to the prime sponsors of the bill and to the majority leader offering to negotiate a compromise on the bill. None of those were ever responded to. No sponsor ever contacted my office in July 31, 2008 CONGRESSIONAL RECORD—SENATE 7881 the 110th Congress to try to work on this. Instead, I chose to work, because I couldn’t get a response, with Alvin Sykes, a wonderfully incredible man, who is behind this bill. He has my utmost respect and admiration.

I will submit for the Record an article that comes with his incredible life story and his commitment and arduous work for this legislation.

Mr. President, I reached a compromise with Mr. Sykes and the Emmett Till Campaign for Justice, whose board of directors has endorsed our compromise language.

I ask unanimous consent that an e-mail we got from Mr. Sykes be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

From: Alvin Sykes.
To: Bacak, Brooke.
Sent: Thu July 31, 2008.

Dear Senator Coburn,

First allow me to express my appreciation for you and your staff’s assistance and communication with us concerning S. 535 the Emmett Till Unsolved Civil Rights Crimes Act. While I still believe that you passed on our bill was not the good way to effect the institutional change in the manner that the United States Senate does business we do appreciate the open lines of communications and respect that your staff, in particular Brooke Basak and Tim Tardibo, have shown us in negotiating with us on proposed language and conditions that would address your concern and minimize the loss we have suffered from going this route. Therefore our Board of Directors has voted to endorse a unanimous consent agreement that would include the latest draft language that rectifies the concerns with the controversy over the Attorney having authority under the bill to reprogram funds from one congressionally directed fund to another by elevating all reference to reprogramming and replaced with prioritizing spending request if Congress does not fully fund the Till Bill. Furthermore we support you having the right to submit this language as amendment in the cloture vote process as long as the floor debate is limited and that you would not replace your hold on our bill if your amendment fails. Nothing in this request is meant to criticize the Senate Leadership on the enormous work that they have done to craft and advocate for the passage of this bill especially the good work of Patrick Grant in Senator Dodd’s office and Darrell Thompson in Senate Majority leader Harry Reid who has kept hope alive on this historic bill. However we firmly believe that truth and justice can be best achieved by opening and maintaining effective lines of communication and searching for a win-win justice seeking solution. We further believe that since you started this by placing your hold on our bill you should be the one to finish it.

Therefore the Emmett Till Justice Campaign, Inc. request that you make an overture to the Democratic Leadership and the sponsors of the Till Bill by introducing the Emmett Till Unsolved Civil Rights Crimes Act, as proposed amended, under the unanimous consent agreement outlined above to bring it in the interest of time, truth and justice.

Sincerely, in the pursuit of justice, I am,

Alvin Sykes,
President, Emmett Till Justice Campaign, Inc.
Mr. COBURN. Mr. President, at this time, I ask unanimous consent to call up and pass the modified Emmett Till Unresolved Civil Rights Crime Act, where it is paid for by taking money that is not appropriated. This is the problem everybody had, not offsetting. What that means is, if we don't appropriate—and we won't this year, because we are going to have a continuing resolution—this will allow that money to be divided out in three categories in the Justice Department, which the Department is accepting from both legal salaries, the FBI, and the U.S. Marshals—all the people working on these unresolved civil rights cases. I ask unanimous consent that it be called up and passed at this time.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, Mr. President, earlier this week, on Tuesday or Wednesday, we considered a package of bills, some 35 bills that had been held for a lengthy period of time—for months—which could have been considered, amended, changed, and brought forward. They were held with no chance for any kind of movement. This was one of them.

Sadly, this is a bill that has been considered and passed by the House of Representatives and has been out there for more than a year. I would like to see the bill passed—I would. But the fact is the Senator from Oklahoma worked out his differences with some person, as well intentioned as it may be, doesn't escape the reality that this bill has been the subject of hard work by a lot of Senators and Congressmen. Unfortunately, it was subjected to a hold by a Member on the Republican side. I hope that, in good faith, when we return, we can return to this bill. I would like to see this and all 35 bills in the package passed and taken as seriously as the Senator from Oklahoma is now taking this bill.

Unfortunately, at this moment, I must object.

Mr. COBURN. Mr. President, it is sad to note that this could not pass tonight. We could accomplish what everybody claims to want. The fact that nobody was willing to work on this bill, but held it without compromise and without offsets, it is the same issue again. We are going to grow the Government and not get rid of waste. There is $2 billion in waste a year in the Justice Department. Yet we are going to grow this program and not pay for it.

The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. I also note for the Record that I spoke with Senator DODD about the bill tonight. He had no objection whatsoever and he agreed with the compromise. He is the chief sponsor of the bill.

Mr. President, I call up and ask unanimous consent to pass a compromise bill on child exploitation. The bill, S. 3344, is the Protecting Children from Pornography and Internet Exploitation Act of 2008.

I had a conversation with Senator BIDEN this evening. He is in full agreement with this. He understands that others on his side of the aisle might not be convinced that it is the chief sponsor of that bill. Our bill gives everything that was included, plus the SAFE Act, which everybody agrees needs to be a part of any approach we make. The authors on the other side of the aisle had $1.3 billion authorization and compromised and lowered that. We compromised by accepting that spending on the basis that we would add the SAFE Act to it. This bill has been changed in substance in no way other than that.

I ask unanimous consent that it be called up and passed.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, Mr. President, earlier this week, on Tuesday or Wednesday, we considered a package of bills, some 35 bills that had been held for an indefinite period of time by the Republican side of the aisle. We offered a package which had included measures for medical research, which has been held for an indefinite period of time on the Republican side of the aisle.

This bill which, ironically, was reported out of the Judiciary Committee, which Senator COBURN and I both serve on—I believe it was reported unanimously by the committee on child exploitation. I believe it is a bill that deals with Internet pornography, if I am not mistaken. It is something which should have not only gone out of committee unanimously, but it should not have been subject to the holds on the Republican side of the aisle for reasons that are not explicit. In desperation, an effort was made to bring these to the floor and ask for a bipartisan response and to pass them in a timely manner. The Senator from Oklahoma voted against that, as did most of the Senators on his side.

Many are now coming to the floor trying to revive the bills they voted against a couple days ago. I wish the same level of interest and effort would have been taken during the period when these bills languished subject to their hold. At the last minute, virtually right after the Senate has adjourned and left, it is not fair to bring these up. I hope we can do this as soon as we return.

At this moment, I have to object. The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. Mr. President, I ask unanimous consent for an extension of time as I go through the rest of these. I will be as brief as possible.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. I also note, again, there were hard efforts to work this out. The fact is, the majority has decided that all the bills will be in one package, regardless of the efforts we have worked on.

I also make the statement that this came out by a voice vote from the Committee. I didn't vote “yes” on the bill in the committee. No. 2, there is no requirement that a Senator, even if he votes for a bill in committee and is assured he can work on the bill after the committee report, has to support a bill that comes out of his committee.

The next unanimous consent request I have is on this same bill, S. 3344, titles I and IV, which include the PROTECT Act and the SAFE Act.

I ask unanimous consent that those two sections be called up and passed. They are identical; nothing has changed and there is nothing controversial. Again, I ask unanimous consent that they be passed.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, Mr. President, parliamentarian inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. COBURN. Mr. President, shouldn't an objection to the bill be stated?

The PRESIDING OFFICER. Does the Senator object?

Mr. DURBIN. I object.

Mr. COBURN. Mr. President, there is no embarrassment or any pain on my part to do this. I have worked on these bills to try to do what I thought was right. I reject any statement that I am embarrassed. I have no pain about this. I am proud of the work I have done in trying to stop excessive spending and when we have appropriate programs to favor that spending through offsets of other wasteful spending.

I ask unanimous consent to call up and pass subtitle B of S. 3297, the Effective Child Pornography Prosecution Act. This was never held by anybody on our side. It was never objected to by anybody on our side. There was never a hold and never an objection.

I ask unanimous consent right now that we pass that one bill. Even if you want to play politics, the point is, here is one we can do tonight. Nobody has ever objected to it in the Senate. We can pass and still have the 34 or 33 bills. Here is one we can make a difference with tonight.

I ask unanimous consent to call up and pass this item.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, this was part of the 34, 35 bills in a package that was held. For reasons I cannot explain, since a Member on the Republican side held it, that is why it was put in the package.

The Senator voted against the package, and I object.

The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. Mr. President, I ask unanimous consent to call up and pass subtitle E of S. 3297, the Enhancing the
Effective Prosecution of Child Pornography Act. This is a bill that also was never held on our side of the aisle.

Again, I make the same argument that, in fact, we can do something tonight. There is no controversy surrounding this bill. No controversy about what we should be doing. I ask unanimous consent that we pass this item.

The PRESIDING OFFICER. Is there objection?

Mr. DURBIN. Reserving the right to object, same argument, same objection.

The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. Mr. President, I thank the majority whip for his patience in dealing with this business tonight. I will end my remarks with the following: What we have had in the Senate this past week is an attempt to change the Senate to the House. The Senate is not a place for debate and amendment. Every one of the bills I have had a hold on. I proudly hold those bills. I have notified everyone involved in the legislation on why I was holding those bills. The fact that we had no response to negotiate any sort of compromise whatsoever on those bills tells us there was no good intent in the first place to try to pass those bills.

Let the record show that the Emmett Till bill could have been passed tonight, supported by the very people who started the effort to get it passed, by Senator COCHRAN and Senator KENNEDY to deal with stroke victims, that is. If it can be resolved, fine, and if it cannot be, so be it. I also want to say this: What is wrong with calling up these bills and those who don't like them voting against them? That is their right to express their displeasure on the record. But to hold the bill—if I can't have it my way, no one gets a chance to vote—I think pushes it to the extreme. To do that occasionally in your senatorial career, I can understand. But to make that the business of the Senate is to guarantee total frustration.

Today in the Senate Judiciary Committee, I couldn't help but interrupt the proceedings and ask what the point of deliberating on bills if some of the senators who were going to vote for those bills out of committee were going to hold them once they came to the floor and really make sure they never had a chance to be passed into law. That is fact. That is what has happened.

Because of the pain that has been caused by these earlier votes where Republicans have come to us privately and said: We are sorry we voted this way; some of these bills are bills we really wanted to vote for, now they have come to the floor and tried to pick them off at a time and reduce the pain and—I will use the word "embarrassment." although Senator COBURN says neither applies to him. I think for some of his colleagues there is embarrassment that they would vote against a bill to establish a national registry for victims of Lou Gehrig's disease, that they would put a hold on a bill that was designed to deal with paralysis, the Christopher Reeve bill. In an attempt to honor this man and all he did and try to help quadriplegics across the country: a bill cosponsored by Senator COCHRAN and Senator KENNEDY to deal with stroke victims, that they would put a hold on that; a hold on a bill in great interest dealing with postpartum depression.

The belief on that side of the aisle is, it is all right; we can hold them until they are exactly the way we want. That has gone on too long, for months and even longer. When it comes to some of these bills relating to criminal sections, some of these should be passed in a hurry. I don't know any one of us who does not want to deal with Internet pornography that threatens our children and grandchildren, kids in our communities. We had this bill ready to go.

This bill should have been passed quickly, and it was held on the Republican side of the aisle until we had to bring it up in this package and then voted against, voted not to bring it forward.

In their frustration, they have now tried to come out at the close of the week and have something to point to: I tried to come back on the floor, I tried to bring the bill up, but Democrats objected. The true story is those bills have been held up for months. They have been held up on the Republican side of the aisle.

I sure hope my colleagues will understand they cannot run the Senate the way each one wants to run it. We cannot let every single Senator decide the agenda of this Senate or it will be dysfunctional and chaotic and many good pieces of legislation will never see the light of day.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. DURBIN. Mr. President, I ask unanimous consent the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONGRATULATING TERRY SAUVAIN

Mr. BYRD. Mr. President, St. Ignatius High School is a private, Roman Catholic, Jesuit high school for young men located in Cleveland, OH. The school is renowned for its high standards of academic excellence, with nearly 100 percent of its graduates attending colleges and universities within one year of graduation.

Under the leadership of Rev. Tim Kesicki, S.J., and his predecessor, Fr. Robert J. Welsh, S.J., this high school works hard to produce students who are open to growth, intellectually competent, loving, religious, and committed to doing justice. In summary, a St. Ignatius student is a "man for others."

Each year, Saint Ignatius High School presents its annual John V. Corrigan '38 Distinguished Alumnus Award to a graduate with notable achievements who has used his talents and skills for those in need, consistent with the paramount objective of Jesuit education: the formation of "Men for Others." The award is given to an accomplished graduate who serves as a positive role model for the students of St. Ignatius High School.
I am quite proud and most pleased to announce that the 2008 John V. Corrigan ’38 Distinguished Alumnus Award was presented to the one of the Senate’s very own, Mr. Terrence E. Sauvain, who currently serves in my office of the President pro tempore as a senior advisor.

I have been very fortunate to have had Terry as a member of my staff for so many years. In every task I have asked him to undertake, including 2 years of service as the secretary to the minority leader, he has performed his duties with courtesy, dedication, efficiency, and diligence. In every position, he has gone above and beyond the call of duty in performing the work of the Senate, assisting my representation of the people of West Virginia, and serving the best interests of the Nation, and for all this, I am truly grateful.

Terry Sauvain also served as the 14th staff director of the Senate Appropriations Committee, since the committee was formed in 1867. In this role, Terry directed a great team of professional analysts with a goal of “sharpening the issues” so that Senators were able to make bipartisan, responsible, and fiscally sound decisions on Federal Government spending amounting to $1 trillion per year. Terry’s outstanding service to the Senate has earned him a variety of honors, including the Nyumbani Medallion of Hope for his work supporting me in the humanitarian fight to bring relief to children with HIV/AIDS in Africa.

I heartily congratulate Terry Sauvain and his family on his receipt of this award.

I ask unanimous consent that an article appearing in the most recent issue of St. Ignatius Magazine concerning this award be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD as follows:

TERRENCE SAUVAIN HONORED FOR DISTINGUISHED PUBLIC SERVICE

(By Paris Wolfe)

This past February, Terrence Sauvain ’38 received The Honorable John V. Corrigan ’38 Distinguished Alumnus Award for notable achievements in his profession.

During the selection process, the award committee asked former award recipient Fr. Thomas Acker, S.J., ’45, about Sauvain. “He was glowing about Terry, and all he’s done,” says Steve Gerba ’89, committee chair.

Sauvain spoke to students during his visit to Cleveland. “He added insight into government,” Gerba recalls. “He couldn’t say enough about good education as a career foundation.”

Sauvain considers himself fortunate to have served Byrd, master of the appropriations process, as the Senate Appropriations committee staff director. He was only the 14th person to serve in that capacity since the committee was founded in 1867. As staff director, he was the senator’s right arm in overseeing a budget that exceeds $1 trillion annually. For his service to the senator in the humanitarian fight to bring relief to children with HIV/AIDS in Africa, he was awarded the Nyumbani Medallion of Hope.

Throughout his 43 years of public service, Sauvain has tried to live the lessons he learned at Saint Ignatius and the University of Notre Dame. He has always been impressed by the Prayer for Generosity that Saint Ignatius students recite, and he is convinced that those whom we most admire have demonstrated sacrifice and dedication to duty, which require a great measure of personal generosity.

Sauvain earned a master’s in government from George Washington University in 1971. Capt. Sauvain, USCG Ret., served 30 years in the Coast Guard Reserve, his “second job,” where he specialized in joint Coast Guard and National Guard counter-drug operations. He is the recipient of the Coast Guard Meritorious Service Medal, the National Guard Eagle Award and the National Guard Association Award.

In 2006, the University of Notre Dame honored him with The Reverend John J. Cavanaugh, C.S.C. Award for distinguished public service. In 2007, the U.S. Coast Guard’s commandant presented him with a Distinguished Public Service Award.

He and his wife, Veronica, have three children: Marie (married), Catherine and Terrence Jr.—all lawyers.

REMEMBERING SENATOR JESSE HELMS

Mr. WARNER. Mr. President, I rise today to pay tribute to a fellow Senator, a friend, and a true Southern gentleman, Senator Jesse Helms, who passed away on July 4, 2008. He was a man resolute in his beliefs. I have heard many speak in the Senate, as well as outside the Capitol Grounds, that regardless of what you thought about his position or opinion, you always respected Helms for standing up for what he believed.

As a master of the Senate parliamentary procedures, he did not hesitate to use this knowledge as a tool when he thought it was necessary to get his point across. While inevitably these tactics might have frustrated some of his colleagues from time to time, Senators couldn’t help but marvel at his courageous defense of his beliefs, and they never doubted that Senator Helms would treat them with respect. I have heard from those close to Senator Helms, and experienced it myself, that he was true to his beliefs that standing up and defending one’s opinion was never to be confused with, or providing a reason for, animosity towards one’s opponents.

His kindness and respect did not stop with his colleagues in the Senate. Senator Helms was a true advocate that Senators were here to represent and serve their constituents regardless of any party affiliation, and his office was known for their constituent services. His beliefs and service to his fellow citizens not only endeared him to those he served or those he served with, but also to those that had the privilege to serve on his staff. I don’t think he even referred to them as his staff but as his Senate family—the Helms Senate family.

His dedication to his staff is exemplified by the number of staffers that went on to serve in important positions in federal and state government and in the private sector, having been “tutored and trained” in the discipline of Senator Helms. An excellent example is Robert Wilkie, now serving in the U.S. Navy during World War II and continued with his efforts to reform the United Nations. His effect was no less prevalent when he was the first legislator to address the U.N. Security Council. I was privileged to serve with his stalwart partner in the Senate.

It goes without saying that the Senate, this Nation, and the State of North Carolina are better today because of Senator Helms. I extend my most heartfelt condolences to the Helms family and his friends.

Mr. GRAHAM. Mr. President, today I rise to speak about the contributions and service of one of the true giants of the U.S. Senate.

Senator Jesse Helms of North Carolina was one of the longest serving and most distinguished Senators in the history of our Nation. During his time in the Senate, he was known as a strong advocate for his causes and was one of the most tenacious fighters this body has ever seen. Senator Helms knew what he believed, why he believed it, and he was always prepared to fight strenuously for his cause.

On those occasions when the Senate was prepared to promote ideas with which he disagreed, Senator Helms proved to be one of the most adept at slowing the body to a crawl. It was a trait that endeared him to many of his supporters and was a source of much consternation for his detractors.

However, if there is one accomplishment for which Senator Helms will be long remembered and greatly admired, it is his steadfast warnings and commitment to fighting the scourge of communism. Not a day went by that Senator Helms was not concerned about the spread of communism around the globe.

Like President Reagan and South Carolina’s own longstanding Senator Strom Thurmond, Senator Helms understood that communism was an evil ideology, and, at its most basic form, a means of enslaving millions of people. As a nation of freedom-loving people, we had a responsibility to stop its spread.

The struggle against communism continued for decades with Senator Helms playing a leading role in encouraging our Nation to confront this evil. Eventually, the hard line he took
against communism, along with Reagan, Thurmond, and others, was vindicated. The Berlin Wall tumbled and the Soviet Union collapsed.

Today, communism has been discredited and millions of people have been freed. Senator Helms, Senator Thurmond, and the other strong anti-Communists, deserve our thanks for their steadfast fight and eventual victory over communism. It would not have been possible without their hard work.

In passing, I was saddened to hear of the passing of Senator Helms and I want to take this opportunity to send my condolences to his family and friends. I also want to express my sincere appreciation for his long service in the U.S. Senate and to the Nation he loved.

Mr. SPECTER. Mr. President, I have sought recognition to pay tribute to my late colleague from North Carolina, Senator Jesse Helms. I look back upon his career in the U.S. Senate and remember him as a champion of conservative values; a Senator who stood by his convictions with a tenacity for which he will long be remembered.

Senator Helms was initially introduced to public service by his father, who served their North Carolina community as both the fire chief and the chief of police. After working in print, radio, and television journalism and serving on the Raleigh City Council, Jesse Helms decided to run for Senate in 1976. His efforts were so effective he was asked to participate again in 1980. He could boast of many accomplishments during his career, including being dubbed “Senator No,” a moniker he earned for standing strong against issues he felt threatened the conservative agenda, helped the future President William McKinley once said, “That’s a man can have his day during his lifetime, set an example—and when he is dead, to be an inspiration for history.”

Of all his accomplishments during his lifetime, the example that Senator Jesse Helms set for treating others rises above everything else. During my first term in the Senate, I had the privilege of traveling to Mexico as part of a congressional delegation with Jesse Helms. I saw his kindness and sincerity in the way he treated everyone, regardless of position. The foreign dignitaries received the same respect and consideration as staff. Not enough Senators treat members of their staff like members of their family, but Jesse Helms did. And that gentleness extended to all who came into contact with him.

The kindness with which he touched so many lives stands in stark contrast to the harsh and tough image which many had of Jesse Helms. Seen as a rough and hard-hitting, a more fitting description of Jesse Helms is that he was a steadfast believer in the principles of America. Jesse Helms was the voice, sometimes the lone voice, of a centuries’ old vision of a sovereign United States committed to freedom, a strong national defense, and free enterprise. He was willing and able to stop business in the Senate when the strength of our Nation was threatened.

But to those whose lives were personally touched by Jesse Helms, progress was never paused. Instead, Jesse Helms was a conduit of democracy and opportunity. Generations of Cubans, Taiwanese, Iraqis, and Africans will always remember the support that a Senator from North Carolina dedicated to their causes.

And countless North Carolinians will remember the meaningful impact that Jesse Helms had on their lives as their advocate to a sometimes unyielding government bureaucracy. One constituent from Raleigh noted her Senator’s efforts on behalf of her aging parents. She remembered her mother saying if there was a problem that couldn’t be resolved, “Call Jesse Helms. He won’t stop until he gets it solved.”

His commitment to his constituents speaks volumes about Jesse Helms’s passion for his job and the people who elected him. He always remembered who he represented and why. And he always remembered that we ensure the strength of our Nation by inspiring young people to continue the work of generations of patriots. He never turned away young men and women looking for advice and often engaged in the development. And again I am saddened to hear of his passing. I told them to stand up for their principles. And then he showed them by example.

Very few Americans in our Nation’s history have risen to the level of accomplishment and reverence as Jesse Helms. During three decades in the Senate, he set an example for all Americans as he always stood by his principles and extended kindness to friend and foe. Now he is an inspiration for history.

FORMER VICE PRESIDENT PROTECTION ACT OF 2008

Mr. LEAHY. Mr. President, I am pleased that, last night, the Senate unanimously passed the Former Vice President Protection Act, H.R. 5938, a bill to ensure that former Vice Presidents and their immediate family receive Secret Service protection for 6 months after they leave office. I am especially pleased that this important legislation includes key provisions of the Leahy-Specter Identity Theft Enforcement and Restitution Act, a critical anti-cyber crime bill unanimously passed the Senate last November. I urge the House of Representatives to promptly take up and enact this important criminal legislation.

Although the Secret Service has provided protection to former Vice Presidents over the last 30 years, through a variety of temporary grants of authority, this legislation will provide clear authority for the Secret Service to provide such protection for the first time. The men and women of the Secret Service perform the very difficult job of protecting our current and former leaders exceptionally well. I am pleased that this legislation will help the Secret Service to carry out this important mission.

This bipartisan legislation also includes important cyber crime provisions portions of the Identity Theft Enforcement and Restitution Act to protect the privacy rights of all Americans. The anti-cyber crime provisions in this bill are long overdue. A recent survey by the Federal Trade Commission found that that more than 8 million Americans fell victim to identity theft in 2005. In addition, a new report by the Organization for Economic Co-operation and Development encourages democratic governments around the world to more aggressively fight identity theft by enacting stronger cyber crime laws and stiffening the penalties targeting potential cyber-criminals.

The key anti-cyber crime provisions that are included in this legislation will close existing gaps in our criminal law to keep up with the cunning and ingenuity of today’s identity thieves. First, to better protect American consumers, the legislation provides the victims of identity theft with the ability to seek restitution in Federal court for the loss of time and money spent restoring their credit and remedying the harms of identity theft, so that identity theft victims can be made whole.

Second, to address the increasing number of computer hacking crimes
that involve computers located within the same State, the cyber-crime amendment eliminates the jurisdictional requirement that a computer's information must be stolen through an interstate or foreign communication in order to federally prosecute this crime.

Third, this legislation also addresses the growing problem of the malicious use of spyware to steal sensitive personal information, by eliminating the requirement that the loss resulting from the damage to a victim's computer must exceed $5,000 in order to federally prosecute the offense. The bill carefully balances this necessary change with the legitimate need to protect innocent actors from frivolous prosecutions and clarifies that the elimination of the $5,000 threshold applies only to criminal cases.

In addition, the amendment addresses the increasing number of cyber attacks on multiple computers by making it a felony to employ spyware or keyloggers under any circumstances, regardless of the aggregate amount of damage caused. By making this crime a felony, the amendment ensures that the most egregious identity thieves will not escape with minimal punishment under Federal cyber-crime laws. The legislation also strengthens the protections for American businesses, which are more and more becoming the focus of identity thieves, by adding two new causes of action under the computer-extortion statute—threatening to publish or release information from a protected computer and demanding money in relation to a protected computer—so that this bad conduct can be federally prosecuted.

Lastly, the legislation adds the remedy of civil and criminal forfeiture to the arsenal of tools to combat cyber crime, and our amendment directs the U.S. Sentencing Commission to review its guidelines for identity theft and cyber crime offenses.

Senator Specter and I have worked closely with the Department of Justice and the Secret Service in crafting these updates to our cyber-crime laws, and the legislation we add as an amendment to the Former Vice President Protection Act has the strong support of these Federal agencies and the support of a broad coalition of business, high-tech and consumer groups. The bill as amended to include these critical cyber-crime provisions is a good bipartisan bill that will help to further protect our Nation's leaders and to better protect all Americans from the growing threat of identity theft and other cyber crimes.

Again, I thank the bipartisan coalition of Senators who have joined Senator Specter and me in supporting this important bill. I urge the House of Representatives to promptly enact this important criminal legislation.

HABEAS CORPUS

Mr. LEAHY. Mr. President, last month's 5-4 Supreme Court decision in Boumediene v. Bush reaffirmed our core American values, and served as a stinging rebuke to the Bush administration's flawed power grab over the last 6 years. The Bush administration's repeated attempts to eliminate meaningful review of its actions by the Federal courts failed to withstand Supreme Court review. This decision is a vindication for those of us who have maintained from the beginning that the administration's detention policies were not only unwise, but were also illegal and unconstitutional.

In the wake of the tragic attacks on September 11, 2001, toward the beginning of President Bush's first term in office, this country had an opportunity to come together to show that we could bring the perpetrators of heinous acts to justice, consistent with our history and our most deeply valued principles. I and others reached out to the White House to try to craft a thoughtful and effective bipartisan solution. Instead, this White House, supported by the Republican leadership in Congress, pursued its goal of increasing executive power at the expense of the other branches. In so doing, they chose a path that disregarded basic rights, lessened our standing in the world, trampled some of our most deeply held values, and brought us no closer to delivering justice to those who have injured us.

At a recent Senate Judiciary Committee hearing, which explored the mistakes and missed opportunities of the past few years, we heard from Will Gunn, a retired U.S. Air Force colonel and the former chief defense counsel of the Military Commissions. He believes that “many of our detention policies and actions in creating the Guantanamo military commissions have seriously eroded fundamental American principles of the rule of law in the eyes of Americans and in the eyes of the rest of the world.”

In the Hamdan case the Supreme Court rebuked the Bush administration for trying to circumvent the Constitution and laws, with the Hamdan case the Supreme Court rejected the view that the DTA stripped the courts of jurisdiction over pending habeas cases. I applauded the Hamdan decision at the time as a “triumph for our constitutional system of checks and balances.”

But once again, instead of following the Supreme Court’s repeated reminders that our Government must respect our Constitution and laws, within days of the Hamdan decision, the last Congress, acting in complicity with the Bush administration, hastily passed the Military Commissions Act in the run-up to the 2006 mid-term elections. That bill sought, quite often, to strip access to Federal courts for noncitizens determined to be enemy combatants or who were merely “awaiting determination.” It aimed to take away habeas rights not just for detainees held at Guantanamo Bay, but also potentially for millions of lawful permanent residents working and paying taxes in this country.

I voted no. These were my words then:

Over 200 years of jurisprudence in this country, and following an hour of debate, we get rid of it. My God, have the Members of this Senate gone back and read their oath of office upholding the Constitution? [W]e are about to put the darkest blot possible on this Nation's conscience.

Regrettably, the Federal appellate court in Washington, DC the same court whose limited review was supposed to serve as a substitute for the Great Writ fumbled its opportunity to serve America's right. Instead, this court decided in the jurisdiction-stripping provisions did not violate the Constitution.

Those of us who recognized that Congress had committed a historic error when it recklessly eliminated the Great Writ of habeas corpus tried to reverse the Court in Hamdan. But even with the support of several Republican Members of this body, Senator SPECTER and I fell 4 votes short of the 60 votes...
required to overcome a Republican filibuster of our effort last year to restore habeas rights by adding the Habeas Corpus Restoration Act as an amendment to the Defense Department Authorization bill. In its Boumediene decision, the U.S. Supreme Court fulfilled its constitutional responsibility— a responsibility in which so many others had failed and upheld the Constitution and our core American values. After Boumediene, the administration’s record in the Supreme Court on habeas is now 0 for 4. Four times it has sought to erode the time-honored habeas right that protects our forebears and our personal liberty that is America’s first principles. Chief among those are real danger to our security, Justice Kennedy is quite eloquent and moving. While recognizing the executive authority and responsibility to apprehend and detain those who pose a threat, the Framers decided that habeas corpus, a right of first importance, is a part of that framework, a part of that law. The Supreme Court reaffirmed American values, our fundamental adherence to our Constitution and the rule of law, and our great strength in so doing. What is surprising is not that the U.S. Supreme Court would follow the Bush administration’s reasoning of its opinions by Justice O’Connor and Justice Stevens, himself a decorated combat veteran, but that the decision was not unanimous.

Justice Scalia’s dissent reads like a threatening partisan statement from Vice President Cheney’s office rather than an independent judicial review of the case. He uses language about Islam that was rightly condemned as wrong and counterproductive by this administration’s own intelligence community, and he repeats the administration’s tragically mistaken mantra by lumping the various factions of Islam, including the multilithic “enemy” collectively responsible for the attacks on the United States on September 11. Most disappointing is that his hyperbolic rhetoric is hard to square with his own acknowledgement in the Hamdi case that habeas corpus is “the very core of our liberty secured in our Anglo-Saxon system of separation of powers” and that “indefinite imprisonment on reasonable suspicion is not an available option of treatment for those accused of aiding the enemy, absent a suspension of the writ.”

What role should Congress play as the Federal judiciary begins to implement the Boumediene decision? According to Attorney General Mukasey in his recent remarks on the future of habeas, Congress should jump in the fray again in an election year. Although he may have legislation to propose, he asks Congress to act hastily to minimize judicial oversight and maximize executive power. The Attorney General seems to have adopted the Bush administration’s mantra: “Don’t trust the courts.”

The Attorney General has it exactly wrong. Congress made a mistake in 2006 when it bent to the will of the Bush administration by passing the Detainee Treatment Act, which created the detainee review process that the Supreme Court has now determined is hopelessly inadequate. Congress made a mistake in 2006 when it bent to the will of the administration by passing the Military Commission Act, which, as we now know, violated the U.S. Constitution in its efforts to stop the Federal courts from reviewing executive detention decisions. It would be foolish to bend to the will of the Bush administration once again to try to weaken or circumvent the Boumediene decision. Worse, by hastily legislating now, we would risk perpetuating the terrible policy judgments of years past that have led us so far astray in the fight against terrorism.

I trust our Federal courts to get it right. Had we relied on them to dispense American justice, perhaps we would have accomplished more in the fight against terrorism over the last several years. Our courts have proven themselves up to the task of trying the likes of Zacarias Moussaoui and Jose Padilla in difficult, complex and sensitive federal proceedings where unlike the restricted rights available in habeas proceedings these defendants enjoyed the full panoply of constitutional protections. These men now stand convicted of terrorism-related offenses and they will spend the rest of their lives in prison, as they should. Just as I would not have questioned Attorney General Mukasey’s ability to prosecute terror-related prosecutions when he was a judge in Manhattan, I do not question the ability of the Federal judges in Washington, DC, to handle the habeas petitions from the detainees at Guantanamo Bay responsibly and diligently—particularly where our courts have proved up to the task in so many actual criminal trials.

I was particularly disappointed to hear the Attorney General attempt to play on Americans’ fears by suggesting that, in the wake of a Supreme Court decision affirming our core values, our national security has somehow jeopardized if Congress does not act. He knows that no detainee has been set free as a result of the Boumediene decision, and that the government will have ample opportunity to justify its detention decisions on favorable standards of proof. The Attorney General has failed to demonstrate that Federal courts have successfully conducted terrorism cases using procedures derived from the Classified Information Procedures Act to ensure that classified information is safeguarded, and there have been no leaks of information where those procedures have been employed. And he knows that the federal court in Washington, DC, is taking steps to streamline and consolidate habeas proceedings to avoid unnecessary litigation.

In fact, the Federal bench in Washington, DC, is working hard to follow the rule of the Supreme Court by ensuring a prompt, safe and orderly disposition of the 250 or so detainee habeas petitions. The judges, the Department of Justice, and the Department of Defense are now working to resolve key issues that will allow the cases to proceed in the months ahead.

The court has also taken steps on its own to consolidate common issues before one judge former Chief Judge Thomas F. Hogan—to streamline the review process as much as possible. In the meantime, for those detainees who have been charged under the law of
war, the district court has ruled that the military commissions may proceed as planned, and that the right to habeas corpus will crystallize only once there is a final judgment.

The Bush administration can hardly complain if it takes the Federal district judges presiding over these habeas cases some time to resolve them. After all, it was the Bush administration that tried to avoid court scrutiny at all costs. The court challenge remains an open question after the Supreme Court, having rejected this effort, the courts must now be permitted to do their jobs.

Is there anything that Congress should do at this time? One thing that Congress could and, in my view, should do is to pass the Habeas Corpus Restoration Act that Senator SPECTER and I introduced in the wake of the passage of the Detainee Treatment Act, and with which we sought to modify the Military Commissions Act. A bipartisan majority of the Senate voted with us last year when we were seeking to add it to the Department of Defense authorization bill, but we were forestalled by a filibuster. I trust that those who said they were not ready to join us last year because of the pending case will join us now and do the right thing. It was Congress’s mistake to pass the habeas stripping provisions of the Detainee Treatment Act and the Military Commissions Act, and we should correct it by passing our bill to amend the law. The Supreme Court has already declared those provisions unconstitutional. In my view, it is a shame that the Supreme Court had to step in before we corrected our mistake.

These unconstitutional habeas-stripping provisions are a blot on the Senate, and on the Congress, and should not reside in our laws. We should reverse the Senate’s action and correct its error. I do not want to see another Senate apologize years down the road for procedures we were designed to strip habeas rights, as we have belated apologies for America’s treatment of Native Americans, the internment of Japanese Americans, and other grievous errors in our past. I do not want a future Senate to look back with shame or have to issue an apology for unconstitutional legislation coming from this great body. Congress should pass the provisions of the Habeas Corpus Restoration Act.

The Senate will need to join together in the weeks and months ahead to rethink the misconceived legal framework that has been devised by this administration. We will need to work together—with each other, with the House; the new Office of Special Investigations—to supplement our laws, consistent with our Constitution and core values, and to restore our leadership in the world and more effectively defend our Nation. We can recapture the bipartisan demon spirit that united us on the days immediately following 9/11 and move forward, not as Democrats or Republicans, but as Americans.

The Supreme Court was explicit that its decision in Boumediene only reached the unconstitutional attempt to strip habeas corpus review from these detainees and that the Detainee Treatment Act and combatant status review tribunal process remain intact.

Likewise, the General and Department of Justice have said that the military commissions will continue, and a federal judge in Washington, DC, recently ruled against a detainee’s effort to secure habeas review before his military commission was to commence.

I think we will need to review both processes. The military commission system is so deeply flawed that after close to seven years it has only just started its first trial. The world will never view those proceedings as fair or consistent with the rule of law. We are too strong and confident a nation to seek vengeance or be driven by fear. America is great in part because it does not shirk its legal obligations but embraces them and lives by them. When America acts, as it did, to circumvent the law by holding prisoners off shore, to contract out torture to third parties, or to suspend the Great War, America envisioned by our Founders and preserved by every previous generation of Americans.

I look forward to working in the next session with Senator FEINSTEIN on her initiative to close the Guantanamo Bay facility, and begin to erase the damage it has done to the United States’ reputation around the world. She has sponsored legislation to move us in that direction. I want to commend Senator WHITEHOUSE for his legislative proposal to establish a congressional commission to make nonpartisan recommendations to Congress on how best to proceed in the future. I know that Senators DURBIN and SPECTER introduced military commission bills back around the same time that I did. We will need to work across committee lines and across the aisle, to involve not only the reconstituted Department of Justice, but also the Departments of Defense and State as we go forward. We will need to re-consider where else we went wrong and how to set the entire system on better, stronger foundations.

AIR FORCE OFFICE OF SPECIAL INVESTIGATIONS

Mr. SPECTER. Mr. President, I have sought recognition of the vote on July 28 against cloture—to end debate—on the motion to proceed to S. 3297, the so-called Reid omnibus bill or “Coburn package.” As I stated on the Senate floor Monday, July 28, it is my firm belief that the majority leader called for a vote on cloture on proceeding to this bill in order to dislodge the pending legislation on oil speculation. By using his position of power, he seeks to force the Senate to preempt the issue facing the people from my State and the Nation namely energy legislation.

I did not support cloture to move to the Reid omnibus bill not because I do not support many of its provisions, rather because I believe we should complete work on energy legislation before moving on to other matters. Further, I am seeking my right as a U.S. Senator to offer amendments to a bill in a fair and balanced legislative process.

For instance, Senator KOHL and I had a bipartisan amendment prepared to offer to the speculation bill that would have amended the U.S. antitrust laws to prohibit them from meeting in a room, lowering production and supply, and thus raising prices. Unfortunately, this effort was denied by the majority leader’s blocking of amendments by filing the so-called amendment tree, disallowing mine and a number of other amendments that ought to be considered.
This procedure is nothing new for this majority leader who has filled the amendment tree on 15 occasions in the current 110th Congress, surpassing all other majority leaders in modern history. As a result of the majority leader's success, the Senate has reformed the debate procedure and amendments. I have been faced with voting against cloture on measures I would have ordinarily supported including this past Saturday's vote on LIHERAP. I have also opposed cloture in instances in which I have opposed the bipartisan global warming bill which was considered the first week of June—2 to 6. In that case, the majority leader filled the amendment tree at the first opportunity and filed cloture on the bill without ever allowing consideration of amendments. The 5-day debate culminated in a fait accompli cloture vote that failed on June 6.

Most recently, I voted against cloture to move to the Reid omnibus bill that was a conglomeration of legislation that has been described as non-controversial and may benefit a wide variety of interests. As I stated on the Senate floor on Monday, July 28, I am supportive of most, if not all of the substance in this bill. In fact, I am a cosponsor of the Bills of Rights Amendment Act of 2008, S. 2982, which also supports my philosophy of the Bill of Rights.

I support and have worked to pass a number of the Judiciary Committee-related bills in the proposed omnibus. For example, I am an original cosponsor of Runaway and Homeless Youth Protection Act, S. 2969, which makes changes in the grant program for centers for runaway youths. I am also a cosponsor of the Mentally Ill Offender Treatment and Crime Reduction Reauthorization and Improvement Act of 2008, S. 2304, which would provide grants for the improved mental health treatment and services provided to offenders with mental illness. In addition, I am a cosponsor of the Emmett Till Unsolved Civil Rights Crime Act, S. 592, which authorizes grants to states to solve pre-1970 civil rights crimes. Moreover, in committee, I supported a Federal commission to commemorate the bicentennial of the writing of the Star-Spangled Banner and the War of 1812, S. 1079.

Additionally, I voted in favor of the following child protection bills which were passed by the Judiciary Committee: The Combating Child Exploitation Act of 2008, S. 1738, which authorizes grants to states to combat child exploitation; and the Drug Endangered Children Act of 2007, S. 1210, which extends a grant program directed at drug-endangered children.

I directed my staff to work to clear the child exploitation bills from the omnibus package in the same manner I worked to pass the Adam Walsh Act without extraneous add-ons during the 109th Congress. To that end, my staff worked with Senator Coburn's staff to draft a proposed compromise child exploitation bill that includes the provisions of the child pornography and exploitation legislation in the proposed omnibus, as well as important legislation to strengthen the powers of the National Center for Missing and Exploited Children, the SAFE Act, which was omitted from the omnibus bill.

My support is also invested in efforts to more effectively protect the safety of the Chesapeake Bay Watershed while simultaneously preserving its resources for the communities it serves. S. 2707, The Chesapeake Bay Gateways and Water Trails Network Continuing Authorization Act of 2008, authorizes appropriations for these vital programs. I cosponsored this legislation because I believe it is a critical organization whose mission to protect the bay is vital for the communities affected by this watershed.

Another environmental act I have fervently supported and of which I am an original cosponsor, is S. 496, the Appalachian Regional Development Act Amendments of 2008. The bill renews the Appalachian Regional Commission for another 5 years and authorizes $550 million to be appropriated over that timeframe for the Commission's economic development activities in distressed rural counties.

Numerous health care provisions I have worked on can also be found in this package, including S. 1382, which establishes a registry of those suffering from amyotrophic lateral sclerosis, ALS, better known as Lou Gehrig's disease. The registry will gather data on those who are diagnosed with the disease to better understand and research the illness. As Ranking Member of the Labor, Health and Human Services and Education—LHHS Appropriations Subcommittee, I support research and an ALS registry. I worked to provide $39 million for NIH research of ALS in 2008 and $2.8 million to plan the ALS registry. I also am a cosponsor of S. 1183, the Christopher and Dana Reeve Paralysis Act, which authorizes funds to expand paralysis research at the National Institutes of Health, NIH, and set up a network to allow patients and their families to quickly learn the result of clinical trials on paralysis rehabilitation drugs. The LHHS fiscal year 2008 appropriations bill provided $94 million for NIH spinal cord research.

The package also included bills, H.R. 3112, S. 1810 intended to create a new Federal grant program to pay for information and services related to Down syndrome and other prenatally or postnatally diagnosed conditions. While awaiting these authorization bills, I have worked with Senator Harkin to get a jump start on these much-needed activities by including $1 million to establish the congenital disabilities program in the fiscal year 2009 Labor, HHS, and Education Appropriations bill. In addition, the Labor-HHS Subcommittee provided almost $1 million to the CDC in fiscal year 2009 for awareness activities related to Down syndrome.

One of the bills, H.R. 477, would permit the issuing of grants to states for stroke care systems. As ranking member of the Labor-HHS Appropriations Subcommittee, I have worked to increase CDC funding for heart disease and stroke activities in the States to over $50 million and NIH funding for stroke care systems to over $340 million in fiscal year 2008.

Another bill, S. 1375, would establish a grant program for services to mothers suffering from postpartum depression. As ranking member of the Labor-HHS Appropriations Subcommittee, I have worked with Chairman Harkin to include $4.9 million for a first-time motherhood initiative within the maternal and child health block grant. I also support S. 675, the Training for Realtime Writers Act of 2007. The Telecommunications Act of 1996 requires 100 percent closed captioning for all new English broadcast programming by January 1, 2006. That deadline has come and gone. There are not enough real-time writers and captioners to meet this unfunded mandate out in the workforce. Furthermore, the Telecommunications Act of 1996 requires 100 percent closed captioning for all new Spanish broadcast programming by January 1, 2010. America is very far from having the real-time staff assist with training the workforce to provide closed captioning for the 30 million Americans who are deaf or hard-of-hearing.

I support H.R. 3320, the Support for the Museum of the History of Polish Jews Act of 2007, which requires assistance from the Department of State to support the development of a permanent collection at the Museum of the History of Polish Jews in Warsaw, Poland. It is in the national interest of the United States to encourage the preservation and protection of artifacts associated with the heritage of U.S. citizens who trace their forbearers to other countries and to encourage the study of their history and knowledge about that heritage. Most recently, I traveled to Poland on August 27, 2007, and observed firsthand the importance of museums that examine Polish Jews in Warsaw, Poland. The Museum of the History of Polish Jews will complement the current museum facilities in Warsaw by preserving and presenting the history of the Jewish population in Poland, which has had the largest Jewish population in Europe at the beginning of World War II.

Having outlined a number of priorities and areas of support I have with this omnibus bill, let the record show that I support the package as a whole. However, as evidenced by my vote against cloture on the motion to proceed to the bill, I believe the energy situation is too important to set aside until we have completed or frankly even started our work on it by allowing amendments to be considered. It has been my hope that the Finance Committee's opposition to this omnibus bill to our constituents will be difficult. While this premonition may have some merit,
I trust that the people of Pennsylvania and the Nation will support efforts to deal with high energy prices and encourage the kind of open and fair debate that leads to better policies across the board.

I reiterate my suggestion that the Senate stay in session during the month of August, if the majority leader would hold a legitimate session that provides the kind of deliberation that has led many to call the U.S. Senate "the greatest deliberative body in the world." This body should be prepared to work as long and hard as necessary in order to reach a solution to the energy crisis not based upon political appeasement, but results. It is time we allow debate and compromise to reverberate through this chamber as we find areas of agreement in the best tradition of the Senate.

NOMINATION OF JAMES A. WILLIAMS

Mr. GRASSLEY. Mr. President, I, Senator Chuck Grassley of Iowa, intend to object to proceeding to any unanimous consent agreement pertaining to the nomination of Mr. James A. Williams to be the Administrator of the General Services Administration.

The Committee on Homeland Security and Governmental Affairs voted to report the Williams nomination favorably to the full Senate on July 30, 2008. I oppose this nomination because of Mr. Williams' actions in connection with the renegotiation of a contract with Sun Microsystems in August-September 2006. I have outlined my concerns about this matter in detail in a speech on the floor on July 24, 2008. That statement appears on pages S7272-S7274 of the RECORD.

Mr. President, I would like to inform my colleagues that I have requested to be notified of any unanimous consent agreement that would allow for the consideration of the nomination of Mr. James A. Williams to be the Administrator of the General Services Administration, GSA.

I intend to reserve my right to object to any such request.

I expressed my opposition to this nomination in a floor statement on July 24, 2008, and in a letter to the chairman of the Committee on Homeland Security and Governmental Affairs on the same date. My letter to Chairman Lieberman appears in the RECORD on page S7273 at the conclusion of my speech.

My opposition to this nomination is based on the results of an in-depth, oversight investigation conducted by my staff in 2006-2007. This investigation examined the actions of Mr. Williams, former Administrator Doan, and several other senior agency officials in the contract negotiations with Sun Microsystems in May-September 2006. There were: No. 1. allegations of fraud on the Sun contract that was being renegotiated; No. 2. Mr. Williams and Ms. Doan had knowledge of the alleged fraud; and No. 3. allegations that Mr. Williams and Ms. Doan had improperly interfered in the ongoing negotiations and put pressure on the contracting officer to sign what was considered a bad contract. I presented the full chart statement on October 17, 2007, which appears on pages S12952-12954 of the RECORD.

At Mr. Williams' hearing on July 25, the committee did ask him some tough questions about his knowledge of the alleged fraud and his role in the Sun contract negotiations. However, Mr. Williams' response was less than complete, and there was little or no follow-up by the committee. I am preparing follow-up questions for Mr. Williams, asking him for more details.

All the evidence developed in my oversight investigation points to the existence of serious unresolved issues involving Mr. Williams' role in this matter. Mr. Williams' actions do not believe that Mr. Williams should be promoted to high office. He placed the well-being of the GSA before the interests of all the hard-working American taxpayers, who were sworn to protect. There needs to be some accountability in the Federal contracting system for blunders and missteps during the Sun contract negotiations. I may have more to say on this subject at a later date.

PAYMENTS TO PHYSICIANS

Mr. GRASSLEY. Mr. President, I have been examining several doctors at universities across the country to see if they are complying with the financial disclosure policies of the National Institutes of Health. I ask unanimous consent to have my latest letters to Stanford University and to the National Institutes of Health printed in the RECORD.

I yield the floor.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

PAYMENTS TO PHYSICIANS

Mr. GRASSLEY. Thank you again for your continued cooperation and assistance in this matter. I look forward to a complete response to outstanding questions in writing from companies that can only be explained in writing. The Committee understands that Stanford will provide a comprehensive response to the investigation sometime soon, which will include these details. Stanford has notified the Committee that any discrepancies in the chart are most likely due to differences in accounting between Stanford and the various companies contacted by the Committee.

As Stanford pointed out in a public statement, there was an error in the chart that the Committee sent to you regarding payments from Eli Lilly to Dr. Schatzberg in 2003. The chart stated that Schatzberg had "not reported" this money when in fact he had. Therefore, this letter is being placed in the congressional record to correct the official record.

Stanford also noted that Dr. Schatzberg's reports on payments from Eli Lilly in 2004 include compensation of less than $10,000 for advisory board activities and up to $50,000 for honoraria for papers, lectures and consulting. This also matches the footnote in the Committee's chart and appears to capture all the monies reported by Eli Lilly ($52,134) for that year.

However, Committee investigators still have concerns regarding Johnson & Johnson's report of paying Dr. Schatzberg $22,000 in 2002. According to Stanford's statement, "Dr. Schatzberg did disclose this payment to the university and also reported it to the Committee. He disclosed the $22,000 to Stanford from Janssen, the wholly-owned subsidiary of Johnson & Johnson that made the payment." The reason that we continue to be concerned is because it appears for less than $10,000 from Janssen for academic year 2002 (September 2, 2001 through August 31, 2002) and less than $10,000 for academic year 2003 (September 1, 2002 through August 31, 2003). Johnson & Johnson did not delineate payments from subsidiaries such as Janssen when it reported the information to the Committee. Johnson & Johnson reported a payment of "fee for services" of $22,000 to Dr. Schatzberg on August 19, 2002. Even noting differences in accounting methods, Dr. Schatzberg's reports on Janssen do not appear to fully explain the discrepancy.

Inconsistencies also appear among the payments reported to us by Eli Lilly in 2002. Eli Lilly reported paying Dr. Schatzberg $19,798 that calendar year. However, Dr. Schatzberg reported that he received less than $10,000 from Eli Lilly for academic year 2002 (September 2, 2001 through August 31, 2002) and more than $10,000 for academic year 2003 (September 1, 2002 through August 31, 2003). Noting possible differences in accounting methods, Dr. Schatzberg on Eli Lilly may explain the discrepancy, but only if one combined the 2002 and 2003 academic years.

Further, based on documents in our possession, it appears that Wyeth paid Dr. Schatzberg for testifying as an expert witness in 2006. This work was in response to lawsuits brought against Wyeth regarding its antidepressant, Effexor. As Dr. Schatzberg wrote in an undated expert report on behalf of Wyeth, "My hourly rate for review of materials or attending a deposition is $500." Dr. Schatzberg was apparently an expert witness in at least two cases for Wyeth, but payments for this work cannot be found in his reports of outside income to Stanford. Therefore, I would appreciate your clarification of Dr. Schatzberg's expert witness fees and how they are recorded on Stanford's financial disclosure form.

Thank you again for your continued cooperation and assistance in this matter.
Dr. JOHN L. HENNESSY, President, Stanford University, Office of the President, Stanford, CA.

DEAR DR. HENNESSY: The Senate Finance Committee recently sent you a letter attempting to clarify discrepancies in a chart comparing reports of payments made by several pharmaceutical companies against those reported by Stanford. In the next year, I am interested in understanding the involvement of Dr. Schatzberg and Corcept. Dr. Schatzberg received compensation from Corcept and has a large equity interest in the Company. This equity could grow dramatically if the results of Dr. Schatzberg’s government sponsored research find that mifepristone could be used to treat psychotic major depression.

I have come to understand, based on documents provided to me by Stanford, that your institution had a financial relationship with Corcept. This agreement resulted in Stanford paying Dr. Schatzberg royalties. For instance, Dr. Schatzberg reported in his Stanford disclosure that he received payments of less than $10,000 for royalties from Stanford’s licensing agreement with Corcept Therapeutics. These payments were reported to Stanford in 2006.

As is well established, the NIH relies on universities to manage the conflicts that exist between a grantee and any outside financial interests. However, not only does Dr. Schatzberg have a financial interest in Corcept, but Stanford also had a relationship with Corcept and may still at that time. These facts raise multiple questions and concerns. For example, how can Stanford manage Dr. Schatzberg’s conflicts of interest with Corcept, when Stanford apparently has a similar conflict with the NIH?

Furthermore, when did Stanford notify the NIH of this conflict?

Additionally, I have many questions and concerns about Stanford’s recent press statement regarding how it managed Dr. Schatzberg’s conflicts of interest with Corcept. In the Stanford press release, Dr. Schatzberg claimed that he was not participating in any human subjects research involving mifepristone. However, based upon a search of published literature, Dr. Schatzberg’s name appears as the author of several published studies involving human subjects research and mifepristone. These studies were funded by NIH although one study was funded by Corcept and another was funded by both the NIH and Corcept. These studies include:

- 2002—Dr. Schatzberg was the final author on a paper in Biological Psychiatry that reported on a trial to study mifepristone to treat psychotic major depression in 30 patients. The study listed support by Corcept along with two grants from the National Institute of Mental Health (MH56047 and T32 MH019938). Dr. Schatzberg’s name appears as the primary investigator for grant MH56047. Note 2: The Committee was not able to estimate the total amount of payments disclosed by Dr. Schatzberg during the period January 2000 through June 2003 due to the fact that some amounts were not provided and other instances were used. Information reported by the pharmaceutical companies indicates that their reports do not match Dr. Schatzberg’s disclosures.

Dr. John L. Hennessy
President, Stanford University, Office of the President, Stanford, CA.

I would also appreciate your guidance on how Dr. Schatzberg could have been recused from involvement in research when he is listed as the primary investigator for several trials. For instance, Stanford has a clinical trials directory, which lists Dr. Schatzberg as a co-investigator for a trial involving mifepristone in the treatment of diabetic maculopathy.

Dr. Schatzberg is also listed as the primary investigator on ClinicalTrials.gov for another study that began in 2005 to treat depression with mifepristone. The NIH funded trial is listed as active, but not recruiting patients. The estimated enrollment is 100 patients in the double-blind, placebo-controlled study. In addition, Dr. Schatzberg is listed on ClinicalTrials.gov as the “study director” for a phase III clinical trial to “evaluate the effectiveness of mifepristone to treat patients with psychotic major depression.” This trial is also funded by the NIH and is now actively recruiting patients.

Furthermore, Stanford acknowledges in its press statement that “received a small amount of equity in that company.” Dr. Schatzberg’s financial stake in ensuring that the study protocol was approved. I seek your thoughts on this issue as well.

Finally, last February the Association of American Medical Colleges (AAMC) released its “Conflicts of Interest” guidelines governing conflicts of interest. The AAMC advised that institutions report conflicts of interest “in any substantive public communication of the research results.” However, when Stanford issued a press release regarding the results of Dr. Schatzberg’s research on mifepristone, the statement did not note if Dr. Schatzberg and/or Stanford had a financial interest in the research findings.

Dr. Schatzberg’s name appears as the author of several published studies involving human subjects research and mifepristone. These studies were funded by NIH although one study was funded by Corcept and another was funded by both the NIH and Corcept. These studies include:

- 2002—Dr. Schatzberg was the final author on a paper in Biological Psychiatry that reported on a trial to study mifepristone to treat psychotic major depression in 30 patients. The study listed support by Corcept along with two grants from the National Institute of Mental Health (MH56047 and T32 MH019938). Dr. Schatzberg’s name appears as the primary investigator for grant MH56047. Note 2: The Committee was not able to estimate the total amount of payments disclosed by Dr. Schatzberg during the period January 2000 through June 2003 due to the fact that some amounts were not provided and other instances were used. Information reported by the pharmaceutical companies indicates that their reports do not match Dr. Schatzberg’s disclosures.

Please provide a list of all patents and licenses held by Dr. Schatzberg. Is each patent and/or license, please provide the following:

(a) Provide a summary of the patent/license
(b) When was the patent/license first issued?
(c) For each patent/license, please list any companies that have a financial interest in the success of that patent/license.
I look forward to hearing from you by no later than August 14, 2008. All documents responsive to this request should be sent electronically in PFD format to the email address indicated above. If you have any questions, please do not hesitate to contact Paul Thacker.

Sincerely,

CHARLES E. GRASSLEY,
Ranking Member.

U.S. SENATE,
COMMITTEE ON FINANCE,

ELIAS A. ZERHOUMI, M.D.,
Director, National Institute of Health, Bethesda, MD

DEAR DIRECTOR ZERHOUMI: As a senior member of the United States Senate and the Ranking Member of the Committee on Finance (Committee), I have a duty under the Constitution to conduct oversight into the actions of executive branch agencies, including the National Institutes of Health as an example. As a representative of the public, I am concerned about allegations that raise substantial questions about the integrity of your agency. These questions were raised in the press and on the Internet. They involve what appear to be potential conflicts of interest after this series appeared. I would also like to know when Stanford determined that Dr. Schatzberg had a conflict of interest regarding his federal funding of mifepristone research involving adults with psychotic major depression back in 2002. This trial is also funded by the NIH and is now actively recruiting patients.

Please provide the information on Corcept:

(11) Dr. Schatzberg has reported in a 2006 published article in the New England Journal of Medicine that he has/had NIH grants to study mifepristone to treat adults with psychotic major depression. In the acknowledgment section of the paper, Dr. Schatzberg stated that he had a financial interest in several published studies involving human subjects research and mifepristone. One of these studies was funded by Corcept, some were funded by the NIH, and one was funded by both Corcept and the NIH. For instance, in 2006, Dr. Schatzberg published a study involving human subjects treated with mifepristone for psychotic major depression. This study was supported by several NIH grants. In the acknowledgment section of the paper, Dr. Schatzberg stated that he had a financial interest in several published studies involving human subjects research and mifepristone. One of these studies was funded by Corcept, some were funded by the NIH, and one was funded by both Corcept and the NIH. For instance, in 2006, Dr. Schatzberg published a study involving human subjects treated with mifepristone for psychotic major depression. This study was supported by several NIH grants. In the acknowledgment section of the paper, Dr. Schatzberg stated that he had a financial interest in several published studies involving human subjects research and mifepristone. One of these studies was funded by Corcept, some were funded by the NIH, and one was funded by both Corcept and the NIH.
CHANGES TO S. CON. RES. 70

Mr. CONRAD. Mr. President, section 222 of S. Con. Res. 70, the 2009 budget resolution, permits the chairman of the Senate Budget Committee to revise the allocations, aggregates, and other levels in the resolution for legislation improving education, including legislation that makes higher education more accessible or more affordable. The revisions are contingent on certain conditions being met, including that such legislation not worsen the deficit over the period of the total of fiscal years 2008 through 2013 or the period of the total of fiscal years 2008 through 2018.

I find that the conference report to accompany H.R. 4137, the Higher Education Opportunity Act, satisfies the conditions of the reserve fund for improving education. Therefore, pursuant to section 222, I am adjusting the aggregates in the 2009 budget resolution, as well as the allocation provided to the Senate Health, Education, Labor, and Pensions Committee. I ask unanimous consent that the following Pisn (70) be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

### CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2009—S. CON. RES. 70; REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 222 DEFICIT-NEUTRAL RESERVE FUND FOR IMPROVING EDUCATION—Continued

A closer look at these 3,006 tragedies show 1,972 children and teens were homicide victims, 822 children and teens committed suicide, and 212 children and teens died in accidental or under-determined circumstances: 2,654 were boys and 352 were girls; 404 were under the age of 5, 131 were under the age of 10, and 69 were under the age of 15.

More than five times as many children and teens suffered nonfatal gun injuries during the same period.

Mr. President, these staggering statistics cannot and must not be ignored. We must strengthen our gun laws to limit children’s access to guns. As a father and a grandfather, I urge my colleagues to take up and pass sensible gun safety legislation so that this frightening trend will not continue.

### CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2009—S. CON. RES. 70; REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 222 DEFICIT-NEUTRAL RESERVE FUND FOR IMPROVING EDUCATION

#### in millions of dollars

**Current Allocation to Senate Health, Education, Labor, and Pensions Committee:**

- FY 2008 Budget Authority: 9,574
- FY 2008 Outlays: 9,452
- FY 2009 Budget Authority: 9,340
- FY 2009 Outlays: 9,218
- FY 2010 Budget Authority: 9,218

### CHILDREN’S DEATHS BY FIREARMS

Mr. LEVIN. Mr. President, after more than a decade of decline, the number of children and teens killed by firearms is again increasing. I would like to take a moment to break down some of the statistics that contribute to this alarming fact. An analysis of firearm violence data by the Children’s Defense Fund found that 3,006 children and teens were killed by guns in 2005. This marked the first time that more than 3,000 kids were killed by firearms in many years and the first yearly increase in the number of children’s deaths since 1994. Broken down, this amounts to 1 child or teen dying every 3 hours in America, 8 children a day, or 58 children every week.

Firearms are the cause of death of more children between the ages of 10 and 19 than any other cause except car accidents. In 2005 alone, a shocking 69 preschoolers were killed by firearms. Between 1979 and 2005, gun violence took the lives of over 104,000 children and teens.

I doubt you will use this story because it will not help support the corporate energy giants or their lobbyists and it will not reaffirm the status quo as I believe Washington wants to continue to do.

Are you paying too much for energy at our house, just like everyone else. It costs us more to drive to work, to visit family, to...
take a vacation and to keep our home because of high gasoline, electricity, and natural gas costs. Food costs us much more, too.

But we are taking action ourselves to reduce them. We recycle, reuse, and repair. We invest in only green energy and companies that are forwarding a future that is not dependent on fossil fuels and that gives back to the planet they drain and use. And we buy only food that is grown in as sustainable a way as possible to support the best farmers and the practices they use. We support farm to table awards of the land.

And I know high fuel prices are making Americans use less gas, drive less, and think more before they get in the car and take a trip. The same is happening all across America, even previously unresponsive corporations like Walmart and Chevrolet and Ford and other big corporations are taking action to curb fuel costs, use less fuel, make more efficient cars, and save energy because the rising prices and changing energy markets affect their bottom lines. The only ones who are not taking any action are those who are making a profit from high energy prices.

The fact is, changes in the world of energy prices are changing our perspective on the environment. Humans are affecting the environment we live in are changing too. And people are taking action rather than wait for our unresponsive and partisan public officials to do something.

If you do anything or want to take any action, promote energy conservation in any way and noticeable energy conservation in all its forms. Under no circumstances should you both exploit the fossil fuel resources this country has. We will need them in the long term so they are investment in our future and best kept where they are and their exploitation now would only speed the further decline of this country and our global environment.

If you want to promote nuclear energy, then any proposal and supporter of such a bill should show that he or she does not understand that energy companies that are being sold low costs or gain in the oil business that is not dependent on fossil fuels, and that gives back to the planet they drain and use. And we buy only food that is grown in as sustainable a way as possible to support the best farmers and the practices they use. We support farm to table awards of the land.

And I know high fuel prices are making Americans use less gas, drive less, and think more before they get in the car and take a trip. whenever any Form of Government becomes destructive of these ends, it is the right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

This government is bent on overburdening its citizens. According to the Declaration of Independence, such government should be "altered or abolished."

Please do not get those wrong and think I'm anything but a patriotic American. Indeed, I spilled my own blood for this country of mine! I fought a war of bone cancer in the U.S. Navy and lost my right tibia. I have been fighting for twenty years for a right knee replacement, but I am told I cannot have one because of Veterans Administration policy and budgets. I received a Purple Heart at Balboa Naval Hospital, but it does not show on my DD-214. Am I bitter, yes! But, I still love my country!

There are countless millions of people out here (outside of your 3-piece suits and luxury cars—outside your sphere of influence) who feel just as I do. There seems to be some not doing what we can do about it. Vote yes, sure, but ultimately it is you who make the decisions right, wrong, indifferent, fair or not fair. How you decide personally and politically makes the determining factors of whether you stand for us or against us. . . . the People of these great United States of America.

You must choose whether or not you get to keep your jobs gentlemen. I now have a Master's Degree, a chip on my shoulder for politicians, and a lot of free time! Shall I work with you or against you?

Here are our requests:

Cut Foreign Oil Purchasing!  
Cut Defense Subsidies . . . on all fronts!  
Cut your paychecks in half, even for three months to show good faith!

Make 100 percent Diesel!  
Make diesel vehicles and electric vehicles a priority now!  
End gasoline vehicle production now, not 20 years from now!  
Make Alternative fuels vehicles a priority now not 20 years from now!  
Electric power can be harnessed all day long in the desert, why isn't it?

Wind energy can be harnessed in the desert, why isn't it?

Why burn coal to make electricity when you can burn Brown's Gas (HHO) for half the cost and zero percent emissions released into the air?

JONATHAN-DAVID, Meridian.

Your thinking is not unique . . . it is rhetoric we have heard for the past 30 years. Jimmy Carter and his lies about a shortage of energy source. Thanks for listening.

RON.

In your e-mail, you have said that you support wind energy. I was disappointed to see that you voted against the Production Tax Credit that would help the wind industry to continue to grow.

STEPHENV

I will be 67 this October; my wife is 58. I am still working, at a [lower] salary than I once commanded. This fiasco on gasoline and diesel prices has caused me to wonder if I will ever be able to retire.

I own a motor-home; having traded in my one-ton diesel pickup and a 5th wheel trailer due to the screaming increases in diesel fuel. Now I cannot travel at all the way we had planned and hoped. All of my immediate family is in the Mississippi, Louisiana and Texas areas—it may be that some of my family I may never see again. Selling the motor home is foolish at this juncture in that I cannot hope to even almost recoup my investment.

It is essential that Congress immediately find and drill for oil anywhere in our own territories. At the same time, there should be means found that can provide: a) sensible alternative fuels or b) major improvements in the internal combustion engine. Nuclear energy has been stupidly legislated out of the future due to college of politicians. My concern is that when we had the majority and the President, we did not seem to have the leadership that could provide the increase in oil search, production and refinement. Now it seems that we may no longer have the Presidency and for sure will not regain the majority in the legislature. It is my firm belief that the opposition will wreck our economy to death with continued pressures on ethanol or taxation on larger vehicles—all under the wing of left-wing paralysis.

Concern increases in the supply, while changing the demand via alternative fuels, seem to be the only sensible way to go.

AL, Hayden.

REMEMBERING GOVERNOR ANNE ARMSTRONG

Mr. CORYN. Mr. President, I rise today with a heavy heart for the loss of one of Texas' strongest, most influential women, Anne Armstrong. More importantly, I rise today to honor and commemorate her incredible service to Texas and the Nation as a whole.

To understand what kind of a woman Anne Armstrong was, you first need to understand where she came from. A vaudevillian graduate of Vassar in 1949, she entered the political arena in 1987, not in Texas politics, but on a ranch in southern Texas' Kenedy County with her husband Tobin.

Although she was born in Louisiana, Anne quickly took to Texas life, and enjoyed working on one of Texas' historic ranches, settled in the 18th century. Owning a ranch taught Anne to be tough when necessary, and always polite. She also learned how to talk politics with her husband and his friends, and quickly proved to have a sharp insight into the issues facing our country.

Although her family always came first, Anne's passion for politics led her to become the Kenedy County Republican Chair. From there she took off, serving next as Texas Republican Chair, and eventually as the first woman ever to cochair the Republican National Committee.

One year later Anne made history again when she became the first woman ever to deliver a keynote address to a national party convention.

But Anne's service was never about the notoriety, it was about improving the government of America. In a time when women in politics were almost unheard of, Anne Armstrong forced herself into the game, and proved that she belonged there. She became the first ever woman to hold a Presidential Cabinet Position, serving as an adviser to Nixon and to Ford.

When President Ford joked at her swearing-in that his wife was "always needling" him to appoint women to higher positions, Anne quickly retorted: "I have the feeling Abigail Adams would have been just as excited as Betty Ford and I."

In her role Anne worked to further advance the roles of women in America. She established the White House Office of Women's Programs, an office dedicated to recruiting and assisting females in obtaining political appointments and high level government employment. Her work, as well as her example, helped lay the groundwork for countless women who have followed her lead. I know that my mentor for HUTCHISON, attributes much of her success to Anne's example and mentorship.

After serving in the White House, Anne again made history as the first female Ambassador to the United Kingdom. During that time, Anne Armstrong nearly became the first woman on a Presidential ticket, as she was considered by President Ford for the vice presidency.

In what would be her last national position, Anne served at the request of President Reagan on the President's Foreign Intelligence Advisory Board. She served as the first and only female chair to that board, and served under both Presidents Reagan and Bush.

Ultimately, Anne Armstrong was an adviser to four different presidents, a mentor to many of today's prominent politicians, and a beloved friend to all who had the pleasure of working with her. I know that my mentor for HUTCHISON, attributes much of her success to Anne's example and mentorship.

As passionately as Anne Armstrong worked in politics, nothing could take priority over her family. After serving in national politics for roughly 20 years, Anne returned home to her ranch and her family in Kenedy County.

Even after such a remarkable career in politics, Anne Armstrong could not resist the call to serve her community. When she passed away on Wednesday, Anne Armstrong was still serving as the county commissioner. At the age of
Mr. LEAHY. Mr. President, I would like to pay tribute to one of central Vermont’s finest community gathering spaces, the Wayside Restaurant. Over the past 90 years, the Wayside has built its reputation around the State of Vermont as an establishment where neighbors enjoy a country style breakfast, a quick business lunch, or a well-rounded family dinner. The Wayside represents the needs of the community with affordable and diverse pleasures.

In 1918, when Effie Ballou opened the small soup and sandwich restaurant, she never expected it would become what it is today. The Wayside serves around 1,000 customers a day, and with 160 seats, is always filled with loyal customers. Vermonters from all walks of life frequent the Wayside for authentic Vermont cooking. Politicians, professionals, farmers, elderly people, and children all eat family-style and enjoy where they can choose a booth or saddle up to the horse shoe dinner top.

The Wayside’s menu offers more than 200 items, plus an additional list of specials, all recognized as top-notch. These daily specials are memorized by the true blue patrons who line up at the doors before 6:30 a.m. Unique delights such as fresh native perch, only served in season, is breaded and fried. Traditional Yankee family dinners are always accompanied by freshly baked pies, breads and donuts.

One of Vermont’s landmark eateries, the Wayside Restaurant sparks community admiration through its history of public service. A major part of the Wayside’s success is its history of family ownership. Karen Galfetti and Brian Zecchinelli are second-genera-
tion owners and operators. The couple’s dedication and hands on approach have set the tone of the establishment, aided by their home’s location right next to the restaurant. Working together as a family, the Zecchinellis strive to create a comfortable atmos-
phere and affordable service for the community; as such they represent the heart of working America. Providing excellent benefits for employees, most of whom have been there for decades, the philosophy behind the Wayside reflects the kind of values that strengthen our country. The Zecchinellis’ dedica-
tion was recognized in 2004 when the U.S. Small Business Administration named them best Family-Owned Small Business of the Year.

Without the Wayside, to invite folks into Vermont, we would be missing not only the chance to connect with our next door neighbors, but the opportunity to support a long-time establish-
ment that has always kept the interests of its customers at the heart of its expansion.

Mr. President, I ask unanimous con-
sent that an article from the Times Argus detailing their 90 years of suc-
cess be printed in the RECORD.

There being no objection, the mate-
rial was ordered to be printed in the
RECORD, as follows:

[From the Times Argus]

Wayside Turning 90

(BY SUSAN ALLEN)

Montpelier/Berlin (literally) — In 1918, the Armistice was signed, ending World War I. A legend — Ella Fitzgerald — was born. A first class postage stamp cost 3 cents.

And, of course, the Boston Red Sox won the World Series.

That same year, Effie Ballou opened The Wayside Restaurant, straddling Montpelier/Berlin town lines. The 160-seat, local institution that has become something ofa landmark in Central Vermont, but a small, take-out joint that more closely resembled a snack bar.

