

the family's finances. After attending a church youth retreat, he worked to overcome some of his own poor personal choices and become a model of integrity for others.

Josh Teetsel, Lucas High School—Placed in a foster home after the death of his mother, Josh struggled to make the right choices in the face of pressure from friends. He has since turned his life around, earning the respect of his teachers and volunteering at the local fire department. Josh will soon enroll at Ohio's Hocking College.

Joseph (Joey) Bennett, Madison Comprehensive High School—Coping with hearing and vision impairments and enduring several open-heart surgeries before age 2, Joey is an inspiration to everyone at his school, where he is an eager volunteer at sporting and other extracurricular activities. He recently completed Madison's auto tech training program.

Ian Kent, Mansfield Christian High School—Various sleep disorders and other medical problems have slowed Ian's academic work, but he continues to persevere in his home studies. He enjoys volunteering at his church and at Mansfield's Kingwood Center, and looks forward to attending North Central State College.

Leona Smith, Mansfield Senior High School—In just the last year, Leona has suffered from three collapsed lungs requiring surgery. Despite these setbacks, she has maintained a 3.6 grade point average in college prep courses and is on course to graduate a year early—all while working two jobs to support herself financially.

Brandon O'Brian, Ontario High School—Brandon's positive attitude in working to overcome a cognitive disability is a model for his fellow students. In addition to his studies at Pioneer Career and Technology Center, he is an active member of the Mansfield Police Department's Explorer Post and works part-time at Ontario's Skyway Restaurant.

HONORING TRAVIS HOGLE

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Travis Hogle a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 66, and in earning the most prestigious award of Eagle Scout.

Travis has been very active with his troop participating in many scout activities. Over the many years Travis has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Travis Hogle for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

RECOGNIZING CRAY HENRY AS A
2009 SERVICE TO AMERICA
MEDAL FINALIST

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the tremendous contributions of Cray Henry, of Annandale, Va., to our nation and specifically to improving the safety of our deployed military personnel. Mr. Henry, as director of the High Performance Computing Modernization Program, led the effort to provide supercomputer support allowing the Department of Defense to improve body and vehicle armor for troops in the field. The work of his team also helped enhance overall military performance and saved billions of taxpayer dollars. In recognition of those achievements, Mr. Henry and his team have been named finalists for the 2009 Service to America Medal for National Security and International Affairs.

As my colleagues know, the Service to America Medals, or Sammies as they are more commonly known, are presented annually by the nonprofit, nonpartisan Partnership for Public Service to celebrate our dedicated federal workforce, highlighting their commitment and innovation, as well as the impact of their work on addressing the needs of the nation.

The state-of-the-art supercomputing environment created by the High Performance Computing Modernization Program team, led by Mr. Henry, enabled DoD scientists and engineers to design and test innovative materials and weapons systems.

For example, the team helped speed the development and rapid deployment of the Hellfire missile that has been used to neutralize terrorists in buildings, bunkers and caves.

The team also was tapped to help the soldiers in Iraq, providing resources for complex modeling and simulations to develop new armor kits for Humvees to better adapt and protect against improvised explosive devices (IEDs) that were killing and wounding American soldiers.

In addition to its field applications, the supercomputing team has brought advances in weather forecasting to allow the U.S. Navy and Air Force to provide more accurate, up-to-the-minute and long-range information to ground forces anywhere in the world, which is a great asset in helping commanders plan military operations. Applying this capability to aircraft flight planning, the DoD anticipates saving \$1 billion in fuel costs over 10 years.

The DoD's hurricane prediction models are so accurate that the National Hurricane Center is now using them together with other models to predict hurricane paths. The team's modeling also has been a tremendous resource in rebuilding the levees in New Orleans in the wake of Hurricane Katrina.

I ask my colleagues to join me in thanking Mr. Henry and his team for their tremendous contribution to protecting our troops and improving our national preparedness. His 27 years of public service and his drive for innovation serve as an example to us all, and his recognition as finalists for the 2009 Service to America Medal for Homeland Security is well deserved.

TEACHER APPRECIATION WEEK

HON. DEBBIE WASSERMAN SCHULTZ

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Ms. WASSERMAN SCHULTZ. Madam Speaker, today I rise to recognize the more than 40,000 teachers from Broward and Miami-Dade Counties during National Teacher Appreciation Week, taking place this year from May 3 through May 9, 2009.

