

family to Calcutta, where they remained unsettled for many years. His father passed away just before he graduated from R.G. Kar Medical College in 1956. To support his family, he took the job of medical officer at the IISCO Hospital at Burnpur. In 1963, Dr. Chatterjee left India for the United Kingdom to further his studies. In 1971, he was recruited to direct the inpatient cardiology service at Cedars-Sinai Medical Center in Los Angeles. Dr. Chatterjee joined the UCSF Medical Center staff in 1975 as director of the cardiac care unit and associate chief of cardiology, where he became the Ernest Gallo Distinguished Professor of Medicine in the division of cardiology.

A beloved physician, teacher, and researcher, Dr. Chatterjee has worked tirelessly over the last 30-plus years in the fields of diagnosing and managing coronary artery disease, heart failure, and pulmonary hypertension. He is also a world-renowned researcher in vascular reactivity and heart failure and has pioneered the study of drugs, such as ACE inhibitors and vasodilators, that have become the standard of care for heart failure. With such a long-standing list of professional accomplishments, it is all the more touching to hear Dr. Chatterjee's patients speak with genuine gratitude and heartfelt emotion about his expertise and compassion.

As Dr. Chatterjee prepares to move on to his new half-time position at the University of Iowa in Iowa City, I wish him many more years of continued leadership and success in the field of cardiology.

I commend Dr. Chatterjee for his 34 years of dedicated service to the UCSF Medical Center community. Along with his friends and admirers throughout the San Francisco Bay area, I thank him for his tireless efforts and wish him the best as he embarks on the next phase of his remarkable life.●

#### REMEMBERING ALEX DEL RIO

● Mr. MARTINEZ. Mr. President, every day, law enforcement officers across the Nation make tremendous sacrifices to fight crime and keep our communities safe. On November 22, 2008, one of those officers tragically lost his life while serving in the line of duty. The officer was 31-year-old Alex Del Rio, a Florida native, a loving son, and an outstanding member of the Hollywood, FL, police department.

Although Alex's life ended just 2 months short of his 32nd birthday, he lived his life to the fullest. He was born in Miami and attended Winston Park Elementary in Miami and McMillian Middle School in Kendall. At the MAST Academy High School in Miami, Alex was a tremendous student, a member of the JROTC Color Guard, and known by his friends as someone who always did the right thing.

After joining the Hollywood Police Department in 1996, Alex began his career as a part-time community service

aide and earned a full-time position on the force in 1999. He held positions in patrol, special operations motors and special operations for DUI traffic homicide. He was named Hollywood Police Department's "Officer of the Month" in October of 2003 and a finalist for the 2003 "Officer of the Year." His colleagues knew him for his sense of humor, his likability, and his love for the job.

Alex's mother Miriam Fernandez has turned her personal tragedy into opportunities for others by establishing the Alex Del Rio Foundation. The foundation aims to enrich the lives of children in south Florida by providing scholarships and promoting the ideals Alex embodied.

His commitment to serving others has touched not only those in Hollywood but also those who work in law enforcement in other States. Officer James E. Manley from the town of Lloyd, NY, was so inspired by Alex's story that he has decided to ride more than 300 miles to be here in Washington in Alex's honor. Officer Manley will join Alex's family and others this week in a candlelight vigil and memorial service for fallen officers at the National Law Enforcement Memorial. I join them in honoring Alex and the many other men and women of our nation's law enforcement agencies who have given their lives protecting and serving our communities.●

#### HONORING JOHN T. NOBLE TRUCKING

● Ms. SNOWE. Mr. President, later this month, we will pause to commemorate those men and women who have given the ultimate sacrifice to defend our Nation and the freedoms we enjoy. On Memorial Day, families of our fallen members of the Armed Forces visit the graves of their loved ones throughout our Nation, often at veteran's cemeteries, to remember our fallen heroes. I rise today with tremendous gratitude to recognize the generosity of two Mainers, John and Joyce Noble, and their business, John T. Noble Trucking, for their dedicated efforts in supporting the creation of the Northern Maine Veteran's Cemetery as a place of rest for thousands of Maine's bravest.

John T. Noble Trucking, a thriving business since 1957, is located in the Aroostook county city of Caribou. A multifaceted company, Noble Trucking provides its customers with a wide variety of services, including landscaping services, commercial deliveries of fuel products as well as truck maintenance, welding, painting, and body repair.

Mr. and Mrs. Noble are well known in the Caribou community for their philanthropic initiatives. The Nobles have donated to countless causes within their community, and in characteristic Aroostook County fashion, have made many of these donations on the condition of anonymity. Organizations like the Caribou Recreation Department, the Northern Maine Fairgrounds, Cary

Medical Center, The Christopher Home and the Caribou Historical Society are just a few of the many grateful County charities that have benefitted immensely from the Nobles' friendship and contributions. Perhaps their most notable work has been their advocacy and determination on behalf of the Northern Maine Veteran's Cemetery in Caribou.

The idea for Maine's northernmost veterans cemetery was first proposed in 1998. After serious study that found overwhelming support among the community, the initial approval was given by the governor in February 1999. In the spring of that year, the Northern Maine Veterans Commemorative Cemetery Corporation was formed to oversee all aspects of the cemetery's development.

John Noble, an honorably discharged veteran himself and his wife Joyce, who also admirably supported her husband's service to our country with stalwart dedication, certainly felt a particular kinship to the development of an appropriate resting place for our national heroes. In order to ensure that the dream of so many veterans became a reality, John and Joyce Noble stepped forward to offer 33.4 acres of their own land for use by the Corporation. Their heartfelt contribution expedited the plans for the Northern Maine Veteran's Cemetery and the seeds of charitable giving had taken root, facilitating a grassroots effort that culminated in what is today a regal and honored resting place for our most deserving men and women who served this country with honor and distinction.

The Nobles' ongoing efforts inspired a can-do spirit that sparked a dedicated group of volunteers into determined action. With the cemetery facing a delay in state funding, the Nobles offered to help with the construction and maintenance of the cemetery's lands until the funds became available. Additionally, the Nobles helped make the cemetery more private and solemn by planting trees around its perimeter. When the cemetery was finally dedicated on June 1, 2003, the Nobles had left a substantial mark on this sacred place and continue to support it today.

An extraordinarily modest couple, John and Joyce Noble have made significant contributions to the appearance and well-being of Caribou. Their beautiful gesture of kindness resulted in a respectable final resting place for those who gave our Nation the fullest measure of commitment. It is their selfless spirit and magnanimous nature that have made them stand out in the Caribou community for years. I thank Mr. and Mrs. Noble for their incredible generosity, and wish them and their company, John T. Noble Trucking, much success for years to come.●

#### MESSAGE FROM THE HOUSE

At 5:01 p.m., a message from the House of Representatives, delivered by