“In the early days, there were no seats in-
side the restaurant,” said Brian Zecchinelli, who married into the restaurant business in 1991 when he tied the knot with Karen Galfetti — whose family bought The Wayside in 1966 from the Fishes (who bought it from Effie Ballou in 1945).

“Mrs. Ballou would make some soup at the house, donuts, bring them down and reheat them,” Zecchinelli said.

Today’s Wayside serves around 1,000 cus-
tomers a day — more in the summer, fewer in the winter. Most are locals and many are regulars who eat there so often they know the menu by the week by the restaurant’s reg-
ular daily special.

But The Wayside has become more than a place local Vermonters go for a good, afford-
able meal. Zecchinelli recently mailed a let-
ter to lawmakers reminding them they can eat three meals a day there for about $20.

All statewide and local politicians make sure there’s at least one Wayside stop on the campaign tour. Zecchinelli said that’s because so many Vermonters from all walks of life can be found there — plenty of votes to woo.

“It’s just such a cross section of the community eating here,” Zecchinelli said.

“Plumbers, lawyers, teachers, bank presi-
dents ... the whole mix of customers. You’ve got rusty old trucks and shining Mer-
cedes in the parking lot.”

The Wayside was also a hot spot for state workers until some years ago. That was due, in part, to the employee meal reimbursement plan that allowed workers to expense meals eaten outside. So, Zecchinelli said, some would eat at tables on the Berlin side of the restaurant so they could expense their meal — until an auditor discovered that while the town line passed through the property, the entire restaurant was inside the Montpelier city limits. No more expensing.

Asked what makes the restaurant so spe-
cial, “You always say you have good employ-
ees and good customers,” Zecchinelli said.

But, he said, the reality is something dif-
ferent. It’s the house. Bizzell lived in a house on the hill just behind The Wayside. When she sold the restaurant to Joseph and Amy Fish (their son George and his wife Vivian took it over in 1964), the house went with the deal.

And when the Galfettis bought the restau-
 rant in 1966, they, in turn, got the house, as did Karen and Brian when they took over.

“Since Day One, the house was always with the restaurant,” said Brian Zecchinelli.

“So the owners have always been very

hands-on. ... The fact that the owner has always been able to skip down to The Way-
side to give folks a hand, be there during hours when you’re busy.”

“If other businesses want to put a house on the property, go for it,” he advised.
Brian, who previously worked at Milne Travel and Rock of Ages, never expected to go into the restaurant business. Although Karen had also worked elsewhere—E.H. Hut ton and Smith Barney in Wilmington—he knew The Wayside was probably in her future.

“It was something I tried and I liked. We’ve been working the register since he was 4,” Zecchinelli said. “We’ve been so active in this business that we can tag team each other.”

The Gallettis and Zecchinelli have put seven additions on the restaurant over the years, and although customers have urged him to expand, Brian said the current size of 129 tables feels like the number to stay with, “a comfortable size.”

He said the best thing about owning The Wayside has been the customers, who truly respond to good food. “You’re only as good as your last meal,” he quipped.

The toughest thing, he noted, has been meeting the bottom line.

“The challenge is keeping costs in line so we can continue to be an affordable place for people to gather,” he said. Almost everything is made on site. The kitchen is large and the smells of freshly baking bread (almost all bread, except English muffins and rye, are made at the restaurant). Daily specials include full turkey meals, roast beef, maple glazed McKenzie ham and more.

On virtually any day of the week, any time of the day, the parking lot is packed, most of the cars, trucks and motorcycles carrying Vermilion license plates.

Zecchinelli said his favorite moment during his years as Wayside owner was the Red Sox rally he hosted after the Sox won the 2004 World Series, noting the last time his team had won was the year The Wayside opened—1918.

“We argued whether The Wayside has been the curse or the Bambino,’’ he joked.

The restaurant rolled back prices that day, and more than 3,000 people came in to celebrate, “mostly Red Sox fans, but some employees were in Yankee jerseys. That’s OK because we’re baseball fans.”

What will happen to The Wayside in the future, one wonders? It’s impossible to know for sure.

But, Zecchinelli pointed out, his son Jay has been working the register since he was 4.

VOTE EXPLANATION

Ms. KLOBUCHAR. Mr. President, I rise today because I am proud to see the Senate pass two strong, bipartisan bills that will provide much needed relief to families across the country; the College Opportunities and Affordability Act of 2008 and the Consumer Product Safety Improvement Act of 2008.

Congress first passed the Higher Education Act more than 40 years ago, guided by the principle that no qualified student should be denied the opportunity to attend college because of the cost. Today, the cost of college has more than tripled. Tuition at 4-year public colleges in Minnesota has increased 100 percent in just the past 10 years.

I believe that investing in higher education pays extraordinary dividends. I am proud to provide real help for students and their families to make college more affordable. By voting for this legislation we continue our fight to gain stronger Federal support for higher education opportunities—because our future success as a State and a nation depends on making sure that quality education is accessible and affordable.

I am also so happy to see Congress pass comprehensive product safety legislation. Inspired by the story of Jarell Finchum, a 4-year-old boy in Minnesota who died after ingesting a charm that was 99 percent lead—I have worked for the past year on authoring and promoting the lead provision of the Consumer Product Safety Improvement Act of 2008. In the past year and a half, over 13 million toys have been recalled because they contained harmful lead, and I am proud to say that this bill finally gets that substance out of children’s toys.

As one of the conferees of this legislation, I signed the final conference report that was sent to the floor today, and I have been a strong supporter of this legislation since the beginning. This legislation is the most sweeping consumer product safety reform in decades, and I am glad that we have finally voted this evening to protect our children and protect our public.

On August 1, 2007, the Minneapolis I-35W bridge spanning the Mississippi River collapsed. The 1-year anniversary of this tragedy will be recognized across my State tomorrow. I am traveling home to honor the victims and their families, and to recognize our heroic first responders. By returning to Minnesota, I will not be in Washington, D.C., to vote on the adoption of the College Opportunities and Affordability Act of 2008 or the Consumer Product Safety Improvement Act of 2008 conference reports. Had I not returned to Minnesota, I would have voted in favor of both of these important pieces of legislation.

ADDITIONAL STATEMENTS

HONORING HOOSIER OLYMPIC ATHLETES

Mr. BAYH. Mr. President, today I pay tribute to the eight outstanding Hoosier athletes representing the State of Indiana and all of the United States in the Games of the XXIX Olympiad in Beijing, China.

Lioy Ball, a volleyball player from Fort Wayne; David Boudia, a diver from Noblesville; Trudika Catchings, a basketball player from Indianapolis; Lauren Cheney, a soccer player from Indianapolis; Richard Clayton, a baseball player from Lafayette; Mary Dunnichay, a diver from Elwood; Thomas Phelan, a diver from Marion; and Bridget Sloan, a gymnast from Pittsboro, will all represent the Hoosier State as members of Team USA.

These Hoosiers have shown superior abilities, extraordinary work ethic and unflagging determination in their quests to become Olympic athletes. The road to the pinnacle of athletic success has required thousands of hours of demanding training over years of preparation, yet these athletes show us that commitment to excellence truly has its rewards. For some, the spoils of their sacrifice may even come in the form of an Olympic medal.

This Olympiad is the first for many of the Hoosier athletes; others have donned the colors of Team USA before. This year, Lioy Ball, a member of the U.S. men’s volleyball team, will become the first male athlete from the United States to compete in four Olympic Games. Lioy’s incredible feat will forever be part of Indiana and Olympic sports history, and I know our entire state is immensely proud to count him among our own.

As these eight athletes travel halfway around the globe to compete against the world’s finest, they will bring with them the unwavering support of their fellow Hoosiers. The people of Indiana are fortunate to have such an exceptional group representing us at the Olympic Games.

Team USA represents the best America has to offer, and these Hoosiers will make our State and our country proud.

HONORING JACK W. AEBY

Mr. BINGAMAN. Mr. President, this month marks the 50-year anniversary of the Manhattan Project, when scientists at Los Alamos National Laboratory tested the world’s first nuclear weapon at the Trinity Test Site in southern New Mexico. While much has been written about this test, which has changed the course of the world as we know it today, little has been written about the famous color photograph of this test the only color photograph that survived the test.

Jack W. Aeby, then 23, was assigned to Emilio Segre in the Gamma Radiation group as a technician and was permitted to bring his own 35 mm camera to take color pictures of the radiation measuring equipment. When the detonation occurred, Mr. Aeby had 3 pictures of the detonation before running out of film. Of those three pictures, one turned out to be good. Today that picture is used around the world and is found on the cover of such famous publications as Time magazine and Richard Rhodes’ “The Making of the Atomic Bomb.” In some cases he is given credit for this photo but never consistently due to the complications associated with our copyright law.

Mr. Aeby still lives in Espanola, NM. As he turns 85 next month, I would like to honor him and the contribution he has made to society in taking this photo to remind us of the way this test has changed the course of modern history.

TRIBUTE TO DR. MICHAEL C. MORGAN

Mr. CARDIN. Mr. President, Dr. Michael Morgan is a professor of atmospheric sciences at the University of Wisconsin, Madison, and a Congressional Science Fellow sponsored by the
American Association for the Advancement of Science.

As a native of Baltimore, Dr. Morgan earned his undergraduate degree as well as his doctorate from the Massachusetts Institute of Technology. He has also conducted post-doctoral studies at Texas A&M University. Dr. Morgan has been an invaluable member of my staff since October, 2007. His fellowship ends in late August and he will return to his teaching duties then.

The AAAS Fellows Program has been the source of skilled science advisers for many years here on Capitol Hill. Rarely, however, has the program made such a timely placement. With his expertise in atmospheric sciences, Dr. Morgan was especially well-equipped to advise me on global climate change issues.

As the Environment and Public Works Committee held a number of oversight hearings on climate change last year, Dr. Morgan provided careful analysis of witness testimony as well as probing questions. When Mr. LIEBERMAN and Mr. WARNER advanced their landmark legislation, America's Climate Security Act, few offices could rely on the expertise that Dr. Morgan lent this Senator. And when Ms. BOXER and Mr. LIEBERMAN and Mr. W ARNER advanced their oversight hearings on climate change issues.

In recognition of Ray Johnson who is retiring from the State Pension Office and to thank him for his dedication to service to the people of Delaware. Ray began his career in public service on November 1, 1968, as the first senior accountant for the State Budget Commission. There, he developed the initial accounting system to track and recoup previous advancements made from something called the Advanced Land Acquisition and Advanced Planning Funds. His efforts recouped millions of dollars, resulting in additional revenue that was interest-earning and used to make advanced purchase deposits on many of the State's public park lands that are enjoyed by our residents and visitors today.

In 1971, Ray was selected to be the fiscal administrative officer for the newly created State Pension Office. In that role, he developed many of the rules, regulations, and procedures that are still used there some 35 years later. In the late 1980s, Ray helped lead the effort to computerize the State Pension Office, enabling its staff to become more productive and to provide better service to 25,000 employees, as well as to 5,000 pensioners and their families. Many of the administrative policies developed by Ray are still in place today and continue to make a positive difference in the lives of one generation of retirees after another.

It was not just Ray's depth of knowledge and his years of experience that gave him the Piracy permit to the Pension Office. It was his giving and caring personality, as well. He always brought a ready smile to the workplace each day. Ray was hard pressed ever to refuse help to anyone who requested it. He would answer calls and questions at all times of day and mentored new workers in his free time. Ray served as a father-figure to many employees, too, dispensing advice to those who asked for it or, sometimes, just lending a ready ear. Ray performed with dedication and loyalty to his work, to his colleagues, and to those to whom he served. I extend my heartfelt congratulations to Ray. I wish him a long and happy retirement to share and enjoy with his equally accomplished wife Donna. On behalf of the people of Delaware, let me thank the three of you for sharing with the people of the First State your husband and your father.

Let me close by saying that I envy—just a little bit—all of the free time and time the woman he will now have for fishing and relaxing with long walks on the beach with those he loves. It is my hope that he
TRIBUTE TO STEVE THOMPSON

Mrs. FEINSTEIN. Mr. President, I wish to honor Steve Thompson, his stellar career with the U.S. Fish and Wildlife Service, and the dedication to solving our most difficult natural resources problems that he has demonstrated time and again throughout his career. Thompson is retiring on August 4 after 32 years with the Service.

I know Steve as the regional director of Region 8, formerly the California and Nevada Operations Office, CNO, a job he assumed in 2002. From the regional headquarters in Sacramento, CA, he oversaw Service programs in California, Nevada, and Klamath Basin that administer the Endangered Species Act and Migratory Bird Treaty Act and managed 51 national wildlife refuges and 3 national fish hatcheries.

His many honors include being chosen in 1994 as the first “Refuge Manager of the Year” by the National Audubon Society and the National Wildlife Refuge Association. Even more notably, in 2007, Thompson earned the Distinguished Executive Award, the highest Presidential Rank Award given to career senior executive service employees and the first time a Service employee has been so recognized.

I have worked now with Steve on many issues, including the Cargill salt ponds purchase and ongoing restoration efforts to restore the Klamath River, habitat conservation planning, and CALFED. For his dedication to helping find a way to purchase the Cargill salt ponds, Steve can feel pride at the many accomplishments he and his colleagues helped bring about.

He is a straight shooter. He tells you what he is going to do and then he gets the job done.

All of us who care about California’s natural resources will miss him.

Steve, I want to congratulate you on your years of remarkable service to our Nation’s fish and wildlife and the people who value them. I hope you can now enjoy a little fishing and a few quiet moments to contemplate what you have so honorably protected.

RETIREMENT OF IOWA STATE SENATOR MICHAEL CONNOLLY

Mr. HARKIN. Mr. President, I wish to pay homage to Senator Michael Connolly on his retirement from the Iowa Senate after 30 years of distinguished public service. Mike admirably represented the citizens of Dubuque, IA, for 18 years in the Iowa House and 20 years in the Iowa Senate. He combined a passionate love for his community with progressive politics and a strong work ethic.

When Dubuque fell on hard times after the farm crisis of the 1980s and a loss of manufacturing jobs, Mike Connolly was there to ensure that the State of Iowa was a partner in the economic and cultural renaissance of the city. If you visit Dubuque today, you will find one of the most beautiful and vibrant cities in the Midwest. That did not happen by accident. Senator Connolly and other community leaders formed the Greater Dubuque Development Corporation, emphasizing the attitude that everyone would have to pull together to save the city forward.

As they say, the proof is in the pudding, and I encourage you, Mr. President, and all of my Senate colleagues, to visit this jewel of a city on the Upper Mississippi.

Senator Connolly is an educator by training, and although his influence has been felt in most of the education legislation of the past three decades, his interests and work have been broad and diverse. As chairman of the Transportation Committee, Senator Connolly boosted funding to make roads and bridges safer, and developed a new funding formula that recognized the need to enhance the transportation network linking nation’s most important economic centers. The construction of four-lane roads between Dubuque and Waterloo, Cedar Rapids and the Quad Cities, has led to economic growth throughout the northeast and central portion of Iowa.

Senator Connolly also spurred an effort to beautify Iowa’s roadways through promotion of the Resource Enhancement and Protection—REAP—program, which included ongoing funding for the Iowa Integrated Roadside Vegetation Management Program, a partnership between the University of Northern Iowa and Iowa counties to plant prairie grasses and flowers along the State’s thoroughfares. The program pays homage to Senator Connolly’s father, who was a road laborer with a sixth-grade education who worked and saved so his children could receive a college education.

Senator Connolly also helped modernize Iowa’s election laws. He was chairman of the State Government Committee, including passing election day voter registration legislation and requiring that paper trails be included with electronic voting machines. He used his position on the Ways and Means Committee to give working Iowans a tax break by removing the sales tax from utility bills.

He was also a leader in the legislation pending to pass anti-pollution and civil rights legislation that will help protect generations of Iowans to come. It would be difficult, indeed, to catalog all of Senator Mike Connolly’s legislative achievements; suffice it to say he has been one of the most dedicated, hard-working and productive members in the history of the Iowa General Assembly.

Iowans, especially those in the greater Dubuque community, will miss Mike’s leadership. But I know he will continue to be involved in the civic life of our State and nation. His wonderful wife Martha has been a true partner with him these many years, and his accomplishments are hers as well.

I wish Senator Connolly a long and happy retirement, of time to spend with his accomplished children, Maureen and John. Thank you, Mike, and Godspeed.

HONORING THE WINNER SCHOOL DISTRICT

Mr. JOHNSON. Mr. President, today I pay tribute to the Winner School District for its exceptional support to their National Guard and Reserve Employees. The Winner School District is one of 15 employers selected from across the Nation to receive top honors as a 2008 Secretary of Defense Freedom Award. The Freedom Award is the highest recognition given by the Department of Defense under the auspices of the Employer Support of the Guard and Reserve to an employer for their outstanding support to their National Guard and Reserve employees.

The school district was nominated by 2LT Derris Buus of the 155th Engineer Company, South Dakota Army National Guard. Buus had glowing remarks for his employer, “The School District has always supported me and my family during times of deployment or training. Mary Fischer and Jim Drake have all made it a point to ensure that my family had everything they needed during my absence. They always made it very easy for me to pursue my career in the SDARNG as well as my career as an educator.”

The Winner School District provides a pay supplement for the entire length of deployment for its Guard and Reserve employees. Deployed employees received numerous care packages from the school board and their students. Daily e-mails were sent to deployed employees from students, teachers, principals, and the superintendent. Returning servicemembers teach the same grade and in the same classroom as they did prior to a deployment.

The Winner School District provides a pay supplement for the entire length of deployment for its Guard and Reserve employees. Deployed employees received numerous care packages from the school board and their students. Daily e-mails were sent to deployed employees from students, teachers, principals, and the superintendent. Returning servicemembers teach the same grade and in the same classroom as they did prior to a deployment.
instance, tended to an expectant mother throughout her pregnancy.

The Winner School District is a shining example of patriotism, and it sets a golden example for all employers to follow. I hope we all may take to heart the excellence and dedication of the Winner School District.

IN RECOGNITION OF BRIAN BEAMAN

- Mr. JOHNSON. Mr. President, I wish today to recognize and congratulate Brian Beaman of Selby, SD. As part of the 2008 U.S. Olympic team, Brian will be travelling to Beijing to compete in the Men’s 10M Air Pistol competition.

Brian represents Selby and the citizens of South Dakota in an extraordinary fashion. Spending 2 years at South Dakota State University and finishing at Jacksonville State University, Brian has continued to exemplify the work ethic and integrity that originate in his South Dakota roots. Brian is currently ranked second in the United States in the Men’s 10M Air Pistol competition, and placed second at Nationals in 2007.

This prestigious honor is a reflection of Brian’s extraordinary talent and commitment to shooting. It is wonderful that he is so motivated to enjoy athletic competition at such a high level. Again, congratulations to Brian Beaman on fighting his way to the 2008 Olympics in Beijing, and I eagerly look forward to following his story of success throughout the games.

IN RECOGNITION OF DEREK MILES

- Mr. JOHNSON. Mr. President, I wish to recognize and congratulate Derek Miles, assistant coach of track and field at the University of South Dakota. As part of the 2008 U.S. Olympic team, Derek will be travelling to Beijing to compete in the Men’s Pole Vaulting Competition.

Derek leads the students at the University of South Dakota in an extraordinary fashion. After graduating from USD, Derek has continued to exemplify and instill his work ethic and integrity in those he coaches. Derek has an amazing record in the pole vaulting community, finishing seventh at the 2004 Olympic games in Greece.

It is wonderful that Derek is so motivated to enjoy athletic competition at such a high level. His positive attitude and strong motivation serve as a model for talented young athletes throughout South Dakota and the Nation as a whole. As a fellow University of South Dakota alum, I want to wish Derek congratulations and the best of luck in the upcoming 2008 Olympics.

OSTRWSS

- Mr. JOHNSON. Mr. President, today I recognize a very important and historical event in South Dakota: the Missouri River reaching the Pine Ridge Reservation. On August 20, 2008, a celebration will be held in Wanblee, SD, to commemorate such a monumental milestone in the history of Pine Ridge.

It has been nearly 20 years since Congress adopted the Mini Wiconi Act to bring clean drinking water to the Pine Ridge Reservation. Bringing the Missouri River to the people of Pine Ridge will have an enormous impact in the overall quality of life of tribes and residents in the area. I have been pleased to work on this project with tribal leaders and residents during my tenure in Congress.

I commend the Oglala Sioux Tribe Rural Water Supply System, the concerned tribal officials, and residents who have worked tirelessly, some since the 1980s, to bring a clean drinking water source to the people of the Pine Ridge Reservation. The event on August 20 is an opportunity for everyone to celebrate the hard work and commitment involved in making this dream a reality. I am looking forward to the great results that Missouri River water will bring to future generations. The impacts will be positive, they will be far-reaching, and they will be impressive.

Again, congratulations to the Oglala Sioux Tribe and the Oglala Sioux Tribe Rural Water Supply System on this historic event. People have waited a long time for this day to come, and I am glad it is finally a reality.

90TH BIRTHDAY OF DR. MAURICE ALBERTSON

- Mr. SALAZAR. Mr. President, I wish today to make a statement celebrating the 90th birthday of Dr. Maurice Albertson, a Colorado citizen whose compassion for his fellow human beings is evident in his every accomplishment.

Dr. Albertson has dedicated his career to enhancing the quality of life of people all over the world. The success he has had in reaching this goal is not just a matter of personal pride, but of global triumph. It is with great pleasure that I wish him a happy birthday.

Dr. Albertson began his career as a professor of civil engineering at Colorado State University in 1947. He is responsible for the development of CSU’s large and prestigious water resources management program and was named as director of the Colorado State University Research Foundation.

Dr. Albertson's accomplishments outside of the university are even more impressive. At the request of the Southeast Asia Treaty Organization, he established a graduate school of engineering in Bangkok, Thailand. Known today as the Asian Institute of Technology, Dr. Albertson’s creation still thrives.

Dr. Albertson and two colleagues, Ed and Miriam Shin, convened an international conference at CSU on the subject of sustainable village-based development in the developing world. The conference was attended by over 350 persons from 34 countries. Following the conference, Dr. Albertson and the Shinns founded Village Earth, an international nongovernmental organization that provides training to communities and organizations in the methods of sustainable participatory development. To date, Village Earth has helped hundreds of people in countries to lift themselves out of poverty.

And perhaps most impressively, Dr. Albertson played a pivotal role in the formation of the Peace Corps. In 1960, Dr. Albertson and his team won a contract from the U.S. State Department to undertake a congressional study of the feasibility of creating a Point Four International Youth Corps. The following year, Dr. Albertson coauthored New Frontiers for American Youth: Perspective on the Peace Corps with Pauline Birky and Andrew Rice. This work was embraced by Sergeant Shriver and the Kennedy administration as the concept paper for creation of the Peace Corps. Dr. Albertson continued to closely work with the administration in launching the Peace Corps, which has benefited countless volunteers and residents of developing countries worldwide.

Dr. Albertson has served as a consultant to the World Bank, the United Nations Development Program, the U.S. Agency for International Development, and many other agencies dealing with development issues. He has been awarded the Lifetime Achievement Award from the American Society of Civil Engineers, the Colorado Governor’s Award of Merit for Science and Technology, and an honorary Doctor of Humane Letters from Colorado State University in 2006 in recognition of his exceptional contributions to industry and developing nations.

From such an extensive list of achievements, it is abundantly clear that Dr. Albertson has had an industrious and meaningful 90 years.

Dr. Albertson, I am inspired by the life that you have led, and our Nation is blessed to have you as a citizen. I wish you a very happy birthday.

MESSAGES FROM THE HOUSE

Messages from the President of the United States were communicated to the Senate by Mr. Thomas, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 4:54 p.m., a message from the House of Representatives, delivered by
Mrs. Cole, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4137) to amend and extend the Higher Education Act of 1965, and for other purposes.

At 5:13 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H. R. 6193. An act to require the Secretary of Homeland Security to modernize the disability benefits claims processing system of the Department of Veterans Affairs to ensure the accurate and timely delivery of compensation and other benefits to veterans and their families and survivors.

At 6:17 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H. R. 6456. An act to provide for extensions of certain authorities of the Department of State, and for other purposes.
H. R. 6576. An act to require the Archivist of the United States to promulgate regulations regarding the use of information control designations, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 358. Concurrent resolution commemorating Irena Sendler, a woman whose bravery saved the lives of thousands during the Holocaust and remembering her legacy of courage, selflessness, and hope.

MEASURES REFERRED
The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H. R. 2339. An act to encourage research, development, and demonstration of technologies to facilitate the utilization of water produced in connection with the development of domestic energy resources, and for other purposes.
H. R. 5982. An act to require the Secretary of Homeland Security to develop a strategy to prevent the over-classification of homeland security and other information and to enhance the information sharing environment established under section 1016 of the Intelligence Reform and Terrorism Prevention Act of 2004 (6 U.S.C. 485), and for other purposes.
H. R. 5757. An act to amend the National Security Act of 1947, to provide for the electronic transfer of pay stubs, and for other purposes.
H. R. 5892. An act to amend title 38, United States Code, to prohibit the Secretary of Veterans Affairs from collecting certain co-payments from veterans who are catastrophically disabled, and for other purposes.
H. R. 6193. An act to require the Secretary of Homeland Security to modernize the disability benefits claims processing system of the Department of Veterans Affairs to ensure the accurate and timely delivery of compensation and other benefits to veterans and their families and survivors, and for other purposes.

H. R. 6456. An act to provide for extensions of certain authorities of the Department of State, and for other purposes.
H. R. 6576. An act to require the Archivist of the United States to promulgate regulations regarding the use of information control designations, and for other purposes.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 361. Concurrent resolution commemorating Irena Sendler, a woman whose bravery saved the lives of thousands during the Holocaust and remembering her legacy of courage, selflessness, and hope; to the Committee on Homeland Security and Governmental Affairs.

The following was read the first time:

MEASURES READ THE FIRST TIME
S. 3406. A bill to restore the intent and protections of the Americans with Disabilities Act of 1990.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–7322. A communication from the Assistant Secretary, General Counsel for Communications and Congressional Liaison, Office of Inspector General, Department of Defense, transmitting, pursuant to law, the report of an action on a nomination in the position of Inspector General, Department of Defense received on July 30, 2008; to the Committee on Armed Services.

EC–7323. A communication from the Assistant to the White House Liaison, Department of Housing and Urban Development, transmitting, pursuant to law, the report of an action on a nomination in the position of Secretary of Housing and Urban Development, pursuant to an action entitled, "Federal Activities Inventory Reform Act of 1998"; to the Committee on Homeland Security and Governmental Affairs.

EC–7324. A communication from the Assistant Secretary, White House Liaison, Department of Housing and Urban Development, transmitting, pursuant to law, the report of an action on a nomination in the position of Secretary of the Interior, Government National Mortgage Association received on July 30, 2008; to the Committee on Banking, Housing, and Urban Affairs.

EC–7325. A communication from the Assistant to the White House Liaison, Department of Housing and Urban Development, transmitting, pursuant to law, the report of the discontinuation of service in an acting role in the Department of Housing and Urban Development, pursuant to an action entitled, "Fiscal Year 2007 Superfund Five-Year Review Report to Congress"; to the Committee on Environment and Public Works.

EC–7326. A communication from the Acting Assistant Secretary, Office of Legislative Affairs, Department of State, transmitting, pursuant to law, a report entitled, "Periodic Report to Congress on the National Emergency Regarding Proliferation of Weapons of Mass Destruction"; to the Committee on Banking, Housing, and Urban Affairs.

EC–7327. A communication from the Secretary, Department of the Treasury, transmitting, pursuant to law, a report entitled, "The 2007 Annual Homeless Assessment Report (AHAR)"; to the Committee on Banking, Housing, and Urban Affairs.

EC–7328. A communication from the Acting Assistant Secretary, Office of Legislative Affairs, Department of the Treasury, transmitting, pursuant to law, a report entitled, "The 2007 Annual Homeless Assessment Report (AHAR)"; to the Committee on Banking, Housing, and Urban Affairs.

EC–7329. A communication from the Acting Assistant Secretary, Office of Legislative Affairs, Department of the Treasury, transmitting, pursuant to law, a report entitled, "The 2007 Annual Homeless Assessment Report (AHAR)"; to the Committee on Banking, Housing, and Urban Affairs.

EC–7330. A communication from the Acting Director of Sustained Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled, "Fisheries Management for the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the West Yakutat District of the Gulf of Alaska" (RIN0648–XJ17) received on July 30, 2008; to the Committee on Commerce, Science, and Transportation.

EC–7331. A communication from the Acting Director of Sustained Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled, "Fisheries Management for the Exclusive Economic Zone Off Alaska; Pelagic Shelf Rockfish in the West Yakutat District of the Gulf of Alaska" (RIN0648–XJ16) received on July 30, 2008; to the Committee on Commerce, Science, and Transportation.

EC–7332. A communication from the Acting Director of Sustained Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled, "Fisheries Management for the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Western Regulatory Area of the Gulf of Alaska" (RIN0648–XJ19) received on July 30, 2008; to the Committee on Commerce, Science, and Transportation.

EC–7333. A communication from the Attorney General, Office of General Counsel for Legislation, U.S. Department of Commerce, Office of the Secretary, Department of Commerce, transmitting, pursuant to law, a report entitled, "Energy and Energy Efficiency and Renewable Energy, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Energy Conservation Standards for Residential Furnaces and Boilers" (29 CFR parts 1904–AA78) received on July 30, 2008; to the Committee on Energy and Natural Resources.

EC–7334. A communication from the Program Manager, Administration for Children and Families, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Medicare and State Health Care Programs; Fraud and abuse; Final rule" (42 CFR part 495) received on July 30, 2008; to the Committee on Finance.

EC–7335. A communication from the Secretary of Transportation, transmitting, pursuant to law, a report entitled, "New Transportation Approach for America"; to the Committee on Environment and Public Works.

EC–7337. A communication from the Deputy Director for Operations, Pension Benefit Guaranty Corporation, transmitting, pursuant to law, the report of a rule entitled, "R"ules for Administrative Review of Agency Decisions" (RIN1212-AA15) received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7338. A communication from the Deputy Director for Operations, Pension Benefit Guaranty Corporation, transmitting, pursuant to law, the report of a rule entitled, "Rules for Administrative Review of Agency Decisions" (RIN1212-AA15) received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7339. A communication from the Deputy Director for Operations, Pension Benefit Guaranty Corporation, transmitting, pursuant to law, the report of a rule entitled, "Rules for Administrative Review of Agency Decisions" (RIN1212-AA15) received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7340. A communication from the Assistant to the White House Liaison, Department of Health and Human Services, transmitting, pursuant to law, the report of a nomination in the position of Assistant Secretary for Employment and Training received on July 30, 2008; to the Committee on Health, Education, Labor, and Pensions.

EC–7341. A communication from the Director, Office of Management, Department of Commerce, transmitting, pursuant to law, a report entitled, "Federal Activities Inventory Reform Act of 1998"; to the Committee on Homeland Security and Governmental Affairs.

EC–7342. A communication from the Assistant Secretary, General Communications and Congressional Liaison, Department of Defense, transmitting, pursuant to law, a report entitled, "Federal Activities Inventory Reform Act of 1998"; to the Committee on Homeland Security and Governmental Affairs.

EC–7343. A communication from the Chairman, U.S. Merit Systems Protection Board, transmitting, pursuant to law, a report entitled, "Federal Appointment Authorities, Cutting through the Confusion"; to the Committee on Homeland Security and Governmental Affairs.

EC–7344. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17–444, "Access to Youths for Economically Disadvantaged Youth in the Youth Employment Programs Amendment Act of 2008" received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7345. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17–444, "Access to Youths for Economically Disadvantaged Youth in the Youth Employment Programs Amendment Act of 2008" received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7346. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17–443, "Access to Youths for Economically Disadvantaged Youth in the Youth Employment Programs Amendment Act of 2008" received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7347. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17–444, "Metropolitan Police Department Retirement Options Amendment Act of 2008" received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

EC–7350. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 17–447, "Downtown BDID Amendment Act of 2008" received on July 30, 2008; to the Committee on Homeland Security and Governmental Affairs.

Army nominations beginning with Brigadier General William S. Busby III and ending with Delfiah R. Works, which nominations were received by the Senate and appeared in the Congressional Record on July 23, 2008.

Air Force nomination of Brig. Gen. Lawrence A. Stutzriem, to be Major General.

Army nominations beginning with Brigadier General Lie-Ping Chang and ending with Colonel Eugene R. Woolridge III, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

Army nominations beginning with Colonel Heidi V. Brown and ending with Colonel Mark W. Yenter, which nominations were received by the Senate and appeared in the Congressional Record on July 15, 2008.

Army nomination of Lt. Gen. John M. Paxton, Jr., to be Lieutenant General.

Navy nominations beginning with Capt. Christopher J. Paul and ending with Capt. Michael J. Young, which nominations were received by the Senate and appeared in the Congressional Record on March 3, 2008. (minus 1 nominee: Capt. George W. Ballance)

Navy nomination of Capt. Terry B. Kraft, to be Rear Admiral (Lower Half).

Navy nomination of Rear Adm. Bruce W. Cinglan, to be Vice Admiral.

Navy nomination of Vice Adm. James A. Winnefeld, Jr., to be Vice Admiral.

Mr. LEVIN. Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary’s desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Air Force nominations beginning with Christian L. Biscotti and ending with Barry K. Wells, which nominations were received by the Senate and appeared in the Congressional Record on March 11, 2008.

Air Force nominations beginning with Timothy M. French and ending with Rachelle L. Rodino, which nominations were received by the Senate and appeared in the Congressional Record on July 23, 2008.

Air Force nomination of Jeffrey T. Butler, to be Colonel.

Army nominations beginning with Robert D. Dempster and ending with Fred A. Warden, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

Army nominations beginning with Thomas G. North and ending with David R. Rhinehart, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

Army nominations beginning with Anne M. Andrews and ending with Kim N. Thomsen, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

Army nominations beginning with David E. Bentzel and ending with Shannnon M. Wallace, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

Army nominations beginning with Carlos C. Amaya and ending with Selina G. Williams, which nominations were received by the Senate and appeared in the Congressional Record on July 22, 2008.

*Nomination was reported with recommendation that it be confirmed subject to the nominee’s commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

Mr. LEVIN. Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were printed in the RECORD on the dates indicated, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Secretary’s desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

Air Force nominations beginning with Christian L. Biscotti and ending with Barry K. Wells, which nominations were received by the Senate and appeared in the Congressional Record on March 11, 2008.

Air Force nominations beginning with Timothy M. French and ending with Rachelle L. Rodino, which nominations were received by the Senate and appeared in the Congressional Record on July 23, 2008.

Air Force nomination of Jeffrey T. Butler, to be Colonel.

S. Res. 632
At the request of Mr. FEINGOLD, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. Res. 632, a resolution calling on the Governments of the People’s Republic of China and the international community to use the upcoming Olympic Games as an opportunity to push for the parties to the conflict in Sudan, Chad, and the Central African Republic to cease hostilities and revives efforts toward a peaceful resolution of their national and regional conflicts.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS
By Ms. SNOWE (for herself and Mr. CONRAD):
S. 3371. A bill to amend the Internal Revenue Code of 1986 to simplify the deduction for use of a portion of a residence as a home office by providing an optional standard home office deduction; to the Committee on Finance.

Ms. SNOWE. Mr. President, today I rise to introduce legislation to offer a drastically simplified alternative for homeowners to benefit from the home office tax deduction. The U.S. Small Business Administration’s, SBA’s, Office of Advocacy designated reformatting the home office tax deduction as one of its top ten Regulatory Review and Reform initiatives for 2008. By establishing an optional home office deduction, the Home Office Tax Deduction Simplification and Improvement Act of 2008 would take a strong step toward making our tax laws easier to understand. I thank Senator Conrad for joining me to introduce this critical bill.

As Ranking Member of the Senate Committee on Small Business and Entrepreneurship, I have spoken year after year from the floor of the Senate and before small enterprises across Maine and this nation about the necessity of tax relief and reform. Despite the fact that small firms are our economy’s real job creators, the current tax system places an entirely unreasonable burden on them as they struggle to satisfy their tax obligations.

Notably, according to the Office of Management and Budget’s Office of Information and Regulatory Affairs, the American public spends approximately 9 billion hours each year to complete government-mandated forms and paperwork. A staggering 80 percent of this time is consumed by completing tax forms. That’s even more troubling is that companies that employ fewer than 20 employees spend nearly $1,304 per employee in tax compliance costs, an amount that is nearly 67 percent more than larger firms.

Turning to the legislation I am offering today, the Internal Revenue Code presently allows individuals a home office tax deduction if they use a portion of their home as a principal place of business or as a space to meet with their patients or clients. That said, although recent research from the SBA indicates that nearly 53 percent of America’s small businesses are home-based, few of these firms take advantage of the home office tax deduction. The reason is simple: reporting the deduction is complicated. A 2006 survey conducted by the National Federation of Independent Business, NFIB, Research Foundation found that approximately 33 percent of small-employer taxpayers try to comprehend the tax rules governing the home office tax deduction, but only about half of those respondents believe that they actually have a good understanding of the rules. As Dewey Martin, a Certified Public Accountant from my home State of Maine, so aptly said in recent testimony before the Senate Finance Committee, “Many small business owners avoid the deduction because of the complications and the fear of a potential audit.”

With a morass of paperwork attributable to the home office deduction, the time-consuming process of navigating the tangled web of rules and regulations makes it unsurprising that so many small business owners forego the home office deduction. So to encourage the use of the home office tax deduction, but only about half of those respondents believe that they actually have a good understanding of the rules. As Dewey Martin, a Certified Public Accountant from my home State of Maine, so aptly said in recent testimony before the Senate Finance Committee, “Many small business owners avoid the deduction because of the complications and the fear of a potential audit.”

As Dewey Martin, a Certified Public Accountant from my home State of Maine, so aptly said in recent testimony before the Senate Finance Committee, “Many small business owners avoid the deduction because of the complications and the fear of a potential audit.”

Turning to specifics, our bill would direct the Secretary of the Treasury to establish a method for determining a deduction that consists of multiplying an applicable standard rate by the square footage of the type of property being used as a home office. The proposal would also require the IRS to separately state the amounts allocated to several types of expenses in order to reduce the burden on the taxpayer. It is vital that the IRS clearly identify the amounts of the deduction devoted to real estate taxes, mortgage interest, and depreciation so that taxpayers do not duplicate them on Schedule A. Finally, the bill makes two changes designed to ease the administration of the deduction: First, to reflect an economic in which many small businesses conduct business or consult with customers through the Internet or over the phone versus face-to-face, our legislation takes these entrepreneurs into account by allowing the home office deduction to be taken if the taxpayer uses the home to meet or deal with clients regardless of whether the clients are physically present. Second, our bill would allow for de minimis use of business equipment so that taxpayers would not lose their ability to claim the deduction if they make a personal call or pay a bill online.

I would be remiss not to note that the bill we are introducing today is the result of the dedicated efforts of various groups and organizations, which have worked with Senator Conrad and me on a consensus approach to improve the current law home office deduction. In particular, it is significant to note that the IRS Taxpayer Advocate Service strongly backs this bill. In fact, the National Taxpayer Advocate, Nina E. Olson, sent my office the following statement recommending: “In my 2007 Annual Report to Congress, I made a similar proposal to simplify the home office business deduction. I am pleased that Senator Snowe and Conrad’s proposed bill reflects the gist of my legislative recommendation. Reducing the burdensome substantiation requirements for employees and self-employed taxpayers who incur modest home office costs would make the home office business deduction a simpler and more accessible to them.”

My office also received an endorsement of the bill from the National Federation of Independent Business. Dan Danner, the organization’s Executive Director, said the following: “Currently only a small percentage of home-based businesses in the U.S. take advantage of the home-office deduction because calculating the deduction is unnecessarily complex. Small business owners have advocated for a simpler, standard home-office deduction for years. The Snowe-Conrad legislation gives home-based businesses the option to deduct a legitimate business expense without having to duplicate them on Schedule A. This commonsense change to the tax code will reduce tax complexity and help many home-based businesses take advantage of this deduction.” Additionally, the SBA’s Office of Advocacy reviewed the legislation and supported it.

In closing, according to the SBA’s Office of Advocacy, America’s home-
based sole proprietors generate $102 billion in revenue annually. With this in mind, it is absolutely critical to endow these small firms with as much relief as possible so that they can focus their efforts on developing the products and services of the future, as well as creating new jobs. The confusion over the home office business tax deduction, in my estimation, can be easily solved by passing this legislation. I urge all Senators to consider the benefits this bill will provide thousands of small business owners, and I look forward to working with my colleagues to enact it in a timely manner.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD, as follows:

S. 3371

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Home Office Tax Deduction Simplification and Improvement Act of 2008”.

SEC. 2. OPTIONAL STANDARD HOME OFFICE DEDUCTION.

(a) In General.—Subsection (c) of section 280A of the Internal Revenue Code of 1986 (relating to exceptions for certain business or rental use; limitation on deductions for such use) is amended by adding at the end the following paragraph:

“(7) ELECTION OF STANDARD HOME OFFICE DEDUCTION.—

(1) IN GENERAL.—In the case of an individual who is allowed a deduction for the use of a portion of a dwelling unit as a business by reason of paragraph (1), (2), or (4), notwithstanding the limitations of paragraph (5), if such individual elects the application of this paragraph for the taxable year with respect to such dwelling unit, such individual shall be allowed a deduction equal to—

(A) if such individual elects the application of this paragraph for the taxable year for any amount attributable to the portion of a dwelling unit taken into account under this paragraph,

(B) if such individual elects the application of this paragraph solely because a de minimis amount of non-business activity may be carried out in such portion.

(c) REPORTING OF EXPENSES RELATING TO HOME OFFICE DEDUCTION.—

(1) PLACE OF MEETING.—Subparagraph (B) of section 280A(c) of the Internal Revenue Code of 1986 is amended to read as follows:

“(B) as a place of business which is used by the taxpayer in meeting or dealing with patients, clients, or customers in the normal course of the taxpayer’s trade or business,

(ii) EXCEPTION FOR DISASTER LOSSES.—A taxpayer who elects the application of this paragraph in any taxable year may take into account any disaster loss described in section 165(i) as a loss under section 165 for the applicable taxable year, in addition to the standard home office deduction under this paragraph for such taxable year.

(E) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

§§ Home Office Business Use Rules.

(1) PLACE OF MEETING.—Subparagraph (B) of section 280A(c) of the Internal Revenue Code of 1986 is amended to read as follows:

“(B) as a place of business which is used by the taxpayer in meeting or dealing with patients, clients, or customers in the normal course of the taxpayer’s trade or business,

(ii) EXCEPTION FOR DISASTER LOSSES.—A taxpayer who elects the application of this paragraph in any taxable year may take into account any disaster loss described in section 165(i) as a loss under section 165 for the applicable taxable year, in addition to the standard home office deduction under this paragraph for such taxable year.

(iii) MAXIMUM SQUARE FOOTAGE TAKEN INTO ACCOUNT.—The Secretary shall ensure that all forms and schedules used to calculate or report itemized deductions and profits or losses from business or farming shall be treated as attributable to real estate taxes, mortgage interest, and depreciation for purposes of the deductions allowed under paragraphs (1), (2), (4), and (7) of section 280A(c) of the Internal Revenue Code of 1986.

(d) EFFECTIVE DATE.—The amendments made by this section apply to taxable years beginning after December 31, 2008.

By Mrs. MURRAY (for herself and Ms. CANTWELL):

S. 3373. A bill to realtorize and expand the Northwest Straits Marine Conservation Initiative Act to promote the protection of the resources of the Northwest Straits, and for other purposes; to amend the Northwest Straits Marine Conservation Initiative Act; to establish the Northwest Straits Marine Conservation Initiative, which promotes the protection and restoration of the marine waters, habitats, and species of the Northwest Straits region of Puget Sound in Washington State in order to achieve ecosystem health and sustainable resource use.

The Northwest Straits region makes up 60 percent of the Puget Sound’s shoreline and includes the marine waters, estuaries, and coastal lines of the Strait of Juan de Fuca and of Puget Sound from the Canadian border to the southern end of Snohomish County. This region represents a unique resource of enormous environmental and economic value to the people of the United States and, in particular, of the region surrounding the Northwest Straits. However, in the last several decades, habitat health, water quality, and populations of commercial and culturally valuable species have been found in the Northwest Straits have sharply declined. During the 20th century, extensive development, a legacy of lost or abandoned fishing gear, land conversion, loss of native sea grass, invasive species have destroyed once intact native habitats in its ecosystem.

In 1997, I partnered with former Congressman Jack Metcalf and brought opposing stakeholders together to create the Northwest Straits Marine Resources Initiative, to provide citizens design and carry out marine conservation projects driven by local priorities and informed by science and the Initiative’s goals and benchmarks.

The Northwest Straits Initiative is composed of volunteer-based marine resources committees in 7 counties, as well as over 100 members representing residents, tribes, businesses, fishermen, boaters, and scientists. It has logged thousands of volunteer hours and completed hundreds of projects, demonstrating that citizen involvement in marine resource conservation and restoration is powerful, effective, and necessary. And the program has accomplished a lot: thousands of derelict crab pots and fishing nets have been removed, miles of forage fish spawning habitat have been surveyed, hundreds of thousands of native Olympia oysters have been planted, marine stewardship areas have been designated, nearly 1,000 tons of creosote wood have been removed, and dozens of stewardship and public outreach programs have been completed.

The authorization of the Northwest Straits Marine Conservation Initiative will ensure the continuation of this successful and innovative approach to marine resource restoration and protection.

By Mr. SMITH (for himself and Mr. WYDEN):

S. 3374. A bill to establish a commission on veterans and members of the Armed Forces with post traumatic
stress disorder, traumatic brain injury, or other mental health disorders, to enhance the capacity of mental health providers to assist such veterans and members, and for other purposes; to the Committee on Veterans' Affairs.

Mr. President, I rise today with my colleague Senator Ron Wyden to introduce a bill that will help improve the lives of our veterans who are suffering from a mental illness. The Healing Our Nation's Heroes Act of 2008 ensures that veterans who serve with honor for our Armed Forces and come home with mental disorders, get the care that they need. It is an honor for me to work with both Senator Wyden, who has been an ally for me in the war on terrorism, to ensure our Nation's heroes are not left behind.

Our work together on this bill began last summer when I called a Special Hearing on the Portland Veterans Affairs Medical Center in our home state of Oregon. At that hearing, Senator Wyden and I looked forward to its passage. Senator Wyden has been an ally for me in the war on terrorism. The Healing Our Nation's Heroes Act of 2008 is an important bill and I look forward to its passage. Senator Wyden and I have worked together to better ensure our service members and veterans working to gain needed mental health services are the wait times for care that they experience due to lack of available staff and their desire to work with professionals who understand, first-hand, the difficult things that they have seen and type of experiences they have had serving overseas in combat zones. Through this program, participants will receive financial support to gain their training and licensing they need to become a mental health professional, while ensuring there is a minimum amount of time that they will then serve their fellow veterans in their new profession.

To further help recruitment and retention efforts for mental health service providers, the third part of this bill will provide a new grant program to support mid-career professionals to establish, expand or enhance mental health provider recruitment and retention efforts. These efforts will be targeted at supporting mid-career professionals who are looking to work in the mental health profession.

We know that we must do a better job of helping our veterans. We can do better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can better at ensuring they can remain stable in their communities, that they can live healthy lives and that they can...

(2) CONSIDERATION OF RECOMMENDATIONS.—

The commission shall—

(A) oversee the monitoring and treatment of

veterans and members of the Armed Forces

with post traumatic stress disorder, traumatic

brain injury, or other mental health disorders

called in service in the Armed Forces; and

(2) DUTIES.—

(a) IN GENERAL.—The commission shall—

(B) to reduce cultural stigmas associated with

treatment of post traumatic stress disor-

er, traumatic brain injury, or other men-

tal health disorders of veterans and members

of the Armed Forces.

(3) ANNUAL REPORTS.—Not later than Sep-

ember 30 of each year, the commission shall

submit to the appropriate committees of

Congress a report containing the following:

(A) a detailed statement of the findings and

and conclusions of the commission as a

result of its activities under paragraph (1).

(B) the recommendations of the commis-

sion developed under paragraph (2).

(c) INFORMATION FROM FEDERAL AGENCIES.—

The commission may secure directly from

agencies and nongovernmental organizations

that provide mental health care to members

of the Armed Forces receive treatment for such dis-

orders caused by service in the Armed Forces.

(2) INFORMATION FROM FEDERAL AGENCIES.—

The commission may secure directly from

any Federal department or agency such in-

formation as the commission considers nec-

essary to carry out the provisions of this Act.

Upon request of the chair of the com-

mission, the head of the department or

agency shall furnish such information to the

commission.

(e) TERMINATION.—The commission shall be

terminated by the combination of the Sec-

retary of Defense and the Secretary of Vet-

2. COMMISSION ON VETERANS AND MEM-

bers of the Armed Forces with post traum-

tic stress disorder, traumatic brain injury, or

other mental health disorders caused by service

in the Armed Forces.

(a) ESTABLISHMENT OF COMMISSION.—There

is established a commission on veterans and

members of the Armed Forces with post trauma-

tic stress disorder (PTSD), traumatic brain

injury, or other mental health disorders

caused by service in the Armed Forces.

(b) MEMBERSHIP.—

(1) COMPOSITION.—The commission shall be

composed of a chair and members appointed

jointly by the Secretary of Veterans Affairs

and the Secretary of Defense, including not

less than one of each of the following:

(A) Members of the Armed Forces on active
duty.

(B) Veterans who are retired from the

Armed Forces.

(C) Employees of the Department of Vet-

erans Affairs.

(D) Employees of the Department of De-

fense.

(E) Recognized medical or scientific au-

thorities in fields relevant to the com-

mission, including psychiatry and medical care.

(F) Mental health professionals who are not

physicians.

(G) Veterans who have undergone treat-

ment for post traumatic stress disorder,

traumatic brain injury, or other mental

health disorders.

(2) CONSIDERATION OF RECOMMENDATIONS.—

In appointing members of the commission,

the Secretary of Veterans Affairs and the

Secretary of Defense shall consult with non-
governmental organizations that represent

veterans, members of the Armed Forces, and

families of such veterans and members.

(c) DUTIES.—

(1) IN GENERAL.—The commission shall—

(A) oversee the monitoring and treatment of

veterans and members of the Armed Forces

with post traumatic stress disorder, traumatic

brain injury, or other mental health disorders

called in service in the Armed Forces; and

(B) conduct a thorough study of all mat-

ters relating to the long-term adverse con-

sequences of such disorders for such veterans

and members, including an analysis of—

(i) the information gathered from re-

screening data obtained from post deploy-

ment interviews; and

(ii) treatments that have been shown to be

effective in the treatment of post traumatic

stress disorder, traumatic brain injury, or other

mental health disorders caused by service in the

Armed Forces.

(2) RECOMMENDATIONS.—The commission

shall develop recommendations on the devel-

opment of initiatives—

(A) to mitigate, to minimize, and to manage

adolescent and adult behavioral health prob-

lems, including mental health problems,

approximately half of

Armed Forces who are no longer on active

duty have been diagnosed with mental

health disorders.

The commission may secure directly from

agencies and nongovernmental organizations

that provide mental health care to members

of the Armed Forces described in section 4403 of

this title.

(3) Purposes.

(a) Purpose.—The purpose of this section

is to authorize—

(1) the Heroes-to-Healers Program; and

(2) a mechanism for the funding and ad-

ministration of such program.

(b) Program Authorized.—(1) The Sec-

retary may carry out a program—

(A) to assist eligible individuals described

in section 4403 of this title in obtaining cer-

tification or licensing (as prescribed for

under applicable State law) as mental health

care providers; and

(B) to facilitate the employment of such

individuals, by Federal, State, and local

agencies and nongovernmental organiza-

tions that provide mental health care to

members of the Armed Forces, veterans,

or families of such members or veterans,

to provide such care.

(2) The program authorized by paragraph

(1) and described in this chapter shall be

known as the ‘Heroes-to-Healers Program’.

(c) Administration of Program.—The

Secretary shall administer the Program in

consultation with the Secretary of Defense.

(d) Information Regarding Program.—

The Secretary shall provide to the Secretary

of Defense information regarding the Pro-

gram and application for participation in

the Program, for distribution as part of

preseparation counseling provided under sec-

tion 1142 of title 10 to members of the Armed

Forces described in section 4403 of this title.

(e) Placement Assistance and Referral Serv-

ices.—The Secretary may, with the agree-

ment of the Secretary of Defense, pro-

vide placement assistance and referral serv-

ices to individuals who meet the criteria de-

scribed in section 4403 of this title.

(4) eligibility Individuals.—The following

individuals are eligible for selection to par-

ticipate in the Program:

"Chapter 44—Heroes-to-Healers Program"

"SEC.}
(1) Any individual who—

(A) was a member of the Armed Forces and becomes entitled to retired or retainer pay in the manner provided in title 10 or title 31, or veterans; and

(B) has an approved date of retirement from service in the Armed Forces.

(2) Any individual who—

(A) is retired or released from active duty in the Armed Forces after two or more years of continuous active duty in the Armed Forces immediately before the separation or release; or

(ii) has completed a total of at least—

(i) three years of active duty service in the Armed Forces;

(ii) 15 years of service computed under section 12732 of title 10; or

(iii) three years of any combination of such service; and

(3) Any individual who is retired or separated for physical disability under chapter 61 of title 10.

(b) SUBMISSION OF APPLICATIONS.—(1) Selection at the time of separation. Applications submitted to the Secretary within the time periods specified in paragraph (2) shall be in such form and contain such information as the Secretary may require.

(2) An application of an individual shall be submitted on a timely basis under paragraph (1) if the application is submitted not later than five years after the date on which the individual is retired, separated, or released from active duty in the Armed Forces, as the case may be.

(c) SELECTION CRITERIA.—(1) The Secretary shall prescribe the criteria to be used to select eligible individuals to participate in the Program.

(2) An individual is eligible to participate in the Program only if the individual’s last period of service in the Armed Forces was honorable, as characterized by the Secretary concerned. An individual selected to participate in the Program before the retirement of the individual or the separation or release of the individual from active duty in the Armed Forces may continue to participate in the Program agreement, separation or release only if the individual’s last period of service is characterized as honorable by the Secretary concerned.

(d) SELECTION PRIORITIES.—In selecting eligible individuals to receive assistance under the Program, the Secretary shall give priority to individuals who engaged in combat while serving in the Armed Forces.

(e) OTHER CONDITIONS ON SELECTION.—(1) The Secretary may not select an eligible individual to participate in the Program under this section and receive financial assistance under section 4404 of this title unless the Secretary has sufficient appropriations for the Program. The Secretary concerned shall take action to satisfy the obligations to be incurred by the United States under section 4404 of this title with respect to the individual.

(2) The Secretary may not select an eligible individual described in subsection (a)(2)(A) to participate in the Program under this section and receive financial assistance under section 4404 of this title unless—

(A) the Secretary notifies the Secretary concerned and the individual that the Secretary has reserved a full stipend or bonus under section 4404 of this title for the individual; and

(B) the individual executes a written agreement with the Secretary concerned to serve as a member of the Selected Reserve of a reserve component of the Armed Forces for a period of not less than three years (in addition to any other reserve commitment the individual may have).

* 4404. Participation agreement and financial assistance

(a) PARTICIPATION AGREEMENT.—(1) An eligible individual selected to participate in the Program under section 4403 of this title and receive financial assistance under this section shall be required to enter into an agreement with the Secretary in which the individual agrees—

(A) within such time as the Secretary may require, to obtain certification or licensing as a mental health care provider; and

(B) to accept an offer of full-time employment as a mental health care provider for not less than five years with a Federal, State, or local agency or nongovernmental organization that provides mental health care to members of the Armed Forces, veterans, or the families of such members or veterans.

(2) The Secretary may waive the five-year commitment described in paragraph (1) for a participant if the Secretary determines such waiver to be appropriate. If the Secretary provides the waiver, the participant shall provide evidence in violation of the agreement and shall not be required to provide reimbursement under subsection (f), for failure to meet the five-year commitment.

(b) SUBMISSION OF APPLICATIONS.—(1) Selection at the time of separation. Applications submitted to the Secretary within the time periods specified in paragraph (2) shall be in such form and contain such information as the Secretary may require.

(2) An application of an individual shall be submitted on a timely basis under paragraph (1) if the application is submitted not later than five years after the date on which the individual is retired, separated, or released from active duty in the Armed Forces, as the case may be.

(c) SELECTION CRITERIA.—(1) The Secretary shall prescribe the criteria to be used to select eligible individuals to participate in the Program.

(2) An individual is eligible to participate in the Program only if the individual’s last period of service in the Armed Forces was honorable, as characterized by the Secretary concerned. An individual selected to participate in the Program before the retirement of the individual or the separation or release of the individual from active duty in the Armed Forces may continue to participate in the Program agreement, separation or release only if the individual’s last period of service is characterized as honorable by the Secretary concerned.

(d) SELECTION PRIORITIES.—In selecting eligible individuals to receive assistance under the Program, the Secretary shall give priority to individuals who engaged in combat while serving in the Armed Forces.

(e) OTHER CONDITIONS ON SELECTION.—(1) The Secretary may not select an eligible individual to participate in the Program under this section and receive financial assistance under section 4404 of this title unless the Secretary has sufficient appropriations for the Program. The Secretary concerned shall take action to satisfy the obligations to be incurred by the United States under section 4404 of this title with respect to the individual.

(2) The Secretary may not select an eligible individual described in subsection (a)(2)(A) to participate in the Program under this section and receive financial assistance under section 4404 of this title unless—

(A) the Secretary notifies the Secretary concerned and the individual that the Secretary has reserved a full stipend or bonus under section 4404 of this title for the individual; and

(B) the individual executes a written agreement with the Secretary concerned to serve as a member of the Selected Reserve of a reserve component of the Armed Forces for a period of not less than three years (in addition to any other reserve commitment the individual may have).

(2) The total number of bonuses that may be paid under paragraph (1) in any fiscal year may not exceed 2,000.

(f) BONUS FOR PARTICIPANTS.—(1) Subject to paragraph (2), the Secretary of Education shall—

(A) establish a separate program under subpart 2 of part D of chapter 33 of title 31 or under part E of chapter 35 of title 31 or under section 428 of title 20 of title 20 of title 20 of the United States Code, for veterans to engage in full-time teaching in a public school or charitable, religious, or non-profit organization; and

(B) when the Secretary determines that such participation in education is desirable in the public interest, the Secretary shall enter into an agreement, in writing, with such veteran or organization, in furtherance of such purpose, for an amount that bears the same ratio to the amount of the stipend or bonus as the unserved portion of required service bears to the five years of required service.

(2) The total number of bonuses that may be paid under paragraph (1) in any fiscal year may not exceed 30,31,33, or 35 of this title or chapters 1606 to 1619 of title 31 of title 31 of title 31 of title 20 of title 20 of title 20 of title 20 of the United States Code.

* 4405. Participation by States

(a) DISCHARGE OF STATE ACTIVITIES THROUGH CONSORTIA OF STATES.—The Secretary may permit States participating in the Program to carry out activities authorized under this title through one or more consortia of such States.
assistance to States.—(1) Subject to paragraph (2), the Secretary may make grants to States participating in the Program, or to consortia of such States, in order to permit States or consortia of States to operate offices for purposes of recruiting eligible individuals for participation in the Program and facilitating the employment of participants in the Program as a mental health care provider.

(2) The total amount of grants made under paragraph (1) in any fiscal year may not exceed $5,000,000.

§ 4406. Reporting requirements

(a) Annual report required.—Not later than 180 days after the date of the enactment of this section and annually thereafter, the Secretary shall, in consultation with the Secretary of Defense, the Secretary of Homeland Security, and the Comptroller General of the United States, submit to Congress a report on the effectiveness of the Program in the recruitment and retention of qualified personnel by Federal, State, and local agencies and nongovernmental organizations that provide mental health care to members of the Armed Forces, veterans, or the families of such persons.

(b) Elements of report.—The report submitted under subsection (a) shall include information on the following:

(1) The number of participants in the Program.

(2) The types of positions in which the participants are employed.

(3) The populations served by the participants.

(4) The agencies and organizations in which the participants are employed as mental health care providers.

(5) The types of agencies and organizations with which the participants are employed.

(6) The geographic distribution of the agencies and organizations with which participants are employed.

(7) The rates of retention of the participants by the Federal, State, and local agencies and nongovernmental organizations employing the participants.

(b) Authorization of appropriations

There are authorized to be appropriated to the Secretary to carry out the provisions of this chapter 10,000,000 for fiscal year 2009 and each fiscal year thereafter.

(c) Grant program.—

(1) In general.—The Secretary may, in consultation with the Secretary of Health and Human Services and the Secretary of Veterans Affairs, establish a program to award grants, on a competitive basis, to eligible entities to encourage State and local mental health agencies or other entities to establish, expand, or enhance mental health provider recruitment and retention efforts. The Secretary may establish tiers of grant award amounts based on criteria including specific need for highly qualified mental health providers by profession within a high demand area, geographic location, and population density.

(2) Eligible entities.—(To be eligible to receive a grant under this section, an entity shall be—

(A) a State health agency;

(B) a high-need local health agency;

(C) a-for-profit or nonprofit organization that has successfully re-recruiting and retaining highly qualified mental health providers, that has entered into a partnership with a high-need local health agency or with a State health agency;

(D) an institution of higher education that has entered into a partnership with a high-need local health agency or with a State health agency;

(E) a regional consortium of State health agencies; or

(F) a consortium of high-need local health agencies.

(3) Priority.—In awarding a grant under this subsection, the Secretary shall give priority to a partnership or consortium that includes a high-need State agency or local health agency.

(4) Application.—(A) In general.—To be eligible to receive a grant under this section, an eligible entity shall submit an application to the Secretary at such time, in such manner, and containing such information as the Secretary may require.

(B) Contents.—An application submitted under subparagraph (A) shall include a description of—

(i) one or more target recruitment groups on which the applicant will focus its recruitment efforts under the grant;

(ii) the characteristics of each such target group that—

(I) demonstrate the knowledge and experience of the group’s members; and

(II) demonstrate that the members are eligible to achieve the purposes of this section;

(iii) the manner in which the applicant will use funds received under the grant to develop a cadre of mental health providers, or other programs to recruit and retain highly qualified midcareer professionals, recent college graduates, and recent graduate school graduates, as highly qualified mental health providers, in high-need military or veterans communities, or as part of entities providing care to military or veterans in medical facilities; and

(iv) the manner in which the program carried out under the grant will comply with relevant State laws related to mental health provider certification and facility licensing, and facilitation of the certification or licensing of such mental health providers;

(v) the manner in which activities under the grant will increase the number of highly qualified mental health providers, in high-need Federal, State and local agencies (including mental health professionals in high-need mental health professions, in the jurisdiction served by the applicant; and

(vi) the manner in which the applicant will collaborate, as needed, with other institutions, agencies, or organizations to recruit (particularly through activities that have proven effective in retaining highly qualified mental health providers), train, place, support, and provide mental health induction programs to eligible participants under this section, including providing evidence of the commitment of the institutions, agencies, or organizations to the applicant’s initiatives.

(5) Duration of grant.—The Secretary may award grants under this subsection for periods of 5 years. At the end of the 5-year period for such a grant, the grant recipient may apply for an additional grant under this section.

(c) Equitable distribution.—To the extent practicable, the Secretary shall ensure an equitable geographic distribution of grants under this subsection among the regions of the United States.

(d) Use of funds.—(A) In general.—An entity shall use amounts received under a grant under this subsection to develop a program to recruit and retain mental health providers in order to establish, expand, or enhance mental health provider recruitment and retention programs for highly qualified mid-career professionals, and recent graduates of institutions of higher education, who are eligible participants.

(B) Authorized activities.—A program carried out under subsection (a) shall include 2 or more of the following activities:

(i) To provide scholarships, stipends, bonuses, and other financial incentives, that are linked to participation in activities that have proven effective in retaining mental health providers in high-need areas operated by Federal, State and local health agencies, to all eligible participants, in an amount that shall not be less than $5,000, nor more than $20,000, per participant.

(ii) To carry out pre- and post-placement induction programs or support activities that have proven effective in recruiting and retaining mental health providers, such as—

(I) mentoring;

(II) providing internships;

(III) providing high-quality, preservice coursework; and

(IV) providing high-quality, sustained in-service professional development activities.

(iii) To make payments to pay the costs associated with accepting mental health providers under this section from among eligible participants or to provide financial incentives to prospective mental health providers who are eligible participants.

(iv) To collaborate with institutions of higher education in the development and implementation of programs to facilitate mental health provider recruitment (including credentialing and licensing) and mental health provider retention.

(v) To carry out other programs, projects, and activities that are designed and have proven to be effective in recruiting and retaining mental health providers, and that the Secretary determines to be appropriate.

(vi) To develop long-term mental health provider recruitment and retention strategies, including development of—

(I) a national, statewide or regionwide clearinghouse for the recruitment and placement of mental health providers;

(II) a priority system for the selection of programs that are designed to improve the availability of mental health providers; and

(III) other programs and activities that are designed and have proven to be effective in recruiting and retaining mental health providers.
The application submitted by the entity that received funds through the grant have the extent to which State and local agencies under paragraph (1), an entity shall describe in a participant in a program under this section.

(b) Supplement, Not Supplant.—Amounts made available under this subsection shall not be used to supplement, and not supplant, State and local public funds expended for mental health providers recruitment and retention programs.

(c) Partnerships and Consortia of Local Health Agencies.—In the case of a partnership or consortium of local health agencies to carry out a program under this subsection, or a consortium of such agencies established to carry out such a program, the Federal, State, and local health agencies in the consortium shall not be eligible to receive funds through a State program under this section.

(d) Period of Service.—A participant in a program under this subsection who receives training through the program shall be given priority to placing such participants in mental health facilities, such entity shall give priority to facilities that are located in—

(i) rural under served areas; or (ii) urban areas with high percentages of individuals who are members of the Armed Forces or veterans.

(e) RECRUITING AND RETAINING MENTAL HEALTH PROVIDERS.—An entity that receives a grant under this subsection shall ensure that participants in the program carried out under the grant who are recruited with funds made available under the grant are placed in high-needs areas operated by high-needs Federal, State, or local health agencies.

(f) Evaluation and Accountability for Recruiting and Retaining Mental Health Providers.—

(1) Evaluation.—An entity that receives a grant under this subsection shall conduct an interim evaluation of the program funded under the grant and a final evaluation of the program funded under the grant.

(2) Contents.—In conducting an evaluation under paragraph (1), an entity shall describe the extent to which State and local agencies that received funds through the grant have met the goals relating to mental health provider recruitment and retention described in the application submitted by the entity under paragraph (1).

(3) Reports.—An entity that receives a grant under this Act shall prepare and submit to the Secretary and the appropriate committees of Congress, an interim and final report that contains the results of the interim and final evaluations carried out under subparagraphs (A) and (B) of paragraph (1), respectively.

(g) Revocation.—If the Secretary determines that the recipient of a grant under this subsection has not demonstrated substantial progress in meeting the goals and the objectives of the grant by the end of the 3rd year of the grant period, the Secretary shall—

(A) revoke payments made for the 4th year of the grant period; and (B) not make any payment for the 5th year of the grant period.

Mr. WYDEN. Mr. President, over the past 7 years hundreds of thousands of members of our armed forces have gone to war and returned home alive, but suffering. Advances in protective equipment and improvements made in battlefield care mean that fewer troops than ever return with physical wounds. But many more of these service members have returned with less obvious injuries—invisible injuries like post-traumatic stress disorder or traumatic brain injury.

Our armed forces have seen a surge in diagnosed cases of post-traumatic stress disorder and traumatic brain injury, commonly known as PTSD and TBI. And soldiers in the National Guard and Reserves are much more likely to suffer from PTSD and depression when they return from battle, a fact that is very important in Oregon where almost all of our servicemembers serve in the Guard and Reserves.

While no less real and no less serious than physical wounds of war, PTSD and TBI require a specialized kind of diagnosis and treatment. Unfortunately, only half of the soldiers and veterans suffering from PTSD or TBI are receiving care for their wounds, according to a RAND Corporation study.

To help our service men and women suffering from PTSD, TBI and other mental health conditions, we are introducing a bill today that’s designed to address some of the overwhelming difficulties faced by many of our nation’s warriors. This bill, the “Healing Our Nation’s Heroes Act of 2008,” has within it provisions to help improve mental health care, and access to care, for service members who suffer from the invisible wounds of war.

First, this legislation would create a standing commission to study and recommend improvements in the care of our veterans. This commission would make recommendations on methods to improve mental health care and, just as importantly, overcome the cultural stigma attached to seeking help for mental health disorders. As an ongoing body, this commission will continue to help guide Congress and the agencies for years, instead of just making recommendations and disappearing.

Secondly, the bill would create a “Heroes-to-Healers Program” which would provide financial incentives for veterans and members of the armed forces who are separating or retiring to obtain certification or licensing as mental health providers. It also encourages them to seek employment with organizations that provide mental health care to members of the armed forces, veterans and their families.

One of the more heartbreaking truths surrounding PTSD is that service members often seek help from mental health professionals who don’t share their experiences. This reluctance creates the sort of self-isolation that leads to increased risk of suicide.

As we increase the number of veterans working as mental health providers, this bill will allow more servicemembers and veterans to get treatment from those who truly understand what combat is like.

Our bill would also create a grant program to help state and local mental health agencies recruit and retain mental health professionals. Some service members and veterans don’t feel comfortable seeking mental health care from the Department of Defense or VA. But mental health agencies are already being stretched thin, especially in rural areas. This legislation will provide help in recruiting and retaining the mental health providers our wounded heroes so desperately need.

Surviving the trauma of combat shouldn’t sentence our forces to a lifetime of mental and emotional pain. They paid the price bravely for serving our country in battle. This bill will help them move beyond the invisible scars of the battlefield and rebuild their lives at home.

By Mr. WYDEN (for himself, Ms. COLLINS, and Mr. DODD):

S. 375. A bill to prohibit the introduction or delivery for introduction into interstate commerce of novelty lighters, and for other purposes; to the Committee on Commerce, Science, and Transportation. Mr. WYDEN. Mr. President, today, I, along with my colleagues Senator Collins from Maine and Senator Dodd from Connecticut, am introducing the Protect Children From Dangerous Lighters Act, a ban on novelty lighters. Novelty lighters, also known as toy-like lighters, are cigarette lighters that look like small children’s toys or regular household items.

These lighters are dangerous and have terrible consequences. Because they are so well disguised as toys, novelty lighters have children literally playing with fire.

The results can be deadly: In Oregon, two boys were playing with a novelty lighter disguised as a toy dolphin and accidentally started a serious fire. One boy died and the other now has permanent brain damage. Also in Oregon, a mother suffered third degree burns on her foot when her child was playing with a novelty lighter disguised as a small toy Christmas tree and set a bed on fire.

Tragic accidents like these happen all over the country. In North Carolina, a boy sustained second degree
burns after playing with a novelty lighter that looked like a toy cell phone. One of the most tragic incidents occurred in Arkansas, where a 2-year-old and a 15-month-old child died in a fire they accidentally started playing with a novelty lighter shaped like a toy remote control.

These injuries and deaths demand we take action and remove these dangerous lighters from shelves everywhere.

If we don’t protect children from novelty lighters, we are condemning them to play life-threatening Russian roulette every time they pick up what they think is a toy.

A ban on novelty lighters would require the Consumer Product Safety Commission to treat novelty lighters as a banned hazardous substance. That means novelty lighters will not be manufactured, imported, sold, or given away as promotional gifts anywhere in this country. Passing this bill is the only way we can guarantee that novelty lighters will be kept out of the hands of children. It’s our best tool to prevent injuries like those that have already brought tragedy to too many families.