This week all across America, our Nation's schoolchildren, their parents, PTAs and others are gathering to show their appreciation for the professional educators who work every day to make their futures brighter. Teacher Appreciation Week is a great opportunity to stop and pay tribute to the profession that shapes the world of tomorrow. Madam Speaker, it gives me great pleasure to recognize the lasting contributions that these men and women make to the lives of thousands of students in South Florida.

Today, I am pleased to commend the efforts of two special teachers in my district: Tony Dutra, a reading teacher from the Hallandale Community Center in Hallandale, Florida, teaches Extraordinary Student Education. When he was a student Mr. Dutra was learning disabled so he understands the challenges his student go through on a daily basis. Mr. Dutra was named Broward County's public school teacher of the year.

Patricia Fairclough, a second grade teacher from Airbase Elementary School in Homestead, Florida, was Miami-Dade County's public school teacher of the year. As a first-grader, Patricia struggled in class, but she was inspired by a caring teacher and now she is helping other children who need a little extra tough love.

I hope that you will all join me in thanking Mr. Dutra and Ms. Fairclough and all of our nation's teachers for everything they do each and every day to encourage, instruct and guide our students. All of America's teachers deserve more than a week of recognition for their investment in our country's most precious resource, our children.

Too often teachers are overworked and underpaid. They spend long hours in the classroom, many hours after the school day coaching our kids and leading their extracurricular groups, and then go home to spend more time grading papers.

Teachers invest their own lives in the lives of our children, and every day they empower young people with the knowledge and tools needed to be successful and confident. America's future is in the hands of our children and we owe our teachers a universe of thanks for their hard work.

ELIZABETH PORRAS

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize and applaud Elizabeth Porras who has received the Arvada Wheat Ridge Service Ambassadors for Youth award. Elizabeth Porras is a senior at Jefferson High

School and received this award because her determination and hard work have allowed her to overcome adversities.

The dedication demonstrated by Elizabeth Porras is exemplary of the type of achievement that can be attained with hard work and perseverance. It is essential that students at all levels strive to make the most of their education and develop a work ethic that will guide them for the rest of their lives.

I extend my deepest congratulations once again to Elizabeth Porras for winning the Arvada Wheat Ridge Service Ambassadors for Youth award. I have no doubt she will exhibit the same dedication she has shown in her academic career to her future accomplishments.

HONORING THE LIFE AND SERVICES OF MICHAEL AND MARIAN ILITCH, UPON THE 50TH ANNIVERSARY OF THE FOUNDING OF LITTLE CAESARS

HON. THADDEUS G. McCOTTER

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. McCOTTER. Madam Speaker, today I rise to honor and acknowledge Michael and Marian Ilitch, entrepreneurs and pillars of the Michigan community, upon the 50th anniversary of the founding of Little Caesars.

On May 8, 1959, fifty years ago, Mike and Marian opened the first Little Caesars in Garden City, Michigan, under the name Little Caesars Pizza Treat. From this one store, Little Caesars would grow to include a pizza empire of many thousands of restaurants through franchising. The company eventually became widely known for its famous catchphrase, "Pizza! Pizza!" which was introduced in 1979. The phrase refers to two pizzas being offered for the comparable price of a single pizza from competitors. In 1998, Little Caesars filled what was then the current largest pizza order, filling an order of 13,386 pizzas from the VF Corporation of Greensboro, NC. Today, Little Caesars is the largest carry-out pizza chain in the world.

Mike was born in Detroit, Michigan in 1929. He is a first generation American of Macedonian descent. A graduate of Cooley High School, Mike also served his country in the United States Marine Corps for four years. After returning home from the Marine Corps, Mike was offered a contract by the Detroit Tigers baseball team and went on to play three years in the minor leagues before he was forced to prematurely end his promising career due to injury. In 1954 Mike met Marian on a blind date arranged by his father. Marian was born and raised in Dearborn, Michigan, a daughter of Macedonian immigrants. They were married a year later.

Over the course of their lives together Mike and Marian have expanded their business and personal partnership very successfully. Today, the family's entities remain privately held. In 1999, the Ilitches established Ilitch Holdings, Inc. to provide their various enterprises with professional and technical services. These enterprises include Little Caesars, the Detroit Red Wings, the Detroit Tigers, numerous property investments in and around Detroit, as well as the MotorCity Casino. They have been

married for over 50 wonderful years and have seven children together: son Christopher Paul Ilitch (born June 1965) is CEO and President of Ilitch Holdings, Inc.; daughter Denise D. Ilitch (born November 1955) is an attorney and former co-President, with her brother, of Ilitch Holdings. Other children are Ronald "Ron" Tyrus Ilitch (born June 1957), Michael C. Ilitch, Jr., Lisa M. Ilitch Murray, Atanas Ilitch (born Thomas Ilitch) and Carole M. Ilitch Trepeck. Further, in Stanley Cup history, only 12 women have had their names engraved on the trophy including Marian and their three daughters.