A number of states and cities have taken it upon themselves to take action to ban these deadly lighters. Main and Tennessee passed novelty lighter ban legislation and similar bans are being introduced in many other states. Including Oregon. We should expand and support these efforts to protect children in all states.

A Federal ban on novelty lighters has widespread nationwide support. Along with the Oregon Fire Marshal, the National Association of Fire Marshals supports a Federal ban on these lighters and has been active in promoting public awareness on this issue. Even the cigarette lighter industry, represented by the Lighter Association, supports the ban. We can guarantee that novelty lighters will also have support from the Congressional Fire Institute, Safe Kids USA, Consumer Federation of America and the Consumer’s Union.

The more people learn about novelty lighters, the more support there is to ban them.

I urge my colleagues to act now and help kids across America avoid the senseless deaths and serious injuries they suffer when they mistake novelty lighters for toys.

Hazardous tools containing flammable fuel should not be dressed up in packages that are particularly attractive to children. Kids need our help to protect them from the treacherous “wolf in sheep’s clothing” of novelty lighters.

I urge all my colleagues to support the Protect Children from Dangerous Lighters Act.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD, as follows:

SEC. 3. NOVELTY LIGHTER DEFINED.

In this Act, the term “novelty lighter” means a device typically used for the igniting or lighting of cigarettes, cigars, or pipes that has a toy-like appearance, has entertaining audio or visual effects, or resembles in any way in form or function an item that is commonly considered attractive, or intended for use by children of 10 years of age or younger, including such a device that takes toy-like physical forms, including toy vehicles, cartoon characters, cars, boats, airplanes, common household items, weapons, cell phones, batteries, food, beverages, musical instruments, and watches.

SEC. 4. BAN ON NOVELTY LIGHTERS.

(a) BANNED HAZARDOUS SUBSTANCE.—A novelty lighter shall be treated as a banned hazardous substance as defined in section 2 of the Federal Hazardous Substances Act (15 U.S.C. 1261) and the prohibitions set out in section 4 of such act (15 U.S.C. 1263) shall apply to novelty lighters.

(b) APPLICATION.—Subsection (a) applies to a novelty lighter—

(1) manufactured on or after January 1, 1980; and

(2) that is not considered by the Consumer Product Safety Commission to be an antique or an item with significant artistic value.

Ms. COLLINS. Mr. President, I rise to join my friend Senator Wyden in introducing a bill that will ban the sale of certain novelty lighters that children can mistake for toys, often with tragic consequences for themselves and their families.

In Arkansas last year, two boys, ages 15 months and 2 years, died when the toddler accidentally started a fire with a lighter shaped like a motorcycle. In Oregon, a fire started with a dolphin-shaped lighter left one child dead and another brain-damaged. A North Carolina 6-year-old was badly burned by a lighter shaped like a cell phone.

Sadly, the U.S. Fire Administration has other stories of the hazards presented by novelty lighters. When you learn that one looks like a rubber duck toy—and you can imagine the potential for harm.

As a co-chair of the Congressional Fire Services Caucus, I am proud to note that this spring, my home State of Maine became the first State to outlaw the sale of novelty lighters. My State’s pioneering law stems from a tragic 2007 incident in a Livermore, Maine, grocery store. While his mother was buying sandwiches, six-year-old Shane St. Pierre picked up what appeared to be a toy flashlight in the form of a baseball bat. When he flicked the switch, a flame shot out and burned his face. Shane’s dad, Norm St. Pierre, a fire chief in nearby West Paris, began advocating for the novelty-lighter ban that became Maine law in March 2008.

The Maine State Fire Marshal’s office supported that legislation, and a national ban has the support of the Congressional Fire Services Institute’s National Advisory Committee, the National State Fire Marshals Association, and the National Volunteer Fire Council.

The bill is straightforward. It treats novelty lighters manufactured after January 1, 1980, as banned hazardous substances unless the Consumer Product Safety Commission determines a particular lighter has antique or significant artistic value. Otherwise, sale or possession with the knowledge, special audio or visual features, or other attributes that would appeal to children under 10 would be banned.

The novelty lighters targeted in this legislation serve no functional need. But they are liable to attract the notice and curiosity of children, whose play can too easily turn into a scene of horror and death. The sale of lighters that look like animals, cartoon characters, food, toys, or other objects is simply irresponsible and an invitation to tragedy.

I urge all of my colleagues to join me in supporting this simple measure that can save children from disfigurement and death.

By Mr. COLEMAN (for himself, Ms. COLLINS, and Mr. LIEBERMAN):

S. 3377. A bill to amend title 46, United States Code, to waive the biometric transportation security card requirement for certain small business merchant mariners, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. COLEMAN. Mr. President, Minnesota is the land of over 10,000 lakes and nearly as many fishing guides. We even have a Fishing Hall of Fame in Baxter where many of our legendary guides are enshrined—names like Al and Ron Lindner, Babe Winkelman, Gary Roach and many others. In fact tonight there is a banquet honoring the Hall. The craft of the fishing guide is to understand fish and to share their knowledge and the sport with many of us who don’t possess their skills.

When I travel my state I meet with folks from all walks of life who have dealings with the federal government and last summer I was in the city of Baudette, a small community on the Rainy River on the northern border of Minnesota. I had the chance to speak with the folks at the Fishing Fire Services Institute about a new federal regulation with which he had to comply. As you can imagine, I was amazed when he told me that he
Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 377

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Small Marine Business and Fishing Guide Relief Act of 2008".

SEC. 2. WAIVER OF BIOMETRIC TRANSPORTATION WORKER IDENTIFICATION REQUIREMENT FOR CERTAIN SMALL BUSINESS MERCHANT MARINERS.

(a) IN GENERAL.—Section 70105(b)(2) of title 46, United States Code, is amended—

(1) by inserting "(B)," after "(A)";

(2) by striking (C) and (D) as subparagraphs (D), (E), and (F), respectively.

(b) EFFECTIVE DATE.—The waiver provided for in subsection (a) shall apply to an individual who—

(1) is engaged in small marine business operations;

(2) is a fishing guide, charter captain, or other small recreational boat operator;

(3) does not have secure areas on his or her boat; and

(4) is not required to submit to the same security screening requirements as charter boat captains.

SEC. 3. SECURITY FEE WAIVER.

It shall be the policy of the Secretary of Homeland Security to permit individuals to whom a waiver is granted under section 2 of this Act to be issued a TWIC with a reduced fee of $40 for their Coast Guard license. Security fees paid by such individuals shall be refunded to them. The Secretary is encouraged to consider reducing the background information available for review before these individuals are licensed as charter captains.

Mr. DOMENICI. Mr. President, during the previous session I introduced legislation to address the funding of Indian water rights claims that are of utmost importance to Indian tribes, and in particular, within the State of New Mexico. Since that time many parties have met for countless hours in New Mexico and here in Washington to address how these claims could be resolved and finally settled. Rather than spending years in litigation, these groups have sat down and worked through these issues in a very productive manner.

By Mr. DOMENICI (for himself and Mr. BINGAMAN):

S. 386. A bill to authorize the Secretary of the Interior, acting through the Commissioner of Reclamation, to develop water infrastructure in the Rio Grande Basin, and to approve the settlement of the water rights claims of the Pueblos of Nambe, Pojoaque, San Ildefonso, Tesuque, and Taos; and to the Committee on Indian Affairs.

Mr. DOMENICI. Mr. President, during the previous session I introduced legislation to address the funding of Indian water rights claims that are of utmost importance to Indian tribes, and in particular, within the State of New Mexico. Since that time many parties have met for countless hours in New Mexico and here in Washington to address how these claims could be resolved and finally settled. Rather than spending years in litigation, these groups have sat down and worked through these issues in a very productive manner.
As a result, today I am pleased to come before you to introduce, on behalf of myself and Senator BINGAMAN, the Aamodt and Taos Pueblo Indian Water Rights Settlement Act of 2008. This legislation will resolve these longstanding water rights claims within New Mexico and authorize a source of Federal funding to resolve them.

The Aamodt litigation in New Mexico was filed in 1966 and is the longest-standing case in the Federal judiciary system. The hard work that each party put into the settlement process demonstrates that negotiated settlements, with multiple parties working together, can best determine how to allocate scarce water supplies among diverse parties in a way that does not curtail existing uses. This bill will result in additional economic development and improved health benefits within these communities.

The resolution of these claims will not only improve the lives of many within these communities by providing a safe and reliable water supply, but will also improve the ability of New Mexico to effectively undertake water rights planning in the near and long-term future.

As I have stated before, the costs of not settling these claims in New Mexico are dire. The legislation before us will ensure that our obligations to these communities are met and that they will have safe and reliable water systems.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TABLE OF CONTENTS.
The table of contents of this Act is as follows:

   Sec. 1. Table of contents.
   TITLE I—AAMODT LITIGATION SETTLEMENT ACT
   Sec. 101. Short title.
   Sec. 102. Definitions.
   Subtitle A—Pueblo Basin Regional Water System
   Sec. 111. Authorization of Regional Water System
   Sec. 112. Operating Agreement.
   Sec. 113. Acquisition of Pueblo water supply for the Regional Water System.
   Sec. 114. Delivery and allocation of Regional Water System capacity and water.
   Sec. 115. Aamodt Settlement Pueblo’s Fund.
   Sec. 116. Environmental compliance.
   Sec. 117. Authorization of appropriations.
   Subtitle B—Pueblo Basin Indian Water Rights Settlement
   Sec. 121. Settlement Agreement and contract approval.
   Sec. 122. Environmental compliance.
   Sec. 123. Mutual-benefit project and enforcement date.
   Sec. 124. Waivers and releases.
   Sec. 125. Effective date.

TITLE II—TAOS PUEBLO INDIAN WATER RIGHTS SETTLEMENT ACT

Sec. 201. Short title.

Sec. 202. Purpose.
Sec. 203. Definitions.
Sec. 204. Pueblo rights.
Sec. 205. Pueblo water infrastructure and Regional Water System.
Sec. 206. Taos Pueblo Water Development Fund.
Sec. 207. Management.
Sec. 208. Mutual-benefit projects.
Sec. 209. San Juan-Chama Project contracts.
Sec. 210. Authorizations, ratifications, conditions, and precedent.
Sec. 211. Waivers and releases.
Sec. 212. Interpretation and enforcement.
Sec. 213. Disposition.
(I) depicted in the final project design, as modified by the drawings reflecting the completed Regional Water System; and

(II) described in the Operating Agreement.

4. In general.—The term "Regional Water System" includes:

1. the barrier dam and infiltration project on the Rio Pojoaque described in the Engineering Report;

2. the Tesuque Pueblo infiltration pond described in the Engineering Report.

5. Regional water system.—

(A) In general.—The term "Regional Water System" means the Regional Water System described in section 111(a).

(B) Exclusions.—The term "Regional Water System" does not include the County or Pueblo water supply delivered through the Regional Water System.

6. San Juan-Chama Project.—The term "San Juan-Chama Project" means the Project authorized by section 8 of the Act of April 11, 1956 (70 Stat. 96; 97) and the Act of April 11, 1956 (70 Stat. 185).

7. Secretary.—The term "Secretary" means the Secretary of the Interior.

8. Settlement Agreement.—The term "Settlement Agreement" means the stipulation and binding agreement among the State, the Pueblos, the United States, the County, and the City dated January 19, 2006, and among the government parties to the Settlement Agreement (other than the United States) on May 3, 2006 and as amended in conformity with this Act.

9. State.—The term "State" means the State of New Mexico.

Subtitle A—Pojoaque Basin Regional Water System

SEC. 111. AUTHORIZATION OF REGIONAL WATER SYSTEM

(a) In general.—The Secretary, acting through the Commissioner of Reclamation, shall construct and develop the regional water system in accordance with the Settlement Agreement, to be known as the "Regional Water System":

1. (1) to divert and distribute water to the Pueblos and to the County Water Utility, in accordance with the Engineering Report; and

2. (a) Surface water diversion facilities at San Ildefonso Pueblo on the Rio Grande; and

(b) any treatment, transmission, storage and distribution facilities and wellfields for the County Distribution System and Pueblo Water Facilities that are necessary to supply a minimum of 4,000 acre-feet of water within the Pojoaque Basin, in accordance with the Engineering Report.

(b) Final Project Design.—The Secretary shall issue a final project design within 90 days of completion of the environmental compliance described in section 116 for the Regional Water System that:

1. is consistent with the Engineering Report; and

2. includes a description of any Pueblo Water Facilities.

(c) Authority of Land; Water Rights.—

1. (1) Acquisition of Land.—Upon request, and in exchange for the funding which shall be provided in section 117(c), the Pueblos shall consent to the grant of such easements and rights-of-way as may be necessary for the construction of the Regional Water System at no cost to the Secretary. To the extent that the State or County owns easements or rights-of-way that may be used for construction of the Regional Water System, the State or County shall provide that land or interest, in exchange for any conveyance or right-of-way at no cost to the Secretary. The Secretary shall acquire any other land or interest in land that is necessary for the construction of the Regional Water System with the exception of the Bishop's Lodge Extension.

2. Water Rights.—The Secretary shall not condemn water rights for purposes of the Regional Water System.

3. Conditions for Construction.—

(A) In general.—The Secretary shall not begin construction of the Regional Water System facilities until the date on which—

(1) the Secretary executes:

(i) the Settlement Agreement; and

(ii) the Construction Agreement and System Integration Agreement; and

(B) the Secretary and the United States have entered into an agreement with the Secretary to contribute the non-Federal share of the costs of the construction in accordance with the Cost-Sharing and System Integration Agreement.

5. Construction Costs.—

(P) Pueblo Water Facilities.—The costs of constructing the Pueblo Water Facilities, as determined by the final project design and the Engineering Report, shall be at full Federal expense subject to the amount authorized in section 117(a)(3); and

(B) shall be nonreimbursable to the United States.

6. County Distribution System.—The costs of constructing the County Distribution System shall be at State and local expense.

7. State and Local Capital Obligations.—The State and local capital obligations for the Regional Water System described in the Cost-Sharing and System Integration Agreement shall be satisfied on the payment of the State and local capital obligations described in the Settlement Agreement (other than the United States) on May 3, 2006 and as amended in conformity with this Act.

8. Conveyance of Regional Water System Facilities.—

(A) In general.—The Secretary, acting through the Commissioner of Reclamation, shall convey to—

1. (1) each Pueblo the portion of any Pueblo Water Facility that is located within the boundaries of the Pueblo, including any land or interest in land located within the boundaries of the Pueblo that is acquired by the United States for the construction of the Pueblo Water Facility;

(B) the County the County Distribution System, including any land or interest in land acquired by the United States for the construction of the County Distribution System; and

(C) the Authority any portions of the Regional Water System that remain after making the conveyances under subparagraphs (A) and (B), including any land or interest in land acquired by the United States for the construction of the portions of the Regional Water System conveyance of any land or facility under this section, the United States shall not be held liable by any court for damages of any kind resulting from any act or omission of the United States or for any occurrence relating to the land and facilities conveyed, other than damages caused by acts of negligence by the United States, or by employees of the United States, prior to the date of conveyance.

(B) Tort Claims.—Nothing in this section increases the liability of the United States nor the liability of the government parties to the Settlement Agreement (other than the United States) under chapter 71 of title 28, United States Code (commonly known as the "Federal Tort Claims Act").

9. Effect.—Nothing in any transfer of ownership provided or any conveyance thereunto as provided in this section shall extinguish the right of any Pueblo, the County, or the Regional Water Authority to the continuing use and enjoyment of any right of way for the use, operation, maintenance, repair, and replacement of Pueblo Water Facilities, the County Distribution System or the Regional Water System or for wastewater purposes as provided in the Cost-Sharing and System Integration Agreement.

SEC. 112. OPERATING AGREEMENT

(a) In general.—The Pueblos and the County shall submit to the Secretary an executed Operating Agreement for the Regional Water System that is consistent with this Act, the Settlement Agreement, and the Cost-Sharing and System Integration Agreement not later than 180 days after the later of—

1. (1) the date of completion of environmental compliance and permitting; or

2. (2) the date of issuance of a final project design for the Regional Water System under section 111(b).

(b) Approval.—Not later than 180 days after receipt of the operating agreement described in subsection (a), the Secretary shall approve the Operating Agreement upon determination that the Operating Agreement is consistent with this Act, the Settlement Agreement, and the Cost-Sharing and System Integration Agreement.

(c) Contents.—The Operating Agreement shall include—

1. (1) provisions consistent with the Settlement Agreement and the Cost-Sharing and System Integration Agreement and necessary to implement the benefits of the Regional Water System described in these documents;

2. (2) provisions for—

(A) the distribution of water conveyed through the Regional Water System, including a delineation of—

(i) distribution lines for the County Distribution System; and

(ii) distribution lines for the Pueblo Water Facilities; and
The construction of additional infrastructural distribution systems of associated rights-of-way or easements necessary to enable any of the Pueblos or the County to fully use water allocated to the Pueblos or the County under the Regional Water System, including provisions addressing when the construction of such additional infrastructure requires approval by the Authority.

The allocation and payment of annual operation, maintenance, and replacement costs for the Regional Water System, including the portions of the Regional Water System that are used to treat, transmit, and distribute water to both the Pueblo Water Facilities and the County Water Utility.

The operation of water rights necessary to provide the Pueblo water supply described in section 113(a).

The operation of the Regional Water System with respect to the water supply, including the allocation of the water supply in accordance with 3.1.8.4.2 of the Settlement Agreement so that, in the event of a shortage of supply to the Regional Water System, the supply to each of the Pueblos and to the distribution system shall be reduced on a prorata basis, in proportion to each distribution system’s most current annual use; and

(i) Disney resolution and

(ii) provisions for operating and maintaining the Regional Water System facilities before and after conveyance under section 111(b), including provisions to—

(A) ensure that—

(i) the operation of, and the diversion and conveyance of water by, the Regional Water System is in accordance with the Settlement Agreement;

(ii) the wells in the Regional Water System are used in conjunction with the surface water supply of the Regional Water System to ensure a reliable firm supply of water to all users of the Regional Water System, consistent with the intent of the Settlement Agreement, and

(B) allow for any aquifer storage and recovery projects that are approved by the Office of the New Mexico State Engineer.

The operating Company, acting in a broadly consistent manner with the intent of section 111 of the Settlement Agreement, may make appropriate adjustments to, and modifications of, the above operating procedures and policies to ensure that the water delivery to any Pueblo or the County Water Utility is in accordance with the Settlement Agreement.

SEC. 113. ACHIEVEMENT OF PUEBLO WATER SUPPLY FOR THE REGIONAL WATER SYSTEM.

(a) In General.—For the purpose of providing a reliable firm supply of water from the Regional Water System for the Pueblos in accordance with the Settlement Agreement, the Secretary, on behalf of the Pueblos, shall—

(1) acquire water rights to—

(A) 302 acre-feet of Nambe reserved water described in section 2.9.2 of the Settlement Agreement pursuant to section 117(c)(1)(C); and

(B) 114 acre-feet of water acquired by the County from the Regional Water System and referred to as “Top of the World” rights in the Aamodt case;

(2) make available 1079 acre-feet to the Pueblos pursuant to a contract entered into among the Pueblos and the Secretary in accordance with section 11 of the Act of June 18, 1956, (73 Stat. 184) (San Juan-Chama Project Act) under water rights held by the Secretary; and

(3) by application to the State Engineer, obtain a share of the water acquired and made available under paragraphs (1) and (2) at the points of diversion for the Regional Water System, consistent with the Settlement Agreement and the Cost-Sharing and System Integration Agreement.

(b) Forfeiture.—The nonuse of the water supply required for the Pueblos under subsection (a) shall in no event result in forfeiture, abandonment, relinquishment, or other loss thereof.

(c) Transfer of water supply secured under subsection (a) shall be held by the United States in trust for the Pueblos.

(d) CONTRACT FOR SAN JUAN-CHAMA PROJECT WATER SUPPLY.—With respect to the contract for the water supply required by subsection (a)(2), such San Juan-Chama Project contract shall be pursuant to the following terms:

(1) WAIVERS.—Notwithstanding the provisions of the Act of June 18, 1956, (73 Stat. 184), or any other provision of law—

(A) the Secretary shall waive the entirety of the Pueblos’ share of the construction costs for the San Juan-Chama Project, and pursuant to that waiver, the Pueblos’ share of all construction costs for the San Juan-Chama Project, inclusive of both principal and interest, due from 1972 to the execution of the contract required by subsection (a)(2), shall be nonreimbursable;

(B) the Secretary’s waiver of each Pueblo’s share of the construction costs for the San Juan-Chama Project will not result in an increase in the pro rata shares of other San Juan-Chama Project water contractors, but each contract shall be nonreimbursable by the United States Treasury or otherwise appropriated to the Department of the Interior; and

(C) the costs associated with any water made available from the San Juan-Chama Project which were determined nonreimbursable and nonreturnable pursuant to Pub. L. No. 88-283, 78 Stat. 171 (March 26, 1964) shall remain nonreimbursable and nonreturnable.

(2) TERMINATION.—The contract shall provide that it shall terminate only upon the following conditions:

(A) failure of the United States District Court for the District of New Mexico to enter a final decree for the Aamodt case by December 15, 2012 or within the time period of any extension of that deadline granted by the court; or

(B) entry of an order by the United States District Court for the District of New Mexico voiding the final decree and Settlement Agreement for the Aamodt case pursuant to section 10.3 of the Settlement Agreement.

(e) LIMITATION.—The Secretary shall use the water supply secured under subsection (a) only for the purposes described in the Settlement Agreement.

(f) FULFILLMENT OF WATER SUPPLY ACQUISITION OBLIGATIONS.—Compliance with subsections (a) through (e) shall satisfy any and all obligations to acquire or secure a water supply for the Pueblos pursuant to the Settlement Agreement.

(g) RIGHTS OF PUEBLOS IN SETTLEMENT AGREEMENT.—Notwithstanding the provisions of subsections (a) through (f), the Pueblos, the County, or the Regional Water System may acquire additional water rights to ensure all parties to the Settlement Agreement receive the full allocation of water provided by the Settlement Agreement, or that any judgment, amendment, or modification of the Settlement Agreement reduces or modifies the quantities of water allocated to the Pueblos thereunder.
the operation, maintenance, and replacement costs associated with the capacity of water or power.

SEC. 115. AAMODT SETTLEMENT PUEBLOS' FUND.

(a) ESTABLISHMENT OF THE AAMODT SETTLEMENT PUEBLOS' FUND.—There is established in the Treasury of the United States a fund, to be known as the “Aamodt Settlement Pueblos’ Fund,” consisting of—

(1) any amounts made available to the Fund under section 117(c); and

(2) any interest earned from investment of amounts in the Fund under subsection (b).

(b) MANAGEMENT OF THE FUND.—The Secretary shall manage the Fund, invest amounts in the Fund, and make amounts available from the Fund for distribution to the Pueblos with—

(1) the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.); and

(2) this title.

(c) INVESTMENT OF THE FUND.—The Secretary shall invest amounts in the Fund in accordance with—

(1) the Act of April 1, 1880 (25 U.S.C. 161);

(2) the first section of the Act of June 24, 1938 (25 U.S.C. 162a); and

(3) the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.).

(d) TRIBAL MANAGEMENT PLAN.—

(1) Pueblo may withdraw all or part of the Pueblo’s portion of the Fund on approval by the Secretary of a tribal management plan as described in the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.).

(2) REQUIREMENTS.—In addition to the requirements under the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.), the tribal management plan shall require that a Pueblo spend any amounts withdrawn from the Fund in accordance with the purposes described in section 117(c).

(3) ENFORCEMENT.—The Secretary may take judicial or administrative action to enforce the provisions of any tribal management plan to ensure that any amounts withdrawn from the Fund under an approved tribal management plan are used in accordance with such purposes.

(4) LIABILITY.—If a Pueblo or the Pueblos exercise the right to withdraw amounts from the Fund, neither the Secretary nor the Secretary’s designee shall be held liable for the expenditure or investment of the amounts withdrawn.

(5) EXPENDITURE PLAN.—

(A) IN GENERAL.—The Pueblos shall submit to the Secretary for approval an expenditure plan for any portion of the amounts in the Fund that the Pueblos do not withdraw under this subsection.

(B) DESCRIPTION.—The expenditure plan shall describe the manner in which, and the purposes for which, amounts remaining in the Fund shall be used.

(C) APPROVAL.—On receipt of an expenditure plan under subparagraph (A), the Secretary shall approve the plan if the Secretary determines that the plan is reasonable and consistent with this title, the Settlement Agreement, and the Cost-Sharing and System Integration Agreement.

(D) ANNUAL REPORT.—The Pueblos shall submit to the Secretary an annual report that describes all expenditures from the Fund during the year covered by the report.

(6) PREFERENCES.—No amounts under this paragraph may be used—

(A) to construct, maintain, or repair the principal of the Fund, or the interest or income accruing on the principal shall be distributed to any member of a Pueblo on a per capita basis;

(B) to the extent the Settlement Agreement and the Cost-Sharing and System Integration Agreement do not conflict with this title, the Settlement Agreement and the Cost-Sharing and System Integration Agreement (including any amendments to the Settlement Agreement and the Cost-Sharing and System Integration Agreement consistent with this title) are authorized, ratified, and confirmed.

(E) RECORD OF DECISION.—No amounts made available under paragraph (1) shall be used to prepare a decision statement, or portions of a decision statement, by the Secretary after completion of an environmental impact statement for a preferred alternative that is in substantial conflict with the Settlement Agreement and the Regional Water System, as defined in the Engineering Report.

(F) ACQUISITION OF WATER RIGHTS.—There is authorized to be appropriated to the Secretary for the acquisition of the water rights under section 113(a)(1)(B)—

(A) $8,000,000, which shall be allocated to the Pueblos, in accordance with section 2.7.1 of the Settlement Agreement, for the rehabilitation, improvement, operation, maintenance, and replacement of the agricultural delivery facilities, waste water systems, and other water-related infrastructure of the applicable Pueblo. The amount authorized herein shall be adjusted according to the CPI Urban Index beginning October 1, 2006.

(B) $37,500,000, which shall be allocated to an account, to be established not later than January 1, 2016, to assist the Pueblos in paying Pueblo’s share of the operating, maintaining, and replacing the Pueblo Water Facilities and the Regional Water System.

(C) $5,000,000 and any interest thereon, which shall be allocated to the Pueblo of Nambe for the acquisition of the Nambe reserved water rights in accordance with section 113(a)(1)(A).

(G) $8,000,000, which shall be allocated to an account, to be used for the Pueblo of Acoma, for the purposes of the Regional Water System.

(H) $18,000,000, which shall be allocated to the Pueblos, in accordance with section 2.7.1 of the Settlement Agreement, for the rehabilitation, improvement, operation, maintenance, and replacement of the agricultural delivery facilities, waste water systems, and other water-related infrastructure of the applicable Pueblo.

3. AAMODT SETTLEMENT PUEBLOS’ FUND.

(a) IN GENERAL.—There is authorized to be appropriated to the Secretary for the rehabilitation, improvement, operation, maintenance, and replacement of the agricultural delivery facilities, waste water systems, and other water-related infrastructure of the applicable Pueblo.

(b) RECORD OF DECISION.—No amounts made available under paragraph (1) shall be used to prepare a decision statement, or portions of a decision statement, by the Secretary after completion of an environmental impact statement for a preferred alternative that is in substantial conflict with the Settlement Agreement and the Cost-Sharing and System Integration Agreement (including any amendments to the Settlement Agreement and the Cost-Sharing and System Integration Agreement consistent with this title) are authorized, ratified, and confirmed.

SEC. 112. SETTLEMENT AGREEMENT AND CONTRACT APPROVAL.

(A) APPROVAL.—To the extent the Settlement Agreement and the Cost-Sharing and System Integration Agreement do not conflict with this title, the Settlement Agreement and the Cost-Sharing and System Integration Agreement (including any amendments to the Settlement Agreement and the Cost-Sharing and System Integration Agreement consistent with this title) are authorized, ratified, and confirmed.

(B) RECORD OF DECISION.—To the extent the Settlement Agreement and the Cost-Sharing and System Integration Agreement do not conflict with this title, the Secretary shall execute the Settlement Agreement and the Cost-Sharing and System Integration Agreement (including any amendments that are
necessary to make the Settlement Agreement or the Cost-Sharing and System Integration Agreement consistent with this title.

(c) AUTHORIZED OF THE PUEBLOS.—
(1) IN GENERAL.—Each of the Pueblos may enter into contracts to lease or exchange water rights or to forbear undertaking new or expanded water uses for water rights made available to the Pueblos under the Settlement Agreement; and

(2) REQUIREMENTS.—The conditions precedent described in subsection (a)(2) have been fulfilled.

(3) APPROVAL BY SECRETARY.—Consistent with the Settlement Agreement as amended under paragraph (1), the Secretary shall approve or disapprove a lease entered into under paragraph (1).

(4) PROHIBIT ON PERMANENT ALIENATION.—No lease or contract under paragraph (1) shall be for a term exceeding 99 years, nor shall any such lease or contract provide for permanent alienation of any portion of the water rights made available to the Pueblos under the Settlement Agreement.

(5) APPLICABLE LAW.—Section 211 of the Reclamation Act of 1902 (42 U.S.C. 4321 et seq.), not apply to any lease or contract entered into under paragraph (1).

(6) PURCHASING OR MARKETING OF WATER SUPPLY.—The water supply provided on behalf of the Pueblos pursuant to section 113(a)(1) may only be leased or marketed by any of the Pueblos pursuant to the intergovernmental agreements described in subsection (a)(2).

(d) AMENDMENTS TO CONTRACTS.—The Secretary shall amend the contracts relating to the Nambe Falls Dam and Reservoir that are necessary to make the Settlement Agreement consistent with the other limitations of section 2.1.5 of the Settlement Agreement; and

(e) EXPIRATION.—If the parties to the Settlement Agreement entitled to provide notice regarding the lack of substantial completion of the Pueblo Water System provide such notice in accordance with section 10.3 of the Settlement Agreement, the Settlement Agreement shall no longer be effective, the waivers and releases executed pursuant to section 124 shall no longer be effective, and any expended Federal funds, together with any income earned thereon, and title to any property acquired or constructed with expended Federal funds, shall be returned to the Federal Government unless otherwise agreed to by the appropriate parties in writing and approved by Congress.

SEC. 124. WAIVERS AND RELEASES.
(a) CLAIMS BY THE PUEBLOS.—The Pueblos, on behalf of themselves and their members, and the United States, acting in its capacity as trustee for the Pueblos, as part of their obligations under the Settlement Agreement, shall each execute a waiver and release of—

(1) all past, present, and future claims for damages, losses, injuries or water rights or claims of interference, diversion or taking of water for lands within the Pojoaque Basin that accrued at any time up to and including the enforcement date identified in section 122(b), that the Pueblos or their members may have against the United States, its agencies, or employees; and

(2) all claims for damages, losses or injuries to water rights or claims of interference, diversion or taking of water for lands within the Pojoaque Basin that accrued at any time up to and including the enforcement date identified in section 122(b), that the Pueblos or their members may have against the United States, its agencies, or employees; and

(b) CLAIMS BY THE PUEBLOS.—The Pueblos, on behalf of themselves and their members, as part of their obligations under the Settlement Agreement, shall execute a waiver and release of—

(1) all causes of action against the United States, its agencies, or employees, arising out of all past, present, and future claims for water rights that were asserted, or could have been asserted, by the United States as trustee for the Pueblos and on behalf of the Pueblos in the Aamodt Case; and

(2) all claims for damages, losses or injuries to water rights or claims of interference, diversion or taking of water for lands within the Pojoaque Basin that accrued at any time up to and including the enforcement date identified in section 122(b), that the Pueblos or their members may have against the United States, its agencies, or employees; and

(c) TOLLING OF CLAIMS.—
(1) IN GENERAL.—Each applicable period of limitation and time-based equitable defense relating to a claim described in this section shall be tolled for the period beginning on the date of enactment of this Act and ending on the Enforcement Date.

(2) NO REVEL OF CLAIMS.—Nothing in this subsection revives any claim or tolls any period of limitation or time-based equitable defense that expired before the date of enactment of this Act.

SEC. 125. EFFECT.
Nothing in this title or the Settlement Agreement affects the title, claims, or entitlements to water of any Indian tribe, pueblo, or community other than the Pueblos.
of the Acquia Madre del Rio Lucero y del Arroyo Seco, the Acquia Madre del Prado, the Acquia Monte, the Acquia Madre del Rio Chiquito, the Upper Ranchitos Mutual Domestic Water Consumers Association, the Upper Arroyo Honda Mutual Domestic Water Consumers Association, and the Llano Quemado Mutual Domestic Water Consumers Association.

(2) ENFORCEMENT DATE.—The term “Enforcement Date” means the date upon which all conditions precedent set forth in section 210(e)(2) have been fulfilled.

(3) MUTUAL-BENEFIT PROJECTS.—The term “Mutual-Benefit Projects” means the projects described and identified in Articles 6 and 10 of the Agreement.

(4) PARTIAL FINAL DECREE.—The term “Partial Final Decree” means the decree entered in New Mexico v. Abeyta and New Mexico v. Arellano, Civil Nos. 7868-BB (U.S. D.N.M.) and 7869-BB (U.S. D.N.M.) (consolidated), for the resolution of the Pueblo’s water right claims and which is substantially in the form agreed to by the Parties and attached to and 7939–BB (U.S. D.N.M) (consolidated), for in New Mexico v. Abeyta and New Mexico v. Arellano, Civil Nos. 7868-BB (U.S. D.N.M.) and 7869-BB (U.S. D.N.M.) (consolidated), for the resolution of the Pueblo’s water right claims and which is substantially in the form agreed to by the Parties and attached to and

SEC. 205. PUEBLO WATER INFRASTRUCTURE AND WATERSHED ENHANCEMENT.

(a) IN GENERAL.—The Secretary, acting through the New Mexico Reclamation Project, shall provide grants and technical assistance to the Pueblo on a nonreimbursable basis to:

(1) plan, permit, design, engineer, construct, reconstruct, replace, or rehabilitate water production, treatment, and delivery infrastructure;

(2) restore, preserve, and protect the environment associated with the Buffalo Pasture area; and

(3) protect and enhance watershed conditions.

(b) AVAILABILITY OF GRANTS.—Upon the Enforcement Date, all amounts appropriated pursuant to section 210(c)(1) shall be available in grants in an amount adequate in light of the requirements of subsection (c) have been met.

(c) PLAN.—The Secretary shall provide financial assistance pursuant to subsection (a) upon the Pueblo’s submittal of a plan that identifies the projects to be implemented consistent with the purposes of this section and describes how such projects are consistent with the Vertical Agreement.

(d) EARLY FUNDS.—Notwithstanding subsection (b), $10,000,000 of the monies authorized to be appropriated pursuant to section 210(c)(1)—

(1) shall be made available in grants to the Pueblo by the Secretary upon appropriation or availability of funds from other authorized sources; and

(2) shall be distributed by the Secretary to the Pueblo on receipt by the Secretary from the Pueblo of a written notice, a Tribal Council resolution that describes the purposes and how the monies will be used, and a plan under subsection (c) for the funding.

SEC. 206. TAOS PUEBLO WATER DEVELOPMENT FUND.

(a) ESTABLISHMENT.—There is established in the Treasury of the United States a fund to be known as the “Taos Pueblo Water Development Fund” (hereinafter, “Fund”) to be used to pay or reimburse costs incurred by the Pueblo for:

(1) acquiring water rights;

(2) planning, permitting, designing, engineering, constructing, reconstructing, repairing, or maintaining water infrastructure, on-farm improvements, or wastewater infrastructure;

(3) restoring, protecting, and protecting the Buffalo Pasture, including planning, permitting, designing, engineering, constructing, operating, managing and replacing the Buffalo Pasture Recharge Project;

(4) administering the Pueblo’s water rights acquisition program and water management and administration system; and

(5) for watershed protection and enhancement, support of agriculture, water-related Pueblo community welfare and economic development, and costs related to the negotiation, authorization, and implementation of the Settlement Agreement.

(b) MANAGEMENT OF THE FUND.—The Secretary shall manage the Fund, invest amounts in the Fund, and make monies available from the Fund for distribution to the Pueblo consistent with the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.) (hereinafter, “Trust Fund Reform Act”), this title, and the Settlement Agreement.

(c) INVESTMENTS.—The Secretary shall invest amounts in the Fund in accordance with—

(1) the Act of April 1, 1880 (21 Stat. 70, ch. 41, 25 U.S.C. 395); and

(2) the first section of the Act of June 24, 1932 (52 Stat. 1037, ch. 468, 25 U.S.C. 162a); and

(3) the American Indian Trust Fund Management Reform Act of 1994 (25 U.S.C. 4001 et seq.).

(d) AVAILABLE AMOUNTS FROM THE FUNDS.—At the Enforcement Date all monies deposited in the Fund pursuant to section 210(c)(2) shall be available to the Pueblo for expenditure or withdrawal after the requirements of subsection (e) have been met.

(e) EXPENDITURES AND WITHDRAWAL.—

(1) TRIBAL MANAGEMENT PLAN.—(A) IN GENERAL.—The Pueblo may withdraw any part of the Fund as authorized by the Secretary of a tribal management plan as described in the Trust Fund Reform Act.

(B) REQUIREMENTS.—In addition to the requirements under the Trust Fund Reform Act, the tribal management plan shall require that the Pueblo spend any funds in accordance with the purposes described in subsection (a).

(2) ENFORCEMENT.—The Secretary may take judicial or administrative action to enforce the requirement that monies withdrawn from the Fund are used for the purposes specified in subsection (a).

(3) LIABILITY.—If the Pueblo exercises the right to withdraw monies from the Fund, the Secretary shall not be liable to the Secretary of the Treasury for any enforcement action taken by the Secretary.

(4) EXPENDITURE PLAN.—(A) IN GENERAL.—The Pueblo shall submit to the Secretary for approval an expenditure plan for any portions of the funds made available under this title that the Pueblo does not withdraw under paragraph (1)(A).

(B) DESCRIPTION.—The expenditure plan shall describe the manner in which, and the purposes for which, the amounts remaining in the Fund will be used.

(5) APPROVAL.—On receipt of an expenditure plan under subparagraph (A), the Secretary shall approve the plan if the Secretary determines that the plan is reasonable and consistent with this title.

(6) ANNUAL REPORT.—The Pueblo shall submit to the Secretary an annual report that describes all expenditures from the Fund during the year covered by the report.

(f) FUNDS AVAILABLE UPON APPROPRIATION.—The Secretary shall approve an appropriation to the Fund (d), $15,000,000 of the monies authorized to be appropriated pursuant to section 210(c)(2) shall be available for expenditure or withdrawal after the requirements of subsection (e) have been met.

(g) NO PER CAPITA DISTRIBUTIONS.—No part of the Fund shall be distributed on a per capita basis to members of the Pueblo.

SEC. 207. MARKETING.

(a) PUEBLO WATER RIGHTS.—Subject to the approval of the Secretary in accordance with subsection (e), the Pueblo may market water rights acquired under the Settlement Agreement and Partial Final Decree, provided that such marketing is in accordance with this section.

(b) PUEBLO CONTRACT RIGHTS TO SAN JUAN-CHAMA PROJECT WATER.—Subject to the approval of the Secretary in accordance with
subsection (e), the Pueblo may subcontract water made available to the Pueblo under the contract authorized under section 208(b)(1) to third parties to supply water for uses on lands contiguous to Pueblo lands or for uses by non-Pueblo parties, provided that the delivery obligations under such subcontract are not inconsistent with the Secretary’s existing San Juan-Chama Projects and such subcontract is in accordance with this section.

(c) LIMITATION.—

(1) IN GENERAL.—Diversion or use of water off Pueblo Lands under paragraph (1) shall not impair water rights or increase surface water depletions within the Taos Valley.

(d) MAXIMUM TERM.—

(1) IN GENERAL.—The maximum term of any water use lease or subcontract, including all renewals, shall not exceed 90 years in duration.

(2) ALIENATION OF RIGHTS.—The Pueblo shall not permanently alienate any rights it has under the settlement agreement, the Partial Final Decree, and this title.

(e) APPROVAL OF SECRETARY.—The Secretary shall approve or disapprove any lease or subcontract submitted by the Pueblo for approval not later than—

(1) 180 days after submission; or

(2) 90 days after compliance, if required, with the Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); or any other requirement of Federal law, whichever is later.

(f) NO FORFEITURE OR ABANDONMENT.—The lease by a lessee or subcontractor of the Pueblo on which the Pueblo is entitled under the Partial Final Decree shall not in any event result in a forfeiture, abandonment, relinquishment, or other loss of all or any part thereof.

(g) NO PREEMPTION.—

(1) IN GENERAL.—The approval authority of the Secretary provided under subsection (e) shall not be construed to supercede, supersede, or pre-empt any State or Federal law, interstate compact, or international treaty that pertains to water, or which has provisions applicable to the appropriation, use, development, storage, regulation, allocation, conservation, exportation, or quantity of such waters.

(2) APPLICABLE LAW.—The provisions of section 2116 of the Revised Statutes (25 U.S.C. 4321 et seq.) shall not apply to any water made available by the settlement agreement.

(h) NO PREJUDICE.—Nothing in this title shall be construed to establish, address, prejudice, or prevent any party from litigating whether, to what extent any applicable State law, Federal law or interstate compact does or does not permit, govern, or apply to the use of the Pueblo’s water outside of New Mexico.

SEC. 208. MUTUAL-BENEFIT PROJECTS.

(a) IN GENERAL.—Upon the Enforcement Date, the Secretary, acting through the Commissioner of Reclamation, shall provide financial assistance in the form of a nonreimbursable basis to Eligible Non-Pueblo Entities to plan, permit, design, engineer, and construct the Mutual Benefits Projects in accordance with the Settlement Agreement.

(b) IN GENERAL.—Except to the extent that any provision of the Settlement Agreement conflicts with any provision of this title, the Settlement Agreement is authorized, ratified, and confirmed.

(c) AMENDMENTS.—To the extent amendments are executed to make the Settlement Agreement consistent with this title, such amendments are also authorized, ratified, and confirmed.

(d) EXECUTION OF SETTLEMENT AGREEMENT.—To the extent that the Settlement Agreement does not conflict with this title, the Secretary, acting through the Commissioner of Reclamation, has the authority to execute the Settlement Agreement, including all exhibits to the Settlement Agreement requiring the signature of the Secretary and any amendments necessary to make the Settlement Agreement consistent with this title, after the Pueblo has executed the Settlement Agreement and any amendments.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) TAOS PUEBLO INFRASTRUCTURE AND WATER DEVELOPMENT FUND.—There is authorized to be appropriated to the Secretary to provide grants pursuant to section 205, $30,000,000, as adjusted under paragraph (4), for the period of fiscal years 2009 through 2015.

(2) TAOS PUEBLO WATER DEVELOPMENT FUND.—There is authorized to be appropriated to the Taos Pueblo Water Development Fund, established under section 206(a), $50,000,000, as adjusted under paragraph (4), for the period of fiscal years 2009 through 2015.

(3) MUTUAL-BENEFIT PROJECTS FUND.—There is further authorized to be appropriated to the Secretary to provide grants pursuant to section 208, a total of $33,000,000, as adjusted under paragraph (4), for the period of fiscal years 2009 through 2015.

(f) ADJUSTMENTS TO AMOUNTS AUTHORIZED.—The amounts authorized to be appropriated under paragraphs (1) through (3) shall be reduced by such amounts as may be required by reason of changes since April 1, 2007, in construction costs, as indicated by the engineering cost indices applicable to the types of construction or rehabilitation involved.

(g) DEPOSIT IN FUND.—Except for the funds to be provided to the Pueblo pursuant to section 205(d), the Secretary shall deposit the funds made available pursuant to paragraphs (1) and (3) into a Taos Settlement Fund to be established within the Treasury of the United States so that such funds may be made available to the Pueblo and the Eligible Non-Pueblo Entities upon the Enforcement Date as set forth in sections 206(b) and 208(a).

(h) AUTHORITY OF THE SECRETARY.—The Secretary is authorized to enter into such agreements and to take such measures as the Secretary may deem necessary or appropriate to fulfill the intent of the Settlement Agreement and this title.

(i) ENVIRONMENTAL COMPLIANCE.—

(1) EFFECT OF EXECUTION OF SETTLEMENT AGREEMENT.—The Secretary’s execution of the settlement agreement constitutes a major Federal action under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) COMPLIANCE WITH ENVIRONMENTAL LAWS.—In carrying out this title, the Secretary shall comply with each law of the Federal Government relating to the protection of the environment, including—

(A) The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(3) CONDITIONS PRECEDENT AND SEP- TIALAR FUNDING.—

(a) Ratification.—

(1) IN GENERAL.—Upon the fulfillment of the conditions precedent described in paragraph (2), the Secretary shall publish in the Federal Register a statement of finding that the conditions have been fulfilled.

(2) CONDITIONS.—The conditions precedent referred to in paragraph (1) are the following:

(A) The President has signed into law the Taos Pueblo Indian Water Rights Settlement Act.

(B) To the extent that the Settlement Agreement conflicts with this title, the Settlement Agreement has been revised to conform with this title.

(C) The Settlement Agreement, so revised, including waivers and releases pursuant to section 207, has been approved by the Pueblo and the Secretary prior to the Parties’ motion for entry of the Partial Final Decree.
(D) Congress has fully appropriated or the Secretary has provided from other authorized sources all funds authorized by paragraphs (1) through (3) of subsection (c) so that the water rights and contract rights to water made available from other authorized funds have been previously provided to the Pueblo pursuant to sections 205 and 206, or placed in the Taos Pueblo Water Development Fund or the Taos Pueblo Settlement Fund as directed in subsection (c).

(E) The Legislature of the State of New Mexico has fully appropriated the funds for the Settlement Agreement and all funds have been deposited in appropriate accounts.

(F) The State of New Mexico has enacted legislation to provide such claims as are specified in the Settlement Agreement, and those funds have been deposited in appropriate accounts.

(G) A Partial Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(H) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(I) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(J) The water contract right, duties, and responsibilities to which the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(K) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(L) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(M) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(N) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(O) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(P) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(Q) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(R) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(S) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(T) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(U) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(V) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(W) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(X) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(Y) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(Z) A Final Decree that sets forth the water contract rights, duties, and responsibilities to which the Pueblo is entitled under the Settlement Agreement, and this title and the Partial Final Decree may be leased for a term, including all renewals, not to exceed 99 years, provided that this condition shall not be construed to require that said amendment state that any State law based water rights acquired by the Pueblo or by the United States on behalf of the Pueblo may be leased for said term.

(a) CLAIMS BY THE PUEBLO AND THE UNITED STATES.—The Pueblo, on behalf of itself and its members, shall retain the following rights and resources of the Pueblo, that accrued from time immemorial through the date of enactment of this Act and ending on the Enforcement Date.

(b) CLAIMS BY THE PUEBLO.—The Pueblo, on behalf of itself and its members, shall retain the following rights and resources of the Pueblo, that accrued from time immemorial through the date of enactment of this Act and ending on the Enforcement Date.

(c) RESERVATION OF RIGHTS AND RETENTION OF CLAIMS.—Nothing in this section shall be construed to prevent the Pueblo or the United States on behalf of the Pueblo, or by the United States on behalf of the Pueblo, as trustee for the Pueblo and on behalf of the Pueblo, as party, then the United States, the Pueblo, or both may be added as a party to any such action, and any claim by the United States or the Pueblo to sovereign immunity from the action is waived, but only for the limited and sole purpose of such interpretation or enforcement, and no waiver of sovereign immunity is made for any actions or any time-based equitable defense under any other applicable law.

SEC. 212. INTERPRETATION AND ENFORCEMENT.

(a) LIMITED WAIVERS OF SOVEREIGN IMMUNITY.—Upon and after the Enforcement Date, if any Party to the Settlement Agreement brings an action in any court of competent jurisdiction over the subject matter relating directly to the interpretation or enforcement of the Settlement Agreement or this title, and names the United States or the Pueblo as a party, then the United States, the Pueblo, or both may be added as a party to any such action, and any claim by the United States or the Pueblo to sovereign immunity from the action is waived, but only for the limited and sole purpose of such interpretation or enforcement, and no waiver of sovereign immunity is made for any actions or any time-based equitable defense under any other applicable law.

(b) SUBJECT MATTER JURISDICTION NOT AFFECTED.—Nothing in this title shall be deemed to confer, withdraw, or diminish, or to affect the right of any court, including the jurisdiction of the court that enters the Partial Final Decree adjudicating the Pueblo’s water rights.

(c) REGULATORY AUTHORITY NOT AFFECTED.—Nothing in this title shall be deemed to determine or limit any authority of the Federal Government, as trustee for the Pueblo, or the State of New Mexico, its agencies, or the United States, to administer or manage water resources for the Pueblo’s water rights.

(d) DISCLAIMER.—Nothing in the Settlement Agreement or this title shall be construed in any way to quantify or otherwise adversely affect the land and water rights, claims, or entitlements of any Indian tribe, nation, or other party to water rights.

Mr. BINGAMAN. Mr. President, today Senator DOMENICI and I are introducing a bill that I am pleased to say, will help contend disputes over water rights claims in two longstanding general stream adjudications in New Mexico. The bill accomplishes this by authorizing two Indian water rights settlements. The first is a settlement involving the
By Mrs. FEINSTEIN:

S. 3382. A bill for the relief of Guy Privat Tape and Lou Nazie Raymonde Toto; to the Committee on the Judiciary.

Mrs. FEINSTEIN. Mr. President, today I am introducing a private relief bill on behalf of Guy Privat Tape and his wife Lou Nazie Raymonde Toto. Mr. Tape and Ms. Toto are citizens of the Ivory Coast, but have been living in the San Francisco area of California for approximately 15 years.

The story of the Mr. Tape and Ms. Toto is compelling and I believe they merit Congress’s special consideration for such an extraordinary form of relief as a private bill.

Mr. Tape and Ms. Toto were subjected to numerous atrocities in the early 1990s in the Ivory Coast. After participating in a demonstration against the ruling party, they were jailed and tortured by their own government. Mr. Tape was brutally raped and left to die. And several years later learned that she had contracted HIV. Despite the hardships that they suffered, Mr. Tape and Ms. Toto were able to make a better life for themselves in the United States. Mr. Tape arrived in the U.S. in 1993 on a B1/B2 non-immigrant visa. Ms. Toto entered without inspection in 1995 from Spain. Despite being diagnosed with HIV, Ms. Toto gave birth to two healthy children, Melody, age 10, and Emmanuel, age 6.

This family has dedicated themselves to their community and have embraced the American dream with their strong work ethic and family values. I have received approximately 50 letters from the church community in support of this family.

Mr. President, I ask unanimous consent that the text of the bill and letters of support be printed in the RECORD.

This bill is the only hope for this family to remain in the United States. They turned to Ivory Coast, these two young children will be forced to enter the only country they have ever known. Mr. Tape believes that if the family returns to Ivory Coast, the United States is the only country they have ever known.

The Rio Pueblo de Taos adjudication is a dispute that is almost 40 years old. Similar to the Aamodt case, little has been resolved by the pending litigation. The parties have been in settlement discussions for well over a decade but it was not until the last 5 years that the discussions took on the sense of urgency needed to resolve the issues at hand. The settlement will fulfill the rights of the Pueblo consistent with the Rio Pueblo rights, responsibilities, water users, including century-old irrigation practices; and 3. ensure that water is available for municipal and domestic needs of all residents in the Pueblo basin.

The Rio Pueblo de Taos adjudication was a lengthy process and the parties had to renegotiate several issues to address local, State, and Federal policy concerns. In the end, however, their commitment to solving the water supply in the region proved viable.

The Rio Pueblo de Taos adjudication is a dispute that is almost 40 years old. Similar to the Aamodt case, little has been resolved by the pending litigation. The parties have been in settlement discussions for well over a decade but it was not until the last 5 years that the discussions took on the sense of urgency needed to resolve the issues at hand. The settlement will fulfill the rights of the Pueblo consistent with the Rio Pueblo rights, responsibilities, water users, including century-old irrigation practices; and 3. ensure that water is available for municipal and domestic needs of all residents in the Pueblo basin.

The Rio Pueblo de Taos adjudication was a lengthy process and the parties had to renegotiate several issues to address local, State, and Federal policy concerns. In the end, however, their commitment to solving the water supply in the region proved viable.

This bill is the only hope for this family to remain in the United States. They turned to Ivory Coast, these two young children will be forced to enter the only country they have ever known. Mr. Tape believes that if the family returns to Ivory Coast, the United States is the only country they have ever known.

This bill is the only hope for this family to remain in the United States. They turned to Ivory Coast, these two young children will be forced to enter the only country they have ever known. Mr. Tape believes that if the family returns to Ivory Coast, the United States is the only country they have ever known.

The Aamodt Litigation Settlement Act represents an agreement by the parties that will 1. secure water to meet the present and future needs of the four Pueblos involved in the litigation, protect the traditional water rights and rights of long-standing water users, and continue to require life-long surveillance of the cancer. While his doctor states that the cancer is currently in remission, he will continue to require medical treatment for HIV. According to her doctor, without access to adequate health care and laboratory monitoring, she is at risk of developing life-threatening illnesses.

Mr. Tape and Ms. Toto applied for asylum when they arrived in the U.S., but after many years of litigation, the claim was ultimately denied by the 9th Circuit Court of Appeals.

Although the regime which subjected Mr. Tape and Ms. Toto to imprisonment and torture is no longer in power, Mr. Tape has been afraid to return to the Ivory Coast due to his prior association with President Gbagbo. Mr. Tape had previously sought to promote democracy and peace in the region in support of the current President Gbagbo’s party. However, in 2006 Mr. Tape publicly distanced himself from President Gbagbo’s government when he accused the party of violence and corruption. As a result, Mr. Tape strongly believes that his family will be targeted if they return to Ivory Coast.

One of the most compelling reasons for permitting the family to remain in the United States is the impact their deportation would have on their two young children. Mr. Tape and Emmanuel, the United States is the only country they have ever known.

Mr. President, I ask unanimous consent that the text of the bill and letters of support be printed in the RECORD.

There being no objection, the material was ordered to be placed in the RECORD, as follows:

S. 3382

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PERMANENT RESIDENT STATUS FOR GUY PRIVAT TAPE AND LOU NAZIE RAYMONDE TOTO.

(a) In General.—Notwithstanding subsections (a) and (b) of section 201 of the Immigration and Nationality Act (8 U.S.C. 1151), Guy Privat Tape and Lou Nazie Raymonde Toto shall each be eligible for the issuance of an immigrant visa or for adjustment of status to that of an alien lawfully admitted for permanent residence upon filing an application for issuance of an immigrant visa under section 204 of such Act or for adjustment of status to lawful permanent resident.

(b) Adjustment of Status.—If Guy Privat Tape and Lou Nazie Raymonde Toto enters the United States before the filing deadline specified in subsection (c), Guy Privat Tape and Lou Nazie Raymonde Toto shall be considered to have entered and remained lawfully in the United States and shall be eligible for adjustment of status under section
The U.S. Immigration and Customs Enforcement (ICE) is deporting Guy Tape and his wife, Lou Nazie Toto, back to the Ivory Coast on August 5, 2008. The United States government is sending this family back to the people who jailed them, beat them.

I am asking you to please intervene and use your power to ask ICE to reconsider this couple’s petition for political asylum.

Thank you for your consideration in this matter.

Sincerely yours,

REV. BILLY AUSTIN, Pastor, p.s. America made a promise of political asylum to the Tape— it should keep it.

EASTER HILL UNITED METHODIST CHURCH
Richmond, CA, June 30, 2008

Hon. DIANNE FEINSTEIN,
U.S. Senator,
San Francisco, CA.

DEAR SENATOR FEINSTEIN: The members of Easter Hill United Methodist Church are asking your assistance to prevent the deportation of the Tape family on August 5, 2008.

The Tape family is a family of natives of the country of birth of Guy Privat Tape and Lou Nazie Raymonde Toto under section 202(a) of the Immigration and Nationality Act or, if applicable, the total number of immigrant visas that are made available to natives of the country of birth of Guy Privat Tape and Lou Nazie Raymonde Toto under section 202(e) of such Act.

The Tape family received the terrifying notice from the Immigration and Customs Enforcement (ICE) that on August 6 they should report to be deported. It is outrageous that our government is about to send this family into a dangerous situation. And the impact upon the two children will be devastating.

Please intervene and use your power to ask ICE to reconsider their petition for political asylum. Thank you for your attention to this matter.

Sincerely,

GERALD LENIOR,
Director.

By Mr. CARDIN (for himself, Mrs. CLINTON, Ms. MIKULSKI, and Mr. SCHUMER). S. 3383. A bill to establish the Harriet Tubman National Historical Park in Auburn, New York, and the Harriet Tubman Underground Railroad National Historical Park in Dorchester, and Talbot Counties, Maryland, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. CARDIN. Mr. President, today I am privileged to join with these children. The Tape family arrived in the United States in 1993 and his wife, Lou Nazie Toto, arrived in 1995 as political refugees from the Ivory Coast. In 1995 they applied for political asylum. They became members of Easter Hill United Methodist Church in Richmond, California shortly after they arrived in the United States and have been faithful and loyal members since that time. They are the proud parents of two children who are United States Citizens. Their daughter sings in the children’s choir and is a member of the children’s usher board.

Guy Tape is self employed and Lou Nazie Toto is employed at CNA (Nursing Assistant). They own their own home and are productive taxpayers.
Tubman’s life remain intact. Her personal home, as well as the Tubman Home for the Aged, the church and rectory of the Thompson Memorial AME Zion Episcopal Church, and the Fort Hill Cemetery are all extant.

In 1996, Congress approved legislation authorizing a Special Resource Study to determine the appropriateness of establishing a unit of the National Park Service to honor Harriet Tubman. The Study has taken an exceptionally long time to complete due in part because of the lack of remaining structures on Maryland’s Eastern Shore. There has never been any doubt that Tubman led an extraordinary life. Her contributions to American history are surpassed by few. Determining the most appropriate way to recognize that life and her contributions, however, has been more difficult. Eventually, the Park Service came to realize that determined that a Park that would include historically significant Tubman units would be appropriate. The New York unit would include the tightly clustered Tubman buildings in Auburn. The Maryland portion would include large sections of landscapes that are evocative of Tubman’s time and are historically relevant. The Special Resource Study will be finalized and released later this year.

The Harriet Tubman National Historical Park Act

The legislation I am introducing today establishes two parks. The Harriet Tubman Underground Railroad National Historical Park includes important historical structures in Auburn, New York. They include Tubman’s home, the Home for the Aged that she established, the African Methodist Episcopal AME Zion Church, and the Fort Hill Cemetery where she is buried.

The Harriet Tubman Underground Railroad National Historical Park includes historically important landscapes in Dorchester, Caroline and Talbot Counties, Maryland, that are evocative of the life of Harriet Tubman. The Maryland properties include about 2,200 acres in Caroline County that comprise the Poplar Neck plantation that Tubman escaped from in 1849. The 725 acres of views from the Choptank River in Talbot County would also be included in the Park. In Dorchester County, the parcels would not be contiguous, but would include about 2,775 acres. All of them are included within the Blackwater National Wildlife Refuge boundaries or abut that resource land. The National Park Service would not own any of these lands.

The bill authorizes $7.5 million in grants for the construction of the State Harriet Tubman Park Visitors Center and/or for easements or acquisition of properties inside or adjacent to the Historical Park boundaries.

Finally, the bill also authorizes a new grants program. Under the program, the National Park Service would award competitive grants to historically Black colleges and universities, predominately Black institutions, and minority serving institutions for research on Harriet Tubman and the African-American experience during the years that coincide with the life of Harriet Tubman. The legislation authorizes $200,000 annually for this scholarship program.

Harriet Tubman was a true American patriot. She was someone for whom liberty and freedom were not just concepts. She lived those principles and shared that freedom with hundreds of others. In doing so, she has earned a nation’s respect and honor. That is why I am so proud to introduce this legislation, establishing the Harriet Tubman National Historical Park and the Harriet Tubman Underground Railroad National Historical Park.

Mr. President, I am unanimous in the belief that the text of the bill should be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Harriet Tubman National Historical Park and Harriet Tubman Underground Railroad National Historical Park Act.”

SEC. 2. FINDINGS; PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) Harriet Tubman (born Araminta “Minty” Ross) (A) was born into slavery in Maryland around 1822; and

(B) married John Tubman at age 25; and

(C) endured through her youth and adulthood the hardships of enslaved African Americans; and

(B) accomplished the rescue of hundreds of enslaved people; and

(c) it is fitting and proper that the nation honor and celebrate the life and contributions of Harriet Tubman;

(d) to provide for partnerships with the African Methodist Episcopal Zion Church, the Washington, D.C., Library of Congress, and other nonprofit organizations, and private property owners for the development and interpretation of the Harriet Tubman National Historical Park.

(b) PURPOSES.—The purposes of this Act are to—

(1) to preserve and promote stewardship of the resources in Auburn, New York, and Caroline, Dorchester, and Talbot Counties, Maryland, relating to the life and contributions of Harriet Tubman;

(2) to provide for partnerships with the African Methodist Episcopal Zion Church, the Washington, D.C., Library of Congress, and other nonprofit organizations, and private property owners for the development and interpretation of the Harriet Tubman National Historical Park;

(3) to sustain agricultural and forestry land uses in Caroline, Dorchester, and Talbot Counties, Maryland, that remain evocative of the landscape during the life of Harriet Tubman; and

(4) to establish a competitive grants program for scholars of African-American history relating to Harriet Tubman and the Underground Railroad.

SEC. 3. DEFINITIONS.

In this Act:

(a) CHURCH.—The term “Church” means the Thompson Memorial AME Zion Church located in Auburn, New York.

(b) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term “historically Black college or university” has the meaning given the term “part B institution” in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

(3) PREDOMINANTLY BLACK INSTITUTION.—The term “Predominantly Black Institution” has the meaning given the term in section 499A(c) of the Higher Education Act of 1965 (20 U.S.C. 1098a(c)).

(4) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(5) VISITOR CENTER.—The term “Visitor Center” means the Harriet Tubman Underground Railroad State Park Visitor Center to be constructed under section 5(d).

SEC. 4. ESTABLISHMENT OF HARRIET TUBMAN NATIONAL HISTORICAL PARK.

(a) ESTABLISHMENT.—On the execution of easements with the Church, the Secretary shall—

(1) establish the Harriet Tubman National Historical Park (referred to in this section as

for aged African Americans in the United States, which, 10 years before her death, she bequeathed to the African Methodist Episcopal Zion Church;

(7) there are nationally significant resources comprised of relatively unchanged landscapes associated with the early life of Harriet Tubman in Caroline, Dorchester, and Talbot Counties, Maryland; and

(8) there are nationally significant resources relating to Harriet Tubman in Auburn, New York, including—

(A) the residence of Harriet Tubman; and

(B) the Tubman Home for the Aged; and

(C) the Thompson Memorial AME Zion Church; and

(D) the final resting place of Harriet Tubman in Fort Hill Cemetery; and

(9) in developing interpretive programs, the National Park Service would benefit from increased scholarship of the African-American experience during the decades preceding the Civil War and throughout the remainder of the 19th century; and

(10) it is fitting and proper that the nation honor and celebrate the life and contributions of Harriet Tubman.

The Harriet Tubman Underground Railroad National Historical Park includes historically important landscapes in Dorchester, Caroline and Talbot Counties, Maryland, that remain evocative of the landscape during the life of Harriet Tubman; and

4. to establish a competitive grants program for scholars of African-American history relating to Harriet Tubman and the Underground Railroad.
the "Historical Park") in the City of Auburn, New York, as a unit of the National Park System; and
(2) publish notice of the establishment of the Harriet Tubman Underground Railroad in the Federal Register.

(b) BOUNDARY.—
(1) IN GENERAL.—The Historical Park shall be comprised of structures and properties associated with Harriet Tubman, the Tubman Home for the Aged, the Church, and the Rectory, as generally depicted on the map entitled "Harriet Tubman National Historical Park—Proposed Boundary", numbered (1) and (2), and dated (1) and (2).

(2) AVAILABILITY OF MAP.—The map described in paragraph (1) shall be available for public inspection in the appropriate offices of the National Park Service.

(c) ACQUISITION OF LAND.—The Secretary may acquire from willing sellers, by donation, purchase with donated or appropriated funds, or exchange, land or interests in land within the boundary of the Historical Park.

(d) FINANCIAL ASSISTANCE.—The Secretary may provide grants to, and enter into cooperative agreements with—
(1) the Church for—
(A) preservation of, rehabilitation of, research on, and maintenance of properties within the boundary of the Historical Park; and
(B) interpretation of the Historical Park;
(2) the Fort Hill Cemetery Association for maintenance and interpretation of the gravesite of Harriet Tubman; and
(3) any political subdivision of the State of New York, any political subdivisions of the State, the City of Auburn, and nonprofit organizations for—
(A) preservation and interpretation of resources relating to Harriet Tubman in the City of Auburn, New York;
(B) conducting research, including archaeological research; and
(C) providing for, stewardship programs, education, public access, signage, and other interpretive devices at the Historical Park for interpretive purposes.

(e) INTERPRETATION.—The Secretary may provide interpretive tours to sites located outside the boundaries of the Historical Park in Auburn, New York, that include resources relating to Harriet Tubman.

(f) GENERAL MANAGEMENT PLAN.—
(1) IN GENERAL.—Not later than 3 years after the date on which funds are made available to carry out this subsection, the Secretary, in cooperation with the Church, shall complete a general management plan for the Historical Park in accordance with section 12(b) of Public Law 91-383 (16 U.S.C. 1a-7(b)).

(2) COORDINATION.—The Secretary shall coordinate the preparation and implementation of the general management plan for the Harriet Tubman National Historical Park with—
(A) the Harriet Tubman Underground Railroad National Historical Park in Maryland; and
(B) the National Underground Railroad: Network to Freedom.

SEC. 5. ESTABLISHMENT OF THE HARRIET TUBMAN UNDERGROUND RAILROAD NATIONAL HISTORICAL PARK.

(a) ESTABLISHMENT.—There is established as a unit of the National Park System the Harriet Tubman Underground Railroad National Historical Park (referred to in this section as the "Historical Park") in Caroline, Dorchester, and Talbot Counties, Maryland.

(b) BOUNDARY.—
(1) IN GENERAL.—The boundary of the Historical Park shall consist of certain landscapes and associated resources relating to the early life and enslavement of Harriet Tubman and the underground railroad, as generally depicted on the map entitled "Harriet Tubman Underground Railroad National Historical Park—Proposed Boundary", numbered (1) and (2), and dated (1) and (2).

(2) ADDITIONAL SITES.—The Secretary, after consultation with landowners, the State of Maryland, and local government, may modify the boundary of the Historical Park to include additional resources relating to Harriet Tubman that—
(A) are located within the vicinity of the Historical Park; and
(B) are identified in the general management plan prepared under subsection (g) as appropriate for interpreting the life of Harriet Tubman.

(3) AVAILABILITY OF MAP.—On modification of the boundary of the Historical Park under subsection (2)(B), the Secretary shall make the revised map of the Historical Park available for public inspection in the appropriate offices of the National Park Service.

(c) ACQUISITION OF LAND.—The Secretary may acquire from willing sellers, by donation, purchase with donated or appropriated funds, or exchange, land or an interest in land within the boundaries of the Historical Park.

(d) GRANTS.—In accordance with section 701(d), the following grants may be provided:—
(1) to the State of Maryland, political subdivisions of the State, and nonprofit organizations for the acquisition of less than fee simple title to land in Caroline, Dorchester, and Talbot Counties, Maryland, within the boundary of the Historical Park;
(2) on execution of a memorandum of understanding between the State of Maryland and the Director of the National Park Service, to the State of Maryland for the construction of the Harriet Tubman Underground Railroad State Park Visitor Center on land owned by the State of Maryland in Dorchester County, Maryland, subject to the conditions provided in the memorandum of understanding; and
(3) the State of New York, any political subdivision of the State, the City of Auburn, and nonprofit organizations for—
(A) the design and construction of the Harriet Tubman Underground Railroad State Park Visitor Center; and
(B) the operation and maintenance of the Visitor Center.

(e) FINANCIAL ASSISTANCE.—The Secretary may provide grants to, and enter into cooperative agreements with, the State of Maryland, political subdivisions of the State, nonprofit organizations, colleges and universities, and other public and private entities, to—
(1) the restoration or rehabilitation, public use, and interpretation of sites and resources relating to Harriet Tubman;
(2) the conduct of research, including archaeological research;
(3) providing stewardship programs, education, signage, and other interpretive devices at the sites and resources for interpretive purposes; and
(4) (A) the design and construction of the Visitor Center; and
(B) the operation and maintenance of the Visitor Center.

(f) INTERPRETATION.—The Secretary may provide interpretive tours to sites and resources relating to Harriet Tubman, in Caroline, Dorchester, and Talbot Counties, Maryland, that include resources relating to Harriet Tubman.

(g) GENERAL MANAGEMENT PLAN.—
(1) IN GENERAL.—Not later than 3 years after the date on which funds are made available to carry out this subsection, the Secretary, in coordination with the State of Maryland, political subdivisions of the State, and nonprofit organizations, shall develop a general management plan for the Historical Park in accordance with section 12(b) of Public Law 91-383 (16 U.S.C. 1a-7(b)).

(2) COORDINATION.—The Secretary shall coordinate the preparation and implementation of the general management plan for the Historical Park with—
(A) the Harriet Tubman National Historical Park in Auburn, New York; and
(B) the Maryland Harriet Tubman Underground Railroad State Park; and
(C) the Blackwater National Wildlife Refuge.

(h) BLACKWATER NATIONAL WILDLIFE REFUGE.—
(1) INTERAGENCY AGREEMENT.—The Secretary shall ensure that, not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of the Navy, acting through the United States Fish and Wildlife Service enter into an interagency agreement that—
(A) promotes and mutually supports the compatible stewardship and interpretation of Harriet Tubman resources at the Blackwater National Wildlife Refuge; and
(B) provides for the maximum level of cooperation between those agencies to further the purposes of this Act.

(2) EFFECT OF ACT.—Nothing in this Act modifies, alters, or amends the authorities of the United States Fish and Wildlife Service in the administration and management of the Blackwater National Wildlife Refuge.

SEC. 6. ADMINISTRATION.

(a) IN GENERAL.—The Secretary shall administer the Harriet Tubman National Historical Park and the Harriet Tubman Underground Railroad National Historical Park in accordance with this Act and the laws generally applicable to units of the National Park System including—
(1) the National Park Service Organic Act (16 U.S.C. 1 et seq.); and
(2) the Act of August 21, 1935 (16 U.S.C. 461 et seq.).

(b) PARK REGULATIONS.—Notwithstanding subsection (a), regulations and policies applicable to units of the National Park System shall apply only to Federal land administered by the National Park Service.

SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated such sums as are necessary to carry out this Act (other than subsection (b)), including the provision of National Park Service personnel and National Park Service management funds for the Harriet Tubman National Historical Park and the Harriet Tubman Underground Railroad National Historical Park.

(b) GRANTS.—There are authorized to be appropriated—
(1) $7,500,000 to provide grants to the Church for—
(A) historic preservation, rehabilitation, and interpretation of the Visitor Center; and
(B) the operation and maintenance of the Visitor Center; and
(2) $11,000,000 for grants to the State of Maryland for activities authorized under subsections (d)(1) and (e)(4)(A) of section 5; and
By Mr. CARPER (for himself, Ms. COLLINS, Mr. LIEBERMAN, Mr. COLEMAN, and Mrs. MCCASKILL):

S. 3384. A bill to amend section 11317 of title 40, United States Code, to require greater accountability for cost overruns on Federal IT investment projects, to the Committee on Homeland Security and Governmental Affairs.

Mr. CARPER. Mr. President, I rise today with my colleagues on the Homeland Security and Governmental Affairs Committee to introduce the Information Technology Investment Oversight Enhancement and Waste Prevention Act of 2008.

With a long name like that, you would hope that it is addressing a very serious problem. Well I assure you, that it is.

Every year agencies spend billions of dollars on IT investments that—if planned and implemented properly—can increase productivity, reduce costs, and improve efficiency. As everyone knows, information technology has become a cornerstone of the way we conduct business. Just look at the rise in popularity of Blackberries, not only outside these walls, but right here in the Senate.

In fiscal year 2009, agencies are planning to spend almost $71 billion to improve their financial systems for better reporting, streamline their grant processes, and reduce wasteful paper applications. And this is a good thing.

However, the Accountability Office has reported for several years that many of these investments are poorly planned, poorly performed—or in some cases—both. Yet, agencies continue to fund these risky investments without any oversight or accountability. In fact, I was pleased to hear GAO report that $25.2 billion is at danger of being wasted because agencies failed to properly plan or manage their investments.

Mr. President, $25.2 billion may not be a large sum of money when you compare it to what we spend every year, but I assure you that it is a very real sum of money to those families who can’t pay for the gas they need to get to work, or who are struggling to put food on their table.

To illustrate my point further, this chamber had to include emergency funding in the last supplemental appropriations bill to help the Census Bureau’s 2010 operations. They had been planning for more than a decade to use advanced handheld computers to verify addresses and follow up with households who don’t send their census forms in on time. My colleagues and I on the Homeland Security and Governmental Affairs Committee heard, however, that Census Bureau officials failed to define what they need out of the handheld project, and as a result, the contractor was having trouble delivering a product that could work. We held two hearings to try and get to the bottom of the problem and find a solution but, at the end of the day, the Census Bureau had to scrap the handheld project and go with the same expensive and inefficient “old and paper” counting method that they have used for centuries. The cost of this failure on the part of the Census Bureau is expected to total in the billions.

This extra money that the Census Bureau will need to spend between now and 2010 could have been used to improve the quality of the final count by outreaching to historically-undercounted groups. In fact, it could have been used for any number of worthwhile purposes.

My colleagues and I on the Homeland Security and Governmental Affairs Committee’s Subcommittee on Federal Financial Management, which I chair, have held three hearings on the issue of troubled IT projects now, including one this morning. And what we’ve learned is that some agencies can’t keep the expected cost of their investments down or deliver on time as promised. Nor do these agencies, in many cases, have quality assurance expertise they can turn to before a project spirals out of control. The bill Senators LIEBERMAN, COLLINS and I have put forward today addresses these issues.

Our bill starts by requiring agencies to inform Congress when an investment begins to see increased costs, schedule delays, or performance deficiencies outside of 20 percent of the original plan.

Our bill would also require agencies to inform Congress if an investment exceeds 40 percent of their original plan, and require the agency head to conduct an analysis that determines whether we should continue to fund this investment or just pull the plug.

Many agencies today simply rewrite their plans when they run into trouble. They don’t tell Congress that anything is wrong and the troubled projects just keep getting funded year in and year out.

Finally and perhaps most importantly, our bill recognizes that, many times, agencies lack the experience necessary to manage complex IT investments. To remedy this, we propose that OMB create what my staff and I have come to call an “IT Strike Team.” This team would be comprised of known individuals inside and outside government who have records of successfully managing complex projects. If an agency or OMB recognizes that an investment is beginning to experience problems, the team would come in make sure the project is brought online or scrapped before more money is wasted.

I look forward to working with my colleagues to get these important and necessary reforms enacted. I think I speak for all of us when I say that investing in IT systems is important. But these investments shouldn’t come with wasted time and money that they all too often bring. In tight fiscal times like these, we need to make sure the money we do invest is spent wisely.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3384

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Information Technology Investment Oversight Enhancement and Waste Prevention Act of 2008”.

SEC. 2. IT INVESTMENT PROJECTS.

(a) SIGNIFICANT AND GROSS DEVIATIONS.

(1) AGENCY HEAD.—The term ‘Agency Head’ means the head of the Federal agency that is primarily responsible for the IT investment project under review.

(2) ANSI EIA-78 Standard.—The term ‘ANSI EIA-78 Standard’ means the measurement tool jointly developed by the American National Standards Institute and the Electronic Industries Alliance to analyze earned value management systems.

(3) FORM OF NON-FEDERAL SHARE.—The non-Federal share required under this subsection may be in the form of in-kind contributions of goods or services fairly valued.

(4) GROSS DEVIATION.—The term ‘Gross Deviation’ means a deviation from the expected cost of their investments that—if exceeded 40 percent of their original plan, and require the agency head to conduct an analysis that determines whether we should continue to fund this investment or just pull the plug.

(5) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ‘appropriate congressional committees’ means—

(A) the Committee on Homeland Security and Governmental Affairs of the Senate;

(B) the Committee on Oversight and Government Reform of the House of Representatives;

(C) the Committee on Appropriations of the House of Representatives;

(D) the Committee on Appropriations of the Senate;

(E) any other relevant congressional committee with jurisdiction over an agency required to take action under this section.

(6) CHIEF INFORMATION OFFICER.—The term ‘Chief Information Officer’ means the Chief Information Officer designated under section 3506(a)(2) of title 44, United States Code, for the agency for the IT investment project under review.

(7) CORE IT INVESTMENT PROJECT.—The terms ‘core IT investment project’ and ‘core investment project’ mean a mission-critical IT investment project under review.

(f) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ‘appropriate congressional committees’ means—

(A) the Committee on Homeland Security and Governmental Affairs of the Senate;

(B) the Committee on Oversight and Government Reform of the House of Representatives;

(C) the Committee on Appropriations of the Senate;

(D) the Committee on Appropriations of the House of Representatives;

(E) any other relevant congressional committee with jurisdiction over an agency required to take action under this section.

(6) CHIEF DIRECTOR.—The term ‘Chief Director’ means the Director of the Office of Management and Budget.
‘(7) Grossly Deviated.—The term ‘grossly deviated’ means cost, schedule, or performance variance that is at least 40 percent from the Original Baseline.

‘(8) Original Cost Estimate.—The term ‘original cost estimate’ means a pragmatic and neutral analysis, assessment, and quantification of all costs and risks associated with the acquisition of an IT investment project, which—

‘(A) is based on programmatic and technical specifications provided by the office within with primary responsibility for the development, procurement, and delivery of the project;

‘(B) is formulated and provided by an entity other than within the agency with primary responsibility for the development, procurement, and delivery of the project;

‘(C) contains sufficient detail to inform the selection of a baseline benchmark measure under the ANSI EIA–748 standard; and

‘(D) accounts for the full life cycle cost plus associated operations and maintenance expenses over the usable life of the project’s deliverables.

‘(9) IT Investment Project.—The term ‘IT investment project’ and ‘project’ mean an information technology system or acquisition that—

‘(A) requires special management attention because of its importance to the mission or function of the agency, a component of the agency, or another organization;

‘(B) is for financial management and obligates more than $500,000 annually;

‘(C) has significant program or policy implications;

‘(D) has high executive visibility;

‘(E) has high development, modernization, or enhancement costs;

‘(F) is funded through other than direct appropriations; or

‘(G) is defined as major by the agency’s capital planning and investment control process.

‘(10) Life Cycle Cost.—The term ‘life cycle cost’ means the total cost of an IT investment project for planning, research and development, modernization, and enhancement.

‘(11) Original Baseline.—

‘(A) In General.—Except as provided under subparagraph (B), the term ‘Original Baseline’ means the ANSI EIA–748 Standard- compliant cost, schedule, and performance benchmark established at the commencement of an IT investment project contract.

‘(B) Grossly Deviated Project.—If an IT investment project has significantly or grossly deviated from its Original Baseline (as defined in subparagraph (A)), the term ‘Original Baseline’ means the ANSI EIA–748 Standard-compliant cost, schedule, and performance benchmark established under subsection (e)(3)(C).

‘(12) Significantly Deviated.—The term ‘significantly deviated’ means cost, schedule, or performance variance that is at least 20 percent from the Original Baseline.

‘(b) Core IT Investment Projects.—

‘(1) Designation.—Except as provided under paragraph (2), each Agency Head and the Director shall jointly designate not fewer than 5 of the agency’s most mission critical IT investment projects as ‘core IT investment projects’ or ‘core projects’, after considering, among other factors—

‘(A) whether the project represents a high-dollar value relative to the average IT investment project in the agency’s portfolio;

‘(B) whether the project delivers a capability critical to the successful completion of the agency mission, or a portion of such mission;

‘(C) whether the project incorporates unproven or previously undeveloped technology to meet primary project technical requirements;

‘(2) Exception.—If the Agency Head and the Director jointly determine that fewer than 5 IT investment projects meet the criteria described in paragraph (1), the Director—

‘(A) may provide the agency with written authorization to designate fewer than 5 projects; and

‘(B) shall submit a report to the appropriate congressional committees that contains notice and justification for, any such authorization.

‘(c) Cost, Schedule, and Performance Reports.—

‘(1) Quarterly Reports.—Not later than 7 days after the end of each fiscal quarter, the project manager for an IT investment project shall submit a quarterly report to the Chief Information Officer that includes, as of the last day of the applicable quarter—

‘(A) a description of the cost, schedule, and performance of all projects under the project manager’s supervision;

‘(B) the original and current project cost, schedule, and performance benchmarks for each project under the project manager’s supervision;

‘(C) the cost, schedule, or performance variance relative to an IT investment project under the project manager’s supervision since the commencement of the contract;

‘(D) for each project under the project manager’s supervision, any known, expected, or anticipated changes to project schedule milestones or project performance benchmarks included as part of the original or current baseline description; and

‘(E) the current cost, schedule, and performance status of all projects under supervision that were previously identified as significantly or grossly deviated.

‘(2) Interim Reports.—If the project manager for an IT investment project determines that there is reasonable cause to believe that an IT investment project has significantly or grossly deviated since the issuance of the latest quarterly report, the project manager shall submit to the Chief Information Officer, not later than 7 days after such determination, a report on the project that includes, as of the date of the report—

‘(A) a description of the original and current program cost, schedule, and performance benchmarks;

‘(B) the cost, schedule, or performance variance relative to the IT investment project since the commencement of the contract;

‘(C) any known, expected, or anticipated changes to the project schedule milestones or project performance benchmarks included as part of the original or current baseline description; and

‘(D) the major reasons underlying the significant or gross deviation of the project.

‘(d) Determination of Significant Deviation.—

‘(1) Chief Information Officer.—Upon receiving a report under subsection (c), the Chief Information Officer shall—

‘(A) determine if an IT investment project has significantly or grossly deviated; and

‘(B) report any such determination to the Agency Head.

‘(2) Congressional Notification.—If the Chief Information Officer determines under paragraph (1) that an IT investment project has grossly deviated and the Agency Head has not issued a report to the appropriate congressional committees of a gross deviation for that project under this section since the project was last required to be re-baselined under this section, the Agency Head shall submit a report to the appropriate congressional committees and to the Government Accountability Office that includes—

‘(A) written notification of such determination;

‘(B) the date on which such determination was made;

‘(C) the amount of the cost increases and the extent of the schedule delays with respect to such project;

‘(D) any requirements that—

‘(i) were added subsequent to the original contract; or

‘(ii) were originally contracted for, but were changed by deferment or deletion from the original schedule, or were otherwise no longer included in the requirements contracted for;

‘(E) an explanation of the differences between—

‘(i) the original estimate at completion of the project manager, any contractor, and any independent analysis; and

‘(ii) the original budget at completion;

‘(F) the rough order of magnitude of the costs of any reasonable alternative system, or reasonable alternative approach to establishing an equivalent outcome or capability;

‘(G) a statement of the reasons for the underlying the project’s significant deviation;

‘(H) the identities of the project managers responsible for program management and control of the project; and

‘(I) a summary of the plan of action to remedy the significant deviation.

‘(3) Deadline.—

‘(A) Notification Based on Quarterly Report.—If the determination of significant deviation is based on a report submitted under subsection (b)(1), the Chief Information Officer shall notify Congress in accordance with paragraph (2) not later than 14 days after the end of the quarter upon which such report is based.

‘(B) Notification Based on Interim Report.—If the determination of significant deviation is based on a report submitted under subsection (b)(2), the Secretary shall notify Congress in accordance with paragraph (2) not later than 14 days after the submission of such report.

‘(c) Determination of Gross Deviation.—

‘(1) Chief Information Officer.—Upon receiving a report under subsection (c), the Chief Information Officer shall—

‘(A) determine if an IT investment project has grossly deviated; and

‘(B) report any such determination to the Agency Head.

‘(2) Congressional Notification.—If the Chief Information Officer determines under paragraph (1) that an IT investment project has grossly deviated and the Agency Head has not issued a report to the appropriate congressional committees of a gross deviation for that project under this section since the project was last required to be re-baselined under this section, the Agency Head shall submit a report to the appropriate congressional committees and to the Government Accountability Office that includes—

‘(A) written notification of such determination, which states—

‘(i) the date on which such determination was made;

‘(ii) an indication of whether or not the project has been previously reported as a significant or gross deviation by the Chief Information Officer, and the date of any such report;

‘(B) incorporations by reference of all prior reports to Congress on the project required under this section since the project was last re-baselined; and

‘(C) updated accounts of the items described in subparagraphs (A) and (B) through (H) of subsection (d)(2).
(E) a graphical depiction of actual cost variance since the commencement of the contract;
(F) the amount, if any, of incentive award fees any contractor has received since the commencement of the contract and the reasons for receiving such award fees;
(G) the project manager’s estimated cost at completion and estimated completion date for the project if current requirements are not modified;
(H) the project manager’s estimated cost at completion and estimated completion date for the project based on reasonable modification of such requirements;
(I) the position of the most significant occurrence contributing to the variance identified, including cost, schedule, and performance variances, and the effect such occurrence will have on future project costs and program schedule;
(J) a statement regarding previous or anticipated re-baselining or re-planning of the project and the names of the individuals responsible for approval;
(K) the original life cycle cost of the investment and the expected life cycle cost of the investment projects; and
(L) a comprehensive plan of action to remedy the gross deviation, and milestones established for correcting future cost, schedule, and performance deviations in the future.

(3) REMEDIAL ACTION.—If the Chief Information Officer determines under paragraph (1) that an IT investment project has been grossly deviated, the Agency Head, in consultation with the Chief Information Officer, shall ensure that—
(A) a report is submitted to the appropriate congressional committees that—
(i) describes the primary business case and key functional requirements for the project;
(ii) describes any portions of the project that have technical requirements of sufficient clarity that such portions may be feasibly procured under firm, fixed-price contract;
(iii) includes a certification by the Agency Head, after consultation with the Chief Information Officer, that all technical requirements have been reviewed and validated to ensure alignment with the reported business case;
(iv) describes any changes to the primary business case or key functional requirements which have occurred since project inception; and
(v) includes an independent cost estimate for the project conducted by an entity approved by the Chief Information Officer;
(B) an analysis is submitted to the appropriate congressional committees that—
(i) describes agency business goals that the project was originally designed to address;
(ii) includes a gap analysis of what project deliverables remain in order for the agency to achieve the expressed business goals referred to in clause (i);
(iii) identifies the 3 most cost-effective alternative approaches to the project which would achieve the business goals referred to in clause (i); and
(iv) includes a cost-benefit analysis, which compares—
(I) the completion of the project with the completion of each alternative approach, after factoring in future costs associated with the termination of the project; and
(II) the completion of the project without pursuit of alternatives, after factoring in foregone benefits and
(C) a new baseline of the project is established, with the independent cost estimate required under subparagraph (A)(v); and

(D) the project is designated as a core IT investment project and subject to the requirements under subsection (f).

(4) DEADLINE AND FUNDING CONTINGENCY.—

(1) IN GENERAL.—If the determination of gross deviation is based on a report submitted under subsection (c)(1), the Agency Head shall—

(i) not later than 45 days after the end of the quarter upon which such report is based, notify the appropriate congressional committees in accordance with paragraph (2); and
(ii) not later than 180 days after the end of the quarter upon which such report is based, ensure the completion of remedial action under paragraph (3).

(2) FAILURE TO MEET DEADLINES.—If the Agency Head fails to meet the deadlines described in clause (i)(I), additional funds may not be obligated to support expenditures associated with the project until the requirements of this subsection have been fulfilled.

(3) ADDITIONAL REQUIREMENTS FOR CORE IT INVESTMENT PROJECT REPORTS.—

(I) INITIAL REPORT.—If a report described in subsection (e)(3)(A) has not been submitted for a core IT investment project, the Agency Head, in coordination with the Chief Information Officer and responsible program managers, shall prepare an initial report for Congress under section 1105(a) of title 31, United States Code, after the designation of a project as a core IT investment project, which includes—

(A) a description of the primary business case and key functional requirements for the project;
(B) an identification and description of any portions of the project that have technical requirements of sufficient clarity that such portions may be feasibly procured under firm, fixed-price contract;
(C) an independent cost estimate for the project;
(D) certification by the Chief Information Officer and responsible program managers that—
(i) the reported business case and core functionality requirements reported in the initial report have been reviewed and validated to ensure alignment with the reported business case and
(ii) any changes to the primary business case or key functional requirements which have occurred since project inception;
(E) a description of the primary business case and core functionality requirements reported in the initial report;
(F) the amount, if any, of incentive award fees any contractor has received since the commencement of the project;
(G) the project manager’s estimated cost at completion and estimated completion date for the project if current requirements are not modified;
(H) the project manager’s estimated cost at completion and estimated completion date for the project based on reasonable modification of such requirements;
(I) the position of the most significant occurrence contributing to the variance identified, including cost, schedule, and performance variances, and the effect such occurrence will have on future project costs and program schedule;
(J) a statement regarding previous or anticipated re-baselining or re-planning of the project and the names of the individuals responsible for approval;
(K) the original life cycle cost of the investment and the expected life cycle cost of the investment projects; and
(L) a comprehensive plan of action to remedy the gross deviation, and milestones established for correcting future cost, schedule, and performance deviations in the future.

(II) not later than 45 days after the end of the quarter upon which such report is based, ensure the completion of remedial action under paragraph (3).

(3) FAILURE TO MEET DEADLINES.—If the Agency Head fails to meet the deadlines described in clause (i)(II), additional funds may not be obligated to support expenditures associated with the project until the requirements of this subsection have been fulfilled.

(B) NOTIFICATION AND REMEDIAL ACTION BASED ON INTERIM REPORT.—

(I) In cases where the determination of gross deviation is based on a report submitted under subsection (c)(2), the Secretary shall—

(A) monitor the primary business case and core functionality requirements reported in the initial report, and any changes to the primary business case or key functional requirements which have occurred since project inception;
(B) identify any portions of the project that have technical requirements of sufficient clarity that such portions may be feasibly procured under firm, fixed-price contracts;
(C) certify by the Chief Information Officer that—
(i) the required key functional requirements and core technical requirements, that without such change the project would have grossly deviated;
(ii) the Chief Information Officer shall notify the Agency Head of the significant deviation; and
(iii) the Agency Head shall fulfill the requirements under subsection (d)(2) in accordance with the deadlines under subsection (d)(3).

(4) ALTERNATIVE GROSS DEVIATION DETERMINATION.—If the Chief Information Officer determines, subsequent to a change in the primary business case or key functional requirements, that without such change the project would have grossly deviated—

(A) the Chief Information Officer shall notify the Agency Head of the gross deviation; and
(B) the Agency Head shall fulfill the requirements under subsection (d)(2) in accordance with the deadlines under subsection (d)(3).

(5) ALTERNATIVE SIGNIFICANT DEVIATION DETERMINATION.—If the Chief Information Officer determines, subsequent to a change in the primary business case or key functional requirements, that without such change the project would have significantly deviated—

(a) the Chief Information Officer shall notify the Agency Head of the significant deviation; and
(b) the Agency Head shall fulfill the requirements under subsection (d)(2) in accordance with the deadlines under subsection (d)(3).

(6) ALTERNATIVE GROSS DEVIATION DETERMINATION.—If the Chief Information Officer determines, subsequent to a change in the primary business case or key functional requirements, that without such change the project would have grossly deviated—

(A) the Chief Information Officer shall notify the Agency Head of the gross deviation; and
(B) the Agency Head shall fulfill the requirements under subsection (e)(2) and (e)(3) in accordance with the deadlines under subsection (e)(4).

(7) INCLUSION IN THE BUDGET SUBMITTED TO CONGRESS.—Section 1105(a) of title 31, United States Code, is amended—

(1) in the matter preceding paragraph (1), by striking— ‘‘include in each budget the following:’’; and
(2) by redesigning the second paragraph (3) as redesignated by section 889(a) of Public Law 107–296 as paragraph (35).

(8) INCLUSION IN THE BUDGET SUBMITTED TO CONGRESS.—

(a) ESTABLISHMENT OF PROGRAMS.—No later than 120 days after the enactment of this section, each Agency Head (as defined in section 11317(a) of title 49, United States Code) shall establish a program to improve the information technology management (referred to in this section as ‘‘IT’’) processes of the agency overseen by the Agency Head.

(b) PROGRAM REQUIREMENTS.—Each program established pursuant to this section shall include—

(1) a documented process for information technology acquisition planning, requirements development, project management and oversight, earned-value management, and risk management;
(2) the development of appropriate metrics for performance measurement of—

(A) processes and development status; and
(B) continuous process improvement;
(3) a process to ensure that key program personnel have an appropriate level of experience or training in the planning, acquisition, execution, management, and oversight of information technology; and
(4) a process to ensure that the applicable department and subcomponents and adhere to established processes and requirements relating to the planning, acquisition, management, and oversight of information technology programs and developments.

SEC. 11319. ACQUISITION AND DEVELOPMENT.

(a) ESTABLISHMENT OF PROGRAMS.—No later than 120 days after the enactment of this section, each Agency Head (as defined in section 11317(a) of title 49, United States Code) shall establish a program to improve the information technology (referred to in this section as ‘‘IT’’) processes of the agency overseen by the Agency Head.

(b) PROGRAM REQUIREMENTS.—Each program established pursuant to this section shall include—

(1) a documented process for information technology acquisition planning, requirements development, project management and oversight, earned-value management, and risk management;
(2) the development of appropriate metrics for performance measurement of—

(A) processes and development status; and
(B) continuous process improvement;
(3) a process to ensure that key program personnel have an appropriate level of experience or training in the planning, acquisition, execution, management, and oversight of information technology; and
(4) a process to ensure that the applicable department and subcomponents and adhere to established processes and requirements relating to the planning, acquisition, management, and oversight of information technology programs and developments.
(c) OMDB GUIDANCE.—The Director of the Office of Management and Budget shall—

(1) prescribe uniformly applicable guidance to the administration of all the programs and activities described in subsection (a); and

(2) take any actions that are necessary to ensure that Federal agencies comply with the guidance.

(d) ANNUAL REPORT TO CONGRESS.—Not later than the last day of February of each year, the Agency Head shall submit a report to Congress that includes—

(1) a description of the accomplishments of the program established by the Agency Head pursuant to this section;

(2) a detailed breakdown of the sources and uses of the amounts spent by the agency during the previous fiscal year to support the activities of the program;

(3) a copy of any guidance issued under the program and a statement regarding whether each such guidance is mandatory; and

(4) a detailed breakdown of the sources and uses of the amounts spent by the agency during the previous fiscal year to support the activities of the program.

(c) Outside Consultants.—

(1) IDENTIFICATION.—The E-Gov Administrator shall identify consultants in the private sector who have expert knowledge in IT program management and program management review teams. Not more than 20 percent of each consultant may be formally associated with any of the following types of entities:

(A) Commercial firms.

(B) Nonprofit entities.

(C) Research and development corporations receiving Federal financial assistance.

(2) Use of Consulting Firms.—

(A) IN GENERAL.—Consultants identified under paragraph (1) may be used to assist the IT Strike Force in assessing and improving IT investment projects.

(B) LIMITATION.—Consultants with a formally established relationship with an organization may not participate in any assessment involving an IT investment project for which such organization is under contract to provide technical support.

(C) EXCEPTION.—The limitation described in subparagraph (B) may not be construed as precluding access to anyone having relevant information helpful to the conduct of the assessment.

(3) Contracts.—The E-Gov Administrator, in conjunction with the Administrator of the General Services Administration (GSA), may establish competitively bid contracts with 1 or more qualified consultants, independent of any GSA schedule.

(d) Initial Response to Anticipated Significant or Gross Deviation.—If the E-Gov Administrator determines there is reasonable cause to believe that a major IT investment project is likely to significantly or grossly deviate (as defined in section 11317(a) of title 40, United States Code), including the receipt of inconsistent or missing data, the E-Gov Administrator shall carry out the following activities:

(1) Recommend the assignment of 1 or more members of the IT Strike Force to assess the project in accordance with the scope and time parameters specified in section 11317(c)(1) of title 40, United States Code, beginning not later than 7 days after such recommendation.

(2) If the E-Gov Administrator determines that 1 or more qualified consultants are needed to support the efforts of the IT Strike Force under paragraph (1), negotiate a contract with the consultant to provide such support services, and if the IT Strike Force is conducting the assessment described in paragraph (1) (3) Ensure that the costs of an assessment under paragraph (2) are paid by the major IT investment project being assessed.

(4) Monitor the progress made by the IT Strike Force in assessing the project.

(e) Reduction of Significant or Gross Deviation.—If the E-Gov Administrator determines that the assessment conducted under subsection (d) confirms that a major IT investment project is likely to significantly or grossly deviate, the E-Gov Administrator shall recommend that the Agency Head (as defined in section 11317(a)(1) of title 40, United States Code) take steps to reduce the deviation, which may include—

(1) providing training or mentoring to improve the qualifications of the program management team;

(2) replacing the program manager or other staff;

(3) supplementing the program management team with experienced employees or independent contractors;

(4) terminating the project; or

(5) hiring an independent contractor to replace the current contractor.

(f) Reprogramming of Funds.—

(1) Authorization.—The Director may direct an Agency Head to reprogram amounts which have been appropriated for such agency to pay for an assessment under subsection (d).

(2) Notification.—An Agency Head who reprograms appropriations under paragraph (1) shall notify the Committee on Appropriations of the Senate and the Committee on Appropriations of the House of Representatives of any such reprogramming.

(g) Report to Congress.—The Director shall include in the Annual Report to Congress on the Benefits of E-Government Initiatives a detailed summary of the composition and activities of the IT Strike Force, including—

(1) the number and qualifications of individuals on the IT Strike Force;

(2) a description of the IT investment projects that the IT Strike Force has worked on during the previous fiscal year;

(3) the major issues that necessitated the involvement of the IT Strike Force to assist agencies with assessing and managing IT investment projects and whether such issues were satisfactorily resolved;

(4) if the issues referred to in paragraph (3) were satisfactorily resolved, the issues still needed to be resolved and the Agency Head’s plan for resolving such issues;

(5) a detailed breakdown of the sources and uses of the amounts spent by the Office of Management and Budget and other Federal agencies during the previous fiscal year to support the activities of the IT Strike Force; and

(6) a determination of whether the IT Strike Force has been effective in reducing the amount of IT investment projects that deviate or significantly deviate.

Ms. Collins. Mr. President, I am pleased to join Senator Carper in introducing a bill that will improve agency performance and Congressional oversight of major Federal information-technology IT projects.

The well-publicized cost and performance problems with the Census Bureau’s handheld computers for the 2010 Census—with its troubling implications for the next House reapportionment and for the annual spending of Federal funds—represent only the most recent and conspicuous failure in a long trail of troubles that also includes critical IT projects like the FBI’s virtual case file initiative, former IBM executive and Carnegie-Mellon University tech-
4-year contract produced $36 million in waste that was charged to the accounts of TSP participants and beneficiaries. A second vendor needed an additional $33 million to bring the system online, years overdue and costing more than double its original estimate.

In a 2004 letter from the Federal Retirement Thrift Investment Board to the Governmental Affairs Committee, the board characterized the project as “ill-fated” and acknowledged the importance of careful planning, task definitions, execution, personnel, and risk management—all of which were lacking on that project.

Large IT project failures have cost U.S. taxpayers billions of dollars in wasted expenditures. The waste is troubling, but even more troubling is the fact that when Federal IT projects fail, they can undermine the Government’s ability to defend the Nation, enforce its laws, or deliver critical services to citizens. Again and again, we have seen IT projects get grounded in poor planning, ill-defined and shifting requirements, undisclosed difficulties, poor risk management, and lax monitoring of performance.

Unfortunately, as the Government Accountability Office tells us in a new report, Federal IT projects still fall short in their use of effective oversight techniques to monitor development and to spot signs of possible trouble.

The GAO reports that the Federal Government will spend over $70 billion in fiscal year 2008 on IT projects. Most of that spending is concentrated in two dozen agencies that have 778 major projects underway. These Federal entities range from Cabinet departments like Commerce, Defense, and Veterans Affairs, to agencies like NASA, the Office of Personnel Management, and the Agency for International Development.

The GAO observes that “Effectively managing Federal IT projects involves matching the right level of essential cost, schedule, and performance goals in a meaningful, coherent fashion so that managers have an accurate view of the program’s development status.” This set of goals becomes the project “baseline.”

When the GAO conducted a study of a random sample of those major Federal IT projects, however, they found that 85—nearly half the sample—had been “rebaselined.” Eighteen of those projects have been rebaselined four or more times. For example, the Department of Defense Advanced Field Artillery Tactical Data System has been rebaselined four times; a Veterans Affairs Health Administration Center project has been rebaselined six times. Rebaselining can reflect funding changes, revisions in project scope or goals, and other perfectly reasonable project modifications. But as the GAO notes, “[rebaselining] can also be used to mask cost overruns and schedule delays.” All major Federal agencies have rebaselining policies, but the GAO concludes that they are not comprehensive and that “none of the policies are fully consistent with best practices.”

The bill that Senator CARPER and I are introducing will go far toward addressing the weaknesses identified by the GAO and will reduce the risks that major IT projects will drag the Government far beyond deadlines, fail to deliver intended capabilities, or waste taxpayers’ money. We are pleased to have Senators LIEBERMAN, COLEMAN, and MCCASKILL join us as cosponsors in this effort.

Our bill will improve both agency and Congressional oversight of large Federal IT projects. For all major investments, the bill requires agencies to track the earned value management index, a key cost and performance measure, and to alert Congress should that measure fall below a defined threshold.

The bill requires additional reports to Congress as well as specific corrective actions should those same indications be present. Further, because the bill’s performance thresholds are based on original cost baselines, rebaselining can no longer serve as a tactic to hide troubled projects. If severe shortfalls remain uncorrected, the bill will ensure that the agency can no longer commit funds to a project until the agency takes the required corrective actions.

Our bill does not envision making Congress a micromanager of Federal projects—especially in so complex a field as information technology. But it will ensure that, for these important investments, agencies will be required to track key performance metrics, inform Congress of shortfalls in those metrics, and provide Congress with follow-up reports, independent cost estimates, and analyses of project alternatives when the original projects have run off course.

The bill also provides that each covered agency identify to Congress their top three high-risk lists. Those “core investments” would be subject to additional upfront planning, reporting, and performance monitoring requirements. This will help ensure that agencies apply extra vigilance to these projects at the planning stage and not just when execution begins.

In addition to tracking cost and schedule slippage, agencies making core IT investments must provide a complete “business case” that outlines the need for the project and its associated costs and benefits. A rigorous, independent, third-party estimate of the project’s full, life-cycle costs; have the agency CIO certify the project’s functional requirements; track these functional requirements; and report to Congress any changes in functional requirements, including whether those changes concealed a major cost increase.

To help agencies deliver IT projects on time and on budget, the bill also provides two new support mechanisms. First, agency heads would be required to establish an internal IT management program, subject to OMB guidelines, to improve project planning, requirements development, and management of earned value and risk.

Second, the Director of OMB and its E-Gov Administrator will be required to establish an IT strike force of experts and independent consultants who can be designated to help perform troubled projects. In addition, the E-Gov Administrator can recommend that agency heads mentor or replace an IT project manager, reinforce the management team, terminate the project, or hire an independent contractor to report on the project.

These and other provisions will help improve project planning, avoid problems in project execution, provide early alerts when problems arise, and promote prompt corrective action.

In projects where difficulties persist, our bill provides strong remedies. For projects that exhibit a performance shortfall of 20 percent or more, the agency head involved must not only allay Congress but also provide a summary of a concrete plan of action to correct the problem. If the shortfall exceeds 40 percent, agencies have 6 months to take required remedial steps or else suspend further project spending until those steps are completed.

If the provisions of this bill had been in force during the past decade, early indicators of trouble and prompt warnings to Congress might have helped prevent much of the added cost, decreased functionality, and increased anxiety we now surround the handheld computers that were intended to streamline the 2010 Census.

The additional scrutiny of plans and costs required by this bill might have saved some of the billions wasted on other IT projects that ultimately landed on high-risk lists.

Our bill creates a measured, methodical plan to ensure that Federal agencies apply best practices to IT projects, supply timely reports of problems, and devise corrective measures sooner rather than later. Our Government and our citizens will benefit from these improvements. I urge every Senator to support this constructive and bipartisan bill.

By Senator DURBin (for himself, Senators GREGG, DODD, BURR, HARKIN, and Alexander),

S. 3385. A bill to amend the Federal Food, Drug, and Cosmetic Act with respect to the safety of the food supply; to the Committee on Health, Education, Labor, and Pensions.

Mr. DURBin. Mr. President, today I rise to introduce the FDA Food Safety Modernization Act.

Yesterday, the Food and Drug Administration, which is responsible for ensuring the safety of about 80 percent of our food supply, announced that it was one step closer to pinpointing the source of the current Salmonella Saintpaul outbreak. At first we were told tomatoes were the culprit. Then tomatoes were exonerated and jalapeno
peppers in south Texas were to blame. Now FDA is saying it has discovered a strain of the bacteria in Serrano peppers from a farm in Tamaulipas, Mexico.

In the meantime, over three months have passed since the first reported case. At least 255 people have been hospitalized and two have died because of the outbreak. The tomato industry faces tens of millions of dollars in losses and a loss in consumer confidence. Some estimate that the economic impact may be as much as $100 to $500 million.

Over the last couple of years we have seen news headlines about E. coli in spinach, pistachios spiked with melamine, Salmonella-tainted peanut butter, and now contaminated peppers. It’s clear that these are not isolated cases but the product of a food safety system that is outdated, under-funded, and over-stressed. Companies that think of food safety as a cost rather than an investment put consumers at unnecessary risk.

FDA is struggling to keep up. There are holes in its ability to protect consumers from unsafe foods. For example, the Consumer Protection Safety Commission, the EPA, and even FDA with respect to infant formula all have recall authority. FDA is unable to pull any other contaminated food off the shelf when the company that makes it will not. FDA can suggest a recall and most of the time companies comply. But there are always bad actors and sometimes companies choose not to recall their products because they are afraid of upsetting consumer confidence or losing market share. In this case, FDA’s hands are tied. These are significant gaps in our food safety system that need to be addressed. We can and should do better.

That is why I am pleased to introduce the FDA Food Safety Modernization Act, along with Senators Gregg, Dodd, Burr, Harkin, and Alexander. This bill is a comprehensive, bipartisan effort that addresses some of the weaknesses in FDA’s authorities and resources and updates food safety standards to make important improvements in our current food safety system. The bill includes a number of important preventive measures, such as increasing the frequency of FDA inspections of food facilities, especially high-risk facilities; directing FDA to set standards for traceability; and requiring the food industry to control hazards in the food supply chain. It also enables FDA to more effectively respond to an outbreak by giving the agency new authorities to order recalls, shut down tainted facilities, and access records to track and trace food.

The food industry is one of the most important sectors of our economy, generating more than $1 trillion annually in economic activity and employing millions of American workers. Food is also a deeply personal experience, a part of our daily lives and our traditions and culture. For far too long Congress has gone without a comprehensive review of our food safety laws. As long as we continue to do nothing, we will pay the price for an outdated and ill-equipped food safety system. I thank Senators Gregg, Dodd, Burr, Harkin, and Alexander for joining me in crafting this bill and urge my colleagues to support.

Mr. President, I ask unanimous consent that the text of the bill be printed in the Record.

There being no objection, the text of the bill was ordered to be printed in the Record, as follows:

S. 3385

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. SHORT TITLE; REFERENCES; TABLE OF CONTENTS.
(a) SHORT TITLE.—This Act may be cited as the “FDA Food Safety Modernization Act.”
(b) REFERENCES.—Except as otherwise specified, whenever in this Act an amendment is expressed in terms of an amendment to a section or other provision of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).
(c) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

SECTION 1—GENERAL FOOD PROVISIONS
Sec. 101. Inspections of records.
Sec. 102. Registration of food facilities.
Sec. 103. Mandatory recall authority.
Sec. 104. Hazard analysis and risk-based preventive controls.
Sec. 105. Performance standards.
Sec. 106. Standards for produce safety.
Sec. 107. Targeting of inspection resources.
Sec. 108. Sanitary transportation of food.
Sec. 109. Sanitation standards and plans.
Sec. 110. National agriculture and food defense strategy.
Sec. 111. Food and Agriculture Coordinating Council.
Sec. 112. Decontamination and disposal standards.
Sec. 113. Authority to collect fees.
Sec. 114. Final rule for prevention of Salmonella Enteritidis in shell eggs during production.
Sec. 115. Sanitary transportation of food.
Sec. 116. Food allergy and anaphylaxis management.

SECTION II—DETECTION AND SURVEILLANCE
Sec. 201. Recognition of laboratory accreditation for analyses of foods.
Sec. 203. Building domestic capacity.
Sec. 204. Enhancing traceback and recordkeeping.
Sec. 205. Surveillance.

SECTION III—SPECIFIC PROVISIONS FOR IMPORTED FOOD
Sec. 301. Foreign supplier verification program.
Sec. 302. Voluntary qualified importer program.
Sec. 303. Authority to require import certifications for food.
Sec. 304. Prior notice of imported food shipments.
Sec. 305. Review of a regulatory authority of a foreign country.
Sec. 306. Building capacity of foreign government food safety agencies.
Sec. 307. Inspection of foreign food facilities.
Sec. 308. Accreditation of qualified third-party auditors.
Sec. 309. Foreign offices of the Food and Drug Administration.
Sec. 310. Funding for food safety.
Sec. 311. Jurisdiction for inspections.

TITLE I—GENERAL FOOD PROVISIONS

Sec. 101. INSPECTIONS OF RECORDS.
Section 112(a) (21 U.S.C. 350a(a) is amended—
(1) by striking the heading and all follows through “of food is” and inserting the following: “Records Inspection.”
(2) by inserting “, and to any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner,” after “relating to such article;”
(3) by striking the last sentence; and
(4) by inserting at the end the following:

“(2) SERIOUS ADVERSE HEALTH CONSEQUENCES.—If the Secretary determines that there is a reasonable probability that the use of an exposure to an article of food, and any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner, will cause serious adverse health consequences or death to humans or animals, each person (excluding farms and restaurants) who manufactures, packs, distributes, receives, holds, or imports such article shall, at the request of an officer or employee duly designated by the Secretary, permit such officer or employee, upon presentation of appropriate credentials and a written notice to such person, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to such article and to any other article of food that the Secretary reasonably believes is likely to be affected in a similar manner, that are needed to assist the Secretary in determining whether there is a reasonable probability that the use of an exposure to an article of food will cause serious adverse health consequences or death to humans or animals.”

“(3) APPLICATION.—The requirement under paragraphs (1) and (2) applies to all records relating to the manufacture, processing, packaging, distribution, receipt, holding, or importation of such article maintained by or on behalf of such person in any format (including paper and electronic format) and at any location.”

SEC. 102. REGISTRATION OF FOOD FACILITIES.

Sec. 202. REGISTRATION OF FOOD FACILITIES.

(2) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively; and
(3) by inserting after paragraph (2) the following:

“(3) B IENNIAL REGISTRATION RENEWAL.—During the period beginning on October 1
and ending on December 31 of each even-numbered year, a registrant that has submitted a registration under paragraph (1) shall submit to the Secretary a renewal registration containing the information described in paragraph (2). The Secretary shall provide for an abbreviated registration renewal process for any registrant that has not had a registration before the period "for a facility to be registered, except with respect to the reinstatement of a registration that is suspended under such section." |

SEC. 103. MANDATORY RECALL AUTHORITY. |

(a) In general.—Chapter IV (21 U.S.C. 341 et seq.) is amended by adding at the end the following: |

"SEC. 418. MANDATORY RECALL AUTHORITY. |

(a) Voluntary procedures.—If the Secretary determines, based on information gathered through the reportable food registry under section 112, that an article of food (other than infant formula) is adulterated under section 402 or misbranded under section 403(w), and the use of or exposure to such article will cause serious adverse health consequences or death to humans or animals, the Secretary shall provide the responsible party (as defined in section 112) with an opportunity to cease distribution and recall such article. |

(b) Hearing on suspension.—The Secretary shall, in the time and in the manner prescribed by the Secretary (if so prescribed), the Secretary deems necessary, such party to— |

(1) immediately cease distribution of such article; or |

(2) immediately notify all persons— |

(A) manufacturing, processing, packing, transporting, distributing, receiving, holding, or importing and selling such article; and |

(B) to which such article has been distributed, transported, or sold, to immediately cease distribution of such article. |

(c) Hearing on order.—The Secretary shall provide the responsible party with an opportunity to provide information and evidence regarding the recall, as well as alerts and public notices, as appropriate, in order to provide notification of the recall to consumers and retailers to whom such article was, or may have been, distributed. The notification shall include, as a minimum— |

(1) the name of the article of food subject to the recall; and |

(2) a description of the risk associated with the article. |

(g) No Delegation.—The authority conferred by this section to order a recall or vacate a recall order shall not be delegated to any official or employee other than the Commissioner. |

(b) Effect.—Nothing in this section shall affect the authority of the Secretary to require a person to participate in a recall." |

SEC. 104. HAZARD ANALYSIS AND RISK-BASED PREVENTIVE CONTROLS. |

(a) In general.—Each operator, or agent in charge of a facility shall, in accordance with this section, evaluate the hazards that could affect the food manufactured, processed, packaged, or held by such facility, and, if such hazards are significant, monitor for the presence of these hazards, and maintain records of this monitoring as a matter of routine practice. |

(b) Hazard Analysis.—The owner, operator, or agent in charge of a facility shall— |

(1) identify and evaluate known or reasonably foreseeable hazards that may be associated with the facility, including— |

(A) biological, chemical, and radiological hazards, natural toxins, pesticides, drug residues, decomposition, parasites, allergens, and unapproved food color additives; and |

(B) hazards that occur naturally, may be unintentionally introduced, or may be intentionally introduced, including by acts of terrorism; |

(2) develop a written analysis of the hazards. |

(c) Preventive Controls.—The owner, operator, or agent in charge of a facility shall— |

(1) identify and implement preventive controls, including at critical control points, if any, to provide assurances that— |

(A) food is not adulterated under section 402(a)(2)(B); |

(B) the food manufactured, processed, packed, or held by such facility will not be adulterated under section 402 or misbranded under section 403(w); |

(C) provide for an abbreviated registration renewal process for any registrant that has not had a registration before the period "for a facility to be registered, except with respect to the reinstatement of a registration that is suspended under such section." |

(2) Vacating of order.—If, after providing an opportunity for an informal hearing, to be held as soon as possible but not later than 2 days after the issuance of the order, on the actions required for reinstatement of registration and why the registration that is subject to suspension should be reinstated, the Secretary determines, based on evidence presented, that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall— |

(1) amending the order to require of such actions or other appropriate action; |

(2) specify a timetable in which the recall shall occur; |

(3) require periodic reports to the Secretary describing the progress of the recall; and |

(4) provide notice to consumers to whom such article was, or may have been, distributed. |

(b) Voluntary Procedures.—If the Secretary determines, based on information gathered through the reportable food registry under section 112, that an article of food (other than infant formula) is adulterated under section 402 or misbranded under section 403(w), and the use of or exposure to such article will cause serious adverse health consequences or death to humans or animals, the Secretary shall provide for an abbreviated registration renewal process for any registrant that has not had a registration before the period "for a facility to be registered, except with respect to the reinstatement of a registration that is suspended under such section." |

(c) Conforming Amendments.—(1) Section 301(d) (21 U.S.C. 331(d)) is amended by inserting "415," after "404,". |

(2) Section 405(d), as redesignated by subsection (b) of section 108(c), is amended by adding at the end the following: |

"(d) Post-Hearing Corrective Action Plan; Vacating of Order.— |

(1) Corrective action plan.—If, after providing an opportunity for an informal hearing under paragraph (2), the Secretary determines that the suspension of registration is necessary, the Secretary shall require the registrant to submit a corrective action plan to demonstrate how the registrant plans to correct the conditions found by the Secretary. The Secretary shall review such plan in a timely manner. |

(2) Vacating of Order.—Upon a determination by the Secretary that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall— |

(a) amend the order to require of such actions or other appropriate action; |

(b) specify a timetable in which the recall shall occur; |

(c) require periodic reports to the Secretary describing the progress of the recall; and |

(d) provide notice to consumers to whom such article was, or may have been, distributed. |

(2) Post-Hearing Recall Order and Monitoring.— |

(1) Amendment of order.—If, after providing an opportunity for an informal hearing under subsection (c), the Secretary determines that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall— |

(a) amend the order to require of such actions or other appropriate action; |

(b) specify a timetable in which the recall shall occur; |

(c) require periodic reports to the Secretary describing the progress of the recall; and |

(d) provide notice to consumers to whom such article was, or may have been, distributed. |

(3) Post-Hearing Recall Order and Monitoring.— |

(1) Amendment of order.—If, after providing an opportunity for an informal hearing under subsection (c), the Secretary determines that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall— |

(a) amend the order to require of such actions or other appropriate action; |

(b) specify a timetable in which the recall shall occur; |

(c) require periodic reports to the Secretary describing the progress of the recall; and |

(d) provide notice to consumers to whom such article was, or may have been, distributed. |

(2) Vacating of Order.—If, after providing an opportunity for an informal hearing, to be held as soon as possible but not later than 2 days after the issuance of the order, on the actions required for reinstatement of registration and why the registration that is subject to suspension should be reinstated, the Secretary determines, based on evidence presented, that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall—|

(a) amend the order to require of such actions or other appropriate action; |

(b) specify a timetable in which the recall shall occur; |

(c) require periodic reports to the Secretary describing the progress of the recall; and |

(d) provide notice to consumers to whom such article was, or may have been, distributed. |

(3) Post-Hearing Recall Order and Monitoring.— |

(1) Amendment of order.—If, after providing an opportunity for an informal hearing under subsection (c), the Secretary determines that adequate grounds do not exist to continue the suspension of the registration, the Secretary shall— |

(a) amend the order to require of such actions or other appropriate action; |

(b) specify a timetable in which the recall shall occur; |

(c) require periodic reports to the Secretary describing the progress of the recall; and |

(d) provide notice to consumers to whom such article was, or may have been, distributed. |

(b) Voluntary Procedures.—If the Secretary determines, based on information gathered through the reportable food registry under section 112, that an article of food (other than infant formula) is adulterated under section 402 or misbranded under section 403(w), and the use of or exposure to such article will cause serious adverse health consequences or death to humans or animals, the Secretary shall provide the responsible party (as defined in section 112) with an opportunity to cease distribution and recall such article. |

(b) Hearing on suspension.—The Secretary shall, in the time and in the manner prescribed by the Secretary (if so prescribed), the Secretary deems necessary, such party to— |

(1) immediately cease distribution of such article; or |

(2) immediately notify all persons— |

(A) manufacturing, processing, packing, transporting, distributing, receiving, holding, or importing and selling such article; and |

(B) to which such article has been distributed, transported, or sold, to immediately cease distribution of such article. |

(c) Hearing on order.—The Secretary shall provide the responsible party with an opportunity to provide information and evidence regarding the recall, as well as alerts and public notices, as appropriate, in order to provide notification of the recall to consumers and retailers to whom such article was, or may have been, distributed. The notification shall include, at a minimum— |

(1) the name of the article of food subject to the recall; and |

(2) a description of the risk associated with the article. |

(g) No Delegation.—The authority conferred by this section to order a recall or vacate a recall order shall not be delegated to any official or employee other than the Commissioner. |

(b) Effect.—Nothing in this section shall affect the authority of the Secretary to require a person to participate in a recall."
ineffective through monitoring under subsection (d).

(2) VERIFICATION.—The owner, operator, or agent in charge of a facility shall verify that—

(i) the preventive controls implemented under subsection (c) are adequate to control the hazards identified under subsection (b); and

(ii) the owner, operator, or agent is conducting monitoring in accordance with subsection (d);

(3) REPRESENTATION.—Each owner, operator, or agent in charge of a facility shall prepare a written plan that documents and describes the procedures used by the facility to comply with the requirements of this section, including addressing the hazards under subsection (b) and identifying the preventive controls adopted to address these hazards under paragraph (1). Such written plan, together with documentation that the plan is being implemented, shall be made promptly available to a duly authorized representative of the Secretary upon oral or written request.

(i) REQUIREMENT TO REANALYZE.—Each owner, operator, or agent in charge of a facility shall conduct a reanalysis under subsection (b) whenever a significant change is made to the hazard analysis, or if any changes were made in the previous 3 years, whichever is earlier. Such reanalysis shall be completed and additional preventive controls needed to address the hazard identified, if any, shall be implemented, and the facility shall document the change in accordance with subsection (d). The Secretary may require a reanalysis under this section to respond to new hazards and developments in scientific understanding.

(ii) DEEMED COMPLIANCE OF SEAFOOD, JUICE, AND LOW-ACID CANNED FOOD FACILITIES IN COMPLIANCE WITH HACCP.—An owner, operator, or agent in charge of a facility required to comply with this section limits the authority of the Secretary to apply the requirements of this section to such facility to the extent that such facility is in compliance with the requirements of this section.

(i) THE SEAFOOD HAZARD ANALYSIS CRITICAL CONTROL POINTS PROGRAM OF THE FOOD AND DRUG ADMINISTRATION.

(ii) THE JUICE HAZARD ANALYSIS CRITICAL CONTROL POINT PROGRAM OF THE FOOD AND DRUG ADMINISTRATION.

(iii) THE THERMALLY PROCESSED LOW-ACID FOODS PROGRAM OF THE FOOD AND DRUG ADMINISTRATION (OR ANY SUCCESSOR STANDARDS).

(iv) EXCEPTION FOR FACILITIES IN COMPLIANCE WITH THE THERMALLY PROCESSED LOW-ACID FOODS PROGRAM OF THE FOOD AND DRUG ADMINISTRATION (OR ANY SUCCESSOR STANDARDS).

(j) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.

(k) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.

(l) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.

(m) DEFINITIONS.—For purposes of this section:

(1) CRITICAL CONTROL POINT.—The term ‘critical control point’ means a point, step, or process in a food process at which control can be applied and is essential to prevent or eliminate a significant hazard or to reduce it to an acceptable level.

(2) FRESH FOOD.—The term ‘fresh food’ means a domestic facility or a foreign facility that is required to register under section 415.

(3) PREVENTIVE CONTROLS.—The term ‘preventive controls’ means those risk-based, reasonably appropriate procedures, practices, and processes that a person knowledgeable about the safe manufacturing, processing, packing, or holding of food would have employed to significantly minimize or prevent a hazard identified under the hazard analysis conducted under subsection (a) and that are consistent with the current scientific understanding of safe food manufacturing, processing, packing, or holding at the time of the analysis. Those procedures, practices, and processes may include the following:

(A) Sanitation procedures for food contact surfaces and utensils and food-contact surfaces of equipment.

(B) Supervisor, manager, and employee hygiene training.

(C) An environmental monitoring program to verify the effectiveness of pathogen controls.

(D) An allergen control program.

(E) A recall contingency plan.

(F) Good Manufacturing Practices (GMPs).

(G) Supplier verification activities.

(h) WRITTEN PLAN AND DOCUMENTATION.—Each owner, operator, or agent in charge of a facility shall prepare a written plan that documents and describes the procedures used by the facility to comply with the requirements of this section, including addressing the hazards under subsection (b) and identifying the preventive controls adopted to address these hazards under paragraph (1). Such written plan, together with documentation that the plan is being implemented, shall be made promptly available to a duly authorized representative of the Secretary upon oral or written request.

(i) REQUIREMENT TO REANALYZE.—Each owner, operator, or agent in charge of a facility shall conduct a reanalysis under subsection (b) whenever a significant change is made to the hazard analysis, or if any changes were made in the previous 3 years, whichever is earlier. Such reanalysis shall be completed and additional preventive controls needed to address the hazard identified, if any, shall be implemented, and the facility shall document the change in accordance with subsection (d). The Secretary may require a reanalysis under this section to respond to new hazards and developments in scientific understanding.

(j) DEEMED COMPLIANCE OF SEAFOOD, JUICE, AND LOW-Acid CANNED FOOD FACILITIES IN COMPLIANCE WITH HACCP.—An owner, operator, or agent in charge of a facility required to comply with this section limits the authority of the Secretary to apply the requirements of this section to such facility to the extent that such facility is in compliance with the requirements of this section.

(k) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.

(l) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.

(m) RECORDKEEPING.—The owner, operator, or agent in charge of a facility shall maintain, for not less than 2 years, records documenting the monitoring of the preventive controls implemented under subsection (c), the occurrences of nonconformance, and any corrective actions.
been associated with food-borne illness outbreaks.

"(b) FINAL REGULATION.—

"(1) IN GENERAL.—Not later than 1 year after the comment period for the proposed rulemaking under subsection (a), the Secretary shall adopt a final regulation to provide for minimum standards for those types of raw agricultural commodities for which the Secretary has determined that such standards minimize the risk of serious adverse health consequences.

"(2) FINAL REGULATION.—The final regulation shall—

(A) provide a reasonable period of time for compliance into account the needs of small businesses for additional time to comply;

(B) provide for coordination of education and enforcement activities by State and local officials, as designated by the Governors of the respective States; and

(C) include a description of the variance process under subsection (c) and the types of permissible variances the Secretary may grant.

"(c) CRITERIA.—

(1) DECISION.—The regulations adopted under subsection (b) shall—

(A) set forth those procedures, processes, and practices as the Secretary determines to be reasonably likely to prevent the introduction of known or reasonably foreseeable biological, chemical, and physical hazards, including hazards that occur naturally, may be unintentionally introduced, or may be intentionally introduced, including acts of terrorism, into fruits and vegetables that are raw agricultural commodities and to provide reasonable assurance that the produce is not adulterated under section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342 et seq.) to determine that the variance is not the result of known or reasonably foreseeable biological, chemical, and physical hazards, including hazards that occur naturally, may be unintentionally introduced, or may be intentionally introduced, including acts of terrorism, into fruits and vegetables that are raw agricultural commodities and to provide reasonable assurance that the produce is not adulterated under section 402 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342 et seq.), as amended by section 106, is amended by adding at the end the following:

"(D) The risk profile of the food manufactured, processed, packed, or held at the facility.

"(E) Whether the food importer participated in the previous fiscal year.

"(f) the number of foreign facilities registered pursuant to section 415 that the Secretary inspected in the previous fiscal year;

"(g) The average cost of both a high-risk facility and a non-high-risk facility inspection, with such a difference exists, in the previous fiscal year;

"(h) The number of high-risk facilities identified pursuant to section 415 that the Secretary inspected in the previous fiscal year;

"(i) The number of high-risk facilities identified pursuant to section 415 that the Secretary did not inspect in the previous fiscal year;

"(j) The average cost of physically inspecting or sampling a food product subject to this Act that is imported or offered for import into the United States; and

"(k) Information on the foreign offices established under section 309 of the Food Safety Modernization Act including—

(A) the number of foreign offices established; and

(B) the number of personnel permanently stationed in each foreign office.

"(l) PUBLIC AVAILABILITY OF ANNUAL REPORT.—The Secretary shall make the report required under subsection (b) available to the public on the Internet Web site of the Food and Drug Administration.

SEC. 108. ADMINISTRATIVE DETENTION OF FOOD.

"(a) IN GENERAL.—Section 304(h)(1)(A) (21 U.S.C. 331i)(A) is amended by—

(1) inserting in the heading—

"(i) the words "administrative detention of" before the term "food"; and

"(ii) the words "labeled and" before the term "marketed"; and

(2) by striking "or information indicating" and inserting "reason to believe": and
Sec. 109. PROTECTION AGAINST INTENTIONAL ADULTERATION.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Homeland Security, in consultation with the Secretary of Agriculture, shall promulgate regulations to protect against the intentional adulteration of food subject to this Act.

(b) CONTENT OF REGULATIONS.—Regulations under subsection (a) shall only apply to—

(1) for which the Secretary has identified clear and present danger of a short shelf-life or susceptibility to intentional contamination at critical control points;
(2) in bulk or batch form, prior to being packaged for the final consumer; and
(3) for which there is a high risk of intentional contamination, as determined by the Secretary, that could cause serious adverse health consequences or death to humans or animals.

(c) DETERMINATIONS.—In making the determination under subsection (b)(3), the Secretary shall—

(1) conduct vulnerability assessments of the food system;
(2) consider the best available understanding of uncertainties, risks, costs, and benefits associated with guarding against intentional adulteration at vulnerable points; and
(3) determine the types of science-based mitigation strategies or measures that are necessary to protect against the intentional adulteration of food.

(d) ENFORCEMENT.—This section shall not apply to food produced on farms, except for milk.

(e) DEFINITION.—For purposes of this section, the term ‘‘emergency’’ means an event consequence assessment and decision support tool.

(f) GUIDANCE DOCUMENTS.—

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Homeland Security, in consultation with the Secretary of Agriculture, shall issue guidance documents related to protection against the intentional adulteration of food, including mitigation strategies and measures to guard against such adulteration as required under section 422 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a).

(2) CONTENT OF GUIDANCE DOCUMENT.—A guidance document issued under paragraph (1) shall—

(A) specify how a person shall assess whether the person is required to implement mitigation strategies or measures intended to protect against the intentional adulteration of food;
(B) specify appropriate science-based mitigation strategies or measures to prevent and protect the food supply chain at specific vulnerable points, as appropriate;
(C) include a model assessment for a person to use under subparagraph (A); and
(D) include examples of mitigation strategies or measures described in subparagraph (B); and
(E) specify situations in which the examples of mitigation strategies or measures described in subparagraph (D) are appropriate.

(f) PERIODIC REVIEW.—The Secretary shall periodically review and, as appropriate, update the regulation under subsection (a) and the guidance documents under subsection (b).

(g) PROHIBITED ACTS.—Section 301 (21 U.S.C. 331 et seq.), as amended by section 106, is amended by adding at the end the following:

‘‘(rr) The failure to comply with section 422.’’

Sec. 110. NATIONAL AGRICULTURE AND FOOD DEFENSE STRATEGY.

(a) DEVELOPMENT AND SUBMISSION OF STRATEGY.

(1) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary of Health and Human Services and the Secretary of Agriculture, in coordination with the Secretary of Homeland Security, shall prepare and submit to the relevant committees of Congress, and make publicly available on the Internet Web site of the Department of Health and Human Services and the Department of Agriculture, the National Agriculture and Food Defense Strategy.

(2) IMPLEMENTATION PLAN.—The strategy shall include an implementation plan for use by the Secretaries described under paragraph (1) in carrying out the strategy.

(b) GUIDANCE DOCUMENTS.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary of Homeland Security, may determine the time and manner in which the guidance documents issued under paragraph (1) are made public, including by releasing such documents to targeted audiences.

(c) PERIODIC REVIEW.—The Secretary shall periodically review and, as appropriate, update the regulation under subsection (a) and the guidance documents under subsection (b).

(d) PROHIBITED ACTS.—Section 301 (21 U.S.C. 331 et seq.), as amended by section 106, is amended by adding at the end the following:

‘‘(rr) The failure to comply with section 422.’’

Sec. 111. FOOD AND AGRICULTURE COORDINATING COUNCIL.

The Secretary of Homeland Security, in consultation with the Secretary of Health and Human Services and the Secretary of Agriculture, shall within 180 days of enactment of this Act, and annually thereafter, submit to the relevant committees of Congress, and make publicly available on the Internet Web site of the Department of Homeland Security, a report on the activities of the Food and Agriculture Government Coordinating Council and the Food and Agriculture Sector Coordinating Council, including the progress of such Councils on—

(1) facilitating partnerships between public and private entities to help unify and enhance the protection of the agriculture and food system of the United States;
(2) providing for the regular and timely interchange of information between each Council relating to the security of the agriculture and food system (including intelligence information);
PART 5—FEES RELATED TO FOOD
SEC. 740A. AUTHORITY TO COLLECT AND USE FEES.

(a) IN GENERAL.—For fiscal year 2009 and each subsequent fiscal year, the Secretary shall, in accordance with this section, assess and collect fees from—

(1) domestic facilities that have food allergens or foodborne illness outbreaks;

(2) food contamination; and

(3) natural disasters affecting agriculture and food.

SEC. 112. DECONTAMINATION AND DISPOSAL STANDARDS AND PLANS.

(a) IN GENERAL.—The Administrator, in coordination with the Secretary of Health and Human Services, Secretary of Homeland Security, and Secretary of Agriculture, shall provide support for, and technical assistance to, State, local, and tribal governments in preparing for, assessing, decontaminating, and recovering from an agriculture or food emergency.

(b) DEVELOPMENT OF STANDARDS.—In carrying out subsection (a), the Administrator shall develop and disseminate model plans for—

(1) the contamination and decontamination of individuals, equipment, and facilities following an intentional contamination of agriculture or food; and

(2) the disposal of large quantities of animals, plants, or food products that have been infected or contaminated by specific threat agents and foreign animal diseases.

(c) MODIFICATIONS.—Based on the exercises described in subsection (d), the Administrator shall modify the plan as necessary to account for contamination and disposal models described in subsection (c).

(d) EXERCISES.—In carrying out subsection (a), the Administrator shall conduct exercises at least annually to evaluate the effectiveness of the decontamination and disposal plans described in subsection (c).

(e) COLLECTION OF FEES.—Subject to subsections (b) and (c), the Secretary shall establish the fees to be collected under this section for each fiscal year specified in subsection (a)(1), based on the methodology described under paragraph (2), and shall publish such fees in a Federal Register notice not later than 60 days before the start of each fiscal year.

(f) BINDING.—For purposes of this section, the term ‘reinspection-related costs’ means all expenses, including administrative expenses, incurred in connection with—

(1) arranging, conducting, and evaluating the results of reinspections; and

(2) assessing and collecting reinspection fees under this section.

(g) ESTABLISHMENT OF FEES.—

(1) IN GENERAL.—Subject to subsection (d) and (e), the Secretary shall establish the fees to be collected under this section for each fiscal year specified in subsection (a)(1), based on the methodology described in paragraph (2), and shall publish such fees in a Federal Register notice not later than 60 days before the start of each such fiscal year.

(2) FEES.—Fees authorized under subsection (a) are authorized to remain available until expended.

(3) LIMITATION ON AMOUNT OF CERTAIN FEES.—In exercising its authority under this section, the Secretary shall not exceed $25,000,000.

(h) ANNUAL REPORT TO CONGRESS.—Not later than December 31 of each year, the Secretary shall submit a report to the Committee on Agriculture of the Senate of the United States and the Committee on Agriculture, Nutrition, and Forestry of the House of Representatives of the United States, describing the activities performed under this part for the preceding fiscal year, and including a summary description of the entities paying such fees and the types of business in which such entities engage.

(i) AUTHORIZATION OF APPROPRIATIONS.—For fiscal year 2009 and each fiscal year after.
thereafter, there is authorized to be appro-
Priate for fees under this section an amount
determined by allowing a percentage of the total
revenue amount determined under subsection (b)
for the fiscal year, and not less than the
percentage otherwise affected under the
other provisions of this section.

(b) Export Certification Fees for Foods
and Animal Feed.—
(1) Export Certification for Foods, Including
Animal Feed.—Section 801(e)(4)(A) (21 U.S.C. 381(e)(4)(A)) is amended
by adding a new subparagraph (C):-
(A) in the matter preceding clause (i), by striking “a drug” and inserting “a food, drug”;
(B) in clause (i) by striking “exported drug” and inserting “exported food, drug”;
and
(C) in clause (ii) by striking “the drug”
each place it appears and inserting “the food, drug”.

(2) Clarification of Certification.—Sec-
tion 801(e)(4) (21 U.S.C. 381(e)(4)) is amended
by inserting after subparagraph (B) the fol-
lowing new subparagraph:
“(C) For purposes of this paragraph, a cer-
tification by the Secretary shall be made on
such basis, and in such form (including a pub-
licly available listing as the Secretary deter-
mines appropriate).”

SEC. 114. FINAL RULE FOR PREVENTION OF SAL-
MONELLA ENTERITIDIS IN SHELL EGGS DURING PRO-
DUCTION. Not later than 1 year after the date of
 enactment of this Act, the Secretary shall issue a final rule based on the proposed rule
 issued by the Commissioner of Food and
 Drugs entitled “Prevention of Salmonella
 Enteritidis in Shell Eggs During Produc-
tion”, 69 Fed. Reg. 56824, (September 22,
2004).

SEC. 115. SANITARY TRANSPORTATION OF FOOD. Not later than 1 year after the date of
 enactment of this Act, the Secretary shall pro-
mulgate regulations described in section
416(b) of the Federal Food, Drug, and Cos-
metic Act (21 U.S.C. 350e(b)).

SEC. 116. FOOD ALLERGY AND ANAPHYLAXIS
MANAGEMENT.

(a) Definitions.—In this section:
(1) Early Childhood Education Pro-
gram.—The term “early childhood education pro-
gram” means—
(A) a Head Start program or an Early Head
 Start program carried out under the Head
 Start Act (42 U.S.C. 9831 et seq.);
(B) a State funded program regulated by the
 Federal Government for child care
 programs or school; or
(C) a State prekindergarten program that
 serves children from birth through kinder-
garten.
(2) ESSEA Definitions.—The terms “local
 educational agency”, “secondary school”,
“elementary school”, and “parent” have the
 meanings given the terms in section 901 of
the Elementary and Secondary Education
(3) School.—The term “school” includes
public—
(A) kindergartens;
(B) elementary schools; and
(C) secondary schools.

(b) Establishment of Voluntary Food
Allergy and Anaphylaxis Management
Guidelines.—
(1) Establishment.—In general.—Not later than 1 year after the
date of enactment of this Act, the Secretary, in consultation with the Sec-
retary of Education, shall—
(i) develop guidelines to be used on a vol-
untary basis to develop plans for individuals
to manage the risk of food allergy and
 anaphylaxis in schools and early childhood
education programs;
(ii) make such guidelines available to local
 educational agencies, schools, early child-
hood education programs, and other inter-
ested entities and individuals to be imple-
mented on a voluntary basis only.
(iii) application of FFDCA. Each plan
described in paragraph (a)(1)(B) that is devel-
oped for an individual shall be considered an
education record for the purposes of the Fam-
ily Educational Rights and Privacy Act of
(2) Contents.—The voluntary guidelines
developed by the Secretary under paragraph
(1) shall address each of the following, and
may be updated as the Secretary deems nec-
(1) Parental obligation to provide the
child or early childhood education pro-
gram, prior to the start of every school year,
with—
(i) documentation from their child’s physi-
cian or nurse;
(ii) supporting a diagnosis of food allergy
and the risk of anaphylaxis;
(iii) identifying any food to which the child
is allergic;
(iv) describing, if appropriate, any prior
history of anaphylaxis;
(V) listing any medication prescribed for
the child for the treatment of anaphylaxis;
(VI) listing the signs and symptoms of a re-
action; and
(VII) assessing the child’s readiness for
self-administration of prescription medica-
tion; and
(ii) a list of substitute meals that may be
offered to the child by school or early child-
hood education program food service per-
sonnel.
(B) The creation and maintenance of an in-
dividual health care plan for food allergy
management, in consultation with the par-
ent, tailors the needs of each child with a
documented risk for anaphylaxis, including
any procedures for the self-administration of
medication by such children in instances
where—
(i) the children are capable of self admin-
istering medication; and
(ii) such administration is not prohibited by
State law.
(C) Communication strategies between in-
dividual schools or early childhood edu-
cation programs and local providers of emer-
gency medical services, including appro-
priate instructions for emergency medical
response.
(D) Strategies to reduce the risk of expo-
sure to anaphylactic causing agents in
classrooms and common school or early
childhood education program areas such as
cafeterias.
(E) The dissemination of general informa-
tion on life-threatening food allergies to
school or early childhood education program
staff, parents, and children.
(F) Food allergy management training of
school or early childhood education program
personnel who regularly come into contact
with children with life-threatening food al-
lergies.
(G) The authorization and training of
school or early childhood education program
personnel to administer epinephrine when
the nurse is not immediately available.
(H) The timely accessibility of epinephrine
by school or early childhood education pro-
gram personnel when the nurse is not imme-
diately available.
(I) The creation of a plan contained in each
individual health care plan for food allergy
management that describes the appropriate
response to an incident of anaphylaxis of a
child while such child is engaged in extra-
curricular programs of a school or early
childhood education program such as non-
academic outings and field trips, before- and
after-school programs or before- and after-
early childhood education program programs,
and school-sponsored or early childhood edu-
cation program-sponsored programs held on
weekends.
(J) Maintenance of information for each
administration of epinephrine to a child at
risk for anaphylaxis and prompt notification
to parents.
(K) Other elements the Secretary deems
necessary for the management of food aller-
gies and anaphylaxis in schools and early
childhood education programs.

(c) School-Based Food Allergy Man-
agement Grants.

(1) General.—The Secretary may award
grants to local educational agencies to assist
such agencies with implementing voluntary
food allergy and anaphylaxis management
guidelines described in subsection (b).

(2) Application.—(A) In general.—To be eligible to receive a
grant under this subsection, a local edu-
cational agency shall submit an application
to the Secretary at such time, in such man-
ner, and including such information as the
Secretary may reasonably require.
(B) Contents.—Each application sub-
mitted under subparagraph (A) shall in-
clude—
(i) an assurance that the local educational
agency has developed plans in accordance
with the food allergy and anaphylaxis man-
agement guidelines described in subsection
(b);
(ii) a description of the activities to be
funded by the grant in carrying out the food
allergy and anaphylaxis management guide-
lines described in—
(I) the guidelines will be carried out at
individual schools served by the local edu-
cational agency;
(II) how the local educational agency will
inform parents and students of the guide-
lines in place;
(III) how school nurses, teachers, adminis-
trators, and other school-based staff will be
made aware of, and given training on, when
applicable, the guidelines in place; and
(IV) any other activities that the Sec-
retary determines appropriate;
(iii) an itemization of how grant funds re-
ceived under this subsection will be expen-
ted;
(iv) a description of how adoption of the
guidelines and implementation of grant ac-
tivities will be monitored; and
(v) an agreement by the local educational
agency to report information required by the
Secretary to conduct evaluations under this
subsection.

(d) Use of Funds.—Each local educational
agency that receives a grant under this sub-
section may use the grant funds for the fol-
lowing:
(A) Purchase of materials and supplies, in-
cluding limited medical supplies such as epi-
 nephrine and disposable wet wipes, to sup-
port carrying out the food allergy and ana-
phylaxis management guidelines described in
subsection (b).
(B) In partnership with local health depart-
ments, school nurse, teacher, and personnel
training for food allergy management.
(C) Programs that address the impact of the
presence of, and policies and procedures in
place related to, food allergies and
anaphylactic shock.
(D) Outreach to parents.
(E) Any other activities consistent with
the guidelines described in subsection (b).

July 31, 2008
CONGRESSIONAL RECORD — SENATE
TITLE II—DETECTION AND SURVEILLANCE

SEC. 201. RECOGNITION OF LABORATORY ACCREDITATION FOR ANALYSES OF FOODS.

(a) IN GENERAL.—(1) IN GENERAL.—The Secretary may not provide grant funding to any local educational agency under this section until such local educational agency arrives at a decision not to comply with the recommendations of the Secretary in such way that the grant amount will be reduced.