The Ilitch family has also established a charitable foundation called Ilitch Charities for Children (ICC). Among other things, the ICC sponsors Little Caesars AAA Hockey Scholarship to encourage amateur sports. The ICC in 2009, so far, has given a total of \$50,000 in grants to the Detroit Renaissance Foundation (\$25,000) and the United Way of Southeastern Michigan (\$25,000) for innovative community programs, demonstrating a broader scope for the charitable organization. Most recently, Ilitch Charities presented a total of \$200,000 to benefit the Greening of Detroit's Conservation Leadership Corps and the Guidance Center's Project CEO.

Madam Speaker for 50 years Little Caesars has stood as a tribute to the hard work of Michael and Marian Ilitch and their family. As they celebrate this enormous milestone, they personify a legacy of excellence, ingenuity, and the irrepressible spirit of the American entrepreneur. Today, I ask my colleagues to join me in congratulating the Ilitches and recognizing their years of loyal service to our community and country.

GABBY RIVERA

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize and applaud Gabby Rivera who has received the Arvada Wheat Ridge Service Ambassadors for Youth award. Gabby Rivera is an 8th grader at Arvada Middle School and received this award because her determination and hard work have allowed her to overcome adversities.

The dedication demonstrated by Gabby Rivera is exemplary of the type of achievement that can be attained with hard work and perseverance. It is essential that students at all levels strive to make the most of their education and develop a work ethic that will guide them for the rest of their lives.

I extend my deepest congratulations once again to Gabby Rivera for winning the Arvada Wheat Ridge Service Ambassadors for Youth award. I have no doubt she will exhibit the same dedication she has shown in her academic career to her future accomplishments.

RECOGNIZING SEAN P. DENNEHY AS A 2009 SERVICE TO AMERICA MEDAL FINALIST

HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 6, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize the tremendous contributions of Sean P. Dennehy, of Vienna, Va., to our nation and specifically to our intelligence community. Mr. Dennehy and his colleague Don Burke, of Alexandria, Va., led an innovative effort to create a sensitive-information sharing system for the Central Intelligence Agency. In recognition of that achievement, they have been named finalists for the 2009 Service to America Medal for Homeland Security.

As my colleagues know, the Service to America Medals, or Sammies as they are more commonly known, are presented annually by the nonprofit, nonpartisan Partnership for Public Service to celebrate our dedicated federal workforce, highlighting their commitment and innovation, as well as the impact of their work on addressing the needs of the nation.

Mr. Dennehy and Mr. Burke developed and implemented a Wikipedia-like clearinghouse of sensitive intelligence information known as "Intellipedia." The intelligence community has traditionally discouraged the wide sharing of intelligence for fear of compromising classified information, but the downsides of that strategy became apparent to us all after learning of how intelligence agencies failed to "connect the dots" in the months leading up to the September 11 attacks.

The pair spent four years developing the software, cobbling together financing and trying to overcome cultural resistance, but their persistence and dedication paid off.

Eric Haseltine, former chief technology officer of the intelligence community, said, "It's hard to overstate what they did. They made a major transformation almost overnight with no money after other programs failed to achieve these results with millions of dollars in funding."

Once they successfully created the web-based platform for sharing information, Mr. Dennehy and Mr. Burke then shifted their focus to recruiting their colleagues in the intelligence community to actually use it. They became "evangelists," educating analysts and spreading the word about the potential benefits of Intellipedia and other social media tools. The system now boasts more than 900,000 pages and 100,000 user accounts. In fact, leaders in the intelligence community say we are reacting more quickly and more intelligently to potential threats than we would be without Intellipedia.

This initiative has increased the flow of information among the nation's 16 intelligence agencies around the world, and it is still working to break down institutional stovepipes.

I ask my colleagues to join me in thanking Mr. Dennehy and Mr. Burke for their tremendous contribution to our national security. Their commitment to public service and innovation serve as an example to us all, and their recognition as finalists for the 2009 Service to America Medal for Homeland Security is well deserved.