(b) IN GENERAL.—The Secretary may not provide grant funding to any local educational agency under this section after the date of enactment of this Act, and biennially thereafter, submit to the relevant committees of Congress, and make publicly available on the Internet Web site of the Department of Health and Human Services, a report on the progress in implementing a national food emergency response laboratory network that—

(1) provides ongoing surveillance, rapid detection, and surge capacity for large-scale food-related emergencies, including intentional adulteration of the food supply;

(2) coordinates the food laboratory capacities of State food laboratories, including the sharing of data between State laboratories to develop national situational awareness;

(3) provides accessible, timely, accurate, and consistent food laboratory services throughout the United States;

(4) develops and implements a methods repository for use by Federal, State, and local officials;

(5) responds to food-related emergencies; and

(6) is integrated with relevant laboratory networks administered by other Federal agencies.

SEC. 202. INTEGRATED CONSORTIUM OF LABORATORY NETWORKS.

(a) IN GENERAL.—The Secretary of Homeland Security, in consultation with the Secretary of Health and Human Services, the Secretary of Agriculture, and the Administrator of the Environmental Protection Agency, shall maintain an agreement through which relevant laboratory network members, as determined by the Secretary of Homeland Security, shall—

(1) agree on common laboratory methods in order to facilitate the sharing of knowledge and information relating to animal health, agriculture, and human health;

(2) identify the means by which each laboratory network member could work cooperatively with Federal, State, local, and tribal governments to develop national situational awareness; and

(3) engage in ongoing dialogue and build relationships that will support a more effective and integrated response during emergencies.

(b) REPORTING REQUIREMENT.—The Secretary of Homeland Security shall, on a biennial basis, submit to the relevant committees of Congress, and make publicly available on the Internet Web site of the Department of Homeland Security, a report on the progress of the integrated consortium of laboratory networks, as established under subsection (a), in carrying out this section.

SEC. 203. BUILDING DOMESTIC CAPACITY.

(a) IN GENERAL.—(1) INITIAL REPORT.—The Secretary shall, not later than 2 years after the date of enactment of this Act, submit to Congress a comprehensive report that identifies programs and practices that are intended to promote the safety and security of food and to prevent outbreaks of food-borne illness and other food-related hazards that can be addressed through protective activities. Such report shall include a description of the following:

(A) Analysis of the need for regulations or guidelines to prevent outbreaks of food-borne illness and other food-related hazards that can be addressed through protective activities.

(B) Outreach to food industry sectors, including through the Food and Agriculture...
Coordinating Councils referred to in section 111, to identify potential sources of emerging threats to the safety and security of the food supply and preventive strategies to address those threats.

(C) Systems to ensure the prompt distribution of information and technical assistance concerning preventive strategies.

(D) Communication systems to ensure that information about specific threats to the safety and security of the food supply are rapidly and effectively disseminated.

(E) Surveillance systems and laboratory networks to rapidly detect and respond to food-borne illness outbreaks and other food-related hazards, including how such systems and networks are integrated.

(F) Outreach, education, and training provided to States to build State food safety and food defense capabilities, including progress implementing strategies developed under sections 110 and 205.

(G) The estimated resources needed to effectively implement the programs and strategies identified in the report developed in this section over a 5-year period.

(2) BFIENNIAL REPORTS.—On a biennial basis following completion of the report under paragraph (1), the Secretary shall submit to Congress a report that—

(A) reviews previous food safety programs and practices;

(B) outlines the success of those programs and practices;

(C) identifies future programs and practices;

(D) includes information related to any matter described in subparagraphs (A) through (G) of paragraph (1), if necessary.

(1) RISK-BASED ACTIVITIES.—The report developed under subsection (a)(1) shall describe methods that seek to ensure that resources available for food-safety related activities are directed at those actions most likely to reduce risks from food, including the use of preventive strategies and allocation of inspection resources. The Secretary shall promptly undertake those risk-based actions that are identified during the development of the report as likely to contribute to the safety and security of the food supply.

(c) CAPABILITY FOR LABORATORY ANALYSES; INFORMATION TECHNOLOGY.—The report developed under subsection (a)(1) shall provide a description of methods to increase capacity to undertake analyses of food samples promptly after collection to detect and rapidly track and trace, in the event of an outbreak, fruits and vegetables that are raw agricultural commodities.

(d) INFORMATION TECHNOLOGY.—The report developed under subsection (a)(1) shall include a description of such information technology systems as may be needed to identify risks and receive data from multiple sources, including Federal, State, and tribal governments, other Federal agencies, the food industry, laboratories, laboratory networks, and consumers. The information technology systems that the Secretary describes shall also provide for the integration of the facility registration system under section 415 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350i), and the prior notice system under section 801(m) of such Act (21 U.S.C. 381(m)) with other information technology systems that are used by the Federal, State, and local governments.

(e) AUTOMATED RISK ASSESSMENT.—The report developed under subsection (a)(1) shall include a description of progress toward developing and improving an automated risk assessment system for food safety surveillance and allocation of resources.

(f) TRACBACK AND SURVEILLANCE REPORT.—The Secretary shall include in the report described under paragraph (1) an analysis of the Food and Drug Administration’s performance in food-borne illness outbreaks during the period preceding the date of enactment of this Act involving fruits and vegetables that are raw agricultural commodities.

(g) BIENNIAL FOOD SAFETY AND FOOD DEFENSE RESEARCH PLAN.—The Secretary and the Secretary of Agriculture shall, on a biennial basis, develop and report on, a joint food safety and defense research plan which may include studying the long-term health effects of food-borne illness. Such biennial plan shall include a list and description of projects conducted during the previous 2-year period and the plan for projects to be conducted during the following 2-year period.

(h) Pilot Projects.—In general.—The Secretary shall select participants from the produce industry to run projects which shall include at least 3 different types of fruits or vegetables that have been the subject of outbreaks during the 2-year period preceding the date of enactment of this Act, and shall be selected in order to demonstrate—

(A) methods that are applicable and appropriate for small businesses; and

(B) technologies, including existing technologies, that enhance traceback and trace forward.

(i) REPORT.—Not later than 18 months after the date of enactment of this Act, the Secretary shall report to Congress on the findings of the pilot project under subsection (h) together with recommendations for establishing methods to incorporate into traceback and trace forward procedures for fruits and vegetables that are raw agricultural commodities.

(j) TRACBACK PERFORMANCE REQUIREMENTS.—Not later than 24 months after the date of enactment of this Act, the Secretary shall promulgate, rules to establish standards for the processing of food offered for import into the United States.

(k) PUBLIC INPUT.—During the comment period in the notice of proposed rulemaking under subsection (d), the Secretary shall conduct not less than 3 public meetings in different geographical areas of the United States to provide persons in different regions an opportunity to comment.

(l) DEFINITION OF RAW AGRICULTURAL COMMODITY.—In this section, the term "raw agricultural commodity" has the meaning given that term in section 201(r) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(r)).
local levels, including coordination and integration of activities among Federal agencies, and between the Federal, State, and local levels of government;
(C) improvement in the timeliness and depth of access by regulatory and health agencies, the food industry, academic researchers, and consumers to food-borne illness surveillance data collected by government agencies at all levels, including data compiled by the Centers for Disease Control and Prevention;
(D) key barriers to improvement in food-borne illness surveillance and its utility for preventing food-borne illness at Federal, State, and local levels;
(E) the capabilities needed for establishing automatic electronic searches of surveillance data; and
(F) specific actions to reduce barriers to improvement, implement the working group's recommendations, and achieve the purposes of this section, with measurable objectives and timelines, and identification of resource and staffing needs.

(c) IMPROVING FOOD SAFETY AND DEFENSE CAPACITY AT THE STATE AND LOCAL LEVEL.—

(1) IN GENERAL.—The Secretary shall develop and implement strategies to leverage and enhance food safety and defense capacities of State and local agencies in order to achieve the following goals:
(A) Improve food-borne illness outbreak response and containment;
(B) Accelerate food-borne illness surveillance and outbreak investigation, including rapid shipment of clinical isolates from clinical laboratories to appropriate State laboratories, and conducting more standardized illness outbreak interviews.
(C) Strengthen the capacity of State and local agencies to carry out inspections and enforcement standards.
(D) Improve the effectiveness of Federal-State partnerships to coordinate food safety and defense resources and reduce the incidence of food-borne illness.
(E) Share information on a timely basis among public health and food regulatory agencies, with the food industry, with health care providers, and with the public.
(F) Strengthen the capacity of State and local agencies to achieve the goals described in section 110.

(2) REVIEW.—In developing the strategies required by paragraph (1), the Secretary shall, not later than 1 year after the date of enactment of the FDA Food Safety Modernization Act, complete a review of State and local capacities, and needs for enhancement, which may include a survey with respect to—
(A) staffing levels and expertise available to perform food safety and defense functions;
(B) laboratory capacity to support surveillance, outbreak response, inspection, and enforcement activities;
(C) information systems to support data management and sharing of food safety and defense information among State and local agencies and with counterparts at the Federal level; and
(D) other State and local activities and needs determined appropriate by the Secretary.

(d) FOOD SAFETY CAPACITY BUILDING GRANTS.—Section 317(r)(b) of the Public Health Service Act (42 U.S.C. 247b–20(b)) is amended—

(1) by striking “2002” and inserting “2009”; and
(2) by striking “2003 through 2006” and inserting “2010 through 2013”.

TITILE III—SPECIFIC PROVISIONS FOR IMPORTED FOOD

SEC. 301. FOREIGN SUPPLIER VERIFICATION PROGRAM.

(a) IN GENERAL.—Chapter VIII (21 U.S.C. 381 et seq.) is amended by adding at the end the following:

"SEC. 805. FOREIGN SUPPLIER VERIFICATION PROGRAM.

"(a) IN GENERAL.—

"(1) VERIFICATION REQUIREMENT.—Each United States importer of record shall perform risk-based foreign supplier verification activities in accordance with regulations promulgated under this section with respect to—
"(A) products with the requirements of section 419 or 420, as appropriate; and
"(B) is not adulterated under section 402 or misbranded under section 403(w).

"(2) IMPORTER EXCLUSION.—For purposes of this section, an ‘importer of record’ shall not include a person holding a valid license under section 411 of the Tariff Act of 1930 (19 U.S.C. 1611) (referred to as a ‘customs broker’) if the customs broker has executed a written agreement with another person who has agreed in writing to the requirements of this section with regard to food imported or offered for import by the customs broker.

"(b) GUIDANCE.—Not later than 1 year after the date of enactment of the FDA Food Safety Modernization Act, the Secretary shall issue guidance to assist United States importers of record in developing foreign supplier verification programs.

"(c) REGULATIONS.—

"(1) IN GENERAL.—Not later than 1 year after the date of enactment of the FDA Food Safety Modernization Act, the Secretary shall promulgate regulations to provide for the content of the foreign supplier verification program established under subsection (a). Such regulations shall, as appropriate, include a process for verification by a United States importer of record, with respect to each foreign supplier from which it obtains food, that the imported food is produced in compliance with the requirements of section (a). Such regulations shall, as appropriate, require the importer of record to have in place a foreign supplier verification program in compliance with section 805.

"(d) PUBLICATION OF LIST OF PARTICIPANTS.—The Secretary shall, not later than 1 year after the date of enactment of the FDA Food Safety Modernization Act, the Secretary shall promulgate regulations to provide for the content of the foreign supplier verification program established under subsection (a). Such regulations shall, as appropriate, include a process for verification by a United States importer of record, with respect to each foreign supplier from which it obtains food, that the imported food is produced in compliance with the requirements of section (a). Such regulations shall, as appropriate, require the importer of record to have in place a foreign supplier verification program in compliance with section 805.

"(e) RECORD MAINTENANCE AND ACCESS.—

"(1) The recordkeeping, testing, inspection, and enforcement requirements of section 401 or 420, as applicable, do not have in place a foreign supplier verification program in compliance with section 805.

"(2) EFFECTIVE DATE. The amendments made by this section shall take effect 2 years after the date of enactment of this Act.

SEC. 302. VOLUNTARY QUALIFIED IMPORTER PROGRAM.

Chapter VIII (21 U.S.C. 381 et seq.), as amended by section 301, is amended by adding at the end the following:

"SEC. 806. VOLUNTARY QUALIFIED IMPORTER PROGRAM.

"(a) IN GENERAL.—Beginning not later than 1 year after the date of enactment of the FDA Food Safety Modernization Act, the Secretary shall—

"(1) establish a program, in consultation with the Department of Homeland Security, to provide for the expedited review and importation of food offered for import by United States importers who have voluntarily agreed to participate in such program;

"(2) issue a guidance document related to participation and compliance with such program.

"(b) VOLUNTARY PARTICIPATION.—An importer may request the Secretary to provide for the expedited review and importation of designated foods in accordance with the procedures established by the Secretary.

"(c) ELIGIBILITY.—In order to be eligible, an importer shall be offering food for importation from a facility that meets the eligibility standards described in section 805(b). In reviewing the applications and making determinations on such requests, the Secretary shall consider the risk of the food to be imported based on factors, such as the following:

"(1) The nature of the food to be imported.

"(2) The compliance history of the foreign supplier.

"(3) The capability of the regulatory system of the country of export to ensure compliance with United States food safety standards.

"(4) The recordkeeping, testing, inspection, and audits of facilities and traceability of articles of food, temperature controls, and sourcing practices of the importer.
The potential risk for intentional adulteration of the food.

Any other factor that the Secretary determines appropriate.

REVOCATION.—Any importer qualified by the Secretary in accordance with the eligibility criteria set forth in this section shall be revocated not less often than once every 3 years and the Secretary shall promptly revoke the qualified importer status of any importer found not to be in such criteria.

DEFINITION.—For purposes of this section, the term ‘importer’ means the person who brings food, or causes food to be brought, from a foreign country into the customs territory of the United States.

AUTHORITY TO REQUIRE IMPORT CERTIFICATIONS FOR FOODS.—

(a) In General.—Section 801(m)(1) (21 U.S.C. 381(a)) is amended by inserting after the third sentence the following: ‘‘With respect to an article of food, importation of such food is subject to, but not compliant with, the requirement under subsection (p) that such food be accompanied by a certification or assurance that the food meets some or all applicable requirements of this Act, then such article shall be refused admission.’’

(b) ADDITION OF CERTIFICATION REQUIREMENT.—Section 801 (21 U.S.C. 381) is amended by adding at the end the following new subsection:

‘‘(p) CERTIFICATIONS CONCERNING IMPORTED FOODS.—

‘‘(1) IN GENERAL.—The Secretary, based on public health considerations, including risks associated with the food or its place of origin, may require as a condition of granting admission to an article of food imported or offered for import into the United States, that the article of food comply with some or all applicable requirements of this Act, as specified by the Secretary. Such certification or assurances may be provided in the form of shipment-specific certificates, a listing of certified entities, or in such other form as the Secretary may specify. Such certification shall be used for designated food imported from countries with which the Food and Drug Administration has an agreement to help ensure the safety and security of the food supply of the United States.’’

(2) CERTIFYING ENTITIES.—For purposes of paragraph (1), entities that shall provide the certification or assurances described in such paragraph are—

(A) an agency or a representative of the government of the country from which the article of food at issue originated, as designated by such government or the Secretary; or

(B) such other persons or entities accredited pursuant to section 809 to provide such certification or assurance.

RENEWAL AND REFUSAL OF CERTIFICATION REQUIREMENT.—

(A) require that any certification or other assurance provided by an entity specified in paragraph (2) be renewed by such entity at such time as determined by the Secretary and appropriate governmental agencies to establish a certification program.

(B) refuse to accept any certification or assurance if the Secretary determines that such certification or assurance is not longer valid or reliable.

ELECTRONIC SUBMISSION.—The Secretary shall provide for the electronic submission of certifications under this subsection.

CONFORMING TECHNICAL AMENDMENT.—

Section 806(b) (21 U.S.C. 386(b)) is amended in the second sentence by striking ‘‘with respect to an article included within the provisions of the fourth sentence of subsection (a)’’ and inserting ‘‘with respect to an article described in subsection (a) relating to the requirements of sections 706 or 761.’’

NO LIMIT ON AUTHORITY.—Nothing in the amendments made by this section shall limit the authority of the Secretary to conduct random inspections of imported food or to take such actions as the Secretary deems appropriate to determine the admissibility of imported food.

PREVIOUS NOTICE OF IMPORTED FOODS.—

(a) In General.—Section 801(m)(1) (21 U.S.C. 381(m)(1)) is amended by inserting ‘‘any country to which the article has been offered for import, or has been offered for import from a country from which the article is shipped.’’

(b) REGULATIONS.—Not later than 120 days after the date of enactment of this Act, the Secretary shall issue an interim final rule amending subpart I of part 1 of title 21, Code of Federal Regulations, to implement the amendments made by this section.

EFFECTIVE DATE.—The amendment made by this section shall take effect 180 days after the date of enactment of this Act.

REVIEW OF FOREIGN AGRICULTURAL AUTHORITY OF A FOREIGN COUNTRY.—

Chapter VIII (21 U.S.C. 381 et seq.), as amended by section 307, is amended by adding at the end the following:

SEC. 807. REVIEW OF A REGULATORY AUTHORITY OF A FOREIGN COUNTRY.—

‘‘The Secretary shall require information from a country outlining the statutes, regulations, standards, and controls of such country, and conduct on-site audits in such country to verify the implementation of those statutes, regulations, standards, and controls. Based on such review, the Secretary shall determine whether such country can provide reasonable assurances that the food supply of the country is equivalent in safety to food manufactured, processed, packed, or held for import to the United States.’’

BUILDING CAPACITY OF FOREIGN GOVERNMENTS WITH RESPECT TO FOOD.—

(a) In General.—The Secretary shall, not later than 2 years of the date of enactment of this Act, develop a comprehensive plan to expand the technical, scientific, and regulatory capacity of foreign governments to help ensure the safety and security of the food supply of the United States.

(b) Planning.—In planning the plan under subsection (a), the Secretary shall consult with the Secretary of Agriculture, Secretary of State, Secretary of the Treasury, the Attorney General, and representatives of the food industry, appropriate foreign government officials, and nongovernmental organizations that represent the interests of consumers, and other stakeholders.

(c) PLAN.—The plan developed under subsection (a) shall include, as appropriate, the following:

(1) Recommendations for bilateral and multilateral arrangements and agreements, including any proposals for responsible exporting countries to ensure the safety of food.

(2) Provisions for electronic data sharing, including any proposals for mutual recognition of inspection reports.

(3) Assistance to foreign governments and food producers on United States requirements for food safety.

(4) Recommendations to harmonize requirements under the Codex Alimentarius.

(d) N O LIMIT ON AUTHORITY.—Nothing in the amendments made by this section shall limit the authority of the Secretary to develop such reviews and audits of the training and qualifications of auditors used by the authority and conduct reviews of interagency and other investigations of the adequacy of the systems and methods in place to ensure that such entity meets the requirements of this Act.

ACCREDITATION OF QUALIFIED THIRD-PARTY AUDITORS.—

(a) Accreditation of Certifying Agents.—

(1) IN GENERAL.—Beginning not later than 2 years after the date of enactment of the FDA Food Safety Modernization Act, the Secretary shall establish and implement an accreditation system under which, after a foreign or domestic cooperative that aggregates the products of growers or processors, or any other third party that the Secretary determines appropriate, may request to be accredited as a certifying agent to certify that eligible entities meet the applicable requirements of this Act.

(2) REVIEW BY SECRETARY.—When establishing and implementing an accreditation system under paragraph (1), the Secretary shall review third-party accreditation systems in existence on the date of enactment of the FDA Food Safety Modernization Act, and provide a comprehensive plan to avoid unnecessary duplication of efforts and costs.

(3) REQUEST BY FOREIGN GOVERNMENT.—Prior to accrediting a foreign government as a certifying agent, the Secretary shall perform such reviews and audits of food safety programs, systems, and standards of the government as the Secretary deems necessary to determine that such foreign government or organization meets the requirements of this Act with respect to food manufactured, processed, packed, or held for import to the United States.

(4) REQUEST BY STATE OR REGIONAL FOOD AUTHORITY.—Prior to accrediting a State or regional food authority as a certifying agent, the Secretary shall perform such reviews and audits of the training and qualifications of auditors used by the authority and conduct reviews of interagency and other investigations of the adequacy of the systems and methods in place to ensure that such entity meets the requirements of this Act.

(5) COOPERATIONS AND OTHER THIRD-PARTY AUDITORS.—Prior to accrediting a State or regional food authority as a certifying agent, the Secretary shall perform such reviews and audits of the training and qualifications of auditors used by the authority and conduct reviews of interagency and other investigations of the adequacy of the systems and methods in place to ensure that such entity meets the requirements of this Act.
third party that the Secretary determines appropriate as a certifying agent, the Secretary shall perform such reviews and audits of the training and qualifications of auditors used by such cooperative or party and conduct such reviews of internal systems and such other investigation of the cooperative or party as the Secretary deems necessary to determine whether such third party has systems and standards in use that ensure that such entity meets the requirements of this Act.”

“(b) The Secretary may not accredit a third party that the Secretary determines appropriate as a certifying agent unless a current auditor used by such cooperative or party prepares the audit report for an audit under this section in a form and manner designated by the Secretary. An audit report shall include—

“(A) the identity of the persons at the audited eligible entity responsible for compliance with food safety requirements;

“(B) the dates of the audit;

“(C) the scope of the audit; and

“(D) any other information required by the Secretary that relate to or may influence an assessment of compliance with this Act.”

“(c) The Secretary shall publish and make available to the public a list, including, the name, location and other information deemed necessary by the Secretary, of certifying agents under this section.

“(d) The Secretary may not accredit a third party as a certifying agent, such governmental entity, or any other third party that the Secretary determines appropriate as a certifying agent unless such agent is qualified to conduct food safety audits.

“(e) The Secretary shall perform such reviews and audits of such entity to be certified by such agent; and

“(f) The Secretary shall establish a method, similar to the method used by the Department of Agriculture, to conduct risk-based inspections of such articles of food and other products regulated by the Food and Drug Administration and products regulated by the Department of Agriculture, including by directly conducting risk-based inspections of such articles and supporting such inspections by such governmental entity.

“(g) The Secretary shall establish an office of the Food and Drug Administration, and Office with a goal of not fewer than 5 foreign countries selected by the Secretary, to provide assistance to the appropriate governmental entities of such countries with respect to measures to provide for the safety of articles of food and other products regulated by the Food and Drug Administration by such country to the United States, including by directly conducting risk-based inspections of such articles and supporting such inspections by such governmental entity.

“SEC. 309. FOREIGN OFFICES OF THE FOOD AND DRUG ADMINISTRATION.

“(a) In general.—The Secretary shall by October 1, 2010, establish an office of the Food and Drug Administration in at least 5 foreign countries selected by the Secretary, to provide assistance to the appropriate governmental entities of such countries with respect to measures to provide for the safety of articles of food and other products regulated by the Food and Drug Administration by such country to the United States, including by directly conducting risk-based inspections of such articles and supporting such inspections by such governmental entity.

“(b) Increased number of field staff.—To carry out the activities of the Office of Regulatory Affairs of the Food and Drug Administration—

“(1) the Secretary shall increase the field staff of such Centers by 3,600 staff members in fiscal year 2009; and

“(2) the Secretary shall increase the field staff of such Centers by 3,800 staff members in fiscal year 2010; and

“(3) the Secretary shall increase the field staff of such Centers by 4,000 staff members in fiscal year 2011; and

“(4) the Secretary shall increase the field staff of such Centers by 4,200 staff members in fiscal year 2012; and

“(5) the Secretary shall increase the field staff of such Centers by 4,400 staff members in fiscal year 2013.

“SEC. 311. JURISDICTION; AUTHORITIES.

“Nothing in this Act, or an amendment made by this Act, shall be construed to—

“(a) alter the jurisdiction between the Secretary of Agriculture and the Secretary of Health and Human Services.

“(b) limit the authority of the Secretary of Health and Human Services to issue regulations related to the safety of food under—

“(A) the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.); or

“(B) the jurisdiction between the Secretary of Agriculture and the Secretary of Health and Human Services, under applicable statutes and regulations.

“(c) limit the authority of the Secretary of Health and Human Services to issue regulations related to the safety of food under—

“(A) the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.); or
By Mr. HATCH (for himself and Mr. DODD):

S. 3387. A bill to amend the Public Health Service Act with respect to pain care; to the Committee on Health, Education, Labor, and Pensions.

Mr. HATCH. Mr. President, I rise today to introduce the National Pain Care Policy Act of 2008. I am pleased to have worked with my colleague, Senator CHRISTOPHER DODD, on this legislation which will help to address barriers to pain care by enhancing coordination of research, improving healthcare provider education and training, and elevating public awareness of pain and pain management.

According to the American Pain Foundation, an estimated 75 million Americans either experience chronic or acute pain. Pain is the most common reason that people access the health care system and persistent pain can interfere with everyday life and make ordinary tasks seem impossible. Severe chronic pain also can hinder sleep, work, and social functions. Due to its very nature as a prominent feature of many chronic conditions, pain is said to affect more Americans than diabetes, heart disease and cancer combined.

Most pain can be relieved with proper treatment. This simple fact implies that the pain problems of these countless Americans can be easily fixed. Unfortunately, many people in pain face obstacles to accessing proper diagnosis, treatment, and management of their pain.

Health care professionals are, more often than not, inadequately trained regarding pain assessment and management, making it difficult for them to treat their patients’ pain safely and effectively. As such, providers may be unfamiliar with current research and guidelines for appropriate pain care. Further, health care professionals may be hesitant to prescribe pain medications or pain management due to lack of knowledge regarding regulatory policies.

To make worse the problem, the National Institutes of Health, NIH, our country’s premier institution for biomedical research, currently dedicates less than 1 percent of its research budget to pain research. Worse yet, this research is spread across multiple Institutes and centers without efficient coordination. Effective education is contingent upon adequate research.

Patients create for themselves barriers to pain care and management. As impractical as it seems, patients often do not tell their doctor about their pain because they do not want to complain or appear to be a nuisance. They also may avoid taking pain medicines because of addiction or dependency concerns which may be based on misinformation due to lack of education.

The National Pain Care Policy Act of 2008 will help to identify these barriers by authorizing an Institute of Medicine, IOM, Conference on Pain Care to evaluate the adequacy of pain assessment, treatment and management. The conference will establish an action agenda by which to address barriers and improve education and training.

The bill also authorizes permanently the Pain Consortium at the National Institutes of Health, NIH, to establish a coordinated clinical research agenda and promote pain research across NIH institutes, centers, and programs. The Consortium will convene annual conferences to make recommendations on pain research and activities at the NIH. The legislation establishes a multidisciplinary Advisory Committee.

The National Pain Care Policy Act of 2008 addresses the lack of pain care education by creating a grant program for the development and implementation of programs to train health care professionals in pain assessment and management. It also requires the Agency for Healthcare Research and Quality, AHRQ, to collect evidence-based practices regarding pain assessment and disseminate such information to the pain care community.

This bill also will break down barriers to pain care access by raising awareness among people who suffer from pain, and helping them and their families find the proper information about pain management. A national pain management public outreach and awareness campaign will be developed and implemented by the Department of Health and Human Services, HHS, to focus on the issue of pain as a national public health problem.

The National Pain Care Policy Act of 2008 contains provisions that will help the millions of Americans who live everyday with pain by heightening awareness, enhancing coordination of research, and advancing education. Similar legislation was introduced in the House by Representatives LOIS CAPPS and MIKE ROGERS last year. The House bill is supported by more than 100 organizations in the pain care community, including the America Pain Society, the American Academy of Pain Medicine, and the American Cancer Society. I thank Senator DODD for his leadership on and interest in this issue, and I urge my colleagues to support our bill.

Mr. DODD. Mr. President, I rise today to join my colleague from Utah, Senator ORRIN HATCH, in introducing the National Pain Care Policy Act of 2008. This important legislation would make significant strides in the understanding and treatment of pain as a medical condition. Pain is the most common symptom leading to medical care and a leading health issue. Yet people suffering through pain often struggle to get relief because of a variety of issues. This is why we are introducing this important legislation.

Each year pain results in more than 50 million lost workdays estimated to cost the United States $100 billion. Beyond the economic impact, pain is a leading cause of disability, with back pain alone causing chronic disability in 1 percent of the population of this country. In the United States 40 million people suffer from arthritis, more than 26 million, ages 20 to 64, experience frequent back pain, more than 25 million experience migraine headaches, and 20 million have jaw and lower facial pain each year. It is estimated that 70 percent of cancer patients have significant pain as they fight the disease. And half of all patients in hospitals suffer through moderate to severe pain in their last days. As with many medical conditions, this a problem that is likely to become worse as the baby boom generation approaches retirement and the population ages.

Sadly, though most pain can be relieved, often it is not. Many suffering patients are reluctant to tell their medical provider about the pain they are experiencing, for fear of being identified as a “bad patient,” and concern about addiction often leads patients to avoid seeking or using medications to treat their pain. But even if patients were more forthcoming about their condition, few medical providers are equipped to do something about it. Often they have not been trained in assessment techniques or pain management, and are unaware of the latest research, guidelines, and standards for treatment. There is also concern among most providers that prescribing treatment for pain will lead to greater scrutiny by regulatory agencies and insurers.

But we can do something about these barriers and help individuals suffering from pain. The National Pain Care Policy Act would lead to improvements in pain care across the country. The legislation would call for an Institute of Medicine conference on pain care to increase awareness of this issue as a public health problem, identify barriers to pain care and determine action for overcoming those barriers. A number of years ago, my good friend Senator HATCH helped establish a Pain Consortium at the National Institutes of Health to establish a coordinated pain research agenda. This legislation will codify that consortium and update its mission. The bill addresses the training and education of health care professionals through new grant programs at the Agency for Health Research and Quality, AHRQ, and the Health Resources and Services Administration, HRSA. And finally this legislation creates a national public health awareness campaign at the Department of Health and Human Services to educate patients, families, and caregivers about...
the significance of pain and the importance of treatment.

I want to thank Senator HATCH for his leadership on this issue and urge my colleagues to join us on this important effort to help the millions of Americans suffering from severe pain.

By Mr. DURBIN:

S. 3390. A bill to amend the National Voter Registration Act of 1993 to provide for the treatment of institutions of higher education as voter registration agencies; to the Committee on Rules and Administration.

Mr. DURBIN. Mr. President, I rise today to introduce the Student Voter Opportunity to Encourage Registration Act of 2008—the Student VOTER Act.

The success of America’s experiment in democracy lies in broad participation and deep civic engagement. From the Reconstruction Amendments, to women’s suffrage, to the abolition of slavery, and finally the ratification of the 26th amendment, we have witnessed a steady but difficult march toward a more inclusive nation.

To realize the full potential of these great strides, the Student VOTER Act provides a pathway to participation for America’s youth.

The need for this bill is clear. Despite a small rise in youth voting in the current Presidential election cycle, the larger trend is unmistakable. Young voters—historically independent-minded—are far less likely to cast a ballot than older voters. In the 2004 Presidential election, only 47 percent of 18 to 24-year-old citizens voted, compared to 66 percent of citizens 25 and older. This marked the eighth straight Presidential contest in which less than half of these young Americans actually participated. In fact, the percentage of young Americans who vote today is lower than it was in the first Presidential election following the 26th amendment.

Several obstacles stand in the way of youth voting. Because so many students are first-time voters, they often are unfamiliar with how to register. In some States, first-time voters must register in person in order to cast an absentee ballot. For students at public colleges and universities that receive Federal funds as voter registration agencies, that designation is fitting. Our institutions of higher education are among the wealthiest in the world, and they lead the globe in producing Nobel laureates and scientific breakthroughs. But colleges and universities also have a special obligation to educate an active, informed citizenry.

The act does not impose a heavy burden on colleges and universities. We know this because the Student VOTER Act builds on the successful model of the Motor Voter Act, which brought voter registration to DMV offices across the country, adding 5 million voters—mainly independents—to the rolls in the 8 months after its passage. While some DMV offices simply mail completed registration forms to the appropriate clerk or registrar, others now use efficient, easy-to-use computer software to submit registrations electronically.

This means that the price tag of the Student VOTER Act to colleges and universities is at most a 42-cent stamp for each student. I know most of my fellow Senators would agree that this is not too high a price to pay for a lifetime of civic engagement.

In reality, costs should be even lower. Colleges and universities can provide voter registration services at student orientation or during class registration using the same technology that DMV offices already have implemented. Like the Motor Voter Act, this bill should pass with broad bipartisan support. It is a low-cost, commonsense solution to the very real problem of low youth voter turnout. It represents a natural but modest extension of the Higher Education Act and the Motor Voter Act without changing or amending any other State or Federal voting regulations in any way.

The bill may also serve to depoliticize voter registration efforts on college campuses. Polls consistently show that young voters are less likely to identify with a political party than older voters. Polls generally show that more than 4 in 10 young voters identify as independents, with roughly 3 in 10 young voters identifying with each of the two major political parties. In a July 30, 2008 letter sent to Congress in support of this bill, the U.S. Student Association explained that under the current system, “partisan student groups often become the main voter registration agents, which can alienate undecided and independent voters. The Student VOTER Bill of 2008 seeks to institutionalize the dissemination of voting procedure and register more young people in a systematic and non-partisan capacity.”

In addition to the U.S. Student Association, this bill is supported by U.S. PIRG and the Student Association for Voter Empowerment, SAVE. In particular, I would like to recognize Matthew Segal, SAVE’s founder and a Chicago native, with whom my office worked closely to prepare this bill.

I would also like to applaud the efforts of Representatives JAN SCHAKOWSKY, a Democrat, and REPUBLICAN COLLEAGUES, to introduce the bill today in the House of Representatives. The Student VOTER Bill of 2008 is a bipartisan effort that is an important step toward empowering our Nation’s youth. I look forward to working with my Democratic and Republican colleagues in Congress to ensure its enactment into law.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD.

SEC. 1. SHORT TITLE.

This Act may be cited as the “Student Voter Opportunity To Encourage Registration Act of 2008” or the “Student VOTER Act.”

SEC. 2. TREATMENT OF UNIVERSITIES AS VOTER REGISTRATION AGENCIES.

(a) In general.—Section 7(a) of the National Voter Registration Act of 1993 (2 U.S.C. 1973gg–5(a)) is amended—
(1) in paragraph (2)—
(A) by striking “and” at the end of subparagraph (A); and
(B) by adding at the end the following new subparagraph (A):
“(C) each institution of higher education as voter registration agencies;”;
(2) in paragraph (4) by striking paragraph (23) and inserting the following—
“(24) each institution of higher education (as defined in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) in the State that receives Federal funds;”;
(3) in paragraph (6)(A) by inserting “or, in the case of an institution of higher education, with each registration of a student for enrollment in a course of study” after “assistance.”;
(b) Amendment to Higher Education Act of 1965.—Section 467(a) of the Higher Education Act of 1965 (20 U.S.C. 1058(a)) is amended by striking paragraph (2).

By Mr. REID (for himself and Mr. ENSIGN):

S. 3393. A bill to promote conservation and provide for sensible development in Carson City, Nevada, and for
other purposes; to the Committee on Energy and Natural Resources.

Mr. REID. Mr. President, today I rise with my good friend Senator ENZIGN to introduce the Carson City Vital Community Act of 2008.

The goals of this legislation can be found in Carson City's collaborative master planning effort, "Envision Carson City." In 2004, the elected officials in Carson City started a dialogue with their citizens to determine how the city should grow and change over the next 20 years. At the end of a 2-year public process, city leaders had a clear message from their residents. The community wants to keep growth compact, maintain the integrity of the Bureau of Land Management (BLM) and Forest Service lands surrounding the town, enhance open space opportunities and maintain easy access to public lands.

The Carson City Vital Community Act of 2008 was developed in close partnership with Carson City and other key stakeholders to fulfill these goals.

Before I describe this legislation and its importance, it might be helpful for me to explain that Carson City is both a city and a county. It wasn't always this way. For over a hundred years the town of Carson City was the county seat of Ormsby County. But in 1969 the county dissolved and the government functions were consolidated into what we now simply call Carson City.

Like most of our counties in Nevada, Carson City is mostly Federal land. The town of Carson City is bounded on the west by Forest Service lands that stretch to the shores of Lake Tahoe and by BLM lands on the east. These open landscapes create a dramatic western backdrop for Nevada's State capital but also mean that the Federal Government is intimately involved in what would normally be local community decisions.

This legislation makes much needed adjustments to the pattern of Federal land ownership in Carson City. We have strived to make changes that will improve the ability of the Federal land management agencies to focus on their core goals. All too often, the BLM and the Forest Service are distracted from proper forest and range management by urban encroachment issues. We have a unique situation in Carson City where the community has offered to take on the responsibilities of managing public and private land, while also offering to convey a major inholding to the Forest Service for incorporation into the Humboldt-Toiyabe National Forest. This is a major step in the right direction and hopefully will serve as a model for other communities around the west.

Our legislation also provides lands to the Washoe Tribe, strengthening the Tribe's conservation and commercial efforts in Carson City. Additionally, nearly 20,000 acres of BLM lands surrounding Carson City will be permanently withdrawn from future develop to protect local viewsheds and public access. All of these actions will move Carson City one step closer to realizing the vision that it worked hard to develop through a public process that has now spanned over four years.

Title I of this legislation aims to create a sensible land ownership pattern that reflects the community's vision of keeping growth compact and maintaining the integrity of the surrounding public lands. It also addresses two serious concerns facing the community: wildfires in the foot-hills of the Sierras and flooding along the Carson River.

Under this title, roughly 2,200 acres of Carson City land will be transferred to the Forest Service. This prime, forested land is far removed from Carson City and is surrounded by state park lands and the Humboldt-Toiyabe National Forest. Incorporating this large inholding into the Humboldt-Toiyabe will allow for improved management for wildlife habitat, watershed protection, and other important uses. It will also help the land remain undeveloped and open for public access.

This title also makes important adjustments to the pattern of city and Federal lands on the west side of the town. Roughly 1,000 acres of Forest Service lands will be conveyed to Carson City as protected open space. This conveyance will let both Carson City and the Forest Service do what they do best. Carson City can more actively manage public land and protect forest health.

Proper management of this buffer area between Carson City's neighborhoods and businesses and the broader public lands is an issue of great concern to the community. On July 14, 2004, thirty-one homes and three businesses were destroyed or damaged in the Waterfall Fire which spanned nearly 9,000 acres of public and private land. Through our legislation, the Forest Service land that currently borders neighborhoods will be conveyed to Carson City, allowing the city to take a more prominent role in managing fuel loads in this critical area.

There is a different threat on the east side of Carson Valley. The Carson River has a long history of dramatic flooding. Over the last 150 years the river has flooded over 30 times, with widespread destruction. A 100-year flood event in 2004 damaged 2,000 homes, one of which caused over $5 million in damage. In a show of real vision and leadership, Carson City has started an aggressive campaign to acquire land along the Carson River and thus the value of protecting the natural function of the local floodplains.

Our legislation will enhance Carson City's efforts to acquire lands in the river corridor by conveying the 3,500-acre Silver Saddle Ranch and Prison Hill area from BLM to the city. Transferring these properties to Carson City will help create a large regional park along the Carson River, support the community’s flood control efforts and address the community’s call for open space. The City has been a key partner in the management of the Silver Saddle Ranch for over a decade. Along with the Carson River, Carson City has taken the lead on the day-to-day management of the property, including providing law enforcement patrols and caring for facilities.

It is important to note that when this land is conveyed to the city it will come with conditions. The Federal Government will hold a conservation easement on these parcels to ensure that the scenic and natural qualities of the Silver Saddle Ranch and Prison Hill are protected in perpetuity. The details of the conservation easement, which will focus on protecting the river corridor and the important wildlife habitat associated with the property, will be worked out by BLM, Carson City and key stakeholders like Friends of Silver Saddle and The Nature Conservancy.

In addition to supporting Carson City's forward-looking plans for the Carson River and its floodplain, conveying the Silver Saddle and Prison Hill lands to Carson City makes sense from a resource management perspective. BLM’s Carson City District Office manages over 5 million acres of public land in western Nevada and eastern California. Their strength is not urban interface. Carson City, on the other hand, has far more resources to bring to bear in managing the Silver Saddle Ranch and Prison Hill area. Carson City has over 20 employees working on parks and open space, including two park rangers. They also have contracts in place with some of Nevada’s most respected natural resource experts. The BLM will also keep a light hand in the management of this property by virtue of the conservation easement.

There is one unique provision related to the Silver Saddle Ranch and Prison Hill conveyance that deserves special mention. A small section of this land was once owned by Carson City. This 62-acre parcel, known as the Bernhard parcel, was slated to be subdivided into 35 home sites in 2001. The BLM and Carson City both recognized that the acquisition of this land was a priority for the protection of the river corridor. Carson City responded quickly and acquired the parcel for open space before it could be developed. Their purchase price in 2001 was roughly $1 million. Later, in 2006, the BLM purchased the Bernhard parcel from Carson City for a fair market value, which by that time had reached $2.5 million.

Under this legislation, we transfer the Bernhard parcel back to Carson City as part of the Silver Saddle Ranch and Carson River Area. We feel it is important that Carson City pay back 25 percent of the $1.5 million profit they made on their transaction with the
BLM. Why just 25 percent? The 25 percent reflects the remaining value of the land that is being conveyed back to Carson City after the conservation easement is taken into account. In western Nevada, conservation easements restricting development typically recognize property values by any-where from 75 percent to 90 percent. We have required Carson City to come up with 25 percent, the most generous estimate of remaining value for the Bernhard parcel. When received, these funds would be credited into an account set up for the BLM to use for monitoring and enforcement of the conservation easement on the Silver Saddle Ranch and Prison Hill Area.

Our legislation also conveys roughly 1,700 acres of BLM land to Carson City for recreation and public purposes and open space. These are scattered parcels of BLM land in and around Carson City that would be used for primarily for parks, but also for flood control structures, water tanks, and to give residents room to roam. Carson City already controls roughly a third of these acres through Recreation and Public Purpose Act leases. This bill would quickly and efficiently transfer these lands to the city.

Another provision of Title I deals with 53 acres of land that Carson City acquired from BLM years ago, under the Recreation and Public Purposes Act. The city now believes the land is better suited for commercial development. Although Carson City already owns these lands, by statute, if the city uses the land for something other than public purposes, the land reverts back to the BLM. Our legislation would remove the reversionary interest on these 50 acres so that Carson City can sell the land at an appropriate time. If the City decides to sell the land, we re-quire that it be auctioned, with proceeds returning to the Carson City special account which provides funding for federal acquisition of sensitive lands and protection of noted cultural resources.

One of the parcels where the federal interest would be released is home to the Carson City Gun Club. Once on the edge of town, the shooting range is now surrounded by commercial development and the Eagle Valley Golf Course. Although our legislation would allow Carson City to sell this land, we have asked and received a commitment that Carson City will not sell this property until the shooting facility has been relocated to another, more appropriate location.

The first title of our legislation also transfers 50 acres of Forest Service land to the BLM. The Forest Service is also authorized to develop and implement, in partnership with Carson City, a plan for managing its land in a way that minimizes the impact of flood events on residential areas.

Under Title II, 150 acres of federal lands would be made available for sale through an open and competitive process. This includes the 50 acres transferred from the Forest Service to the BLM in Title I. All of the lands identified for sale in our legislation are isolated or seriously impacted by nearby commercial or residential development. Both agencies have concluded that these areas are isolated or seriously impacted, and that this action is consistent with their respective management plans.

Similar to past Nevada land bills, this legislation directs the Secretary of Interior to re-evaluate the land sale process and to sell back into important public projects. Ninety-five percent of the proceeds will be used to acquire environmentally sensitive lands in Carson City and to protect archeological resources. The remaining five percent of the proceeds will go to Nevada’s general education program.

This title also permanently withdraws nearly 20,000 acres of BLM lands in Carson City from land sales and mineral development. These same lands, which are critical to Carson City and are already administratively withdrawn by the BLM. This bill would make the withdrawal permanent, preserving foothill views, open space and access to public lands, in line with “Envision Carson City.”

Our bill also provides guidance that Off-Highway Vehicle (OHV) use on BLM lands in Carson City should be re-stricted to existing roads and trails until the BLM completes their travel management planning process. The Pine Nut Mountains east of Carson City are a favorite destination for local and visiting OHV enthusiasts. This provi-sion will better protect this area until routes can be designated.

Finally, the second title of the bill opens a new avenue for Carson City to continue their conservation efforts along the Carson River. The Southern Nevada Public Land Management Act (SNPLMA) will be amended to author-ize funds to acquire land for parks and trails along the Car-son River and to authorize conserva-tion initiatives, also along the Carson River. In addition, we make a small change to SNPLMA which will only af-fect Washoe County. In the White Pine County bill of 2006 (P. L. 109–432), Washoe County was given access to S-NPLMA through 2011 to acquire part of the Ballardini Ranch. The county has made good progress towards this acquisition, but has met the 2011 deadline. We are pleased to extend the authorization to 2015.

Title III addresses the Washoe Tribe’s pressing need for more land for residential and commercial development. Tribal lands adjacent to both of the colonies in Carson City, Stewart and Carson, would be expanded by this legislation. Carson Colony tribal lands would grow by over 280 acres. On this parcel, the lands located below the 5,200-foot elevation contour would be protected for environmental and commercial development. The lands above the 5,200-foot contour would only be available for traditional tribal uses, like ceremo-nial gatherings, hunting and plant col-lection. Tribal lands at the Stewart Colony would grow by only 5 acres, all of which would be available for com-mercial and residential development.

In 2003, Senator ENZIS and I passed legislation that conveyed 25 acres of Forest Service land on the shores of Lake Tahoe, to the Washoe Tribe. Unfortunately, the parcel was not accurately described in the legislation and consequently the land that was conveyed did not fully reflect our commitment to the Tribe. This bill includes a technical correction that will provide a long overdue fix to the Washoe Indian Tribe Trust Land Con-veyance (P. L. 108–67).

Lastly, this bill directs the Forest Service to develop a cooperative agree-ment with the Washoe Tribe to ensure the Tribe’s access across Forest Serv-ice land for their traditional “lifeway” walk to Lake Tahoe. For centuries the Washoe people have moved from the Pine Nut Mountains east of Carson City in the fall to Lake Tahoe in the summer. Our legislation ensures that they are able to continue this important tradition.

This bill, is built on years of public input. We believe it is a model piece of legislation and appreciate the support of our colleagues in this effort. We look forward to working with Chairman BINGAMAN, Ranking Member DOMENICI and the other distinguished members of the Energy and Natural Resources Committee to move this bill forward during the time we have remaining in this legislative session.

Mr. President, I ask unanimous con-sent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3393
Be it enacted by the Senate and House of Rep-re.sentatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.
(a) SHORT TITLE.—This Act may be cited as the “Carson City Vital Community Act of 2008”.
(b) TABLE OF CONTENTS.—The table of con-tents of this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Definitions.

TITLE I—PUBLIC CONVEYANCES
Sec. 102. Transfer of administrative jurisdic-tion from the Forest Service to the Bureau of Land Manage-ment.

TITLE II—LAND DISPOSAL
Sec. 201. Disposal of Carson City land.
Sec. 203. Withdrawal.
Sec. 204. Availability of funds.

TITLE III—TRANSFER OF LAND TO BE HELD IN TRUST FOR THE WASHOE TRIBE, SKUNK HARBOR CONVEYANCE CORRECTION, FOREST SERVICE AGREEMENT, AND ARTIFACT COLLECTION
Sec. 301. Transfer of land to be held in trust for Washoe Tribe.
SECTION 101. CONVEYANCES OF FEDERAL LAND AND CITY LAND.

(a) IN GENERAL.—Notwithstanding section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712), and the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.), if the City offers to convey to the United States title to the non-Federal land described in subsection (b)(1) that is acceptable to the Secretary of Agriculture and the Secretary of the Interior shall convey to the City, subject to valid existing rights and for no consideration, except the offer, the parcel of Federal land described in subsection (b)(2)(A) and the parcel of land described in subsection (b)(2)(B) that is inconsistent with the uses described in subsection (b)(2)(D).

(b) DESCRIPTION OF LAND.—

(1) NON-FEDERAL LAND.—The parcels of non-Federal land referred to in subsection (a) are the approximately 1,102 acres of Forest Service land identified on the Map as “To Carson City for Natural Areas”.

(2) FEDERAL LAND.—The parcels of Federal land referred to in subsection (a) are—

(A) the approximately 1,102 acres of Bureau of Land Management land identified on the Map as “To Carson City for Natural Areas”; and

(B) the approximately 3,526 acres of Bureau of Land Management land that has a reversionary interest that is identified on the Map as “Reversionary Interest of United States Released”.

(c) CONSIDERATION.—

(1) CONSIDERATION.—Before the conveyance of the 62-acre Bernhard parcel to the City, the City shall deposit in the special account established by section 201(1) an amount equal to 25 percent of the difference between—

(A) the amount for which the Bernhard parcel was purchased by the City on July 18, 2001; and

(B) the amount for which the Bernhard parcel was purchased by the Secretary on March 17, 2006.

(2) CONSERVATION EASEMENT.—As a condition of the conveyance of the parcels of land described in subsection (a), the Secretary, in consultation with Carson City and affected local interests, shall reserve a perpetual conservation easement on the parcel of land that is required for municipal water and flood management activities; and (iii) maintain or reconstruct any improvements on the parcel of land that are in existence on the date of enactment of this Act.

(b) SILVER SADDLE RANCH AND CARSON RIVER AREA.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the parcel of land described in subsection (b)(2)(B) shall—

(i) be managed by the City to protect and enhance the Carson River, the floodplain and surrounding upland, and important wildlife habitat; and

(ii) be used for undeveloped open space, passive recreation, customary agricultural practices, and wildlife protection.

(B) EXCEPTION.—Notwithstanding subparagraph (A)(i), (A)(ii) and (B), (i) construct and maintain trails and trailhead facilities on the parcel of land; and (ii) conduct projects on the parcel of land to reduce fuels; and

(c) COSTS.—Any costs relating to the conveyance of the parcels of land under subsection (a), including any costs for surveys and other administrative costs, shall be paid by the recipient of the conveyance under subsection (a), including any costs for surveys and other administrative costs.

(3) PARKS AND PUBLIC PURPOSES.—The parcel of land described in subsection (b)(2)(C) shall be managed by the City for—

(A) undeveloped open space; or

(b) recreation or other public purposes in accordance with the Act of June 14, 1926 (commonly known as the “Recreation and Public Purposes Act”) (43 U.S.C. 889 et seq.).

(4) REVERSIONARY INTEREST.—

(A) RELEASE.—The reversionary interest described in subsection (b)(2)(D) shall terminate on the date of enactment of this Act.

(B) CONVEYANCE BY CITY.—

(i) IN GENERAL.—If the City sells, leases, or otherwise conveys any portion of the land described in subsection (b)(2)(D), the sale, lease, or conveyance shall be—

(I) through a competitive bidding process; and

(ii) except as provided in clause (i), for not less than fair market value.

(c) COSTS.—Any costs relating to the conveyance of the parcel of land referred to in subsection (a) shall be paid by the Secretary of the Interior.

(b) USE OF LAND.—

(1) RIGHTS.—The City shall use the land in accordance with the laws (including the regulations) and rules generally applicable to the National Forest System.

(2) MANAGEMENT PLAN.—The Secretary of Agriculture, in consultation with the City and other interested parties, may develop and implement a management plan for the Federal land referred to in subsection (a), to enhance the Carson River, the floodplain and surrounding upland, and important wildlife habitat; and

(3) EASEMENT.—As a condition of the conveyance of the parcels of land described in subsection (b)(2)(D), the parcel of land shall, at the discretion of the Secretary, revert to the United States.

(c) USE OF LAND.—

(1) RIGHT-OF-WAY.—Not later than 10 days after the date of enactment of this Act, the Secretary of the Interior shall grant to the City a right-of-way over land referred to in subsection (a). The right-of-way shall be for flood management facilities located on the land.

(d) DISPOSAL.—The land referred to in subsection (a) shall be disposed of in accordance with section 201.

(2) DISPOSITION OF PROCEEDS.—The gross proceeds from the disposal of land under paragraph (2) shall be distributed in accordance with section 202(a).

(b) DISPOSITION OF PROCEEDS.—The gross proceeds from the disposal of land under subsection (a) shall be disposed of in accordance with section 202(a).

TITLE II—LAND DISPOSAL

SEC. 201. DISPOSAL OF CARSON CITY LAND.

(a) CONVEYANCE.—Notwithstanding sections 202 and 203 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712, 1713), the Secretary of the Interior shall, in accordance with that Act, this title, and other applicable law, and subject to valid existing rights, conduct sales of the parcels of Federal land described in subsection (b) to qualified bidders.

(b) DESCRIPTION OF LAND.—The parcels of Federal land referred to in subsection (a) are—

(1) the approximately 103 acres of Bureau of Land Management land identified as “Lands for Disposal” on the Map; and

(2) the approximately 50 acres of Bureau of Land Management land identified as “Parcel #1” on the Map.
c. COMPLIANCE WITH LOCAL PLANNING AND ZONING LAWS.—Before a sale of Federal land under subsection (a), the City shall submit to the Secretary a certification that qualified bids for the land are consistent with—

(1) City zoning ordinances; and
(2) any master plan for the area approved by the City.

2. MODE OF SALE: CONSIDERATION.—The sale of Federal land under subsection (a) shall be—

(1) consistent with subsections (d) and (f) of section 201 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1713);
(2) unless otherwise determined by the Secretary, through a competitive bidding process; and
(3) for not less than fair market value.

3. WITHDRAWAL.—Subject to valid existing rights, the Federal land described in subsection (b) is withdrawn from—

(1) all forms of entry and appropriation under the public land laws; and
(2) location, entry, and patent under the mining laws; and
(3) operation of the mineral leasing and geothermal leasing laws.

4. DEADLINE FOR SALE.—(1) GENERAL.—Except as provided in paragraph (2), not later than 1 year after the date of enactment of this Act, if there is a qualified bidder for the land described in paragraph (1) and subsection (b), the Secretary of the Interior shall offer the land for sale to the qualified bidder.

(b) POSTPONEMENT; EXCLUSION FROM SALE.—(A) REQUEST BY CARSON CITY FOR POSTPONEMENT OR EXCLUSION.—At the request of the City, the Secretary shall postpone or exclude from the sale under paragraph (1) all or a portion of the land described in paragraphs (1) and (2) of subsection (b).

(B) INDEFINITE POSTPONEMENT.—Unless specifically requested by the City, a postponement under subparagraph (A) shall not be indefinite.

SEC. 202. DISPOSITION OF PROCEEDS.

(a) IN GENERAL.—Of the proceeds from the sale of land under sections 101(d)(4)(B) and 201(a)—

(1) 5 percent shall be paid directly to the State for use in the general education program in the State; and
(2) the remainder shall be deposited in a special account in the Treasury of the United States to be known as the “Carson City Land Endowment Account”, and shall be available without further appropriation to the Secretary until expended to—

(A) reimburse costs incurred by the Bureau of Land Management for preparing for the sale of the Federal land described in section 201(b), including the costs of—

(i) surveys and appraisals; and
(ii) compliance with—

(I) the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and
(II) sections 202 and 203 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712, 1713);

(B) reimburse costs incurred by the Bureau of Land Management and Forest Service for preparing for, and carrying out, the transfers of land to be held in trust by the United States under section 301;
(C) acquire land or an interest in environmentally sensitive land; and
(D) conduct an inventory of, evaluate, and protect unique archaeological resources (as defined in section 3 of the Archaeological Resources Protection Act of 1979 (16 U.S.C. 470bbb)) of the City.

(b) SILVER SADDLE ENDOWMENT ACCOUNT.—(1) ESTABLISHMENT.—There is established in the Treasury of the United States a special account, to be known as the “Silver Saddle Endowment Account”, consisting of such amounts are deposited under section 101(c)(1).

(2) AVAILABILITY OF AMOUNTS.—Amounts deposited in the account established by paragraph (1) shall be available to the Secretary, without further appropriation, for the oversight and enforcement of the conservation easement established under section 101(c)(2).

(c) INVESTMENT OF ACCOUNTS.—(1) IN GENERAL.—Amounts deposited as principal in the Carson City Special Account established by subsection (a)(2) and the Silver Saddle Endowment Account established by subsection (b)(1) shall earn interest at the amount determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the United States of comparable maturities.

(2) AVAILABILITY.—Any interest earned under paragraph (1) shall be—

(A) added to the principal of the applicable account; and
(B) expended in accordance with subsection (a)(2) or (b)(2), as applicable.

SEC. 203. WITHDRAWAL.

(a) IN GENERAL.—Subject to valid existing rights, the Federal land described in subsection (b) is permanently withdrawn from—

(1) all forms of entry and appropriation under the public land laws and mining laws; and
(2) location and patent under the mining laws; and
(3) operation of the mineral laws, geothermal leasing laws, and mineral material laws.

(b) DESCRIPTION OF LAND.—The land referred to in subsection (a) consists of approximately 19,747 acres, which is identified in the Map as “Urban Interface Withdrawal”.

(c) OFF-HIGHWAY VEHICLE MANAGEMENT.—Until the date on which the Secretary, in consultation with the State, the City, and any other interested persons, completes a transportation plan for Federal land in the City, the use of motorized and mechanical vehicles on Federal land within the City shall be limited to roads and trails in existence on the date of enactment of this Act unless the use of the vehicles is needed—

(1) for administrative purposes; or
(2) to respond to an emergency.

SEC. 204. AVAILABILITY OF FUNDS.

(1) in paragraph (3)(A)(iv), by striking “Clark, Lincoln, and White Pine Counties and Washoe County (subject to paragraph 4)” and inserting “Clark, Lincoln, and White Pine Counties, and Carson City (subject to paragraph 4)”;

(2) in paragraph (4), by striking “(a) APPLICABILITY” and inserting “(a) APPLICABILITY; and”;

(3) in paragraph (7), by striking “(b) LIMITATION FOR CARSON CITY” and inserting “(b) LIMITATION FOR CARSON CITY;”;

(4) in paragraph (8), by striking “(C) (1) ESTATES.—The Representative from Nevada shall” and inserting “(C)(1) ESTATES.—The Representative from Nevada shall”;

(5) LIMITATION FOR CARSON CITY.—Carson City shall be permitted to earn, for expenditure amounts to acquire land or an interest in land for parks or national areas and for conservation initiatives—

(a) adjacent to the Carson River; or
(b) within the floodplain of the Carson River.”;

TITLE III—TRANSFER OF LAND TO BE HELD IN TRUST FOR THE WASHOE TRIBE, SKUNK HARBOR CONVEYANCE, FOREST SERVICE AGREEMENT, AND APPROVAL OF CONGRAZIONAL RECORD — SENATE

SEC. 301. TRANSFER OF LAND TO BE HELD IN TRUST FOR WASHOE TRIBE.

(a) IN GENERAL.—Subject to valid existing rights in all, title to the interest of the United States in and to the land described in subsection (b)—

(1) shall be held in trust by the United States for the benefit and use of the Tribe; and
(2) shall be part of the reservation of the Tribe.

(b) DESCRIPTION OF LAND.—The land referred to in subsection (a) consists of approximately 293 acres, which is identified on the Map as “To Washoe Tribe”.

(c) SURVEY.—Not later than 180 days after the date of enactment of this Act, the Secretary of Agriculture shall complete a survey of the boundary lines to establish the boundaries of the land taken into trust under subsection (a).

(d) USE OF LAND.—(1) GAMING.—Land taken into trust under subsection (a) shall not be eligible, or considered to have been taken into trust, for class II gaming or class III gaming purposes (as those terms are defined in section 4 of the Indian Gaming Regulatory Act (25 U.S.C. 2703)).

(2) TRUST LAND FOR CEREMONIAL USE AND CONSERVATION.—With respect to the use of the land taken into trust under subsection (a), the Tribe—

(A) shall limit the use of the land above the 5,200-foot elevation contour to—

(i) traditional and customary uses; and
(ii) stewardship conservation for the benefit of the Tribe; and

(B) shall not permit any—

(i) permanent residential or recreational development on the land; or
(ii) commercial use of the land, including commercial development or gaming.

(3) TRUST LAND FOR COMMERCIAL AND RESIDENTIAL USE.—With respect to the use of the land identified as “To Washoe Tribe” on the Map, the Tribe shall limit the use of the land below the 5,200-foot elevation to—

(A) traditional and customary uses; and
(B) stewardship conservation for the benefit of the Tribe; and

(C)(i) residential or recreational development; or
(ii) commercial use.

THINNING, LANDSCAPE RESTORATION.—With respect to the land taken into trust under subsection (a), the Secretary of Agriculture, in consultation and coordination with the Tribe, may carry out any thinning and other landscape restoration activities on the land that is beneficial to the Tribe and the Forest Service.

SEC. 302. CORRECTION OF SKUNK HARBOR CONVEYANCE.

(a) PURPOSE.—The purpose of this section is to amend Public Law 108–67 (117 Stat. 880) to make a technical correction to the land conveyance authorized under that Act.

(b) TECHNICAL CORRECTION.—Section 2 of Public Law 108–67 (117 Stat. 880) is amended—

(1) by striking “Subject to” and inserting the following:

(a) IN GENERAL.—Subject to; and

(2) in subsection (a) (as designated by paragraph (1)), by striking “the parcel” and all that follows through the period at the end and inserting the following:

To approximately 23 acres of land identified as “Parcel #1” on the map entitled ‘Skunk Harbor Conveyance’ and dated June 24, 2008, the southern boundary of which is the low water line of Lake Tahoe at elevation 6,223.0 (Lake Tahoe Datum).”;} and
In addition to reducing our dependence on foreign oil, a producing well provides both State and Federal taxes, pays royalties to land and mineral owners, and keeps jobs and dollars on American soil and in American pockets. A plugged well provides none of this. On the contrary, the IOGCC reported that in 2006, plugged and abandoned marginal wells resulted in the loss of $1.77 billion in economic output, $369.2 million in earnings reductions, and 2,223 lost jobs.

These statistics testify to the importance of America's marginal well production. With gasoline prices at record highs, Congress must ensure that government policies do not discourage, and instead prolong and enhance, production from these low volume wells.

That is why today I am glad to join with my fellow Oklahoman, Congressman Dan Boren, to introduce the Marginal Well Production Preservation and Enhancement Act. This bill will streamline and clarify government regulations, prolong economic feasibility, and enhance production volumes from marginal wells. Every onshore oil and gas well production contributes nearly one percent of the oil and 85 percent of the natural gas produced in America.

In fact, marginal wells produced more than 355 million barrels of oil in 2006. That's more than the majority of the five largest petroleum producers in the world. Marginal wells contribute nearly 18 percent of the oil and 9 percent of the natural gas produced in America.

Moreover, marginal operations provide the majority of oil and natural gas, with 85 percent of Oklahoma's oil coming from marginal wells.
New drugs are constantly entering the marketplace, but there’s very little objective information about what drug might be marginally safer or more effective than existing drugs.

Even the most vigilant doctors would be challenged to monitor the dozens of medical journals that could contain a helpful study comparing the safety and effectiveness of drugs.

The pharmaceutical industry has taken advantage of this information void.

It spends about $7 billion a year marketing to physicians and sends over 90,000 sales representatives, called detailers, to pitch their company’s latest and most expensive drugs.

What the drug industry is doing is not education. It is promotion. And there’s a big difference between the two.

The drug company sales representatives are hired more for their charisma than their medical knowledge, and they provide doctors with information skewed to portray their company’s product in the most favorable light.

The sales representatives arrive with free lunches and free drug samples. Lucrative speaking and consulting fees are sometimes negotiated directly with physicians who change their prescribing to the liking of a drug company.

The consequence of such a system is clear: an over-reliance on prescribing the latest, most expensive drugs even when existing drugs are as effective, as safe, or cost less.

The pain-reliever Vioxx provides a cautionary tale of what can happen when marketing prowess trumps evidence-based medicine.

Heavy marketing quickly made Vioxx a blockbuster drug with $3 billion a year in sales, despite a lack of evidence that it could provide any greater pain relief for most patients than Advil and despite early indications that it increased the risk of heart attacks. Many Americans needlessly paid more and placed themselves at risk because the benefits of Vioxx were oversold and the risks minimized.

Another example is the marketing of calcium-channel blockers in 1990s. Heavy marketing increased the sales of the new patent-protected calcium-channel blockers but decreased sales of other blood-pressure drugs, such as thiazide diuretics and beta-blockers, that were cheaper and often more effective.

A more recent example is the cholesterol drug Vytorin. The new drug has been heavily marketed since it was introduced in 2004. But a study released earlier this year did not find that Vytorin was any better at limiting plaque buildup in the arteries than Zocor, an older cholesterol drug that recently came out in a lower-priced generic form.

Part of the solution is academic detailing, an idea first developed by Jerry Avorn, a physician at Harvard Medical School and Brigham and Women’s Hospital in Boston.

Academic detailing programs use some of the marketing tools that the pharmaceutical industry uses effectively, such as office visits to physicians and easy-to-read materials, but employs them to promote appropriate prescribing, based on an objective analysis of the medical literature.

These programs send trained nurses and pharmacists, armed with unbiased information, to doctors’ offices—have been shown to generate $2 in savings for every $1 that it costs to implement them.

Pennsylvania’s PACE program is the State’s pharmacy assistance program for low- and moderate-income seniors, and it runs the most notable publicly funded academic detailing program.

The PACE academic detailing program has reduced costs associated with the overuse of Nexium, an acid-reflux drug for which there are similar lower-cost alternatives, and reduced the use of Cox-2 inhibitors such as Vioxx.

Today, I am joining Senator Koni and Senators Kennedy and Casey in introducing legislation that would promote additional academic detailing programs.

The Independent Drug Education and Outreach Act would provide funds to medical schools, pharmacies, and others for the development of educational materials based on what unbiased, peer-reviewed medical literature says about appropriate prescribing for a particular condition.

The bill also would provide funds to ten governmental or non-profit groups to train nurses and pharmacists and to send them to physician offices to present and discuss this information directly with physicians.

The bill includes protections against financial conflicts of interest and calls on the Agency for Health Care Research and Quality to review the accuracy of the information provided to doctors.

The Independent Drug Education and Outreach Act would begin to fix one of the glaring shortcomings of our current health care system: the lack of a systematic way of disseminating information on the relative benefits, risks, and costs of various treatment options directly to doctors.

When it comes to prescription drugs, newer isn’t necessarily better. In many cases, they are not.

We can no longer afford to rely on drug company salespersons to be doctors’ primary source of information about new drugs.

I urge my colleagues to support this bill.

By Mr. Reid (for Mr. Kennedy (for himself, Mr. Leahy, Mr. Dodd, Mr. Harkin, Ms. Mikulski, Mr. Bingaman, Mrs. Murray, Mr. Reed, Mrs. Clinton, Mr. Obama, Mr. Sanders, Mr. Brown, and Mr. Whitehouse)): S. 3398. A bill to amend the Federal Food, Drug, and Cosmetic Act with respect to liability under State and local requirements respecting devices; to the Committee on Health, Education, Labor, and Pensions.

Mr. Harkin. Mr. President, I am proud to join my colleagues in introducing the Medical Device Safety Act. This legislation reverses the Supreme Court’s erroneous decision in Riegel v. Medtronic. There, the Court misread a statute designed to protect consumers by giving the Food and Drug Administration the authority to approve medical devices as preempting state tort claims when a medical device causes harm. Riegel prevents consumers from receiving fair compensation for injuries sustained, medical expenses incurred and lost wages, and it must be reversed.

Congressional action should be unnecessary. When Congress passed the Medical Device Amendments, or MDA, in 1976, it did so “[t]o provide for the safety and effectiveness of medical devices intended for human use.” In other words, Congress passed the MDA to protect consumers from dangerous medical devices. Toward that end, Congress gave the FDA the authority to approve, prior to a product entering the market, certain medical devices. For over 30 years the MDA has been in effect, and over that period, FDA regulation and tort liability have complemented each other in protecting consumers.

Given the MDA’s purpose, and the fact it has operated successfully for 30 years, I was disheartened to find the Court twist the meaning of the statute to strip from consumers all remedies when a medical device fails. In contrived logic, the Court found that the FDA’s requirements in approving a medical device preempted state laws designed to ensure that manufacturers marketed safe devices. In other words, the Court believes that a company’s responsibility to its patients ends when it receives FDA approval. I strenuously disagree.

In fact, there is absolutely no evidence that Congress intended that under the MDA, consumers would lose their only avenue for receiving compensation for injuries caused by negligence or inadequate devices. Not a single member or committee report articulated the view that the statute would preempt state tort law.

Nevertheless, because of the Court’s decision, it is imperative that Congress act to ensure that those harmed by flawed medical devices can seek compensation. The bill introduced today addresses the Court’s action by explicitly stating that actions for damages under state law are preserved. Specifically, it amends section 522 of the Federal Food, Drug, and Cosmetic Act to state that the section shall not be construed to modify or otherwise affect any action for damages or the liability
of any person under the law of any State. And, the bill applies retroactively to the date of the enactment of the MDA, consistent with Congress’s intent when it passed that act over 30 years ago. Practically, that means that it applies to cases pending on the date of enactment for claims for injuries sustained prior to enactment.

The harm from Riegel, unless Congress acts, cannot be more real. Take Riegel itself. In 1996, Charles Riegel had a heart attack, and as a result of interference between a magnet and his hearing device, he suffered damage to his right coronary artery. During the procedure, Mr. Riegel’s surgeon used Medtronic’s Evergreen Balloon Catheter. The catheter burst inside Mr. Riegel’s artery, causing him severe and permanent injuries to his heart and left leg.

Under our system of law, when someone is injured, he or she can normally seek redress from the entity that caused him or her harm. Yet, because of the Court’s decision, Mr. Riegel and his wife will receive no compensation for the defective design and inadequate warning.

It is not just Mr. Riegel. In 2002, Gary Despain was implanted with a defective hearing aid Sountec manufactured. While working as a welder, he suffered damage to his right ear, apparently as a result of interference between a magnet in his hearing device and some electronic welding equipment being used in the plant. The device caused severe ringing in his ear, but the labeling for the device failed to warn of this potential risk. Mr. Despain had to have the device surgically removed and he remains unemployed and disabled as a result of the device.

Nevertheless, two weeks after the Court’s Riegel decision, Mr. Despain’s lawsuit against Sountec was dismissed and Mr. Despain has no ability to seek remedies for his injuries.

The result of Riegel, therefore, is that the event the FDA does an inadequate job of inspecting and assuring the safety of medical devices—and because tort actions are now precluded—then consumers are left at extreme risk.

While FDA approval of medical devices, moreover, is important, it cannot be the sole protection for consumers. FDA approval is simply inadequate to replace the long-standing safety incentives and consumer protections that the common law provided for.

As a senior member of the Health, Education, Labor and Pension Committee, which has oversight over FDA, I have worked hard to ensure that the FDA performs its job. No matter how effective the FDA is, however, the FDA simply cannot guarantee that no defective, dangerous and deadly medical device will reach consumers. As the former Director of the FDA’s Center for Devices and Radiological Health acknowledged, the FDA’s “system of approval is not perfect, and on his unexpected problems [with approved devices] do arise.” In 1993, a House report identified a “number of cases in which the FDA [had] approved devices that proved unsafe in use.”

The fact is, the FDA conducts the approval process with minimal resources and simply does not have adequate funds to genuinely ensure that devices are safe or to properly and effectively reevaluate approvals as new information becomes available.

Further, the FDA approval process is based on partial information. A principal shortcoming is that the device’s manufacturer compiles the studies and data supporting an application, and the data is often unreliable. And, the FDA does not conduct independent investigations into a device’s safety. A manufacturer, moreover, is not required to submit information about development of the device, including alternative designs, manufacturing methods and labeling possibilities that the manufacturer considered, but rejected.

In 1993, an FDA committee found flaws in the product and analysis of the clinical studies used to support applications that were “sufficiently serious to impede the agency’s ability to make the necessary judgments about [device] safety and effectiveness.” It added, “[o]f the main reasons [for the experimental approval] is that the data upon which we base our safety and effectiveness decisions isn’t perfect.” Likewise, in 1996, the Inspector General of the Department of Health and Human Services reported that “serious deficiencies in the clinical data submitted as part of pre-market applications.”

FDA review, moreover, is a one-time event with no reevaluation and very little FDA oversight once a device reaches doctors and patients. In fact, even the best-designed and most reliable clinical studies by their very nature cannot duplicate all aspects and hazards of everyday use. Moreover, while manufacturers are supposed to report defects and injuries, the FDA has admitted that there is “severe underreporting” of defects and injuries.

Given the FDA’s limitations, it is crucial that an individual have a right to seek redress. When defective medical devices reach the market, whether or not approved by the FDA, patients are often injured. Those injured are often left temporarily unable to work or to enjoy normal lives, and in many cases never fully recover. State tort law provides for relief for patients injured by defective medical devices and should not be foreclosed.

Not only does access to State court mean that a person injured can receive fair compensation, but there are other advantages. Such suits aid in exposing dangers and serve as a catalyst to address their consequences. Through discovery, litigation can help uncover previously unavailable information on adverse effects of products that might not have been caught during the regulatory process. Demand for documents and information on product risks that might not have been shared with the FDA. In this way, the public as a whole is alerted to dangers in medical products.

Finally, providing the ability to sue when injured provides an important incentive to manufacturers to use the utmost care. Additionally, threat of product liability suits creates continuing incentive for device manufacturers to improve the safety of their device, even after FDA approval.

The Court fundamentally misread Congress’s intent in passing the Medical Device Amendments in 1976, and Riegel represented yet another victory by big business over consumers. Those injured, however, deserve to have their day in court and are entitled to compensation when they are injured by faulty medical devices, have medical expenses to pay and lost wages, regardless of whether FDA approved a device or not. We must reverse this erroneous decision and ensure that those who have suffered serious injury at the hands of others receive justice.

By Mrs. LINCOLN (for herself, Mr. SMITH, Ms. CANTWELL, Mr. CORNYN, Mrs. MURRAY, Mrs. DOLE, Ms. LANDRIEU, Mr. CHAMBLISS, Mr. WICKER, and Mr. VITTER):

S. 3399. A bill to amend the Internal Revenue Code of 1986 to make permanent the reduction in the rate of tax on qualified timber gain of corporations, and for other purposes; to the Com-

By Mrs. LINCOLN (for herself, Mr. SMITH, Ms. CANTWELL, Mr. CORNYN, Mrs. MURRAY, Mrs. DOLE, Ms. LANDRIEU, Mr. CHAMBLISS, Mr. WICKER, and Mr. VITTER):

S. 3399. A bill to amend the Internal Revenue Code of 1986 to make permanent the reduction in the rate of tax on qualified timber gain of corporations, and for other purposes; to the Com-
that all business forms have the necessary tools so they can be successful in the global marketplace. Timber companies that are organized as corporations continue to be under intensifying pressure to reorganize. In that case, a corporation owning substantial real estate facilities might be forced to sell some of those facilities and to make other structural changes in order to comply with the relevant tax rules that it would newly become subject to. This would be likely to cause disruption in some of the communities and also would make it harder for U.S. companies to compete internationally.

In Arkansas, like so many other States across our Nation, a strong forest industry is essential to having a strong economy. A permanent solution to the TREE Act II is imperative for this industry and supporting the jobs it provides. I look forward to working with my colleagues on the Senate Finance Committee to ensure that this important tax policy is made permanent.

Mr. FEINGOLD. Mr. President, today, the junior Senator from Rhode Island, Senator Whitehouse, and I will introduce the Executive Order Integrity Act of 2008. The bill prevents secret changes to published Executive Orders by requiring the President to place a notice in the Federal Register when he has modified or revoked a published Order. Through this simple measure, the bill takes an important step toward stemming the growth of secret law in the executive branch.

The principle behind this bill is straightforward. It is a basic tenet of democracy that the people have a right to know the law. Indeed, the notion of “secret law” has been described in court opinions and law treatises as “repugnant” and “an abomination.” That is why the laws passed by Congress have historically been matters of public record.

But the law that applies in this country includes more than just statutes. It includes regulations, the controlling legal interpretations of courts and the executive branch, and certain Presidential directives. As we learned at a hearing of the Judiciary Committee’s Constitution Subcommittee that I chaired in April, some of this body of executive and judicial law is increasingly being kept secret from the public, and too often from Congress as well. The Bush administration has concealed Department of Justice legal opinions, interpretations of the Foreign Intelligence Surveillance Act, and even the agency rule that requires Americans to show identification at airports.

The shroud of secrecy extends to Executive Orders and other Presidential directives that carry the force of law. The Federal Register Act requires the President to publish any Executive Orders that have general applicability and legal effect. Through the diligent efforts of my colleague Senator Whitehouse, we learned last December that the Department of Justice has taken the position that a President can “waive” or “modify” any Executive Order without giving notice to the public or Congress—simply by not following it. In other words, even in cases where the President is required to make the law public, the President can change the law in secret.

The Office of Legal Counsel memorandum that contains this position is still classified, but Senator Whitehouse convinced the Department of Justice to declassify certain statements in the memorandum. The Senator from Rhode Island spoke on the floor last December, but did not make clear about these statements. They include the statement that “[w]henever [the President] wishes to depart from the terms of a previous executive order,” he may do so, because “an executive order cannot limit a President’s power to alter or even to violate it.”

Now, no one disputes that a President can withdraw or even an Executive Order at any time; that is every President’s prerogative. But abrogating a published Executive order without any public notice works a secret change in the law. Worse, because the published Order stays on the books, it actively misleads Congress and the public as to what the law is.

This is not just a hypothetical problem dreamed up by the Office of Legal Counsel. It has happened and it could happen again. To list just one example, the administration’s warrantless wiretapping program not only violated the Foreign Intelligence Surveillance Act; it was inconsistent with several provisions of Executive Order 12333, the longstanding executive order governing electronic surveillance and other intelligence activities. Apparently, the administration believed its actions consistent with a tacit amendment of that Executive Order, but one can take any Executive Order, or modifies an unpublished Executive Order unless or until the Order is formally withdrawn or amended, just as the head of an agency must adhere to the agency’s regulations. I happen to agree. But this bill does not take a position on OLC’s assertion that any deviation from the Executive Order by the President is a permissible amendment of that Order. It simply requires public notice that the amendment has occurred.

Fourth, the bill does not require the publication of classified information about intelligence sources and methods or similar information. The basic fact that the published law is no longer in force in a new context cannot be classified. On rare occasions, national security can justify elected officials keeping some information secret, but it can never justify lying to the American people about what law is. Maintaining two different sets of laws, one public and one secret, is just that—deceiving the American people about what law applies to the government’s conduct.

I commend Senator Whitehouse for his tireless work to bring this issue to light, and I urge all of my colleagues in the Senate to support this modest effort to ensure the integrity of our published laws.

Mr. President, I ask unanimous consent that the text of the bill be placed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the Federal Register, as follows:

S. 3405

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

TITLE I. SHORT TITLE.

This Act may be cited as the “Executive Order Integrity Act of 2008”.

The Act may be cited as the “Executive Order Integrity Act of 2008”.
SEC. 2. REVOCSATIONS, MODIFICATIONS, WAIVERS, AND SUSPENSIONS OF PRESIDENTIAL PROCLAMATIONS AND EXECUTIVE ORDERS.

Section 1050 of title 44, United States Code, is amended by adding at the end the following:

'(d) REVOCSATIONS, MODIFICATIONS, WAIVERS, AND SUSPENSIONS OF PRESIDENTIAL PROCLAMATIONS AND EXECUTIVE ORDERS.—

'(1) NOTICE REQUIRED.—If the President, whether formally or informally, and whether through express order, conduct, or other means—

'(A) revokes, modifies, waives, or suspends any portion of a Presidential proclamation, Executive Order, or other Presidential directive that was published in the Federal Register; or

'(B) authorizes the revocation, modification, waiver, or suspension of any portion of such Presidential proclamation, Executive Order, or other Presidential directive; notice of such revocation, modification, waiver, or suspension shall be published in the Federal Register within 30 days after the revocation, modification, waiver, or suspension, in accordance with the terms under paragraph (2).

'(2) NOTICE OF NOTICE.—

'(A) IN GENERAL.—Except as provided under subparagraph (B), the notice required under paragraph (1) shall specify—

'(i) the Presidential proclamation, Executive Order, or other Presidential directive, and any particular portion thereof that is affected;

'(ii) for each affected directive or portion thereof, whether that directive or portion thereof was revoked, modified, waived, or suspended;

'(iii) except where such information is classified, the specific nature and circumstances of the revocation, modification, waiver, or suspension;

'(B) REVISED EXECUTIVE ORDER.—Where the revocation, modification, waiver, or suspension of a Presidential proclamation, Executive Order, or other Presidential directive is accomplished through the publication in the Federal Register of a revised Presidential proclamation, Executive Order, or other Presidential directive, the President that replaces or amends the one that was revoked, modified, waived, or suspended, that revised Presidential proclamation, Executive Order, or other Presidential directive shall include notice for purposes of paragraph (1).

'(3) CLASSIFIED INFORMATION.—If the information specified under paragraph (2)(A)(i)(II) is classified, such information shall be provided to Congress, using the security procedures established under section 501(d) of the National Security Act of 1947 (50 U.S.C. 431(d)), in the form of a classified annex delivered to—

'(A) the majority and minority leader of the Senate;

'(B) the Speaker, majority leader, and minority leader of the House of Representatives;

'(C) the Committee on the Judiciary of the Senate and the Committee on the Judiciary of the House of Representatives; and

'(D) if the information pertains to national security matters, the Select Committee or the Permanent Select Committee on Intelligence of the House of Representatives.

'(4) RULE OF CONSTRUCTION.—Nothing in this section is construed as either authorizing or prohibiting the revocation, modification, waiver, or suspension of any Presidential proclamation, Executive Order, or other Presidential directive that was published in the Federal Register through means other than a formal directive issued by the President and published in the Federal Register.'
measures to mitigate a physical or mental impairment, the effects of those measures must be taken into account when judging whether a person is "disabled." Corrective measures could include anything from visual aids to a prosthesis. The Court went on to say that the approach adopted by the Equal Employment Opportunity Commission—that persons are to be evaluated in their hypothetical uncorrected state—was an impermissible interpretation of the ADA.

In the Toyota case, the Supreme Court applied the same analysis to medication used to treat hypertension, and concluded that an employee who was fired because he had hypertension was not protected under the ADA, because medication alleviated some of his symptoms.

In Kirkingburg, the Supreme Court went further and declared that mitigating measures to be included in the determination of whether someone is disabled included not only artificial aids such as devices and medications but also subconscious measures an individual may use to compensate for his or her impairment. Kirkingburg was an individual who was blind in one eye, and the court found that he was not "disabled" under the ADA.

Moreover, in another Supreme Court case, Toyota v. Williams 2002, the Court held that there must be a "demanding standard for qualifying as disabled." This too, has resulted in a much more restrictive requirement than Congress intended. It has had the effect of excluding countless individuals with disabilities from the protections of the law.

Together, these Supreme Court cases have created a supreme absurdity: The more successful a person is at coping with a disability, the more likely it is for a court to find that they are no longer sufficiently disabled to be protected by the ADA. And if these individuals are protected under the ADA, then their requests for a reasonable accommodation at work can be denied. Or they can be fired—without recourse.

Think about it this way: Imagine that you are an individual with a disability who has a job. Due to your disability, you take some medication or maybe you use an assistive device. The use of the medication or the assistive device allows you to be qualified to do your job, but you are not protected under the ADA. And they then deny you a reasonable accommodation at work. At some point, you need to request a reasonable accommodation from your employer—maybe, if you have diabetes, it is 10 minutes a day to take your insulin and check your blood levels. Or perhaps you use a prosthesis. Your employer says no, they don’t want to give you an accommodation. Eventually you get fired as a result. When you go to court, your employer argues that you aren’t really a person with a disability so you aren’t entitled to the protection of the ADA. This is under these Supreme Court cases, the employer prevails by convincing the court that because of the mitigating measure—the prosthesis—you can’t meet the test of being "disabled" under the law.

So what are you supposed to do in these cases? If you don’t take the medication or use the assistive device, then you are not qualified to do your job. On the other hand, if you stop taking the medication, or stop using your prosthesis, you will be considered a person with a disability under the ADA, but you will be unable to do your job.

What would be the Catch 22 situation that, today, confronts countless people with disabilities. This is clearly not what I intended, or what Congress intended, when we passed the ADA in 1990. It boggles the mind that any court would rule that, for instance, multiple sclerosis or muscular dystrophy, is not a disability covered by the ADA. But that is where we are today. And that is why I am introducing this bill today.

This Senate bill builds on the success of the House bill. However, it seeks to broaden the definition of disability in a way that maximizes bipartisan consensus and minimizes unintended consequences.

Our bill leaves the ADA’s familiar disability definition language intact: A person with a disability is one who has a physical or mental impairment that ‘‘substantially limits’’ one or more of the major life activities of the individual. It does not substitute the term ‘‘materially restricts’’ as in the House bill. Instead, the bill takes several specific and general steps that, individually and in combination, direct courts toward a more generous meaning and application of the definition.

This bill will overturn the basis for the reasoning in the Supreme Court decisions—the Sutton trilogy and the Toyota case—that has created this so damaging for so many people with very real disabilities.

This bill fixes the ‘‘mitigating measures’’ problem by clearly stating that mitigating measures—like the medication or assistive devices I talked about earlier—are not to be considered in determining whether someone is entitled to the protections of the ADA.

This bill will make it easier for people with disabilities to be covered by the ADA because it effectively expands the definition of disability to include many more major life activities, as well as a new category of major bodily functions. This latter point is important for those with immune disorders, or cancer, or kidney disease, or liver disease, because they no longer need to show what specific activity they are limited in, in order to meet the statutory definition of disability.

This bill also revives the ‘‘regarded as’’ prong of the definition of disability, and makes it easier for those with physical or mental impairments to be able to seek relief if they have been subjected to an adverse action because of their disability.

This bill has a broad construction portion which protects the courts and the agencies that the definition of disability is to be interpreted broadly, to the maximum extent permitted by the ADA.

Mr. President, 18 years ago, the Americans with Disabilities Act passed with overwhelming bipartisan support. Likewise, today, with the introduction of this bill, we are building a strong bicameral, bipartisan majority to support the ADA Amendments Act of 2008.

Let me say, again, that I am grateful for the bipartisan spirit with which we are approaching this legislation. We have an opportunity to come together and make an important difference for millions of Americans with disabilities.

This bill also enjoys strong support on both sides of the aisle. It is supported by most national disability organizations, as well as the U.S. Chamber of Commerce, the National Association of Manufacturers, the Society for Human Resource Management, and the Human Resources Policy Association.

I look forward to working with my colleagues on both sides of the aisle to pass this bill, and to advance and fulfill the original promise of the Americans with Disabilities Act.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD. There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3406 Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. SHORT TITLE.

This Act may be cited as the “ADA Amendments Act of 2008.”

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) in enacting the Americans with Disabilities Act of 1990 (ADA), Congress intended that the Act “provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities” and provide broad coverage;

(2) in enacting the ADA, Congress recognized that physical and mental disabilities in no way diminish a person’s right to fully participate in all aspects of life, but that people with physical or mental disabilities are frequently precluded from doing so because of prejudice, antiquated attitudes, or the failure to remove societal and institutional barriers;

(3) while Congress expected that the definition of disability under the ADA would be interpreted consistently with how courts had applied the definition of a handicapped individual under the Rehabilitation Act of 1973, that expectation has not been fulfilled;

(b) PURPOSES.—It is the purpose of this title to—

(1) to broaden the definition of disability under the ADA in 1990.

(c) DEFINITIONS.—The term ‘‘disability’’ means—

(1) a physical or mental impairment that constitutes a substantial limitation on a major life activity of an individual;

(2) in enacting the Americans with Disabilities Act of 1990 (ADA), Congress intended that the Act ‘‘provide a clear and comprehensive national mandate for the elimination of discrimination against individuals with disabilities’’ and provide broad coverage;

(3) while Congress expected that the definition of disability under the ADA would be interpreted consistently with how courts had applied the definition of a handicapped individual under the Rehabilitation Act of 1973, that expectation has not been fulfilled;

(4) the holdings of the Supreme Court in Sutton v. United Air Lines, Inc., 527 U.S. 471 (1999) and its companion cases have narrowed the broad scope of protection intended to be afforded by the ADA, and create a formidable barrier to full and equal participation in economic and community life for millions of Americans with disabilities.
SEC. 3. CODIFIED FINDINGS.

Section 2(a) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101) is amended—

(1) by amending paragraph (1) to read as follows:

'(1) physical or mental disabilities in no way diminish a person's right to fully participate in society; (2) perceived impairment; (3) intimidation, harassment, or informal discrimination; (4) an actual or expected duration of 6 months or less; (5) to convey that the question of whether an impairment substantially limits a major life activity is to be determined with reference to the ameliorative effects of mitigating measures; and (6) to express Congress' expectation that the Equal Employment Opportunity Commission will revise that portion of its current regulations that defines the term 'substantially limited' to be consistent with this Act, including the amendments made by this Act, interpreted strictly to create a demanding standard to reinstate the reasoning of the Supreme Court in Sutton v. United Airlines, Inc., 527 U.S. 471 (1999) and its companion case patient insurance which set forth a broad scope of protection; and

(2) to reject the requirement enunciated by the Supreme Court in Sutton v. United Air Lines, Inc., 527 U.S. 471 (1999) and its companion cases that an impairment substantially limits a major life activity is to be determined with reference to the ameliorative effects of mitigating measures; and

(3) by redesignating paragraphs (8) and (9) as paragraphs (7) and (8), respectively.

SEC. 4. DISABILITY DEFINED AND RULES OF CONSTRUCTION.

(a) DEFINITION OF DISABILITY.—Section 3 of the Americans with Disabilities Act of 1990 (42 U.S.C. 12102) is amended to read as follows:

'SEC. 3. DEFINITION OF DISABILITY.

As used in this Act:

'(1) DISABILITY.—The term 'disability' means, with respect to an individual—

'(A) a physical or mental impairment that substantially limits one or more major life activities of such individual;

'(B) a record of such an impairment; or

'(C) being regarded as having such an impairment (as described in paragraph (3)),

'(2) MAJOR LIFE ACTIVITIES.—

'(A) IN GENERAL.—For purposes of paragraphs (1), major life activities include, but are not limited to, caring for oneself, performing manual tasks, seeing, hearing, eating, sleeping, walking, standing, lifting, bending, speaking, breathing, learning, reading, writing, thinking, communicating, and working.

'(B) MAJOR BODILY FUNCTIONS.—For purposes of paragraph (1), major life activities also includes the operation of a major bodily function, including but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

'(3) REGARDED AS HAVING SUCH AN IMPAIRMENT.—For purposes of paragraph (1):

'(A) An individual meets the requirement of 'regarded as having such an impairment' if the individual establishes that he or she has been regarded as having such impairment because of or perceived physical or mental impairment whether or not the impairment exists, or whether or not the impairment limits a major life activity.

'(B) Paragraph (1)(C) shall not apply to impairments that are transitory and minor. A transitory impairment is an impairment which is expected to last for a specified duration of 6 months or less.

'(4) RULES OF CONSTRUCTION REGARDING THE DEFINITION OF DISABILITY.—The definitions of 'disability' and 'substantially limits' shall be construed in accord with the following:

'(A) The definition of disability in this Act shall be construed in favor of broad coverage of individuals under this Act, to the maximum extent permitted by the terms of this Act.

'(B) The term 'substantially limits' shall be interpreted consistently with the findings and purposes of the ADA Amendments Act of 2008.

'(C) An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability.

'(D) An impairment that is episodic or in remission, or is of recent onset or duration, may be interpreted as not substantially limiting a major life activity when active.'
"(c) Qualification Standards and Tests Related to Uncorrected Vision.—Notwithstanding section 3(4)(E)(ii), a covered entity shall not use qualification standards, employment tests, or other selection criteria based on an individual’s uncorrected vision unless the standard, test, or other selection criteria, as used by the covered entity, is shown to be job related for the position in question and consistent with business necessity."

(c) Conforming Amendments.—

(1) Title V of the Americans with Disabilities Act of 1990 (42 U.S.C. 12111(a)) is amended—

(A) in the paragraph heading, by striking "qualified individual" and inserting "qualified individual with a disability shall" and (B) by striking "with a disability" after "individual" both places it appears.

(2) Section 104(a) of the Americans with Disabilities Act of 1990 (42 U.S.C. 12111(b)) is amended by striking the term ‘qualified individual with a disability shall’ and inserting ‘qualified individual with a disability shall’.

SEC. 6. RULES OF CONSTRUCTION.

(a) Title V of the Americans with Disabilities Act of 1990 (42 U.S.C. 12201 et seq.) is amended—

(1) by adding at the end of section 501 the following:

"(e) Benefits Under State Worker’s Compensation.—Nothing in this Act alters the standards for determining eligibility for benefits under State worker’s compensation laws or under State and Federal disability benefit programs.

(f) Fundamental Alteration.—Nothing in this Act alters the provision of section 302(b)(2)(A)(ii), specifying that reasonable modifications in policies, practices, or procedures, including aids in postsecondary education, would fundamentally alter the nature of the goods, services, facilities, privileges, advantages, or accommodations involved.

(g) Claims of No Disability.—Nothing in this Act shall provide the basis for a claim by an individual without a disability that the individual is entitled to discrimination because of the individual’s lack of disability.

(h) Reasonable Accommodations and Modifications.—A covered entity under title I, a public entity under title II, and any person who owns, leases (or leases to), or operates a place of public accommodation under title III, need not provide a reasonable accommodation to an individual with a disability, if the negative prohibition and the affirmative obligation makes the ADA truly unique and able to make such a positive contribution to the lives of so many across our great Nation. This legislation responds to Supreme Court decisions that have had the effect of narrowing the ADA’s definition of disability and thereby restricting its coverage. Its goal is to once again broaden the definition of disability in a way that maximizes bipartisan consensus and minimizes unintended consequences. I am sure that my friend from Iowa, Senator HARKIN, joins me in thanking so many people and organizations who have been part of this process, offering countless suggestions and ideas and input about how to achieve this goal. This effort has been neither simple nor easy. Because the ADA is such a broad law, any change we make can have effects in areas beyond where a problem might have occurred. In addition, Members on both sides of the aisle, with liberal or conservative perspectives, equally want to help the disabled but have very different views about how to do it.

And so the bill we introduce today is really the third phase in a process that began more than a year ago with introduction of the ADA Restoration Act and continued with passage last month of the House ADA Amendments Act. I am glad to say that it enjoys the support of the broad coalitions of disability and business groups that have provided valuable input and analysis along the way. It also takes steps to address concerns expressed by the education community. While the problems this legislation addresses arose in the employment arena, the solution this legislation represents will certainly impact the education arena.

Finally, let me say that like the original ADA, this bill is the result of negotiation and compromise on all sides. That is the nature of the legislative process and the more important the goal, the greater the effort to continue the process until we reach a good result. We have done that here and I hope and trust that when this legislation passes here today, the body that the margin of the votes will reflect the breadth of the consensus behind this new effort to advance opportunities for the disabled to participate in all that this great country has to offer.

By Mr. BURR (for himself, Mr. WICKER, Mr. ALEXANDER, and Mr. INHOFE):

S. 3497. A bill to amend title 10, United States Code, to authorize commanders of wounded warrior battalions to accept charitable gifts on behalf of the wounded members of the Armed Forces. The Secretary of Defense; to the Committee on Armed Services.

Mr. BURR. Mr. President, in the years since the War on Terror began, we have seen the creation of new Wounded Warrior Battalions and Warrior Transition Battalions in the Marines and the Army. These units were built from the ground up with one purpose in mind: to ensure that seriously wounded service members receive the medical care and benefits that they have earned. The service personnel who command and administer these units are some of the most competent and dedicated professionals in our armed forces, and they deserve our praise.

These professionals have done much to improve the quality of care that is given to our Nation’s wounded service members, but many of the young men and women who find themselves as a result of their service are faced with a tough journey on their road to recovery. Thankfully, the challenges that these men and women face rarely go unnoticed in their communities. Over the past several years we have heard countless stories of private citizens stepping forward to donate their time, money and other charitable gifts to our wounded service personnel. It is not uncommon to hear about donations of $10,000 or more being offered to help provide additional resources to help our wounded recover.

Unfortunately, the military’s gift-acceptance rules have not been updated
to take into account the generosity of the American people. For example, if a North Carolina physician wished to provide a gift of just over $12,000 to the Wounded Warrior Battalion at Camp Lejeune, the acceptance paperwork for this donation would spend months working its way through the bureaucracy before finally arriving on the desk of the Commandant of the Marine Corps. Our taxpayers and our wounded veterans are not being served very well when gifts of such a small dollar amount are so difficult to process at the very highest levels of command.

That is why I am introducing the Friends of Wounded Warriors Act. This legislation will streamline the gift-acceptance process by empowering the commanders of Wounded Warrior Battalions and similar units with the authority to accept charitable gifts of up to $100,000 for the benefit of the members of their unit. This will enable these commanders to cut through the red tape currently the only way we can avoid needlessly delaying in getting extra resources to our wounded service men and women. I hope you will join me in making a commitment to ensure that out-dated processes for accepting gifts do not stand in the way of the generous citizens and communities seeking to contribute to the care of our wounded and ill service members.

By Mr. BAUCUS (for himself and Mr. CONRAD):
S. 3408. A bill to amend title XI of the Social Security Act to provide for the conduct of comparative effectiveness research and to amend the Internal Revenue Code of 1986 to establish a Comparative Effectiveness Research Trust Fund, and for other purposes; to the Committee on Finance.

Mr. BAUCUS. Mr. President, in 2006, America spent more than $2 trillion on health care. But the majority of the funds—$1.6 trillion—are for health care. And the health care share of the economy is expected to reach 20 percent in just 10 years. These projections are cause for concern. If so much of our Nation’s resources are devoted to health care, we need assurance that what we are—or are not—paying for it.

The answer is that we are getting a mixed bag of goods. Some patients receive medical treatments that work well. Some patients receive treatments that don’t work well. In many cases, doctors and patients don’t have enough reliable evidence to know whether treatments work or don’t.

Of the $2 trillion spent on health in 2006, only ¼ of 1 percent was spent to assess what works and what doesn’t. At the Federal level, only $55 million was directly appropriated to compare the effectiveness of health interventions and services. People who purchase other goods—anything from cars to computers—use information to compare the value of the different products before they purchase. Physicians and patients deserve better. We should devote more than ½ of 1 percent of health spending to study how well health goods and services actually work.

Rapid innovation has led to an ever-changing array of new and sometimes expensive technologies. The age of personalized medicine and genetic engineering is upon us. Physicians and patients need to know what treatments work best for patients and their physicians. Indeed, patients and physicians can face great difficulty in choosing among treatment options.

But much of the information about these choices is biased. Much information about these choices is of poor quality. And for many treatments, there are large gaps in what is known to be most effective.

With a paucity of sound evidence, clinicians—and clinicians and treatment protocols can vary widely. If there has ever been a need for better information—on what works, for which patients, under which circumstances—it is in this age of rapid innovation of technology. And we need to do it in a fair, open, and credible way.

Several august bodies—including the Institute of Medicine, the Medicare Payment Advisory Commission, and the Congressional Budget Office—have called on Congress to create a national entity charged with conducting research to determine what works in health care.

Today, I am proud to introduce the Comparative Effectiveness Research Act of 2008. I am joined by the Chairmen of the Budget Committee, Senator CONRAD. He and I share a deep concern about rising health care costs. And we share a deep commitment to finding ways to address it.

This bill does what the experts suggest. In short, we would create a new entity responsible for generating better information on the effectiveness of health care treatments.

Specifically, the bill would create a nonprofit corporation responsible for setting national priorities for comparative effectiveness research. The corporation, which would be called the Health Care Comparative Effectiveness Research Institute, would be a private entity. But it would be governed by a publicly elected sector Board of Governors. It would not be an agency of the Federal Government.

In addition to setting national priorities, the Institute would provide for the conduct of research studies that answer the most pressing questions about what works in health care. The Institute would have the authority to contract with experienced Federal agencies, such as the Agency for Healthcare Research and Quality, or AHRQ, and the National Institutes for Health or with private research organizations to conduct the actual research. The Institute would also be charged with disseminating the findings of the research in ways that patients and providers can understand.

The Institute would be required to assess the full spectrum of health interventions, including pharmaceuticals, medical devices, surgical procedures, medical services, and other therapies. This type of research is often called “comparative effectiveness research,” because it evaluates and compares the clinical effect of alternative treatments. This type of research provides better quality evidence concerning the best treatment, prevention, and management of the health conditions. Most importantly, this type of research helps patients, providers, and payers of health care to make more informed decisions.

While many experts have called for creation of a new entity, they do not specify how the entity should be structured. This bill would create a private, nonprofit institute rather than a new agency within the executive branch or legislative. Keeping it private would remove the potential for political influence on the development of national research priorities. Comparative effectiveness research will be more credible, and more useful, if it is done independently of political influence and with broad stakeholder input.

This bill includes stringent requirements for public input, transparency of process and findings, and integrity of the research. For example, the Institute would be required to publish its rules, proceedings, and reports on a public Internet site. Its meetings would be open to the public. It would be required to provide public comment periods at key stages, in addition to open forums to solicit and obtain public input on the Institute’s activities.

This bill would also require accountability and government oversight of finances and the mission. The Institute is subject to legislative, fiscal, and Comptroller General audits. And the Comptroller General would perform periodic audits of the activities of the Institute to ensure that the Institute would meet its statutory mission and would do so in a fair, open, and credible way.

Finally, this bill would provide a stable source of funding for the Institute. For the first 3 years, general revenues would be used to start up the Institute. In the 4th year, funding would move to a multiyear payer system from both public and private sources. Annual contributions would be made from the Medicare Trust Funds, from revenues generated by a fee on private health insurance policies, and from general revenues. The work of the new Institute would be performed by researchers who receive health care through the public and private sources. Therefore, public and private sources should contribute to this type of research. The private insurance fee would be $1 per insured person per year. Funding from Medicare would also be $1 per beneficiary per year.

All sources of funding for the Institute would sunset after 10 years. That
way. Congress could review a report from the Comptroller General on the value of the research to the public and private insurance sectors. Total funding for the first year would be $5 million, and funding would increase to $300 million a year by the year 2013.

It is high time that we invested more than a fraction of a percent to generate knowledge about what works in health care, to improve the efficiency and the quality of our health care system, and to give patients and doctors better information to make treatment decisions. It is high time that we built a foundation of evidence for the trillions of dollars spent on health in America each year.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3408
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assemble,

SECTION 1. SHORT TITLE.
This Act may be cited as the "Comparative Effectiveness Research Act of 2008."

SEC. 2. COMPARATIVE EFFECTIVENESS RESEARCH.
(a) IN GENERAL.—Title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by adding at the end the following new part:

"PART D—COMPARATIVE EFFECTIVENESS RESEARCH"

"COMPARATIVE EFFECTIVENESS RESEARCH ACT.
"(1) BOARD.—The term 'Board' means the Board of Governors established under subsection (f).
"(2) COMPARATIVE CLINICAL EFFECTIVENESS RESEARCH.—
"(A) IN GENERAL.—The term 'comparative clinical effectiveness research' means research evaluating and comparing the clinical effectiveness, risks, and benefits of 2 or more medical treatments, services, and items described in subsection (a)(2).
"(B) INSTRUMENTALITIES.—The Institute shall review and update evidence as they become available, as appropriate private sector research or studies. It is high time that America invested more than a fraction of a percent to generate knowledge about what works in health care, to improve the efficiency and the quality of our health care system, and to give patients and doctors better information to make treatment decisions. It is high time that we built a foundation of evidence for the trillions of dollars spent on health in America each year.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 3408
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assemble,

SECTION 1. SHORT TITLE.
This Act may be cited as the "Comparative Effectiveness Research Act of 2008."

SEC. 2. COMPARATIVE EFFECTIVENESS RESEARCH.
(a) IN GENERAL.—Title XI of the Social Security Act (42 U.S.C. 1301 et seq.) is amended by adding at the end the following new part:

"PART D—COMPARATIVE EFFECTIVENESS RESEARCH"

"COMPARATIVE EFFECTIVENESS RESEARCH ACT.
"(1) BOARD.—The term 'Board' means the Board of Governors established under subsection (f).
"(2) COMPARATIVE CLINICAL EFFECTIVENESS RESEARCH.—
"(A) IN GENERAL.—The term 'comparative clinical effectiveness research' means research evaluating and comparing the clinical effectiveness, risks, and benefits of 2 or more medical treatments, services, and items described in subsection (a)(2).
"(B) INSTRUMENTALITIES.—The Institute shall review and update evidence as they become available, as appropriate private sector research or studies.

"(3) COMPARATIVE EFFECTIVENESS RESEARCH.—The term 'comparative effectiveness research' means research evaluating and comparing the clinical effectiveness, risks, and benefits of 2 or more medical treatments, services, and items described in the PARAGRAPH (3).

"(4) INSTRUMENTALITIES.—The term 'comparative effectiveness research' means research evaluating and comparing the clinical effectiveness, risks, and benefits of 2 or more medical treatments, services, and items described in the PARAGRAPH (3).

"(5) INSTITUTE.—The term 'Institute' means the Comparative Effectiveness Research Institute established under subsection (b)(1).

"(b) HEALTH CARE COMPARATIVE EFFECTIVENESS RESEARCH—
"(1) ESTABLISHMENT.—There is authorized to be established a nonprofit corporation, to be known as the ‘Health Care Comparative Effectiveness Research Institute’ which is neither an agency nor establishment of the United States Government.

"(2) APPLICABLE PROVISIONS.—The Institute shall be subject to the provisions of this section, and, to the extent consistent with this section, to the District of Columbia Nonprofit Corporations Act of 2007.

"(3) FUNDING OF COMPARATIVE EFFECTIVENESS RESEARCH.—For fiscal year 2009 and each subsequent fiscal year, amounts in the Comparative Effectiveness Research Trust Fund (referred to in this section as the 'CERTF') under section 9511 of the Internal Revenue Code of 1986 shall be available, without further appropriation, to the Institute to carry out this section.

"(c) PURPOSE.—The purpose of the Institute is to improve health care delivered to individuals in the United States by advancing the quality and thoroughness of evidence concerning the manner in which diseases, disorders, and other health conditions can effectively and appropriately be prevented, diagnosed, treated, and managed, and enhancing the dissemination of research findings with respect to the effectiveness, appropriateness, and appropriateness of the medical treatments, services, and items described in this subsection (a)(2)(B).

"(d) DUTIES.—
"(1) IDENTIFYING RESEARCH PRIORITIES AND ESTABLISHING RESEARCH PROJECT AGENDA.—
"(A) IDENTIFYING RESEARCH PRIORITIES.—The Institute shall identify national priorities for comparative clinical effectiveness research, taking into account factors, including—
"(1) disease incidence, prevalence, and burden in the United States;
"(ii) evidence gaps in terms of clinical outcomes;
"(iii) practice variations, including variations in delivery and outcomes by geography, treatment site, provider type, and patient subgroup;
"(iv) the potential for new evidence concerning certain categories of health care services or treatments to improve patient health and well-being, and the quality of care; and
"(v) the effect or potential for an effect on health expenditures associated with a health condition or the use of a particular medical treatment, service, or item.
"(B) ESTABLISHING RESEARCH PROJECT AGENDA.—
"(i) IN GENERAL.—The Institute shall establish and maintain a research project agenda to address the priorities identified under subparagraph (A), taking into consideration the types of research that might address each priority and its relative value (determined based on the cost of conducting such research compared to the potential usefulness of the information produced by such research), and any other appropriate factors as the Institute determines appropriate.
"(ii) CONSIDERATION OF NEED TO CONDUCT A SYSTEMATIC REVIEW.—In establishing and updating the research project agenda under clause (i), the Institute shall consider the need to conduct a systematic review of existing research before providing for the conduct of new research under paragraph (2)(A).

"(2) CARRYING OUT RESEARCH PROJECT AGENDA.
"(A) GENERAL.—The Institute shall carry out comparative clinical effectiveness research, in accordance with the methodology standards adopted under paragraph (9), using methods, including the following:
"(i) systematic reviews and assessments of existing research and evidence;

"(ii) clinical effectiveness research, as randomized controlled trials and observational studies;

"(iii) any other methodologies recommended by the methodology committee established under clause (i) that are adopted by the Board under paragraph (9).

"(B)(1) CONTRACTS WITH FEDERAL AGENCIES AND INSTRUMENTALITIES.—The Institute shall enter into contracts with the agencies and instrumentalities of the Federal Government that have experience in conducting comparative clinical effectiveness research, such as the Agency for Healthcare Research and Quality, when entering into contracts for the management and conduct of research in accordance with the research project agenda established under paragraph (1)(B), to the extent that such contracts are authorized by the governing statutes of such agencies and instrumentalities.

"(2) CONTRACTS WITH OTHER ENTITIES.—The Institute may enter into contracts with appropriate private sector research or study-conducting entities for the conduct of research described in clause (1).

"(i) CONFIDENCE IN CONTRACTS.—A contract entered into under this subparagraph shall require that the agency, instrumentality, or other entity—
"(A) abide by the transparency and conflict of interest requirements that apply to the Institute with respect to any research managed or conducted under such contract;
"(B) comply with the methodology standards adopted under paragraph (9) with respect to such research; and

"(ii) COMPETITIVE DEPLOYMENT OF CONTRACTS.—A contract entered into under this subparagraph may allow for the coverage of competitive proposals or contracts for other appropriate purposes, to the extent that such coverage or other measures are necessary to preserve the integrity of a research project, such as in the case where the research project must be blinded.

"(C) REVIEW AND UPDATE OF EVIDENCE.—The Institute may review and update evidence on a periodic basis, in order to take into account new research and evolving evidence as they become available, as appropriate.

"(D) TAKING INTO ACCOUNT POTENTIAL DIFFERENCES.—Research shall—
"(i) be designed, as appropriate, to take into account the potential for differences in the effectiveness of health care treatments, services, and items as used with various subpopulations, such as racial and ethnic minorities, women, different age groups, and individuals with different comorbidities; and

"(ii) seek to include members of such subpopulations as subjects in the research as feasible and appropriate.

"(3) STUDY AND REPORT ON FEASIBILITY OF CONDUCTING RESEARCH IN-HOUSE.
"(A) STUDY.—The Institute shall conduct a study on the feasibility of conducting research in-house.

"(B) REPORT.—Not later than 5 years after the date of enactment of this section, the Institute shall submit to Congress a report containing the results of the study conducted under subparagraph (A).
(4) DATA COLLECTION.—

(A) IN GENERAL.—The Secretary shall, with appropriate safeguards for privacy, make available to the Institute such data collected for Medicare & Medicaid Services under the programs under titles XVIII, XIX, and XXI as the Institute may require to carry out this section. The Institute may request and, if such request is granted, obtain data from Federal, State, or private entities.

(B) USE OF DATA.—The Institute shall only use such data for the purpose of the Institute under subparagraph (A) in accordance with laws and regulations governing the release and use of such data and applicable confidentiality and privacy standards.

(5) APPOINTING ADVISORY PANELS.—

(A) IN GENERAL.—The Institute may appoint not fewer than 12 advisory panels as determined appropriate by the Institute to assist in the establishment and carrying out of the research project agenda under paragraphs (1) and (2), respectively. Panels may advise or guide the Institute in matters such as identifying gaps in and updating medical evidence and identifying research priorities and policies. Members appointed to the Institute under this paragraph (A) by the Comptroller General of the United States. Members appointed to the Institute under this paragraph (A) shall be representatives of the academic and scientific community, including experts in clinical effectiveness research, biostatistics, and related fields.

(B) COMPOSITION.—An advisory panel appointed under subparagraph (A) shall include representatives of the public and may include experts in scientific and health services research, health services delivery, and the manufacture of health items who have experience in the relevant topic, project, or category for which the panel is established.

(6) ESTABLISHING METHODOLOGY COMMITTEE.—

(A) IN GENERAL.—The Institute shall establish a standing methodology committee to carry out the functions described in subparagraph (C).

(B) APPOINTMENT AND COMPOSITION.—Members shall be appointed to the methodology committee established under subparagraph (A) by the Comptroller General of the United States. Members appointed to the methodology committee shall be experts in their field and from organizations that have experience in research, clinical research, comparative effectiveness research, biostatistics, and research methodology.

(C) FUNCTIONS.—Subject to subparagraph (D), the committee shall work to develop and improve the science of comparative effectiveness research by undertaking the following activities:

(i) Not later than 1 year after the date on which the members of the methodology committee are appointed under subparagraph (B), developing and periodically updating methodology standards regarding the conduct, outcomes measures, risk adjustment, statistical protocols, evaluation of evidence, conduct of research, and other aspects of research and assessment to be used when conducting research on comparative clinical effectiveness (and procedures for the use of such standards) in order to help ensure accurate and effective comparisons of health care services, research, clinical research, comparative effectiveness research, biostatistics, and research methodology.

(ii) Not later than 5 years after such date, examining the following:

(A) Methods by which various aspects of the health care delivery system (such as benefit design and performance, and health services organization, management, and delivery) are analyzed, and compared for their relative effectiveness, benefits, risks, advantages, and disadvantages in a scientifically valid and standardized way.

(B) Methods by which cost-effectiveness and value could be assessed in a scientifically valid and standardized way.

(7) PROVIDING FOR A PEER-REVIEW PROCESS.—

(A) IN GENERAL.—The Institute shall ensure that there is a process for peer review of the research conducted under this section.

(B) COMPOSITION.—Such peer review shall be composed of experts in the scientific field relevant to the research under review.

(C) USE OF EXISTING PROCESSES.—In the case where the Institute enters into a contract or other agreement with another entity for the conduct or management of research under this section, the Institute may utilize the peer-review process of such entity if such process meets the requirements under subparagraphs (A) and (B).

(8) DISSEMINATION OF RESEARCH FINDINGS.—

(A) IN GENERAL.—The Institute shall disseminate research findings to clinicians, patients, and the general public in accordance with the methodologies, strategies, or dissemination protocols and strategies adopted under paragraph (9).

(B) CONSIDERATIONS.—The dissemination of research findings shall include considerations such as the following:

(i) Shall convey findings of research so that they are comprehensive and useful to patients and providers in making health care decisions;

(ii) Shall discuss findings and other considerations specific to certain subpopulations, risk factors, and comorbidities, as appropriate;

(iii) Shall include considerations such as limitations of research and what further research may be needed, as appropriate;

(iv) Shall not include practice guidelines or policy recommendations; and

(v) Shall not include any data the dissemination of which would violate the privacy of research participants or any confidentiality agreements made with respect to the use of data under this section.

(9) ADOPTION.—The methodology committee shall adopt applicable national priorities identified under paragraph (7) and the research agenda established under paragraph (1)(B), the methodology standards developed and updated by the methodology committee under paragraph (11)(D), the research project agenda, research findings, dissemination protocols and strategies developed under paragraph (8)(B), and any peer-review process provided under paragraph (7), and dissemination protocols and strategies developed under paragraph (8)(B) by majority vote. In the case where the Institute does not adopt such national priorities, research project agenda, methodology standards, peer-review process, or dissemination protocols and strategies in accordance with subparagraph (A), the national priorities, research project agenda, methodology standards, peer-review process, dissemination protocols and strategies shall be referred to the appropriate staff or entity within the Institute (or, in the case of the methodology standards, the methodology committee) for further review.

(10) COORDINATION OF RESEARCH AND RESOURCES AND BUILDING CAPACITY FOR RESEARCH.—

(A) COORDINATION OF RESEARCH AND RESOURCES.—The Institute shall coordinate research conducted, commissioned, or otherwise supported under this section, comparative clinical effectiveness and other relevant research and related efforts conducted by public and private agencies and organizations in order to ensure the most efficient use of the Institute’s resources and that research is not duplicated unnecessarily.

(B) BUILDING CAPACITY FOR RESEARCH.—The Institute may build capacity for comparative clinical effectiveness research and other relevant research and related efforts through appropriate activities, such as making awards, up to 5 percent of the amounts appropriated or credited to the CERTF under section 951(b) of the Internal Revenue Code of 1986 with respect to the fiscal year, to The Cochrane Collaboration (or successor organization) to support the infrastructure of The Cochrane Collaboration (or a successor organization) to support the infrastructure of The Cochrane Collaboration.
organization) or to provide for sets of reviews related to a particular topic or associated with a particular review group.

"(C) INCLUSION IN ANNUAL REPORTS.—The Institute shall report on any activity or plan and any bylaws adopted or amended, and shall make the annual report public to the extent permitted by law. Such report shall contain:

"(A) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38, such Code, or a medical care program of the Department of Defense under chapter 55 of title 10, United States Code, the Federal employees health benefits program under chapter 67 of such Code, a health program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(B) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(C) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(D) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(E) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated for the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(F) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(G) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(H) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(I) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(J) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(K) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(L) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(M) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(N) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(O) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(P) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(Q) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(R) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(S) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(T) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(U) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(V) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(W) a description of the activities conducted under this section during the preceding year, including the use of amounts appropriated or credited to the CERTF under section 17 of title 38 of the United States Code, or a medical care program of the Department of Veterans Affairs under chapter 17 of title 38 of such Code, or a medical care program of the Indian Health Service or of a tribal organization.

"(X) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;

"(Y) a description of research priorities identified under paragraph (1)(A), and methodological standards developed and updated by the methodology committee under paragraph (6)(C)(i) that are adopted under paragraph (9) during the preceding year;

"(Z) the names of individuals contributing to any research provided under paragraph (7) during the preceding year or years, in a manner such that those individuals cannot be identified with a particular research project;"
(1) **Review and Reports.**—

(A) IN GENERAL.—The Comptroller General of the United States shall review the following:

(1) Procedures established by the Institute, including those with respect to the identification of research priorities under subsection (d)(1)(A) and the conduct of research projects under section 9511. The review shall determine whether information produced by such research projects—

(i) is objective and credible;

(ii) is a manner consistent with the requirements under this section; and

(iii) is developed through a transparent process.

(B) The overall effect of the Institute and the effectiveness of activities conducted under this section, including an assessment of—

(i) the utilization of the findings of research conducted under this section by health care decision makers; and

(ii) the effect of the Institute and such activities on innovation and on the health economy of the United States.

(C) For fiscal year 2017 and each of the fiscal years 2018 through 2021, the Comptroller General shall submit a report to Congress containing the results of the review conducted under subparagraph (A), together with recommendations for such legislation and administrative action as the Comptroller General determines appropriate.

(2) **Funding Assessment.**—

(A) IN GENERAL.—The Comptroller General of the United States shall assure the adequacy and use of funding for the Institute and activities conducted under this section under section 9511 of the Internal Revenue Code of 1986. Such assessment shall include a determination as to whether, based on the utilization of findings by public and private payers, each of the following are appropriate sources of funding for the Institute, including a determination of whether such sources of funding should be continued or adjusted:

(i) the transfer of funds from the Federal Hospital Insurance Trust Fund under section 1841 to the Hospital Insurance Trust Fund under section 1841 of the Internal Revenue Code of 1986.

(ii) Any other duties, activities, or processes the Institute determines appropriate.

(iii) Any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iv) Draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments);

(v) Research protocols (including measures taken, methods of research, methods of analysis, research results, and such other information as the Institute determines appropriate);

(vi) Any other activities and the methodology committee under subsection (d)(5) and for employment as executive staff of the Institute.

(B) **Public Comments.**—

(A) The process and methods for the conduct of research under this section, including—

(i) the identity of the entity conducting such research;

(ii) any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iii) draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(B) The process and methods for the conduct of research under this section, including—

(i) the identity of the entity conducting such research;

(ii) any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iii) draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(C) **Research Findings.**—

(i) The transfer of funds from the Federal Hospital Insurance Trust Fund under section 1841 to the Hospital Insurance Trust Fund under section 1841 of the Internal Revenue Code of 1986.

(ii) Any other duties, activities, or processes the Institute determines appropriate.

(iii) Any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iv) Draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(v) Research protocols (including measures taken, methods of research, methods of analysis, research results, and such other information as the Institute determines appropriate).

(vi) Any other activities and the methodology committee under subsection (d)(5) and for employment as executive staff of the Institute.

(B) The process and methods for the conduct of research under this section, including—

(i) the identity of the entity conducting such research;

(ii) any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iii) draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(C) **Research Findings.**—

(i) The transfer of funds from the Federal Hospital Insurance Trust Fund under section 1841 to the Hospital Insurance Trust Fund under section 1841 of the Internal Revenue Code of 1986.

(ii) Any other duties, activities, or processes the Institute determines appropriate.

(iii) Any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iv) Draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(v) Research protocols (including measures taken, methods of research, methods of analysis, research results, and such other information as the Institute determines appropriate).

(vi) Any other activities and the methodology committee under subsection (d)(5) and for employment as executive staff of the Institute.

(B) The process and methods for the conduct of research under this section, including—

(i) the identity of the entity conducting such research;

(ii) any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iii) draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(C) **Research Findings.**—

(i) The transfer of funds from the Federal Hospital Insurance Trust Fund under section 1841 to the Hospital Insurance Trust Fund under section 1841 of the Internal Revenue Code of 1986.

(ii) Any other duties, activities, or processes the Institute determines appropriate.

(iii) Any links the entity has to industry (including such links that are not directly tied to the particular research being conducted under this section);

(iv) Draft study designs (including research questions and the finalized study design, together with public comments on such study design and responses to such comments).

(v) Research protocols (including measures taken, methods of research, methods of analysis, research results, and such other information as the Institute determines appropriate).

(vi) Any other activities and the methodology committee under subsection (d)(5) and for employment as executive staff of the Institute.
**SEC. 9511. COMPARATIVE EFFECTIVENESS RESEARCH TRUST FUND.**

(a) Creation of Trust Fund.—There is established in the Treasury of the United States a trust fund to be known as the ‘Comparative Effectiveness Research Trust Fund’ (hereinafter referred to as the ‘CERTF’), consisting of such amounts as may be appropriated or credited to such Trust Fund as provided in this section and section 9602(b).

(b) Transfers to Fund.—

(1) Appropriation.—There are hereby appropriated to the Trust Fund the following:

(A) For fiscal year 2009, $5,000,000.

(B) For fiscal year 2010, $25,000,000.

(C) For fiscal year 2011, $75,000,000.

(D) For fiscal year 2012, $125,000,000.

(2) The amounts appropriated under subparagraph (1), there shall be credited to the CERTF.

(c) Financing for Fund from Fees on Insured and Self-Insured Health Plans.—

(A) General Rule.—Chapter 34 of the Internal Revenue Code of 1986 is amended by adding at the end the following new subchapter:

Subchapter B—Insured and Self-Insured Health Plans

Sec. 4375. Health Care Spending.

Sec. 4376. Self-insured health plans.

Sec. 4377. Definitions and special rules.

**SEC. 4375. HEALTH INSURANCE.**

(a) Imposition of Fee.—There is hereby imposed on each specified health insurance policy for each policy year ending after September 30, 2010, a fee equal to the product of—

$1 (50 cents in the case of plan years ending during fiscal year 2012) multiplied by the average number of lives covered under the policy.

(b) Liability for Fee.—The fee imposed by subparagraph (a) shall be paid by the insurer of the policy.

(c) Specified Health Insurance Policy.—For purposes of this section:—

(1) In General.—Except as otherwise provided in this section, the term ‘specified health insurance policy’ means any accident or health insurance policy (including a policy under a group health plan) issued with respect to individuals residing in the United States.

(2) Exemption for Certain Policies.—The term ‘specified health insurance policy’ does not include any insurance if substantially all of its coverage is of excepted benefits described in section 9812(g).

(d) Treatment of Prepaid Health Coverage Arrangements.—

(1) In General.—In the case of any arrangement described in subparagraph (b) the plan shall be treated as a specified health insurance policy, and

(ii) the person referred to in such subparagraph shall be the issuer.

(2) Description of Arrangements.—An arrangement is described in this subparagraph if under such arrangement fixed payments are made to other persons, or any person’s agreement to provide or arrange for the provision of accident or health coverage to residents of the United States, regardless of whether such coverage is provided or arranged to be provided.

(e) Adjustments for Increases in Health Care Spending.—In the case of any policy year ending in any fiscal year beginning after September 30, 2013, the dollar amount in effect under subsection (a) for such policy year shall be equal to the sum of such dollar amount for policy years ending in the previous fiscal year (determined after the application of this subsection), plus an amount equal to the product of—

(1) such dollar amount for policy years ending in the previous fiscal year, multiplied by

(2) the percentage increase in the projected per capita amount of National Health Expenditures from the calendar year in which the previous fiscal year ends to the calendar year in which the fiscal year involved ends, as most recently published by the Secretary of Health and Human Services before the beginning of the fiscal year.

**SEC. 4376. SELF-INSURED HEALTH PLANS.**

(a) Imposition of Fee.—In the case of any applicable self-insured health plan for each plan year ending after September 30, 2011, there is hereby imposed on each such plan $1 (50 cents in the case of plan years ending during fiscal year 2012) multiplied by the average number of lives covered under the plan.

(b) Liability for Fee.—

(1) In General.—The fee imposed by subsection (a) shall be paid by the plan sponsor.

(2) Plan Sponsor.—For purposes of paragraph (1) the term ‘plan sponsor’ means—

(A) the employer in the case of a plan established or maintained by a single employer,

(B) the employee organization in the case of a plan established or maintained by an employee organization,

(C) in the case of—

(i) a plan established or maintained by 2 or more employers or jointly by 1 or more employers and 1 or more employee organizations,

(ii) a multiple employer welfare arrangement, or

(iii) a voluntary employees’ beneficiary association described in section 501(c)(9), the association, committee, joint board of trustees, or other similar group of representatives of the parties who establish or maintain the plan, or

(D) the cooperative or association described in subsection (c)(2)(F) in the case of a plan established or maintained by such a cooperative or association.

**APPLICABLE SELF-INSURED HEALTH PLAN.**—For purposes of this section, the term ‘applicable self-insured health plan’ means any plan for providing accident or health coverage if—

(1) any portion of such coverage is provided other than through an insurance policy, and

(2) such plan is established or maintained—

(A) by one or more employers for the benefit of their employees or former employees, or

(B) by one or more employee organizations for the benefit of their members or former members,

(C) jointly by 1 or more employers and 1 or more employee organizations for the benefit of employees or former employees,

(D) by a voluntary employees’ beneficiary association described in section 501(c)(9), or

(E) by any organization described in section 501(c)(6), or

(F) in the case of a plan not described in the preceding subparagraphs, by a multiple employer welfare arrangement (as defined in section 3(40) of Employee Retirement Income Security Act of 1974), a rural electric cooperative (as defined in section 3(40)(B)(iv) of such Act), or a rural telephone cooperative association (as defined in section 3(40)(B)(v) of such Act).

(d) Adjustments for Increases in Health Care Spending.—In the case of any policy year ending in any fiscal year beginning after September 30, 2013, the dollar amount in effect under subsection (a) for such policy year shall be equal to the sum of such dollar amount for policy years ending in the previous fiscal year (determined after the application of this subsection), plus an amount equal to the product of—

(1) such dollar amount for policy years ending in the previous fiscal year, multiplied by

(2) the percentage increase in the projected per capita amount of National Health Expenditures from the calendar year in which the previous fiscal year ends to the calendar year in which the fiscal year involved ends, as most recently published by the Secretary of Health and Human Services before the beginning of the fiscal year.
(e) TERMINATION.—This section shall not apply to plan years ending after September 30, 2018.

SEC. 3477. DEFINITIONS AND SPECIAL RULES.

(a) Definitions.—For purposes of this subchapter—

(1) Accident and health coverage.—The term ‘accident and health coverage’ means any coverage which, if provided by an insurance policy, would cause such policy to be a specified health insurance policy (as defined in section 4575(c)).

(2) Insurance policy.—The term ‘insurance policy’ means any policy or other instrument whereby a contract of insurance is issued, renewed, or extended.

(3) United States.—The term ‘United States’ includes any possession of the United States.

(b) Treatment of Governmental Entities.—

(1) In General.—For purposes of this subchapter—

(A) the term ‘person’ includes any governmental entity, and

(B) notwithstanding any other law or rule of law, governmental entities shall not be exempt from the fees imposed by this subchapter except as provided in paragraph (2).

(2) Treatment of Exempt Governmental Programs.—In the case of an exempt governmental program, no fee shall be imposed under section 4375 or section 4376 on any covered life under such program.

(c) Exempt Governmental Program Defined.—For purposes of this subchapter, the term ‘exempt governmental program’ means—

(1) any insurance program established under title XVIII of the Social Security Act,

(2) the medical assistance program established by title XIX or XXI of the Social Security Act,

(3) any program established by Federal law for providing medical care (other than through insurance policies) to individuals (or the spouses and dependents thereof) by reason of such individuals being—

(i) members of the Armed Forces of the United States, or

(ii) veterans, and

(4) any program established by Federal law for providing medical care (other than through insurance policies) to members of Indian tribes, as defined in section 4(d) of the Indian Health Care Improvement Act.

(d) Treatment as Tax.—For purposes of subtitle F, the fees imposed by this subchapter on the amount collected under this subchapter shall notwithstanding any other provision of law, no fee shall be imposed on any covered life under any program.

(e) Termination.—This section shall not apply to plan years ending after September 30, 2018.
Role,” CBO Director Peter Orszag wrote that, “generating better information about the costs and benefits of different treatment options—through research on the comparative effectiveness of those options—could help reduce health care spending without adverse effects on overall health.”

The IOM also supports getting better information into the hands of patients and providers. As part of its report, “Learning What Works Best: The Nation’s Experience and Ongoing Opportunities for Improvement Across a Wide Spectrum of Health Care Needs,” the Institute concluded that, “[A] substantially increased capacity to conduct and evaluate research on clinical effectiveness of interventions brings many potential opportunities for improvement across a wide spectrum of health care needs.”

This bill that Senator BAUCUS and I are introducing today represents an important step in expanding comparative effectiveness research, including but not limited to, randomized controlled trials. The bill would significantly expand the conduct of comparative clinical effectiveness research to get better information into the hands of patients and providers in the hopes of improving health outcomes, reducing unnecessary or ineffective care.

The purpose of this bill is to provide health care providers and patients with objective and credible evidence about which health care treatments, services, and products are most clinically effective for particular patient populations. The research conducted under our bill would evaluate and compare the clinical effectiveness of two or more health care interventions, treatment protocols, procedures, medical devices, diagnostic tools, pharmaceuticals, and other processes or items used in the treatment or diagnosis of patients. Access to better evidence about what works best will help patients and health care providers make better informed decisions about how best to treat particular diseases and conditions. Our hope is that the evidence generated by this research could lead to savings in the overall health care system over the long-term by allowing providers to avoid treatments that may be clinically ineffective, while at the same time improving health care outcomes.

Specifically, our bill creates a private, nonprofit corporation, known as the Health Care Comparative Effectiveness Research Institute, which would be responsible for organizing and implementing a national comparative effectiveness research agenda. In conducting the research, the Institute would contract with the Agency for Healthcare Research and Quality, the National Institutes of Health and other appropriate public and private entities and could use a variety of research methods, including clinical trials, observational studies and systematic reviews of existing evidence.

Many thought leaders on this issue, such as the Medicare Payment Advi-
sory Committee, had concerns that a large entity within the Federal Government would be vulnerable to political interference that could hamper the Institute’s credibility, and, therefore, limit the usefulness of its research. As a result, we proposed that the Institute be responsible for organizing and overseeing the research conducted under our bill, subject to government oversight.

In order to ensure that the information developed is credible and unbiased, the bill establishes a 15-member Board of Governors to oversee the Institute’s activities. Permanent board members would include the Secretary of Health and Human Services and the Directors of the Agency for Healthcare Research and Quality and the National Institutes of Health, NIH. The remaining 18 board members would be appointed by the Comptroller General of the United States and would include a balanced mix of patients, physicians, drug, device, and managed care representatives; public and private payers, academic researchers, philanthropic organizations and quality improvement entities.

To ensure further credibility, the Institute is also required to appoint advisory panels of patients, clinicians, and other stakeholders that would assist in the development and carrying out of the research agenda; establish a methodology committee that would help create standards by which all research commissioned by the Institute must be conducted; create a peer review process through which all research findings must be assessed; and develop protocols to help translate and disseminate the evidence in the most effective, user-friendly way.

Moreover, Senator BAUCUS and I want to ensure that the operations of the Institute are transparent. Therefore, we built in a strong role for public comment periods prior to the approval of the overall research agenda and the individual study designs. In addition, the bill calls on the Institute to make public its request for proposals to seek input, requires that all proceedings of the Institute be made public and available through annual reports, and requires that any conflicts of interest be made public and that board members disclose conflicts of interest in matters in which they have a financial or personal interest.

Because all health care users will benefit from this research, our legislation funds the contributions from both public and private payers. These contributions will include mandatory general revenues from the Federal Government, amounts from the Medicare Trust Funds equal to $1 per covered life assessed annually on insured and self-insured health plans. Funding will ramp up over a series of years. By the fifth year, we expect the Institute’s total annual funding to exceed $300 million per year and continue to grow thereafter.

The concept of an all-payer approach for comparative effectiveness research has been embraced by a number of health care experts. For example, on the subject of comparative effectiveness information in its June 2008 report, MedPAC stated: “The Commission supports funding from federal and private sources that the research findings will benefit all users—patients, providers, private health plans, and federal health programs. The Commission also supports a dedicated funding mechanism to help ensure the entity’s long-term viability. A dedicated broadly based funding would reduce the likelihood of outside influence and would best ensure the entity’s stability.”

To ensure accountability for these funds and to the Institute’s mission, our bill requires an annual financial audit of the Institute. In addition, the bill requires GAO to report to Congress every five years on the processes developed by the Institute and its overall effectiveness, including how research findings are used by health care consumers and what impact the research is having on the health economy. Finally, the bill requires a review after eight years of the adequacy of the Institute’s funding, which will include a review of the appropriateness and adequacy of each funding source.

Let me take a moment to address some of the criticisms that might be levied against this proposal. Some say this Institute will impede access to care and will deny coverage for high-cost health care services. That is not the case. Our proposal explicitly prohibits the Institute from making coverage decisions or setting practice guidelines. It will be up to specialty societies and patient groups to use the research findings as they see fit. Moreover, to the extent that high-cost health care services or new technologies are studied by the Institute and found to be clinically ineffective compared to other technologies, such evidence will be made public to consumers and providers so that they can make the best possible health care decisions. Other critics may claim that this proposal will result in an one-size-fits-all approach to comparative clinical effectiveness research. We recognize that different health care treatments may have different levels of effectiveness for different subpopulations. That is why our bill requires that this research be designed, as appropriate, to take into account the potential differences in the effectiveness of health care services as used with various subpopulations, such as women, racial and ethnic minorities, different age groups, and individuals with different comorbidities.

This bill is a balanced, carefully crafted proposal that has taken into consideration the recommendations of a broad range of stakeholders and the Institute itself. We welcome further discussion and suggested improvements. But we refuse to allow this proposal to get bogged down in political.

S7967
Today, I am here to talk about another FDA bill. Last summer, I started examining FDA’s program for inspection of foreign pharmaceutical manufacturing plants. I expressed concerns to the FDA regarding, among other things, the inspection funding, emerging exporters, and weaknesses in the inspection process.

An increasing amount of the drugs and active pharmaceutical ingredients (API) Americans use are being factored in foreign countries. Yet, as reported by the Government Accountability Office in November 2007, the Food and Drug Administration does not know how many foreign establishments are subject to inspection. The agency conducts relatively few inspections each year.

From fiscal year 2002 through fiscal year 2007, the FDA conducted fewer than 1,400 inspections of foreign pharmaceutical facilities, often focused in countries with few reported quality concerns. In China, the world’s largest producer of active pharmaceutical ingredients, and where export safety appears to be a growing problem, only 11 inspections were conducted during FY 2007, compared to 14 in Switzerland, 18 in Germany, and 24 in France, all countries with advanced regulatory infrastructures. I was troubled by these numbers.

Then came the wake-up call in January of this year. FDA announced that Baxter International Inc. temporarily suspended production of its blood thinner heparin because of an increase in the reports of patients that may be associated with its drug. It was discovered that the active ingredient in heparin was contaminated and that the ingredient was produced at a facility in the People’s Republic of China. Soon after, several months, the FDA established a link between the contaminant found in heparin and the serious adverse events seen in patients that were given heparin. FDA’s investigation of the source highlighted significant weaknesses in oversight of the production and supply chain.

With limited inspection resources, the FDA is charged with ensuring the safety and efficacy of drugs and pharmaceutical ingredients produced in nearly every corner of the globe. To make matters worse, as the FDA’s challenges multiply, its resources for foreign inspections are shrinking. It is troubling to see the Agency, already grossly under-resourced at a time when foreign production of drugs and active pharmaceutical ingredients is growing at record rates. Adding to the difficulty of this task, it appears that many foreign pharmaceutical manufacturers are taking the FDA as a means to bolster their own standing and with no intention of exporting products to the United States market.

That is why I am introducing the Drug and Device Accountability Act today with Senator KENNEDY, chairman of the Committee on Health, Education, Labor, and Pensions.

This legislation would augment FDA’s resources through the collection of registration and inspection fees. The bill also expands the agency’s authority for ensuring the safety of drugs and medical devices, including foreign-manufactured drugs, by expanding FDA’s authority to inspect foreign manufacturers and importers, allowing the FDA to issue subpoenas, and allowing the FDA to detain a device or drug when its inspectors have reason to believe the product is adulterated or misbranded.

In addition, the bill includes a provision that expands on an amendment I filed last spring to the Senate bill, S. 1062 Food and Drug Administration Revisions Act. The provision put forward by Mr. SCHUMER, Mr. LIEBERMAN, and Mr. INOUYE)

S. 3410. A bill to authorize a grant program to provide for expanded access to mainstream financial institutions; to the Committee on Banking, Housing, and Urban Affairs.

Mr. AKAKA. President, as a member of the Banking Committee, I have worked to improve the financial literacy of our country. My interest in financial literacy started when my fourth grade teacher required me to have a piggy bank. We were made to understand how money saved, a little at a time, can grow into a large enough to buy things that would have been impossible to obtain without savings. My experience with a piggy bank taught me important lessons about money management that
have stayed with me throughout my life. More people need to be taught these important lessons so that they are better able to manage their resources.

Too many Americans lack basic financial literacy, American of all ages and backgrounds face increasingly complex financial decisions as members of the nation’s workforce, managers of their families’ resources, and voting citizens. Many find these decisions confusing and frustrating because they lack the “tools necessary” that would enable them to make wise, personal choices about their finances.

Without a sufficient understanding of economics and personal finance, individuals will not be able to appropriately manage their finances, effectively evaluate credit opportunities, successfully invest for long-term financial goals in an increasingly complex marketplace, or be able to cope with difficult financial situations. Unfortunately, many working families are struggling as they are confronted with increases in energy and food costs or the loss of a job.

It is essential that we work toward improving education, consumer protections, and access to financial markets and families through economic and financial literacy in order to build stronger families, businesses, and communities.

Today I am introducing the Improving Access to Mainstream Financial Institutions Act of 2008. This bill provides economic empowerment and educational opportunities for working families by helping bank the unbanked. It will also encourage the use of mainstream financial institutions for working families that need small loans. I thank my cosponsors, Senators Schumer, Lieberman, and Inouye.

Millions of working families do not have a bank or credit union account. The unbanked rely on alternative finance service providers to obtain cash from checks, pay bills, and send remittances. Many of the unbanked are low- and moderate-income families that can ill afford to have their earnings diminished by reliance on these high-cost and often predatory financial services. In addition, the unbanked are unable to save securely to prepare for the loss of a job, a family illness, a down payment on a first home, or education expenses.

My bill authorizes grants intended to help low- and moderate-income unbanked individuals establish bank or credit union accounts. Providing access to a bank or credit union account can empower families with tremendous financial opportunities. An account at a bank or credit union provides consumers with alternatives to rapid-refund loans, check cashing services, and lower cost remittances. In addition, bank and credit union accounts provide access to saving and borrowing services.

Low- and moderate-income individuals are often challenged with a number of barriers that limit their ability to open up and maintain accounts. Regular checking accounts may be too costly for some consumers unable to maintain minimum balances or unable to afford monthly fees. Poor credit histories may also hinder their ability to open accounts. By providing federal resources for product development, administration, outreach, and financial education, banks and credit unions will be better able to reach out and bank the unbanked.

The second grant program authorized by my legislation provides consumers with a lower cost, short term alternative to payday loans. Payday loans are cash loans repaid by borrowers’ postdated checks or borrowers’ authorizations to make electronic debits against existing financial accounts. Payday loans often have triple digit interest rates that range from 390 percent to 780 percent when expressed as an annual percentage rate. Loan flipping, which is often practiced, is the renewing of loans at maturity by paying additional fees without any principal reduction. Loan flipping often leads to instances where the fees paid for a payday loan well exceed the principal borrowed. This situation often creates a cycle of debt that is hard to break.

There is a great need for working families to have access to affordable small loans. My legislation would encourage banks and credit unions to develop payday loan alternatives. Consumers who apply for these loans would be provided with financial literacy and educational opportunities. Loans extended to consumers under the grant would be subject to the annual percentage rate promulgated by the National Credit Union Administration’s, NCUA, Loan Interest Rates, currently capped at an annual percentage rate of 18 percent. Several credit unions have developed similar products. One example is the Windward Community Federal Credit Union in Kailua, on the island of Oahu, which has developed an affordable alternative to payday loans to help the U.S. Marines and the other members that they serve. I am very proud of the work done by the staff of the Windward Community Federal Credit Union. This program was developed with an NCUA grant. More working families need access to affordable small loans. More needs to be done to encourage banks and credit unions and mainstream financial services providers, than payday loan shops.

I will work to enact this legislation so vital to empowering our citizens. In our current, modern, complex economy, a bank or credit union account severely hinders the ability of families to improve their financial condition or help them navigate difficult financial circumstances. Instead of borrowing money from payday lenders at outrageous fees, we need to encourage people to utilize their credit unions and banks for affordable small loans. Banks and credit unions have the ability to make lives of the working families better by helping them save, invest, and borrow at affordable rates.

Mr. President I ask unanimous consent that the text of the bill and letters of support be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

**S. 3130**

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Improving Access to Mainstream Financial Institutions Act of 2008”.

**SEC. 2. DEFINITIONS.**

In this Act, the following definitions shall apply:

(1) ALASKA NATIVE CORPORATION.—The term “Alaska Native Corporation” has the same meaning as the term “Native Corporation” as defined in section 303 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(m)).

(2) COMMUNITY DEVELOPMENT FINANCIAL INSTITUTION.—The term “community development financial institution” has the same meaning as in section 101(5) of the Community Development Banking and Financial Institutions Act of 1994 (12 U.S.C. 4702(5)).

(3) FEDERALLY INSURED DEPOSITORY INSTITUTION.—The term “federally insured depository institution” means any insured depositary institution (as that term is defined in section 3 of the Federal Deposit Insurance Act (12 U.S.C. 1813)) and any insured credit union (as that term is defined in section 101 of the Federal Credit Union Act (12 U.S.C. 1752)).

(4) LABOR ORGANIZATION.—The term “labor organization” means an organization—

(A) in which employees participate;

(B) which exists for the purpose, in whole or in part, of dealing with employers concerning grievances, labor disputes, wages, rates of pay, hours of employment, or conditions of work; and

(C) which is described in section 501(c)(5) of the Internal Revenue Code of 1986.

(5) NATIVE HAWAIIAN ORGANIZATION.—The term “Native Hawaiian organization” means any organization that—

(A) serves and represents the interests of Native Hawaiians; and

(B) has as a primary and stated purpose, the provision of services to Native Hawaiians.

(6) PAYDAY LOAN.—The term “payday loan” means any transaction for the purpose of extending to a consumer a small cash advance to a consumer in exchange for—

(A) the personal check or share draft of the consumer, in the amount of the advance plus a fee, where presentment or negotiation of such check or share draft is deferred by agreement of the parties at a designated future date; or

(B) the authorization of the consumer to debit the transaction account or share draft account of the consumer, in the amount of the advance plus a fee, where such account will be debited on or after a designated future date.

(7) SECRETARY.—The 16th “Secretary” means the Secretary of the Treasury.

(8) TRIBAL ORGANIZATION.—The term “tribal organization” has the same meaning as in

SEC. 3. EXPANDED ACCESS TO MAINSTREAM FINANCIAL INSTITUTIONS.

(a) Establishment of Program.—The Secretary is authorized to award grants, including multi-year grants, to eligible entities to establish, expand, or maintain in a federally insured depository institution for low- and moderate-income individuals that currently do not have such an account.

(b) Eligible Entities.—An entity is eligible to receive a grant under this section, if such an entity is—

(1) an organization described in section 501(c)(3) of the Internal Revenue Code of 1986, and is exempt from taxation under section 501(a) of such Code;
(2) a federally insured depository institution;
(3) an agency of a State or local government;
(4) a community development financial institution;
(5) an Indian tribal organization;
(6) an Alaska Native Corporation;
(7) a Native Hawaiian organization;
(8) a National Urban League and this legislation;
(9) a partnership comprised of 1 or more of the entities described in the preceding subparagraphs.

(c) Evaluation and Reports to Congress.—For each fiscal year in which a grant is awarded under this section, the Secretary shall submit a report to Congress containing a description of the activities funded, amounts distributed, and measurable results, as appropriate and available.

SEC. 4. LOW COST ALTERNATIVES TO PAYDAY LOANS.

(a) Establishment of Program.—The Secretary is authorized to award demonstration project grants (including multi-year grants) to eligible entities to provide low-cost, small loans to consumers that will provide alternatives to more costly, predatory payday loans.

(b) Eligible Entities.—An entity is eligible to receive a grant under this section if such an entity is—

(1) an organization described in section 501(c)(3) of the Internal Revenue Code of 1986, and exempt from tax under section 501(a) of such Code;
(2) a federally insured depository institution;
(3) a community development financial institution; or
(4) a partnership comprised of 1 or more of the entities described in paragraphs (1) through (3).

(c) Terms and Conditions.—

(1) Percentage Rate.—For purposes of this section, an eligible entity that is a federally insured depository institution shall be subject to the annual percentage rate promulgated by the National Credit Union Administration’s Loan Interest Rates under part 701 of title 12, Code of Federal Regulations (or any successor thereto), in connection with a loan provided to a consumer pursuant to this section.

(2) Financial Literacy and Education Opportunities.—Each eligible entity awarded a grant under this section shall offer financial literacy and education opportunities, such as relevant counseling services or educational courses, to each consumer provided with a loan pursuant to this section.

(d) Evaluation and Reports to Congress.—For each fiscal year in which a grant is awarded under this section, the Secretary shall submit a report to Congress containing a description of the activities funded, amounts distributed, and measurable results, as appropriate and available.

SEC. 5. PROCEDURAL PROVISIONS.

(a) Applications.—A person desiring a grant under section 3 or 4 shall submit an application to the Secretary, in such form and containing such information as the Secretary may require.

(b) Limitation on Administrative Costs.—A recipient of a grant under section 3 or 4 may use not more than 6 percent of the total amount of such grant in any fiscal year for the administrative costs of carrying out the programs funded by such grant in such fiscal year.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out the grant programs authorized by this Act, to remain available until expended.

SEC. 7. REGULATIONS.

The Secretary is authorized to promulgate regulations to implement and administer the grant programs authorized by this Act.
We support Federal legislation that will promote further connections between families and banking services, particularly, the “unbanked.” We also know that payday lending has become a detrimental service to families on the lowest end of the income scale and would support assistance to place alternatives to these loans in the community development marketplace.

Mahalo for your consideration. If we can provide additional information, please contact me at any time at 808.386.8155 or via email at robinhawaiiancouncil.org.

Sincerely,
ROBIN PUANANI DANNER,
President and Chief Executive Officer.

HAWAI’I ALLIANCE FOR COMMUNITY-BASED ECONOMIC DEVELOPMENT,
Honolulu, HI, July 30, 2008

HON. DANIEL KAHIKINA AKAKA,
U.S. Senator for Hawai‘i

ALOHA SENATOR AKAKA: The Hawai‘i Alliance for Community-Based Economic Development (HACHED) is pleased to support the bill titled, “Improving Access to Mainstream Financial Institutions Act of 2008.”

Hawai‘i needs comprehensive public policies to help people build assets. This should include local alternatives, tax incentives, regulatory changes, and other mechanisms to help people earn more, save more, protect hard earned assets, start businesses and become consumers.

Assets are essential for three reasons:
1. To have financial security against difficult times; to create economic opportunities for oneself and the children; and to leave a legacy for future generations to have a better life.

2. The second program would provide consumers with a lower cost, short term alternative to payday loans as well as financial education.

3. It is proven that “banked” households are better of financially and more likely to build and own assets than their “unbanked” counterparts. The first grant program would authorize grants intended to help low- and moderate-income unbanked individuals to establish bank or credit union accounts.

4. The second program would provide consumers with a lower cost, short term alternative to payday loans as well as financial education.

Programs that help low- and moderate-income individuals to establish bank accounts provide families with the opportunity to save and build their assets. Approximately 22 million U.S. households do not have a checking or savings account. These households depend on various high-cost, alternative financial service providers to meet their banking needs, including check cashing, payday lenders, rent-to-own stores, and tax preparers. Reliance on these types of financial services undermines a family’s ability to survive as they can become trapped in a cycle of debt due to high fees and interest rates. These families’ put nearly 13.3 billion dollars toward predatory lending scams annually.

By improving families’ access to mainstream services, we can enhance their financial security and success. Access to savings and checking accounts can provide a foundation for low- and moderate-income families to begin accumulating assets. In addition, families are more likely to save for assets such as their children’s college education, a home, retirement, or a small business. By entering the financial mainstream and having access to financial services, families are also able to establish credit and increase their access to buying power for the purchase of assets.

Payday loans and other financial services with high fees and interest rates undermine families’ ability to truly save and build their assets. This bill will provide families with an alternative to payday loans as well as the opportunity to receive financial education.

Check cashing, or payday lending, is a short-term, high-interest loan that has the potential to exacerbate consumer problems. Many consumers are often not aware of the annual percentage rate associated with the fee structure of payday loans causing millions of families to struggle to meet their most basic needs to survive.

It is extremely important to protect hard working families from financial services that are predatory in nature, and striping them of their hard earned income. Particularly worrisome is the practice of targeting military families navigate the maze of financial services. Responsible Lending, active-duty military personnel are three times more likely than civilians to take out a payday loan and one in five active-duty personnel are payday borrows.

The loans provided to families under the grant in this bill would be subject to the annual percentage rate promulgated by the National Credit Union Administration’s (NCUA) Loan Interest Rates, which is currently capped at an annual percentage rate of 18 percent.

Several credit unions have developed similar products to assist families. In Hawai‘i, the Windward Community Federal Credit Union has developed an affordable alternative to payday loans to help the Marines and the other members that they serve. This program was developed with an NCUA grant.

This bill will also provide financial education to families that apply for the loans. As the financial market expands and becomes more complex, having a financial education is extremely important for every family. More than ever, financial education can enhance the opportunities for financial services that exist. Providing families with a financial education allows them to have choice and control over their finances so they can more easily save and build assets.

We urge the Senate’s favorable consideration of this bill that would give millions of low- and moderate-income families the opportunity to successfully enter the financial world.

Mahalo nui loa,
LARRISA MENNEKE,
Public Policy Associate.

By Mr. SANDERS (for himself, Mr. OBAMA, Mrs. CLINTON, Mr. KENNEDY, Mr. BROWN, Ms. MUKULSKI, Mr. CASEY, Mrs. BOXER, Mr. DURbin, and Mr. INOUYE):

S. 3413. A bill to achieve access to comprehensive primary health care services for all Americans and to improve primary health care through provision of an expansion of the community health center and National Health Service Corps programs; to the Committee on Health, Education, Labor, and Pension.

Mr. SANDERS, Mr. President, today there is some good news and some bad news. The bad news is that oil is at $123 a barrel and working people are paying $4 for a gallon of gas, and this coming winter residents of the Northeast could be paying over $5 for a gallon of heating oil.

But, there is some good news. Today, the CEOs of ExxonMobil, Shell, BP and ConocoPhillips are celebrating. They’re feeling pretty good. And, they have good reason to feel that way.

ExxonMobil reported today that it made over $11.68 billion in profits over the 2nd quarter alone, breaking its own record for the largest profit of any American company in the history of the world.

But, ExxonMobil is not alone. Shell’s 2nd quarter profit jumped by 33 percent to $11.56 billion; and BP’s 2nd quarter profit jumped by 28 percent.

As a matter of fact, since George W. Bush and Dick Cheney have been in office, the five largest oil companies have made over $640 billion in profits.

This includes:
- ExxonMobil: $157 billion for Shell; $125 billion for BP; $80 billion for ChevronTexaco; and $66 billion for ConocoPhillips.

Believe it or not, the Big 5 oil companies have more profits during the 2nd quarter than they did during the entire year of 2002.

Now, with the exception of my Republican friends here in Congress, there are few people in this country who believe the oil companies give one hoot about the well-being of the American people. Our Republican friends are saying that if we just give these huge oil companies more acres offshore to drill for oil, they will certainly do the right thing, as they always have, for the American people. Let’s just trust those big oil companies because they are really staying up day after day, night after night, worrying about the well-being of the American people.

Yes, it is good to see there are at least some people in America who believe that I don’t, but apparently my Republican colleagues do.

Let me tell you, big oil companies are so concerned about Americans paying high prices for gas and oil that this is what they are doing with their profits: In 2005, ExxonMobil gave its CEO, Lee Raymond, a $398 million retirement package—one of the richest compensation packages in corporate history. They weren’t going out looking for new land to drill on, they weren’t building more refineries, and they weren’t working on energy efficiency.

They gave their CEO a $398 million retirement package—one of the richest compensation packages in corporate history.
According to the Wall Street Journal, if the CEO of Occidental Petroleum dies in office, his family will get $115 million. The family of the CEO of Nabors Industries, another oil company, would receive $288 million. This would not make them any less wealthy than they already are, but the difference in the amount of money they would receive is quite significant.

Not only are huge oil companies using their record-breaking profits on buybacks and dividends, but they are also investing large sums of money back into their own stock. In other words, when they are making these very large profits, they are not going out drilling for more oil, as our Republican friends are suggesting.

In fact, while Americans are struggling to pay for the skyrocketing price of gasoline, big oil companies are having an entirely different problem. For the past seven years, big oil companies are struggling to figure out what to do with all of their windfall profits.

Let me quote from a headline taken from the front page of the Wall Street Journal way back on July 30 of 2001, “Pumping Money: Major Oil Companies Struggle to Spend Huge Hoards of Cash.” According to this 2001 article, Royal Dutch/Shell Group said it was pumping out $1.5 million in profit an hour and sitting on more than $1 billion in the bank.” That was in 2001.

Since that time Shell’s profits have more than tripled.

On April 18, 2005, Fortune Magazine published an article with the Headline “Poor Little Rich Company,” referring to ExxonMobil. According to this article, “ExxonMobil CEO Lee Raymond, suddenly has a new anxiety: how to spend the windfall wrought by $35 a barrel oil. By the end of April [of 2005], Exxon will have a cash hoard of more than $33 billion. At a time when domestic energy production is declining and drivers are paying a record $2.15 a gallon [remember, this was in 2005], American consumers, not to mention politicians, are likely to start focusing on whether Exxon is spending enough to find oil and gas. While Exxon is returning more money to shareholders via dividends and buying back more of its stock, its spending on drilling and other development activities actually declined in 2004—even though crude prices jumped by 50% that year. That was when the price of oil was $55 a barrel and gas was $2.15 a gallon. Today oil is over $123 a barrel and gas is about $4 a gallon.

What is happening today? Big oil companies are spending even more on stock buybacks and CEO compensation and less on trying to produce more oil.

For example, ConocoPhillips recently announced that it plans to give all of the $12 billion in profits it made last year back to shareholders, paying more than $3 billion in dividends and spending the rest to buy back shares of its own stock. To put this in perspective, the money that ConocoPhillips is spending on stock buybacks and dividends is enough to reduce the price of gas by 9 cents a gallon throughout the entire United States.

Now, I want my Republican friends to listen carefully. They have been saying over and over again that big oil desperately needs all of these windfall profits to drill for more oil.

But, guess what? According to the CEO of ConocoPhillips, James Mulva, “We like the discipline of the share repurchase. If we find that we have more cash flow, it’s not really going to be going toward capital spending.” In other words, ConocoPhillips won’t use their windfall profits to drill for more oil, or invest in renewable energy, or explore for new sources of oil discoveries no matter how much their profits rise.

Overall, since 2005, the five biggest oil companies have made $345 billion in profits and spent over $250 billion buying back stock and paying dividends to shareholders.

Last year, ExxonMobil spent 850 percent more buying back its own stock than it did in capital expenditures in the United States.

The $38 billion in windfall profits that ExxonMobil gave back to shareholders last year could have been used to reduce the price of gas throughout the United States by 27 cents a gallon for the entire year.

Mr. President, let’s not kid ourselves. One of the major reasons as to why Americans are getting ripped-off at the gas pump has to do with the tremendous power and influence that big oil companies have in the Congress. As a matter of fact, since 1998, the oil and gas industry has spent over $616 million on lobbying activities.

Who have they hired? Well, on April 8 of this year, The Hill reported that Chevron hired former Majority Leader Trent Lott, a Republican; former Senator John Breaux, a Democrat; their sons Chester Trent Lott, Jr. and John Breaux, Jr.; and Trent Boyles, who was Lott’s Chief of Staff to lobby Congress on issues relating to trade, climate change, and energy taxes.

ExxonMobil has hired former Senator Don Nickles, a Republican from Oklahoma, who served in this body for 24 years, to lobby Congress on behalf of their issues.

These are just a few of the hundreds of lobbyists that big oil and gas companies use. They have the best of the best to lobby Congress, many of them former Senators, former Congressmen, and former Congressional staff members.

That is one of the reasons why, among many other reasons, this Congress, on the one hand, has decided to give some $18 billion in tax breaks to oil companies despite their record-breaking profits.

In addition, since 1990 big oil companies have made over $213 million in campaign contributions. And that is a simple fact.

Lo and behold, what we are hearing today—just coincidentally, no doubt—is that the most important thing we can do in terms of the energy crisis is to provide more land offshore for the oil companies to drill at a time when they already have some 68 million acres of leased land, which they are not drilling on today.

Mr. President, let’s not kid ourselves. The American people want action, and there are some things we can do—not in 15 or 20 years but that we can do right now.

First, we need to impose a windfall profits tax on big oil companies so that they would be prohibited from gouging consumers at the gas pump.

Unfortunately, instead of taking away big oil’s windfall profits and giving it back to the American people, Republicans want to provide even more tax breaks to big oil. In fact, Sen. McCain has a plan that would give ExxonMobil a $1.5 billion tax break.

Now, we have heard Republicans give three reasons as to why they are opposed to a windfall profits tax.

First, Republicans claim that the last time Congress enacted a windfall profits tax in 1981 it had the effect of increasing our dependence on foreign oil. Wrong. Mr. President, when Congress repealed the windfall profits tax in 1988, the U.S. imported 13.4 million barrels of oil a day. Today, the U.S. is importing over 13.4 million barrels of oil a day. We are far more dependent on foreign oil today without a windfall profits tax than we were 20 years ago when we had a windfall profits tax.

Secondly, my Republican friends tell us that the windfall profits tax didn’t work because Congress repealed it in 1988. That is also wrong. While I would have structured it differently, the fact of the matter is that from 1981 until 1988 when the windfall profits tax was repealed, the price of oil fell from $35 a barrel to less than $15 a barrel. In addition, gas prices at the pump fell from $1.35 a gallon to 90 cents a gallon—a drop of 45 cents a gallon. And the Federal Government collected over $30 billion in revenue.

The reason why the windfall profits tax was repealed was due to low oil and gas prices, which makes perfect sense. If oil and gas prices are low, big oil companies are not making windfall profits and there is no need for a windfall profits tax. If gas prices at the pump were only 90 cents a gallon, I would be one of the first to say we don’t need a windfall profits tax. But, they are not. They are over $4 a gallon.

Finally, Republicans claim that big oil companies need to keep their windfall profits so that they can increase production and build more refineries. That particular argument is laughable. Big oil companies have been making windfall profits for over seven long years—and they are not using these profits to build more refineries and they are not using it to expand production. Instead, they are using this money to buy back their own stock, increase dividends to their shareholders,
and enrich their CEOs, as I have explained earlier.

Not only do we need to impose a windfall profits tax on these extremely powerful oil corporations, but we also have to address what I perceive is a growing and unacceptable trend: the Wall Street investment banks, such as Goldman Sachs, Morgan Stanley, JP Morgan Chase, and hedge fund managers are driving up the price of oil in the unregulated energy futures market. In other words, they are speculating on energy and driving up prices.

There are estimates that 25 to 50 percent of the cost of a barrel of oil is attributable to unregulated speculation on oil futures. We have heard from some leading energy economists, and we have heard from people in the oil industry themselves who tell us that 25 to 50 percent of the cost of a barrel of oil today is not due to supply and demand or the cost of production but is due to manipulation of markets and excess speculation. In essence, as Wall Street firms are making billions as they artificially drive up oil prices by buying, holding, and selling huge amounts of oil on dark unregulated markets.

Some of my Republican friends claim that the increase in the price of oil has nothing to do with speculation, but it is interesting to me that we have had executives of major oil companies—major oil companies—who have come before Congress and who are saying, “Why is oil $125, $130, and $140 a barrel? Do you know what they say? The CEO of Royal Dutch Shell testified before Congress and said: “The oil fundamentals are no problem. They are the same as they were when oil was selling for $60 a barrel.”

This is not some radical economist. It is not some left-winger. This is a guy who is the head of Royal Dutch Shell. The CEO of Marathon Oil recently said: “I don’t think it’s justified by the physical demand in the market.”

I know my Republican friends have a lot of respect for the oil industry, a great competence in them. They love them and give them huge tax breaks. So maybe they should listen to what some of these guys are saying in terms of oil speculation.

For those who believe that excessive speculation is not causing oil prices to climb higher, let me just say this. Over the period from January 1970 to January 2007, the Aramco were caught red-handed manipulating the price of electricity; propane; and natural gas. Each time, supply and demand was to blame and each time the punitives were proven wrong. Excessive speculation, manipulation and greed were the cause. Enron executives are in jail for manipulating the electricity market in 2001; BP was forced to pay a $300 million fine for manipulating propane prices in 2004; and the Amaranth hedge fund collapsed after manipulating natural gas prices in 2006.

The Stop Excessive Speculation Act introduced by Majority Leader Reid begins to seriously address this problem. We need to pass this bill as soon as possible.

The bottom line is that it is time for the United States Senate to say no to big oil companies and greedy hedge fund managers and yes to the American people.

### SUBMITTED RESOLUTIONS

#### SENATE RESOLUTION 636—RECOGNIZING THE STRATEGIC SUCCESS OF THE TROOP SURGE IN IRAQ AND EXPRESSING GRATITUDE TO THE MEMBERS OF THE UNITED STATES ARMED FORCES WHO MADE THAT SUCCESS POSSIBLE

Mr. LIEBERMAN (for himself, Mr. GRAHAM, Mr. MCCAIN, Mr. ENZI, Mr. MARTINEZ, Mr. BOND, Mr. WICKER, Mr. CORNYN, Mr. CRAPO, Mr. ALLARD, Mr. THUNE, Mr. BARRASSO, and Mr. INHOFE) submitted the following resolution; which was referred to the Committee on Armed Services.

WHEREAS, by the end of 2006, it had become clear that, despite exceptional efforts and sacrifices on the part of the United States Armed Forces in Iraq, the United States was pursuing a failed strategy in Iraq;

WHEREAS, by the end of 2006, large-scale sectarian violence was accelerating throughout Iraq, al Qaeda had established significant safe havens and strongholds in the Iraq Government of Iran had seized effective control of large swaths of Iraq, and the Government of Iraq was suffering from political paralysis;

WHEREAS, by the end of 2006, insurgents and death squads were killing more than 3,000 civilians in Iraq each month and coalition forces were supporting more than 1,200 attacks each week;

WHEREAS, in December 2006, the Iraq Study Group recommended that the United States was facing one of its most difficult and significant international challenges in decades and that “Iraq is vital to regional and even global stability, and is critical to U.S. interests”;

WHEREAS, in December 2004, Osama bin Laden said the following of the war in Iraq: “The most important, and serious issue today for the whole world is this Third World War... the world’s millstone and pillar is Baghdad, the capital of the caliphate...”;

WHEREAS, on January 10, 2007, in an address to the Nation, President George W. Bush acknowledged that the situation in Iraq was “unacceptable” and announced his intention to put in place a new strategy, subsequently known as the “surge”;

WHEREAS President Bush nominated and the Senate confirmed General David H. Petraeus as the Commander of Multi-National Forces-Iraq, a position he assumed on February 10, 2007;

WHEREAS General Petraeus, upon assuming command, and in partnership with Lieutenant General Raymond Odierno, the Commander of Multi-National Corps-Iraq, and United States Ambassador to Iraq Ryan Crocker, implemented the comprehensive civi-military countersurgency campaign plan to reverse Iraq’s slide into chaos, defeat the enemies of the United States in Iraq, and, in partnership with the Government of Iraq, reestablish security across the country;

WHEREAS, under the previous strategy, the overwhelming majority of United States combat forces were concentrated on a small number of large forward operating bases and not assigned the mission of building security for the people of Iraq against insurgents, terrorists, and militia fighters, in part because there were insufficient members of the United States Armed Forces in Iraq to do so;

WHEREAS, as an integral component of the surge, members of the United States Armed Forces were deployed out of large forward operating bases onto small bases throughout Baghdad and other key population centers, partnering with the Iraqi Security Forces to provide security for the local population against insurgents, terrorists, and militia fighters;

WHEREAS additional members of the United States Armed Forces began moving into Iraq in January 2007 and reached full strength in July 2007;

WHEREAS, as a consequence of the additional forces needed in Iraq, in April 2007 the United States Army added 3 months to the standard year-long tour for active duty soldiers in Iraq and Afghanistan, and the United States Marine Corps added 3 months to the standard 6-month tour for all active duty Marines in Iraq and Afghanistan;

WHEREAS, as an integral component of the surge, members of the United States Armed Forces began simultaneous and successive offensive operations, in partnership with the Iraqi Security Forces, of unprecedented breadth, continuity, and sophistication, that yield enemy safe havens and lines of communication at the same time;

WHEREAS, as an integral component of the surge, additional members of the United States Armed Forces were deployed to Anbar province to provide essential support to the nascent tribal revolt against al Qaeda in that province;

WHEREAS those additional members of the United States Armed Forces played a critical role in the success and spread of anti-Qaeda Sunni tribal groups in Anbar province and subsequently in other regions of Iraq;

WHEREAS, since the start of the surge in January 2007, there have been marked and hopeful improvements in almost every political, security, and economic indicator in Iraq;

WHEREAS, in 2007, General Petraeus declassified Iraq as “the central front of al Qaeda’s global campaign”;

WHEREAS, in 2008, as a consequence of the success of the surge, al Qaeda has been dealt a severe blow, and Director of Central Intelligence Michael Hayden assesses as “a near strategic defeat” in Iraq;

WHEREAS, as a consequence of the success of the surge, Iraqi militias have been routed from major population centers in Iraq and no longer control significant swaths of territory;

WHEREAS, as a consequence of the success of the surge, sectarian violence in Iraq has fallen dramatically and has been almost entirely eliminated;

WHEREAS, as a consequence of the success of the surge, overall insurgent attacks have fallen by approximately 80 percent since June 2007 and are at their lowest level since May 2003;

WHEREAS, as a consequence of the success of the surge, United States casualties in Iraq have dropped dramatically and United States combat deaths in Iraq and other regions have been lower than in any other month since the beginning of the war;
Whereas, as a consequence of the success of the surge, the Government of Iraq has made significant strides in advancing sectarian reconciliation and achieving political progress toward the passage of key benchmark legislation;

Whereas, as a consequence of the success of the surge, the Iraqi Security Forces have improved their performance, with approximately 70 percent of Iraqi combat battalions are now leading operations in their areas; and

Whereas, as a consequence of the success of the surge, General Petraeus concluded in June 2008 that conditions on the ground in Iraq could permit the additional brigades and battalions dispatched to Iraq in 2007 as part of the surge deployed with replacement, and all such brigades and battalions have been successfully withdrawn without replacement; Now, therefore, be it

Resolved, That the Senate—

(1) commends and expresses its gratitude to the men and women of the United States Armed Forces for the service, sacrifices, and heroism that made the success of the troop surge in Iraq possible;

(2) commends and expresses its gratitude to General David H. Petraeus, General Raymond Odierno, and Ambassador Ryan Crocker for the distinguished wartime leadership that made the success of the troop surge in Iraq possible;

(3) recognizes the success of the troop surge in Iraq and its strategic significance in advancing the vital national interests of the United States in Iraq, the Middle East, and the world, in particular as a strategic victory in a central front of the war on terrorism; and

(4) recognizes that the hard-won gains achieved as a result of the troop surge in Iraq are significant but not yet permanent and that it is imperative that no action be taken that jeopardizes those gains or dishonest the service and sacrifice of the men and women of the United States Armed Forces who made those gains possible.

SENATE RESOLUTION 637—TO HONOR THE VISIONARY AND EXTRAORDINARY WORK OF LOS ALAMOS NATIONAL LABORATORY AND IBM FOR THE ROADRUNNER SUPERCOMPUTER

Mr. DOMENICI (for himself and Mr. BINGAMAN) submitted the following resolution, which was referred to the Committee on Energy and Natural Resources:

S. Res. 637

Whereas on May 26, 2008, the Roadrunner supercomputer of the Los Alamos National Laboratory broke a historic barrier by being powerful enough to run at a petaflop, 1,000,000,000,000,000 calculations per second, making it the fastest computer in the world;

Whereas International Business Machines Corporation (referred to in this resolution as “IBM”) and Los Alamos National Laboratory overcame the challenges of technological innovation to achieve a petaflop ahead of schedule;

Whereas the Roadrunner supercomputer will enable the United States to tackle new and more challenging problems;

Whereas the Roadrunner supercomputer will be used to address national security in the United States and will be used for ensuring the safety and reliability of the weapons stockpile of the United States and for research on supercomputers, materials science, energy research, medicine, and biotechnology;

Whereas Cell-based supercomputer technology of IBM is the most energy efficient in the world;

Whereas the new high-performance computing capability will be employed by hybrid Opteron-Cell machines of IBM in the Roadrunner supercomputer of Los Alamos National Laboratory to enhance and improve United States national security;

Whereas from maintaining employment records for millions of people of the United States, to providing technology to help the United States in the Ballistic Missile Early Warning System, land on Mars, end the war on terrorism; and

Whereas the Roadrunner supercomputer is the most recent achievement of long-standing science and technology leadership of Los Alamos National Laboratory, from the Manhattan Project to the role of the Laboratory today as a premier national security science laboratory; and

Whereas, as a consequence of the success of the Roadrunner supercomputer funding was initiated with $35,000,000 in the Energy and Water Development Appropriations Act, 2006 (Public Law 109–103): Now, therefore, be it

Resolved, That the Senate honors the visionary and extraordinary work of Los Alamos National Laboratory and IBM for—

(A) is considered a crucial milestone in supercomputing. A petaflop is a million trillion calculations in a second. If every human being on the planet were given a calculator it would take 50 years to do what this supercomputer can do in a single day.

(B) is considered a sign of the competitiveness of the United States in the critical new area of high-performance computing capability; and

(C) will allow the United States to solve even bigger and more complex problems from the safety of the nuclear deterrent of the United States to human genome science and climate change;

Mr. DOMENICI. Mr. President, I come to the floor today to introduce a resolution to recognize the achievement of a major scientific milestone by two great American institutions—Los Alamos National Laboratory and IBM—namely, to build the first supercomputer to break the “petaflop” barrier in supercomputing. A petaflop is a million, billion calculations per second. Think of that—a million, billion calculations in a second. If every human being on the planet were given a calculator it would take 50 years to do what this supercomputer can do in a single day.

This supercomputer is called the “Roadrunner” and was developed cooperatively by the Los Alamos National Laboratory and IBM—two American institutions which have a long and prestigious history in delivering major technological breakthroughs for the Nation.

The Roadrunner is the fastest computer in the world. It more than doubles the previous record. We can be very proud this achievement for American science and technology. It highlights the essential role our national laboratories play in advancing the state of the art for high performance computing—a vital component of our national security and scientific leadership.

Every year, computing power increases at a pace set by America’s national laboratories. From developing advanced computing architectures and algorithms, to creating effective means for storing and viewing the enormous amounts of data generated by these machines, the laboratories have made high performance computing a reality.

These applications go well beyond security and basic science. The laboratories have worked hard to transition these capabilities to academia and industry, simulating complex industrial processes and their environmental impact, including global climate change. Collaborations with the private sector have also driven down the cost, so that now high performance does not mean high expense. This has had an enormous impact, placing advanced computing within reach of an ever wider circle of users.

These achievements did not happen by accident. They required planning, commitment and follow through. Indeed, the Roadrunner began as an earmark in the fiscal year 2006 appropriation bill. Congress must ensure that the world-class simulation capabilities within the complex are maintained and investments are made to drive future innovation.

We must continue to raise the bar, giving our best and brightest new goals to work toward, ensuring that America will retain its technical leadership in advanced computing.

I hope my colleagues will join me in recognizing Los Alamos National Laboratory and IBM for reaching yet another milestone in supercomputer development.

In particular, I want to commend the members of the Roadrunner team.

From IBM: Nicholas Donofrio, Cornell Wright, William Zeitzer, David Turek, Don Grice, and Catherine Crawford.

Participants from academia included Steven Zuker of Yale University and James DiCarlo from the Massachusetts Institute of Technology.

Congratulations on a job well done. Top 10 Fastest Supercomputers in the World (June 2008)

Name, Location, Speed (TFlop/s),
1. Roadrunner (IBM), Los Alamos, NM (NSA), 10240.0
2. BlueGene/L (IBM), Livermore, CA (NSA), 478.2
3. Blue Gene/P (IBM), Argonne, IL (DOE), 450.3
Whereas uninsured women who pay more than $7,000 for health care, yet receive less care than insured women—nearly 50 million. Millions more are also underinsured and have less access to health care as any other industrialized nation, yet we have an unacceptably high number of Americans without health insurance—nearly 50 million. Millions more are also underinsured and have less coverage than they need. We are blessed with the best doctors, nurses, and other health providers in the world but rank 43rd in the world in infant mortality.

We are all in this together. From working families to the uninsured, from multinational corporations to small businesses, we all face challenges in making sure Americans get the quality, affordable health care they need, when they need it. Rising costs are crippling our businesses and our economy. Health care costs make large economic productivity from existing coverage and include large parts to reproductive health care needs; a prescription drug on a daily basis; health condition, and are more likely to take preventive and routine care than are men, are more likely to have a chronic medical or economic productivity from existing coverage; and, are more likely to be insured as a dependent, making them more vulnerable to insurance loss in the event of divorce or death of a spouse; whereas 64 percent of uninsured women are in families with at least 1 adult working full-time but rank 43rd in the world in infant mortality.

We are all in this together. health care disparities that affect women. For example, heart disease is a leading cause of death for both women and men but women are less likely to receive lifestyle counseling or other medical intervention and more likely to die or have a second heart attack. We stand together and call on Congress to find a solution. As mothers with young children, women with aging parents, small business owners, health professionals and health care consumers, women confront problems in our health care system every day.

We are pleased to have the support of numerous groups representing physicians, women, and families, including the American College of Obstetricians and Gynecologists, Planned Parenthood, the National Women’s Law Center, and the National Partnership for Women and Families.

There is much work to be done to change our health care system and it is going to take everyone’s best effort, working together, to achieve it. America’s families, businesses, and providers cannot wait any longer. This resolution is a first step and a signal that we need to roll up our sleeves and get to work.

SENATE RESOLUTION 639—RECOGNIZING THE BENEFITS OF TRANSPORTATION IMPROVEMENTS ALONG THE UNITED STATES ROUTE 36 CORRIDOR TO COMMUNITIES, INDIVIDUALS, AND BUSINESSES IN COLORADO

Mr. SALAZAR (for himself and Mr. ALLARD) submitted the following resolution; which was referred to the Committee on Environment and Public Works:

Whereas the Colorado communities of Westminster, Louisville, Superior, Broomfield, Denver, and Boulder have united in support of transportation improvements along the United States Route 36 corridor (in this preamble referred to as the “U.S. 36 Corridor”);

Whereas communities in Denver, Adams, Broomfield, Jefferson, and Boulder counties, which have experienced unprecedented levels of growth since the early 1990s, are connected by the U.S. 36 Corridor;

Whereas the area’s rapid growth has outpaced its transportation needs and is impeding the efficient movement of people and goods;

Whereas the U.S. 36 Corridor exemplifies the congestion challenges facing the fastest-growing sections of States in the American West;

Whereas the U.S. 36 Corridor is a dynamic travel corridor with bi-directional travel to and from the multiple communities throughout the day;

Whereas addressing congestion along the U.S. 36 Corridor is critical to the work and school commutes of thousands of Coloradans between the Denver metro-politan area and Boulder;

Whereas the Colorado Department of Transportation and the Regional Transportation District, in conjunction with the Federal Highway Administration and the Federal Transit Administration, have been studying multimodal transportation improvements between Denver and Boulder in the U.S. 36 Corridor environmental impact statement since 2003;

Whereas public comments received in the process of developing the environmental impact statement sought a transportation solution that further reduced the impacts on the community, environment, minimized project costs, and improved mobility of people and goods;

Whereas the U.S. 36 Corridor project, as developed through environmental impact statement process, is a national model for congestion mitigation measures, which may combine tolling, public transit, technology, teleworking, and options that can be quickly implemented and have an immediate impact;

Whereas the U.S. 36 Corridor could become a premier transportation corridor, complete with bus rapid transit, high occupancy vehicle lanes, and safe bicycling lanes;

Whereas the U.S. 36 Corridor project represents a thoughtful, comprehensive approach to congestion on the Nation’s roadways;

Whereas a record of decision will be issued in 2009, which paves the way to commence on the U.S. 36 Corridor project;

Whereas the U.S. 36 Corridor project was among the highest ranked congestion mitigation proposals under the Department of Transportation’s Urban Partnership Agreement Program;

Whereas it is important that Congress find innovative ways to fund regionally significant transportation projects, especially projects that will improve air quality, expand transportation choices, reduce congestion, and provide access to pedestrian and transit facilities: Now, therefore, be it

Resolved, That the Senate—

(1) commends the members of the Mayors and Commissioners Coalition, the Colorado Department of Transportation, the Regional Transportation District, and the businesses that support 36 Commuting Solutions, a public-private nonprofit organization, for their commitment, dedication, and efforts to proceed with the United States Route 36 corridor project;

(2) recognizes the benefits for mobility, the environment, and quality of life that would be gained by investing in transportation improvements along the United States Route 36 Corridor throughout Colorado and elsewhere; and

(3) supports Federal transportation investments along the United States Route 36, throughout Colorado, and elsewhere that reduce congestion, reduce carbon emissions, improve mobility, improve access to transit for bicyclists and pedestrians, reduce vehicle miles traveled, reduce dependence on foreign oil, support mass transit, include intelligent transportation systems, and implement travel demand management strategies;

Whereas the United States has the highest rate of preventable deaths among 19 industrialized countries and lags behind 28 other members of the United Nations in life expectancy;

Whereas various research studies suggest that nearly 60 percent of premature deaths in the United States are attributable to environmental conditions, social circumstances, or behavioral choices that could be prevented;

Whereas more money is spent each year on health care in the United States than in any other country in the world;

Whereas, of the more than $2,200,000,000,000 spent on health care in the United States each year, less than 4 cents out of every dollar are spent on improving public health and preventing diseases and injuries;

Whereas chronic diseases are the leading cause of preventable death and disability in the United States, accounting for 7 out of every 10 deaths and killing more than 1,700,000 people in the United States each year;

Whereas those often preventable chronic diseases account for approximately 75 percent of health care spending in the United States each year, including more than 96 cents out of every dollar spent under the Medicare program and more than 83 cents out of every dollar spent under the Medicaid program;

Whereas those chronic diseases cost the United States an additional $1,000,000,000,000 each year in lost productivity and are a major contributing factor to the overall poor health that is placing the United States at economic security and competitiveness in jeopardy;

Whereas the number of people with chronic diseases is rapidly increasing, and it is estimated by 2050 nearly 30 percent of the population of the United States will suffer from at least one chronic disease if action is not taken;

Whereas the use of clinically-based preventive services has been demonstrated to prevent or result in early detection of cancer and other diseases, save lives, and reduce overall health care costs; and

Whereas research has shown that investing in community-level interventions that promote and enable proper nutrition, increased access to physical activity, and cessation programs can prevent or mitigate chronic diseases, improve quality of life, increase economic productivity, and reduce health care costs; Now, therefore, be it

Resolved, that the Senate—

(1) recognizes that, in order to reduce the disease burden and health care costs associated with preventable diseases and injuries, it is imperative that the United States strengthen its public health system—

(A) to provide all people in the United States with the information, resources, and environment necessary to make healthier choices and live healthier lives; and

(B) to protect all people in the United States from health threats beyond their control, such as bioterrorism, natural disasters, infectious disease outbreaks, and environmental hazards;

(2) commits to creating public health strategies to eliminate health disparities and improve the health of all people in the United States, regardless of race, ethnicity, or socioeconomic status;

(3) supports the prioritizing of public policies focusing on the prevention of disease and injury;

(4) calls for community-based programs to support healthy lifestyles and programs that promote proper nutrition and increased access to physical activity;

The risk of colorectal cancer begins
the age of 40 and rises sharply at the ages of 50 to 55, at which
point the risk doubles with each suc-
ceeding decade. Despite advances in
surgical techniques and adjuvant ther-
apy, there has been only a modest im-
provement for patients who present
with advanced cancers.

The good news is that colorectal can-
cer can be prevented, and is highly
treatable when discovered early. Most
cases of the disease begin as non-can-
cerous polyps which can be detected
and removed during routine screen-
ings—preventing the development of
colorectal cancer. Screening tests also
save lives even when they detect polyps
which are cancerous. As early as catch-
ing the disease in its earliest, most
curable stages. The cure rate is up to 93
percent when colorectal cancer is dis-
covered early.

We must also promote changes in
lifestyles, or community-based inter-
ventions, to improve our health status.
This means encouraging and enabling
proper nutrition, increasing our level
of physical activity, supporting smok-
ning cessation programs for those who
smoke now, and educating youth about
the dangers of smoking.

Trust for America’s Health has just
released a report entitled “Prevention for
a Healthier America.” Among its con-
clusions is that “an investment of
$10 per person per year in community-
based health promotion and health-
activity, improve nutrition, and prevent
smoking and other tobacco use could
save the country more than $16 billion
annually every five years . . . a return
of $5.60 for every $1. Of the $16 billion,
Medicare could save more than $5 bil-
ion. Medicaid could save more than $1.9
billion, and private payers could save
more than $9 billion.”

It is clear that to make a real dif-
fERENCE in America’s health status, and
to produce a far more efficient health
care system, the answer is to use our
health care resources more wisely.
That means investing in the clinically-
and community-based interventions
that will prevent the serious, chronic
diseases that are measured by infant
mortality rates, and in life expectancy.
And if we examine the distribution of
expenditures, it becomes apparent that we are
dedicating the lion’s share of re-
sources to chronic diseases, such
as diabetes, and hypertension. From
1987 to 2000, while our overall health care
spending doubled, spending on strokes
more than tripled and spending on
hypertension rose from $8 bill-
on $25 billion a year. Chronic dis-
ese as a major cause of preventable
death and disability, and are re-
sponsible for more than 1.7 million
deaths each year. They are particularly
 costly for publicly-funded insurance
programs, accounting for 96 cents of
every Medicare dollar and 83 cents of
every Medicaid dollar. Project HOPE
has estimated that by the year 2050,
nearly half the population of the
United States will develop at least one
chronic disease if we do not act.
But analyses also show that of the
money spent on health care, fewer than
4 cents of every dollar are dedicated to
public health and prevention. We need
to prioritize public health and preven-
tive approaches if we are to have a
healthier America.

We already know that early detec-
tion can save lives, reduce costs, and
result in a more efficient health care
system for all of us. One prominent ex-
ample is colorectal cancer screening.
Colorectal cancer is the number two
cancer killer in the United States. This
year, an estimated 148,000 new cases
will be diagnosed and more than 52,000
Americans will die from the disease.

The risk of colorectal cancer begins
to increase after the age of 40 and rises
sharply at the ages of 50 to 55, at which
point the risk doubles with each suc-
ceeding decade. Despite advances in

AMENDMENTS SUBMITTED AND PROPOSED

SA 5258. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 3268, to amend the Commodity Exchange Act, to prevent excessive price speculation with respect to energy commodities, and for other purposes; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 5258. Mr. GREGG submitted an amendment intended to be proposed by him to the bill S. 3268, to amend the Commodity Exchange Act, to prevent excessive price speculation with respect to energy commodities, and for other purposes, which was ordered to lie on the table; as follows:

On page 43, after line 17, insert the following:

TITLE II—HOME ENERGY ASSISTANCE

SEC. 21. SHORT TITLE.

This title may be cited as the “Home Energy Assistance Act”.

SEC. 22. LOW-INCOME HOME ENERGY ASSISTANCE APPROPRIATIONS.

In addition to any amounts appropriated under section 2604(e) of the Low-Income Home Energy Assistance Act of 1986 (42 U.S.C. 8621(e)), notwithstanding the designation requirement of section 2604(e) of the Low-Income Home Energy Assistance Act of 1986 (42 U.S.C. 8621(e)), there is appropriated, out of any money in the Treasury not otherwise appropriated, for fiscal year 2008—

1. $1,265,000,000 (to remain available until expended) for making payments under subsections (a) through (d) of section 2604 of the Low-Income Home Energy Assistance Act of 1986 (42 U.S.C. 8621(e)); and

2. $1,265,000,000 (to remain available until expended) for making payments under section 2604(e) of the Low-Income Home Energy Assistance Act of 1986 (42 U.S.C. 8621(e)), notwith standing the designation requirement of section 2604(e) of such Act (42 U.S.C. 8621(e)).

SEC. 23. DENIAL OF DEDUCTION FOR MAJOR INTEGRATED OIL COMPANIES FOR INCOME ATTRIBUTABLE TO DOMESTIC PRODUCTION OF OIL, GAS, OR PRIMARY PRODUCTS THEREOF.

(a) In General.—Subparagraph (B) of section 199(c)(4) of the Internal Revenue Code of 1986 (relating to exceptions) is amended by striking “or” at the end of clause (ii), by inserting “, or”, and by inserting after clause (ii) the following new clause:

“(iv) in the case of any major integrated oil company (as defined in section 167(h)(5)(B)), the production, refining, processing, transportation, or distribution of oil, gas, or any primary product thereof during any taxable year described in section 167(h)(5)(B).”;

(b) Primary Product.—Section 199(c)(4)(B) of such Code is amended by adding at the end the following flush sentence:

“For purposes of clause (iv), the term ‘primary product’ has the same meaning as when used in section 267(a)(2)(C), as in effect before its repeal.”;

(c) Effective Date.—The amendments made by this section shall apply to taxable years beginning after December 31, 2008.

AUTHORIZED FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m.

Mr. REID. Mr. President, I ask unanimous consent that the Ad Hoc Subcommittee on Disaster Recovery of the Committee on Homeland Security and Governmental Affairs, the House Committee on Homeland Security Subcommittee on Emergency Communications, Preparedness, and Response be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 1 p.m. to conduct a joint hearing entitled “Lessons Learned: Ensuring the Delivery of Donated Goods to Survivors of Disasters.”

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room SD666 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room 406 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room SD–226 of the Dirksen Senate Office Building.

COMMITTEE ON FINANCE

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room 215 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 2 p.m., in room SD–226 of the Dirksen Senate Office Building.

COMMITTEE ON FOREIGN RELATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 2 p.m., in room SD–226 of the Dirksen Senate Office Building.

COMMITTEE ON INDIAN AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room 562 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room 562 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room 562 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 9:30 a.m., in room 562 of the Dirksen Senate Office Building.

COMMITTEE ON THE JUDICIARY

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on Thursday, July 31, 2008, at 10 a.m., in room SD–226 of the Dirksen Senate Office Building.
The agreement will provide full compensation to pay settlements already reached in the Pan Am 103 and La Belle cases and enough funds to ensure that every American claimant in these cases involving Libyan terrorism will receive the same compensation comparable to the Pan Am 103 and La Belle settlements. No U.S. taxpayer money will be used to pay these claims. The regime in Libya is notoriously unpredictable, so there is a chance that the deal could fall through. There is reason to believe that the Libyan leader, Colonel Qadhafi, has decided it is in his interest to settle all of these cases, rather than let them languish in court for years or decades, at the expense of progress in the Libyan-American relationship. Should the government of Libya change its position and fail to provide the complete funding, the victims will retain their full rights to proceed with their legal challenges.

But before Libya is willing to sign the agreement, it wants legal assurances that upon providing the full funding it will be immune from further legal repercussions stemming from these cases. This legislation, if signed into law by the President, provides such assurances, allowing the deal to go forward. It authorizes the Secretary of State to work with the Libyans to set up the funding mechanism. It assures the Libyans that if and only if full compensation has been paid to all American victims of Libyan terrorism, they will be immune from further claims of this nature. And it assures the American victims that their lawsuits will not be extinguished unless the funding promised by the agreement is provided.

If this bill is approved by the House, Congress will have joined with the President to set up the funding mechanism. It assures the Libyans that if and only if full compensation has been paid to all American victims of Libyan terrorism, they will be immune from further claims of this nature. And it assures the American victims that their lawsuits will not be extinguished unless the funding promised by the agreement is provided.

For these reasons, I support the nascent Libyan-American agreement to comprehensively settle all outstanding American claims against Libyan terrorism. Libya’s renunciation of its weapons of mass destruction programs and its previous support for terrorism is something all of us should welcome. I support the carefully calibrated movement toward normalization of bilateral relations.

But it should be underscored that this legislation does not exonerate or excuse Libya for its despicable and cowardly support for terrorism. I hope that the agreement, this modicum of justice and closure for the victims of Libyan terrorism and their families. But it is small consolation indeed and will not bring back the lives that have been lost, nor undo the suffering endured by so many.

Neither does today’s legislation indicate a shift in my views of the fundamental nature of the Qadhafi regime. Yes, Americans are interested in Libya’s external behavior. But we are also concerned about the human rights conditions within Libya. Though his support for terrorists has ended, Qadhafi’s Libya remains a police state that brooks no political opposition. Four decades after coming to power in a military coup, Qadhafi uses his personal fiat. He may have had a change of mind about Libya’s policies, but I doubt that it has been a roadmap back into the international community if they modify their behavior. In short, the model of normalization with Libya, if applied to other problematic countries, will not actually produce that change.

It is critical that the Bush administration pursue a broader engagement with the Libyan people and civil society. This relationship must be about more than securing contracts for American oil companies. We have learned the hard way that our vital interests cannot be advanced by relationships that ignore the huge deficiencies in governance and basic freedoms in many Middle Eastern countries and are based exclusively on commercial and security interests. So I am disappointed that this comprehensive claims settlement agreement is not accompanied by a comprehensive plan to engage Libyan society. I urge the Bush administration to put as much energy into developing such a plan as it did in the negotiations for a claims settlement agreement.

For more than 4 years, I have called for the release of Fathi Eljehami, a courageous Libyan democracy advocate...
with serious health problems whose only crime was to speak truth to power. Though the change in direction in Libyan foreign policy in the last few years is as commendable as it is remarkable. Mr. Eljahmi’s continuing captivity is a reminder that basic fundamental rights such as rule of law and the freedom of speech do not exist inside Libya. As I have made it clear to Colonel Qadhafi, the future of the Libyan-American relationship, at least as far as this Senator is concerned, will be affected by the Libyan Government’s treatment of Mr. Eljahmi. I urge the Libyan Government to release him unconditionally and immediately, and to end the harassment of his family.

Engagement does not mean that we surrender our values. Engagement means we are in a stronger position to advance our values and to secure real change. I urge the Bush administration to use this opportunity to assert America’s interests in a broader relationship that will put Libya on a more sustainable, and more democratic, path.

Mr. LEAHY. Mr. President, I am pleased that the Senate has unanimously passed legislation that, in conjunction with an international agreement will put Libya on a more sustainable, and more democratic, path.

This legislation takes a critical step in securing the final payment of settlement amounts already reached by the victims of the Pan Am 103 Lockerbie bombing and the La Belle discotheque bombing, as well as full and fair compensation to those United States nationals who have terrorism-related claims against Libya. I commend Senator Frank Lautenberg, who has been working hard for years to get justice for the victims of terror, as well as the other cosponsors who have enabled this important legislation to win Senate approval.

I urge the House to work quickly to pass this legislation so that we can send this bill to the President’s desk.

Mr. LEVIN. Mr. President, I join with Senators BIDEN, LUGAR, LAUTENBERG, WARNER, and LEAHY today in submitting the Libya Claims Resolution Act.

During last year’s consideration of the Defense authorization bill, I joined with Senator LAUTENBERG and 31 other cosponsors in unanimously adding a provision which allowed victims of terrorism to seek redress in U.S. courts against foreign states whose officials or agents commit acts of terrorism, by establishing a private right of action under the sovereign immunity exception for state sponsors of terrorism.

I supported the LAUTENBERG amendment to the Defense authorization bill out of concern over Libya’s backing out of a settlement agreement with the victims and families of victims of the 1986 bombing of the La Belle discotheque in Berlin, Germany. On April 5, 1986, Libya directed its agents to execute a terrorist attack in West Berlin for the sole purpose of killing as many American military personnel as possible. The La Belle discotheque was known for being frequented by large numbers of U.S. military personnel. The bombing of the discotheque occurred at a time when 260 people, including U.S. military personnel, were present. When the bomb detonated, two U.S. soldiers were killed and over 90 U.S. soldiers were injured.

Since shortly after the National Defense Authorization Act was enacted in January 2008, and in direct response to the Lautenberg provision, the Libyans approached the State Department about securing a comprehensive settlement of claims against Libya brought by American victims of acts of terrorism.

Under the proposed international agreement the United States would receive sufficient funding to pay the two large outstanding settlements with Libya—the Pan Am 103 families’ settlement and the La Belle discotheque settlement—as Congress has requested in previous legislation. In addition, Libya would provide sufficient funds to ensure fair compensation of the other pending claims for acts of terrorism.

In return for this comprehensive claims settlement, the United States will need to assure Libya that it will not face further terrorism-related litigation in U.S. courts. This legislation, the Libya Claims Resolution Act, will restore Libya’s sovereign immunity—once the United States has received the agreed funding.

With the enactment of this legislation, the international agreement can be concluded quickly and the money channeled to American claimants. According to the State Department, the Pan Am and La Belle claimants should receive their settlements shortly after the agreement is signed, ending years of waiting for just compensation form Libya.

I commend the State Department for its efforts to bring these claims to a resolution.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the bill be read three times and passed; that the motion to reconsider be laid upon the table, with no intervening action or debate; and that all statements relating to the bill be printed in the Record.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 3370) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. This Act may be cited as the “Libyan Claims Resolution Act”.

SEC. 2. DEFINITIONS. In this Act—

(1) the term “appropriate congressional committee” means the Committee on Foreign Relations and the Committee on the Judiciary of the Senate and the Committee on Foreign Affairs and the Committee on the Judiciary of the House of Representatives;

(2) the term “claims agreement” means an international agreement between the United States and Libya through fair compensation; and

(3) the term “national of the United States” has the meaning given that term in section 101(a)(22) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(22));

(4) the term “Secretary” means the Secretary of State; and

(5) the term “state sponsor of terrorism” means a country the government of which the Secretary has determined, for purposes of section 6(j) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)), section 602(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371), section 40 of the Arms Export Control Act (22 U.S.C. 2780), or any other provision of law, is a government that has repeatedly provided support for acts of international terrorism.

SEC. 3. SENSE OF CONGRESS. Congress supports the President in his efforts to provide fair compensation to all nationals of the United States who have terrorism-related claims against Libya through a comprehensive settlement of claims by such nationals against Libya pursuant to an international agreement between the United States and Libya as a part of the process of restoring normal relations between Libya and the United States.

SEC. 4. ENTITY TO ASSIST IN IMPLEMENTATION OF CLAIMS AGREEMENT.

(a) DESIGNATION OF ENTITY.—

The Secretary, by publication in the Federal Register, may, after consultation with the appropriate congressional committees, designate 1 or more entities to assist in providing compensation to nationals of the United States, pursuant to a claims agreement.

(b) IMMUNITY.—

(1) PROPERTY.—

(A) IN GENERAL.—Notwithstanding any other provision of law, if the Secretary designates any entity under subparagraph (a)(1), any property described in subparagraph (B) of this paragraph shall be immune from attachment or any other judicial process. Such immunity shall be in addition to any other applicable immunity.

(B) PROPERTY DESCRIBED.—The property described in this subparagraph is any property—

(i) relating to the claims agreement; and

(ii) for the purpose of implementing the claims agreement, is—

(I) held by an entity designated by the Secretary under subsection (a)(1); or

(II) transferred to the entity; or

(III) transferred from the entity.

(2) OTHER ACTS.—An entity designated by the Secretary under subsection (a)(1), and any person acting through or on behalf of such entity, shall not be liable in any Federal or State court for any action taken to implement a claims agreement.

(c) NONAPPLICABILITY OF THE GOVERNMENT CORPORATION CONTROL ACT.—An entity designated by the Secretary under subsection (a)(1) shall not be subject to chapter 91 of title 31, United States Code (commonly
known as the “Government Corporation Control Act”).

SEC. 5. RECEIPT OF ADEQUATE FUNDS; IMMUNITY OF LIBYA.

(a) IMMUNITY.—

(1) IN GENERAL.—Notwithstanding any other provision of law, upon submission of a certification described in paragraph (2)—

(A) immunity or instrumentality of Libya, and the property of Libya or an agency or instrumentality of Libya, shall not be subject to the exceptions to immunity from jurisdiction, attachment, and execution contained in section 1605A, 1605(a)(7), or 1610 (insofar as section 1610 relates to a judgment under such section 1605A or 1605(a)(7)) of title 28, United States Code;

(B) section 1605A(c) of title 28, United States Code, section 1983(c) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–111, 122 Stat. 342; 28 U.S.C. 1605A note), section 599 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1997 (28 U.S.C. 1605 note), and any other private right of action relating to acts by a state sponsor of terrorism arising under Federal, State, or foreign law shall not apply with respect to claims for or on behalf of any of its agencies, instrumentalities, officials, employees, or agents in any action in a Federal or State court; and

(C) any attachment, decree, lien, execution, garnishment, or other judicial process brought against property of Libya, or property of any agency, instrumentality, official, employee, or agent of Libya, in connection with an action that would be precluded by subparagraph (A) or (B) shall be void.

(2) CERTIFICATION.—A certification described in this paragraph is a certification that—

(A) by the Secretary to the appropriate congressional committees; and

(B) stating that the United States Government has received funds pursuant to the claims agreement that are sufficient to ensure—

(i) payment of the settlements referred to in section 654(b) of division J of the Consolidated Appropriations Act, 2008 (Public Law 110–161; 121 Stat. 2342); and

(ii) fair compensation of claims of nationals of the United States for wrongful death or physical injury in cases pending on the date of enactment of this Act against Libya arising under section 1605A of title 28, United States Code, or any action brought under section 1605(a)(7) of title 28, United States Code, or section 599 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1997 (28 U.S.C. 1605 note), that has been given effect as if the action had originally been filed under section 1605A(c) of title 28, United States Code, pursuant to section 1983(c) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–111; 122 Stat. 342; 28 U.S.C. 1605A note).

(b) TEMPORAL SCOPE.—Subsection (a) shall apply only with respect to any conduct or event occurring before June 30, 2006, regardless of whether, or the extent to which, application of that subsection affects any action filed before, on, or after that date.

(c) AUTHORITY OF THE SECRETARY.—The certification by the Secretary referred to in subsection (a)(2) may not be delegated, and shall not be subject to judicial review.

AUTHORIZED PRODUCTION OF RECORDS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 642 submitted earlier today by Senators REID and MCCONNELL.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 642) to authorize the production of records by the Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs with respect to the investigation of tax haven financial institutions, their formation and administration, and the impact of those activities on tax compliance in the United States.

MEASURE READ THE FIRST TIME—S. 3406

Mr. DURBIN. Mr. President, I understand that S. 3406, introduced earlier today by Senator HARKIN, is at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will report the bill by title for the first time.

The legislative clerk read as follows:

A bill (S. 3406) to restore the intent and protections of the Americans with Disabilities Act of 1990.

Mr. DURBIN. Mr. President, I now ask for its second reading and object to my own request.

The PRESIDING OFFICER. Objection having been heard, the bill will be read for the second time on the next legislative day.

APPOINTMENT

The PRESIDING OFFICER. The Chair, on behalf of the Vice President, pursuant to Public Law 110–181, appoints the following individual to the Commission on Wartime Contracting:

Robert J. Henke of Virginia.

ORDERS FOR FRIDAY, AUGUST 1, 2008

Mr. DURBIN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand adjourned until 9:30 a.m. tomorrow, Friday, August 1; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the motion to proceed to S. 3001, the Defense authorization bill, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 9:30 A.M.

TOMORROW

Mr. DURBIN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it stand adjourned under the previous order.

There being no objection, the Senate, at 10:20 p.m., adjourned until Friday, August 1, 2008, at 9:30 a.m.
NOMINATIONS

Executive nominations received by the Senate:

DEPARTMENT OF TRANSPORTATION
DEBORAH HERSMAN, OF VIRGINIA, TO BE A MEMBER OF THE NATIONAL TRANSPORTATION SAFETY BOARD FOR A TERM EXPIRING DECEMBER 31, 2013. (REAPPOINTMENT)

DEPARTMENT OF STATE
SUNG Y. KIM, OF CALIFORNIA, A FOREIGN SERVICE OFFICER OF CLASS ONE, FOR THE RANK OF AMBASSADOR DURING HIS TENURE OF SERVICE AS SPECIAL ENVOY FOR THE SIX PARTY TALKS.

DEPARTMENT OF THE TREASURY
ANTHONY W. RYAN, OF MASSACHUSETTS, TO BE AN UNDER SECRETARY OF THE TREASURY, VICE ROBERT K. STEEL, REASSIGNED.

THE JUDICIARY
JOHN J. THARP JR., OF ILLINOIS, TO BE UNITED STATES DISTRICT JUDGE FOR THE NORTHERN DISTRICT OF ILLINOIS, VICE MARK R. FILD, REASSIGNED.

J. RICHARD BARRY, OF MISSISSIPPI, TO BE UNITED STATES DISTRICT JUDGE FOR THE SOUTHERN DISTRICT OF MISSISSIPPI, VICE WILLIAM H. BARBOUR, JR., RETIRED.

THOMAS MARCELLA, OF NEW YORK, TO BE UNITED STATES DISTRICT JUDGE FOR THE NORTHERN DISTRICT OF NEW YORK, VICE FREDERICK J. SCULLIN, JR., RETIRED.

ELECTION ASSISTANCE COMMISSION
GINEEN BRESSO BEACH, OF FLORIDA, TO BE A MEMBER OF THE ELECTION ASSISTANCE COMMISSION FOR THE REMAINDER OF THE TERM EXPiring DECEMBER 12, 2009, VICE CAROLINE C. HUNTER, REASSIGNED.
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. PLATTS. Madam Speaker, I rise to support House Resolution 1143. This resolution is intended to help increase awareness of our nation’s domestic apple supply and promote healthy food choices for students and communities.

The United States is the second largest producer of apples in the world, after China. I am fortunate to have a very large apple industry in my District, with many growers and processors. Growers in the states of Washington, New York, Pennsylvania, Michigan, and California are the largest domestic producers.

To promote domestic apple production, the U.S. Apple Association recognizes October as National Apple Month, which focuses on educating consumers about the positive health outcomes associated with apple consumption. The Apple Crunch was created to encourage children to participate in National Apple Month activities.

The Apple Crunch was started in my home state of Pennsylvania and incentivizes schools to serve apples on their school lunch menus, as snacks in the classroom, and for use in classroom activities. Schools that create the most original activities integrating apples into the class day win monetary prizes to be put toward the school’s food service operation.

Communities are also encouraged to participate in the Apple Crunch to support their local participating schools. Many local businesses voluntarily serve apples and apple products to their employees and to customers.

Madam Speaker, this October will mark the second year in which the Apple Crunch has been celebrated nationally. I think that we can all agree that supporting our nation’s domestic agriculture production is not only important to our economy, but also the health of our citizens. I urge your support of this resolution, which promotes the goals and ideals of National Apple Week, and specifically the Apple Crunch.

H.R. 6599 includes $9.9 million for Phase 1 of the Ballistic Evaluation Facility (66725) in the Fiscal Year 2009 National Defense Authorization Act. The entity to receive the funding for this project is the United States Army, specifically the Armament Research Development and Engineering Center (ARDEC) located at Picatinny Arsenal, Picatinny, New Jersey, 07806–5000.

The actual design and construction will be executed by the U.S. Army Corps of Engineers.

The funding will be used for planning, design and construction of a state-of-the-art Ballistic Experimentation Facility (BEF) for Large Caliber Armaments at Picatinny Arsenal. This process will produce a one-of-kind research and testing facility which will reduce Army’s operational overhead and maintenance costs and improve safety for Army employees. The use of U.S. taxpayer funding is justified because this construction will provide near-term and long-range benefits to the joint warfighter—Army, Marines, Navy and Air Force.

As this funding will be provided for the United States Army, the requirement of matching funds is not applicable.

IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. GALLEGLY. Madam Speaker, I rise in honor of Alex Mistri, a former U.S. House of Representatives staffer who left the legislative branch to serve with honor and distinction as President Bush’s Special Assistant to the President for Legislative Affairs.

I have known many White House legislative liaisons in my 22 years as a U.S. Representative. Of all those who have served the four presidents I have worked with, Alex Mistri stands out as the most professional, dedicated and skilled.

Alex recently left the White House to work for the State Department at our embassy in Baghdad. He is joined there by his wife, Amy McKennis Mistri. I have no doubt Alex will be an asset to both our government and the Iraqi people.

Alex began his service as Special Assistant for Legislative Affairs to the President in February 2005. As one of the President’s principal liaisons to the House, Alex’s primary responsibility was to develop, coordinate and execute White House strategy on legislative issues. Alex specialized in issues related to national security, homeland security, international affairs and tax policy. As a senior member of the Permanent Select Committee on Intelligence and Foreign Affairs, I developed a very strong and productive working relationship with Alex.

Part of Alex’s effectiveness, no doubt, arose from his familiarity with congressional procedures. Prior to his service in the White House, Alex served as chief of staff for Congressman Bill Shuster. In that role, Alex was the congressman’s chief political and legislative advisor with daily responsibility for the management of the office.

Madam Speaker, I know my colleagues join me in thanking Alex for many years of laudable service to the House, Senate and administration, and in wishing him great success in Iraq.

IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. MATSUI. Madam Speaker, I rise today in tribute to Joan Lee, a dear friend, tireless volunteer and community leader who recently passed away. Joan served as the Convener for the Sacramento Gray Panthers and was an admired advocate for seniors and people with disabilities. As her family and friends gather to honor and remember her wonderful life, I ask all my colleagues to join me in saluting one of Sacramento’s most well-respected figures.

Joan was a prominent leader in the Sacramento Region, and her death leaves a tremendous void in leadership in the fight for the rights of seniors, people with disabilities and those with mental health needs. Joan’s determined and effective advocacy was evident through her early work with the Gray Panthers of California, where she was widely recognized as a thoughtful policy advocate. Later, along with other leaders, Joan helped form and convene the local Sacramento Gray Panthers chapter, which now meets regularly at the Hart Senior Center.

Through her advocacy at the local, state and national levels, Joan became an important ambassador between diverse groups and helped devise strategies for healthcare reform. Joan was a stalwart for progressive causes, and her passion and commitment to these issues resonated in her advocacy. While in her mid-50’s, Joan returned to college and earned a degree in Gerontology. She then used her knowledge to fight for the rights of older adults on many fronts, including creating an innovative long term care program in Northern California and successfully advocating for medical schools to have required courses in gerontology.

At the Federal level, Joan often stood next to me and my late husband Congressman Bob Matsui in the fight against cuts to Medicare. She also was an articulate voice during the implementation of the Medicare Part D prescription drug program, offering insights on...
how to improve the program. Joan was an active member of the OufRx coalition, which links low income seniors with prescription drug discount programs. Furthermore, she never waivered in the fight to preserve the integrity of the Social Security program.

At the State Capitol, Joan became someone who we knew by name and who we trusted to know the answers to power. She served on many policymaking groups, including the Olmstead Advisory Committee. The Committee was in charge of implementing the landmark 1999 U.S. Supreme Court “Olmstead Decision” which requires States to take steps to avoid the unnecessary institutionalization of seniors and people with disabilities. From advocating for an accessible and affordable health care system to ensuring Medicare is responsive to our Nation’s seniors needs, Joan always stood up for what is right.

Madam Speaker, as Joan Lee’s husband Arnie Godmintz, her children John, David and Cleo and her friends gather to honor her wonderful legacy and countless contributions, I am honored to pay tribute to her. I ask all my colleagues to pause and join me in paying respect to an extraordinary loving woman, Joan Lee.

IN HONOR OF THE DEPLOYMENT OF THE WASHINGTON ARMY NATIONAL GUARD 161ST INFANTRY BATTALION, 81ST BRIGADE COMBAT TEAM

HON. CATHY McMORRIS RODGERS
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mrs. McMORRIS RODGERS. Madam Speaker, I rise today to join with the citizens of the Fifth Congressional District, State of Washington in recognition of the 161st Infantry Battalion, 81st Brigade Combat Team, Washington Army National Guard as it prepares for its second one-year tour of duty in Iraq since its mobilization in 2003. Soldiers of the 81st Brigade Combat Team will be responsible for convoy security and force protection missions throughout Iraq, where they previously deployed in 2004 and 2005.

From its inception, the mission of the National Guard has been the defense of our Nation’s borders. However, since the terrorist attacks of September 11, 2001 the defense of our borders has become an “away game” as our military has taken the fight to the enemy. No less involved has been the Army National Guard.

The Chief of the National Guard Bureau, Army Lieutenant General H. Steven Blum reported that at one point in the war on terror, National Guard members made up almost half of the ground forces in Iraq and since 9/11, more than 400,000 Guardsmen have been mobilized in support of operations Iraqi Freedom and Enduring Freedom.

Every aspect of a military mission is critical to its success and each one of these Guardsmen has committed time for pre-deployment training, leaving family and business behind to prepare themselves for a mission of historic and global significance.

We are grateful to these citizen soldiers and we thank them for their selfless-service in peacetime and war, here in this Nation and throughout the world. Their simple love of country and dedication to liberty compels them to serve this great nation and so today we recognize their commitment, sacrifice and courage in their willingness to protect and defend our Nation in the Global War on Terrorism.

We are also grateful for the sacrifice of family members, the women and men who support them. We may never be able to adequately thank our soldiers and their families but we must always support them. It is with a deep sense of pride, Madam Speaker, I invite my colleagues to join me in thanking the members of the 161st Infantry Battalion, 81st Brigade Combat Team for their service.

HOUSE REPUBLICANS INTRODUCE ENERGY LEGISLATION

HON. JOE WILSON
OF SOUTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. WILSON of South Carolina. Madam Speaker, last week House Republicans introduced the American Energy Act—an all-of-the-above approach to reduce energy prices for hard-working Americans and their families. For our Nation to remain energy independent on foreign oil. This endangers our economy and our national security. The billions we send overseas to buy foreign oil should be spent investing in American-made energy by exploring for our own resources in an environmentally sound way.

We also need to expand our research into alternative, renewable energy sources like bio-mass, hydrogen, wind, solar, and nuclear power while encouraging American consumers to conserve. Our bill does all of this. I urge the House Democrat leadership to join us with before adjournment to promote an American energy program. The American people deserve this opportunity to have their voices heard.

In conclusion, God bless our troops, and we will never forget September 11th.

MR. ALVIN G. RANDOLPH
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. POE. Madam Speaker, today I am proud to honor the life of Mr. Alvin G. Randolph who passed away June 23, 2008. Mr. Randolph was a businessperson, a fine father, and served his community. He also played a role in desegregating the Lamar State College of Technology in 1956, opening a countless number of youth an equal opportunity for education no matter their race.

Alvin was born in Orange, Texas, as the third of eleven children. He graduated from high school in 1943 and enrolled in Prairie View College shortly afterwards, where he worked as a repair person for room and board. He put his education on hold to serve his country when he was drafted into World War II as an officer candidate. After his service to his country, he returned home and attended Jefferson Junior College, where he earned his real estate broker’s license. At the same time, there was a tremendous social revolution happening in the United States. In 1954, the U.S. Supreme Court decided the landmark case Brown vs. Board of Education, naming separate educational facilities inherently unequal and setting the stage for integration and the Civil Rights Movement. This opened the doors to schools and universities across the nation but there was still a segment of the population that was set on keeping them closed.

As African-American students walked up to the doors of their new universities, they were often greeted with protests and picket lines and Lamar State College of Technology was no different. Nevertheless, Alvin and 25 other black students enrolled and were accepted to Lamar’s campus of 5,455 students. They battled the almost riotous conditions and paved the way to an equal education for a student of any race.

Randolph earned his business degree in 1958 and went on to study property law at Texas Southern University. He worked as a real estate broker, homebuilder, and life insurance underwriter. With his wife Jerodine, they had five children. He was active in both the Northside and Eleventh Street Churches of Christ and served on the Board of Directors at the L.L. Melton YMCA. He passed away at the age of 80.

On behalf of the Second Congressional District of Texas, I honor Mr. Alvin Randolph for his courage in the face of tremendous adversity. He helped make our world a better place to live, and I applaud his unwavering service and dedication to the community. Alvin Randolph is a true American hero.

HONORING MIKE RAMBO
HON. KENNY MARCHANT
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. MARCHANT. Madam Speaker, I rise today to honor Michael Dean Rambo of Colleyville, Texas. Michael was an outstanding husband, father, and Scout Master for Troop 28. He educated and guided the youth of his community for a number of years. Michael was always looking for the opportunity to give back to the community in which he lived. He loved his family and friends and they loved him.

Michael was a remarkable friend, neighbor, and public servant with infinite talents and gifts which he shared with all who had the honor to know him. He was an expert in ornithology, astronomy, computer architecture, math, and photography.

Michael always had a childlike wonder and awe of the world around him, an insatiable thirst for knowledge, and a relentless desire for understanding. He was constantly observing everything that the world had to offer. His example and enthusiasm made those around him want to learn more, to do more, and be more.

Michael was always up for a challenge and was always willing to lend a hand. He volunteered on the Longhorn Council for over fifteen years. He was the Cubmaster for Pack 254 before taking the lead roll for Troop 28. Michael was the guiding light for Troop 28 for twelve years, and under Rambo’s leadership, Troop 28 earned Colleyville’s first Service Award. Michael once said, “When I took over
HON. BRIAN HIGGINS  
OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. HIGGINS. Madam Speaker, I am pleased today to honor the accomplishments of Detective Gary Edenhofer of the Cheektowaga Police Department.

Detective Edenhofer began his law enforcement career as a patrol officer on the midnight shift. He is now retiring as a detective after 31 years with the force.

Throughout his career Gary has worked on several high-profile cases including robberies and homicides. The Western New York community is greatly appreciative for the increased security Detective Edenhofer has offered them.

Gary Edenhofer leaves behind a great legacy, as his career is marked by several highights. In 1989 he was recognized by the Town Board for arresting suspects who had burglarized a gun store. He also received commendations in 2005 for his work investigating the abduction of a man left locked in a car trunk.

Madam Speaker, I thank you for this opportunity to honor Detective Edenhofer’s career with the Cheektowaga Police Department, and I ask you to join me in wishing him the best of luck in his future endeavors.

HON. PHIL ENGLISH  
OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. ENGLISH of Pennsylvania. Madam Speaker, I rise today to recognize the Revitalization of Youngsville (ROY) organization and their extraordinary efforts to promote energy conservation in Warren County, Pennsylvania. In response to the rising food and energy costs, the members of ROY started an innovative project in their community called “Night Out/Lights Out.” Starting June 1st, members have been asking residents to turn off all of their lights, televisions, computers and other electrical appliances from 7 p.m. to 9 p.m. every Sunday during the summer in an effort to cut electric costs and promote awareness of rising electric and fuel prices. The secondary purpose of the event is to encourage residents to go outside and socialize with their neighbors.

This simple, yet innovative solution to the looming energy crisis is a great example of how every American can do his or her part to conserve energy. In addition to helping local citizens reduce their energy consumption, this program has revived a deep sense of community among the residents of Youngsville.

Madam Speaker, I hope my colleagues will join me in congratulating the members of ROY on their successes and encourage them to continue their efforts to promote energy conservation and awareness.

HON. DENNIS J. KUCINICH  
OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. KUCINICH. Madam Speaker, I would like to thank Chairman MILLER for his continued commitment to comprehensive education and ensuring that all children have access to the resources that will help them become healthy and productive adults. I would also like to thank my friends Congressman RON KIND and Congressman ZACH WAMP for their persistence in encouraging healthier lifestyles and choices for our nation’s children.

The problem of childhood obesity is well-documented, and we are all familiar with the statistics: 32 percent of the nation’s children are overweight, 16 percent are obese, and the Department of Health and Human Services estimates that the figure will exceed 20 percent by 2010. “Adult onset” diabetes has become a misnomer: incidence of type II has doubled in youth. As computers, cell phones, video game systems, and other types of technology become more prevalent in America’s homes, children are redefining “recreation” away from physical activity and toward sedentary activities.

Responses to this epidemic abound, and they need to be supported and enhanced. Youth need more regular physical activity, parents must make healthier decisions regarding family diet, exposure to technology must be monitored and regulated, and nutrition education must be a component of elementary and middle school curricula.

At the same time, however, I believe if we are to combat this problem effectively we must also understand and address the causes of the problem. One of the causes that particularly distresses me, and one that receives relatively little attention, is the aggressive and predatory marketing of food and beverages to children and adolescents.

In 2006 the Institute of Medicine reported that it is estimated that more than $10 billion annually is spent marketing food and beverages to youth; the vast majority of that money is spent marketing items with marginal or no nutritive value. Do they get a bang for the buck? Food and beverage companies are spending billions of dollars to market their products and create branding opportunities. Product placement in movies, video games, music videos, and even news broadcasts ensure exposure to brands and products despite
best efforts to avoid commercials and print advertisements. Banner and pop-up advertisements on the internet intrude on children’s surfing routinely, despite the best software protections. Sponsorship at school sporting events, advertisements in school newspapers and in prepackaged meals and snacks in vending machines encourage that children are exposed to products and brands throughout the school day. We are fast approaching the day, if we aren’t there already, when children find respite from food and beverage marketing only as they close their eyes to sleep.

This is not harmless advertising. Food and beverage marketing uses the best research available about brain development to ensure that their products are exposed to minds not yet fully developed. Again the Institute of Medicine reports that research tells us that humans develop consumption motives and values at an early age. In other words, developing brand allegiances early in life is profitable. The report also tells us that children have widely varied abilities to separate factual information from persuasive content and those abilities develop at different ages. In other words, it is easy to convince children that a product is healthy.

I firmly believe that if we are to help our children cultivate healthier lifestyle habits and make better nutrition choices, we must protect them from marketing practices whose primary function is to encourage increased consumption of unhealthy products. Any policy response to the youth obesity epidemic must include concrete ways to regulate the exposure of children and adolescents to food and beverage marketing.

PERSONAL EXPLANATION

HON. MARK UDALL
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. UDALL of Colorado. Madam Speaker, I was not present for the vote on this resolution (H. Con. Res. 398), despite my best efforts to reach the House floor in time to do so.

Had those efforts been successful, I would have voted “no,” because I think we should not adjourn or recess this week until completing action on legislation to revise our national energy policies—something that has not yet occurred.

I left on an early flight out of Colorado this morning in an effort to reach the House in time for that vote. My flight landed just as the vote began.

As soon as I got in the car, I called the cloakroom to advise that I was en route, and asked that the vote be held open until I arrived. Right after my best efforts to reach the Capitol, and I was aware the vote was being held open already—as the first vote of the day, apparently in an effort to give Members additional time to arrive and cast their votes.

However, the vote was completed as I entered the Capitol. I regret that my request that the vote be held open was not honored and that I was not able to cast my vote even though I was only seconds short of being able to do so.

HOUSING AND ECONOMIC RECOVERY ACT OF 2008

SPEECH OF
HON. MAXINE WATERS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 23, 2008

Ms. WATERS. Mr. Speaker, I rise in strong support of this legislation. Simply put, this package is urgently needed to help our nation address the current foreclosure crisis and its impacts on the world financial markets.

I will limit my remarks to two parts of the current package that I was most active on: (1) the inclusion of the Neighborhood Stabilization Act of 2008, which authorizes the Federal Housing Administration (FHA) and $4 billion in CDBG funding for states and localities to purchase, rehabilitate, and resell or rent out abandoned and foreclosed homes.

The modernization of the FHA has long been a priority of mine because in recent years FHA had become obsolete in many parts of the country, due to its low loan limits ($362,790), outdated rules, and slow bureaucracy. I saw too many low-income homebuyers in California with little choice but to turn to the subprime mortgage market for assistance.

This Congress, I introduced H.R. 1852, “the Expanding American Homeownership Act of 2007” to give FHA the tools and resources to allow it to assist more low-income homebuyers. H.R. 1852 passed the House on September 18, 2007 on a bipartisan vote of 348-72, and again on May 8th of this year as part of H.R. 3221, the first go-round on this housing rescue package.

Including FHA modernization in the amendment before the House today is essential because FHA is the only national agency with the capacity and expertise to assist the nation’s homeowners on a large scale.

Another part of the package that deserves support is funding for states, counties, and cities to stabilize neighborhoods devastated by foreclosures. According to Realty Trac, banks repossessed over 71,000 properties in June, an astounding 171 percent more than one year ago. This means that 770,000 properties nationwide are now in “real estate owned” or REO status, an increase of 330,000 since the end of 2007.

These abandoned and foreclosed properties drag down the value of homes still occupied by working families, and contribute to a cascading effect whereby plummeting home prices erode the tax base that state and local governments have to work with, while straining their police, fire, code enforcement, and other resources.

States and most local governments must balance their budgets each year, and as a result, at least 20 states have already made budget cuts due largely to revenue losses resulting from the subprime crisis. Even so, many hard-pressed states and cities are dedicating their own limited resources to purchasing foreclosed properties to stabilize neighborhoods.

But they are overwhelmed by the scale of the problem. For this reason, the National Governors Association, the Conference of Mayors, the National Association of Counties, and nearly every other local government trade association supported the Federal neighborhood stabilization assistance.

This is why I introduced H.R. 5818, “the Neighborhood Stabilization Act of 2008,” which passed the House on May 8th of this year. Although the amendment before us provides less funding than H.R. 5818—$4 billion as compared to $15 billion and distributes funds differently, I believe that the Senate’s language, which we are considering today, is balanced and sound enough that it will capture the essence of the Senate amendment and has the broad bipartisan support of the Senate.

I am compelled to respond to criticisms raised by the Administration about the CDBG funding in H.R. 3221: (1) that it is a bailout for lenders and investors, and (2) that it incentivizes foreclosures over loan workouts for distressed borrowers. This is simply not so.

First, the many local officials and community-based nonprofits my Subcommittee has heard from are in no mood to give sweetheart deals to the financial institutions who own these properties—many of whom they are actually suing over their subprime and predatory lending practices during the boom years.

Second, the facts of the current housing market just don’t bear out the Administration’s claims. Lenders spend $50,000 to $60,000 up front in a foreclosure, or on average, 25 percent or more of the value of the loan. It is unlikely that a lender would refuse to work out a loan with a borrower—thereby saving a substantial amount in foreclosure-related costs—and instead rush to foreclosure on the chance that a community-based buyer might be willing to purchase the property at 30 to 50 cents on the dollar, which is what foreclosed properties are going for on resale these days.

In closing, I would urge Chairman Frank and Speaker Pelosi for ensuring that 15 percent of housing counseling funds authorized by H.R. 3221 are directed to organizations—like the National Urban League—that target counseling services to low-income and minority homeowners and neighborhoods.

African-American and minority neighborhoods were disproportionately targeted for subprime loans. It is only appropriate that some portion of the housing counseling funds are targeted to these communities, lest minority communities and homeowners once again fall under the cracks.

I urge my colleagues to vote for this legislation.

HONORING THE CAREER AND SERVICE OF MARTHA FLORES

HON. ILEANA ROS-LEHTINEN
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. ROS-LEHTINEN. Madam Speaker, I humbly honor a dear friend and a strong community activist, Martha Flores, who has done so much to improve our South Florida area and who relentlessly promotes the cause of human rights. Miami-Dade County has honored Martha by naming the segment of 8th Street and SW 42 Ave after her. This is a testament to her dedication and service to our community. After leaving her native Cuba to escape Fidel Castro’s communist regime, she established deep roots in Miami. She has been the producer and host of an nightly radio program, “La Noche y Usted (The Night and You), which has earned the greatest audience of all nightly Spanish talk shows in South Flor-
In recognition of her indelible impact on the community, Martha Flores was the first woman enshrined in the “Calle Ocho Walk of Fame.” Throughout her distinguished career, she has received many accolades, but this has not deterred her from her main objective: to humbly serve her community. One of her first radio shows, “La Voz de la Mujer (The Voice of a Woman),” was the first Spanish radio program that raised issues concerning the plight of Cuban exiles. She never forgot her homeland and for nearly 50 years now she has been at the forefront, while working alongside numerous community organizations, of bringing to light the repression of Castro’s Cuba.

Martha Flores has selflessly given of her time and resources to volunteer for many humanitarian causes including the League Against Cancer and League Against Blindness. In addition, she also helped St. Jude Children’s Research Hospital raise much needed funds. She has been instrumental in bringing public attention and awareness to the needs of the elderly and disabled adults through her radio program and volunteerism. She will also be the first ever recipient of the Claude Pepper Memorial Award in the Media category.

Martha has also made her radio show available to families on behalf of a free and independent Cuba, the sacred land of her birth. She sends a nightly message of hope and solidarity to her multitude of fans, many from the oppressed island nation.

Once again, I would like to congratulate Martha Flores for her recent honor as well as for all the service and activism she has undertaken. South Florida is honored to have her and the example she has given all of us.

IN RECOGNITION OF CHAD WATSON’S SERVICE TO THE U.S. MARINE CORPS

HON. DUNCAN HUNTER OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. HUNTER. Madam Speaker, I rise today to pay tribute to the service and sacrifice of Cpl Chad Michael Watson who lost a leg in an improvised explosive device attack. While on patrol in the Anbar province in Iraq on November 29, 2006, Chad’s vehicle came under attack and he was severely wounded and later lost his right leg.

The son of Mike and Gina Watson, Chad was born in Mount Zion, Illinois on February 8, 1989. He attended Mount Zion High School graduating in 2006. Chad joined the Marine Corps May 17, 2004 and was trained as an infantryman. Following his initial training he deployed to Iraq with Charlie Company, 1st Infantry Battalion, and 24th Marines where he served until his injury.

During the twenty months of recovery, Chad maintained a positive and even uplifting attitude which reflected well among those fellow marines and soldiers passing through the recovery process at Walter Reed Army Medical Center. Mr. Albert Caswell of the U.S. Capitol Guide Service, a friend of his, penned the following poem as a fitting tribute to Chad for his sacrifice and unrelenting commitment to his long and enduring recovery.

BREAKING CHAD . . .

Breaking Bad!
Mr. PAUL. Mr. Speaker, I rise in support of this legislation, which will bar the collection of co-payments from veterans for hospital and nursing home care if the veteran is considered catastrophically disabled. I strongly advocate a noninterventionist foreign policy that would result in far fewer wars and, thankfully, far fewer catastrophically disabled veterans. But I also strongly believe that we must take care of those veterans who have been so severely wounded or otherwise disabled. Too often those who are most vocal in support of foreign military action are most silent when it comes time to take care of those who have paid a very high price for these actions. This legislation will provide at least a little relief to the most seriously injured veterans.

I am concerned, however, that this bill incorporates language from H.R. 6114, which re- scinds a current law requirement that the VA obtain a signed consent form from a veteran before conducting an HIV test. We have seen veterans punished severely for attempting to avoid the required but controversial myriad of inoculations they are required to receive. Now we see that they will have less control over what medical tests to which they might be subjected. I am concerned over this loss of control over one’s healthcare decisions among those who have joined the military, and I urge the adoption of a more flexible policy. I would also urge my colleagues and the American people to contemplate this deprivation of medical and privacy rights on a massive scale should we ever reinstate the draft. I believe taking care of veterans should include both providing promised benefits and protecting their privacy rights.

Mr. GEORGE MILLER of California. Madam Speaker, today I am introducing a bill to stop the Department of Labor from issuing, administering or enforcing any rule, regulation, or requirement derived from the proposal submitted by the Occupational Health Risks Management. The Department's proposal is the product of a flawed, politicized process that has failed to properly consider the views of experts or the consequences for workplace health. I urge my colleagues to support this bill.

This Congress will not stand for further weakening of worker protections, particularly when it's done secretly—as this administration heads out of town. This bill would forbid the Department of Labor from issuing, administering or enforcing any rule, regulation, or requirement derived from the proposal submitted by the Occupational Health Risks Management. The Department's proposal is the product of a flawed, politicized process that has failed to properly consider the views of experts or the consequences for workplace health.

CONGRATULATING BUSKEN BAKERY

Mrs. SCHMIDT. Madam Speaker, I rise today to congratulate Busken Bakery on their 80th birthday. Busken Bakery is truly an American success story. From humble beginnings, Joseph and Daisie Busken began their business in 1928, opening their first bakery in the Hyde Park neighborhood of Cincinnati. Their goals were modest. According to Busken’s
website, Joseph Busken was just looking for a way to feed his family and keep them happy. During the Great Depression, when other companies were failing, Busken’s survived by offering products that their customers loved.

Following World War II, Joseph’s son, Joe, Jr., entered the family baking business and began making his mark. Joe, Jr., streamlined production and expanded business to local grocery stores. He introduced the city’s first 24-hour drive through bakery and began offering dinner rolls—something unheard of at that time. Some of Joe, Jr.’s other touches are still in existence today, such as his recipe for double-butter coffee cake. Today, Busken Bakery is still run by family including: Page Busken, chairman of the board, Brian Busken, senior vice-president, and Dan Busken, CEO. And, the family has continued to change and innovate with the times. On a personal note, I must admit my favorite Busken item is the Maysville chocolate brownie.

Madam Speaker, please join me in celebrating the rich history of Busken’s Bakery and wishing the entire Busken family continued success in years to come.

TRIBUTE TO RESIDENTIAL OPPORTUNITIES

HON. FRED UPTON
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. UPTON. Madam Speaker, it is with great pleasure that I rise today in honor of Residential Opportunities Incorporated of Kalamazoo, Michigan, to commemorate their 50th anniversary.

Residential Opportunities was incorporated in December of 1977 to address growing concerns regarding the lack of a standard of care for developmentally disabled adults. Based on the principle of normalization, Residential Opportunities began establishing group homes in an effort to combine an independent living experience with a high standard of care. Since that time, ROI has expanded their programs, and this year alone has improved the quality of life for 648 people.

Today, Residential Opportunities operates Homestead Housing Service, which helps find of life for 648 people. and this year alone has improved the quality of life for 648 people.

TRIBUTE TO DR. YUHUA WANG

HON. CORRINE BROWN
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. CORRINE BROWN of Florida. Madam Speaker, I would like to pay tribute to Dr. Yuhua Wang, who has been recognized as a great artist and sculptor.

Dr. Wang was born in China, and permanently resides in the United States. Since 2000, she has worked as a visiting professor of oriental arts in the College of Liberal Arts at Auburn University, where she has received several commendation certificates for excellent work performance. In August 2008, Dr. Wang’s book entitled World’s Highest-Level Color Paintings and In-Wash Paintings will be published and distributed worldwide by International Arts Publishing. Dr. Wang has meticulously and delicately applied fine-brushwork and oil colors on hand-sculpted coral and cobblestones which have become treasures of the world.

In the history of Chinese art, her lotus flower paintings are unsurpassed and are extremely valuable. In addition to being proficient in Chinese paintings, she is a highly talented sculptor whose themes are nature’s mountains, rocks, and plants. Dr. Wang’s skills in the combination of colors, paintings and sculptures have reached the acme of perfection in their exquisiteness, elegance and beauty.

Dr. Wang, who takes great pleasure in helping others, is a selfless person whose moral character is noble, which is evidenced by the numerous awards and honors she has received. She has made great contributions to the development of cultural exchange between the East and West. Through her practice of Buddhism; Professor Wang benefits humanity and all living beings.

Madam Speaker, I invite my colleagues to join me in paying tribute to Dr. Yuhua Wang, an outstanding artist and scholar, who has chosen to make her home here in the United States because she has heartfelt love for its people.

PAYING TRIBUTE TO LEW AND AMY KIRCHNER

HON. MAURICE D. HINCHHEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. HINCHHEY. Madam Speaker, I am pleased to congratulate my constituents, Lew and Amy Kirschner, on the occasion of their 50th wedding anniversary. Mr. and Mrs. Kirschner are venerated members of our community, and I am proud to recognize their commitment to each other.

Amy and Lew Kirschner are a remarkable couple, who have dedicated themselves to each other and to the greater good of their community. In each endeavor they undertake, their remarkable sense of purpose and loyalty shines through. Over the years they have invested much of their time in serving their community in various activities. Lew’s work on the boards of many area organizations and Amy’s dedication to a variety of community based organizations has kept them at the heart of all of the most pressing issues facing our city. Their advice and financial support have been invaluable.

Lew and Amy have truly achieved a tremendous accomplishment in being able to look back and celebrate fifty-years of shared love, personal growth and hard work, knowing that they have remained steadfast in their commitment to one another, their family and their community.

Madam Speaker, I have had the pleasure of knowing and working with Lew and Amy for more than thirty years. They have been good friends and outstanding citizens. I am pleased to be able to recognize and congratulate them on this momentous occasion.

CONGRATULATIONS TO UNITED SPACE SCHOOL PROGRAM

HON. RON PAUL
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. PAUL. Madam Speaker, on August 5 the Foundation for International Space Education (FISE) will host United Space School Day at the University of Texas Medical Branch (UTMB) in Galveston, Texas. The United Space School Day is a summer science camp/health careers promotion activity coordinated by the East Texas Area Health Education Center (AHEC). The United Space School Day’s activities will focus on the education pathways appropriate for students interested in careers in life sciences, aerospace medicine, and bioastronautics.

United Space School Day is just one part of FISE’s United Space School program. The United Space School program, established in 1994, is the major way FISE carries out its mission of providing space-based academic instruction to pre-college students from across America and around the world who are interested in science, engineering, technology, or mathematics careers. The United Space School gives these students the opportunity to learn from some of the space industry’s leading experts. Participants in the programs follow a curriculum specially designed to provide appropriate training and development by instructors qualified and knowledgeable in the proper disciplines. As the students visit the various educational venues and participate in the space-related learning initiatives, they are exposed to myriad examples of space-related careers as well as careers in industries that support the space programs. United Space School students also benefit from daily one-on-one interaction with leading aerospace professionals from the National Aeronautics and Space Administration (NASA) or the Johnson Space Center (JSC), and the supporting aerospace community.

United Space School participants are also given a unique “hands on” learning experience through the development of a Manned Mission to Mars Project. United Space School’s organization, schedule, and curriculum are designed to provide the structure, knowledge, resources, mentoring, and appropriate settings to complete the Manned Mission to Mars project.

Madam Speaker, FISE’s United Space School program is doing invaluable work in preparing the next generation of scientists and
Mr. KING of New York. Mr. Speaker, I rise in support of H.R. 5531, the Next Generation Screening Act of 2008, and I urge my colleagues to support passage of this critical homeland security bill.

I introduced H.R. 5531 on March 5, 2008, to enhance the effectiveness of the Department of Homeland Security’s radiation detection capabilities. Over the past several years, the Department of Homeland Security has made significant progress in deploying radiation detectors at our Nation’s ports of entry. While this capability provides a critical layer in our defense against radiological and nuclear terrorism, Customs officials are overburdened by alarms due to radioactive material that is not a threat, such as medical therapeutics, cat litter, and fertilizer.

To reduce this burden on Customs officials, the Domestic Nuclear Detection Office within the Department of Homeland Security, initiated an aggressive research program to develop, test, evaluate, and deploy the next generation of radiation detection technology. This technology, known as the Advanced Spectroscopic Portal, or ASP, is capable of identifying, as well as detecting, radioactive material.

Preliminary results from actual field tests of the ASP systems show a reduction in nuisance alarms by a factor of 20. This means that ports such as the Port of Long Beach in California could reduce the number of radiological alarms that require secondary inspection from 500 per day to 20 per day—resulting in an enormous savings in time and resources for Customs officials.

Although technical progress has been made, the ASP system has not yet been deployed. There has been a series of delays with the ASP program due to miscommunication or misunderstanding between the government agencies involved, the stakeholders, and additional certification requirements established by the Congress.

Therefore, this bill addresses system capability, which appears to be the largest source of miscommunication between the agency preparing the ASP—the Domestic Nuclear Detection Office—and the agency responsible for using the ASP in the field—Customs and Border Protection.

Specifically this legislation directs the Director of the Domestic Nuclear Detection Office and the Commissioner of Customs and Border Protection to enter into a memorandum of understanding regarding the minimum standards of operational functionality in order to deploy ASP systems. This is not in any way an attempt to rush development of a system, but merely a requirement to spell out in plain English what type of system is required by those who will be operating that system in the field.

This legislation also clarifies a provision in title IV of division E of the Consolidated Appropriations Act, 2008, Public Law 110–161, which requires the Secretary of Homeland Security to submit a report to Congress certifying that “a significant increase in operational effectiveness will be achieved” with the ASP system before “funds appropriated under this heading shall be obligated for full-scale procurement of Advanced Spectroscopic Portal Monitors” and requires that “the Secretary shall submit separate and distinct certifications prior to the procurement of Advanced Spectroscopic Portal Monitors for primary and secondary deployment that address the unique requirements for operational effectiveness of each type of deployment.”

H.R. 5531 requires the Secretary to develop a quantitative definition of “significant increase in operational effectiveness” and develop appropriate metrics for measuring this effectiveness.

In addition to authorizing the ASP program, this bill also authorizes the Securing the Cities Initiative, which is a successful program that enhances security in the New York City metropolitan region. Funding for the Securing the Cities Initiative is used to deploy next generation radiation detection technology to detect the illicit transportation of nuclear and radiological materials in urban areas. The Securing the Cities Initiative has fostered unprecedented collaboration and coordination among its Federal, state, and local partners and has enhanced the security of the New York Metropolitan region. H.R. 5531 authorizes $40 million for this vital program, which is the same amount appropriated in Fiscal Year 2008, to ensure its continuation in Fiscal Year 2009.

The full Committee on Homeland Security approved H.R. 5531 by unanimous voice vote on June 26, 2008. I urge all Members to join me in supporting passage of this bill.

EARMARK DECLARATION

HON. ROBERT E. LATTA
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. LATTA. Madam Speaker, I submit the following:

Requesting Member: Congressman ROBERT E. LATTA.

Bill Number: HR. 6599: Military Construction and Veterans’ Affairs Appropriations Act.

Account: Department of Defense; Army National Guard.

Legal Name of Requesting Entity: Ohio National Guard.

Address of Requesting Entity: 2825 West Dublin Granville Road, Columbus, OH 43235.

Description of Request: Provide $2 million in P-341 (unspecifed minor military construction) funds pursuant to Title 10 US Code 2805, to construct a new 80-bed barracks at the Ohio National Guard’s Camp Perry Training Site, Port Clinton, OH. The request will increase the readiness of our servicemen and women in the Ohio National Guard and help them better prepare for the challenges they face both at home and abroad.

PERSONAL EMPLAINATION

HON. DANNY K. DAVIS
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. DAVIS of Illinois. Madam Speaker, I was unable to cast a vote on the following legislation and measure on July 15, 2008. If I were present for the roll call vote, I would have voted Yea on the following:

Roll No. 491, July 15, 2008: On Passage, Objections of the President Not Withstanding: H.R. 6331, To amend titles XVIII and XIX of the Social Security Act to extend expiring provisions under the Medicare Program, to improve beneficiary access to preventive and mental health services, to enhance low-income benefit programs, and to maintain access to care in rural areas, including pharmacy access, and for other purposes.

TRIBUTE TO MARK COVERT

HON. EARL BLUMENAUER
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. BLUMENAUER. Madam Speaker, I rise today to honor Mark Covert who, on July 23rd, marked the 40th anniversary of an unparalleled running streak. Covert, a running coach and former elite athlete, has run at least one mile every day since July 23rd 1968. Overall, he has run 140,045 miles—and counting—since the streak began. The United States Running Streak Association lists Mark Covert as the current U.S. leader for the longest continuous streak.

Although he currently lives in Lancaster, California, where he coaches the Antelope Valley College cross country and track teams, Covert’s streak is actually a significant part of Oregon history. One of the most important “daily runs” of the streak came in 1972, when Covert ran in the U.S. Olympic Marathon Trials at the University of Oregon, in Eugene. Even though he just missed making the team, he still made history by being the first athlete to cross a finish line wearing an unusual pair of shoes with rubber soles that were made on a waffle iron.

These so-called “moon shoes” were invented in the kitchen of an enterprising entrepreneur named Bill Bowerman. Bowerman, along with his partner Phil Knight, based an entire company and, indeed, an entire fitness movement, on these revolutionary shoes. The company, of course, is Nike, and Covert was one of the first employees in the early 1970s. He has stayed true to the legacy by running 117,028 miles in Nikes over the years.

The partnership continued at this year’s Olympic Track and Field Trials—held, once again, at the University of Oregon historic Hayward Field—where Nike sold T-shirts honoring two different athletes—legendary Oregon runner Steve Prefontaine and, you guessed it, Mark Covert.
As an important part of the U.S. running movement in its early years, Mark Covert’s place in history was already secure. Now, through his current unmatched running streak, he continues to inspire and motivate thousands of runners around the country and around the world. I’d like to thank him for his commitment and urge my colleagues to do the same.

RECOGNIZING THE CONTRIBUTIONS OF JOEY QUINTO

HON. HILDA L. SOLIS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Ms. SOLIS. Madam Speaker, I rise today to recognize the achievements of Joey Quinto, publisher of the California Journal for Filipino Americans.

Mr. Quinto was born and educated in the Philippines, where he received a Bachelor of Science in Marketing from San Beda College in Manila, Philippines. He also graduated from the Minority Business Executive Programs of the Tuck School of Business at Dartmouth in Hanover, New Hampshire. Mr. Quinto now resides with his wife Carlyn and daughter Carlette in Palos Verdes, California.

Mr. Quinto’s contributions to the advancement of the API community are many. He began his professional career in California in 1984 as a mortgage banker. As a publisher, his weekly newspaper advances the interests of the API community and appropriately addresses local, consumer and business news, and community events. He is also a member of several community organizations. These include the Los Angeles Minority Business Opportunity Committee and The Greenlining Coalition.

His contributions have been widely recognized. Mr. Quinto is the recipient of the Award for Excellence in Journalism during the Fourth Annual Asian Pacific Islander Heritage Awards in celebration of the Asian Pacific Islander American Heritage Month. This award recognizes prominent APIs that have excelled in a number of fields.

In celebration of the Asian Pacific Islander Heritage Month, we remind ourselves how important it is for Congress to remain committed and vigilant to ensure that the Internet is a safe place for children.

VETERANS DISABILITY BENEFITS CLAIMS MODERNIZATION ACT OF 2008

SPEECH OF
HON. MADELEINE Z. BORDALLO
OF GUAM
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 29, 2008

Ms. BORDALLO. Mr. Speaker, I rise today in support of H.R. 5892, The Veterans Disability Benefits Claims Modernization Act of 2008. This legislation will help to address difficulties that our veterans face in accessing needed health care records and medical compensation.

I want to thank Truman Johnson, President of the VASRD, and the Vet- erans Affairs to enhance services provided by the VA Office on Guam. Improvements in claims processing system along with a greater VA presence on Guam will greatly improve the current situation for our island’s veterans.

H.R. 5892 will also address the Department of Veterans Affairs’ standard for adjudicating a veterans level of disability. The VA currently employs the Department of Veterans Affairs Schedule for Rating Disabilities (VASRD), a schedule first commissioned during the First World War. The VASRD was last revised in 1945 and has yet to include contemporary medical practices and procedures. The legislation also requires improvement training and assessment of training for VA caseworkers. In total, this legislation takes a major step forward in ensuring better quality of care and treatment for our nation’s veterans.

Our veterans have sacrificed in service to our country, and it is our duty to provide them with the adequate support and service commensurate to their dedication. I would like to thank my colleague Chairman HALL for authoring this bill and I urge passage of H.R. 5892.

PERSONAL EXPLANATION

HON. SANDER M. LEVIN
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. LEVIN. Madam Speaker, I was also unavoidably absent yesterday during rollcall votes 534, 535 and 536. If present, I would have voted “yea” on rollcall 534 to require the Secretary of Homeland Security to conduct a pilot program using mobile biometric identification tools to identify terrorists and other individuals who pose risks to border security; “yea” on rollcall 535 to require each federal agency to include a telephone number in its collection of information in order to assist people with filling out government forms; and “yea” on rollcall 536 to establish an ombudsman within the Department of Veterans Affairs.

IN HONOR OF YASH PAUL SOI

HON. FRANK PallONE, JR.
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. PallONE. Madam Speaker, I rise today to honor Yash Paul Soi, a devoted leader who has worked tirelessly to advance and promote Indian culture. Mr. Soi has been an exemplary spokesman and ambassador for the causes of India and its people in the United States.

Mr. Soi has committed himself to supporting the Asian-Indian community through the advancement of Indian cultural activities. He has been recognized as an Indian cultural icon and his Indian music program has been vastly influential. His work in bringing Indian issues to the media forefront presented him with the opportunity to interview Indian Prime Minister Indira Gandhi, President Jimmy Carter, and many other distinguished world figures. Additionally, Mr. Soi has contributed to American society through his work to bring Indian arts to many of our Nation’s most famous stages.

SUPPORTING NATIONAL INTERNET SAFETY MONTH

HON. BART STUPAK
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 30, 2008

Mr. STUPAK. Madam Speaker, I rise in support of H.R. 1260, a resolution in support of the goals and ideals of “National Internet Safety Month”. This is an issue I have personally been working on for a number of years through the Subcommittee on Oversight and Investigations.

Through the Subcommittee’s investigation, we’ve been able to influence significant changes that include better filtering and reporting efforts among Internet Service Providers, social networking sites, and other content providers.

We have also discovered a number of alarming statistics, for example: One in five children report receiving a sexual solicitation over the Internet, more than 3.5 million pornographic images of American children are in circulation on the Internet, and the sale of these images over the Internet represents a billion dollar industry.

The anonymity provided by the Internet to those that seek to exploit and harm children and the lightning pace data is transmitted provides a Congress with significant policy challenges.

While we’ve made some progress in the last few years, I feel that we’ve only begun to address the scope of this problem.

By recognizing National Internet Safety Month, we remind ourselves how important it is for Congress to remain committed and vigilant to ensure that the Internet is a safe place for children.
Tribute to Cpl. Miguel Rodriguez

Hon. Henry Cuellar
of Texas

In the House of Representatives
Wednesday, July 30, 2008

Mr. CUELLAR. Madam Speaker, I rise today to honor Cpl. Miguel Rodriguez on his retirement from the Texas Department of Public Safety, where he served his State and country honorably for 28 years.

In his 28 years with the Department of Public Safety, Corporal Rodriguez performed a multitude of tasks, such as serving as field training officer in the induction of new officers to the Department, training them on driving, firearms, and accident reconstruction. He also helped foster the training of Mexican highway patrolmen, served on interview promotion board for troopers, and worked as chairman on grievance board hearings.

Corporal Rodriguez also served on security staff for President George Bush, Sr., on his visit to the University of Texas at Austin. His awards include the District Commander Award, Region Commanders Award, Commanders Accommodations, and Quarter Century Club.

Madam Speaker, I am honored to have had this time to recognize the dedication and commitment of Cpl. Miguel Rodriguez to the State of Texas, and to the United States of America upon his retirement from the Texas Department of Public Safety.

Honor the Life of George R. Sample, Jr.

Hon. Phil English
of Pennsylvania

In the House of Representatives
Wednesday, July 30, 2008

Mr. ENGLISH of Pennsylvania. Madam Speaker, I rise today to recognize and honor the life of George R. Sample, Jr. of Cory, Pennsylvania.

Born and raised in Pennsylvania, Mr. Sample was the longtime publisher of the Corry News Group, which owned two newspapers in Maine and five in Pennsylvania. In 2002, he was honored with an American Publishing Co., which was later sold to Hollinger International. He served as vice chairman of Hollinger’s American Publishing Co. and was credited for making improvements to the Chicago Sun-Times and the Jerusalem Post. He also created the family-run Sample News Group, which owned two newspapers in Maine and five in Pennsylvania.

In addition to being a well-respected local publisher, George Sample, Jr. was very involved in other aspects of the Corry community. As longtime chairman of the city’s Golf Course, which serves as a driving force behind the North Hills Municipal Golf Course, Corry’s top-notch course that has become a vibrant attraction for the community.

Honor the City of Forest Park, Georgia on its 100th Anniversary

Hon. David Scott
of Georgia

In the House of Representatives
Wednesday, July 30, 2008

Mr. SCOTT of Georgia. Madam Speaker, I rise today to recognize the City of Forest Park for reaching their 100th Anniversary. Forest Park began as Forest Station/Astor on just one square mile of land chartered in 1908. This early community was mostly comprised of farming families, but as Forest Park became an important railroad stop close to the bustling hub of Atlanta. Although the railroad gradually lost its more prominent role in the area, the people of Forest Park worked with the railroad and with their neighbors to find new opportunities for themselves and for their community. Their perseverance and hard work have paid off, helping to make Forest Park one of the largest cities in Clayton County and an important center of commerce for Georgia and the Southeast.

Today Forest Park is home to over 21,000 dedicated and productive citizens. This diverse community deserves our commendation for setting a positive example for Georgia and our great nation as a whole. I praise Forest Park for its commitment to its citizens through an outstanding police and fire department, school system, and overall community atmosphere. I also applaud Forest Park for fostering strong and affordable community recreation and leisure programs. These activities serve to bring people of all backgrounds and experiences together in friendship and collaboration. I am proud to see these endeavors encouraging a healthy and dynamic environment for the citizens of Forest Park and promoting positive community values throughout the area.

Forest Park will be holding a centennial celebration for just this purpose on August 14th, 15th, and 16th. This celebration will not only serve as a time of fun and enjoyment, but will also educate the public on the rich history of Forest Park. I also look forward to the increased participation and partnership of the city and public institutions, and local businesses during this time and trust this close connection will continue into the future as it has for the past 100 years. This commemoration of the 100th anniversary of Forest Park is sure to be an enjoyable and fruitful enterprise for all involved.

I would further like to laud the dedicated efforts of Mayor Corine Dayton, and City Council members Sparkle Adams, Debbie Youmans, Maudie McCord, Donald Judson, and Linda Lord for their just and spirited public service in the governing of the City of Forest Park. Contributions reaching this 100 year milestone are also certainly due to the citizens of Forest Park. Without their tenacity and resolve, Forest Park would certainly not be the
active and vibrant city that it is today. I wish them well in continuing to enrich the lives of their neighbors and in maintaining a beautiful and prosperous community for the 100, 200, 300 years to come.

In closing, I wish the City of Forest Park a Happy 100th Birthday. As the U.S. Representative to the 13th District of Georgia, I honor the City of Forest Park, its leaders, and its inhabitants for reaching this milestone and look forward to the continuation of its proud legacy.

TRIBUTE TO SHANNON GOOD
HON. DIANA DEGETTE
OF COLORADO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. DEGETTE. Madam Speaker, I rise to recognize the accomplishments and distinguished public service of Shannon Good, my Legislative Director and former Deputy Chief of Staff. Shannon is a trusted advisor and friend. It saddens me to announce that she is leaving my office to pursue her own endeavors. Her tenure has been defined not only by a standard of professionalism that distinguishes exceptional legislative directors, but by a commitment to fairness and personal integrity, high ethical standards and the best interests of the 1st Congressional District of Colorado and this Nation.

Shannon is a Denver native and graduated from East High School and later graduated from Smith College in Northampton, Massachusetts. Shannon has been active in politics for years, volunteering on various local and national campaigns, including mine. Prior to joining my staff, she worked in the Washington, DC office of Governmental Relations for Salomon Brothers where she tracked legislation for Wall Street analysts.

Effective and committed legislative staff is essential to democratic governance. Few people recognize the magnitude and consequence of their contributions—particularly of those intrepid staff members who actually manage the legislative work we do. Shannon’s keen intellect, judgment and common sense have been invaluable to me in dealing not only with the issues all of us face, but in guiding my legislative agenda for the past nine years. She has contributed in no small measure to much of the legislation that best serves this Nation. Her work on legislation protecting our Nation’s safety net hospitals, simplifying the enrollment process and expanding presumptive eligibility for children in Medicaid, expanding energy efficiency requirements to improve our Nation’s energy policy, and increasing FDA and USDA authority to ensure food safety and her invaluable work on the “Stem Cell Research Enhancement Act” are but a few of her most noteworthy contributions. Shannon has been my point person for moving significant national legislation through committee and the House. Numerous other staff members from many offices have come to rely upon her for information and guidance on a variety of issues. Shannon is one of the staff experts in the House on women’s reproductive health. Any issues related to reproductive health has arisen for legislation or buried in a motion to recommit or an amendment, many in Washington have sought out Shannon’s counsel. Furthermore, Shannon Good has excelled in recognizing and cultivating the talents and skills of my legislative team, both past and present, and she commands their respect and admiration. My District Office staff admire not only her exceptional capabilities, but her directness and understanding of the issues and concerns of the district.

Shannon is a valued member of my staff and her competence, discernment and measure will be greatly missed. She has been an abiding source of wisdom and prudent counsel. She has done the people’s work without pretension and burdened a reputation for decency and professionalism. Shannon is a public servant in the finest sense and her contributions are rich in consequence. My office and indeed, the United States House of Representatives, are losing a valued resource and friend. Please join me in commending Shannon Good, a distinguished public servant and legislative professional. Her character, leadership and dedication have done much to build a better future for all of us.

A TRIBUTE HONORING THE MCLEOD-SANDSTROM WEDDING
HON. LUCILLE ROYBAL-ALLARD
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to extend my best wishes to two young Americans who are starting their new life together this weekend. On Saturday, August 2, 2008, Allison Claire McLeod and Nathaniel Lee Sandstrom will be joined in matrimony surrounded by their loving family and friends at Preston Hall in Baltimore, Maryland.

Allie and Nate, as their family and friends call them, currently live in Baltimore but were both born in the Midwest. In fact, they describe themselves as, “A balanced combination of Midwestern salt-of-the-earth values and Columbia, MD-born neighborliness . . .”

Allie was born in Cleveland, Ohio on May 3, 1980. Her mother, Karen Jean McLeod, is a retired elementary school teacher and a native of Illinois. Allie’s father, Robert John McLeod, is a meteorologist for the National Weather Service. When Allie was three years old, her father’s work transferred the McLeod family to Columbia, MD. The family would relocate to Boise, Idaho for several years before eventually returning to Columbia. Back in Maryland, Allie attended Wilde Lake High School. At Wilde Lake, Allie participated on the school’s volleyball and lacrosse teams and was active in Students for a Better World. After high school Allie went on to study at Towson University in Maryland.

Nate was born in Appleton, Wisconsin on July 12, 1979. His mother, Vicki Lynn Kessler, is a minister at St. Paul United Church of Christ in Denver, Iowa, and his father, Kent Lee Sandstrom, is a professor at the University of Northern Iowa (UNI). Nate’s family relocated to Waterloo, Iowa when his father began working at UNI. Nate attended Cedar Falls High School and was active in baseball, band and the school newspaper. He attended Iowa State University and UNI and then moved to Maryland to complete his studies at Towson University.

It was at Towson University where the future bride and groom eventually met. The two young students belonged to the same circle of college friends, and after an initial period as good friends, the couple started dating. Their relationship blossomed and Allie and Nate became a couple. When Nate enrolled in graduate school at the University of Illinois Urbana Champaign in Redlands, among other activities, they were engaged on May 23, 2007, and the newlyweds will make their home in the Federal Hill neighborhood of Baltimore. Their many friends say Allie and Nate are very well suited for each other, and their families already consider each of them a member of the family.

Allie and Nate will be joined in their wedding celebration in Baltimore’s historic neighborhood of Mount Vernon by guests from across town and across the country. Family and friends are traveling from California, Illinois, Iowa, Wisconsin, New York, and South Carolina among others states. Special participants in the wedding ceremony will be Katharine Elizabeth McLeod, the bride’s maid of honor; Philip Sandstrom, the groom’s best man; and the other members of the wedding party: Tracey Bounds, Becky Dougherty, Kelly Neale, Lindsay Thomasson, Mark Goldman, Andrew McLeod, Patrick Newstrom, and Matt Schaffer.

When they take their wedding vows, Allie and Nate will have the added honor of having Nate’s mother, the Reverend Kessler, perform the ceremony.

Madam Speaker, I offer my best wishes to the McLeod and Sandstrom families, their friends and guests for a very happy and memorable celebration. To Allie and Nate, I offer the sentiment and gifts which George Bailey offered the Martini family as they moved into their new home in the classic film, It’s a Wonderful Life, “Bread! That their house may never know hunger. Salt! That life may always have flavor. And wine! That joy and prosperity may reign forever.” May you fulfill all that through your wonderful life together, Allie and Nate will always have an abundance of what St. Paul wrote of in his letter to the Corinthians, “faith, hope, and love; and the greatest of these is love.”

THANKING THE SKENTARIS FAMILY FOR THEIR SERVICE TO THE HOUSE
HON. SHELLEY BERKLEY
OF NEVADA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Ms. BERKLEY. Madam Speaker, I rise today to say farewell to the Skentaris Family, the operators of the food service in the Ford House Office Building, and to thank them for their many years of outstanding service to the United States House of Representatives.

Jordan Skentaris, the patriarch of the family business, came to the United States through Ellis Island from Greece on April 17, 1955. Jordan began his food service career in New York City and eventually settled in Fayetteville, North Carolina, where his family operated restaurants for 30 years. In January 1993, Jordan, his lovely wife Soula, and their wonderful

CONGRESSIONAL RECORD — Extensions of Remarks E1637
children—daughter Artemis and son Christopher—began their service to the House in the Ford House Office Building. Their unwavering commitment to serve the needs of every customer to the fullest extent possible no matter who they are—and regardless of their political affiliation—has endeared them to Members, House staff, Capitol Police and visitors. This was particularly evident as the Skentaris family made sure their customers and employees were taken care of during 9/11 and anthrax. Since the Ford Building was closed for weeks following the anthrax attack, this was no easy task. Greg persevered and found a way to keep continuity of service without missing a beat to the customers and community they so value.

Many times we hear people say that Capitol Hill is a family. I would like to say that the Skentaris family has not only been part of the Capitol Hill family, they have become my family. Many of the customers who pass through the cafeteria daily are greeted by name. Jordan, Soula, Artemis and Christopher can be proud of the level of service they provide to their customers each and every day.

On behalf of the entire House community, we bid a fond farewell to the Skentaris family and extend our deepest appreciation for their dedication and outstanding contributions to the U.S. House of Representatives. We wish them much success in their future endeavor at the Voice of America where I, my staff and hundreds of others will follow them—not only for their delicious food, but for the warmth and considerate service they provide to all who enter. They will be sincerely missed.

THE DAILY 45: A HERO DIES TO SAVE OTHERS AS A GUNMAN ENTERS A CHURCH

HON. BOBBY L. RUSH
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 30, 2008

Mr. RUSH. Madam Speaker, the Department of Justice tells us that, everyday, 45 people are killed, and 70 people are wounded, are fatally shot in the U.S. Last weekend, the nation's attention was riveted by the shocking act of a gunman who felt comfortable walking into a church, on Sunday, and opening fire. This incident, at the Tennessee Valley Unitarian Universalist Church, was especially horrific because of the loss of life—two, to date—as well as the long-term scars it will leave on the children who were participating in a choral presentation for their families and friends.

As sometimes happens in these incidents, there was a hero involved who martyred himself to protect his flock. Such was the case this time, as the church minister told police that 60-year-old Greg McKendry, without blinking an eye, saw what was happening and, literally, placed his body in the line of fire. I extend a heartfelt prayer to the church community, Mr. McKendry's family and the other victims whose sense of peace was violated.

Americans of conscience must come together to stop the senseless death of "The Daily 45." When will we say "enough, stop the killing!"
Mr. Snow enlisted in the U.S. Army in 1944, in New Orleans. His enlistment helped fill a need for black soldiers to fill segregated units to be shipped to Japan. As Snow packed to get ready to be shipped out, a fight broke out between a large number of black soldiers and Italian POWs.

Only two attorneys were appointed. They had just two weeks to prepare a defense and no access to key evidence. After the Army’s longest court martial of World War II, 28 soldiers were convicted—and it was all wrong. 13 acquitted and charges against two others were dropped.

He spent a year in confinement. This was the largest court martial during the war, and the only time blacks were tried for alleged lynching. Mr. Snow was issued an ultimatum: Go to prison or receive a dishonorable discharge.

Last October, the Army overturned those convictions after Seattle author Jack Hamann’s investigation proved the soldiers were unjustly tried in his book “On American Soil.” The convictions were all set aside. On Saturday, July 26, the Army officially apologized in a ceremony at Fort Lawton in Seattle in front of family and friends of 28 of the soldiers. Only 2 of them are still alive and Sam Snow was determined to attend the ceremony.

Mr. Snow travelled to Seattle from Florida and was admitted to a Seattle hospital Friday night. He smiled when his son Ray read the honorable discharge petition to him following the Saturday ceremony. At 12:45 a.m. Sunday, Samuel Snow died of congestive heart failure.

His son, Ray Snow, who traveled with him to Seattle, said “Getting that honorable discharge was more important than his health.”

Sam Snow, on a previous visit to Fort Lawton, said that “we hope this never happens again and I am proud to be an American.”

Samuel Snow was a speaker at my Veterans Braintrust at the Congressional Black Caucus Annual Legislative Conference this past September. His is very moving story and I am proud to be an American.

He was survived by his loving wife, Margaret Snow; son, Ray; grandchildren, Maurice Snow, Denisse N. Norwood, Marvin J. and Ray L. Snow; and three great-grandchildren.

EARMARK DECLARATION

HON. THELMA D. DRAKE
OF VIRGINIA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 31, 2008

Mrs. DRAKE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information for publication in the Congressional Record regarding earmarks I received as part of H.R. 6599, the Military Construction and Veterans Affairs Appropriations Act for Fiscal Year 2009.

Project Name: Fire and Emergency Services Station
Requesting Member: Representative THELMA DRAKE
Bill Number: H.R. 6599
Account: Military Construction, Navy
Legal Name of Requesting Entity: Representative THELMA DRAKE

Address of Requesting Entity: Naval Station Norfolk, VA, USA
Description of Request: Accelerate funding of $9,960,000 for a Fire and Emergency Services station located at Naval Station Norfolk, Virginia.

EARMARK DECLARATION

HON. MICHAEL N. CASTLE
OF DELAWARE
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 31, 2008

Mr. CASTLE. Madam Speaker, I submit the following:

Name of Project: Physical Fitness Center
Requesting Member: Congressman MICHAEL N. CASTLE
Bill Number: H.R. 6599
Legal Name of Requesting Entity: Dover Air Force Base
Address of Requesting Entity: Dover, DE
Project Description: The existing fitness center at Dover AFB is not large enough to accommodate the needs of all personnel in sports, wellness, and fitness programs. A new facility is necessary to meet the Air Force's new requirements and emphasis on physical fitness, health, and wellness. The existing facility is insufficient to accommodate year-round use necessary for mission readiness. The new facility will provide for an additional gymnasium and fitness rooms, as well as incorporating a Health and Wellness Center. The project has been included in the President's FY09 Budget Request.

EARMARK DECLARATION

HON. TOM LATHAM
OF IOWA
IN THE HOUSE OF REPRESENTATIVES
Thursday, July 31, 2008

Mr. LATHAM. Madam Speaker, I rise today to recognize the Humboldt County Fair on its 150th year anniversary this year, recognized from July 23 to July 27, 2008. The Humboldt County Fair is located in Dakota City, Iowa and serves the approximate 10,000 residents of the county in North Central Iowa.

In 1858, the 300 people living in Humboldt County wanted to get together for a social event offering opportunities to display prize produce and compete at the skills of farming. The first Humboldt County Fair was held in Dakota City on October 5, 1858. The best livestock and agricultural products of the county were on display, showcasing the pride and competitive spirit of America as well as prospects for future agricultural prosperity.

The town of Spring Grove is larger than Dakota City, attempted to relocate the fair in 1866. But Charles Berg, a prominent citizen, offered to donate 15 acres of land, furnish enough lumber to fence the entire tract, and dig a well if the fair was held in Dakota City. And so the fair remained in Dakota City.

The fair of 1912 was not a success, and there were fears that the end of the county fair was near. A group of Humboldt’s leading citizens organized the Humboldt Get-Together Club and met at MacNamara’s Drug Store to discuss the situation. They developed a plan to not only continue the fair but make it bigger and better.

Throughout the many years, the Humboldt County Fair has thrived and kept the county together with community fellowship, celebration and camaraderie. I congratulate the Humboldt County Fair on this historic anniversary. It is an honor to represent the past and current members of the county fair board in the United States Congress. I wish the Humboldt County Fair and Humboldt community an equally storied future.
EARMARK DECLARATION

HON. C.W. BILL YOUNG
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES

Thursday, July 31, 2008

Mr. YOUNG of Florida. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information for publication in the CONGRESSIONAL RECORD regarding earmarks I received as part of H.R. 6599, Military Construction and Veterans Affairs Appropriations Act for FY 2009.

Account: Military Construction, Army National Guard.

Legal Name of Requesting Entity: Florida Army National Guard.

Address of Requesting Entity: 400 S. Monroe Street, Tallahassee, Florida 32399.

Description of Request: Provide an earmark of $20,907,000 for construction of Phase IV of the Regional Training Institute (RTI), Project Number 120191, located at Camp Blanding, Starke, Florida 32091. It is my understanding that the Florida Army National Guard (FLARNG) and Army National Guard readiness will be affected if the school cannot adequately accomplish its mission to educate and train soldiers. This final phase will finish construction of the remaining 65,000 square feet of billeting, all remaining infrastructure, supporting facilities, and all necessary work not completed in the prior phases to support and house students attending the courses at the training institute.
Thursday, July 31, 2008

Daily Digest

HIGHLIGHTS

Senate agreed to the conference report to accompany H.R. 4040, Consumer Product Safety Improvement Act.

Senate agreed to the conference report to accompany H.R. 4137, College Opportunity and Affordability Act.

Senate agreed to H. Con. Res. 398, Adjournment Resolution.

Senate

Chamber Action

Routine Proceedings, pages S7805–S7982

Measures Introduced: Forty eight bills and seven resolutions were introduced, as follows: S. 3370–3417, and S. Res. 636–642. Pages S7903–05

Measures Reported:

S. 1193, to direct the Secretary of the Interior to take into trust 2 parcels of Federal land for the benefit of certain Indian Pueblos in the State of New Mexico. (S. Rept. No. 110–434)

H.J. Res. 62, to honor the achievements and contributions of Native Americans to the United States, with an amendment in the nature of a substitute. (S. Rept. No. 110–435)

S. Res. 620, designating the week of September 14–20, 2008, as National Polycystic Kidney Disease Awareness Week, to raise public awareness and understanding of polycystic kidney disease, and to foster understanding of the impact polycystic kidney disease has on patients and future generations of their families.

S. Res. 622, designating the week beginning September 7, 2008, as “National Historically Black Colleges and Universities Week”.

S. Res. 624, designating August 2008 as “National Truancy Prevention Month”. Page S7903

Measures Passed:

Pending Claims Against Libya: Senate passed S. 3370, to resolve pending claims against Libya by United States nationals. Pages S7979–81

Adjournment Resolution: By 48 yeas to 40 nays (Vote No. 196), Senate agreed to H. Con. Res. 398, providing for a conditional adjournment of the House of Representatives and a conditional recess or adjournment of the Senate. Page S7880

Production of Records: Senate agreed to S. Res. 642, to authorize the production of records by the Permanent Subcommittee on Investigations of the Committee on Homeland Security and Governmental Affairs. Page S7981

Measures Considered:

During consideration of this measure today, Senate also took the following action:

By 51 yeas to 39 nays (Vote No. 195), three-fifths of those Senators duly chosen and sworn, not having voted in the affirmative, Senate rejected the motion to close further debate on the motion to proceed to consideration of the bill. Pages S7879–80

Senator Reid entered a motion to reconsider the vote by which cloture was not invoked on the motion to proceed to consideration of the bill.

A unanimous-consent-time agreement was reached providing for further consideration of the motion to proceed to consideration of the bill at approximately 9:30 a.m., on Friday, August 1, 2008, with Senators permitted to speak for up to 10 minutes each. Page S7981
Conference Reports:

CPSC Reform Act: By 89 yeas to 3 nays (Vote No. 193), Senate agreed to the conference report to accompany H.R. 4040, to establish consumer product safety standards and other safety requirements for children’s products and to reauthorize and modernize the Consumer Product Safety Commission, clearing the measure for the President.

College Opportunity and Affordability Act: By 83 yeas to 8 nays, 1 responding present (Vote No. 194), Senate agreed to the conference report to accompany H.R. 4137, to amend and extend the Higher Education Act of 1965, clearing the measure for the President.

Appointments:

Commission on Wartime Contracting: The Chair, on behalf of the Vice President, pursuant to Public Law 110–181, appointed the following individual to the Commission on Wartime Contracting: Robert J. Henke of Virginia.

Nominations Received: Senate received the following nominations:

Deborah Hersman, of Virginia, to be a Member of the National Transportation Safety Board for a term expiring December 31, 2013.

Sung Y. Kim, of California, a Foreign Service Officer of Class One, for the rank of Ambassador during his tenure of service as Special Envoy for the Six Party Talks.

Anthony W. Ryan, of Massachusetts, to be an Under Secretary of the Treasury.

John J. Tharp, Jr., of Illinois, to be United States District Judge for the Northern District of Illinois.

J. Richard Barry, of Mississippi, to be United States District Judge for the Southern District of Mississippi.

Thomas Marcelle, of New York, to be United States District Judge for the Northern District of New York.

Gineen Bresso Beach, of Florida, to be a Member of the Election Assistance Commission for the remainder of the term expiring December 12, 2009.

Committee Meetings

NORTH KOREAN SIX-PARTY TALKS

Committee on Armed Services: Committee concluded open and closed hearings to examine the North Korean Six-Party Talks and implementation activities, after receiving testimony from Christopher R. Hill, Assistant Secretary of State for the Bureau of East Asian and Pacific Affairs; William H. Tobey, Deputy Administrator for Defense Nuclear Nonproliferation, National Nuclear Security Administration, Department of Energy; and Joseph R. DeTrani, Mission Manager for North Korea, and Vann H. Van Diepen, National Intelligence Officer for Weapons of Mass Destruction and Proliferation, both of the Office of the Director of National Intelligence.

NOMINATIONS

Committee on Armed Services: Committee ordered favorably reported the nominations of General Norton A. Schwartz, USAF for reappointment to the grade of general and, to be Chief of Staff, United States Air Force, and General Duncan J. McNabb, USAF for reappointment to the grade of general and, to be Commander, United States Transportation Command, and 519 nominations in the Army, Navy, Air Force, and Marine Corps, all of the Department of Defense.

NATION’S TRANSMISSION GRID

Committee on Energy and Natural Resources: Committee concluded a hearing to examine the state of the nation’s transmission grid, focusing on the implementation of the transmission provisions of the Energy Policy Act (Public Law 109–58), including reliability, siting, and infrastructure investment, after receiving testimony from Joseph T. Kelliher, Chairman, Federal Energy Regulatory Commission; Kevin...
M. Kolevar, Assistant Secretary of Energy for Electricity Delivery and Energy Reliability; Marsha H. Smith, Idaho Public Utilities Commission, Boise, on behalf of the National Association of Regulatory Utility Commissioners; James J. Hoecker, Working Group on Investment in Reliable and Economic Electric Systems (WIREs), Washington, D.C.; Colin Whitley, American Public Power Association, Wichita, Kansas; George C. Loehr, eLucem, Albuquerque, New Mexico; Terry Boston, PJM Interconnection, Norristown, Pennsylvania; and Susan Tomasky, American Electric Power, Columbus, Ohio.

BUSINESS MEETING

Committee on Environment and Public Works: Committee ordered favorably reported the following:

S. 906, to prohibit the sale, distribution, transfer, and export of elemental mercury, with an amendment in the nature of a substitute;

S. 3109, to amend the Solid Waste Disposal Act to direct the Administrator of the Environmental Protection Agency to establish a hazardous waste electronic manifest system;

S. 24, to amend the Safe Drinking Water Act to require a health advisory and monitoring of drinking water for perchlorate, with an amendment in the nature of a substitute;

S. 150, to amend the Safe Drinking Water Act to protect the health of pregnant women, fetuses, infants, and children by requiring a health advisory and drinking water standard for perchlorate, with an amendment in the nature of a substitute;

S. 1911, to amend the Safe Drinking Water Act to protect the health of susceptible populations, including pregnant women, infants, and children, by requiring a health advisory, drinking water standard, and reference concentration for trichloroethylene vapor intrusion;

S. 1933, to amend the Safe Drinking Water Act to provide grants to small public drinking water systems;

S. 2549, to require the Administrator of the Environmental Protection Agency to establish an Interagency Working Group on Environmental Justice to provide guidance to Federal agencies on the development of criteria for identifying disproportionately high and adverse human health or environmental effects on minority populations and low-income populations;

S. 642, to codify Executive Order 12898, relating to environmental justice, to require the Administrator of the Environmental Protection Agency to fully implement the recommendations of the Inspector General of the Agency and the Comptroller General of the United States;

S. 199, to amend the Safe Drinking Water Amendments of 1996 to modify the grant program to improve sanitation in rural and Native villages in the State of Alaska;

S. 2994, to amend the Federal Water Pollution Control Act to provide for the remediation of sediment contamination in areas of concern.

HEALTH BENEFITS

Committee on Finance: Committee concluded a hearing to examine health benefits in the tax code, focusing on government health expenditures and the increasing costs of health care plans, after receiving testimony from Edward D. Kleinbard, Chief of Staff, Joint Committee on Taxation, United States Congress; Jonathan Gruber, Massachusetts Institute of Technology, Cambridge; and Katherine Baicker, Harvard University School of Public Health, Boston, Massachusetts.

MILITARY ROLE IN FOREIGN POLICY

Committee on Foreign Relations: Committee concluded a hearing to examine ways to define the military's role relative to foreign policy, after receiving testimony from John D. Negroponte, Deputy Secretary of State; Eric Edelman, Under Secretary of Defense for Policy; George Rupp, International Rescue Committee, New York, New York; and Reuben E. Brigety, II, Center for American Progress, Robert M. Perito, United States Institute of Peace, and Mary Locke, all of Washington, D.C.

INFORMATION TECHNOLOGY

FOREIGN ASSISTANCE BUREAUCRACY

Committee on Homeland Security and Governmental Affairs: Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia concluded a hearing to examine the structures of the State Department responsible
for coordinating U.S. foreign assistance, processes in place for implementing foreign assistance policy, the responsiveness of the organizational structures to the executive branch’s foreign assistance policies, human capital issues, and any recommendations for improving the foreign assistance bureaucracy, after receiving testimony from Richard L. Greene, Deputy Director of U.S. Foreign Assistance, Department of State; Leo Hindery, Jr., Commission on Helping to Enhance the Livelihood of People Around the Globe, New York, New York; and Gordon Adams, American University School of International Service, Anne C. Richards, International Rescue Committee, Samuel A. Worthington, InterAction, and Gerald F. Hyman, Center for Strategic and International Studies, all of Washington, D.C.

SURVIVORS OF CATASTROPHES
Committee on Homeland Security and Governmental Affairs: Ad Hoc Subcommittee on Disaster Recovery concluded a joint hearing with the House Committee on Homeland Security Subcommittee on Emergency Communications, Preparedness to examine ways to ensure the delivery of donated goods to survivors of catastrophes, after receiving testimony from William Eric Smith, Assistant Administrator, Logistics Management Directorate, and Carlos J. Castillo, Assistant Administrator, Disaster Assistance Directorate, both of the Federal Emergency Management Agency, Department of Homeland Security; Barney L. Brasseux, Deputy Commissioner, Federal Acquisition Service, General Services Administration; Paul Rainwater, Louisiana Recovery Authorization, Baton Rouge; Bill Stallworth, East Biloxi Coordination and Relief Center, Biloxi, Mississippi; Valerie Keller, Outreach Center, Lafayette, Louisiana; and Oliver R. Davidson, Humane Society of the United States, Arlington, Virginia.

INDIAN HEALTH SERVICE MANAGEMENT
Committee on Indian Affairs: Committee concluded an oversight hearing to examine the management of the Indian Health Service, focusing on lost property, wasteful spending and document fabrication, after receiving testimony from Gregory D. Kurtz, Managing Director, Forensic Audits and Special Investigations, Government Accountability Office; and Robert G. McSwain, Director, and Fernand R. Verrier, former Deputy Director of the Office of Finance and Accounting, and Chief Financial Officer, both of the Indian Health Service, Department of Health and Human Services.

BUSINESS MEETING
Committee on Indian Affairs: Committee ordered favorably reported the following:

S. 952, to amend the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 to provide funds for training in tribal leadership, management, and policy; and

S. 3192, to amend the Act of August 9, 1955, to authorize the Cow Creek Band of Umpqua Tribe of Indians, the Coquille Indian Tribe, and the Confederated Tribes of the Siletz Indians of Oregon to obtain 99-year lease authority for trust land, with an amendment in the nature of a substitute.

BUSINESS MEETING
Committee on the Judiciary: Committee ordered favorably reported the following:

S. 3155, to reauthorize and improve the Juvenile Justice and Delinquency Prevention Act of 1974, with amendments;

S. 3061, to authorize appropriations for fiscal years 2008 through 2011 for the Trafficking Victims Protection Act of 2000, to enhance measures to combat trafficking in persons, with an amendment;

S. Res. 620, designating the week of September 14–20, 2008, as National Polycystic Kidney Disease Awareness Week, to raise public awareness and understanding of polycystic kidney disease, and to foster understanding of the impact polycystic kidney disease has on patients and future generations of their families;

S. Res. 622, designating the week beginning September 7, 2008, as “National Historically Black Colleges and Universities Week”; and

S. Res. 624, designating August 2008 as “National Truancy Prevention Month”.

PENNSYLVANIA HEALTH INSURANCE INDUSTRY
INTELLIGENCE
Select Committee on Intelligence: Committee held closed hearings on intelligence matters, receiving testimony from officials of the intelligence community.
Committee recessed subject to call.

HEALTH CARE
Special Committee on Aging: Committee concluded a hearing to examine aging in rural areas of the United States, focusing on preserving elderly citizens' access to health care, after receiving testimony from John Hammarlund, Regional Administrator, Seattle and Chicago Regional Offices, Centers for Medicare and Medicaid, and Tom Morris, Associate Administrator, Office of Rural Health Policy, Health Resources and Services Administration, both of the Department of Health and Human Services; Margaret Davidson, National Association of Area Agencies on Aging (n4a), LeGrande, Oregon; Bill Finerfrock, National Association of Rural Health Clinics, Washington, D.C.; Scott Ekblad, Oregon Health and Science University, Portland; Dennis E. Burke, Good Shepherd Health Care System, Hermiston, Oregon; and Tim Size, Rural Wisconsin Health Cooperative, Sauk City.

---

House of Representatives

Chamber Action
Public Bills and Resolutions Introduced: 87 public bills, H.R. 6684–6771; and 23 resolutions, H. Con. Res. 400–408; and H. Res. 1394–1398, 1400–1408, were introduced. (See next issue.)

Additional Cosponsors: (See next issue.)

Reports Filed: Reports were filed today as follows:
H.R. 1907, to authorize the acquisition of land and interests in land from willing sellers to improve the conservation of, and to enhance the ecological values and functions of, coastal and estuarine areas to benefit both the environment and the economies of coastal communities, with an amendment (H. Rept. 110–811);
H.R. 2535, to direct the Secretary of the Interior to conduct a study on the feasibility and suitability of constructing a storage reservoir, outlet works, and a delivery system for the Tule River Indian Tribe of California to provide a water supply for domestic, municipal, industrial, and agricultural purposes (H. Rept. 110–812);
H.R. 3437, to authorize the Secretary of the Interior to carry out the Jackson Gulch rehabilitation project in the State of Colorado, with an amendment (H. Rept. 110–813);
H.R. 6041, to redesignate the Rio Grande American Canal in El Paso, Texas, as the “Travis C. Johnson Canal” (H. Rept. 110–814);
H.R. 5293, to approve the settlement of the water rights claims of the Shoshone-Paiute Tribes of the Duck Valley Reservation in Nevada, to require the Secretary of the Interior to carry out the settlement, with an amendment (H. Rept. 110–815); and

H. Res. 1399, providing for proceedings during the period from August 1, 2008, through September 4, 2008 (H. Rept. 110–816). (See next issue.)

Chaplain: The prayer was offered by the guest Chaplain, Rev. William H. Hild, Jr., First Baptist Church, Sarasota, Florida.

Journal: The House agreed to the Speaker’s approval of the Journal by a recorded vote of 223 ayes to 203 noes, Roll No. 545.

H. Res. 1389, the rule providing for consideration of the conference report, was agreed to by voice vote after agreeing to order the previous question.

Point of Personal Privilege: Representative Rangel rose to a point of personal privilege and was recognized.

Privileged Resolution: The House agreed to table H. Res. 1396, raising a question of the privileges of the House, by a recorded vote of 254 ayes to 138 noes with 34 voting “present”, Roll No. 546.

Order of Procedure: Agreed by unanimous consent that, during further proceedings today in the House and the Committee of the Whole, the Chair is authorized to reduce to two minutes the minimum time for electronic voting on any question that otherwise could be subjected to five-minute voting
under clause 8 or 9 of rule 20 or under clause 6 of rule 18.

Paycheck Fairness Act: The House passed H.R. 1338, to amend the Fair Labor Standards Act of 1938 to provide more effective remedies to victims of discrimination in the payment of wages on the basis of sex, by a recorded vote of 247 ayes to 178 noes, Roll No. 556. Pages H7637–42, H7676–77, H7678–H7704

Rejected the Price (GA) motion to recommit the bill to the Committee on Education and Labor with instructions to report the same back to the House promptly with amendments, by a recorded vote of 189 ayes to 236 noes, Roll No. 555. Pages H7701–03

Pursuant to the rule, the amendment in the nature of a substitute recommended by the Committee on Education and Labor now printed in the bill shall be considered as an original bill for the purpose of amendment under the five-minute rule.

Accepted:

Bean amendment (No. 1 printed in H. Rept. 110–807) that strikes Section 3(b), “Application of Provisions,” from the bill; Pages H7691

Flake amendment (No. 6 printed in H. Rept. 110–807) that prohibits the grant program created by the Paycheck Fairness Act from being used for Congressional earmarks; Pages H7697–98

Altmire amendment (No. 3 printed in H. Rept. 110–807) that delays the effective date of the bill by six months from the time of enactment. The amendment requires the Department of Labor to educate small businesses about what is required under law and assist them with compliance (by a recorded vote of 426 ayes to 1 no, Roll No. 552);

Pages H7695–96, H7699–H7700

Giffords amendment (No. 4 printed in H. Rept. 110–807) that clarifies that a plaintiff must show intent (malice or reckless indifference) to recover punitive damages (by a recorded vote of 397 ayes to 29 noes, Roll No. 553); and Pages H7696–97, H7700

Cazayoux amendment (No. 5 printed in H. Rept. 110–807) that clarifies that nothing in the Paycheck Fairness Act would affect the obligation of employers and employees to fully comply with all the applicable immigration laws (by a recorded vote of 410 ayes to 16 noes with 1 voting “present”, Roll No. 554). Pages H7697, H7700–01

Rejected:

Price (GA) amendment (No. 2 printed in H. Rept. 110–807) that would have directed the Secretary of Labor to study and report back to Congress within 90 days the effect of the Equal Pay Act amendments contained in the bill (section 3) on employers’ ability to recruit and hire employees regardless of gender; the effective date of these amendments would be delayed pending the Secretary’s re-

port. If the Secretary found that these amendments are likely to significantly hinder employers’ ability to hire and recruit employees regardless of gender, they would not go into effect (by a recorded vote of 188 ayes to 240 noes, Roll No. 551).

Pages H7693–95, H7698–99

Agreed that the Clerk be authorized to make technical and conforming changes to reflect the actions of the House.

Pages H7705

H. Res. 1388, the rule providing for consideration of the bill, was agreed to by a yea-and-nay vote of 229 yeas to 194 nays, Roll No. 548, after agreeing to order the previous question by a yea-and-nay vote of 232 yeas to 191 nays, Roll No. 547.

Pages H7676–77

Extensions of Remarks, as inserted in this issue

(House proceedings for today will be continued in the next issue of the Record.)

The Congressional Record (USPS 087-390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. ¶ Public access to the Congressional Record is available online through GPO Access, a service of the Government Printing Office, free of charge to the user. The online database is updated each day the Congressional Record is published. The database includes both text and graphics from the beginning of the 103d Congress, 2d session (January 1994) forward. It is available through GPO Access at www.gpo.gov/gpoaccess. Customers can also access this information with WAIS client software, via telnet at swais.access.gpo.gov, or dial-in using communications software and a modem at 202-512-1661. Questions or comments regarding this database or GPO Access can be directed to the GPO Access User Support Team at: E-Mail: gpoaccess@gpo.gov; Phone 1-888-293-6498 (toll-free), 202-512-1530 (D.C. area); Fax: 202-512-1262. The Team’s hours of availability are Monday through Friday, 7:00 a.m. to 5:30 p.m., Eastern Standard Time, except Federal holidays. ¶ The Congressional Record paper and 24x microfiche edition will be furnished by mail to subscribers, free of postage, at the following prices: paper edition, $232.00 for six months, $463.00 per year; purchased as follows: less than 200 pages, $10.50; between 200 and 400 pages, $21.00; greater than 400 pages, $31.50; payable in advance; microfiche edition, $146.00 per year, or purchased for $3.00 per issue payable in advance. The semimonthly Congressional Record Index may be purchased for the same per issue prices. To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954, or phone orders to 866-512-1800 (toll free), 202-512-1800 (D.C. area), or fax to 202-512-2250. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. ¶ Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. ¶ With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.
